Chinese Regain Blood-Soaked Hill

KOREA'S BLOODY HILLS—If you've been wondering where the mountain-top battlegrounds of Korea, constantly mentioned in the news, are located, the newspaper above spots them for you. It is against White Horse Mountain and Arrowhead Ridge, guarding the invasion route toward Seoul, that the Chinese Communists are pressing their 12,000-man offensive, the largest in 12 months.

Ashland Schedules Ellenburger Test In Dickens Sector

Ashland Oil & Refining Company No. 1-3 Pritchfork is to be a 1,300-foot wildcat in Central-East Dickens County to test through the Pennsylvania and into the Ellenburger. Drilling is to be started by November 10. The driller is 16 miles northeast of Spur. Location is 800 feet from north and east lines of section 3, block D, T. A. Thompson survey.

Gas Found In Top Of Ellenburger At Flynt Wildcat In Martin

Stanford Oil & Gas Company No. 1 Marion Flynt, Central-West Martin County wildcat had a slight show of gas in a driller's test in the top of the Ellenburger at 13,070-110 feet. The investigation did not develop any shows of oil or water. The tool was open one and three-quarters hours. Recovery was the 3,000-foot water blanket, 630 feet of heavily gas water drilling mud and 270 feet of slightly gas cut drilling mud.

The prospector is coring deeper. Top of the Ellenburger is at 13,070 feet. That is on a datum of minus 10.189 feet. Location is 600 feet from south and west lines of labor 12, league 248, Hartley County School Land survey.

It is about 30 miles northwest of Stanton, 28 miles north of Midland and six and one-half miles southwest of the Breedlove (Devonian) field. It is approximately the same distance southwest of the Block X (Devonian) field.

Simpson Top Called At Ralph Lowe Test In Andrews Sector

Ralph Lowe No. 1-K Paskin, Southeast Andrews County wildcat 16 miles southwest of the town of Andrews topped the Simpson section of the middle Ordovician at 2,500 feet. Elevation is 1,043 feet. That makes the prospector 334 feet low on the top of the Simpson to the same marker in Anderson-Prichard Oil Corporation No. 1-34 Paskin, a flowing discovery from the Ellenburger.

The Anderson-Prichard No. 1-34 Paskin is three miles northwest of the No. 1-K Paskin. That exploration (Lowe No. 1-K Paskin) now is making hole below 12,726 feet in lime and shale. It has not reported having developed any possibilities of any considerable production in any zone it has drilled through in reaching its present level of operations.

It is to dig to 14,000 feet or a test of the Ellenburger at a lesser depth. Location is 2,160 feet from south and 500 feet from west lines of section 43, block 41, T-1-N, G&M M&B&A survey.

Coronet Stakes Outside Project In Howard Region

Coronet Oil Company No. 50-1 Jones is to be a 3,000-foot exploration to try to develop pay in the Permian lime in Northeast Howard County.

Location is 330 feet from south and west lines of the northwest quarter of section 59, block 20, Lavaca Navigation survey. It is in the Coronet 2,900 region and is outside the proven producing area of that field.

Drilling is to be started at once. Rotary tools will be used. The driller is four miles northeast of Vincent.

Midlander Finals Two Small Openers In Crockett Area

Barron Kidd of Midland and Dallas has completed two small pumping discoveries in Northeast Crockett County.

Kidd No. 1-A Ed Bean estate-Pure, 2,355 feet from north and 230 feet from east lines of section 81, block OP, G&M&F survey potentially for 5.2 barrels of 31-gravity oil per day, pumping. The production came from gravel section at 1,364-70 feet in the San Andres-Permian lime. That interval had been treated with 4,000 gallons of acid.

The producer is two and one-half miles southeast of the shallow Vaughn field and eight and one-half miles northeast of Ozona.

Adlai Declares GOP Policies Are 'Sure Road To Disaster'

OKLAHOMA CITY—(AP)—Gov. Adlai E. Stevenson turned his campaign southward Friday with the prediction that Russia may abandon its aggressive policies because American-sponsored collective security has "worked so well."

But the Democratic presidential nominee cautioned in an address prepared for a City Auditorium rally here that the United States must be on guard against trickery in any Soviet attempt to substitute honey for vinegar.

Bound, Murdered Man Found As Fire Sweeps Apartment

NEW YORK—(AP)—The burned body of a man tentatively identified as Sanford Tilles, a television scenery artist, was found tied hand and foot with wire under a burning studio couch in a Manhattan apartment early Friday.

Firemen answering the alarm found the bedroom and living room of the first floor apartment in flames. Police Capt. Henry Wade described the case as "arson and murder."

Sam Carrow, superintendent of the building, said the man worked for the National Broadcasting Company and was about 35 years old. All four windows of the apartment were locked. The superintendent opened two locks on the apartment door with pass keys.

Wade said the body had a large gash on the right temple and indicated the man had been struck with a heavy instrument. The man's hands were tied behind his back. A third floor tenant had smelled smoke and called the superintendent.

Friday morning's pre-dawn temperatures included Lufkin 36, Junction 35, Dalhart 42, Amarillo 44, Lubbock 41, El Paso 56, Abilene 45, Fort Worth 48, Dallas 43, Tyler 50, Texasana 45, Laredo 58, Galveston 60 and Brownsville 55.

The Weather Bureau predicted solid comfort for Friday night and Saturday football games.

It is dangerous to talk tough unless we are ready to act tough," he declared. "The new Republican policy—and I am sorry to say this—is to talk tough while we simultaneously weaken our defenses and alliances."

"That just doesn't make sense to me. That is a sure road to disaster."

On the prosperity issue, Stevenson said the Republicans are preaching a lot of "scare-stuff" in saying good times are based on military production.

He said this is "nonsense." "The truth is that our tremendous defense effort is holding us back, gobbling up the goods our people need at home, and when we have at least won through to peace, we shall be able to work at a hundred and one tasks that need doing," he declared.

CHECKS CONTRARY RUMOR— Ike Repeats Plan To Reveal Income

PHOENIX, ARIZ.—(AP)—General Dwight D. Eisenhower said Friday he will make public before the election a report on his financial status. Arriving in Phoenix, Eisenhower was asked this question:

"May we have an answer directly from you to the question whether you intend to make public before election time your income tax returns or a financial statement giving substantially the same information?"

"Of course. If anyone is interested they can have a report as soon as it is completed. It is virtually all a matter of public record anyway."

The Eisenhower command was inclined to count California's 32 electoral votes in the Republican column Friday after a tumultuous sweep through the state which went Democratic by a narrow margin four years ago.

With 11 states behind him in his current 28-state tour, Gen. Dwight D. Eisenhower moved early Friday into Arizona. The day's schedule called for appearances in Phoenix and Tucson, Ariz., Albuquerque, N. M., and Salt Lake City, Utah. He left his special train in Phoenix to travel by plane to the other stops.

Los Angeles gave the GOP candidate a roaring reception to match the uproarious San Francisco welcome, and Thursday night, 9,000 people jammed into the Pan Pacific Auditorium to hear him.

An estimated 20,000 stood outside to hear his speech over a public address system.

Loss Of \$50,000 On Airline Flight Puzzles Officials

MIAMI, FLA.—(AP)—A thorough investigation was under way Friday to determine how \$50,000 in cash disappeared from a luxurious airliner as it winged its way from Miami to Lima, Peru.

QUESTION TOO TOUGH— Biting-Dog Case Deadlocks Jury

A six-man jury was unable to decide Friday in Corporation Court whether a citizen has the right to kill a dog which has bitten him.

After deliberating 45 minutes, the jury reported to Judge Edwin T. Stitt that it was unable to reach a verdict in the trial of Henry Pruitt, a 56-year-old negro, who admitted he killed his neighbor's dog on September 19.

The trial will be re-set for a later date.

Pruitt was charged formally with "needlessly killing an animal in a cruel and inhumane manner" and conviction could carry a maximum fine of \$200.

"I was scared of him," Pruitt, who lives at 608 North Dallas Street, told the jury as he took the stand in his own defense.

"I came out of my house that morning and went to my truck. This dog jumped out from beneath the truck and bit me in the leg."

Pruitt pulled up his trouser leg and exhibited the scars of the fang marks.

"I fought him off and finally reached the house. That dog had laid around there for seven months. Many times I had chased him away from children. I wasn't mad at him. I was just scared of him."

"How long have you lived in Midland," asked Defense Counsel John Culver.

"Thirty years."

"Have you ever killed a dog before?"

"No, sir. Never did in my life."

Pruitt had been charged after the dog's owner, Luther Hatchett, another negro, complained to City Attorney Len G. McCormick.

"Were you the owner of a brown, boxer dog," asked McCormick as Hatchett took the witness stand.

"I had a dog," he answered. "I don't know what kind."

"What was his name?"

"I don't know. I didn't have no name for him."

He said Pruitt had come to the service station where he worked and told him he had killed his dog with a 30-30 rifle after being bit.

"I told him," said Hatchett, "that if I were going out of my house and that dog had bit me, I'd have killed him too."

He said later he had received a (Continued On Page Eight)

Fires Damage Two Homes In Midland

The residence of L. C. Rone at the Gulf Tank Farm, located on East Highway 80, was damaged heavily by fire at 6 p.m. Thursday.

Midland firemen said the blaze originated from a butane cook stove with the kitchen razed by the flames.

Another run was made by firemen at 7:30 a.m. Friday to the Frank Morgan Garage on the Garden City Highway. Firemen said the blaze originated from a gas stove with slight damage reported.

Only One Absentee School Ballot Listed

Only one absentee ballot had been cast at noon Friday as the deadline neared for absentee balloting in next Tuesday's \$975,000 Midland Independent School District bond election.

County Clerk Rosnell Cherry said absentee ballots can be cast until Friday night.

The election will be held Tuesday.

'WHAT ELSE CAN WE DO?' THEY ASK— Texas Democrats For Eisenhower Map All-Out Midland Campaign

By COPE ROUTH
The organ played its soft and melancholy tune under the skilled fingers of Dean Baker and half a hundred persons sat there quietly. The beaming face of Dwight D. Eisenhower gazed down from a huge natural-color photo on the wall and Hank Avery, the chairman for the night, flitted around the district courtroom as he prepared to open the meeting.

Fresh Hordes Of Reds Mass For New Blow

SEOUL, KOREA—(AP)—Chinese Reds battered their way to the top of White Horse Mountain Friday night and massed 16,000 fresh troops within easy striking distance of the blood-soaked hill.

Intelligence officers said the Communists could commit two fresh divisions to battle at any time.

The fanatical Chinese stormed at the slopes with screams and curses and pushed valiant South Korean defenders off the ridge line. The bone-weary UN troops scrambled right back to the top and battled the Reds hand-to-hand in a drenching rain half an hour before surrendering the crest again.

A pelting rain started just after dark. It soaked the weeded soldiers who have been fighting continuously more than four days.

A front line officer said it was so dark on the crest the Republic of Korea (ROK) troops had to grope their way forward to close with the Reds.

One Simple Rule
He said the South Koreans had one simple rule for fighting in the dark: If they felt a shaved head in the hand-to-hand fighting they knew it must belong to a Chinese.

That was all the identification they wanted.

The officer said the only sounds from the hilltop were "the screams of the wounded." Because of the darkness, the big guns of both sides were silent.

The South Koreans launched their attack from a line about 100 yards below the crest at 8:30 p.m. They apparently ran headon into the Chinese, who were pushing their way slowly forward.

The ROK's stormed back to the crest less than two hours after a fresh battalion about 700 of screaming Chinese drove them from the top to a base of the hill mass.

The Chinese surged forward in a human sea attack. The officer said they stormed the north slope behind the protective curtain of a roaring Allied artillery barrage. About 100 yards from the top they established a defense line at 7:30 p.m. One hour later they clawed back to the crest.

Sharp and bitter battles flared elsewhere along the 155-mile battlefield. But there was nothing to compare with the carnage on White Horse.

The battle-weary ROK troops wrote their "Stay! Fight!" motto in blood on the shell-pocked peak.

By frontline estimate, the Chinese already have lost more than 8,000 casualties in trying to save face on the strategic height.

Not since Heartbreak Ridge a year ago has a hill cost so much blood.

The Eighth Army reported Red casualties for the first week of October were 4,786 killed, 2,892 wounded and 50 prisoners—a total of 7,728, the heaviest since last November.

The figure does not include the havoc spread by Allied warplanes and artillery. Nor does it include the heavy Red casualties of the last three days.

City's \$45,423,190 Tax Roll Approved

CORPUS CHRISTI—(AP)—Two men were injured about 8 a.m. Friday in an explosion at the Southwestern Oil and Refining Company plant No. 2 here. Their identity was not learned immediately.

Fire that followed the blast was brought under control quickly by city and port refinery terminal firefighters. A column of heavy black smoke hovered over the area about 10 minutes.

The city's 1952 tax roll of \$45,423,190 was approved Thursday afternoon at the regular meeting of City Council.

The roll was submitted by City Tax Collector-Assessor W. J. Pratt, who pointed out that it represents a sharp increase from last year's \$36,520,000.

"Now, then, we'll proceed with our business."

Tom Sealy took over then—Tom Sealy, the Midland attorney and member of the board of regents of the University of Texas, who led the revolt against the convention of Texas Democrats in Amarillo last month.

"About the fifteenth of this month, along about next week," said Sealy, "you'll see this campaign open up in Midland County."

"We're going to put on an intensive campaign for Eisenhower and we're going to need the help of (Continued On Page Eight)

TWO-TIME LOSERS—"Two-time" losers, Danny and Rudy Cienfuegos, four-year-old twins, peek out from behind the bars of a hospital bed in Los Angeles after a stomach pump treatment for overindulgence in a "cocktail" made from a can of poison. Two years ago the twins took their first "cure" after each ate 50 aspirins at one sitting.

Chest Campaign Gains Momentum

Midland's Community Chest finance campaign gained momentum Friday as more and more volunteer workers fanned out over the city and as more and more Red Featherers appeared on coat lapels and in hat bands.

"Give Enough — Give One Day's Pay — That's the American Way" was the plea heard on every hand as the thousands of salaried employees of Midland were solicited for gifts to help finance the 1953 operations of eight youth and welfare organizations.

Joe T. Dickerson, general campaign chairman, said the response to date has been excellent, but that the full support and cooperation of every citizen are essential if the drive's \$68,250 goal is subscribed by the end of next week as scheduled.

He pointed out that the General Division, headed by Raymond Howard, will launch its campaign next Tuesday. Three other divisions — Advance Gifts, Special Gifts and Employe Gifts — have their respective drives going full blast now.

Florida Bank Job Nets Bandits \$8,500

FORT LAUDERDALE, FLA.—(AP)—Two armed robbers tied up three employees of the Peoples Industrial Bank Friday and escaped with \$8,500 they stuffed in a brown shopping bag.

The robbery occurred at 8:15 a.m., 45 minutes before the bank was open for the day. The intruders slipped in through an unlocked rear door.

They forced two women tellers, Mrs. Virginia Bing, and Mrs. Lila Saville, 22, to hand over a key to a floor safe.

They forced the cashier and two tellers to lie on the floor and taped their hands behind them with adhesive tape.

The pair walked in leisurely manner out the back door, across a parking lot and disappeared.

Coastal Refinery Blast Injures Two

CORPUS CHRISTI—(AP)—Two men were injured about 8 a.m. Friday in an explosion at the Southwestern Oil and Refining Company plant No. 2 here. Their identity was not learned immediately.

Fire that followed the blast was brought under control quickly by city and port refinery terminal firefighters. A column of heavy black smoke hovered over the area about 10 minutes.

"This, let me make plain, is a meeting of Texas Democrats for Eisenhower. This is not a meeting of Republicans for Eisenhower. If there are any Republicans here they are in the wrong pew."

He glanced quickly around the room but everyone stuck to their seats.

"We're here tonight," said the enthusiastic Avery, an architect by profession, "to discuss plans for ridding this country of socialism and corruption and big city bosses who have ruled this country for the last four years."

Tense, Cold Hatred Fills Air In UN Island Prison For Reds

By GEORGE A. McARTHUR
CHEJU ISLAND, KOREA (AP)—
Forbidding barbed wire enclosures
near the beach of this rocky 40-mile
island confine 5,800 Chinese Com-

munist, ready to die at a word
from their leaders.
The air of tension and cold hatred
is apparent the minute you walk
through the high double gates to
the prisoner of war camp.

The steely attitude of the United
Nations camp guards is set by the
repeated warning of the camp com-
mander: "You must remember these
people are fanatics."

There are 10 compounds, isolated
by double barbed wire fences, in the
big camp. Officers who patrol the
camp daily say at least three other
compounds are tougher than Num-
ber 7, where 56 Chinese were killed
in a bloody fight with UN guards
October 1.

Camp authorities feel another
bloody demonstration is almost a
certainty—if the Chinese decide it
would give them a favorable prop-

aganda weapon. All it would take is
a word from the Red leaders.

"The guards don't temporize with
the prisoners in any way," says the
camp commander, Col. Richard
Boerem of Ontario, Calif.

"They have been told when they
are assaulted—shoot."
The prisoners have been told re-
peatedly that discipline will be main-
tained with force of arms. Camp of-
ficers want no repetition of the situ-
ation on Koje Island last summer
where the Reds temporarily gained
the upper hand.

The Chinese Reds are well clothed,
well fed and housed in the same
type tents U. S. soldiers use. Con-
crete and stone winter buildings
are being built by the prisoners. The
half-raised walls were used as bar-
ricades in the October 1 fighting.

Weapons In Camp
A search following the demon-
stration uncovered several hundred
crude weapons.

Guards had conducted another
shakedown of the entire camp just
a few days earlier and cleaned it out.
But the weapons used by the Chi-
nese can be made quickly. A tent
pole is easily sharpened into a spear.
A piece of barbed wire wrenched
from a fence quickly becomes a flail.

The Reds have only to dig into
the soil for their primary weapon-
rocks. Tin cans sent into the com-
pounds now are counted scrupulously.
They were being converted into
crude knives.

Camp authorities believe orders
are given from the inside. The camp
is isolated from outside contacts
but it would be a simple matter to
flash messages at night from the
hills.

When the October 1 riot was brew-
ing, Red banners went up simultane-
ously all over the camp. After it
was over, the Reds burned their
flags to keep them from being cap-
tured.

IKE PROVES GOOD DODGER

LOS ANGELES (AP)—Gen. Gen.
Dwight D. Eisenhower's battle-
ground luck saw him through an
other hazard late Thursday.

A piece of exhaust pipe, kicked
up by the car in front of his, im-
paled the general's head by only two
feet as the Eisenhower motorcade
was enroute from Long Beach to
Los Angeles.

The general, sitting in the back
seat of a convertible, ducked
slightly. Observers said if he had
been atop the seat, the tubing
would have hit him in the head
or chest.

Negro Woman Hacks Employer To Death

BLUEFIELD, W. VA. (AP)—State
police said strapping, six-foot
negro housekeeper has admitted she
hacked up her employer with a
Boy Scout axe after an argument
because he wanted her to vacate the
house.

Cpl. E. D. Bazzie identified the
200-pound woman as Arizona Love,
49.

The victim was Sunny Marshall,
60-year-old retired railroad brake-
man. His dismembered torso was
found last Sunday at a nearby
dump.

Reds Charge U. S. Plane Violated Soviet Air Lanes

BERLIN (AP)—Soviet officials have demanded that "severe punishment" be meted out to the crew of an unarmed U. S. Air Force plane menaced by machinegun fire from Russia jet fighters while it was flying a hospital mission. American authorities already have protested the shooting.

The Berlin-bound plane, carrying a crew of five and a woman nurse to evacuate Army ailing, was buzzed Wednesday by two Soviet MIG's. It escaped into a cloud after a warning burst of bullets slipped past its nose.

Maj. Gen. Lemuel Mathewson, American commander in Berlin, sent a quick protest to Maj. Gen. V. I. Trussov, Soviet deputy chief of staff, describing the firing as "hostile, unfriendly, unwarranted and uncivilized."

But Moscow also dispatched a protest the same day to American military headquarters in Germany. The Army disclosed Friday. The Russian claimed the D-CB transport flew 35 minutes outside the 20-mile-

wide air corridor from the U. S. occupation zone to Berlin.

On its flight, he added, the U. S. plane exceeded the corridor boundaries by distances up to 18.6 miles.

Punishment Demanded
"The American plane did not heed the demand of Soviet planes to make a landing, and attempted to hide itself in clouds," Trussov said.

He demanded "the severe punishment of the guilty" American fliers and "measures to avoid violating flying orders over the territory of the German Democratic Republic by American planes."

Mathewson's protest—as yet not answered directly—acknowledged that "adversely and unexpectedly high winds" might have carried the plane outside the corridor at one point, but added that "any such possible error in navigation could only have been made unwittingly and without intent."

A responsible American source said Friday: "Our point is that you should not shoot at a peaceful aircraft, even if it has made a navigational error."

Plans Shaped For B-E Day

The Education Committee of the Chamber of Commerce Thursday shaped plans for the second annual Business-Education Day November 19.

H. H. Lawson, Charles Mathews and Earl Chapman form a panel to arrange the B-E Day program. Invitations to business firms to participate will be sent out from the Chamber of Commerce offices under the direction of a sub-committee composed of C. W. Chancellor, Jr., W. Dave Henderson and J. Harvey Herd.

Al Vineyard, Norman Taylor and Wesley McBride will assist host firms in preparing for B-E Day.

The education committee and school officials reviewed the first Business-Education Day. It was decided to line up more businesses as hosts this year because the individual firm can do a more thorough job with a smaller group. A greater number of teachers will be available this year.

Herd presided at the meeting in the directors room of the Midland National Bank. Joining the chairman were Mathews, Henderson, Lawson, Chancellor and Taylor.

Boy Scouts Give 'Thank You' Party For Woman Doctor

OMAHA (AP)—A woman doctor who traveled 78 miles into the Wyoming mountains to attend 21 flu-stricken Boy Scouts was a guest of the grateful Scouts and their parents at a banquet and court of honor Thursday night.

Twenty-nine Scouts of Omaha Explorer Post 42 had gone to the Wind River range in Wyoming August 2. Five days later, 21 of the 29 were stricken with the flu.

Some of the scouts trudged 22 miles to a telephone and summoned Dr. Mary A. Nylander of Lander, one of Wyoming's new women doctors. She came 78 miles by car, jeep and horseback to treat the boys, all of whom recovered.

One of the five Scouts who had escaped illness on the Wyoming expedition, Bruce Beter, 16, quipped the "thank you" party for Dr. Nylander. He was home with the flu.

★ JOHNSON IN HOLLYWOOD ★ Skelton Snips Grapevine Talk Of Going Back To 'Live' TV

By ERSKINE JOHNSON
NEA Staff Correspondent

Exclusively Yours: Red Skelton headed back to "live" TV to recapture the spontaneity?

I tossed the grapevine whisper at the comic on the set of "The Clown" at MGM. Red crossed his eyes, pretended to faint and then said:

"Look, it's film for me from now on except live shows on Thanksgiving and Christmas. Live television is murder. I couldn't eat and I couldn't sleep. I'll never do it again."

"I thought I was in a bad way until I talked to Ken Murray. He told me he was so nervous he cried like a baby just before every one of his shows. Let the other guys kill themselves. Look at Eddie Cantor. A live show and he has a heart seizure. It's the mental hazard. It's not for me. I want to go on living. I've never felt better in my life."

Giant-sized Buddy Baer, the bone cruncher of "Quo Vadis," is back in movie grease paint in Cary Grant's "Dream Wife"—"this time I'm a dialog cruncher"—after nixing a \$65,000-a-year guarantee to become a star of the nation's wrestling circuit.

Flipped ex-prize-fighter Buddy: "I figure I'll have to work in about 20 more pictures before I'll have enough acting experience to take up wrestling."

More Film For Faye
Faye Emerson, who's been saying "No, thank you" to Hollywood for years, will give the big screens another whirl. The ex-Mrs. Roosevelt will play a gabby Broadway commentator in Lester Cowan's "From Main Street to Broadway," the crawling - with - stars flicker ("Tallulah Bankhead, Olivia de Havilland, Henry Fonda, Rex Harrison, Lilli Palmer, Mary Martin, Agnes Moorehead and Cornel Wilde).

Patrice Wymore is under the care of medicine and due for surgery... Now it can be told: There was no love lost between Piper Laurie and Ron Randall, who plays her husband in "Mississippi Gambler." They feuded throughout the film... The recent surgery to give Marjorie Rambeau the full-use of her shattered leg wasn't successful—though it may have saved her from complete invalidism.

Hollywood's box-office slump has been blamed on everything from TV and inflation to popcorn munchers and bad pictures.

But it's Dana Andrews' private-eye theory that "dishonest movie makers" are the guilty ones in the case of "Who Killed the Movie Audience?"

Dana's quotes on the subject: "I've heard more than one producer say, 'I know this is bad taste but it's what the public wants.' That's dishonest film making. A producer starts filming a good story and then he throws in a lot of things he thinks the public wants and they stand out like sore thumbs and audiences go away disgusted."

"All Hollywood has to do is film good and honest stories and advertise them with honesty. There should be more imagination and more creation in Hollywood and less talk about 'let's give the public what they want.'"

That's Our "Ira"
Marie Wilson, touring CBS' new TV City in Hollywood, was introduced to electronic engineer George D. Izenour, whose name is pronounced like Ike's. "I don't know what you're doing here," deadpanned Marie, "but I'm sure going to vote for you."

Marjory Crank, Tony (Valentino) Dexter's estranged wife, is looking for a movie agent. A Kim Hunter type, she was a stage actress before she met Tony.

District 11 Of Church Council Conducts Workshops In Odessa

District 11 of the Texas Council of Church Women met in Odessa Wednesday for workshops on program planning, public relations, promotion and cultivation, observance of special days and leadership training.

The sessions were conducted by the following team of state council officers: Mrs. Felix Cormier of El

Paso, field secretary; Mrs. R. T. Wells of Amarillo, treasurer, and Mrs. Carl Enderby of Dallas, chairman of the yearbook committee. Sixty women, representing each council in the district, attended the meeting in the First Christian Church. A luncheon was served at noon by the Odessa Council.

Install Officers
An officers' installation service was held for Mrs. C. O. Puckett of Midland, president; Mrs. W. A. Lawell of Big Spring, secretary; Mrs. Charles Klapproth of Midland, historian; Mrs. E. N. Shriver of Midland, corresponding secretary, and Mrs. W. A. Schaffner of Odessa, treasurer.

The opening worship was given by Mrs. Fred Whitaker, president of the Big Spring Council. Mrs. W. F. Miether, president of the Odessa council, gave the welcome and Mrs. Earl Chapman of the Midland Council gave the response.

Mrs. Bernard Lamun of Big Spring, district president for the past four years, was presented with an orchid and a life membership in the Texas Council in appreciation for her services.

The Big Spring Council invited the group to meet with them next year.

DeMolay Mothers Adopt Constitution

The DeMolay Mothers Club read and adopted a constitution Wednesday when it met in the home of Mrs. J. J. Johnson.

The group made plans to serve refreshments at the DeMolay officer installation Saturday in the Masonic Hall and to assist with the DeMolay hill-billy dance October 25 in the City-County Auditorium.

It was announced that any mother of DeMolay members joining the group in October can become charter members. Those interested in joining should contact Mrs. W. M. Cates.

Those attending were Mrs. W. P. Chesnut, Mrs. Cates, Mrs. J. H. Adams, Mrs. Harry Miller, Mrs. W. N. Keisling, Mrs. W. C. Tatum, Mrs. Henri Mast and Mrs. H. C. Mace.

The next meeting will be held November 13 in the home of Mrs. J. Horace Adams.

Texas Veterans-For-Ike Unit Organizes; Women Ask MacArthur To Fade Away

By The Associated Press
While plans were laid in Austin to get Texas war veterans behind Gen. Dwight D. Eisenhower for President, another campaign was under way Friday to get the name of Gen. Douglas MacArthur off the ballot.

The request for MacArthur's withdrawal as the nominee of the Christian Nationalist and Constitution Parties came from the Republican-sponsored Womanpower for Eisenhower Club in Dallas.

Mrs. George A. Ripley, who identified herself as a conservative Democratic member of the group,

said the resolution was sent to MacArthur Thursday night. It said leaving the general's name on the ballot would help the Democratic ticket and hurt the Republican ticket headed by Eisenhower.

The "Texas Veterans for Eisenhower" headquarters was opened in Austin in the same office housing the "Democrats for Eisenhower."

Tom McHale, Dallas and man designated as chairman of the veterans group, said a state-wide veterans committee would be completed within a few days and every effort made to contact a million veterans in Texas.

Other political developments in Texas:

1. Free barbecue, Attorney William McCraw and Judge Sarah T. Hughes of Dallas will be featured Saturday night when Ennis County Democrats stage a county-wide Stevenson-Sparkman rally.
2. Besides introducing Democratic Presidential nominee Adlai Stevenson at Houston, October 18, Senator Tom Connally's office in Washington said that the veteran legislator would speak October 23 in Dallas, October 24 in Austin, and October 28 in Abilene. Connally has cancelled speeches at Waco, October 14, and at Fort Worth, October 17.
3. Gov. Allan Shivers said he would be in Port Arhur October 14 and would fly to San Antonio for a night appearance with GOP Presidential nominee Dwight Eisenhower. Shivers said he would make two or three speeches for the Republican candidate.

JayCees See Video Demonstration Here

Don Hanson of the Southwestern Bell Telephone Company gave a demonstration of network television in Texas at a ladies night meeting of the Midland JayCees Thursday in the Cowden Junior High School cafeteria.

Roy Goulston, Midland manager for the telephone company presented the speaker who explained TV transmission by coaxial cable and by microwave. Electronic equipment was used in the demonstrations.

Dr. Henry Schlichting, Jr. deputy governor for the Midland Toastmaster Club, spoke briefly in behalf of the proposed bond issue to improve and expanding facilities of Midland Public Schools.

J. P. Marchionni, president, presided. Approximately 60 JayCees, wives and guests attended.

"It isn't a question of political parties," McHale continued. "It is a question of choosing the right leader. Veterans of all wars are concerned with performance—not promises. They took to Ike Eisenhower as a proven leader."

Democrats Not Idle
Meanwhile, the Democrats were anything but idle.

Stevenson-Sparkman campaign manager said Thursday night in Port Worth that if the Democrats don't carry Tarrant County "we can't carry Texas."

"And if we can't carry Texas," said Navarro County Judge James Sewell of Corsicana, "we can't carry the nation."

Sewell lashed out at "wealthy oil men and other selfish men in Texas" who are trying "to destroy the Democratic Party."

He said it was a "shame" that some Democratic officials, "safely locked behind the July nomination," say now that they're Republicans.

Sutton Plans Five Midland Addresses

Dr. Willis A. Sutton, superintendent emeritus of Atlanta, Ga., schools will be guest speaker for the Midland Public Schools on five occasions Monday and Tuesday, October 13-14.

He will speak to the Kiwanis Club Monday noon at the Cactus Cafe, and he will speak to the lay citizenry at 7:30 p.m. the same day in the senior high school auditorium.

During Monday and Tuesday, he will talk to the senior high school, Cowden Junior High School and San Jacinto Junior High School student assemblies.

Dr. Sutton is past president of

the National Education Association and formerly a guest lecturer of the Readers Digest. He has been awarded a number of degrees by colleges and universities for his educational work.

It has been said that he has spoken to more teachers and students than any other man in the United States. He is a widely known and much-sought-after speaker, having spoken to all types of audiences during his public life. Not only is he well known in educational circles, he is in great demand by lay groups everywhere he goes.

From a Georgia plantation and early education in a one-teacher country school and in a high school that he reached by riding 16 miles on horseback every day, Dr. Sutton made his way to college.

Britons Speculate Second Atom Blast Due In Two Months

LONDON —(AP)— Britons speculated Friday that their second atomic explosion may be set off in Australia within the next two months.

The wave of conjecture followed an announcement that Britain's three top atom men would fly to Australia in early November.

The three are W. G. Penney, scientific director of Britain's first atomic explosion October 2 in the desolate Monte Bello Islands off Western Australia; Sir John Cockcroft, boss of Britain's Harwell atomic energy plant, and Gen. Sir Frederick Morgan, the nation's atomic energy controller.

Penney left Australia by air Friday to report to Prime Minister Winston Churchill and the British Cabinet on the effects of the October 2 explosion. He was flying in a special Royal Air Force plane.

The announcement said Penney would return to Australia November 5. He is scheduled to be followed by Cockcroft on November 10 and General Morgan the next day.

A spokesman for the Ministry of Supply, which supervises the nation's atomic program, said "no comment" when asked if Penney's return to Australia meant another atomic test in the offing.

Probers To Check Alcohol Tax Unit

LINCOLN, NEB. —(AP)— Rep. Carl T. Curtis (R-Neb.) said Thursday night members of the tax-investigating King Committee will go to Washington after the November 4 election to probe the Treasury Department's Alcohol Tax Unit.

Curtis, a member of the committee, said he is not at liberty to say what might be revealed.

"But I do believe it will be a series of matters that will command as much attention as the disclosure about income taxes," he commented in an address to the Southeast Nebraska County officials Association.

Collision Revealed As Cause Of B-29 Crash Fatal To 11

TRAVIS AIR FORCE BASE, CALIF. —(AP)— A mid-air collision of a B-29 and a jet fighter presumably was caused by loss of the B-29's right wing tank in a swift turn, the Air Force said Friday.

All 11 crewmen on the Travis-based bomber were killed when the B-29 crashed near Portland, Ore., Wednesday.

The jet fighter made it back safely to McChord Field, Wash. Its left wing tank was damaged. The two crewmen were not injured.

A spokesman said presumably the planes collided as the jet made a firing run on the bomber on a routine training maneuver.

The Air Force previously said the B-29 crash was caused by an explosion in flight.

The company opened its first store in Wichita Falls last week.

Foundation Says '52 Worst Year For Polio

NEW YORK —(AP)— The National Foundation for Infantile Paralysis says this year's polio epidemic, which has passed its peak, now stands as the nation's worst on record.

With 3,227 new cases reported in the week ended October 4, the foundation said, the total for 1952 numbers 42,372 cases—339 more than reported in all of 1949, the worst previous year.

But last week's new case total, the foundation said, represents a nine per cent drop from the previous week—the second decline noted.

Lutherans Argue About New Bible

SEATTLE —(AP)— Delegates to the 18th biennial session of Lutheranism's largest church pointed Friday to what is expected to be the most controversial session of their week-long convention—the acceptance or rejection of the revised standard version of the Bible.

The matter was expected to arise during the day with presentation of a memorial from 10 of the United

Lutheran Church in America's 34 synods asking for approval of the new Bible translation.

The action of the 18 synods is in opposition to the decision of the Joint Commission on the Liturgy, which has submitted a report strongly urging retention of the King James version.

The liturgy committee is composed of members representing churches of the National Lutheran Council. It has been asked to prepare a liturgy to be used by the majority of Lutherans in the United States and Canada.

Synods joining in the request for use of the new version were Illinois, Kentucky-Tennessee, Michigan, Midwest, New Jersey, New York, Pacific, Pittsburgh, Rocky Mountain and Virginia. Their requests made no arguments in favor of the change.

The Commission on Liturgy, in summing up some of its arguments against the new version of the Bible, said, "It would be highly unwise to give premature approval to the liturgical use of a version of the Bible—however fine—of which the church has not yet had opportunity to measure the full stature."

It said also: "It would be highly inconsistent with the conservative principles of Lutheranism for our church to venture where other churches without our tradition have been unwilling to go . . ."

Rejected Suitor Jailed For Pistol Attack On Woman

GARDEN CITY, N. Y. —(AP)— A rejected suitor fired a five-shot fusillade through a dining room window Thursday night and wounded 24-year-old Jane H. Spaulding as she sat eating dinner with her family, police said.

One of the revolver bullets hit Miss Spaulding in the shoulder and ranged into her neck. She was in fair condition at a hospital. Four others at the table were not injured.

Police arrested William Pflugfelder, 29, a securities analyst. He was booked on charges of assault.

Nassau County Detective Chief Stuyvesant Pinnell said Pflugfelder was a rejected suitor of the young woman and recently had failed to effect a reconciliation.

Wildcat Failures In Three Counties Plug

Wildcat failures in Garza, Sutton and Kimble Counties of West Texas have been plugged and abandoned.

Bighorn Corporation No. 1 Rex Welch and others, Northeast Garza County prospector, 10 1/2 miles northeast of Post drilled to a bottom of 3,291 feet in barren lime and shale in the Permian.

It plugged back to 630 feet in an upper Cretaceous sand and test a section above that point. No commercial shows of oil and gas were logged. The duster has been abandoned.

Continental Oil Company No. 1 Sol Mayer, Northwest Sutton County prospector, 14 miles northwest of Sonora drilled to 8,562 feet in barren Ellenburger.

It plugged back to 630 feet in an upper Cretaceous sand and test a section above that point. No commercial shows of oil and gas were logged. The duster has been abandoned.

Failure In Kimble
 In North-Central Kimble County, Anzac Oil Corporation No. 1 W. L. Pfluger and others drilled to 2,138 feet and found no shows for making an oil or gas well. It has been plugged.

Location was eight miles north and one-half of a mile west of Junction. The driftsite was 440 feet from most southerly south line and 2,590 feet from most easterly west line of survey 75, Kimble County School Land survey.

Operator will drill 25 feet from 12,022 feet and run electric logs. Location is 10 miles west of Plains and 1,280 feet from east and 660 feet from north lines of section 433, block D, John H. Gibson survey.

Operations are to start at once.

Gulf Schedules West Offset In South Andrews

Gulf Oil Corporation spotted location for a 12,700-foot project one-quarter mile west of the Triple N Ellenburger field of South Andrews County.

It will be dug 1,980 feet from east and 660 feet from south lines of the north half of section 20, block 9, University lands survey.

Operations are to start at once.

Palo Pinto Top Called, Tested In Schleicher

O. W. Strake No. 1-B J. Forest Runge, wildcat in extreme Central-North Schleicher County, topped the Palo Pinto at 5,038 feet, elevation 1,152 feet.

Veteran Jailed In Slaying Of Valley Mills Dairy Hand

WACO—(AP)—An off-duty law officer, swapping war experiences with a stranger in a cafe early Friday, recognized a wanted killer and brought about his arrest.

Tom Springer, radio dispatcher for the State Department of Public Safety office here, recognized the man he was talking to as the same man whose description he had been broadcasting several hours.

Springer, who was not in uniform, left the cafe and called police, who arrested Edward Johnson, 22, a former patient of the Waco Veterans Administration Hospital.

The man was sought in connection with the killing Thursday of a dairy hand at Valley Mills, Texas. The dairy hand, officers said, was shot and killed because he refused to cooperate in an armed robbery attempt.

Killed was Joe Servantes, 50, an employe of the Dennis Clemons Dairy about three miles southwest of Valley Mills, a small town about 25 miles northwest of Waco.

Police said the man under arrest also had been working at the farm. Constable M. B. Edwards said Servantes was shot when he refused to help tie up I. H. Burkin, a cab driver who had driven the slayer to the robbery scene from Waco.

The man was not charged immediately, possibly because of some uncertainty as to which county the killing occurred in. The dairy farm

is near the place where the borders of McLennan, Bosque and Coryell Counties meet.

Johnson was charged with murder in Justice of the Peace Bill Logue's court here.

Grand Jury Still Withholds Report In Valley Slaying

ALICE—(AP)—After questioning 44 witnesses from three South Texas counties, a grand jury investigating the ambush slaying of Jake (Buddy) Floyd, Jr., was expected to return its report Friday.

The jury adjourned Thursday afternoon after talking with the two men charged with murder in the slaying. Both have been held without bond since they were arrested shortly after the slaying.

Nago Alanis, an Alice attorney, spent about half an hour with the jury. Mario (El Turko) Sapet, San Diego bar owner, was in the room about 10 minutes.

Neither is accused of actually firing the shots that killed young Floyd.

No Recasting Plans Shaped For Brooklyn

BROOKLYN —(P)—All the excitement of the World Series having blown away, Brooklyn baseball fans Friday began to take stock of their club—and one big question: What does the management have in store for next year in the way of deals to strengthen the National League champion? The Bums battled the New York Yankees down to a finish, only to lose the series in seven games, and the more critical blame ineffective pitching and first baseman Oli Hodges, who went hitless in 21 trips.

Fact Overlooked

There appears to be a disposition to overlook the fact we did carry the fight into a seventh game, and that the Yankees had to beat only half of our club," Bavaid said. "So many of our key hitters did not hit."

minutes of every game, are ready for rollicking against the lighter Bobcats. Jones finds his squad physically fit except for Larry Friday, the workhorse quarterback, who'll be available for punting and extra point kicking Friday night.

Sports writers over West Texas are in accord on a decisive victory for the gridders from "The City of Skyscrapers." Some predict the Bulldogs will chalk up a 90-point margin. A majority of observers sees a 40-point difference. Coach Jones warns: "Don't be too optimistic."

In recent years, the Bulldogs have dominated the Bobcats who lost last year's opener in Midland. Juggling of district lineups have had the Bulldogs on and off the San Angelo schedule.

Coach Jones believes that the Bobcats have the wherewithal to surprise the Bulldogs, particularly if they get caught in a cloudburst of overconfidence. Scouting reports, he said, convinced him that the Bobcats are capable of rising up and stalking a favored foe.

With this conviction, Jones brought out a little used weapon in this week's practice. The Bulldog passing attack, potent in games against Lamesa and Paly but little used in the Yleta encounter, has been polished. The ever-present big stick, the running game, was employed in new variations and the little-used line cracking formations turned loss in hard scrimmage.

This leaves the gridiron firemen of Midland geared to quench the "fired up" Bobcat blaze this cool October evening along the winding Concho.

Campanella Talked Undeclared Teams Fall As Major Coach

BROOKLYN.—(P)—Roy Campanella, Brooklyn's popular catching star, may become the first Negro coach in major league baseball, when his playing days are over.

Walter F. O'Malley, owner of the Dodgers, disclosed Friday he and the club's all-star receiver had discussed the idea at some length and that he was all in favor of employing Campanella as a Dodger coach "in a few years."

"I don't see why Roy can't turn to coaching when his playing days are over," the executive said. "He's intelligent, level-headed, well-liked by both players and fans, and I think he'd make a fine teacher."

New Umpires For Longhorn

ARILENE.—(P)—Contracts of two umpires from the Sooner State League and an umpire from the Mississippi-Ohio Valley League have been purchased by the Longhorn League. President Hal Sayles announced Friday.

Moving up from the Sooner State are Clayton R. Varner of Dandab, Md., and Lloyd R. (Tex) Harper of Fort Worth. Advancing from the MOV loop is Mike Dufas, a two-year veteran from Swedeland, Pa.

Tech Linebacker Keeps Draft Date

LUBBOCK.—(P)—Texas Tech will be minus one of its probable starters in the game with Texas Western here Saturday night.

Hilton Hayes, linebacker, left Friday for his home in San Angelo and a date with the draft board. Hayes is in the upper half of the class but he did not ask deferment last summer because of being a member of the National Guard.

Four Injured Ponies Miss Missouri Trip

DALLAS.—(P)—The Southern Methodist University Mustangs entrusted here Friday afternoon for their first road game of the season against the Missouri University Tigers at Columbia, Mo.

Four injured players—Fullback Dale Moore, Tackle Tiny Coos, Guard Joe Baquas, and Halfback Frank Eldom—were left behind.

Dallas Texans Get New Quarterback

DALLAS.—(P)—The Dallas Texans will have a new quarterback when they play the Chicago Bears at Chicago Sunday in their third National Football League game.

Chuck Ortman, the former Michigan star, will step in place of Bob Cleler, Coach Jimmy Phelan said Friday.

El Pasoan Assumes Lead In Texas PGA Tournament

GALVESTON.—(P)—The second round of the Texas PGA Championship Tournament got underway Friday with Jack Harden, El Paso professional, holding a three-stroke lead.

Harden shot seven under par 65 Thursday to blaze the way in the first round. Ray Gafford, Dallas pro, and Howie Johnson, Houston amateur, stood second with 68's.

Houston pro Sam Schneider and Fort Worth amateur Johnny Foster were a stroke behind with 69's.

Grouped at 70 were Houston's Jimmie Demaree, the tournament favorite, and Amateurs Ken Lawson of San Antonio and Buster Reed of McKinney.

TEMPLE.—(P)—There have been passers—and then there is Doyle Traylor. This young man, called "The Arm" by Texas football fans, has thrown 63 touchdown passes in 28 games.

College scouts all the way from here to there are camping on the trail of the chunky blond who is the quarterback for Temple High School's Wildcats, one of the finest teams in all Texas.

Dandy Doyle is only 16 years old and he's a senior in high school. That just goes to show how smart he is.

Wisconsin, Ohio State In Headliner

NEW YORK.—(P)—Wisconsin comes upon another big obstacle on the rocky road to the Big 10 championship and the Rose Bowl Saturday when the No. 1 team in the country takes on Ohio State.

This is the top battle of a full schedule of important league and intercollegiate affairs.

Wisconsin vaulted to the top spot in the land in The Associated Press poll late week on the basis of its stunning triumph over Illinois, the defending league champion. This Ohio State team doesn't approach some of the former powerhouses from Columbus, but it should give Ivy Williamson's leads a run for their money.

Rare are the days when an Ivy League game rates the attention of the Princeton-Penn affair is attracting. But these two powerhouses probably could put up a good fight against anyone. In addition, Princeton has a 34-game winning streak going, the longest in college football.

Tossup Seen This is a tossup with Penn being given a one-point edge, probably on the basis of its 7-7 standoff against Notre Dame, while the boys from Tiptonville have been warming up at the expense of lesser lights.

Michigan State, the heir apparent to the No. 1 rating vacated by Tennessee last year, has no conference in Texas A&M, but the Spartans are figured to win. Coach Biggie Munn would like to see his charges do their scoring early for a change, though. They're in the habit of teasing the opposition along until the final minutes.

California, the favorite to play host to the big 10 entry in the Rose Bowl, should make hash of Oregon. Stanford, the defending Pacific Coast Conference winner, goes against Oregon State.

Foes Look Tough Maryland—and Georgia Tech, probably the two top teams in the Southeast, face formidable rivals. The Terrapins, banished from the Southern Conference for a year because they played in a bowl game, must get by a strong Georgia outfit, while the Engineers have to deal with Tulane. Duke has an easier assignment against South Carolina.

In the Southwest, the No. 1 contest, there is only one other Ivy League game listed. That pits Yale against Columbia, and the Elis should win this on the passing arm of Ed Molloy. Army tangles with Dartmouth and Syracuse meets Cornell in other top attractions.

There are some 250 games in the state.

Defending Champ Ousted In Texas Senior Golf Play

SAN ANTONIO.—(P)—Medalist Earl Rowe, San Antonio, continued in a favorite's role here Friday after defeating Tyrrell Grath, Sr., Beaumont, 3 and 2, Thursday in the State Senior Golf Tournament.

Defending Champion John Marston, Dallas, was knocked out of championship competition by H. L. Scallorn, Abilene, 1946 champ.

Rowe met Elmer Miller, San Antonio, in Friday's semi-finals and Scallorn played Bob Barbee, San Antonio.

Barbee defeated Col. W. R. Stickman, Fort Sam Houston, 2 and 1, Thursday while Miller has whipped Ed Brady, Sr., San Benito, 1-up in 30 holes.

SWC Grid Teams In Make Or Break Games This Week

By HAROLD V. RATLIFF, Associated Press Sports Editor

The intercollegiate football season can make or break the Southwest Conference comes up Saturday.

Already on the ropes through four reversals in five games last week the league members must win a majority of their games this time to pull ahead for the season.

To bounce back they must come through in three of these games: Texas vs Oklahoma at Dallas. Rice vs UCLA at Los Angeles. Texas A&M vs Michigan State at Lansing, Mich.

Southern Methodist vs Missouri at Columbia, Mo.

The intersectional standings for the year—and this will be the last Saturday of more than two games against outside foes—is six wins and seven losses. Unless the conference members win three Saturday they'll be one game to the bad.

While the quartet is trying to bring the circuit back to prominence in the nation, Baylor and Arkansas will be scrapping it out at Little Rock in a conference game. This is one of two tight spots on the schedule.

Baylor is the only undefeated team left in the conference and has a perfect intersectional record, beating two outsiders—Wake Forest and Washington State. Arkansas won its only intersectional game, edging Oklahoma A&M, but lost to University of Houston and Texas Christian.

Tex-Sooner Sellout The Texas-Oklahoma game, although it had much glum rubbed off when Texas lost to Notre Dame, 14-3, last week while the Sooners were walloping Pittsburgh, 49-20, to remain unbeaten for the campaign—they were used by Colorado, will draw its usual capacity house in the Cotton Bowl—more than 75,000 fans. This game is being televised in the Southwest.

It will be the forty-seventh meeting of the two state schools. Texas has won 30 games, Oklahoma 14 and there have been two ties. Last year Texas broke a three-year Oklahoma strange-hold with a 9-7 victory. Oklahoma is rated twelfth nationally while Texas isn't in the top 20.

Texas A&M essays the most difficult task—trying to beat mighty Michigan State, the No. 2 team of the nation. The Spartans have everything it takes. The Aggies have done surprisingly well, winning from University of Houston and Oklahoma A&M, but they lost to a fair Kentucky team last week, 10-7.

SMU Tactics Tiers Southern Methodist tackles a Missouri team that gave highly-rated Maryland a tough afternoon, lost to California 28-14, and last week beat Kansas State, 26-0. SMU is winless, having dropped games to those terrors of the South—Georgia Tech and Duke. Missouri is a one-point favorite.

Baylor is a light favorite over Arkansas but not in the minds of the Baylor coaches. Arkansas is big, tough and rugged and capable of breaking loose with a flurry. It will be using a new formation—a deep spread. Baylor throws an offense at Arkansas that has rolled 79 396.5 yards per game but it isn't likely to swirl like that against the Razorbacks.

Oklahoma To Win Over Texas In Close Contest

By PITTS SMITH

OKLAHOMA vs TEXAS at Dallas—Past records go out the window when these two powerhouses do battle. The setting is familiar, as both teams are loaded with hard runners that can score often. Neither squad is overburdened with good defensive players, so don't be surprised if this turns into a high scoring affair with the Sooners on top.

PENNSYLVANIA at PRINCETON—The line is drawn pretty thin between the only Ivy League teams, that can still take the field with any degree of security. Coach Caldwell's Tigers are not the same without Kasmaric, but a whole flock of sophomore backs are doing a good job pinch-hitting. The Quakers well-rounded experienced squad should take a close one.

Democrats For Adlai Fret About Size Of Texas Vote

By MARTHA COLE DALLAS —(P)— State campaign headquarters for Adlai Stevenson and John Sparkman is worried mainly about getting out the vote come November 4.

Democratic," said Judge James Sewell of Corsicana, state campaign manager for Stevenson.

The Stevenson Democrats set up their state headquarters right after the September 9 State Democratic Convention endorsed the Republican nominee, Dwight Eisenhower, for President.

"Our representation in the next convention will be based on the number of votes cast for the Democratic nominees in the November election."

"As far as the presidential election is concerned, I am supporting Dwight Eisenhower and Richard Nixon."

Sealy Offers Resolution

Sealy then presented a resolution, patterned after the successful one he authored at the state convention, urging Texas Democrats to work for the candidacies of Dwight D. Eisenhower and Richard Nixon, the Republican candidates.

Sealy Offers Resolution

"We respectfully acknowledge," said the resolution, which was adopted without a dissenting vote, "that the Democratic Party, as we have known and loved it, is a captive of groups, whose aims and views are alien to ours in Texas."

Sealy Offers Resolution

Over in his seat, Frank Benson, the county Democratic chairman swung his gaze to the entrance to the courtroom and his eyes brightened.

Sealy continued:

"We can clean out this mess in Washington... and help regain control of the Democratic Party... They have just taken the Democratic label and run away with it."

Sealy continued:

"When Truman came down to Chicago," he said, "and assassinated Dick Russell and Estes Kefauver, I turned off my radio and said 'I can't swallow no more.'"

Sealy continued:

"I think I'm a loyal Democrat and there ain't nobody can say I deserted the Democratic Party."

Sealy introduced

Every glance around the room and spotted Benson sitting there. He introduced him as the county Democratic leader and Benson rose slowly.

Sealy introduced

"There's one thing I want definitely understood," he began. "I, for one, do not propose to play Yooties with the Republicans. This is strictly a Democratic organization opposed to those who have robbed us of our Democratic principles."

Sealy introduced

"In the November election, we must continue to support our Democratic candidates from the state level on down."

He said the regular procedure, when a person is bitten, is to notify him instead of killing the animal.

Was the dog licensed?" asked Culver.

"He didn't have a tag," answered Rose.

Does the city require dogs to be licensed?"

"Yes, sir, and there are lots of dogs without license. But we're trying to get them tagged as quickly as possible."

The defense called several witnesses to testify as to Pruitt's reputation and character.

These included W. D. Lane, in charge of operations in this district for the Plymouth Oil Company, where Pruitt is employed; Roy F. Gardner, land man, and Sol Kelly, a former employer of the negro.

Backbones' Become Nixon's New Target

ABOARD NIXON TRAIN—(P)—Senator Richard Nixon's 11-car special winds through seven Northwestern Pennsylvania cities Friday with the California senator ready to consider the "backbone" of the presidential candidates a major campaign issue.

Senate brought up the backbone issue in every one of six speeches through Central and Eastern Pennsylvania Thursday. He explained it stemmed from a statement by Gov. Adlai Stevenson, Democratic presidential candidate, which Nixon said implied Dwight D. Eisenhower lacks backbone.

PAYETTEVILLE, ARK.—(P)—A 27-year-old negro law student from Pine Bluff, Ark. Thursday night was elected president of Loyd Hall at the University of Arkansas.

"I am willing to accept this as a campaign issue," Nixon said. "Where was Stevenson trained? In the State Department under Dean Acheson. Never has there been less backbone and more spineless policy than that of the present State Department."

Seven Policemen Named In Houston Burglary Charges

HOUSTON —(P)—A sensational scandal rocked the Houston police department Friday as seven police officers were implicated in a series of burglary and theft investigations.

Two were charged with burglary and theft, a third faces a misdemeanor theft, a fourth has been suspended and probably will be fired and three others were allowed to resign because of their complicity in burglaries and thefts.

NOTICES:

NOTICE TO BIDDERS

1. Sealed proposals to the Honorable City Council of the City of Midland, Texas for the furnishing of all materials other than those furnished by the City of Midland, Texas, including machinery, tools, equipment, superintendence and labor for the construction of a 12 inch cast iron water main, 13,400 feet of 8 inch, 823 feet of 8 inch, and 3240 feet of 12 inch cast iron water lines along with the necessary valves, fittings and fire hydrants, all in the City of Midland and located in the Permian Estates Addition, will be received at the office of the City Secretary, City Hall, Midland, Texas, until 3:00 p.m. on the 22nd day of October, 1952 at which time they will be publicly opened and read aloud.

The City of Midland will furnish all the cast iron water pipes, valves and fittings for the contract.

Any bid received after closing time will be returned unopened.

2. Bids should be plainly marked on the outside of the envelope "Proposal for Water Improvements, Project W-37."

3. Information for Bidders, proposal forms, specifications and plans may be examined without charge at the office of the Director of Public Works, City Hall, Midland, Texas, and may be procured at the same office upon the deposit of \$100.00 as a guaranty of the safe return of the plans and specifications in good condition. Plans returned later than the 18th day after the bids are opened will be obligatory.

4. A Cashier's Check or Proposal Bond executed by a reliable surety company authorized to do business in the State of Texas, for five (5%) per cent of the amount of the contract, plus the proposal as a guaranty that the Bidder will enter into contract and execute the required bond and guaranty on the forms provided within ten (10) days after notice of award of contract to him. Bids without required Check or Proposal Bond will not be considered.

5. The City of Midland reserves the right to reject any or all bids and to waive any formalities.

KEY, WILSON & MAXSON'S REAL ESTATE Bulletin Board REPORTING THE TOP NEWS IN REAL ESTATE

(Continued from last week) THE KEEPER OF THE KEYS can be reached by calling 2-1693. Keeper Rita, Steve, Lynn or Henry will be very happy to show you one of the newest homes for the money that we've been able to secure for you. From the eye-appealing exterior to the exquisite interior, you'll find yourself awe-struck with the charm of this 2-large bedroom home. Extremely roomy kitchen with natural-finish cabinets, spacious living room, front and rear porches. The 100x140 yard is carpeted in green grass, and the front yard is encompassed with a stone and wrought-iron fence. Immediate possession. Priced at an amazingly low \$7,900.

THE GREATEST REWARD GIVEN TO yourself and your family is a friendly home with friendly neighbors. Removed from the tumult and the scream of the city, this home invites the friendly phrase: "I'm going home." And this home means three spacious bedrooms, large and relaxing living room, separate dining room, family kitchen and a bath which is as large as most bedrooms. Two elongated porches, huge 2-car attached garage. Ever see pecan floors? This one has them, together with central heating and air-conditioning. 128x171, completely fenced in lawn—with tile brick. Eager water well to feed the hungry landscaping. It is a source of pleasure to escort you through this home. Please, by appointment only.

STOP BEATING YOUR WIFE. After all, maybe she hasn't heard of KEY, WILSON & MAXSON. Besides, she might not like it. But here's a home that can't be beat. Located in the N-W section, it's got the 3 bedrooms that you've been beefin' about, 1 1/2 baths, 32 feet of den-kitchen combination, and attached garage. Distributed heating, central air-conditioning, some carpeting. Rustic kitchen cabinets and hardware, and the den portion is paneled and has a picture window. Large corner lot with paved street. It's only a year old, and priced at \$17,500.

ONE KEY FOR \$1,800 DOWN. And just to show that we're good sports, we'll throw in a house with it. The key is brass, but the house is a home—with 2 large bedrooms, delightful kitchen, inviting living room with adjacent dining room. Solidly constructed of hollow tile with cream stucco veneer. This BETTER home is located on Nobles Street, between Crockett Grade School and Big Spring Street. Oak floors, Panel Ray heating, attached carport. Green is the grass, and paved is the street. ONLY \$10,000.

KEY, WILSON & MAXSON'S REAL ESTATE especially needs new listings, especially three bedroom homes. Our sales force has been increased, and we have a long list of culled prospects eagerly waiting to settle in Midland as home owners. Why not do what you should have done in the first place? List with KWM.

KEY-PING UP WITH THE FAMILY as it expands is the perennial problem of more room. That it may be resolved without sacrificing beauty in the home, we proudly offer: this home on Cuthbert. Slightly French provincial in design, this modified two-story, brick home has four bedrooms and den, and two baths. Large dining room, and a spacious, sunken living room with wood burning fireplace and beamed ceiling. Wonderfully large kitchen with modern features, and adjoining utility room with connections for washer, dryer, and deep-freeze. Two-car attached garage and maid's room. Central heating and cooling, fully carpeted. Tile fence surrounds the lovely lawns. Water well. Sorry, but Tojo (the cocker pup) does not stay with the house. You'll meet Tojo when you see the home. Please, by appointment only.

Birth Control Drug Success Brings Varying Church Views

WASHINGTON—(P)—A Boston doctor's report of "successful use of birth control pills in humans has elicited varying reactions from prominent clergymen of the Roman Catholic and Methodist churches. Dr. Benjamin Sieve reported in the technical journal "Science" Thursday that 298 married couples had experienced complete lack of fertility during periods ranging from three to 30 months while taking the pills at breakfast, lunch and dinner—and that some are still taking them.

Catholic Viewpoint
The Rev. Francis J. Connell, a Redemptorist priest and dean of sacred theology at the Catholic University of America, was asked to comment on the report. He declared any use of such pills with the "direct intent of preventing conception would be a violation of the Divine Law as it affects birth, according to Catholic interpretation of God's law."

LEARNS TV'S LESSON EARLY

SAN FRANCISCO—(P)—Douglas Dean Connell, not quite four, but an ardent TV fan, didn't like the movie.

But the Boston researcher emphasized that the drug—previously used to control bleeding—does not produce permanent sterility. He said 220 of the women have had a baby or have become pregnant after they and their husbands quit taking the pills.

Methodist Viewpoint
The Rev. Francis J. Connell, a Redemptorist priest and dean of sacred theology at the Catholic University of America, was asked to comment on the report. He declared any use of such pills with the "direct intent of preventing conception would be a violation of the Divine Law as it affects birth, according to Catholic interpretation of God's law."

"This is because a substance taken orally with the direct intent to prevent birth in no way differs from any other means of unnatural contraception," he said.

Bishop G. Bremley Oxnam, bishop of the Washington, D. C., area of the Methodist church, also asked to comment, said:
"It is in accord with the moral law to plan properly for the coming of children. This discovery may enable mothers to space their children with due regard for health, education and service to society. The

discovery is to be commended, not condemned."
Dr. Sieve, while reporting preliminary success, stressed that "much more clinical data must be accumulated before the general use of this anti-fertility factor is warranted."

Declaring the substance "promises safe and controllable fertility," he said it "can be taken indefinitely with toxic (harmful) effects or permanent inhibition of fertility."

The pills must be taken for 10 consecutive days before their anti-fertility action becomes effective. They must be taken continuously thereafter to assure lack of fertility. Dr. Sieve added: "Fertility can be restored merely by omitting the drug for a 48-hour period."

The drug is called "phosphorylated heparidin."

Tests By Humans
Dr. Sieve said other researchers had discovered that the drug showed an anti-fertility action when administered to laboratory animals. He said he confirmed such animal studies and then undertook the tests with humans.

He said the substance is believed to act as an anti-fertility factor by interfering with the action of a body chemical called "hyaluronidase" which in turn is believed to aid in the impregnation of the female egg by the male sperm.

The scientist reported all 298 couples had had at least one child before undergoing the pill treatment, but that two of the couples had shown an apparent sterility for some time prior to the test. And yet, he said, the women in both those couples were among the first to become pregnant after stopping the pill-taking.

"This suggests," he said, "that the chemical may have the power of promoting fertility in persons deficient in that line—while at the same time inhibiting it in normally-fertile people. But he said further study would be needed to confirm this idea."

Father Connell said the Roman Catholic Church condones only (1) complete sexual abstinence or (2) the "rhythm method" of controlling birth—the rhythm method being based, he said, on a "natural" cycle of non-fertility in the female each month.

Justice Report May Result In Probe Of U. S. Attorney

WASHINGTON—(P)—House investigators Friday sent financial records to the Justice Department and Internal Revenue Bureau which might prompt an income tax investigation of Howard L. Doyle, veteran U. S. attorney for the Southern district of Illinois.

The documents concerned Doyle's outside legal earnings of at least \$86,517 above his salary between 1945 and 1950 and the income taxes he paid on them. His salary for the period totalled \$48,468.

Holy Land Pictures Seen By Churchmen At Area Meet Here

Pictures taken by Dr. R. Gage Lloyd, pastor of the First Presbyterian Church of Big Spring, on a recent trip to the Holy Land were shown by him at a district meeting of Presbyterian Men of the Church here Thursday night.

Representatives from Midland's three Presbyterian Churches and from churches at Big Spring and Colorado City were present at the dinner-meeting, which was held in the Fellowship Hall of the First Presbyterian Church.

William Crenshaw of Midland, president of Men of the Church of the Synod of Texas, and Calloway Taulbee of Portales, N. M., president of the men's organization of the El Paso Presbytery, attended as special guests.

Dr. Lloyd was introduced by Wendell Shifflet of Colorado City, vice president of Men of the Church of Colorado City, vice president of Men of the Church of the El Paso Presbytery. Shifflet also conducted a brief devotional. J. W. Baldwin, president of the men's club of the First Church, presided at the meeting.

There is no plant life in the deep portions of the sea.

Doyle told a House Judiciary subcommittee Thursday he had "overlooked" a \$5,000 legal fee he received in 1945, and had filed an amended income tax return last week to cover it.

He said he discovered the oversight, a fee from the American Distilling Company, one of his private clients, after the company's attorney told him the House committee had subpoenaed the cancelled check.

Even with this added payment, Committee Counsel Robert Collier said the committee had found Doyle's outside legal income for 1945 was at least \$250 more than reported in his tax returns and might be \$3,000 more.

Doyle testified he kept on files on his private law practice and his only personal financial records consisted of scribbled memos which he usually destroyed. He said he had no record of his 1945 income.

Representative Keating (R-Ill.) reminded Doyle that the income tax law requires taxpayers to keep a full set of books and that criminal penalties are provided for failure to do so.

Chiang, Nearing 66, Still Looks To Eventual Triumph

TAIPEI, FORMOSA — (AP) — Chiang Kai-shek is approaching his sixty-sixth birthday, still as confident as ever that his forces one day will return triumphant to the lost China mainland.

Friends say the generalissimo gradually is delegating more authority to others, particularly to younger men. He is devoting more time to key persons he regards as future administrators of mainland China.

The Chinese Nationalist president will be 66 on October 31. Although he discourages them, preparations are being made throughout free China to celebrate the occasion.

His next birthday will be the third Chiang will have spent on this island bastion since quitting the mainland.

The generalissimo, who is generally called simply "The Gimo," is in very good health. He lives a Spartan life and despite his years, still works about 15 hours a day.

Close associates say the years have mellowed him. He is consid-

ered "more understanding and more philosophical."

Chiang eats simple food. He neither drinks nor smokes. Walking is one of his favorite pastimes. He reads a lot with strong preference for biography and history.

Chiang, a Methodist, is Nationalist China's leading Christian and a regular church-goer. No matter how busy he is, he never misses his pre-breakfast period of meditation and Bible reading.

AMID STONES, THORNS AND BARE FLESH—Nudists' Island Life Fine For Soul, Agony For Feet

By PRESTON GROVER

ISLE OF LEAVANT, FRANCE—

Life in this Mediterranean nudist colony is fine for the soul and hard on the feet.

The island lies 10 miles off France opposite the Summer vacation spot of Le Lavandou. I took a boat ride over.

You do see nudists. As the boat comes in to the small dock, the nudists come running out from among the trees and rocks and help the passengers ashore. A big brown male nude gave me a friendly hand across the gap between the boat and the wharf.

The men are more nude than the women. The children are nude of all-right spanking nude. The men wear a covering about the size of a folded pocket handkerchief, say five or six inches square. It seems to be enough.

The Cool Touch

Some women wear halters but most let their breasts enjoy the fine cooling touch of the sea breeze and the warm rays of a sun which shines 300 days a year. Elsewhere the women wear about the smallest bathing suit you ever saw.

One young lassie of about 24 summers strolled by us, all golden brown, or almost all. She had been

bathing along the coast on the French side, wearing the necessary halter and scanty pants. On the island she had discarded the halter. She had a case of sunburn.

The law requires that the minimum one piece of cloth be worn. We were told that a good many are not very particular about that when they get back into the "interior." I walked to the top of the island without excessive peering into the bushes and didn't see any law violations.

The island is six miles long and two wide, containing nearly four square miles of trees, barren rocks and brush. Lots of the bushes were thorny and there were surprisingly few grassy spots.

Mainly the island seems to be rocks, gravel, and dry paths under the trees.

Many live in tents although there are four small hotels. People come from England, Germany, Holland, France, Spain, Italy and both North and South America. At a grocery store the nude little housewives buy long loaves of bread and sacks of food, cuddling them in their arms as they mince in bare or sandled feet along the gravel paths to their tents.

A Dutch naturist who was hep

to this business said the island was awful hard on the feet. He had burned his bald skull until it was almost raw and bleeding but he left no doubt that it was just the thing to do for a vacation.

Fresh Vegetables, Some Meats Cheaper

By The Associated Press

Retail prices of lamb, frying chickens, pork loin roasts and a long list of fresh vegetables moved a little lower in many markets this week.

But large eggs, in tight supply almost all over the country, advanced as much as seven cents a dozen. Dealers said this was the usual Fall pinch in top grade large eggs, made worse this year by active buying for the armed forces.

POTATO'S SOURCE

The white man first came upon the white potato somewhere in the Andean highlands of Peru and Ecuador. Not until long after it had been transplanted from South America to Europe did it become known as the "Irish" potato.

Mercury is the smallest of the major planets of the sun.

★ DR. JORDAN SAYS ★

Too Frequent Use Of Drugs Is Likely To Cause Addiction

By EDWIN F. JORDAN, M.D.
Written for NEA Service

One of today's biggest social and medical problems is narcotic addiction, or what is perhaps more commonly known as the drug habit. This problem is serious and a danger, not only to the unfortunate individuals who contract this habit, but to the entire fabric of society.

What causes drug addiction, and what can be done about it? No one really wants to become a drug addict with all the sad physical, mental and social effects which eventually result.

Consequently it is felt that most victims of the habit are those who feel themselves inadequate to face life, who have feelings of inferiority, who are social misfits in some way, or who have been suffering from ill health and have unwisely taken these habit-forming drugs too long, until they can no longer stop.

In referring to the drug habit one usually means a craving for one of the derivatives of opium, although cocaine and marijuana also can be included among the habit-forming drugs.

To opium and its derivatives, suffering humanity owes an enormous debt, since these substances have been used over the centuries to relieve unbearable pain, but they cannot be used indefinitely without running the risk of developing a craving.

The symptoms of habit-formation come slowly. At first the health is little disturbed, but gradually the dose of the drug used has to be increased in order to produce the pleasant symptoms.

When the habit finally has been formed, the victim of drug addiction becomes mentally depressed and often suffers from vague symptoms in the digestive tract or elsewhere whenever the effects of the drug have worn off.

This leads towards more frequent use of the particular drug and the need for larger doses until the confirmed addict is completely at the mercy of dope rings or peddlers who supply it.

As the habit gets worse, the con-

firmed addict loses weight, develops a poor complexion and tends toward premature grayness. He becomes irritable and restless when not under the influence of the drug. His sleep is disturbed and the appetite falls.

Treatment Is Difficult

The treatment of fully established drug addiction is difficult indeed. Too often someone who has the habit will commit almost any crime in order to obtain the drug. Treatment, to be effective, is best given in an institution.

The greatest effort in the control of narcotic addiction should be made to inform everyone, including youngsters of high school age, of the dangers of starting down this path, which looks so attractive at the beginning but has only thorns at the end.

In addition, public opinion must be aroused so that measures are taken continuously to smash the dope rings and vicious elements of society which are leading so many innocent victims to disaster.

New Device Welds Plywood Paneling

NEW YORK—(AP)—Plymouth wall paneling now is placed within the budget of many home owners through development of a portable electronic device that "spot welds" panels in place within a few minutes.

The device, called a Woodwelder, consists of a portable generator and a three-pound hand applicator or "gun" that transmits radio-frequency energy at 40 million cycles per second.

The transmitted radio-frequency energy is changed into heat and absorbed by wet urea-formaldehyde adhesive used to bond plywood panels to wall framing. This causes a greatly accelerated chemical reaction, immediately curing or setting the glue. Formerly it required four to six hours for glued panels to set.

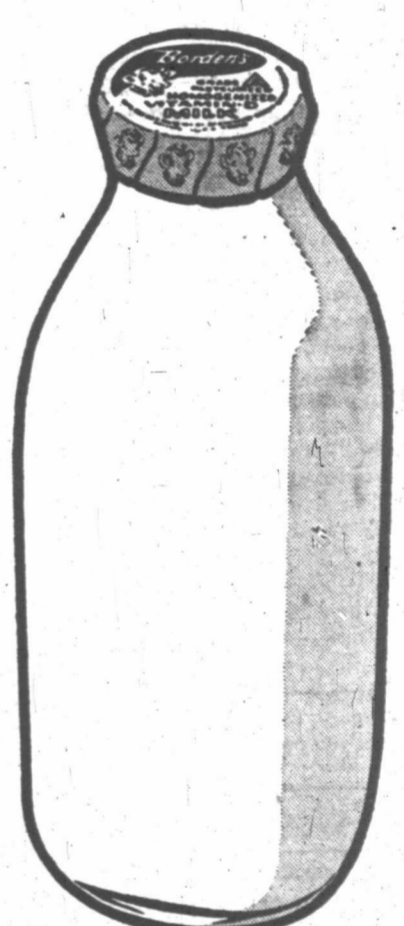

Temperate and arctic areas have more life in them than do tropic seas.

A Revitalized ROK Army

The recent strong showing of South Korean forces on the central front in Korea is heartening news. The troops involved were, of course, the crack Capitol Division, of whom much is expected. But the performance nevertheless was good for South Korean morale generally.

It was good for more than that. Gen. James A. Van Fleet, commander of the American Eighth Army in Korea, has been engaged for months in an intensive program to train and re-equip the entire South Korean army so it may one day stand on its own feet in the defense of its soil.

After more than a year of fruitless peace negotiations at Kaesong and Panmunjon, none of the Western nations looks with optimism upon the Korean situation. Wishing neither to widen the war nor to pull out, our leaders have allowed themselves to become enmeshed in apparently endless and pointless proceedings at the council table.

About the most positive thing that has developed in recent months is our repeated insistence upon truce talk recesses so long as it is evident the Reds do not intend to discuss terms seriously. This keeps alive the machinery for negotiation without reducing our truce team to a mere captive audience for Red propaganda.

Since these talks have proved so thoroughly unproductive, their sole important effect has been to dampen military activities and create a stabilized, if not a stale-mated, front. Perhaps that is the way the Communists want it—a stability that does not drain Chinese and North Korean and Russian substance too heavily but yet keeps us occupied, denying us the opportunity to ease off in manpower and materiel.

If that is the Red aim, there is no way we can extricate ourselves from the dilemma it poses except to find adequate substitute for the American and other Allied forces now holding the line. That's where Van Fleet and his South Korean training program comes in.

The one big hope for us at the moment in an otherwise dismal situation is that the South Korean army may become a truly formidable force. If it does, then the South Koreans may be entrusted safely with the future defense of their own country, and our land, air and sea divisions largely may be freed for other services or to return to normal civilian pursuits.

It would be unrealistic to imagine the South Koreans at the best could take care of their own equipment needs. These we most certainly shall have to fill, even if there is not an American soldier on Korean soil. But this would be a relatively small burden compared to what we are bearing today.

A lot of the highways seems to indicate that somebody thinks we're going to switch over completely to airplane travel.

You'll agree to the thought that a \$2 bill is bad luck—the first time you pass one for a dollar.

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1952, By The Bell Syndicate, Inc.) Drew Pearson says: Did Nixon use influence with federal government on behalf of donors to his expense fund? Risky to have a senator subsidized by group of businessmen.

ENROUTE THROUGH THE WEST — In an earlier column on Senator Nixon's secret expense fund it was shown how he voted right down the line for the legislative measures which his 76 millionaire givers favored.

The second questions to be examined is whether Senator Nixon also used influence with the federal government on behalf of his Nixon expense club. In his broadcast to the nation Nixon said he had not. A few days later, however, the St. Louis Post-Dispatch unearthed the fact that Dana Smith, the lawyer who collected the \$18,000 for Nixon, had used Nixon's influence through his administrative assistance to try to get a \$500,000 tax refund from the government.

It is a penitentiary offense for any member of Congress to intervene in a case against the government for pay. A senator is paid by the United States Government and is supposed to represent the government alone. Hence the law. He is not supposed to be paid by outsiders, and other members of Congress have gone to jail for accepting money when they intervened in cases against the federal government.

The tax refund claimed by Dana Smith against the U. S. Government is an illustration. Dana Smith, the man who got Nixon's office to intervene, not only had paid Nixon personally but raised \$18,000 for him.

Today the federal government plays such an important role in the operation of any business firm, and business firms in turn seek so many concessions or contracts from the government, that it becomes risky to have a man in the Senate who is subsidized by a group of businessmen.

Take, for instance, the list of Nixon's millionaire club and the concessions of contracts they have with the government. Here are some of them: Charles E. Ducommun, a Los Angeles steel dealer got a 50 per cent tax amortization write-off on a new \$265,658 warehouse. It is not known

What should you do when the opponents bid a slam that you have a fair chance to defeat? Should you let them play it, or should you double—or should you make a sacrifice bid rather than take the chance that the opponents will somehow make their slam? This is one of the most ticklish situations in bridge. Each hand must be settled on its own individual merits, but it is possible to have a general policy to guide you in such cases.

If you have a very cheap sacrifice bid, go ahead and bid it. You'll probably save points in the long run; what's more, you'll occasionally make your sacrifice bid.

In the hand shown today, North had all of these reasons for his sacrifice bid of seven hearts. He couldn't be quite sure of beating six

Bridge score table with columns for NORTH, WEST, EAST, SOUTH and various card counts.

spades, since he feared that his ace of hearts wouldn't win a trick. He knew that seven hearts couldn't be punished badly—and that it might even make, with a little luck.

West opened the ace of spades, and declarer ruffed. South had a moment's wild hope. He and the clubs were 4-3, he would make his contract.

He therefore ruffed a club in dummy, ruffed a spade in his hand, ruffed another club in dummy, and ruffed another spade to get back.

On the next club, however, West showed out, so that the grand slam was clearly a hopeless task. South managed to make 11 trumps separately and dummy's ace of diamonds for a total of 12 tricks.

Perhaps you think North and South were downhearted about being set at seven hearts when they could have defeated their opponents at six spades.

Not a bit of it. The sacrifices happened to be John R. Crawford and B. Jay Becker, playing in the finals of the national team championships a few weeks ago. They considered it quite likely that their teammates would play the hand at game in spades at the other table.

They were quite right, as it turned out. At the other table, the East-West pair scored 450 points for making five spades. This was a gain of 350 points, since Becker and Crawford had lost only 100 points.

GINNY'S blue eyes opened wide. "What an odd way to put it, Roy! What do you mean by that?" "I mean you shouldn't be shut up in a little town like this," I said. "You ought to get out and see something of the world, and the world ought to see something of you."

"All right," said Ginny. "But how?" "I thought you might like a good job in Washington," I said, watching her expression.

"Oh," she said, and her face told me nothing. "A job?" "In Washington," I said. "A responsible job with the Vice President of the United States. If the Governor is elected I can get it for you, Ginny. I've already asked him about it."

"Yes," she said in a practical tone, "but do you think he'll be elected?" "Don't you?" "I don't follow politics much, Roy." She moved her shoulders slightly. "But Clyde says he hasn't much chance."

"Clyde can be wrong," I said. "What kind of job, Roy?" "Secretary to the Governor." "But I don't know shorthand." "Can you type?" "Yes, I learned in high school. But I'm pretty rusty." She gave me a quick glance. "Isn't Miss Strawn the Governor's secretary?" "She has several secretaries," I said. "As personal secretary, a personal secretary, I'm sort of a secretary myself."

Another 'War' Over Synthetic Dairy Products Is Threatened

By PETER EDSON, NEA Washington Correspondent

WASHINGTON — Synthetic cheese, synthetic milk and synthetic ice cream—made from vegetable oils instead of butter fat—now are providing an increasing threat to the U. S. dairy industry. In the making here is another trade war similar to the oleomargarine-butter battle that went on for so many years.

National Milk Producers' Federation officials from the dairy states have been meeting in Washington to plan their strategy in the new trade war. They naturally are opposed to the substitution of vegetable fats for butter fat in any food product. Their policies to beat down the competition will be adopted formally at the federation's meeting in Atlanta in November.

The Institute of Shortening and Edible Oils, which is the trade association for the vegetable fat industry, will say nothing for the record. But it is known that this industry is trying to promote its products in every way.

The principal arguments advanced in favor of the vegetable oil substitutes, synthetics and imitations of the dairy products is that they are from a kind of a half cheaper. Makers of these products now on the market claim that it almost is impossible to tell the difference between the vegetable and animal fat foods. The dairy industry naturally disputes these claims.

At the present time there are federal laws and regulations setting cheese standards. Any cheese made from vegetable oils—known to the trade as "filled" cheese—comes under Bureau of Internal Revenue regulation and must pay a federal tax.

Filled milk also is under federal law. Filled milk ordinarily is made by the addition of cheaper vegetable fats to skim milk, after the higher priced butter fat is removed for separate sale. There also is a soy milk on the market, but it doesn't have the taste of cow's milk.

There are at present only limited federal standards for ice cream, and is the opening which may provide the vegetable oil industry with its chance for more active competition to win the market.

There are 48 separate state laws regulating the manufacture of ice cream. Some of these laws aren't very tight and others aren't rigidly enforced.

Twenty-four states ban the use of vegetable oils in ice cream. Texas, Missouri, Illinois and Oklahoma laws provide the most open standards. Texas even has a separate standard for the manufacture of a vegetable oil imitation ice cream known as Mellowcream. That is where this synthetic ice cream industry got its start.

Missouri and Illinois permit the sale of the new products under fancy trade names, but most of them go under the designation of "frozen dessert."

Vigorously upholding the integrity stronger and longer than the spades that you should respond to clubs. If North bids spades you will raise.

TODAY'S QUESTION The bidding is the same as in the question just answered. You, South, hold: Spades K-Q-T-5-2, Heart 4, Diamond 6-3, Club A-9-7-5-2. What do you do? Answer Sunday

SECOND MAN ON THE TICKET

By Edwin Lasham, Copyright by Edwin Lasham. Illustrated by NEA Service, Inc.

I explained. "In Washington a man has to be careful, and his employees must be discreet. But I told the Governor you knew when to keep quiet."

"So I'd be paid so much for typing," said Ginny, "and so much for being quiet. Is that it?" "In a way, yes," I said. "What's your answer?" "It would be fine, Roy. Provided he's elected."

"Yes," Ginny, there's one thing more. "Naturally I can get you the job only if the Governor is elected, and only if nothing is done to hinder his election. You see what I mean?"

"Oh, yes. I see what you mean. I told you I'd think it over." "Ginny, I want more than that. Just tell me now that you'll keep your mouth shut, and everything is set."

Smiling, she reached out and patted my hand. "Roy," she murmured, "you worry so much."

HE slipped out of the car and started away. I picked up one of the pins and showed it under my coat before I followed, but I caught her before she reached the circle of light at the entrance.

"I think you try to worry me," I told her. "You seem to get a kick out of it."

She giggled and said, "Of course I do." This time when I tried to kiss her she did not resist.

Hand in hand we returned to the casino, and I thought with content that everything was all right again. The Governor was safe and there was nothing Clyde could do now. Lucy Strawn and Clyde were dancing.

Clyde sat down opposite Ginny and pushed his face across the table toward her. "See," he said. "I have got a mouse."

"Sweetie, it's such a little one," Ginny said soothingly.

"Warburton's going to pay for this, Roy," Clyde said.

I asked Lucy to dance. I told her everything was settled, that I was sure Ginny would take the job, that I could guarantee Ginny would keep silent. The kiss, I felt, had been a promise.

Lucy said, "Clyde is up to something, Roy. I don't know what it is, but he borrowed all my change and made a long-distance call. He was in the booth a long time, and when he came out he looked very satisfied."

"Clyde doesn't worry me any more," I said.

Lucy gave me a speculative glance that traveled over my face like a beam of light.

WHEN the musicians took a break Lucy and Ginny met each other's eyes, reached for their handbags, and with the remarkable telepathy of women in a public place got to their feet without a word and started for the powder room. Clyde slouched back in his seat and his big hand went around his glass.

"That little country dumpling is quite a dish," he said.

"Yes, I noticed it."

"But she's hard to figure out," he said. "Some girls are born with know-how, and she's one of them. I'm wondering what you did to butter her up."

I shrugged and said, "I don't follow you, Clyde."

"Let's not talk in circles, Roy." "I don't understand you."

He grinned. "You wouldn't even admit Nov. 4 was Election Day, would you? But you know what I'm talking about, and you know why I'm in Hydrotown, and I know why you're in Hydrotown." His eyes gave me a sharp scrutiny.

"It's why Governor Warburton is here a day ahead of schedule." "Pneumonia wasn't on the schedule."

"Oh, don't give me that!" "And to tell you the truth," I added, "I don't know what you're getting at. I've wondered all along why you attached yourself to the Governor's campaign. I understand Melvin Fisher sent for you."

"In a manner of speaking," he said, and picked up his glass. "You know who sent for me, Roy. It was our little village belle."

Have a Laugh

By ROYCE HOUSE

The golfer was terrible, he did everything wrong. But instead of placing the blame where it belonged — on himself, he roared to his caddy, "You are the worst caddy in the world." The boy said, "That would really be too remarkable a coincidence."

The amount of water which flows out of the Mediterranean Sea is much less than the amount which flows in because of high evaporation from the surface.

Sh-h-h-h! Baby's Asleep!

And it's a serene, peaceful, dreamless kind of sleep because she knows no fear. She is utterly content in your care and protection.

You anticipate all her needs. You feed and clothe her. You play with her. You nurse her when she's sick. Whether she laughs or cries, is good or naughty, you love her.

Just now you expect nothing in return. But as she grows older you will expect her to show her love for you by respecting your wishes and obeying your commands. When she is kind and thoughtful you will be happy.

You are a child of God, receiving such love from Him as you bestow on your own child. How long has it been since you showed your love for Him in return?

Visit with Him through prayer and daily Bible reading; and on Sunday worship Him in Church with real love in your heart.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Daddy Ringtail

Daddy Ringtail And What People Don't Know

Mugwump Monkey, the monkey boy, was walking along the Elephant

Path, there through the middle of the Great Forest. Mugwump whistled while he walked. He kicked up dust with his feet for fun. School was over until Monday and Mugwump was happy. He whistled and walked along with his hands holding the fishing pole. He was going fishing, he thought. He didn't know about the tiger.

The tiger was waiting and hiding in the shadows of a tree. If you had looked in his face, you might have thought that he was asleep. But he wasn't. One of his eyes was opened the tiniest crack. When a tiger eye is open a crack, he isn't asleep. Oh no! He is trying to fool you. That's what this tiger was doing. He was really watching Mugwump closer. The tiger was thinking: "When Mugwump comes up close enough, I'll bop him on the head with my guttar and make

a bump for fun." Mugwump didn't know about the tiger, but the tiger didn't know about Daddy Ringtail.

Daddy Ringtail, your monkey friend, was standing on a limb in the tree above the tiger was the hiding. Daddy Ringtail saw the tiger and he knew what the tiger was thinking. Daddy Ringtail reached out his hand for a coconut that grew close by. He was thinking, "When the tiger starts to kerbop little Mugwump, I'll kerbop the tiger with this coconut."

No sir, Mugwump didn't know about the tiger, and the tiger didn't know about Daddy Ringtail, but Daddy Ringtail didn't know about the squirrel, either. The squirrel was sitting on a limb above Daddy Ringtail's head. The squirrel was thinking: "When the tiger starts to kerbop little Mugwump, and when Daddy Ringtail starts to kerbop the tiger, I will jump on Daddy Ringtail's head and make him miss kerbopping the tiger."

No sir, Mugwump didn't know about the tiger, and the tiger didn't know about Daddy Ringtail, and Daddy Ringtail didn't know about the squirrel, but the squirrel didn't know about the parrot. The parrot was sitting on a limb above the squirrel, very green against the green leaves, and what happened next is the story I'll tell you Sunday. Happy day!

SECURITY IN FREEDOM

Lt. Lee Dong Yop, North Korean intelligence officer formerly in command of Communist security guards at Panmunjon, prepares to give his first interview to correspondents, after his escape to UN territory. Yop, who decided that the only real security lay in freedom, slipped past his own guards and surrendered to UN military police at the edge of the neutral zone surrounding the truce site.

JACOBY ON CANASTA

By OSWALD JACOBY
Written for NEA Service

"We've read quite a bit of your column about the advantages of keeping melds in your hand instead of putting them down on the table," writes a Birmingham correspondent. "This all sounds like the bunk to us. In our game we all meld at the earliest possible opportunity, and we keep doing this until somebody melds out. Nobody ever seems to get into any trouble, so we don't know what all your shouting is about."

Who's shouting? The trouble with melding consistently as early and as much as possible is that you give your opponents a chance to mop up the floor with you. If they also do all their melding early and often, they can't do any mopping. This doesn't make you right; it just makes them wrong.

The more cards you put down on the table, the fewer you can hold in your hand. The fewer the cards in your hand, the less chance you have to fight for the discard pile—against opponents who have more cards in their hands.

If you and your partner consistently reduce to only a few cards, the opponents should hold up their melds. Then they will soon win the discard pile. If they consistently win the pile, they will surely win.

Mind you, they will not win every hand. They may even lose more hands than they win, but they will lose by small amounts and will win by whacking big amounts. You can't beat that sort of advantage.

There are times when it is quite right to meld early and often. The best time to do so is when you judge that you have a fine chance to meld out in a hurry. But it isn't wise to do so with every type of hand and in every situation.

Q—A player in our game melded out with two kings and two deuces. We said that this kind of meld is allowed only to make the initial count. The player said that such a meld is legal at any time. Who is right?

A—Such a meld is legal at any time.

Q—We needed 120 points for the initial meld. My partner melded four sixes and three deuces. The opponents said it counted only 80 points, but my partner said the canasta bonus of 300 points made it a significant meld. Who is right?

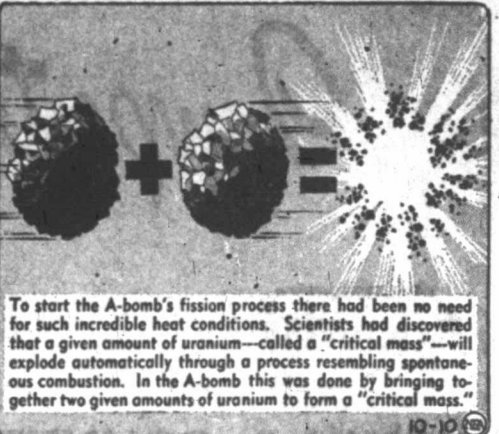

A—The opponents are right. The canasta bonus does not count towards the initial meld.

Construction of the big apartment houses in New Mexico by the Pueblo Indians began about 900 A.D.

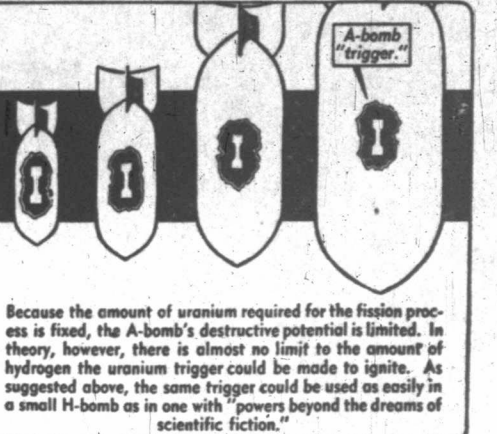

THE HELL BOMB-3

Hydrogen fusion requires a temperature of 20,000,000 degrees Centigrade or more. Could puny man create such an inferno? The answer came on July 16, 1945, with the world's first atomic bomb blast. Scientists estimated its heat at 50,000,000 degrees. An H-bomb trigger had been found.

To start the A-bomb's fission process there had been no need for such incredible heat conditions. Scientists had discovered that a given amount of uranium—called a "critical mass"—will explode automatically through a process resembling spontaneous combustion. In the A-bomb this was done by bringing together two given amounts of uranium to form a "critical mass."

Because the amount of uranium required for the fission process is fixed, the A-bomb's destructive potential is limited. In theory, however, there is almost no limit to the amount of hydrogen the uranium trigger could be made to ignite. As suggested above, the same trigger could be used as easily in a small H-bomb as in one with "powers beyond the dreams of scientific fiction."

Love Really Can Be Wonderful If You Understand Yourself

Love is wonderful, if—
You love the person for who he is—not just because he "understands" you or thinks you are wonderful or makes you feel glamorous.

You can put the loved one first, without centering all of your interest in him so that you seek his approval above all else in life and are happy only in his presence.

You can keep your love from becoming so possessive that it brings you misery instead of happiness.

You have no need to feel either superior or inferior to the person you love.

You can be "yourself" with the person you love, feeling no need to pretend that you are other than you are.

Happiness Is Within You
You don't expect the person you love to make you happy—but realize that happiness is something you have within yourself.

You don't keep a mental score to be sure that everything you do for the person you love is returned in full measure.

You know that you can trust the person you love. If you can't, your own insecurity will make you unhappy no matter how much in love you are.

Your love doesn't make you so sensitive that you can be deeply hurt by such trivial things as a critical or impatient word or an unintentional slight.

You don't expect the person you love to remain forever the same but expect growth and change and look on both as a challenge.

Polynesians Linn South Sea 'Saucers'

PAPEETE, TAHITI (AP)—Flying saucers—or their Polynesian equivalents—are old stuff to the natives of this South Pacific tale.

Stories of such aerial phenomena go back to the most ancient times, says the Polynesian.

The Polynesian description of the "flying saucer" is: "A ball of purple fire rising out of the earth, and flying over the coconuts grows into the recesses of the central mountains of Tahiti."

Power Steering* on the Buick Wildcat and Super

You'll discover this about a Buick: a neighborhood jaunt would make you.

The more you drive it, the more you like it; the longer your trip, the louder your praise.

That's what people tell us. And we'll tell you why.

You can drive a Buick three, four, five hundred miles in a single day, and feel fresh enough to keep right on going.

You can romp up high hills, cruise straightaways, ease through traffic-tangled towns, clock off hour after hour of relaxed and pleasurable driving—and be no more tired than

There's the ease of deep, soft seats for one thing—and plenty of move-about room for arms, legs, shoulders.

There's Dynaflo Drive* taking all the chore out of driving, and giving your whole ride a satiny smoothness without trace of jerkiness or driving tension.

There's a hoodful of power—able, thrilling, tireless—from

a high-compression valve-in-head Fireball 8 Engine that whips out miles like a tarpon reels off line.

There's the soft, steady, solid, swerve-free going of a coil-spring-cushioned ride that's well worth the million-plus dollars it cost to engineer.

There's all this and more—much more—that makes your heart grow fonder of this trim and thrifty traveler.

But words can't do justice to a Buick in motion. Only you can.

When will you come sample this experience yourself?
