Confusion Grips Spraberry Area

MIDLAND HOSPITAL CAVES IN—Heavy rains Wednesday morning softened ground around Midland Memorial Hospital so much the entire building and grounds sank into a deep pit. Damage is negligible, and engineers will have little trouble realigning the structure. They'll just wait until Thursday, when it no longer will be April 1.

Lion Announces Site For Deep Prospector In Roosevelt Sector

Lion Oil Company has announced plans to drill a 9,600-foot wildcat in Southwest Roosevelt County, New Mexico.

It will be dug as No. 1 Slack-Federal, 600 feet from north and west lines of section 30-6s-33e. Operations are to start in the near future.

Drill site will be a short distance south of the town of Elda.

Wildcat In Chaves Gets More Oil Shows In Siluro-Devonian

Republic Natural Gas Company and Seaboard Oil Company of Delaware No. 1 White Ranch, flowing discovery from the Siluro-Devonian in East-Central Chaves County, New Mexico has found more signs of pay.

This prospector, 30 miles southeast of Roswell flowed oil at the rate of 30 barrels per hour from the section at 8,715-60 feet. The oil was 48.5 gravity.

No Water Signs

The flow came during a one hour drillstem test. Gas surfaced in 39 minutes and oil started flowing in 45 minutes. It flowed for the remaining 15 minutes of the period at the 30 barrel per hour rate. There were no signs of formation water.

Open flowing bottom hole pressure was between 2,850 pounds and 3,800 pounds. Shut-in bottom hole pressure after 15 minutes was 3,750 pounds.

After the tool was closed operators reversed out an additional 8,740 feet of clean oil and 50 feet of heavily oil and gas cut drilling mud.

A core was then cut at 8,760-75 feet. Recovery was 15 feet of tan, crystalline dolomite with vugs and with pinpoint porosity. There were some fractures and some bleeding oil and gas in the fractures.

Operators are now running another drillstem test. It is to cover the section at 8,715-75 feet. Location is 600 feet from west and 1,900 feet from north lines of section 34-11s-29e. It is 10 miles east and two miles south of the nearest Siluro-Devonian production in the Chisum field.

Texaco Gets Gas, Distillate In DST In Reagan Wildcat

The Texas Company developed flowing gas and distillate at its No. 1-AF State, south offset to the discovery well of the recently opened Big Lake, West (DST) field in Central-South Reagan County.

The flow came on a drillstem test taken in the Fusselman from 9,430 to 9,465 feet. Tool was open three hours, gas surfaced in two minutes and distillate in 12. It flowed 30 barrels of distillate during the remainder of the time the tool was open.

Recovery was 150 feet of distillate and no water. Flowing pressure was from 1,250 down to 1,150 pounds. Shut-in pressure after 15 minutes was 3,950 pounds.

The Fusselman was topped at 9,451 feet, minus datum point of 6,778 feet. More hole was being made. Location is 663 feet from north and 1,990 feet from west lines of the southwest quarter of section 9, block 11, University Lands survey, and three miles west of the town of Big Lake.

Mid-Continent Gets Jennings Discovery NW Coleman Area

Mid-Continent Petroleum Corporation No. 2 J. N. DePrang, wildcat in Northwest Coleman County, two and one-half miles southwest of Navice, has been completed at a flowing discovery from the Jennings Sand.

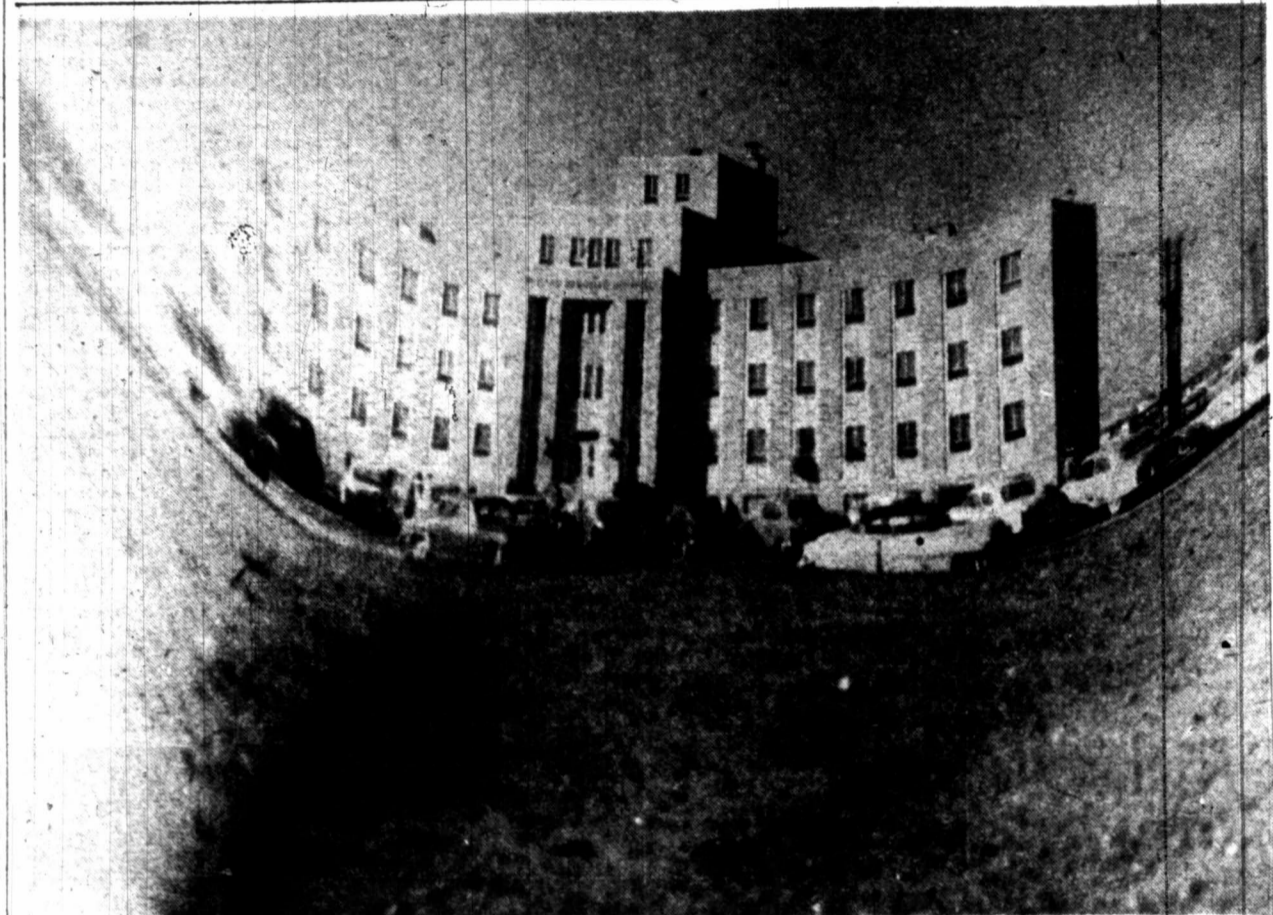

The new field opener, was finished for a daily flowing potential of 528 barrels of 40-gravity oil through a 22/64-inch choke and perforations at 3,879-3,765 feet. Completion was natural.

Gas-oil ratio was 250-1 and tubing pressure 175 pounds. Casing pressure was 100 pounds. Pay was topped at 3,874 feet, no elevation reported. Total depth is 3,895 feet. Location is 1,094 feet from east and 865 feet from north lines of section 9, Brooks & Burleson survey.

Midland Motorists Given Day Of Grace

Don't tell anybody, but Midland County motorists were given one more day Wednesday to buy their 1953 automobile license plates without paying the penalty.

The deadline was supposed to be midnight Tuesday but Tax Collector J. M. Speed said the plates could be purchased Wednesday without penalty.

Beginning Thursday, however, motorists must pay a 20 per cent penalty on the new car tags. Speed said approximately 11,700 plates had been sold through Tuesday, although it will be several days before an exact figure is available.

Police Force Holds Formal Inspection

The Midland Police Department—45 strong—held its first formal inspection Wednesday at the rear of the City Hall.

With all members of the force on hand, the department's personnel and equipment were inspected by Police Chief Harold Wallace, Mayor Perry Pickett and City Manager W. H. Oswald.

* LATE NEWS FLASHES *

ENGLEWOOD CLIFFS, N. J.—(AP)—Nuns shepherd 95 orphan boys to safety Wednesday as fire swept a three-story wooden dormitory at St. Joseph's School for Boys, atop the Hudson River Palisades.

WASHINGTON—(AP)—Russia's endorsement of Red China's Korean truce bid was regarded here Wednesday as making the offer more convincing. But U. S. officials noted that critical points of a workable armistice plan still must be nailed down.

LONDON—(AP)—Prime Minister Churchill told the House of Commons Wednesday Communist China's latest proposals "seem to offer a new hope" for ending the Korean War.

Molotov Pledges Kremlin's 'Full Assistance' In Truce

By EDDIE GILMORE
MOSCOW—(AP)—Foreign Minister V. M. Molotov Wednesday pledged Russian assistance in trying to bring about an armistice in Korea on the basis of proposals by Chou En-Lai, the Chinese premier.

Molotov's statement was the first official Russian comment on the latest Korean developments. It was a Foreign Ministry announcement issued through the news agency Tass and broadcast by Moscow Radio.

Molotov said the Soviet government "recognizes the complete justice" of the new proposals "and expresses its readiness to fully assist" in realizing them.

About the Peking proposal for exchange of sick and wounded prisoners of war, Molotov said: "Both the government of the Chinese People's Republic and the

Youthful Marine Admits Slayings

DUBUQUE, IOWA—(AP)—The father of an 18-year-old Marine was flying to Dubuque Wednesday "to see for myself" that it is his son who Dubuque County authorities say, had admitted slaying five persons in four days.

Authorities from three states also were enroute here to question Fred E. McManus of Valley Stream, N. Y. Dubuque County Sheriff Leo J. Martin said McManus in a signed statement had admitted double slayings in Minnesota and Illinois and the fatal shooting in New York state of a Hobart College student whose body has not yet been found.

Mose McManus, father of the young Marine, told newsmen in Valley Stream Tuesday night he would fly here on the first plane he could get because he "can't believe it's my son" involved in the slayings. "If it is my son, he's in real trouble," said McManus, a department store executive.

Young McManus was picked up with a 16-year-old Summerville, N. Y., girl he said was his wife, and another man in a stolen red-and-black convertible near here late Tuesday.

Martin said the young Marine, due back Monday night after a 10-day leave from Camp LeJeune, N. C., confessed shooting the student, Allen Braverman, 19, near Rochester, N. Y., Friday afternoon and then taking Braverman's 1953 model car. McManus said he dumped the body in a ditch about 20 miles outside the city and covered it with dirt.

Monroe County, N. Y., authorities said they were searching for the Rochester youth's body on the basis of vague directions McManus gave them by telephone. Sheriff Martin said McManus also confessed these killings:

Mrs. Davis Beaton, wife of a Spring Valley, Minn., cafe owner, and Mrs. Harriet Horsemann, 48, waitress in the all-night cafe, early Monday.

George N. Bloomberg, 56, and his wife Florence, 55, Saturday in a grocery-garage they operated at Keeneville, Ill., about 25 miles northwest of Chicago.

McManus also confessed that he robbed a couple of \$10 near Dubuque Sunday night and stole their car, Martin said.

Ike Greases Skids For Holdover Demos

WASHINGTON—(AP)—President Eisenhower stripped civil service job protection Wednesday from "more than several hundred" policy makers government officials appointed by Democratic Administrations.

The President signed an executive order opening the way for naming men of his own choosing to such key positions in various Federal agencies.

on the immediate settlement of the entire question and thereby of ending the war in Korea. "I am authorized to state that the Soviet government expresses its full solidarity with this noble act."

Molotov said that the Chinese proposal on repatriation "gives an opportunity to solve justly the question of the repatriation of war prisoners and removes the remaining barriers to realization of an armistice in Korea."

Molotov added, "Of course the question of repatriation of war prisoners as a whole must be decided in correspondence with the clauses of the Geneva Convention on which the Soviet government, as also the governments of the Chinese People's Republic and the Korean People's Democratic Republic, naturally insist."

City Makes Major Plan On Drainage

A major drainage program designed to relieve possible flood conditions in the north section of the city was presented Tuesday afternoon to the City Council.

The plan includes: 1. The construction of a five-mile-long drainage channel along the course of Midland Draw. 2. The construction of a 3,000-foot-long storm sewer extending off North Big Spring Street from Parker Street to the Midland Draw.

The five-mile channel project is tied in with the ultimate development of North Boulevard, which will extend from U. S. Highway 80 east of Midland to the Andrews Highway.

The storm sewer project is in conjunction with the planned widening of the State Highway Department of North Big Spring Street from Texas Street to the Midland Draw.

Engineers presented preliminary plans for the Midland Draw channel, along with designs for the divided boulevard which will furnish a cutoff for traffic from Highway 80 to the Andrews Highway.

No action was taken, pending consultations with the State Highway Department.

House Votes States Title To Tidelands

WASHINGTON—(AP)—The House Wednesday passed and sent to the Senate legislation establishing title for the states to oil-rich submerged coastal lands.

The measure was passed after a motion to shelve the bill was defeated, 283 to 106.

The motion, to send the bill back to committee, was offered by Representative Celler (D-NY) and supported by proponents of federal control of the oil-rich offshore lands.

The roll call vote on final passage was 285 to 108.

Voting for the bill on final passage were 188 Republicans and 97 Democrats. Against it were 18 Republicans, 89 Democrats and 1 Independent.

Swedish Diplomat Accepts Lie's Job

STOCKHOLM—(AP)—Swedish Deputy Foreign Minister Dag Hammarskjold Wednesday accepted a Security Council offer to succeed Trygve Lie as UN secretary-general.

UNITED NATIONS, N. Y.—(AP)—UN delegates Wednesday viewed the East-West agreement on a new UN secretary-general and Communist Chinese proposals to settle the Korean prisoner-of-war question as major steps in the Soviet Union's new post-Stalin peace offensive.

With Andrei Y. Vitsinsky making his first UN appearance since his return from Moscow, the Security Council Tuesday broke its long deadlock over a successor to Trygve Lie and nominated Dag Hammarskjold, Swedish deputy foreign minister, to fill the post. Hammarskjold previously had not been mentioned publicly as a possible choice.

Hammarskjold was approved first Tuesday in a secret huddle of the Security Council's five permanent members—the U. S., Britain, France, the Soviet Union and Nationalist China.

In a hastily called meeting, the Council then nominated Hammarskjold overwhelmingly, 10 to 0. Nationalist China abstained, because Sweden recognized the Chinese Communist government, but this did not count as a veto.

QUIET! AND NO DIRTY QUACKS!

FORT MEADE, MD.—(AP)—On this April Fool's Day—and probably for the rest of his Army service—sergeants probably will be barking at a new recruit here: "All right, don't try to be funny, soldier. What's your real name?"

It's Pvt. Donald R. Duck, who arrived at the 2053rd Reception Center this week. He was born in 1931, a few years before a certain cartoon character became famous.

Court Decree Permits Some Wells To Flow

Oil and gas production in the 500,000-acre Spraberry Trend Area field was shut down theoretically Wednesday except for wells covered by a district court restraining order. But the temporary court action only left the oil industry more confused in Midland.

Unofficial Railroad Commission records indicated 2,045 wells were affected by the shut-in move. Close to 200 wells were connected to three gasoline plants allowed to continue operations under exceptions made by the Austin district court as a result of two injunction suits.

The three plants are the Tex-Harvey Gasoline Plant in Midland County and the Plymouth and Phillips Gasoline Plant and the plant of the Texas Gas Products, Inc., both in Upton County. The three plants processed a total of 761,436,448 cubic feet of gas during February, according to Railroad Commission figures.

It wasn't known exactly how many wells were shut down and how many were able to continue. Railroad Commission representatives continued their check Wednesday afternoon.

A majority of top level industry representatives here declined comment pending further investigation. Many were in Austin to watch developments after the court action.

More Money For Operators
One petroleum company official here said, however, that the shut-down will mean more money for operators who can afford to last it out.

R. T. German, division superintendent for Magnolia, was asked what he thought about an order halting the flow of oil and gas because of wasteful gas flaring. He replied:

"Those who are financially able to stand it will in the long run make money. The oil allowance has been too high and the shut-in will allow oil to equalize in the formations. Then, when the plants are re-opened, the operators will make money from their gas and gas products as well as the oil."

Industry spokesmen say they are trying to lay enough pipe lines to (Continued On Page 12)

Balmy Spring Day Marks April's Start

April began life in Midland peacefully Wednesday with mild temperatures, partly cloudy skies and light breezes. The same conditions are expected Thursday.

A high reading of only 78 degrees was recorded Tuesday while the low Wednesday morning was a refreshing 49 degrees.

Elsewhere in the state the scene was similar as calm weather followed strong winds and crop-pounding rains that struck Central Texas Tuesday.

Strong winds knocked out some electric power in Austin Tuesday while crops were pounded by hard rains in the Bastrop and Elgin areas east of Austin. Many trees were split or otherwise damaged in Austin but nobody was hurt.

President Signs Bill Elevating Mrs. Hobby

WASHINGTON—(AP)—President Eisenhower Wednesday signed legislation creating a new Cabinet rank Department of Health, Education and Welfare, effective April 11.

The department will be headed by Mrs. Oveta Culp Hobby, now chief of the Federal Security Agency (FSA).

Real Estate Operator, Two Oil Men Compete For Place 2 On City Council

A Midland real estate operator is opposing two oil men in the battle for Place No. 2 on the City Council in Tuesday's city election.

The three men are seeking the seat to be vacated by R. B. (Bum) Cowden, who is not a candidate for reelection.

Featured in the Place No. 2 race are John Ed Cooper, vice president of The Western Company; George J. Hells, production manager of the

American Trading and Production Corporation, and R. C. Maxson, real estate man.

They are among the nine candidates seeking the three council posts, which will be filled at the April 7 election.

The 44-year-old Hells, a graduate of New York University's school of engineering, has been a resident of Midland since 1946.

He has been associated with the

oil business 22 years, although he took time out to serve with the armed forces during World War II.

He was in Europe with the Corps of Engineers and was released from active duty with the rank of lieutenant colonel.

Maxson, a 52-year-old native of Kansas, came to Midland late in 1948 from California. He had been in the real estate business in Kansas before going to El Paso in 1944.

He was in the lumber business there two years before going to California.

He is a partner in the real estate and insurance firm of Key, Wilson and Maxson.

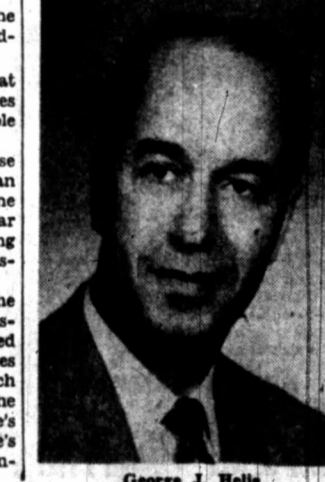

He has two sons, the older of whom is serving in Korea while the younger is stationed with the Marine Corps in Washington.

Cooper, the third candidate, long has been active in Midland civic affairs.

A vice president and sales manager of the Western Company, he is a member of the board of directors of the Midland Chamber of Commerce. He is chairman of the Permian Basin Chapter of the American Petroleum Institute, and served two years as chairman of the Oil Industry Information Committee.

Cooper was graduated from the University of Oklahoma in business administration in 1934. After two years in the banking business, he joined the oil field equipment division of Republic Steel Corporation. He joined The Western Company six years ago, when he came to Midland.

Cox Keeps Health Unit Job As Odessa's Charges Fail

AUSTIN —(AP)— Dr. George Cox has started a new two-year term as state health officer with the unanimous backing of the Board of Health.

The board vindicated the veteran and often storm-battered health officer of charges brought by Senator J. T. Rutherford, Odessa, and expressed faith and confidence in Cox and "the efficient manner in which he has conducted his department through these many years."

Cox, 73, has been chief executive officer of the health board since 1936. Before that, he had been appointed to the board by Gov. James Alfred. His public service dates back to the administration of Gov. Tom Campbell, (1907-11), who named him

Dr. George Cox

as a coastal quarantine officer. As state health officer, Cox often collided with local communities for his blunt, outspoken criticisms when he felt sanitary conditions were not what they should be.

One of the latest clashes was with Odessa. Rutherford said his charges against Cox grew out of the health officer's "unkindness, inconsideration and incompetence" in connection with a health department survey of Odessa's polio situation more than a year ago.

He charged Cox and Ed Riedel, the department's business manager, had used state-bought supplies and state employes on state time to make repairs and improvements to their homes. Rutherford said there was mismanagement and incompetence in the department.

Unanimous Support The board held up Cox's reappointment and investigated the charges with the aid of Attorney General John Ben Shepperd two days. Cox and Riedel denied the charges.

The board went into executive session Tuesday night and announced its unanimous finding that "neither the state health officer, nor any of his associates or assistants, is guilty of any misconduct or misappropriation of monies or material belonging to the state Department of Health."

Once more the board closed its doors. After more than three hours, Dr. O. B. Kiel of Wichita Falls, chairman, said Cox had been reappointed unanimously.

Cox said he appreciated the vindicating resolution clearing him and his aides of the "implications and complications that have been piled up on the department for months."

54 Needy Britons To Get New Coins From Queen Bess

LONDON —(AP)— Queen Elizabeth II personally will hand the first coins of the realm to bear her effigy to 54 loyal subjects Thursday.

Twenty-seven old men and 27 old women each will receive silver pence worth two shillings, three pence (31 cents) from the Queen as a part of their gift at a Maundy Thursday service in St. Paul's Cathedral.

Since 1754 it has been a custom for the British sovereign to give money on Maundy Thursday, the Thursday before Easter, to as many poor of both sexes as there are years in the sovereign's age.

This year, because they are the first Elizabethan coins, the Maundy money will be worth double, or more than the usual collectors' piece.

The new coins now are being struck at the Royal Mint but none so far have been issued to the public. Sets in red leather cases stamped with the royal arms in gold have been sent to the Queen.

TIPRO Chooses Bryant As Head

SAN ANTONIO — M. D. Bryant of San Angelo, who started his oil career in Arkansas, has been named president of the Texas Independent Producers and Royalty Owners' Association.

He was a member of the drilling crew which in 1925 brought in the Luling Field near San Antonio and has lived in San Angelo since 1924.

Midlanders named to TIPRO executive posts include C. K. Lowe and John I. Moore.

Other top officers are Brian W. Payne, Tyler, vice chairman, Bert Fields, Dallas, secretary, and William T. Beard, San Antonio, treasurer.

Wholesale Heroin Sales Plan Backfires

NEW YORK —(AP)— A snappily dressed young man was accused by detectives Tuesday night of wholesaling narcotics by leaving the drugs in dime subway lockers and then peddling the locker keys for \$500 each.

Police said the man identified as Joseph Durso, 25, netted about \$30,000 a week.

Durso was charged with possessing and selling heroin.

Holy Week Rites Near Climax For New Mexico's Penitentes

SANTA FE, N. M. —(AP)— In the little mountain villages in remote parts of Northern New Mexico the climax of Holy Week rites of the mysterious brotherhood known as the Penitentes starts Wednesday.

In the moradas, or chapels, members of the religious organization are reciting prayers based on Gospel accounts of the arrest of Jesus. On Holy Thursday, processions, prayers and hymns will recall how

The Lord was taken before Pontius Pilate.

On Good Friday, the fever of the penitents one builds to its climax as they make the Via Crucis Praying, singing, sometimes crawling on their knees on rocky paths, they will make their way past the 14 Stations of the Cross to hilltop Calvaries where stand three crosses. There they will commemorate Christ's agonies and death.

The moradas, on the night of Good Friday, will echo with earth-tamping sounds—parts of the symbolism in the ceremony commemorating the placing of Jesus' body in the sepulchre.

Penitente leaders, disturbed over what they called the many lurid and exaggerated accounts—such as severe whipping—no longer are permitted, at least not in the great majority of Penitente groups, now recognized by the Catholic Church

as a lay sect. They do not like to talk for publication. Neither do church leaders, who take the view the Penitentes, given church approval in 1947, no longer should be subjected to publicity. The church approved the sect in that year, with the provision that its rites be in moderation and subject to church supervision.

The Penitente Order, an offshoot of the Third Order of St. Francis in Medieval Europe, was founded in New Mexico in 1835 at Santa Cruz. Its aim was year-long penance.

In the years when the priests were recalled from New Mexico, the Penitentes in some localities proved the mainstay of the church. But it was then too, that the excesses later frowned on by the authorities crept into their rites. The members then believed blood alone could atone for their sins.

Midland Air Terminal Personnel is made up of several enlisted men, most of whom live in Midland.

Sergeant Morris said his wife, Billie, and 11-year-old daughter, Kathy, will join him in England as soon as he gets settled. Until then they'll continue to live in their home at 1509 North Lamesa Road, Midland.

The sergeant, a veteran of 13 1/2 years military service, brought his family to Midland from Japan in 1947. Since then it has been "civilian duty" in an Air Force uniform for the Morris trio.

Morris claims a West Texas heritage despite his life in East Texas. He was born and reared in Seymour and figures that's west enough to qualify.

Christine Jorgensen Eyes Pact For Biography Movie
By **ERSKINE JOHNSON**
NEA Staff Correspondent
An Oscar for "The Greatest Show on Earth" as the best movie was this year's big surprise in the Academy Derby. But it was no surprise to readers of this pillar. I picked "Show" as the winner, along with Gary Cooper and Shirley Booth last month.
The wedding of Hollywood and TV for the Oscar show, by the way, was a million-dollar shot in the arm for movietown. The best men—NBC's producer Bob Welch and Director Bill Bennington—can take a bow.
It happened when those 24 former Oscar winners were photographed for the parade of stars at the conclusion of the Academy's TV program. Paul Muni chatted for some time with Janet Gaynor and later asked a bystander:
"Tell me—what was the name of that young lady I was talking to?"
Christine Jorgensen's next leap will be to Hollywood. The guy who became a doll will star in a film biography for an independent movie production company... Rickey, Jr. in "I Love Lucy," will be played by six-month-old identical twins, Richard and Ronald Lee, sons of a Los Angeles department store shoe buyer. It's an old movie trick—while one sleeps the other works. Rickey should be the biggest milk guzzling star since Baby LeRoy.
There will be two stars playing the same role now that Liz Taylor is in and Vivien Leigh is out of "Elephant Walk" after an acute nervous breakdown. The studio will use many of Vivien's long shots, filmed in India.
The new wide-screen movies are breathtaking when the camera turns on scenic views. The reasons for this conversation between two stars:
"What do you think of wide-screen movies?"
"They're great—if you're a mountain."
Will Rogers, Jr.'s second movie, "The Boy From Oklahoma," sounds like a young Will Rogers story but it's pure fiction. That's the reason Will is asking the studio to change the title.
Marilyn Monroe personally has taken all the blame for her "Tex" **KCRS RADIO LOG**

JUST A MATTER OF D'S AND B'S
PHOENIX, ARIZ. —(AP)— The new police manual, just off the press, forbids Phoenix policemen from accepting or soliciting bribes. Chief of Police Charles F. Thomas hastily explained the prohibition will be eliminated and the word "bribes" will be substituted for "bribe."

Net Star Will Close CMA Concert Season

Currently celebrating his fifteenth anniversary with the Metropolitan Opera, Leonard Warren, distinguished baritone, will appear in concert here Saturday night.

He will present the final concert of the season for the Midland Civic Music Association. It will be at 8 p.m. in the Midland High School Auditorium.

Noted for his concert, radio and television appearances as well as his operatic portrayals, the baritone has won a popular following outside of the opera-going public with his singing of such familiar songs as "Kipling ballads and sea chantees, many of which he has recorded for RCA Victor."

The baritone was among the artists chosen to open the Met this year in the new production of "La Forza del Destino." He also was to star this season in his sixtieth Metropolitan "Rigoletto," his fiftieth "Aida" and his twenty-fifth "Pagliacci." Last Winter's hit production of "Rigoletto" was built around Warren's interpretation of the title role.

In addition to his appearances at the Metropolitan, the San Francisco

Chopin Movie Scheduled Here

"A Song to Remember," a moving picture based on the life of Frederic Chopin and featuring many of his musical works, will return to Midland April 8 and 9 at the Yucca Theater under the auspices of the Midland Music Club.

This Technicolor picture was hailed as one of the milestones of movie making when it was released in 1946 and many of those who saw it have expressed a desire to see it again. The print to be shown here next week is a new one which has just been made from the original negative.

"A Song to Remember" stars Cornelia Wilde as Chopin and Merle Oberon as George Sand, the writer who was Chopin's most enduring romantic interest.

The picture is lavishly sprinkled with Chopin's compositions played by Jose Iturbi. The popularity of Iturbi's recording of Chopin's most famous polonaise is credited to his dubbing for Cornelia Wilde in "A Song to Remember."

The picture, which appeals to all tastes and age groups, will be shown to Midland audiences at regular prices for two nights only, April 8 and 9.

Permian Basin Oil And Gas Log—Wildcat, Discovery Offset Staked In Crockett Sectors

Crockett County has gained location for a 2,000-foot cable tool wildcat and an offset to a recently completed San Andres discovery. The wildcat will be drilled in the central-west part of the county by A. R. McEneaney of Fort Worth and others. It is No. 1-3 University and is located 330 feet from south and west lines of section 3, block 29, University survey. Drill site is 30 miles west of Ozona and two miles west of the Lancaster Hills field. That makes it about one and one-quarter miles southeast of the Cox field. SE Of Discovery Haynes and V-T Drilling Company of Odessa has staked location for their No. 1 University, five-eighths of a mile southeast of Texas Gulf Producing Company No. 1-J University, recently completed San Andres operation in Northeast Crockett County. No. 1 University is 330 feet from south and 230 feet from west lines of section 4, block 50, University survey. It will be drilled to 2,500 feet with rotary tools, beginning at once. Elevation at drill site is 2,700 feet. The San Andres discovery was finalized for a daily flowing potential of seven barrels of 20.4-gravity oil from open hole between 2,250 and 2,800 feet.

Coronet Is To Plug Back At Reef Well In NE Howard Area

Coronet Oil Company is preparing to try to complete a producer from the shallow Permian pay above 2,900 feet at a depleted Canyon reef discovery in Northeast Howard County. The effort will be made at Coronet No. 1-4 Boyd, formerly carried as Lloyd H. Smith No. 1 Boyd. It is five miles northeast of Vincent and 667 feet from north and 652 feet from east lines of section 4, block 25, H&C survey. It was originally completed by Smith from pay above 7,712 feet in the Canyon reef lime. The well was designated as the opener of the East Vincent (Reef) field. Deep Pay Depleted Production from the pay has been depleted. Coronet acquired the well and the lease on which it is located and is now preparing to plug back to 2,900 feet and perforate the casing in several zones above 2,900 feet and test. The project had some good shows in the shallow sections while it was being drilled down to the reef. It is one location south and one location east of completed producers in the Coronet 2,900 field.

Central Kimble Is Site For New Test

Anzac Oil Corporation of Coleman and others have staked location for a shallow wildcat in Central Kimble County. It is No. 4 Lottie Bolt and is located 330 feet from south and east lines of section 7, F. Rooney survey and four miles west of Junction. That makes it three and one-half miles south of production in the shallow Bolt field. Cable tools will be used to drill to projected depth of 2,300 feet. Operations will begin at once.

SE Dickens Project Is To Go On Down To Lower Sections

Pacific Western Oil Corporation No. 1 Swenson, Southeast Dickens County prospector, one location east of a Tannehill sand discovery at 4,414-24 feet is preparing to drill deeper from present total depth of 4,466 feet. The Pacific Western No. 1 Swenson missed the Tannehill pay found in the same concern's No. 1 Smith. It logged some slight oil shows in the Saddle Creek lime and it ran a drillstem test on that zone. The test was at 4,448-66 feet. The tool was open three hours. Recovery was 20 feet of drilling mud with no shows of oil, gas or water. Set Intermediate String Operator then set and cemented 8 5/8 inch intermediate casing at 4,466 feet. The plug on that pipe is to be drilled and the project is to drill deeper. It is scheduled to go to 7,800 feet to test to granite, unless it finds

Texas Gulf Gets Oil And Gas Shows In C-E Ector Test

Shows of oil and gas were developed on a drillstem test of the Devonian lime at No. 2 Headline, stepout to production in the Headline (Eilenburger) field of Central-Ector County. Shows of oil and gas were developed on a drillstem test of the Devonian on 11,800 to 11,856 feet. Tool was open three hours. Gas surfaced in 15 minutes. No gauge estimate was made on the volume. Recovery was 1,227 feet of heavily gas-cut drilling mud with a rain-bow show of oil and 1,479 feet of heavy gas-cut drilling mud. Open flowing pressure was 118-90 pounds and shutin pressure after 30 minutes was 4,808 pounds. Location is at the center of the northeast quarter of section 8, block 41, T-2-S, T&P survey.

Reeves Wildcat Is Testing Wolfcamp After Re-Acidizing

Magnolia Petroleum Company No. 1 J. Marvin Rape, wildcat in Central-East Reeves County, is swabbing to test after re-acidizing the Wolfcamp with 5,000 gallons in open hole from 10,085 to 10,097 feet. In 10 hours of swabbing, the project recovered 22 barrels of oil and 51 barrels of acid water. Testing is continuing. The section had been acidized with 1,000 and with 2,000 gallons previously. Location is 660 feet from south and west lines of section 24, block C-1, psi survey and 18 miles southeast of Pecos and 12 miles west of Coynosa.

SW Sutton Test Will Be Deepened

C. L. Norsworthy, Jr., of Dallas has filed application with the Railroad Commission of Texas requesting permission to deepen his No. 1 E. F. Sawyer, wildcat in Southwest Sutton County. The project will be drilled to 10,500 feet. At last report, Norsworthy No. 1 Sawyer was drilling below 9,679 feet in the lower Strawn. The project recovered 120 feet of gas cut mud with no shows of oil on a 70-minute drillstem test between 8,217 and 8,490 feet in the Strawn. Location is nine miles southwest of Sonora and at the center of the southwest quarter of section 170, block C, H&W survey.

E-C Reeves Wildcat Coring After DST

Gulf Oil Corporation and Jack Frost No. 1 P. G. Northrup, et al, wildcat in East-Central Reeves County, is preparing to core deeper after a drillstem test from 15,906 to 15,978 feet. Tool was open four and one-half

SW Sutton Wildcat Plugged, Abandoned

Shell Oil Company has plugged and abandoned No. 1 Aldwell, wildcat in Southwest Sutton County, on total depth of 10,475 feet in Eilenburger. That section made water and no shows of oil or gas were found. No tops of any formations have been reported. Location was 660 feet from north and west lines of J. F. Young survey No. 14, block EFD.

SOCKS ALWAYS COME IN HANDY

SEATTLE—(AP)—Philip C. Stahlberg, 42, a construction worker, told police Tuesday he didn't know why he did it when he was arrested and charged with shoplifting two pair of men's socks. "I didn't need to," he said. The police believed him. He had \$5,506.53 in his pocket. He said he had saved it in the last 10 years.

Two Howard College Youths Die In Electrical Accident

BIG SPRING—(AP)—Two members of little Howard County Junior College's baseball team were killed and 10 were injured Tuesday as the players improvised a foul line marker so they could hurry and start practice. A long metal pole intended for a marker accidentally toppled into electric power lines and 7,500 volts shot through it. Gene Reynolds, 19, and Robert Brown, 18, a negro were killed. The injured also were hanging onto the pole, placing it into a shallow hole, that had been dug in the dirt at the Big Spring baseball park. Tommy Hutchens, 33, grounds keeper of the Big Spring baseball club, said he heard the shock as the pole hit the wires. He managed to break loose from the pole. "I kicked the pole loose from one of the wires," he said. "It fell on one or two of the boys." Hutchens said he pulled Brown from under the pole and then collapsed. The accident occurred about 3:20 p.m. Carl Coleman, Big Spring High School coach, was starting to lend a hand in raising the pole when he said he heard the crackle of electricity. Coleman said after the pole had been knocked loose he began artificial respiration on Harold Davis, 29, the coach of the team. "Davis wasn't breathing then," Coleman said. Davis was one of eight taken to the hospital for treatment. Two who were only shaken by the charge were Bobby Williams, 18, of Dallas and Lonnie Muse, 19, of Odessa. The other injured were Clarence Jones, 29; Rodney Cramer; Tommy Randolph, 18; Ed Hartman, 20, of San Angelo; Cecil Hoggard, 20, Minden, La.; Don Stevens, 19, of Lamesa and Hutchens. Reynolds and Brown were from Big Spring, as were most of the others. The injured suffered burns or shock.

Fate Of His Pate Depends On Locating Bee Crematory

READING, PA.—(AP)—Mayor James B. Banford, who says he's been as bald as an Easter egg 20 of his 45 years, had new hope Wednesday for a crop of fuzz—or something better. Banford said he had received from Donald S. Gates, an Albright professor, a "sure cure" formula for baldness uncovered by Gates in thumbing through a book published in 1742. The formula's ingredients: Two ounces of boar's grease, one dram (about 60 grains by present apothecary weight) of ashes of burnt bees, one dram of ashes of southern wood, one dram of juice of white dilly root (the dilly is a small hardwood tree found in Florida), one dram of oil of sweet almonds, and six drams of pure musk. "I think I can get hold of those other things," said Banford, "but what's worrying me are those burnt bees."

Rutherford Child's Illness Confirmed As Meningitis Type

GALVESTON—(AP)—Dr. Arild Hansen of the Children's Hospital at the University of Texas Medical Branch said Tuesday night the month-old son of State Senator and Mrs. J. T. Rutherford of Odessa was a victim of meningitis, a form of spinal meningitis. Further examinations were made Wednesday. The child was flown here from Austin. He was stricken nine days after birth.

Toned Down Auto Inspection Law Gets Senate Panel Okay

AUSTIN—(P)—Senate passage of the softened auto inspection law was recommended Wednesday by its Committee on Highways and Motor Traffic.

The bill has been approved in the House. It was designed to cut some

of the red tape from the original law that stirred up controversy after its passage two years ago.

The revised version of the House bill still faces Senate floor debate. Rep. Lamar Zivley, Temple, tried again to pave the way for a com-

mittee decision next week on the \$600 a year teacher pay raise. He lost, 60-37, the first time he tried and 66-69 the second time.

A bill broadening the powers of the board for hairdressers and cosmetologists was passed by the Senate and returned to the House with amendments.

Then the Senate closed its doors to consider confirmations of appointments by Gov. Shivers.

A bill slapping new or boosted levies on natural resources to raise an estimated \$4 million dollars a year went before the House Committee on Revenue and Taxation.

But no immediate decision, even in committee, was expected. The committee has agreed to refer all tax bills to subcommittee for a week of study before voting on them. Pro and anti-tax forces were lining up their forces for a barrage of testimony, however.

Easter Holiday

Lawmakers in both Houses were thinking about taking a long Easter holiday.

They granted each other permission Tuesday to adjourn from noon Wednesday until next Tuesday. Now either house or both may decide to take off for a five-day breather.

A bill to cut down on bootlegging in dry territory was approved Tuesday by a House committee.

Local Option Elections

It would permit local option election for off-premises consumption of beer and liquor in dry territory. It would allow such places as grocery stores to sell the liquor, but it would have to be drunk at home or some other private place.

Local option elections now are confined to the question as to whether sale of intoxicating beverages should be legalized. They do not mention the place of consumption.

The House Conservation Committee recommended passage of a bill to set up a state water pollution advisory committee, but two other bills recommended by the governor's water conservation panel were sent to subcommittee.

The general appropriations bill still is in conference. Several teachers pay bills have been set for hearing next week.

Berry's bill would increase production taxes on oil and gas and place levies on timber, lime, shell and gravel, limestone, clay, lignite, asphalt, sand, gypsum, fuller's earth, bentonite, pumice, granite, marble, coal, coke, chemical products and gasoline refining.

Berry's bill would divide the income between the public schools, highways, state employes, colleges (excluding the University of Texas and Texas A&M), city streets, the prison system and the forestry service.

Firemen Are Called To Three Blazes

Three fire runs were made by the Midland Fire Department the last 24 hours.

At 1:20 p.m. Tuesday, a trash box caught fire at the rear of the United, Inc., 121 North Main Street. It was extinguished quickly.

A curtain caught fire at 4:50 p.m. Tuesday in the home of the Rev. R. J. Snell, 211 North B Street, but was out on arrival of firemen. Mr. Snell is rector of the Trinity Episcopal Church.

Wednesday, a gas jet flared up in the residence of Mr. and Mrs. J. E. Gallian, 309 West Jax Street, while a stove was being moved. Again the blaze was out on arrival of firemen.

Dallas Youth Held In Death Of Usher

DALLAS—(P)—An argument between two young ushers over taking up theater tickets resulted in death of one, Richard Hamilton, 18, Tuesday.

Homicide Capt. Will Fritz said a youth, 17, booked on investigation of murder told several versions of the stabbing. A third usher told police of the argument and witnessing of the tragedy.

The slaying occurred in the ushers' upstairs dressing room of the downtown Rialto Theater.

Shreveport Woman Indicted For Murder

UVALDE—(P)—Ethel Carroll, 28, of Shreveport has been indicted for murder and robbery in the shooting March 19 of Manley Oliver, 62, former Shreveport policeman.

Oliver died after the shooting on Highway 90, some 28 miles west of Uvalde.

The woman is in Kinney County jail at Brackettville. Her bond was set at \$5,000.

Small, Bitter Duels Erupt On War Front

SEOUL—(P)—Small-scale but bitter fighting erupted along the Korean battlefield Wednesday as UN troops anxiously awaited the outcome of Communist truce overtures.

Most combat veterans were hopeful but wary.

The Fifth Air Force reported Allied Sabre jets blasted 33 Red MIG jets out of the Korean skies for only two Sabres lost in aerial combat in March.

The monthly air summary showed, however, that 18 Allied planes were lost to all causes—two to MIG's, seven to Red ground fire and to other causes.

New Trial Sought For El Turko Sapet

BROWNWOOD—(P)—Mario (El Turko) Sapet, under 99-year sentence in the slaying of Jacob Floyd, Jr., has asked for a new trial.

Floyd, court testimony said, was killed by mistake when an assassin attempted to ambush his father—Jacob Floyd, Sr.—in the family garage last September 8.

Sapet's attorneys filed a motion Tuesday with 35th District Clerk Henry Buck asking a new trial on the grounds that the "verdict was contrary to and wholly unsupported by the law and evidence herein."

Sapet's sentence was assessed in Judge A. O. Newman's court March 22. The swarthy tavern owner is in Brown County jail here.

ADAPTABLE—Smoke billowing out of its twin manifolds, the Navy's new guided missile "Regulus" climbs skyward. The missile, which can be adapted to a variety of Naval craft and used multi-operationally, apparently is able to carry an atomic warhead. The training counterpart of the missile is recoverable through the use of a parachute-type brake (note string-like trail between smoke clouds), cutting to one-tenth the cost of a comparable operation involving the loss of a missile for each test.

Saddened Windsor Sails For America

SOUTHAMPTON, ENGLAND—(P)—The Duke of Windsor, a sad and lonely figure, sailed for America Wednesday just 24 hours after the interment of his devoted mother, Queen Mary.

In New York Monday he will rejoin his American-born wife, the Duchess of Windsor.

The duke left behind him a mounting controversy over whether Britain's royal family should invite him and his wife to return to England to live.

School Trustees Sue Publisher For Libel

GLADEWATER—(P)—A \$775,000 libel suit has been filed against T. W. Lee, publisher of the Gladewater Daily Mirror, by trustees of the Gladewater County Line Independent School District.

The suit was filed Monday in District Court at Longview.

The plaintiffs alleged that Lee libeled them in his column "T. W. Lee Sues" in issues of the Mirror for March 17, 20 and 23 dealing with a \$1,150,000 school bond issue. The bond issue was defeated March 21 by a close vote.

USCC To Convene In Nation's Capital

WASHINGTON—(P)—The Chamber of Commerce of the United States meets in Washington April 27 and expects to enjoy the climate.

"The meeting will be historic in the sense that it convenes in a political environment devoid of hostility to business," said Arch N. Eooth, executive vice president. "That is in diametric contrast to the environment of the last 20 years."

The Chamber announced an intensive three-day schedule of meetings on taxation, social legislation, foreign policy, government economy and labor relations.

Vast Majority Recover From New Disease Found In Korea

By EDWIN F. JORDAN, M. D.
Written for NEA Service

A good many people have been disturbed and puzzled by reports in the newspapers or through the grapevine of a new and mysterious disease which broke out among United Nations and United States personnel in Korea about the middle of 1951.

It now is possible to discuss some features of this illness, since reports on it have begun to appear in the medical journals.

The disease now is known as epidemic hemorrhagic fever. It was studied first by the Japanese more than 10 years ago, and so far as anyone knows, it is not likely to constitute a danger to residents of

the North American continent.

The symptoms are said to involve three stages: First is invasion, in which the victim becomes suddenly acutely ill with chills and fever, headache, backache and general muscular aching. After a short time the toxic stage begins. The patient is likely to feel worse and severe vomiting is not unusual. At this time the urine is likely to show blood and albumin. The final stage is convalescence, and this lasts from three to six weeks.

Ninety-three out of 100 stricken by epidemic hemorrhagic fever recover. In those who recover there do not seem to be any lasting effects nor have there been any second attacks.

As is the case so often when a new disease develops, neither the cause nor the way in which it is spread are yet known. The indications are that it is probably a virus or a rickettsia, both small living organisms less easy to identify than ordinary germs.

Also, as with many newly found diseases, a good specific treatment has yet to be discovered. The most successful management, the medical reports say, seems to be bed rest, good nursing care and measures aimed at the relief of symptoms.

Progress Is Made

Naturally, the appearance of epidemic hemorrhagic fever in the combat zones of Korea produced intense activity on the part of those medically responsible. They set to work with the most commendable zeal and have already made long strides in the understanding of this disease, even though there still is much to learn.

Parents, wives and others close to our men in Korea can feel that the chances are excellent that this disease will not strike. If it should, the chances for recovery are good, and finally, that everything which can be done is being done.

TCU To Hold Auditions Here For Fine Arts Scholarships

Students of the Midland area with a desire for advance study in dancing, singing or instrumental music will have an opportunity to win scholarships to the Texas Christian University School of Fine Arts the afternoon of April 14.

At that time, auditions will be held here by the Fine Arts Foundation of TCU. This organization, made

up of interested business and civic leaders has as its purpose the aiding of talented and needy students in securing further training.

The auditions are being held in connection with the appearance of the TCU Fine Arts Department's opera workshop, ballet and symphony orchestra. They will present a one-night performance in the auditorium of the Midland High School, which is sponsored by the music department of the Midland schools.

Application blanks for the auditions may be secured by writing the Fine Arts Foundation, Box 298, TCU Station, Fort Worth or from Ralph Mills or R. C. Michener of the music department of Midland high school.

Under the rules, the auditions are open to high school seniors or to persons not now in school who can qualify for college entrance. Graduating college seniors are also eligible but non-seniors can qualify only through a personal request from the chairman of the department of the

college in which they are now enrolled.

The auditions here will be final for instrumentalists and dancers. Those who qualify will be assigned scholarships in accordance with the rating achieved in the audition.

For vocalists, the auditions will be final for all but the two receiving the highest ratings. These will be asked to go to Fort Worth on April 26-27 as guests of the Foundation. "Finals" will be held the night of April 27 and one boy and one girl will be selected for full tuition scholarships. Other scholarships will be awarded according to rating received.

For the performance the night of April 14 here, the TCU Opera Workshop will offer Puccini's one-act comic opera "Gianni Schicchi." The ballet will present two numbers to the music of Johann Strauss "Tales of the Vienna Woods" and George Enescu's "Roumanian Rhapsody."

The TCU symphony orchestra will play for both ballet and opera.

Confessed 'Mercy' Slayer Convicted

DETROIT—(P)—William R. Jones, 62, who confessed slaying his invalid wife to take her "out of pain," was convicted of second degree murder Tuesday night.

Jones, a factory worker, admitted he took the life of his wife Barbara, 61, last December.

Mrs. Jones, a chronic diabetic who had lost both legs by amputation, was electrocuted in her bathtub.

Her husband tied an exposed lamp cord around her wrist and then switched on the electricity. He failed in an attempt to take his own life.

Jones faces a possible maximum sentence of life imprisonment.

Youths Confess Looting, Burning Lutheran Church

DENVER—(P)—A 13-year-old boy and his 15-year-old companion were given indeterminate sentences Tuesday to the State Industrial School at Golden by Boulder County Judge Howard O. Ashton.

The boys admitted vandalizing and then setting fire to the Mt. Calvary Lutheran Church last Thursday.

"Why did you do it?" Judge Ashton asked the younger boy.

"To have fun," the 13-year-old replied calmly.

"Did you have it?" asked the judge.

"Yes, I did," the boy said.

Recognized Cancer Doctor Urges Extensive Education

Dr. Ernest M. Daland, noted cancer authority of Boston, Mass., told a group of Midland physicians and surgeons here Tuesday night that more education is needed by the doctors as well as the public if the cancer menace is to be controlled.

Dr. Daland is chief of staff of the Massachusetts State Cancer Hospital in Boston and is chairman of the Massachusetts Division of the American Cancer Society and a past president of that group.

His address to the Midland medical group at the Midland Memorial Hospital was concerned mainly with the technical aspects of malignant moles but Dr. Daland also made some interesting remarks on cancer in general.

"I believe we could double the number of cancer cures with methods now available," he said, "if we could detect cancers earlier and if all physicians would avail themselves of known methods."

Concerning research in cancer, Dr. Daland said that a great deal of study is now being devoted to normal growth of cells so that causes for abnormal growth can be discovered.

He pointed out seven danger signals which may mean cancer. Things to watch for are: Any sores which do not heal, particularly about the tongue, mouth or lip; a painless lump or thickening; unusual bleeding or discharge; a wart, mole or birthmark that suddenly starts to grow or change color; persistent indigestion; persistent hoarseness, and any change in normal bowel habits.

"Any pigmented mole which changes its character or which tends to get irritated should take the patient directly to the doctor's office," cautioned Dr. Daland.

He told of his recent visit to the M. D. Anderson Hospital in Houston which will be in operation in July mainly devoted to the treatment and cure of cancer. The hospital will house 325 patients and will be equipped with the latest cancer devices.

Dr. Daland's appearance in Midland took added significance since April has been declared National Cancer Month. The doctor was expected to go to Wichita, Kan., Wednesday to address a cancer forum there.

Election Scheduled At Ranchland Club

The Ranchland Hill Country Club membership will elect officers for the coming year in a meeting at 7:30 p.m. April 17, President John B. Mills announced Wednesday.

Mills urged all members to attend or establish proxies.

ATTEND CHURCH MEET

The Rev. Lewis O. Waterstreet, pastor of the St. Andrews Presbyterian Church, and Bill Collins, a member of the First Presbyterian Church, attended a meeting of the El Paso Presbytery's Council Tuesday in Pecos.

President Opens Buddy Poppy Sale

WASHINGTON — President Eisenhower and Judith Gertrude Raaheta, four, inaugurated the annual Buddy Poppy Sale of the Veterans of Foreign Wars Wednesday.

Judith came from the VFW National Home for Widows and Orphans of Ex-Servicemen in Eaton Rapids, Mich., to hand the first Buddy Poppy of the year to the President. She is the daughter of the late Nicholas Raaheta, who served in North Africa during World War II.

Facts Forum Talks Set For Wednesday

Facts Forum speakers will discuss relocation of the city library and proposed amendments to the city charter Wednesday at 8 p.m. on the second floor of the Midland Tower building.

Pro-tem officers also will be elected. They are: William Horton, president; Dr. H. Schlichting, secretary; M. W. Frack, chairman of the board of directors; and board members Mrs. L. W. Leggett, F. J. Nicholson, J. R. Braus, C. G. Murray and G. Gillett, Jr.

Spiritual Diary for Lent

The effectual fervent prayer of a righteous man availeth much. —James 5:16

Today's Message

"Come ye apart with me and pray." These words of our Lord might properly become a universal theme for the season called Lent. For fundamentally Lent is not a time only for self-denial. It is a time for self-reconstruction and self-strengthening.

The pressure of "things" has become so heavy in the lives of most of us that we are apt to forget there are mental and spiritual forces which are of greater power than things material. The practical person is apt to dismiss intangible things as being largely useless. But it is only when we become confused in mind and divided in our spiritual life—for we have one whether we admit it or no—that life becomes overwhelming and fearsome.

We need, each of us individually, and all of us collectively, to withdraw for a time from the pressure of things and regain our spiritual balance that we may come forth again as masters and not slaves of our world.

"Come ye apart with me and pray."

—HERBERT V. HARRIS
St. Luke's of the Mountains
Episcopal Church, La Crescenta, Calif.

Today's Prayer

O God of Peace, lift us, we pray Thee to Thy presence, where we may be still and know that Thou art God; through Jesus Christ our Lord. Amen.

SPORTS PARLEY

By CHARLEY ESKEW

How far will you go to see Longhorn League baseball before the Midland Indians return home?

There's good opportunity—and soon—to watch, if you're willing to drive. Exhibitions are starting, and those of you who can't wait for the first home game should start gassing up the bus.

San Angelo, for one, is moving into action quickly. April 4. That's Saturday—did you know the season was that close?

That first game—first excluding Midland's 16-8 triumph over Borger last Sunday and its April 3 game at Austin—is in San Angelo with the Colts yielding visiting honors to the Hardin-Simmons University nine. It's the first of a whole slew of games in the area.

Big Spring which begins training at home Wednesday offers the best deal, though, and will play its first game there April 5 against the train-as-they-travel Rowell Rockets.

Most of you won't make any jaunts up to Roswell and Artesia, so here's a list of some nearby baseball (including Carlsbad in case you do a bit of sightseeing there):

April 8—Hardin-Simmons at Big Spring, Roswell at Carlsbad. April 9—Big Spring vs. Plainview at Ballinger. April 10—Plainview at Big Spring, Walker AFB at Carlsbad, Brooke Army Medicals at San Angelo. April 11—Carlsbad AFB at Big Spring, Fort Bliss at Carlsbad, Brooke at San Angelo. April 12—Fort Bliss at Carlsbad. And April 13—Big Spring at Carlsbad, San Angelo vs. Hardin-Simmons at Abilene.

Then Midland is home. April 14—Abilene at Midland, Big Spring at Carlsbad, Odessa vs. Lubbock at San Angelo.

April 15—Big Spring at Midland, Clovis at Carlsbad, Abilene at San Angelo.

April 16—Abilene at Big Spring, Midland at Odessa, Lubbock at San Angelo, Albuquerque at Carlsbad.

April 17—Midland at Big Spring, Albuquerque at Carlsbad, Abilene at Odessa, Lubbock at San Angelo.

April 18—Lubbock vs. Big Spring at San Angelo, Abilene at Carlsbad, San Angelo at Abilene.

April 19—Big Spring at Abilene, Odessa at Midland, Amarillo at Carlsbad.

April 20—Lubbock at Big Spring.

Then the season April 21.

You won't find Lamesa among those with exhibition games; it appears there is nothing definite along that line for ex-Midlander, now Lobo owner-manager, Harold Webb. He has told reporters that he plans about six or seven practice games. None, though, are scheduled as yet.

While there's nothing to his pre-season slate now, Webb is certain of one thing, or so he says: "I don't want any games with Longhorn League teams before the season starts."

The last three of the league clubs started into training Wednesday morning, if you can call the shenanigans of Roswell and Lamesa that into a fairly rational existence.

Roswell, though, is training by bus. Manager Pat Stacey, last year's manager at Big Spring, reportedly took his bus this week to Florida to pick up heaven-knows-who coming over from Cuba.

He had signed several Cubans and, reportedly, Gilbert Wilson, a negro, on a shopping trip several weeks ago. The staples on his team include Aramis Arenchibia from Big Spring and Andy Alonso and Bob Weaver of Roswell, 1952 Longhorn pitchers, and Enrique Gonzalez, Wayne Crawford, Emmett Grantham and Les Palmer, besides a roster of rookies.

Webb's catch-as-catch-can method of rushing in enough players to make a Lamesa team has sent him scurrying to both Oklahoma City and Hollywood for help. At unofficial workouts Monday and Tuesday, it looked like he was succeeding. Oklahoma City, for one, give him five players of a six-man squad. Catcher Ted Shelby, Pitcher Hubert Brooks, Infielder Martin Engel, Outfielder Jon Miller, all rookies, and Infielder Bob Greer, besides Kerney Hughes off the 1952 Sweetwater roster.

Who knows how many—or who—Hollywood is supposed to toss in, or what others Webb will acquire by the end of this first training week?

Big Spring had Second Baseman Jesse Jacinto, Third Baseman Billy Joe Kiser, Shortstop Al Costa, Outfielders Bobby West, Armando Diaz and Jake McClain, Catchers Al Valdes and Gib Phillips and Pitchers Ray Machado, Pancho Perez, Oscar Reguera and Tom Avinger eagerly awaiting the starting gun.

Eagle Bowlers Lead In Encounter With Central Barbers

Three teams are in a position to be on top of the Civic Bowling League Wednesday night when the leaders, the Eagles, risk their margin against fifth place Central Barbers.

Pressing for first, besides the Eagles, are Kiwanis clubbers, who face the Lions, and third-place Jay-Cees, who contend with VFW.

The Eagles are a game ahead of Kiwanis and two in front of the Jay-Cees.

Another Wednesday game matches Schiltz Beer and Ralph Lowe.

The Eagles took over first last week, beating VFW in three games. Kiwanis stayed close with a 3-0 victory over Ralph Lowe while the Jay-Cees dropped from a first place tie by losing two of three to Central Barbers.

The Lions won the other set in three games from Schiltz Beer.

The standings:

Team	W.	L.
Eagles	45	33
Kiwanis	44	34
Jay-Cees	43	35
Lions	41	37
Central Barbers	41	37
Schiltz Beer	36	42
VFW	31	47
Ralph Lowe	30	47

FOR ONE GAME—

Indians Fold Up Tent

FREDERICKSBURG—Manager Jay Haney late Wednesday takes his Midland Indians off the diamond to put them in the stands and tell them, "Now, do as they do."

What he will mean, when the Indians break up practice early Wednesday to travel to Austin, is watch the Chicago White Sox and pick-up-pointers. Midland's club will be spectators while the American League unit meets Austin of the Big State League in an exhibition game.

Haney scheduled an early workout, starting at 12:30 p.m. Wednesday, in order to give the Indians a holiday at Austin. They return to Fredericksburg Thursday, then to Austin again Friday for their second exhibition game. That's against the Big State Pioneers.

JayCee Softball Committee Sets Meeting For Managers

Midland JayCees, moving closer to their 1953 softball league season, Wednesday began inviting teams and manager to join the circuit for this summer's play.

The JayCee Athletic Committee announced that all managers and sponsors of teams interested in playing should attend the JayCees' league organizational meeting at 7:30 p.m. Monday. It will be held in the Chamber of Commerce office, where entrance fees, rules, schedules and other plans will be discussed.

The athletic committee, headed by Chairman Randall E. Cooper, Jr., said all of last year's teams are being invited to participate again and issued a special bid to any new league members.

FOR ALL-STAR GAME—

Friday Selected On North Eleven

BEAUMONT—P—A total of 18 all-state high school football stars will take part in the annual North-South game put on by the Texas Coaching School.

The game will be played in Houston the night of August 7.

Thurmond (Tugboat) Jones, Midland, chairman of the selection committee announced the North All-Star squad Tuesday. The South squad had been announced earlier.

The North club includes Larry Friday of Midland, who sparked the Bulldogs' backfield last fall.

Jones' North list includes two players who made all-state from the Lubbock team that won the Class AAAA state championship.

End Mike Brady and Tackle Jimmy Gafford.

Other All-Stars are Glenn Priddy, Terrell, end; Bobby Lockett, Breckenridge tackle; Dale Dodd, Wink, and Clarence Reed, Denver City, guards; Jerry Tubbs, Breckenridge, and Ronnie McChesney, White Oak, centers, and Fred Kiss Austin (El Paso), and Leonard Fry, Brownwood, backs.

The remainder of the North squad:

Ends—Jim Paul Norman Crossell, Charles Bradshaw, Center; and Jimmy Coopers, Hermleigh; Tackles—Edmon Gray, Odessa; Bud Cockrell, Pampa; Alvin Smith, Lamesa, and Frank Makus, Forney; Guards—Jerry Watson, Kilgore, and Bert Landey, Springhill; Center—Jerry Turner, Abilene; Backs—Neal Williams, Gladewater; Bobby Morris, Seymour; M. C. Northam, Littlefield; Dixon Trick, Sabine; Joe

Dodgers Blow Tilt To Yanks

By The Associated Press
Spring and Fall, the New York Yankees continue to bring fear to the hearts of the Brooklyn Dodgers.

It happened again in the five-game Florida Spring series that wound up Tuesday in St. Petersburg.

Brooklyn won the first game of the series played two weeks ago, then promptly dropped the next two. When the series resumed Sunday, Brooklyn won the fourth game on the sterling pitching of Montreal rookie Johnny Podres.

But in the deciding contest, with their ace Carl Erskine on the mound, the Bums blew it, 4-2.

Little Murry Dickson of the Pirates warmed up for his opening day assignment by going nine innings against the Pirates' B squad, and winning, 7-4.

Bob Rush of the Chicago Cubs came within one out of a nine-inning job against the St. Louis Browns at Mesa, Ariz., but he was lifted when the Browns rallied for three runs. The rally was short, however, and the Cubs won, 5-3.

Milwaukee's Braves pounded Philadelphia Phillies' ace Robin Roberts for 11 hits in a 9-6 victory.

A late rally gave Cincinnati a 6-3 verdict over Washington.

Owls, Steers Play To 2-2 15-Inning Tie

By The Associated Press
Southwest Conference baseball had a bad case of frustration Wednesday after one game scheduled Tuesday was postponed because of wet grounds and another ended in a 2-2 tie after 15 innings.

Howard Grubbs, Southwest Conference executive secretary, said the Rice-Texas game at Houston would be replayed.

Bobby Leggett, Rice junior right-hander, went the full 15 innings for the Owls, trying to get their first win from the strong Longhorns since 1940. Leggett allowed the Steers just seven hits, only two in the first eight innings.

The Owls pounded three Texas pitchers—J. L. Smith, Boyd Linker and Roland Jones—for nine hits.

After each team scored early runs, Texas took a 2-1 lead in the fourth-inning. But the Owls came back and tied it up again in their half of the inning. After the scoreless fifteenth, the game was called because of darkness.

Purdue Okays Bowl Pact

CHICAGO—P—A resounding "aye" from an unpredictable Purdue faculty has virtually assured more Rose Bowl games between Big Ten and Pacific Coast Conference football teams.

The Purdue profs gave the post-season Pasadena classic an okay late Tuesday. The vote was 185-70.

With this key vote in, an official agreement apparently awaited only:

1. Affirmative votes by the faculties of Indiana and Michigan. These are considered certainties.
 2. A formal vote at the Big Ten's annual Spring meeting May 28-30 of athletic chiefs.
 3. A decision about how frequently any one Big Ten team may appear at Pasadena.
 4. Working out of details between Big Ten representatives and officials of the Pacific Coast Conference.
- The current agreement expires after the Jan. 1, 1954, game.

Bulldogs Clip Lamesa, 7-5, With 10 Walks, Three Hits

Midland High tiptoed lightly into the win column in baseball Tuesday whipping Lamesa, 7-5 after a lone hit in the second inning gave the Bulldogs impetus to go ahead and stay.

But it was a hold-your-breath affair, since Midland had to make its runs with three-hit resources.

A generous supply of walks—ten in all—were mixed in also to provide the win.

Outfielder Jesse Hatfield stood out both in the field and at bat. It was his hit—a triple, in fact—that scooted the Midlanders up front for

good in the second.

The game, though, was in doubt until the last pitch, when Snookie Roberts, Bulldog hurler, survived a shaky finish by getting the last man, Elwood Hamilton, to fly out with the tying run on first base.

Roberts yielded nine hits as the first Midland pitcher to complete a game.

Three Lamesa pitchers freely accumulated strikeouts, putting down 11 men, but yielding walks cost heavily. Loser Carlos Berry put Walt Bingham on in the second, then fanned two before filling the bases

with two more passes. Hatfield next drove all three runners home with a triple past the center fielder. He scored himself, making it 4-0, on an error.

Midland rested until a single run in the fifth and two in the sixth were necessary to clinch it. Until then, Lamesa threatened. The Tornados used Conrad Alexander's single, an error, Millard McDonnell's run-producing fly-out and Berry's triple for two runs in the third.

They pulled to 4-3 on a passed ball after a hit and two wild pitches in the fourth.

Reeves, who relieved Berry, gave up but one hit and held Midland scoreless until Bingham's first single, his stolen base, a wild pitch and a daring run home on a throw to first made it 5-3 in the fifth.

Midland got its two-run margin on a walk, an error, Grisham's theft of home and Bingham's second single.

Lamesa, in a fading rally, wrapped two singles around a fine running catch by Hatfield before scoring its final two runs. Dee Phillips produced them with a double that bounded—and so did the pursuing Hatfield—off the left field wall.

Roberts, though, was out of trouble three shaky plays later, a catch by Rusty Rutledge, a walk and Hamilton's fly-out to Hatfield.

TWO OUT—Pitcher Russ Meyer, center, holds up two giant-sized molars for inspection after having them yanked at teammates Pee Wee Reese, left, and Gil Hodges amusingly gaze over his shoulder at the Dodgers' Vero Beach, Fla., training camp. (NEA)

Bulldog Linksmen Decide Positions

Midland High School golf team members settled their dispute for permanent berths for the Bulldogs' joint to Texas A&M this week and for the District 2-AA meet next week Tuesday afternoon at the Midland Country Club Course.

Buzzy Bray, Lee Sheed and David Breedlove joined Marcelino Moreno on the foursome by outshooting three other contenders over 36 holes of qualifying. Moreno was exempted from qualifying and named to the No. 1 position by Coach Audrey Gill Monday.

Bray fired a two-over-par 74 Tuesday to put with his 76 of Monday to land the No. 2 spot, while Sheed came back with an 84 after having a 79 Monday to nail down the No. 3 position. Breedlove shot an 81 Tuesday for a 36-hole total of 164 which was good for the final

position.

A newcomer, David Moody, ousted Dickie McHargue and Waldo Leggett from the team. He shot an 84-83-167 to win the alternate's berth.

Leggett and McHargue had 85 Monday. Leggett came up with an 84 Tuesday but McHargue fell to an 88. Both had played in previous matches.

The Bulldogs leave at 5 a.m. Thursday for College Station, where they will play 36 holes Friday and another 36 holes Saturday in the Texas A&M High School Invitational Tournament.

Awards will go to team and individual winners and to runner-up.

The district meet is scheduled at Odessa next Saturday.

Women Lead Way Into Busy Season Of West Texas Golf

The women golfers of West Texas are stealing a march—two in fact—on the men when it comes to playing for prizes.

Last week the first of 22 tournaments thus far scheduled for the Summer threw the women of hereabouts into contention. That was the one-day Women's Invitational at Odessa. And, now, the second competition is coming up.

That, too, finds the women playing, moving into San Angelo April 8-12 for the Country Club's Women's Invitational which actually introduces a full season of golf.

Mrs. Olin Blanks, publicity chairman for the San Angelo tourney, announced this week that a large field is expected to play there. The top feature, she said, is the battle in which West Texans will try to prevent an East Texan from winning a second straight time.

Nellie Moody of Sherman won last year and has indicated she would be around to defend the crown.

Midland golfing ladies will be at least three strong, possibly more, at San Angelo.

Gloria Ezell, Midland Country Club champion, Pete Minnerly and Lana Faye Garrett all have indicated they would enter.

Pros Jay McClure of Midland CC and Abe Beckman of Ranchland Hill said Tuesday that from two to half a dozen more from each club were making plan to attend.

Midland's Pat Garner, who last week reached the Texas state amateur meet quarter-finals, will miss the Angelo play to compete in two events in Phoenix, Ariz. She matches shots with the country's top pros.

April 12-13, in the Weatherman and the top amateurs at the Wpmen's Trans-Miss, April 14-19, both on the Arizona Country Club course.

While the women are getting into area tournaments early, most men wait until April 17-19 for the Lamesa Country Club's Invitational. Until then, however, there's the Get Acquainted tourney for members of Midland Country Club, April 11-12. That kicks off a busy tourney season here, with six already scheduled and one or two more to be prepared.

Here's the Summer card to date:

April 8-12—San Angelo Women's Invitational.

April 11-21—Midland Country Club Get Acquainted tourney for members.

April 17-19—Lamesa Invitational.

April 20-26—Qualifying for Reporter-Telegram Midland City Championship tournament at Ranchland Hill.

April 26-26—Iraan Invitational.

- April 30 - May 1-2—Colorado City Invitational.
- May 1-3—Match play, Reporter-Telegram Midland City Championship.
- May 13-17—Midland Country Club Women's Invitational.
- May 15-17—McCamey Invitational.
- May 27-30—Hobbs, N. M., Women's Invitational.
- June 5-7—Winkler County Invitational, Kermit.
- June 11-14—Men's West Texas, Ranchland Hill, Midland.
- June 15-19—Women's West Texas, Amarillo.
- June 17-21—Hobbs Invitational.
- June 25-28—San Angelo Invitational.
- July 1-5—Abilene Invitational.
- July 14-18—Tri-State Seniors, Amarillo.
- July 30 - August 1-2—Amarillo Partnership.
- August 26-30—Odessa \$7,500 Pro-Amateur.
- September 3-7—Midland Country Club Invitational.
- September 4-7—Big Spring Invitational.
- October 15-18—Texas PGA, Ranchland Hill, Midland.

West Berlin Mayor Pleads For Aid In Refugee Crisis

The daily flight of up to 3,000 refugees from East Germany's Communist tyranny has put such a strain on West Berlin that Ernst Reuter, the city's mayor, is appealing to the American people for help. He cabled: "Their ever-lasting numbers threaten our precarious economic situation... cannot provide adequate housing, food, clothing. There is no work, no hope of normal life for them. . . . Need vast shipments of food and clothing especially for undernourished children. . . . About 87,000 men, women and children have fled the Soviet zone so far this year. Photos below show some of the tragic scenes enacted daily in Free Berlin.

Ernst Reuter Mayor of West Berlin

"Fischer Street" in British sector of Berlin, is address of hope for East German refugees. Here officials, at left, register and process new arrivals, as many as 3000 per day.

Shipments of clothing from more fortunate citizens of other lands are treasure trove for homeless, destitute refugees.

Straw mattresses and blankets are luxuries to the 3000 refugees who crowd this emergency shelter in abandoned factory.

Korean War Victory Act Said Halted

WASHINGTON—(AP)—Gen. James A. Van Fleet testified Wednesday he was stopped by orders from making an amphibious landing behind the Communist lines in June, 1951, which he was convinced could destroy the Red armies in Korea. The former Eighth Army commander told senators he was ready to go with the operation when he received stop orders from Gen. Matthew Ridgway, then the Far Eastern commander with headquarters in Tokyo. Van Fleet said the Eighth Army had smashed two Red Spring offensives and he recommended "that we follow up with an amphibious landing on the East Coast."

Van Fleet's testimony was given to a Senate Armed Services subcommittee as it opened a televised inquiry into ammunition shortages in Korea. At the start, Senator Margaret Chase Smith (R-Maine) declared "there is no doubt that there were shortages" despite the Pentagon's denial that there were any of consequence. She said the inquiry would attempt to pinpoint responsibility. Mrs. Smith is chairman of the subcommittee.

being present and participating; these caused to be considered the petition of W. H. COLLINS and sixty other persons for an election to be held in Midland County, Texas, to determine whether or not bonds should be issued by said county to the amount of \$350,000, for the purpose of the construction, maintenance and operation of macadamized, gravelled or paved roads and turnpikes, or in aid thereof, in Midland County, Texas, and whether or not valorem taxes shall be levied on all taxable property in said county subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity; and

IT APPEARING to the said court that said petition is signed by more than fifty (50) qualified property taxpayers of said Midland County, Texas, and

IT IS FURTHER ORDERED that the amount to be bonded will not exceed one-fourth of the assessed valuation of the real property of said Midland County, Texas, to-wit: \$350,000.00, for the purpose of the construction, maintenance and operation of macadamized, gravelled or paved roads and turnpikes, or in aid thereof, in Midland County, Texas; said bonds to bear interest at the rate of FOUR PER CENT (4%) per annum, and to mature serially over a period of years not to exceed twenty (20) years from the date thereof, and whether or not valorem taxes shall be levied annually upon the property in said Midland County, Texas, subject to taxation, for the purpose of paying the interest on said bonds and to provide a sinking fund for the redemption thereof at maturity.

THE SAID ELECTION shall be held under the provisions of the Acts of the Thirty-third Legislature, First Called Session, Chapter 18, as amended, ALL PERSONS who are legally qualified voters of said Midland County, Texas, who are resident property taxpayers of said county and who duly rendered their property for taxation, shall be entitled to vote at said election.

IT IS FURTHER ORDERED that the ballots for said election shall be prepared in sufficient number and in conformity with Chapter 6, V.A.T.S. Election Laws, as amended, of the Thirty-third Legislature in 1951, and that printed on said ballots shall appear the following: "FOR THE ISSUANCE OF BONDS AND THE LEVY OF AD VALOREM TAXES IN PAYMENT THEREOF."

Civilian Club Votes Team Sponsorship In Little League

Civilian Club members agreed to sponsor a Little League baseball team this year in their Wednesday afternoon meeting at Hotel Scharbauer. John Redfern, Jr. explained the purpose of the Little League from six teams three years ago to at least 16 expected for the coming season. Redfern said between 500 and 600 boys are expected to participate in this year's Little League activity here. The system has been expanded to allow boys up to 18 years of age to play.

Arden Grover was suggested as a possible manager for the Civilian Club team. Len G. McCormick, Civilian Club president, was in charge. He asked all members still holding traffic survey reports to turn them in promptly.

Confusion In Spraberry—Calm John Christie Faces British Court

LONDON—(AP)—An owl-eyed clerk charged with murdering his wife and questioning about the sex-kill strangled at least five other women—appeared briefly in a crowded court Wednesday. He was ordered jailed for another week. Gaunt John Christie, 55, seemed nonchalant—even bored—with the short proceedings. His only outward sign of emotion was a single furrow in his pale brow. He made no statement.

The prisoner was gazed heavily. Outside the court a crowd strained against police lines. Judge Clyde Wilson granted Scotland Yard's request that Christie be "remanded"—held over—for another week. Detectives want more time to probe into Christie's past and to grill him further about the mass "murder house" slayings in London's drab Notting Hill Gate district.

Christie was captured Tuesday after a seven-day nation-wide manhunt—Britain's most intense since the days of Jack the Ripper. He was charged formally with the slaying of his wife, Ethel.

The body of Mrs. Christie, 54, was one of six female corpses so far found interred or walled up in the macabre house of murder in the district where Christie had lived since 1935. Police believe more bodies found in the garden may belong to a seventh victim.

Ike Seeks Higher Rank For Van Fleet

WASHINGTON—(AP)—President Eisenhower Wednesday accepted the resignation of James Mitchell as a member of the Civil Service Commission and immediately nominated him deputy assistant secretary of Defense.

Eisenhower sent to the Senate the nomination of George Moore of Kentucky to succeed Mitchell on the Civil Service Commission.

The President nominated Judge Stanley Barnes of Los Angeles as assistant general in charge of the Justice Department's anti-trust division.

He nominated Gen. James A. Van Fleet, who recently returned from command of the Eighth Army in Korea, for retirement with the rank of general. Van Fleet's permanent rank now is major general.

Senate Panel Gets Authority To Check Income Tax Returns

WASHINGTON—(AP)—President Eisenhower gave the Senate Commerce Committee Wednesday power to examine income tax returns in a move the White House said was aimed at New York waterfront racketeers.

This was believed to mark the first time the White House has empowered the Commerce Committee to look at income tax returns.

The Commerce Committee, under Senator Tobey (R-NH), is looking into charges of racketeering and political influence in the dock areas of New York and northern New Jersey.

REPORTING THE TOP NEWS IN REAL ESTATE
JUST A LITTLE BIT of Heaven was sprinkled on this home—and so the young owners kept it that way. In immaculate condition thru-out, this jewel has two lovely bedrooms, a welcoming living room, dining room, ALL METAL kitchen (Vent-A-Hood and washer connection), generous closets, and attached garage with built-in storage. A fence surrounds the landscaped grounds. Owners regretfully leaving Midland. \$2,200 to handle including closing costs. \$10,950.
PLACE YOUR PAINTINGS on display. Or do you need more room for that huge piano? Either is so easily accommodated in this new, brick home with its spacious living room. Located in Urbandale, it has 3 wonderful bedrooms, 2 ceramic baths, eye-catching kitchen with deep free area, dining area, and Murphy metal cabinets in the kitchen (with pantry), and attached carport and utility room. It's got NINE CLOSETS. Central heating, air-conditioned, and ideal floor plan if you want to preserve your living room rugs. Lawn, paving, and completely fenced yard. Even a dog house! Can be owned for as little as \$2,000 down. Priced at \$11,750.
WE KEEP TRYING because you keep trying for bargains. If you don't look at this one, then you've been jinxed. 3 bedrooms, tile bath, large living room, off-set dining area, Murray metal cabinets in the kitchen (with pantry), and attached carport and utility room. It's got NINE CLOSETS. Central heating, air-conditioned, and ideal floor plan if you want to preserve your living room rugs. Lawn, paving, and completely fenced yard. Even a dog house! Can be owned for as little as \$2,000 down. Priced at \$11,750.
STOP SCREAMING! I'll tell you all about it. It's got 5 bedrooms, a sun-porch or den, 3 baths, huge living room, and a 2-car attached garage. It's got some beautiful carpeting, yellow St. Charles kitchen cabinets, Vent-A-Hood, automatic dishwasher, central air-conditioning, distributed heating, miles of closets. It's so big, I'll bet you'll get lost the first go-around. Price: \$60,000? Nay, only \$11,500. \$3,500 down. There. Now you know it, too.
OUR SINCEREST CONGRATULATIONS this week are extended to our doctors and dentists—who, with their invaluable assistance, prevent our lives from being one of from pain to pain.
IN MIDLAND'S FAIRY LAND of trees (Ridgley green is sprouting all over). Best located to appreciate Heaven's little acre in Midland, is the 3-bedroom home which we have at 704 West Nobles. Built also has a charming living room and dining area, compact kitchen, and viewing front porch. For outside entertainment on your toll-free hours, there are the beautiful and private rear grounds with trees, lawn, and tile fencing. Because of illness, owner must sell at the inviting price of \$13,500.
1403 WEST MICHIGAN has the perfect kitchen. Also 2 lovely bedrooms, nice living room, and attached garage. Tile fence, lawn, paving, and best of all—LOCATION. \$12,900.
209 WEST ESTES has been recently redecorated so that you can move in without any work to be done. 2 lovely bedrooms, living room, dining room, and attached garage. Go see. You'll like it, \$10,900.
IT'S A 2 AND DEN. On Delano. And the den is 10x24, pine paneled. Far below the current market price at \$9,800. We're sadists when it comes to beating down the prices for you prospective purchasers!
\$1,300 is the FULL down payment for this attractive 2-bedroom home located at 1509 South Weatherford. No closing expenses. It's got a wonderful living room, big kitchen, tile bath, and attached garage. We could arrange your buying it for \$900 down with the rest in a second lien. What more could you ask?

COPS CHEAT BUT SLIGHTLY

EAST PATERSON, N. J. — The deadline for driving in New Jersey with 1952 license tags was Tuesday midnight. Shortly before the deadline, a radio patrol car contacted Police Desk Sgt. Michael Stack with this message: "Car four-eight, car four-eight to headquarters. Sergeant, we can only work up to midnight. We don't have tags on the car." Quipped back the sergeant: "Just keep going. Stay clear of cops and you'll be all right."

Texan Warns Cotton Acreage Cut Needed

DALLAS — Federal cotton controls are certain by 1954 unless farmers cut plantings, Fred Elliott of Texas A&M says. Elliott said Tuesday Texas needed to cut its 1952 planting total by 16 per cent. "You can be sure that to the extent this nation exceeds 12,500,000 bales this year the closer we will come to federal crop controls in 1954," he said.

More Than 1,500 Midlanders View Voting Machine

More than 1,500 persons have been shown the voting machine in the current straw vote, officials of the League of Women Voters reported Wednesday morning. The league started its ballot Tuesday on the question of whether Midland County should purchase the machines. The count was to end at 5 p.m. Wednesday. Mrs. Richard Doran, chairman of the voters' service committee, pointed out that purchase of the machines will not raise taxes. They also will lessen the cost of holding elections and assure immediate announcement of results.

Spring Pasture Season May Halt Cattle Price Declines

WASHINGTON — Government farm officials are counting heavily on the approach of the Spring pasture season to halt a prolonged—and politically worrisome—decline in producer prices of beef cattle and veal calves. An Agriculture Department report Tuesday showed that average prices of beef cattle had declined about five per cent and veal calves about eight per cent between mid-February and mid-March. The general level of farm prices on the other hand, increased one-third of one per cent during the

month to end a steady six-month decline. Secretary of Agriculture Benson has been predicting cattle prices will strengthen. He bases this on the fact that demand for unfattened cattle normally increases in the Spring, when grass and pastures become available. This demand usually advances cattle prices. Beef cattle prices in mid-March was down about 36 per cent from a year ago. Much of this decline reflected the facts that cattle numbers had been increased to record numbers and marketings during the Fall and Winter had increased sharply. The cattle price setback has brought demands for some congressmen that Benson adopt measures to strengthen markets. The secretary has said the cattle industry opposes government farm price supports.

Farm products which increased in price between mid-February and mid-March included wheat, corn, cotton, hogs, rice and eggs. Hogs were the only class of livestock that rose. This reflects a decline in hog production. Read The Classified Ads

TEXAN IN CHARGE—Lt. Col. Lawrence E. Sommers, native Texan and Texas A&M graduate, shown above with his family, now sits at the desk once occupied by Herr Hitler in his old Summer residence of Berchtesgaden, where he built his mountain top "Eagle's Nest." The children are Lawrence, six, and Judy, 13. The family will return to Texas this Summer.

Texan Rules Adolf Hitler's Old Haunt Of Berchtesgaden

By GRACE HALSELL
Reporter-Telegram
Special Correspondent

BERCHTESGADEN, GERMANY.—Perched high above Berchtesgaden in his favorite mountain top retreat "Eagle's Nest," Herr Hitler once reigned supreme, but the commanding officer here now no longer is a shouting maniac but a soft-spoken colonel with a familiar Texas drawl.

He is Lt. Col. Lawrence E. Sommers, commanding officer of the Berchtesgaden Recreation Area.

When the frustrated paper hanger chose Berchtesgaden for his favorite retreat, he fenced off a couple of choice mountains for himself and slapped "no trespassing" signs on the best ski slopes and trails.

That's different under Colonel Sommers.

The entire Berchtesgaden area, one of the loveliest in the world, has been opened to the enjoyment of everyone—whether he be a general or a private.

For a field artillery officer, Colonel Sommers finds his present role as CO of a recreation area "versatile." He is something of a mayor of Berchtesgaden, something of an executive officer of a chain of hotels

(the Americans have 13 hotels for their personnel who come here on leave) the American representative to the Germans—and a commanding officer of a post.

"We Pay Our Own Way"

While some have criticized the lavish recreational facilities offered the servicemen in the two "play spots" of Germany—Garmisch and Berchtesgaden, Colonel Sommers explains:

"We pay our own way—just like Mr. Hilton."

While the interview was in process, the commanding officer had an interruption to discuss the matter of one of his hotel managers charging 30 cents for a hamburger and the same price for a cheeseburger.

"If the hotels pay for themselves then we must watch every nickel," he explained.

Headquarters building for the

Berchtesgaden Post formerly was used by the Nazi bigwigs. Colonel Sommers' office formerly belonged to Adolf Hitler.

Sitting on the big desk now, however, in place of the Swastika is a miniature Texas flag.

"Salute when you see that," the colonel jokes.

Colonel Sommers was born some 40 years ago in Dallas. His mother, Mrs. R. H. Pearson, resides there now. She was in Berchtesgaden a year ago to visit her son, and his wife.

Before she was married, Mrs. Sommers was the former Lucille Thornton, daughter of Mr. and Mrs. N. T. Thornton of Houston. She was born in Weldon (near Crockett), lived in Huntsville, and was married in Rosenberg.

They have two children, Judy, 13, born in Temple and Lawrence, six, born in Houston.

Fugitives From Iron Curtain Rely On U. S. Escape Program

By DON DOANE
FRANKFURT, GERMANY.—(AP)—They flee from the terrorized East many ways.

Some pirate airplanes for their escape. Others have seized locomotives. An excursion boat captain ran his river ship past shooting guards to a haven for his family in the West. Most simply sneak by night across borders where Communist police have orders to shoot to kill.

All risk their lives, leaving homes, property and jobs behind. They arrive in the west by the thousands—free, but penniless. In an area already overcrowded with refugees, they face a bleak future.

This is where the United States Escape Program

The U. S. has a project to help these fugitives get on their feet as free men. It's called the "escape program." It began last Summer with a \$4,300,000 appropriation for its first fiscal year.

So far, it has helped almost 12,000 fugitives including 3,000 Hungarians, 1,300 Poles, 600 Albanians, 300 Balts, 1,200 Bulgarians, 600 Romanians and 500 Russians.

It has enabled 3,400 of them to emigrate to the U. S., Canada, South America and Australia. For the others, it has provided food, clothing and medical aid. Some have received short training courses in languages or trades to help them qualify for emigration.

This program has convinced thou-

sands—who were beginning to doubt—that their risk was worthwhile, that the free West really offers them a better chance in life.

"The significance of this program," says its director, Richard R. Brown of Littleton, Colo., "lies in the rebuilding of hope among the refugees. They become aware that they are not neglected by the free world. They no longer need to remain without prospects in overcrowded camps."

"Equally important, ways and means are provided to give practical and constructive expression to the free world's desire to extend to those whose faith in democratic ideals has induced them to flee from the Iron Curtain countries."

Hope For Money

The law creating this program was introduced in 1951 by Rep. Charles J. Kersten, (R-Wis) who regarded it as a defense measure as well as humanitarian.

Naturally, the Communists don't like this program. They have complained in the United Nations but there appear no signs that the program will be abandoned. In fact, its directors hope for more money next year.

A recent report estimated there are more than 20,000 non-German refugees from communism living in camps scattered around the rim of the Iron Curtain—with about 400 more arriving every month. Refugees from the Soviet zone of Germany are cared for separately by the West German government.

The U. S. escape program does not attempt housing and feeding. Their camps are operated by the country to which they flee. That country provides the barracks and a minimum subsistence diet.

The escape program supplements their meager supplies and helps them emigrate. It works through many relief and welfare agencies such as the National Catholic Welfare Conference, the American Joint Distribution Committee, the American Fund for Czechoslovakian Refugees, the Lutheran World Federation, the American Polish War Relief and the International Rescue Committee.

By 1954, California expects to import enough natural gas from Texas to produce power equal to that produced by 28 waterpower projects the size of Hoover Dam.

RURAL CHURCHES

Approximately two-thirds of the churches in the United States are located in rural communities, which have one-third of the nation's churchgoers.

"Shell molding" is a technique for making castings in a shell-like sand mold varying in thickness from one-eighth to three-eighths of an inch. The sand is bonded together with a thermo-setting binder.

Symbol Of Moral Rightness

Queen Mary was the perfection of regal grace and dignity, the symbol of moral rightness. She stood supremely for the triumph of duty and service above all else.

Her 85 years encompassed all or part of the reigns of six sovereigns, beginning with Queen Victoria. She was wife to King George V, mother of Edward VIII and George VI, grandmother to the reigning Queen Elizabeth II.

This lifetime spanned much of Britain's modern history, including two world wars, the great depression, and the troubled, austere postwar era.

In World War I she bore conscientiously the heavy burdens laid inevitably upon the royal family. Again in World War II, she took a major part in royal activities supporting the British war effort.

Inescapably, tragedy struck her many times. Her son, Prince John, died at the age of 13. After George V died in January, 1936, her eldest son, the Prince of Wales, became Edward VIII.

In World War II another son, the Duke of Kent, died in an air force mission. And then, in February of 1952, George VI, who had succeeded Edward, died after only 13 years of rule.

Through it all, Queen Mary bore herself in the grand manner, conscious ever of the heritage she symbolized. As if fearing they somehow would detract from her stature, she shrank from using some of the most common of modern inventions, especially the telephone and television.

Contrarily, she bestowed a lingering fame on two quite ancient inventions; the furred, ruffled parasol and a species of upright hat so bedecked with flowers and frills as to defy contemporary streamlining.

How sad that her final wish, to see her granddaughter crowned, was denied her. The young Elizabeth was in a sense the last product of the old queen's will and spirit.

When the crowning comes, Mary will not be there to watch. But in the new queen will be much of her, all the same. Indeed, there is something in her in every Briton, in every free man, who regards well the qualities that marked her passage along the path of history.

Take a tumble in advance and it will help you to keep from being a fall guy.

Precarious Perch

The Washington Merry-Go-Round

By Drew Pearson

Drew Pearson says: Taft doesn't want another general; Frankie Costello's successor welcomes a subpoena; Revamped Tideland oil bill caused hot senatorial debate.

WASHINGTON — President Eisenhower was talking to his Monday morning caucus of Senate leaders about the question of replacing Carl Gray, now head of the far-flung and very important Veterans Administration.

Someone proposed that Gen. James A. Van Fleet, recently returned Korean war hero, be made Veterans administrator. Whereupon the outspoken senator from Ohio interrupted.

"I don't think," suggested Taft, "that we ought to have another general."

Taft caught himself and grinned. Looking around the room, however, he noted that no one else grinned. He said nothing. So Taft said nothing further.

Later Taft explained to friends that he did not mean this as a crack against generals in the White House. "There will be nobody denied any but that a general, accustomed to Army red tape, was not a good man to handle the red tape-bound Veterans Administration."

The incident, incidentally, does not indicate any coolness between the two top leaders of the Republican Party. Taft has been getting along much better with Eisenhower.

The two are eye-to-eye on more issues, and the President has been taking more of Taft's advice. Taft says privately that he still reserves the right to differ, and may have to do so eventually. But he isn't going to differ on details.

Timid Tony: Tony Bender, Republican successor to Frankie Costello in the New York underworld, almost had heart failure when Bible-quoting Senator Tobey's investigators served him with a subpoena to come to Washington for the New Jersey waterfront investigation.

Tobey's agents tracked Bender to his girl friend's apartment in Greenwich Village, then closed in. Bender zoomed his car up the street. Senate agents in hot pursuit. Finally they forced his car to the curb.

Bender, got out, thinking a rival gangster was about to bump him off. Sweat was dripping from his brow. He was quaking with fear.

When he got only a Senate subpoena, the big racketeer looked as if he would kiss the agents on both cheeks. He accepted it with pleasure, timidly asked if he could bring a lawyer.

Secret Tideland Testimony: The vital closed-door debate giving offshore oil to the coastal states still is hushed up inside the Senate Interior Committee. However, here are the highlights of what happened. Loudest uproar was over the way

the bill was rewritten. Tideland Bill was dividing the Tideland problem into two parts. Since Texas and Louisiana have been squabbling with California over how far out into the ocean the states had a right to oil, the Republicans decided first to give title to the states as far out as the "historical" boundaries. Later they will take up the Texas-Louisiana claim to the oil-rich continental shelf which stretches 200 miles under water in some places.

"These states are anxious to get title cleared up to the edge of their historical boundaries," suggested Senator Anderson. "They might be willing to let us clear up the question of who can lease beyond. But I have no hope of seeing the bill passed in my lifetime that will deal with the continental shelf."

"Well, I have every hope that it will be signed before the Fourth of July," Cordon responded. "But which year?" Anderson cracked back.

"In 1953," snapped Cordon. "It is unthinkable that such legislation will not be passed without delay."

"It has been unthinkable for years," retorted the New Mexico senator. "Those of us who represent (the coastal) states haven't been suggesting that there is a filibuster against such a bill," blurted Louisiana's Senator Russ Long. "The filibuster has been suggested by (our opponents)."

"Can the senator name one person that suggested that?" demanded Anderson.

"It has been suggested by the senator from New Mexico as I understood it," replied Long, looking straight at Anderson.

"Maybe as you understood it, but no person has ever quoted me saying that and told the truth," snorted the New Mexico senator. In effect calling Long a liar.

Texas' freshman Senator Price Daniel, who was elected on the Tideland oil issue, chimed in that he never had claimed state ownership of the outer continental shelf.

"In 1937, both Texas senators agreed that the federal government owned the area lying at the end of the ocean and didn't talk about these historical boundaries," Anderson recalled. "Any man in public life that would get up in Texas now and say he did not believe Texas owned those, the communities would fight for the privilege of hanging him from a lamppost. I give us another 15 years and there will be people who claim that Texas owns land to the very edge of the Gulf of Mexico."

JACOBY ON BRIDGE

Perhaps North bid today's hand a bit aggressively, but there is certainly reason for his strong bidding. If you look at the South hand and then at dummy, you would certainly want to be in contract of six spades.

West opened the king of hearts, and declarer won the trick with dummy's ace. He then led the four of spades from dummy. East played the seven of spades, and South bravely played a spade from his hand.

West followed with the three of spades, and South reached for the trick. "My seven, if you don't mind," East pointed out avidly.

South looked at the trick and saw that he had played the six of spades instead of the king. "Of course," said South glibly. "The trick is yours, and I was just picking it up for you."

South actually was wondering how he was going to explain this lapse to his partner: North hap-

penally to be a little blunderer, with a rather sharp tongue. But South hoped he could play the rest of the hand well enough to escape criticism.

East returned a heart, and South ruffed. He then ruffed a club with dummy's ten of spades, cashed the queen of spades, returned to his hand with the king of diamonds, and drew the last two trumps, discarding dummy's remaining hearts. It was then a cinch, of course, to take the rest of the tricks with the diamonds.

"Magnificent play!" North exclaimed warmly. South noted with astonishment that there was no sarcasm in his partner's tone. "You really had to give away the first trump trick to make sure of the slam," North continued. "If you try to draw trumps first, the second diamond gets ruffed and back comes either a club or a trump, whichever is needed to beat you."

North continued delightedly with his analysis of the play. He was quite correct, of course, for South accidentally had made a brilliant play.

Just in case this hand encourages you to look for accidental brilliancy, look carefully at the date. These magnificent accidents happen only on April 1.

CIO-AFL Reunion Is Possible But Experts View It Unlikely

By PETER EDSON, NEA Washington Correspondent

WASHINGTON — The remote possibility of a reunion between American Federation of Labor and Congress of Industrial Organizations has set some of the older heads among Washington industrial relations experts thinking. They want to see what it involves. Would it be a good thing for the general public interest? Or bad?

In the first place, there is considerable doubt as to whether AFL and CIO leaders really want merger. A conference between committees of leaders from the two big organizations has been scheduled for April 7. But this is an odd subject. If nothing happens, nobody will be surprised.

If the late CIO president, Phil Murray, and his director of organization, Allan Haywood, had lived, it is believed that something might have come of the labor peace talks. With Walter Reuther of the auto workers now heading CIO and David J. McDonald heading the steel workers, there may be less interest.

In a way, the big labor union organizations have been needed into this peace talk by employers who have been caught in the middle of jurisdictional disputes. But the records indicate there are just as many rival union fights within AFL and CIO as there are between them.

Organic unity wouldn't end jurisdictional raiding by the auto workers upon the steel workers, the plumbers upon the boiler makers, or vice versa.

Important Obstacles Cited: Obstacles to organic unity are many. Personal rivalry of officials is a big one. When two organizations merge, one officer in each organization will have to give up his job.

The handicap of having one organization too big to handle is not insignificant. When there are two competitive organizations, they are both on their toes. One big monopoly might become fat, lazy and more corrupt than two.

The idea that there can be no unity between an organization of craft unions like the AFL and the industrial, mass-production industry type of union like the CIO now is discounted. It is pointed out that the huge teamsters' union now is much like an industrial union, but it is perfectly at home in the American federation of craft unions.

Over a number of years, however, this difference between craft and industrial unions may have considerable bearing on future relations between AFL and CIO.

It is pointed out that the period of an almost annual wage increase for U. S. labor, which has gone on without interruption for the last 20 years, eventually may come to an end. Furthermore, the field of pensions and fringe benefits now has been pretty well exhausted in collective bargaining agreements with the two major labor organizations.

If a business recession of any kind should set in, with some unemployment and a down-grading of labor contract terms, the relative positions of the two major organizations might undergo considerable change.

Founding of Party Remote: An AFL craft union card has a certain value in itself. It signifies that the holder has undergone an apprenticeship, learned a trade and is a qualified journeyman. He needs no other credential than his card to

the Americans now were gone, and Ezra was a little dried-up wrinkled man who coughed and grew thinner and thinner. Ish himself was wholly gray-haired now. Though he was not heavy, his launch stuck out, and he was thin-legged in the manner of old men.

On the day when the year 43 had ended, Ish did not feel like walking as far as the flat rock where they carved the numerals, and Ezra was too frail. So they put off carving the date in the rock or giving a name. They said to each other now and then that really they must do it, or else arrange with some of the younger men to carve the numerals, and sometimes also the younger men and even the children talked of it. But in a way that such things go, once it had been put off, still it was put off again. "Today is rainy," or "It is too cold," or "We are going fishing, and shall do it later." So the numerals were not carved, and the name was not given, and life went on with no one caring greatly. After that, no one knew how many years passed.

AS the quick years passed and the two old men sat on the hillside in the sun, they began to talk more and more about what had happened long ago. There was little that anyone—they, at least—could talk about as far as these years now were concerned. Some years were called good years and some were called bad years, but there was not much difference. So chiefly the two old men talked about things of long ago, and occasionally they speculated about life.

Often, when they talked, Ish realized that there was still wisdom and help in Ezra. "A tribe is like a child," he said once, "that piping old-man's voice, which every day seemed more like a bird's—aged then he coughed. When he recovered, he spoke again. "Yes, a tribe is like a child. You can show it the way by which it should grow up, and perhaps you can direct it a little, but in the end the child will go his own way, and so will the tribe."

More years were carved in the rock. Except for Ish and Ezra, all

Then Em spoke. Her hair was wholly gray now, but her calm voice held them. "I have said it before," she said. "Life is not lived by denying life. Our sons and grandsons will need wives. Perhaps death will come also, but that too we must face."

Not so much by what she said as the spirit that flowed out from her, they all had courage. They voted to admit the others.

The only epidemic was that The Others contracted measles, and soon were wailing again.

After that time there was always a division within The Tribe, as of two clans—The First Ones and The Others.

THEN in the next year Ish realized more than ever that Em walked no longer with that regal grace; suddenly when he looked at her, he saw strange lines in her face, not the lines of old age, but the lines of pain. Behind the darkness of the cheeks there was not the glow of red but an ashy gray. Deep within him he felt chill and fear, and he knew that this also had come close to its end. At last she walked no more.

At last one day he sat, again holding her hand. She was very weak, and then suddenly he knew that a third and dark presence was there beside him, dry-eyed, no more and only once he felt a light flutter of her fingers within his hand.

Then, where there had been three, now there was only one, for Death had gone and she too. He sat there bowed, his dry-eyed face, which every day seemed more like a bird's—aged then he coughed. When he recovered, he spoke again. "Yes, a tribe is like a child. You can show it the way by which it should grow up, and perhaps you can direct it a little, but in the end the child will go his own way, and so will the tribe."

So get a job anywhere in his trade. A CIO card does not always have the same value. Skilled mechanics and janitors in an auto plant or a tire factory hold the same card or one big union. Only their job classifications are different, for payroll purposes.

In case of considerable unemployment, the value of an industrial union card declines. There is less incentive for an industrial union member to keep his dues paid up than there is for a craft union man to keep his standing.

What happens to the two types of unions under these circumstances is a matter of conjecture. But the first conclusion is that the craft union will have a better chance of survival than the industrial union. And in this situation the merger of the industrial type of union into a craft union organization becomes likelier.

One other long-range possibility is that in a period of business recession and above-normal unemployment, the programs of the labor movement will become more and more political in nature. This would be a natural development for labor union leaders in their effort to find some new appeal to hold their membership together.

Some labor leaders are known to have in the back of their minds the desire to launch a labor party. Others want no part of it. Right now the prospects for a U. S. labor party as a national rather than a local political organization seem more remote than at any time since the depression. Everybody is too prosperous. Labor politics, like labor unity, would have best prospects in adversity.

ONCE again the years flowed quickly and now no longer he struggled and threshed, but instead, floated easily with the current.

In these years they grew a little corn, not much, but enough to harvest a small crop and to keep his tribe alive. Every autumn—as if the falling of the first rain gave a signal—the children played with bows and arrows for a while before they tired of the game.

The year 34—that was an important one. Ish had known for some time that there was another but smaller group of people living across north of the Bay, but in this year the surprise was that the other people sent a messenger with the proposal of a union. Ish made the young man keep distance, for he wanted no repetition of that business of Charlie. Having got all the information he could from the messenger, he called a meeting.

Ish sat with his hammer, for it was a time of great state. There was a hot argument. Reinforcing the fear of disease was a prejudice against strangers and all their strange ways. On the other hand, a kind of fascination in the strangeness combatted the prejudice. Besides, there was the strong desire to strengthen the numbers of the tribe, and particularly to obtain wives. For, in late years, fewer girls than boys had been born and some of the young men had nowhere to look. To Ish also there was the argument that the increasing of The Tribe might be dangerous, for now blood relationship was universal and everyone had to marry his cousin.

Ish himself, along with Ezra, opposed the union, in overwhelming fear of disease, and Jack and Roger, the oldest of the younger men, remembered the Year 22, and supported Ish and Ezra. But the still younger men, especially the unmarried ones, clamored for the union.

Busy Hawaiians Await Statehood Bill

Taxable, Voteless Islanders Hopeful

By WILLIAM H. EWING
Managing Editor,
Honolulu Star-Bulletin

HONOLULU—If Congress says "yes" this time to Statehood for Hawaii, it will bring into the family a region that has proved East and West can meet—and fuse themselves into a community as democratically-minded as a New England township.

For more than a century it has been a Mid-Pacific junction and melting pot for races of Asia, Europe, Polynesia and the United States.

And for 53 of those years, it has been a Territory of the U. S., watchfully nurtured in the image of America and its traditions.

Living in Harmony
It has resulted in a degree of racial harmony and understanding which has no counterpart anywhere in the world.

It has a free school system where children with Japanese, Chinese, Filipino, Hawaiian and Caucasian names sit side by side and study everything from George Washington's victory over the British to Adlai Stevenson's defeat in the last campaign.

More than 90 per cent of them are native-born citizens along with most of their parents.

Religious Tolerance
It has free churches where Protestants and Catholics pass occasional Buddhist temples on their way to services. It has a free press, and it has an elected legislature that is little different from those in any state from Massachusetts to Texas.

It is politically conservative and economically self-supporting. It has elected nothing but Republican majority legislatures since it won Territorial status and its Delegate to Congress today is a Republican. This position of Delegate to Congress has been held by Republicans, with two exceptions, ever since Hawaii became a Territory.

Money For Uncle Sam
It not only pays the cost of its own government, but forked up \$100,000,000 in taxes to Uncle Sam last year—more than that paid by some nine states.

It has proved its case to no less than six Congressional committees that have come to Hawaii to see for themselves since 1935. All six returned favorable reports and the last four recommended immediate Statehood for Hawaii.

Like Most States
Its differences from the 48 other states are less surprising, in fact, than its similarities. But the differences, where they do show up, make a sharp contrast with the rest of the nation.

Its chief one is in the population, now numbering just under a half-million for the Territory. Americans of Japanese ancestry hold an undisputed preponderance. They comprise about 40 per cent of the total.

Yet this preponderance has never been reflected in political domination. The Americans of Japanese ancestry have never narrowly channeled their votes along racial lines.

Easy-Going Races
Part Hawaiians, descendants of the easy-going original race of the

islands, make up another 16 per cent of the total; Chinese, about seven per cent. The rest are a sprinkling of pure Hawaiians, Koreans, Samoans, other Polynesians and a mixture of all types.

They and their forebears have been pouring into Hawaii since the English explorer, Captain James

Mixture: This Hawaiian lass has a mixture of Portuguese, English and Filipino blood.

Cook, discovered the chain of islands in 1778. American and European missionaries, traders and merchants followed.

Sugar Cane Fields
As they and their children began building up Hawaii's sugar industry, labor was needed for plantations. Laborers were brought from all over the world, but by far the biggest share came from Asia.

Altogether, it is estimated that since the Civil War, about 400,000 laborers have been brought in. Many returned to their native lands after their contracts were completed, but many more stayed to become permanent residents and the parents of the population that makes up Hawaii today.

Few Are Aliens
The immigrant laborers are either dying out or have become naturalized. Added in with their Hawaiian-born descendants, it leaves only

about 10 per cent of the population who are aliens. Many of those only gained the right to naturalization by act of the last (82nd) Congress and are rapidly becoming citizens today.

What of their loyalty?—a question that was bluntly asked when America's and Japan's relations strained to the breaking point in 1941? One answer came from Military Intelligence reports which stated that not a single instance of sabotage was found in Hawaii although all rumors and reports were traced down.

Heroic Fighters
Another came in World War II when 37,000 men from Hawaii served in the Armed Forces. The 442nd Regimental Combat Team and the 100th Infantry Battalion, formed largely of Japanese American youths from Hawaii, served in Europe.

They won the appellation from General Mark Clark as the "most decorated unit in the entire military history of the United States."

Since the Korean conflict started, Hawaii has sent 17,000 men to fight there, two of whom have won in death, Congressional Medals of

Honor, for unflinching devotion to duty and conspicuous gallantry as an example to their fellows.

Mixture Of Races
The results of the racial crucible shows up throughout Hawaii's business and public life as the day approaches for this Pacific territory to become America's forty-ninth state.

The Senate and the House are mixtures of Caucasian, Asian and Hawaiian members. The President of the Senate is Wilfred C. Tsukiyama, an American of Japanese ancestry who won his law degree at the University of Chicago.

The Speaker of the House is an American of Chinese ancestry, Hiram L. Fong, another lawyer with a degree from Harvard Law School.

Delegate To Congress
Hawaii's lone delegate to Congress, Joseph R. Farrington, is Caucasian, a Republican chosen six times for Hawaii's highest elective post.

The money to support Hawaii and pay its taxes comes from three major sources.

All through its modern history, sugar and pineapple production have been the two major bulwarks. Last year, Hawaii produced a million tons of sugar, about one-seventh of all that the U. S. consumed. It brought a gross income to Hawaii of \$138,000,000.

Market On Mainland
Pineapple growers and packers, which provide around 80 per cent of all the pineapples Americans eat, grossed \$100,000,000.

Out front, however, was spending by the armed services, which

came to \$220,000,000 last year. It was cut to the bone in the Defense Department economy wave that preceded the Korean fighting and has leaped up since.

Influx Of Tourists
A third new "industry" that Hawaii is beginning to boom more and more is tourism. It has been setting new records and breaking

Far East: Asiatic ancestry is predominant among Hawaiians. This little girl is Korean.

was more than two billion dollars. It also raises cattle and has some highly productive truck farms, but its industrial production, largely through lack of raw materials, is low. It imports from the mainland about 80 per cent of everything it uses or eats—more than \$380,000,000 worth last year.

Island Geography
All in all, its four main islands and four lesser islands, plus a few uninhabited pinpoints, comprise 4,099,840 acres of land. Even though Hawaii is primarily dependent on agriculture, its total land area in cultivated crops is only 7.5 per cent.

Most of the rest is in dry areas, mountains, forest reserves or bleak lava beds where only the sparsest vegetation can find a foothold.

Home Of Volcanoes
Geographically the Territory is divided among the four main islands of Hawaii, Maui, Oahu and Kauai. The Big Island (Hawaii), home of the volcanoes, is bigger than all the other three put together. Three smaller islands, Mokolai, Lanai and Niihau, are inhabited and productive.

But the nerve, governmental and business centers of the islands are in Honolulu, on Oahu. It is also the population gravity center, totaling almost 234,000 out of the Territory's half million.

Position Offshore
In one other respect, Hawaii shows a clean cut divergence from the states that may soon become its sisters. It is located some 2,000 miles from the West Coast—a geo-

One answer came from Military Intelligence reports which stated that not a single instance of sabotage was found in Hawaii although all rumors and reports were traced down.

Heroic Fighters
Another came in World War II when 37,000 men from Hawaii served in the Armed Forces. The 442nd Regimental Combat Team and the 100th Infantry Battalion, formed largely of Japanese American youths from Hawaii, served in Europe.

They won the appellation from General Mark Clark as the "most decorated unit in the entire military history of the United States."

Since the Korean conflict started, Hawaii has sent 17,000 men to fight there, two of whom have won in death, Congressional Medals of

Resident Resents Neighbor's Industry

Saturday afternoon, a couple of years ago, this guy rushes into the store. "Say," sez he. "I don't like that fertilizer you sell!" Now, we are always interested in customer's complaints, but, for the life of me, I couldn't remember selling this character any of that fine Turf Special for his lawn—and I told him so, saying, "Why, friend, the fertilizer that comes in the red bag never did any harm to anyone, it only does good to the grass and stuff."

"That's just it," he retorts. "You didn't sell it to me. You sold it to my neighbor, and now the missus won't let me rest until our lawn looks like his. So, gimme four bags, loan me a spreader, and let peace prevail in my domicile!"

It's about time for Joe to come in again. He's found it easier to grow a lawn, and to keep the peace, by coming in around this time of the year to order his Turf Special. And so will you!

Daddy Ringtail

"So help me, Hannah," said Daddy Ringtail, your monkey friend. He said it when the Big Bruiser was about to bruise him.

But the Big Bruiser was a coward. Away he ran in a hurry when he thought that Hannah was near.

Then Mugwump Monkey, the monkey boy, said to Daddy Ringtail: "Daddy Ringtail, who is Hannah?"

Daddy Ringtail didn't know, and so Mugwump hurried away to ask the Huffen Puffen, the friendly wolf. But the Huffen didn't know who Hannah was.

And so Mugwump asked a whole lot of other people. He asked Old MacDonald who has a farm, and the Featherman who can think of nothing but feathers, and Miney Moe, and Toowit Toowoo, and the Gibberwink. He even asked Dr. Shoobug.

"Oh, why don't you ask Hannah?" said Dr. Shoobug.

"Why not? Hannah ought to know who Hannah was, Mugwump was sure."

"Dr. Shoobug," said Mugwump, "where is Hannah?"

"Uh, sorry," said Dr. Shoobug. "I wish I knew, but I don't. I don't know where Hannah is."

Mugwump hurried away to find the Huffen Puffen, the friendly wolf. The Huffen was at home at his hollow tree house. Did he know where Hannah was?

"I don't know where she is, I don't," said the Huffen.

Mugwump hurried to ask all the other people he could. He asked Old MacDonald who has a farm, and the Featherman who can think of nothing but feathers, and Miney Moe, and Toowit Toowoo, and the Gibberwink. He even asked Dr. Shoobug.

"Oh, why don't you ask Hannah?" said Dr. Shoobug.

"Why not? Hannah ought to know who Hannah was, Mugwump was sure."

BALDRIDGE'S SALLY ANN BREAD

Failure Of Berlin Blockade Falls On Beria's Shoulders

By LEON DENNEN
NEA Staff Correspondent
NEW YORK—Lavrenti P. Beria, who masterminded the Berlin blockade in 1948, may be the man behind the Red attacks on U. S. and British planes in Germany.

Russian experts see a "deadly parallel" between the two events—despite the new "peace" bid by Georgi Malenkov, Stalin's successor in the Kremlin.

There is more than coincidence that Moscow's first move since Stalin's death should be in Germany," said Ernst Reuter, West Berlin's anti-Communist Mayor.

Berla's Dish
Reuter, an outstanding authority on the cold war, now is visiting in the U. S. He believes West Germany is probably the most important European target of Soviet strategy.

Germany is the key to defense of Western Europe—and the special dish of Beria, boss of Russia's secret police. The latest Red attack, in which seven British airmen lost their lives, bore Beria's unmistakable stamp.

Bullet-Proof Auto
Beria, No. 2 man in the Kremlin's new setup, long has been known as an exponent of a terrorist get-tough policy with the West.

"Our enemies as well as our friends will respect us only as long as we are strong," Beria is reported to have told Berlin Reds in 1947. "The weak are not respected."

During Beria's visit to Berlin in June, 1947, I was able to watch him in action. Wherever he went in his long black Packard with bullet-proof windows, flanked by a host of MVD agents, he left terror, arrests, kidnaping and fear in his wake.

Airlift Defeats Aim
It was on this visit that Beria apparently decided that the West was preparing a "preventive war."

Obsessively to forestall an "Allied attack," he suggested to Stalin the blockade of Berlin, and took personal charge.

The blockade was the first Russian major defeat in the hot-cold war. Faced with the U. S. airlift and the heroic stand of the Berliners under Mayor Reuter's leadership, Stalin had to beat a retreat.

Name On List
Blame for the Berlin failure fell on Beria's shoulders.

Persistent reports seeping through the Iron Curtain say Stalin was apparently ready, shortly before his death, to discard his trigger-happy chief of police—just as he discarded Beria's triggly-happy predecessors, Henryk Yagoda and Nikolai Yezhov.

Stalin apparently died in the nick of time—to save Beria's skin. Now Beria holds the key to the struggle for power in the Kremlin. To stay on top, Malenkov needs the support of the powerful chief of the MVD.

Never Forgives
Does Beria's ascendancy increase the Soviet menace to Germany—and to Europe?

Bolsheviks never forgive nor forget a defeat.

The brutal Red attack on U. S. and British planes may be the beginning of Beria's long-range hopes to terrorize and subdue West Germany—to atone for his failure in the Berlin blockade.

Gal's Best Friend Comes In Rainbow Of Colors, Prices

PHILADELPHIA—If in case you didn't know it, the diamond comes in every shape, practically every color, and can be bought at almost any price.

A diamond, often described as a gal's best friend, is generally seen in white with little flashes of blue, if flawless, and spots of yellow if not altogether OK.

The American Gem Society in a three-day conclave here, put on

display for its exclusive membership—registered jewelers and certified gemologists—a collection of 38 diamonds of assorted rainbow colors worth \$13,500.

These included black, gold, green, blue, yellow, purple, brown and pink.

In an advanced showing to reporters, officials of the society, preparing for the group's 18th annual meeting which is closed to the public, also displayed some 150 "rare and unusual" gems valued at nearly half a million dollars.

A detective hovered nearby as a model tried on glittering bracelets, ear clips and rings while photographers' flashbulbs popped.

The most expensive gem in the showing was an 18-carat ruby valued at \$20,000. But a much smaller stone—a five-carat emerald which had no imperfections—was regarded as a much better bargain at \$15,000.

Oscar Kind, Jr., Philadelphia jeweler and vice president of the society, said society members represent some of the most famous jewelry stores and wholesale diamond houses in the U. S. and Canada. The organization, said Kind, "is pledged to the vigilant protection of the jewelry buying public through their special training in gemology."

In God We Trust

...do we or don't we?

DOES IT MEAN ANYTHING . . . or doesn't it?

Would another phrase do just as well? Our nation's founders didn't think so!

The men who signed the Constitution . . . the men—and women—who braved the prairie and the mountain to pioneer our land . . . they didn't think so.

But what about us? Does this motto on the coin in our pocket guide us . . . inspire us . . . strengthen us? Or have we forgotten the power of the faith expressed in these words?

If our country's future is uncertain . . . if we are worried about tomorrow . . . then perhaps the time has come to put aside small things and turn once more to the faiths which made our nation great.

Our country's great leaders down through the years have shared a sure belief in God . . . in themselves . . . in their fellow men . . . and in freedom! In crisis and in peace they have placed their faith in God's wisdom . . . and in their own ability to work out their problems . . . and in the great justice of a free people.

Let us do the same today. For these faiths will renew our strength.

Hawaiians Await Statehood—

(Continued From Page Three) graphical fact that some opponents of Statehood have underscored.

But as three major scheduled airlines (Pan American, United and Philippines Airlines) fly it, it is only some nine hours away—and less than a day's flight to Washington.

Strikes Hurt All

Chief economic problem for Hawaii comes when there are shipping strikes on the West Coast or in the Territory. Merchants dependent on a steady flow of imports, are hardest hit. Food sometimes becomes a serious problem and Hawaii has called on the Navy several times for emergency food shipments when waterfront workers were off the job. Such incidents cause the islands to take a closer look, too, at local labor problems. Harry Bridges' International Longshoremen's and Warehousemen's Union dominates

labor in the longshoring, sugar and pineapple industries.

Little Red Influence

The question of how Red-influenced is Hawaii, home of Pearl Harbor, Hickam Field and other key bastions of the U. S. de-

Native: Increasingly rare are descendants of original settlers, like this Hawaiian.

fense in the Pacific, is one often asked by visiting Congressmen. A 1950 inspection by the U. S. Senate Committee on Interior and Insular Affairs, which had the cooperation of the FBI and armed service intelligence agencies, came to this formal conclusion: "The record shows the people of Hawaii have dealt with the problem of communism as effectively as any American community."

Besides its desire to have voting representation in Congress and the right to elect its own Governor, Hawaii believes there are other reasons for its Statehood demands—as important to the U. S. as a whole as to Hawaii itself. Many have summed it up. One of them was another Congressional Committee—one from the House. It stated in 1951:

Dramatize Freedom

"Statehood would dramatize as few other acts could the principle of self government, which at such hazard the U. S. is proclaiming to the world.

"It is of the highest importance that the moral and psychological position of the United States with the peoples of Asia on this Pacific front not be weakened by the paradoxical status of Hawaii. The American section of the Pacific arena should be an unbroken line of equal states."

Georgian To Direct National Newspaper Week's Observation

Announcement of the appointment was made by Stanford Smith, president of Newspaper Association

Vern Sanford

Managers, which sponsors Newspaper Week. Smith is manager of the Georgia Press Association. The committee will work with representatives of other newspaper associations in planning the observance of National Newspaper Week by all departments of newspapers. As the organization of executives of publishers' associations, Newspaper Association Managers has sponsored Newspaper Week since its inception in 1939.

The permanent slogan adopted in 1951 is "Your Newspaper Lights the Way of Freedom." Vern Sanford has 18 years service as a state press association manager. He has been general manager of the Texas Press Association five years. Previously he was manager of the Oklahoma Press Association for 13 years. He began his newspaper career at the age of nine as a carrier boy and worked through circulation, news and advertising departments of Oklahoma newspapers.
