## Magnolia To Run Casing And Test Midland Venture

Magnolia Petroleum Company was preparing to run casing for production tests at No. 1 Roy Parks, Jr., wildcat one and three-quarters miles south of production in the Parks (Pennsylvanian) field of West-Central Midland County.

Production tests will be run on the section from 11,070 to 11,180 feet in the Pennsylvanian. That section had slight shows of oil and gas on drillstem test.

Total depth is 11,185 feet. Pipe will be set at that point.

Location is 680 feet from north and 720 feet from east lines of section 19, block 40, T-3-S, T&P survey.

## Texaco To Final Andrews Test As Wolfcamp Opener

The Texas Company was preparing to run casing for completion in the Wolfcamp at No. 1-H Parker, indicated flowing discovery from that formation in Central Andrews County.

Last drillstem test reported at the project was from 8,650 to 8,700 feet. Tool was open two and one-half hours. Recovery was 7,382 feet of gas and 95 feet of heavily oil and gas-cut mud. No water was found.

Operator bottomed at some point below 8,700 feet.

The wildcat had flowed oil on a drillstem test from 8,602 to 8,650 feet. The well made 48.83 barrels of oil the first hour of flowing and 55.34 barrels the second hour.

Location is in the southeast quarter of the southeast quarter of section 15, block A-46, pal survey.

The location has been carried incorrectly in the past as being 660 feet from north and 726 feet from east lines of section 15.

## Pipe To Be Set To Test Ellenburger In Tom Green Prospect

Crown Central Petroleum Corporation No. 1 R. E. Broz, Central-East, Tom Green County prospective discovery from the Ellenburger is to set and cement casing on bottom at 5,410 feet to test and try to complete as a new field opener.

The wildcat had flowed oil at the rate of 30 barrels per hour for two hours during a drillstem test at 5,235-5,410 feet.

Found No Water

On that test the tool was open two hours and 50 minutes. Gas surfaced in five minutes and oil came to the top in 50 minutes.

Final recovery, when all of the drill pipe had been pulled, was 70 feet of oil and 60 feet of oil and gas cut drilling mud. There were no signs of formation water.

Location is 11 miles southeast of San Angelo and four miles north of Veribest. It is 660 feet from north and east lines of section 89, district 11, SP survey.

## Deep Gas Discovery In Culberson Draws Long West Flanker

Grisham-Hunter Corporation of Abilene is to start operations at once on its No. 2 M. A. Grisham-State, slated 9,300-foot wildcat in Central-East Culberson County.

Location is 660 feet from south and 2,229.18 feet from east of section 8, block 80, T-3, T&P survey. It is 31 miles southeast of Toyah.

This prospect is one and one-half miles west of the M. A. Grisham associates No. 1 Grisham fee, shutin gas discovery from pay at 9,030.54 feet which was closed more than a year ago.

## Luce & Ice Final Devonian Opener In SE Ward Area

Luce & Ice of Dallas has completed its No. 1-A J. O. Britton as a Devonian gas-distillate discovery in the shallow Payton field of Southeast Ward County.

The well was finished for 105,000-000 cubic feet of gas per day plus 28.5 barrels of distillate per million cubic feet of gas.

Potential was based on a four-hour flow through open 23/8-inch tubing and open hole from 6,706 to 6,886 feet.

The discovery is five-eighths of a mile southeast of Cities Production Corporation, et al No. 1 B. R. Payton, Ellenburger project in the Payton County portion of the Payton pool which first uncovered the Devonian gas-distillate pay.

Location of No. 1-A Britton is 700 (Continued On Page Seven)

## County Cattlemen Rush To Purchase Emergency Feeds

At least 50 Midland County ranchers had applied for low-cost emergency feed by Friday morning as the government moved to ease severe drought conditions in the Southwest and halt sacrifice of herds on a buyers' market.

PMA officials here said Friday applications for feed started coming in Thursday, soon after organization of a county drought committee and announcement of disaster aid prices.

At the same time the Department of Agriculture was cutting feed prices, it began the purchase of 200,000,000 pounds of beef processed from lower grade animals.

A spokesman for Secretary of Agriculture Benson said Thursday the emergency feed, sold as cheaply as 50 per cent below the government's cost—plus other relief measures—would, however, reduce demands that the government actually buy up cattle and sheep.

**Drought Area Expanded**  
President Eisenhower late Thursday designated 26 counties in New Mexico, seven in Colorado and 75 in Kansas as drought disaster areas eligible for federal relief. A portion of Arkansas also has been so designated.

The sale of feed from the government's surplus stocks is intended to encourage stockmen, who could not otherwise maintain their animals on their parched pastures, to keep them on the farms and ranches.

The Agriculture Department, however, told Friday about the purchase of feed.

**SIX BEAUTIES MAKE A LOVELY FOURTH**—Midland will have a rollicking Fourth of July celebration Saturday and these six beauties will do their part to make it so. They are among the entrants in the Bathing Beauty Review on the program of the Lions Club at the Midland Fair Park. Left to right are Frances Bullard, Bonnie Potter, Joreta Lusk, Raynell Bustin, Hazel Winters and Jerry Smith.

## Two Cases Of Polio, First For Summer Reported In Midland

Midland's first two polio cases of the summer were reported Friday by the City-County Health Unit as a total of 83 were reported throughout the state.

Dr. C. A. Pigford said the cases involved brothers, one of whom was described as being diagnosed as "presumptive polio."

Neither case was regarded as very serious," he said, "and one of the boys did not even have to go to bed."

Taken to the hospital, however, was an eight-year-old youth who had a slight weakness in one arm although no paralysis. His 19-year-old brother had only mild symptoms.

Throughout the state, the 83 cases were the second highest of any week of the year, topped only by the 65 for the previous week.

Harris County led the state with a total of 11 new cases.

## Holiday Relaxation Lures Midlanders Out Of Offices

Midlanders joined the nation Friday in the inaugural of an extended July the Fourth weekend which offers varied entertainment for West Texans.

Rodeo and politics-minded Midlanders will find weekend events for them, too. The annual Pease rodeo was underway Friday. Stephen A. Mitchell, chairman of the Democratic National Committee, has been designated as the principal speaker at the Independence Day festival in Odessa. He is scheduled to talk at 1:15 p.m. in the Ector County Park.

A majority of oil companies here had closed Friday along with federal, county and state offices. Some oil firms remained open with Monday to be a holiday. A skeleton crew manned the City Hall Friday with offices to be shut down Saturday.

Many families took to the road to spend the weekend with relatives and friends in other cities. Continued clear and hot weather was expected to reduce the number of travelers. Some Midlanders were in Ruidoso, N. M., Friday for the horse races; others planned to be in Villa Acuna, across the border from Del Rio, for the bull fight featuring Pat McCormick of Big Spring.

Followers of the Midland baseball club looked forward to full baseball program. The Indians and Odessa will conclude a three-game series here at 8:15 p.m. Friday. Hundreds of fans may motor to Big Spring for the two July Fourth games between the Indians and the Broncs.

**Weather Forecast Offers No Change For Holiday Span**

The story's the same. Midlanders will keep baking in West Texas heat and the chances for rain are slim. And, there's no blowing sand in the forecast.

Weather prophets said Friday there would be a few scattered clouds dotting the skies west of Midland, but they won't carry much hope for damp relief.

Thursday's high was 102 degrees and the low, 74 degrees.

The mercury had climbed to 85 degrees by 11:15 a.m. Friday.

And the rest of Texas kept in step, with Frederic boasting a Thursday high of 108 and Dalhart a minimum of 79.

Dalhart also got a 77-inch shower Thursday, while .08 inch fell in Corpus Christi.

**Housewife Pulls Armed Robbery To Get Prison Term, Dodge Marital Difficulties**

**FORT WORTH**—(P)—Mrs. Virginia June Carter of Stephenville was the happiest 23-year-old mother in town Friday because it looked like she was going to get her wish to go to the penitentiary.

The dark-haired woman's black eyes sparkled at times as she sat in city jail and told why she hijacked the Westbrook Hotel here Thursday night, and then waited patiently with her daughter, Patsy Jo, three, for the police to arrive.

"After a night in the jail here, I don't know whether I'll like the penitentiary or not," she said with a half smile.

Then she added a little sadly, "But that's what I want. That's the only way I can get away from everything."

Mrs. Carter, who has no known police record and says she's never been in trouble before, blamed marital difficulties for her sudden urge to get in trouble.

**Writes Robbery Note**

Mrs. Carter said she and her husband, Troy, and Patsy had been living with her parents, Mr. and Mrs. Walter Carter, in Stephenville. Three days ago she hit upon the robbery idea.

"When my husband left to look for work in Louisiana Thursday, the baby and I took a bus to Fort Worth. We got in Thursday night, and I asked a cab driver which hotel he would recommend. He told me the Westbrook, so I went back to the bus station and wrote the note, and then went over there."

With Patsy hanging onto her hand, the mother handed a note to Leo Woods, assistant manager, which read:

"Just give me a room & what cash you have. I've got a gun on you—C."

**Takes Room, Too**

When the startled Woods handed over \$173 to Mrs. Carter, and she remained standing there, he didn't know what to expect.

"Well," she said, "what about the room?"

Mrs. Carter, after pulling out a loaded revolver and pointing it at the switchboard operator who had plugged in a line, calmly signed the register with a fictitious name and accompanied a bellboy to her room. She said she took the gun from her mother-in-law Thursday, without her knowledge.

"She, her daughter, the negro and the gun all were waiting patiently when detectives appeared minutes later.

**Has 'Funny Feeling'**

Mrs. Carter, the daughter of Mr. and Mrs. Arthur Temple of Canton, Ga., said she met her husband, when he was stationed at Fort Benning, Ga., in 1948. They moved to Texas that year.

Patsy Jo was being cared for at a children's home.

Reflecting, Mrs. Carter said "it was a funny feeling" to walk up and demand money that wasn't yours.

"I like to not had the heart to do what I did," she smiled. "If he had said I couldn't have the money, I'd have run. I'd never shoot any one, I'll tell you for sure."

## Aged Korean Asks America To Back Him

SEOUL—(P)—U. S.-South Korean truce talks were stalemated Friday. President Syngman Rhee clung stubbornly to his demand for a unified Korea and declared he "will never abandon the struggle halfway."

In an impassioned Fourth of July plea recorded by CBS, Rhee called on the American people to back him, and promised that his people "will keep fighting and dying" in the battle against communism.

"The Korean people will never swerve from the original objective of our common cause," he said. "We cannot afford to rest or halt until we consummate the one Democratic world."

Rhee's plea came after an hour meeting with U. S. Envoy Walter Robertson, their seventh secret session.

A high source said Robertson rejected Rhee's demand for more war if a post-armistice political conference doesn't agree within 90 days to unify Korea.

**Discussions Continue**  
After the conference Robertson told newsmen:

"Our discussions are continuing. I expect to see President Rhee again."

Even if Rhee and Robertson reach agreement, the UN must get the Communists to sign the truce.

The Reds apparently were ready until Rhee freed 27,000 anti-Red Korean War prisoners about three weeks ago.

Since then, they have balked stubbornly, demanding the almost-impossible recapture of all the prisoners and positive assurance of UN control over South Korea.

The UN answered the Red demand Monday and called for a quick signing of the present armistice, but there has been no official Red reply. However, unofficially, North Korea has expressed displeasure with the UN answer.

Well-informed observers predicted Robertson will start his homeward flight to Washington within a few days—successful or not.

## Soviet Tanks Cast Shadow Over Poland

BERLIN—(P)—Russian tanks were rushed from East Berlin to the Polish border to stand guard against threatening unrest among the Poles, the U. S. State Department newspaper Neue Zeitung said Friday.

Western authorities confirmed that a tank unit which had been sent into East Berlin to quell the June 17 workers' revolt was withdrawn "in a northeasterly direction" in the early hours Thursday.

Neue Zeitung said Polish underground fighters reported a 900-yard-wide strip has been cleared along the Polish-Russian frontier, and this area is patrolled day and night by Russian troops with handguns.

These reports bolstered rumors which have been leaking into West Berlin for days that there is considerable unrest in Poland. One West Berlin newspaper said Polish anti-Communist mobs clashed with Soviet troops in widespread disorders on the Oder-Neisse frontier soon after the East German uprising.

While the Petroleum Club is closed, special events have been announced at both the Midland Country Club and Ranchland Hill Country Club.

Family plans include swimming parties, barbecues and watermelon suppers, golfing, bridge parties and the gathering of the clans.

State patrolmen and city officers were alerted to keep down traffic accidents and guard against any holiday violence. Three drunk drivers were arrested here Thursday night as they jumped the gun with early celebrating. Two of the intoxicated motorists were involved in minor accidents.

## BOSSIE WORKS AT CUT RATES

RUSHVILLE, ILL.—(P)—Milk was almost for free Friday in this Western Illinois community of 3,000. The price of a quart of milk Thursday was four and one-half cents. Indications were it might go lower.

The normal price is 19 to 20 cents a quart. The price cuts started a month ago between three milk producing companies with each distributor bettering reductions made by a competitor.

## X-Ray Total Hits 1,963

Hundreds of Midland residents started a long Fourth-of-July weekend Friday by having their chests X-rayed.

While the rest of the Midland County Courthouse remained silent, with county workers taking a short holiday, long lines of men, women and children took part in the Chest X-Ray Campaign which opened Wednesday.

Bill Chancellor, Jr., chairman of the program, said that more than 1,000 persons had free chest X-rays made on Thursday, bringing the two-day total to 1,963.

Chancellor, pointing out that every person should have an X-ray made at least once a year, said anyone over 15 years old can participate by reporting between 8:30 a.m. and 5:30 p.m.

The portable X-ray unit, however, will be closed Saturday, Sunday and Monday, opening again Tuesday morning to continue through July 11.

Members of the Welcome Wagon Club assisted Thursday by registering all who showed up while volunteers of Boy Scout Troop 51 operated a public address system.

## Briton, Native Guide Share Honors In Everest Conquest

LONDON—(P)—Sir Edmund Hillary told Friday how "Tiger" Tenzing saved his life on Mt. Everest, just before the two conquered it May 28.

"We were nearly at the top, and had been climbing together," said Hillary. "I was leading down the ice wall when a large piece of ice gave way and there was a crevice. Tenzing had the rope tied to me and pulled me up. I managed to get up by the rope."

The victorious expedition of 13 men under Lt. Col. John Hunt flew in Friday from India and got a rousing reception. They held a news conference to tell their stories.

Hillary and Tenzing agreed to share the honors for reaching the summit of the world's highest peak, more than 29,000 feet, the first men ever to do so and return alive. Col. Hunt explained:

"You get to the top of a mountain only as a result of climbing with other people on a rope. It is not a matter of who is first, second or last on the rope. Each has a job to do and one is to help others."

Hillary said there was a touchy moment just before victory. They had to decide whether to go on when they were almost in sight of the top. The snow was unstable and their supply of oxygen was running short. But they agreed to risk it.

# Midland Attorney Cites Tax Burden Of Gas, Oil Industry

Parker G. Fielder, Midland attorney, Friday addressed the mineral law section of the State Bar of Texas at the State Bar convention in Fort Worth which began Wednesday and will end Saturday. Fielder is one of several Midland lawyers who journeyed to Fort

Worth for the convention which attracted approximately 1,800 lawyers throughout the state. "Equalization of tax burdens borne by oil and gas producers and royalty owners," was the theme of Fielder's talk.

# Fiftieth Anniversary Marked By Midland National Bank

The Midland National Bank observed its fiftieth anniversary Friday in its new, million-dollar building at the corner of West Texas and North Big Spring Streets, which it occupied last February.

It was on July 3, 1903, that The Midland National's charter application was approved and the bank opened for business at the corner of Main and Wall Streets. The financial institution occupied that location almost 50 years, with the exception of two years after the building was destroyed by fire back about 1907.

The bank's capital stock then was \$50,000 and its surplus \$25,000. Deposits were less than \$200,000.

On its fiftieth anniversary, The Midland National has a capital of \$1,000,000; surplus, \$525,000, and deposits in excess of \$22,852,000. No formal program was held Friday in connection with the observance. It was business as usual as the firm's personnel accepted congratulations and and started right out on the bank's second half-century.

The Midland National today has more than 50 employees as compared to four or five back in 1903.

### First Officers Listed

First officers of the bank were D. W. Brunson, president; Buri Holway, vice president, and W. B. E. Kin, cashier.

Ralph M. Barron, who has been associated with the bank since 1914, has served as its president since May 6, 1930.

Other officers are Jack Wicker, executive vice president; Murray Fasken and N. P. Taylor, vice presidents; William A. Hutcheson and Foy L. Brantley, assistant vice presidents; James G. Byus, cashier, and John T. Stanley, Robert M. Barnes, Jr., Leland Foster, Don Maples and A. E. Smith, assistant cashiers. Directors are A. Fasken, chairman, Harry Adams, Murray Fasken, Donald M. Oliver, Barron, Wicker, J. P. Gibbins and Roy Parks.

Several 50-year customers of the bank were on hand Friday to wish the financial institution a "Happy Birthday."

### GUEST FROM SAN ANTONIO

Mrs. A. G. Corbell of San Antonio is a guest in the home of her son, N. C. Corbell and family, Texaco Camp.

The raising of revenue in Texas today is big business, a half billion dollars a year business, said Fielder. "It is too big and so important to be left to casual, uninformed judgments. It is too complex to play by ear."

"It behooves each of us as citizens and taxpayers to demand wiser planning and more informed judgments on matters of tax policy. It particularly behooves the oil and gas industry, producers and royalty owners, to insist that their heavy tax burden be justified or shifted and alleviated, or at least, that the burden be placed upon them only after due consideration of all the relevant factors and information."

"It must be recognized," he continued, "that data and information on tax policy matters originating with affected taxpayer groups will be received with suspicion. This is particularly so where no definite proof can be adduced on the questions."

Compiling Information "Therefore, it seems to me that the work of compiling and assembling the information and presenting it to the policy makers must be done by agents of the policy makers themselves, by an agency of the state government."

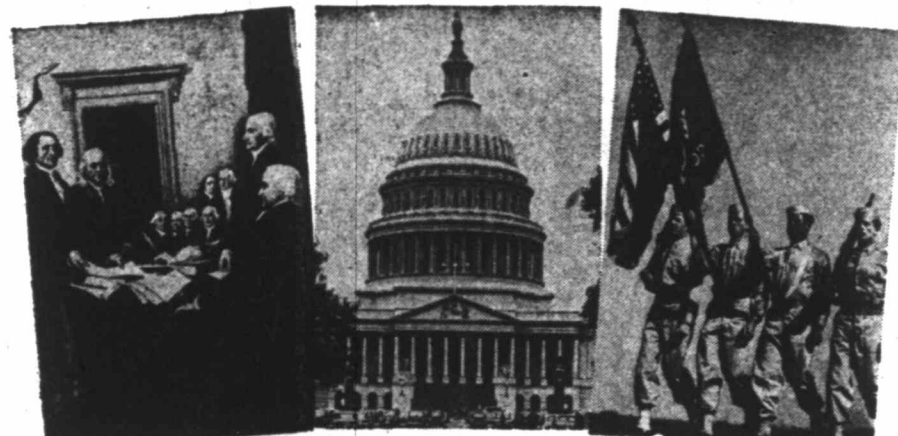

"The Texas Legislative Council has made carefully considered recommendations for establishing a state agency which would attack the problems without bias or pre-conception and would be capable of undertaking the vast job which so urgently needs doing."

"Whether the work be done in the manner recommended by the council or in some other way," concluded Fielder, "it must be done before we can judge or say whether the burden of Texas taxes is distributed fairly and equitably."

### BACK FROM CALIFORNIA

Mr. and Mrs. Bill Collins and daughter, Lorraine, have returned from Santa Ana, Calif., where they attended funeral services for Mrs. Collins' mother, Mrs. T. A. Evans, who died there last week. Mrs. Collins had been at her mother's bedside the last two months.

# Whence Comes Our Independence?

It stems partly from our Declaration of Independence... and partly from our Constitution and our republican form of government... and partly from our success in protecting them, by force of arms when necessary, but...

... mostly the independence of Americans as individuals and as a nation is born and nourished in the hearts and the minds and the souls of the American people.

# Senate Passage Sends Reciprocal Trade Bill To Certain Conference Panel Fight

WASHINGTON —*AP*—President Eisenhower's requested one-year extension of the reciprocal trade agreements law now has passed both House and Senate, but a fight still is likely before it reaches his desk.

The Senate, in passing the measure late Thursday, knocked out of the bill a House provision which would add a seventh member to the Tariff Commission so as to give the Republicans a four-to-three edge.

This provision was put in originally to persuade key Republicans on the House Ways and Means Committee to let the measure go to the floor.

Several of these Republicans favor higher protective tariffs. They are not expected to look kindly on the Senate's rejection of the plan to boost the commission size.

House May Concur The Ways and Means Committee has been embroiled in the bitter House fight over extension of the excess profits tax. This might contribute to a dispute on the Tariff Commission issue when the reciprocal trade bill goes to a Senate-House conference to iron out differences.

Independence Day, 1953

The independence we declared in 1776 is our most prized possession. We have defended it against enemies many times, and we may have to do it again one day.

In spite of all the lessons of the past, there are some among us who imagine we somehow could do this alone. They seem to conceive that isolation is an inescapable corollary of independence.

Isolation may have been a happy and perfectly natural state for America in its early decades. But the conditions favorable to that state disappeared long ago.

Even if they had not vanished before, they would have by the close of World War II. The atom bomb, the guided missile, the long-range bomber and the rise of Russia as the greatest land power ever to straddle the Eurasian continent, all these helped to make isolationism an empty myth.

So it is that we have entered, through NATO and other arrangements, the firmest peacetime commitments to our allies ever recorded in our history. They are the realistic measure of the size and power of the enemy, and the nature of modern warfare.

Since we and our friends are all free and independent, we are of course free to disagree. We often irritate our allies, and they in turn annoy us. Sometimes the rifts seem serious, and then excitable men talk of going separate ways.

But we have to realize these disagreements are the mark of real freedom. We must find a formula for unity sturdy enough to absorb these inevitable shocks. For the only other kind is that which the Russians impose upon their satellites—the unity of dread conformity enforced at gun point.

We have to understand, too, that the price of disunity among the free peoples—nationalist "independence" is what some would call it—could be death to liberty everywhere. Each free land then would be compelled to garrison itself against the certain test with the enemy, and, separate, each might fall. Not even the greatest of all the free powers, the United States, could surely stand out against the marauder.

This is not an ugly dream, but the reality we would face if we turned away from our friends. That would not be independence. It would be more like solitary confinement.

Even in summertime it takes a lot more than hot air to keep things breezing along.

One thing usually forgotten at a picnic is to burn the rubbish and put out the fire.

A man who sold peanuts and popcorn for 25 years has retired. We hope he also salted a fortune.

Before they run short, most people will be glad that they saved enough for their vacation.

"Couldn't We Celebrate Quietly, Son?"

The Washington Merry-Go-Round

By Drew Pearson. (Copyright, 1953, By The Bell Syndicate, Inc.) Drew Pearson says: Dan Reed threatened to bottle up all future tax bills; Ike's envoy to Korea tried to get Chinese Communist cooperation in 1946; Walter Robertson worked with John Carter Vincent in China.

WASHINGTON—Inside the tax fight—reasons why the little group of embattled Republicans backtracked on the excess-profits fight were threefold: (1) Uncle Dan Reed, the thorn in Ike's side, had warned he would bottle up all other tax and social-security legislation inside his Ways and Means Committee; (2) Some corporations were planning a court battle over the constitutionality of a tax bill which bypassed the Ways and Means Committee; (3) The Democrats refused to give GOP leaders the votes. "We're not pulling your chestnuts out of the fire," Sam Rayburn told Republican leader Charles Halleck. "The man who helped call off the steam-roller tax tactics was Ike's close friend, Sen. Frank Carlson, both Kansas boys. . . . The Administration called up all reinforcements to help in the tax battle. Even Assistant Secretary of State Thurston Morton, ex-congressman from Louisville, Ky., was summoned to the White House and ordered to button-hole ex-colleagues. . . . When he protested that his job was foreign relations, not taxes, he was bluntly told: "We're using everyone in this fight!" . . . The fight might have been won months ago if the White House had called in Chairman Reed at the very start instead of bypassing him as it did last January and consulting Senator Millikin of Colorado instead.

Inside the White House—For the first time, Ike is using federal patronage to keep balking senators in line. Maryland's Sen. John Marshall Butler was called to the White House and told that jobs he wanted filled in Maryland might depend on his vote to admit 240,000 refugees into the U. S. A. . . . U. S. marshals, district attorneys and judges in their states are important to senators. . . . The same tactic was used with Senator Watkins of Utah when he hesitated about introducing the 240,000 increased immigration act. He was promised the appointment of Tom Lyon, Bureau of Mines Director. . . . Vice President Nixon has turned out to be a newsman's bonanza for what's going on inside the White House. . . . One reason for the private White House dinner for Cardinal Spellman, Herbert Hoover and General MacArthur was the fear MacArthur might sound off in support of his old friend, Syngman Rhee. MacArthur was close to Rhee, used to butter him up more than U. S. officials have of late. . . . Senator Styles Bridges of New Hampshire gets invited to dine at the White House almost as much as the man who may run against him, assistant President Sherman Adams, ex-governor of New Hampshire. . . . correction—Contrary to a witness in the Key West Naval Base smoker embroglio, Mayor C. B. Harvey states that he was not present at either of the two navy smokers. Ike's Special Envoy

JACOBY ON BRIDGE

By OSWALD JACOBY, Written for NEA Service. How should you play the South hand at a contract of four hearts? With a look of reproach at your partner, to begin with, for his jump to four hearts. A raise to three hearts would be ample on the North cards. And perhaps South should play the hand with a certain amount of self-criticism, since his opening bid is far from robust. When Leonard B. Harmon, of New York, played the hand in a recent Asbury Park tournament, he

found a way to make his ambitious game contract. It was a very neat performance. West opened the eight of diamonds. East put up the king, and Harmon won with the ace. The spades looked like the best shot, and declarer made his best play to establish the spades by leading his king and overtaking with dummy's ace. He then returned the jack of spades, discarding a club from his hand when East followed with a low spade. West naturally won with the queen of spades, and just as naturally tried to cash club tricks by leading the ace and then a low club. Harmon won with the king of clubs, relieved that his club discard had persuaded West to tackle that suit. He could now get to dummy

PETER EDSON'S State Department Clean-Up

McLeod, Ex-FBI Agent, Key In State Department Clean-Up

WASHINGTON—Key man and most controversial figure in the State Department's "Operation Clean-Up" is R. W. Scott McLeod.

He is 39, Iowa born and educated, an ex-newspaperman, a wartime FBI agent, later administrative assistant to Senator Styles Bridges of New Hampshire. McLeod is a Republican, naturally. He is stocky, a little less than six feet in height, with crew-cropped black hair and rosy cheeks. He wears horn-rimmed glasses.

Scott McLeod was named State Department administrator of the Bureau of Security and Consular Affairs on February 26, just after he had left Washington for a delayed vacation in Florida. He came back, reported for work and was sworn in on March 3. He asked what his job was and to whom he reported. A State Department press release announcing the appointment was pretty vague as to details, but it was his guide.

They gave him an office suite in the main State Department building where he would be accessible to his immediate superior, Undersecretary Donald B. Lorie, in charge of administration and organization, and to Secretary of State John Foster Dulles.

So far, Dulles has seen McLeod only a few times and then on specific matters. The secretary has so many bigger world problems to grapple with that he told a congressional committee he hopes to be relieved of administrative and operating problems.

In other words, the secretary has delegated responsibility for the clean-up to subordinates, except on general policy approval and the handling of specific cases. . . . of the dismissed John Carter Vincent—on which he is required by law or by circumstances to take personal responsibility.

Primary responsibility has been given to Undersecretary Lorie. He is concentrating on reorganization and administration, however, to eliminate red tape and put the department on a business basis. The entire work load on loyalty and security cases has been dumped on Scott McLeod, as Undersecretary Lorie's good right arm.

McLeod says he has refused to turn over any papers Congress is not entitled to see. And McLeod has refused several times to take orders from Senator McCarthy's impetuous young counsel, Roy M. Cohn. Once was in connection with the Theodore Kagan case, of which more later in this series. McLeod did not begin his clean-up by firing all the old assistants

A man in the market for a cow called the owner, "How much milk will this one give?" The owner replied, "Eight gallons a day and I will sell her for \$500." The prospective purchaser inquired, "How about this one?" The owner said, "She will give six gallons a day and you can have her for \$350." The other pointed to a small cow over in the corner of a barn and asked, "How much milk will she give?" The owner answered, "I don't have the figures, but she's a good natured cow and she'll give all the milk she can."

The situation was ticklish. One felt that the worst was over. He said, "Walk out ahead of me, and the Indian behind you. We're going to the cabin where you're keeping Nate Wilkinson. I've just been talking with Nate, so don't try any tricks."

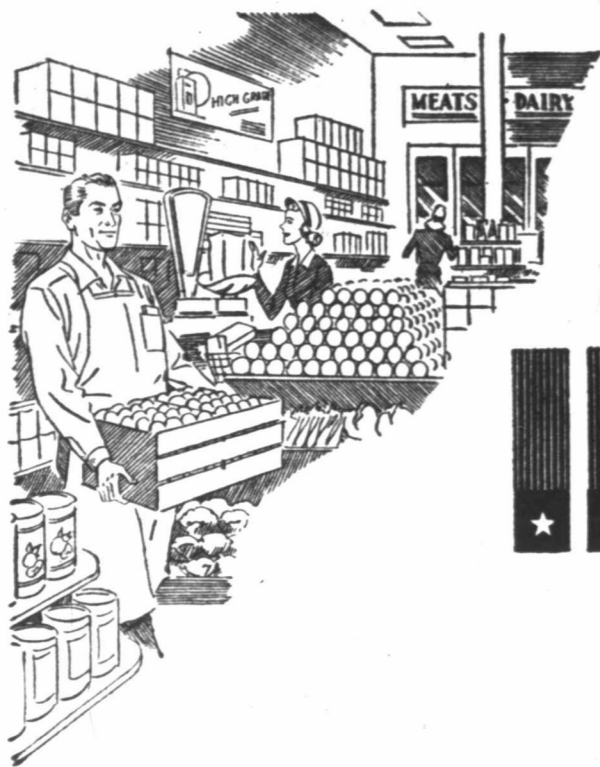

He had to order Barnes to turn to the left when they got outside. After they turned the corner around the last of the rooms Pete suddenly brought his gun barrel down over the head of the Indian. He could only meet treachery with treachery, and Barnes was enough to deal with. The Indian fell, and Pete stepped over him. Barnes grunted, hesitated, but moved on as he felt the point of a knife against his back.

Barnes grunted again when he saw the unconscious form of Herb Painter, but said nothing. Pete halted the man at the door, and handed him the keys. He said, "I'll give you one minute to find the right key and get that door unlocked. I can do the job easier myself if you happen to be dead."

Pete kept the knife against Barnes' back while the outlaw fumbled with the smaller padlocks that had Nate and the boy Walter chained to a single hard bunk.

# INDEPENDENCE DAY

## ...PLEGGED TO THE DEFENSE OF OUR FOUR FREEDOMS!

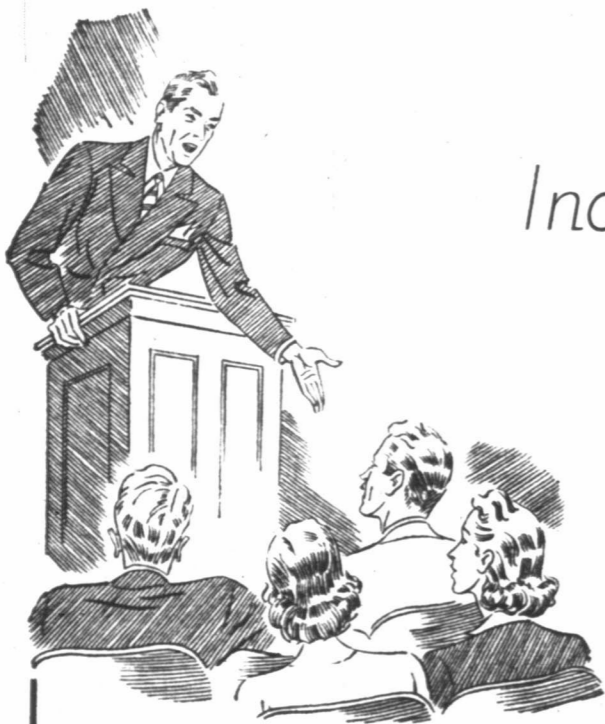

One hundred and seventy-seven years ago the Cause of Freedom was new and untried. Today we, here in the United States, accept Freedom as our birthright. Today, a man can own his home . . . he may choose the work he likes to do or carry on his own business. He may voice his political beliefs, and may worship in the church of his choice. Today, a man can live without fear. Our Freedom has been won.

But the cause of Freedom is threatened no less today than it was on that memorable July 4, 1776. Our liberty, bought so dearly, can be lost unless each and every one of us maintains the constant vigilance and courageous spirit so valiantly displayed by the Minutemen of the American Revolution. We, too, must remember the pledge of our forefathers, for unless we defend our democratic heritage, we shall lose our honor, our freedom, and our very lives.

## OLD IRONSIDES

Thanks to a succession of victorious engagements with British men-of-war, and a stirring poem by Oliver Wendell Holmes, the U.S. Frigate *Constitution* found an honored harbor in the hearts of Americans.

Launched in 1797, this gallant battle-wagon of the early American Navy well deserved her nick-name. Again and again she sailed in defense of Freedom; and Time alone, of all her foes, put her out of action.

We cherish *Old Ironsides* as a symbol of the courage that has so often preserved the liberties our forefathers purchased so dearly. And, more than ever before, we are coming to appreciate the part the *Church* plays in strengthening our nation—the *Church* which those first Americans brought to these shores that they might worship God unhindered in a free new world.

For, transcending even Time, the *Church* fortifies our Freedom with the Faith in which always it has flourished!

### THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

# Bank Deposits Gain Generally In Texas

By The Associated Press  
 Bank deposits in Texas reflected general business growth in principal cities with a slight decline in deposits in a few West Texas drouth areas.

A bank call Thursday found deposits lower in Wichita Falls, Big Spring and Midland.

Lubbock, Abilene and Amarillo, also in the drouth area, showed increased bank deposits over last year, however.

## HIGH OCTANE FUEL FOR HER

THORNTON HEATH, ENGLAND —(AP)—For years and years they warned Hannah Proctor her daily pint of whisky would kill her and, a doctor told the coroner Thursday, it did—at the age of 78.

"She was the only chronic alcoholic I ever knew to reach such an age," said Dr. David Hater, a pathologist. He said the cause of death was cirrhosis of the liver.

"Alcohol," mused Coroner J. W. Bennett, "can be a preservative."

### Tri-Cities Area Asks CAB Review Of Pioneer Ruling

WASHINGTON —(AP)—The Chambers of Commerce of Beaumont, Port Arthur and Orange, Texas, have asked the Civil Aeronautics Board to reconsider a month-old ruling on air service in that area.

They were joined by the Commissioners Court of Jefferson County in a request that Pioneer Air Lines' request for a 79-mile extension from Houston to Beaumont-Port Arthur be granted. A CAB examiner's recommendation to this effect was rejected by the board.

The petition also declared that Trans-Texas Airways is not providing, directly or in connection with Pioneer, adequate service between Beaumont-Port Arthur and Houston.

It said the board ruling "unduly prefers Shreveport and the East Texas oil field over the Beaumont-Port Arthur area."

### Congratulations To:

# REDS TO FEEL WOMAN'S TOUCH

HONG KONG —(AP)—Women barbers in Canton were ordered to Korea for war work with the Chinese Communist troops, the independent but pro-Nationalist King Sheung Daily News said Friday.

The paper said Communist officials in Canton have notified 150 women barbers to be ready to leave for Korea at once.

Port Worth deposits were \$557,891,566, up almost 40 millions. Corpus Christi deposits were \$134,466,289, up 10 millions, but six millions below the record high of January 1.

The head of the Dallas Clearing House Association, P. B. Carrett, asserted the drouth will have some impact on the income and economic picture of the area but it will not retard general business expansion.

Big Spring showed the biggest percentage drop. Banks there showed \$23,520,808 on deposit June 30, a drop of \$2,250,000 down.

Drouth and depressed cattle and wheat markets were blamed for a drop of almost a million dollars in Wichita Falls to \$121,782,886.

Abilene deposits were up only slightly. Bankers attributed the rise to oil and a heavy construction program. The Abilene figure was \$63,286,894, up about \$140,000.

Amarillo deposits were \$139,228,668, up a million dollars.

Lubbock deposits were \$128,986,809, up a million dollars.

In East Texas, bank deposits increased a million dollars at Tyler and at Marshall.

In North Texas, Sherman and Denton reported slight drops in bank deposits, but increases in the small towns of the county brought the Grayson County total to a six million dollar increase over last year.

### JayCees See Films On Driving Safety

Films on dangers facing drivers and pedestrians and how to avoid those dangers were shown Midland's JayCees at noon Friday in Hotel Scharbauer.

The series of short films dealt with all phases of driving safety. The JayCees obtained the film from Lubbock's Mutual Casualty Company.

# Wiley Expects Quick Okay Of Wheat Treaty Extension

WASHINGTON —(AP)—Quick Senate approval of the international wheat agreement was forecast Friday by Chairman Wiley (R-Wis) of the Senate Foreign Relations Committee.

Wiley indicated the treaty might come before the Senate next week for ratification.

The Senate still has not acted on half a dozen appropriation bills to run the government.

President Eisenhower has asked for the necessary two-thirds Senate approval of the wheat agreement by July 15. Wiley's committee approved a three-year extension Thursday.

Originally passed in 1940, the agreement has been signed by 41 importing nations.

Conspicuously lacking among the signatories is Great Britain, the world's largest wheat importer, but the way still is open for Britain to sign.

The agreement is designed to overcome "burdensome surpluses and critical shortages" of wheat.

### Houston Housewife Mauled, Assaulted As Children Sleep

HOUSTON —(AP)—A young white woman was beaten with a rubber hose and criminally assaulted by a man she believes to be a negro while her three children slept, unaware of her terror, early Friday.

The attack took place about 3:30 a.m.

The woman, 28, told Sheriff C. V. Kern she was alone in the house with her three children. Her daughter, 12, was in bed with her and another daughter, five, and a son, ten, were in another bedroom of the house in Recreation Acres. Her husband was several miles away, watching a watermelon stand.

The woman was beaten over the head and shoulders with what was believed to be a rubber hose filled with sand or lead. She was taken to a hospital in a hysterical condition.

Kern called for hounds from the Central Prison Farm at Sugarland. All available deputies were assigned to the case. Officers said there were almost no clues. The attacker entered the house by removing a screen from a window.

### Anderson Promises Stronger U. S. Navy

FORT WORTH —(AP)—Secretary of Navy Robert Anderson addresses the State Bar Association Friday night.

He arrived Thursday night. He said the Navy will be stronger next year if the Eisenhower budget is approved finally. He said the Navy Department aim is to maintain effective combat forces at present levels while increasing combat strength through modernizing equipment and reducing shore personnel.

**LEAVES HOSPITAL**  
 Mrs. Lauren T. Conger, 711 West Tennessee Street, who has been confined to Midland Memorial Hospital with pneumonia, returned to her home Thursday.

**VISITS IN Snyder**  
 Geraldine Broadus left Thursday for Snyder where she will visit for two weeks with her grandparents, Mr. and Mrs. Homer Johnson.

### Little Brown Pooch Assists In Polio Victim's Recovery

TEXARKANA —(AP)—A brown, floppy-eared pooch named Midget has earned visiting privileges in a hospital polio ward where her young master is in an iron lung.

Joe Sesser's friends say visits from the dog this Spring have helped the boy toward recovery.

Joe has been in St. Michael's Hospital almost a year. He can get out of his iron lung now for short periods. He can make it to a driveway in a motor vehicle.

Not long ago, Joe was frightened at the thought of leaving the lung, even for a moment. Attendants date his improved morale from Midget's first visit May 15 when Joe's mother, Mrs. Clara Sesser, brought the dog from their home in Longview.

Joe and Midget can't romp together as they did five years ago when Midget was a puppy. But Joe, who spends most of the time with only his head outside the steel cylinder, can enjoy a lick on the face from his pal.

Midget, remembering a trick Joe taught her in better days, struts around the hospital ward on her hind legs, showing off for the nurses and her master.

Joe caught polio last August, a short time after his father was killed in an oil well explosion at Longview. The long stay in the hospital may be broken soon.

For six weeks, Midget boarded with a vet here and visited Joe twice a week. Now she is back in Longview waiting for Joe to come home.

### Eso Standard Cuts Prices On Fuel Oils

NEW YORK —(AP)—Eso Standard Oil Company announced late Thursday an immediate reduction of three-cents of a gallon in the price of kerosene, number two heating oil and other distillate fuels.

The reduction represents one half of an increase put into effect some 10 days ago and prompted gossip in trade circles that the increases in petroleum products might not hold up.

The company said the decrease was dictated by competitive market conditions.

### Laws Of Nature Repealed By Kremlin Are Reinstated

WASHINGTON —(AP)—The man credited with establishing the Soviet theory of genetics, ridiculed outside the Iron Curtain as political puppeteer, now says the whole idea was Joseph Stalin's.

Prof. T. D. Lyenko labeled his Russian a "eulogy" to the deceased Russian premier.

But the statement, published Friday by the magazine Science, might be interpreted in the West as an attempt to get off the scientific hook.

It states that Stalin dictated to Lyenko how he was to present the theory that acquired characteristics of a plant or animal may be passed on to offspring.

Many American and other scientists denounced Lyenko as a tool of the Communist Party and ridiculed his paper when it appeared in 1948. Nevertheless, it was adopted as doctrine by the Central Committee of the All-Russian Communist Party.

As a result, many leading Russian scientists who didn't go along with the theory were kicked out of high teaching posts in agricultural and other colleges.

Then, under Stalin's direction, the whole system of teaching biology in Russia was changed to fit the theories approved by the politicians.

# Wiley Expects Quick Okay Of Wheat Treaty Extension

WASHINGTON —(AP)—Quick Senate approval of the international wheat agreement was forecast Friday by Chairman Wiley (R-Wis) of the Senate Foreign Relations Committee.

Wiley indicated the treaty might come before the Senate next week for ratification.

The Senate still has not acted on half a dozen appropriation bills to run the government.

President Eisenhower has asked for the necessary two-thirds Senate approval of the wheat agreement by July 15. Wiley's committee approved a three-year extension Thursday.

Originally passed in 1940, the agreement has been signed by 41 importing nations.

Conspicuously lacking among the signatories is Great Britain, the world's largest wheat importer, but the way still is open for Britain to sign.

The agreement is designed to overcome "burdensome surpluses and critical shortages" of wheat.

### Suspect In Denver Trunk Murder Jailed

HOUSTON —(AP)—Fernando Espinosa, 31, charged in the Denver trunk murder of a young woman, was arrested Thursday night after a brief scuffle with police.

In his pockets, officers found a newspaper clipping with a Denver dateline. It said Fernando Espinosa had been charged in the death of a woman identified as Irene Espinosa. He said he had "got scared and ran away."

The woman, about 16, was slashed to death with the jagged edge of a broken bottle. Her body had been wrapped in a blanket, along with a metal figure of the Christ, stuffed in a trunk and dumped into the Platte River in Colorado. The body was found June 20.

**Price Daniel Says Texas Democrats Need No Assistance**

FORT WORTH —(AP)—Senator Price Daniel said Friday Texas Democrats "don't need any help" in determining the future of the party.

Daniel is here to address the State Bar of Texas Friday night.

"We don't need any outsiders to reorganize the Democratic Party in Texas. We've always had that trouble in the past. People from the outside keep trying to tell us what kind of a Democratic Party we ought to have."

This was an apparent reference to national Democratic Chairman Stephen Mitchell, who now is on a speech-making tour of Texas in an effort to strengthen the party.

Daniel supported President Eisenhower last year.

### Combined Colleges Get Hotel As Gift

BROWNWOOD —(AP)—The three-story Main Hotel, valued at \$100,000, has been given to consolidated Howard Payne and Daniel Baker Colleges, it was announced Friday.

The gift came from Dr. H. L. Locker, Brownwood physician and an alumnus of Daniel Baker. The Brownwood schools were combined early this year.

**Ike Goes To Camp**

WASHINGTON —(AP)—President Eisenhower left the White House Friday for another weekend at Camp David, presidential retreat in the Catoctin Mountains of Western Maryland.

### Crewmen Escape Fiery Air Crash

ENID, OKLA. —(AP)—A B-26 bomber, carrying two cadets and a crew chief, skinned above the roof-top of the small Waukomis farming community eight miles south of here Thursday night, then crashed and burned in an open field.

The crew suffered only minor burns and shock.

Vance Air Force Base officials said the plane had taken off minutes before the crash. It was based at Reese Air Force Base at Lubbock and was returning on a routine training flight.

The aircraft faltered shortly after the takeoff and barely missed the heart of the small community. Dave Champlin, 17, who was driving by, took the crew to the hospital.

"They were walking around dazed," he said. "I don't see how anybody got out alive. It was an inferno."

Champlin said the cadets told him the port engine failed and the other one caught fire. The plane was enveloped by flames in the air and crashed near a railroad right of way, setting some ties ablaze. One engine was thrown 65 feet.

The crew stayed with the plane and crawled saved from the burning wreckage. A gasoline tank exploded shortly after they escaped.

### Three WT Wildcat Failures Plugged

Wildcat failures in Sutton, Coke and Runnels Counties of West Texas have been abandoned and plugged.

Tennessee Production Company No. 1 Allos L. Jones, in Northwest Sutton County drilled to 7,800 feet in dry Ellenburger.

It found no shows of possible commercial production in any formation penetrated.

Location was 660 feet from north and east lines of the southwest quarter of section 156, block A, HE&WT survey.

**Northwest Of Sonora**  
 It was eight miles northwest of Sonora.

Inca Drilling Company of Abilene No. 1 Wilson Estate in Northeast Coke County and four miles northwest of Blackwell drilled to 4,050 feet in an unidentified lime without finding any possibilities for commercial production. It has been plugged. Location was 2,850 feet from north and 1,890 feet from west lines of section 277, block 1-A, HA&TC survey. It was one and one-half miles southwest of the depleted Blackwell (Claco Sand) field.

**Discovery Is Plugged.**  
 Discovery Drilling Company, Inc. has plugged and abandoned its No. 1 L. I. Long, South-Central Borden County wildcat on a total depth of 4,802 feet in lime and shale.

This well was completed as a small producer from the Mississippian several months ago from pay above the plugged back total depth of 3,841 feet.

Recently it was re-entered and deepened to 4,802 feet. The new section of hole failed to develop any new signs of oil or gas.

It was then plugged back again to the Mississippian, but its old production failed to come back. It has been plugged and abandoned.

# Birdshot Pepper Two Strike-Bound Paper Mill Workers

ELIZABETH, LA. —(AP)—Two employes at the strike-bound Calcasieu Paper Company, were shot Thursday night as violence flared anew in this strike-stricken paper mill community.

State police said William Johnson, 18, and Claude Marlice, 16, were ambushed and peppered with birdshot as they traveled a gravel road near Fairview.

Troopers said though each man was injured painfully, neither was in serious condition.

The shooting marked the first time either company workers or striking union members had been hit although many company workers' homes had been fired into or dynamited.

About 80 state troopers are in the Elizabeth-Oakdale area and more are coming.

APL workers at the two plants, the Calcasieu Paper Company, and the jointly-owned Southern Industries, struck in September in a contract dispute.

### Gas Shows Found At Forest Wildcat In NE Chaves Area

Forest Oil Corporation No. 1 Federal-General American Oil Company of Texas, rank wildcat in Northeast Chaves County, is coring after a drillstem test of the Pennsylvanian from 2,370 to 4,846 feet.

Tool was open one and three-quarters hours. Gas surfaced in five minutes, with volume estimated at 356,000 cubic feet daily.

Recovery was 600 feet of heavily gas cut mud. Flowing pressure ranged from 306 to 420 pounds and 15-minute bottomhole pressure was 1,985 pounds.

Earlier, the wildcat flowed oil from either the basal Wolfcamp or upper Pennsylvanian on a drillstem test at 7,754 to 7,868 feet.

Location is 1,980 feet from west and north lines of section 7-18-21E and 48 miles northeast of Roswell and nine miles southeast of Boaz.

### Indicated Discovery In E-C Tom Green Is To Cement Pipe

Crown Central Petroleum Corporation was preparing to cement oil string on total depth of 5,410 feet at No. 1 R. E. Bros, indicated Ellenburger discovery in East-Central Tom Green County.

The wildcat had indicated as a flowing discovery on drillstem test from 5,235 to 5,410 feet. Tool was open two hours and 50 minutes. Gas surfaced in five minutes and oil in 50. It flowed at the rate of 30 barrels hourly for two hours.

Recovery was 70 feet of oil and 60 feet of oil and gas-cut mud.

Location is 660 feet from south and east lines of the northeast quarter of section 89, district 11, SP survey.

### Reagan Prospector To Plug Back For Tests Of Simpson

The Texas Company was preparing to squeeze off Ellenburger perforations and plug back for tests of the Simpson and Fusselman at No. 1-AJ State, project in the Big Lake, West (multipay) field of South-Central Reagan County.

The project had been swabbed for 26 barrels of sulphur water with a show of gas and some oil through Ellenburger perforations at 9,448-9,490 feet.

The Simpson had some shows of oil and gas and the Fusselman indicated that it would produce gas and distillate.

Location is 663 feet from south and 660 feet from east lines of the north half of section 10, block 11, University Lands survey.

### Houston Concern Completes Caddo Oper In Concho

Progress Petroleum Company of Texas of Houston has finished its No. 2 Ed Speck as a Caddo discovery in Southwest Concho County.

The well was finished for a daily producing potential of 80 barrels of 37.2-gravity oil and no water. Gas-oil ratio was 500-1.

Production was from open hole between 3,656 feet, where 5 1/2-inch casing was cemented and 3,698 feet, the total depth. Top of pay was picked at 3,656 feet on derrick floor elevation of 1,962 feet. Pay section was acidized with 500 gallons.

Operator has asked for discovery allowable and suggested the field be designated as the Speck Ranch field.

Location is 1,100 feet from north and 467 feet from west lines of section 202, Michael Test survey.

**Non-Flaring Wells In Spraberry To Get Nine Days In July**

An order limiting the Spraberry field to nine producing days for July was issued by the Railroad Commission Thursday.

The amendment of the state-wide production order followed issuance earlier this week of a flare gas order which said oil production would be prorated among all wells but only those putting their casinghead gas to legal use could produce.

Latest commission reports indicate facilities available to handle 125 million cubic feet of casinghead gas per day from the Spraberry. Facilities are needed for 155 million more.

# Amerada Will Drill Shallow Prospector In NE Concho Area

Amerada Petroleum Company has filed application with the Railroad Commission of Texas requesting permission to drill its No. 2 Sarah L. Whitfield as a new wildcat in Northeast Concho County.

Drillstem is 660 feet from south and 2,300 feet from east lines of section 97-9D, Fisher & Miller survey, abstract 168 and three and one-half miles east of Millersville.

Rotary tools will be used to drill to projected depth of 2,600 feet. Operations will begin at once.

The prospector is 2,310 feet east of Amerada Petroleum Corporation No. 1 Whitfield, opener of and lone producer in the Millersville field.

It is one and three-quarters miles south and slightly west of the two-well Millersville-Waide field, which also produces from the Pennsylvanian. Discovery well was Amerada No. 1 Waide.

### W-C Lea Wildcat Gets Gas In DST Of Mississippian

Rumble Oil & Refining Company developed shows of gas on a drillstem test of the Mississippian formation at No. 1-A-C State, wildcat in West-Central Lea County, New Mexico.

Drillstem test was taken in the interval from 12,483 to 12,545 feet. Tool was open 50 minutes. Recovery was 2,484 feet of gas-cut water blanket and 180 feet of gas-cut drilling mud.

Operator was making more hole at last report.

A previous drillstem test was tried in the section from 12,495-531 feet. Packer leaked after 12 minutes. Recovery was 4,173 feet of free gas, 3,404 feet of water blanket and 1,410 feet of heavily gas-cut drilling mud.

Location is 1,980 feet from north and 660 feet from east lines of section 22-178-35E.

### Fisher Area Gets Flowing Discovery From Canyon Zone

A flowing discovery from the Canyon lime has been completed in Northeast Fisher County by Claude E. Heard and Estill S. Heyser, Jr., and Noranda Oil Corporation at their No. 2 Bert Rushing.

The new field opener is two and one-half miles northwest of Royston and 660 feet from south and west lines of section 75, block 1, HA&TC survey.

On potential test it flowed 14.85 barrels of 42-gravity oil in 24 hours through an 18/64-inch tubing choke.

**Production Natural**  
 Gas-oil ratio was 1,887-1. The production was natural and came from perforated section at 5,268-68 feet in the 5 1/2-inch casing.

That pipe is cemented at 5,276 feet. Total depth of 5,277 feet.

Top of the Canyon lime is at 5,212 feet. Elevation is 2,010 feet. Flowing tubing pressure during the completion test averaged 475 pounds.

### Three WT Wildcat Failures Plugged

Wildcat failures in Sutton, Coke and Runnels Counties of West Texas have been abandoned and plugged.

Tennessee Production Company No. 1 Allos L. Jones, in Northwest Sutton County drilled to 7,800 feet in dry Ellenburger.

It found no shows of possible commercial production in any formation penetrated.

Location was 660 feet from north and east lines of the southwest quarter of section 156, block A, HE&WT survey.

**Northwest Of Sonora**  
 It was eight miles northwest of Sonora.

Inca Drilling Company of Abilene No. 1 Wilson Estate in Northeast Coke County and four miles northwest of Blackwell drilled to 4,050 feet in an unidentified lime without finding any possibilities for commercial production. It has been plugged. Location was 2,850 feet from north and 1,890 feet from west lines of section 277, block 1-A, HA&TC survey. It was one and one-half miles southwest of the depleted Blackwell (Claco Sand) field.

# Daddy Ringtail

## Daddy Ringtail And Trail Of The Lonesome Pine

Daddy Ringtail, your monkey friend, was climbing the Trail of the Lonesome Pine. He was carrying a picnic basket for a picnic. Mother Ringtail was with him.

Up and up from the river they climbed. Up and up the Trail of the Lonesome Pine. Up past a rock as big as a house. Now across a little patch of grass. Up and up and up some more until—there! They had come to the end of the trail. Before them stood the Lonesome Pine.

The Lonesome Pine was really a great, tall tree of pine. It was lonesome, I suppose, because it was the only tree that grew up there on the bluff—high, high above the river. Oh, but what a happy place for a picnic!

Green grass grew around the Lonesome Pine, and far, far down was the water of the Whispering River.

Daddy Ringtail put the picnic basket on the ground. He said what a happy, happy day it was, and what a very fine day for a picnic, especially there at the Lonesome

Pine, but just then—Tch! Tch! Tch! What an unhappy sound there was of a sudden.

It was a noise of someone weeping and wailing, and moaning and groaning, and sobbing to show what a sad, sad somebody the somebody was who was making the noise. Mother Ringtail saw where the unhappy noise was coming from.

# SPORTS PARLEY

By CHARLEY ESKEW

Abe Beckman, the Ranchland Hill golf pro, came to realize a one-time caddie's greatest desire this week, and almost passed it by.

Going home from work in his small coupe the other day, the shy Alfred A. spotted a shiny new car parked in front of his home and, instead of stopping, drove on around the block. At last at home, his wife Virginia wondered why he hadn't come straight in.

"I was dirty and slouchy," he told her, "and I didn't want to come in when you had company in a car like that."

Abe then found out the Cadillac was his. A father's day gift.

## Ben Provided Turning Point Early

A matter of opinion: Jimmy Cannon in a New York Post column quotes Bill Veeck as admitting Bantam Ben Hogan is, of course, the greatest of the modern golfers but he has no color. Veeck testifies that the crowds would follow Gene Sarazen or Walter Hagen if that pair still were around.

Jimmy Demaret joins the moderns and claims no golfer could ever approach Ben Hogan as golfing's greatest, not even Bobby Jones. He points out that despite the wooden shafts (which he says still would be in use if the right wood could be found), things in Jones' day weren't so tough because of shorter courses and less competition.

Hogan's ideal match, Demaret says, is one in which he beats an opponent, 18-up. Once Hogan eliminated his colorful Houstonian friend, 10 and 9, and afterwards a writer questioned, "what was the turning point, Jim?"

"When we teed off at 10 o'clock," came the answer.

For the Odessa Pro-Am, August 20-26, Pro Boyd Huff of Midland Country Club has chosen Willard Crenshaw of Dallas as his amateur partner. It's a new partnership for the two and Huff's second entry in the Odessa event. MCO assistant pro Jay McClure still hasn't settled upon his amateur teammate or if he will enter.

## Roughs To Trim Club To 16 Before Entry At Sweetwater

Sweetwater baseball officials Friday relieved Manager Les Cobb of the Midland Roughnecks of one roster problem only to confront him with another before the Roughs enter the North Texas semi-pro play-offs there July 8.

The Sweetwater group, host for the National Baseball Congress sectional tourney July 8-12, notified Cobb to keep the Rough squad within a 16-player limit for their tourney entry. More than 20 players make up the Rough roster.

Besides facing a trimming problem, Cobb has planned to add another pitcher to bolster an in-and-out staff.

Meeting the limit was the lesser of Cobb's dilemma however; earlier, the schedule of the Midland city softball leagues and the NBC tourney conflicted. Consequently, Cobb told Sweetwater officials that unless the Roughs could get a bye during the first night of the tourney the team could not enter.

Practically all of the Roughs are members of the city softball teams which wind up their regular season's play July 8.

The Roughs, one of the NBC favorites, were assigned to their first game at 8:30 p.m. July 9, winning a first round bye.

The Roughs don't know at present which team they will play but Cobb believed it would be one of the several service teams entered, either Carswell, Reese, Amarillo or Sheppard Air Force Bases.

Which ever club wins the tourney, a double elimination event, will tackle the winner of a meet being run off at Sweetwater now.

Those involved currently are Merkel, Roscoe, Bryan Electric of San Angelo, Loraine, Sweetwater's Aces and San Angelo Corner Drug. The champ then represents the North in a state play-off against the South winner in Sinton.

The Roughs hope to add Ed Lee.

a pitcher, to their club for the Sweetwater entry. He's a former San Francisco Seal hurler under Casey Stengel and had been sold along with Billy Martin to the Yankees before being called into service.

Lee lived in Midland now. Cobb said that one of his regulars, Third Baseman Frank McAlexander, probably will be out of the lineup at Sweetwater. McAlexander, a former Longhorn Leaguer, will be on vacation in Mississippi at that time, Cobb said.

## Dallas Takes Second Place

By The Associated Press  
The Texas League Thursday night tightened up its first division. Shreveport, league leader, was dumped by Beaumont, sixth-place club, 11-2. Dallas defeated Fort Worth, 6-3, and moved over the Cats into second place.

Houston drubbed San Antonio, 10-5, and now ranks half a game from fourth-place Tulsa and the first division. The Oilers were stopped by Oklahoma City, 3-0.

After two straight shutout victories the Shreveport pitching staff had its come-uppance at Beaumont. The Exporters rapped 15 hits with Fred Taylor hitting a solo homer in a four-run seventh inning.

Left-hander Burt Smith won his fifth game, pitching eight-hit ball. Ralph Hamner started for Shreveport, and was the loser. He was lifted in the fifth inning.

As Dallas trimmed Fort Worth, Right Fielder Willie Brown led the 11-hit attack with a pair of home runs.

Red Murff was the winning Dallas pitcher.

Al Zillian, with some eighth-inning help from Al Olsen, blanked Tulsa, 3-0, for Oklahoma City. Zillian weakened in the eighth inning and Olsen came on to get the Indians home safely.

Al Papp pitched the Houston Buffs to their triumph over San Antonio.

score for Midland's two losses in Odessa and left the door open for Ralph Blair to handle the pesky neighbors to the West in the rubber game of the five-game series Friday night.

With Charley Craig, Jim Carson, Dario Jiminez and Wes Ortiz seeing action Thursday, Martin has only Orlando Zraggen left for Friday's encounter. Zraggen pits his 2-3 record against Blair's 7-5 mark in the 8:15 p.m. meeting to be preceded by baseball clown Billy Mills' 30-minute act.

Midland's wrecking forces were fairly lenient in the first game although none of the three Other hurlers were really effective. In the end, the Indians handed Jiminez his first defeat of the season. In the second game, however, the Tribe went on a scolding party, lashing out 14 hits including home runs by Scooter Hughes, Lou Dawson and Mickey Diaz, who also got

three other hits for a perfect night. Odessa treated Fred Rodriguez rough in the first inning of the opener, collecting three runs off doubles by Raul Dieppa, Leo Eastham and Roman Loyko with a single by Barney Batson and a sacrifice by Martin sandwiched between.

Midland took it out of Craig in their half, drawing four walks and getting safeties by Hughes and Julio de la Torre to account for four runs and chase Craig.

Tex Stephenson touched reliever Carson for a triple and Hughes singled him in with the fifth Midland tally.

Odessa scored one in the third on a walk to Eastham, a single by Roberto Fabian, Eastham's swipe of third and Martin's flyout.

They tied it in the fifth as Rodriguez forced in the tying marker after a beautiful peg by Bill Brown had caught Barney Batson at the plate.

That set the stage for Stephenson's double, Hughes' sacrifice and De la Torre's long fly that scored the winning run in the seventh off Jiminez.

Romario Soto, who had been idle since June 25, relieved Rodriguez in the fifth and was credited with his third victory.

The nightcap was all Midland, although Odessa hit Max Newcom freely. They led off with three successive singles, but Newcom picked Dieppa off second to prevent a run. Ortiz singled, went to second on a walk and scored on Batson's single to give Odessa a short-lived lead in the third.

In Midland's half, Hughes—who played both games despite a high temperature—homered with one down. De la Torre doubled after Bowland was out, and Brown walked. Dawson then cleared the sacks with a blow over the scoreboard.

Stephenson's double, singles by Hughes and Bowland, a double by De la Torre and Brown's single accounted for four Midland runs in the fourth and brought back Craig. Dawson, batting right-handed as a taunt to the Odessans, struckout, but Diaz then slashed his homer over the right field wall, making it a 10-1 game.

Craig homered to lead off the Odessa fifth, and Dieppa followed with a single. A wild pitch moved him to third from where he scored on Roberto Fabian's single.

Midland tallied twice in the sixth on De la Torre's walk, Dawson's right-handed single to left and Diaz' single to right which Eastham booted, allowing Dawson to score.

Odessa counted once in the seventh on Eastham's double and Batson's single to end the scoring for the night.

De la Torre hit in each of the games, stretching his streak to 20 games.

## Baseball Clown Set For Friday Comedy

When Midland fans trek to Indian Park Friday night, they will be treated to one of the most unique baseball comedy routines in vogue today.

Billy Mills, baseball's clown prince of pantomime, has developed a pre-game act which has been acclaimed by prominent diamond men as refreshing and bright. Although his stunts deal primarily with comedy, the climax to his zany performance is as dramatic as a Broadway theater production.

Many years ago when young Mills was following his father's footsteps across the country, he continually heard about the great "Bambino" and his famous called home run at Chicago. As the years progressed, he learned more about the game from his dad, Art Mills, and gradually developed into a pretty fair pitcher.

He always held the Babe's home run shot to be the greatest of all baseball legends.

Several years ago when Billy first became interested in the comedy side of the diamond game, he thought of developing this stirring moment into some kind of skit. At first, he satirized the incident. But following Ruth's death, Billy decided to reverse the idea and make it a sober moment in baseball history.

His portrayal of this feat has been highly successful. Reports from every park at which Billy has played indicate that his dramatic recrea-

tion proved to be the high spot of the act. Old-timers say that as Billy rounds third base and crosses home plate, "he couldn't look more like the Babe."

Mills' pantomime routine concludes his hilarious show in which is included a variety of acts geared to keep youngsters and adults alike fully entertained.

His appearance here will start at 7:45 p.m.

OLD MAN MIZE BOOSTS BOMBERS—

Cleveland Skids As Yankees Rally

By BEN FLEAGAR AP Sportswriter

Now that the Yankees finally have quit losing maybe the Cleveland Indians will go back to playing better baseball. Instead of concentrating on their own business, the Indians this week have been going through their paces with one eye on the scoreboard to see how much ground they were gaining on the fading New Yorkers.

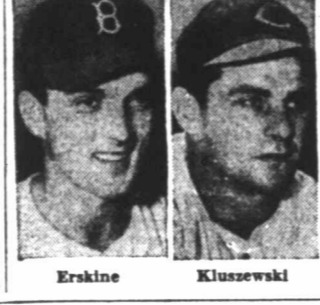

Mize Berra

In the National League the Brooklyn Dodgers made sure that they will be in first place on the morning of the Fourth of July traditionally turning point of the pennant races.

Pinch-hitting in the tenth with two out and Yogi Berra on third base, Mize drove a 3-2 pitch from Sid Hudson into left center field for a double. First base was open at the time but Red Sox Manager Lou Boudreau gambled on pitching to Mize rather than waiting for Gil McDougald, the next scheduled hitter.

went ahead with a pair in the third on a walk, a wild pitch by loser Mike Garcia and singles by Johnny Pesky and Walt Dropo. Don Lund produced the winning runs with a home run scoring Matt Batts ahead of him in the seventh. Steve Gromek scattered seven hits in registering his third victory.

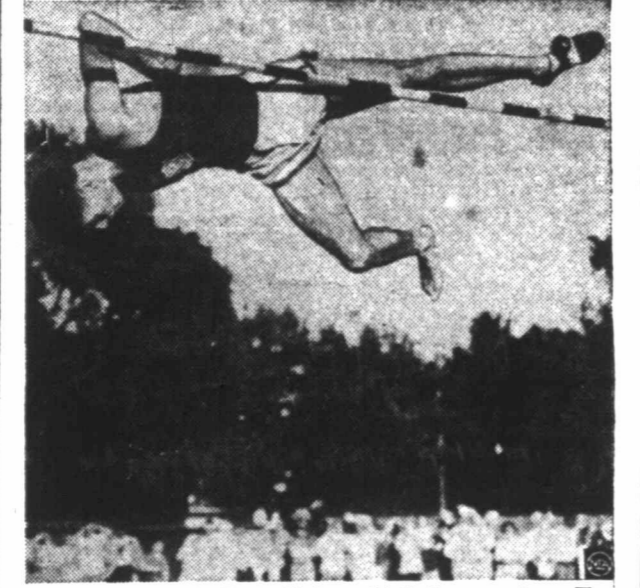

Washington's scheduled game in Philadelphia was rained out. So far this year Brooklyn's biggest difficulty has been its pitching but you couldn't find much wrong with Carl Erskine's seven hit performance against the Phillies. The shutout was only the fourth this season by a Brooklyn pitcher and it marked the first time in 18 games that the opposition hasn't hit a home run against the Dodgers.

'Ashers Win Crisp Fight For Second

ARTESIA —(P)—The Carlbad Potashers won the battle for second place in the Longhorn League Thursday night, defeating their contender, the Artesia Drillers, 6-2, after left-handed Marshal Epperson held the Drillers in the eighth and ninth innings when the bases were loaded.

Epperson took over mound duties when Gene Wulf got in trouble in the eighth inning. Wulf retired after Vince DiGian-tamasso singled in a run when the sacks were full. Epperson struck out four out of five men he faced in the last two frames to end the game.

Seixas Annexes Wimbledon Title

WIMBLEDON, ENGLAND —(P)—Vic Seixas of Philadelphia overpowered Denmark's Kurt Nielsen Friday to win the All England Men's Singles Tennis Championship, 9-7, 6-3, 6-4.

This was the sixth Wimbledon victory for an American player in seven years. Seixas, 29, captain of the 1952 U. S. Davis Cup team, never before had won a major tennis title. He came close in 1951, but lost in the American finals at Forest Hills, N. Y., to Frank Sedgman of Australia.

Palmer Ties Mark As PGA Medalist

BIRMINGHAM, MICH. —(P)—The main event in one of golf's finest shows—the match play in the annual PGA Tournament—started with two nice little guys who haven't been doing too well lately at the opposite ends of the bracket. One was bronzed Jimmy Turnesa, the defending champion; the other Johnny Palmer, the qualifying medalist and now co-holder of the PGA qualifying record.

Some other first round matches were Chick Harbert, twice runner-up for the PGA title, against Pete Cooper, whose 69-69-138 put him third among the qualifiers; Chandler Harper, an ex-champion who barely failed to overhaul Palmer Thursday with a 137, against Jack Isaacs; and Vic Ghezzi, who shot one of the 66's here, against Jimmy Clark, who did the same in the National Open qualifying.

Hanson Batting Star As Bulldozers Win

Catcher Jerry Hanson's three-run homer in the first inning started the Bulldozers to a downhull-all-the-way victory, 10-4, over the Cubs in a Central Little League game Thursday. The winning Dossers scored in each of the first four innings while Dickie Campbell scattered five hits for the pitching verdict.

Colts Thump Broncs, 12-8

BIG SPRING —(P)—The San Angelo Colts pounded the Big Spring Broncs for 15 hits and a 12-8 Longhorn League victory Thursday. But the Colts needed the big five-run third inning to balance the six errors allowed. Three of them were on Shortstop John Jeandron, each on ground balls.

100 Due To Compete In July 4 Tourney Over North Course

The Midland Country Club's one-day July Fourth golf tournament, scheduled for stay-at-home members at the north course, expects about 100 players to enter, assistant Pro Jay McClure said Friday. The men's tourney will open play with the first foursome teeing off at 9 a.m. McClure is assisting in arranging starting times with players who are making up their own foursomes.

Literary Art Runs Into Modernism

Sat down the other evening to do this weekly stint of mislabeled journalism, and while the mind roved higher and thither in search of something that could be twisted into a good ad on Turf Special Organic Fertilizer, or Jacobson Power Mowers, it dawned on us that the house had gotten mighty quiet. We pondered this unseemly quietude for some moments, and decided we better investigate. We opened the door cautiously (you never know what will happen in this house) and there, propped on a chair, was a sign, "Quiet, Genius at Work." Our elder son is home from college, you know, and we presume that this is part of his scholastic equipment.

Player-Manager Joe Niedson of Big Spring homered in the fourth with none on base. Mario Saldana, with relief from Bill Winn in the last inning, was the winner. The Broncs threatened in the seventh with four runs off three hits, a walk, and an error. The same two teams meet here Friday night in the finale of the series.

Lubbock, though, proved fairly stable and held its first place lead with a 10-4 win over Pampa. Roy Parker, for the second-place Clovis team, spun four-hit ball and led the Pioneers by Albuquerque, 10-0. Amarillo ran over Borger, 18-7, with 12-run third inning.

Alabama City Nears Finale Of Great Polio Experiment

MONTGOMERY, ALA. —(P)—Amid a strange quiet, Montgomery awaits the outcome of the great gamma globulin experiment. All group activity for children virtually has ceased. It is as though the Pied Piper lured them away from city playgrounds and Western movies.

When inoculation centers close Friday night, the last of more than 30,000 youngsters will have been made as safe from infantile paralysis as now is possible. Years of painstaking research costing millions of dollars have

been climaxed in this attempt by microbe hunters to halt a raging polio outbreak before it shoots past the epidemic mark. Now the scientists have done all they can, and are looking for Montgomery's hip-score youngsters of nine years old and under to tell them how much longer they have to fight before the crippling disease is beaten.

Work, by the way, started Monday on the new \$50,000 Youth Center at the corner of Illinois and C Streets.

McCarthy Panel May Call Truman

WASHINGTON —(P)—Senator McCarthy (R-Wis.) said Friday Attorney General Brownell has ordered a search of Justice Department files to determine whether former President Truman ever handed it a list of about 180 Americans suspected of spying for Red Russia.

day he was asking Brownell for a report on whether Truman obtained a list of 150 suspected spies from Canadian Prime Minister Mackenzie King in 1945. If this was so, McCarthy said, he wanted to know "why these United States citizens were not prosecuted." Friday McCarthy made public a reply from Brownell which read: "I have no knowledge as to whether Canadian officials in 1945 turned over the names of roughly 150 American citizens who were alleged to have been part of an international Communist espionage ring, but I will endeavor to find out whether there is any information in the files of the Department of Justice or knowledge on the part of anyone presently in the Department of Justice bearing on this matter."

Townsend Planners Back Drive With Cash

CLEVELAND —(P)—The oldest behind the Townsend Plan donated \$29,000 and boosted their annual dues to \$2 from \$1 here Thursday to put new sng in their drive for \$150 monthly pensions financed by a two per cent gross income tax. As 1,500 delegates ended a four-day national convention, groups from various states paraded across the stage to hand their cash gifts to Dr. Francis E. Townsend, 86-year-old founder of the movement.

# Summy Death Case Reopens

CRANE—An autopsy report has prompted already-suspicious M. E. Lear, Crane County sheriff, to re-open the case of J. J. Summy, 58, former Midlander found dead in his car April 1—apparently by his own hand—about nine miles southwest of Crane.

(NEA Telephone) PROVOCATIVE—Explosive Marilyn Monroe acts the very provocative prognosticator as she warns motorists and other weekend pleasure-seekers to beware of trouble on Fourth of July.

## Reds Knock ROK Troops Off Vital Hill

SEOUL.—(AP)—Chinese Reds, attacking behind a deafening artillery barrage, recaptured Lookout Mountain on the east-central front Friday, 12 hours after the South Koreans had seized it.

About 450 Communists swept over the crest of the 1,600-foot mountain, drove the South Koreans down the steep southern slopes and held control of the entire mountain, which commands a network of roads supplying the Allied front.

South Koreans who had fought to the summit earlier in the day had found the bodies of three Chinese lashed together with wire. Apparently the Chinese had vowed not to fall back, or had been tied together to keep them from retreating.

The South Koreans were consolidating their hard-won positions when the Communists opened up with a terrific barrage.

The retreat from Lookout Mountain Friday was a bitter one for the South Koreans, who have fought up and down its slopes for a week.

Fighting elsewhere across the rain-soaked front was light.

Heavy overcast held down all but a few bombers which made radar-aided strikes.

## Indian Woman, Girl Charged With Aiding Bank Bandit's Escape

OKLAHOMA CITY.—(AP)—The mother and Klondike Indian girl friend of a former convict charged by the FBI with the \$7,748 robbery of the First State Bank of Anadarko were accused Thursday of helping him elude an elaborate police net.

Charges were filed in Federal Court accusing Mrs. Hazel Stephens, 43, and Nora Elizabeth Conner, 20, of assisting June Stephens escape after the robbery.

The FBI said the three are believed traveling together with Miss Conner's month-old baby.

## Lions Officials Plan Trip To Convention

Two members of the Midland Lions Club, and their families, will leave this weekend for Chicago, Ill., where they will attend the annual convention of Lions International, scheduled there July 7-11.

Mr. and Mrs. Duke Jimerson will leave by train Sunday for the convention city, while Mr. and Mrs. C. E. Nelson and family will drive to Chicago.

Jimerson is president of the Midland Lions Club and Nelson is secretary-treasurer.

## Midland Tot Suffers Burns From Grease

Jimmy Lee Shaw, two-and-half-year-old Midland negro and son of Mabel McGowan, 902 Houston Street, suffered first and second degree burns on his chest and arms at about 10:30 a.m. Friday when he was struck by boiling grease at his home.

Attending physicians at Western Clinic-Hospital, where the lad is hospitalized, termed his burns "not too serious."

Mr. and Mrs. J. J. Summy, 58, former Midlander found dead in his car April 1—apparently by his own hand—about nine miles southwest of Crane.

The autopsy, performed Thursday by a Fort Worth pathologist, revealed head injuries which could have caused death.

When Summy's body was discovered by Mrs. Irene Wimberly, secretary in Summy's Odessa office, a section of garden hose was connected to the exhaust pipe and inserted through a window.

Following several weeks of investigation by Crane officers Justice of the Peace Clarence Key, on April 27, returned an inquest verdict of suicide with death apparently caused by carbon monoxide fumes piped into the car.

The autopsy, asked by the dead man's widow, revealed, however, no carbon particles or ash of any other material in Summy's mouth or windpipe.

Summy's head injuries, as listed by the pathologist, were a basal skull fracture, a fracture in the roof of the mouth and a fracture of the left jaw. These produced a massive hemorrhage which in itself would rule out the chance of a man so injured moving himself or any object, the report concluded.

A definite finding on the cause of death, the pathologist explained, probably won't be determined for at least two weeks.

Mrs. Summy called for the autopsy because she said, "I never believed he died like this now."

Throughout the earlier investigation, he maintained that "I can't see how it can be anything but murder."

fresh, but clean wound on the dead man's chin had boosted Lear's suspicion of foul play.

Lear theorized that the gash had been made by a blow rather than a knife, and had been inflicted shortly before Summy's death. The lack of blood on Summy's clothes—plus the few drops in and near the car supported Lear's theory of foul play.

Finally, a \$30,000 to \$40,000 "mitigation" Summy's company ledger, was checked by auditors, but thus far no report on their findings has been released.

Summy, an Odessa and Port Worth drilling contractor, was a former division superintendent for Sinclair Oil and Gas Company in Midland, Troup and Fort Worth. He resigned as production superintendent of that company's southern division at Fort Worth to enter the drilling contracting business in 1949. He was with Sinclair 30 years.

Midlander's Mother, Grandmother Die

Mrs. J. B. Taylor, 68, of McGregor, and Mrs. B. G. Roach, 81, of Meridian, mother and grandmother, respectively, of L. W. (Bud) Taylor of Midland, died Thursday in Meridian, according to information received here.

Mrs. J. B. Taylor was at the bedside of her mother, Mrs. Roach, when she died suddenly of a heart seizure Thursday morning. Mrs. Roach died later in the day.

Double funeral services will be held at 3 p.m. Saturday in the First Methodist Church at McGregor, with the Rev. T. E. Blair, pastor, officiating. Interment will be in the McGregor cemetery.

Survivors of Mrs. Taylor, in addition to L. W. Taylor, include another son, B. R. Taylor of Odessa and Fort Davis, and a daughter, Mrs. A. C. Mize of Andrews.

L. W. Taylor and family left Thursday for McGregor after receiving word of his mother's death.

LOVE IS THE GREATER PART of valor, as home-ownership is the greater part of security. Start your security program by owning 3303 Cunningham Drive. Only 6 months old, it has 2 bedrooms, nice living room, and convenient kitchen. ONLY \$500 down (no closing costs), and make payments of \$53 monthly. Priced at a low \$6,950.

HOW MUCH MORE WONDERFUL when winter comes... because Midland will have TV, and in this home, you'll have a wood burning fireplace in the living room. Located in Grafaland, recently landscaped, this home has 2 bedrooms and a large paneled den, 2 tile baths, separate dining room, and attached garage. The stupendously attractive kitchen has an off-setting breakfast room (paneled), pantry, and washer connections. Huge closet space, lots of carpeting, and well designed tile floor. And nicely landscaped. Priced at \$21,900.

**MY RECIPE FOR HAPPINESS:** First you take a little dream, then you add some plans, materials, and a paved street. You let them simmer while you choose your colors. Then PRESTO! A BIG home!... with 3 bedrooms, tile bath, huge living room and dining area, wonderful kitchen, generous closets, and an attached carport with a separate utility room. We put in insulation so we take the padding out of the price which is only \$10,750. ONLY \$1656 down including closing costs. And imagine, your little dream has grown to almost 1100 sq. ft.!

**MOTHER WILL CAST BLESSINGS** to the architect of this brick home which spreads 80 feet across the front. Less than a yearling, it has 3 wonderful bedrooms, a private den, a bath, and a 3-car attached garage. Full living room, separate dining room, and landscaped kitchen. Central heating and air-conditioning. TOUCH-PLATE lighting with central controls, and the luxury of quiet carpeting throughout. Nicely landscaped, high tile fence, and philanthropic water well. Designed so that you don't have to go thru the living room when entering. \$28,500.

**FATHER WILL KICK HIMSELF** because he did not call sooner to see this larger-than-most homes. 3 nice-sized bedrooms, spacious living room with dining area, large kitchen with YOUNGTOWN cabinets and pantry, and tile bath. The attached garage with its storage room easily converts into a huge living space to equal eleven full closets! Oak floors, mahogany doors, and all in immaculate condition. You do not pay one cent (I would say "red" cent, but I'd be called a Communist) over \$1,700 down. No closing costs. Assume 4% loan. Priced at \$11,800.

**THE 3 MOST IMPORTANT THINGS** to remember when buying a home are: 1) Location, 2) Location, 3) Location. So, let's try Harvard Street. Designed with a comfort that is almost useful, this brick two-year-old has 2 bedrooms and den (paneled, with oak block floors), ceramic bath, spacious living room and dining room combo, and 3 carports attached. Central heating and air-conditioning, wood-burning fireplace, and softly carpeted. The 80 foot lot is nicely landscaped and fenced for privacy. If you insist upon living, make it a comfortable one in this home. Priced at \$18,900.

**I'LL BE FRANK,** and you put up the ERNEST money! Being un-corny, tho, here is magnificence at a miserly price. Constructed of Austin stone, this home has 3 bedrooms, 2 tile baths, we-are-entertaining-at-home type living room, and a pine paneled (hand waxed and rubbed) kitchen with a separate breakfast or dining room. Ideal traffic arrangement with clay tile on the hallway floor. Central heating, automatic features, and nicely carpeted. The twin carports are attached, and there is a 15 foot storage room. It's only 3 months old, yet it has large trees and grass. \$18,950.

**IF YOU ARE DOLLAR-CONSCIOUS** (and we all inevitably are), then remember this caution: Oil prices are up, steel is up, wages are scaling Mt. Everest, and building materials and costs have never been known to suffer any lull. Buy today so that you will not have to borrow tomorrow.

House Backs Ike, Approves Cut-Down Air Force Budget

WASHINGTON—(AP)—The House gave President Eisenhower's military budget a heavy vote of confidence Thursday, but upheld a billion dollar cut in his "minimum" request for new defense funds.

The House unanimously approved without change \$34,434,140,500 in new money for the fiscal year which began last Wednesday, after beating down an attempt to restore \$1,175,000,000 cut from funds for the Air Force.

The total is \$1,237,422,500 less than President Eisenhower requested, after slicing five billion dollars from former President Truman's recommendations.

The measure now goes to the Senate, where it is expected to face another fight over how much money the Air Force should get.

Leaders on both sides of the two-day House debate credited Eisenhower's personal prestige with the vote showing strong support for the President's 1955 goal of a 120-wing Air Force, rather than the 143 wings under Truman's program. A wing ranges from 30 to 75 planes.

President Sends Appeal

Final passage of the over-all defense bill came on a roll call vote of 386-0. But the crucial test over Air Force power was decided by a roll call vote of 231-161.

The President, in a last minute letter read to the House, put his military reputation behind the cut-down Air Force. He said proposals to appropriate more funds represented an attempt of "service partisans . . . to pile dollars upon unexpended dollars."

Representative Mahon (D-Texas) sponsored four amendments to restore \$1,175,000,000 out of five billion dollars slashed from the Air Force funds.

Gen. Hoyt Vandenberg, retired Air Force chief of staff, has told Congress this was a minimum amount to keep building toward a goal of 143 wings.

The amendments were supported by five Republicans and 156 Democrats, and opposed by 196 Republicans and 33 Democrats.

Mahon said "civilian production geniuses" in the Pentagon were cutting the Air Force without military advice.

Representative Schriver (R-Kan.), floor leader for the bill, argued that 120 "solid" wings were better than 143 "cardboard" wings. He said the cuts would not eliminate any combat aircraft.

The bill earmarks these amounts, with cuts added by the House Appropriations Committee:

Army—\$12,982,000,000. This boosts the Truman figures by almost 900 million dollars, but for the first time includes about two billion dollars

for Korean hostilities. Eisenhower recommendations were cut by 688 million dollars.

Navy—\$9,384,383,000, a cut of two billions below the Truman figures and 388 millions under the Eisenhower request.

Air Force—\$11,048,000,000, a reduction of \$5,030,000,000 from the Truman budget, 240 million dollars under the Eisenhower budget.

Office of the Secretary of Defense—\$1,019,500,000. This includes 500 million dollars to begin a campaign of stockpiling critical tools.

The House action also authorized Administration plans to cut military strength from the 1953 average of 3,550,382 to 3,258,087 by the middle of 1954.

A proposal by Representative Javits (R-NY) to restore 25 million dollars for Army research was defeated on a voice vote.

The House also turned down amendments to add \$1,837,000 to the Army Reserve program and \$2,670,000 to Navy Reservists.

Navy Patrol Plane With 12 Aboard Goes Down In Bering Sea

KODIAK, ALASKA—(AP)—A twin-engine Navy patrol seaplane with 12 men aboard went down Friday in the Bering Sea near Adak in the Aleutian Islands. Hours later, search planes sighted only an oil slick and floating debris.

A spokesman for the 17th Naval District said the plane's pilot radioed at 8:50 a.m. that one engine had failed and that he was attempting an open-sea landing in heavy fog and a 50-foot ceiling. The pilot gave his position as near Great Sitkin Island, about 20 miles northeast of Adak and 1,900 miles southwest of here.

Several hours later, a Coast Guard plane reported sighting a large oil slick and floating debris at approximately the position given. Other search planes continued to comb the area, without results.

The Navy said the plane, a Martin Mariner, was on routine patrol at the time it went down in the frigid sea midway between Alaska and Siberia.

WASHINGTON (AP)—Jack Porter, the Houston oil man who serves as Texas Republican National Committeeman, says the time has come for cleaning out the Democrats who are still hanging on the non-civil service federal jobs.

Here on a dual mission—druth relief and political patronage—Porter held an informal pow-wow with Texas newspaper correspondents in his Mayflower Hotel suite. At one point a reporter told him there was talk that Charles Herring, Austin lawyer serving as U. S. Attorney for the western district of Texas, wouldn't be disturbed because he was a close personal friend of Senator Lyndon Johnson—that President Eisenhower would protect Herring because of Johnson's support of some Administration Bills as Senate Democratic floor leader.

Shot back Porter without hesitation: "I don't even know the man—but he's a Democrat. I just think the Republicans ought to hold these jobs."

He was asked then whether there would be rewards for some of the old time Texas Republicans, those who had acknowledged GOP affiliation back through the New Deal and Fair Deal days. Two names specifically were mentioned: Ralph Currie, Dallas lawyer, and Heywood Hardy, who served as federal district attorney at Houston in the Coolidge Administration. Hardy for years has been in private law practice here with offices in the National Press Building.

Mitchell repeated his attacks on the Republicans and Republican Committeeman Jack Porter of Houston.

Porter called Mitchell's Texas tour a carpetbagger's junket. Mitchell asserted a carpetbagger was "a heck of an oath for a Republican to call a Democrat when everyone knows carpetbaggers were Republicans who came South."

Mitchell was to talk with former Vice President John Nance Garner in Uvalde Friday. An Odessa speech Saturday ends the tour.

Freed Prisoners Face Draft Into Army As ROK 'Citizens'

SEOUL—(AP)—Many of the 27,000 anti-Communist North Korea prisoners who escaped from Allied stockades gladly would return now if assured there would be no reprisals, an official source said Friday. Others reportedly would return to prison only on direct orders from President Syngman Rhee.

A spokesman who cannot be named said the prisoners who were promised food, clothing and help by the South Korean government are finding it hard to live and work in the wrecked South Korean economy.

South Korean officials have said freely that the UN Command never will get back the prisoners whose release has stymied an armistice in the Korean War.

And most officials agree that even prisoners who want to return would not do so unless assured by the South Korean government that no reprisals will be taken after their eventual legal release.

Made ROK Citizens

So far as is known, little or no employment has been given to North Koreans taking refuge in the cities. They seem to be awaiting transfer to an outlying district for work on farms or a call from the service.

All of the escaped prisoners have new identification cards, making it possible for them to show they are bonafide citizens of South Korea.

South Korean officials said after the mass break-outs June 18, 19 and 20 that volunteer North Koreans would be welcomed into the growing South Korean army.

Subject To Draft

Apparently, the South Korean Army will accept enlistments as soon as training facilities can accommodate new recruits. And since the prisoners now are citizens of South Korea, those who do not enlist will be subject to the draft.

No Korean official has taken the responsibility of predicting when most of the escaped prisoners will be inducted into the army.

"It all depends on when facilities will be available," one said. "Of course, this all is on a volunteer basis."

430-Mile Taxicab Journey Unites GI, British Fiancee

PITTSBURGH—(AP)—An Air Force sergeant and his English fiancee will be married Saturday in a story book ending to a series of mixups climaxed by a 430-mile taxicab ride from New York.

Set. John Sonovick, 23, of nearby Wall, and Joyce Day, also 23, can't be blamed if they breathe a sigh of relief after the ceremony. They've had their share of troubles getting together.

The trouble began a week ago. Joyce missed a plane in London that landed in New York Sunday. Sonovick was there. Joyce wasn't. She arrived Monday. Hailing a cab, she told the driver: "Wall, Pennsylvania."

"I thought it was just a hop, skip and jump," Joyce said. "The driver didn't say much. He just started to drive. He drove and drove."

Thirteen hours later, Joyce arrived at Wall. The driver wanted \$240 for the jaunt. Her prospective father-in-law, Michael Sonovick, gave him \$150.

A hasty phone call to New York brought the still-waiting Sergeant Sonovick hurrying home for a joyful reunion—finally—with the girl he first met in 1950 while serving in England.

Windmill Cop Tags Hedgehopper

NEW YORK—(AP)—When Joel Rabin landed his small plane at a Queens airport Thursday he was followed by a police helicopter.

Police Sgt. Kenneth Johnson got out of the 'copter and wrote out a summons for Rabin with the comment: "Flying too low."

Rabin, 23-year-old student, was talking in the air after a telephone complaint to police that a small plane was flying too low over Brooklyn.

Johnson said Rabin failed to heed his signal to increase altitude from 200 to a required 1,000 feet.

Diplomats Called To Settle Moroccan Air Base Wrangle

PARIS—(AP)—A bitter dispute between French colonial officials and U. S. Air Force officers supervising construction of five giant American bomber bases in Morocco reached Paris Friday for settlement by diplomatic negotiation.

Despite elements of good will on both sides, sharp conflicts between the French and the Americans have developed since the Paris government approved the establishment of the bases in its North African protectorate as a part of Western defense plans.

The Americans have accused the French of trying to seize control of financial operations in connection with the bases for their own profit. The French, in turn, have charged the Americans with pandering to the Moroccan radicals, thus complicating French efforts to maintain her hold on the troubled protectorate.

As a climax to one phase of the scuffle, the Americans have refused to pay further taxes on motor fuel used in the construction work.

In an attempt to reduce the frictions, the U. S. Embassy here is starting negotiations with the French government for a general agreement governing the stationing of American forces in Morocco. The talks are expected to occupy weeks.

The conflict developed when American officers sought to operate the bases with competitive bidding for supplies, truck and bus operations and no red tape.

French colonial businessmen in Morocco would have none of this. French officials, burdened with maintaining control in the restive protectorate, insisted on having the Paris government's mission intervene.

The Russian reaction was outlined in a Soviet News Agency Tass dispatch from Pyongyang, the capital of North Korea, published in all important Moscow newspapers. It declared the proposed agreement "has the purpose of preventing the quickest conclusion of an armistice and of giving the Syngman Rhee clique an opportunity to break off the agreement and begin war once again."

Porter Would Oust Demos From Most Federal Posts

WASHINGTON—(AP)—Jack Porter, the Houston oil man who serves as Texas Republican National Committeeman, says the time has come for cleaning out the Democrats who are still hanging on the non-civil service federal jobs.

Here on a dual mission—druth relief and political patronage—Porter held an informal pow-wow with Texas newspaper correspondents in his Mayflower Hotel suite. At one point a reporter told him there was talk that Charles Herring, Austin lawyer serving as U. S. Attorney for the western district of Texas, wouldn't be disturbed because he was a close personal friend of Senator Lyndon Johnson—that President Eisenhower would protect Herring because of Johnson's support of some Administration Bills as Senate Democratic floor leader.

Shot back Porter without hesitation: "I don't even know the man—but he's a Democrat. I just think the Republicans ought to hold these jobs."

He was asked then whether there would be rewards for some of the old time Texas Republicans, those who had acknowledged GOP affiliation back through the New Deal and Fair Deal days. Two names specifically were mentioned: Ralph Currie, Dallas lawyer, and Heywood Hardy, who served as federal district attorney at Houston in the Coolidge Administration. Hardy for years has been in private law practice here with offices in the National Press Building.

Mitchell repeated his attacks on the Republicans and Republican Committeeman Jack Porter of Houston.

Porter called Mitchell's Texas tour a carpetbagger's junket. Mitchell asserted a carpetbagger was "a heck of an oath for a Republican to call a Democrat when everyone knows carpetbaggers were Republicans who came South."

Mitchell was to talk with former Vice President John Nance Garner in Uvalde Friday. An Odessa speech Saturday ends the tour.

Convicts May Testify In Dallas Police Probe

DALLAS—(AP)—Three convicts may be brought before the grand jury next week to help a probe of the police department, Chief Carl Hanson says. The grand jury is checking reported thefts by police as well as burglary arrests.

Six officers have been suspended. One has been indicted for theft and another charged with two thefts.

Dallas Musician Reelected To Head Texas Labor Group

EL PASO—(AP)—William Harris of Dallas was elected president of the Texas Federation of Labor for the seventh time Thursday.

Harris won over H. S. Brown of San Antonio, 4,489 to 2,630. Corpus Christi was picked for the 1954 convention.

Of the more than 30 resolutions adopted, only one was argued heatedly. It concerned blanket support of the International Longshoremen's Association. Because of disclosures by the New York grand jury, the Texas group amended the resolution to support only the longshoremen in ports south of Wilmington, Del.

The American Federation of Labor group resolved to defend the Social Security Act and support an agricultural program that includes price supports, crop insurance and conservation.

Harris, a member of the Dallas City Council, is president of his musicians union.
