

Voters Approve Record Bond Program

All 11 Issues On Ballot Get Wide Margins

City of Midland voters—at least 1,112 of them—approved the issuing of \$5,290,000 in bonds to finance a variety of municipal improvements in a special election held Saturday. It was the largest bond issue proposal in Midland's history.

Each of the 11 proposals listed on the ballot carried by a substantial margin, ranging from as high as four to one to as low as slightly

divided into eight general phases, the three-year improvement program calls for development of additional water supplies and improvement of the water and sewer systems; construction of a new suburban fire station; development of parks and playgrounds; construction of public safety building to house a city jail, police headquarters and central fire station; constructing and equipping new municipal garage and storage buildings; remodeling of City Hall; extension of M Street storm sewer, and additional street paving.

Water Issue Most Popular The water and sewer proposals proved to be the most popular, while the City Hall remodeling was the least popular. Street paving, suburban fire station and park propositions also were favored heavily.

Unofficial tabulation of votes on the 11 ballot propositions was as follows:

- Proposition No. 1 — \$1,000,000 water system revenue bonds: For 888; Against 328.
Proposition No. 2 — \$440,000 sewer system revenue bonds: For 855; Against 314.
Proposition No. 3 — \$775,000 general obligation water system bonds: For 622; Against 592.
Proposition No. 4 — \$225,000 general obligation sewer system bonds: For 671; Against 526.
Proposition No. 5 — \$400,000 general obligation street improvement bonds: For 725; Against 597.
Proposition No. 6 — \$50,000 general obligation suburban fire station bonds: For 624; Against 594.
Proposition No. 7 — \$215,000 general obligation park bonds: For 737; Against 348.
Proposition No. 8 — \$460,000 general obligation central fire station and police building bonds: For 719; Against 351.
Proposition No. 9 — \$110,000 general obligation equipment-storage and garage building bonds: For 723; Against 380.
Proposition No. 10 — \$20,000 general obligation City Hall improvement bonds: For 705; Against 402.
Proposition No. 11 — \$100,000 general obligation storm sewer bonds: For 770; Against 394.
Precinct 1 (Northeast Midland) reported a total of 235 votes; Precinct 5 (Southeast Midland) 115 votes; Precinct 6 (Southwest Midland) 211 votes; and Precinct 7 (Northwest Midland) 561 votes.

Florida Newspaper Supports Stevenson

ST. PETERSBURG, Fla. —(P)—The St. Petersburg Times Saturday endorsed Gov. Adlai Stevenson, the Democratic nominee, for President.

It is the first large city daily newspaper in Florida to back him.

Feuding Demos Go To Court; Sealy Calls Pro-Ike Meeting

AUSTIN —(P)—Feuding Texas Democrats went to court Saturday to decide whether Republican Dwight Eisenhower gets on the Texas ballot as a Democratic presidential nominee.

Backers of Adlai Stevenson, the national Democratic hopeful, won a quick but indecisive first-round victory when a district judge issued a temporary restraining order to keep the new, pro-Eisenhower Texas Democratic Party off the ballot.

The Stevenson lawyers said the new party is trying to steal the "Democratic" name.

District Judge J. A. C. Roberts granted the order, which keeps Secretary of State Jack Ross from certifying the new party and its candidates until the judge hears arguments Tuesday and reaches a decision.

Attorneys filed the suit on behalf of Stevenson and his running mate, John Sparkman, Saturday morning after telephone conferences through Friday and Friday night with House Speaker Sam Rayburn, national Democratic Chairman Stephen Mitchell and other pro-administration Democrats.

Another Eisenhower movement will be initiated in Austin.

Tom Sealy, Midland attorney, University of Texas regent and

close political friend of Governor Shivers, called a meeting for Tuesday morning to organize a "Texas Democrats for Eisenhower movement."

A meeting of pro-Stevenson Democrats also is scheduled in Austin next week but Rayburn has not announced the date.

Sealy sided with the governor at the State Democratic Convention

at Amarillo last Tuesday to insist Stevenson be certified as the nominee on the Democratic ticket. But Sealy said then he personally opposed Stevenson and would support Eisenhower.

The convention, by two-to-one majority, supported Shivers' demand that Stevenson be put on the ballot as the Democratic nominee as a matter of legal right and political morality.

However, the convention adopted a resolution urging Democrats to work for Eisenhower's election.

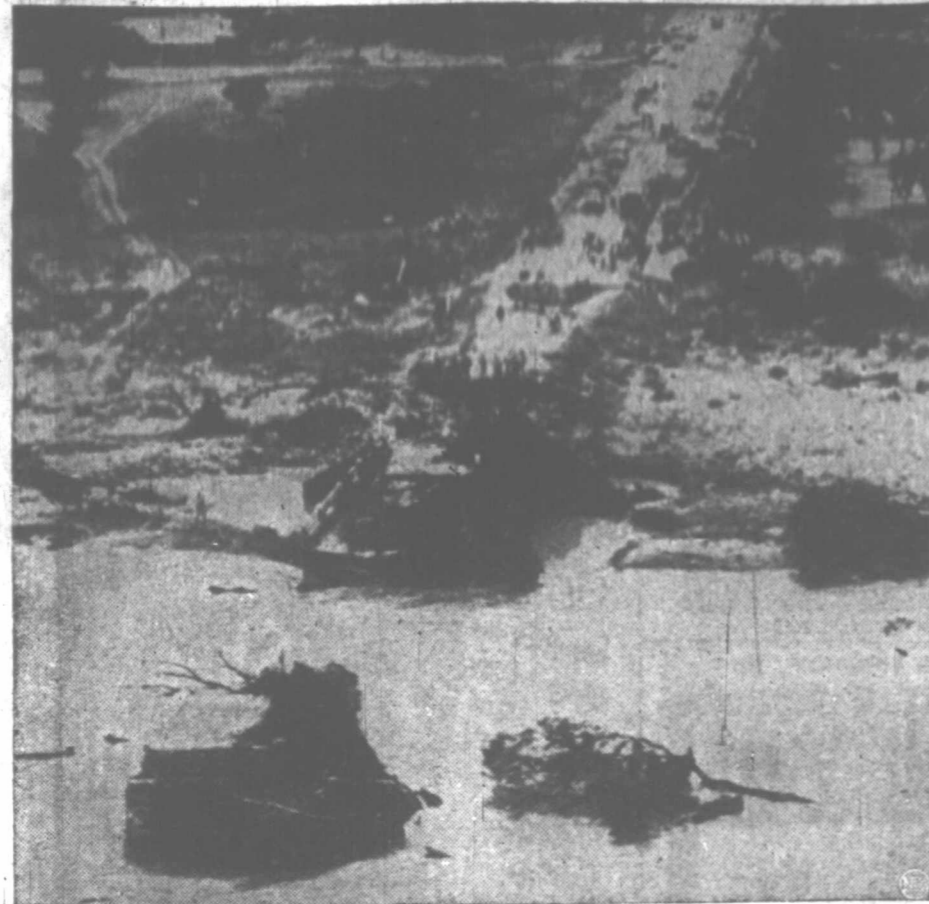

Following the convention's refusal to put Eisenhower on the ballot as a Democrat, a group of about 10 Dallas citizens met Wednesday in a private office and organized the "Texas Democratic Party."

They nominated Eisenhower and Nixon and filed their names and a slate of electors duplicating that of the Republican Party. They also cross-filed a full ticket of Democratic nominees for state-wide offices, including Shivers and U. S. senatorial candidate Price Daniel.

Allen Wight, Dallas, an organizer, said the strategy was to attract voters who want to remain Democrats but want to vote for Eisenhower.

Tom Sealy

(NEA Telephone)

FLOOD AFTERMATH—At least eight dead and \$10,800,000 in property damage resulted from South-Central Texas floods which were subsiding Saturday. Johnson City, its power lines swept away, had service restored when an Army helicopter, arrow, picked up the broken lines and transported them across the raging Pedernales River.

Texas Counts \$10,800,000 Flood Losses, Eight Deaths

By The Associated Press The Gulf of Mexico Saturday swallowed up the muddy left-over of floods that cost South Texas at least eight lives and \$10,800,000 in three days.

Army engineers estimated the cost in dollars while crews on the Guadalupe and Colorado Rivers still were chasing cattle from lowlands in their paths to the sea.

The body of Edgar A. Kneupper, 38, was found shortly after noon Saturday in shallow water in the

Guadalupe River near Schumannville, about six miles south of New Braunfels. It was wedged under a rock.

Kneupper, a Clear Springs fishing camp operator, last was seen Thursday in a boat near Clear Springs trying to retrieve floating furniture. His boat overturned while going over a dam and Kneupper was thrown into the water.

The sun shone on the grimy work of cleaning up mud-caked Hill Country towns and farms.

There was some good to be said of the cloudburst that measured up to 24 inches and sent rivers and creeks roaring from their banks. The rains broke the long and costly drought in the Hill Country. They filled lakes and stock tanks, revived pastures, raised the level in wells and soaked into underground reservoirs in Central Texas.

But the downpour and floods might have finished the destruction of cotton and corn crops started by long summer months of drought.

Col. R. R. Halleck, district engineer, estimated the cost in damaged property and interrupted travel, trade and communications at five million dollars in the Colorado watershed, where 74,000 acres were flooded. His figure for the Guadalupe watershed was \$5,800,000.

Crops Hit Hardest Most damage was to crops. But the floods drove hundreds from their homes and damaged many businesses.

The Guadalupe's flood crest posed a slight threat Saturday to Cuero, near the river's mouth. But there was no alarm—few Cuero residents live near the river and farmers moved livestock to safe ground.

Some highways still were closed by high water. State 218 south of Blanco and north of Johnson City will be out some time because of washed-out bridges. State 300 on both sides of Johnson City still was closed.

Miller Named Texas Demo Finance Chief

WASHINGTON —(P)—The Democratic National Committee Saturday announced Tom Miller, Austin, has been named finance director for Texas in the 1952 Democratic campaign.

A former mayor of Austin, Miller has been prominent in the Democratic Party in Texas 28 years.

He was finance director for Texas in the 1948 campaign.

Duane Hunter Dies Of Crash Injuries; Rites Here Monday

Duane Hunter, 16, son of Mr. and Mrs. G. F. Hunter, 701 North Dallas Street, died Friday night in a Phoenix, Ariz., hospital of injuries suffered in an automobile accident August 25.

The youth, who was enroute to California, lost control of an automobile he was driving and struck a bridge. He suffered severe internal injuries.

A member of the First Baptist Church, he would have been a junior in Midland High School this year. The body is scheduled to arrive in Midland by train at 11:30 p.m. Sunday. Funeral services have been set at 2 p.m. Monday in the Newville W. Ellis Chapel. The Rev. Vernon Yearby, pastor of the First Baptist Church, will officiate. Interment will be in Fairview Cemetery.

Survivors include the parents; a sister, Barbara Hunter; a grandfather, Ed Peak of Girard, and an aunt, Mrs. Virginia Hedges of Midland.

Midland Has Two New Cases Of Polio

Two additional polio cases were reported last week in Midland County to boost to 22 the total reported during the year.

Dr. C. A. Pigford, director of the City-County Health Unit, said Saturday one of the victims had become ill two weeks ago but it was not reported until last week.

In that instance, four-year-old Janet Wiley, daughter of Mr. and Mrs. T. O. Wiley of Terminal, was taken to an Odessa hospital for treatment.

Stricken last week was three-year-old Robert James Cole, son of Mr. and Mrs. R. J. Cole, 908 Camp Street.

Man, Youth Drown In Gulf Undertow

BEAUMONT —(P)—John Richard Fluke, 57, and Wayne Gallo, 18, both of Beaumont, drowned in a heavy undertow at the Gulf Beach near High Island southwest of here Saturday.

Both were on an outing with a young people's group from the Lamar Pentecostal Church, Beaumont. Young Gallo, son of Mrs. J. E. Gallo, and Eddie Fluke, 11, step-grandson of Fluke, were crabbing when they stepped into a hole. The Fluke boy swam to safety, Fluke went to the Gallo lad's aid but both disappeared. Their bodies were found an hour later.

Rumors Hint Break Near In Alice Case

ALICE —(P)—A tense air of waiting settled Saturday over the investigation of the bungled assassination plot aimed at a South Texas political leader and a district judge. Silent Texas Rangers went about their duties expectantly as if a break in the case might be near.

Two men accused in the plot that went awry and proved fatal to Jake Floyd, Sr., last May in Wells County jail.

Officers awaited the arrest of Alfredo Cervantes, third person charged in the plot.

These other developments hung fire:

1. Filing of a new, detailed murder charge by District Attorney Homer Deas.

2. Acceptance by Spurgeon Bell of Houston of a request he act as special prosecutor.

Hearings Set Monday

3. Habeas corpus hearings Monday for Mario Sapet and Nago Alania, latter Alania lawyer who at a rendezvous told Jake Floyd, Sr., that he and Judge Sam Reams were marked for death. Alania is charged with murder.

Floyd, prominent lawyer, said he was told two professional killers had been imported from Mexico to do the killing and that politics was the reason. He said his son was slain by mistake.

Reams Saturday postponed until Monday a hearing on a writ of habeas corpus for Alania, law partner of District Attorney-elect Raeburn Norris, over the bitter objections of Charlie Lyman, Alania's attorney.

Rangers Tight-Lipped Rumors were as free as the dust that whipped over the streets of this city of 30,000 persons. Main-in-the-street opinion was that neither Alania nor Sapet was the trigger man.

It was killed—thank goodness—by Al Boman on the George Glass ranch north of the city.

The snake measured five feet, eight inches in length and weighed almost seven pounds. It had 14 rattles.

Mrs. Turrentine, Prominent Texas Clubwoman, Dies

DENTON —(P)—Mrs. Jennie Johnson Turrentine, prominent Texas clubwoman, died Saturday after a long illness.

She was past president of the Texas Federation of Women's Clubs and a former member of the State Democratic Executive Committee.

Mrs. Turrentine managed the women's division of the late Gov. Neaseur Jones's campaign for governor in 1948. He appointed her to the board of the State Department of Public Welfare, the first woman ever to serve in that post. Later she was chairman. She also was a member of the Texas Youth Development Council.

Wanger Leaves Jail

LOS ANGELES —(P)—Producer Walter Wanger was released from jail Saturday after serving 120 days for the jealousy shooting of Jennings Lang, agent for the movie-maker's actress wife, Joan Bennett.

South Koreans Try In Vain To Recapture Finger Ridge

SEOUL —(P)—South Korean troops seized Chinese Communist soldiers out of their bunkers and tunnels with flame-throwers Sunday morning but failed in their attempts to recapture Finger Ridge on Korea's Central Front.

The two forces battled to no decision in pre-dawn darkness and the fight still was going on shortly before noon Sunday.

An Allied officer said the South Koreans reached the crest of Finger Ridge several times but couldn't hold it against the Chinese counterattacks.

During the night, twin-engined Allied bombers attacked a Red supply center near Pukthong, deep in North Korea on the West Coast. Returning pilots reported 70 secondary explosions, indicating they had hit ammunition or fuel dumps.

The night-flying bombers were keeping the pressure on the Reds after Allied warplanes plastered targets deep in North Korea Saturday—from the big Sulbu power plant on the south bank of the Yalu to the city of Sohung, a large supply center.

And, in its weekly assessment of Communist losses, the U. S. Fifth Air Force announced American Sabre jets destroyed 14 MIG's between September 8 and 13—the biggest kill for a week in almost six months. The Air Force said no Sabres were lost.

IT WAS DEAD, THANK HEAVENS

One of the largest diamondback rattlesnakes seen in this section in a long time was brought to The Reporter-Telegram office Saturday afternoon.

It was killed—thank goodness—by Al Boman on the George Glass ranch north of the city.

The snake measured five feet, eight inches in length and weighed almost seven pounds. It had 14 rattles.

Midland's 1952 Community Chest Goal Set At \$69,750

Midland's 1952 Community Chest goal is set at \$69,750.

The figure, representing an overall increase of \$14,500 over last year's goal, was announced Saturday by P. R. Hargrave, Community Chest president, after it had been approved by organization directors upon the recommendation of a special budget-screening and new member committee.

The Chest's annual finance campaign will be conducted next month, under the direction of Joe Dickson, who recently was named general chairman. Organization plans now are underway and committee chairman will be announced soon. Hargrave said two new agencies, U.S.O. and Midland Day Nursery, have been added to the list of participating agencies, bringing the total to nine. The membership application

pledges for the first time, thereby requiring a pre-arranged operation of collecting and distributing funds. They stressed the fact that the figure is an estimate and that if that amount of money is not required, it will be carried over for future operations.

Hargrave said the operating budget submitted by the participating agencies was screened carefully by the Chest's budget committee before the recommendations were made to the Chest directors. The figures were withheld in several instances, it was explained. Don Oliver was chairman of the eight-member budget committee.

Next year, for the first time, participating agencies will be required to submit quarterly financial statements to the Community Chest.

Wholesale Drug Firm Sets Formal Opening Wednesday

Formal opening of the Southwestern Drug Corporation's new Midland Division plant, located on the Old Bankhead Highway, in West Midland, will be held from 4 to 9 p.m. Wednesday, W. E. Penland, manager, announced Saturday.

Highlighting the open house event will be the serving of an old-fashioned West Texas barbecue by the Odessa Chuck Wagon Gang from 6 to 9 p.m., Penland said. Music will be furnished by Andy Schroeder's Cowboy Band.

With approximately 500 West Texans expected to attend, formal dedication of the building will be held.

Speakers will include Perry Pickitt, mayor of Midland; G. H. Penland, chairman of the board of Southwestern Drug Corporation, Dallas; Jack Wicker, president of

the Midland Chamber of Commerce; Fred M. Truett, president of the company, Dallas; Fred Husbands, executive vice president of the West Texas Chamber of Commerce, Abilene, and Penland.

The eighth drug distribution point in Texas for the organization, the Midland firm will act as a wholesale drug supply for an area extending from Sweetwater west to Las Cruces, N. M.

Located in the new 31,000 square-foot building, which is centered on a three-acre site, the firm will employ 50 persons.

Guests for the open house will be conducted through the completely air-conditioned offices and warehouse by company personnel, who will explain every operation from the receipt of customers' orders to shipment of goods.

Penland is a son of G. H. Penland, chairman of the board for the organization. He has been with the organization since 1933 and served as operations manager of the Dallas division before coming to Midland. Mr. and Mrs. Penland and their four children are living at 201 Ridgely Drive. He is a member of the Midland Country Club and the Presbyterian Church.

Killing Of Officers By Farmer Sets Off Manhunt In Alabama

JASPER, Ala. —(P)—Two sheriff's deputies were slain by a sharp-shooting farmer during a hunt for illicit whiskey at a rural house late Saturday, Coroner Porter White said.

The Walker County coroner said Deputy Frank Harrison, 37, was killed almost instantly. Deputy Herman Treese, about 45, struck near the heart, staggered to a road and died while being moved to a hospital.

The coroner said the men were shot by Horace Bradberry, whose house they intended to search. He said Bradberry fled into thick woods surrounding the farm in this mountainous section.

Sheriff's officers, highway patrolmen and Jasper police converged on the location three miles north of Jasper. A call was issued for bloodhounds.

For Calculators, always remember ERIDEN Figures Faster. Call Baker Office Equipment Co., Phone 4-6006, 511 West Texas.—(Adv).

LATE NEWS FLASHES

ELIZABETH, N. J. —(P)—A general alarm fire ripped through the Heidritter Lumber Corporation yard Saturday night, spread to adjoining houses and drove hundreds of residents from their homes. Firemen reported at least four homes destroyed and eight others burning.

FOLKSTONE, ENGLAND —(P)—Denmark's Jenny Kammergaard, 33, lapsed 21 hours, 40 minutes in the cold English Channel but had to give up her England-to-France swim Saturday night. She quit three miles from France.

BERLIN —(P)—The Russians accused the Americans Saturday night of imposing a blockade on the Soviet military mission in Frankfurt by confronting the members in a threatening manner and forcing them to hand over certain documents.

### Lone Star Will Build New Line

DALLAS—(P)—Lone Star Gas Company announced Saturday it will begin construction Monday on a gathering line from the Sandusky and Big Mineral fields in Grayson County. The line will be of eight and 10-inch diameter and will run for 11 miles to a connecting point near Whitesboro.

This picture has a wonderful mood, expressed through the use of a simple filter. Notice the contrast between building and sky, and the various tones in the lovely church.

### Simple Filter Adds Beauty To Pictures

"What is this business about a 'filter' helping to make better pictures?" We asked this of MIDLAND STUDIO AND CAMERA SHOP, local camera experts, after we heard them recommending one of these pieces of glass to another customer.

"Glad you asked," he said. "Most people have to be hit over the head before they use one, and they're really the simplest things in the world, don't cost but a buck or two, and they'll do more to improve your pictures than any one thing you can do in Photography."

"Here, let me show you." And he brought out a yellow colored glass cut in a circle. There was a metal rim around it which fitted over the lens of my camera.

"That's it," he continued. "Now, with this piece of colored glass, your camera will catch billowy white clouds like you see in magazine illustrations. It will show the difference in color tones between building walls and other objects, and distinguish between them and the gray sky. It will show variations in flesh tones on snapshots of people."

"More important," he went on, "are the skies in your pictures. Most outdoor pictures consist of a dull, gray, sky area—usually about 40% of the picture. Normally, this doesn't add anything to your picture. Instead, the people in the foreground are just 'there' and there's no atmosphere or sparkle. But, use this filter and you'll pick up any white clouds that are in the sky, and you'll have the sky an entirely different tone than the rest of the picture. You'll have what we call a picture that 'sparkles' all over!"

"That was last week. We tried it. MIDLAND STUDIO was right—(adv.)"

### THEY'RE GONE, NOT FORGOTTEN

BONHAM—(P)—A. T. Newell of Ector is having trouble these days. He is running the following classified in the Bonham Daily Favorite:

"Lost—lower dental plate at state park. Reward. A. T. Newell, Ector."

### Dallas Apartment Building Destroyed By Explosion, Fire

DALLAS—(P)—A fire and explosion destroyed an East Dallas apartment house Saturday, causing loss estimated at \$25,000 and minor injuries to a fireman.

The fire left only the walls standing of an eight-unit, two-story brick apartment project.

Overcome by smoke was Fireman A. E. (Tony) Whitten. He was taken to Parkland Hospital, where attendants said he would be all right.

Cause of the fire was undetermined.

### Marilyn's Gown Passed Censor Before Its Veto By The Army

By EBBE JOHNSON  
NEA Staff Correspondent

Exclusive News: Marilyn Monroe's low-cut gown, ruled "off" by the Army at Atlantic City, was from her wardrobe in "Niagara." The Army may have branded it indecent for a recruiting stunt, but it was okay by the movie censors.

Evie Johnson's decision to have a fling at movie acting—she makes her debut in "Never Wave at a WAC"—has tongues wagging in Hollywood's eyebrow-lifting set. Her reasons, say the gossips, are:

1. Lack of dough in the Van Johnson household, or
2. A bid for a career of her own before divorcing Van.

The marriage, according to the grapevine, has been on thin ice for almost a year.

Rita Hayworth's agents are busying Joan Bennett for the role of Diana in "The Robe."

Don't be surprised if Kathleen Winsor huddles with attorneys over "Forever Amber," the title of Edie Mayhew's new TV show. It follows Red Skelton on the air this season.

Eleanor Parker's medico has set September 26 for the stork visit. She's due at MGM November 1 for another flicker with Bob Taylor. Oil has been discovered on property owned by Hedy Lamarr in Vienna. She'll hop the Atlantic next month to sign royalty papers. Well, that's something.

Irene Ryan at the Fox & Hounds: "All a sweater does for me is to make me look warm." Turhan Bey is back in Hollywood to resume his film career after two years in Europe. Jane Russell's busting with joy about the leg publicity she's getting in "Son of Paleface." Two new reasons for seeing her films.

Dinah Shore is yelling "foul" about her quotes in a national magazine that she believes cryin' Johnnie Ray is merely a flash-in-the-pan out for a fast buck. The singer claims she was misquoted—and has apologized via letter to Johnnie.

Remember Sunshine Sammy of the Our Gang Comedies? He's now a delivery boy for a Hollywood liquor store. The Mel Tormes have dated the stork again. Paramount's Barney Balaban's prediction on movie business for the next 12 months: "It will be just as good as the pictures we deliver." Talullah Bankhead's salary, for one TV guest appearance on the All-Star Revue October 11, will be \$20,000!

TV's Dagmar, now touring night clubs, is doing a skit in which she plays the first woman President of the U. S. One of her lines: "Whadda day—I passed 19 votes and vetoed 19 passes." Barbara Hutton just paid \$250,000 for a new Beverly Hills home. Walter Chrysler, Jr., is the Mr. Moneybags behind Raymond Massey's new play, "The Hanging Judge." Leslie Howard's gravestone in England bears this inscription: "Gentle cynic." Greta's Deep-Purple Mood. Greta Garbo's hair—can you stand it?—now is tinted a deep purple. Sign in the window of a Hollywood East Indian restaurant: "Cash and Curry."

MGM may not know it, but an independent film company is shooting "Robinson Crusoe" in Mexico. The studio owns a completed screenplay of the classic, written four years ago by Helen Deutsch, as a Stewart Granger star, but never placed before the camera.

Skip the rumor that Rose Marie's five-year-old daughter, Georgiana, will follow in her famous mama's footsteps as a singing moppet. Closing a long engagement at Ciro's, the blonde songstress, who was a top radio star at five, told me: "I don't think I want a career for Georgiana as a child. I don't want people to think she's a midget." Movies for Rose Marie? "Not as a star—I just want to do the comedy end of it."

Sophie Tucker is stipulating that she play herself in the final reel of her movie biography, in which Betty Hutton will star. But the last of the Red Hot Mamas is in for some hot opposition to the idea.

Joan Bennett is being billed as plain Joan Bennett for a Los Angeles run of "Bell, Book and Candle." It was Miss in the ads everywhere else in the country.

# Little Man Of Mars Pays Friendly Call, Scares The Geewilkins Out Of Earthman

By COPE ROUTH

The Little Man from Mars dropped by the office for a startling visit Saturday afternoon.

## Flying Disc Zips Over Fort Worth

FORT WORTH—(AP)—W. K. McIver, a Conair worker, said he sighted a flying saucer shortly after 11 a.m. Saturday.

McIver and two other men saw the circular object, which McIver described as being "greenish white and luminous."

He said they watched the strange object for 20 minutes. Most of the time it remained stationary but at times it would travel at a "tremendous speed" and then "stop" on a dime.

Several times it would turn over and "flip like a pancake," McIver said.

And 30 minutes later I scratched Mars off the list of places I want to visit if my space ship ever comes in.

If the Little Man from Mars is typical, they've picked a devil of a way to live.

We plain, simple people on earth may have our A-bombs and our hillbilly music, but when we want to scratch our nose, we don't have to get a brace and bit and drill through a quarter-inch of plexiglass.

Twelve-year-old Jerry Keeler, a fine little freckle-faced specimen of red-blooded American boyhood, started it by edging up to the desk and waiting until he was spoken to.

"Hi," I said, after running a paragraph on the typewriter down to the end. "What's up?"

"This is Charles," he grinned. "This is Charles," he grinned.

"Sure," he answered, this is Charles. Charles is a space man from Mars. I'm his manager.

Hearing a mumbling sound, I turned around, pulled up with a start and stared.

The apparition stared back. First thing I saw was what I thought was an inverted fishbowl with something in a grinning mask inside of it.

His Manager Speaks  
Beneath the fishbowl was a yellow waterproof jacket and below that a pair of sky-blue trousers

poked into brown leather boots. I turned back to Jerry.

"This," I asked, trying to grin, "is Charles?"

"Sure," he answered, this is Charles. Charles is a space man from Mars. I'm his manager.

I thought you might put something in the paper about him."

I turned back to the Little Man from Mars. "What's your full name, young fellow," I asked, grabbing my pencil and some paper.

There was a muffled sort of mumbling from within the fishbowl. "He says," interpreted Jerry, "his name is Charles Hatliff and he is 13 years old and is in the seventh

grade at San Jacinto Junior High School.

"He lives at 2005 West Missouri Street and his parents are Mr. and Mrs. J. C. Hatliff."

I made a note of that. "Where you get this outfit, Charles?" I continued.

There was some more muffled mumbling inside the fishbowl.

Arrives By Mail  
"He says," explained Jerry, "that he got his helmet through the mail. It's a space commander's helmet and it costs \$3.55. Pretty keen, isn't it?"

"What about that other stuff?" "Oh, that," apologized his manager, "that's just some of his own clothes. We took an old yellow

slicker, fastened it tight around his neck and tucked the other end in his pants. Those are old pajama pants.

"These tubes here—they go into the side of his helmet, see, and give him fresh air."

"This thing in his hand is a . . ."

I stopped him. "I know what that is," I bragged. "That's a fissionator, isn't it?"

Jerry nodded understandingly. "Yeah," he answered. "Actually, it's only a water pistol, but it was the best thing we could find."

There was an urgent rumbling inside the fishbowl—the helmet, that is. Jerry swung into action, helped

jerk the helmet off Charles' head, pulled off his rubber mask and watched another freckled face pop out.

"Golly," said Charles, "it sure is hot in there!"

Jerry pushed the helmet toward me.

"Here," he urged, "try it on."

Courting Danger  
Well, it has been 26 years since I had a 13-year-old head—despite some crude remarks to the contrary—but I slipped on the rubber mask and forced the plexiglass over my head.

Charles wasn't kidding; it was hot in there. I shoved upward on the helmet.

My nose got in the way. "Get me out of this thing!"

Jerry leaned up close. "Huh," I faintly heard him say. I screamed louder.

Jerry reached over, snatched a spring and the thing came right off.

"Thanks," I grunted. "Here, you take it. What you going to do with it now?"

"Oh," grinned Jerry, who is the son of Mr. and Mrs. W. O. Keeler, 2004 West Holloway Street. "Charles will put it on and we'll walk down the street some more."

"Almost ran a cab off the street this morning, the driver was so surprised."

## TEXAS WOLVES WHISTLE EARLY

BONHAM—(AP)—The high school drum majors were struggling in their scanty costumes when one of the elementary school teachers heard a long shrill wolf whistle.

Looking around, she discovered the whistler—a second grader.

### Prize Watermelon Tempts Prospective Olympic Star

McALESTER, OKLA.—(P)—Pittsburg County Agent William D. Davis decided not to take any chances with thieves at this year's county fair.

### Grubaugh Seeks Change Of Venue

Attorneys for Oran Leo Grubaugh, the shooting three weeks ago of his charged with attempted murder in pretty, brown-haired wife, said Saturday an attempt will be made to move the trial outside the jurisdiction of the 70th District Court.

### Sparkman's Home Newspaper Backs Ike For President

HUNTSVILLE, A. L.—(P)—The Huntsville Times Saturday endorsed Republican Nominee Dwight D. Eisenhower for President.

The Times, an independent Democratic paper, endorsed Gov. Thomas E. Dewey in 1948. This was the only other time since the newspaper began publishing in 1911 that it supported a Republican candidate.

The Times said of Eisenhower in an editorial in its Sunday edition: "His knowledge and experience, first hand, in foreign affairs—both in Europe and the Far East—give him a wide edge over his opponent."

### Royal Iranian Baby Named Scheherazade

SANTA MONICA, CALIF.—(P)—The third child of the Princess Shamsa Pahlavi of Iran got a very musical name Saturday: Scheherazade.

The baby—a seven pound, two ounces girl—was born Friday to the princess, a sister of the Shah of Iran.

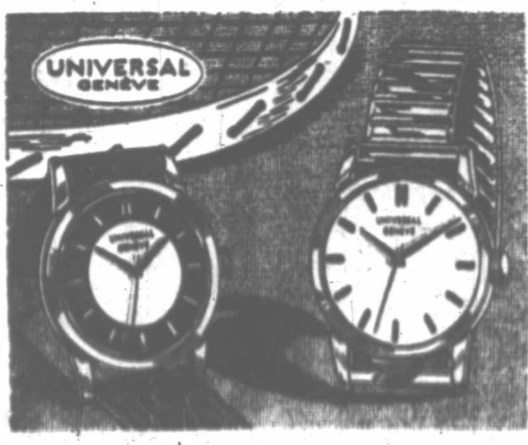

The princess and her husband, Behrad Pahlavi, have two sons, Shabas, six, and Shahyar, four.

### Off To College

Jo Dean Downing, daughter of Mr. and Mrs. Delbert Downing, will leave Sunday for Denton to enroll as a freshman student at Texas State College for Women.

### Morocco Teems As Cultural Crossroads For East, West

By BETTY SELLARS Special Correspondent (Last of a series)

A people rooted in the past looking toward the future—these are the Arabs of Morocco. Although sharp in contrast to the French, Arabs near the cities daily absorb more progressive ideas.

The Arab and his Medina, however, provide the romantic color which tinges American conceptions of Morocco.

Part of the Near East atmosphere, the native dress, the hand work in metals and cloth, the snake charming of Marrakech, is as carefully preserved as the Navajo culture of the Southwest.

Friday is the Moslem religious holiday. Men gather in the mosques, forbidden to the women and non-believers, and most Arab establishments close for the day.

The gradual merging of civilizations produces striking contrasts. An "orthodox" Medina will have its small stalls of meat, displayed in the open much like Mexican markets.

Merchants band together in informal guilds. Entire sections of the business Medina will be given over to small shops, not more than six by nine feet, each opening on

### 'OPERATION MAINBRACE'—Red Editors Howl At Big War Games

COPENHAGEN, DENMARK.—(P)—The "battle of Borzhelm" began Saturday night as the first war games engagement of the North Atlantic Powers' "Operation Mainbrace."

Joining of battle at 9 p.m. was announced in a communique of the Danish Admiralty. Borzhelm is a Danish island in the Baltic Sea.

GOUROCK, SCOTLAND.—(P)—A powerful fleet of 100 warships moved out Saturday to battle stations in the North Sea of the Atlantic Pact's first big war games and promptly drew the fire of Moscow's editors.

The Soviet Army newspaper Red Star charged that the exercise "Operation Mainbrace," was aggressively aimed by the Pentagon at clamping control over the Baltic to the detriment of Russia and other Baltic powers.

NEW YORK.—(P)—Gen. Dwight D. Eisenhower rallied his workers behind him Saturday for the beginning of a circuit-riding "peace" crusade through the politically-vital Midwest.

Describing himself as only the spearhead of a movement for "honesty and integrity" in government, the Republican presidential nominee told volunteers: supporters, a crusading spirit will go much further than political organization toward winning a victory in November.

"I believe in organization but I believe more in spirit and that is what I see here today," Eisenhower told about 250 members of Citizens for Eisenhower-Nixon, who had gathered from all sections of the country to plan a get-out-the-vote drive.

Preparing to depart Sunday on a 13-day, 13-state train tour, Eisenhower cast himself in the role of a missionary taking the political gospel of peace and honesty in government to the people at wayside stops.

He will make 56 of these stops, besides major appearances in St. Paul, Minn., Des Moines, Iowa, Omaha, Neb., Kansas City, Mo., St. Louis, Mo., Louisville, Ky., Cincinnati, Columbus and Cleveland Ohio, Wheeling, W. Va., Baltimore Md., and Richmond, Va.

The GOP nominee told the volunteer workers he is only the symbol of a crusade aimed at restoring world peace and "honesty, integrity and decency" in government.

As a specific instance, he took the slogan of the volunteer organization that Eisenhower is "the man who

### Plane Drops Engine, Makes Safe Landing

GARTHER, N. J.—(P)—A blasting engine dropped out of a DC-3 twin-engine passenger plane on a test flight Saturday, but the pilot guided the lopsided craft to a safe landing in a swamp near the New Jersey Turnpike.

The plane trailed smoke and flames over this crash-landing area near Elizabeth, N. J., where three airliners crashed last Winter with the loss of 118 lives.

The three crewmen aboard—pilot, co-pilot and engineer—were uninjured. The fire was out when the plane came to a stop, its landing gear ripped off by a meadow ditch.

### DPA Board Chief Cites Huge Savings

ABLENE, (P)—The chairman of the Facilities Review Board of the Defense Production Administration said Saturday his board had saved the government 70 million dollars in 10 months of operation.

The chairman, Orlaf K. Tackie, Washington, prepared his speech for a meeting of the West Texas real estate sales clinic here.

### Church Of Christ Protests Closures By Italian Police

Congressman Ken Regan of Midland said Saturday he planned to telephone the State Department in Washington, D. C., Monday to learn why Italian police have closed the Churches of Christ in Italy.

The congressman said he would urge that "every fair and reasonable consideration be given the members of the Churches of Christ which have protested the Italian closure order."

Decision was made by Regan to contact the State Department following a telephone call Saturday from F. I. Stanley, evangelist of the Southside Church of Christ.

Stanley said both the Southside and Northside Churches of Christ in Midland vigorously are opposed to the Italian action.

Regan pointed out that "despite the fact that the United States has been pouring thousands of dollars into Italy as a relief measure, we still can't tell Italy what to do."

He advised Midland and Odessa Churches of Christ to sign a petition to be sent to the State Department protesting the closure order.

In an Associated Press dispatch from Rome the Church of Christ said Saturday Italian police have closed its Alexandria church by force and ordered the Rome church to close immediately.

Claude R. Paden of Brownfield, Texas, who heads the church in Rome, said the ban was part of a "completely unexpected" nation-wide crackdown against the small Protestant group under laws of the Fascist era.

The Alexandria church was closed "by force" last Sunday, the Rome church was ordered to close, a third church was given one month to shutter and the other 19 Church of Christ congregations probably are to be closed, Paden declared.

In Alexandria's police headquarters, Dr. Michele Lombardo said police had prevented "an unauthorized gathering for religious practices" by the Church of Christ last Sunday.

He denied the use of force. Signs Tera Down One of Paden's fellow missionaries, Carl Mitchell of Los Angeles, Calif., said the Alexandria police effectively prevented 25 members of the congregation from entering the church, tore down the Church of Christ representatives in an effort to make them stop singing hymns.

Official action appeared to be limited to the Church of Christ. Other Protestant denominations, including the Baptists and Methodists, have operated in Italy for years without official action against them.

An informed Italian source said friction with the Church of Christ arose over missionary activities and efforts at conversion in this predominantly Roman Catholic nation.

The U. S. Embassy said the Church of Christ representatives have been instructed to present a full report and "we will see what we can do."

TO AUSTIN SCHOOL Robert Turpin, Jr., son of Mr. and Mrs. Robert M. Turpin, left Friday for Austin, where he was to enroll as a student in St. Stephen's School.

### Off-Wed Pereira Denies Obligation To Roswell Widow

DALLAS.—(P)—Victor E. Pereira had filed a general denial to a lawsuit in which a former wife seeks \$35,286.78.

The lawsuit was filed August 28 by Mrs. Gertrude Joyce, Roswell, N. M., Pereira's fifth wife, for a 1951 loan she says he never repaid.

In his answer, filed through an attorney, Pereira said that while married to Mrs. Joyce, she gave him certain sums of money and he is no way indebted to her.

He has been convicted of embezzling \$48,000 from Mrs. Joyce and is free on appeal. He was married to a wealthy Dallas widow this summer and they are reported to be out of the city.

GENERAL VISIT CITY Maj. Gen. Dave Hutchinson, stationed at Tuspeka, Kan., Air Force Base, visited in Midland Saturday and Sunday with a friend, J. C. Vandever, 3217 Mariana Street. He made the trip in a B-28 bomber.

The first negro slaves arrived in Jamestown, Va., in 1619.

Midland Knite & Fork Club will open its 1952-53 season Wednesday, September 23, with Vincent Sheehan, famous author, correspondent, said the dinner-meeting is scheduled at 6:30 p.m. in the high school cafeteria. Reservations will not be accepted after Monday noon, September 22, he stated.

Sheehan is expected to give a brilliant picture of the multi-phased problems in the Near East in his address here. He is convinced the destiny of the world lies in the East, and he has concentrated his attention on it.

He repeatedly has visited India and was Gandhi's house guest for a week at one time. He was standing only 10 feet away when Gandhi was assassinated. The speaker also has visited Singapore, Indonesia, Tokyo and the Middle East on numerous occasions.

Sheehan is said to be an enviable mixture of philosopher, prophet and poet, and a master of reporting in literary style.

He is the author of "Rage of the Soul," "Lead Kindly Light," "Tribal Hunting," "Not Face but a Sword," "Personal History" and other books.

### Midland Knite & Fork Club Opens Season September 23

The Midland Knite & Fork Club will open its 1952-53 season Wednesday, September 23, with Vincent Sheehan, famous author, correspondent,

dent, world-traveler and public speaker, as the guest lecturer. Thornton Hardie, Jr., club president, said the dinner-meeting is scheduled at 6:30 p.m. in the high school cafeteria. Reservations will not be accepted after Monday noon, September 22, he stated.

# THE CAMPAIGN THUS FAR— Top Issues Remain Change, Corruption And Communism

By DON WHITEHEAD  
NEW YORK (AP)—The fullness of the presidential campaign is only two weeks old Sunday but already the three C's of "change, corruption and communism" are churning currents of emotion among voters across the land.

These three hazards for the Democrats, hammered at almost daily by General Eisenhower as key campaign issues, have been met head-on by Governor Stevenson who clearly recognizes in them the greatest threat to his election.

He has met them in this fashion: 1. Change — He claims the Republicans are calling for a change merely for the sake of change with a fuzzy outline of what the change will mean. He has said a change to a Republican administration might

be a sorely needed change which would explode like a loaded cigar in the people's faces. And he argues that his own election would represent a change.

2. Corruption — Stevenson has conceded that there is a "mess in Washington." But he has said he would be "ruthlessly objective" in cleaning out corruption and that his record as governor of Illinois is proof that he would tolerate neither crime nor corruption. The way to avoid corruption, he says, is to name incorruptible men to public office.

3. Communism — In government — Stevenson argues the Communists already have been driven from places of responsibility in our society and "we will not permit them to return." He has charged that Senator Joseph R. McCarthy's anti-Communist campaign has been carried on under a cloak of patriotism that he called "the last refuge of scoundrels."

Three Top Issues  
But Stevenson's answers have not quieted the opposition. And at this point, the three C's are more potent politically than the issues of foreign policy, farm programs, or any of the other disputes in the campaign between Stevenson and Eisenhower.

Representative Keating (R-NY) declined to say anything about the trip except that it was to a city "in the general direction of New York" and to interview a key witness in a case previously untouched by the House investigators.

Keating and Daniel G. Kennedy, a subcommittee counsel, made the trip by train. On the way to the station from the Senate Office Building, they talked with a man Keating described as "another witness."

McGrath will get a chance to tell what he recalls about the 1951 St. Louis grand jury investigation of tax scandals.

The committee has heard testimony that a grand jury submitted "a whitewash" of the tax case handling in St. Louis while McGrath was top man.

AFL May Shatter Tradition, Endorse Adlai Or General  
NEW YORK (AP)—AFL President William Green, saying his union probably will break tradition to endorse a presidential candidate this year, Saturday gave newsmen the impression that Gov. Adlai Stevenson stands the best chance.

Green, discussing the forthcoming AFL convention at a news conference, said it would be "inappropriate" for him to make any comment as to what action it might take.

He also steered clear of any personal expression of favoritism. However, his remarks on labor matters gave rise to the feeling that the Democratic nominee presently is considered most suitable for union support.

## House Probers To Question McGrath, Caudle This Week

WASHINGTON (AP)—The Justice Department is in line during this week for more probing at the hands of House investigators, with two former top men on call to answer questions at a public hearing.

J. Howard McGrath, ousted last Spring from his Cabinet post as attorney general, is booked to testify before a Judiciary subcommittee on Wednesday.

And one of his trusted aides, T. Lamar Caudle, who was fired by President Truman last November for "outside activities," gets the spotlight on Thursday, assuming McGrath finishes in one day.

The ranking Republican member of the House Judiciary subcommittee, meanwhile, made a quick visit amid much secrecy to an unnamed Eastern city.

Representative Keating (R-NY) declined to say anything about the trip except that it was to a city "in the general direction of New York" and to interview a key witness in a case previously untouched by the House investigators.

Keating and Daniel G. Kennedy, a subcommittee counsel, made the trip by train. On the way to the station from the Senate Office Building, they talked with a man Keating described as "another witness."

McGrath will get a chance to tell what he recalls about the 1951 St. Louis grand jury investigation of tax scandals.

The committee has heard testimony that a grand jury submitted "a whitewash" of the tax case handling in St. Louis while McGrath was top man.

AFL May Shatter Tradition, Endorse Adlai Or General  
NEW YORK (AP)—AFL President William Green, saying his union probably will break tradition to endorse a presidential candidate this year, Saturday gave newsmen the impression that Gov. Adlai Stevenson stands the best chance.

Green, discussing the forthcoming AFL convention at a news conference, said it would be "inappropriate" for him to make any comment as to what action it might take.

He also steered clear of any personal expression of favoritism. However, his remarks on labor matters gave rise to the feeling that the Democratic nominee presently is considered most suitable for union support.

Even Headache Frightens Mother Of 11 Polio Victims  
MAPLETON, IOWA (AP)—"If the kids even say they have a headache, we get scared," says Mrs. Joe Thiel of Mapleton.

Even of the 14 Thiel children have come down with polio since July. It may be a record for the number of cases in one family.

Of the 12 children living at the Thiel farm home, only Arlene, 17, has escaped the disease. The others spared were Joan, 22, who was married Monday to Richard Smith of Sioux City, and Pfc. Donald, 21, who is in the Army at Fort Riley, Kan.

Barnhart Gets New Barber, Gridiron Coach In Hobaugh  
SAN ANGELO (AP)—The town barber always knows all about football and baseball to hear him tell.

There's a barber here who's officially going to become a coach, but he'll continue barbering.

Joan was a nurse at a Sioux City hospital until her marriage last week. She attended three of her brothers while they were hospitalized with the disease. They are Lawrence, 15; Bob, 20; and Jerry, 12. Both Lawrence and Bob remain in the hospital for treatment of the paralytic effects of the disease. Jerry is back home now.

The other children, less severely hit, were treated at home.

"It was rough while it lasted," said Mrs. Thiel, "but when you look at the patients in iron lungs it makes you feel you're not half bad off."

San Angelo (AP)—The town barber always knows all about football and baseball to hear him tell.

There's a barber here who's officially going to become a coach, but he'll continue barbering.

John Hobaugh, 44-year-old college graduate who never finished high school, will be football coach at Barnhart, 53 miles from San Angelo. He has the background for it.

Hobaugh was a Navy barber in World War II. He had been a baseball and baseball player in amateur ranks before entering the service. He coached some baseball, too.

After the war Hobaugh decided he wanted to continue his coaching. So he entered San Angelo Junior College and finished in 1950. He then went to Sul Ross College and continued his barbering.

Last May Hobaugh received his B.S. degree from Sul Ross and is working on his master's degree.

He recently was elected coach at Barnhart with the understanding that he could continue barbering.

U. S. Will Offer New Middle East Defense Program  
WASHINGTON (AP)—The United States has completed revised proposals for creation of a new defense organization in the Middle East and is due to present them to Britain in a note probably next week.

The aim of the new plan—on which American, British and other cooperating governments have been working—is to devise a defense structure and a way of setting it up which will appeal to the Arab nations of the Middle East, particularly Egypt.

Egyptian opposition a year ago stalled all efforts to create a Middle East defense command along lines laid down by the Western Powers.

While the United States and Britain, as the leading countries in this enterprise, are reported agreed on the main purpose and over-all approach, they are understood to be split in their views on the best way to get the Arabs to cooperate.

Coal Czar Reported Asking New Hike In Welfare Fund  
WASHINGTON (AP)—John L. Lewis was reported Saturday to be shooting for new welfare fund royalty boosts in both the soft coal and hard coal industries.

It has been known for some time Lewis was concentrating on a 30-cent increase in the hard coal, or anthracite, industry royalty, but it was believed he might forego an increase in the soft coal royalty.

Both branches of the coal industry now pay 20 cents a ton on all production into union-operated funds to provide pensions and other benefits for miners and their families.

The hard coal welfare fund is reported about bankrupt, but the separate soft coal welfare fund has a 100-million-dollar balance.

While this is a lot of money, Lewis is reported worried that declining soft coal production won't bring in enough royalty revenues at the 20-cent rate to pay for the present scale of benefits. This means he eventually would either have to get a larger royalty, reduce the amount of benefits, or dig into the 100-million-dollar balance.

Contract negotiations are entering the showdown stage. A strike in Northern soft coal mines may come a week from Monday, on September 23. That is the first day the miners would fail to report for work after an agreement expires on Saturday, September 20.

## Drunken Bear Just Sitting Duck To Lonely Housewife

FORT FRANCES, ONTARIO (AP)—What would you do if you were a woman alone at night with a drunken bear in the house? Mrs. Jake Skibinsky faced that problem recently.

A 200-pound bear prowled too close to the Skibinsky home at the east end of Baley Lake. Skibinsky was away. Mrs. Skibinsky tried to poison the animal with a mixture of weed alcohol and honey. The bear only became tipsy. After staggering around the yard it finally plunged through a window.

Mrs. Skibinsky blazed away with a rifle. The bear retreated to the lot house. Later it returned. Mrs. Skibinsky reloaded. She tried again and finally finished the animal as it sat on its haunches in the nearby bush.

## Armed Fugitives Set Off Big Pennsylvania Manhunt

ALLENTOWN, PA. (AP)—Proceeding on the assumption that three fugitive jailbreakers, heavily armed and dangerous, are hiding out in this Northeastern Pennsylvania area, state and local police and FBI agents locked a tight blockade across all main roads Saturday in an effort to trap the men.

All available state police were on duty. They were reinforced by the full assistance of local officers in many communities and a swarm of FBI agents. Civil Air Patrol planes circled slowly over outlying areas at the foothills of the Pocono Mountains in a search for the fugitives.

It was the biggest, most concentrated manhunt Pennsylvania has seen since roads were blockaded across the state a score of years ago after warnings that badman Alvin Karpis and John Dillinger were moving into the state, one veteran officer said.

Despite the hunt, police admitted they had no definite trace of the three fugitive prisoners who stabbed one man, kidnaped another, held a family hostage and robbed a roadside diner since they fled the federal penitentiary at Lewisburg, Pa., early last Wednesday.

Old Pine Tree Still Standing  
WEST BALDWIN, MAINE (AP)—They tried to cut down the old pine tree Saturday and haul it away to the mill—but they could not. The tree is too big.

The Hawkes Lumber Company attempted to level a king pine tree which state officials said is probably the largest of its kind in Maine—22 feet in circumference and eight and a half feet through the butt.

Available saws proved too small and the company postponed cutting operations to Monday.

Red Armored Car Creates Near-Riot In Western Berlin  
BERLIN (AP)—A Soviet armored car, equipped with two machine guns and carrying six Russian soldiers, drove into the American sector Saturday and almost started a clash with 1,000 U.S. West Berliners.

U. S. Military Police escorted the vehicle back to the East zone border after West Berlin police blocked its progress at Herberg Square with a garbage truck and sealed off its retreat with a squad car.

The Russians brandished their Tommy guns when a crowd gathered, booing and shouting. "Iran go home" West German police forced the crowd back to prevent a clash.

The Russians said they were driving back to their Karlshorst headquarters and got into the American sector by mistake.

Guards Kill POW, Hurt Eight In New Uprising On Koje  
PUSAN, KOREA (AP)—South Korean soldiers Friday killed one Communist prisoner and injured eight others as unrest flared again on bloody Koje Island.

An Army announcement said Sunday prisoners in one of the compounds began milling about and shouting insults. Two platoons of South Korean soldiers entered the compound after the Reds ignored an order to disperse.

"Force was used to restore order," the Army said. "Eight prisoners of war were injured and one other prisoner was hospitalized and later died as a result of his injuries. There were no United Nations injuries."

Dr. Hughston Opens Dental Office Here  
Dr. T. N. Hughston announced Saturday the opening of his office at 1203 West Wall Street for the practice of dentistry.

Formerly of Dallas, Dr. Hughston studied at Southern Methodist University and received his DDS degree from the Baylor Dental College. He served three years in the U. S. Navy. Dr. and Mrs. Hughston will reside at 1203 West Wall Street.

Condition Of Moss Reported Improved  
Condition of Hozoe V. (Curly) Moss, 18, former Midland High School basketball star, was reported "considerably improved" Saturday by attendants at an Ochs hospital. He is expected to leave the hospital by the middle of the week.

Moss, son of Mr. and Mrs. Earl Robertson, 1408 West Washington Street, was injured in an auto accident last Tuesday near Ochs. He and James Gary Throckmorton, Jr., another Midland youth, were on a fishing trip when the accident occurred. Throckmorton was dismissed from the hospital Friday.

## Adlai, Pleased With Western Swing, Will Try New England

SPRINGFIELD, ILL. (AP)—Gov. Adlai E. Stevenson returned to his presidential campaign headquarters Saturday, "well pleased" with his prospects in 10 Western states and looking forward to a swing into New England, Virginia and Iowa.

The Democratic candidate for the White House arrived here by plane from Albuquerque, N. M., at 8:50 p.m. after a nine-day tour of the West in a bid for November votes.

Just before departing from Albuquerque, Stevenson's campaign manager, Wilson Wytst, announced plans for a foray into New England starting Thursday.

From there, the Illinois governor will travel to a traditionally Democratic stronghold, Richmond, Va., for a major address September 26. On October 4, Wytst announced, Stevenson will talk on farm policy at St. Dodge, Iowa.

As he set out for home from Albuquerque, Stevenson issued this statement on his 7,000-mile, nine-day swing through the West:

"I am delighted with my journey through 10 states. Everywhere the crowds exceeded my expectations and their warmth and friendliness even surprised the local political leaders.

"This trip enabled me to set forth my views on a number of issues not previously covered, in accordance with my plan of expressing as clearly as I can my hopes and ideas about our future.

"It would be bold and foolish to express any conclusions as to the political destiny of these states in November.

"But I am well pleased with the political situation in each of these states. Everywhere I found the Democratic Party unified and enthusiastic—more so, I was informed, in some states than it has been for many years.

"And the development of independent support for Senator Sparkman and myself in the major centers was perhaps the most reassuring circumstance of all."

His Illinois governor's tour took him into Colorado, Minnesota, Wyoming, Montana, Idaho, Washington, California, Arizona and New Mexico. He made 12 formal speeches, plus eight whistle-stop talks on a one-day train swing through California's San Joaquin Valley.

On his Western tour, Stevenson hit hardest, perhaps, at GOP charges of corruption in government. He said he was getting tired of going around the country telling people "I am an honest man," and he said repeatedly that no one is running for President this year on a pro-corruption ticket.

The Democratic nominee pledged that as President he would root out the government anyone guilty of any wrong-doing, and declared he feels he is much better qualified to handle such a job than Eisenhower is.

Florida Lawmakers Balk On Stevenson  
TAMPA, FLA. (AP)—Democratic nominees to the Florida State House of Representatives refused in caucus Saturday to give wholehearted endorsement to presidential candidate Adlai E. Stevenson.

Instead they adopted a resolution calling Democrats to support the party's national, state and county candidates but tacked on an amendment declaring they were not endorsing federal control of Titleland, limitation on U. S. Senate debates or any candidate who is for those measures.

Stevenson has spoken out for federal control of the Titlelands, and has endorsed the Democratic platform plank calling for elimination of the unlimited debate rule by which Southern senators traditionally block passage of bills objectionable to them.

BACK TO TOW  
June Hazel will leave Sunday for Denton, where she will be a junior student at Texas State College for Women. She is the daughter of Mr. and Mrs. S. F. Hazel.

Two Men Claim Parenthood Of Boy After Mother Dies  
SIoux CITY, IOWA (AP)—Two men who claim to be the father of a motherless five-year-old boy submitted to blood tests Saturday in an effort to settle the dispute.

The unusual District Court case stems from the death of the boy's mother, Mrs. Violet Phillips, 54, in an auto crash near Sergeant Bluffs, Iowa, last month.

Eligible are Wilbur Johnson, divorced first husband of Mrs. Phillips, and her second husband, Glenn H. Phillips, both of Sioux City.

Testimony at a hearing Friday was that Mrs. Phillips filed suit for divorce from Johnson in December, 1946, but lived with him two months after the suit was filed. She obtained a divorce decree in April, 1947.

Confirmation of the agreement came from Cleveland, where the UE is preparing for its convention.

70 Persons Hurt As Iranians Riot  
TEHRAN, IRAN (AP)—The Tehran press Saturday reported more than 70 persons had been injured, some by gunfire, in "serious clashes" in Western Iran over Premier Mohammed Mossadegh's new deal for peasants.

Contract negotiations are entering the showdown stage. A strike in Northern soft coal mines may come a week from Monday, on September 23. That is the first day the miners would fail to report for work after an agreement expires on Saturday, September 20.

The agreements between Lewis' United Mine Workers and Southern soft coal mines, and between the union and the anthracite producers end 10 days later, on September 30.

## BIKE FOR LAZY PERSONS— Inventors Reveal Odd Contraptions

PARIS (AP)—The International Inventors Contest opened here Saturday, with entries ranging from a one-man string band to revolutionary designs for trans-Atlantic steamships.

G. Hanvial of Paris displayed the instrument that he sees as a boon to players of string instruments. It has a banjo-like sounding box, with four finger boards extending like spokes from a wheel.

With this instrument, Hanvial explained, a musician can duplicate the tones of a guitar, Hawaiian guitar, banjo mandolin, banjo alto and violin. The instrument isn't ready for commercial use yet.

Prizes for the best invention include 150,000 francs (\$425) in cash. Guston Eickacker, who lists Algeria as his birthplace, showed a design for a proposed new trans-Atlantic steamer. The drawing looked like a hotel or apartment house with propellers on the bottom.

A legend explained that the ship would run on sea water and air and utilize five new methods of propulsion. The idea seemed to be that water would be compressed as a means of generating electricity which would operate the ship.

Marcel Legros of France showed an ocean-going vessel shaped like a whale, with propellers extended downward from near the front of the ship.

Fancy Salad Shaker  
French inventions turn naturally to food and beauty. There was a salad-shaker with concealed sponge which enables the housewife to clean her salad without shaking drops of water on the kitchen floor.

A device for housewives cuts cake in mathematically exact parts for any number from five to 12.

The tiny principle of Monaco displays a "micromap" for the dashboard of an automobile. It unrolls behind a magnifying glass to show the route chosen.

Britain offers a bicycle which can be ridden from a semi-reclining position. The pedals are mounted on a small front wheel and a hammock-type seat with a back is provided over the back wheel.

Family Kidnaped, Freed After Theft Of \$500 By Gunman  
YOUNG TOWN, OHIO (AP)—A masked gunman kidnaped a family of five Saturday, forcing them at gunpoint to take him to a grocery store where he looted the safe.

Leo Daff, the kidnaped father, was manager of the store.

The gunman, surprising the family at home, took them to the store, where he forced Daff to open the safe.

The Daff's two young daughters were downstairs when the bandit arrived. When Mrs. Daff protested she did not want to leave her three-year-old son asleep in the house, the gunman escorted the parents to the child's bed and insisted that the youngster be taken along.

About \$500 was believed taken.

# Indians Rout Big Spring To Take First Round Playoffs

## Eddie Jacome's Sturdy Arm Brings In 8 To 2 Triumph

**By COPE ROUTE**  
The Midland Indians—relying for the third time in four nights on the sturdy right arm of Eddie Jacome—battled their way Saturday night in the finals of the Longhorn League's championship Shaughnessy playoff.

Playing a brilliant defensive game, even in the face of four infield errors, the Indians crushed the Big Spring Bronco, 8-2, to sweep the four-game first-round series.

They turned in a quartet of double-plays and left fielder Bill Brown and centerfielder Gahlen Dinkie contributed to the defensive drama with a pair of spectacular catches.

# Artesia Hits Odessa, 9-7

**ARTESIA**—(P)—The Artesia Drillers Saturday night overcame an early inning deficit here to edge the Odessa Oilers, 9-7, and stay in the Longhorn League playoffs. The playoff scoreboard reads: Odessa, 3, Artesia, 1.

Artesia slipped out ahead in the second inning with a lone tally, but Odessa overshadowed it with a five-run third frame.

The Drillers hit Odessa's 'Lefty' Parker for 13 hits and seven runs in six and two-thirds innings and gained the winning tallies off Frank Perez in the eighth inning.

# Yankees Win, 6-5, To Widen Lead

**CHICAGO**—(P)—The New York Yankees needed a game and a half ahead of the Cleveland Indians in their torrid pennant scrap Saturday by shading the Chicago White Sox, 6-5, on the masterful relief pitching of Allie Reynolds and Billy Martin's sharp hitting.

The victory, coupled with Cleveland's 4-3 loss to Boston, gained a full game for the Yankees, whose ace Reynolds came in with Sox on second and first in the ninth with none out and cleaned up things with only one score and not a ball hit out of the infield.

Luckless Lester Marv Grissom, 35-year-old right-hander, struck out 13 to tie the American League's season high, but gave up 13 hits.

# A's 11, Tigers 5

**DETROIT**—(P)—The Philadelphia Athletics crushed rookie pitcher Bud Black of the Detroit Tigers with five runs in the first inning and then scored six more runs in the eighth to break a dead-lock and gain an 11-5 victory Saturday.

The score: R H E A's 11, Tigers 5. Philadelphia 000 000 000—11 13 2 Detroit 000 000 000—5 10 1 Bishop, Newsum, Byrd and Aschewitz; Black, Hoelt, Madison, White and Olinberg.

# Adrian Burk Leads Eagles In 35-14 Win

**PHILADELPHIA**—(P)—Big Adrian Burk outmaneuvered the Los Angeles Rams and their vaunted passing duo, Bob Waterfield and Norman Van Brocklin, to lead the Philadelphia Eagles to a 35-14 victory Saturday in a National Football League exhibition game.

The Rams scored first when Andy Robinson blocked Burk's punt in the end zone and recovered.

# Oklahoman Praises Democrats' Record

**DES MOINES**—(P)—The Democratic Party's record of the last 20 years is "a priceless advantage" in campaigning for the forthcoming presidential election, Roy Turner, former Oklahoma governor, said Saturday night.

The Democratic farm policies have worked, Turner told a banquet meeting of the Polk County (Des Moines) Democratic Central Committee.

# Stanton Buffaloes Smother Big Spring B Team By 35 To 0

**STANTON**—The Stanton Buffaloes ran roughshod Saturday night over the Big Spring B team, 35 to 0, in opening the 1952 season.

# Tenth Inning Homer Upsets Indians, 4-3

**CLEVELAND**—(P)—Ted Lepcio's tenth-inning homer gave the Boston Red Sox a 4-3 victory over the Cleveland Indians Saturday and dropped the Tribe a game and a half behind first place New York in the hot American League pennant race.

# Grid Hopes Rise For Earlier Nicolls Return

**By JIM LINDSEY**  
His face mirrored the longing to be on the field. Frequent shouts of encouragement to teammates showed his heart was in the game. Keith Nicolls, the Indian ace right-hander, craved to be playing instead of sitting in the box down on the first base side.

Nicolls still experiences difficulty in lifting his left arm. Soreness hangs on. He went to Abilene by plane Thursday to have the shoulder examined by Joe Gerber, noted trainer at Hardin-Simmons University and friend of Glenn Selbo, Indian right fielder. Selbo became acquainted with Gerber's skill while playing basketball at the Abilene institution.

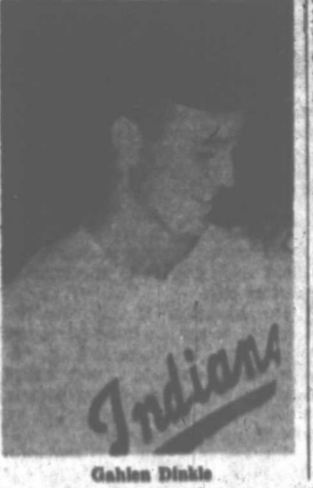

There were signs Saturday that Nicolls may be able to take a turn on the hill by mid-week. Only time will give a definite answer. And it will require another day or so to assume with any certainty that the 26-game winner this year can go in the playoffs.

The Atlanta Crackers of the Double A Southern Association keep pressing their interest in Nicolls. The Indian management appears more and more receptive to the advances by the Crackers who'll probably send representatives to watch Nicolls if he recovers sufficiently to perform in the Shaughnessy.

Keith Nicolls

The Indians voted to divide the special Longhorn League "kitty" with nine full shares, eight one-half shares, two to get a fourth share each and one player to receive three-fourths of a share. The Tribe will get \$746 from a special fund built up by taking one cent of each admission during the season and dividing proportionately among the four teams participating in the Shaughnessy. Pat O'Keefe and Pat Waters, who have departed the club, were cut in.

Gahlen Dinkie

The homefolks witnessed in Indian Park Friday night more of the sparkling defense work exhibited by the Indians in the first games at Big Spring. Galloping Gahlen Dinkie's back-handed stab of the Ocaso Alvarez roving drive to left center with two Bronco on the pond equalled anything seen in the gardens here this year. The door-like outfielder had come up with some sensational catches in Big Spring. Dinkie saved two runs and probably three with the spectacular catch Friday night. As a fan commented, "his better than hitting a home run by far."

# Giants Pick Up Game On Brooks

**NEW YORK**—Young Hoyt Wilhelm saved the day again Saturday and the New York Giants showed their deficit in the National League race to three games by overcoming the Cincinnati Reds, 3-2, before a crowd of 3,843 at the Polo Grounds.

Combined with the league-leading Brooklyn Dodgers' 5-3 defeat at the hands of the St. Louis Cardinals, the Giants' victory gained Leo Durocher's men a full game in the red-hot pennant chase.

# Rookie Stops Brooklyn, 5-2

**BROOKLYN**—(P)—Stu Miller, precocious rookie righthander of the St. Louis Cardinals, stalled Brooklyn's National League pennant drive Saturday as he pitched the Redbirds to a 5-3 victory over the Dodgers.

# The STARRINGS

**SATURDAY'S RESULTS**  
Longhorn League Playoffs  
MIDLAND 8, BIG SPRING 3 (Midland win first round, 4-0).  
Artesia 9, Odessa 7, (Odessa leads 3-1).  
Texas League Playoffs  
Dallas 11, Oklahoma City 3 (Dallas leads, 3-2).  
WT-NM League Playoffs  
Borger 6, Albuquerque 1 (Borger leads, 1-0).  
Amarillo 3, Clovis 3 (Series tied, 1-1).  
National League  
St. Louis 5, Brooklyn 2.  
Boston 8, Pittsburgh 6.  
New York 3, Cincinnati 2. (Only game scheduled).  
American League  
New York 6, Chicago 5.  
Philadelphia-11, Detroit 8.  
Boston 4, Cleveland 2. (Only game scheduled).

# Braves 8, Bucs 0

**BOSTON**—(P)—Lefty Warren Spahn, the major league's strike-out king, fanned the last-place Pittsburgh Pirates 13 times Saturday while turning in an 8-0 shut-out for the Boston Braves. He now has a season's total of 170.

That ended any hopes the Reds may have had of overcoming the Giants, and they wound up the day's proceedings with just four hits. The Giants scored the winning run in the sixth when Alvin Dark opened with a scratch single, went to second on Whitey Lockman's sacrifice and held up when Monte Irvin flied out. Bobby Thompson was passed intentionally and Elliott singled to left sending Dark across and that was it.

# Sul Ross Gallops By McMurry, 19-6

**ABILENE**—(P)—Faced by fleet Benny Mobley, 185-pound halfback from Odessa, Sul Ross College defeated McMurry, 19-6, here Saturday night in the season opener for both teams.

# Lamesa Roars To Victory Over Paschal High, 18 To 7

**PORT WORTH**—Unable to make a first downs in the opening quarter, Lamesa caught fire on Leonard Bartlett's 54-yard touchdown gallop in the early moments of the second period and roared to an 18-0 victory over Paschal here Saturday night before 5,400 spectators.

Nine plays after that explosion Lamesa had its second touchdown and the Tornados swept up the game with a third quarter in the fourth quarter.

# Robertson's Leads Midland Women's Bowling Standings

**JOE ROBERTSON'S** Guild Service Station is leading the Midland Women's Bowling Association with two games won and one lost.

# McAlester Hangs On In Sooner Playoffs

**MCALISTER, OKLA.**—(P)—McAlester posted its second straight win from Paul Valley Saturday night, 9-3, to stay alive in the Sooner State championship playoffs.

# Southwest Texans Bow To ACC, 20-7

**SAN MARCO**—(P)—Abilene Christian College strangled Southwest Texas State 20-7, Saturday night on the running of Jerry Mullins scored the first two touchdowns.

# Browns Lose Again

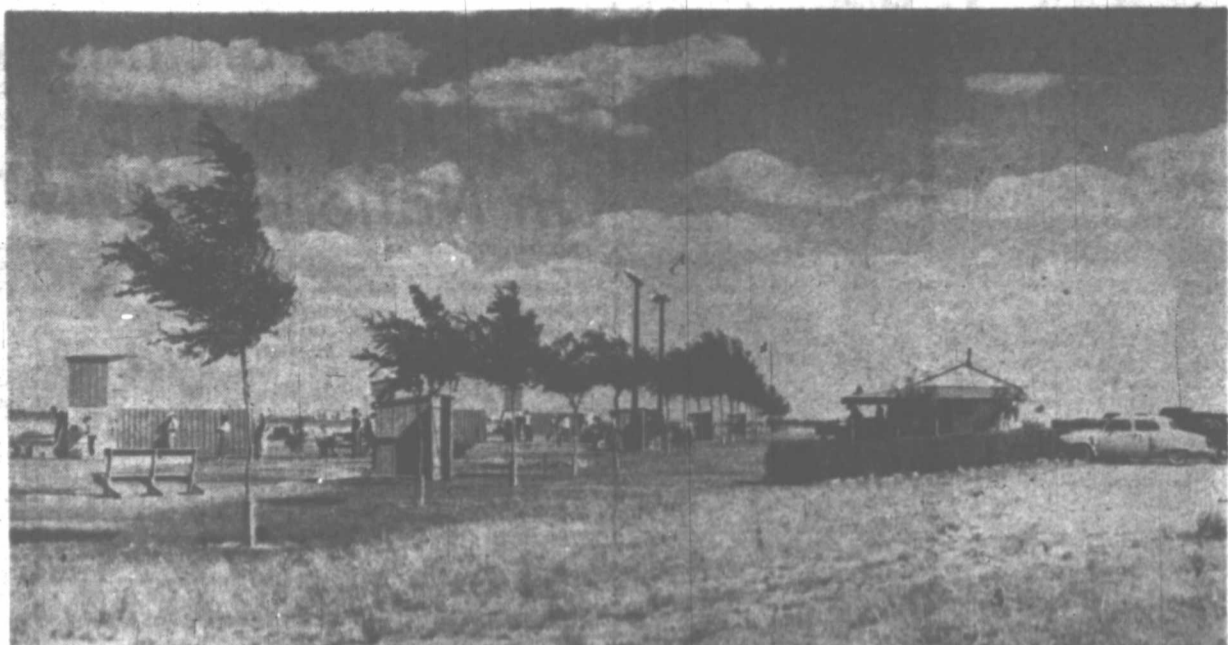

**AKRON, OHIO**—(P)—The San Francisco 49ers handed the Cleveland Browns their second straight loss Saturday night, 23-21, in an aerial duel. It was the first time in pro football history the Browns had lost two in a row.

# Stranahan, Ward To Clash For Western Championship

**CHICAGO**—(P)—Frank Stranahan and Harvie Ward swept through the Western Amateur golf semi-finals Saturday to set up a championship feud prolonged since last June when the two rivals tangled at Preswick, Scotland.

# Bowling League Sets Opening For Season

The City Bowling League will open its season's competition Wednesday night after a week's delay, it was announced Saturday. Postponement was caused when one team withdrew.

**CHAMPIONS FIRE AWAY**—The nation's best skeet shooters converged on the Midland Gun Club ranges over the weekend to seek hotly contested honors in the sixth annual, West Texas Open. The Bergstrom Air Base team from Austin had piled up a heavy run of points through Saturday to carry away the major share of awards. Major champions will be determined Sunday when the galaxy of shooting stars conclude the competition.

## Bergstrom Sharpshooters Win Lion's Share Of Early Awards

A team of sharpshooters roared in from the Bergstrom Air Force Base in Austin Saturday to clean up a lion's share of the early prizes in the sixth annual West Texas Open Skeet Shoot sponsored by the Midland Gun Club.

By the end of the second day's shooting Saturday afternoon, the team had picked up three out of five championships.

The tournament will close Sunday afternoon with the important All-Bore Championship

shoot as the feature attraction. The shooting at the Midland Gun Club began Friday afternoon and picked up speed Saturday as some 60 of the country's top marksmen showed up for the competition.

Col. C. T. Edwinton teamed with Mickey Michaelis of the Bergstrom Air Force Base to win the Two-Man 410-gauge championship as well as runners-up honors in the 28-gauge competition. Michaelis went on to win the

championships of the Sub-Small Gauge and the Small Gauge classes.

In the 20-gauge competition, Bill Fields, Sr., of Fabens shattered a perfect 100 pigeons to win the championship while the runner-up title will be decided Sunday afternoon in a shoot-off between Sgt. Cecil Jones of Austin, Bob Brown of San Antonio, Colonel Edwinton and Lt. Col. J. C. Gardner of Austin.

D. W. Conway and Fields of Clinton teamed up to win the

two-man 20-Gauge and 28-Gauge championships and finish as runners-up to Colonel Edwinton and Michaelis in the 410-Gauge class.

Other winners listed Saturday included:

**Sub-Small Gauge**  
 Class AA — Henry Adler of Dallas, champion and Sergeant Jones, runner-up.  
 Class A — M. N. Crawford of Rowell, N. M., champion, and Charles Printis of Fabens, runner-up.  
 Class B — Colonel Edwinton, champion, and Pauline Amburgey, Odessa, runner-up.  
 Class C — Tom Arn of Lubbock, champion, and Jim Green of Midland, runner-up.

**Small Gauge**  
 Class AA — Conway, champion, and L. S. Amburgey of Odessa, runner-up.  
 Class A — Fields, champion, and Crawford, runner-up.  
 Class B — Tatum, champion, and S. N. McKee of Odessa, runner-up.  
 Class C — Harry Lacey of Dallas, champion, and Betty Ragland of Dallas, runner-up.

The shooting begins again at 8:30 a.m. Sunday with a New Shooters Event scheduled for 1 p.m.

Awards will be presented during ceremonies following the closing of the shoot.

WITH ITS JARRING UPSETS—

## Southwest Gridders Open Next Saturday

By The Associated Press

Another Southwest Conference football campaign with its glittering Saturday afternoons and its jarring upsets opens next Saturday. This is the thirty-eighth race in the history of the storied circuit, as wide-open as a barn door when the horses are out to graze. Five teams are in the favorite class, either one of which could win the championship without an eyebrow being lifted.

Three of those five—Texas Christian, Arkansas and Texas—are among those opening the race this week. The other two, Southern Methodist and Rice, wait another week.

**TCU Plays Kansas**

Texas Christian faces the toughest opener. The Horned Frogs, defending champions of the conference, play Kansas at Lawrence Saturday afternoon. Kansas is loaded with talent and ready to repeat the victory it won last season in breaking a long TCU stranglehold.

Texas tackles a well-rated Louisiana State team at Baton Rouge Saturday night and won't find the opposition easy. And there's also

a jinx: Texas never has beaten LSU on its home field in a period of more than 50 years.

Other openers have Texas A&M playing University of Houston at Houston, Arkansas battling Oklahoma A&M at Little Rock and Baylor engaging Wake Forest at Waco. Aggies Face Trouble

The Aggies will have trouble with a vastly improved University of Houston and might take a trimming. Arkansas should roll over Oklahoma A&M and Baylor should beat Wake Forest although nothing like the 42-0 debacle of 1951. Arkansas beat Oklahoma A&M 42-7 last year but probably won't make it that bad this time. A&M never has played University of Houston before.

All of Texas' 16 senior colleges that play football will be in action this week. Texas Lutheran starts

out Thursday night, meeting Tyler Junior College at Tyler. Friday night Abilene Christian College engages East Texas State at Abilene and Austin College plays Southeastern Oklahoma State at Denison.

Games scheduled Saturday night: Trinity vs Southwest Texas State at San Antonio, Midwestern vs McMurry at Wichita Falls, North Texas State vs Texas Western at Odessa, Howard Payne vs New Mexico A&M at Las Cruces, N. M.

Texas A&I vs Stephen F. Austin at Nacogdoches, California Poly vs Sul Ross at Alpine, Sam Houston vs Louisiana College at Huntsville, Lamar Tech vs Southwestern Louisiana Institute at Lafayette, La., Texas Tech vs West Texas State at Lubbock, Hardin-Simmons vs Arizona State of Tempe at Abilene.

### HOMECOMING SET AT WINK

WINK—The fourth annual Wink High School homecoming has been set for Saturday, September 20, the day the Wildcats play the Kermit Yellow Jackets.

Miss Dale Howard, corresponding secretary, said a special section will be reserved at the game for ex-students and ex-faculty members.

"We want this to be the biggest and best homecoming yet," Miss Howard said.

### Dallas Texans Play For U. S. Wounded

DALLAS —(AP)—When the Dallas Texans open the National Football League season here September 28 against the New York Giants, they will be playing for wounded American soldiers in Korea.

The Dallas professional team will give one reserved seat ticket to the game to each person donating blood to the Red Cross.

## Pecos' Eagles Smash Enemy

BROWNFIELD—The Pecos Eagles relying on a stout forward wall and a fast-charging array of backs, smashed the hopes of the Brownfield Cubs here Friday night with a decisive victory that ended 20-0.

Starr McAnnally, Pecos tackle, paved the way for the first Eagle touchdown by recovering a Brownfield fumble on the Cub's 23 yard line. It was early in the first quarter, and the Eagles went to work with a will. Fullback Thomas (Son) Langham gained five yards around end, followed by Halfback Steve King who went eight yards for a first down. Johnny Cook, 145 pound halfback, who specializes in speed, went the rest of the way for the score. Pecos Quarterback Orlando Gutterres converted to make it 7-0 for the Eagles.

In the second quarter, Cook started the fireworks with an interception of a Brownfield pass on his own 42. He flashed 56 yards down the field to score, aided by some expert Pecos blocking. Gutterres converted again for 14-0. Eagles, and they forged

further ahead with a margin of 14-0 over Brownfield.

The third and final score for the Eagles came with less than a minute remaining before the end of the first half. Starting from their own 35 yard line, they advanced the ball down to the Brownfield 17-yard line, aided by some brilliant running by Langham. Gutterres hurled a jump pass to right end John Hess for the scoring play. The attempt to add the point after failed, and the first half ended with the Eagles leading the Cubs 20-0, which was also the final score.

In the second half, the Brownfield defense stiffened. The Eagles made two scoring threats. Once they got down to the Brownfield 11, only to fumble and lose the ball to the Cubs. This penetration was set up by a 26-yard run of Langham, the Pecos fullback. The second time, Johnny Cook rared the ball down to the Cub's six-yard line. From there, penalties and not enough yardage gained accused the Eagles to lose the pigskin on downs.

Brownfield never got inside the Pecos 20 yard-line, and failed to register a serious scoring effort.

Pecos gained a net yardage of 309 against 100 for Brownfield. The Eagle quarterback, Orlando Gutterres, completed seven out of 15 passes to gain 50 yards, while the Cubs made good one out of five for a total of 11 yards passing. Pecos racked up 21 first downs compared to eight for the Brownfield team.

For the Eagles, Langham, the 190 pound fullback, was a standout with his fast-charging runs. Billy Thomason, 185-pound, fullback, was the leading ground gainer for the Cubs. The Eagles had four costly fumbles during the game while inside the Cub's 20-yard line.

Pecos is a District 1AA team, while Brownfield is assigned to the District 1AA group.

FTY—Little Phil Skirrow sells clothing during the off-season, as game is busy, outfitting Ewell Blackwell with a Yankee uniform after the stringbean pitcher was acquired from Cincinnati. (NRA)

# 11 Letter Winners Return To Bolster Golden Tornadoes

LAMESA—The Golden Tornadoes of Lamesa High School, who went through their first test Saturday night against Pascal High School in Fort Worth, settle down Monday to prepare for the tough job they face in Midland Friday night against the Midland High School Bulldogs.

Coach O. W. Follis said there will be no let-up in the tough twice-a-day grind he has prescribed since the runners-up in last year's District 1-AAA competition began training September 1.

Because of the mid-afternoon heat, the Golden Tornadoes are working out in the early morning between 7 and 8:30 o'clock and again in the late evening between 6 and 7:30 o'clock.

Lamesa has 11 returning lettermen to bolster this year's squad, but only four were regular starters last season. Tackle Alvin Smith, Guard Glynn Crockett (who has been switched to fullback) Center Carlos Berry (converted to end), and Halfback Jimmy Robinson are the four returning regulars. The possible loss of Berry for some, or all of the season, may hit the Tornadoes' chances hard. The all-district defensive center from last season, injured a knee in practice early this week, and doctors say it will be several days before they can tell how bad the knee was damaged.

Other lettermen who will be counted upon heavily for this season are Johnny Jones, quarterback; Donnie Koonce, halfback; Bobby Burnett, halfback; Leland Bartlett, fullback; Hulan Preston, tackle; Dee Phillips, tackle; and Olen Matthews, guard.

Biggest problem facing this season's coaching staff is replacing the three keymen of last season—Quarterback Jerry Mississippi, and Ends Marshall Crawford and Ray Taylor, each an all-district performer. Junior Johnny Jones is looking good in the quarterback slot in Lamesa's "T" and Sherrod Dunn, reserve letterman, looks promising at one of the end posts. If Berry is unable to play, Billy Hatchett, a B-teamer last year, will probably hold down the other end position.

Crockett, 175, has been impressive in his debut at the fullback slot, after being converted from a guard position. He is the hardest and fastest runner on the squad. Donnie Koonce, a demon on defense, has also looked sharp on offense with his hard running at halfback. The Tornadoes ground attack has looked much better in scrimmages than the air game, but Jones' passing is expected to improve as the season progresses. Robinson is at the other half and was sixth in the district scoring last year.

Three reserve lettermen are shining in the Tornado line and will probably start starting berths. They are Guard Carl Todd, 150-pound converted fullback; Lawrence Hill, 158-pound guard; and Millard McDowell, 155-pound center.

A tentative line-up of Hatchett and Dunn, ends; Smith and Phillips, tackles; Hill and Todd, guards; and McDowell, center; would average about 164 pounds. The back field would average about 156 with Jones, quarterback; Koonce, half; Robinson, half; and Crockett, fullback.

Sweetwater has been tabbed as a solid forward in the middle with All-District Alvin Smith and Phillips at tackles, and Hill and Todd at guards.

Lamesa has one new coach on this season's staff, that being Bill Pusey, former Llano coach. He handles the line along with Follis, with Russell Coffee back to pilot the backs, and Jack Wetzel to tutor the B squad.

# Teams Bunch For Bowling League Lead

Ten teams are tied for first place in the Petroleum Bowling League, having won one game each, Ted Woody, secretary, reported Saturday.

In league play Thursday night, Kenny Jastrow, of the Phillips 66 team, bowled a high game of 212. Ford Beuhrie, of Al Boring Drafting Service, had a high series of 567. Ohio Oil Company was the team with highest score in a game with 861. They also paced the series with 2295.

Results of league play follow: Ak-sion Manufacturing Company over American Trading Company, Honolulu Oil Company over Core Laboratories, Ohio Oil Company over Midland Geophysical, Rotary Engineers over Sohio Petroleum Company, Al Boring Drafting Service over Phillips 66, Stuart Photo Plant over Seaboard Oil Company, State Exploration over Standard of Texas, Superior Oil Company over Tex Harvey Oil, Union Oil Company over Tidewater, and West End Magnolia over West Texas Reproduction Company.

# Midlander Pitches Abbreviated No-Hit Game For Air Force

Frank Roberson, 20, tossed a no-hit, no-run, five-inning game for his Air Force team in Wisconsin recently to add new laurels to his athletic record which began in Midland High School and TCU.

The son of Mr. and Mrs. Joe Roberson, 411 North Carrizo Street, now is an airman second class stationed at a radar base near Ekorn, Wis.

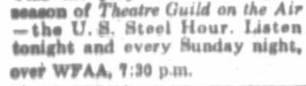

His father, former American Legion coach here, was his trainer prior to his entering the service.

Frank struck out five and walked five in beating the Walworth, Wis. team in the Walworth County Fair series. The game was called after the fifth inning because of rain. Roberson's team was the 2-0 victor.

In reaching the playoff Roberson had hurled his Williams Bay Pathfinders to an earlier victory with a five-hits performance.

It Pays To Advertise.

# STARS IN OPENING

Hear Joseph Cotten tonight in the radio premiere of "The Waterbury Trees," co-starring Helen Hayes. This hit play starts the eighth season of Theatre Guild on the Air—the U. S. Steel Hour. Listen tonight and every Sunday night, over WFAA, 7:30 p.m.

# MIDLAND TIRE CO.

Ken Edmondson, Owner  
3201 W. Wall Ph. 2-1351

THE LADIES HAVE IT—Bowling season is under way again in Midland. And the fems were out in record numbers. Opening night presented a galaxy of good lookers as well as good keggers. Paula Lassiter smiles a greeting in the photo above. Blonde Lora Clark sends one down the alley in a picture of form. Billie Ray, left, and Clarine Laurence pick up the bowling ball in taking their turn on the boards. It's Timber Time!

# Rankin Red Devils Return To 11-Man Wars With Win

RANKIN—The Rankin Red Devils playing their first 11-man football in five years, submerged a fighting Lohm eleven here Friday night with a 20-0 victory. The Devils might have made it an even more impressive win, as they knocked at the gates for two more touchdowns.

The first break for the Devils came in the opening quarter when they succeeded in blocking a Lohm punt on the 30-yard line. Two plays later, Halfback Norman Yocham

circled end for the initial Rankin score. Yocham made the extra point on a run attempt, putting the Devils ahead 7-0.

In the second quarter, Yocham duplicated his first touchdown with a second, made with an identical end run. An extra point pass attempt failed, and the score stood at 13-0. The second tally was set up by a pass play from Jimmy Yocham to Bruce McCain, who snared the ball on the Lohm 36 amid a host of Lohm defenders.

The first half ended with the Rankin Devils threatening Lohm with another touchdown effort on the Lohm three-yard line.

Homer Rosenbaum started the action for the Devils in the third quarter by covering a blocked pass on the Lohm five-yard line. Halfback Don Murphy stepped over the goal line on his fourth attempt to crack through the line. Norman Yocham passed to Murphy for the extra point, giving the Devils a neat margin of 20-0.

And there the scoring ended. The ball changed hands four times in the fourth quarter. There was one pass interception, but no further tallies emerged.

Lohm marched to the Rankin eight-yard line late in the fourth quarter in its only scoring threat of the game, but lost the ball on downs. The game ended with Lohm on the 50-yard line.

Clifford Chandler, diminutive Rankin halfback, who weighs all of 100 pounds, was a potent threat. He threw several key blocks that sprung Rankin backs loose for their galloping long run.

# Pioneers Capture Playoff Inaugural

By The Associated Press  
Clovio took up in the play-off Friday night where it left off in the regular West Texas-New Mexico League flag race—as the winningest team.

The champion Pioneers clipped Amarillo 5-2 in the opening game of the best-of-seven play-off series. Bill Hair gave up more hits, 8-7, than Amarillo's Lefty Howard Walters in an all-the-way mound duel, but he had homer support. Sonny Tims and Winston Havenstrite popped one-run home runs to get Clovio its 95th victory of the year.

# Murphy Opens Club For Physical Culture

Pat Murphy, erstwhile Bays Club impresario, has opened a physical culture club in Room 319 of the Crawford Hotel, he announced Saturday.

Murphy pointed out his years of training in handling athletes, particularly boxers. He said that his new service was designed to keep Midlanders in the 40-age bracket "young and in the best of health."

Murphy has set aside Thursday as a special day for women desiring physical culture attention.

THE LADIES HAVE IT—Bowling season is under way again in Midland. And the fems were out in record numbers. Opening night presented a galaxy of good lookers as well as good keggers. Paula Lassiter smiles a greeting in the photo above. Blonde Lora Clark sends one down the alley in a picture of form. Billie Ray, left, and Clarine Laurence pick up the bowling ball in taking their turn on the boards. It's Timber Time!

# Seminole Indians Capture Denver City By 24 To 18

SEMINOLE—The Seminole Indians scalped the Denver City Mustangs, 24-18, in a thrill-packed season opener Friday night at Indian Field.

The scamping heels of swift Indian backs spelled the difference in the score, with the Mustang line turning in a stellar performance.

Following a scoreless initial period, Denver City opened the scoring spree with Fullback Charles Lenamond making an off-tackle plunge from the two yard marker. End Eli Casey's kick for the point was blocked.

Seminole retaliated in the same period with Fullback Sparks, an all-district player last season, opening up a hole in the Mustang line and scampering 56 yards to paydirt. He attempted kick for the point was blocked, with the score remaining 6-6 at the half.

The Indians went wild in the third, pushing over three touchdowns. John Wilson, quarterback, pulled a sneak from the open yard line after a 54 yard drive. Brad Crawford's kick for the point was blocked.

Danny Phillips blocked a Denver City punt, minutes later, on their 45 and raced to the 25. On the first play from scrimmage, Halfback Charley Hargrove bulldozed his way over left tackle to the double stripes. Sparks' kick for the point was blocked.

In the closing seconds of the third stanza, Wilson staged "keeper" plays and swivel-kipped his way 71 yards for a TD. Crawford's kick was wide.

Denver City dominated the field in the final period, ehaling up two touchdowns. After a 60-yard sustained drive, Halfback Charles Ward scored from the two. In the closing seconds of the battle, Ward scored again from the one, climaxing a 44 yard drive.

Seminole is a District 8-AA team, while Denver City is favored to cop the title this season in District 4-A.

# Champion Bowling Team Makes Fast Start This Year

Car Truck Rental, 1951 City Major Bowling League champions, is off to a rousing start this season with two victories over the Houston Hill team.

Three other teams are pushing the Car Truck Rental team with records of two wins and one defeat each. Banner Dairies has won two from Aluma Kraft, American Legion took two from Willis Engineering Company, and The Reporter-Telegram had edged Mid West Glass & Paint Company two games.

Ken Baker had a 160 for high series, and a 100 for the highest score in a game.

# Wave Of Fainting Sweeps Cheering Section At Game

NATCHEE, MISS.—(AP)—An entire cheering section was hospitalized Friday night after a wave of fainting swept through a group of Monroe, La., girls attending a high school football game.

The 150-member group, known as the "Tigerettes," was lined up at the goal posts at halftime.

Mrs. Bert J. Heinburg, mother of Tigerette Jo Ann Heinburg, 16, said the girls "started dropping out like flies."

She quoted an unidentified doctor as saying the fainting was due to "mass hysteria" and another as attributing it to "food poisoning."

# Billiard Tourney Planned In City

A Fall three-cushion billiard tournament will be held at the Midland Recreation Club, 211 West Wall Street, beginning about the first of October.

Entries will be taken at the desk, with roundrobin play slated—each entrant playing a 25 point match against every other player. Matches can be played at any hour on any day suitable to both men.

A committee will assign a handicap for each entrant. The list will be available at the desk for information and comment.

# Walcott-Marciano Bout Interest Up On National Scale

PHILADELPHIA—(AP)—A booming sale of \$40 ringide tickets reflects the intense nation-wide interest in the September 28 heavyweight title bout between Champion Jersey Joe Walcott and Rocky Marciano, the unbeaten challenger.

Orders for the top price tickets are flooding the office of Co-Promoters Jim Norris and Herman Taylor. And they are coming from every section of the country.

"We will do better than \$600,000," said Norris. "I don't know how much better. But it may surprise everybody. It's the biggest heavyweight promotion since the Joe Louis-Walcott return, a real old-fashion heavyweight championship promotion."

Old Days Recalled  
"It looks like the old days when people from all over the country felt they had to be on hand for the title fight. Maybe it's because there will be no home television. Maybe it's because of Marciano. Or maybe Walcott finally has caught on as the champ. Whatever the reason, it looks big."

Theater television outlets already are hanging out the sellout signs and some are charging as much as \$4.00 per copy. The Theater-TV chain will extend to California. For the first time even drive-in theaters will be included. Motion pictures of the fight will be available the next day.

While the promoters greet the harvest of Greenbacks, the two fighters step through their paces at widely separated points. Walcott, the 38-year-old champ, does his stuff at Atlantic City where he trained for his successful defense against Edward Charles, Marciano, just past his twenty-eighth birthday, works out at Grossinger, N. Y.

After watching both boys drill, ex-champ Jack Dempsey predicted "another Dempsey-Firpo bout." He wouldn't pick a winner. Others have not been so bashful about declaring themselves.

Although the odds have wavered slightly below the original 2 to 1 price favoring Marciano, there is strong support among the boxing folk for the old gaffer from Camden, N. J.

"A man is as old as he feels," said Walcott at a recent training session. "I feel young and I act young. When a man has an incentive for winning, as I have since winning the title, there's nothing going to stop him except a knock-out punch. I don't think Marciano can knock me out. I think I can knock him out. We'll see."

# Port Arthur Wins, 18-7

PORT ARTHUR—Port Arthur's Yellow Jackets rolled like a tidal wave over the Odessa Bronchos, 18-7, in Texas' first big Class AAAA football clash of 1932 Friday night at Yellow Jacket Stadium.

Erasing a second quarter Broncho score, the Jackets loosed coachbacks Garland Turano and Bill Farham to go with Ronnie Amun's clutch passing to register something of an upset before 11,000 persons.

The Bronchos lone tally came on the first play of the second period with Edwin Adams firing a 51-yard pass to Ed Johnny Held. Bob Barber split the uprights for a 7-0 margin.

Getting a chance to show before the "home-folks" again will be Roy Heard, 190 pound letterman tackle, and T. W. Harvey, 190 letterman halfback. Both played for the Odessa High School Bronchos and are scheduled to be in the first string defensive line-up for the Miners.

Clovio Riley of Albany, who starred for the Odessa College team two years ago will open at right halfback for the Texas Western eleven. Jack Burris of Midland is the first-string offensive left half and LeRoy Gibson will be a first-string defensive halfback this season.

Other Permian Basin cast on the Texas Western squad includes Bobdy Carman, center; Wink; Bill Medart.

# Cowden Juniors Set For Odessa Opener

Season play will be opened by the Cowden Junior High School football team with Bowie of Odessa there at 2:30 p.m. on September 27.

Other conflicts on the seven-game schedule are:  
October 4, Crockett of Odessa, there, 2:30 p.m.  
October 11, Open.  
October 18, San Jacinto, high school stadium, 2:30 p.m.  
October 25, Crockett of Odessa, here, 2:30 p.m.  
November 1, Lamesa, here, 2:30 p.m.  
November 8, Bowie of Odessa, here, 2:30 p.m.  
November 15, San Jacinto, high school stadium, 2:30 p.m.

# San Jacinto Football Team To Inaugurate Season September 27

The San Jacinto Junior High School football team will open season play with Crockett of Odessa here at 2:30 p.m. Saturday, Sept. 27.

Other conflicts on the seven-game schedule are:

# "Own Your Own Home"

—this phrase takes on new and greater significance this week as the entire nation observes National Home Week, September 14 to 21. During this week, the Realtors whose names appear below will make special efforts to provide home-seekers with the exact kind of property they want to call "home". During recent weeks, every member of the Midland Real Estate Board has added materially to his list of good real estate investments, in order that you may have the best possible selection. Check with your Realtor during National Home Week!

**For Your Protection . . .**

--- watch for this emblem. It denotes membership in The Midland Real Estate Board and affiliation with the National Association of Real Estate Boards. Real estate dealers displaying this emblem have agreed to uphold high standards of ethics and business conduct required of every Realtor!

REPORTING THE TOP NEWS IN REAL ESTATE

NATIONAL HOME WEEK is being celebrated. To all home-owners, we compliment you. To all prospective owners, we sincerely hope that your plans for purchasing a home materialize soon... and our business is to make your dreams come true. Here is a partial list that may assist your happiness.

BECAUSE IT'S JUST DIFFERENT enough to offset it from the other homes that you've seen, you'll like this 3-bedroom, 2 1/2 bath home. Located in the N-W section, it has the clean lines of white Roman brick. Long utility room, attached garage, and covered front porch. Luxurious neutral carpeting thru-out, central heating and air-conditioning, and insulation. You'll appreciate spaciousness in the living room, and you'll love the inviting kitchen. With nice people and a puppy-dog, this house becomes a home. Priced at \$23,000.

DRIVE BY 1706 NORTH BIG SPRING, then call us to see the floor plan of this exquisitely attractive home. Two huge bedrooms, family-size tile bath, magnificent kitchen with ceramic tile features, separate breakfast room and full dining room. Immaculately clean throughout. Distributed heating, water cooler, carpeting in the living and dining rooms and hallway. Insulated, high tile fence, and attractive grounds. It's only 3 years old.

I HATE MYSELF when I do things like this, but I've bludgeoned a home-owner into selling his home for as little as \$990 down—and \$18 closing costs. It is one year old, has two nice bedrooms (one is finished like a paneled den), large closets, living room and dining space, and well arranged clean kitchen. Central heating, central air-conditioning, YOUNGSTOWN metal cabinets, Vent-A-Hood for your stove, and tile bath. Excellent loan established. If this home does not at least interest you moderately, you're probably not able or ready to buy a home. Oh, yes. The street is paved.

IT PAYS TO BE PAID, and that is what we can live up for you. Behind this home is an apartment, attached to the garage, which will assist you in your monthly income. It comes completely furnished. Constructed of asbestos shingle with two nice bedrooms, clean bath, living room, and neat kitchen with breakfast area. They are only one year old, and located near Crockett grade school. Immediate possession. Full price: \$10,500.

REMOVED FROM THE CRY of city wilderness and commerce, this spacious home offers warm sanctuary and welcome relief. Still, it is only 10 minutes from town. Constructed of cream velour brick, it has 3 generous bedrooms, gigantic bath, lovely living room, full dining room, two porches and an over-sized 2-car attached garage. In excellent condition throughout. Central heating, central air-conditioning, beautiful pecan floors. A tile fence surrounds the full 128x171 lot which has a beautiful head of grass. Enthusiastic water well. By-appointment only.

ONE BOTTLE TOP & \$519 DOWN will put you in buying position on this JOHNS-MANSVILLE asbestos home. (Any kind of bottle top.) Located 2 blocks from Crockett grade school, it has two nice-sized bedrooms, large living room, kitchen big enough for your breakfast set. Good air-conditioner. Paved street, and on bus line. Close in. Full price is \$6,300.

CHRISTIAN DIOR MEANS ELEGANCE in female fashions. SKYLINE HEIGHTS means rambling Midland homes. KEY, WILSON & MAXSON means the best of homes at the best of prices. And here is elegance in Skyline at a KWM price. The exterior is knitted in Austin Stone, and the interior is straight-line cut into 2 graciously large bedrooms, magnificent living room with patch-pocket Austin Stone fireplace. Full dining room, ceramic tile "private" room. Accessories to be worn: high tile fence, green and beautiful lawn for the cocktail hour or evening enjoyment, wonderfully nice neighbors. For your lay-away, large closets. Designed for your better living, and fashioned for your pocketbook. \$18,500.

TO THE REALM OF BEAUTY, where living latitude and comfort are paramount, this is one architect's contribution. It has 3 lovely bedrooms, den, 2 ceramic tile baths, utility room, and a 2-car attached garage. The dream kitchen has tile features, a host of cabinets, and a really spacious dining area. The paneled den is appointed with a cork floor, balanced decorator's colors, and is highlighted by the Austin Stone fireplace. There is another wood burning fireplace in the 30-foot living room. Of course, there are limitless closets, mahogany doors, central warming and cooling systems. And all these features are snugly wrapped in Burgandy-blend brick. It's only 5 months old. Priced under \$35,000. Please, by strict appointment only.

THE MIDLAND BOND ISSUE will be passed soon, and a beautiful park will be established. Near this location we have an attractively priced 2-bedroom home. It has a nice living room, separate dining room, and clean kitchen (and you can pass from it to the rest of the house without going thru the living room). Attached garage which is finished and can be converted into a den. Furnace heating, paved street, and it is priced at ONLY \$8,500. It's on Kentucky.

We enthusiastically urge you: Join the P-T-A (Parent-Teachers Association). After all, it is for the betterment of you, your children, and your nation.

THE OUTSTANDING FEATURE of Beauty is sincerity. And here is a home embodying pure, sincere lines. Constructed of classic, white Austin Stone, it has 3 bedrooms, tile bath and kitchen (with a paneled breakfast area), and attached garage which can be arranged as a spacious den. Beauty is comfort; also, so there is central heating and air-conditioning guaranteeing it. Soft-Persian carpeting throughout, automatic washer facilities, and all this is located on a deep lot. You'll like your new neighbors. \$14,750.

HOMES ARE NOT BOUGHT with buttons, but with the idea of added comfort. Put away the buttons, and find comfort in this 2 large bedroom home located on upper Main Street. Huge living room, separate dining room (for your large suite), family-sized bathroom (with two closets) on a 90x293 lot. It has a crescent driveway in front, and an eager water well. Approximately 1,200 sq. feet of living space for only \$10,500.

HOW MANY ZEROS ARE THERE in a quintillion? What's this got to do with houses? Nothing. I just wanted to know.

WE LOVE THE LITTLE CITIZENS, but, boy, how we hate to drive them to and from school every day. Why not buy near the new Lamar School? It's got 3 bedrooms, ceramic tile bath, very spacious living and dining room combo, nice big kitchen with breakfast area, and attached carport. Utility room with connections, central heating, YOUNGSTOWN sink unit and cabinets (with Lazy Susan). The street is paved and pretty. The homes are new and attractive. We'll call for you now, and you'll thank us later. Excellent financing arrangements available. Priced at \$12,700.

FOR MR. MODESTY AND FAMILY we have what we believe is the perfect home. It is located in TOWN NORTH on a paved street, and consists of 3 bedrooms, den, large living room, wonderful kitchen with a 10 foot walk-in pantry. Panel-ray heating, central air-conditioning, oak floors. Lots of wonderful neighbors with young citizens like your own, and they'll welcome you and yours. (And bring along the dog.) Priced far below the market at ONLY \$9,900, and excellent financing. Owner transferred.

**WE PAY FOR OUR MISTAKES!**

During the many years we have been in the building business, we have occasionally made bids so low that we lost money on homes and commercial construction jobs. Before you let a contract on your new home, be sure that your builder will be able to complete the job in case he bids so low he loses money on it... otherwise, you may wind up in a legal tangle. Our complete service includes building locations, plans, construction and financing connections... together with a GUARANTEED BID!

SECTION TWO

## El Paso Natural Proposes Big Program For Handling Gas From Spraberry Areas

An enormous financial expenditure for the construction of gas gathering lines, gas processing units and gas transporting trunk pipe lines is planned by El Paso Natural Gas Company for the Spraberry Trend areas adjacent to Midland.

Applications which have just been filed with the Federal Power Commission in Washington.

A large total expenditure totaling \$176,000,000 is proposed by El Paso Natural in the application. Not all of this is to be spent in the Spraberry coun-

ty—but a considerable portion of it will be—if the applications are granted.

## Producers Watch Effect Of Treaty With Venezuelans

WASHINGTON—(AP)—Domestic oil producers are watching closely for effects of the newly signed U. S.-Venezuela trade agreement slating duties on crude imports.

The duty five and one-fourth cents a barrel on oil with an American Petroleum Institute (API) rating of less than 25 degrees and 10 1/2 cents on oil rating above that. The old duty was 10 1/2 cents on all imports amounting to less than five per cent of U. S. production and 21 cents on imports exceeding that amount.

The cut applies to all oil exporting countries sharing in the most-favored-nation policy.

A spokesman for the Independent Petroleum Association of America, which opposed the new pact, said little effect on imports could be expected before the middle of October.

The agreement proclaims Thursday to take effect October 11, makes

## NW Dawson Gets Wildcat To 9,000 Feet

W. A. Moncrief of Fort Worth is to start operations at once at his No. 1-9 Scanlon well which is scheduled to be a 9,000-foot wildcat in Northwest Dawson County.

It is 18 miles northwest of Lamesa and 1,900 feet from south and 600 feet from west lines of section 20, block M, T-4-S, T&P survey.

## New Gas Concern Projects Pipe Line

WASHINGTON—(AP)—The newly formed Gulf Interstate Gas Company of Houston has asked Power Commission approval to build a 30-inch pipe line from Louisiana to the Kentucky-West Virginia border.

The \$158,000,000, 890-mile line would extend from Regma in Arcadia Parish County, La., to Boyd County, Ky., near Huntington, W. Va.

## Yarborough Offices In New Location

Offices of Yarborough Oil Reports of Midland are now located at 200 Edwards Building. That structure is at 206 North Main Street.

The Yarborough offices had been in the Petroleum Building for many years. The organization is owned and operated by Mrs. C. B. (Katherine) Yarborough. It handles all sorts of oil industry reports, particularly those required of operators by the Railroad Commission.

## Geological Picnic Saturday Attracts Large Attendance

More than 400 persons attended the annual picnic of the West Texas Geological Society in Midland Saturday.

The affair was held at Cole Park. A barbecue dinner was served.

The affair started at 2 p. m. Prior to the serving of the food at 6 p. m., various games and contests were staged. A considerable amount of visiting and other forms of fellowship was in evidence.

## DeKalb Sets Wildcat In Glasscock

DeKalb Agricultural Association, Inc., of Lubbock has staked location for a 3,500-foot wildcat in Southeast Glasscock County as its No. 1-7 TXL.

Location is 600 feet from south and east lines of section 20, block 23, T-5-S, T&P survey and 13 miles southeast of Garden City.

Projected depth is calculated to take the test to the lower Permian.

No. 1-7 TXL is one mile west and one-quarter of a mile north of the discovery well of the South Garden City (Wichita-Albany) field.

Coring ahead

Seaboard Oil Company of Delaware is coring after a drillstem test in the lower Permian zone on its No. 1-A Bishop, one-location northeast of the discovery.

The test was taken from 6,140 to 6,218 feet. Tool was open two hours. Recovery was 90 feet of slightly gas cut mud with no shows of oil or water.

Location is 600 feet from south and west lines of section 20, block 23, T-5-S, T&P survey and 14 miles southeast of Garden City.

## McLaughlin Named Drilling Editor Of World Oil Magazine

HOUSTON—Philip L. McLaughlin, formerly of Midland, has resigned his position as a reservoir engineer for The Ohio Oil Company in Houston to become drilling editor of World Oil magazine, a publication of The Gulf Publishing Company, Houston.

McLaughlin served three years with the Army in the European Theater and later worked in the Mid-Continent, Gulf Coast and New Mexico areas for Matson and Torrey Oil Company, Production Engineering Laboratories and Continental Oil Company.

He earned a degree in petroleum engineering from the University of Texas in 1951 and joined Ohio the same year.

## Moncrief Buys 15 Kelley-Snyder Wells For \$5,600,000 Net

W. A. Moncrief, Jr., Fort Worth, has purchased for \$5,600,000 net the producing properties of L. M. Lockhart, Los Angeles, in the Kelley-Snyder (Canyon) reef line east of Severy County.

## Eight Pay Formations In Midland Make 1,287,006 Barrels Of Oil In July

By JOE SALMAN Reporter-Telegram Oil Writer

Midland County eight pay formations produced 1,287,006 barrels of oil during the month of July from 516 wells, according to unofficial figures obtained from the Railroad Commission of Texas.

The much talked about Spraberry sandstone accounted for 1,418,000 barrels of that oil. At the end of July there were 222 others in Midland's five Spraberry fields.

Fields producing from the Pennsylvania added 145,500 barrels to the total production. That oil came from 64 wells.

The Ellenburger's 20 sites gave up 113,500 barrels of crude.

According to a count made by the Midland Map Company, there were 335 producers in Midland County as of September 15.

The Tex-Harvey field was the county's leading producer from the standpoint of number of barrels of oil recovered. That count made 47,500 barrels from 475 wells.

The Driver field was next with

222,000 barrels from 165 wells.

The Midkiff field produced 114,200 barrels from 73 wells during July.

Oil recovered from the 21 sites in the Germanic amounted to 91,500 barrels.

Driver, Tex-Harvey, Germanic and Midkiff fields all produce from the Spraberry. Although the Midkiff, Tex-Harvey and Driver fields extend into bordering counties, the above production figures are from the Midland County wells only.

The Midland County side of the Pegasus field, which produces from the Ellenburger, Pennsylvania and Devonian, produced 32,500 barrels of oil. The Ellenburger in that field accounted for 45,000 barrels, and the Pennsylvania was good for 25,500 barrels.

The other 700 barrels of oil came from the lower Devonian producer in the field, which has 15 Ellenburger and 15 Pennsylvania wells.

The Swain's Peak field, which produces from five of Midland County's eight pays, added 98,000

barrels to the July total production.

The following pay formations, along with July production, are found in the Swain's Peak area: Ellenburger, 48,000 barrels; Pennsylvania, 15,000 barrels; Devonian, 11,000 barrels; Pegasus, 1,000 barrels and Wolfcamp 300 barrels.

The Park (Pennsylvanian) field was drained of 75,000 barrels of crude during July from 25 producers. Pennsylvania is the only formation which is being produced in the field.

Among Midland County's smaller fields are: Beaman (Pennsylvanian) with one well; Hoffcamp (Pennsylvanian), one well; Wolf field (Ellenburger), one well; Midland (Swain's Peak), one well; Clarence Schabert (Swain's Peak), one well; Clarence Schabert (Spraberry), one well; Wolf field (Spraberry), one well and the St-Louisone pool which has two Pennsylvania and four Wolfcamp producers.

Total recovery from the county's

25 pools during July, by formation, in Ellenburger 112,500 barrels, Pennsylvania, 140,000; Spraberry, 1,018,500; Devonian, 1,300; Dean, 200; Grayburg (in the Germanic field), 34; Pegasus, 1,200 and Wolfcamp 1,225 barrels.

Fields in Midland County produce from depths from the Grayburg at 1,200 to the Ellenburger at 12,800 feet.

Production in fields, which have not been listed above include: Weiner - Floyd, 27,000 barrels; Wolf field (Ellenburger), 243; Wolf field (Spraberry), 123; Wolf field (Swain's Peak), 21 - Lonsome (Pennsylvanian), 4,500; Clarence Schabert (Swain's Peak), 4,500; Clarence Schabert (Spraberry), 123; Midland, South, 225; Swain's Peak, 2,120 and Hoffcamp 700 barrels.

All the above figures are production for July.

Number of wells in Midland County by formation include: Spraberry, 222; Ellenburger, 21; Pennsylvania, 61; Grayburg, 1; Wolfcamp, 7; Pegasus, 1; Devonian, 2; and Dean stand, 2.

## Spraberry Is Given Three New Oilers

Three new oilers and sites for two projects have been added to fields in the Spraberry Trend.

Phillips Petroleum Company No. 1-B Num has been completed in the Aldwell field for a daily flowing potential of 563.78 barrels of 29.4-gravity oil and no water through a one-half-inch tubing choke and from open hole at 7,377-7,698 feet. Pay was topped at 7,070 feet, elevation 1,242 feet.

Tubing pressure was 285 pounds and gas-oil ratio was 1,158-1. Operator used 4,500 gallons of fracture solution to complete the well.

Location is 600 feet from north and west lines of the south half of section 44, block 24, T-4-S, T&P survey.

Compressor Stations

It covers the building of gas compressor stations in Tex-Harvey, Goldsmith and Eunice and also the building of field compressor stations in the Driver, Midkiff and Penbrook areas.

Also included in the proposed construction is 108 miles of 24-inch gas line from the Spraberry area to the Wasson area of Southwest Yukon County.

That line would move gas from the Spraberry region to Wasson where it would go into another big gas line which goes to the north and west.

Details Are Given

The details of the proposals contained in the El Paso Natural application to the Federal Power Commission.

## Texas Completions Maintain Low Level

AUSTIN—(AP)—Oil well completions remained at a low level last week, the Texas Railroad Commission reporting today.

This was a slight increase over the previous week's 137 and less the year's total at 7,350 compared with 7,681 a year ago.

There were 15 gas wells brought in. The year's total is 622, amounting to 64 for the comparable 1951 period.

The total average number of dry holes allowed as of Sunday was 2,520-261, an all-time record as the result of the week's normal increase of 2,715 barrels.

New records probably will be set each successive week this month because of normal increases following the establishment of a record allowable at the start of September.

Operators drilled 164 dry holes last week.

Wildcatting produced 11 oil wells and 59 dry holes.

Plugged were 106 dry wells, five gasers and 67 oil wells.

## APCO Finds More Pay At Opener In SE Andrews

Anderson-Friedland Oil Corporation No. 1-24 David and Inez Fennell, Southeast Andrews County Ellenburger discovery has found more pay in the deep horizon.

It did not develop any formation water and is to be drilled another 90 feet and test again.

The latest drillstem test on this prospector covered the zone at 12,618-740 feet. The tool was open two hours and 25 minutes.

A five-eighths inch bottom hole choke and a one-inch top opening were used.

Oil in 60 Minutes

The 2,975-foot water blanket started flowing out in 46 minutes.

Gas cut water blanket appeared at the surface in 55 minutes. Clean oil came to the top in 60 minutes.

The oil was flowed to pits for five minutes to clean and the flow was then turned to tanks.

In the first 30 minutes it flowed 27 barrels of oil; in the second 30 minutes 47 barrels, and in the third 30 minutes 87 barrels.

There were no signs of formation water. The fluid left in the drill pipe when the tool was closed was reversed out. It was all oil.

No Signs Of Water

Recovery below the circulating sub was 100 feet of heavily oil cut mud. There were no indications for formation water in any of the fluid recovered during the test.

Corrected gravity of the oil produced during the latest test was 49.8 degrees. Gas-oil ratio was 908-1.

Initial open flowing bottom hole pressure was 2,400 pounds. Final flowing pressure was 5,000 pounds.

This wildcat had flowed 56.24 barrels of oil in 30 minutes from the section at 12,618-700 feet. There was no water in that test.

Covered More Section

The latest test covering the section at 12,618-740 feet included the interval which was investigated on the first test, plus an additional two feet at the top and an additional 40 feet on the bottom.

The rate of flow from the entire zone during the latest test was approximately the same as the rate of flow from the 12,618-700 foot interval in the first test.

Capacity Flow

Operator representatives say the flow could not have been any greater on the second test than it was on the first test—irrespective of how much pay there was in the new hole—on account of the capacity of the drill pipe and the chokes on it being unable to handle any greater flow of oil than that shown on the second test.

Top of the Ellenburger in this wildcat is at 12,645 feet. Elevation is 2,957 feet. The section at 12,620-950 feet had only slight shows of oil and gas in the 10 feet of drilling mud which was recovered during a one hour drillstem test.

Location is 600 feet from north and east lines of the southeast quarter of section 24, block 42, T-1-N, G&MB&A survey. It is 13 miles southwest of the town of Andrews and 23 miles northwest of Midland.

## PB Section Of AIME Is Trying To Win National Contest

All engineers in the Permian Basin who are connected with any branch of the oil industry are invited to attend a meeting in Midland Wednesday night.

The U. S. Bureau of Mines will present the program.

They will discuss a study of the Severy County Reef oil field which has been made by the Bureau of Mines.

Persons planning to attend should make reservations in advance with J. T. Lewis, secretary-treasurer of the organization. The dinner tickets are \$2.50 per person.

In Membership Contest

The Permian Basin section of the AIME is trying to win a membership contest being staged by the national organization.

Jack M. Moore of Midland, a past chairman of the Permian Basin section, is chairman of the national membership committee of the Petroleum Branch of the American Institute of Mining and Metallurgical Engineers.

The section which will win the current membership contest will be the one which secures the largest number of new membership applications for the AIME during the period of September 1 through December 31.

Plenty Of Prospects

Moore says there are plenty of engineers working in the petroleum industry in this area who are not now AIME members to give the Permian Basin section an assurance of winning first place in the contest if they will make applications for national membership.

## NE Lea Pool Extended By Magnolia

Magnolia Petroleum Company No. 1-0 Hethersough has been completed by a northwest extension to the North (Pennsylvanian) side of Northeast Lea County.

It was completed for a daily flowing potential of 112 barrels of oil through a 1 1/2-inch choke and open hole at 9,790-9,790 feet.

Location is 200 feet from south and 220 feet from west lines of section 11-4-25.

Lea Star Production Company No. 1 Warren & Davis-Federal was plugged and abandoned as a wildcat failure in Northeast Lea County.

Devenian Basin

It was gull in the Devonian on total depth of 12,581 feet. That formation was topped at 12,545 feet, no elevation available.

Location was 1,900 feet from north and east lines of section 19-4-27e.

McAlester Fuel Company No. 1-BJ State, one and one-half miles south of Forest Oil Corporation No. 1 Loya, recently completed Pennsylvania discovery in Northeast Lea County, has been plugged and abandoned on total depth of 10,715 feet in lime.

Location was 1,900 feet from south and east lines of section 2-14-37e.

## Younger Oil Men Urged To Take Part In Industry Affairs

TULSA—An appeal to younger men to participate in affairs of the oil industry is made by the president of the Independent Petroleum Association of America in an article prepared for the September issue of The Independent Petroleum Monthly.

Urging attendance of young men at the association's annual meeting October 28-30 in Oklahoma City, IPAA President Charlton H. Lyons voices concern for the future and says younger men in the industry "must provide the needed guidance in the years to come."

He warns that "the industry, unfortunately, will always face problems," and points out that "the more promptly and effectively they receive our attention the more useful will be this association and the more productive its effort."

"Conversely, if the young men of the industry do not play their full part, these problems may be deepened by their disadvantage and eventual liquidation."

## CONSTRUCTION STARTED—Halliburton Oil Well Cementing Company has started construction of a new Technical Center at its headquarters at Dunes, Okla.

The center will cover six acres of space and house the concern's engineering, laboratory and research facilities. It is scheduled to be completed by June 1, 1953. The top picture is an architect's drawing of the center. The bottom picture shows Halliburton officials starting to survey the location for the new building. They are, left to right, John Guest, chief engineer; Frank Hogwood, architect; Logan D. Campbell, vice president and secretary-treasurer; W. R. McClendon, president, and R. M. (Dick) Hansen, coordinator. In the background are some of the buildings at Halliburton's Dunes headquarters plant.

## South Americans Talk With McCarthy On Possible Sales

LOS ANGELES—(AP)—A South American investment syndicate is negotiating to buy into millionaire Glenn H. McCarthy's vast oil and hotel holdings.

Alexander Wolanow, Los Angeles resident partner of the Argentine investment syndicate with headquarters in Rio de Janeiro, Brazil, said \$2,000,000 is involved.

Neither Wolanow nor McCarthy, who met in a private dining room at the Ambassador Hotel, would say whether McCarthy's Shamrock Hotel, Houston, or his oil interests are being discussed.

McCarthy said nothing definite would be decided for another week.

McCarthy said he has been in Southern California for eight days, mostly in Bakersfield where he made an inspection trip of his oil wells. McCarthy's new company, Glenn H. McCarthy, Inc., began drilling operations in the Arvin, Calif., area last month.

Wolanow's syndicate had been investing in California real estate. Last November it bought two Los Angeles apartment buildings for \$225,000.

## Mid-Co Meeting Is Set October 14-15

DALLAS—Organization plans for the first annual meeting of the Texas Mid-Continent Oil & Gas Association is to be held in Fort Worth, October 14-15, were announced Saturday with the appointment of committee chairman to head convention activities.

# WASHINGTON OIL— Government Crackdown On Foreign Oil Regarded As 'Legal Fishing Expedition'

By JOSEPH HUTTLINGER  
Reporter-Telegram Washington Oil Correspondent

WASHINGTON—The government's crackdown on foreign oil now is regarded by oil company attorneys as perhaps the greatest legal fishing expedition in the history of the American courts.

In the crackdown, they say, not only the Justice Department, but the Mutual Security Agency, the Federal Trade Commission, several congressional committees and the White House have joined.

Latest agency to line up is the State Department, which put out a press release saying it never had cleared any agreements from the anti-trust angle. This was after oil companies said all their foreign oil agreements were well known to the government.

At the same time, oil company attorneys point out the government has put forth no evidence that there is a cartel, or even was, or that any cartel is rigging prices, production and markets for petroleum.

Instead, the government merely has asked a federal grand jury to find out if there is a cartel. The evidence in the case, if any, is to come from oil companies themselves, who have been asked to bring the grand jury millions of papers. A subpoena names these as "all contracts or agreements" between any of 31 oil companies and nations, and "all letters" between the companies during the last 3 1/2 years.

As a corollary, the department told another court, and the American people, that four of the companies had overcharged the foreign aid program by \$97,000,000 in foreign aid oil. It asked a refund.

The Justice Department took its cue, no doubt, from the hoopla given a report on "The International Oil Cartel," prepared at the FTC. As oil company attorneys see it, the department, groggy from tax scandals, was ready to turn to anything to divert public attention.

The FTC report, itself, they say, stands on questionable ground. It is the work, largely, of one man at the commission, and never has been adopted by the commission itself. They point out that there is no evidence, in fact, that the report has not been repudiated by the full commission.

The manner of release of the FTC report makes oil company lawyers wonder if the government is being completely fair. Thus, the report was marked "secret" for the good of the nation when completed almost a year ago. Then, as Society-Tecum Oil Company says, "public interest was whetted by a strip tease technique of official suppression and unofficial, partial disclosure."

Finally, the anti-big-business Senate Small Business Committee got the go ahead to publish the report. No one yet can explain why the report should be secret a year ago but not now.

"Before Election" Timing  
The timing, in the opinion of many, was to go after big oil just before the elections. Else, they ask, why the four-year-old foreign aid program suit now? If this is the case, it also may develop that the cartel action, if not the overcharge suit, will be allowed to peter out next year. This is held as highly possible.

As the same time, there is considerable feeling that the government already has tried and convicted the oil companies, if not the bulk of the oil industry, at least in the public mind.

The tragedy of this, as many see it, is that it has happened without the Justice Department putting forth a thread of evidence in its "cartel" bombast, but merely asking a grand jury to try to find the evidence.

A number of steam-driven automobiles were built before 1800.

# Monterey To Try New Techniques In Test For Oil Under California Tidelands Area

LOS ANGELES—An oil company is risking more than a million dollars on a new wildcatting technique designed to tap vast petroleum pools under the sea.

Monterey Oil Company plans to drill from a man-made island in the ocean—first of its type on the Pacific Coast.

An estimated four billion barrels of oil, more than a tenth of the nation's estimated reserves, underlie California's Tidelands waters. Small portions of this fabulous deposit can be reached by drilling out under the sea from rigs on shore. How to tap the rest is a problem under intense study by the industry.

Volume production from under-sea pools would be a tremendous asset for state and nation. It could make California—which now has to import almost a million barrels of crude oil a month—self sufficient. It would insure defense planners an adequate supply on the West Coast—a strategic frontier.

Monterey believes the answer to reaching some subsea deposits is artificial islands. Other possible answers are drilling platforms supported by pilings or anchored barges large enough to support the weight of oil rigs.

Industry spokesmen say it may someday be possible to drill at points where the water is as much as 800 feet deep.

Monterey's pioneering project, however, is in water only 45 feet deep. The firm believes 100 feet is probably the practical limit for island drilling.

The firm already has driven pilings at the site of its island-to-be, a mile and a half off nearby Seal Beach. If construction proceeds on scheduled drilling will begin in October.

The island will be a circular steel structure 75 feet in diameter, filled with sand and clay and capped with a cement deck. Giant boulders around the base will bolster it against sea action. The installation will include a platform dock for loading and unloading equipment.

The drilling rig, supported by wooden pilings, will be located over a vertical access hole in the island's center.

The site is supplied by barges. Should the proposed wells prove productive, plans call for construction of a pipeline to shore.

The island is on a 1,200-acre state Tidelands lease held jointly by Monterey and the Texas Company, with Monterey as the operator. Monterey, one of the larger independents, is successor to the Jergins Oil Company, and operates in Texas and Oklahoma as well as in California.

There is never a "sure thing" in the oil drilling business, but the Monterey people discuss their project with a confidence indicating they don't consider it a great gamble.

The firm has been working on the idea of island drilling since 1944. It applied for a drilling permit in 1947, but got the go-ahead only this year. The delay, the company says, was due to the dispute between the federal government and the states over Tidelands oil.

Three Other Wells  
To test its lease, Monterey angled three exploratory wells out under the sea in the direction of the proposed island.

E. E. Pyles, vice president and director of the firm, says the first was abandoned. The second produced oil and gas for a short period. The third is the one that encouraged Monterey to go ahead with plans for the island.

Pyles declines to disclose what was learned from well No. 2, what little he will say of it is said with the air of a man who has a potentially good thing and knows it.

The oil industry, which is watching the island operation with intense interest, knows this much: the well has produced oil, although not in large quantities; it was drilled directionally more than 12,000 feet—to what may be a record distance for undersea holes.

Pyles says Monterey doesn't know whether it will strike a new pool from the island or hit an undersea extension of the Wilmington deposit, already extensively tapped on shore. Maps of the area indicate it is not unlikely that the island overlies a seaward extension of the Wilmington pool.

The island operation, Pyles says, will be the beginning of a pioneering operation. Thorough tests are planned for every stage of drilling. The first hole will go straight down to the bottom of potential oil-bearing strata—probably more than 7,000 feet. If it indicates further drilling is warranted, other wells will be angled out directionally.

APCO Finds More Pay

(Continued From Page One) mile west outpost to production in the Pegasus (Pennsylvanian) field of Southwest Midland County.

Operator cored from 6,300 to 6,411 feet. Recovery was nine feet of shale, 11 feet of lime with good porosity and 11 feet of lime with fair porosity and a slight odor of oil.

Location of No. 1 Phelan is in a 180-acre tract in the northeast part of D. H. & J. W. Von Rosenberg survey No. 4, A-448 and 18 miles northwest of Robert Lee.

Three-quarters of a mile south and slightly west, Southwest Natural staked location for No. 2 Phelan. Drill site is 140 feet from northeast and 480 feet from southeast lines of D. H. & J. W. Von Rosenberg survey No. 4, A-448.

It will be drilled to 6,800 feet with rotary tools.

Humphrey Finishes New Discovery in C-W Runnels Area

Thomas D. Humphrey No. 1 D. O. Lee has been completed as a discovery from a lime pay in Central-West Runnels County.

The well was completed for a flowing production of 160 barrels of 40.1-gravity oil per day through an 11/64-inch choke.

Production is coming from section between 5,108 feet and 5,115 feet.

Location is 330 feet from southeast and 3,470 feet from north lines of the Joseph Farwell survey No. 313. It is nine miles south of the Fort Chadbourne field.

Neely Sets Stepout To Multipay Pool in SW Crane Area

William B. Neely of Midland is to try to extend the Abell (Silurian-Monotry) field of Central-North Pecos County across into Southwest Crane County at his No. 1 Neely-Renaud and others.

This exploration will be one location northwest of the nearest completed well in the field. That well is a George T. Abell producer in the Pecos River bed.

Location of the Neely No. 1 Neely-Renaud is 660 feet from east and 170 feet from south lines of section 17, block 1, H&TC survey.

It is five miles northeast of Imperial. Drilling to 5,300 feet will start at once. Rotary tools are to be used.

Big Spring Concern To Drill San Andres Wildcat in Garza

Duncan Drilling Company of Big Spring is to drill its No. 1 A. Davis as a 3,000-foot wildcat to try for production in the San Andres-Permian lime in Central-East Garza County.

Location is 330 feet from north and west lines of the northeast quarter of section 20, block 5, OH&ER survey. That puts it 12 miles east of Post.

Drilling, with rotary tools is to start at once.

Humble Scheduled To Drill Shallow Tester in Pecos

Humble Oil & Refining Company No. 1 Charles Gramm, West-Central Pecos County exploration is to try for production in the Yates-Seven Rivers pay zones above 3,000 feet.

It is 10 miles northwest of Fort Stockton and 1,320 feet north and slightly east of the closest Yates-Seven Rivers production in the Fort Stockton field.

Drill site is 1,650 feet from south and 330 feet from east lines of section 9, block 106, T&STL survey. Drilling with rotary tools is to begin immediately.

World, Southern Leaders To Address Texas Baptists

FORT WORTH —(P)—The presidents of the Baptist World Alliance and the Southern Baptist Convention head the list of speakers for the Baptist General Convention of Texas meeting in Fort Worth, October 21-25.

The seven sessions of the 104th annual meeting of the convention will be devoted to the departments through which the denomination carries on its work in missions, education, benevolence, stewardship and evangelism.

Dr. F. Townley Lord, London, president of the Baptist World Alliance, and Dr. J. D. Grey, New Orleans, president of the SBC, will be heard at the afternoon session of the closing day.

Several other speakers prominent in the denomination's work also will be heard. They include Dr. Baker Orlan of the Foreign Mission Board, James Cauthen, secretary for the

of the SBC; Dr. M. T. Rankin, executive secretary of the Foreign Mission Board; the Rev. J. Howard Williams, executive secretary of the state convention's executive board;

Mississippi Woman Elected President Of Desk, Derrick

HOUSTON —(P)—Margaret Neff of Jackson, Miss., was elected president of the Desk and Derrick Clubs of North America at the Saturday business session of the organization's first international convention held at Houston.

Denver, Colo., was picked as the city for the 1953 convention.

Other officers elected are Frances Crawford of Jackson, Miss., secretary; Irene Stinson of San Antonio, first vice president; Anne Curres of Tulsa, Okla., second vice president, and Lamont Tofte of Wichita Falls, treasurer.

New regional directors elected are: Carol L. Eberhart, New York City, Region 1; Maxine R. Hacka, Tulsa, Okla., Region 2; Lillian Tucker, Shreveport, La., Region 3; Ruth Palmer, Casper, Wyo., Region 4; Florence M. Hopkins, Pasadena, Calif., Region 5; Doris Whiteside, Dallas, Region 6; Eleanor Crockett, Calgary, Alberta, Canada, Region 7.

The Desk and Derrick Clubs of North America is an association of women employed by oil firms. It has 44 local chapters and about 6,000 members in the United States and Canada.

for evangelism of the Home Mission Board, and the Rev. W. A. Criswell, Dallas.

The Rev. Forrest C. Pessot, Waco, SBCOT president, in announcing the program, said several other speakers are to be added.

The opening session will be devoted to foreign missions, with the Woman's Missionary Union joining in the program. Several missionaries will speak during the program. Annual sermon

The Rev. Perry F. Webb, San Antonio, will deliver the annual sermon at the morning session, October 21, which will be devoted to Christian education. Each of the nine Baptist state schools will make reports. Hospitals and orphanages will be featured at an afternoon session.

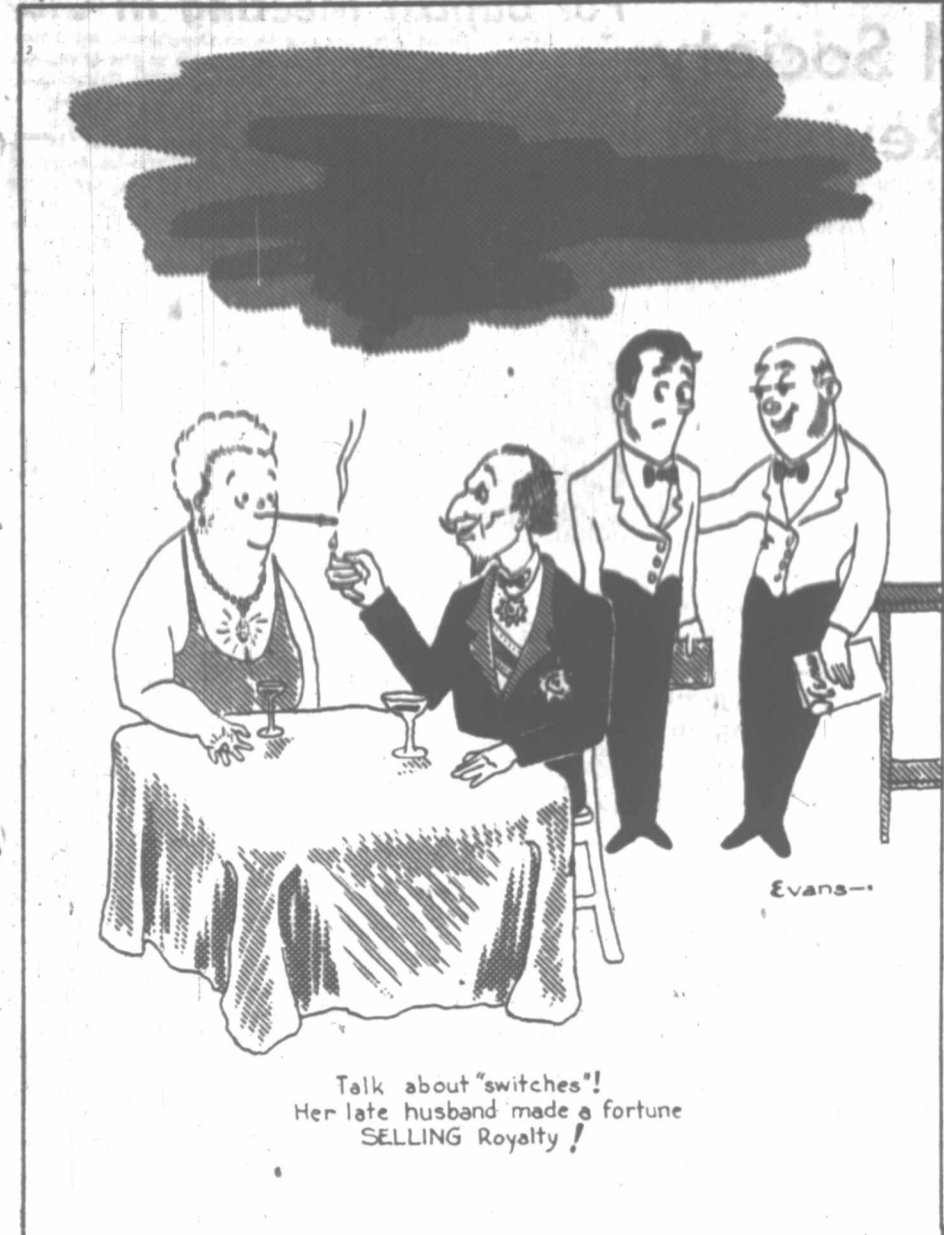

Mr. Williams will be the featured speaker at the state missions program on October 23. A speaker for the stewardship program on October 23 is to be announced.

Home missions and evangelism will, as in the past, be featured the closing night, October 25, with Mr. Criswell closing the convention program with an address on "Even Our Faith."

Two auxiliaries, the Woman's missionary Union and Men's Brotherhood, will hold their state conventions preceding the SBCOT sessions.

FEMALES FORBIDDEN Mount Athos is a monastic republic in Greece. It is 40 miles long and five miles wide, and no woman or animal of female sex has been permitted to enter its boundaries in more than 90 years.

Stateside Servicemen Get Ballot Applications Monday

WASHINGTON —(P)—Monday, every serviceman in the U. S. will be handed a small buff card which will offer him the opportunity to vote on whether he wants a general for president.

It's a printed postcard form on which he can check for an absentee ballot to vote in his home state in the November 4 general election starring Gov. Adlai Stevenson and Dwight D. Eisenhower.

Federal law says each serviceman must be handed the card personally. The armed forces chose Monday as "Postcard Day" for men in the U. S. For men overseas it was August 15.

Of the present 3,500,000 servicemen, more than 2,500,000 are eligible to vote November 4.

The Defense Department has been working hard since last November to turn out the maximum service vote. It has been following Congress' orders to give every man — overseas or in the U. S. — information on how he can vote.

Whether a serviceman does vote depends to a degree on his home state's absentee voting law. Each state controls its own voting procedure.

Never-Never Land Although President Truman pleaded earlier this year with Congress and the states to make absentee voting laws uniform, little was done. They're still a never-never land and in many cases completely bar service voting.

Two states — New Mexico and South Carolina — permit no absentee balloting. No serviceman can vote unless he's home on leave. Four states — Alabama, Delaware, Florida, Louisiana — don't allow absentee voting if the man hasn't registered in person to vote. This stops many thousands of servicemen.

Ten states allow a man to register to vote as an absentee but require a special registration form. Many servicemen have found the red tape too heavy. In the remaining states servicemen have a fairly good chance of having their votes counted.

Texas Brothers Form Book Publishing Firm

FORT WORTH —(P)—Establishment of Smiths, Inc., new book publishing firm here, was announced Saturday.

Its first publication will be "The Devil Rides Outside," the first novel of John H. Griffin, who is a blinded war veteran who lives on a small farm just outside Fort Worth. The book will come out October 27.

The firm was established by two brothers, Gordon and J. Hulbert Smith of Fort Worth.

Early Egyptian methods of preparing a body for preservation required 70 days.

Miss Whiteside Heads New SW Region Of D. & D. Association

HOUSTON —(P)—A new southwest region has been established by the Association of Desk and Derrick Clubs of North America, according to Mrs. Lee Wilson Hoover, president of the organization.

The new region consists of Texas, New Mexico and Arkansas and its first director will be a Dallas woman, Miss Doris Whiteside.

This announcement was made Saturday in Houston where 1,000 petroleum women from the U. S. and Canada are attending the first convention of the association.

Miss Whiteside, an officer and one of the organizers of the Dallas Desk & Derrick Club, is executive secretary and office manager for the Texas Mid-Continent Oil & Gas Association, headquarters in Dallas.

As regional director for the Desk & Derrick Association, Miss Whiteside will assist in the organization of new clubs, and, working closely with member clubs, will endeavor to extend the educational programs and activities of the association to wider audiences of petroleum women. The new director will represent her region at all national meetings of the board of directors of the association. Has 14 Clubs

The new area has been named Region VI and, at present, 14 clubs comprise the membership. They are: Abilene, Amarillo, Beaumont, Dallas, Corpus Christi, Fort Worth, Houston, McAllen, Midland, Odessa, Tyler, San Antonio, Wichita Falls and Rowell.

Miss Whiteside has been associated with the Texas Mid-Continent Oil & Gas Association since 1945.

Huge Pump Speeds Unloading Cargoes

SAN PEDRO, CALIF. —(P)—A firm has developed a slick gimmick for emptying a netload of sardines. B. F. Goodrich Company, working with commercial fishermen, has developed a large rubber suction hose that pumps the fish from a net into a carrier boat. Capacity of the hose is 60 tons of fish an hour.

The same system is used in transferring the fish from carrier boats to canneries.

Former Tax Bureau Officer Pleads Guilty To Extortion

MONTGOMERY, ALA. —(P)—Gaines R. Moore, 36, former deputy Internal Revenue collector, faced a possible heavy prison sentence Saturday for an admitted \$47,000 shake-down attempt.

Moore, plagued by debts, pleaded guilty in Federal Court Friday after his arrest on three charges of extortion.

He is subject to a fine of up to \$5,000 and 30 years in the penitentiary on each count.

U. S. District Judge C. B. Kennamer delayed sentence until Monday and turned Moore over to the marshal's custody.

The ex-federal officer holder was charged with threatening the lives of a negro doctor and two white Montgomery business men unless they came across with the money.

The case was closed except for sentencing about two hours after FBI agents made the arrest. Moore waived grand jury action and was

brought before Judge Kennamer to enter his guilty plea.

One of his intended victims, Dr. Raphael E. Tiedale, said he knew Moore from dealings with him at the Internal Revenue office here.

Spencer Longshore, president and general manager of the Preferred Life Assurance Society in Montgomery, was another who received threatening letters.

The third person threatened was David R. Franco, operator of a music machine company here.

Special Agent H. L. Hawkins in charge of the FBI office in Mobile said Moore told him he was heavily in debt and he sent out the extortion letters in a desperate attempt to raise money.

The letters were mailed last month from various places in Alabama and Wisconsin, the agent said.

Hawkins said the letters to Franco and Dr. Tiedale asked for \$7,500 and \$15,000, respectively.

C'S Reagan Gets Shallow Wildcat

M. J. Brannon, Jr., and Yeatman Drilling Company have staked location for a 3,500-foot rotary wildcat in Central-South Reagan County.

Location is 330 feet from south and west lines of the southeast quarter of section 8, block 11, University survey, and one and one-half miles west of Big Lake.

It is on a 2,880-acre lease eight miles northeast of the Grayson field.

Contraband Opium Sold To Chemists

SINGAPORE —(P)—Opium confiscated in Singapore is sent to the Crown agents for the colonies in London for sale to manufacturing pharmaceutical chemists.

Last year 8,000 pounds of the drug was seized by Customs Department officers, the 1941 reports of the Customs and Excise Department said.

Despite continued activity against opium smugglers and keepers of opium-smoking saloons, the smoking of opium was still rife in the colony, the report said.

The RIGHT Way To WRITE There is a right way to write checks... and a wrong and careless way that might encourage alterations in the wrong hands. 1. Fill in date and check number (today's date—do not date ahead). 2. Write the name of the one to be paid. 3. Write amount in words (begin at extreme left so nothing can be written ahead. Fill in wavy line to right). 4. Write amount in figures (Begin close to \$ sign then underline cents. Be sure amount agrees in both places). 5. Sign your banking signature. For MAXIMUM SAFETY Always use ink. Fill out stub first. Don't correct errors—"VOID" check and draw new one. Protect unused and uncancelled checks and account records. For MAXIMUM SERVICE Use checks for all payments. Deposit all income for exact and complete records. Deposit by mail when you are unable to come to town. Keep cancelled checks as receipted proof of payment. A CHECKING ACCOUNT IS A WONDERFUL CONVENIENCE. THESE SUGGESTIONS ARE TO HELP YOU ENJOY IT. THE FIRST NATIONAL BANK MIDLAND, TEXAS SINCE 1890 Dial 2-3755 member F.D.I.C. Dial 2-3755 Each depositor of this bank is now insured up to a new maximum of \$10,000 for all deposits held in the same right and capacity.

# Spraberry Hearing Stymied By Pure Economics Question

AUSTIN—The Railroad Commission's hearing on a spacing policy in the Spraberry Trend has been recessed until Tuesday, meanwhile leaving in the air the question of whether or not the commission has the legal power to establish spacing rules on pure economics.

The question was tested in by Commission Chairman Culberson prior to the adjournment of the Friday session. The study also is concerning itself with proration formula.

Applicants in the hearing are seeking 80-acre or wider spacing in the 415,000-acre proven producing area plus a change in the present proration policy based entirely on acreage.

Suggested by the majority of witnesses already heard in the hearing, which opened Thursday, is a

formula based 75 per cent on acreage and 25 per cent on well. The majority have suggested it should be applied to wells presently completed on 40 acres and all future ones drilled.

**Briefs On Legal Phase**

Culberson bluntly told the Spraberry group that "before we (commission) pass an order on the application we are going to have to have briefs on the legal phase of how far this commission can go on pure economics."

He added the commission was "faced with a thing that urges the complete discarding of everything it heretofore has done in the regulation of oil."

Culberson reminded the group the courts repeatedly have held the commission is restricted to field for the prevention of physical waste and could not consider economics.

"If the commission is to depart from the theory of preventing waste," said Culberson, "I want to be dead sure we have the law to do so."

He said he was puzzled as to why the operators in fields where there was good permeability desired 40-acre spacing and in this case, where there was poor permeability, they wanted 80-acre spacing.

The applicants were granted 30 days in which to file the briefs, with the same period extended to those wanting to reply. Oral arguments before the commission will follow.

Clayton Orr, Ohio Oil Company, Houston, stated he thought the commission could consider the size and drainage area of wells in the distribution of allowables on a fair and equitable basis. He supported 80-acre spacing with an 80-acre tolerance, and the 75-25 formula.

Skelly Oil Company proposed 80-acre units with the same 75-25 formula applied uniformly throughout the area, as did Cabot Carbon Company.

B. Sherrod, Lubbock, owner of 14 sections in the Spraberry Trend, supported 80-acre spacing.

Majority of the day was consumed in presentation of technical data by Lincoln Wilkins, engineer for Sohio Petroleum Company. This was di-

rected toward proving there is effective communication between wells on 80-acre and even wider spacing.

**Oil Estimated**

He estimated the net oil in place in both the matrix rock and fractures at 4,500 barrels per acre in the upper Spraberry, and 5,500 in the lower Spraberry, of which only seven per cent was recoverable.

Honolulu Oil Corporation sought to have the Cope area of Southwest Sterling County separated from the rest of the Spraberry.

Plymouth Oil Company made the same request for the Benadum area.

The hearing was recessed until Tuesday.

## OILC Film Shows Improvements In Modern Gasoline

NEW YORK — The story that couldn't come true—but did—is told vividly in a new motion picture produced by the Oil Industry Information Committee of the American Petroleum Institute.

Entitled "3 Equals 3," the motion picture takes its audience behind the closed doors of a laboratory where it is shown how two gallons of modern gasoline will do the work which required three gallons in 1925.

The demonstration is conducted by Dr. Roy K. Marshall, distinguished scientist, author and television personality.

**Greater Power**

In terms everyone can understand, Marshall explains how an automobile engine works and how greater pick-up, power and all-around performance, are built into modern motor fuels.

He uses simple laboratory devices and actual working models to demonstrate how modern gasoline makes an "automobile purr instead of ping, go farther faster and do more work at no extra cost.

Marshall's casual, friendly presentation in much the same manner that has won him considerable fame in television, is expected to make the motion picture ideal for audiences of all ages, whether they drive trucks, cars or tractors, or are simply curious about scientific progress.

Running time for the motion picture is 14 minutes. In black and white only, prints may be obtained through the Oil Industry Information Committee, 50 West 50th Street, New York 20, at \$25.00 for 16-millimeter, and \$60.00 for 35-millimeter.

## NO QUESTION FOR ANSWER

BANGGON, BURMA—(AP)—An old man with no previous convictions appeared in court on a charge of riding a bicycle against traffic regulations.

Asked if he had anything to say, he said, "I do not quite know what to say, sir, what would you say if you were in my place?" he asked a lawyer nearby.

The magistrate smiled. "Tell me," he addressed the old man, "what would you say if you were in my place?"

In a flash came the answer. "Old man you are discharged." And he was.

## Ten Fighting Bulls To Be First Cattle Crossing U. S. Line

EL PASO —(AP)— Ten fighting bulls from Tomas Valles' Rancho Tierra Blanca herd are scheduled to be the first Mexican cattle to be imported through El Paso since the lifting of the cattle embargo September 1.

Importations had been banned for several years because of the foot and mouth disease in Mexico.

The animals, of the Delidia strain, will be created individually and trucked across the border early this week.

The bulls will continue from El Paso by truck to San Francisco. There they will appear in the Cow Palace in a bloodless bull fight during the Golden Gate City's annual livestock exposition.

The bull fight, showing the cape work of Alejandro del Hierro, Juarez fighter, are being sponsored by a Spanish organization in California.

## Auto Sticker Theft Could Be 'No Crime'

DALLAS —(AP)— Justice of the Peace Glenn Byrd is afraid a \$200 fine he handed down for the theft of two auto inspection stickers may be reversed by a higher court.

After giving the fine, attorneys for the law had no penalty set for fraudulent use of the inspection stickers and no value is placed on the stickers.

Byrd fined Bob Eugene Turner, 26, under a general statute covering theft under \$5 but said later that "if the stickers are not worth something, there may be a technical question of whether a crime was committed."

Turner pleaded guilty, his attorney gave notice of appeal.

About 1,500 species of mosquitoes are known.

# Constitution Of WT Geological Society Is To Be Revised

The constitution of the West Texas Geological Society is to be revised and brought up to date, according to an announcement Saturday by L. E. (Ed) Patterson, president of the organization.

The society is operating under a constitution adopted more than 20 years ago. The document has been amended many times—but it has never been revised, Patterson said.

**Committee Named**

A special committee composed of past presidents of the WTGS has been appointed to draft a new and adequate constitution.

## Rayburn Gets First Adlai-Sparkman Club Member Ticket

FORT WORTH —(AP)— The first honorary membership card issued by the newly-formed Tarrant County Stevenson-Sparkman Club has gone to House Speaker Sam Rayburn of Bonham.

The card was mailed to Rayburn by County Chairman Tom Ward.

"Texas Democrats have been much encouraged by your assumption of active leadership of a statewide effort to keep the electoral vote of Texas in the Democratic column," Ward wrote.

"When the governor and the national committeeman advocate their positions of leadership in the national party, we have in you an eminent, able and influential leader."

Ward said a block-by-block organization aimed at carrying Tarrant County for the Democratic Party will be sought.

# Gardner Added To Speakers For Baptist Meeting In City

T. C. Gardner, Dallas, executive secretary of Texas Baptist Train-

T. C. GARDNER

ing Union Department, will be one of the speakers at the second annual Fernian Bank Baptist Association meeting September 15-16 at the Bellview Baptist Church.

An outstanding Baptist, Gardner is author of several books, chairman of a committee representing Southern Baptists on the relations with other religious bodies, vice president of the Oldham Little Church Foundation, leader of a Texas Baptist Youth Movement that sponsors Saturday night youth meetings for young people.

Another speaker for the association meeting will be Dr. Lindell C. Harris of Martin-Stimmons University at Abilene.

The Rev. Vernon Yearby, pastor of the First Baptist Church, will serve as moderator. Curtis Rogers will be the clerk.

Walter Langston, Jr., will lead the singing for the opening day of the session, with Mrs. Robert Sutton at the piano.

# Texan, Very Much Alive, Dies In Effort To Prove It

NORMAN, Okla.—(AP)—A 58 year old Texan, declared legally dead more than a year ago, lost his chance Friday to prove in court he was alive.

Reno L. Hawkins of Fort Worth was killed in an automobile accident on U. S. Highway 75 near Calvin, Okla. while enroute to Norman to appear in district court. Hawkins filed suit here last July, asking the court to set aside an earlier ruling he was legally dead.

Hawkins' sister, Mrs. Martha Martin, in 1951 successfully petitioned the court to declare her brother dead and to give her full title to the estate of their mother, Mrs. Lucy J. Hawkins, who died in 1949.

Mrs. Martin said then she had not heard from her brother in seven years and didn't know his whereabouts.

Hawkins stated in his petition he had worked out of the state and hadn't been in touch with his family. He contended he was very much alive and wanted the court to clear up the matter so he could share in his mother's estate.

"But Hawkins didn't live to prove himself alive."

The word "nervous" originally meant tendon, but now refers to the structures through which the brain sends messages to the body, including much of the brain itself.

# West Texas' Only Plastic Surgeon Finds Improved Appearance Aids Personality

"You can improve a criminal's appearance, but you can't change deep-rooted criminal tendencies that are a result of bad environment," states Dr. J. Oliver Gooch, Midland's only specialist in plastic surgery.

**UNIQUE X-RAY MACHINE**—Sara Peterson, 606 North Colorado Street, demonstrates a special X-ray machine capable of delineating features of the head, sinuses and mastoids for diagnostics purposes. Dr. J. Oliver Gooch, plastic surgery specialist, operates the device.

caused people to avoid them. Dr. Gooch, who has a well-equipped office in the Western Clinic Hospital, 308 North Colorado Street, cited a case from his own experience. A man was brought in with a mangled nose received in a fight. The doctor painstakingly repaired and straightened the disfiguration. Two or three months later, the same individual had his nose flattened in another fight. The patient said he was ready to give up. Dr. Gooch did not work on him again, and he does not know whether the abused nose had to be treated again by surgery.

The doctor says his main attempt in working on a nose is to restore a function, such as faulty breathing. Most nasal surgery is done from the inside. He says, "It is like cleaning a room through the keyhole."

**Facelift Operations**  
Patients may come in to have the work done because of a feeling of insecurity or inability to keep a job. The surgeon has to be careful in changing their appearance, as it may not help in improving their features. People he treats must want plastic surgery sincerely before he will operate.

A great deal of his practice is removing malignancies, which are cancerous formations, from the head and neck regions. He says physicians must get at skin cancers early if they are to be successful in curing them. His advice is that any persistent break or ulceration in the skin be checked immediately by a qualified physician. One man had what he thought was a fever blister on his lip for a year. It was cancer, and required prompt surgery.

Patients who want a change in their appearance usually find a roundabout way of approaching the doctor. Dr. Gooch says. They will offer a secondary excuse for wanting plastic surgery, as though they are ashamed to take advantage of medical treatment for deformities. He strongly recommends that physical defects be corrected early in life.

Children do not notice anything wrong with their own appearance when they are young. When they reach adolescence, they become more concerned. It is then that plastic surgery may be required to prevent a child from becoming a victim of a maladjusted personality.

**Children's Hearing**  
A predominant feature of the surgeon's work is done on faulty hearing in children. He states that many children are considered backward because they do not hear well. Improvement of their hearing may prove that they are not dull chil-

dren at all. In the Midland schools, a nurse screens children's hearing; recommending medical care when needed.

The preponderance of his work concerns the ears, nose, and throat. Bronchoscopy, a tongue-twisting word, is the practice of looking down the windpipe into the lungs with a long tube to diagnose disease or to remove foreign bodies. Difficulties of this sort are more common in children than adults. Esophagoscopy is the technique of looking into the stomach to detect disease or to remove foreign bodies. Dr. Gooch said that people with false teeth most frequently get bones stuck in their gullets while eating.

Skin grafting is an important phase of plastic surgery. This may involve transferring tissue, bones, or skin from one part of the body to another, usually in the head or neck region.

Dr. Gooch says plastic surgery is similar to repairing a new car that has been in a wreck. The car can be fixed, but when the job is completed, it will not look like a new car.

**Removal Of Cancers**  
Although removal of cancers probably is his most frequent operative task, many patients require emergency treatment such as repair of fractured jaws, shattered noses, and smashed faces. Many of his patients are women, who perhaps are more conscious of their personal appearance than are men.

Dr. Gooch came to Midland from Houston in September, 1951. He was reared in Shamrock, Texas. His previous background includes study at the University of Texas and Southern Methodist University plus further training at the Tulane School of Medicine in New Orleans. He interned one year at the Shreveport Charity Hospital in Shreveport, La. He has had three years special training at the Mayo Clinic in Rochester, Minn. During the war, he served overseas with the First Armored Division as its division surgeon. Before coming to Midland he engaged in private practice in Houston and taught medicine at the Baylor Medical School there.

He is the only specialist in plastic surgery in West Texas area, embracing a region from Fort Worth to El Paso.

**HAWAIIAN SUGAR**  
The Hawaiian Islands produce one-fourth of all the sugar grown under the American flag in an area less than that of New York City, or about 368 square miles.

**DID YOU HEAR THAT?**—Steve Hilburn of Terminal listens for a signal from an audiometer as Dr. J. Oliver Gooch examines his hearing ability. A test of all Midland school children helps to determine where corrective steps might be taken.

## New Officers Are To Be Elected For Landmen's Group

New officers for the Permian Basin Landmen's Association will be elected at a dinner meeting of that organization on September 25.

The affair will be held at Ranchland Hill Country Club. It is to start at 7:30 p.m.

After the election a moving picture titled "Football Highlights of 1951" will be shown. The film was made and is to be exhibited by Humble Oil & Refining Company.

**Attendance Urged**  
All members and prospective members of the association are urged to attend the upcoming meeting. It will be the first session of the organization for the 1952 Fall season.

Reservations should be made before Saturday of this week. Checks should be sent to Frank E. Curtis, Jr., at P. O. Box 1186, Midland. Charge for the dinner will be \$3 per person.

## 300 Dogs Entered In Midland Show

Approximately 300 dogs, including 44 Midland entries, will compete for cash prizes and trophies in the annual West Texas Kennel Club show to be held September 17 in Midland. Judging will be conducted during the day with finals slated at 8 p.m. A \$50 cash prize and trophy will go to the best Midland dog. Trophies also will go to each Midland best-of-breed winner. Junior showmanship classes will consist of two age groups, 6 to 10, inclusive, and 11 to 14, inclusive.

## Vagabond Indian Girl Ends Pagan Odyssey With Shaitan

**FORT WORTH**—(AP)—An 18-year-old Indian girl—member of a tribe of albino Iroquois Indians—hitchhiked from Canada to Texas to work on a ranch.

Her full name is Yalamulankastidnamusta—which means Rising Cloud.

However, she answers to Kim. Her constant companion is a small dog, and she wants to train horses.

The girl was found living in the woods southwest of here Friday by Deputy Sheriff Hank Davis after he received a call from Mayor A. R. Cartwright of Benbrook, a nearby community.

Kim said her tribe of Indians live on an island in the St. Regis River between the United States and Canada. Members of her tribe are citizens of both the United States and Canada.

The girl told this story: Her parents are dead but she

Highway Users, Please Note

Texas now ranks fourth in the automobile population of the nation, with some 3,400,000 cars registered, according to information compiled and released by the Texas Good Roads Association.

In the last 10 years the Lone Star State's population has increased 20 per cent while its automobile population has increased almost 100 per cent.

These automobiles, plus the many trucks and buses, travel a total of more than 81,000,000 miles a day over Texas' 44,000 miles of improved roads, the TGRA report shows. Almost half of the state's improved roads are in its farm-to-market system.

Considering the above information, maintenance necessarily is a tremendous factor in the use of highway revenues, it being estimated that 1952 road maintenance will take some \$42,000,000 out of the \$120,000,000 total available to the Texas Highway Department.

If Texas could spend all its highway income on new construction it would have a system of new highways unequalled anywhere—but such is not the case.

Highway Department studies reveal that Texas needs \$1,570,000,000 to bring its highways up to adequate standards of safety and utility. Such a program would permit \$5,000 miles at a cost of \$228,862,000, which amount almost equals the \$289,896,000 needed for the primary system. Arterial highway needs amount to more than \$1,000,000,000.

Present highway income is approximately \$120,000,000 annually from gasoline tax and registration fees. Of this amount, maintenance work requires almost one-half.

It also is worth mentioning that Texas always has used a pay-as-you-go system, which means there is no debt against its present highway system.

There is no argument that Texas needs and must have additional funds for its highway program. Where the money is to come from is the question which is perplexing the best minds of the state. That is why the Highway Department, the administrative and legislative branches of the state government, the Texas Good Roads Association, regional chambers of commerce and other interested groups are studying highway needs and methods of financing the needed improvements.

It is a matter in which every Texan should be interested.

After all, almost every other Texan has an automobile and all are interested in having the best roads possible. Perhaps someone yet will come up with a solution to one of the state's most pressing problems.

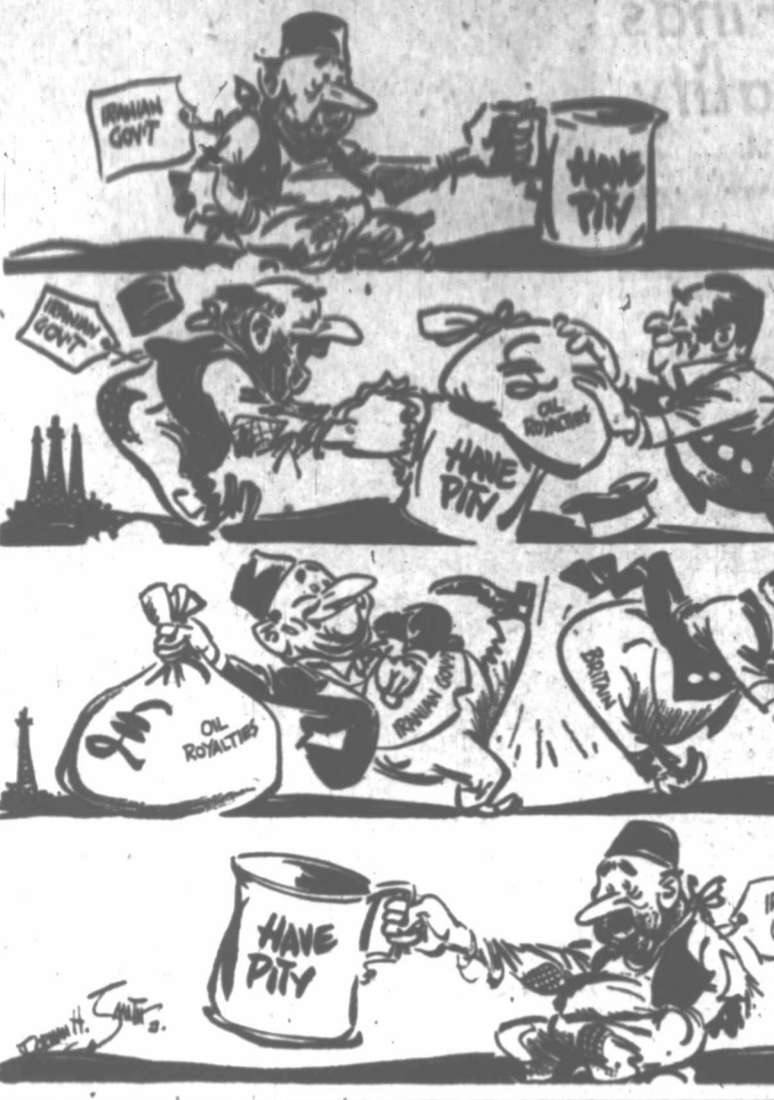

We certainly hope so anyway!

An Ohio judge says it's natural for women to want to run things around the home. Swell—bring out the lawnmower!

From Rags To Rags In Three Generations

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1952, By The Bell Syndicate, Inc.)

Drew Pearson says: Arabs threaten to boycott Germany over Israel; Missouri commission will criticize Army Engineers; Supreme Court justices return for court session.

WASHINGTON — Secret diplomatic dispatches last week carried word that the powerful Arab League—the "polibure" of the Arab world—has threatened an economic boycott against Western Germany.

This is a pork-barrel project project back in the days of the Coolidge-Hoover Administration. Almost every Congress since then has voted some funds to deepen the channel of the Mighty Mo so as to bring a trickle of barges up as far as Omaha.

Testimony before the Missouri River Commission is so negligible that it's not worth preserving. But on the other hand, the Army Engineers' job of straightening out the channel, according to testimony, rushes flood waters down stream at faster speed and increases the flood menace.

Whether the Army Engineers will drop their pet projects of Missouri navigation remains to be seen. They now have been plunging it for two decades, have built up one of the most powerful lobbies in Washington through this type of pork barrel.

However, the Missouri Valley Commission has listened to a lot of highly unfavorable testimony about the Army Engineers and is almost certain to issue a critical report.

On top of this, Gen. Lewis Pick, chief of Army Engineers, sent preliminary word that he would be available to testify for only one day before the commission. Since the commission has spent weeks taking testimony and since the Missouri presents the biggest flood problem in the entire U. S. A., General Pick's unwillingness to give the problem much time did not sit well with the commissioners.

Note — Chief originator of the Missouri Valley Commission is Senator Tom Hennings, Missouri Democrat, who sold the idea to President Truman. He and Chairman Lawrence have held such long sessions—sometimes from 8 a. m. to 8 p. m.—that their stenographers complain bitterly.

Legal Summers Most people have the idea that Supreme Court justices fritter away the summer when no court is in session. However, the nine black-robed members of the highest court in the land now are back in Washington after city semi-leisurely vacations.

What always keeps them busy are "certs"—the Supreme Court name for "writs of certiorari." These are petitions to the court to hear certain cases. And since the court itself decides what cases it shall hear, every Justice takes a big stack of "certs" to be read during the Summer.

Justice Sherman Minton was seen a lot by the neighbors of New Albany, Indiana, his old home. Aside from a few trips around Indiana, he spent his time there reading certis and answering mail.

Justice Felix Frankfurter Summered as usual at his home on Cape Cod.

A man announced that he was going to "have it out" with Brown and added, "I can lick him, standing on my head, with both hands tied behind me."

Later, the booster showed up with a black eye and a busted lip and was reminded by an acquaintance, "I thought you said you could whip him standing on your head with both hands tied behind you." The other replied, "Yes, I could—but he wouldn't fight that way."

JACOBY ON BRIDGE

By OSWALD JACOBY

Written for NEA Service

Today's hand is taken from the semi-finals of an important English tournament. It is worth a second look because of the way declarer handled the diamonds.

Before we get to the play of the cards, however, it is interesting to note how South led the hand. His jump to four spades may seem rash, but there was actually a good deal of logic in it. The hiding of the opponents indicated that they didn't have very powerful hands. South therefore correctly judged that North would show up with a moderately good hand.

West opened the queen of hearts, and declarer naturally won in dummy with the ace. The first question was whether to finesse in clubs.

West opened the queen of hearts, and declarer naturally won in dummy with the ace. The first question was whether to finesse in clubs.

Bridge hand diagram showing North and South hands with cards like ♠A5, ♠KJ8752, ♠K1084, ♠10862, ♠A3, ♠K753, ♠A, ♠QJ10764, ♠3, ♠J97, ♠A, ♠J.

Both sides vul. East South West North 1 ♠ 1 ♠ 1 ♠ 1 ♠ 2 ♠ 2 ♠ 2 ♠ 2 ♠ 3 ♠ 3 ♠ 3 ♠ 3 ♠ 4 ♠ 4 ♠ 4 ♠ 4 ♠

Opening lead—♥Q or in spades. Declarer came up with the right answer by leading a club from dummy and finessing the jack of clubs.

This was correct because there was a slight chance that the king of spades would fall without a finesse, whereas there was practically no chance that the king of clubs would drop. Moreover West's bid of one no-trump practically located the king of spades in the West hand.

After winning with the jack of clubs, declarer led the ten of spades from his hand, and all played low. South next laid down the ace of spades, hoping that West had been upset enough to duck the first trump with only a doubtful king.

As it happened, of course, this hope failed, and South had to give up a spade trick. West got out safely with a heart, and South ruffed.

South now had to find some way of limiting the loss in diamonds to two tricks. South decided that East was probably short in diamonds, since he was practically marked with a six-card heart suit.

How did South know about the length of East's hearts? West had opened the queen of hearts and had later played the ten of hearts. If West had held a third heart, he would have opened his low card rather than the queen. Hence West was marked with only two hearts, which meant that East started with six.

Having decided that East was probably short in diamonds, South began that suit by leading the jack from his hand. West won with the king of diamonds, and on the next round of diamonds South played low from the dummy, in the hope that East would have to play his ace, whether he liked it or not. This turned out to be the case, and South therefore made his ambitious contract.

SECOND MAN on the Ticket

By Edwin Lemkau

"Somebody has to go," Bill said. "We can't just let it ride." He looked at me, considered, then gave his head a decided shake.

"You mean I haven't lived in Hydrotown for 30 years," the Governor said, and smiled. "The only girl I had any trouble with was Ruth, and that trouble ended when I married her."

"I don't like it," Bill said. "I don't like it at all. What could it be?"

"There couldn't be anything," the Governor said. "Nothing important, anyhow."

"Can you think of anything important about Governor?" Bill asked. "It doesn't take much for McDonald to go to work on."

"Not even anything important," Bill said.

"I know what you mean, Roy," the Governor said. "You've been a tremendous help to me and I'm grateful right down to my bones. But maybe Bill is right. Maybe you can be more help to me in Hydrotown right now than here."

"Well, naturally I'll go, Governor," said. "If that's what you want."

"I wish you would, Roy," the Governor said. "All right, then," Bill said. "I'll go with you."

"I wish you would, Roy," the Governor said. "All right, then," Bill said. "I'll go with you."

WASHINGTON COLUMN

Justice Department Sets Out On Real Cleanup Of Its Slate

By FREDERICK EDSON

NEA Washington Correspondent

WASHINGTON — Department of Justice again is news. Not because of its scandals, but because of the legitimate news it has coming up on the prosecution of government cases that long have been dormant.

Time was, during the 1930's and the war years, when Washington reporters had to keep a sharp eye on Department of Justice and cover it regularly. Then, with the advent of Tom Clark as attorney general in 1945, the lid of censorship was clamped on. The only news that ever came out of the place was what was handed out in press releases.

Assistant attorneys general and division chiefs were forbidden to talk to the press and even to Congress. The attorney general became the only authorized spokesman for what was supposed to be the government's chief law enforcement agency.

It was in this period when reporters couldn't find out what was going on inside the department that all the mess now being uncovered was cooked up.

Public hearings later this month by the House Judiciary investigating subcommittee under Rep. Frank Chelf of Kentucky are expected to throw much new light on what happened in Department of Justice during the blackout years of 1946-51.

But the real news that again is making the department a regular port of call for reporters will be in the actions about to be taken by the new attorney general, the former judge and ex-congressman, James Patrick McGranery of Pennsylvania. No "Whitewash."

When McGranery was first named to the job last April, there were various Republicans like Senator Ferguson of Michigan and Representative Velde of Illinois who charged he would do another whitewash job. But it hasn't worked out that way at all.

The old practice in the Department of Justice during the last half-dozen years seemed to be to bring few cases to trial that were not sure to win decisions for the government. Too many cases seemed to be settled out of court. The new practice appears to be pretty much the opposite. Everything is going to be brought to trial.

A new solicitor-general, replacing Philip B. Perlman, will be named before the new Supreme Court term.

This brings up one of Attorney General McGranery's pet projects, which is to revise and strengthen the so-called "conflict-of-interest law." This law goes back to 1887. It was intended to prevent government employes from taking part in actions against the government, where they would serve two interests.

At the time of passage, this law was interpreted as meaning that no congressman-lawyer would ever be barred from practicing law in a federal court. This is true, so long as there is no conflict of interest.

A bill to strengthen this law will be drawn up and presented to the new Congress in a further effort to clean up the administration of justice in government cases.

Along a similar line, U. S. district attorneys have been asked to report on all their outside-government, private law practice. There is some thought of trying to get them more pay, so they won't have to serve two masters.

While all this is going on, Department of Justice practices and procedures are being reorganized to make the place as unlike what it used to be as is possible.

What's RIGHT? You are saying good night to a young man with whom you have had a date. WRONG: Say, "Thank you for taking me to the dance." RIGHT: Say, "I had a lovely time" or "It was such fun."

CARD GAME

Q—The bidding has been:

Card game bidding table with columns for South, West, North, East and Pass.

You, South, hold: Spades K-Q, Hearts A-K-10-7-6, Diamonds 5-3-2, Clubs 9-2. What do you do?

A—Bid three diamonds. You cannot pass, since North's "revers" bid is forcing for one round. You cannot raise spades, you have already rebid the hearts, and you cannot bid no-trump with no strength in the unbid suit. All you can do is show a preference for diamonds.

TODAY'S QUESTION The bidding is the same as in the question just answered. You, South, hold: Spades K-7-5-3, Hearts A-K-10-7, Diamonds Q-5, Clubs 9-4. What do you do?

Answer Monday

What's RIGHT?

You are saying good night to a young man with whom you have had a date. WRONG: Say, "Thank you for taking me to the dance." RIGHT: Say, "I had a lovely time" or "It was such fun."

"There wasn't time," I said. "It was a rush job, you know, and Bill and I just talked to everyone we could and looked up the newspaper files."

"Newspaper files," the Governor said.

"The plane set me down at an airport 40 miles from Hydrotown at half past four in the morning, as a sleeping orange dawn began to outline the low, regular hills of that Southern country. There was no bus for a couple of hours, but I found a taxi to run me over to Hydrotown. Anyone who has driven from New York to Florida by the inland route has passed through Hydrotown, but the odds are that not one in a hundred stops there, unless the car had a flat. The highway narrows to the main street of the town, and there are two traffic lights, entering and leaving Hydrotown. The buildings along the main street are solid, two-story red brick with flat roofs forming eaves planes on opposite sides of the street.

I drove into Hydrotown about half past five, and there was not another car parked or moving on the street, not a door unlocked, not a window open. I carried my bag into the Fisher Arms Hotel. The lobby was small, and crowded with leather chairs comfortably grouped so that drummers could sit and gaze out huge plate-glass windows at the street. The office was enclosed by a waist-high railing and counter, but the two chairs behind the railing were unoccupied. No one was about. I put my bag by the window and stepped into one of the big leather chairs. I had not had breakfast, and did not light a cigarette, and I had that gloomy depression that comes on a man who has risen much too early and become too much unaccustomed to bed. I had not been to bed at all, and had slept only a 1911-on-the-plane. A truck passed through and dropped off a bundle of newspapers at the drugstore across the street, and a policeman or so appeared, off to early job. (To Be Continued)

WITH THE SERVICES—

## Captain Perkins Goes To Germany

Capt. John Perkins, III, 1301 West Illinois Street, has assumed duties as assistant construction engineer at the Wurtsburg Military Post in Germany.

Son of Mr. and Mrs. John Perkins of Midland, he was graduated in 1946 from the U. S. Military Academy at West Point.

He received a post graduate degree in 1952 at Texas Tech College. Before his European assignment, he attended the Branch Immaterial School, the Infantry School and the Engineer Officers Basic Course, Fort Belvoir, Va.

First Lt. Allan P. Scholl, whose wife, Sonya, lives at 1307 South Main Street, is serving in Germany with the Second Armored "Hell on Wheels" division.

The armored outfit arrived in Europe in July, 1951, to join the North Atlantic Pact Army. During World War II, the division was the first American unit to enter the fallen city of Berlin. Lieutenant Scholl entered the Army in July, 1944.

Pfc. Oscar Otto, Jr., whose wife, Virginia Lee, lives at 1807 West Kentucky Street, is on security duty with the First Cavalry Division in Korea.

His unit, one of the first to fight in Korea, currently is undergoing extensive aerial movement and amphibious training on the northernmost Japanese island of Hokkaido. It was transferred to Japan last December after 17 months of combat.

Otto entered the Army in April, 1950, and was stationed at Fort Hood before going overseas.

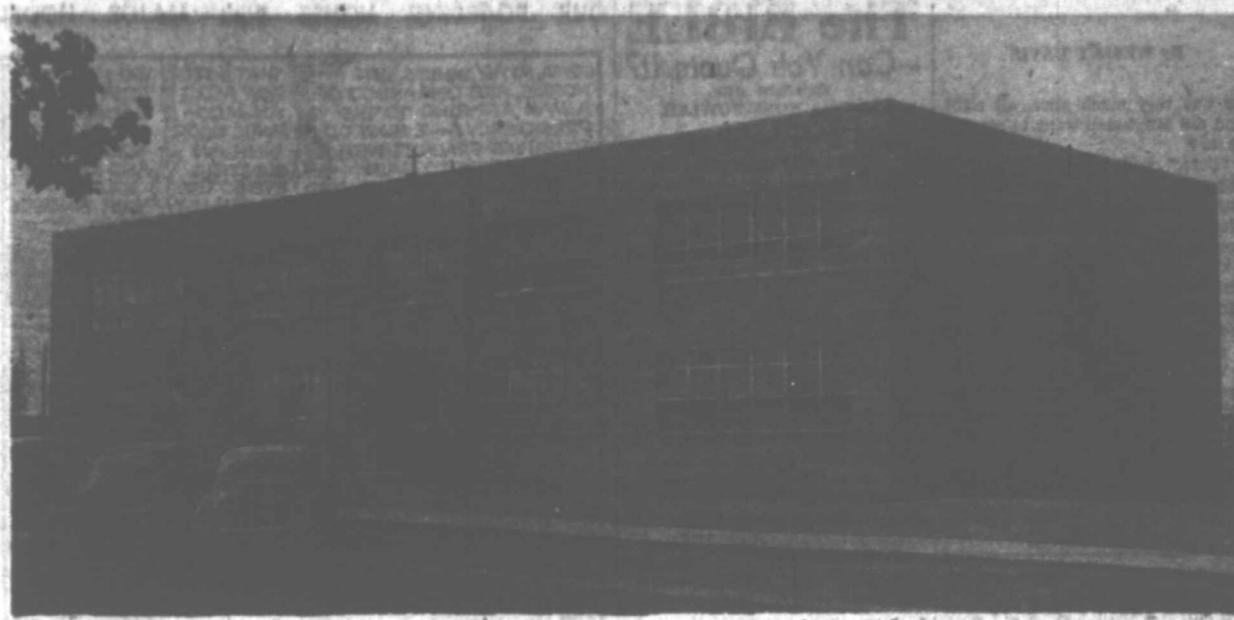

Pvt. Joseph H. Harrington of Pharr has joined the 19th Infantry Division at Fort Riley, Kan., for 18 weeks of infantry basic training.

First Lt. Billy R. Wright, son of Mr. and Mrs. Albert N. Wright of Crane, has been awarded the first Oak Leaf Cluster to the Army Commendation Ribbon in Korea. He was commended for meritorious service as an aide and pilot for Lt. Gen. Williston B. Palmer, commander of the X Corps.

## FATE BETRAYS CHICAGO MAN

CHICAGO —(AP)— August 26 Veno, 25, was driving on a West Side street Saturday. He saw an automobile bowl over a man at Harrison Street and Albany Avenue.

De Veno made a vain effort to overhaul the his-run car. Then he returned to the intersection. He recognized the victim. It was his father, Ed, 56, who died a few hours later in a hospital.

**PAROCHIAL SCHOOL ENLARGED**—St. Ann's Parochial School begins its third year of operation with an enrollment of 304 children. A second floor was added this last Summer. The new addition includes a large auditorium for school plays, a music room, a library with a small storeroom, an upstairs office for the principal, Sister M. Bonfilia, three classrooms and two large storage rooms. A lay teacher,

Rebecca Stiles, is the new music teacher. She received her musical education at Loyola University, New Orleans, La. Seven Sisters of the order of the Sisters of the Immaculate Conception, whose mother house is in Paterson, N. J., staff the school. Besides Sister M. Bonfilia, principal, they are: Sister Mary Lucy, Sister Soteria, Sister M. Stephana, Sister Claire Marie, Sister Michael John and Sister Corona. The school includes kindergarten through the eighth grade.

## Airmen Charged In Murder Of Texan At Keesler Base

GULFPORT, MISS.—(AP)—Two Keesler Air Force Base airmen were charged with murder in the death of another airmen.

Sheriff Edward McDonnell identified the pair as Airman 2/e Dwight L. Archer, Jr., 31, of Louisville, Texas, and Airman Michael J. Potapov, Jr., 19, of Downey, Calif., both attached to the 388th Student Squadron.

McDonnell said the charges grew out of an investigation into the death of Airman Richard Jerome Wilson, 19, of Aspermont, Texas, whose body was found August 3 floating in the Tchoulaibouffa River about six miles north of Biloxi.

The sheriff said affidavits charging murder were filed by District Attorney Luther Maples after an investigation by Deputy Sheriff Lorenzo Krohn and military authorities.

Wilson disappeared while swimming in the river August 3 and his body was discovered by another Keesler airman two days later.

Krohn said the two airmen said they had been swimming with Wilson but denied knowledge of his death. The deputy said the pair told him the last time they saw Wilson he was standing on a sand bar in about four feet of water.

## Manuel Acosta, All Two Of Him, Levied Suspended Sentence

EL PASO —(AP)— Judge R. E. Thomson saw double in the Manuel Acosta case.

Last week a Manuel Acosta, 18, came before Thomson on a charge of illegally entering the country. He drew the usual three-month suspended sentence and deportation for first offenders.

Friday a Manuel Acosta, 18, faced the judge for illegal entry.

A little checking disclosed that the first Manuel was really another Mexican with a previous deportation record. Knowing that his previous record would call for a jail sentence, he posed as Manuel Acosta, a first offender.

Friday's Manuel Acosta also drew a three-month suspended sentence. Mushrooms contain about 90 percent water.

## Business Service To Open Monday

The Midland Business Service, a new secretarial service with offices at 712 McClintock Building will open officially Monday, according to its owner-manager, Edna B. Neatherton.

The new concern will handle direct mail, rotary public, and telephone answering services, as well as typing, mimeographing, using any color or combination of colors, and taking dictation, either over the telephone, through a dictaphone machine or personally.

A unique feature of the telephone answering service is the availability of recordings. Upon request each incoming message will be recorded for the subscriber.

The new owner-manager has had 11 years experience in the oil business in Midland.

It Pays To Advertise.

# Here are the STRAIGHT SOLID FACTS that lead thousands to better truck buys!

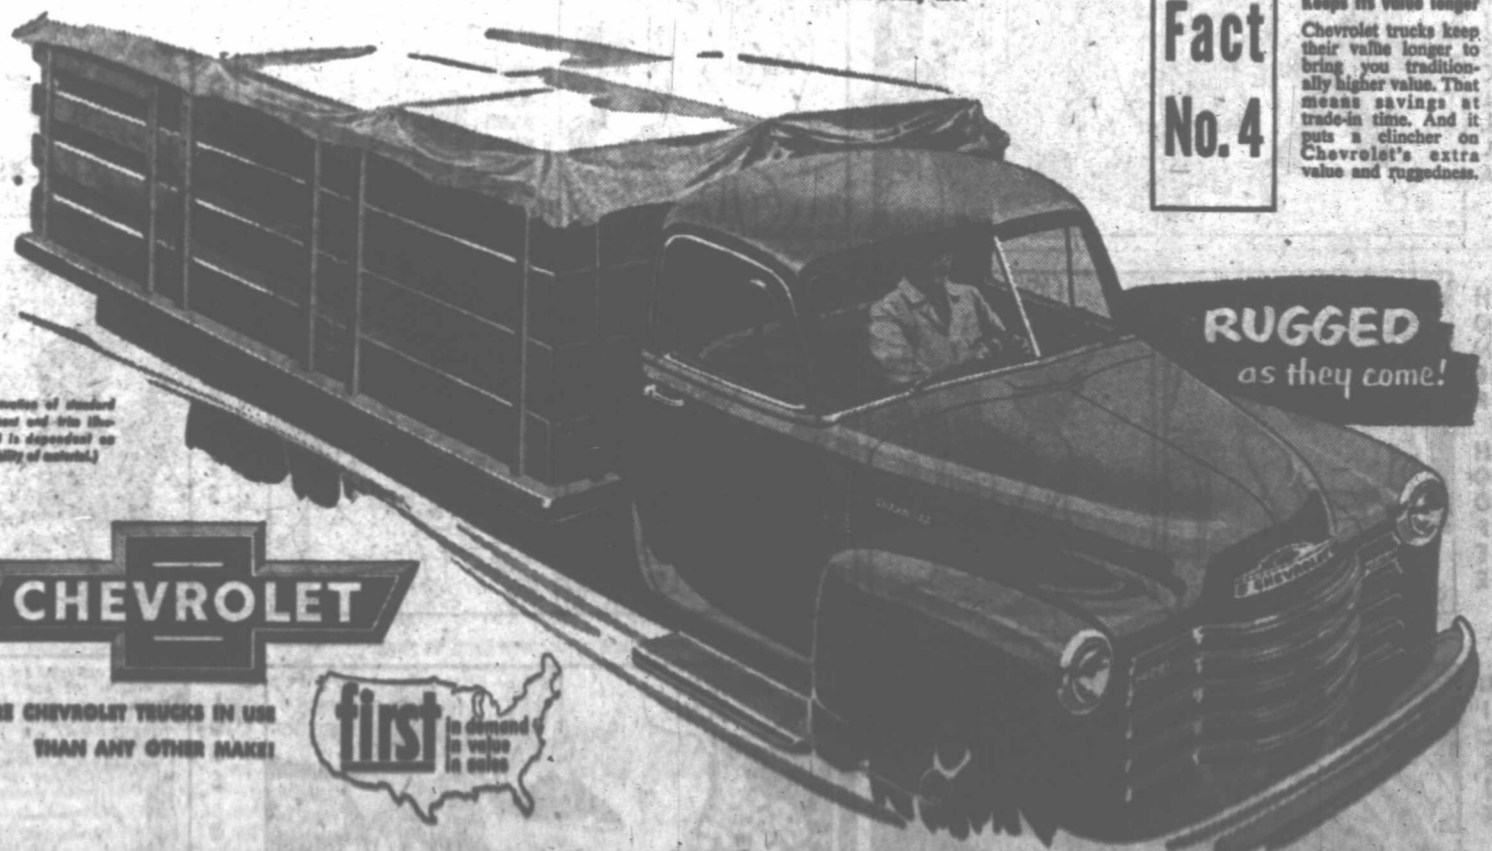

Veterans of the trucking business buy on cold, hard facts. They buy for good, solid, levelheaded reasons. And more and more of them buy Chevrolet trucks. As a matter of fact, they buy more Chevrolet trucks than any other make.

Here's why. Chevrolet trucks are factory-matched to your job. Tires, frame, axles, springs, engine, transmission, brakes. All are right on the job—and right for the

job. All are matched to the job, to get work done fast and efficiently—at the lowest possible cost to you!

They cost less to buy, own, and operate. And Chevrolet's dependable valve-in-head engines hold fuel costs down, but deliver all the power you need when you need it.

Come in and let's talk it over. Let us show you how great these Chevrolet trucks really are.

**RUGGED**  
as they come!

MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!

**ELDER CHEVROLET COMPANY**

701 W. Texas

Phone 2-3731

- Fact No. 1** Costs Less to Buy  
Chevrolet trucks list for less than comparable models of other makes. As the world's largest manufacturer of trucks, Chevrolet can make important production economies that mean substantial savings to you!
- Fact No. 2** Rock-bottom operating and upkeep  
Hundreds of thousands of truck users have proved that Chevrolet costs the least of all to own and maintain. Valve-in-Head economy saves on gas. 4-way engine lubrication keeps oil costs low.
- Fact No. 3** On-the-job efficiency saves money  
Proved features cut operating and maintenance costs. Valve-in-Head economy. 4-way Lubrication reduces engine wear. Heavy-duty axles, and Flexi-Mounted cabs, Ball-Gear Steering, Synchro-Mesh Transmission.
- Fact No. 4** Keeps its value longer  
Chevrolet trucks keep their value longer to bring you traditionally higher value. That means savings at trade-in time. And it puts a clincher on Chevrolet's extra value and ruggedness.

# Daddy Ringtail

## Daddy Ringtail Shakes Alive

The night had come to the Great Forest. The moon shone down on all the trees, and the rocks, and the fields, and the Elephant Path, and also the Whispering River.

Moonlight shone through the window of a monkey house—high in the top of the very tree—where Mugwump Monkey, the monkey boy, was safe and warm and asleep in his bed.

The night was alive with the hum and chirp of a night in spring when the nightwind whispers softly from somewhere out in the forest, and the distant roar of a lion.

Mugwump opened one of his eyes. Was it the moonlight which woke him up? No. Was it the noise of hum and chirp of a fine spring night? No. It wasn't the roar of the lion, either. It was something else which woke him up.

He said, "Something's hiding here under the cover of Mugwump's bed, and it isn't Mugwump, because Mugwump is who I am."

Hardly had Mugwump said these words, when suddenly, underneath

the cover a something began to shake like jelly shaking. It was somebody sure enough!

"Shakes alive!" said Mugwump in a great astonishment. He hadn't dreamed it after all. There was indeed a someone in his bed beneath the cover, but Mugwump wasn't

he was very much alive, all right, and did Mugwump want to see him shake?

"Sure," said Mugwump, and so out from beneath the cover came the boy whose name was Shakes Alive. Shakes! Shakes! Shakes all over, as you can plainly see.

"He still!" said Mugwump, and so Shakes Alive was still, but—well, Mugwump couldn't see him any more, because Shakes Alive was only a shake, remember.

Well, said Mugwump, "I must be dreaming after all." And so Shakes Alive said Mugwump was dreaming indeed, and besides—Shakes Alive had to go home to be wound up to begin his shaking all over again. Happy day!

(Copyright 1952, General Features Corp.)

afraid. Oh no! Nothing unhappy can happen, you know, when you are safe and snug in your own bed.

"Shakes alive!" said Mugwump again, all to show how very astonished he was.

"Oh now," said an answering voice from beneath the cover. "You can talk plainer than that."

The someone explained that his real name was Shakes Alive, because

# Dirt, Squirt and Quirt

FARM, DAIRY AND RANCH NEWS

The market was strong and active on cattle at the Midland Auction Company sale Thursday. Most of the run of 500 head were stockers. Stocker steer calves brought \$25 to \$30 and heifer calves \$23 to \$25, mostly under \$25.

Butcher calves and yearlings medium to good grade sold for \$23 to \$28.50, common to medium \$17 to \$22, culls \$14 to \$17. Fat cows drew \$15 to \$17.50, mediums \$13 to \$15, canners and cutters \$9 to \$13. Bulls cleared at \$16 to \$21.

Well, Partner, we hadn't received our share of last week's moisture, at the time of this writing at least, but you better keep that slicker handy because the rainy spell isn't over yet. More moisture is on the way, we hope.

The moisture we did get surely was appreciated, however, and it did a lot of good. It fell just right for parched lands to receive the maximum benefit, and things now look a bit brighter for farmers and ranchers. But it will take a lot more rainfall to bring broad smiles to the faces of West Texans.

Down in the Hill Country, too much rain fell all at one time, and extensive damage is reported throughout that section. It's too bad this territory couldn't have shared in the deluges which flooded the area further South.

Some of the folks returning from the ball game in Big Spring Thursday night reported a young flood fell at Stanton earlier in the evening. And the heavy black cloud which hovered to the South of Midland Thursday afternoon surely must have brought needed rainfall to the Leonard Proctor ranch country. Hope so, anyway.

Jerry Cowden is the new president of the Crane County Sheriff's Poles for 1952-53, and Ted Thompson, former Midland resident and civic leader, is secretary-treasurer. Harry Cowden is lieutenant, and J. B. Rogers, corporal. The officers were elected at a recent meeting of the organization.

Area directors are Don Kilgore, Don Tullison and Elliott Moore. The finance committee includes Wilson Barr, R. L. Dameron and Robert Tomlinson.

The Crane County Sheriff's Poles is one of the most active organizations of its kind in West Texas. That 139-pound watermelon shipped here from Hope, Ark., and exhibited by Bill Green, manager of Hinkle's Department Store, surely caused a lot of comment among Midland residents, many of whom never had seen such a large melon. It perhaps will be somewhat difficult for newcomers to believe, but Midland County has produced delicious watermelons weighing in excess of 100 pounds in years past. It was not too many years ago that a 100-pound plus watermelon raised in Midland County was forwarded

to the President of the United States. The drought of the last several years has hampered melon growing here, but the tasty Midland County melons will return with the wet years.

Come drought or flood, Texans are making progress in improving their ranges and pastures. The drought practically has not only crop but range and pasture production as well. But with favorable conditions, farmers and stockmen are expected to continue and materially expand their programs of soil and water conservation and pasture and range improvement.

Last year the National Fertilizer Association made available through the Texas Agricultural Extension Service a trophy to be presented to the county in Texas conducting the most outstanding program in pasture and range improvement. The selection has been made and the Grasslands Achievement Trophy—a silver loving cup—was presented to Kaufman County. A similar award will be presented for 1953-54.

Three Pecos youths practically stole the show at the recent El Paso Kid's Rodeo.

Bub Jackson, 15-year-old son of Mr. and Mrs. Buck Jackson, was crowned reserve cowboy champion. He also took top honors in calf-roping with a time of 17.9 seconds on two calves. He placed second in the calf-riding event.

Mary Dale Miller, daughter of Mr. and Mrs. Buck Miller, won first place in calf-roping for girls between the ages of 10 and 16 years.

Jimmy Cook, also of Pecos, was a member of the team which placed first in the steer scramble.

About 4,300 Hereford cattle will be sold at auction on the Fort Apache Indian Reservation in Arizona in October. One sale will be held October 7 at Apache Springs, and will involve 800 head of cattle. Another sale is scheduled October 14 at Apache Springs when 1,300 head of steers will be sold. Other sales will be held October 21 and 28 at McNary.

One of the oldest rodeos in the West, that at St. George, Utah, will present its 1952 version there September 18-20. The Pecos Rodeo, incidentally, is said to be the oldest.

The soil testing laboratory operated by the Agricultural Extension Service of the Texas A&M College System has been a busy place during the last year. According to M. K. Thornton, agricultural chemist and in charge of the lab, 9,550 soil samples have been analyzed. He says the number of samples submitted has increased steadily since the lab was opened on Nov. 1, 1950. Determinations made by the laboratory include the amount of organic matter, nitrogen (ammonia), soil reaction, available phosphoric acid, available potash, available lime and soluble salts for each sample. Recommendations for best land use based upon the soil analysis are returned to the sender along with the report on the sample.

Treating planting seed is not something new. More than 2,000 years ago farmers were told to soak planting seed in wine. In 1640 a shipwreck of the coast of England led to one of the big advances in small grain seed treatment. The damaged grain was unfit for making flour but was used for planting purposes. Farmers who planted the sea water saturated seed found their crops to be fairly free of smut. This led to the use of brine for treating wheat seed.

Today there are chemicals made specifically for the treatment of small grain seed, and according to Don Norton, plant pathologist of the Texas A&M College System, when these materials are used properly, losses from most small grain smut can be practically eliminated.

The American Meat Institute reports that consumers will have the largest supply of beef in history in 1953, if producers continue to build up their cattle herds as they have during the first six months of this year.

The nation's cattle population is expected to increase by 4,000,000 or 5,000,000 head and to reach a total of as much as 89,000,000 by the time the curtain comes down on 1952. During the first half of this year there was an eight per cent cut in cow slaughter, as a direct result of the herd building program, yet producers were able to market about five per cent more cattle than during the comparable period last year by offering a larger volume of steers and heifers, the institute report says.

# Mesquite Trees, Cacti Die Of Thirst In Record Drouth

By FRANKLIN REYNOLDS  
Big Spring Daily Herald

BIG SPRING—(AP)—Even the mesquite trees died from the drouth in some parts of West Texas before last week's rains.

Still stranger, and maybe harder to believe—some prickly pear cactus and yucca on the hillsides died from the lack of water.

Death of the mesquite isn't a general thing by any means. It's just in those areas where there haven't been any showers to sustain it. This situation prevailed in spots over Howard, Martin, Sterling and Glasscock counties.

The situation also was reported in spots down across the Edwards Plateau to the south and southwest of Big Spring.

The death of the mesquite has been determined by post mortems in which we have sveded down to and through the roots a sufficient distance to determine the roots are definitely dead. We also have made every effort in such cases to determine that these particular mesquite plants have not been poisoned.

Definitely, we say, in spots mesquite has been killed by the drouth.

It should be explained here that the mesquite is this part of the country is not a tree as some persons know it, but a scrubby shrub. There is quite a difference in the mesquite and that no farther away than the Llano River. If we had the same larger growth of mesquite out here that they have, drouth might not kill it all—and on the other hand might kill it quicker. I don't know.

As far back as probably a little more than two months ago, W. S. Goodlett, district conservationist with the Soil Conservation Service and I found shinnery that definitely had been killed by the drouth. (Shinnery is a dense growth of low trees.)

In one pasture we went down to the roots of quite a large number of these plants and confirmed this point. This shinnery had received a light shower or two. In further confirmation of our findings we found a low place in the same pasture where the shinnery was not dead. But thriving and doing well because some moisture had drained into and been held by this low place, probably an old buffalo wallow.

The dead pear cactus and yucca

is principally on rocky hillsides where there has been a heavy runoff of such meager showers as have fallen.

While it is true that pear and yucca will grow on the desert where there is less rainfall than we have here, our theory is that the pear and yucca in this part of this country have become acclimated or have adapted to more moisture for generation after generation and were therefore dying this summer because of the lack of that quantity of moisture to which it has become accustomed.

I have one particular spot in mind where we found dead yucca and pear that was not more than about 200 yards to a sub-irrigated low place where clover was growing head high on a man. The moisture just could not seep up into that hill and the pear and yucca roots could not reach down to the moisture.

To the south and southwest of us, down in the Edwards Plateau coun-

try and out towards the Trans-Pecos country, down in the Cedar country, much of the cedar also was becoming a drouth victim and dying from a lack of water.

Everybody talks about the "Great Drouth" of 1917. Our rainfall here so far this year has been a little less than it was at the same time that year. And in 1917 only 4.68

inches of rain was recorded here all year.

In the early 1930's hundreds of thousands of acres of grassland was plowed up in this country and put into cultivation. Land with good grass on it will absorb about nine times as much water as bare land as a general thing in West Texas. At the same time evaporation is

much higher from bare land than from grass-covered land. The result is that we just don't have any moisture in the soil this year.

This year we haven't any grass. All the cattle have been shipped out. We won't raise a feed crop at all and while this county has produced as high as 65,000 bales of cotton we will do well to produce 200 this year.

**NEW TWIST ON OLD GAME**—You can bet this wild Brahman bull didn't learn that Conga twist at a dancing school. It's only one of the many cute tricks these playful critters use to get rid of their convict riders at Texas' Annual Prison Rodeo. The big event takes place this year on Sunday afternoons, October 5, 12, 19 and 26.

## SCS Plans Drouth Defense Program In Midland County

A three-point drouth-defense program will be the initial move of the reactivated Soil Conservation Service Unit in Midland County, it was announced Saturday by Ben Osborn, new work unit conservationist, and Cal Boykin, range conservationist who has been stationed here the last 18 months.

The conservationist said they would take immediate steps to reduce soil blowing this winter and minimize permanent damage to ranges and crop lands.

The three measures to be emphasized in the program of the Martin-Howard Soil Conservation District were outlined by Osborn after an examination of Midland soil and cover conditions, and consultations with Warren Skaggs and W. H. Yater, Midland supervisors of the district, and with other county agricultural workers.

Osborn's three-point program as a defense against soil blowing follows:

**PARROT POWDER**  
The African gray parrot uses face powder. The bird keeps its face coated with a fine, white powder, which it gets from a curious patch of feathers on its breast. The tips of the feathers break off and form a talc-like powder.

## Aussies Near Military Goal Of 125,000 Ready Warriors

SYDNEY. —(P)—Australia soon should have armed forces of some 125,000 men enlisted for overseas service, ready to go anytime to any part of the world in event of war.

This is the manpower objective of Australia's three-year defense program, now in its third year.

Provisions by the federal government that all permanently enlisted servicemen, all volunteers for the citizen forces of any of the services, and all national service trainees in the Navy and the Air Force should enroll for service anywhere in the world in war time, have given Australia a bigger standing force of men available for overseas service than the nation has ever had before.

When the three-year program is completed next year, Australia should have in the three services the numerical equivalent of 10 infantry divisions, volunteered to serve overseas.

The defense program provides the following target forces enlisted for service abroad:

Navy—17,000 permanent officers and men and 10,000 citizen force and national service personnel, a total of 27,000.

Army—32,000 regular soldiers and 30,000 citizen force volunteers en-

rolled for overseas service—a total of 63,000.

Air Force—16,794 permanent personnel, 1,843 citizen force personnel, 10,000 active reservists and 5,000 national service trainees.

In addition there will be a general reserve for the air force and a reserve of officers and men for the army who could be drafted for overseas service after training. There also will be 67,500 national service trainees completing training or on reserve, who, although not enlisted for overseas service, would be available for home defense call-up.

Latest surveys of the three forces indicate that about 90,000 men enlisted for overseas service are already available.

The federal government estimates the total cost of this program will be at least \$135,216,000, more than half of which already has been authorized.

### Livestock

FORT WORTH. —(P)—Most classes of livestock were weak to lower during the week here. Good and choice fed steers and yearlings sold for steady prices, but the medium and lower grades were weak to 50 cents or more lower. Calves were \$1-62 lower; except strictly choice fat calves were steady. Stockers were weak to \$1 or more off. Hogs and sows closed on a weak to 50 cents lower basis. Slaughter Spring lambs were 50 cents or more lower, and ewes on a stronger basis. Stocker and feeder sheep and lambs closed with a stronger undertone.

Comparative prices: slaughter steers and yearlings \$12-\$22.50; slaughter calves \$10-\$27; stocker calves \$27.50 down; stocker yearlings \$26 down; stocker cows \$14-\$23; slaughter lambs \$8-\$26; feeder lambs \$19 down; slaughter yearlings \$8-\$18.50; feeder yearlings \$14 down; aged wethers \$10 down; slaughter ewes \$8-\$7; old bucks \$6.00-\$5; closing hog top \$19.50; sows closed at \$15-\$16.75.

### ANYBODY CAN BE MISTAKEN

BOISE, IDAHO. —(P)—A man following Judith Barnhardt struck her on the head with a rock as she stepped aside to let him pass. She said he then took a close look at her and uttered: "Sorry, wrong person."

FREDDY GETS THE BIRDS—Freddy, 16-month-old Hereford steer, hopes the pigeons roosting on his neck aren't an ill omen. He's been entered in the livestock competition at the Los Angeles County Fair, and he hopes the judges won't give him the bird. His pretty mistress, 4-H Club adviser Gloria Ward, 19, of Pomona, has also entered the pigeons in a judging event.

## World's Food Output Grows, But Population Stays Ahead

WASHINGTON. —(P)—Crops are so big this year there probably is more food in the world than at any time since before World War II.

Harvests of the breadstuffs—wheat and rye—have been so bountiful the volume is expected to set new world records. The crops of corn and rice, also basic parts of the diet of hundreds of millions of people, will approach the record.

There are more cattle in the world than ever before. The crop of sugar is the greatest ever produced.

These are estimates of U. S. officials who say it is good news—but not good enough.

While crops are bigger there are a lot more people in the world than ever before. Even with larger supplies of food available, there would be less for each person to eat if it all were divided equally. Population experts estimate enough people to fill another nation almost as large as the United States have been added to the world since the war. Accurate crop statistics aren't available for the Iron Curtain

countries. It is outside these nations that U. S. government experts estimate total food supplies are slightly larger than just before World War II. But they say the amount available for each person is a "shade less" than in 1928.

Supplies, of course, aren't distributed evenly. Some nations still have to ration some products. And the world has many hungry people. The Mutual Security Agency made a study of Europe, outside the Iron Curtain, and its report says the farm production of Western Europe

now is about 12 per cent above pre-war.

"But due to population gains, per capita output is just approaching the pre-war level," it adds.

All of this year's crops aren't harvested. Some, in southern countries, are just being planted. But reports from most of these say planting conditions in most places are better than last year. On that basis officials say the early crop prospects are better than a year ago.

## Liquor Jury Says Some Dealers Lax

LUBBOCK. —(P)—The Lubbock grand jury says liquor dealers are letting too many cargoes for wet areas disappear in dry sections.

"Liquor dealers in wet areas are hauling liquor into this area under false road manifests," the jury reported Friday.

It asked the state House Crime Investigating Committee for help.

"We believe that if these major supply points and their connections with local distributors could be investigated, the core of the liquor problem would be removed," the report said.

The jury said arresting retail bootleggers was no solution to the problem.

## 'Texas Home Fashion Time' Observance Is Scheduled

Texas Home Fashion Time, a celebration designed to demonstrate to Texans how their homes can be more livable, attractive and friendly, will be staged in more than 600 furniture stores in 140 cities September 18-27.

W. C. Meyer, Fort Worth, state chairman of the event annually sponsored by the Retail Furniture Association of Texas, said the 1952 observance promised to be the largest and most successful in history.

September 18-27 has been proclaimed officially as "Texas Home Fashion Time" in Texas by Gov. Allan Shivers. The governor, in his proclamation, urged all Texans to cooperate in every way possible to make the observance a success.

This special event, with the theme "Friendly Texans Like Friendly Homes," is to be celebrated fittingly in most cities and towns of Texas, the proclamation said.

All Price Ranges  
The event is keyed to furniture of all price ranges, showing Texans how home furnishing in excellent

taste can be purchased reasonably. Furniture manufacturers, including more than 90 Texas firms, are cooperating with the stores in staging the celebration. Many new lines are being introduced during the event.

The Retail Furniture Association of Texas is the largest association in the nation. J. Frank Heath, Amarillo, is the 1952 president, and H. E. Dill, Dallas, is the executive vice president.

## New Cabinet Sought For Lebanon Regime

BEIRUT, LEBANON—(AP)—Parliament Deputy Saeb Salm began attempts Saturday to form a new coalition cabinet and end Lebanon's five-day-old government crisis.

The country has been without a government since Tuesday when Premier Sami Solh lost a vote of confidence and resigned. His reform program had clashed with one sought by President Bechara el Khoury.

The president named Salm premier-designate Friday. Salm is expected to try to form a coalition of the president's supporters, the Loyalists, with a moderate wing of the opposition, the Popular Front.

## Inspect Your New Home Before Moving Into It

By HEN. FLIX  
Distributed by NFA Service  
Buying a new home is the largest single investment the average family makes in a lifetime. Because it is such a major event, it is important that an owner be happy and satisfied with his purchase now—but even more importantly, in the future.

A good home is built to last, and the builder has had to comply with rigid standards set forth by various building codes and regulations.

However, every new home—like an automobile—requires careful "breaking in" by the buyer. A few continuing obligations are the builder's, but in general it's up to the buyer to take over this complicated assembly of materials.

You should know your new home as well as your automobile, says the National Association of Home Builders. Its long life and your continued comfort are in many ways dependent upon this knowledge.

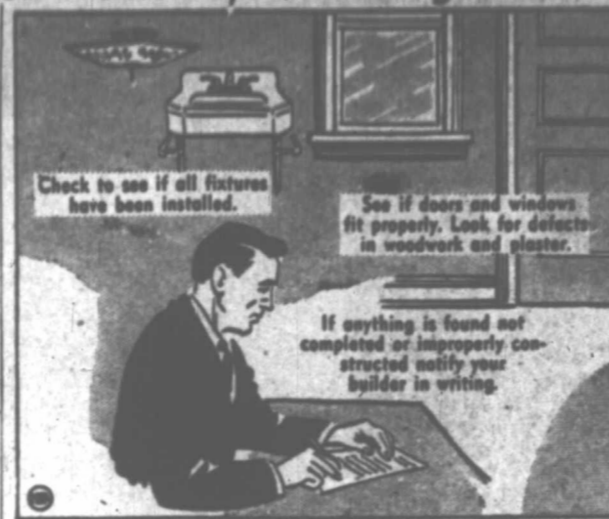

"Service Department"  
Should any minor repairs, due to poor workmanship or defective materials, be needed in the first few months of occupancy, report them to your builder immediately, the association recommends. Within a reasonable length of time a reputable builder will make the necessary repairs.

Home builders do not generally maintain "service departments" and cannot provide personal service on a moment's notice, but will have the plumber, electrician, plasterer, etc., take care of your legitimate requests. Cooperate with your builder.

There are some 3,000 component parts in a new home. A general working knowledge of these items is a "must" for every buyer. It will enable the owner to understand more fully the normal results of heat, cold, humidity, expansion, contraction—conditions which affect every new house, whether the price is \$7,000 or \$70,000.

After taking time to a new home, take time for a complete inspection of the structure before moving into it. See that everything has been completed as agreed upon. You will be satisfied, and the builder's contractual obligations will be completed.

If items are discovered that, through an oversight by yourself or

Any items that have not been completed in your new home should be promptly called to the attention of the builder in writing.

the builder, have not been completed, these items should be promptly called to the attention of the builder. It is always best to do this in writing. Telephone calls, verbal statements, rough memoranda can often go astray.

For home building has become a large-scale, mass-production industry. The time has passed when all new homes were one-man building operations—the "builder's" combination carpenter, mason, roofer and jack of all trades. Sometimes he was master of none.

Today's "merchant builder" is part of an expertly organized industry, which utilizes the results of constant research for new building materials and designs which add to the beauty, quality and durability of new homes.

Discoloration caused by the action of certain sewage gases on paint can be removed by sponging with peroxide or a mild solution of muriatic or acetic acid. Rinse with water, and let dry.

Even when over-all house painting is not necessary, many parts of the house are sure to need a paint touch-up. Touching up walls, trim, roof or porch no longer need result in splatters of color standing out because of a mis-match with the surrounding color. Today the home-owner can buy as little as a half-pint of paint to match to perfection the color of any surface to be touched up. Colorizer paints in 1,222 colors and in finishes for every surface make this possible.

Metal Surfaces  
Metal surfaces such as posts, grille work, balustrades, trim and piping should be examined for rust before painting. If rust is found, loose particles should be removed with sandpaper and the surface coated with a rust-preventing metal primer before painting. Wrought iron work should be sanded and given two coats of clear lacquer, brushed in and finished by waxing.

Before applying oil paint to concrete, the free lime should be neutralized by spreading on the concrete a solution of zinc sulphate and water. The solution should be applied freely, and allowed to soak in and dry for several days before painting. If the concrete already has been painted with an oil paint, this treatment is not necessary unless the paint is badly peeling. If the paint is peeling, it indicates that the lime was not neutralized before the old paint was applied. Therefore, the entire surface should receive the zinc sulphate treatment before repainting.

Child Should Have And Keep Own Room  
Give a child his own room with damage-proof furniture, blackboard and pin-up board, chess set to entertain neighborhood youngsters and he's happy.

Train him to care for his room himself and you're not only lightening the household chores but started the youngster's character development on a sound foundation.

To avoid litter and disorder, provide roomy storage shelves and a storage bin. Unbreakable mugs enable a child to enjoy snacks without worrying about breakage. Cut down an old kitchen table to proper height, paint it and the child has a perfect table for working with models, looking at books and playing games.

Feeling Of Pride  
Engender a feeling of pride and responsibility by encouraging the child to care for his room himself. Picking up toys is no chore if handy storage space is provided. Washing dishes is fun if he is relieved of the fear of breaking them.

Kenzie on the floor cleans as readily as the child can do this himself by running a damp mop over it when soiled, dusting with a dry mop in between. The light marbled coloring makes soil almost invisible. Floor his closet's in the same material so that he can easily find shoes and lost articles.

The decay of adult teeth is due to organisms which gain entrance to the tiny crevices which are always present where the enamel planes are joined.

## Eight Key Points Should Be Checked In Purchasing Home

Beware the house with "red cards."

A leading real estate appraiser, aware that the novice home buyer can make serious mistakes because of lack of knowledge concerning good construction, has compiled a list of important factors to consider in purchasing a new house:

1. The bathroom. Are its walls or wainscots, and its floor, of water-proof and durable materials such as clay tile? Are the plumbing fixtures full-height? Walls which cannot stand up under steam and water, and tubs and hand basins that are too small are poor investments.
2. Drainpipes. Are they of long-lasting, non-rusting copper or aluminum, or of material which will eventually rust out?
3. Stairs. Are they solid, or do they creak?

Storage Facilities  
4. The kitchen. Has it adequate lighting? Are its walls and splash-backs of fireproof, easily cleaned materials, and are there plenty of work counters? Look into storage facilities. No kitchen is efficient without plenty of cabinets.

5. How are the moldings? Moldings around the lower edge of the baseboards should meet the floors snugly. A gap at this point may indicate green lumber.

6. Woodwork. Rough spots may be due to inferior lumber.

7. Laundry facilities. Is the wash-day area conveniently located? Are the plumbing lines adequate?

8. Heating system. This plus insulation, is of prime importance in house value. Inferior equipment costs money in repairs and maintenance.

# Building In Midland Reaches \$17,000,000 Figure For 1952

Almost another half-million-dollars worth of new construction was launched last week as building kept up its phenomenal pace in Midland. Last week's building permits issued from the office of R. S. Higgins, city building inspector, sent the year's total to well over the \$17,000,000 mark.

Higgins reported Friday that \$469,867 worth of permits were issued during the previous week, bringing the total for 1952 to \$17,569,890.

Building permits issued during the week included:

Hays Construction Company, one family residence, 1100 Chestnut Lane, \$12,500. H. L. Oldaker, addition to home, 1600 South Camp Street, \$3,000. A. J. Gazy, one family residence, 910 North Terrell Street, \$2,400. Harry Pitz, remodeling building, 311 North Colorado Street, \$4,000. J. C. Bill Pierce, one family residence, 3215 West Louisiana Street, \$14,000.

George Trimble, one family resi-

dence, 1105 Lanham Street, \$14,000. Parr Food Store, 2400 West Michigan Street, store building, \$100,000. J. N. Range, addition to building, 110 West Pecan Street, \$950. R. H. Williams, one family residence, 811 Mariana Street, for H. G. Green, \$17,500. Roy F. Jones, addition to home and garage, 1618 West Howard Street, for Henry C. Hoffman, \$2,500.

Gilstrap Construction Company, one family residence, 1303 East Oak Street, \$8,000. J. L. Stone, cover redwood paneling with new redwood paneling, 302 South Main, for Mrs. Evelyn Lineberry, \$1,000. A. R. Young, one family residence, 113 Mogford Street, \$18,000. Olympus Young, addition to home, 307 North D Street, \$4,000. J. L. Milner, one family residence, 808 West Florida Street, \$2,000.

J. T. Champion, one family residence, 1206 Cottonwood Street, \$9,500. J. T. Champion, one family residence, 1210 Cottonwood Street, \$10,500. J. T. Champion, one family residence, 3201 Kessler Street, \$10,900. J. T. Champion, one family residence, 3203 Kessler Street, \$10,900. J. T. Champion, one family residence, 3205 Kessler Street, \$10,900. J. T. Champion, one family residence, 1204 Cottonwood Street, \$9,500.

J. T. Champion, one family residence, 3207 Kessler Street, \$10,900. J. T. Champion, one family residence, 3209 Kessler Street, \$10,900. J. T. Champion, one family residence, 3211 Kessler Street, \$10,750. J. T. Champion, one family residence, 3213 Kessler Street, \$10,900. J. T. Champion, one family residence, 3215 Kessler Street, \$10,900. J. T. Champion, one family residence, 3217 Kessler Street, \$10,900. J. T. Champion, one family residence, 3219 Kessler Street, \$10,750. J. T. Champion, 3221 Kessler Street, \$10,900. J. T. Champion, one family residence, 3223 Kessler Street, \$10,900. J. T. Champion, one family residence, 3225 Kessler Street, \$10,900.

800. Mullins and Lacy, grocery store, 2910-13 Cuthbert Street, for Charles R. Brin, \$48,000. Gus O. Turner, one story business building, 1409-05 North Lamesa Road, \$20,000. Roy White, service station, 600 South Marienfeld Street, \$7,000. Addington G. Bruton, showroom, warehouse and shed, 409 South Main Street, for Home Lumber Company, \$10,500. Houston Hill, alterations to ceiling and floor, 107 South Main Street, for Harris Eastman, \$1,800. John L. Rice, sun porch, 1104 North Big Spring Street, \$1,500.

## Midland District Bonds Are Approved

AUSTIN—Bonds totaling \$1,500,000 for Midland Independent School District were approved during the last 13 months as part of \$5,410,000 approved for the entire Permian Basin.

The Permian Basin bonds contributed a major portion to the biggest year of Texas school construction on record.

The attorney general's okay and registration by the state comptroller paved the way for delivery of the bonds to the bond buyer in exchange for the money to build the new schools.

Second row, in the usual order: Ken Durham, fire prevention and clean-up; E. S. (Bud) White, Christmas activities; J. P. Marchioli, president and awards; Jim Bozeman, national security. Not present when the picture was made were Russ Ford, membership and personnel; Vernon Redpath, publicity and public relations; John I. McDonald, social affairs; Burvin Hines, Americanism; John Ferguson, public affairs; Raymond Howard, public health and clean-up; and W. D. Elliott, safety.

## Repackaged Oleo Sought As Evidence In 'Butter' Fraud

BIB SPRING—(AP)—Officers were racing appetites Saturday trying to round up some "good country butter" before the evidence is destroyed by hungry West Texas citizens.

The "butter" they're seeking never had even a nodding acquaintance with Hoop.

Lago Fox, city sanitation, said a man and his wife had been repackaging oleomargarine and selling it for butter.

The couple was arrested and taken to Sweetwater. Fox said the man and wife had 14 outlets here and in Sweetwater, Snyder, Colorado City and San Angelo.

He said some persons who refused to get oleo had been demanding this "good, country butter."

The repackaged oleo sold for 75 cents a pound.

Charges may be filed here, if any evidence can be obtained.

## Boy Scouts Plan Vigorous Get-Out-The-Vote Campaign

An estimated 4,000 Cub Scouts, Boy Scouts and Explorers of the 17-county Buffalo Trail Council will join Scouts throughout the nation on November 1 in what is perhaps one of the greatest citizenship efforts in their history.

Scouts will call on 30,000,000 homes throughout the United States, and leave on front door-knocks a Liberty Bell cutout urging all citizens to vote.

The campaign is non-partisan, without reference to any candidate or party. It is sponsored jointly with the Freedom Foundation.

The message on the Liberty Bell cutout reads, "Vote as you think. Think when you vote, Tuesday, November 4. Today's youth counts on you. Use your freedom to vote."

The Boy Scouts of America, says Dr. Arthur A. Schuck, Chief Scout Executive, recognizes the need of "re-educating" America to its citizens by urging every eligible person to exercise his right to vote in the national election. He also pointed out that only 30 per cent of eligible

## Midland Woman's Club

**RIGHT**—Mrs. Coe Mills, vice chairman of the planning committee for the Woman's Club building, interprets the blueprint of the proposed clubhouse to other members of her committee. Those pictured are, front row, left to right, Mrs. Coe Mills, Mrs. John B. Mills and Mrs. John Younger; second row, left to right, Mrs. Wilson Bryant, Mrs. I. E. Daniel, Mrs. James L. Daugherty and Mrs. C. H. Shepard.

**LEFT**—Robert Turpin, lawyer consultant for the club, explains revisions of the constitution and by-laws to officers and members of the by-laws committee. Seated, left to right, are Mrs. C. M. Goldsmith, past president; Turpin, and Mrs. B. R. Mathews, committee chairman. Standing are Mrs. W. Harry Rhodes, president, and Mrs. Earl Johnson and Mrs. H. E. Rothrock, committee members.

**PROGRAM**—Mrs. Paul Crandell, vice president and program chairman, goes over plans for the club's first meeting Thursday with members of her committee and Mrs. J. Howard Hodge, who will introduce the guest speaker. Seated left to right are Mrs. J. B. Bain, Mrs. John Grimland and Mrs. Hodge. The speaker will be Mrs. Van Hook Stubbs of Wortham, president of the Texas Federation of Women's Clubs. She will talk on "We Charter Our Course From Here." The meeting has been set for 1 p.m. Thursday in the Midland Country Club, with the Fine Arts Club as hostess. Mrs. Hodge is past president of the TFWC.

**BOARD OF DIRECTORS**—Notifying members of the board of directors of a meeting to be held Monday are, seated left to right, Mrs. Richard Hinkle and Mrs. William B. Anders, and, standing, Mrs. H. C. Jones and Mrs. A. P. Shirey. The meeting will be held at 10 a.m. in the home of Mrs. W. Harry Rhodes, 500 North Pecos Street.

**PROPOSED SITE**—Three acres of land across from the Ranchland Hill Country Club constitute the proposed site for the new club building. Shown looking it over are, left to right, Mayor Perry Pickett, Barney G. Grafa, Murray Fasken, Mrs. C. S. Britt, chairman of the building committee, and C. W. Chancellor. Grafa, Fasken and Chancellor are members of the advisory board. The club hopes to begin work on the building this year.

**PLAN MEMBERSHIP DRIVE**—Members of the standing committee work on publicity for the club's forthcoming membership drive. Mrs. Joe Birdwell, publicity chairman, is seated at the typewriter. Standing, left to right, are Mrs. C. H. Shepard, vice chairman of the membership committee; Mrs. Ernest Neill, hospitality chairman, and Mrs. George Kidd, membership chairman. The drive is scheduled to begin sometime this fall.

*Elizabeth Arden*  
Firmo-Lift  
Treatment Lotion

a revolutionary lotion  
that works against wrinkles,  
crepeyness and age lines!

What other preparation can give you the age-defying action of Elizabeth Arden's Firmo-Lift! It is unique; there is nothing else quite like it for double chin, heavy jowls, crepey neck skin, puffiness, surface lines. Firmo-Lift contains vital, restoring oils and other secret ingredients that help lift, firm, smooth, tighten and soften with incredible effect. Press it, mould it... up! up into your skin... and see what a difference it makes.

\$2.50 2 oz., \$5.00 4 oz. plus tax

Midland *Walgreen* Drug Co.

**DONATE SLIDE**—Three youngsters from the Midland Day Nursery take turns on the slide which was donated recently by the French Heels Club. First up is Linda Shultz, followed by Nancy Thorp and De Lana Adair. Looking on are several members of the French Heels Club and the Midland Service League, which operates the nursery for the benefit of working mothers. Pictured, left to right, are Mrs. Frank Cowden, Jr., Service League; Eleanor Simpson, French Heels; Mrs. W. H. Pomeroy, Jr., and Mrs. Ronald Jarrett, Service League, and Betty Simpson, French Heels. The French Heels Club also added a set of swings to the playground equipment.

## Elizabeth Kittrell, James Erwin Wed

The wedding of Elizabeth June Kittrell of Tyler and James Douglas Erwin of Midland took place at 8 p.m. Saturday in the Merwin Methodist Church in Tyler, with Dr. Walter K. Kerr performing the ceremony.

The bride is the daughter of Mr. and Mrs. Edwin K. Kittrell of Tyler and the bridegroom is the son of T. W. Erwin of Dallas and the late Mrs. Erwin.

The ceremony was read before an altar on which twin bowls of gladious were placed. The chancel rail was entwined with Southern amaranth and lined with white candles, and tall baskets of white gladious were used on the pulpit platform and at the ends of the chancel rail. Tall arches of candles extended across the background.

**Wears Gown of Ivory Satin**  
The bride, given in marriage by her father, wore a gown of ivory satin, designed with a portrait neckline of rose point lace, scalloped with seed pearls. The long, fitted sleeves tapered to points at her hands. The full skirt was accented with cut-out motifs of lace, appliqued with pearls, which extended across the front of the skirt and bordered the hem of the cathedral length train. Her full-length veil of imported rose points and feathers was set from a cap of illusion.

**European Tour Program Topic For Altrusa**  
Mrs. Marion Sager was speaker for the meeting of the Midland Altrusa Club Thursday night in the private dining room of Miller's Supper Club.

The speaker, who conducted a tour through continental Europe and England, told entertaining details of the trip and information on the countries visited. She is to show her pictures of the trip to the club at a later meeting.

During the business session, members voted to sponsor two Latin-American girls, graduates of Midland High School, who will enroll in Sul Ross State College, Alpine, to study business administration.

It was announced that a gift party would be held for the two students Saturday afternoon in the home of Mrs. E. N. Phillips, 1904 West Texas Street.

Guests for the meeting were Mrs. Sager, Mrs. Mamie Krosenlein and Mrs. Lucille McGowan of Dallas, sister of Mrs. Maurine Mims. Twenty-five members attended.

### Esther Class Honors Teacher

Mrs. Bill Epley, teacher of the Esther Class of the First Baptist Church, was honored with a surprise coffee given by class members in the home of Mrs. Glenn Bennett.

A lady Susan was presented to Mrs. Epley by the class.

The refreshment table was decorated in the class colors of red and white. Present were Mrs. Leslie Sherman, Mrs. D. D. Miles, Mrs. Bob Williams, Mrs. Clarence Givens, Mrs. W. D. Smith, Mrs. Conolly Frank, Mrs. Harline Thomas, Mrs. Victor Horn, Mrs. Boyd Huff, Mrs. E. R. Baker, Mrs. Epley and Mrs. Bennett.

It Pays To Advertise.

Mrs. James Douglas Erwin

## Girl Scouts Hold Roundup Coffee

The Midland Girl Scout Association held a roundup coffee Friday in the Little House for leaders, assistant leaders and Girl Scout workers.

The refreshment table held an arrangement of yellow chrysanthemums and asters. A Girl Scout doll standing in front of a Bible and schoolhouse completed the table decorations. A bouquet of yellow chrysanthemums, gladioli and greenery also was used in the entertaining rooms.

Those in charge of arrangements were Mrs. Carl W. Covington and Mrs. Fred Boushara, hospitality committee; Mrs. I. W. Hynd, flowers; Mrs. J. D. Martin, Mrs. J. C. Rinker and Mrs. C. C. Helm, invitations.

Approximately 100 attended.

### Garden Club Plans Annual Bulb Sale

The Midland Garden Club will hold its second annual bulb sale October 17 in the home of Mrs. Charles Marsh, 1406 West Outhbert.

Mrs. Marsh is sale chairman. The event will begin at 9:30 a.m. and close at 7 p.m.

The bulbs will be sold for less than the catalog prices because of the wholesale quantity which the club has purchased. Each bulb of top-size and best quality.

Varities to be offered include daffodils, day lilies, tulips, crinum, lilies, hyacinths, crocus, Dutch iris, iris, jonquil, anemone and campanulata. Proceeds will go toward projects for city beautification.

In addition to bulbs, the club will sell garden accessories. Instructions will be given with each sale.

Committee chairmen are Mrs. Hal Peck, staging; Mrs. Richard Gile, sales; Mrs. J. M. Grimland, publicity; Mrs. Winston Hull, horticulture, and Mrs. Butler Hurley, orders.

**Master Cleaners SAVES DELIVERY CHARGES** 214 N. Colorado Street

### Camera Club Studies Crime Photography

"Photography in Criminal Investigation" was the program topic Thursday at the meeting of the Midland Camera Club in the Palette Club Studio.

Charles Henderson and I. W. Hynd presented a lecture and slides, respectively, on the chosen topic. Sgt. D. L. Hocket, superintendent of investigations for the Midland Police Department, commented on the lecture and answered questions following the program. Hocket is to bring to the next meeting pictures further illustrating criminal photography.

Scheduled for October 18 is a lecture on "Practical Christmas Cards by Photography." It was announced. Projected slides will accompany the talk.

Announcement also was made of a program on "Outdoor Pictures at Night," to be presented next week. Each member is asked to bring one night picture.

During the business session Larry Hecht and Hynd were appointed to a special program committee. Those present were Mrs. J. V. Birdwell, Mr. and Mrs. A. J. Ska, G. G. McNary, Hecht, Henderson, Hynd and Sergeant Hocket.

Cantaloupes were named after the Italian town of Cantalupo, near Rome.

**Coffee Honors Bride-Elect**

Barbara O'Brien, bride-elect of Dr. Elbert Watson King, Jr. of Albuquerque, N. M., was feted Saturday with a coffee in the home of Mrs. H. G. Bedford.

Hostesses were Marjorie Sherwood and Mrs. W. F. Beckers.

The couple will be married September 20 in Santa Fe, N. M.

The refreshment table was covered with a linen cutwork cloth and centered with an arrangement of pink roses. Silver appointments were used.

Mrs. Virginia Kelly, sister of the honoree, presided at the coffee service.

The guest list included Mrs. Virginia O'Brien, mother of the bride-elect; Mrs. G. R. McDonald, Mrs. George Farmer, Mrs. Kurt Johnson, Mrs. T. J. Carter, Mrs. C. O. Puckett, Mrs. J. P. Riggs, Mrs. Fite Iverson, Mrs. Ned Tanner, Mrs. Lamar Bachberger, Mrs. Bedford, Bilye Abbott, Ann Porterfield, Ann Tolbert, Jean Stichelbur, Pat Butcher, Phyllis Gifford.

Shirley Lones, Barbara York, Elizabeth Ann Cowdep, Patricia Ruckman, Patricia Lane, Nancy Lindauer, Betty Perry, Patie Abbott, Eleanor Simpson, Ludy Whately, Tina Zango, Pat Garner, Frankie Jones, Mary Burke, Bule Gibbs, Martha White, Jody Simpson, Sue Gouddy, Sara Morrow, Alice Moore and Eve Smith.

**Scout Trainer To Lead Course**

Mrs. H. Leo Tucker of Abilene, volunteer Scout trainer, will conduct a 12-hour leadership course Tuesday through Friday in the Girl Scout Little House.

The sessions will begin at 9 a.m. Mrs. Tucker has taken part in Scout work the last 10 years. She is leader of a senior Girl Scout troop in Abilene and serves as program chairman on the council. Mrs. Tucker has taken the volunteer trainer's course both in Santa Fe, N. M., and more recently in Fort Worth.

She has two daughters, Laurilee and Nancy, both of whom are Curved Bar Girl Scouts.

A baby-sitter will be provided during the meetings. All leaders and Girl Scout workers are invited to attend the course.

Mrs. A. B. Jenks, chairman of the Midland Girl Scout Association, will honor Mrs. Tucker with a cake party from 4 to 5 p.m. Monday in her home at 1808 North Edwards Street. Members of the board of directors will be the guests.

**TO WED IN OKLAHOMA** — Mr. and Mrs. Henry Frank Settle of Tulsa, Okla., announce the engagement and approaching marriage of their daughter, Martha Jane, to Robert Boone Funk of Tulsa, son of Mr. and Mrs. Earl Caywood Funk, Sr., 1003 North Loraine Street. The wedding will take place at 8 p.m. December 6 in Tulsa. Miss Settle is a graduate of Oklahoma A&M College where she was a member of Kappa Alpha Theta Sorority. Funk attended the University of Illinois in Champaign, Ill., and the University of Oklahoma in Norman, Okla. He is affiliated with Sigma Nu Fraternity.

**County HD Club Has Report Meeting**

The Midland County Home Demonstration Club held a report meeting Friday in the assembly room of the courthouse.

Mrs. J. E. Cassidy and Mrs. I. J. Howard reported on the recent state convention in Kingsville. Reports also were heard from the Valley View, Prairie Lee and Westside Home Demonstration Clubs.

Those attending were Mrs. O. R. Phillips, Mrs. C. H. Pearson, Mrs. Joe Heidelberg, Mrs. J. D. Bartlett, Mrs. H. E. Denton, Mrs. W. B. Stanley, Mrs. H. A. Palmer, Mrs. L. H. Moncrief, Mrs. Joe Davis, Mrs. C. L. Mason and Pauline McWilliams.

**Mrs. Sager, Sidwells Return From Trip**

Mrs. L. W. Sager returned to Midland last week from a two-month European trip, followed by a visit with relatives in the East and New England states.

Mrs. Sager was met in New York by Mr. and Mrs. Ernest Sidwell of Midland. Together the Midlanders visited Maj. and Mrs. Hugh Robertson and Maj. and Mrs. Jay Norman Goodman at Westover Air Force Base in Gloucester, Mass. Mrs. Robertson is Mrs. Sager's daughter and Mrs. Goodman is the daughter of Mr. and Mrs. Sidwell.

On the return trip they visited the Sidwells' son, Lt. Roger Sidwell, in Bloomington, Ind.

**League Board Hears Reports**

Mrs. Ben Black reported on the Midland Service League's sewing group at the league's board meeting Friday in the home of Mrs. W. C. Liedtke.

The group has filled its quota of layettes for the County Health Department, she said. The sewing group makes the layettes for mothers who are unable to buy them.

Those attending the meeting were Mrs. Walter Duesse, Mrs. J. W. Starr, Mrs. Ronald Jarrett, Mrs. W. P. Z. Gorman, Jr., Mrs. R. J. Zonne, Mrs. Murray Fasken, Mrs. James Pierce, Mrs. J. N. Walton and Mrs. Bill Faudree.

### Grace Isbell Attends Beauty Trades Show

NEW YORK—Grace Isbell of the Glamour Beauty Shop, Midland, was among 6,000 beauty experts convening at the Hotel Statler who decreed the end of the "animal kingdom" trend in hair styling—the pony tail, the duck tail, the poodle cut and the horse's mane.

The three day National Beauty Trades Show is sponsored by the National Hairdressers and Cosmetologists Association.

**IS MARRIED** — Mrs. Kenneth Wade Sewell was Wanda Louise Duncan before her marriage August 23 in McCamey. She is the daughter of Mr. and Mrs. A. D. Duncan of Stanton. Her husband is the son of Mr. and Mrs. D. H. Sewell of Nocona. The couple is living in Midland.

## Nu Phi Mu Names Officers; Plans Parties Feting Rushees

Launching their Fall season, members of Nu Phi Mu, baby sister organization to Beta Sigma Phi

Sorority, met Thursday night in the home of Norma and Billie Sinclair, 703 North D Street.

Elected as chapter officers were Mary McKenzie, president; Jean Waddill, vice president; Anne Kiebold, recording secretary; Ruth Ann Rhodes, corresponding secretary; and Billie Sinclair, treasurer.

Second and fourth Thursday nights were again designated as the time for regular chapter meetings.

Plans were discussed for Fall rush parties, which will feature the statewide Beta Sig project—assistance for Gristown.

First of the parties will be a Mexican dinner at El Sombrero. There also will be a Sunday visit to Gristown and a model meeting with a program on Gristown. At the model meeting, a film on Gristown will be shown by a group of Midland Beta Sigs.

Members and guests attending the Mexican dinner, to be held September 19, will meet in the Sinclair home. Chapter members met Saturday in the home of Miss McKenzie to prepare invitations for the dinner.

Norma Sinclair, chapter advisor, assisted by Miss McKenzie, read the ritual of colors for Ruth Ann Rhodes, the chapter's "Lynn Terry Girl," and for Miss Waddill.

At the close of the meeting, refreshments were served. The meeting room was decorated with pink roses and blue tapers in silver candleholders.

## Seven Honorees Feted At Party

Mr. and Mrs. F. W. Stonehocker entertained with a September birthday picnic, observing the September birthdays of Mrs. Stonehocker and six of their friends.

Other honorees were Mrs. Lola B. Lee of Rusk, sister of Mrs. Stonehocker, Eddie Juan Darnell, Mrs. Harry Powledge and daughter, Jeanne Powledge, Mrs. Lucille Johnson and M. H. Crawford of Lamesa.

The party was held on the picnic patio in the Stonehocker home at 108 East Louisiana Street. Decorating the refreshment table was a large birthday cake trimmed in pink and green.

Out-of-town guests included Mr. and Mrs. M. H. Crawford and sons, Marshall, Jr. and Felix, of Lamesa, and three sisters of Mrs. Stonehocker, Mrs. Lee, Mrs. Ida Morris of Lubbock and Mrs. Maye Down of Terrell.

**FLOWER SHOW CHAIRMEN**—The Midland Council of Garden Clubs is completing plans for its annual flower show to be held October 28 in the Midland Officers Club. Chairmen shown above are, left to right, front row, Mrs. Bob Richards and Mrs. Harry Krist; second row, Mrs. Frank Wood and Mrs. M. S. Dickerson; third row, Mrs. H. W. Mathews, Mrs. Willard Bumpass, Mrs. W. D. Gill, Mrs. R. S. Spencer, Mrs. A. P. Shirey and Mrs. J. A. Koegler; back row, Mrs. Butler Hurley, Mrs. Albert Kelley, Mrs. DeWitt Haskin, Mrs. John B. Mills and Mrs. Frank Shriver. Mrs. E. D. Williams also is one of the show chairmen.

A really fresh egg will have a yolk that stands high with the white nestled around it. When hard-cooked the yolk of a very fresh egg will be in the center.

**Mrs. Hodge Returns From Safety Clinic**

Mrs. J. Howard Hodge of Midland, chairman of the safety division for the General Federation of Women's Clubs, returned last week from Chicago, Ill., where she attended a two-day safety clinic.

Attending the meeting in addition to the state safety chairmen were several authorities in the field from the Automotive Safety Foundation, the National Safety Council and the President's Safety Conference.

The GFWC is stressing the following five divisions of safety work: Law enforcement, driver education, uniformity of traffic laws, accident reporting and engineering.

**Andrews Bride Is Party Honoree**

ANDREWS—Mrs. Winifred Elliott, recent bride, was honored with a gift party in the Community Building. Hostesses were Mrs. L. L. Shurtle, Mrs. J. B. Reeves, Mrs. J. F. Stephenson and Mrs. Jim Lindville.

In the houseparty with the hostesses and honoree were Mrs. Emmitt Watta, mother of the honoree, and Mrs. J. C. Elliott, mother-in-law of the honoree.

The refreshment table was centered with an arrangement of rosebuds and laid with a lace cloth. Blue and white, chosen colors of the honoree, were featured.

**Andrews Club Opens Fall Work**

ANDREWS—Mrs. L. B. Williams, president of the Andrews Study Club, gave the president's message at the initial Fall meeting of the club.

Other officers for the year are Mrs. B. F. Seay, vice president; Mrs. Russell Austin, recording secretary; Mrs. Charles A. Dean, corresponding secretary; Mrs. Charles Alcorn, treasurer; Mrs. David Choate, parliamentarian; Mrs. J. B. Youngblood, historian; Mrs. Percy Morrison, reporter; and Mrs. Sam M. Gantt, federation counselor.

Regular meetings are scheduled for 8 p.m. on first and third Tuesday nights, and the club's study for the year is on "Progress—Our Aim and Responsibility."

Among special events will be a guest night barbecue September 16 at the Humble Camp recreation site. There also will be a Christmas party and the club will sponsor a "Snow White" in December.

**WOMAN'S CLUB TO MEET**

Reservations for the initial Fall luncheon of the Midland Woman's Club, Inc. must be turned in not later than Monday, it was announced Saturday by officers of the Pine Arts Club, hostess organization. Members may obtain reservations from their club president. The meeting will be held at 1 p.m. in the Midland Country Club.

**Shower Honors Bride-Elect**

Lella Norwood, bride-elect of Joe Winkler, was feted Wednesday with a shower in the home of Mrs. Troy Etheredge. Mary Lynn Manning was co-hostess.

Decorations carried out a pink and green color scheme. The refreshment table was centered with an arrangement of pink asters. Members of the receiving line were, in addition to the honoree, Mrs. Albert Norwood, mother of the bride-elect, and Mrs. F. M. Winkler, the prospective bridegroom's mother.

Rosie Smith and Leora Crawford presided at the refreshment table and Linda Ann Shelton was in charge of the guest book. Approximately 60 attended.

**HOMELESS TROOPS**—The Midland Girl Scout Association has issued a call for more Scout leaders, and particularly for leaders willing to work with Intermediate and Senior Scouts, like the ones above. Left to right, the young archers are Carol Ann Wilkinson, Ann Williams, De Ann Beheer, Wanda Williams, Shirley Brooks, Lois Nell West and Peggy Hoover. Mrs. Carl W. Covington is president of the Scout Association.

**South American Missionary Finds Midlanders By Hats**

Western style Panama straw hats recently led to an unexpected meeting with two Midlanders and a field Baptist missionary in Antofagasta, Chile, in South America.

The Rev. Vernon Yearby, pastor of the First Baptist Church, was advised of the chance meeting in a letter from the missionary, Howard Bryant.

Details of the meeting between the missionary and the two Midlanders are best described in the following quotes from the letter:

"Last week I walked into our local air lines offices in Antofagasta to arrange passage for one of our missionaries who was visiting us, and there stood two men with Panama hats like you wear. 'I said to them, 'Are you men from Texas?'"

"They smiled and said, 'How did you guess?'"

"Then I asked them what city they were from, and they answered 'Midland.'"

"They were Holt Jowell and

R. B. (Bum) Cowden. They knew everybody I could remember. It was such a joy to see them and sorry I could not accept their offer to take me fishing with them because I was on my way for a 12-day evangelistic meeting in some new mining camps. They came to Chile to go deep sea fishing.

As an added coincidence to the meeting, the Rev. Yearby pointed out that Bryant is supported by the First Baptist Church here and has visited in Midland several times. He lives in a home built by the Midland church, and the church donated a Ford station wagon to him that was purchased from Erskine Motors in 1950 and shipped to South America.

**AAUW Plans Fete Saturday**

Women interested in affiliating with the Midland Branch of the American Association of University Women are invited to attend the membership coffee to be held Saturday.

The coffee, which will open the Fall season for the AAUW, is to be held from 9:30 a.m. until 11:30 a.m. in the home of Mrs. F. F. Kotyza, 1503 Harvard Street.

Women wishing to attend are asked to telephone Mrs. L. C. Mills, membership chairman, telephone 2-2943, or any member of the membership committee.

Serving on the committee with Mrs. Mills are Mrs. P. T. Rumsey, telephone 4-7293; Mrs. Mann Rankin, 4-8829; Mrs. Joe Chastain, 2-2141; Mrs. J. Richard Storey, 4-7656; Mrs. R. D. Monkross, 2-2294; and Mrs. G. A. Haun, 4-6274.

Guests at the tea will be given an opportunity to join one of the study groups sponsored by the AAUW Branch.

These groups, with their meeting dates and chairman, include: Piano-For-Fun, meets weekly on Wednesday afternoons, starting late in September; Mrs. Leonard Thomas, chairman; Symphonic Listening, second and fourth Tuesday nights, Mrs. E. E. Rigle; Beginners Garden Club, first and third Friday mornings, Mrs. W. B. McEchin.

Contemporary Literature, second and fourth Wednesday mornings, Mrs. W. J. Sprecher; Bridge, fourth Thursday afternoons, Mrs. R. E. Hurst; Evening Bridge Group, first and third Monday nights, Mrs. Tom Breeding; Arts, second and fourth Wednesday nights, Mrs. P. B. Hinkle. There is also a child development group, with Mrs. G. R. Gayford as chairman, and an Education Study Group, which has no chairman at the present time.

**American Airlines Sets Traffic Mark**

Woody Campbell, station manager of American Airlines at the Midland Air Terminal, has revealed a new record for his company. An all-time high of one month's passenger traffic was set last August with 275,000 revenue passenger miles. The previous record, also by American, was 274,885,000 miles in June of this year.

The new peak marks the first time in five years that passenger traffic in August has exceeded that for June.

On August 29, the Friday before Labor Day, American Airlines became the first to fly ten million revenue passenger miles in one day.

**SINGING SOLDIERS**

Marching into Paris to take part in the attack on the Tuileries in 1793, soldiers of Stazelle sang Rouget de Lisle's battle song with such spirit and vigor that it became known as "The Marseillaise."

**LOST 33 POUNDS WITH THIS HOME RECIPE**

Barconstrate is the original grapefruit juice recipe for taking off extra fat. It's simple. Just go to your drugstore and ask for four ounces of liquid Barconstrate. Pour into a pint bottle. Add 12 ounces of grapefruit juice. Then take just two tablespoonfuls twice a day. That's all there is to it. If the very first bottle doesn't show the simple, easy way to lose bulky fat and help regularize bowels, more grapefruit juice—of vegetable, orange and lemon of course fat don't seem to disappear almost like magic from neck, chest, back, abdomen, hips, calves and ankles. Just return the empty bottle for your money back. No exceptions. Get the Barconstrate way.

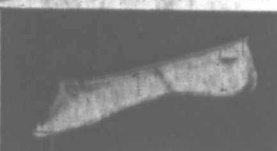

**LOST 33 POUNDS**

"I cannot praise Barconstrate enough," writes Mrs. Lois Miller, 218 Washington Ave., Waco, Texas. "It has done wonders for me. I don't have that tired, worn-out feeling any more. I weighed 170 pounds when I started to take Barconstrate. I now weigh 137."

### One Dies, Two Hurt When Car Overturns

AUSTIN—(AP)—Gilbert W. Foidrack, 25, Taylor, was killed and two girls of Taylor were injured Friday when their car overturned near Deasau Hall.

Injured were Shirley Schirplik, 16, and Shirley Green, 16.

## One Insect Makes Like Skunk, Battle Against Pests Reveals

WASHINGTON—(AP)—True or false—

1. An ant the size of a wolf once roamed the world, mining gold and guarding it so jealously it blushed men to death.

2. A locust on huge its hind legs could be cut off, dried and used for saws once lived in China.

3. An insect used gas warfare on its enemies long before man ever thought of the idea.

4. In Africa there are beetles so huge they sound like B-29's in the air.

Not only a five-star genius but anybody with the 1952 yearbook of the U. S. Department of Agriculture may hit the jackpot on this quiz.

The book is a thick, handsome volume called simply "Insects." In it leading experts point up the odious and seriousness of the bug problem.

**Loosing in Battle**  
Not all experts are quite sure that man is holding his own in competition with insects for the privilege of living on earth, and Charles F. Brannan, the secretary of Agriculture, estimates in a foreword that insects cost Americans four billion dollars a year.

One of mankind's fears has been that insects may multiply so rapidly that someday they will crowd man from earth. One reason is the simple fact that 70 to 80 per cent of all known animals are insects.

Curtis Sabrosky, a department authority on flies, says recent guesses by scientists on how many kinds of insects there may be in the world range up to 10 million. And many of them reproduce at an amazing rate.

Sabrosky says one thing that saves mankind is the fact that other insects, birds, diseases, insecticides and weather cut down the birth rate of insects that might otherwise compete too successfully with man.

**Fascian For Gold**  
The yearbook estimates around 60,000 species of insects in the U. S. were in the public enemy class some years ago but that now there may be around 10,000. In all North America north of Mexico an estimated 25,000 kinds of insects have been named.

Flint, the Roman naturalist, told about the ant with the passion for gold. People are pretty sure now that it never really existed. None has ever been reported seen since

Pliny's time anyway.

Erwin Way Teale, the authority who writes about the gold-mining ants, also tells about the saw-leg locusts. He credits this story to Pliny too but says nobody now believes there ever were such locusts.

However, he tells about other insects that are pretty fantastic. For instance, there is the bullet-headed bombardier beetle, *Brachinus fumans*.

"When pursued by an enemy (he) emits a little cloud of offensive gas," says Teale. "This takes the pursuer by surprise. It stops, and the pause often is sufficient to permit the beetle to escape."

Among the largest known insects are the Atlas moth of India, with a wingspread of about one foot, and the East Indian walkingstick, which is 15 inches long.

Then there is the Hercules beetle of Africa. It drones over the countryside with a sound that resembles that of an airplane exhaust.

### Mrs. Flood Named Midland Chairman For Dog Program

Mrs. Lee Flood, Andrews Highway, has been appointed Midland chairman for the observance of National Dog Week, September 21-27. It has been announced by Raymond J. Hanfield of New York City, executive secretary.

Mrs. Flood said Thursday that plans are being formulated for the Midland observance, which would probably include an open house at the city pound.

Bob Hope, screen comedian, is the 1952 general chairman, with this year's slogan, "Faithfully Yours."

The seven point objectives of National Dog Week include:

A good home for every dog, elimination of stray dogs from the streets, better informed dog owners, consideration for dogs and all animals, dogs' use as a companion, helper and home protector, fair laws for dogs and their owners, and respect for the rights of non-dog owners.

### Advertisers Break Ground For New Church In Midland

A brief ground-breaking ceremony to mark the construction of a new church home will be held Sunday by the Seventh-day Adventist Church of Midland at 3114 West Travis Street, Elder W. K. Manaker, church pastor, announced Saturday.

While the church presently meets in a building on West Pennsylvania and South Loraine Streets, Elder Manaker said the congregation has outgrown its present quarters.

Expected to be completed by next spring, the new church plant will be of modern masonry construction, he said. The chapel will have a seating capacity of approximately 300, and the building will include several large classrooms and church office. It will form one unit with the recently-completed educational building.

Paul James is chairman of the building committee. Members are Dr. Norman Maberry, B. Q. James, Clyde Lovett, Edward Hockendorf, Herman Dunn, Lester James, and the pastor.

A new church parsonage also is nearing completion, the pastor said.

**Del Rio Contractor Gets Air Force Job**

**GALVESTON**—(AP)—A contract for \$26,480 has been awarded O. L. Land, Del Rio contractor, for work at Laughlin Air Force Base. Del Rio, the Galveston district Engineers office reported Friday.

The contract calls for mulching, fertilizing and seeding 143 acres of airfield area and 85 acres in the cantonment area.

It is part of an overall construction program of nearly five million dollars underway at the base.

**Five-Cent Dividend Declared By Temco**

**DALLAS**—(AP)—Directors of Temco Aircraft Corporation have declared the regular quarterly dividend of five cents a share and an extra dividend of five cents a share on capital stock now outstanding.

The dividend will be payable September 30 to stockholders of record September 19. Action was taken at a board meeting here Friday.

In Britain an automobile muffler is called a silencer.

**Grace Leaves For Europe Carrying Single Suitcase**

By GRACE HALSELL  
Special To The Reporter-Telegram

**NEW YORK**—My New York friends raised collective eyebrows when I said I was going for a two-month stay in Europe with just one suitcase.

Actually, that's a lot of luggage for me.

Five years ago I went to Europe with just one dress—and a bicycle. Last Summer I was more fashionable. Took along a Summer suit and four dresses (all washable nylons). For that trip, I traded the bicycle in for a typewriter.

You can have just as much fun without worrying about a large wardrobe. You can spend your time deciding what you want to see, not what you want to wear.

And you needn't worry if your clothes are not brand new. The Europeans have had their suits and dresses a few years longer than you have. They'll appreciate the fact if you come to see them and their country, and not try to win a "Top Ten" fashion award.

For essentials, I advise:  
1. Comfortable shoes. Every day you'll walk as much as you will at a county fair. And walking is the most satisfactory way of sight-seeing. You get the sights, the feel, and smells. You know a place when you've walked.

2. Washables—get the new fabrics that you can wash yourself, the nylons, the orlons. There are no "in at seven," out at eleven" dry cleaners in Europe. You'll be lucky if you can get a dress in one week, and out in another.

Raincoat Needed  
There's nothing in my bag I won't be able to clean myself. My sweaters and skirts and lingerie can be washed—and will dry almost as fast as my hose.

3. A raincoat. Unlike West Texas, it rains almost every day in most European countries.

With just one suitcase, you can have all the essentials in hand, and whenever it is necessary, you easily can carry your suitcase yourself. If you are traveling alone, that often is necessary.

If you've heard the European men are romantic and I've heard it, that means they are—verbally. It takes the strong, silent-type Texans to refuse to let a mere woman carry a suitcase. In Europe likely as not, the man permits a woman to carry his bag.

Checking in a German hotel, an American man last Summer was set back to see a female "porter" grab his heavy suitcase and carry it up a long flight of stairs to his room.

Of course, if you go on an all-conducted tour where everything is arranged for you, then you miss the worries—and I think some of the fun. Personally, I like to buy my own railroad tickets, to decide if I want to take a plane, a bus or train, to check myself into the hotel of my choice, to figure out taxi fares and even to suffer the indignities of a Parisian cabbie when I have not tipped him enough.

You learn the ways of the country. You meet Europeans—not other Americans.

On my way to New York, I stopped in Washington to obtain Department of Defense "accreditation papers" as a reporter traveling in Europe.

I landed at National Airport—one of the largest and finest anywhere. I think it puts New York's LaGuardia field to shame. But although it has the facilities in the terminal of the Waldorf-Astoria, already it is becoming too small to handle the heavy influx of travelers. I was told by a Washington resident.

Checking my bag and typewriter at the airport, I hailed a taxi and cheerfully announced: "The Pentagon."

The driver, an oil-field worker size of a man, ignored me for a period to register his disgust at a passenger with no more information than "The Pentagon," and turning around, he asked: "Which entrance?"

When I told him I only knew the name of the department I wanted, he took off like a jet from Pyote Air Force Base, all the while admonishing me:

Round And Round  
"Little Lady, if you've come all the way to Washington and don't know the office number in the Pentagon you want, you'll be there all day. John will send you to Tom and Tom will send you to George and George will send you back to John—and John will throw you out. You'll waste the entire day in that place, and won't find out what you want."

He deposited me at the entrance of his choice, and giving me a sardonic laugh, he took off with my \$1.50.

I walked in and saw in front of me "Office of the Joint Chiefs of Staff." A quiet and dignity surrounded the place, the "octopus of the Potomac" and the base for all the command jobs until someone invented the underwater fountain pen and chlorophyll.

I was standing staring at a portrait of that distinguished Texas Secretary of Defense Lovett, when a helpful negro porter came up, and thumbing through a directory, found my office number for me.

Instead of all day, it took me about one minute to reach my destination. The "brass" I passed all carried briefcases, no doubt with the future of our country in their hands.

Arriving at the accreditation office,

**EUROPE - BOUND**—Grace Halsell, special correspondent for The Midland Reporter-Telegram, is all set for a two-month tour of European countries. By careful packing, she got all of her clothes and hats (two French berets) into just one suitcase—quite a feat for a woman traveler.

an Oklahoman and former newspaperman, L. Phil Dentner, greeted me. I didn't feel far from home. He and I both knew the same people, and only recently had he come from a visit in Texas.

He said he'd fix up the accreditation paper.

As I left, my mission accomplished so efficiently and quickly, I thought the Pentagon with all those 30,000 workers, seemed like a small place, after all.

I was a little disappointed. I didn't get Red—and I didn't come out a Major-General.

But Fall is the time for elbow room, low rates and European charm. It is a season of country festivals, new musicals, new plays—when hotel clerks are glad to welcome you, and airlines start offering you their "thrill season" savings.

And how much does it cost to make a trip to Europe. Some spend \$1,500. You could go for half that much—if you want to go tourist style. If you're the hardy type, you could take a bicycle and stay in hostels, for 25 cents a night, and \$500 would see you through. That is the hard way to see Europe, as I sorely recall.

More and more, it is becoming easier and cheaper to visit Europe. Some ships have tourist fares down to \$150 one way, and one or two Greek and Italian lines offer even lower fares. One of the new Holland-American Line ships, the Maasdam, offers practically all tour-

ist class fares, providing only 35 First Class accommodations. This type of travel gives you economy, \$150 one way, but friendliness and the full-run-of-the-ship luxury which generally only First Classers enjoy.

Almost everyone is thinking of a European trip.

A New York Air Terminal porter says he is going to get his way paid to Europe next Summer. "I've been working on this deal for seven years," he said.

The size of the New York tip, that man shouldn't have any trouble paying his own way over, First Class.

**Funeral Services For Area Pioneer Woman Conducted**

Funeral services for Mrs. Rebecca Estes Gray, 62, member of a pioneer Monahans ranch family and an early-day resident of Midland, were held Saturday at Monahans and Midland.

Initial services were held at 10 a.m. Saturday in the First Methodist Church of Monahans, after which the body was forwarded to Midland for services at 3:30 p.m. in the Newlin W. Ellis Chapel. The Rev. Bob Houston, pastor of the Monahans church, officiated at services there, and the Rev. Hubert Johnson, superintendent of the Methodist Home at Waco, officiated at the Midland services. Interment was in the Fairview Cemetery here.

Mrs. Gray died Thursday in an El Paso hospital following an extended illness. She had resided in Monahans more than 30 years and was well known throughout this section of West Texas.

### Bryan Named Site For Shoe Industry

ST. LOUIS (AP)—The International Shoe Company announced Friday it will build a plant for the manufacture of healing and soiling materials at Bryan, Texas.

The company, which now operates plants in Missouri, Illinois, Kentucky, Tennessee, Arkansas, Pennsylvania, New Hampshire and West Virginia, said work on the Texas plant will start early in 1952.

About 300 persons will be employed when the plant goes into operation about a year from now. The company did not estimate cost of the project.

The ordinary year is a measure of time, while the light year is a measure of distance.
