The American Association of University Women Child Development Groups for ages one to five and ages six to 12 held a joint meeting Monday in the Nurses Lounge at the Midland Memorial Hospital for a talk on children's books by Mrs. W. Carroll, Midland County librarian.

Mrs. Carroll exhibited books for each age group and told parents of a list which was available at the library to help them select good books for their children.

"The County Library," she said, supplements home and school in preparing and encouraging the children's reading program."

Herina is more common among overweight than among underweight people.

## Mrs. Frazier Is Shower Honoree

Mrs. Roscoe Frazier was honored Tuesday with a pink and blue shower in the home of Mrs. Joe Pharris.

The table was centered with an arrangement of pink and blue carnations behind which stood a tall white stork. Flanking the centerpiece were white tapers in silver candleabra.

Guests were Mrs. A. C. Wheat, Mrs. L. C. Briley, Mrs. P. L. Crawley, Lily Walker, Mrs. Steve Vaughn, Mrs. Wendell Jackson, Mrs. Clay Mims, Mrs. Bob Deemer, Mrs. Renfro Richman, Mrs. Frank Westerman, Mrs. L. H. Liscum, Mrs. Carl Hyde, Mrs. I. M. Smith and Eunice Robey.

It is estimated that about 70 million pounds of sugar are used annually in tobacco products.

## Theta Alums Discuss Possible Projects

The Kappa Alpha Theta Alumnae Association discussed possible charity projects Tuesday when it met in the home of Mrs. Ralph Leigh.

Mrs. W. C. Hubbard was co-hostess. The group made tentative plans for a cocktail party to be held in December. All new Thetas in town are asked to contact Mrs. Rogers Cummings, president.

Mrs. Cummings presided over the business session.

## CUB PACK 51 TO MEET

Cub Pack 51 will hold its first meeting of the year at 7:15 p.m. Thursday in the First Presbyterian Church. It has been announced by Cubmaster W. S. Kubie.

Advertise or be forgotten.

## Baby Show Is Scheduled

A Grand Prize Baby Show is to be held October 27 in Cowden Junior High School, sponsored by the Theta Rho Girls Club of Odessa.

Registrations will be taken through Saturday at White's Auto Store in Midland. Registrations must be made in person and not by telephone, it was announced.

The show is open to any child five years or under who lives in the Midland area and there is no registration fee, officials said. Judging will be in seven age divisions.

Health awards will be presented to the most nearly perfect children, and prizes and certificates of beauty to the babies selected as the most handsome boy and the prettiest girl in each division. A photograph of each baby registered is to be presented to its mother by McClintock Studio.

Children chosen in the baby pageant will compete on October 29 in the selection of Master Midland and Miss Midland.

Theta Rho sweetheart also will be selected from high school students and crowned Queen of Theta Rho. The winner will be presented with a diamond ring, officials said, and members of her court will receive gifts.

Trophies will also be presented to the king and queen of Babyland and members of their court.

## Welcome Wagon Luncheon Club Plans Full Slate Of Activities

The executive board of the Welcome Wagon Club planned future activities Monday at a meeting in the home of Mrs. J. T. Oist.

Announcement was made that the Oldtimers Club will hold its first meeting Tuesday in Jimmy's Patio and a Mr. and Mrs. bridge and canasta party will be held November 24 for members and out-of-city guests.

Reservations for the meeting of the Oldtimers Club, which is open only to Welcome Wagon Club members, may be made with Mrs. Oist. The group discussed plans for the Thanksgiving and Christmas season.

Those present were Mrs. M. F. Barber, Mrs. W. D. Gill, Mrs. G. J. Zabcik, Mrs. Hoy Harrison, Mrs. J. H. Brewer and Mrs. F. C. Lochte.

Mrs. J. E. Beakey of the League of Women Voters addressed the Welcome Wagon Club on "The Importance of Voting" Tuesday at its general meeting in the Ranch House.

She gave a brief history of the League and pointed out that it is non-partisan, supporting issues, not candidates. In conclusion, she urged everyone to vote in the coming election.

Hostesses were Mrs. J. H. Brewer and Mrs. Hoy Harrison. The table was centered with an arrangement of marigolds and greenery, flanked by orange and black candles. The Halloween motif also was carried out in the favors of pyracantha corsages and tiny baskets filled with candy.

Renew Memberships  
Mrs. C. H. Pearson and Mrs. Brewer renewed their memberships. It was announced that officers will be elected next month. Mrs. Kate Black, who is resigning from the club, was presented with a corsage. Prizes were won by Mrs. L. B. Culwell, Mrs. J. E. Lewis, Mrs. George Rush of Odessa and Mrs. Jim Powers.

Guests were Mrs. Rush, Mrs. Joe Broadus of Houston, Mrs. G. W. Fisher, Mrs. C. W. Smith, Mrs. J. L. Stone, Mrs. Harry Fitch, Mrs. Tom Hambleton and Mrs. William Minnerly.

New members included Mrs. Frank Dickerson, Mrs. Eugene Blount, Elynor Baird, Mrs. Culwell, Mrs. Charles Wood, Ruby Crowder, Mrs. W. J. Garrison, Mrs. Jim Mundy, Mrs. Jack Gordon, Mrs. L. E. Andrews, Mrs. Norman Ohlson, Mrs. C. E. McGaff, Mrs. J. D. Harris, Mrs. Jim Powers, Mrs. G. A. Plummer, Mrs. Ben Griswold, Mrs. Paul Matthews, Mrs. M. T. Biggs and Mrs. W. W. Evans.

Sixty-five members and guests attended.

## Dr. Sutton Is Speaker For West P-TA

Dr. Willis Sutton, noted educator, was the speaker for the meeting of the West Elementary Parent-Teacher Association Tuesday afternoon in the school auditorium.

Stressing the importance of the elementary school in the building of a community and the developing of community spirit, Dr. Sutton discussed the roles of schools, homes, churches and businesses in the community.

Every person in the community has a stake in the public schools and should work to build community spirit, Dr. Sutton said, adding that parents constantly should be looking for ways to weld the community together.

He also stressed the need for coordinated guidance in home and school.

Formerly superintendent of schools in Atlanta, Ga., and a consultant for Readers Digest, Dr. Sutton now is a consultant on education and child guidance programs. He was introduced Tuesday by Frank Monroe, superintendent of Midland schools.

Also included on the program were vocal selections by Elaine Johnson, who was accompanied by Mrs. Marion Ayles.

Mrs. Victor Horn, P-TA president, conducted a business session, when Mrs. Harvey Herd reported on plans for the Halloween Carnival to be held October 30.

Mrs. Horn and Mrs. Clarence Givens were elected delegates to the P-TA convention to be held in Wichita Falls.

Smoke Smuggler Fined \$1,700,000

MARSEILLE, FRANCE—(AP)—A French court sentenced Jean DeStour to four months in jail and ordered him to pay a fine of 888 million francs (\$1,700,000) for trying to smuggle six tons of American cigarettes into France from Tangier. DeStour was grabbed by customs men as he neared the French Coast in a small craft. His cargo was seized. Officials said Wednesday night DeStour probably would be allowed to make a settlement of the fine at a much lower figure.

Adlai To Land In Texas Amid Whirlwind Kicked Up By Wake Of Eisenhower Trip

By The Associated Press  
Texas calmed down Thursday from excitement caused by Republican Presidential Nominee Dwight Eisenhower's whirlwind train-and-plane tour of the state—and took a deep breath for what was to come. Gov. Adlai Stevenson of Illinois, the Democratic Party's phrase-slipping presidential candidate, was due to arrive in Fort Worth at 3:30 p.m. Friday, was scheduled to speak at Will Rogers Memorial Stadium an hour later and before the State Fair of Texas' Hall of State in Dallas at 8 p.m.

Speeches by the Democratic standard bearer were on tap in San Antonio and Houston Saturday. As Eisenhower ended his two-day Texas campaign tour with charges that the Democrats were spreading fear and lies, there were these other political developments:  
1. Democrats for Eisenhower in Wichita Falls protested plans for speech at the Alamo by Stevenson. But Daughters of the Republic of Texas told the Ike Democrats that they were "duty bound to receive any visitor at the Texas Shrine who conducts himself reverently and properly." Wichita Falls Oil Man Frank Wood had stated:  
"Consider it most inappropriate that espouser of Tidelands theft be allowed in hallowed shrine where Texas heroes gave courageous lives for freedom and independence."

2. Mastin G. White, solicitor of the Interior Department, said the Supreme Court had held that Texas relinquished to the federal government any rights the Republic of Texas may have held in the submerged lands of the continental shelf. White's letter to J. H. Lowder indicated that the Wichita Falls man had argued that Texas became a state under "a treaty with the United States, permitting her to retain title to all her public lands including the off-shore lands 10 1/2 miles out to sea."  
White said two congressional resolutions on the annexation of Texas did not refer "specifically to the submerged lands" and did not indicate expressly "whether the rights of the Republic of Texas in such lands were retained for the new state or conveyed to the United States." Daniel Ires Mitchell  
3. In Washington, Democratic National Chairman Stephen Mitchell was reported holding the threat of political reprisals over the head of U. S. Senate Nominee Price Daniel. Daniel—Democratic nominee and Republican choice to succeed re-

iring Senator Tom Connally—introduced Eisenhower at Houston Monday and said he would vote for him.  
The Dallas News quoted Mitchell as saying Daniel's activities in behalf of Eisenhower would be "filled in the record book."  
Should Daniel be blacklisted by the Democrats, it is likely that Senator Lyndon Johnson would handle Texas patronage, including appointment of federal judges and attorneys, if the Democrats win.  
Should the Republicans win, National Committeeman Porter, under past procedure, would handle such appointment recommendations in Texas.  
Breakfast Planned  
4. John Nance (Cactus Jack) Garner, former vice president who just a few days ago said he would support Stevenson, is going to have the Illinois governor in for breakfast Saturday morning. After the breakfast of pheasant, which Cactus Jack raised himself, Stevenson will make a brief talk from the front porch of the Tully Garner home.  
5. The way was clear—for the

Specialization Said Keynote Of Progress In Crude Production  
Specialization in the drilling, completing and producing of oil wells is the keynote of progress in the petroleum industry, C. V. Helm, Midland oil man, told members of the Lions Club at their regular meeting Wednesday night in the Cowden Junior High Cafeteria. Helm, assistant to the vice president in charge of operations for The Western Company, was the guest speaker at the club observed Oil Progress Week. John Reid, program chairman, introduced the speaker.  
Changes which have come about in the oil industry as the result of progress were cited by Helm, who also told of advancements made in recent years and even months in the acidizing phase of oil well completions.  
Complex Procedure  
"Acidization was a relatively simple procedure 10 years ago," he declared, "whereas today it is a complex, highly scientific work."  
The speaker told of specific problems which led to advancements in the methods of acidizing wells, and said that this development has resulted in the recovery of more oil to meet ever-increasing demands. He said that tremendous research programs constantly are being carried on within the industry.  
President L. V. Bassham presided at the meeting.

time being at least—for Texas Democrats to vote for Republican presidential candidates in the Democratic column—if they want to.  
Attorney General Price Daniel, avowed Eisenhower backer, held in a formal opinion Wednesday that it would be legal to scratch the names of Stevenson and Vice Presidential Candidate John Sparkman and write in the name of Eisenhower and his running mate, Richard Nixon.  
Daniel also said the names of the GOP candidates might be written in the ballot's write-in column if the voter preferred that method. In any event, he said, the votes would be counted for the Republican Eisenhower-Nixon electors.  
Democrats Silent  
Democratic leaders generally kept silent on the development.  
6. Mamie Eisenhower showed the folks at Denison that she's a pretty good campaigner in her own right. Wednesday she drove down the little white house by the railroad tracks where her famous husband, Dwight, was born. In front of the place, under the gate in the white picket fence, she posed for 10 minutes for news photographers and kids with box cameras.  
"Like He Does It"  
First she waved with one hand, but then she raised both hands to wave and said, "This is the way Ike would do it."  
Some Eisenhower supporters apparently were disappointed at the crowds the general drew in Texas during his two-day swing.  
Republicans guessed the crowd at Dallas at from 12,000 to 15,000, but

DAHL DIVORCES SCREEN TARZAN

SANTA MONICA—(AP)—Because she refused a martini, her husband screen Tarzan Lex Barker, called her "a hick from Minnesota." Actress Arlene Dahl testified in obtaining a divorce.  
Alleging cruelty, the 26-year-old red-haired actress—who was born in Minneapolis—said Barker, 31, often was sulen and refused to speak and once looked her from their house.  
They were married April 16, 1951.

## Court Rules For Amputee Vet, Ousted As Subversive

WASHINGTON—(AP)—The U. S. Court of Appeals ruled Thursday that mere membership in an organization listed by the attorney general as subversive is insufficient for firing a government worker.

If the worker is to be fired, the court held, there must be in addition to such membership a finding of reasonable grounds for disloyalty.

## Columbia's Faculty At Odds Over Ike

NEW YORK—(AP)—Thirty Columbia University faculty members issued a pro-Eisenhower statement Wednesday and 300 pro-Stevenson adherents at Columbia countered with a full-page newspaper advertisement.

The GOP ticket is headed by Dwight D. Eisenhower, on leave without pay as president of Columbia.

Wednesday 30 Columbia faculty members and administrators—including Football Coach Lou Little—signed a statement calling the Republican nominee "the best qualified candidate for the office."

A full-page ad backing Stevenson, signed by 300 faculty and staff members, appeared in Thursday's New York Times.

The advertisement said: "The high level of his (Stevenson's) campaign is a landmark in the history of American politics."

The court ruled in a case involving a decorated, legless World War II veteran, James Kutcher, Newark, N. J. It held that Carl E. Gray, administrator of veterans affairs, failed to make a finding of reasonable grounds for disloyalty in firing Kutcher.

The court set aside an order removing Kutcher from the VA payroll, but left stand an order suspending him pending determination by the attorney general as to whether on all the evidence reasonable grounds exist for belief that Kutcher is disloyal to the government of the United States.

Kutcher admitted membership in the Socialist Workers Party, generally described as the Trotsky wing of the Communist Party. This organization has been described by the attorney general as seeking "to alter the form of the government of the United States by unconstitutional means."

Kutcher lost both legs while serving as an infantryman in Italy in 1943.

## Americans Believe In God, Survey Shows

NEW YORK—(AP)—An opinion survey indicates that 9 per cent of the American people believe in God.

The survey results, released Wednesday, were made by an independent commercial research firm for The Catholic Digest.

## WHAT ABOUT HOT POPCORN?

HOPEWELL, VA.—(AP)—Voting may be a sticky business here on November 4.

The City Council has authorized a severity to sell coffee and doughnuts at the five voting precincts. Proceeds will go toward buying a new X-ray unit for the city health department.

## Walter Crandall, Sinclair Official, Dies In Fort Worth

Walter T. Crandall, 52, employed by Sinclair Oil and Gas Company here from October, 1949, to August, 1950, died at 12:30 p.m. Wednesday in a Fort Worth hospital after a long illness. Crandall was assistant division superintendent of production for Sinclair during his tour of duty in Midland.

Born in West Virginia, Crandall was graduated from Marietta College in Ohio with an engineering degree. He had 25 years of service with Sinclair, including duty in Oklahoma and Kansas as an engineer. He was division superintendent in Fort Worth for Sinclair at the time of his death, having moved there from Midland in August, 1950.

He was a member of the Presbyterian Church and the Mid-Continent Oil and Gas Association.

Survivors include the widow and two daughters, Gladys and Patricia Crandall, all of Fort Worth, and one son, Walter L. Crandall, a student at Texas A&M College.

Funeral arrangements had not been completed at noon Thursday.

## Senate Panel Says Hoover Report Savings Exaggerated

WASHINGTON—(AP)—A Senate committee credited the Hoover commission Thursday with helping to improve the efficiency of the federal government but said the resultant savings proposals had been greatly exaggerated.

A report of the Senate Committee on Government Operations summarized action taken by the last two Congresses on recommendations of the Commission on Government Reorganization set up under the chairmanship of former President Herbert Hoover.

The Senate committee said the Hoover Commission made 281 specific recommendations, adding that an estimated 90 per cent of these "have been fully considered and have received direct action by the Congress or its committees"—either favorable or unfavorable.

Still remaining are 28 recommendations "which will require further action by the Congress if adequate consideration is to be given to them," the report said.

The committee report, submitted by Chairman McClellan (D-Ark.), took sharp exception to what it called "extravagant claims of tremendous monetary savings" that would be brought about by adoption of the commission's proposals for streamlining the executive branch of the government.

The committee said it had been unable to find any sound basis for some of these claims, which it said have varied "from an ultra-conservative figure of a few million to as much as 10 billions of dollars in annual savings."

"Even if all the Hoover Commission's recommendations had been found to be of practical application, these estimates are not based on facts and are grossly unfair to the Congress," the report added.

Turning directly to the Citizens Committee for the Hoover Report, the Senate committee said this group had failed to offer "any support for its claim that eventual annual savings would aggregate four billion dollars."

The senators also disputed a statement attributed to the citizens committee that economies of \$134,600,000 were being realized as a result of the Hoover Report recommendations.

"The citizens committee failed to specify the basis for such estimates and submitted no facts to substantiate its claims that savings of 800 millions in the military and more than 400 millions in other re-organizations were related to specific Hoover Commission recommendations," the Senate report said.

The committee report said, however, that the Hoover Commission studies "served to focus public attention upon the many deficiencies in the operations of the federal government which the Congress had been unable to correct because of the lack of any general or united NATO CONFERENCE SET

## Tax Bureau Completes Half Of Reorganization Project

WASHINGTON—(AP)—The Bureau of Internal Revenue has itself about half reorganized.

Five new revenue districts have been set up since last May and are operating in 13 states. Secretary of Treasury Snyder has announced dates in the next 10 days when three more districts, with 12 more states, will be put into operation.

Additionally, it was learned Thursday that announcements are soon to come on two more districts, to contain at least four states. It was learned also that changes are probable in the already-operating New York City and Chicago districts.

That makes 24 states functioning or soon to be functioning under the plan accepted last Spring by Congress to take the scandal-buffed tax bureau out of politics and break down its heavily centralized structure.

It brings all of the Northeast and most of the Atlantic Coast and Great Lakes region under reorganization. Yet to be reorganized are the West and most of the Midwest.

The revenue bureau has promised to complete the reorganization by December 1.

An informed source said Thursday the next new tax districts to be announced will have headquarters at Philadelphia and Seattle. Philadelphia will supervise federal tax matters in New Jersey, Delaware and Pennsylvania, the source said. It was not known whether Seattle will take in more than the state of Washington.

## Wink Citizens Form Development Board

WINK—Seventeen businessmen and women met recently to stimulate interest in the organization of the Wink City Development Board.

A suggestion committee was appointed by Mayor Oran O. Whitten, permanent chairman of the board. Members included J. A. Scogin, chairman; C. P. Hoskins, Lewis Gray, Bert Parr, Jr., L. C. Hanes, Sr., Mrs. S. M. Talton and Beale Vinco. Gene Dow is board secretary.

Discussions were made on how to boost the town.

## 14 Persons Killed In Brazil Air Crash

PORTO ALEGRE, BRAZIL—(AP)—Rescue workers Thursday were moving out the bodies of 14 persons killed in the flaming crash of a Brazilian airliner. Four survivors were being treated in hospitals.

The DC-3, operated by Aerovias Brasil, crashed Tuesday in a dense wood on a farm near Sao Francisco de Paula, about 54 miles northeast of here. Search planes located the wreck Wednesday and rescue parties, struggling through heavy mud, reached the site a few hours later.

## Stolen Tot Found; Mother Of Ill Baby Charged With Crime

NEW YORK—(AP)—A stolen week-old girl was found Wednesday with a woman whose own newborn baby lies sick in a hospital.

The baby, Gloria Hernandez, was taken from Bellevue Hospital Sunday by a woman who asked for it by name. The attendant, presuming she was its mother, Mrs. Rafael Hernandez, gave it to her.

The alleged abduction was discovered 24 hours later when Gloria's real mother asked for her baby.

A police check of all new mothers recently in Bellevue led to the apartment of Mrs. Carmen Rodriguez, 32 There, police said, they found Gloria—apparently unharmed.

Mrs. Rodriguez' baby girl was born September 28, suffering from congenital adhesions of the intestines. The child is in an incubator at Bellevue, being fed intravenously.

Booked on a kidnapping charge, Mrs. Rodriguez told police she had applied for home relief and was informed she lacked certain papers and evidence that she had a baby to support.

## Lubbock Invites WTCC Convention

Lubbock will enter its bid to entertain the 1953 convention of the West Texas Chamber of Commerce when the regional organization opens its annual meeting in Wichita Falls Sunday.

Midland directors of the WTCC Thursday received telegrams from Lubbock interests soliciting their support of the Lubbock invitation.

It is understood that San Angelo also will invite the WTCC to meet there next year.

Midland delegates to the 1952 convention plan to leave Sunday for Wichita Falls. They will return to Midland late Tuesday. WTCC members who plan to attend the conclave are requested to advise the Midland Chamber of Commerce by Saturday noon.

## Harrow Crash Laid To Disobeyed Signal

LONDON—(AP)—A signalman says one of the trains involved in last Wednesday's triple train crash at Harrow failed to obey his signal.

A. G. Armitage made the statement Wednesday at the official inquiry into the tragedy. Meanwhile, the death of a 94-year-old woman from injuries received in the crash brought the death toll to 111.

MIDLANDERS ATTEND CITIZENSHIP MEETING

Lionel Craver, Bill Avery, Delbert Downing and Burvin Hines attended a regional Citizenship Conference held Wednesday night in Hobbs, N. M.

The conference, sponsored by the United States Chamber of Commerce, was designed better to inform businessmen on how they can help in getting out a large vote at the November 4 election.

Keep Track Of Luncheon Diet Of Growing Children In School

By EDWIN F. JORDAN, M. D.,  
Written for NEA Service

Few things play a more important part in the health of growing children than what they eat. They must have enough calcium for their bones and teeth, enough iron for their blood, enough calories so that they will have some left over for growth after vigorous exercise, and enough vitamins.

It is at school age that youngsters first begin to get away from the dietary control of their homes, and yet as much attention should be given to food at this time as at any other.

Breakfast and supper usually are taken at home, but luncheon is often another matter, and yet this is just as important as the other meals.

Many schools have cafeterias where the youngsters choose their own food. Some children do poorly at this, and should be carefully instructed by the mother as to what they should have each day, and how much to pay for it. A bottle of pop and a piece of pie a la mode is hardly a balanced meal.

NO DIETING

Just ask your druggist for four ounces of liquid Barcostrin. Pour into pint bottle. Add 18 ounces of grapefruit juice. Then take just 2 tablespoonsful twice a day. If the very first bottle doesn't show you the way to reduce, return the empty bottle for your money back. Year after year this amazing product increases in popularity. Over four million bottles sold in Texas in eight years. After you have tried the starvation way with vitamins to fortify, you against weakness, why not try the safe, sure, Barcostrin way? You won't know a hungry moment reducing with Barcostrin.

"I have lost 25 pounds taking Barcostrin," writes Bertha Taylor, 3723 Clinton Ave., Fort Worth, Texas. "I feel like a different person now." And Mrs. Don L. Buggins, 1404 E. 12th St., Dallas, Texas, writes: "Before taking Barcostrin none of my clothes would fit me. After taking the first bottle, I no longer had such a ravenous appetite, yet I ate all I wanted. I have lost 15 pounds and feel wonderful."

some green vegetable or fruit. Often parents prefer to give the youngster his own lunch to take from home. If milk can be obtained at school in addition, well and good. If not, a thermos bottle of milk can be included.

The same principles apply to the home-prepared lunch as to those just mentioned. Sandwiches, buttered and filled with meat, eggs, tomato, lettuce and the like, changed from day to day, are usually satisfactory and attractive to most youngsters.

An apple, orange, peach or some similar fruit will supply another important need. If the child has a sweet tooth, a piece of chocolate can be included for dessert.

**Check With Youngster**  
The youngster actually should eat the lunch which is supplied. Some children, unless watched, will trade off their fruit for a piece of pie or pop, and thus not get the balanced meal which they are supposed to eat. A little tactful questioning and checking-up every few days is in order.

The importance of a good diet for growing children cannot be stressed too much. But at the same time parents should not hound their children about food every day. If the diet week by week is satisfactory, and if the child is growing normally and getting neither too fat nor too thin, the chances are that he (or she) is eating all right.

Stalin Dismisses Russian Congress

MOSCOW—(P)—Leading Communists of 40 nations headed home from the 19th All-Soviet Communist Party Congress Wednesday, assured by Joseph Stalin himself they have the Soviet party's support in their "fight for liberation and preservation of peace."

Chief interest now shifted to the party's new Central Committee, elected as the Congress' final act. It must name a Presidium replacing the present Politburo and a Secretariat to direct the party's day-to-day work.

The new committee of 125 members with 110 alternates is the biggest in history. The last committee totaled only 71 members and 69 delegates.

**Top Red Brass**  
The roster of members reads like a Who's Who of the Soviet Union. It includes Stalin and a glittering array of all Politburo members, top diplomats and military leaders.

The Moscow announcement made no mention of whether Stalin is continuing as secretary-general of the Central Committee, the most important post in the Communist world, or whether he is stepping aside for the man he may have designated as his heir to power. Western observers thus awaited this still-to-come announcement as the most important probably to come out of the Congress.

Stalin's speech Tuesday night was his first address before a large, major gathering since February 9, 1946, when he spoke on Russia's war achievements and postwar policy. The Moscow radio which broadcast the speech said the 1,200 delegates repeatedly cheered the Soviet Premier.

# Daddy Ringtail

### Daddy Ringtail And Did Anybody Lose Some Money?

Mugwump Monkey, the monkey boy, was walking along the Elephant Path. The Huffen Puffen, the friendly wolf, was walking with him.

Suddenly the Huffen jumped up into the air as though he were diving into the water. Up, up, up! down, down, down, kerbam!

"Ook Ji!" said the Huffen from inside the cloud of dust he had made when he dived into the ground.

"Humph!" said Mugwump. "It sure must be something important. Is it good to eat?"

"No," said the Huffen. "It isn't good to eat, is it?" The Huffen explained that he had found some money.

"Imagine that!" said Mugwump. He said it just so happened that he had lost some money once.

"Did you lose a nickel?" asked the Huffen.

"Sure," said Mugwump. "I lost a nickel once beside the nickel he once had lost?"

"Sure," said Mugwump. "I lost some money once beside the nickel I lost."

"Did it happen to be a quarter that you lost?"

Yes sir, and yes indeed, and it really was a quarter that Mugwump once had lost, he said. Would the Huffen give it back to him?

"Aha!" laughed the Huffen. "You are trying to trick me, you are, you are." The Huffen said he would not give the quarter to Mugwump unless Mugwump could tell him what

the quarter looked like.

"Sure," said Mugwump, "and I can tell you. It has a picture of a man on one side, and a picture of a bird on the other side."

The Huffen opened his hand to look, and—imagine! Mugwump was right. The quarter had a picture of a man on it, and a picture of a bird on the other side. The quarter was Mugwump Monkey's, it seemed, and the Huffen gave it to him. Happy day! Mugwump gave half to the Huffen for a reward.

# Midland Guard Unit Proves Ready For Any Assignment

"Rarin' To Go" is the motto of the 112th Armored Cavalry Regiment, and Company E, Second Battalion of the heavily armed outfit, based in Midland at Airpark, proved its slogan Monday night. The fast-moving reconnaissance force underwent a preparatory inspection by their regimental commander, Col. Frederick H. Weston, with full fighting equipment.

And Company E really is "padded" when it comes to the stuff it takes to do battle — enough firepower to start a small war. Topping its collection of weapons is an M-24 tank, armed with a 75-millimeter cannon, a 50 caliber machine gun, and two 30 caliber machine guns. To back this up, the outfit has plenty of mobile shooting equipment.

Included in its assortment of additional arms are two 81-milli-

meter mortars, a 50-caliber machine gun, two 30-caliber machine guns, six modern bazookas, and a half-track on order which also will be armed.

For individual weapons, the National Guardsmen have three Browning automatic rifles, nine "grease guns" (submachine guns), 18 M-1 rifles, 26 carbines (30-caliber), and 35 hand guns (45-caliber automatics).

**Fast Transportation**  
Officers, tank section non-coms and platoon sergeants are armed with the 45-caliber automatics. The jeep and truck drivers carry the deadly little "grease guns" for personal protection.

Since the Company E group is part of a fully mechanized regiment, its depends on motorized equipment to get it in and out of

an enemy area in a hurry. Besides the M-24 tank, and the half-track on order, it has a pair of two and one-half ton trucks, one one-quarter ton truck, and seven speedy little jeeps as personnel and equipment carriers.

Company E at present has 55 enlisted men and four officers. The full strength for the outfit would be 148 enlisted men and six officers, but it is operating under a reduced table of organization. The 112th Regimental Medical Section, which trains here also has 11 men under the command of Sgt. Charles Lacy.

Officers of the Midland Guard Unit are Capt. Max A. Schumann, in command; Lt. Roy Bourland, plans and training; Lt. Paul Jones, executive officer; and W/O Douglas C. Hedges. Two other officers who regularly train with the company (Continued On Page Nine)

**READY FOR ACTION**—An M-24 light tank, assigned to Company E, prepares for firing. This reconnaissance weapon is armed with a 75 millimeter cannon, a 50 caliber machine gun, and two 30 caliber machine guns. In the top turret is W/O Douglas C. Hedges. In the driver's hatch is Sfc. Darrell Eaton. The tank carries a five-man crew.

## All Midland Farmers May Cooperate In PMA Plans

Every farmer in Midland County is to have an opportunity to cooperate in the 1953 agricultural conservation program through an on-the-farm visit by his local Production Marketing Association community committeemen, W. E. Pigz, chairman, announced Thursday.

Pigz points out that the urgent need to take care of every acre of farm land so that our farms will continue to meet the needs of more and more people makes it essential to move ahead in soil and water conservation. This means conservation on more acres that have not been protected and improved in the past and it means more effective use of conservation measures on all farms.

The agricultural conservation program has proved an effective means of getting farmers to adopt soil

and water conservation practices on the farms, the chairman points out. And once practices have become established, it has encouraged shifts to other needed practices. The aim is to use the limited assistance available to encourage and help farmers with those practices which otherwise would not be carried out to the extent and within the time necessary to assure the nation's increasing food needs.

The 1953 agricultural conservation program, he explains, is centered on the most needed conservation on the individual farm and ACP assistance will be used only for the most needed practices.

The farm-to-farm visits by community committeemen started October 1 and will end November 30. All applications must be in by that date in order to be eligible for conservation payments in 1953.

**Most Men Help In Kitchen But The Minority Lingers On**

According to a recent survey 91 per cent of American husbands help their wives with the housework.

That figure seems incredibly high unless the men queried felt they could give a "Yes" answer, if, in their long memories they had ever hung up their own clothes, made the morning coffee when their wives were too ill to totter to the kitchen, or graciously consented to help Mama move the piano at house-cleaning time.

But let's not quarrel with statistics. Let's consider what you ought to do if your own husband belongs to that small minority who still cling to the old-fashioned notion that housework is woman's work.

Shall you try shaming him with the fact that his wife is among the underprivileged nine per cent of American women whose husbands refuse to lend a hand around the house?

**Choice of Action**  
Or should you take decisive action by handing him the tea towel next time you start to wash dishes; and saying: "Here, Buster, the honeymoon is over?"

Or should you just forget those humiliating statistics and go right on being, not just the chief cook and bottle washer, but the sole cook and bottle washer?

For the sake of your happy home, the last answer is probably the best one.

Some men feel mighty strongly against doing any housework and just because they are in the minor-

ity doesn't mean they aren't convinced they are standing on their rights.

Just the other day a wife said in court that whenever she asked her husband to hang up his pajamas he would remind her that he had enough of being ordered around in the Army. And whenever she tried to reason with him and explain what she thought were his responsibilities around the house, he'd tell her how much she reminded him of his top sergeant.

So you see how strongly some of those minority husbands feel about being expected to do housework. (All rights reserved, NEA Service, Inc.)

**Schools Encompass Greater Land Area**  
SAVANNAH.—(AP)—The present trend in building schools is to lose the building in a large tract of land, according to Savannah delegates to the Southeastern conference of the American Institute of Architects at Atlanta.

The group said the average school built last year was located on 20 acres—three or four times the size of elementary and high school tracts of the past.

The architects recommend structures spread over a comfortable area, connected by side corridors, with related activities housed together.

One-story schools are safest, architects said, and 85 per cent of school buildings constructed last year were without basements.

Ainsworth, and M/Sgt. Nathan N. Wakefield.

**FRONT AND CENTER**—Lt. Paul Jones of Company E reports his unit ready for inspection to Col. Frederick H. Weston, center, regimental commander. At right is Capt. Max Schumann, commanding officer of the Midland group.

### Midland Guard Unit Ready—

(Continued From Page Eight)  
are Capt. Edward N. Gideon, battalion S-4; and Capt. James Frank Johnson, battalion communications officer.

**Honors in Battle**  
Top noncommissioned officers of the organization in Midland are Sfc Robert E. Drake, M/Sgt. Jack H. Bryan, M/Sgt. Willard H. Ainsworth and M/Sgt. Nathan N. Wakefield.

The outfit is composed of a headquarters platoon, three sections—office, mess and supply; and a first platoon which includes a group of four sections—tank scout, rifle, and support. They are ready to move on a half hour's notice for emergencies or disaster relief as authorized by the governor of Texas.

Battle honors for the 112th, under its current organization, include New Guinea, Bismarck Archipelago (with arrowhead), Leyte, Luzon, In-

dia-Burma, and Central Burma. Its symbol is a black horse on a yellow shield, with the motto "Rarin' To Go." The men of Company E have the slogan emblazoned on their plastic helmet liners with their insignia of rank.

At Midland Airpark the Guard group has a company headquarters building with a mess hall and classrooms, a supply room, and a motor pool with buildings to house their motorized equipment.

**Assembly Here**  
Other parts of the 112th Armored Cavalry Regiment include a headquarters company in Pecos, a tank company in Monahans, a howitzer company in Brownfield, D Company, Snyder, 2nd F Company, Lamesa.

Midland has been designated as a mobilization point for the 112th Regiment in the event of a declaration of war.

Colonel Weston, the battalion

regimental commander, who hails from San Antonio, gave Company E a thorough inspection Monday. Passing up and down the ranks, he asked such questions as "What is heat exhaustion?" "What are contour lines on a map?" and "How would you orient yourself on a map?"

The examination on Monday was held to prepare the men of the Midland group for the inspector general's examination on November 19. As Colonel Weston said, "We can only point out their deficiencies, and advise them how to prepare for the test by the inspector general." He characterized the inspection here as a report on the status and training of Company E.

# You'll Have To Dress Properly On Trip Into Wild Blue 52,000 Miles Up Yonder

ALBUQUERQUE — (AP) — Better make sure your space suit is not full of holes and your rocket ship is a pressurized cabin before you take off for the moon.

Otherwise, the chances are pretty slim that you may not live to tell the boys:

"There I was, 52,000 miles up, when the cabin seams split and my oxygen supply quit."

The scientists say that about that time, your blood will start boiling

and you'll drown in your own vaporized breath.

What the best-informed brains of the nation figure are the odds that you'll really be buying a ticket on the moon express are contained in a book from the University of New Mexico Press. The 660-page volume is called "Physics and Medicine of the Upper Atmosphere."

Takes 100 Million Years

"Conquest of the atmosphere is a revolutionary event comparable to

the transition of aquatic animals to land animals in geological time," writes one of the scientists. "That took 100 million years." But most of the advances in space research have been in the last decade, many of them at the White Sands proving ground in Southern New Mexico.

The book is a result of a round-table on rocketship travel in San Antonio last November and incorporates the findings of 35 military, scientific and medical minds. They

conclude, in effect, that a trip to the moon certainly isn't impossible.

Dr. Lincoln La Paz, associate editor of the book and head of the UNM meteoritics department, goes even farther.

Send Men Up

"The next step probably will be sending men up in the rockets," La Paz said. "It may well have happened already—although that's only an educated guess."

But he says meteoriticists—metal fireball experts—have been asked to check into the possibilities of a rocket traveler's (1) running head-on into a meteorite in a lunar traffic jam and (2) his being cooked alive in radiation from cosmic rays.

Further, he says, the picture in front of the book—taken almost a year ago—is an early model of the

Navy's Skyrocket jet plane, which recently flew more than 1,200 miles an hour—twice the speed of sound—at an altitude of more than 70,000 feet. This is almost four miles higher than the space studies contained in the book, and La Paz says "current space charts he has seen indicate that rockets have gone as high as 500 miles, although not with a pilot aboard."

Super Top Secret

If this is the case—and any confirmation still is in the drawer marked super-duper top secret—it tops the previous record altitude mark set two years ago by a two-stage rocket launched at White Sands. That WAC Corporal, shot from the nose of a V-2, went only 240 miles up.

But before you head for the moon,

half-cooked, take a look at what you'll need besides that space suit:

An ejector pod to catapult you from the rocket ship in case anything goes wrong, automatically opening a parachute to let you to earth safely.

A parachute made of something that won't melt when you generate a heat of 540 degrees Fahrenheit (more than twice the boiling point) by falling 500,000 feet at 100 feet a second. Nylon melts at 480 degrees. The Air Force is working on something that won't.

Intestinal fortitude.

Fourteen men have died on the upper slopes of Mt. Everest and many on lower trails trying to climb the mountain, says the National Geographic Society.

# Florida Sunshine Healthy, But It Can Lead To Cancer

TALLAHASSEE, FLA. — (AP) — A Tampa physician says Florida's famous sunshine is not an unmixed blessing for residents of the state who are exposed to it all the time.

Dr. Morris Waisman goes into the good and bad effect of sunlight on human beings in an article in the current issue of the Journal of the Florida Medical Association.

He finds sunshine is so injurious to people with certain types of skin that "pre-employment examinations for screening out persons with skins unsuitable for outdoor work will probably in time become essential."

He points out premature aging of the skin occurs in people whose work or pleasure exposes them to sunlight over long periods.

Exposed skin becomes leathery,

wrinkled, inelastic, freckled and dotted with small lesions which may develop into cancer. The lower lip particularly is likely to be affected and Waisman advised protecting it with a handkerchief tied across the lower part of the face or with a small piece of tissue paper stuck to it.

He said cancer of the skin is much more common in the South than in the North and "it is safe to say that the incidence in Florida is at least five times that in Northern states."

Blondes and redheads are much more susceptible to skin cancer than brunettes, Waisman found. Probably the best insurance against it is to be born of brown-eyed parents and have brown eyes oneself.

PREVIEW FOR SPACEMEN—A. M. (Tex) Johnston, left, and Art Curren, Boeing test pilots, check their "space suits" before going aloft in latest model high-altitude jet planes. Tubes along the sides of the suits are used to pressurize them in case cockpit pressure fails. The helmets feature an electrically heated face plate to prevent fogging.

# RRC Reports Six Wildcats, 39 Field Tests In WT Area

Locations for six new wildcat projects were included among a total of 45 new petroleum developments reported to the Midland District office of the Oil and Gas Division of the Railroad Commission of Texas during the last week. The 45 new tests were scattered among 17 counties in West Texas (District 2).

The first prospectors were distributed to Andrews and one each to Dickens, Howard, Mitchell and Ward counties. Cochran County received 10 new field locations and Ector had six. Four new drill sites were established in Howard County, Dawson and Pecos Counties each gained three new projects. Two new tests were staked in each of Andrews, Loving and Ward counties.

The remaining new explorations were divided one each among Crane, Gaines, Hockley, Kent, Martin, Midland and Burrey counties.

**TIME OUT—**You'd never think this idyllic garden spot was anywhere near a bloody battleground, but it is. It's at Capitol Hill, Korea, where it affords a rest spot for ROK soldiers after their terrific battle to capture the strategic height. Note the peaceful duck, the spouting fountain, the soldier watching a bird in a homemade cage, while others relax on a homemade "park bench." Also the makeshift springboard in foreground.

### Reds Gather To Repel Mock U. S. Invasion, Get Bombed

WITH U. S. JOINT AMPHIBIOUS TASK FORCE OFF NORTHEAST KOREA—(AP)—The Army, Navy and Air Force combined Wednesday to stage a mock invasion of Communist Northeast Korea and drew thousands of Red troops out in the open, where they were plastered by Allied warplanes.

Almost 100 ships, including a battleship, six aircraft carriers and four cruisers—the greatest concentration of UN naval vessels since the Inchon landing in 1950—participated. Six did thousands of well-trained American troops.

Allied warplanes strafed and bombed the beaches.

The troops took only a short ride. They clambered down cargo nets in full view of the Communist shore. Then the landing craft took them around the other side of their mother ships and the soldiers, in full invasion gear, clambered back aboard.

No Plan To Land

The landing ships, with only Navy crews aboard, then dashed toward the beach—but pulled up 4,000 yards from shore and returned to the huge fleet.

The operation was the culmination of months of realistic training and planning. There was no plan to land but the operation was completely realistic in every other way.

The mock forces gathered off Kojo, south of the Red port of Wonsan and 33 miles north of the battle line on the east coast.

Three days previously, Allied ships and warplanes had moved in to soften the Kojo area, exactly as in a real pre-landing bombardment. The Reds returned the fire. Meanwhile, the troops practiced landings at Kangung to the south in full view of friendly South Koreans.

Word of an impending "invasion" purposely was allowed to leak out. The Reds started moving troops to Kojo, making them good air targets when the fleet hove in sight.

The type of storms known as hurricanes in the Atlantic and typhoons in the Pacific are known as cyclones which they appear in the Indian Ocean.

**WAGES HEALTH BATTLE**—Adm. William H. P. Blandy, USN (Ret.), recently embarked on a voyage in defense of health. Blandy, who was accompanied by his wife, Mrs. Roberta A. Blandy, is now president of the Health Information Foundation of New York. He will address the sixth general assembly of the World Medical Association, which will meet in Athens, Greece.

### Politics Charged In Drouth Relief

WASHINGTON — (AP)—Senator John M. Butler, Maryland Republican, Wednesday criticized as "obviously political" President Truman's announcement that \$5,000,000 is being added to emergency funds for relief of drouth stricken areas.

Truman late Tuesday ordered the relief fund increased from \$3,000,000 to \$8,000,000. The money is being used by the Agriculture Department to buy livestock feed and ship it into drouth-shortened areas—Oklahoma, Kentucky, Tennessee, Alabama, Georgia, Mississippi, Arkansas, Texas and Missouri.

Senator Butler, in a statement issued by the Republican National Committee, said:

"These states have been suffering for a considerable period. Now, just three weeks before national elections, they are given relief. It is the old Democrat formula of buying votes with the public's funds. If there were no elections, there would be no relief."

"While President Truman was away from Washington campaigning, truce talks broke down in Korea and the United States ambassador was effectively booted out of Moscow. No action was taken on these matters of some slight importance to the nation. But when it comes to making funds available very late, but in time for elections, there is White House action."

**WHAT DOES IT SAY?**—This elderly Korean pauses to puzzle over a "Vote for Stevenson" sign beside a dusty roadside in Korea. Signs boosting both General Eisenhower and Governor Stevenson dot Korean roadides, and even appear near the front lines. They reflect the intense interest of the G.I.'s in the forthcoming presidential election.
