

Confident Living

NORMAN VINCENT PEALE

How To Be An Asset To Yourself

IT'D BEEN WORKING WITH A young man for some time, trying to help him find himself. For a long while I seemed to be getting nowhere with him. One major reason was his tendency to blame everyone but himself for his problems.

INDEED, THIS IS A PROBLEM for many of us. Any person can either be an asset or a liability to himself. Lots of people would get along very well in life if only they did not have themselves to contend with.

Here are a few basic suggestions: 1. Cultivate pleasant, appreciative attitudes that result in good personal relations.

RECENTLY I HAD THE PRIVILEGE of presenting to former President Herbert Hoover the annual Horatio Alger Award on behalf of the American Schools and Colleges Association.

I received much help and advice from older people. They were always kind to me, he replied and then added, "Young people should realize how much older people would like to help them if given the opportunity."

2. Develop a creative and positive attitude toward every problem. Keep your mind free of negatives.

One of America's most successful business women, Mrs. Blanche Green, says she always approaches a difficult proposition by repeating and trusting the Biblical text, "If God be for us, who can be against us?"

3. DO THE JOB YOU HAVE better than anyone has ever done it before. Even if you don't think it much of a position, give it all you have. In return, it will give you all the opportunity it has within itself.

Recently he made a young man the manager. "He has taken care of every responsibility efficiently from the very first job I gave him," he explained, adding, "His first job was sweeping this store out, and he was the best sweeper-outer we ever had."

Needless to say, this young man practices the principles contained in that wise book which says, "Study to show thyself approved... a workman that needeth not to be ashamed." He is an asset to himself.

Guilty Pleas Bring Delayed Sentences

Three men, pleading guilty Saturday to charges of theft before Judge R. W. (Bob) Hamilton in 70th District Court, received suspended sentences.

Rosenberg Picket Marches In Dallas

DALLAS —(AP)—A silent, single picket walked in front of the Dallas office building housing the FBI Saturday, carrying a sign in behalf of convicted atomic spies Ethel and Julius Rosenberg.

Ike Flies East

LEBANON, N. H.—(AP)—President Eisenhower arrived here by airplane late Saturday to receive an honorary degree Sunday at Dartmouth College.

LATE NEWS FLASHES

PARIS—(AP)—Education Minister Andre Marie, trying desperately but so far unsuccessfully to convince France's leaders that her only salvation is in a national union, Saturday night put off until Monday his decision on whether to try to form the country's nineteenth postwar government.

Tossed Rocks, Gunfire Mark ROK Rioting

MUNSAN—(AP)—A showdown seemed imminent Sunday between the UN Command and South Korea's President Syngman Rhee—in a race to end his opposition and get him in line ahead of the signing of a truce with the Communists at Panmunjom.

WRITE FINAL DETAILS—Air Force Col. Don O. Darrow, right, and Marine Col. James C. Murray head two Allied staff officer teams writing out final details for a truce in Korea, now believed imminent.

new blast. He denounced the impending truce as a "flagrant sellout" and called for an immediate mutual security pact with the United States to placate his people. In the streets of South Korean cities, government-inspired crowds staged anti-truce demonstrations before barbed wire barricades for the fifth straight day Saturday.

WORKING DANES GET DIVIDENDS

HORNBAKE, DENMARK—(AP)—Six hundred civic-prideful Danes went beseeching Saturday in this seaside resort to tidy up for a three-day festival.

War Fury Mounts On Armistice Eve

SEOUL —(AP)—Americans and South Koreans grappled Communist troops in bloody hand-to-hand combat Sunday after Red guns unloaded their heaviest bombardment of the Korean War.

VENICE, ITALY—U. S. Ambassador Clare Boothe Luce arrived here Saturday night on her first official visit to this famous city of canals.

VIENNA, AUSTRIA—(AP)—Austrian police Saturday night said Soviet sentries have reimposed military control, lifted only Wednesday, on frontier traffic between Austria and Germany in the 20-mile stretch between the Danube River and Czechoslovakia.

Star-Crowded Variety Show Here For Two Shows Monday

The "singing saxophone" of Freddy Martin, backed by his top-rated orchestra, will fill Midland High School's auditorium with song stars of stage, screen, radio and television.

Freddy Martin

There'll be The Adamaons, known at the "Perch Act" since they perform most of their act in mid-air; Nicola and Rene, billed as the "Magic Chiefs"; The Proctors, one of television's most popular adagio teams; the Dupree Dance Trio; the "Quintetto Allegro," a team of five Italians who have performed in Europe, Latin America and the Eastern United States.

But, back to the band.

Stuart Wade is the orchestra's top vocalist often backed by both the band and the Martin Men, an vocal group which is a show star in its own right.

Probably the most popular of Martin's hits has been his modern arrangement of the "Concerto in B Flat Minor," followed closely by "Bumble Boogie," "Come to the Mardi Gras," "Lovely Bunch of Coconuts," and many, many others.

Tickets to the all-star variety show will be on sale all day Monday in the lobby of Hotel Scharbauer.

and variety Monday at a two-show stand sponsored by the Midland Shrine Club.

The two performances, one at 7 p.m. and the other at 9:15 p.m., also will feature some of the top

MOVIES - TV - RADIO
by Erskine Johnson

Exclusively Yours: Paulette Goddard frisked every cranny of her keen, razor-sharp mind and couldn't come up with an explanation of why she was known as a temperamental, foot-stamping movie queen a few years ago.

Now, Miss Cooperation of 1953, showing up earlier and staying later than anybody else, she told me on the "Sins of Jezebel" set: "There's always another side to a story. Believe me, I've never been temperamental. But it is true that nobody ever knew how to cast me, particularly Paramount. Now I'm hoping that if I play a variety of parts, somebody will find out."

Paulette on writing her memoirs: "Never. Everybody and his brother is writing his memoirs. My mother taught me never to get caught in a crowd."

Ty Power and Jimmy Stewart, it now can be told, hit the gold jackpot when they gambled with U-I on profit-sharing movies. Ty worked minus salary in "Mississippi Gambler," as did Jimmy Stewart in "Winchester" and "Bend of the River." Ty's share of the profits to date is close to \$700,000 and Jimmy's cut of his net is an estimated \$1,200,000.

Before 3-D, says Arthur Maisei, you could spot a movie actor by his dark glasses. Now you can spot audiences by theirs.

Steve Cochran's steaming over his minute-type billing in "She's Back On Broadway" and being put into a minor role in "The Desert Song" by Warner Brothers.

"I can't understand giving an actor a big buildup," he wails, "and then trying to tear him down."

Jean Pierre Aumont is set for his starring debut in a night-club act in Las Vegas. It's an unhappy Orson Welles again. The government rebated \$2,000 to him for excess tax payments on "The Stranger," a movie he made in Hollywood before his European exile. But a Hollywood attorney attached the money before it could be sent to Orson.

The wheels are moving to put "The Life of Russ Columbo" before the camera in mid-July, with his 15-year-old nephew playing him as a young boy, and Perry Como playing Russ as an adult.

Marie Windsor is slated for the "heirss" tag Her father, Lane

Novelist Alfred Hayes will divorce his wife in Nevada—ironic because he's the author of the new Kirk Douglas starrer, "Act of Love."

Year's Building Hits Low Record

Midland had its lightest week of the year last week in the construction business.

Although hammers and saws were busy, only \$16,800 worth of new building permits were issued, according to Superintendent of Inspections R. S. Higgins.

The week's business brought the year's total to \$4,485,528.

Permits issued during the week included:

R. Rodriguez, residence, 402 North Dallas Street, \$700. L. E. Berry, addition, 410 West Storey Street, \$1,200. Midland Building Company, interior alterations to Midland Tower, 223 West Wall Street, \$1,500. J. A. Price, addition, 1806 Cuthbert Street, \$3,000. Walter H. Mark, residence, 408 West Jax Street, \$4,800. A. C. Stewart, interior alterations, 1300 East Missouri Street, \$100. Glenn L. Stewart, alterations, 1518 South Dallas Street, \$2,000. Alonso North Mississippi Street, \$1,500. J. C. Waller, 2206 Princeton Street, addition, \$2,000.

Area Students Get Oklahoma Degrees

Three area persons including one from Midland were graduated this week from the University of Oklahoma when 1,450 degrees were conferred in the university's sixty-first annual commencement exercises.

Area graduates were Jessamy E. Hines, Midland, BA in library science; Russell V. Tidwell, McCamey, BS in petroleum engineering; and James R. Weatherly, Andrews, BBA in business administration.

Midland Guards To Return Home Sunday From Camp

Midland National Guardsmen will be among the 1,450 Texans returning to their hometowns Sunday after a two-week training period at North Fort Hood.

Company E (Midland) of the 112th Armored Cavalry Regiment, which won a 19th place rating in unit performance, returned to North Fort Hood Thursday after spending a week in bivouac on the camp reservation working field problems and tactical maneuvers.

The first week of their training was spent learning small unit tactics and individual weapons.

The 112th, which had 94.28 per cent of its men present for the training, climaxed its first week of training with a parade for Gov.

Methodists Thanked For Jap School Aid

Addressing a group in the First Methodist Church here Friday evening the Rev. Moritaka Samejima, a leading educator and churchman of Japan, expressed appreciation to the Northwest Texas Conference of Methodist Churches for their financial support in helping to rebuild a bombed out secondary school near Nagasaki, Japan.

Mr. Samejima, on a speaking tour of the United States, was sponsored here by all of the Methodist churches of the Midland area. He is president of the Chinsai Gakuin Methodist secondary school.

He briefly outlined the history of the Chinsai Gakuin school which was founded in Nagasaki in 1881 by Dr. C. S. Long, a Methodist missionary from the United States. Originally a school for boys, the school was destroyed by fire in 1924. Afterward a new site was secured and a main concrete building, housing more than a thousand boys, was erected.

With the explosion of the atomic bomb, Chinsai's buildings and a large number of its teachers and students, were destroyed, Mr. Samejima said.

"After the war, the Japanese people were too poor to aid the rebuilding of the school," he said, "and the Methodist Mission Board promised to help restore the school.

"I would like to personally thank every Methodist in the Northwest Texas Conference for their help. Their \$50,000 pledge was used to

erect the three main buildings of the school which now is in Iyahaya, the center of a large rural area near Nagasaki.

"With the help of our friends in America we have come a long way toward reestablishing Chinsai Gakuin."

The Japanese educator said that at present there are 800 boys and girls enrolled in the school, which conducts a six-year secondary course specializing mainly in the industrial occupations such as agriculture, mechanics, world trade courses and homemaking.

The school maintains its own farm and small dairy which was started with Jersey cows sent them by Americans and makes money to help support itself, he explained.

Chinsai is working to lower its tuition so that more students may come to school, Mr. Samejima said, explaining that the monthly tuition fee of 800 yen or approximately \$2.20 in American money, is hard to raise by most Japanese.

Scholarships, he said, are the answer for those who cannot afford to pay, adding that already he has had promises of at least 25 scholarships since being in the United States. A yearly scholarship for one student comes to \$25 in American money.

The faculty of Chinsai consists of 56 teachers, four of whom are American missionaries. Approximately three per cent of the students in the school are Christians, the educator said. Most of the Christians have pledged themselves after several years at the school.

Every day the school begins with chapel and closes with the students cleaning the buildings, including a spotless scrubbing down of the floors.

In 1951, Mr. Samejima was called to the presidency of the school and has been active in establishing the new curriculum of agriculture and industry.

Crash Kills Two

SAN ANTONIO—(AP)—Two San Antonio residents were killed in two highway accidents Friday east of here. The victims were Mrs. Douglas Parks and William Kelly. He died in a flaming wreck near Waelder.

Missing Tots Found

Midlander's Mother Dies At Age Of 83

MATADOR—Mrs. Harrison Williams, 83, mother of Mrs. F. A. Bird, 1100 West Kentucky Street, died at 11 a.m. Saturday. She had been a resident of Motley County 62 years.

Mrs. Williams was born in Lampasas in July, 1869. Survivors include nine children, 13 grandchildren, two great grandchildren, a great-great grandchild, three brothers and two sisters.

COMFORT COMES FIRST—Grandma might have been horrified and Grandpa probably would have swallowed his false teeth at the sight but warm-weather comfort is the big idea for a lot of shoppers these days in Midland. That was the report of The Midland Reporter-Telegram photographer as he fulfilled the pleasant assignment last week of determining just what the women are wearing these hot days while they do the family shopping. And he submitted these pictures to illustrate the point.

Mrs. Tillie Lewis' 14-Day Diet Plan

Tillie Lewis, most famous woman in food, has spent more than 10 years in intensive research in the field of sweetened low-calorie dietetic foods.

By TILLIE LEWIS

Today I want to say a special word of welcome to the men we couldn't live without—and I mean that literally. I want to say a personal word of thanks to the doctors for the wonderful help and encouragement they have given me in my work . . . But now, here are today's low-calorie menus—and I hope your scale is beginning to show the results on your personal program to reduce your waistline and lengthen your life-line.

TILLIE LEWIS DIET PLAN—Seventh Day

BREAKFAST	Amount	Calories
Orange Juice	4 ounces	50
Scrambled Egg	1	75
prepared with Bacon Fat	1 teaspoon	35
Whole Wheat Toast	1 thin slice	65
Dietetic Jelly	1 tablespoon	9
Coffee	as desired	0
with Skim Milk	2 ounces	22
and Sweetening Tablet	as desired	0
		256
LUNCH		
Green Bean Salad (1/2 cup green beans, 1 slice crisp bacon, 1 teaspoon dietetic dressing on lettuce leaf)	1 serving	45
Broiled Scallops	6 ounces	112
with Broiled Mushrooms	1 1/2 cup	13
Asparagus	6 medium spears	25
Whole Wheat Bread	1 thin slice	65
Dietetic Jelly	1 tablespoon	9
Dietetic Prune Plums	1 1/2 cup	60
Skim Milk	8 ounces	90
		419
DINNER		
Broiled Dinner containing Corn Beef (trimmed)	3-1/2 ounces (slice 3x4x1/2 in.)	205
Cabbage	1 cup	25
Carrots	1/2 cup	25
Onions	1/2 cup	40
Whole Wheat Bread	1 thin slice	65
Apple Salad—Chopped Apple	1/2 cup	25
Lettuce Leaves	2 large	6
Celery stalk	1 medium	5
Dietetic Bleu Cheese Dressing	1 tablespoon	3
Peach Whip	1 serving	35
(Whip together 1/2 cup firm dietetic lemon gelatin, 2 stiffly beaten egg whites and 1/2 cup mashed dietetic peaches. Makes 3 servings.)		
Skim Milk	8 ounces	90
Ten of Coffee	as desired	0
with Sweetening Tablet	as desired	0
		819
	Day's Total	1194

This is the seventh in a series of daily diet menus incorporating a new dietetic food introduced recently. The menus are nutritionally sound, doctor-approved, and planned to make dieting pleasant. The entire family will enjoy these same menus, but may wish to eat larger servings, add bread and butter or other basic foods.

Civil Cases Set Monday In 70th District Court

A number of civil cases have been set for trial Monday at the opening of the second week of the June term of the 70th District Court before Judge R. W. (Bob) Hamilton.

The civil week will be followed by a criminal term of court, set to open June 26.

A panel of 90 prospective jurors has been summoned to report Monday for possible service.

The jury panel includes E. L. Brantley, Walker J. Ducease, Clifford C. Mosley, F. B. West, J. L. Carr, Robert E. Stripling, A. C. Elliott, H. L. Shows, Rudolph McKnight, W. H. Strader, Charles Barbee, J. N. Wilson, R. J. Dewpaey, A. D. Brooks, John S. Goodrich.

Cattlemen Ask Feed At Level Of Prices For Exported Goods

PORT WORTH—(AP)—Cattlemen want to buy government cottonseed meal at the same price it's offered for export.

Directors of the Texas and Southwestern Cattle Raisers Association pointed out at a meeting Saturday that:

The government is offering cottonseed meal for export delivered at the docks at \$52 a ton.

But it asks about \$64 a ton from ranchers in this country.

The cattlemen went on record asking to be allowed to buy the meal at export price. They claim it is the market price.

Joe Montague, association attorney, said the government has about 380,000 tons of meal and will acquire about 400,000 more tons soon.

Directors also recommended that Jay Taylor of Amarillo work on behalf of securing more and better loan facilities for cattlemen who are in distress, mainly due to prolonged drought, at a meeting next week in Chicago.

Pioneer Boss Doubts Raise In Mail Pay To Meet Costs

DALLAS—(AP)—Pioneer Air Lines President Robert Smith said he still doubts if the airline can make a profit even with a \$136,877 increase in its annual mail subsidy.

The subsidy was boosted Friday by the Civil Aeronautics Board (CAB) in Washington. The rates, supposed to yield Pioneer \$1,137,371 a year in mail pay, "assuming the use of DC-3 aircraft" in its feeder line operations in Texas and New Mexico.

The increase was about one-third of the amount sought by Pioneer. Smith asserted Pioneer had been losing \$3,000 a day under its old rate of \$1,000,500 annually.

Smith said he wanted to study the decision. He scheduled a trip to Washington and New York this weekend.

The CAB criticized Pioneer March 13 for using larger, faster Martin 202 planes instead of the more economical DC-3's. It set the mail pay at \$1,000,500 annually. Pioneer protested but agreed to sell its Martin 202's and return to DC-3 operations.

Pioneer then asked for a \$425,000 annual increase in mail rates. The board said the Post Office Department favored an annual increase of no more than \$68,000. It commented that its own counsel argued that the maximum increase supported by the record would be \$136,877.

The CAB said it would allow annually the sums of \$97,500 for the actual cost of mail service, and \$1,039,877 as a subsidy payment.

Pioneer has continued to fly the Martins which it asserts are suitable to its operations in Texas and New Mexico. But Pioneer has said the 202's are for sale.

BULLET WOUND KILLS UNSUSPECTING YOUTH

DALLAS—(AP)—Jimmy Bryson, 15, was killed Friday when a shotgun thought to be unloaded went off in his face.

The boy was at the home of a neighbor, Clyde Brayton, also 15. The two playfully pointed guns at each other, officers said. The shotgun fired and Jimmy crumpled. He was the son of Mr. and Mrs. J. P. Bryson.

ATTEND FUNERAL
Mr. and Mrs. B. R. Mathews and son, Bill, 2210 Princeton Street, have returned from Oklahoma City, Okla., where they attended funeral services for Mrs. Mathews' mother, Mrs. Marie Chapelle.

MERRILY WE CHUG ALONG

GALVESTON—(AP)—If you are in a hurry today, consider Mr. and Mrs. Robert Tabler of Brownsville, chugging leisurely along the Intra-Coastal Canal in a homesteader pushed by an outboard motor.

The couple built the 26-foot craft for \$2,500. They stopped here Friday on the 1,500 mile trip from the Southern tip of Texas to New York. They expect to reach New York in September.

THIS WAS A BUS—Five women were killed and 30 passengers injured when a Greyhound bus enroute from Philadelphia to Pittsburgh crashed into a parked tractor trailer on the Pennsylvania Turnpike early Friday.

ALL THIS, AND NO PINK POSIES

CLEVELAND —(P)—It wasn't the recent tornado, but the Beggs family Saturday got a wind-fall of sorts. When H. Beggs, his wife and 18-year-old daughter, Sally, got up Saturday morning, they found on their front lawn: Two stone bird baths, a porcelain flamingo, eight street signs, four small house address posts, a child's red wagon, four wooden chairs, a silver lawn ball, a field-lamp, a truck tire and a vase full of peonies.

Petition Asks Winkler Vote On \$320,000 Parks Issue

KERMIT—Winkler commissioners and County Judge W. E. Cook Tuesday will consider a petition presented recently asking for a \$320,000 bond election to get funds for public parks and playgrounds in Winkler County. Sponsoring the project in Kermit are the Lions Club, the Volunteer Fire Department, the American Legion and its auxiliary, 20-30 Club, Chamber of Commerce and Junior Chamber of Commerce and other organizations. Sponsor in Wink is the Wink Chamber of Commerce.

Vast TV Network Urged As Answer To 'Voice' Failure

WASHINGTON —(P)—A Senate Foreign Relations subcommittee Saturday urged President Eisenhower to check again on steps to correct the "many shortcomings" it found in the \$8 million dollar program and said it will check again on steps to correct them. The report said the Psychological Strategy Board is "not discharging its function" of helping the State Department shape policy for the program, and called on Eisenhower "as a matter of urgency" to take remedial steps.

39 Colleges Receive ROTC Honor Ratings

WASHINGTON —(P)—The Army gave honor designations Saturday to 39 military schools and junior colleges for excellence in their reserve officers training units. The honor ratings were based upon the annual Spring inspection of the 43 essentially military schools in the ROTC program. Each school with an honor rating may nominate up to three of its honor graduates to compete for appointments to the U. S. Military Academy, and three for the Naval Academy.

Midlander Takes Job As Geologist For Egyptian Firm

Mr. and Mrs. Frank Lewis, 605 West Watson Street, leave Midland Wednesday on a flight to New York City, the first leg of a journey to Cairo, Egypt, where Lewis will be employed as chief geologist for the International Egyptian Oil Company. Before arriving at Cairo, they will tour Paris, Zurich, Switzerland and Rome.

One Ship Missed Is Enough, Insist Memphis Tourists

NEW YORK —(P)—Four young women from Memphis, Tenn., were the first passengers to board the liner Caronia Saturday, three hours before the vessel sailed for Europe. Would they like to leave the ship for a moment to have their picture taken on the pier? A photographer asked.

Gonzales Mishap Takes Three Lives

GONZALES —(P)—Three persons were killed Friday night when a pickup truck and a car crashed head-on about 11 miles east of Luling on Highway 90. Patrolman G. H. Hoppe said the dead were William Kelley and Douglas Parks, 27, both of San Antonio, and an unidentified woman.

Work Begins On Blueprint For 'Total War' Emergency

WASHINGTON —(P)—Mobilization of the laws and regulations needed in a full mobilization. As a first move, Fleming prepared to survey the plant expansion goal in every industry related to defense and, where necessary, fix new goals measuring up to the demands of sudden, total war. No "drastic" changes are expected. This will be followed, officials said, by acting to plug gaps found in industry's war-potential. The incentives to expansion may include more liberal tax benefits, federal loans or loan guarantees, or special measures recommended by expert consultants to be brought into the agency.

Wage Boosts Threaten New Fuel For Inflation's Fires

WASHINGTON —(P)—Wage boosts negotiated in the steel, auto and other industries Saturday threatened a junior-senior inflationary "sound dollar" policy. Price hikes seem sure to follow the pay advances. Along with announcement of the eight and one-half-cent hourly pay increase just negotiated in the steel industry came predictions of steel price increases soon of \$3.40 to \$4 a ton. The pay raises, which probably will be copied in other industries, mean more spending money for the workers. To some extent this will counteract the tightening of credit inherent in the Eisenhower administration's policy of raising interest rates on loans.

Red Party's Pravda Buffers Up Chinese Communist Dictator

MOSCOW —(P)—The Communist party newspaper Pravda devoted 12 columns to a laudatory review of the second volume of the selected works of Mao Tse-tung. It praised the acumen and genius of Communist China's leader. "The works of Mao Tse-tung are a deep, theoretical communication of the experience of the Chinese revolution," Pravda said. "They raise still higher the ideological and theoretical armament of the Communist Party of China, have increased its battle capabilities and strengthened its leading role in the liberation struggle of the Chinese people."

Two Die In Feud

FORT WORTH —(P)—Two negro men were killed within seven hours Saturday in a family feud. Detectives said the dead were J. K. Homer and Robert Phillips.

Ike Forces Claim Sufficient Votes To Extend Profits Tax

WASHINGTON —(P)—President Eisenhower appeared Saturday to have won enough key votes to extend the excess profits tax—but it was uncertain whether the votes could ever be cast. Representative Reed of New York, Republican chairman of the House Ways and Means Committee, assailed the levy anew and gave no sign of calling the committee together for a showdown vote.

Miami Druggist Weeps Not For Squabs That Scrammed

MIAMI, Fla. —(P)—Samuel Rutkin, the druggist who had pigeons in his port cochere, awoke to a strange and wonderful silence Saturday. "I don't know who got them or where they went and I don't care," he said. "All I know is, they're gone." The 36-year-old druggist had tried everything short of poison to get rid of several dozen pigeons that had made his home theirs for the last 18 months.

expansion of aluminum production. Two of the three companies involved have been unable so far to get the financing they expected to build the new plants. Fewer Employees Fleming reportedly will cut ODM's staff to slightly more than 200 employees, despite the addition of duties formerly performed by the old National Securities Resources Board and Defense Production Administration. Six main divisions are being created, each to be headed by an assistant ODM director drawn from private business. Each will serve six months to a year, then step out—with the understanding that they will return to Washington in a war emergency. Fleming hopes thus to build up in private industry a pool of talent trained in mobilization problems and in the ways of government.

Four Persons Die As Autos Pile Up At Road Junction

YOAKUM —(P)—Three Fort Worth residents and an airman from Fort Worth died Saturday in a head-on auto collision. The dead: W. M. Emrich, driving from Victoria to Yoakum, where his wife lives. Mrs. Maria Gutierrez, Fort Worth, her son, John, 20, and a nephew, Pedro Rivera, 20. Mrs. Virginia Orliva, Fort Worth, and her son, Paul, 16 months, were taken to a hospital.

Community Chest Meeting Planned In Winkler County

KERMIT — Citizens of Kermit and Wink will convene at 8 p.m. Monday, June 29, in the Kermit Community Center to discuss the organization of a Community Chest for Winkler County. Fred W. Pearson, manager of the Kermit Chamber of Commerce, announced Saturday. Co-sponsors of the movement are the Kermit Junior Chamber of Commerce and the Inter-Club Council.

Midlanders Attend State DAV Meet

At least 20 members of J. O. Ross Chapter 42 of the Disabled American Veterans here, plus four of their officers, are in Abilene to attend the state convention of the DAV and its auxiliary. Midland officers attending the meeting include Floyd Rhoden, commander; Ben Gay, senior vice commander; Carl Ritter, chaplain, and John Proctor, adjutant and treasurer.

Michigan Woman Wins Air Derby

NEW SMYRNA, Fla. —(P)—Mrs. Edna Gardner Whyte of Flint, Mich., was declared winner Saturday of All Women's International Air Race from Welland, Ontario, to New Smyrna Beach. She bettered her handicap by one hour, 28 minutes and 46 seconds.

Midlander Returns From Korean Duty

Jack D. Hightower, son of Mr. and Mrs. Barney Hightower, 1010 South Terrell Street, arrived Saturday for a 30-day leave after serving two tours of duty in Korean waters aboard the cruiser USS Helena.

Abilene Man Charged In Comfort Robbery

BOERNE —(P)—Bond of \$5,000 was set Saturday for Earnest McElroy, 36, of Abilene, charged in the robbery of a cafe in Comfort Thursday night. The charges will be heard by the grand jury Monday. McElroy was arrested in San Antonio Friday.

PICKING SPIES OR BOSSES— Ability To Learn Or Lead Aply Foretold By Expert

By ARTHUR EDSON WASHINGTON —(P)—If your boss strikes you as being not particularly bright, don't fret. A smarter man might make a much poorer executive. This advice comes from Dr. William J. Morgan, a psychologist who can tell you how to pick a man for everything from a boss to a successful spy. Let's look at the boss first. "A man of high intelligence," Morgan told me, "often becomes impatient with other people's failings. He may be too critical, too quick to find fault. Furthermore, he may become bored with the routine that goes with every job."

Taft Backs Billion Cut In Foreign Aid

WASHINGTON —(P)—Senator Taft (R-Ohio) has thrown his weight behind a move within the Senate Appropriations Committee to slash a substantial amount—perhaps more than a billion dollars—off the Eisenhower Administration's \$3,474,000,000 foreign aid request. This puts Taft at odds with Secretary of State Dulles, Mutual Security Director Harold G. Stassen and, presumably, with President Eisenhower himself. The Ohioan's support of Senate cuts adds steam to action of the House Foreign Affairs Committee in trimming the foreign aid program to \$4,898,000,000. The House committee voted the cuts despite a personal plea by Eisenhower to members to approve the full fund. Taft, who is spending the week-

Detroit Cops Give Blood, 'Wash Out' Looting Blight

DETROIT —(P)—Detroit police gave their blood Friday night, hopeful it would wash away memories of the actions of three fellow officers accused of looting a home at tornado-stricken Flint this week. Patrolman Thomas J. Duffy, head of the Detroit Police Officers Association, said the mass blood donation was "our way of expressing regrets over the looting." Some 150 police officers showed up to give blood. Other officers went ahead with plans to raise \$2,000 this week by contributions from Detroit policemen to add to the Flint disaster fund. "We want to show the people of Detroit that on the whole we are a pretty good bunch of fellows," said Inspector Peter Sonoranti. The three alleged looters, who went to Flint while off duty, were

stripped of their badges after the incident and then resigned. They now await court action in Flint on larceny charges. They are Paul J. Brubaker, 26; Robert J. Friend, 25; and Julian D. Wilson, 26. 24 Persons Listed For College Vacancy SEQUIN —(P)—The Rev. Kurt Hartmann, secretary of the Board of Regents, said Saturday 24 persons, including eight Texans, have been nominated for the presidency of Texas Lutheran College. Regents are to meet July 8 to name a successor to W. P. Kraushaar, who resigned effective September 1 after 24 years.

Flock Of Skeet Titles To Be Decided Sunday

Staacke's Perfect Score Wins Champions' Event

BY ABE WEINER

Reporter-Telegram Staff

The twenty-first annual Texas State Skeet Championships roars into the final day's action Sunday with men champions to be determined in three guns and women champions in one gun.

That's the way thing stood after Friday's and Saturday's shooting determined only the ladies champion in the 20-gauge gun. A quartet was tied for honors in the men's division of that event while all shooters are due to shoot 50 more rounds in the 12-gauge event Sunday.

PUBLIC INVITED TO ATTEND SKEET SHOOT

George Glass, Sr., president of the Midland Gun Club, where the Texas State Skeet Championships are being held, issued a special invitation to the public to attend Sunday's shoot-off.

"I think people will find it interesting even if they have never seen a skeet shoot before," Glass said. "Most of the real fun will begin around noon, and we'd like to have as many Midland folks out as possible."

The Gun Club is located by the Midland Air Park off North Big Spring Street.

One of the features of the final day's shooting will be the Mayor's Special—an event open to the Mayor of Midland, members of the city council, elected city and county officers, sports writers and sports radio announcers. There is no fee.

Quail Hunters Face Lean Season In '53

AUSTIN—(AP)—Early reports indicate Texas hunters may bag a fair crop of doves, deer and turkeys next fall, but quail hunters may not have much luck.

That was the word Saturday from Howard Dodgen, executive secretary of the Texas Game and Fish Commission.

The outlook for mourning and whistling doves is considered fairly good, said Dodgen. At least part of the Hill Country is considered favorable for deer and turkey.

Field reports on quail are generally pessimistic because of the drought.

Something new is in store for fanhandle hunters. A limited take of pronghorn antelope for hunters is planned there for the first time.

A short season on antelope may also be had west of the Pecos.

St. Andrews Outraces First Presbyterians

St. Andrews Presbyterian softballers were a tired lot Friday night after simulating their city league game to a track meet.

The St. Andrews nine failed to bat around only once in whipping First Presbyterian, 21-8, in four innings.

In the other game, Bellevue Baptist stopped St. Marks, 18-9.

Schoolboys Turn Pro

CORPUS CHRISTI—(AP)—Catcher Sonny Crisp and Pitcher George Green, two high school baseball players, have signed contracts with the Brooklyn Dodgers of the National League and will play this summer with Union City of the Kitty League.

SEIXAS BRIGHT IN TENNIS WIN

BRISTOL, ENGLAND—(AP)—Vic Seixas, America's second-ranking tennis player, made an impressive pre-Wimbledon performance Saturday as he whipped big Enrique Morea of Argentina, 6-3, 6-1, 8-6, in the finals of the West of England championships.

HOME GUARD—Vincent, 4, left, and Carl, Jr., 7, put up their dukes with dad accompanying Bobo Olson in roadwork on a San Francisco beach. The Hawaiian Swede fights Paddy Young of New York's Greenwich Village 15 rounds for American middleweight championship at Madison Square Garden, June 19. (NEA)

Yanks Bang Tribe, Run String To 16

CLEVELAND—(AP)—New York's powerful Yankees, blasting their way handily through four pitchers, stretched their winning string to 18 Saturday with a 9-4 win over the Cleveland Indians.

The Yankees, opening their first place gap over the second place Tribe to eight and a half games, backed the tight pitching of steady Eddie Lopat with a 10-hit attack, four of them in a big, four-run fourth inning.

Lopat, winning his seventh straight without a loss, had a six-run lead in the fifth before Cleveland got its first run.

While providing Casey Stengel with the biggest bulge of his managing career, the Yanks took their

Chicago Ends Bosox Streak

CHICAGO—(AP)—Catcher Sherm Lollar's grand-slam homer in the sixth inning powered the Chicago White Sox out of a three-game losing slump with a 5-2 victory over the Boston Red Sox Saturday.

The triumph, only the fifth in 17 games during Chicago's current home stand, cracked Boston's five-game winning skin and pinned Lefty McDermott with his fifth loss against six victories.

The score: R H E
Boston 000 110 000—2 8 0
Chicago 000 005 00—5 5 1
McDermott, Freeman, Flowers and White; Fornieles and Lollar.

Lowly Tigers Nip Senators, 7 To 6

DETROIT—(AP)—Jim Delahing lined a grand-slam home run into the upper deck of the right field stands Saturday—and it was just enough to give the oft-whipped Detroit Tigers a 7-6 edge over the Washington Senators.

Delahing, who won Friday night's game with a ninth-inning homer, hit his bases-filled homer in a five-run third inning to help Ned Garver even his record at 5-5.

The score: R H E
Washington 020 000 301—6 11 1
Detroit 015 106 000—7 11 0
Porterfield, Moreno, Sims, Stobbe and Fitzgerald; Garver, Newhouse and Batts.

Braves' Rally Catches Bucs

PITTSBURGH—(AP)—Milwaukee's relentless Braves pushed across a ninth-inning run to defeat the Pittsburgh Pirates, 6-4, Saturday and vault into a first place deadlock with the rained-out Brooklyn Dodgers.

Lou Burdette, who held the Pirates to two hits after relieving starter Warren Spahn in the seventh, received credit for his fifth straight victory without a loss.

Paul LaPalme gave up only seven hits while his mates slammed 12, including Danny O'Connell's fourth and fifth homers but went down to his sixth defeat. He has won three.

Sid Gordon walked and Andy was safe on an attempted sacrifice in the ninth. Joe Adcock then singled in the winning run. After Dittmer beat out a bunt, Johnny Hietki relieved LaPalme and retired the next three men without allowing another run.

The Pirates led 4-3 going into the seventh inning, on the strength of O'Connell's three runs-batted-in.

Unknown Wins State Golf Crown

AUSTIN—(AP)—Jimmie Connolly, Austin, carried a package of pills around Austin's sun-baked Country Club Course Saturday as insurance against his ulcers, but the veteran links star didn't have to worry as he hung a 5 and 3 licking on youthful Don Addington, Dallas, to wrap up the Texas Amateur golf championship.

The 40-year-old real estate and insurance executive succeeded Billy Rfurther, Lubbock, as champion.

Behind only once — from the third to the seventh holes of the morning 18 in the 36 hole championship match—Connolly at one point held a three-stroke advantage in that first swing around the 6,578 yard course.

Addington, a star on SMU's Southwest Conference championship team, whitened this margin to a single hole at the end of the first round and drew even on the twentieth hole.

It was all square through 29, but on the thirtieth hole, Addington smacked his tee shot into foot high grass and blew to a five on the par three, 137 yard hole. He lost it and the next three to give Connolly the match.

Stubby Greer Draws Indefinite Suspension

BEAUMONT—(AP)—Guy Airey, president of the Class B Gulf Coast Baseball League, announced Saturday after reviewing the reports concerning Brownsville Manager Hayden (Stubby) Greer's mix-up with Umpire Dick Valencout last week, that the pilot was suspended indefinitely.

Airey said the case would be turned over to the national association's president, George Trautman, for further action.

Airey said he has asked Greer to send along his version of the incident so it may be forwarded to Trautman.

Decision is expected next week.

Business Visitors

Mr. and Mrs. John Wilcox of Lubbock attended to business in Midland Saturday.

DANCE OF DEFEAT—Wes Westrum of the Giants emulated a hooper and Johnny Logan could have been his partner as Third Baseman Hank Thompson threw over the catcher's head in an attempted double play in a four-run sixth inning that gave the Milwaukee Braves the winning difference in New York. (NEA)

Lesbia Lobo Keeps Texas Fem Public Links Crown

HOUSTON—(AP)—Lesbia Lobo, taking the 28th and 30th holes at one under par and by winning the 31st at par.

The tournament's driving champion, Miss Garrett, 15, Houston, 7 and 5, in the 36-hole finals at Memorial Park.

TMI Coach Resigns

SAN ANTONIO—(AP)—Joe Strong has resigned as head coach of Texas Military Institute and is enrolled at North Texas State College.

TOURNEY SCOREBOARD

Championship flight—Red Covington, San Angelo, beat Bobby Wright, Big Spring, 2 and 1; Werry Green, Midland, beat Bob French, Odessa, 1-up; Jack Williams, Plainview, beat Bob Workman, Midland, 1 up; Hennie Carson, San Angelo, beat Arlyn Scott, 2 and 1. Consolation—Bill (Red) Roden, Odessa, beat Buddy Branum, Midland, 1-up; Jay Abbott, San Angelo, beat Ray Leggett, Midland, 3 and 2; Ken Garrison, Odessa, beat Marshall Hubbard, Monahana, 1-up in 19; Raymond Marshall, Lubbock, beat Cecil Barrow, Abilene, 2 and 1.

WESTERN TOUCH—Practice on the putting green hardly helped Son Powell of Big Spring, an early round loser, in the Men's West Texas tourney but his gear of cowboy hat and boots lent the scene a western flavor.

Lions Rout Yanks, 18-3

Don Boyce banged out a homer and a single to pace the Lions' 10-hit attack that whipped the Yankees, 18-3, in a Friday North-east Little League game.

Schoolboy TKO's Muscles Goulart

BOSTON—(AP)—Wilbur Wilson, brand new Boston High School graduate, gained a spectacular seven-round technical knockout victory over Charlie (Muscles) Goulart of Sonerville in their 10-round televised boxing bout Saturday night at Mechanics Building.

Tyler Man Repeats As Southpaw Champ

SEQUIM—(AP)—Jack Wilkerson, Tyler, Saturday won his second straight Left-handed Golfers Association championship, slapping a 6 and 5 licking on Lee Fitzgerald, Beaumont, in the 36-hole title match.

LONGHORN STATISTICS

Four Clubs Batting Over .300

If you're one who wonders why Longhorn League teams have troubles with their pitching staff, here's your answer: Four teams, with Midland on top, happen to boast plus 300 batting averages through the first seven weeks of play and five individuals surpass the 400 mark. Evidently, this could be a banner year, or, at least second only to the inaugural in 1947. Midland for one can approach that 329 by Sweetwater of 1947

INDIVIDUAL BATTING

Table with columns: Player, Club, g, ab, r, h, 1b, 2b, 3b, hr, sh, bb, rbi, pct. Lists batting stats for various players from clubs like Bowland, Jackson, Grimes, etc.

show Artesia individuals are foremost—or the next thing to it: in doubles, Driller Catcher Les Mulcahy leads with 30; Wayne Crawford of Odessa claims six triples but Bill Haley of Artesia follows with but one less. Joe Bauman, the Artesia giant, heads the home run hitting with 14. Mulcahy is second only to Glen Burns of San Angelo in total bases, 113 to 106, and he bat-

FITCHING RECORD

Table with columns: Player, Club, g, ip, r, h, er, bb, so, w, l, pct. Lists pitching stats for various players from clubs like Martin, Malone, Torres, etc.

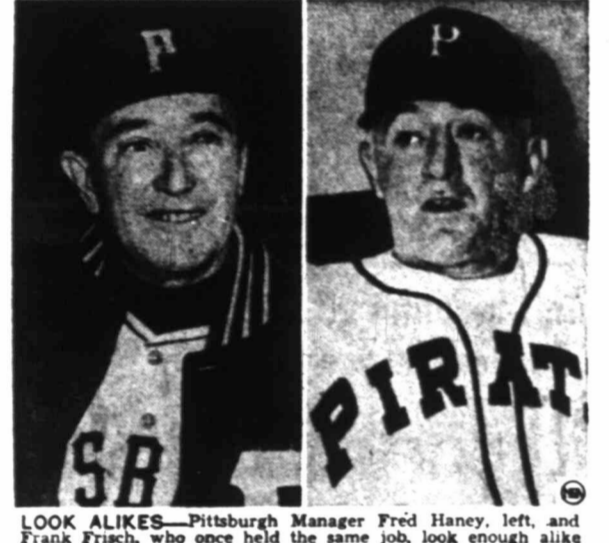

COCKRELL OUT OF GRID GAME

BEAUMONT—(P)—Luis Flores, Amarillo's all-district tackle, will replace Buddy Cockrell ofampa on the North all-star football squad at the High School Coaches Association meeting in Houston this summer. Cockrell withdrew.

SHERIFF'S POSSE COPS WEST LOOP FIRST HALF TITLE

A four-run error on Bill Savage's fly ball to right field in the third inning gave the Sheriff's posse the impetus to run up a 16-10 victory over the Elks and to take the first-half West Little League championship in the process. The possemen built up a 7-0 lead, but Jimmy Poteet—usually effective—gave the Elks four runs in the second and two in the third to cut the margin to 12-6 after the possemen's five-run third. From there out, the two clubs matched each other's runs output, both totalling four.

FINAL QUITTING BUSINESS 3 SALES DAILY 11:00 a.m. 2:30 p.m. - 7:30 p.m. WATCHES DIAMONDS JEWELRY Ken Umberson JEWELER 110 S. Main Midland. Includes 'Auction Sale' graphic and 'Buy Now and Save!' text.

LOOK ALIKES—Pittsburgh Manager Fred Haney, left, and Frank Frisch, who once held the same job, look enough alike to be twins. (NFA)

Blair Pitches, Bats Indians Past Drillers

ARTESIA — Ralph Blair, almost forgotten as a starter while Midland tested a flock of mound aspirants, returned to pitch the Indians' third shutout of the season Friday night. He did it the hard way—whipping the slugger Artesia Drillers, 1-0, through a maze of 10 walks and three doubles for the home club. It was Blair's sixth triumph. The blond Midland right-hander proved his own best friend at bat and drove in the game's lone score in the seventh inning. Len Ruyile, the Driller ace, suffered the loss. Blair earlier had blanked Odessa on three-hit pitching and gave up as many as eight Friday. Ben Quintana holds the other Tribe white-wash triumph.

Table with columns: Player, Club, g, ip, r, h, er, bb, so, w, l, pct. Lists pitching stats for Blair and other players.

Travelers Avert Disaster, 10-9

The Travelers, winners of the first-half Pony League title, escaped a near-disaster Friday by rallying from behind a 9-1 deficit to down Rotary, 10-9. Darkness intervened at the end of six innings, and the game was called at that point. The victory enabled the Travelers to keep pace with Kiwanis in the second-half race. Both have two victories. S. L. Van and Douglas Hatfield smashed home runs for the Travelers, with Hatfield's blow providing winning margin.

THE NEW BABE—Ed Mathews, the Milwaukee Braves' potential Babe Ruth, is a schoolboy-complexioned slugger of 21. (NEA)

Mulloy Surprised In Kent Net Finals

BECKENHAM, ENGLAND—(P)—Gardner Mulloy, ranking United States tennis player, was beaten in the finals of the Kent tennis championships Saturday by George Worthington in a stunning upset, 6-4, 4-6, 6-3. Maureen Connolly of San Diego, tuning up for defense of her Wimbledon title, trounced her doubles partner, Julie Sampson, 6-2, 6-3, in the women's final.

Turpin Agrees To Bout

NEW YORK—(P)—Randy Turpin of Britain has agreed to come to New York in late August to fight the Bobo Olson-Paddy Young winner for the undisputed world middleweight title. At least one of that quartet probably won't be around to defend his laurels this time, however. Maxwell is in the army at Fort Hood and may not be able to secure leave to play. Many pros from New Mexico usually join in the entry list, plus their amateur partners. This year's tourney is expected to have well over 100 of the finest linksmen in the Southwest contesting for top money.

Odessa Pro-Am Due Large Entry List From Out-Of-State

ODESSA—A three-state flavor goes with the top money even in West Texas golf when the \$7,500 Odessa Pro-Amateur tournament is held August 26-30. The tourney will be held over the long Odessa Country Club layout. The tournament, one of the biggest things of its kind in the country each year attracts a majority of the leading amateur and professional shotmakers throughout the Southwest. The emphasis usually is on Texas entries from point of numbers, but there was a definite Oklahoma bent to last year's event. It was won by former National Amateur champion Billy Maxwell,

Pullback After Korean Truce To Cost UN Hard-Won Ground

TOKYO (AP)—United Nations forces will have to give up valuable hard-won ground when they haul their cooling weapons back slightly more than a mile along the blood-soaked Korean front after the signing of a truce.

Each side will have to pull back two kilometers—about a mile and a quarter—within 72 hours after the Korean armistice is signed. Luke the Gook's Castle and Sandbag Castle are eastern front strongholds which probably will find into the awesome stillness of no man's land when the shooting stops.

Supreme Court To Decide Rosenbergs' Fate Monday

WASHINGTON (AP)—The Supreme Court Saturday deferred until Monday a decision on whether it will grant a stay of execution to the condemned atom spies, Julius and Ethel Rosenberg.

It is no question about it if we are denied a stay—we will try again for executive clemency." President Eisenhower refused clemency last February 11, calling the death penalty just punishment for a crime which "could very well result in the death of many, many thousands of innocent citizens."

Truce—

(Continued from Page One) and half mile buffer zone. Peiping Red radio said Saturday the staff officers were running over the entire 63-item agreement.

It was Friday. His mother gave him a \$10 bill with which to buy a new baseball glove, for Oren was the ace pitcher for the Little League Giants of Bryan. On his way to town to buy the glove, Oren felt in his pocket to see if the money still was there—and it was gone.

Ken-Tex Methodists Cite Gains in Year

PORT WORTH (AP)—The annual Central Texas Methodist Conference will close Sunday with ordination services for 20 deacons and 16 elders.

Never Had It So Good

BRYAN (AP)—Sad was the twelfth birthday of Oren Beal, Jr. It was Friday. His mother gave him a \$10 bill with which to buy a new baseball glove, for Oren was the ace pitcher for the Little League Giants of Bryan.

Hungary Lifts Iron Curtain For Newsmen

VIENNA (AP)—Communist Hungary opened up the Iron Curtain Saturday for a group of Western correspondents for the first time since 1949.

Housewife Becomes Torch After Soaking Self With Alcohol

MIAMI (AP)—A housewife soaked her body and clothes with alcohol Saturday and then with a match turned herself into a screaming, human torch.

Train Kills Railway Worker Near Vernon

VERNON (AP)—The body of Norman F. Blacktop, 39, Port Worth, a railroad worker, was found Saturday beside the Fort Worth and Denver Railroad tracks one mile northwest of Vernon.

Lutherans Plan School Expansion

HOUSTON (AP)—The Lutheran Church—Missouri Synod Board of Higher Education has recommended \$4,773,850 be spent for new buildings and improvements at 14 seminaries and colleges.

Parliament Quits

OTTAWA (AP)—Canada's Parliament went out of business Saturday with elections for a new set for August 10.

R. C. Maxson
REAL ESTATE
BULLETIN BOARD
REPORTING THE TOP NEWS IN REAL ESTATE

YOU'LL BE THRILLED to the point of tingling when you see the adorable red brick home that we have waiting for you on HARVARD. Two years old and in immaculate condition thru-out, it has 2 lovely bedrooms, paneled den, ceramic tile bath, and attached garage. The spacious living room is 13x27 with a wood burning fireplace... and you'll love the comfort and ease provided by the nice kitchen. Magnificently located with trees, green grass, and wealthy homes. ONLY R. C. MAXSON REAL ESTATE could find such a home for \$18,900. Please, by appointment only.

NEW TELEPHONE NUMBER—2-8686

IT'S SPREADING LIKE WILD-FIRE, the fact that we have the following: 3 wonderful bedrooms, spacious living room, dining area, tile bath, lots of closets, separate utility room, and attached carport. The large kitchen, with ceramic tile drain and splash board, has a whole corner for the breakfast area, and a pantry. Central heating, insulation, beautifully constructed. Paved street, near school. ONLY \$1,656 down (no closing costs on this new home), and PRICED AT A FANTASTICALLY LOW \$17,950!

NEW ADDRESS—217 N. COLORADO

MIDLAND HAS TREES! and I can prove it. Drive out to the Ridgeline area, near the Country Club. If that's your location, then call to see the attractive 2 bedroom asbestos siding home we have there. Spacious living room (22 feet), 20 feet of wonderfully cheerful kitchen, Carrera-glass bathroom, and lots of beautiful, eye-peeling rear yard with trees and shrubs and fence. Wonderful neighborhood for kids and adults. \$11,000.

NEW ADDRESS—217 N. COLORADO

JUST BECAUSE ITS GRAFALAND, and where would like to live with 2 bedrooms, 2 tile baths, and a pine paneled den with built-in bookcases and 2 huge closets. New England provincial living room with wood burning fireplace, separate dining room, and attached garage. Separate, pine paneled breakfast room, and generous closets space, 3 rooms carpeted. Tile floor, nicely landscaped rear patio. Its brick in excellent condition, and only 6 months old. \$21,900.

NEW TELEPHONE NUMBER—2-8686

HERE WE GO AGAIN! With the Sprberry walls to open, watch out for re-newed Midland activity—and higher prices of Midland homes. But while there is time, consider this spacious 3 bedroom, tile bath, practically-new home. Large living room, dining area, and attached garage. This floor plan is known for the terrific closet space. Hardwood floors, mahogany doors, and pantry in the bright kitchen. Owner transferred for his 9 month old home ONLY \$13,750, down (no closing costs) Priced at \$11,600.

NEW ADDRESS—217 N. COLORADO

I'M SURE YOU'LL WHISTLE when you see the sizes of the 2 bedrooms in this attractive cream velour brick home. The large living room and dining area are nicely carpeted, the bath is ceramic tile, and the interior has been completely redecorated just for you. Attached carport, storage, fenced yard which is nicely landscaped, and paved street. Excessive heating facilities, air-conditioning unit, washer connection. Nice neighborhood. Priced at \$10,500.

Three Plants Due In Midland Area

Jones & Stasney Complete Cisco Opener In Nolan

Jones & Stasney of Albany have completed a flowing discovery from the Cisco sand of the Pennsylvanian in Central-South Nolan County at its No. 1 O. W. Cochran and others.

The new field opener flowed for a calculated 24-hour potential of 265 barrels of 37-gravity oil and no water. The flow was through an 18.64th inch tubing choke.

Gas-oil ratio was 850-1. The production came from perforated section at 4,915 feet. That zone had been fractured with an unreported amount of sand oil.

The new well is six miles southeast of Maryneal and 660 feet from north and east lines of section 112, block 1-A, H&TC survey. It is six miles northwest of the Hyton, Northwest field.

The Jones & Stasney No. 1 Cochran drilled to a bottom of 6,776 feet in the Ellenburger. That zone had some indications of production. However it had only a thin oil section and it was not considered of commercial quantity.

After the Ellenburger had been tested the project was plugged back and completed from the Cisco sand. Top of the Cisco sand is at 4,000 feet.

Shows Of Oil, Gas Found In Borden Test

Slight shows of oil and gas were developed on a drillstem test of the lower Mississippian in Helmerich & Payne, Inc., of Tulsa, Okla., No. 1 Dorward, wildcat in Central Borden County.

The prospector was drillstem tested from 9,778 to 9,878 feet. Tool was open three hours. Recovery was 40 feet of oil and gas-cut drilling mud. No formation water developed.

More hole was being made below 9,909 feet in line.

Location is 330 feet from north and west lines of section 10, block 32, T-5-N, T&P survey and six miles east and two miles north of Gall.

Thomason Is Elected Oil Scout President; Will Succeed Locke

P. (Tommy) Thomason of Stanolind Oil & Gas Company has been elected president of the Midland Oil Scouts Association, effective July 1.

He succeeds J. S. (Jim) Locke of Phillips Petroleum Company.

E. B. Dillard of Sinclair Oil & Gas Company is the group's new first vice president and M. A. (Marty) O'Brien is the new second vice president. He is with American Republics Oil Corporation.

E. W. (Woody) Adams of Gulf Oil Corporation was elected secretary-treasurer and Marshall Wilburn of Lion Oil Company was made editor.

Dillard will be "bull" scout for the north country and O'Brien will handle the south country as "bull" scout.

Purchases Seek More Texas Crude Output During July

AUSTIN — Major purchasers of Texas crude oil want more production in July.

In their advance nominations to the Railroad Commission they asked 3,149,508 barrels daily, 42,637 more than they asked for this month.

Increased production was asked for all districts except the big East Texas pool where nominations slumped 3,163 barrels a day. Increases ranged from 208 barrels more daily in the Panhandle to 11,384 in the Gulf Coast District 3.

The Bureau of Mines also has indicated an increased demand for Texas oil in July. Its forecast to the commission pegged July demand at 2,900,000 barrels daily, up 20,000 from June.

A prorating hearing is scheduled here Wednesday.

Bunte Is To Teach Geology At CSM

GOLDEN, COLO. — Arnold S. Bunte of Roswell, N. M., has been appointed associate professor of geology at the Colorado School of Mines for the 1953-54 academic year. Bunte graduated from Mines in 1926 with a geological engineering degree.

He is currently serving as division manager in the Permian Basin for the Vickers Petroleum Company, Inc. He has been associated with Vickers since 1941, serving as chief geologist, chief engineer and exploration manager. He was promoted to division manager in 1951.

A former geology consultant, Bunte also has worked several years for the Shell Oil Company as a geologist and engineer.

In addition to the Shell company, he has been employed by the Kingwood Oil Company, Red Rose Mining Company, the Navaro Oil Company and the Harvey A. Heller Company. He also has done graduate study at the University of Oklahoma.

Bunte will assume his new duties at Mines in September.

Midland Oil Scouts, Landmen To Attend Fort Worth Meet

A large representation of Midland scouts and landmen will move into Fort Worth Wednesday for the National Oil Scouts and Landmen's Association at Hotel Texas, which will run through Saturday.

The Midland Oil Scouts Association is official host for the 1953 convention.

The second day a golf tournament at the River Crest Country Club, small bore rifle match and pistol shoot and a cocktail party in the Keystone Room of Hotel Texas will be held.

The first business session will be held on the third day, when Ernest

By BOB GALLAWAY Reporter-Telegram Staff

The multi-million dollar Spraberry Area gas outlet parade took on an even faster tempo last week as Federal Power Commission hearings ended on El Paso Natural Gas Company's \$175,000,000 project and company officials looked for a ruling by June 30 or before.

At the same time, Phillips Petroleum Company announced that construction had begun on its new Pembroke gasoline plant in the central part of the Spraberry Area — completion of which is destined to coincide with completion of the \$43-50,000, 285-mile project of Permian Basin Pipeline Company already underway.

Facilities to be constructed by the El Paso Natural would consist of about 793 miles of 30 inch main transmission line and about 106 miles of 24 inch main transmission

line, together with related gathering lines, purification plants, gasoline extraction plants, compressor stations and other necessary facilities.

Three of the El Paso units will be constructed in the Midland area — and will include the Midkiff, Driver and Pembroke plants, located from 30 to 40 miles southeast of Midland.

Three Area Plants

An outlook at the three plants shows this picture:

1. Midkiff Plant — plans call for the installation of gasoline absorption and fractionating facilities, dehydration and purification units and 20,000 horsepower for compression. The Midkiff plant actually is in operation but will be greatly expanded. The plant will have 48 residences for employees.

2. Driver Plant — will have dehydration and absorption facilities in addition to 38,880 horsepower for the compression of natural gas. The plant will have 64 homes for its employees.

3. Pembroke Plant — will have 18,000 horsepower compressor station in addition to a dehydration plant which will process 80,000,000 cubic feet of gas per day.

NACE Meet Set Monday For Odessa

The Permian Basin Section of National Association of Corrosion Engineers will meet Monday at the Lincoln Hotel in Odessa.

The dinner meeting will start with a social get-together at 6:30 p.m.

The program will be presented by Harry E. Waldrip, chairman of the south-central region of NACE. He is a corrosion specialist for Gulf Oil Corporation, Houston.

His talk will be, "Do You Have A Production Corrosion Problem?"

More Rent Control Offices To Close

WASHINGTON —(AP)—Twenty-three more rent control offices in 11 states will close June 30.

The closings, Director of Rent Stabilization Glenwood Sherrard said Saturday, represents a further step to achieve worthwhile economies in the administration of the agency. Controls in the area affected will continue until July 31.

The offices to be closed include: Texas: Mineral Wells, Hondo and Weatherford.

New Mexico: Clovis and Portales.

Downing To Attend Airline Conference

Delbert Downing, manager of the Midland Chamber of Commerce, will leave Sunday night for Dallas where Monday he will attend a state-wide commercial airline service conference sponsored by the Dallas Chamber of Commerce.

Los Nietos, DeKalb Stake Chaves Test

Thirty miles northeast of Roswell and in Central-East Chaves County, New Mexico, Los Nietos and DeKalb Agricultural Association spotted location for a Pennsylvanian wildcat.

It will be drilled as No. 1-A White Ranch, 660 feet from north and east lines of section 30-8-29e.

It is slated for an 8,700-foot bottom.

Stanolind Oil & Gas Company

WASHINGTON OIL—

Clamor For Price Hike Due To Follow Imports Battle

By JOSEPH HUTTLINGER Reporter-Telegram Washington Oil Correspondent

WASHINGTON—The clamor for a crude oil price increase may take on steam when the battle over excessive imports of petroleum comes to a conclusion—probably this week.

The imports showdown may come as early as Monday when the House Ways and Means Committee is to vote in

agreements which act with virtually no change, an action which goes before the full House Monday. The committee also decided to take up separately the proposed oil quota and other proposed amendments. The oil quota is set for a committee vote Monday.

Richard E. Simpson (R-Pa.), number two man on the committee, introduced the original bill embracing both extension of the trade agreement and the oil quota. He is author of the pending measure for an oil quota.

While the trade agreement act virtually is certain to be approved by the House, the Senate and finally signed into law, only a miracle would win congressional approval of the proposed oil quota.

Even if the House committee were to go ahead, it is highly remote that the full House would agree, and more remote that the Senate would approve. Accordingly, if the oil quota is rejected by the House committee this week, that ends, for all practical purposes, all hope of legislative relief from excessive oil imports this year.

A tipoff that crude oil prices may (Continued On Page Four)

Wilson Is To Be Principal Speaker At Oil Anniversary

HANOVER, N. H.—Dr. Robert E. Wilson, chairman of the board of the Standard Oil Company of Indiana, will be the principal speaker at ceremonies to be held June 26 at Dartmouth College marking the 100th anniversary of the world's first scientific examination of crude oil.

Dr. Wilson will tell the great story made by the oil industry in its first 100 years since the date when two Dartmouth professors examined a sample of "Pennsylvanian rock oil" and announced it "valuable indeed."

The anniversary will be marked by leaders of the oil industry and college officials by the placing of a memorial tablet upon Crosby Hall, once the home of Dr. Crosby and now a college building. It was here that Dr. Crosby and Prof. Oliver P. Hubbard made the examination. Dr. Paul H. Giddens, president of Hamline University in St. Paul, Minn., an oil industry historian, will speak at the unveiling of the tablet.

McKay To Speak

Douglas McKay, secretary of the Interior, is expected to speak briefly at the dinner, at which Wilson will represent the nation's oil industry. Gov. Hugh Gregg of New Hampshire will bring the greetings of the state, which is unique in its dependence upon industries em-

Gas Hearing Set

WASHINGTON —(AP)—The Power Commission set July 29 as a new date for a hearing on a suspended annual wholesale natural gas rate increase of \$14,800,000 by El Paso Natural Gas Company.

Gulf Multipay Opens In Crane Areas To Potential

Gulf Oil Corporation No. 1 P. J. Lea and others and Gulf and Stanolind Oil & Gas Company No. 1 State, multipay discoveries in Crane County, found the Ellenburger water tables and operators were preparing Saturday to complete the project.

Gulf No. 1 Lea and others, discovery in South-Central Crane County, was bottomed at 8,443 feet. Electric logs were being run. As soon as that operation is completed, oil string will be run.

Dual completions are scheduled on the Simpson and the Ellenburger.

Simpson Flow

The Simpson zone flowed oil at the rate of 941 barrels of oil daily and then flowed Ellenburger oil on

Field Tests Are Staked In Areas Of Lea County

The Texas Company, Amerada Petroleum Company, Ralph Lowe and Magnolia Petroleum Company announced new locations in fields of Lea County, New Mexico.

Texasco will drill No. 5-B M. E. Weir as a project in the North Warren (McKee) field of Central-East Lea. It is 660 feet from south and 330 feet from west lines of section 7-20-35e. It will drill to 9,210 feet.

Texasco also staked location for a test in the Lazy J field of North-west Lea County. It is No. 3-BV State of New Mexico, 660 feet from west and 1,981 feet from south lines of section 26-13a-32e. It will drill to 9,875 feet.

Low Temporarily Abandons Winkler Deep Prospector

Ralph Lowe of Midland, No. 1-C University, Southwest Winkler County wildcat, four and one-quarter miles southwest of Winkler was temporarily abandoned on a total depth of 10,343 feet in an unidentified line.

The drilling rig has been moved off of the prospect. However, the hole has not been plugged.

This wildcat logged interesting (Continued On Page Three)

Martin Is Manager For Weatherford In Central Division

Lee Martin has been made manager of Weatherford Oil Tool Company's recently organized Central Division made up of counties in West Texas and Southeast New Mexico.

He will headquarter in Wichita Falls.

Martin has been with the organization for several years. He will take over his new post immediately. He previously had lived in Nocoona.

Fall Kills Oil Worker

BRASS INSPECTS REED WELD—S. P. Hazlip, second from left, division manager for Reed Roller Bit Company in the New Mexico and West Texas area, is watching W. L. Childs, sales manager, point to a newly welded Reed tool joint, flash welded to drillpipe. C. M. Barnes, third from left, and A. G. Metcalfe, right, salesmen, were in Houston recently with Hazlip inspecting the newly completed facilities for the manufacture of the flash weld joints.

Jones & Stasney—

(Continued From Page One) shows of oil and gas in streaks between 4,104 feet and 4,426 feet. Several Tests Run

Several drillstem tests were run on that section of the hole and numerous ones of those investigations showed some oil and gas. No production tests have been run on the exploration.

Operator says the future of this development is as yet undecided. No geological information has been released on it.

Location is 1,800 feet from south and east lines of section 28, block 21, University survey.

NW Eddy Wildcat Makes More Gas, Distillate On Test

Additional gas-distillate pay in the Pennsylvania test has been uncovered on a drillstem test from 10,135 to 10,241 feet in Stanolind Oil & Gas Company No. 1-AB State, deep wildcat in the shallow Red Lake pool of Northwest Eddy County, New Mexico.

Tool was open 30 minutes on the test. Gas, distillate and 2,500-foot water blanket appeared at the surface in five minutes. Gas production was estimated at 13,000,000 cubic feet per day and distillate flow at three barrels per hour.

Recovery was 90 feet of distillate and 270 feet of heavily distillate and gas cut mud.

Deepening is slated. Similar shows were uncovered on a previous test from 9,980 to 10,154 feet.

Location is 1,800 feet from south and east lines of section 29-17a-28e and 17 miles east and slightly north of Artesia.

block 1, H&TC survey and 12 miles northwest of Hamlin. Operations will begin at once. It is on an 80-acre lease.

Two WT Counties Report Dry Holes

Two West Texas counties have reported the plugging and abandoning of dry wildcats.

In Northwest Crockett County, George Barnes No. 1 John W. Childress has been abandoned at total depth of 1,508 feet in the San Andres. That formation was topped at 1,421 feet on elevation of 2,507 feet.

Location was 330 feet from north and east lines of section 32, block GH, GOC&P survey and nine miles northeast of Ozona.

J. D. Wrather, Jr., of Dallas has plugged and abandoned No. 2 J. E. Davis, wildcat in Southeast Nolan County, at total depth of 4,678 feet.

Location was 1,600 feet from west and 1,800 feet from north lines of section 25, block E, T&P survey and three miles northeast of Blackwell.

Fisher Venture Is Drilling After DST Of Flippen

LeBus Brothers of Wichita Falls No. 1 J. E. Terrell, wildcat in Northeast Fisher County, is drilling below 3,916 feet in lime after a drillstem test of the Flippen lime.

The test was over the interval from 3,411 to 3,423 feet. Tool was open 70 minutes. Recovery was five feet of oil and gas cut mud, 190 feet of oil and 450 feet of salt water.

Location is 330 feet from north and 900 feet from east lines of the southwest quarter of section 86, block 1, H&TC survey and eight miles east of Rotan.

Correct Operator Listed For Project In SE Terry Area

Correct operator for a recently staked stepout to the Wellman field of Southeast Terry County is Stanolind Oil & Gas Company.

The project will be drilled as No. 2 Myrtle M. Edwards, 330 feet from west and 2,200 feet from north lines of section 21, block C-36, pal survey and nine miles southeast of Brownfield.

It is slated for a 10,500-foot bottom.

Operator previously was reported as being Standard Oil Company of Texas.

Tom Green Gets New Prospector

Warren Petroleum Corporation, Oil Division of Tulsa No. 1 A. A. Sugg is a new venture in the extreme west end of the Tom Green County panhandle.

Projected depth is 5,300 feet. Rotary tools will be moved in and drilling will begin at once.

Location is 330 feet from the most southerly north line and 330 feet from the middle east line of F. Salinas survey No. 47, abstract 7894 and 25 miles southwest of Sterling City.

Fidelity To Drill W-C Runnels Test

Fidelity Oil & Royalty Company of Houston is scheduled to drill a new wildcat in West-Central Runnels County as its No. 2 M. H. Vandell.

Location is 330 feet from north and east lines of section 27, H&CN survey and nine miles northwest of Ballinger.

Rotary tools will be used to drill to 5,000 feet, beginning at once.

No. 2 Vandell is six and one-quarter miles southeast of the North Maverick field and one and seven-eighths miles north northwest, of

Shallow Prospector Set For Tom Green

Morris G. Spencer & L. J. Montgomery of Dallas have staked location for No. 3 Washington County School Lands as a 300-foot cable tool wildcat in South-Central Tom Green County.

Drillsite is 5,970 feet from north and 400 feet from west lines of block 106, Washington County School Land survey and 12 miles southwest of San Angelo.

It is three miles southeast of the Bubenik (Pennsylvanian) field. Operations will begin at once.

New Mexico Projects Plugged, Abandoned

Two projects in New Mexico have been plugged and abandoned and location for a wildcat has been quit.

West Coast Hydrocarbon, Inc., No. 1 Black Hills Unit-Federal, wildcat in Chaves County, was quit as a failure on total depth of 5,612 feet in the Eilenburger.

That formation was topped at 5,212 feet, elevation 4,768 feet. Location was 1,800 feet from north and west lines of section 28-17a-20e, Houston Oil Company of Texas

El Paso Gas—

(Continued From Page One) main Basin Pipeline Company—has pointed the construction finger at the Hobbs, N. M. and Spraberry areas.

A compressor station boasting three 1,200 h.p. engines this year and another in 1956, will be built at Hobbs. In addition, plans call for three other compressor stations, two dehydration plants, one sulphur removal plant, the carbon dioxide removal plant, and a gasoline plant. Three of the compressor stations will be located in the Spraberry Trend Area, two in Reagan County and one in Midland County.

Completion of these projects will mean that the major part of the residue gas in the Spraberry area will be removed — thus avoiding shut-in ruling against operators flaring or otherwise wasting natural gas from this area.

FROM BROWNFIELD

Akron Gorky of Brownfield is visiting Dick Cappell, 513 West Wall Street.

Drilling Activity Speeds Up Again

AUSTIN —(AP)— Oil well completions rose to 237 last week, up 83. The year total lagged 4,727 to 5,066. Two gas wells were brought in. Wildcatting led to 15 oil wells, one gas and 78 dry holes.

The total average calendar day allowable as of Saturday was 3,074,531 barrels, a 10,225-barrel increase.

Called to Chicago

Lauren T. Conger, 711 West Tennessee Street, is in Chicago, Ill., where he was called by the critical illness of his father, Dr. F. T. Conger.

Barton, Ex-Midlander, To Be Chief Of Gas Hunting Work Of Northern Natural

Jackson M. Barton, a former Midland resident, has been named exploration manager of the gas supply department of Northern Natural Gas Company of Omaha, Neb., according to an announcement from John Hanley, vice president in charge of the concern's gas supply.

Barton lived in Midland from September 1943 until January 1947. During that time he was a staff geologist in the district office of Magnolia Petroleum Company in this city.

Moved To Wichita He resigned from Magnolia and moved to Wichita, Kans., to take an executive position on the headquarters staff of the Cooperative Refinery Association.

He left Cooperative about two and one-half years ago to become manager of exploration for Deep Rock Oil Corporation at Tulsa.

He has now resigned from that concern to form the connection with Northern Natural Gas Company.

Distribution, Organization Northern Natural Gas Company is a natural gas distributing operation which serves a large area in the middle west.

It is the parent organization of the Permian Basin Pipeline Company which has started on a \$42,000,000 program of laying gas pipe lines from the Puckett area of Pecos County, the Spraberry Trend Area, and Lea County, New Mexico, to a connection with gas pipe lines going into the middle west.

Those lines are expected to be completed and moving gas by sometime in December of this year.

Woodson Oil Will Drill Ellenburger Wildcat In Fisher

Woodson Oil Company of Fort Worth will drill No. 1 S. E. Knox as an Ellenburger wildcat in Central Fisher County.

Rotary tools will be used to drill to 7,000 feet, beginning at once.

Location is 330 feet from north and east lines of west half of block 4, league 318, Gillespie County School Land survey and one and one-half miles southwest of the 2,500-foot Roby field.

Phillips Will Drill Field Stepout In NE Ector Sector

Phillips Petroleum Company filed application with the Railroad Commission of Texas requesting permission to drill a stepout to production in the McBoring (Wolfcamp) field of Northeast Ector County.

The project is to be drilled as No. 2 Ratliff.

Location is 600 feet from north and 1,273 feet from east lines of section 3, block 42, T-1-8, T&P survey and 11 miles north of Odessa. Rotary tools will be used in drilling to 9,100 feet.

Fort Worth Men To Drill Strawn Test In NE Fisher Area

Marshall R. Young of Fort Worth and others will drill No. 1 Martin Estates as a 5,400-foot rotary test in the Ida (Strawn) field of Northeast Fisher County.

Location is 415 feet from east and 335 feet from north lines of the southeast quarter of section 113.

Kidnaper Caught

BERLIN —(AP)— West Berlin police confirmed Saturday the arrest of Johannes Hederich, 44, East German security police agent accused of kidnaping anti-Communists. Hederich was picked up by American authorities last week and turned over to the Germans.

WORLD'S LARGEST OIL TANK—This huge oil tank, located near Monahans, is surveyed by officials who plan to make a recreational area and tourist attraction of the 25-year-old concrete structure. The tank was built by Shell Oil during the flush production days of the Hendricks pool in Winkler County. O. G. Rudy, president of the Monahans Chamber of Commerce, Wayne Long, Chamber of Commerce tourist promotion committee chairman, and Fred P. Snelson, mayor, reading from left to right, discuss future plans.

World's Largest Oil Tank Is Rented By City Of Monahans

The world's largest square dance could easily be held in a giant concrete arena located amid the drifting sand dunes and mesquite bushes of West Texas. City officials of Monahans have reached an agreement with Shell Oil Company in Midland to lease a 25-year-old, 45,000,000-gallon storage tank near the city for \$1.00 per year.

Although the huge concrete tub was not empty since 1931, it was not until recent months that Wayne Long, chairman of the Monahans Chamber of Commerce tourist promotion committee, recognized the potential recreational values to be realized through use of the structure. Since making the original contacts with Shell officials in Midland, his committee and the Monahans City Council have completed ambitious plans for future use of the facilities.

First, a new hard surfaced road will be built from the city to the tank where a large, fenced parking area will be available for tourists and local citizens. A sign on Highway 80 pointing to the "Largest Man Made Oil Tank in the World" will be erected to lead tourists know that the unusual attraction is just a few hundred yards from the highway.

Long said they hope to begin clean-up work inside the structure immediately and plan to provide picnic tables and other recreational facilities for visitors to enjoy. In the past the tub has been used numerous times for meetings, square dances and athletic contests, and in 1950 the Southwest Square Dance

Festival was held there, attracting more than 5,000 visitors from all over the Southwest. The structure is so enormous however, that a crowd of 100,000 persons could get inside its semi-circular walls.

During construction days of the tank in 1928, Monahans was just a small village and few of its present residents were even aware of its existence until recent months. The tank stands as a memorial to the rough and tumble early oil boom days of West Texas. Its design and construction would be considered an engineering marvel today when one realizes that no modern construction machinery was available and that the entire 1,000,000-plus barrel tub was built by men and horses in only 90 days.

A visitor's first impression when gazing into the tub is "Why, it's the biggest thing I've ever seen!" Its staggering dimensions, 620 feet long, 510 feet wide and walls over 20 feet high, would accommodate an area equivalent to seven football fields. Its capacity of 1,084,000 barrels or over 45,000,000 gallons is about nine times the size of ordinary steel storage tanks used today.

90-Day Completion

During the days of flush production from the famous Hendricks Pool near Wink, Shell engineers were faced with the problem of providing quick, economical and adequate storage for the oil which sold for 75 cents a barrel in 1928. Their calculations proved that one filling of the tank would pay for the structure since it could be built for 23 cents a barrel or \$256,000. Similar tubs had been successfully built on the West Coast to handle flush production from California oil fields, so J. A. Wheeler, Shell's chief engineer in the area called on the West Coast construction firm of Bent Brothers to get the job rolling.

Mule-skinners, concrete, lumber, engineers and pipe started pouring in from all over the country and 90 days later, March 30, 1928, the structure was completed. Many designs and calculations were made on the job site. A young Shell Chinese engineer, Dana Young, calculated all volumes and gage tables with a Chinese Abacus, and his work proved amazingly accurate.

A few odd timers such as Shell's present production foreman in Monahans, B. P. Walsh, remember many hilarious happenings during the construction days. Most famous are the tales of the mule-skinners on pay day. Walsh recalls that the village of Monahans with only 500 population had no city or county jail, so the over-intoxicated mule-skinners and other offenders were just chained to light poles in the middle of town until their sentence was up. Walsh also remembers the rare rainy seasons when water accumulated in the sink on one edge of the tank, for that provided the "best dove hunting in West Texas."

When production from Hendricks and other fields declined with the beginning of state supervised production in 1931, the big tub had served its usefulness. Shell Oil and Shell Pipe Line were able to provide adequate, permanent storage at tank farms in McCamey from which the oil was dispatched through Shell's 10 inch line to Cushing, Oklahoma. The wooden roof was sold in 1933 for scrap, and the large hole knocked in the side at the time is used for the entrance to the structure today.

Both Monahans and Shell officials are happy that the apparent future for this pre-processor relic will be to provide pleasure for people. Chamber of Commerce Tourist Committee members have a twinkle in their eyes these days and Tourist Chairman Long often looks off into space and thinks—"If we could only get the water—what a fishing tank that would make."

The Swamper

The following was run in the June edition of Top Pay, published by the Midland Desk & Derrick Club. It rates re-telling in this column.

"When a driller makes a mistake— It is fished for.
When a geologist makes a mistake— It is plugged.
When a scout makes a mistake— It is rumored.
When a landman makes a mistake— It is dropped.
But when a secretary make a mistake— A letter from the home office confirms it."

The University of Texas Bureau of Economic Geology has published a new book on the Van Horn area's pre-Cambrian rocks—estimated to be 360-400 million years old. Researchers Philip B. King and Peter T. Flawn report on geology and mineral deposits of the rocks, thought to be some of the first formed on the earth's surface. The rocks still come to the surface prominently in a 20-mile radius of Van Horn and also in the adjacent Sierra Diablo, Carrizo, Wylie, Eagle and Van Horn Mountains.

The University Bureau published the 218-page book in cooperation with the United States Geological Survey. Bureau Director John T. Lonsdale said.

Dr. Frank W. Jensen of the University of Texas has received an American Association of Oilwell Drilling Contractors award for outstanding service in petroleum engineering education.

Dr. Jensen, an authority on petroleum production and its industrial and general economic effects, was recommended for the award by his colleagues in the University's petroleum engineering department.

The Association makes the awards to teachers who "have most capably furthered the cause of petroleum engineering education."

Dr. Jensen holds bachelor's, master's and doctor's degrees from the university.

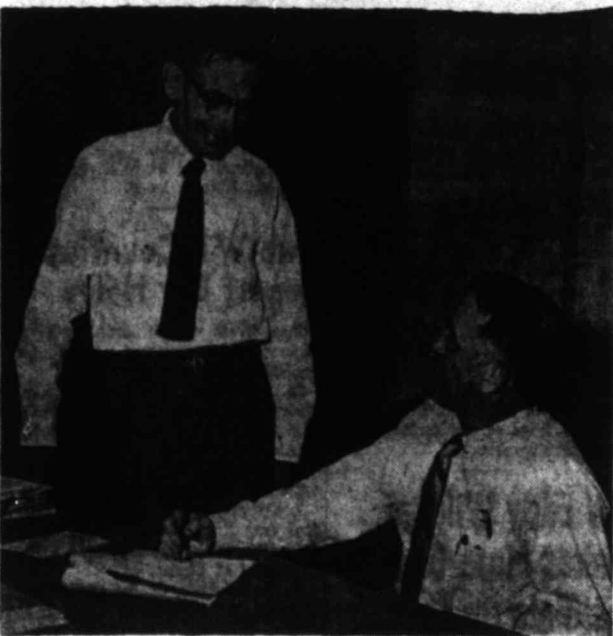

He was an engineer for Humble Oil and Refining Company and Petrolina Mexicana, manager of the Austin-Area Economic Development Foundation, and an independent consulting engineer before joining the university faculty in 1952.

R. G. Tribble of Houston has been named division petroleum engineer for the newly-created Gulf Coast Division of Cities Service Oil Company's Oil Production Division.

Tribble joined the company's training school in 1947 after graduation from Kansas State College. He served as engineer in the oil production division at Pampa and Odessa, and was transferred to Houston as district engineer last year.

John Forsyth of Columbus, will fill the position of South Texas district engineer, vacated by Tribble. Forsyth is a graduate of Iowa State College and entered company service through the training school. His permanent assignment was in the oil production division, where he served in Bartlesville and Houston. He was transferred to Columbus in 1952 as petroleum engineer.

Donald Hewitt of Odessa, Texas, has been transferred to Brownfield, Texas, as engineer in the new district offices established there.

LITTLE RENT, BIG TANK—The largest oil storage tank ever erected will be rented to the City of Monahans by Shell Oil Company for \$1 a year. Mayor Fred P. Snelson, left, looks on as Shell Vice President Joe T. Dickerson signs the lease agreement to permit Monahans to develop the huge concrete oil storage tank near the city into a tourist attraction and recreational center.

More Hole Is Being Made At Two Midland Area Wildcats

Two of the four active wildcat operations in Midland County were making hole Saturday. One of the projects was preparing to perforate and test and the other one was fishing for junk in the hole.

Magnolia Petroleum Company No. 1 Ida Mae Oldham, wildcat in the northeast portion of the county, was bottomed at 10,589 feet, plugged back total depth 10,543 feet in the Pennsylvanian.

Operator was preparing to perforate seven-inch casing at 10,478-494 feet. Operator will test the possible pay behind those perforations.

Location for No. 1 Oldham is 660 feet from north and west lines of section 38, block 37, T-1-S, T&P survey and three miles southeast of PAW.

NW Area Test
United States Smelting, Refining & Mining Company No. 1 M. F. King, wildcat in Northwest Midland

County, was making hole below 12,418 feet in lime and shale on last report.

Location for this wildcat is 660 feet from south and 1,860 feet from east lines of section 19, block 40, T-1-S, T&P survey and four miles northwest of the edge of the city of Midland.

Plymouth Oil Company No. 1-38 Midkiff, wildcat in Southeast Midland County was bottomed at 4,922 feet in lime and shale fishing.

Location is 660 feet from north and west lines of section 38, block 38, T-4-S, T&P survey.

Magnolia Petroleum Company No. 1 Roy Parks, Jr., wildcat in West-Central Midland County, was making hole below 10,582 feet in shale. Location is 14 1/2 miles southwest of the city of Midland and 660 feet from north and east lines of section 19, block 40, T-3-S, T&P survey.

Personnel Changes In Production Are Reported By Humble

HOUSTON—A number of promotions and changes for personnel in Humble Oil & Refining Company's production department was announced recently. The new assignments are as follows:

J. O. Sue will become assistant manager of the department, responsible for natural gas sales, transportation, and processing, and the operation of all gasoline plants.

Bowman Thomas will become assistant manager of the department, responsible for all staff activities, including promotion and utilization work.

R. E. Bridges will become acting assistant manager of the department, on a one-year training assignment. His primary responsibility will be operating problems.

B. J. Schiltz will become superintendent of the Gas Division of the Production Department.

J. H. Galloway, who has been acting assistant manager of the department on a training assignment, will return to his regular duties as assistant superintendent of the West Texas Division.

J. S. Boldrick, who has been acting assistant manager of the department on a training assignment, will return to his regular duties as assistant superintendent of the Louisiana Division.

R. K. Tracy will become superintendent of the Gulf Coast Division, on a training assignment.

R. R. McCarty, who has been acting assistant superintendent of the Louisiana Division, will return to his regular duties as assistant superintendent of the Southwest Texas Division.

W. J. Barrett, who has been acting assistant superintendent of the Gulf Coast Division for a one-year training assignment.

Douglas Ragland will become acting assistant superintendent of the Gulf Coast Division for a one-year training assignment.

John J. Carter will remain acting assistant superintendent of the Gas Division on a training assignment for another year, and W. E. Curry, Jr., will continue on his present training assignment as gas contract supervisor and analyst.

T. J. Fuson will remain acting chief petroleum engineer for an ad-

Clamor For Price Hike Due

(Continued From Page One)

Such adjustments will undoubtedly come in due course. It would seem to be very unwise and short-sighted to invite government regulation of even a part of our industry in an attempt to solve a problem which may be almost entirely attributed to other factors than imports.

Exactly how crude oil prices can rise in the face of high stock levels of the present time is hard for many persons to see.

A step which may be paving the way, however, lies in the gasoil price increase in the East set last week by Socony-Vacuum Oil Company, and Esso Standard Oil Company. The increase is 3 and 7 cents a gallon.

Since crude oil price levels are set by crude oil buyers, and since Jersey-Standard, largest oil company in the world, is in favor of higher crude prices, it appears clear that the price boost is only a matter of time.

The big question appears to be just when stock levels can be brought to manageable proportions. The answer lies in a major report from the Petroleum Administration for Defense out last week.

The report forecasts increasing demands for U. S. crude oil the rest of the year, when demand may reach 6.7 to 6.8 million barrels daily. At the same time the PAD forecast demand holding steady for a few months, and then a rapid diving into stocks to meet demand.

In other words, the worst may be over for crude oil producers, suffering cutbacks in allowances, and rising demand is ahead. If any time is ripe to go after a price increase, it is when demand is strong.

W. T. Ilfrey, who has been on a training assignment as acting division petroleum engineer in the Louisiana Division, will resume his regular duties as assistant division petroleum engineer there.

W. J. Greenwalk will become acting chief reservoir engineer, on a training assignment.

Gene D. Thompson and John Niskel, Jr., were made district petroleum engineer and district civil engineer, respectively, for the Coastal Junction District in California.

Joe Jones Martin was promoted to district chief clerk of the Mallard District in Louisiana.

is very real and quite a sizeable item, and at some time will have to be compensated for in the crude price, as will the higher drilling and operating costs experienced in recent years.

Such adjustments will undoubtedly come in due course. It would seem to be very unwise and short-sighted to invite government regulation of even a part of our industry in an attempt to solve a problem which may be almost entirely attributed to other factors than imports.

Exactly how crude oil prices can rise in the face of high stock levels of the present time is hard for many persons to see.

Midlander Awarded Jet Pilot Wings; Others Train, Serve Overseas Duty

Joe B. Davis

Joe B. Davis, son of Mr. and Mrs. T. P. Davis, 1511 North Main, recently was presented his Air Force jet pilot wings and commission as second lieutenant during graduation ceremonies at Williams Air Force Base, Chandler, Ariz.

The graduating class was composed of pilots from seven NATO countries—Belgium, China, Denmark, France, Holland, the United Kingdom and the United States. Principal speaker at the ceremonies was Gen. Hoyt S. Vandenberg, retiring chief of staff of the Air Force, whose son, Lt. Hoyt S. Vandenberg, Jr., was a member of the graduating class.

During his training, Davis flew the T-38, dual-seat conventional-type trainer and the T-33, only dual-seat jet trainer. The course included 80 hours of flight training in jet aircraft, 55 hours in the T-38, 176 hours of highly technical academic studies and 194 hours of military training.

Wylie W. Self

Cpl. Wylie W. Self, 25, son of Mr. and Mrs. J. J. Self of Wingate, and whose wife, Bonetta, lives at 1201 West Dakota Street, writes from Ludwigsburg, Germany, where he is stationed with the 47th Ordnance Group, that he hopes to be home in December.

Self, who receives his mail through APO 46, New York, has sent home pictures and souvenirs from Holland, Belgium and France.

Sgt. First Class Jimmy D. Cooke, son of B. L. Cooke of Monahans, has been rotated to the United States from Korea where he had been serving with the 25th Infantry Division.

Sergeant Cooke, who arrived in Korea in April, 1952, served as a personnel administrative specialist with the division's 86th Infantry Regiment. Before entering the Army in February, 1951, he was a student at Hardin-Simmons University, Abilene.

Mack H. Huggins, son of Mr. and Mrs. B. L. Huggins, 1010 South Lamessa Road, has written his parents that his ship, LST 1138, is operating six miles off the Korean coast as

Mack H. Huggins

mechanics school at Sheppard Air Force Base for extensive training designed to provide him with the knowledge and basic skills required in servicing, inspecting and maintaining aircraft used by the U. S. Air Force.

Upon graduation, Evans, who entered the Air Force March 5, 1953, will be awarded the rating of Airplane and Engine Mechanic.

Midshipman Second Class Fred S. Underwood, son of Mr. and Mrs. Wayne S. Underwood, 907 West Illinois Street, will be among members of the U. S. Naval Academy Class of 1955 who will take part this summer in a training program to include amphibious and aviation indoctrination, educational tours of Naval installations and private industries in the Philadelphia, Pa. area and a three-week aircraft carrier cruise to Halifax, Nova Scotia.

Amphibious training will be conducted at the U. S. Naval Amphibious Base, Little Creek, Va., and will be a joint operation with second class cadets from the U. S. Military Academy, West Point, N. Y. Climaxing the amphibious training will be a simulated invasion by 818 midshipmen and 520 cadets, of the beaches of Camp Pendleton, Va.

Aviation training will be held at the U. S. Naval Air Facility, Annapolis, Md.

Robert D. O'Dell, son of Mr. and Mrs. Robert L. O'Dell of Andrews, has been promoted to the rate of aviation technician third class and now is stationed with Composite Station 35 at the U. S. Naval Air Station, San Diego, Calif.

Also receiving an advancement in rating with the U. S. Navy was Joe R. Baugh, son of Mr. and Mrs. J. M. Baugh of Stanton, who was promoted to torpedoman's mate third class. He is serving aboard the submarine USS Gudgeon at the U. S. Naval Submarine Base in New London, Conn.

Marine Pvt. John O. Pope, Jr., 19-year-old son of Mr. and Mrs. John O. Pope, 1010 West Wall Avenue, has completed "boot" training at the Marine Corps Recruit Depot, San Diego, Calif., and now is undergoing four weeks of individual combat training at Camp Pendleton, Calif.

Upon completion of this advanced training, the former student of El Reno High School will be assigned to a Marine unit in the United States or overseas, or to a technical training school.

Oral D. Evans

Airman Third Class Oral D. Evans, 19, son of Mr. and Mrs. A. B. Evans, 112 East Hickory Street, has entered the Airplane and Engine

DREW PEARSON ON The WASHINGTON MERRY-GO-ROUND

(Copyright, 1953, By The Bell Syndicate, Inc.)
Drew Pearson says: Rhee may be causing truce headaches, but it's hard to be angry at him when knowing his steadfastness of purpose; He has suffered and fought a lifetime for Korea's liberty.

WASHINGTON — Dr. Syngman Rhee, our willful, sometimes cantankerous friend in South Korea, may be causing us truce headaches, but when you look back over the vista of his 78 years you can understand why.

During those years he has been beaten with bamboo rods daily for seven months. He has had oil paper wrapped around his wrists and then set on fire. He has had his fingers mashed so horribly that even today he blows on them to keep 'em warm. He has had to wear a 20-pound wooden cage around his neck and sit with his feet and hands locked in stocks.

He has spent seven years in prison, 41 years in exile, and has had a \$300,000 Japanese price put on his head. He has been disheartened. He has been disheartened. But he never has ceased fighting for the liberty of the barren little country which is the focus of the world today.

And having staged that fight, having suffered such punishment, he is not, at the age of 78, easily persuaded to surrender.

I knew Rhee when he lived in exile in Washington, president of the so-called "Korean Republic," then occupied by soldiers of Japan, and which no one ever thought could become free again—no one, that is, except Rhee.

Rhee's Diplomatic Record
The president-in-exile had come to this country at the age of 27 during the Portsmouth, N. H., conference called to settle the Russo-Japanese War. Rhee, a young Republican radical, recently out of prison, personally urged President Theodore Roosevelt that the Portsmouth Treaty recognize Korea as a free and independent state. Nevertheless, Article I of the treaty turned Korea over to Japan. Rights of small nations at that time were not popular.

Rhee, however, battled on. He had become a Christian, had written a book, "The Spirit of Independence," while in jail. Now he studied at Harvard and Princeton, came to know Woodrow Wilson, attended the Versailles Conference, where once again he placed the plea of a small nation before the great powers.

And once again, despite his acquaintance with Wilson, he failed. Dr. Rhee sometimes jokingly credits me with responsibility for his marriage to Francesca Donner, an Austrian woman he met while pleading his cause before the old League of Nations.

My small role in the marriage merely was the fact that when Rhee got the usual State Department run-around regarding a passport visa for Francesca Donner to enter this country, I called the matter to Cordell Hull's attention. He promptly cut red tape. The Rhees were married shortly thereafter and she has been beside him through the heartaches and headaches of Korea ever since. Conquering Here

As the Pacific phase of World War II neared its end, Dr. Syngman Rhee was living in Hawaii, as near as possible to the beloved country for which he had suffered and fought so long. After 40 years of battling for independence, Korea's great chance had come.

He returned shortly after V-J Day, to be hailed as a modern-day savior. Every political party welcomed him, offered him its support, asked him to become president—even the Communists.

Perhaps the seeds of Korea's present-day troubles started when he refused to accept Communist co-operation in his cabinet. Rhee even differed with Gen. John Hodge, U. S. commander in Korea, who wanted a compromise between the Communists and right-wing parties. But Rhee refused, started to battle the Communists from the very start.

Bitterest disappointment was the line drawn straight across Korea, cutting his liberated country in two. True, this was a matter of military expediency, arranged by Russian and American troop commanders to prevent their armies from clashing in the field.

But for a man who had spent his life working, hoping, dreaming of a free Korea, it was a bitter compromise to swallow just the same. President Eisenhower is reported quite true at President Rhee of

NEW POLICE BRASS—These six police officers sport brand-new badges after their promotions were announced by Police Chief Harold Wallace. Left to right are Sgt. James Simons, Sgt. Willie Hill, Sgt. Walter Fields, Capt. Billy Patterson, Sgt. Bill Keel and Sgt. Deloss Grayson. Another officer promoted to sergeant, Oddis Davidson, is not shown in the picture.

Midland Texas Tech 'Exes' Schedule Barbecue Tuesday

Athletes, school officials and association chiefs will be on hand at 6 p.m. until 10 p.m. Tuesday when the Midland Chapter of the Texas Tech Ex-Students Association holds its annual barbecue at Cole Park.

Featured guests will include D. M. McElroy, president of the association; L. C. Walker, secretary; Lewis Jones, assistant dean of men at Texas Tech; head coach De Witt Weaver or one of his assistants; and several basketball and football players now working in or near Midland for the summer.

Tickets, said John R. Hinchey, president of the Midland chapter, may be picked up from Ed McCullough, Jack Blake, Myrt Baker, Carolyn Harris, Mary Ann Goddard, Bobby Broyles, Jack McClellan, Jim Roop, Sam Hershey, Jack Page, Bill Redford, Billy Joe Wright, Bill Bolch, Johnny McClellan, Bill Johnson, Jack Turner, Barbara Culver, Bernard Bevis, Johnny Morelan, Mary Jane Glahn, Paul Haakins, Kenneth Woods or Don Grove.

Or, Hinchey continued, tickets will be delivered to exes calling phone number 2-2822 between 8 a.m. and 5 p.m. or 3-3906 after 5 p.m.

Exes in Odessa are asked to contact James Ray at West Texas Gas Company or Bill McCasland at McCullough Oil Tool Company.

Books Help Hobby Hubby

A novel way of adding to Dad's library is to give him some excellent reference books on taking snap-shots, making home movies, and dark-room data.

Here are some which are sure to provide Dad with just the information he's looking for: "How To Make Good Pictures." Strictly basic, it begins where the camera manual ends. It helps you see the picture possibilities that exist around you, and then helps you make the most of these possibilities.

For the amateur photographer who wants to do his own developing, printing, and enlarging, "Bigger and Better, The Book of Enlarging" is now available. "How To Make Good Movies," is a veritable encyclopedia of movie-making, written in a light and engaging style. Dad will find this book valuable whether he has never taken a picture or has been making movies all his life.

Cafes Mark Menus With Special Fare

Maybe Dad would like to "eat out" on his holiday. If he does, local restaurants stand prepared to serve him the official Father's Day menu, complete with all the trimmings.

Taking note of the rising popularity of the day, the National Restaurant Association has announced that its members will prepare special menus throughout Father's Day week, June 21-27.

The official menu this year is chicken with cranberry sauce, plus cake with all the fixings. The restaurants will offer many combinations of dishes based on this menu.

Feminine Air Patrol To Convene Thursday

DALLAS —(AP)— The annual national all-girl civil air patrol (CAP) encampment will open Thursday at Lackland Air Force Base in San Antonio.

Outstanding CAP girl cadets from each of the 48 states will attend. Representing Texas will be Lt. Dottie Levitt of Galveston.

The girls will receive instruction in aeronautical science.

First Polio Case

CORSICANA —(AP)— The first polio case in Navarro County this year has been diagnosed. Doctors said Larry Don Green, nine, had a mild case of polio with no paralysis.

CHURCH SERVICES CHANGED

The mid-week service of the Four-square Gospel Church will be held at 8 p.m. each Tuesday. The service previously was conducted on Wednesday.

VACATIONING IN COLORADO

Leona Meisner, 301 East Michigan Street; Marie Woodward, Sweetwater, and Beth Ann Willis of Waco, are vacationing for two weeks in Santa Fe, N. M., Colorado Springs and Denver, Colo.

Birth of a star might take a million years. Enough atomic clouds, the stuff from which stars are made, still are floating within our galaxy for a thousand million stars to be created out of the matter they contain.

Rhee Spends Lifetime Seeking Peace Amid Beauty For His People In Korea

SEOUL—(AP)—Allied troops reoccupied Seoul in September 1950, after landing at Inchon and routing the North Korean Reds. A throng of Koreans gathered in the battered capital city to hear an address by their white-haired President, Syngman Rhee.

It was a momentous occasion for the little man who had endured prison torture and 23 years of exile in his long, relentless fight against monarchists, Japanese militarists and now the Communists. American present expected a dramatic, spine-tingling speech from the leathery-skinned Harvard and Princeton graduate.

Rhee fastened a fond gaze on his people and said:

"We have returned to our beloved city. Now let's get the stink out of the streets and get some trees on those mountains."

The incident illustrated several points in the character of the 78-year-old Chief Executive. He is a simple, direct man with no apparent affections, but stubborn in persisting for what he believes is best for his Korea.

Two-Fold Plan

He is a passionate lover of trees and flowering things. He has a mania for sanitation.

Today in the midst of a great armistice crisis which has found him standing up both against the Reds and the United Nations at times, he still is exhorting Seoul residents at least once each week to clean up and plant.

"The development of the country is as important as the armistice question," he explained.

His love is for a country in which he was born under a monarchy March 26, 1875, which threw him in prison when, as a Methodist mission convert, he tried to stir up a spirit of democracy; and from visitors often find him playing in the garden with two bear cubs, gifts of South Korean Army units, and with a second dog, Chindo.

His Constant Critics

Rhee toyed with the bears and stroked his terrier last Monday while telling newsmen: "I am being criticized by everyone—except the Korean people."

Rhee's daily schedule begins at 6 a.m. After a light breakfast, he reads newspapers an hour.

At 8:30 a.m., he goes to a large pond and feeds bread and rice to more than 100 goldfish.

Then he walks to his office and receives reports on the war. He consults with his ministers. By 9:30 a.m., he is back in the garden receiving visitors and giving instructions to his secretaries.

Coal, Not Wood

Just before noon, he sits down to his typewriter to bang out personal letters or statements. Very often they are appeals to his people to plant trees, use coal instead of wood for cooking and heating.

At 12:30 p.m. daily, he lunches with his Austrian-born wife, Frances, 20 years his junior, whom he wed in 1924. His digestion is remarkable. He eats what he likes, including chicken, fish, beef and pork.

After receiving visitors from 3 to 4 p.m., he plunges into the work of receiving government reports and dictating.

Poems And Bombs

After a walk and a 7 p.m. dinner, he listens to the radio, often reads American books and magazines. He was reading a book of poetry last Monday when a Communist plane dropped a bomb which shook his home. He was unperturbed, waiting calmly for a police report that told him the bomb hit a school and injured two teachers.

Just before retiring, he opens his Christian Bible and reads passages aloud to himself and his wife. Saturday nights he allows himself a special treat—films from the U. S. Eighth Army.

And while the crisis eddies about him, Rhee sits in his garden as impassive and seemingly as ageless as Korea's timeless mountains.

Syngman Rhee

which he was exiled, fleeing for his life soon after the Japanese took control in 1910.

Garden Office

He returned to Korea in 1945 after Japan's defeat.

Rhee lives in a fine, concrete and tile mansion on a Seoul hillside. He spends many waking hours in his spreading, beautiful gardens.

This week, when Gen. Mark Clark flew to Seoul for an urgent con-

ference over Rhee's bitter opposition to a truce with the Reds, they held their meeting in the "garden office." A third party present was Rhee's little brown and white terrier Smartie.

Visitors often find him playing in the garden with two bear cubs, gifts of South Korean Army units, and with a second dog, Chindo.

His Constant Critics

Rhee toyed with the bears and stroked his terrier last Monday while telling newsmen: "I am being criticized by everyone—except the Korean people."

Rhee's daily schedule begins at 6 a.m. After a light breakfast, he reads newspapers an hour.

At 8:30 a.m., he goes to a large pond and feeds bread and rice to more than 100 goldfish.

Then he walks to his office and receives reports on the war. He consults with his ministers. By 9:30 a.m., he is back in the garden receiving visitors and giving instructions to his secretaries.

Coal, Not Wood

Just before noon, he sits down to his typewriter to bang out personal letters or statements. Very often they are appeals to his people to plant trees, use coal instead of

wood for cooking and heating.

He was unperturbed, waiting calmly for a police report that told him the bomb hit a school and injured two teachers.

Just before retiring, he opens his Christian Bible and reads passages aloud to himself and his wife. Saturday nights he allows himself a special treat—films from the U. S. Eighth Army.

And while the crisis eddies about him, Rhee sits in his garden as impassive and seemingly as ageless as Korea's timeless mountains.

TO SING HERE—The A Cappella Chorus of Southwestern Christian College for Negroes, Terrell, will give a public program at 9 p.m. Sunday in the Northside Church of Christ, North A and Tennessee Streets. E. W. McMillen is president of the school, founded only three years ago, and Pauline Owen is director of the chorus.

Abilene, Big Spring, Angelo Drivers Win 'Truck Rodeo'

Abilene, Big Spring and San Angelo drivers took top honors here Friday in the "truck rodeo" held at Midland Air Park and sponsored by Humble Oil and Refining Company's West Texas division of sales.

Two Abilene men led in the two divisions of the traffic contest. James Massey was high man in the bobtail class and Luther Standley took semi-trailer class honors.

Runners-up in the two classes were Walker "Speck" Jones of San Angelo, bobtail, and Tony Hale of Big Spring, semi-trailer.

Massey and Standley will go to Tyler June 29 for the state contest, the winner of which will receive a gold, engraved watch valued at \$200. Humble will foot the bill for the two men and their families during the Tyler visit.

The truck rodeo, a program of the Texas Motor Transportation Association, faced drivers with an "obstacle course" made up of problems on parallel parking, alley docking, off-set alley driving, diminishing alley driving and straight line driving. Topping off the contest were written exams on safety rules, fire fighting, first aid and truck operation, plus a personal appearance inspection.

Drivers were graded on speed and accuracy in solving the truck problems.

Humble officials on hand for the rodeo included R. T. Holmes, division manager; W. C. Barnes, assistant division manager, and Gene Penderly, division operations manager, all of Abilene, and Dave McFadden of Houston, transportation coordinator for the Humble Sales Department.

The Astor Indians used cocoa beans for money and slaves could be bought for 100 beans.

Webb Cadet Selection Team Seeks West Texas Applicants

An aviation cadet selection team equipped to interview and partially process prospective applicants for flying training in the Air Force has been established at Webb Air Force Base, Big Spring, under the supervision of Headquarters 3502nd Personnel Processing Squadron, Lackland Air Force Base, San Antonio. The operating area of this team includes most of West and North Texas.

According to the team president, Capt. Alden C. Clark, the group, supplied with the most current and factual flying training information, will visit colleges, universities, air bases and cities in a wide area around Big Spring.

Aviation cadets are trained to become pilots or aircraft observers. An aircraft observer is schooled in an aircrew specialty such as bombardment, navigation, radar, or aircraft performance engineering.

Upon completion of approximately one year of training, an aviation cadet pilot or observer receives his silver wings and a commission as a second lieutenant in the United States Air Force Reserve.

To qualify for aviation cadet training, an applicant must have a minimum of two years of college credits, be between 19 and 26 1/2 years of age, single, in good physical condition, and be able to pass mental and physical tests. Pilot applicants must have normal 20/20 vision, while aircraft observer candidates need only have 20/50 vision

correctable with glasses to the normal 20/20 vision.

Young men applying now for aircraft observer training can expect a class assignment within six weeks after they successfully complete the qualifying tests. Captain Clark pointed out that this rapid selection and entry into training should be especially attractive to those men who wished to exercise their right to choice of service, but who have not otherwise been able to do so due to the very small Air Force enlistment quotas. Entrance into the aviation cadet program is not subject to these restrictive quotas.

Additional information may be obtained by writing the Aviation Cadet Selection Team, Webb Air Force Base, Big Spring.

Houston Hill

Eight From Midland Planning To Attend Contractor Session

Eight Midlanders plan to attend the general quarterly membership meeting of the West Texas Chapter Associated General Contractors to be held Tuesday at the Lincoln Hotel in Odessa.

Midlanders will include Houston Hill, president of the West Texas Chapter AGC; James Hill, Wilbur Evans, and Jewell Russell, all of Houston Hill, Inc.

Felix Stonehocker and Bert D. Chadwell of the Stonehocker Construction and Lumber Company will attend as well as Pat H. Stanford and Herman Krevit of Pat H. Stanford, Inc.

The meeting will start with a dinner at 7 p.m. with the business session following.

Mother Of Midland Residents Interred

HASKELL Funeral services were held at 4 p.m. Saturday in the Haskell Church of Christ for Mrs. R. D. Turpen, 64, mother of Marion Turpen and R. D. Turpen, Jr., both of Midland. She died Thursday after a long illness.

Mrs. Turpen had been a resident of Haskell and Knox Counties since 1923.

Other survivors include another son, Troy G. Turpen of Andrews, and a daughter, Mrs. A. G. Boggs, Jr., of Munday.

Contour maps of the earth can be made from a plane with the help of a radar system which sends high frequency radio waves down to the ground and receives the echoes back in the plane. By this method, territory can be mapped in darkness, fog, or cloud conditions, which could not be mapped by photographic methods.

+ Many Newcomers Are Moving To Midland +

MIDLAND NEWCOMERS—The H. J. Nobles, 2601 West Washington Street, are among the many newcomers who recently have moved to Midland. They came here about a month ago from Pecos and for-

merly lived in Dallas. Noble is a geophysicist with the Humble Oil and Refining Company. Pictured, left to right, are Noble, Mrs. Noble with Jim, aged four months, and Bart, two.

FORMER DALLASITES—The F. P. Troseths, 1111 North Colorado Street, moved to Midland about two weeks ago from Dallas. Troseth, who is a geologist with Magnolia Petroleum Company, is the son of Mr.

and Mrs. Ralph Troseth, also of Midland, and Mrs. Troseth is from San Antonio. They are pictured with their eight-month-old son, Eric.

FROM NEW MEXICO—Mr. and Mrs. P. L. Camerzell and daughter, Cheryl Ann, aged two, of 804-A Powell Street, have been in Midland since about the first of the year, moving here from Albuquerque, N. M. Mrs.

Camerzell is from Phoenix, Ariz., and Camerzell, an electronics engineer with The Western Company, is from Scottsbluff, Neb.

CALIFORNIANS—The Rev. and Mrs. R. C. Barron, 3116 Travis Street, both from California, had been living in Pittsburgh, Pa., before they moved to Midland two weeks ago. Mr. Barron is pastor of the Seventh Day Adventist Church. Pictured with the Barrons are their daughter, Donna, six, and son, Dickie, three.

MINNESOTANS— Before moving to Midland about a month ago, the Charles Kochs, 3216 Delano Street, lived in Minneapolis, Minn. Pictured, left to right, in the picture to the left, are Cheryl Sue, seven, Koch, with Gary, two, and Mrs. Koch with Jan Marie, three months. Koch is a salesman with the United Petroleum Gas Company.

RELIABLE PRESCRIPTIONS

Charlotte Minerva Brown Wed To Thomas Ellsworth Carter

The marriage of Charlotte Minerva Brown of Fort Worth and Thomas Ellsworth Carter of Beaumont, former Midlander, was solemnized at 8 p.m. Saturday in the St. Andrew's Episcopal Church in Fort Worth.

Mrs. Thomas Ellsworth Carter

the bride is the daughter of Mr. and Mrs. Malcolm Hendricks Brown of Fort Worth. She was graduated from the University of Texas, where she was a member of Zeta Tau Alpha Sorority.

Former Midlander
 Parties of the bridegroom are Mrs. Frances Carter of San Angelo and Dan R. Carter of Midland. Now serving as editor of the Magnolia Company Minuteman, he formerly was employed 18 months by the Permian Basin Oil News Service in Midland.

He attended the Midland schools for seven years and was graduated from John Tarleton High School and the University of Texas. He received a degree in Journalism from UT, where he was a member of Sigma Phi, social fraternity. He served with the Navy for 27 months, taking his naval training at Southwestern University.

Attendants Named
 The Rev. Louis F. Martin officiated for the wedding ceremony, and honor attendants for the couple were Mary Lou Brown of Fort Worth, sister of the bride, and Charles Taylor of Austin.

Cynthia Sevier of San Angelo, niece of the bridegroom, was the flower girl and bridesmaids included Mrs. Ben Sevier of San Angelo, sister of the bridegroom, and Angela Colvin and Mrs. Clark Edwards of Fort Worth.

Groomsmen included John D. Austin, Glenn Hutton and Don Nelson, all of Beaumont. Serving as ushers were George Colvin of Fort Worth and Ellis F. Morris of Austin.

Wears White
 The bride, who was given in marriage by her father, was wearing a white bridal gown of Chantilly lace and satin. The lace formed the fitted bodice and tapered to a point over the back of the satin skirt that terminated in a cathedral train.

The bride's headress was a Juliet cap of lace edged in pearls with a fingertip veil of nylon tulle. She carried a spray of gardenias on an heirloom prayer book.

The bride's attendants and flower girl wore cocktail length dresses of Windsor blue pure silk taffeta fashioned with strapless bodices and shrug jackets. They carried old-fashioned nosegays of pink blossoms.

Reception Held
 Included in the houseparty for the garden reception at the Brown home were Gretchen Koblman of Weatherford, Lell Cardwell of Lockhart, Paula Bodecker of Bowie and Mrs. Frank Kudiaty of Fort Worth.

When the couple left on a wedding trip to Florida, the bride was wearing a black and white checked linen suit with black and white accessories.

The newlyweds will live in Beaumont.

The bridegroom's mother was hostess for the rehearsal luncheon Saturday in the Fort Worth Woman's Club and Mrs. Clark Edwards gave the spinster dinner Thursday in the Worth Hotel.

Other pre-nuptial parties for the bride included a tea given by Mrs. George Colvin and her daughter, Angela; a dinner party given by Mrs. John O. Bates in the Western Hills Hotel; a luncheon given by Mrs. W. R. Thompson in the River Crest Country Club; a kitchen shower given by Mrs. T. A. Platt and Mrs. R. L. Collier; and a brunch given by Mrs. Louis Bowie and daughter, Beverly.

RUTH MILLETT SAYS—

Urge To Own Swank Autos Often Betrays Immaturity

What is wrong with a husband who is far more interested in the car he drives than in the home he provides for his family?

Recently there has been a number of letters from wives who claim their husbands don't care how the family lives as long as he has a shiny new car to drive.

They say that even though everything about the house is run down, there always seems to be enough money for the husband to trade last year's automobile for a new and often more expensive one.

It is probably not necessary to point out to these wives that their husbands are immature. That they still have teenage standards and an adolescent need for feeling like big shots. They get that feeling when they get behind the wheel of a shiny new automobile.

It is the one way they have been able to figure out to say to the world, "Look, I'm somebody."

Point Out True Values
 But can the wife do anything about the matter? Perhaps Her job is to try and make the husband see how a family lives is far more

important than what kind of a car they use for transportation.

She may be able to appeal to his need for wanting to tell the world he is somebody by pointing out that a man's economic standing is judged by the way his family lives and how well he is able to provide for them, not by the kind of car he drives.

She can point out the absurdity of a big, shiny car parked in the driveway of a run-down, uncared-for home.

It would probably be good strategy for her to start entertaining as much as she can afford to so her husband will see their home through the eyes of outsiders.

But there is no quick and easy solution. There never is for the wife who is dealing with an immature and self-centered husband.

PLAN BENEFIT DANCE

CRANE—The Buttons and Bows Square Dance Club will hold a benefit dance to aid San Angelo and Waco tornado victims June 20 in the Community Hall. Marion Brunette will call and music will be furnished by Liles Band.

Flavor change: Crumble some crisply cooked bacon over a platter of macaroni and cheese before you bring it to the table.

Postal Auxiliary Names Delegate To Convention

Mrs. Bernice Seawright was elected delegate to the state convention of postal clerks to be held June 25-27 in Lubbock at a meeting Thursday of the Post Office Clerks Auxiliary in the home of Mrs. Carl Hyde, 1909 West Holloway Street.

Mrs. Charles Campanella presided at the business meeting and discussed literature concerning the convention.

It was announced that the business meeting for August has been cancelled and plans for a picnic were discussed. The picnic date will be announced in July.

Present were Mrs. Bob Deemer, Mrs. William Metacher, Mrs. Campanella, Mrs. Seawright, Mrs. Ed Zantow, Mrs. Joe Pharris and Mrs. Hyde.

The next meeting will be held July 2 in the home of Mrs. Ed Knabe, 315 Spruce Street.

Reba Bratton, John Kennamer Are Married

PECOS—Reba Bratton, daughter of Mr. and Mrs. George Bratton of Dardanelle, Ark., and John Calvin Kennamer, son of Mrs. Nancy Hicks, were married June 3 in Carlsbad, N. M.

The ceremony was performed in the home of the Rev. Mayo D. Carpenter, pastor of a Carlsbad Baptist Church.

Mrs. Bratton wore a white street-length dress and carried pink carnations.

Attending the wedding were the bridegroom's mother, a brother, Albert Ray Hicks, and Oma Lee Adams, all of Pecos.

The couple will make their home in Pecos.

Any after-dinner coffee fanciers in your home? Surprise them with extra-strong black coffee served in small cups with twists of lemon peel.

When a recipe calls for undiluted frozen orange juice, allow the concentrate to thaw until just about enough to mix with a spoon. Stir, then measure the amount needed. By stirring, you are sure to get even quality.

GARDEN NOTES—

Pest Control Current Gardening Project

(One of a series of articles on gardening in Midland, prepared and submitted by Midland Garden Clubs.)

Hot June weather encourages thrips, a tiny insect about as wide as a fine needle, just visible to the naked eye. The color usually ranges from pale yellow to brown. In Midland thrips cause most damage to roses and gladioli.

To control gladioli thrips, spray the leaves at 10-day intervals from the time they are six inches high. The insects hide between the leaf sheaths. If blooms have white streaks or blotches, separate the petals and look for the tiny insects dashing about at the base of the petals. Be sure to spray the stalks which have not yet bloomed in order to prevent damaged blossoms. Early planting, so that the gladioli bloom before hot weather, is one way to avoid thrip damage.

Roses may have thrips that are unnoticed until there are blossoms with brown petal edges or balled blossoms which don't open properly. Often they are more prevalent on light colored varieties. Summer Snow seems particularly susceptible. Check for thrips the same way as on gladioli. Open up the petals and look for the tiny, scurrying insect at the base of the bloom.

A recommended control for thrips is 50 per cent wettable DDT, one to two teaspoons to a gallon of water. However, the use of DDT encourages red spider and for this reason one may prefer to use a spray containing lindane, chlordane or toxaphene.

Pinching of chrysanthemums should be continued. In order to obtain bushy plants with many

branching ends to produce blooms, the ordinary hardy chrysanthemums must be pinched from the time they are six to eight inches high. Each time the end of a growing shoot is pinched off, several branching shoots will develop. These likewise are pinched and in the Fall there will be a bushy plant covered with blossoms. Continue the pinching into July.

The varieties which produce large blossoms should be pinched once when eight to 10 inches high and allowed to develop only three to five growing shoots. Chrysanthemums must continue growth or they will become woody and fall to bloom properly, so keep them well fed and watered all Summer. Try to locate plants where air can circulate around them and this will prevent the lower leaves from dropping off.

Zinnia and marigold seed still can be planted for late blooms if kept damp. Canned shrubs and roses may be planted if carefully handled and watered. Do not try to store Spring flowering bulbs over the Summer; they will be too hot. Instead dig and replant now. Most of these will bloom three years without being dug or divided.

A plant now blooming which you might wish to consider as a part of your landscape picture is the Red Yucca. It has a long, curving, graceful red stem rising from a low rosette of swordlike leaves. The two or three foot bloom stalk is covered with bell-like coral red flowers. The Red Yucca is a desert plant and grows well in Midland with a minimum of care.

Want to give an egg salad a zesty flavor? Season with a little finely-grated onion.

Joanne Glass

Glass-Davenport Engagement Told

Mr. and Mrs. H. M. Glass, 1202 West Ohio Street, have announced the engagement and approaching marriage of their daughter, Joanne, to the Rev. William Price Davenport of Crystal City.

The wedding will be held on the afternoon of August 23 in the First Presbyterian Church, with the Rev. Vernon Yearby, First Baptist pastor, officiating.

Miss Glass was graduated from Memorial Hospital School of Nursing, Houston, in 1952 and has been attending Baylor University, Waco, majoring in nursing education. The prospective bridegroom is the son of Mr. and Mrs. L. M. Davenport of Crystal City. He was graduated from Baylor University at the end of the Winter term and will enter the Southwestern Baptist Theological Seminary in Fort Worth in September. He is the pastor of the Liberty Hill Baptist Church near Waco.

Oil Scouts Wives Club Honors New Officers

The new officers of the Midland Oil Scouts Wives Club were honored with a Coke party Friday by the club members in the home of Mrs. C. R. Woolridge, 1219 Chestnut Avenue.

The honored guests were Mrs. Gordon Geddes, Mrs. J. S. Lock, Mrs. Ronald Gibson, Mrs. F. H. Walker, Mrs. Woody Adams and Mrs. Bill Fincher.

Members presented Mrs. M. R. Proctor, past president, with a salad bowl set.

Hostesses were Mrs. Proctor, Mrs. Geddes, Mrs. Robert Noah, Mrs. Chester Tyra and Mrs. Woolridge.

Other members present were Mrs. M. A. O'Brien, Mrs. Don Bell, Mrs. John Sweet, Mrs. Charles Junn, Mrs. D. K. Coffman, Mrs. Mack Hobbs, Mrs. Frank W. Woods, Mrs. Joel R. Sims, Mrs. T. L. Huddleston, Mrs. W. L. Brown, Mrs. Dewey Stokes, Mrs. Terry Grove, Mrs. Jerry Roberts, Mrs. Joe Lee Carey, Mrs. Clifton Wilder-pin and Mrs. Sam Garrison.

The next meeting will be held on June 25, the time and place to be announced at a later date.

Ma Ferguson Notes Birthday With Quiet Day At Austin Home

AUSTIN—(AP)—Mrs. Miriam (Ma) Ferguson, the only woman ever to be governor of Texas, was 78 Saturday.

The weather was warm and clear, allowing her to stroll in the flower garden, which occupies most of her time these days.

Mrs. Ferguson was supposed to make her television debut Friday night but a thunderstorm disrupted those plans by knocking the local station off the air more than two hours. It also knocked out the electricity at her home, where she spent the evening by candlelight with her grandson, 13.

Mrs. Ferguson is the widow of Jim Ferguson, another Texas governor. She was elected after her husband was impeached.

LOST 47 POUNDS

Here is a sensible home recipe for taking off extra fat without starvation diet. Just ask your druggist for improved Barcenate. Mix with grapefruit juice as directed on label. Then take two table-spoonful twice a day.

If the very first bottle doesn't show you the way to reduce, return the empty bottle for your money back.

Mary E. Moyer, 708 E. Barton, Temple, Texas, states as follows: "I wrote you in January that I had lost 47 pounds taking Barcenate. Since then I have taken no more bottles and lost an additional 7 pounds, making a total of 54 pounds. I now wear a size 38 dress, instead of 44. When I started to take Barcenate, I weighed 211 pounds. I now weigh 157."

The official Father's Day flower is the red rose, which was selected by the day's founder, Mrs. John Bruce Dodd, at the first holiday observance 45 years ago.

Among other flowers which failed to gain popular acceptance were the white lily and the dandelion. The first was worn with a green leaf at an early celebration in Vancouver, Wash. The dandelion was chosen by the Martin W. Callener Bible Class of Wilkinsburg, Pa. in 1904 because "the more it is trampled on, the more it grows."

Since its sanctioning by the National Father's Day Committee, the red rose has made steady gains in popularity. Each year, thousands of red roses are worn by sons and daughters.

In remembrance of a father now deceased, the appropriate flower to wear is the white rose.

Jean Moses And Tommy Tims Married In Church Ceremony

When they return from a wedding trip to Denver and Colorado Springs, Colo., Mr. and Mrs. Tommy Barrett Tims will establish a residence in Midland. Mrs. Tims is the former Jean Shirley Moses, daughter of Mrs. Lois Moses of Odessa. She was graduated from Odessa High School in May. Parents of the bridegroom are Mr. and Mrs. Tom Tims, 306 Kes-

Mrs. Tommy Barrett Tims

ler Avenue. He is attending Odessa College and is employed with the Western Company.

Church Wedding
The couple was married in a double-ring ceremony at 10 a.m. June 2 in the Belmont Baptist Church of Odessa, with the Rev. J. Conally Evans, pastor, officiating. Altar decorations featured floor baskets holding white gladioli and greenery.

Mrs. Ashley Dawson of Odessa, organist, played the wedding music and accompanied the soloist, Yvonne Worley of Odessa, who sang "Because" and "The Lord's Prayer." The bride was given in marriage by her uncle, Jack Rodgers of Odessa. She was wearing a gown of white nylon and net with ribbon inserts. The semi-formal gown was designed in waltz-length with full skirt and molded bodice.

The bride's illusion veil was caught to a coronet of sequins and fell in folds to her fingertips. She carried white orchids in shower arrangement on a white Bible.

Bridesmaid in Blue
Mrs. Jimmy Berryhill of Odessa, matron of honor, wore a ballerina length dress of ice blue embroidered organza. Her flowers were blue and white carnations arranged in a colonial bouquet and her headpiece was a halo of the same blossoms. Jimmy Berryhill served as best man and ushers were Jack Thornbrough and David Robinette, all of Odessa.

The wedding reception was held in the home of Mr. and Mrs. Jack Rodgers, uncle and aunt of the bride. Blue and white were featured in decorations.

Assisting in the houseparty were Mrs. Gib Jackson, Mrs. Dudley Keith, Mrs. Dannie Maberry, Mrs. John Edd Giles, Mrs. Bobby Jackson and Carolyn Rix, all of Odessa.

HEAD NEW CLUB—Officers of the new Midland chapter of the American Business Women's Association are pictured above with Mrs. Nicie Hunter of Tulsa, Okla., field representative of the association, who installed the chapter last week. Seated, left to right, are Mrs. Bill Henshaw, vice president; Jo Bennett, treasurer, and Mrs. Hunter. Standing are Beverly Bedeaux, corresponding secretary, left, and Joanne Himmel, president. Mrs. Betty McKinney is the recording secretary.

Vacation Clothing Adds To Dad's Day

With the vacation season now in full swing, chances are that Pop soon will be scooting the family off for a spell at the lake or seashore.

When he does, he, just like the others in the family, will be needing some new beach and resort wear. Which is something to remember if you've been stumped over what to buy him for Father's Day.

Gift-seekers who do decide to add to Father's beach wardrobe can choose from an array of striking new styles. Veteran fashion observers are admittedly excited over the novelty of the new beach and resort wear for men.

One item making fashion news is the short beach jacket which is often worn with matching trunks. And there's much talk about "faded denim." Seen around Martha's Vineyard and Nantucket for years, this classic cotton has been borrowed directly from the utilitarian garments of fishermen.

Most beach jackets are made of cotton terrycloth and the style leader is a model resembling the Eisenhower army jacket. Another good bet is a denim jacket, either terrycloth-lined or plain, in a double-breasted model with large pearl buttons.

In swimming trunks, the smartest new style for the season is the boxer-length trunk which may be had in plain designs, tartan plaids or checks. Cotton twill fabrics remain the largest sellers.

Other items that Dad might like to have are a wrap-around terrycloth robe and a faded denim beach boot, lined in terry, with a thick, sponge rubber sole.

VACATIONING IN MICHIGAN

Mr. and Mrs. George Meyer, 313 East Pine Street, are visiting relatives and vacationing in Northern Michigan.

Ever try splitting doughnuts and making them into sandwiches with cream cheese and jelly? Youngsters like these with mugs of cold milk or hot cocoa.

ENGAGEMENT TOLD—Mr. and Mrs. D. B. Moss of Dallas have announced the engagement and approaching marriage of their daughter, Nancy Moss of Terminal, above, to Bobby Cast, son of Mr. and Mrs. C. R. Cast of Terminal. The wedding will be held on the afternoon of August 9 in the Calvary Baptist Church, with the Rev. Leon P. Woods officiating. Both Miss Moss and her fiance are 1953 graduates of Midland High School.

Golf Association Has Luncheon, Bridge Session

The Ladies Golf Association of the Midland Country Club held a luncheon and its second weekly duplicate bridge session Friday in the clubhouse.

Prizes for the afternoon were won by Mrs. Charles Klapproth and fractional master points were awarded to Mrs. Dan Strong, Mrs. Roger Evans, Mrs. Foy Proctor, Mrs. Helen Ulmer, Mrs. Allen Norwood and Mrs. Shackelford Reeder.

The Friday bridge sessions are held at 1:10 p.m., preceded by luncheons to be held at 12:15 p.m.

It also was announced Friday that eight women from the club were planning to enter the Women's West Texas Open Golf Tournament in Amarillo.

About 25 members attended the Friday bridge luncheon.

HD Council Welcomes New Club

The Midland County Home Demonstration Council met Friday in the assembly room of the courthouse.

Mrs. I. J. Howard, chairman, welcomed the newly-organized Pegasus Club into the council. Mrs. E. W. Rucker, vice president of the new club, gave a report.

Other club representatives giving reports were Mrs. Archie Booth and Mrs. J. R. Bartlett, Valley View; Mrs. Carl Neithercutt, Garden Addition; Mrs. Joe Davis, West Side, and Mrs. W. B. Stanley, Prairie Lee.

Other members present were Mrs. R. H. Boyd, Jr., Mrs. M. E. Alford, Mrs. H. A. Palmer and Mrs. C. H. Pearson.

Add color to your hot cooked rice: Mix it with chopped parsley, with diced canned pimiento, or with minced chives.

Four-Day Success Run Ends For Oscar Wilde Play Here

The Midland Community Theater has closed a successful four-day run of the Oscar Wilde play, "The Importance of Being Earnest." The exacting job of keeping this frothy comedy bubbling was handled competently by a cast consisting of Arthur Nations, Charles Dixon, C. G. Cooper, Robert Conkling, James Johnson, Dorothy Perkins, Billy Boultinghouse, Constance Fanning and Betty Gaines.

Working behind the curtain were: Stage manager, Norah Harris; stage crew, Bill Adam, Dick Cap-

pell, Clyde Davidson, Joe Luchini, Bruce Shade; lighting, Joe Young; sound, E. J. Elliott, Joyce Neville; set construction, Clyde Davidson, Joe Luchini, Karl Koch; painting, E. J. Elliott, Frances Findlater, Nancy Armstrong; properties, Lucie Page, Nancy Wikison; make-up, Matina Zanga, Mary Montgomery, Jeannette Gall; costumes, Frances Stone, Nancy Armstrong; curtain, Dave Collis.

"Out Front" duties were performed by House Manager Jack Huff and members of Beta Sigma Phi Sorority who served as ushers. The ushers were Mary Katherine Bryson, Bernice Rubin, Flo Lampp, Hazel Schneider, Alma Herd, June Bash, Dorothy O'Neil, Barbara Marshall, Ruth Slatton, Billie Walker, Barbara Fessler and Betty McWhorter.

The casting committee consisted of Mrs. J. E. Beakley, Mrs. Ray Howard, and F. H. Pannill.

Father's Day Really Mother's Day This Year

When you are preparing scrambled eggs in a double boiler, keep the water in the lower part of the utensil at simmering temperature, and stir occasionally.

Joseph Sylvester Doakes, noted authority on anniversaries, dates, and historical events, states that the year 1953 should be noted for the fact that Father's Day could easily be Mother's Day, providing, of course, that mother really wanted to please her blithering.

If mother is full of woe because poor father gets in such a terrible stew trying to cut the lawn with a hand (and whoever gave one of them that silly name, never tried to push one!) mower, then she just ought to phone the store and say, "Send up one of those beautiful Jacobsen Power Mowers, we want Pop to try out the power of mind over matter!"

Ah, mother, if you want to make HIS eyes sparkle, just give him a gift from Jacobsen. When that delicious, form-fitting handle is nestled in his manly paw, when that horse and a half engine is purring so smoothly, when the grass flows out in great billows, when he has swapped strings for steel, then then only will you know that it is really Mother's Day on Father's Day. The gratitude will be everlasting. And peace shall reign in the household forevermore.

Problems Of Government Keep Texas' Women Legislators Busy

By MARTHA COLE Associated Press Staff

AUSTIN—Bob Gurley was a nice looking young man who kept a lonely vigil in the House gallery this session as the only legislative husband in the Legislature.

Wife, Dorothy, was busy. She's the representative from Del Rio, chairman of the important Water Conservation and Reclamation Committee this past session and a member of four other committees.

Three women served in the House and one in the Senate. But Rep. Dorothy Gillis Gurley of Del Rio was the only one who was married.

Bob used to grin when somebody teased him about forming a legislative husband's club like the legislative wives' club.

Rebecca De Del Rio

The Gurleys and five-year-old daughter, Susan, went back to their ranch near Del Rio when the session was over.

Future political plans: "I don't know right now," she said. "Susan will be six in December, and I must get her in school. That's all I'm going to worry about right now."

The only other woman chairman of a House committee, Rep. Virginia Duff of Ferris, wants to continue in the Legislature "because I'm interested in better government in our state."

Committee Chairman

Miss Duff was chairman of the State Hospitals and Special School Committee, a member of four other committees, and busy, too. She made a personal visit to every one of the 26 eleemosynary institutions in Texas—believed to be the first time any chairman has done that.

Both the women are young enough to tell their age if they wanted to, conscientious in their duties and the holders of a good deal of respect from their fellow legislators.

Miss Duff is a blue-eyed brunette with a law degree from Southern Methodist University. Mrs. Gurley is a brown-eyed blonde with a bachelor of arts degree from the University of Texas.

When 60 men from Palestine and Jacksonville crowded into a Conservation Committee hearing one time this session, one of them whispered to a reporter, "Who's that good-looking girl at the head of the table?"

That was Mrs. Gurley.

Water Conservation Problem

Her committee handled some 60 bills this session, and they tackled each one gingerly, for water was a subject dear to every one's heart.

GIRLS' HATS 77^C

Limited Mitre Peak Camp Opens New Season Sunday

Mitre Peak Girl Scout Camp near Alpine opens its Summer camping season Sunday — one day in advance of the launching of an area-wide campaign to obtain funds with which to provide additional facilities at the 74-acre camp site.

Forty-one Midland Girl Scouts, fortunate in that their reservations were received in time to escape the waiting list, will leave Sunday for Mitre Peak Camp for its initial two-week camping period.

More than 150 Permian Basin Area Scouts were not so lucky. Their names remain on the camp's waiting list.

It is to provide adequate facilities to care for all Girl Scouts in the Permian Basin Council that the campaign is being launched throughout the council's 15-county area to raise \$125,000 within the next two weeks.

General Chairman J. W. Gaddy of Odessa disclosed that present facilities are too limited to take care of

the 3,000 Scouts and leaders who belong to the council's 105 Scout units.

"The appeal of Scouting grows stronger all the time, with the result that the Permian Basin Council each year adds more and more members to its rolls. Scouting is doing a fine job in developing better mothers and business women of the future that we must not deny any girl the opportunity to become a Scout and go to Scout camp."

Minimum Facilities

The Permian Basin Council is seeking to raise sufficient funds to build minimum camping facilities for Girl Scouts in the area. The necessity for the building program was emphasized by the fact that this year's enrollment for Summer camp was closed almost as soon as the period for reservations opened. Mitre Peak Camp has a total capacity of 288 Scouts per Summer camping period. It was pointed out that the number of girls on the

waiting list would have been larger had not notice been forwarded to all troops that reservations were full.

The Advance and Memorial phase of the campaign began its program last week. The first report meeting

Bible School To Close Friday

Closing exercises will be held at 7:45 p.m. Friday for the Vacation Bible School now being conducted in the First Assembly of God Church.

A picnic at Cole Park has been scheduled for Saturday.

Mrs. Marshall Blocker is the superintendent of the two-week school. More than 65 children enrolled during the first week.

of this group will be at kick-off sessions of the Special Gifts group scheduled this week in all cities throughout the council area. The drive in Midland was reported "ready to swing into action."

Campaign leaders are hopeful that all counties will complete their drives in June so that plans may be started immediately for providing the necessary facilities at Camp Mitre Peak.

NEW MEXICO VACATION

Mr. and Mrs. Nathan Wise, their daughter, Mrs. Bob Davis and son, are vacationing this week in Ruidoso, N. M.

The Hughes Circle of the First Baptist Church will meet at 8 p.m. in the home of Mrs. W. B. Johnston, 710 North Marjensfield Street.

The YWA of the First Baptist Church will meet at 7:30 p.m. in the home of Mrs. Thurman Pylant, 3401 West Ohio Street.

FRIDAY
The Seahaway Square Dance Club will meet at 8 p.m. in the Carpenters Hall, 2211 West Florida Street.

The Terminal Library's Children's Story Hour will meet at 4 p.m. in the library.

The Midland Chorus will meet at 7:30 p.m. in the North Elementary School Auditorium. More tenors and basses are needed.

The Lula Brunson Class of the First Baptist Church will hold its monthly luncheon at 12 noon in the home of Mrs. Arnold Scharbauer, 1714 Holloway Street.

The Ladies Golf Association of Midland Country Club will play duplicate bridge at 1:10 p.m. following a 12:30 p.m. luncheon. Players are to bring their partners or call Mrs. R. L. Spencer, telephone 3-3186, and players will be paired.

The P-TA procedure course sponsored by the David Crockett P-TA will be held at 9 a.m. in the home of Mrs. William Mosher, 117 East Cowden Street. A nursery will be provided in the home of Mrs. Monroe Withers, 1108 East Maiden Lane.

The Welcome Wagon Bridge Club will meet at 1:30 p.m. in the Ranch House for dessert-bridge. Reservations should be made on Thursday with Mrs. R. B. Hastie, telephone 4-6237.

SATURDAY
The Children's Story Hour will be held at 10:30 a.m. in the Children's Room of the Midland Public Library. The story hour in the Dunbar Branch will be held at 11 a.m.

The Order of the Rainbow for Girls will meet at 3 p.m. in the Masonic Hall.

VISIT IN MIDLAND

Mr. and Mrs. Claude E. Hill of Austin plan to return home Sunday after a four-day visit with their son and his family, Mr. and Mrs. Ewing Hill, 1604 Harvard Street. Claude Hill is a longtime Austin druggist.

You'll make cakes and cookies in jigtime if you keep mixing and measuring utensils needed for those baked products near your mixing counter. These utensils are: mixing bowls, mixing spoons, egg beater, measures for dry and liquid foods and measuring spoons.

IMPROVISE PAN

You can improvise a jelly-roll pan from a sheet of heavyweight aluminum foil. To do so, tear off a 12 by 18-inch sheet of the foil. Fold the foil up one inch all around to make the sides; fold the corners tightly so they will stand up and batter will not leak out. Lightly grease the inside of your improvised pan, pour the batter in, and bake as usual.

Keep a punch-type opener handy in your kitchen to use for opening vegetables and fruit juice cans.

Tidmore's To Operate Newest Decoration Center in Midland

The name tells the story, and Midland's newest interior decoration center, opening Monday at 2312 West Ohio Street, gives just what the name implies: "The Finishing Touch."

Owned and operated by Mr. and Mrs. Jim Tidmore, the firm can meet all types of interior decoration needs. Featured items include all types of paintings—oil and otherwise—unique vases, urns and many others. Picture framing is a specialty.

Paintings are supplied through one of the leading galleries of the Southwest—or Jim Tidmore will make 'em to order.

Tidmore, an accomplished artist, will paint to order in oils, water colors, pencil or any other type and style.

The decorating consultant is a graduate of Ray-Vogue School of Interior Decorating in Chicago and was a student at the School of the Art Institute, also in Chicago. He has decorated homes both in Chicago and in the Midland area.

Tidmore has been in the Midland area for some 15 years, taking a two-year break about two years ago for duty with the Air Force.

The Tidmores are the parents of a 10-month-old son, Todd, and will live in a new home on Thomason Drive.

HOUSTON VISITORS
Mrs. J. W. Hall and children and Mrs. W. O. Lewallen, Houston, have been visiting in the home of Mr. and Mrs. Fred Schooler, 1510 West Wall Street. Mrs. Hall is Mrs. Schooler's sister and Mrs. Lewallen is her mother. They also visited Mrs. Schooler's daughter and her family, Mr. and Mrs. A. B. Williams and daughter, Kay, in Lovington, N. M.

Daddy Ringtail

Daddy Ringtail, your monkey friend, one day found the wishing well. It was hidden in a bunch of grass. It was a deep, dark hole in the ground with water in it. All around was a little wall of rocks for people not to fall down into the water.

But there was something else about the Wishing Well—something you ought to know.

People said if you dropped a rock in the well—and if you listened for the splash of the rock in the water below—and if you made a wish—the wish would all come true. But of course you had to hear the splash of the rock in the water, people said.

Daddy Ringtail looked at the water in the Wishing Well. The water was a long way down. Then Daddy Ringtail looked around for a rock to drop. He found one. He

dropped it, and the rock went tumbling down, and down, down. Daddy Ringtail leaned over the well to hear the rock when it splashed. He heard it all right.

He heard it too late, for he had leaned over the wall too far. In he tumbled and down he fell, just as the rock had done. Head over heels, down he went, and down, down.

He splashed in exactly the way and exactly the place the rock had splashed. Then he stood up in the water all wet, feeling very foolish

By WESLEY DAVIS

For having fallen in. "But as long as I'm here," he said to himself, "I may as well make a wish, for I've already dropped a rock in the well, and I heard it when he splashed."

And so he did wish. He wished he could find a way out of the well. Having made the wish, he looked around to find the way out.

Oh, it isn't very exciting to tell you he found some steps. He walked up the steps and out to the top.

"So it really is a Wishing Well," said Daddy Ringtail to himself. "I wished for a way to get out, and I found a way out."

And so it is with wishes. They'll come true if you look and try for a way to help them. Happy wishing, say I. Happy day!

ALL BUTTONED UP—London costumers and their families follow ancient tradition and dress up in costumes lavishly decorated with white pearl buttons. Derby Day is the time when the "pearlies" come into their decorative own.

SO THIS IS NEW YORK
BY NORTH CALLAHAN

NEW YORK—Eddie Rickenbacker, who is considered one of the most accomplished and versatile men here, was asked if he felt that flying across oceans alone, climbing mountains like Everest—and such "miracles"—were entirely man-made achievements or do they have some divine aid behind them?

Without hesitation, Eddie, who always is outspoken, answered by giving an example of his own experience: "When I was lost in the Pacific with others for three weeks on that raft, some years ago," he told me, "a sea gull came and lit on my shoulder just when we all felt we would surely starve to death. We ate the gull, without worrying about the taste, and thanked God, because we knew He had brought that bird to us."

He had a dark, foreign-looking face and stood close to me in the crowded bus as it sped down 5th Avenue. As we pushed toward the door, it seemed to me that he was unusually close. Just as the door opened and the passengers started to leave, for some reason I felt my hip pocket. It was empty. Anry and spurred by an unknown instinct, I whirled and faced the foreign-looking man, and demanded that he "give me my pocketbook!" He mumbled something incoherent. Whether from football days, old Army training, or a reporter's "sixth sense," I don't know, but I grabbed him and floored him as a cop does. He dropped by pocketbook down on the floor of the bus; and then I called a REAL cop.

A man whose face showed that he already was beginning to feel the late-Spring heat, leaned out of his apartment window in Brooklyn and told his neighbor that he wished she would sell her dog, that his daughter had had to stop her singing lessons because the dog was whining all the time. "I'm sorry," came the reply, "but your daughter began it."

Mrs. John Warren of Dallas, now visiting here before she takes a boat to visit friends in Hong Kong—of all places—knew the late Theodore Dreiser well, when both of them lived in New York. She told me how upset he was when his brother, Paul, who wrote the song "On the Banks of the Wabash," died rather suddenly of pernicious anemia. Always writing, Dreiser scribbled on a note pad: "Still I think of him as not there or anywhere in the real of space, but on Broadway between 29th and 42nd Streets, the Spring and Summertime at hand, the doors of the hotels and grills open, actors and actresses rambling to and fro, his own delicious presence dressed in his best, his funny stories, his songs being ground out by the hand organs, his friends extending their hands and clapping him on the shoulder."

A cop on 14th Street told me he had noticed a short-order cook in a nearby restaurant keep looking out at the traffic light as it changed. Finally, the cop decided to investigate, and found that in this way, the cook timed his eggs. Two complete changes of the light, from red to red, and the egg was soft-boiled; three such changes meant it was medium; and four changes expertly indicated that the customer would get his egg hard-boiled.

Red Foley is noticeably absent from the network portion of the Grand Ole Opry, and I have learned that he has dropped off this show at his own request. It kept him tied down 52 weeks a year and prevented personal appearance tours such as the one he is on now. The tour began in Florida and extends to California then will go into Canada. Reports say Red is playing to standing room only. However for those who think he is tops—and there are a lot of us—he will appear from time to time on the local show of the Opry which is broadcast from Radio Station WSM in Nashville.

The swank apartment above the Capitol Theater here, which once was occupied by Major Bowes, has an opening in the floor through which one can see the movie on the screen downstairs.

Planned Color In Classroom Raises Scholastic Rating

BALTIMORE—Planned color environment in the classroom and school corridors has a definite effect on the behavior and performance traits of school children, according to psychologists at the Johns Hopkins University.

This fact was revealed in the findings of a carefully controlled research project conducted over a two-year period in the Baltimore City Elementary Schools by the Psychological Laboratory of Johns Hopkins University's Institute for Cooperative Research, collaborating with the Baltimore City Schools and the Pittsburgh Plate Glass Company.

Among the factors established in the best program, held in three Baltimore elementary schools, were that color had the greatest beneficial results on behavior and scholastic performance traits among kindergarten children; that greater improvement as a result of planned color was in scholastic achievement rather than behavior traits; and that boys show greater color response than girls.

Big Spring Slates Flag Day Ceremony

BIG SPRING—A flag day ceremony will be held at 7 p.m. Sunday in the Big Spring baseball park sponsored by the combined Elk Lodges of Big Spring, Midland, Odessa and San Angelo.

Officials of the four lodges will present a program featuring the evolution of the American flag from its beginning in Revolutionary War days to its present form.

Music for the occasion will be furnished by the 689th Air Force Band from Goodfellow Air Force Base in San Angelo.

Acting as flag bearers and escorts will be the precision drill team from Webb Air Force Base in Big Spring. As an added feature, the 40 man marching platoon will give an exhibition of rifle drill and maneuver after the formal rites.

Al Dillon, prominent Big Spring citizen, will make a brief talk suitable to the occasion.

Directing the ceremonies will be W. C. Ragsdale, Grand Exalted Ruler of the Big Spring Lodge; D. D. Parnell, Grand Exalted Ruler at Midland; A. L. Martin, Grand Exalted Ruler at Odessa and V. Jackson Smith, Grand Exalted Ruler of the San Angelo Lodge.

Summer Services Planned By Church

Sunday School and services at the First Church of Christ Scientist, 407 North O Street, will continue during the Summer months, Mrs. Louise Wahlenmaier, head of the committee on publication, announced Saturday.

The church holds its Sunday services at 11 a.m., its Sunday School at 9:30 a.m. and its mid-week services at 8 p.m. Wednesday. Sunday School classes are held for persons up to 20 years of age.

Midland Student Due Degree In Indiana

Roger W. Sidwell, son of Mr. and Mrs. Ernest Sidwell of Midland will participate Monday in the 134th annual commencement of Indiana University.

Sidwell is due to receive an M.A. Degree in East European studies.

ATTEND CONVENTION

CRANE—Mrs. Bobbie Mays, Mrs. Dee Thompson, Mrs. Jewell Price, Mrs. Myran Neill and Evelyn Riden have returned from San Antonio where they attended the convention of the Texas Federation of Business and Professional Women's Club.

Ancient cities made extensive use of pipe lines for water.

'Great Lover' Charles Boyer Confides To R-T Reporter 'It's Really A Legend'

By GRACE HALSELL
Reporter-Telegram
Special Correspondent

PARIS, FRANCE—Charles Boyer does not think he is any great shakes as a lover.

Motel In Midland Gets New Owner; Manager Arrives

The Ranch Motel, located on West Highway 80, is now being operated and managed by Mr. and Mrs. C. C. Johnson and son, Larry, who recently came here from Haskell where the family also managed a motel. The motel, opened here three years ago by Jack Carter, was formerly known as the Ranch Lodge and was owned by Carter until recently. The new owner is Charles R. Burton of Denton and Dallas.

Many general improvements are being made at the motel which is designed in ranch style inside and out. Rooms are being redecorated and outside yards are being improved. Johnson is president of District 4 Motor Court Association with district headquarters in Abilene, and comprised of Haskell and 13 other Central West Texas counties. The manager, who is well known in the Midland area after many years experience as a sales representative here and in West Texas, was a director in the Haskell Chamber of Commerce and active in civic affairs including the Lions Club and the Boy Scouts. The Johnsons are members of the Church of Christ.

COMPANY SUPPER

Springtime company supper: Baked ham, spinach ring filled with carrot slices in an orange sauce, hot rolls. For hearty appetites add potatoes and a salad to the menu. Dessert might be a frosted cake, or fresh fruit with cheese.

"It is really all a legend," he told me on a movie set here. Then where did all the American women get the idea?

"Just something that was dreamed up," Boyer, looking a little embarrassed about the questions on his love making prowess, declared.

His role as a Great Lover is not a relished one.

Even when he is declaring undying devotion or giving one of his melting kisses, "I often am thinking of something remote, something far removed," the star, one of the greatest heart pumpers since Rudolph Valentino, admitted.

As unimpressed by his labor of love as a "Dragnet" character with crime, the idol of a million women willing to follow him to the Casbah said off-handedly:

'It's All The Same'

"It's all the same to me. One day a director tells me I must murder a man on the screen—so I play the role. Another day, he tells me I am to act as if I love a woman, so . . ." he continued, "I try to act that way."

His "acting" is such as to be preferred by some females to the realistic approach of the boy friend. His screen kisses put Boyer at the

Top Ten of the boxoffice. Boyer says he has no "tricks" of the trade, and can't say why Frenchmen got the title of great lovers.

We visited Boyer during the filming here, in a studio on the outskirts of Paris, of a picture called "Madame De . . ."

The three dots seem to go with the title of the picture.

Naturally enough, with Boyer in it and filmed in France, it is a love (what else in France) story. But as the French press agent was telling me, "the film is, of course, a love story, but . . . how do you say it? . . . a very 'delicate' one."

The French get about as "delicate" over love-making as Kathleen Windsor.

In "Madame De . . ." Boyer plays the husband of an unfaithful wife (Danielle Darrieux) who is in love

with an Italian baron (Vittorio DeSica).

The story is directed by the talented Max Ophuis, whose "La-Ronde" (1) shocked a lot of Texas movie-goers for its frank appraisal of love and (2) won international fame on its artistic merits.

DeSica, who has the role of winning Miss Darrieux's affections from Boyer, will be remembered as the famed director of the prize-winning "Bicycle Thief."

This will be Boyer's first film made in France since 1927. The ugly rumor has it that he came back to his native country to polish up his French accent—his bread and butter in Hollywood for so long.

A recognized actor outside the traditional Hollywood "clinch," Boyer especially was applauded for his role in the stage presentation of "Don Juan in Hell." This he terms "the most exciting thing I ever did."

After completion of "Madame De . . ." he returns to New York and will star in a new Broadway production, "Kind Sir," which also will bring back to Broadway for the first time since "South Pacific" Texas' own Mary Martin. The play will open in October.

MODEST LOVER—Filmdom's great lover, Charles Boyer, center, along with Italy's Vittorio DeSica of "Bicycle Thief" fame, were interviewed in Paris by Reporter-Telegram Correspondent Grace Halsell during the filming of "Madame De . . ." which will star Boyer, DeSica and Danielle Darrieux. Boyer told the Midland correspondent he would rather forget his Hollywood "lover" role.

Stewed rhubarb makes a most delicious dessert when it is cooked so it keeps its shape and is mixed with diced fresh pineapple or sliced fresh strawberries.

A Good Merchant Is Your Servant

We merchants are in business to serve you. We know that we succeed only when we serve you well. When you tell a merchant what you want, you are helping him to serve you better.

White space in a newspaper is our meeting ground. We merchants talk to you in that white space, explaining how we can serve you, for your benefit. If we are not telling you the things you want to hear, or saying it the way you want to hear it, we want to know.

Now, please get this clear. It isn't simply for our benefit. We want you to tell us what we should say and how we should say it so we can serve you best. THEN WE BOTH BENEFIT.

Every successful merchant knows that serving you as you want to be served is the key to his future success.

It's very easy to help. Write down 4 names today.

\$ be helpful! \$

Advertising Makes Things Cost Less

Some people who have had little contact with business think that advertising makes things cost more. That is completely wrong. Actually, advertising makes things cost less.

When any firm is in business, there are certain fixed expenses such as rent, light, heat and the weekly payroll for help, which go on whether the merchant does \$10 worth of business or \$1,000 worth per day.

Advertising tells enough people about what that merchant can do for them to attract many additional customers and so make those "overhead charges" smaller "per customer." It is simple arithmetic. That has been proved a million times.

EVERY BIG FIRM THAT EXISTS TODAY WAS ONCE SMALL. They got big by telling enough people about what they had to offer through advertising.

Advertising introduces a merchant to many new customers. The increased sales make it possible to sell merchandise cheaper and still show the same profit.

Tell us in the Community Survey which ads you consider best. Help us to serve you better.

My Community Survey Opinions

(COPYRIGHT, 1964, WID GUNNING)

NAME _____

SIGN YOUR NAME HERE

ADDRESS _____

PRINT YOUR ADDRESS PLAINLY HERE

The purpose of The Community Survey is to obtain helpful information that will enable advertisers to improve their service to you readers by preparing ads the way you want them.

When you indicate which ads you think will do the advertisers the most good, it is possible to tabulate that information and give it to the advertisers for their guidance.

On the first page of the paper each day you will find a list of the advertisements to be checked that day.

All you have to do is to decide each day which Large Ad, which Medium Ad, which Small Ad and which Classified Ad you think will do the advertiser the most good . . . Just write four names on this blank each day.

Cash awards will go to those readers whose selections are nearest to what the majority of readers think. Every week is a separate survey.

YOU ARE NOT REQUIRED TO WRITE A LETTER. The awards are made to those readers whose selections are nearest to the list of ads which get the most votes. The awards are ACCURATE . . . FAIR . . . and HONEST.

You do not have to be an advertising expert! All ads are written for you readers. YOU are best qualified to indicate which ads will do the advertiser the most good.

I THINK THE ADS LISTED BELOW WILL DO THE ADVERTISERS THE MOST GOOD.

WEEK OF _____ TO _____

	LARGE ADS	MEDIUM ADS	SMALL ADS	CLASSIFIED ADS
SUN.				
MON.				
TUES.				
WED.				
THURS.				
FRI.				

You are NOT required to write a letter to receive an award. The awards are decided on the selections above. We would really appreciate it, though, if you would write a note saying what you DO NOT LIKE and . . . also . . . WHY YOU LIKE some of the good ads.

We sincerely want your suggestions and ideas of how we may improve our advertising service for your benefit. Write your letter in your own way! It's the thoughts and suggestion that matter. You are not being "judged" by your letters. Actually they have nothing to do with awards . . . but . . . they will be helpful by giving additional information to our advertisers.

Your criticisms and suggestions will be given the advertisers to help them to improve their advertisements BUT they will NOT be given the names of those who write the letters. This is so you may say just what you really think without embarrassment.

Every member of any family may send in one answer each week but only one award for a good answer will go to any one household during the survey. Since the purpose of the Survey is to obtain information, any indication of collusion to secure an award automatically will disqualify such answers. In the case of ties duplicate awards will be made. Free extra ballots may be obtained at The Reporter-Telegram and the newspaper may be read there. Facsimile ballots may be used. No member of The Reporter-Telegram staff or their families may participate.

ANSWERS MUST BE IN BY TUESDAY MIDNIGHT THE WEEK AFTER THE SELECTIONS ARE MADE.

Mail or Bring To: Community Survey, The Reporter-Telegram, Midland, Texas

First Prize-----\$40
Second Prize ----- \$25
Third Prize-----\$15

Manners
MAKE FRIENDS

When a mother got nowhere lecturing her 16-year-old son about his poor table manners she hit on a better means of attack. She hung a mirror, without his knowing why, directly opposite his place at table. She says his eating habits improved in a hurry.

Proving again, "There's more than one way to skin a cat."

Greeks Also Had Their Day For It

Father's Day had a parallel in ancient Greek mythology when Zeus, father of the gods and the patron of human fathers, was honored with lavish gifts.

Zeus, also called Jupiter and Jove in other nations, was believed to be ruler of the heavens and the king of gods and men. Thunder was his weapon, and his sacred thunderbolts were carried by his pet bird, an eagle.

The god was worshipped at lavish temples and shrines all over Greece and Italy. Worshipers bore him costly gifts and offerings, which they laid at the feet of beautiful ivory and gold statues of him.

Hang kitchen towels straight on your clothes line and they'll need little, if any ironing.

Finny life in the waters around Bermuda provided one designer with inspiration for these summer fashions. Straight and sleek, almost (left) has white background with all-over embroidery in mauve and blue. Since this is absolutely straight, it's for the girl with a very slim figure. Black cotton halter top (center) is worn with three-tiered skirt in sheer chartrreuse dimity. This is right for patio, terrace or end-of-the-day and into the evening. A pale blue fish scale bodice (right) is used with full skirt in chartrreuse for one-piece dress with stole. This is cotton broadcloth. Fish scale motif is repeated on stole ends. All designs are by Lotie of Drewyn. There's a marked difference in skirt treatments, allowing each woman to pick the type best for her.

Thermiquetron Opens In City; Permanently Removes Unwanted Hair

Modern freedom in women's clothing can prove embarrassing.

The scanty swimsuit, the summer playsuit and popular shorts give a woman carefree, casual appeal, but these garments certainly prove embarrassing when they reveal ugly, superfluous growths of hair on your legs. It is as embarrassing to those who see it socially as it is to the unfortunate woman.

Exasperating half-methods of hair removal are a constant problem, for razor, wax, tweezers and whatnot all take time and great care. Skin is easily injured and infected. Also, rushed for time, many women forget to perform their chore. However, there is a modern method—permanent, painless, inexpensive, and medically-approved that leaves your skin satiny-smooth and appealing.

For complete information, or a free trial of the scientific nationally-known Thermiquetron method, consult your Thermiquetron Clinic at 108 South Pecos, telephone 2-6000.

Permanent removal of face and limbs hair by Technician Billie Smith who operates Midland clinic with co-partner Martha Lee Holley.

Tithes Stage Strong Return As Small Churches Set Pace

NEW YORK (AP)—The big church denominations are taking an economic lesson from the little ones.

It involves the art of passing the collection plate—at which some of the smallest denominations have proved themselves far superior.

A movement has mushroomed recently among many major church bodies to try to follow the example, at least partially, of their bustling little brothers.

The key to the new programs is an old idea—the tithe.

"Tithing is a great new rediscovery of this generation of Christians," said the Rev. T. K. Thompson, head of the stewardship-benevolence department of the National Council of Churches.

"Virtually all the major denominations have started vigorous tithing programs."

He said federal income tax laws are partially responsible.

The Old Testament injunction that a tenth of what each man earns should be set aside as "holy unto the Lord" has received little attention in most big religious bodies—Catholic, Jewish or Protestant—since the turn of the century.

Big Churches

But many smaller bodies have continued to stress it. The result is the annual per capita contributions by their members far exceeds that of the bigger churches.

Pace-setters are the Free Methodists, averaging \$194.79 per member a year; Seventh Day Adventists, \$158 per member; Wesleyan

Methodist, \$142.21; Brethren in Christ, \$124.31; Church of the Nazarene, \$111.78.

Compare those figures with per capita giving in churches where the tithe has been out of fashion:

Protestant bodies — \$34.32 per member a year.

Roman Catholic—officially estimated at \$35 a year.

New Campaigns Launched

"But the whole spirit of giving more has pervaded the Jewish community in the present day," said Rabbi Joel S. Geffen, director of field activities and community services of the Rabbinical Assembly of America.

The modern income tax, which brings a man face-to-face with his annual church contributions—usually embarrassingly small—doubtless had something to do with the trend, Thompson said, adding:

"A person cannot make out his income tax form every year without facing the question of proportionate giving. The tithe is a good practical program for meeting a perennial problem."

Editorials Boost Plan

Neither Catholic nor Jewish bodies have initiated any special tithing programs by that name, but spokesmen for both said the tithing idea was basic to programs to increase giving.

"Catholic publications now and then have been carrying editorials to strengthen the ideal of tithing,"

11:00 a.m.: Morning worship.

CHURCH OF CHRIST
110 South Colorado Street
10:30 a.m.: Morning worship.
7:30 p.m.: Evening worship.
(Continued On Page Fifteen)

GOD'S MASTERPIECE?

The rose comes very close to man's standard of perfection. Its delicate beauty seems to mock every effort of the artist or camera to capture it.

But is the rose really God's masterpiece? Hardly! For its beauty is passive. It brightens life only for those who seek it out and gaze upon it. And in but a few days it withers and is ugly.

God's masterpiece is MAN. For with all his waywardness and selfishness, Man is capable of reflecting the love of God. When he lets God touch his life he is able to bring happiness and faith to others. He doesn't have to wait until he is noticed. He can actively bring spiritual blessings to his fellow men.

As the gardener cultivates the rose, the Church cultivates the lives of men. Always it strives to help us become all that God wants us to be.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

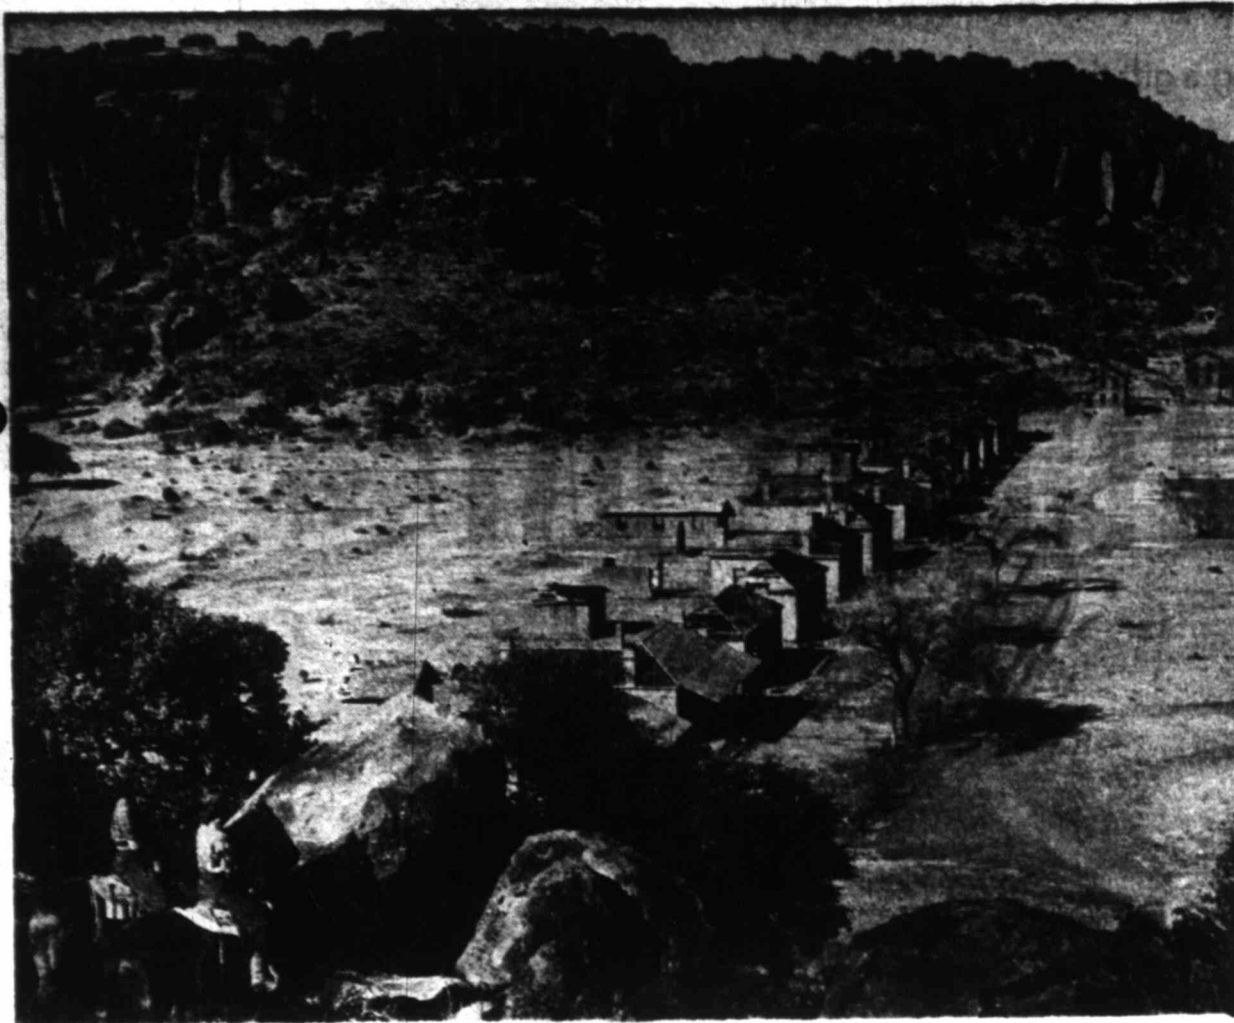

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without it man cannot survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of his eternal support. Bible to go to church regularly and read your Bible daily.

FAMED FORT DAVIS—Here is a portion of famed Old Fort Davis, high in the Davis Mountains, which each year provides a haven for tourists and history-minded visitors. The newly founded Fort Davis Historical Society now is working to restore the fort by

Historical Society Works To Restore Famed Fort Davis By Centennial Time

FORT DAVIS—Unofficial but reliable reports that the National Parks Service is interested in making Old Fort Davis a national monument has added much incentive to the newly founded Fort Davis Historical Society's efforts in reaching its objective of the complete restoration of the old fort.

With the Fort's centennial due next year the Society has stepped up its program to clear the way for purchase of the property, now in private hands, and to place the Fort in the appropriate hands in time to make it an integral part of the celebration.

Old Fort Davis, situated in a magnificent location in the boulder-strewn heart of the Davis Mountains, is probably the best preserved and most complete old frontier fort standing in the Southwest today.

Located on what was once the Overland Trail, which originated at the now extinct Gulf Coast

town of Indianola and wound its way via San Antonio to El Paso, Del Norte and thence on to the West Coast, Fort Davis was one of a series of posts built on this vital link in the main transcontinental mail and stage route to protect emigrants and settlers on and alongside its tortuous path from the ravages of the Apaches and Comanches.

Abandoned During Civil War
Established on Oct. 7, 1854, by order of the then Secretary of War Jefferson Davis, the fort was named after him and proceeded to play a full part in fending off the Indian war parties.

Abandoned during the Civil War, the fort became a favorite target of Indian pillaging raids and when the post was reactivated a new fort was built to replace the old that had been all but destroyed. These buildings, built in 1867, are the ones that now stand as a reminder of the days of tomahawk and arrow.

of the days when every canyon held the threat of Indian ambush.

History and legend abound in an area witness to the coming of the camels and the war parties of Vittorio, the noted Apache chieftain. Here the first Christmas tree in West Texas was decorated, here Indian Emily, a captured and befriended Apache girl, came to give warning of an impending attack by her people and who, though successful, died for her efforts.

When the Indian troubles were over, Fort Davis took on the atmosphere of a garrison post of the interior. Dances were held, troops wandered through the rocks on their Sundays off, and life was good. For 10 years until the fort's final abandonment in 1891 Fort Davis became one of the show places of the United States Army. Only when the inevitable growth of civilization in the form of railroads bypassed Fort Davis was the post eventually disestablished.

35 miles north of Fort Davis on the road to Carlsbad, is the site of the largest outdoor swimming pool in the United States.

Many Ruins Are Left
Today the tourist will find building after building of adobe and native sandstone nestling against the mountain comprising Hospital Canyon. To the more inquisitive traveler foundations of many more can be found. Still standing and plainly outlined are the houses on Officer's Row, the old hospital behind it, two of the barracks buildings, the chapel and numerous others.

The Trading Post, built on the foundations of one of the disintegrated barracks, houses a gift and antique shop and soda fountain. In the rear room of the building is located an extensive museum containing many relics of the Fort and the area and a large number of other contemporary items. On the Officer's Row several of the houses have been rebuilt and now serve as tourist accommodations. A riding stable is operated year round. There are numerous other accommodations, also, in the town of Fort Davis, itself.

The Fort is situated at the foot of the Scenic Drive which makes a 75-mile loop through the Davis Mountains. Travellers on the road will see some of the loveliest mountain country in the United States. On the drive are to be found the Davis Mountain State Park with its Indian Lodge; the McDonald Observatory, housing the third largest telescope in the world and largest through which the public is permitted to look; the Rockpile, a geological freak and bearing the scratched signature of Kit Carson; Sawtooth Mountain and numberless other natural spectacles. Mount Livermore, 8,362 feet in elevation, is the highest point from Jeff Davis County east to the Alps.

Fort Davis, the highest town in Texas with an altitude of one mile, is located at midpoint on the main road from the Big Bend National Park to the Carlsbad Caravans. Established in 1944, the Big Bend Park with its magnificent Chisos Mountains, once described as the nearest thing to the Alps in North America, contains within its confines two of the scenic wonders of the Southwest, the Santa Elena and Bequillas Canyons on the Rio Grande. The Balmorhea State Park,

TCU Staff Member Looks Beyond 1976 In Survival Study

FORT WORTH—In the year 1976, following World War III, a dry rain of radio-active particles fell to earth from the clouds of atomic dust. All things—grass, trees and men died slowly but certainly under the deadly rain.

Such is the fanciful opening chapter of a new book by Dr. Austin L. Porterfield, professor of sociology at TCU, published this week by the Leo Potlshman Foundation of Fort Worth. It is entitled "Wait the Withering Rain?" and has as a subtitle "studies in the conditions of survival and peace beyond 1976."

In this new work, the author wonders if the withering rain will wait for the tribal mind to give way to the world mind; for sound social theory; for freedom of science; for science of freedom; for philosophies of conflict to fade; for the mature man, not the Superman and several other potent points.

These areas of discussion form the chapter headings for the new book. Well indexed and with complete bibliography, it runs 147 pages.

New England Keeps Good Doctor Ratio

MONTEPELIER, VT.—(AP)—Maybe New Englanders aren't just born rugged.

According to a recent survey by Schenley Laboratories, Inc., Vermont has 434 practicing physicians to care for the state's medical needs. That's one physician for every 870 persons. This ratio places the Green Mountain state in the nation's top 10 states in number of active MD's per resident.

New York is number one with one physician for every 626 persons.

Other high-rating states include Massachusetts, Connecticut, California, Illinois, New Jersey, New Hampshire and Pennsylvania.

Rhode Island ranks twelfth and places five of the six New England states in the top 12.

ROTARY CLUB SLATES ASSEMBLY HERE MONDAY
President Carroll L. Thomas of the Midland Rotary Club announced Saturday that a club assembly will be held at 8:15 p.m. Monday in the Shell Conference Room.

Club officers, directors and committee chairmen are urged to attend the assembly.

+ Church Calendar +

(Continued From Page Fourteen)

ST. MARK'S METHODIST CHURCH
1781 North Main Street
Rev. James S. Sharp, Pastor
9:45 a.m.: Sunday School.
11:00 a.m.: Morning worship.
6:00 p.m.: MYF.

FIRST CHRISTIAN CHURCH
1361 West Louisiana Street
Rev. Clyde Lindsey, Pastor
Rev. Ray W. Fretz, Associate Pastor
9:45 a.m.: Sunday School.
11:00 a.m.: Morning worship. The pastor will speak on "The Vine, the Branches and the Vinedresser."
8:30 p.m.: Vespers Service. The pastor will speak.

CHURCH OF JESUS CHRIST OF LATTER DAY SAINTS
Midland-Odessa Branch
Harold J. Degebeck, presiding Elder
Meetings are held in the Fannin School, 400 Block of North Kelly Street, Odessa. The branch president is H. J. Dagebeck, telephone 4-5664, Midland.
10:00 a.m.: Sunday School.
7:00 p.m.: Evening service.

Chinchilla Notes

by STEVE LAMINACK

We have, on various occasions, emphasized the necessary points on housing chinchillas. This week we will elaborate a little further on this subject.

The chinchilla breeder enjoys more flexibility in his housing arrangements than does the breeder of any other fur animal. The requirements are few and simple.

1. Keep them dry
2. Freedom from strong drafts
3. Reasonable limits of temperature

These conditions may be provided anywhere in the United States. This immediate area has proven to be an ideal place for breeding. The climate is very near in humidity to that of their natural habitat. Whether a chinchilla is raised in basements, bedrooms, attics or a garage is of little concern. So long as the animal does not get wet and has access to a reasonable amount of fresh air occasionally he will be content and fruitful.

It is our opinion that a fluctuation of temperatures from a high of 80 degrees to a low of 32 degrees is desirable. The chinchilla in his natural habitat has widely varying temperatures sometimes as much as 40 degrees in one day without visible harm. Higher temperatures than 80 degrees may result in animal death. If a new rancher does not have adequate cooling equipment it is practical to place a jar of cracked ice in the nest box when the thermometer passes 80 degrees.

Humidity is a factor often touched upon. We have very little of that in west Texas, but according to our source of information, humidity has little effect upon the chinchilla. We feel it is important that the humidity not be allowed to condense and permit the animals to become damp. This will cause the fur to become matted. There are available steps to be taken if this should occur. Humidity is a factor of importance in the feed storage area. Too high a humidity may result in feed mold. Many feed molds contain a poison to the chinchilla which, when fed, can result in the animal's death.

The construction of the building is of little concern. Frame or tile buildings are good. Concrete floors are very practical. We feel that care should be taken to keep the chinchillas free from rats, mice and flies. They are carriers of disease. Although the chinchilla is odorless and vermin free, it is best to keep other pests away.

One important factor to remember is the installation of an ante-room or an interior screen or glass door. Chinchillas DO get out, and they are sometimes very troublesome to catch, because they are very active. This arrangement gives the rancher a chance to see the animal if he is out of his cage before he gets outside the unit. Screens should be placed over all windows that are used for ventilating purposes.

There are sometimes emergencies when a light is necessary. Avoid lights that give off fumes or gas. This may be harmful to your animals. Some form of lighting is necessary because much work is done at night. Heat is not necessary in your unit except to keep the water from freezing. If heat is found to be desirable, care should be exercised that the heat does not give off a fume or gas. This may be a very quick way to go out of the chinchilla business.

Other than the above mentioned pointers on housing your chinchillas, we might add only one phrase. "Keep it simple, but keep it clean."

In all these things you want...

Chevrolet's

farther ahead than ever!

... in Fisher Body Quality!

It's the only Body by Fisher in the low-price field. And now it's even more outstanding in styling, in comfort and conveniences, in quality of workmanship and materials. Interiors are roomier with finer fabrics.

... in High-Compression Power!

The most powerful engine in the low-price field with an extra-high compression ratio of 7.5 to 1—that's the new 115-h.p. "Blue-Flame" engine with the new Powerglide.* Advanced 108-h.p. high-compression "Thrifty-King" engine in gearshift models.

... in Powerglide and Power Steering!

Powerglide is the newest, most advanced automatic transmission in its field. Power Steering—another Chevrolet exclusive in its field—lets you steer and park with finger-tip ease.

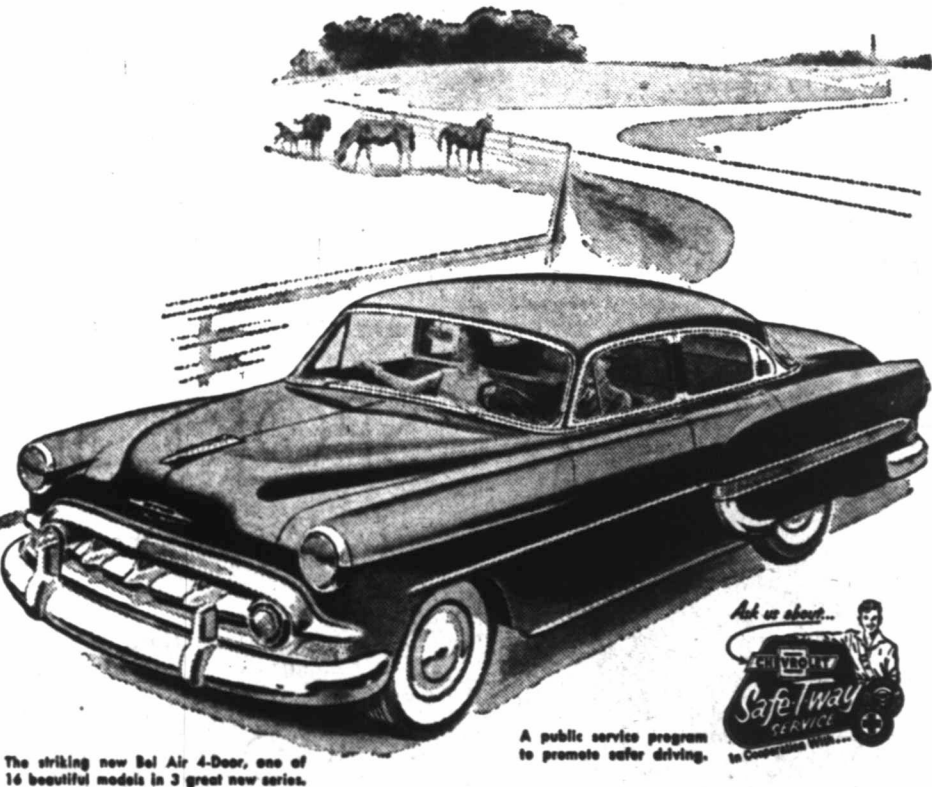

... in Economy and Value!

You go much farther on every gallon of gas (regular gas, at that). You save on over-all costs of operation and upkeep. And with all its higher quality, Chevrolet is again the lowest-priced line in its field!

... in Popularity Leadership!

Again this year—as in every single postwar year—more people are buying Chevrolets than any other car. For the first 3 months alone, Chevrolet is over 20% ahead of the second-choice car. Nearly 2 million more people now drive Chevrolets than any other make.

*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and Bel Air models only. Power Steering available on all models.

The striking new Bel Air 4-Door, one of 16 beautiful models in 3 great new series.

A public service program to promote safer driving.

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR!
