Stanolind Is To Drill Ellenburger Wildcat In NE Andrews Area

Stanolind Oil & Gas Company No. 1-BN University is to be a 14,000-foot Ellenburger wildcat in Northeast Andrews County.

Operations on the prospector are to start in the near future. It is 14 miles northeast of the town of Andrews and 660 feet from north and 1,980 feet from east lines of section 8, block 5, University survey.

It is three miles northwest of the Block 5 (Devonian) field.

On Drilling Block

The wildcat is on a drilling block of 2,589.2 acres which Stanolind acquired at the June 19 auction of University of Texas lands for a bonus of \$775,000.

When Stanolind acquired that block it assumed an obligation to drill a 12,750-foot wildcat to test the Devonian. The concern has elected to carry that project to 14,000 feet which will test through the Devonian and into the Ellenburger.

Grayburg Discovery In SE Andrews To Be Completed On Pump

Stanolind Oil & Gas Company and Anderson Prichard Oil Corporation appear to have a Grayburg-Permian discovery assured in Southeast Andrews County at their No. 1-AE Midland Farms.

This project is two and one-half miles north of the closest Grayburg production in the Midland Farms field and it is one and three-quarter miles southeast of the one-well line (Wolfcamp) field.

Stanolind and Anderson-Prichard No. 1-AE Midland Farms has swabbed 24 hours on perforated section at 4,795-4,830 feet, after that zone had been treated with 1,000 gallons of acid.

No Signs Of Water

Recovery during the 24 hours was 121 barrels of load oil, 326 barrels of new oil, 12 barrels of acid water and another 42 barrels of new oil. There were no signs of formation water.

A pump is to be installed and the discovery will be completed. It is 11.2 miles southeast of the town of Andrews and 668 feet from north and 660 feet from west lines of the southwest quarter of the northeast quarter of section 45, block 41, T-3-N, G&MB&A survey.

The wildcat drilled to a total depth of 12,995 feet in barren Ellenburger. That zone had a slight show of gas and a considerable amount of water.

It plugged back to 4,943 feet and perforated the 9 5/8 inch casing at 4,795-4,830 feet to test a slight show in the Grayburg.

That zone swabbed dry naturally. After the 1,000 gallon acid treatment the large amount of free oil developed. The completion is to follow.

Sutton Discovery Is Flowing To Test On Lower Pay Zone

Ashland Oil & Refining Company and Felmott Oil Corporation No. 1 Wallace estate, Southeast Sutton County discovered from two zones of the Strawn-Pennsylvanian lime continues to test to clean out and complete.

The project had flowed an average of 24 barrels of oil per hour for six hours from the lower pay section through perforations at 6,078-88 feet.

That flow was natural and it was through a 36/64th inch tubing choke. Flowing tubing pressure was 1,900 pounds. Casing pressure was 10 pounds.

Operators plan to continue flowing from the 6,078-88 foot section for two to three days longer. Then a packer was to be set above that zone and the upper perforations at 5,906-26 feet is to be tested.

Was In Error

Previous reports that the project had flowed at the rate of 26 barrels of oil per hour from both sets of perforations were in error. The wildcat has not been flowed from both sets of perforations at the same time and operator representatives say they had no intention of doing such.

This new field opener is 17 miles southeast of Sonora and 660 feet from north and 1,980 feet from east lines of section 67, block 14, TW&NG survey.

The rotary rig which drilled No. 1 Wallace has been moved to a one location northwest offset. That

Ike Asks U. S. Debt Ceiling Hike

Reds Bring In Planes After Truce Deadline

MUNSAN — (P) — Allied radar tracked large numbers of Communist warplanes southward from Manchuria to North Korean bases after the cease-fire deadline Monday night, it was reported Thursday as the Reds complained of two more minor UN truce violations.

U. S. Air Force officers said the Red planes—presumably MIG jets—were spotted by a big Allied radar station on Cho Island, deep behind Communist lines off North Korea. The story was delayed 24 hours by censors.

An officer said the Communist planes began taking off at dark,

apparently from Manchurian bases safe from Allied attack, and still were landing at North Korean fields after the 10 p.m. deadline when all arms and armaments shipments into Korea were to have stopped. The UN filed no formal complaint on the violation.

Allied planes have bombed North Korean air bases continually, but an Air Force officer said "apparently we didn't leave the fields non-operational."

Meanwhile, the joint Military Armistice Commission picked Saturday as the tentative date for the first face-to-face meeting of Swed-

ish, Swiss, Polish and Czech officers who will police the flow of men and arms into and out of Korea.

Red Cross workers from six nations convened at Panmunjom to chart the role they will play in helping repatriate almost 90,000 prisoners of war starting Wednesday.

Staff officers handling the prisoner exchange met in Panmunjom to put finishing touches on plans for the huge operation as the first group of Communist prisoners landed at Inchon enroute to camps where they will await exchange.

Maj. Gen. Blackshear M. Bryan, head of the five-man UN team on the joint Military Armistice Commission, said Thursday's meeting "went very well—quite smoothly."

Charges Investigated

But the Reds accused the Allies of two more truce violations. Both involved UN aircraft which allegedly circled over the demilitarized zone.

A UN spokesman said Bryan "noted the allegations and will deal with them the same way as he did the allegations made yesterday. We will announce the results of our investigations later."

Wednesday the Reds accused the UN of eight minor violations of the three-day-old armistice. Bryan called the Communist charges unsubstantiated and asked for further information.

Britons Rap Dulles Red China Policies

LONDON — (P) — Acting Foreign Secretary Lord Salisbury said Thursday Britain believes Communist China should receive United Nations membership "when the time is right."

He added that it would be "improper and impossible" for him to say now, three days after the armistice in Korea, that the time had arrived.

Salisbury spoke in the House of Lords.

Russia, and maybe India, are expected to urge the setting of Red China when the General Assembly convenes in New York August 17.

Seating Red China would mean tossing out the Chinese Nationalist government, recognized by the United States. Britain recognizes Communist China.

Secretary of State John Foster Dulles said Tuesday the United States will not buy Korean unity at the price of Red China membership in the UN. He added that America has the right to veto a move to seat the Chinese Communists.

count the views of U. S. Allies. Clement Attlee, leader of the British Labor Party, said it was peculiar that a "unilateral declaration of policy" should come from Washington.

The acting prime minister, Richard Butler, said Britain believes Russia as well as Communist China should be represented at peace talks on Korea. He told Commons the problem of Chinese representation in the United Nations could only be decided by the UN itself and added:

"Our conception of the UN is that of a family of nations and not an anti-Communist alliance."

British businessmen are eager to extend their trading with China, and it has been British policy for years that a Korean armistice should pave the way for consideration of Red China's seating in the UN.

Pipe Line Blast Kills Latex Man

TIMPSON — (P) — A United Gas Company pipe line blew up about six miles north of here Thursday, killing a man and injuring four.

Leon Farron of Latex was the victim.

Three of the injured were reported seriously hurt. Their names were not available.

The explosion occurred about 8 a.m.

Loss Reported Light In Church Flames

Slight damage resulted Thursday in a fire at the new Church of Christ building, Jackson and Fort Worth Streets.

Flames occurred as workmen installed the central heating unit.

Board Warns Area Expectant Fathers Of New Draft Rule

Men expecting to become fathers soon must notify the Midland County Selective Service Board before August 25 to obtain a deferment or face induction into the Army.

Present draft laws regarding deferments for fathers or expectant fathers will be changed after August 25, and men of draft age becoming fathers thereafter no longer will receive deferments. Mrs. Nell Roberts, clerk of the board, said Thursday.

Expectant fathers must present a doctor's statement giving the approximate time of the baby's arrival. Mrs. Roberts said. A birth certificate must be submitted within a reasonable time.

Men who neglect to notify the board automatically will be classified 1-A on August 25. Deferment will continue for all fathers already deferred as fathers.

"This change in regulations is authorized by the recent executive order of President Eisenhower on the subject. Brig. Gen. Paul L. Wakefield, state Selective Service director, said.

Former Midlanders' Conditions 'Critical' After Traffic Crash

Two Western Company acidizer helpers, both formerly stationed in Midland, Thursday following a truck collision Wednesday one mile west of Ballinger on U. S. Highway 67.

Full extent of the injuries suffered by Bill Havenstrite and Don Beauchamp, transferred last week to the Ballinger station, had not been determined Thursday morning at the Ballinger Clinic-Hospital. Attending physicians, however, termed their conditions "critical."

Dr. June Melton of Midland, Western company surgeon, was flown to Ballinger Thursday morning in a company plane. He was to consult with Ballinger physicians about head injuries the two field workers were believed to have suffered.

The men were passengers in a car driven by Ivan O. Bevel, who also was moved from Midland, which collided with a dump truck driven by Daniel J. Bradley of Ballinger.

Neither Bevel nor Bradley was injured.

The three Western Company workers, State Patrolman Joe Perry said, were going fishing when the accident occurred.

A Newby-Davis Funeral Home ambulance took the injured men to the Ballinger hospital.

FBI Agents Seize Six Red Suspects

PHILADELPHIA — (P) — Six shabby dressed, tight-lipped men were scooped up in an FBI dragnet early Thursday on charges they conspired "to overthrow the United States government by force and violence."

FBI agents swooped down on the homes of four and the Summer cottage of another. The sixth was nabbed as he emerged from a Communist cell meeting.

Hours later, the six by then sleep-eyed men were held in a total of \$175,000 bail and led away to jail cells, manacled two by two.

Bail was set at dawn in the Federal Building office of U. S. Commissioner Henry P. Carr.

David Dubensky, also known as David Davis, 46; Sherman Labovitz, 29; Walker Lowenfels, 56; Thomas Hebrild, 51, and Benjamin Weiss, 39, all of Philadelphia.

Kuzma was described by the FBI as "associated with the Communist Party since the middle 1930's." Labovitz as "a onetime Communist Party organizer." Lowenfels as "Communist Party candidate for Pennsylvania representative in 1940 and former managing editor of the Pennsylvania edition of The Worker." Nabbed as "organizer of the Communist Party in Eastern Pennsylvania and Delaware for a number of years" and Dubensky-Davis as "onetime member of the National Committee of the Communist Party."

From the hearing, the six were taken to Philadelphia's Moyamensing Prison to await bail or the further hearing.

★ LATE NEWS FLASHES ★

WASHINGTON — (P) — The Senate voted Thursday to earmark 200 million dollars for relief and rehabilitation of Korea. The money would come from military funds appropriated by Congress.

HEATH, MASS. — (P) — Supreme Court Justice Felix Frankfurter, 71, now on vacation here, Thursday brushed aside queries on a California report about the possibility of his resignation so California's Gov. Earl Warren could be named to the court.

O'NEILL, NEB. — (P) — Six persons were killed Thursday in the crash of an Air Force helicopter near the site of an Air Force wind research project.

Board Warns Area Expectant Fathers Of New Draft Rule

Men expecting to become fathers soon must notify the Midland County Selective Service Board before August 25 to obtain a deferment or face induction into the Army.

Present draft laws regarding deferments for fathers or expectant fathers will be changed after August 25, and men of draft age becoming fathers thereafter no longer will receive deferments. Mrs. Nell Roberts, clerk of the board, said Thursday.

SCOUTS RETURN — Twenty-seven Midland Boy Scouts returned Wednesday afternoon from the International Jamboree in California. Here Mrs. H. Glenn Walker greets her son, Jonathan, and Dr. Walker, train physician. Eddie Gilbeau of Odessa, one of the Scout leaders, stands on steps.

Dairy-Health Unit Milk Feud Flares

A long-simmering feud between area milk producers and a City-County Health Unit inspector—accused of enforcing health regulations in "spite and might"—broke into the open here Thursday.

The feud was brought to light in a meeting of Midland County commissioners with Dr. C. A. Pigford, director of the health unit.

The meeting Thursday came after a delegation of dairymen from Midland, Howard and Mitchell Counties met with the commissioners to protest the "dictatorial methods" of Milk Sanitarian R. E. Braze.

"These people," said County Judge Clifford C. Keith, "are perturbed by the methods used by the inspector in inspecting their milk and milk-producing facilities."

"They have accused him of using very dictatorial methods. They claim he doesn't come into their places offering help but comes in with his rule book before him and, if they don't come up to every rule, he cracks the whip."

Judge Keith said the delegation included two dairymen from Midland County, two from Mitchell County and eight from Howard County.

In answer to the accusation, Dr.

Solons Start Putting Aside Plans To Quit

WASHINGTON — (P) — President Eisenhower Thursday recommended an increase in the \$275,000,000 federal debt limit. Signs were that leaders in Congress were putting aside plans for adjournment this weekend and making ready to tackle the issue.

The whole matter still was up in the air.

At the Capitol, there were huddles. House leaders indicated willingness to take up the matter, figuring it would mean no more than a week's delay in adjournment of Congress.

Senate Vote Heralds New Aid Wrangle

WASHINGTON — (P) — The Senate Thursday voted \$6,745,318,202 in foreign aid funds to climax a 15 1/2-hour, oratory-packed session in which all efforts to slash the total were rejected. But the bill faced a new fight with the House.

Senate representatives must work out a compromise settlement with those of the House, which pruned more than a billion dollars from President Eisenhower's request for funds to help the free world combat communism.

A Senate-House conference committee will be named Thursday to seek a compromise.

By a thumping 66-10 margin, after beating off six attempts to cut it down, the Senate stamped approval on a big money bill containing some \$548,000,000 more than voted by the House.

If the Senate-House compromise follows the pattern recently set in the rush to adjourn by this weekend, the final total probably will be \$6,500,000,000—including about \$4,500,000,000 in new funds for the year which began July 1, and \$2,000,000,000 in unpledged money from previous appropriations.

On final Senate passage, 37 Democrats outnumbered 31 Republicans who shouted approval along with the lone independent, Morse of Oregon.

Hot, Dry Weather Prolongs Stay Here

A trace of rain at Wink was the only moisture reported in the state Thursday but the Midland area continued hot and dry as the long, devastating drought stretched into another day.

Thursday afternoon and evening was expected to remain cloudy being broken occasionally by a 15-mile-an-hour southerly wind.

The maximum temperature Wednesday was 95 degrees. A modicum of rain whisked across northern Midland.

Pigford asserted there had been strict enforcement of health regulations during the last year.

"This milkshed here in Midland," he said, "for years has had the lowest record in the state."

"We have had watered milk on numerous occasions. In some cases, the milk even has been poisoned when producers have put in chlorine powder in sufficient amounts to cause dangerous reactions."

"There's a group of dairymen in Big Spring who don't want to produce good milk. They try to cut every corner possible. They are not interested in producing good milk."

Judge Keith related many of the protests voiced by the dairymen's delegation.

"They said that when they were placed under two weeks' suspension, sometimes it might be 33 days before the inspector would come around to okay them again," said Judge Keith.

"They said the former inspector (Continued on Page 10)

Co-Pilot Of Missing Bomber Is Rescued

TOKYO — (P) — The Far East Air Force said Thursday the co-pilot of a missing B-50 bomber was rescued by a Navy ship from the sea 40 miles off the coast of Russian Siberia.

The Air Force said no other survivors had been sighted. A B-50 normally carries a crew of 10.

The Air Force said a giant air and surface search still is under way and there may be other survivors.

Details of the crash were not announced.

American Sergeant Last Allied Casualty

SEOUL — (P) — An American sergeant was the last Allied soldier killed in the Korean War, the Eighth Army said Thursday.

He died in a Communist mortar shell blast on the eastern front at 8:40 p.m. Monday. Eighty minutes later the guns stopped firing.

The name was withheld.

Martin Quits Midland School System For Monahans Position

Wesley N. Martin, special services director for Midland Public Schools since June, 1951, has resigned his position here to start duty August 1 as superintendent of Monahans schools.

Martin's election was announced Wednesday night at a meeting of the Monahans-Wickett School Board, which also named Joe England, assistant football coach at Monahans High School, new head coach and athletic director.

Martin came to Midland in August, 1946, as principal of West Elementary School and, after three years in that post, was named principal of Cowden Junior High School, serving there two years.

In June, 1951, he was named to the newly created position of director of special services, serving as an active assistant to the superintendent.

"My family and I find it hard to leave Midland," Martin said Thursday. "Our seven years in the city have brought so many friendships. Midland has afforded an opportunity to grow in our profession. People here have been wonderful to us."

Wesley N. Martin

At the same time, Martin is looking forward to life in Monahans. "I know we will enjoy living in Monahans," he said, "and I'm looking forward with genuine pleasure to many fine associations and experiences in our new home."

Martin pointed out that his association with the Midland public schools has been a wonderful experience, citing the outstanding leadership in the system here.

Martin replaces R. D. Lee, who resigned last June at the request of the Monahans-Wickett Board. The new head coach succeeds F. O. Scroggins, who also quit his post after months of discussion with the board.

Score spot in the Scroggins case was the difference in view of the present school board and the board which held office before the April election.

The outgoing board last March offered Scroggins a three-year contract giving no salary stipulation. After the new board was named, a one-year contract was offered, but Scroggins vetoed it. Later, the board presented a three-year contract with salary terms that the Gilmer Alkin minimum—about \$3,000 less than Scroggins had been getting. The coach said he would accept it, but never signed the pact.

Lee's resignation came under

Midlander Studies At Music Center

LENOX, MASS. — George Osborn of 208 East Pecan Street, Midland, Texas, is among 400 students from 41 states and 11 foreign countries who are today attending the Berkshire Festival Music Center at Tanglewood, Lenox, Mass. The Summer music school, in its eleventh annual session, will continue through August 18.

The student body includes advanced music students, teachers and professional musicians as well as amateur music lovers spending their vacations in a musical rustic retreat.

Ranging in age from 17 to 65, most of the students live at the Lenox Preparatory School and Westleigh, a nearby estate. A lake which borders along the edge of the musical retreat provides swimming and boating recreation between music sessions.

Established by the Boston Symphony Orchestra, the Music Center offers studies in orchestra playing, conducting, chamber music and opera under a distinguished faculty headed by Charles Munch, director of the Boston Symphony and including Aaron Copland, Leonard Bernstein, Boris Goldovsky and other noted musicians.

Grandmother Traps Telephone Romeo

LUFKIN.—A Lufkin youth of 17 with a pastime of telephoning widows and old maids and asking for dates found it costly.

He pleaded guilty Wednesday to 24 counts of disturbing the peace and of using abusive and vulgar language on the telephone.

It cost him \$2,712—\$118 on each count.

If he can't pay, he has to work it out at \$3 a day in jail until 904 days have passed.

Police caught him Tuesday night when he made a date with a 57-year-old grandmother who called police. Detectives kept the rendezvous.

Stuck-Up Patient

KNOXVILLE, TENN.—George W. Romines, 67, was sort of stuck up when he arrived at a hospital here. He had reached for a medicine bottle and got glue instead.

Research To Evaluate GG Effect On Polio's Severity

WASHINGTON.—The Public Health Service announced Thursday the launching of "a nationwide cooperative research effort to evaluate the use of gamma globulin against poliomyelitis."

But the health service officials said in an interview the studies are expected to show only to what extent gamma globulin can reduce the severity of paralysis in persons who have been inoculated with the material but still come down with polio.

10 Missing As Navy Plane Dives Into Sea

MANILA.—A U. S. amphibious plane with 15 aboard crashed at sea off Luzon Island Thursday. Five survivors were rescued, the Navy said.

Planes and ships searched the area 60 miles off the west coast. The plane was based at Sangley Point Naval Station on Cavite Island.

Two survivors were reported injured seriously. All were suffering from shock and exposure.

They were picked up by a U. S. Coast Guard plane from Sangley. The plane crashlanded shortly after radiating at 4:28 a.m. it was returning to base. The Navy said it sent no distress call.

Safer Bomb Bay Door Announced

BALTIMORE.—The Glenn L. Martin Company has announced development of a revolving bomb bay door designed to make it safer and safer for a bomber to get rid of its explosives.

Bombs are loaded onto the door before it is hoisted into the plane. Over target, the door is flipped over a full 180 degrees, the bombs are dropped and the door flipped back again.

Result: No open bomb bay doors to cut down the plane's speed.

The door is being used in the company's new XB-51 three-jet tactical bomber.

Argentina's Peron Lauds Eisenhower

BUENOS AIRES, ARGENTINA.—An editorial in the newspaper Democracia signed by "Descartes" Thursday hailed a "new era of friendship" between Argentina and the United States as a result of the visit of Dr. Milton Eisenhower, brother of the U. S. President.

"Descartes" is a pen name used by President Juan Peron.

The editorial said President Eisenhower had "neutralized the errors" of his predecessors and concluded, "Thank God, the United States has a President."

Nimitz Daughter Will Enter Convent

BERKELEY, CALIF.—Mary Manson Nimitz, 21, daughter of Fleet Admiral and Mrs. Chester W. Nimitz (ret.), will enter the Dominican convent at San Rafael Saturday with the intention of becoming a Catholic nun.

Her family is protestant.

HOLLYWOOD TODAY!

MOVIES - TV - RADIO
by Erskine Johnson

Guys and Dolls: Robert Cummings is looking for a new sponsor for his TV show, "My Hero," but after a whole season on the air he's convinced that television has helped his movie career more than anything else.

He has the kind of comedy role he's been waiting for opposite Marie Wilson in "Marry Me Again" and he says:

"When I started doing 'My Hero' people said it would be the end of me; that I'd be blackballed by the film studios; that I'd never work in movies again.

"I figured it was a free country and that I'd try TV anyhow. After a year of it, my stock's way up and I can pick my pictures. The best thing of all is that none of the studios is asking me to repeat my Beansblossom part."

Male fashion note: Errol Flynn is relaunching the turtle-neck sweater, pin-striped VERTICALLY.

Busty blonde Cleo Moore is going to be far happier about her acting career if pictures like "The Moon Is Blue" bring about changes in movie censorship.

Like Jane Russell, Cleo has problems.

"The censors give me a terrible time," she told me on the set of "Bait."

"If a girl in Hollywood is busy the censors want you to cover up and minimize. But if a girl is flat-chested, the censors will let her wear falsies that stick way out. Can you explain that? I can't."

Fernando Lamas is hoping the public gradually will forget that MOM first beat the drums for him as a young Esio Pinza.

His new adjusted contract with the studio carries with it an understanding that he can swash-buckle to his heart's content on the screen instead of singing as he

Million-Plus Quakes Shake Earth Annually

DENVER.—There are more than one million earthquakes a year, the Rev. James B. MacElwane, president of the Jesuit Seismological Association, said Wednesday night. The association is meeting in Denver.

"But if isn't as bad as it sounds," he added hastily. "Only a fraction of these quakes can be felt without using instruments such as the seismograph and very seldom do they cause any damage."

GM Net Sales Pass Five-Billion Mark

NEW YORK.—General Motors Corporation had net sales of almost \$5,500,000,000 in the first six months of this year, according to the quarterly report to 491,000 stockholders.

First half net income was \$312,845,787, amounting to 3.8 per cent of the sales of \$5,440,545,856.

QUERNS QUARTO WRITES RECORD

LOCKPORT, N. Y. — Mr. and Mrs. Wesley Querns have set an Air Force record: Four of their sons won commissions as fighter pilots.

Lt. Paul E. Querns received his wings this month. Capt. James Querns and First Lt. Robert Querns are veterans of World War II. Second Lt. William B. Querns was killed when his plane crashed in 1949.

Maj. Gen. Robert E. L. Easton, director of the Pentagon's legislative division, confirmed the quartet was an all-time record.

Scout Board Okays Budget

The Executive Board of the Midland Girl Scout Association approved the budget for 1954 Monday at a called meeting in the Girl Scout Little House.

The budget, which will be submitted to the Community Chest next week for final approval, showed an increase over last year because of the necessity for hiring a secretary to handle part of the responsibilities of the executive director and the Girl Scout Office.

The board recommended that the executive director spend more time next year in the training of Girl Scout leaders and troop committees and in meeting with the troops, leaving the scheduling of troop meetings, mimeographing and letter writing to a full-time secretary.

Plans also were discussed for Camp G Bar S, the 1953 Girl Scout day camp. It will be held August 24-29 in Hogan Park, a newly designated primitive camping area in the northeast corner of the park. Buses for the campers leave the Little House at 8 a. m., and return at 1:30 p. m.

Day camp director will be Mrs. Deryl Bishop, field director of the Midland Girl Scout program. The theme will be "Know Your Own Community." In preparation for the camp a rally and registration day will be held beginning at 9:30 a. m. August 20 in the Little House.

Announcement also was made at the meeting of a training course for leaders to be conducted by Mrs. Bishop August 17, 19 and 21. Those completing the course will be qualified to serve at the Day Camp, Mrs. J. J. Black, association president, said. Volunteers to help with the camp are asked to call Mrs. Stanley Erskine at 2-4073.

The Day Camp for negro Girl Scouts will be held August 31 through September 7.

Advertisements Or Be Forgotten.

Presbyterian Groups Hold Joint Meeting

Mrs. J. S. Knauer presided when the Women of the Church of the First Presbyterian Church held a joint meeting with the men of the church Tuesday evening in the church Fellowship Hall.

Mrs. Ray Lynch gave the devotional and the closing prayer.

The program, which was presented by the women, was on "My Church—And This Nation Under God."

Mrs. John B. Richards used as her topic, "Education." She spoke on the history of education dating back to the Dark Ages and its connection with the church. She pointed out that the churches in America established the first institutions of higher learning.

"Community Life" was the subject Mrs. A. P. Shrey presented in outlining the facilities for the youth of Midland. She also gave suggestions for the community's youth.

Mrs. L. M. McMath, president of the League of Women Voters, spoke on "The Christian's Responsibility as Regards to Citizenship." She said that good citizenship begins in the home.

After the program the men of the church served refreshments from a lace-laid table featuring a centerpiece of ivy.

Lloyd Innerarity poured the punch.

Judy Kay Jackson Is Birthday Honoree

Judy Kay Jackson, daughter of Mr. and Mrs. E. M. Jackson, 1505 South Loraine Street, was honored on her eleventh birthday Tuesday with a wicker roast in Cole Park.

Guests were Charlotte Jackson, sister of the honoree; Claudia St. John, Mary Goslin and Kay and Joy Henry.

Eastern Star Plans Activities

The Order of the Eastern Star planned future activities Tuesday at a meeting in the Masonic Hall.

Mrs. Clyde Hambleton, worthy matron, and M. V. Coleman, worthy patron, presided. Guests were Mrs. Jay Burrows, Jr. of the Perfection Chapter in Paola, Kan.; Mrs. C. C. Degraffenreid from the Melrose, N. M. chapter; Mrs. C. A. Ellison of Owatonna, Minn.; Mrs. George Burnham of Marble Falls, sister of Mrs. Hambleton, and Mrs. Stewart of Crowell.

It was announced the Day Study Group will hold a family picnic at 6:30 p. m. August 5 for Mrs. Tom Nipp, 2302 Brunson Street. Announcement also was made the Night Study Club will meet August 7 with Mrs. Pat Barber, 3002 North Big Spring Street.

Dale Carnegie Club Names President

The Dale Carnegie Club, Inc. named Francis Miller president at its Tuesday meeting in the Wilkinson-Foster Building.

Miller will replace Bryan Denison who is moving to Beirut, Lebanon. Denison was presented with a past president's pin and Mrs. Denison was given a copy of the book, "Remember These Things," by Paul Harvey.

Following the meeting a farewell party for the Denisons was held in the backyard of Frances Emmer's home at 3118 Thomas Street. Co-hostesses were Miss Emmer's sister, Edith, and Mrs. C. W. Emmer, Cecelia MacAroy was a guest.

Others present were Mrs. Verda Rogers, Mr. and Mrs. Happy Bond, Andy McConnell, Jr., Bob Steanson, Miller, Jack Moore, Mr. and Mrs. T. F. Lineberry, Marshall W. Wilburn, Hester Williams, Dr. Velma Scott and the honorees.

When you're lifting heavy pieces of furniture, always bend your knees a little. When you straighten them, this will help take some of the load from your back and shoulders.

Sherry Blackman Feted On Birthday

Mrs. W. S. Blackman was hostess Tuesday at a party honoring her daughter, Sherry, on her sixth birthday. The party was held in the Blackman home at 3220 Travis Street.

Guests were Linda Schwartz, Marlene Schwartz, Cathy Schwartz, Richard Shoemate, Ray Shoemate, Melody Coleman, Travis Beckham, Carla Sue Hill, Judy Evans, Martha Ann Hill, Pete Perciful, Denzel Perciful, Tricia Taylor, Nicky Bonds, Harley Bonds, Ann Bonds, Robbie Kelly and Roddie Kelly. Mrs. Blackman was assisted by her mother, Mrs. Willard Opp.

Circle Eight Holds Dance

Mr. and Mrs. Art West and Dr. and Mrs. Mervin Pich were the host couples when the Circle Eight Square Dance Club met Tuesday in the American Legion Hall.

Callers for the evening included Jack Hayslett, Mrs. Edwin Spenrath, Mrs. Macon Cecil, Warren Skaggs, Earl Reid, Macon Cecil, J. R. Smith, Lucian Panches, Hub Hagler, A. R. Brownlee, Steve Laminack, T. A. Cole, George Farris, Mrs. F. W. Manuel, Les Floyd and Mrs. W. E. Still.

Guests were Dr. Donald G. Gibbs, Mr. and Mrs. Edwin Spenrath, Mr. and Mrs. Bob Ballenger, Nina James, Mr. and Mrs. Jerry Monroe, Josephine Watson, Pauline Watson, Mr. and Mrs. Laminack, Mr. and Mrs. Brownlee, W. E. Davidson, Mary Alice Mitchell, Mr. and Mrs. W. J. Fields, Mr. and Mrs. Hayslett, Mr. and Mrs. Ken Boling.

Mr. and Mrs. Ballenger, Davidson and Miss Mitchell were introduced as new members.

Forty member couples attended in addition to those named above.

Manners MAKE FRIENDS

It may be easier to send out printed cards of acknowledgment to all those who send flowers to a funeral than for a member of the family to write each sender a note. But the printed card is not in good taste.

In matters of etiquette the easier way is not always the better way.

Read The Classifieds.

Mrs. Walker Is Guest Speaker

Mrs. Glenn Walker was the guest speaker when the First Baptist Women's Missionary Union met Tuesday in the church for the monthly business meeting and missionary program. She used as her subject, "Lifting Up the Leper."

Mrs. Walker also displayed curios which she and Dr. Walker brought from Africa where he had served as medical missionary.

Mrs. C. M. Dunagan gave the devotional. Mrs. R. L. Denton furnished the music and Mrs. Neal Marks sang "Open My Eyes" as a closing prayer.

Mrs. A. J. Tisdale was in charge of the program and Mrs. C. C. Mason presided at the business meeting which followed the program.

Forty-five members and their guests were present.

THE MIDLAND REPORTER-TELEGRAM, THURSDAY, JULY 30, 1953-3

Skirts To Be Short, Says Christian Dior

PARIS—(AP)—Christian Dior, who brought skirts down with the New Look, is out to shorten them again, this time almost to the knee.

The famed designer christened his new skirt length—16 to 17 inches from the floor—the "Live Line."

And he tried to make sure that not only will the wolf callers live up at the additional cheesecake. He decreed a whole new cut—more

bosom, different waistline, new skirt draping—to make obsolete last year's wardrobe. Obsolete, that is, if the "Live-Line" revolutionizes the fashion world as did the "New Look" he introduced in 1947.

It all looked like a deliberate test of strength in the middle of a quiet season. Other showings so far had unveiled few changes in length (12 or 13 inches from the floor) and general line. Apparently fewer than the usual numbers of American buyers were on hand.

Dior's assault may decide whether the ladies still look to Paris for the final word on what to wear.

For his new silhouette, he draped most waistlines loosely between the bottom of the bust and the top of the hip. Bosoms were exaggerated and two kinds of skirts prevailed—tight sheaths and inflated bells. The former he calls "Eiffel Tower," the latter "Cupola."

Then, for variety, he whipped up some cocktail dresses in direct contrast. They sported hourglass waistlines and skirts rounded like a ball. Again, though, the emphasis was on the bosom.

"Agile, dancing, full of life" were Dior's words for his new clothes.

Then, for variety, he whipped up some cocktail dresses in direct contrast. They sported hourglass waistlines and skirts rounded like a ball. Again, though, the emphasis was on the bosom.

Bring On The Steaks!

The battle of grits is on between certain newspapers of the Deep South and of the North.

And the word war is waxing almost as warm as is the weather in the Deep South.

It seems that a Northern editor made some derogatory remarks concerning the serving of grits for breakfast—an institution in the Old South.

That did it, and the war was on again, with other editors lining up on one side or the other.

But that isn't all some of the editors are carrying on over.

A new "short-cut mint julep" is the basis for another newspaper feud, with the Kentucky boys taking up arms (typewriters) in defense of the real mint julep.

Then there is the matter of dewberries versus raspberries—and another word battle is on.

A raspberry defender gains ground with this statement: "In a bowl, at table, the red raspberry is supreme, just as they are, just with sugar, or with sugar and cream thick enough to spoon on rather than to be poured."

Another editor frowns upon any modernization of the "good old American institution known as the ham sandwich."

Still another editor over in Shreveport, La., prefers French cooking, sometimes known as Creole or South Louisiana cooking, over any other type or style.

What has brought about all this controversy? Frankly, we don't know—but maybe it's the heat. It has been warm all over this Summer and perhaps it has affected the editorial writers of the newspapers engaged in the food and drink battle.

Now, ye editor doesn't know much about the culinary arts and he isn't too particular about his food—as long as there is plenty of it—but it seems that good, thick, West Texas steaks, cooked to perfection as only West Texans can prepare them, top the list in the good foods category.

Place such steaks in front of the warring editors and they immediately would forget all their troubles as they inhaled the savory aroma and enjoyed the exquisite taste and superb quality of this epicurean delight.

That does it! Bring on the West Texas steaks right now!

Exercise will kill germs, says a doctor. Your job is to get the little pests to take some.

There is less hitch-hiking, according to report. The girls, however, keep right on with finger waving.

Quiet people aren't the only ones who don't say much.

Dry cleaners have no trouble at all getting in on the gravy—and egg stains.

If dad uses slang he's setting a bad example—if he doesn't, his kids think he's old-fashioned.

Uncertain Landing

The Washington Merry-Go-Round

By Drew Pearson

(Copyright, 1953, By The Bell Syndicate, Inc.) Drew Pearson says: Hardest part of Korean problem is ahead; South Korea could go Communist through disillusionment; Reds still have big build-up behind the lines.

WASHINGTON — Administration leaders admit privately that in some respects the hardest part of the Korean program now lies ahead. To confer on some of these problems and prepare for the political talks, Gen. Mark Clark now has been ordered home.

Here are their three biggest headaches: 1. Preventing war from breaking out again. Obviously President Syngman Rhee will try to precipitate war again if the political talks drag. He virtually has said so.

Furthermore, the Communists have a powerful build-up right behind the truce lines. They kept on massing troops even during the negotiations, which is why not many American troops can be sent home. A lot of American families will be disappointed regarding this.

2. Reconstruction of Korea. Few war areas have ever been more shattered than South Korea. And almost no effort was made by the Army to rebuild during the war. Unless a reconstruction program is carried on wisely and quickly, the South Koreans might become so disillusioned they could go Communist. This three years of warfare and countless sacrifice would be in vain.

Superficial attempts at reconstruction have begun under UNKRA (U.N. Korean Reconstruction Administration) which is headed by Gen. John B. Coulter. But so far its personnel chiefly have ridden around in ritzy cars, haven't come to grips with long-range rebuilding. Creeping Communism.

One big problem sure to complicate the picture is whether or not we give Koreans what some administration leaders have called "creeping socialism" or what Senator Taft put across in the way of public housing. In brief, if we merely dole out funds which Koreans can rebuild haphazard shacks, they are sure to be compared with the big housing programs which the Communists have built in China.

Although built by the Reds, these housing projects are similar to those built by Mayor La Guardia in New York, Senator Burnet Maybank when he was mayor of Charleston, S. C., and which Senator Taft provided for in the housing act.

What South Korea needs is long-range planning, including water-power development, not a slapdash handout. Whether we like it or not, the Communists have made great changes in certain Asiatic areas, such as Mongolia, and our reconstruction efforts will have competition.

3. Revamping Korean politics. The trouble the U. S. A. had with sincere, cantankerous Syngman Rhee regarding a truce point up the trouble we also will have with him in the future. This is partly our fault. Long ago we should have

smeared by a McCarthyite attack from Westbrook Pegler. Pegler used the guilt-by-association technique of pointing out that A. Eisenhower occupied adjoining rooms to Arthur Goldschmidt in the Waldorf Tower in New York. The latter, a Republican, happens to have been a great Eisenhower booster. But Pegler jumped on him as too liberal, and he jumped on Arthur Eisenhower because they appeared to be friends.

Meanwhile Hank Greenspan, publisher of the Las Vegas Sun, has been the object of bitter attacks both by Pegler and McCarthy. Pegler has labeled Greenspan an ex-convict because he was convicted of sending military supplies into Israel during the Israeli-Arab war. He served no time in jail. But Greenspan in turn has accused McCarthy of certain behavior in a Wisconsin hotel regarding which the public has awaited McCarthy reply. He has offered none.

That's the background of brother Arthur's blast against Senator McCarthy. Note—Ike's mother, who was a great lady who raised seven sons, once was congratulated by Sam Goldwyn, the movie producer, about her son. He, of course, had in mind the general. Mrs. Eisenhower, who was a Jehovah's Witness and opposed to war, replied: "Which son?"

Treasury To Make Good Cash Burned To Thwart Chinese

MEMPHIS —(AP)—The Treasury Department is going to send a Memphis minister \$325 to compensate him for money he destroyed to keep it out of the hands of Chinese Reds.

The Rev. John McGehee, now pastor of Grace Gospel Church but formerly a missionary to China, was imprisoned by the Reds in 1951.

Anticipating the arrest, the clergyman and his wife clipped the serial numbers from their outlawed American currency and pasted them in a prayer book and a New Testament. Then they burned the greenbacks.

The non-denominational minister was released last September after spending a year in Chinese prisons. He came home carrying the New Testament. His wife brought the prayer book.

Q—Has a mountain higher than Mount Everest been discovered? A—An aviator claimed several years ago that he had crossed a mountain higher than Mount Everest while flying from the border of India to western China, but no confirmation of his claim has been made.

Q—In what year did the Wimbledon tennis tournaments begin? A—In 1877.

Q—In what state is a Fast Day observed as a legal holiday? A—New Hampshire is the only one. The date is fixed by proclamation of the governor and it is customary for him to set apart the fourth Thursday in April for this observance.

Q—When was Christianity accepted throughout Europe? A—About the year 1,100, all the nations of Europe had accepted Christianity.

Q—Who was the sculptor of the famed statue of Christ of the Andes? A—Mateo Alamo, Argentine sculptor.

I'll stay in jail forever rather than submit to something I consider unconstitutional. —Paul C. Fisher, Chicago businessman, refuses to let Federal examiners look at his books.

I'm riding on a cloud and I never want to come down. —Ben Hogan on his New York reception.

I think it's about time the Senate assumes some responsibility in this (McCarthy) matter. Senator Herbert H. Lehman.

I don't think it is such a big sacrifice. What I want more than anything else is security for my family. —Knox City, farm woman, mother of three, offers to sell an eye for \$10,000.

PETER EDSON'S Washington News Notebook

Propagandists And Red Purges—Capital Heat—Records Disposed Of—Groups Work Slowed

WASHINGTON (NRA)—Purges are happening behind the Iron Curtain faster than the Communist propagandists in the United States can keep up with them.

The Hungarian legislature here, for instance, publishes a bi-monthly magazine, "New Hungary." The June-July issue has a picture of Matyas Rakosi on the cover. The lead article tells all about the May 11 elections.

"The results," says the magazine, "showed the complete unity of the Hungarian working people rallying behind the Hungarian Working Peoples party and Matyas Rakosi, their beloved leader."

Only thing wrong with this, of course, was that on July 4 Rakosi and his cabinet were replaced, and policies repudiated.

Incidentally, the current gag being circulated in Hungary goes like this: "First Hungarian—Why is the sale of liquor prohibited during elections?"

Second Hungarian—So that no one should see two parties where there is only one.

It should be made clear this riddle was not printed in "New Hungary," cited above, but in "News from Behind the Iron Curtain."

Hearing Double. Capitol Hill visitors who walk into the office of Senator John J. Williams of Delaware had better know whom they're looking for. Senator Williams' administrative assistant is former Congressman George Williams of Delaware. The two Williamses aren't related.

Calendar Stopped. Department of Commerce has had to discontinue its calendar of special days, weeks and months. Reason—Congress refused to appropriate money for it. The Department resumed its publication after the war, as a help to businessmen in planning advertising and promotion for such things as Bird Day, I Am Weak, Cancer Control Month and all the others.

Book Burning U Like. In spite of all the talk about book burning, there's one destruction of government papers about which no one is complaining. This is General Services Administrator Edmund F. Mansure's campaign to get rid of the contents of some 15,000 government filing cabinets.

With the liquidation of Office of Price Stabilization and other emergency control agencies, GSA was given the job of disposing of their records. They left behind 30,000 filled filing cabinets. Congress gave GSA permission to destroy half of them. The job will be completed this Summer.

GSA estimates that every time it empties a filing cabinet, the government is saved \$50 by not having to buy a new file. The government bought 97,000 files in 1951, before the record-disposal program was begun. In 1952 it was only \$2,000. And this year only 8,000 new files will be needed.

Suffers In Heat. Roger Kyes, deputy secretary of Defense, says he isn't taking Washington's Summer heat too well. He says everything is fine as long as he's in the air-conditioned Pentagon, or in his air-conditioned apartment. But he doesn't particularly like the rides home in his official car. It's a 1947 Cad and doesn't have air conditioning.

Has Did It. During debate in Congress on the drought relief bill, Rep. Karl C. King (R-Pa) confessed that he used to live in the Southwest, but he was glad when he left and went to Pennsylvania.

To which Rep. Victor Wickersham (D-Okl) replied, "I should like to quote what a friend of mine said about another fellow who had left the Southwest and gone to live in Pennsylvania. . . . He said it improved the standing of both states." Sliced To A Wall.

While the Eisenhower Administration still is searching for some improvement on the rigid price support policy of the Democrats, "The Association for the Abolition of Farm Price Supports, Inc." has been having tough going. The organization was formed back in 1950, with George E. Bailey, Republican New York lawyer as its president.

Today Bailey reports his organization practically is inactive. . . . the basic and discouraging factor . . . was the lack of interest in the price-support problem. We were never able to achieve a membership of over 500 and the few hundred dollars we collected was able to sustain our paper only a few months."

Bailey has hopes, however, that "The coming scandals in butter and small grains may create an uproar rivaling the potato fiasco of several years ago."

Yes—Count Us Too. This story comes from a report of "News From Behind the Iron Curtain."

"Who was the first man?" a Polish teacher asked one of his students.

"Our beloved Stalin," said the student.

"No," the teacher corrected. "The first man was Adam."

"Oh, well, yes," the surprised student answered, "if you want to count the capitalists."

JACOBY ON BRIDGE

By OSWALD JACOBY. Written for NEA Service. The bidding of today's hand was very simple for players who use the point count. South showed a count of 18 or 21 points by opening the bidding with one of a suit and then jumping to two no-trump at his second turn. North had a count of 15 points, and knew that the combined count was 34 to 36 points. This was enough for a small slam, but not enough for a grand slam, so North wasted no time in bidding the slam.

You usually have an adequate play for a slam contract if you have a count of 33 points in the combined hands. This doesn't mean to say that you can always win 12 tricks with such a count. The cards may

first trick with dummy's ten of spades and immediately finessed the ten of diamonds. This finesse lost to West's jack, and now the slam was irrevocable. East still had a sure diamond trick, and South could not make his slam without the diamonds.

The point that South overlooked was that he was not in a grand slam contract. He didn't need all of the diamond tricks, only three of them. The slam was hopeless if West had three or more diamonds headed by the king and jack, but there was no reason to throw the slam away if West happened to have a singleton diamond.

The correct play is to take the ace of diamonds at the second trick. When the jack falls, declarer gets to dummy and leads another diamond towards his own hand. If East plays low, his best chance, South can win with the ten of diamonds. He can then get back to dummy to lead another diamond towards his own hand, thus assuring the contract.

Q-CARD Sense

Q—The bidding has been: North East South West. North 1 Diamond Pass. East 1 Heart 1 Spade Pass. South 2 No Trump. West 2 Clubs. What do you do?

A—Bid three clubs. With 15 points in high cards opposite an opening bid you are more than willing to demand a game contract. If your partner fails to bid three no-trump you will next show your support for diamonds.

First Paper Mill Built In Arizona

FLAGSTAFF, ARIZ. — (AP) — Arizona's first paper pulp mill is being set up here.

It will process about 35 tons of a crude type of paper, known as wet lamp mats, daily.

Jack pines from nearby forests will be used for the mill.

Beside the Laughing Water

A Romance by LOUIS ARTHUR CUNNINGHAM

THE STORY: Little Grease, teased at Edgemere school, had had a canoeing accident on "The Laughing Water," a stream near the school, and during it released his. While she is trying to get out of the water, she meets a boy named Lillith, who is a member of the school's swimming team. Lillith does not wish to tell them her name, but she is sure that they would distinguish them about Giles.

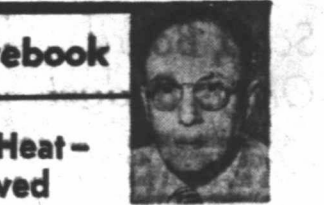

then, maybe you'll wish you'd let me drown— "You coming with us, Gavin? I came down to collect you for dinner. In all the excitement, I forgot what brought me. You come too, Lillith."

"I would like it, thank you so much. But I'm due back at the school, and I have to change my— "Well, it might have been my shroud, mightn't it?"

"Will you two blue-stockings come out of the water," pleaded Gavin. "And let's go. Yes, I'd love to have dinner with you, Avis. Sorry you can't come— Lillith."

"Won't Peg be thrilled to hear about this?" Avis's eyes shone as she mentally rehearsed the dramatic tale she was going to spin. "Lillith is one of her pet projects—for study and analysis. I think she started out with the idea of hating her teacher but there's been a subtle change."

LILLITH had marked it too. And it was one of the things that made her happy in this new school. She could not have stood antagonism, secret or open, from Giles Wayland's lovely daughter. She had noticed the slow, half-shy approach that Peg had made to her, the little tentative offers of friendship and loyalty. Avis had been fast through the driving rain-streaks and went into the school with Lillith to act as a sort of buffer. "You may be sure they'll know all about your experience. Grapevine isn't the word for it here. Radar-screen perhaps and some expressions of sympathy and gladness that Lillith had come out of it so well. LITTLE LIZ

called at dinner, and everyone seemed to feel some satisfaction that it had been cheated out of this one.

"I was watching it all through glasses down at Mrs. Raeburn's beach cottage," said Miss Tait. "It was most thrilling, my dear—the way Gavin Wayland swooped down on you in that sea sled. I've never seen anything like it. You won't forget your experience in a hurry," should say. We must have Rev. Mr. Carvill, the chaplain, give thanks during the Sunday service. And do be more careful after this—good teachers of English are so hard to find these days."

LITTLE LIZ had marked it too. And it was one of the things that made her happy in this new school. She could not have stood antagonism, secret or open, from Giles Wayland's lovely daughter. SOCIETY

THE MIDLAND REPORTER-TELEGRAM, THURSDAY, JULY 30, 1953-5

Barbecue Fetes Bride-Elect

Mrs. James D. Martin and daughter, Suzanne, and Mr. and Mrs. Leif Olson entertained Wednesday night with a barbecue honoring Patricia Ruckman and Robert Gale Jacobs, who are to be married Saturday.

The party was held in the backyard of Mrs. Martin's home at 1401 Princeton Street.

Miss Ruckman is the daughter of Mr. and Mrs. J. P. Ruckman, 1000 West Storey Street. Jacobs' parents are Mr. and Mrs. D. H. Jacobs of Denver, Colo. The couple will exchange vows at 5 p.m. Saturday in the Trinity Episcopal Church.

The meal was served buffet style from a table centered with an arrangement of pyramided apples topped with bride and bridegroom figurines.

Guests were Mr. and Mrs. John House, Mr. and Mrs. R. B. Hamm, Mr. and Mrs. Joe Keyser, Mr. and Mrs. Ed Kennedy, Ted Wemple, Mr. and Mrs. Jim Galloway, Mr. and Mrs. Jim McLaughlin of Odessa, Mr. and Mrs. Dean Baker, Shirley Lones, Mr. and Mrs. James N. Allison, Mr. and Mrs. Hugh Munn, Mr. and Mrs. Steve Hazlip.

Mr. and Mrs. H. E. Chiles, Pate Abbott, Gene Hays, Earl Perkins, Tommy Thompson, Mrs. Thompson, Mr. and Mrs. Henry Black, Mr. and Mrs. Neal Marks, Mr. and Mrs. Jack Hazlip, Mrs. Bob Franklin, Mrs. George Todd, Mr. and Mrs. J. P. Ruckman, Margaret Ruckman, Mrs. C. W. Ruckman of El Reno, Okla., and the honorees.

Group Holds Music Session

Music of well-known composers was featured Tuesday at the meeting of the Symphonic Listening Group of the American Association of University Women.

The group met in the home of Mr. and Mrs. John Norris.

Composers whose music was played were Schumann, Beethoven, Mozart, Gounod, Wagner, Strauss, Haydn, Bach and Boccherini.

Those attending were Dr. and Mrs. Brandon E. Res, Mr. and Mrs. Coty Davis, Edwin Hall, Mr. and Mrs. Robert Harris, Mr. and Mrs. Sam Giffin, Mrs. Charles Henderson and Mrs. William H. Carter.

Library Adds City Directories

The Midland office of the Southwestern Bell Telephone Company has presented the Midland County Public Library with several 1953 major city telephone directories. Mrs. Lucile Carroll, librarian, has announced.

The directories include Dallas, El Paso, Houston, Fort Worth, Lubbock, San Antonio, Oklahoma City, Okla., and Tulsa, Okla. They have been added to the library's reference collection.

Mrs. Carroll also announced that the library has several older directories for other major cities throughout the United States.

Dodson Circle Has Program

Mrs. Jerry Sides was in charge of the program, "Doctrine and Thought," when the Dodson Circle of the First Christian Church met Wednesday in the home of Mrs. Bob Bearden, 1307 West Holloway Street. Mrs. Sides also was co-hostess.

Mrs. E. D. Riddle led a discussion on "Frontiers of Doctrine and Thought" and Mrs. Clyde McHam led the devotional.

Mrs. Bernie Jennings, Mrs. A. C. Melton and Mrs. Pat Luck were introduced as new members. Present were Mrs. O. T. Adams, Mrs. G. W. Farris, Mrs. McHam, Mrs. J. D. Pierce, Mrs. Riddle, Mrs. H. D. Wienold, Mrs. C. J. Zabcik, Mrs. J. B. Harwell, Mrs. C. W. Hosmer, Mrs. Bob Ballenger, Mrs. Bearden and Mrs. C. A. Miller. Mrs. John Durrett, Dallas, was a guest.

Son Born In El Paso To Duffy Stanleys

Mr. and Mrs. Duffy Stanley, El Paso, are the parents of a son, Brock, born July 3 in the Southwestern General Hospital in El Paso.

The maternal grandparents are Mr. and Mrs. Alexander Muller, Santiago, Chile, and the paternal grandparents are Mr. and Mrs. Ben Stanley, 1507 West College Street.

The Duffy Stanleys also have two other children. They are Shelia, age three years, and Lars, age 16 months.

RETURN HOME
Mr. and Mrs. Miles Stanley and daughter, Marsha Lou, have returned to Houston after spending last weekend with his parents, Mr. and Mrs. Ben Stanley, 1507 West College Street.

RETURN OF THE WEARY—These weary Marines return from the front in Korea carrying equipment after completing demolition work in their section of the line. With the truce signing, both sides have demilitarized their positions to create a two and one-half-mile buffer zone separating UN and Red lines.

Continental To Inaugurate New Bus Service For City

Gifts from the mayors of Memphis, Tenn. and San Diego, Calif. to J. W. McMullen, mayor of Midland, will arrive on the first coaches to start a new Continental Trailways through bus service between Memphis and the West Coast, effective August 1. It has been announced by A. F. Baldus, vice president-traffic, Continental Trailways Bus System.

To dramatize the establishment of the new transportation link, Mayor John H. Butler of San Diego is presenting a gift of San Diego County avocados to the mayors of the 30 cities between the West Coast and Memphis.

Mayor Frank T. Tobey of Memphis is sending the mayor of the same cities a beautiful hardwood sandwich board supplied by the E. L. Bruce Company, world's largest hardwood manufacturers, as the typical product of his city.

Representatives of the Trailways company will be aboard the first buses from the Terminal cities to present the gifts to the mayors or their personal representatives.

R. C. Crabb, Jr., Continental Trailways agent for Midland, said the first bus from San Diego will arrive here at 12:17 a.m. Sunday with the

Russia Makes New Gesture To Austria

VIENNA, AUSTRIA —(AP)—The Soviets Thursday made their greatest concession yet to occupied Austria. They agreed to pay their own occupation costs—a step the United States took six years ago.

Announcement of the change—beginning August 1—was delivered to Austrian officials by A. M. Timoshchenko, counselor of the Soviet Embassy in Vienna.

Previously the Austrian government has paid the costs of Russia's 44,000 troops in Austria. Unless similar concessions are forthcoming from France and Britain, their occupying forces still will be paid for by the Austrians.

The latest Russian concession coincided with a Soviet note to Austria asking the government of the occupied country to drop its support of the Western-proposed "short draft" independence treaty.

An Austrian switch, said the Soviets, would permit the resumption of negotiations on the detailed "long draft," over which Russia and the Big Three Western Powers have been unable to agree for several years.

British Merchantman Boarded By 'Pirates'

HONG KONG —(AP)—The British merchantman Admiral Hardy wireless the Royal Navy here Wednesday she had been boarded by "pirates" off Foochow, China. There were no further details.

The 925-ton vessel left Hong Kong for Foochow July 23.

San Antonio Is Tops In Military Taboos

SAN ANTONIO —(AP)—Unsanitary conditions and vice have placed 53 establishments in this Army center off limits to service personnel. This places the city first in the list of such places in the five-state Fourth Army area.

Galveston had only nine places out of bounds for the military. Trinidad in the West Indies is about twice the size of Rhode Island.

Benson Says Fearmongers Prey On Farm Difficulties

MILWAUKEE —(AP)—Secretary of Agriculture Benson lashed out Thursday at "fearmongering" which he said some people are using in an attempt to discredit the Eisenhower Administration in the eyes of the farmers.

Benson said some "who stand to gain" have seized upon farm difficulties to instill unrest among farmers.

"It is said that the rug is being pulled out from under the farmers," Benson said. "It is said that we are scuttling farm programs. Of course, this is preposterous."

"These statements are made by those who stand to gain from such fearmongering, and from those who craftily and subtly people tell them. They do not come from responsible people."

Benson spoke to the American Poultry and Hatchery Association. Can't Satisfy Everybody

The GOP farm chief said farm aid measures available to the government may not satisfy everybody and may be inadequate in meeting long run objectives.

"Nevertheless, we shall use every appropriate means available in meeting the problems that beset agriculture," he added. "The record indicates that this has been done, and done in good faith."

Benson said the Administration has been confronted with two general types of farm problems: Those resulting from natural causes, and those that were man-made.

In the first class he listed difficulties resulting from droughts. In the second, he said, were problems of surpluses of some farm products coming from "mistakes made in former years."

"Temporarily Pleasant"

With an apparent reference to policies of his predecessor, Charles Brannan, the cabinet official said high acreage goals had been set and restraints on production had been

eliminated through the declaring of national emergencies.

"Such a policy," Benson said, "was temporarily pleasant for farmers, but it has left us with serious adjustment problems."

Benson said agriculture's difficulties are being overemphasized by

NUPTIAL TIME LIMIT EXPIRES

DETROIT —(AP)—Clarence E. Gray, 28, was arraigned on a charge of bigamy before a justice of the peace in suburban West Bloomfield Township Wednesday.

"Yes, he said, he had married his second wife without divorcing his first. But he pleaded innocent."

"I don't need a divorce," he said indignantly. "Look, it says right here on the marriage license, 'Void after two years.'"

Former Texan Found Strangled In Denver

DENVER —(AP)—A former Texas bookkeeper, Loren R. Angle, 45, strangled himself in a hotel room with two pieces of rope, William Hammond, coroner's investigator, reported Wednesday.

The body was found Tuesday night by Kunsaku Kanai, manager of the Holden Hotel, where Angle had been registered three days.

Hammond said no autopsy was planned. He reported there were no notes left in the room. He said he believed Angle was from Amarillo.

RETURN FROM VACATION

Mr. and Mrs. Charles N. Reeder and children, Lu' Ann and Gail, 507 North San Angelo Street, have returned from a vacation tour of Colorado.

some. He said the truth is that net farm income this year, in spite of severe drought, will be about \$13,300,000,000 which is greater, he said, than in 14 of the last 20 years. Agriculture, he said, is basically sound despite some trouble spots.

Business Profits Keep 17 Per Cent Ahead Of '52 Mark

NEW YORK —(AP)—Business profits as judged by 378 of the first corporations to report are 17 per cent ahead of last year.

Almost three out of every four corporations show a bigger profit. Only 98 firms this year are trailing. Five report a net loss. Last year eight did.

Many owe their gains to larger sales. A few report slightly lower sales this year and still have higher profits, due to pared costs.

The steel industry, 62 per cent ahead of a year ago, owes much of the bright comparison to capacity production this year as against strike-crippled output last Summer.

Oil companies who were struck for a time a year ago show better profits this year. Some oil companies who had no strikes last year are behind this year. Most oil corporations in both categories show better sales in 1953.

Other big gainers are aircraft makers, airlines, railroads, appliance makers and suppliers of the auto industry. The motor industry is 13 per cent further into the black than a year ago. Utilities are 15 per cent ahead of last year.

MIDLAND VISITORS
Paula Davenport and Marie Cox of Big Spring visited here Wednesday.

Friday & Saturday Only

Here they are—new and bigger reductions than ever before for our special End-Of-The-Month Clearance—two days only! Of course, many quantities are limited, better dress styles are one of a kind—but all groups are marked down to final clearance prices! Check these outstanding values now—then be here when the doors open at 9 a.m. Friday to assure your selection! Friday and Saturday only.

New Faces Take Over GOP In Dixieland To Force 'Stand-Patters' To Background

By DON WHITEHEAD

WASHINGTON — President Eisenhower's victory last November appears to have upset the old Republican "caretaker" system which did much to block the development of a two-party system in the South.

In past years, a small and frequently passive group held Republican control in Southern states, contenting themselves with keeping a skeleton organization in being while doing little if anything about building up a grass roots organization. They were the party caretakers between national conventions, and in many cases collaborated with the Democrats.

An Associated Press survey in 14 Southern and border states indicates a surge of Republican activity already has threatened the old system in several states.

It has reached the point where

some lifelong Democrats are calling themselves Republicans without shame. The world "Republican" no longer means political suicide in some Democratic strongholds.

Cracked, Not Shattered

However, the Democratic tradition cracked by Eisenhower hasn't been shattered, the survey shows. A long pull is ahead before there is a real two-party system in all the Southland.

South Carolina came close to giving Eisenhower a majority of votes last November. Gov. James F. Byrnes gave his support to a "South Carolinians for Eisenhower" movement. The losing margin was less than 16,000 votes out of 340,000.

The Republicans in South Carolina—even while fighting for party control among themselves—appear to be moving toward a reorganization aimed at winning new members and supporters from Democratic

ranks. And the Eisenhower Democrats are keeping their organization intact.

Should this "independent" group join forces with the Republicans, then the coalition would become a potent factor in the state's politics.

Louisiana was another state where Eisenhower missed narrowly. Adlai E. Stevenson's winning margin was only slightly more than 8,000 votes out of 651,900.

There in the Delta country, as in many parts of the South, the Republicans are hampered by lack of local machinery. Republican leader John Minor Wisdom has begun efforts to establish organizations at parish level. In the past, New Orleans had the only local GOP organization in the state.

Straws In The Wind

Gov. Robert Kennon, lifelong Democrat who supported Eisenhower, said he will remain a Democrat.

But there are straws in the political wind. The mayor and three councilmen in the little northeast farm town of Oak Grove—all Democrats—recently switched to Republican registration. They said they wanted to encourage a two-party system.

A leading Democrat remarked: "People aren't excited about it." Here in brief is the Republican picture in other Southern states:

ALABAMA

Republicans are planning a vigorous campaign for federal, state and county offices in the 1954 elections. The heavy Eisenhower vote last year gave the GOP the right to hold primaries in all congressional districts and in 55 of the 67 counties. State laws provide primaries for any party polling 20 per cent of the total vote in the preceding general election. The Republican vote was better than 30 per cent.

Tom Abernethy, Democratic par-

ty worker for years, is an avowed candidate for Republican nomination for the Senate seat now held by Democratic Senator John J. Sparkman.

ARKANSAS

Arkansas gave Eisenhower the largest vote ever received in the state by a Republican presidential candidate—but reports are "Arkansas still is a long way from a two-party state."

There is no indication the Democrats for Eisenhower are switching party allegiance. The GOP State Committee has held three meetings since November, but these dealt mainly with patronage matters and intraparty squabbles.

GEORGIA

Republicans plan to concentrate next year on local, county and district offices, with attention also on congressional races.

GOP National Committeeman W. R. Tucker of Dawsonville said his

party "will begin a real effort to build a two-party system not later than the next elections."

He was not too optimistic about victories at the state level. "I think build strength on the local level and grow up to that," he added.

MISSISSIPPI

AP Correspondent Keith Fuller writes: "The hard kernel of Democrats and Republicans that joined forces to guide President Eisenhower's campaign in Mississippi say their precinct, county and state organizations are still intact and growing. As it now functions, this coalition represents the Republican administration in Mississippi and the Republican party for all purposes is not functioning under its own name."

This group plans an active part in the 1954 congressional races although the candidates probably will run as Democrats who endorse the Eisenhower Administration.

Fuller says: "Apparently the plan is to attempt to develop a two-party system in Mississippi gradually without using the Republican label at first."

NORTH CAROLINA

Republican leaders are not optimistic about any immediate development of a two-party system to challenge the Democrats on all levels. But they hope at least to hold onto the ground gained last year when they elected a congressman from the 10th District, Rep. Charles R. Jonas of Lincolnton.

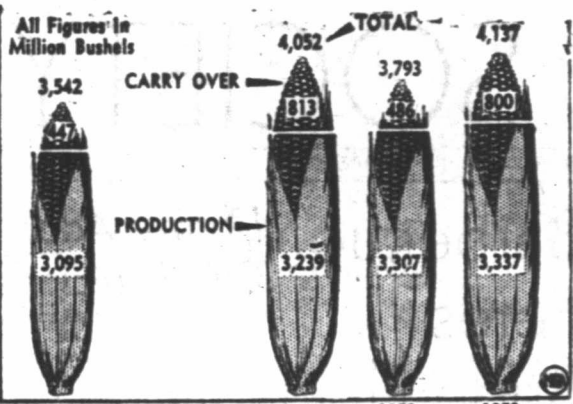

Here, again, is the old problem of developing an organization at the local level that can win support. Efforts are being made in this direction but only time will tell how effective they will be.

TO SAN ANTONIO

Frances Pollard left Wednesday for San Antonio for a two-week visit with her parents, Mr. and Mrs. J. N. Pollard and family.

IN NEW MEXICO

Mrs. B. C. Wiley and daughters, Jane, Marilyn and Betty, are vacationing this week in Ruidoso, N. M.

THERE'S CORN APLENTY—The Agriculture Department forecasts that 1953's 3,337 million-bushel crop plus an 800 million-bushel carry-over will make a total corn supply of 4,137 million bushels. This would exceed the previous record set in 1949 by 85 million bushels, and would be 595 million bushels higher than the 1946-1950 average. Above Newchart shows corn supply broken down for three different years along with the 1946-1950 average.

Non-Stop Ferry Ride Ends As O'Brien Yields To Police

HONG KONG — (P) — Michael Patrick O'Brien finally made it ashore.

After 10 months and 12 days, the 57-year-old man without a country Thursday left the six-foot brig of the Portuguese Macao-Hong Kong ferry Lee Hong. He'd traveled at least 12,500 miles—the equivalent of a trip halfway round the world—sailing between the two ports.

But the ex-bartender and marine engineer wasn't going anywhere, yet. Police took him in custody and refused to reveal their plans for him.

His friends said they were trying to get him cleared for an unnamed South American country, where his Russian wife and child are reported to have gone from Shanghai.

O'Brien boarded the Lee Hong in Macao Sept. 18, 1952, after leaving Red China. At Hong Kong, 40 miles away, authorities refused to accept his Red Cross travel papers and wouldn't let him disembark. Macao also said he was unwanted.

So he rode and rode.

He says he's an American. He claims he just didn't bother to get a passport when he went to China 25 years ago.

The U. S. State Department denies he's a citizen. And the Justice

Department has said he was deported by the United States as a result of assault, robbery and burglary convictions. The Justice Department said his true name is Steve Ragan.

Several Ragans in the United States claimed him for a brother, but nothing came of their actions.

AFTER 78,000 FLICKERS— World Champion Lightning Bug Catcher Hangs Up Net

BALTIMORE — (P) — The world's champion lightning bug catcher, a 15-year-old exponent of the free enterprise system, is hanging up his net and retiring from active competition.

Now maybe the guys will quit calling him the "Bug Boy."

Johns Hopkins University scientists concede they have a sufficient supply of the posterior of the photinus (lightning bug) and Jimmy Tracy figures he's outgrown his specialty.

Jimmy's decision means the bust-up for quite a corporation.

He formed it when Dr. William D. McElroy and his Hopkins associates got interested in what makes lightning bugs glow.

Some people figured it was pyrophosphate. The Hopkins people thought it might have something to do with sex attraction.

Jimmy didn't care much one way or the other, but the scientists offered two bits for each 100 lightning bugs and a grand prize of \$10 at the end of the season for the champion catcher.

Jimmy hired his brother, Donald, and a bunch of the guys — Billy Phipps, John Cunner, Donald Rexroth and Billy McManus.

He figured with all of them contributing to one big catch in his name, they'd have a good chance of knocking off that championship prize money.

This year, the firm netted 78,000 bugs, 12,000 of them personal trophies of the champ, Jimmy Tracy.

All told, Hopkins collected 410,000 in this year's roundup.

Naturally, they won the prize. They did last year, too. Jimmy kept five bucks and let the gang split the other five.

The boss treats his employees right. Not only do they get half of the prize money, but he gives them their full 25 cents for each hundred bugs, not pocketing a dime for himself.

But it's all over now.

"I'll be 16 August 12 and I can work," Jimmy said. "And I guess I'll have a tough time at Poly (Polytechnic High School) again. With the publicity and all, they call me 'the Bug Boy' and 'the Firefly Kid' and names like that. But I can take it."

ORPHANS FOR ADOPTION—The Rev. Russel Artst and his wife of Dallas pose in Frankfurt, Germany with six German orphans picked from orphanages for families of parish. They chose three boys (standing) and three girls.

Texas Polio Level Far Below Last Year

AUSTIN — (P) — Another light week of polio was reported by the State Health Department Wednesday.

The department counted 86 new cases for the week ended July 29, the same as the week before. It raised the year's total to 853, two-thirds less than for a year ago.

State Health Officer George Cox attributed the drop in part to "a sound program of home and community sanitation."

Seven counties reported their first cases. They were Hale with three cases, Henderson and Sabine with two, and Cherokee, Coryell, Parker and Williamson with one.

Other counties reporting polio included Tarrant nine, Galveston and Dallas seven, Harris and Taylor six, Jefferson five, Bexar and Nueces four, Coleman three, Potter two, Bell, Bowie, Brazoria, Brazos, Erath, Reagan, Tom Green and Wichita one each.

THAT TICKET IS ENOUGH

LOS ANGELES — (P) — Prolonged lectures to offending motorists by traffic officers were banned Wednesday by the Los Angeles Police Commission.

It put a 10-minute limit on the writing of traffic citations.

John J. Irwin, president of the newly named commission, said it has had many complaints that motorists have been subjected to undue delay by arresting officers.

"The public should not be harassed," he said.

LAMESANS HERE

Mrs. Jim Buchanan and Mrs. D. S. Houston were here Wednesday from Lamesa.

Texas Banks Pledge Credit To Cattlemen

AUSTIN — (P) — Cattlemen had promise Thursday of lenient state bank credit.

Banking Commissioner J. M. Falkner told Governor Shivers Wednesday state bankers will try to carry their cattle customers through the drought.

Falkner said there were talks with most state bankers in the drought area.

"It is their thought that where they are financing cattlemen who have a home and are not hopelessly in debt, they are willing to ride out the depression with them," he said.

Orders were on the way to PMA for emergency feed.

The state defense and disaster relief headquarters said orders have been placed for 31,560 tons of cottonseed meal, 69,106 tons of pellets, 32,987 tons of corn, 32,197 tons of oats, and 283 tons of wheat.

With Little Worry

Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. **PASTETH** holds plates firmer and more comfortably. This pleasant powder has no gummy, soapy, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "white color" (denture breath). Get **PASTETH** at any drug store.

Commuters Combat Higher Travel Cost

NEW YORK — (P) — A total of 4,364 illegal tokens and slugs were used to get through subway turnstiles Monday, the first full business day under the new 15-cent fare on city-owned transit facilities.

Before the fare was raised Saturday from a dime, the transit authority said Wednesday, the daily average of fake fares numbered 3,000.

NEW MEXICANS HERE

Nehru Suggests Three-Point Approach For Korean Peace

NEW DELHI, INDIA —(AP)— Indian Prime Minister Nehru Thursday urged that the major UN powers in the Korean War meet with the Chinese Communists and the North Koreans in advance of the August 17 meeting of the UN Assembly.

The Assembly will plot the framework of the post-conflict political conference, to be held within 90 days of the armistice signing, but Nehru said the views of the Chinese and Korean Reds should be considered. Neither are members of the United Nations.

"The proper course would be for private consultations between the great powers concerned, enabling them to put forward an agreed resolution," the Indian leader told a news conference.

"The composition and functions of the political conference are not a mere matter for the United Nations General Assembly," he declared.

Nehru suggested a three-point approach to the conference:

1. "At the beginning, it should deal with the question of Korea itself and not take up a multitude of difficult questions and get itself entangled."

2. "It is desirable that it (the conference) not be too big."

3. "It should be more a round table conference and approach matters informally, not in a rigid way."

The Indian leader continued: "It is odd that nothing has been thus far decided about this political conference."

"The armistice is between two parties," he added, "and if the political conference is a part of that armistice, then the political conference is a part of an agreement between two commands. There is no point in the United Nations putting forward resolutions which would be agreed to by both parties."

Nehru emphatically reiterated India's stand that Red China should be seated in the United Nations, declaring that the world organization "is incomplete without Communist China there."

"It is a fourth of the world's population," he continued, "until this question of China being in the United Nations is settled, the United Nations won't function properly and effectively."

KEEP MOVING, MISS—Joan Anderson, 17, thought she could beat the heat in a Minneapolis, Minn., park as temperatures soared into the 90's. Spotting her lying on the grass, near a "no parking" sign, was special policeman Roland Ryland, who had to tell her to move on.

Price Of Steak To Edge Upward

By The Associated Press
Most food stores will add from two to 10 cents to the price of sirloin steak, rib roast and pork chops this week, but there are signs that a temporary peak has been reached. Lamb prices generally will be a little lower. The economy minded wife will find a number of good buys among vegetables.

One big chain said its weekend prices for sirloin steak will be up two cents in Pittsburgh, Washington and Los Angeles and up 10 cents in Jacksonville, Fla. Rib roast will be unchanged in some cities, but up eight to 10 cents in others.

Pork chops will continue their long price rise, with increases of six to 12 cents fairly common.

One meat specialist says beef declined at the wholesale level this week after its recent sharp rise, and suggested it probably would stabilize at present levels for some time. Pork also is slightly lower this week at the wholesale level.

Retail prices should drop a bit when these declines are passed along to the consumer.

Vegetable Bargains
Leg of lamb prices will be lower in many stores, with reductions to eight cents a pound. Frying chickens will be featured by a good number of markets at slightly lower prices.

Other meat and fish department specials reported by some stores included haddock filets, smoked hams, frankfurters and ground beef.

Egg prices are unchanged to two to four cents higher. Butter shows little change.

The best buy in vegetables, produce men said, will be tomatoes. Good buys will include beans, broccoli, onions, potatoes and celery.

Many stores will feature peaches, rated as the best fruit buy. Oranges, cantaloupes and watermelon will be other specials.

Two Firemen Die As Trucks Collide
HOUSTON —(AP)— Two firemen were killed and at least seven injured here Wednesday night when a pumper and a ladder truck collided in the downtown area.

Both fire trucks were answering an alarm that proved false. The dead were Joseph J. Solito, 38, driver, and Fidel Chabolla, 33, hoseman.

Dollar-Saving Plan Backfires With Bang
DENVER —(AP)— Robert C. Parker, 41, of Limon, Colo., thought he would save a few dollars while visiting the state capital by sleeping Tuesday night in his car, parked on a downtown street.

He told police that during the night someone opened his car door, grabbed his billfold with \$70 and fumbled down an alley.

Wednesday night, Farmer registered at a hotel.

TRITES HELD THURSDAY FOR MEDICAL PROFESSOR
DALLAS —(AP)— Services were held here Thursday for Dr. Walter Cochran, 49, clinical professor of surgery at Southwestern Medical School.

He died Tuesday night.

Texas Buffalo Finally Get Drouth Emergency Handout

By The Associated Press
Somebody finally came to the aid of the poor ol' shaggy, hungry buffaloes nobody could afford to feed.

A Fort Worth man said he'd buy the feed for the two in Palo Duro Canyon State Park near Amarillo. And the San Antonio zoo took on the two young ones from a Leander Ranch near Austin.

They were real victims of the drouth—no grass to eat and no money with which to buy hay.

Tuesday, the State Parks Board said it just couldn't afford to feed its shaggy wards. Two buffaloes were for sale—but no takers. Would somebody take them free? Nobody wanted them.

Then Wednesday, Jack Danciger of Fort Worth boosted the help-the-hungry-buffaloes fund with a \$150 check to keep them two and one-half months. Both the Amarillo Chamber of Commerce and the Fort Worth Star-Telegram are accepting donations.

Those two buffaloes at Leander escaped the axe by the curve of their horns because of age and sex. Grace was a female, and state law says you can't kill a female buffalo

—ever. George was too young, only one year old, and state law says you can't kill a buffalo bull until it's 10 years old.

L. C. Morrison had to get rid of them when he sold his farm and had thought a barbecued buffalo party was a grand idea—until somebody stepped in with a law book.

Morrison called Fred Stark, Superintendent of the San Antonio zoo, who was happy to get two new boarders. Wednesday they lumbered into their new home—with hay, by the bounty of San Antonio taxpayers.

Police Seek Killers Of Mexican Women
MCALLEN —(AP)— Police on both sides of the Rio Grande searched Thursday for the killers of two women whose bodies were found on the banks of the river near Hidalgo.

One of the women was about 40. The other a girl of 16. Both had been stabbed in the chest. They were believed to be Mexican farm workers.

★ DR. JORDAN SAYS ★ Mother Of Today Is Safer In Childbirth Than Ever

By EDWIN F. JORDAN, M. D.
Written for NEA Service

The mother of today is safer in childbirth and less likely to suffer severely than ever before in the history of the world.

Only 75 years ago child-bearing was a risky business: childbed fever was widespread and highly fatal, blood transfusion which now saves so many lives was non-existent, and Caesarean section was too dangerous to contemplate.

Today, in the United States, fewer than two mothers die in each thousand deliveries, and this can be even further reduced as facilities are extended. Not so long ago most babies were born in the home. Today more than four out of five are born in a hospital, and this ratio is even higher in the cities.

This change is partly responsible for the great improvement because many safeguards have been built up in good hospitals for maternity care, and, obviously, hospitals and their facilities can offer aid in emergencies of many mothers.

This is particularly true, perhaps, for blood transfusion which can be given promptly in a hospital for all bleeding in delivery which formerly took so many lives.

Equally gratifying has been the great improvement in the results of Caesarean section, that kind of operative delivery in which the baby is taken directly from the womb.

The methods of performing this operation and the skill with which it is done have so improved that in many places thousands of operations have been reported without a single death to the mother.

But it is not only in saving the lives of mothers during childbirth that progress has been made. The pains of giving birth have through

all history been viewed with varying amounts of dread as the date approached. This fear is no longer justified.

Fear itself tends to increase the pains of labor, and consequently, the establishment of a calm approach to this natural event is to be cultivated by both prospective mother and physician alike. Increased recognition to abolishing tenseness as labor approaches is one of the advances of recent years.

But today, also, the mother in childbirth does not have to rely on calmness and fortitude alone since many excellent methods of reducing the pain are available. It is not necessary for the mother to try to select her favorite pain-reliever as the result of gossip because several methods are almost equally good and the physician in charge of delivery can suit it to the occasion and his own experience.

HIS WORD IS HIS BOND
DENVER —(AP)— When concert pianist Jesus Sanroma makes a promise, he keeps it. Sanroma promised Denver Symphony Orchestra conductor Saul Caston he would play with the orchestra "any time." Caston asked him to play Friday night. Sanroma flew 3,161 miles from his home in San Juan, Puerto Rico, to fill the engagement. "Mr. Caston asked me," he said simply, "so I come."

EXACTLY FOUR MORE MOORE'S

PASADENA, CALIF. —(AP)— There were Moore complications at Huntington Memorial Hospital Thursday.

On Monday Mrs. Donald W. Moore gave birth to a boy. Then Mrs. Harlan S. Moore had a girl. Tuesday, Mrs. Glenn R. Moore and Mrs. Richard Moore became mothers of daughters.

The mothers are unrelated and live in different communities.

Short Memory Lands Fast Talker In Oklahoma Jail

PRYOR, OKLA. —(AP)— A fast-talking hot check artist had a long idea — but a short memory — and landed in jail.

Under the alias of Ralph Bates, he deposited \$5 in a bank, then neatly changed the bank book figure to \$5,000. With that in his pocket he bought a car and wrote out a \$950 check.

Whoops! He signed the check Robert Gates!

The used car lot owner noticed the error a short time later. A suspect was picked up snoozing in the car at Miami, Okla.

He was identified as Oliver Wendell Elliott and police said he signed a statement admitting he was an escapee from the Indiana State Penitentiary.

UNITED

Interest High For Longhorn All-Star Game Thursday

Baseball fever struck Midland late Wednesday afternoon and by Thursday morning several thousand fans were victims of the epidemic.

The occasion for the high interest is the Longhorn League All-Star game at Indian Park at 8:15 p.m. Thursday, and the circuit's meeting at 2 p.m. at the Scharbauer Hotel.

Which would draw the most interest was an unanswerable question Thursday morning, but it was certain that the attraction of the league's best players would draw at least 1,500 fans at \$1 per head (\$50 for children) to Indian Park Thursday night.

The Chamber of Commerce office in the Scharbauer Hotel had sold only a few hundred tickets by Thursday morning, but it reported that the pace was very brisk Wednesday afternoon and it expected a continued fast run Thursday. Tickets also may be purchased at the gate at game time.

Manager Pat McLaughlin of the New Mexico team and Rudy Briner of the Texas nine announced their starting performers for the seventh annual classic Wednesday.

With only one exception, the "regulars" chosen to the line-

up will start with Les Mulcahy of New Mexico and Art Bowland of Midland handling the same chores for Texas. The one exception is Pat Stacey of Roswell. He will replace Elias Osorio of Carlsbad in right field for the New Mexico team. Osorio has a leg injury and has been used sparingly by McLaughlin in recent games for Carlsbad.

Len Ruyle of Artesia and Bobby Gregg of San Angelo were the starting nominees for the pitching duties.

Both managers announced their intent of playing every performer

in the game with Osorio and Briner himself the possible exceptions. Briner has a hand injury.

Firework were expected at the league meeting. President Hal Sayles said Wednesday that the main topic will be alignment of teams for next season and methods to reduce operating expenses.

In regards to the former, the entry of a Hobbs, N. M. franchise by next year appears to have very good chances. Sayles, through Clyde Perry, Artesia general manager, has been in close co-operation with the Hobbs business people who are pushing the entry.

They feel their chances very good since securing about \$50,000 in cash to buy a park and players.

There seems little doubt that the seven teams now in the league will remain in business in 1954.

Reduction of operating costs may be achieved in several ways, but almost certain to be approved is reduction of the number of veteran players that may be carried by a club. Three clubs are very, very strongly in favor of limiting the veteran limit to three, and several others are believed to favor the proposal. There's a possibility that the number of limited service players

may also be reduced and the number of rookies required to be carried upped to six. Present rules call for no more than five veterans nor fewer than three rookies on a regulation 16-man roster.

The player limit, too, may be reduced to 15. At least, this will be discussed. Most clubs in the league at the present are carrying 14 or 15 players. Midland, San Angelo and Carlsbad being the exceptions.

Sayles indicated he would encourage the league to push baseball legislation that would assure lower minor league clubs of the chance to sell young ball players. At present,

there are very few young players with ability to play higher ball because veterans have crowded them off the roster in past years, making them spend more time getting experience consequently.

In order to stimulate interest, Sayles said that he would bring up for discussion a split season for next year. Also, worthy of consideration is the suggestion of a split gate—that is, awarding each visiting club a part of each admission taken in by the home club. For example, the visiting team would get part of the 90 cents admission, say 15 cents, on each admission at Indian

Park while the Indians would get the same amount on each admission at other parks.

This would have the effect of helping the club that is having a poor season. At the same time, visiting clubs would be more interested in playing their best on the road to help attract bigger crowds since they would be getting a share.

The game Thursday night promises to be close duel between the two pitching staffs with the New Mexico club holding the advantage. The Texas nine has the heavier sluggers while the batting averages are about even.

One-Man Forum

By Abe Weiner

All the talk about realignment of professional baseball in Texas is just talk, Associated Press Sports Editor Harold V. Ratliff writes. It's being talked "by everybody, it seems, except those who can actually do it."

Ratliff is absolutely right. Baseball has been hard hit in Texas this year, and as soon as realignment was mentioned, everybody hopped on the band wagon. Obviously, there's little chance for realignment, since the men who operate the franchises are reluctant to let them go to other towns.

Here's the rest of Ratliff's views:

"Joe Hale, president of the Wichita Falls club in the Big State League, went to Lubbock last week where the West Texas-New Mexico League held a meeting. He wanted Wichita Falls to join Waco, Austin, Temple, Amarillo, Lubbock, Abilene and San Angelo.

"But Lubbock balked at that. It wants to be in a league with Albuquerque, El Paso, San Angelo, Carlsbad, Amarillo, Abilene and Plain-

view. Austin didn't like it because of the travel involved.

"However, none of the talk got to the official stage. The West Texas-New Mexico League had troubles of its own—it was trying to keep the Berger franchise going. (Hal Sayles, president of the league, said Wednesday that the Berger franchise will operate for the remainder of the season, we're happy to report). There was no time for realignment discussions.

"President Hal Sayles... has been quoted as opposing realignment. He admits that but says he can see no way to do it. "You can't change baseball clubs around unless a club resigns from a league and asks to be taken in by another league," says Sayles.

"The trouble with baseball in Texas is that it always spends as much to operate as the next class above it," Ratliff concludes.

Veteran Limit Question Will Be Settled

What will happen at the Scharbauer Hotel Thursday at the Longhorn League meeting is a question many have wanted answered since mid-season. We know from talking to owners of Odessa, Big Spring and Roswell, that those clubs are strongly in favor of operating with a limit of three veterans next season. They feel operating expenses can be cut, baseball can be improved by younger players hustling instead of going through the motion waiting for pay day and more interest can be the result.

We have a feeling—a feeling, incidentally, that is not based on any talk with a Midland official—that the Indians may go along with the above proposal. If so, the chances are the league will operate in 1954 with the seven clubs now in the league plus Hobbs—which appears a cinch to be admitted although not until much later.

Baseball in the Longhorn League in 1954 may be a far sight better than it has been this year.

Eagle Tosses No-Hit Game

By The Associated Press

League-leading Dallas dropped San Antonio twice and moved five full games ahead Wednesday night in Texas League action which included a no-hitter.

Howie Anderson, smooth Dallas right-hander, pitched a 6-0 no-hitter against San Antonio in the first game of a doubleheader.

Wayne McLeland achieved his fourteenth victory in the nightcap with a 5-1 decision on nine hits.

Tulsa put down Shreveport in both ends of a twin bill, 5-4 and 14-4, and made the second-place Sports look like anything but a pennant contender.

Fort Worth topped Houston 2-1 in 11 innings. Beaumont advanced to fifth place, by one percentage point, beating Oklahoma City two games, 4-2 and 6-2.

Anderson was on top all the way. Only one ball was hit hard off him in the seventh-inning game. Rocky Ippolito flied deep to center in the second inning.

Anderson struck out nine, walked seven but only one of these got as far as second base.

It was the first no-hitter by a Dallas hurler since Bobby Hogue set Beaumont down without a hit on June 24, 1947.

key man" in the deal which sent Ralph Kiner to the Chicago Cubs.

Batting practice pitcher Al Zachary of the Yankees formerly held the same job with the Brooklyn Dodgers.

Alonso Gets Artesia By Indians, 4 To 1

LOU DAWSON . . . Spoiler

Tribe Stopped On Five Hits As Drillers Capture Series

By CHARLEY ESKEW
Reporter-Telegram Sports Editor

The Longhorn League, a hitters' circuit, still had a day to go before its annual all-star game in Midland last night by Wednesday night the Midland Indians were sure they'd seen the class of the league's leading pitchers.

And the two hurlers they saw—neither one an all-star—were Hermino Reyes and Andy Alonso who enabled Artesia to leave town with a one-game edge in the teams' three-game series.

Midland's once-lively hitting Indians couldn't boost the League's batting reputation one whit against Alonso Wednesday night even after Reyes shut them out on two hits.

Carlsbad Scores Late To Win, 13-12

ODESSA — UP — Carlsbad and Odessa each used three pitchers in a wild finishing Longhorn League game Wednesday night as the Potashers pushed across four runs in the ninth to win, 13-12.

Odessa's Jim Carson, who came on with one out in the ninth, was charged with the loss. Gene Wulf got credit for the win. He relieved Audie Malone, who in turn replaced Marshall Epperson.

Rockets Edge Broncs, 7-6, In Thirteenth

BIG SPRING — Pat Stacey's pinch single, a harmless looking ground ball that bounced sky high just as a Big Spring second baseman reached for it, sent Oasie Alvarez across the plate in the thirteenth inning to give Roswell a 7-4 verdict over Big Spring Wednesday night.

The Broncos had tied the score in the eighth after seeing an early advantage disappear when four unearned Roswell runs crossed the plate in the fifth. Catcher Joe Niedson's wild throw to third on Wayne Crawford's bunt enabled Crawford to circle the bases and Rickie Gonzales and Bill Wollet came in ahead of him.

The Broncos used five singles in the first to score four runs off Rocket starter Rolando Torres. The Broncos managed two runs to tie in the eighth when Carl Harris tall fly dropped for a triple and pinch-hitter Curt Borrett doubled. Borrett scored on a Rocket error.

The victory gave the Rockets a sweep of the three-game series. Alvarez had singled to lead off the thirteenth and took second on Costa's sacrifice. Stacey's blow came after two were out.

Roswell got two in the fourth on singles by Wayne Crawford, Alvarez, and Costa and a Big Spring error. Roswell 000 240 000 000 1-7
Big Spring 400 000 020 000 0-6
Torres, Weaver (2), Munoz (13) and Valdes; Atkinson, Groomes (9) and Niedson.

Reed Nips Maxwell In All-Army Tourney

PEBBLE BEACH, CALIF.—P—The Fourth Army finished with a two-day total of 613 points Wednesday to capture the day to capture the title of the all-Army Golf Tournament.

The Third Army was runner-up with 620, followed by the Fifth Army with 629.

Pvt. Claude (Buster) Reed, Fourth Army representative from Fort Hood (Texas), shot a one-over-par 73 to total 148 and wrest the lead from Sergeant Kell and Pvt. Billy Maxwell, Fourth Army, the opening day leaders.

Kell and Maxwell, 1949 USGA (National Amateur) champion from Texas, skidded into a six-way tie for third, with 79's to total 153.

Red Sox' Williams Back At Bat Drills

BOSTON—(P)—After 15 months as a Marine jet fighter pilot with service in the Korean War, Ted Williams, the Boston Red Sox slugging idol, finds baseball rather hard work.

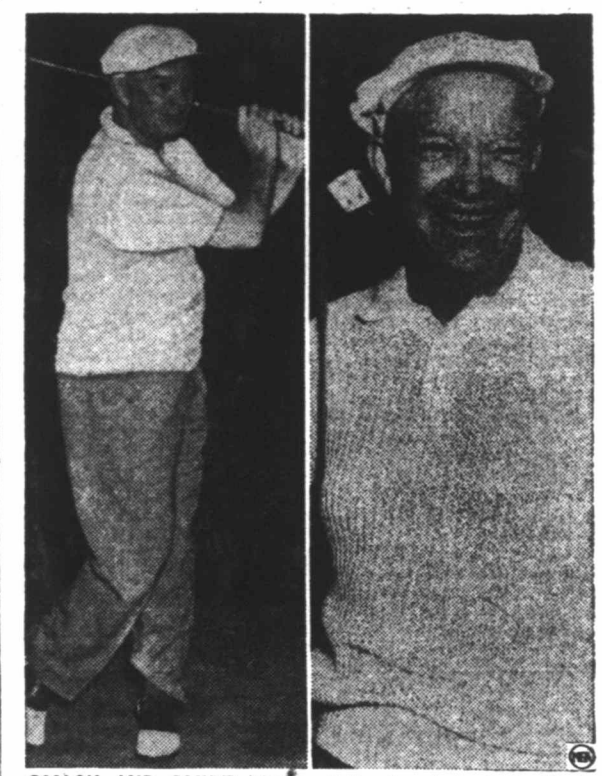

That new discovery was made after he had signed a contract that carries him through the current season as well as 1954.

After going through the brief formalities required to restore him to the American League's active player list, Williams lost little time resuming his favorite baseball pastime—hitting.

He was patient enough to wait until most of the 19,083 crowd that witnessed Wednesday's 8-3 setback by the second-place Chicago White Sox had departed.

Then Williams came out for his first batting drill since he rejoined the Marines on May 2, 1952.

With bullpen catcher George Sucee lobbing in easy fashion, Wil-

SMACK AND SMILE—Some of the broadest of President Dwight D. Eisenhower's famous smiles have been caught by cameras while he was playing golf. A relaxed Chief Executive was especially pleased with this good drive on the Quantico, Va., Marine Corps Base course. His best score this year was 83 (NEA)

Fiore Defeats Umpire Given Police Watch At Tribe Tilt

NEW YORK —P—The Florio brothers—Dan and Nick—can take the bows for Carmine Fiore's upset victory Wednesday night over Danny Giovannelli at Madison Square Garden.

"I did everything my trainers told me," said Fiore. "Dan and Nick told me to use my right more because he'd be looking for the left."

The 23-year-old veteran of 62 fights did just that. Time after time he hammered home a right lead, over Danny's pawing jab. Then when he found the opening, he'd crash a left hook to the head.

Fiore, a 3 to 1 underdog, scored as surprising an upset in whipping 21-year-old Giovannelli before some 2,500, paying \$7,500, as Danny boy had done when he defeated Vince Martinez in May. The Martinez win was the one that "made" Giovannelli.

Beaten by Martinez last January and stopped by Carmen Basilio in April, Fiore now wants return matches with both.

"I won the welterweight championship of Brooklyn," he said.

The University of Florida's football team plays Southeastern Conference games this fall with Georgia Tech, Kentucky, LSU, Auburn, Georgia and Tennessee.

All-Star Umpires Named By Sayles

All of the Longhorn League umpires will officiate in the circuit's All-Star game Thursday night, President Hal Sayles said Thursday.

Jerry Pooler will be the umpire-in-chief for the first four and a half innings with A. B. Sykes taking over for the final half of the game. The other five umpires will remain at the same positions throughout the game.

Warren Helkie will be at first base, Joe Sample at second, Tex Harper at third, Helton Ustiad and Maurice Proulx on the foul lines.

Dodgers Turn National Race Into Runaway On West Tour

By BEN FLEGGAR
Associated Press Sports Writer

More and more the Brooklyn Dodgers' current Western trip is beginning to look like the triumphant tour of a reigning monarch through the provinces.

It's still theoretically a pennant race in the National League, but a glance at the standings Thursday shows it's more theory than race. The Dodgers lead by eight games over second-place Milwaukee with 57 left to play for each club.

The Dodgers still could blow it, but it wouldn't be easy.

For example, suppose Brooklyn—which has won 15 of its last 17 and

at almost a 2-1 average all season—would suddenly fall off to a .500 pace, losing as many as it wins the rest of the way.

If such a thing happened, Milwaukee would have to win 37 of its remaining 57 games to gain a tie. That's a .649 clip, considerably faster than the Braves have moved so far. Third-place Philadelphia would have to win 42 while St. Louis would have to take 41 of its last 59.

Brooklyn shaded Chicago, 6-5 Wednesday, and gained a full game over the Braves, who bowed, 3-2, to the Giants in Milwaukee. The Phillies fell apart in Cincinnati, losing

13-4. St. Louis defeated Pittsburgh, 8-2, as Harvey Haddix registered his twelfth victory against four losses.

The New York Yankees and the Chicago White Sox widened their lead over their first-division cohorts in the American League. The Yankees turned back Cleveland for the second straight time, 7-3, and the White Sox exploded for eight runs in the ninth inning to whip the Red Sox, 8-3. Chicago trails New York by five and one-half games but Boston has dropped nine and one-half behind and Cleveland 10.

In second-division battles in the American League, Washington trounced Detroit, 13-8, with Mickey Vernon blasting a three-run home run and two singles and Philadelphia made it two in a row over St. Louis, 9-3.

The Dodgers opened up with their extra-base artillery in Chicago to score five runs in the fourth inning and added what proved to be the winning run in the fifth when Gil Hodges walked with two out and scored on a double by Roy Campanella.

The Giants broke a string of 22 scoreless innings against Milwaukee before their game was one-out old. Whitely Lockman led off with a triple and Al Dark brought him home with a single. Dark later scored on Monte Irvin's single. A double by Bobby Thomson and a single by Wes Westrum in the second produced the run the Giants needed to win.

Cincinnati drove Robin Roberts off the pitch to the showers for only the second time this season. The assortment of throwers who followed the ace to the mound couldn't do much about silencing the Redlegs' bats either.

The St. Louis attack against Johnny Lindell and two Pirate relievers including four doubles, a triple by Enos Slaughter and Solly Hemus' eleventh home run with a man aboard.

Maury McDermott tamed the White Sox at Boston for eight innings on two hits but they pounded him out of the box in the ninth with an all-out attack. Billy Pierce went all the way for his twelfth victory.

The Yankees spotted Cleveland three early runs, caught up by the end of five and then won the game with four in the sixth.

CENTRAL LITTLE LEAGUE CHAMPS—These are the lads who won the championship of the Central Little League this season. The Bulldogs lost but one game in the first half of play and three the second. They are, bottom row, left to right, Sam Shaw, Glen McKenzie, Rickie Bayless and Don Liscum; second row, Rol Cole, Russell Wagner, Tommy Wicker, Steve Peck and Jack Sowers; top row, Billy Brown, Dickie Campbell, Jerry Hanson, John Ehlers and Manager Ed Vogler. Not present was Jimmy Lowe.

Wendy Green Beats Kansan To Reach Second Round Duel

TULSA—William (Wendy) Green of Midland led a parade of four West Texas golfers into the second round of the sixth annual USGA National Junior Golf Tournament at Southern Hills Country Club here Wednesday.

Green teed off at 9:34 a.m. Thursday against Fred L. Bowyer, Jr. of Jackson, Tenn., in a second-round match.

Wednesday the Midland youngster scored a 3-and-2 victory over Don Wilson of Kansas City, Kans.

Other first-round victories were scored by Neal Scomiers of Iraan and the two Amarillo entries, Jimmy Russell and Rex Baxter, Jr.

Sooners turned back John Mork of Worthington, Minn., 6 and 5. Russell was a 1-up winner over Leo Jordan, Jr. of Overland, Kans. And Baxter downed Pat McGonagill of Shawnee, 2-up.

In Thursday morning's play, Russell teed off at 8:24 against Jimmy Sutton of Atlanta. Baxter met Gary Heeseaman, Charlotte, N. C., at 9:36, and Scomiers was matched with Thomas Garrity of Little Rock at 10:30. Winners will play third-round matches Thursday afternoon.

Green went 3-up on the front

nine Wednesday with a three over-par 38. He won the short eleventh in par, but lost the twelfth when Wilson recorded the first birdie of the match. Green parred the long thirteenth to go 4-up again, but Wilson sank another birdie putt to win the fifteenth. However, par halved the long sixteenth to end the match.

Keth Lopp, cool Long Beach, Calif., youngster defeated Robert Prall, Salem, Ore., 1-up, in a marathon 23-hole struggle that outlasted other first round matches.

Lopp got down with a par five on the decisive hole after Prall matched his birdie three on the twenty-second. The three previous overtime holes of the high pressure struggle were halved in par.

Another extended dual saw Louis DeLuca, Wilmington, Del., entry and captain of Phillip Exeter Academy's links team, 1-up in 20 holes.

Biggest winning margin of the round that cut in half the field of 125 was that of a Fort Dodge, Iowa, lad, Phillip Joselyn. He stroked an easy 9 and 7 conquest of Allen Morrison, Webster, Groe, Mo.

Peter Oeyer, Monterey, Calif., the only 1952 tourney semi-finalist back this year, won handily from James Berling, Covington, Ky., 7 and 6.

Three 13-year-olds, the tournament's "babies," came through with victories.

Jack Nicklaus of Columbus, Ohio, the youngest, trounced Stanley Ziobrowski, Rexford, N. Y., 6 and 5.

Verner Stanley, Charlotte, N. C. boy, who is the youngest ever to qualify twice, eliminated Don Sigs, Indianapolis, 4 and 3.

John P. Koneck 3rd, Lancaster, N. Y., defeated John Ramsey of Pittsburgh, four years his senior, 4 and 2.

None of the players in Wednesday's rounds equaled the 6,775-yard Southern Hills' course's par-71.

ITALIAN HOGAN—Ugo Grappasonni is on hand for the All-American Golf Tournaments, running through August 2, and the World Championship, August 6-9, at Chicago's Tam O'Shanter Country Club. The Lake Como Italian twice won the Italian and this year accounted for the Swiss and French Morocco Opens.

West Players Win LL Start

Fred Drury, who collected two doubles and a single, drove in the winning run in the last inning to give the Western League a 2-1 win Wednesday over the Central League club in the city's area Little League playoffs.

The South all-stars battle the Northeast club at 5:15 p.m. Thursday.

Drury's winning hit found Proctor on second base after a single and stolen base. Earlier the Western club had come from behind when Larry Stanley doubled and scored immediately after.

Central 001 000-1 5 4
Western 000 011-2 6 1
Hanson and Glesey; Hillin and Blair.

Glass Leads In Skeeting

RENO, NEV.—R. L. Buford of Austin and Joe Kirk Fulson of Lubbock led through Wednesday in the National skeet championships while George Glass, Jr., of Midland prevailed over 50 Texans in the sub-small championship races in Class AA here at Harold's Trapshooting and Country Club.

Buford and Fulson shattered 97 out of 100 birds in their bids and Glass hit 96 out of 100 with the little gun.

I. H. Beren, Dallas, came second with 95 out of 100. Herman Ehler, Dallas, missed his first target and then smashed 99 straight to lead Texas shooters in the small gauge championship.

Texas leaders in sub-small: Mickey Michaels, Galveston, 94; Fred Alford, Jr., Dallas, 92; Nancy Burris, Dallas, 91; Lucretia Thomas, Dallas, 91.

Bartzen Eliminates Aussie To Advance In Grass Court Play

BALTIMORE—(AP)—Bernard Bartzen, 140-pound lefty from San Angelo, eliminated Clive Wilderspin, second-seeded foreigner, Wednesday in the Middle Atlantic Grass Courts Tennis Championships.

The smooth-stroking Bartzen overcame deficits of 5-2 and 5-3 in the first and third sets to defeat the No. 7 Australian player, 8-6, 8-10 and 12-10.

Both are prospective Davis Cup team members.

Wilderspin had match point on his own service three times in the deciding set, but Bartzen rallied and a double fault prevented his taking advantage. Bartzen is ranked eleventh nationally and seeded sixth in the tourney.

Third-round matches in single play will be completed Thursday and doubles matches will move into the second round.

Sam Williams Hurls Twentieth Victory In WT-NM League

By The Associated Press

Pitching was the keynote in the West Texas-New Mexico League Wednesday night.

Albuquerque's Joe Hinchman defeated Clovis, 4-2, hurling a six-hitter for his nineteenth win of the year. The victory, coupled with Lubbock's reversal, boosted the Dukes three and a half lengths over the second-place Hubbers.

Lubbock fell victim to Pampa's Sam Williams. Williams nailed Lubbock, 3-2, for his twentieth victory.

Amarillo, with an 11-run second inning, easily defeated Borger 16-9. Catcher I. B. Palmer smashed a double in the top of the eighth inning to drive over the winning run as Abilene whipped Plainview, 8-7.

Howards Set Pace In Brooks Triumph

Lonnie Howard saved up a five-hit pitching effort for the final day of the Midland American Legion League and paced the Brooks Stores team to an 12-3 victory over the Westerners Wednesday.

Howard fanned eight and allowed bunched hits in only the second inning. Three times the losers tallied runs in hitless innings.

A two-hik, four-run first inning and a homer by Gene Howard, Lonnie's brother, in the second put the Brooks club ahead permanently.

Jesse Hatfield collected three hits in four trips for the Westerners. Lonnie Howard hit four for four.

Westerners 020 010 0-3 5 2
Brooks 422 012-12 8 1
Hatfield, Snead, Crisp and Oriaham; L. Howard and Streun.

Ragsdale's Hit Nets Tide Water Softball Series

Tide Water entered the finals of the city softball playoffs Wednesday night by virtue of a 6-5 victory over Gulf.

Joe Ragsdale's home run in the fourth with two men on base provided the margin.

Until Ragsdale's hit, the game was tied up.

The victory gave Tide Water the playoff championship in the city's American League race in three games. The winners next play the National winner, Western Inspection, at 8:15 p.m. Monday in the first game of a final playoff series.

Bob Tremble, the winning hurler although he gave up 11 hits, allowed Gulf to fill the bases in the last inning Wednesday but got out of trouble without yielding a run.

Indians Ship Pair, Release Wallendorf

The Midland Indians Wednesday released First Baseman Milton Wallendorf and returned Catcher Gordon Tanner and Pitcher George Cockrell to Temple.

Tanner was reassigned by the Temple club to Corpus Christi of the Gulf Coast League.

The move was made to cut operating expenses for the final weeks of the season to a bare minimum.

Former Midland Pro Leads Air Force Golf

ELGIN AIR FORCE BASE, ILL.—(AP)—Second Lt. Morris Williams of Austin, a former professional at Midland, was leading a field of 70 golfers Thursday as they headed into the second day of the U. S. Air Force Tournament here.

The 1950 Texas amateur and Texas PGA champ carded a fine two-under-par 70 Wednesday. He is representing the Air Force's Pacific Coast Conference.

The four-day meet will continue through Saturday, with 18 holes of medal play each day.

Card's Old Red Rates With Best

By MURRAY OLDERMAN

NEW YORK—(NEA)—Red Schoendienst is the kind of ball player who can turn oldtimers away from their 1910 copy of the Police Gazette and get them to come out to the ball park again.

He brings to mind the classy second basemen of the past—Nap Lajoie, Eddie Collins, Charley Gehring—this stylish Cardinal infielder who once was considered too little and too frail to play a man's game.

Not only that, but he has married vision in his left eye from a ricocheting nail and an oft-injured right shoulder.

Neither has interfered with the quickness and finesse that mark him tops among major league pivot men. Sure hands? Red once set a National League record, going 57 straight games and 320 chances without an error.

Yet after eight seasons in the majors, the 30-year-old redhead is scarcely known as more than a journeyman ball player to the average fan.

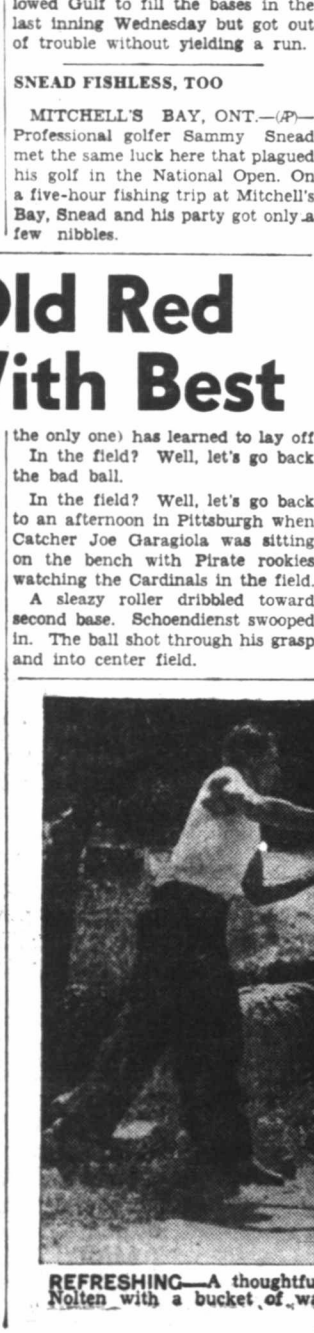

One reason might be his roommate, fellow name of Stan Musial, who has monopolized most of the publicity space coming out of St. Louis.

Another might be the absence of stratospheric batting averages from his lifetime record. Only last year he climbed above .300.

Red is busily cancelling out both reasons this season. He's the most serious threat to Musial's bid for a seventh National League batting crown.

Switch-hitting Red (Mantle isn't

the only one) has learned to lay off in the field? Well, let's go back to the bad ball.

In the field? Well, let's go back to an afternoon in Pittsburgh when Catcher Joe Garagiola was sitting on the bench with Pirate rookies watching the Cardinals in the field. A sleazy roller dribbled toward second base. Schoendienst swooped in. The ball shot through his grasp and into center field.

Money-hungry Horde—225 All-Americans Hopetful Tee Off

CHICAGO—(AP)—A money-hungry horde of 225 golfers limbered up in par-smashing practice and qualifying rounds, teed off over toughened-up Tam O'Shanter Thursday in the start of the \$30,000 All-American championships.

Three separate tournaments included 31 players in the women's open, 34 in the men's amateur and 160 in the men's professional.

The second section of the Tam O'Shanter Jamboree will begin a week hence. It is dubbed the "World Championship of Golf" with a \$90,000 purse distribution.

Both the All-American and "World" competition are for 72 holes of medal play.

Highlighting the All-American is the comeback attempt of Babe Zaharias after her cancer operation last April.

"My doctors told me I could play, but if I got tired to quit" said the incomparable 38-year-old Babe, who won Tam's "World" women's crown four successive years through 1951.

Her competition for the \$1,000 first prize will come from such favorites as Defending Champion Louise Suggs, Patty Berg, Betsy Rawls and Betty Jameson, the women's "World" champion of 1952.

Ben Hogan is missing, but almost all of golf's other top tournament pros are competing, as well as some 20 foreign champions.

Some sensational rounds were fired by them in practices, many breaking 70. Looking especially hot were Australians Nida, and Peters and Norman Van Nida, and Tom Cooper, Sam Snead, Lloyd Man-

Williams-DeLashmott Duo Start Defense Of Amarillo Crown

AMARILLO—(AP)—Three hundred golfers were expected here Thursday for the second annual Amarillo Invitational Partnership match play golf tournament at the Ross Rogers course.

Defending Champions Jack Williams of Plainview and Harry D. Lashmott of Amarillo were on hand.

Other top contenders included Bobby Maxwell and Bobby Wright, Big Spring, and Billy Erfurth and Raymond Marshall, Lubbock.

Qualifiers Wednesday totaled 188. Last year's event drew 256 players.

Rhythm Favored

WESTBURY, N. Y.—(AP)—Direct Rhythm, the fastest living pacer, goes against 14 other top ranking sidewheelers Thursday as the favorite to win the \$50,000 Nassau Pace at Roswell Raceway.

Minister Denies Communist Ties

WASHINGTON —(P)—The Rev. Jack McMichael told the House-American Activities Committee Thursday he is not now and never has been a member of the Communist Party.

McMichael, a lanky Methodist minister from Upper Lake, Calif., said this under oath at a stormy, gavel-banging hearing into charges that he had been a Communist.

He accused the committee of "circulating false charges" against him, describing himself as a "little town preacher."

Sometimes McMichael outshouted his questioners and sometimes he lost out in the hubbub which Chairman Velde (R-Ill) tried to quell.

Counsel Robert Kunzig charged the minister was trying to "avoid the truth."

Deposition Opposed

The witness objected time and again to Kunzig's reading of a six-page deposition taken last month in Cincinnati from Martha Edmiston and John Edmiston who described themselves as members of the Communist Party in 1940 and 1941 in the hire of the FBI.

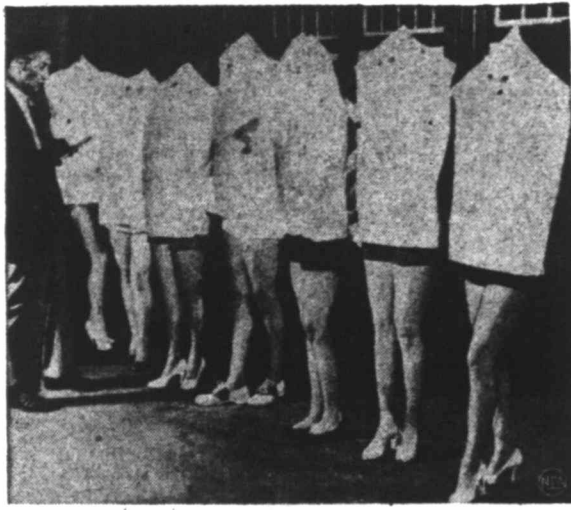

The Edmiston stated they met McMichael while they were delegates to the Ohio Youth Conference in Columbus in 1940, which they said was Communist-controlled.

The 36-year-old Methodist clergyman faced questioning based on testimony the committee heard in secret two weeks ago in New York

Milk Feud Flares—

(Continued From Page One)

came back right on the 10th day when he put a dairyman under a 10-day suspension.

Permit System

"Mr. Brazee came back," they claimed, "only when it suited his convenience."

"Every day under suspension is just like taking bread and butter off the table."

Dairy men in the Midland milkshed operate under a permit system. As long as their milk reaches the required standards, their permits are good and they are permitted to sell milk to Midland creameries.

The milk must be delivered at a temperature of not more than 60 degrees and the bacteria count can not exceed 2,000.

Dr. Pigford produced for the commissioners the record for the last year of milk producers in the three counties.

Violations Cited

Violations were listed against most of them, with temperatures sometimes running as high as 90 degrees and bacteria counts running as high as 10,000,000.

"Do you think Brazee is trying to get along with these dairymen and be helpful to them?" asked Commissioner J. C. Franklin.

"Mr. Franklin, I have been on inspection trips with him and I have found nothing to complain about," said Dr. Pigford.

The health unit director pointed out that Brazee had been here two years.

"We gave the dairymen one year in which to familiarize themselves with regulations," he added, "and then we tried to enforce them."

Enforcement Fraised

"Maybe we have been too strict," "No," answered Commissioner W. M. Stewart, "it isn't a matter of being too strict. We want to be strict."

"But it just seems that he has operated too much with spite and might instead of trying to be helpful and show them how to correct bad situations,"

Dr. Pigford produced a letter from

Texans Enjoy History's Top Business Era

AUSTIN —(P)—The first half of 1953 was the best six-month period in history for Texas business, the University of Texas Bureau of Business Research asserted Thursday.

Business activity rose to the all-time high mark in January. A rather sharp drop followed in February, but March and April showed a rising trend. May turned downward again.

June reversed the May movement and left the business level only slightly lower than at January 1. Almost all phases of business showed a June improvement. Retail sales rose two per cent, electric power consumption 10, carloadings one, building permits 11, and oil production five.

Crude oil runs to stills declined one per cent. Industrial power consumption held steady.

The bureau's composite index rose two per cent to 297 per cent of the 1935-39 base period, a level exceeded only in January's 300.

Bureau Director John Stockton said the outlook for Texas business during the second half is no clearer than for the rest of the country.

He noted a slowdown of new plant construction and old plant expansion, increased interest rates and tapering off of defense expansion.

Cancer Film Seen At Rotary Meeting

A color film, "The Warning Shadow," produced by the American Cancer Society, was shown by Dr. Kurt Leisch, Midland physician, at the regular meeting of the Midland Rotary Club Thursday noon in Hotel Scharbauer.

The film dealt with the diagnosis and treatment of cancer. A question and answer period followed the showing of the educational picture.

The program was arranged and presented by C. C. Smith, program chairman.

President Carroll L. Thomas presided at the meeting.

TO ALABAMA

Mr. and Mrs. William Kerr and family, 1200 County Club Drive, are vacationing in Point Clear, Ala.

VISITORS FROM WINK

Mrs. A. M. Edgar and Mrs. Charles Hodge of Wink attended to business here Wednesday.

JOINS FAMILY

Dr. R. L. Penn, Jr. has joined his family in Colorado for a two-week vacation.

Mrs. R. A. Hoffman and Mrs. W. L. Clark of Seagraves were visitors in Midland Wednesday.

Daniel, Johnson Split On Aid Bill

WASHINGTON —(P)—Senators Daniel and Johnson of Texas voted yes Wednesday when the Senate passed a bill to admit 209,000 refugees in three years.

They were on opposite sides when the Senate refused to cut \$548,000,000 from the foreign aid bill. Daniel voted for the cut, Johnson against it.

Warriors Complete Truce Withdrawal As Silence Settles Over Buffer Strip

SEOUL —(P)— Allied and Communist armies were cleared Thursday from the two and a half mile demilitarized belt across Korea where three days ago they were locked in furious battle.

The Eighth Army said all United Nations troops were out of the battle-ploughed zone by 9:50 Thursday night (6:50 a.m. Thursday, CST)—10 minutes before the deadline set by the armistice agreement.

The Peiping Radio said Friday the Communist forces had completed their withdrawal from the 150-mile front by 10 p.m.

The broadcast said North Korean and Chinese forces have taken up positions north of the demilitarized zone "in readiness to meet any UN breach of the armistice."

Allied soldiers—Americans, South Koreans and other troops of 15 other lands—started leaving the battle line shortly after the truce was signed Monday morning. The guns fell silent Monday night.

Columns of soldiers walked down from hills they had fought in blood—from battlegrounds halfway between the present and history:

Heartbreak Ridge . . . White Horse Mountain . . . Old Baldy . . . Pork Chop Hill . . . Bunker Hill . . . The Hook . . . and the outposts—Vegas, Harry, Berlin and East Berlin.

Going to the hills they crept along under blazing Red guns in

the infantryman's wary, crouching walk.

When they came down they walked upright, with no shells to fear.

South Korean troops pulled back in an orderly fashion from the two thirds of the front they held.

Almost all fortifications were destroyed. Bunkers were caved in and trenches filled. Timbers were salvaged where possible.

Barbed Wire And Signs

Across no man's land, front-line officers reported the Chinese and North Koreans sometimes were using pack mules to get their equipment out.

At the southern edge of the demilitarized zone, the Allied soldiers strung barbed wire and set up roadblocks to prevent anyone from entering.

The zone will be policed by members of the Military Armistice Commission at Panmunjom.

The Allied command strung signs all along the border saying, "South Limits Demilitarized Zone. Do Not Enter." The signs are in English and Korean.

As the Allied soldiers left the front lines some looked back—for possibly their last look—at the famous battle hills of Korea they were giving up:

DIG THIS HEP CART

PHILADELPHIA —(P)—A truck traveling through Philadelphia Thursday had these bop-age passing instructions printed on the tail gate:

Left side: "Go, go, go."

Right side: "Crazy, man, crazy."

Senator Says Talk, Talk Violates U. S. Constitution

WASHINGTON —(P)— Senator Neely (D-W Va.) drew a howl of laughter from his weary colleagues early Thursday by protesting against "the cruel and inhuman punishment of being talked to death."

Neely, at 78 the second oldest senator, observed that the Senate had been in continuous session 15 hours and 21 minutes and, he said, had spent 50 minutes on action and more than 14 hours on talk.

He called it unconstitutional and, in support of his point, he read the eighth Amendment which says in part, "Cruel and inhuman punishments shall not be inflicted."

Colorado Shower Dampens Shivers

DENVER —(P)—Governor Shivers of Texas stopped off in Denver Wednesday on his way to the National Governors' Conference and he and Gov. Dan Thornton of Colorado decided on a round of golf.

They were caught in a thunderstorm. "I haven't played in the rain since I was a boy," Shivers smiled.

Truck Mishap Kills Texan, Hurts Second

BOISE CITY, OKLA. —(P)—Horace Keeling, 31, of Amarillo was killed Thursday when a pickup truck in which he was riding went out of control 13 miles southwest of Boise City on Highway 64.

The truck's other occupant, Stanley Keeling, 29, of Amarillo was in a serious condition in a hospital.

CAP Cadets Tour Canada By Plane

EDMONTON, ALBERTA —(P)—Twenty-five American teen-agers, cadets of the U. S. Civil Air Patrol, toured Edmonton's industrial district Thursday.

Making a 22-day trip through Canada, they arrived Wednesday night by Royal Canadian Air Force plane.

The group leaves Friday for Vancouver. The tour is part of an air cadet exchange program launched in 1947 by Canada, Britain and the United States.

Deadlock Stymies Rubber Plants Bill

WASHINGTON —(P)—The Senate and House were deadlocked Thursday on an Administration bill under which 29 synthetic rubber plants, which cost the government half a billion dollars, would be sold to private industry.

Senate Democrats won a victory in insisting that the measure be sent back to conference for changes which would tighten up anti-monopoly provisions.

Debt Ceiling—

(Continued From Page One)

or less automatically between now and January 1.

As the government collects social security payments from the public it takes the cash, and uses it, giving the social security trust government securities in place of the cash. That adds to the national debt.

Treasury officials, recently said this process probably would add from a billion to a billion and a half dollars to the debt in six to eight months.

Senator Byrd (D-Va) has served notice he will fight any such move.

He told the Senate Wednesday an increase in the debt limit would be an "invitation to extravagance."

Byrd's attitude, shared by some other legislators, raised the prospect that it might take a long time to fight out the issue.

Atomic Unit's Report Says H-Bomb Material Output Nears Peak Scale

By FRANK CAREY AP Science Reporter

WASHINGTON —(P)—The United States announced Thursday it is approaching "first major production" of materials for hydrogen bombs, and said that in the first half of 1953 development of atomic weapons has "substantially advanced."

It said more fissionable material,

the stuff which produces the explosive power of A-bombs, was produced than in any previous half-year.

The government announced also that it is working toward development of a super-speed atomic-powered submarine even before tests have been run on two A-bombs now nearing completion and rated potentially faster than ordinary undersea craft.

The Atomic Energy Commission (AEC), which runs the nation's atomic program, said in its semi-annual report to Congress that last Spring's weapons tests in Nevada disclosed such valuable information that it will not be necessary to hold full-scale tests there this Fall, as originally planned.

Those tests, the commission said, indicated "several very profitable avenues to new and improved weapons" which would afford "the opportunity of substantially greater atomic weapons capability for the United States."

Value Of Tests

It said the last of the 11 shots

in the Spring series—a detonation rated by observers as the most powerful yet set off in this country—had "obviated the necessity of a full-scale test series originally planned in Nevada for the Fall of 1953."

Without further reference to the power of the eleventh shot, the commission said it "emphasized the value of the continental test site in that it permitted the shot to be scheduled, fired and the data returned to the laboratory all within the space of one month, thus enhancing the speed of weapon development activities."

"Research continued to be directed at improvement of current weapon models and the development of new models to meet the requirements of the armed forces," the AEC report added. Dated June 30, it covered the first six months of this year.

More Bikini Blasts

The report said the previously announced decision to add Bikini Atoll to the Eniwetok Proving grounds in the Pacific was made "to provide flexibility in testing new

and improved nuclear weapons." Bikini, 180 miles east of Eniwetok, was used for two tests in 1946.

The AEC also told Congress that: 1. Both foreign and domestic production and exploration for uranium ore for the United States was stepped up during the last six months.

2. Production of fissionable materials for bombs and other uses "considerably exceeded" that of any previous period—and at the lowest cost in AEC's history "despite increases in wages and material prices."

New Facilities Open

3. New facilities entered the production stream. These included a new plant at Fernald, Ohio, for processing uranium ore; portions of new plants at Oak Ridge, Tenn. and Paducah, Ky., for separating bomb-useful uranium from uranium as it occurs in nature; and supporting facilities for the plant at Savannah River, S. C., where material for either A-bombs or H-bombs will be made.

Regarding the latter plant, the AEC said that "some of the supporting facilities at Savannah River are already in operation, preparing materials for start-up of the first major production units at that site."

4. The AEC is investigating new methods of uranium exploration, among them the examination of growing plants which might provide a tipoff on the presence of the metal. It also is investigating the potentialities of low-grade sources of uranium, including phosphates and shales.

'Secret' War Plant

The report said construction of a plant in the field of military application of atomic energy will be completed this Summer at Rocky Flats, near Denver, Colo. Portions of this plant already are in operation. The AEC has described it only as a secret production facility involving radioactive material.

The commission said one of the two atomic power plants being developed for submarine use had already generated "substantial amounts of power" in tests, and the AEC added:

"Design work . . . is underway for developing an advanced nuclear power plant for a submarine of significantly higher speed than the first two nuclear-powered submarines."

Signature Of U. S. Declaration Signer To Stay In England

WOLVERHAMPTON, ENGLAND —(P)—A bid to export Button Gwinnett's marriage certificate as a dollar earner has been ruled unlawful.

Gwinnett, a signer of the American Declaration of Independence, married his boss' daughter here in 1757.

The certification bearing his signature still is kept in the vaults of the 900-year-old St. Peter's Church.

Church leaders wanted to sell the certificate in the United States to raise money for church repairs. They said the minimum price would be \$28,000.

Now the consistory court of Lichfield diocese has ruled any sale out of order.

Canon J. Briery, rector of St. Peter's, said "this means that the signature will remain locked in its iron box when it might have gone to America and been of great interest."

Gwinnett in 1771 emigrated with his wife and three daughters to Savannah, Ga., and became one of three Georgian representatives who helped draw up the manifesto. He died a year later from wounds received in a duel. He was then governor of Georgia.

JUST DOGFACE; NO BARRYMORE

WOONSOCKET, R. I. —(P)—The Army and Air Force recruiting station has received a telephone call from a worried mother who wanted to know if the Army would change her son's face very much.

She said her son had written that his profile was being changed.

"Profile" is Army slang for medical records, the recruiting officers assured her.

Donovan Chosen Envoy To Thailand

WASHINGTON —(P)—Maj. Gen. William J. (Wild Bill) Donovan, who headed the supersecret Office of Strategic Services during World War II, has been selected as ambassador to Thailand.

Donovan, now retired and practicing law in New York, is a native of Buffalo.

His nomination, to succeed Ambassador Edwin F. Stanton, was sent to President Eisenhower Wednesday night to the Senate for confirmation.

HIS SECURITY UNQUESTIONED

DURANT, OKLA. —(P)—Job security for a three-year hitch in the Army, positive his old job would be waiting when he returned.

He's a daredevil steeplejack. His latest job was painting a 343-foot radio tower.

H. E. Gilbert Heads Railway Enginemen

BOSTON —(P)—H. E. Gilbert of Chicago Wednesday night was elected international president of the Brotherhood of Locomotive Firemen and Enginemen at the group's convention.

He succeeds D. E. Robertson, president 31 years, who refused to run for reelection.

Legionnaires Convene

HOUSTON —(P)—The Texas American Legion Convention opens here Friday with the blaze of 14 bands in a parade.

Making All Korea Neutral May Keep Truce Permanent

By JOHN M. HIGHTOWER
WASHINGTON—(AP)—The possibility of seeking a permanent Korean settlement on the basis of "neutralizing" the whole country probably will be discussed with President Byrdman Rhee when Secretary of State Dulles meets him in Seoul next week.

Senator Knowland (R-Calif.) has advanced the idea of a neutralized Korea as one which might make unification of the country more appealing to the Communists and still satisfy United States and Allied security requirements.

Knowland, acting GOP leader in the Senate, is one of four senators who will accompany Dulles to Korea. The others are H. Alexander Smith (R-N.J.), Richard Russell (D-Ga.), and Lyndon B. Johnson (D-Texas).

The neutralization idea has received some consideration in the State Department. According to some reports, it has been mentioned to Rhee and he indicated disapproval. However, although formal U. S. policy toward Korea presently is developing along different lines, the neutralization idea is considered to be still open for exploration.

Checkpoint—West German customs police inspect cartons of food on the first truck to reach a checkpoint outside Berlin. Truck, carrying U. S. food for hungry East Germans, was delayed six and one-half hours before being allowed to proceed.

Record Thousands Defy Police, Seek Berlin Food Gifts

BERLIN—(AP)—The West hurriedly boosted its gigantic food relief program to a round-the-clock operation Thursday as the stampede of hungry East Germans to collect mercy parcels hit record proportions.

Defying Communist police terror and threats of reprisal, the stream of needy coming through the Iron Curtain became a day and night flood. Wednesday night for the first time, some relief stations worked all through the night and still couldn't handle the crowds.

Highway 66 FOUND NAPPING

R. C. Maxson REAL ESTATE BULLETIN BOARD

REPORTING THE TOP NEWS IN REAL ESTATE "PARADISALIC" SAID THE POET. "Nay," said the Man from Killarney. "This is a bit of old Ireland. I wonder what you'll say when you see the magnificent grounds and miniature fruit grove of this home on the corner of Michigan and West Broadway, 3 large bedrooms, tile bath, wood-burning fireplace in the living room, full dining room, and 2-car attached garage. Constructed of beige brick, this home is only 4 years old. Grafeland at its very best behavior. \$24,750.

UNBEATABLE FOR THE COUPLE who want to walk to work or downtown. Located on Illinois (near the high school), this cozy home has 2 nice bedrooms, comfortable living room and separate dining room. Relaxful rear yard with BBQ pit, fenced, ideal as revenue, home, office, or for future development as it is "D" zoned. Sentionally priced at ONLY \$8,750.

A HUGE REAR PORCH is a mark of distinction! It eloquently expresses your ability to relax after office hours. And this brick home does just that! But it's got 3 bedrooms, 2 baths, wood-burning fireplace, and wonderful neighbors. Attractive landscaping, fine fence. Located on exclusive BEDFORD. Owner will accept a trade of reasonably valued smaller home or oil royalty.

REMOVED TO THE QUIET HUSH of suburban living—where comfort and gracious existence is paramount. Five miles NW of town, this masonry home has 3 lovely bedrooms, 2 baths, wood-burning fireplace in the living room, full dining room, 2-car attached garage. Central heating and air conditioning, fully carpeted. Venetian-Hood, dishwasher, and pantry. Tile fence surrounds the magnificent grounds, patio, 2 eager water wells, and all located on 2 acres of land. No city taxes! Reduced to \$21,500.

PLANNED WITH CHILDREN in mind so that Mother could take it just a little easier. Near Sam Houston, this brick home has the perfect floor plan. 3 bedrooms, ceramic tile bath, huge living room, ideally arranged kitchen, and utility room. Central air-conditioning, water softener, and some carpeting and draperies. Tile fireplace, attractive lawns, and covered patio for the kiddie playtime (which is infinitely interminable). In excellent condition, \$18,500.

PROFESSIONAL MEN WHO NEED a clinic, office, revenue property, and a home! Owner must sell estate by selling new lawns, and covered patio for the kiddie playtime (which is infinitely interminable). In excellent condition, \$18,500.

READ THIS SLOWLY... on West Indiana, 3 bedrooms, 2 baths, spacious living room, and attached garage. Excellent condition. Carpeted, fenced yard. Owners leaving Midland immediately. \$12,950.

THE SHOULDERS OF THIS HOME brush Grafeland. Located on Tennessee, it has 2 nice bedrooms, carpeting in the living room, dining area, ceramic tile bath, and attached garage. Distributed heating and air conditioning unit. You'll like the location. \$11,500.

READ LAST SUNDAY'S ads for other terrific buys. Especially the 3-bedroom, 2-bath, living and dining room, huge porch, home which is priced at a THAT'S-THE-ONE-FOR-ME price of ONLY \$10,900!

WE ARE NOT LION-TAMERS, but we surely put your inflated American dollar thru its paces. If you can gather together 1,656 of 'em, we'll let you move into a home which is worth 13,000 of 'em, even tho' the price is ONLY \$10,750. Brand new, it has 3 wonderful bedrooms, lots of closets, living room with dining area, large kitchen, utility room, and carport. Tile bath, ceramic features in kitchen (with pantry and double sink), central heating, insulation, and on a paved street near school. Imagine, almost 1,100 sq. ft. for ONLY \$10,750! See what I mean?

OUR MANY AND WIDELY DISTRIBUTED "SOLD" signs attest to the numerous sales that we have recently made—and no wonder! The smart seller lists his property with us—and the wise purchaser knows that his BEST BUY is ALWAYS thru' R. C. MAXSON, Real Estate.

LOOK! 1216 E. Cowden, near school and shopping center. 3 nice sized bedrooms with double closets, tile bath with shower and a delightful kitchen that offers breakfast space, pantry, and washing connections. A very small down payment will handle. \$11,600.

Would you pay \$1150 down with no extra closing expense and assume payments that are below rent? To move this week into a lovely 2 bedroom home of your own? If so, you may also appreciate getting a nice Youngstown kitchen, a tile bath that has shower and colored fixtures, a large garage with storeroom, raising distance of grade school and an enjoyable neighborhood to live in. Call now and let us show you this home.

A tile fence, air conditioner, and well kept yard plus a nice 2 bedroom asbestos siding home with attached garage is being offered for a down payment of only \$1150, and part of this may be in notes.

TOM BROWN REALTOR - 4-4210

PERHAPS You Can Sell Your Home Yourself

And then again perhaps you can't in the present trying times where what happens (1) You get a stream of people who are merely curious, through your home (2) You spend a considerable amount of money advertising (3) You lose valuable time (4) You take a chance of over-pricing or under-pricing your property?

Wouldn't it be easier to enlist the services of a trained, experienced sales organization—letting us show your home to the details of advertising, financing and safely closing a deal? No charge to you unless the property is sold! List with...

Oklahoman Backs Stevenson In '56

WASHINGTON — Senator Monroney (D-Okla.) said Thursday he hopes Adlai Stevenson gets the 1956 Democratic nomination, but not by default.

Monroney, head of the party speakers' bureau in Stevenson's 1952 campaign, said he regards the former Illinois governor as the most logical choice.

"I think we ought to go to the next convention with more than one diamond in our showcase," he said. "I think the party will pick Stevenson again, but I want it to have the choice of several good men."

Monroney said he thinks a struggle for the nomination will develop because he expects President Eisenhower to decline to run again. Any such development, he said, would be certain to spur interest in the Democratic nomination.

Korean Casualties Climb To 140,546

WASHINGTON — Battle casualties of 1,274 were reported in the Korean fighting, which ended Monday.

The 1,274 were killed, wounded or declared missing before the last shot was fired. But the process of reporting and checking battle losses and notifying next of kin held up announcement until Wednesday.

The Pentagon is not expected to have a tentative total for the 37 months of the conflict for at least another week.

FROM CRANE

Mrs. D. A. Casey and daughter, Linda, visited in Midland Wednesday from Crane.

Permian Basin Oil And Gas Log—

(Continued From Page One)
drillate will be 660 feet from south and 1,980 feet from west lines of section 68, block 14, T&P survey.

Rank Wildcat Set To Start At Once In Brewster Sector

Stuard & Spack and others of Houston filed application with the Railroad Commission of Texas requesting permission to start drilling at once on a cable tool wildcat in Southwest Brewster County, 75 miles south of Alpine.

The prospector is to be drilled as No. 1 L. Leventhal, 900 feet from west and 1,117.5 feet from north lines of section 87, block 341, T&P survey and on a 2,027-acre lease. It is to go to 2,500 feet.

Conoco Completes Wolfcamp Opener In SW Lea Area

Continental Oil Company and others have completed their No. 4 Anderson Ranch as a flowing discovery from the Wolfcamp in the Anderson Ranch (Devonian) field of Southwest Lea County, New Mexico.

The new pay opener was completed for a daily flowing potential of 1,758 barrels of 42-gravity oil calculated from a four-hour flow of 293 barrels of oil through a one-half-inch choke.

Production is through perforations at 9,760-9,828 feet. Pay has been acidized with 1,000 gallons. Gas-oil ratio was 313-1.

The well is located 660 feet from north and 1,980 feet from east lines of section 11-16a-32e and the location north of the Devonian discovery.

Tide Water Sets Location For Test In SE Garza Area

Tide Water Associated Oil Company filed application with the Railroad Commission of Texas requesting permission to start drilling at once on an astepout to production in the Tobe (Strawn) field of Southeast Garza County.

The project will be drilled as No. 1 Alice Williams, 660 feet from south and west lines of the north half of section 19, block 6, H&GN survey and one mile southeast of the town of Justiceburg.

It is to go to 7,500 feet.

Long Extender To Devonian Finaled In Andrews Area

Magnolia Petroleum Company has completed a five-eighths-mile south southeast extender to Devonian production in the Magutex (Mudguy) field of Northeast Andrews County and spotted location for a north offset to the extender.

The well was completed for a daily flowing potential of 414 barrels of 44-gravity oil through a 2 1/2-inch choke and perforations at 12,486-539 feet and 12,564-12,590 feet.

The new oiler is No. 1-CB Fasken, 660 feet from north and east lines of the northwest quarter of section 37, block 40, T-3-N, G&M&B&A survey.

The offset will be drilled as No. 2-36995 University, 660 feet from south and 1,980 feet from section 37, block 40, T-3-N, G&M&B&A survey. It is to go to 12,700 feet.

Police Have Clues, Car, But Comfort Bank Bandit's Free

SAN ANTONIO — Officers have a description of the man, his getaway car and a money order, but still haven't found the polite young man who held up the bank at Comfort last week.

The car was found Wednesday near Center point, close to Comfort, on a seldom-used road. It was one stolen in San Antonio the morning of the holdup in the little town 60 miles northwest of San Antonio.

The money order came to the bank Monday. It was for a little more than \$36. A note asked that \$30 be applied to the principal and the balance be used as interest on the \$1,730 taken from the bank at gun-point.

The man had asked for a loan and was rejected.

Stanolind Gets Good Shows At Howard Stepout

Stanolind Oil & Gas Company No. 2 C. L. Burton, Northwest Howard County exploration, one location southeast of the same concern's No. 1 Burton, the discovery of the Bond (Canyon) field, has indicated possibilities of production.

It topped the Pennsylvanian reef lime at 8,890 feet on a tentative call. No election had been reported.

It drilled to 8,918 feet and took a two-hour drillstem test at 8,878-8,918 feet. Gas surfaced in 15 minutes. There was no gauge or estimate on the gas volume.

No fluid came to the surface while the tool was open. Recovery was 90 feet of oil and gas cut drilling mud and 450 feet of free oil. From Below Sub

That recovery came from below the circulating sub. There was no recovery from above the sub as a plug "burst."

Open bottom hole pressure was 225 pounds. Shutin bottom hole pressure after 15 minutes was 2,950 pounds. There were no signs of formation water in the fluid which

was recovered from the test. Electric logs are being run and then likely casing will be set to allow a production test.

Interested observers think the project has a chance of being completed as an oil well.

It is 11 miles northwest of Big Spring and 660 feet from south and east lines of section 27, block 33, T-2-N, T&P survey.

High Structure Is Found At Wildcat In Yoakum Region

Livermore Drilling Company No. 1 Anita H. Field, wildcat in Central-West Yoakum County, was making hole below 9,317 feet after drillstem test was taken in the Wolfcamp from 9,278 to 9,317 feet.

Tool was open two hours. Recovery was 2,700 feet of drilling mud. Operator reports that the packer leaked on the test and that it was unsatisfactory. After a few more feet of hole is made, another test will be run.

The Wolfcamp was topped at 8,940 feet, minus datum points of 5,147 feet. It is 45 feet high to Amerada Petroleum Corporation No. 3 Weems, project at the north side of the Bronco Devonian field and 365 feet high to General American Oil Company No. 1 Richmond, 12,331-foot failure two miles to the northeast.

No. 1 field is at the center of the southeast quarter of the northeast quarter of section 347, block D, Gibson survey.

Nolan Wildcat To Perforate, Test Ellenburger Pay

Chicago Corporation of Fort Worth No. 1 C. E. Boyd, Ellenburger prospect in Northeast Nolan County, is preparing to perforate from 5,918 to 5,932 feet for completion attempt in that formation.

The wildcat indicated production on two drillstem tests of the Ellenburger at 5,920-5,930 and at 5,921-5,940 feet.

Top of the Ellenburger is 5,918 feet on derrick floor elevation of 2,383 feet. Five and one-half inch casing is cemented at 5,339 feet and total depth is 5,940 feet.

Location of No. 1 Boyd is 660 feet from north and west lines of section 62, block 20, T&P survey and five miles southwest of Trent.

Stonewall Venture Dry And Abandoned

J. M. Hazelwood No. 1 M. Belle Morrow, et al, wildcat in Central Stonewall County, has been plugged and abandoned at 6,450 feet.

Location was 467 feet from north and east lines of section 76, block D, H&TC survey and eight miles north of Aspermont.

New Mexico Tests Plugged, Abandoned

Two New Mexico wildcats have been plugged and abandoned.

Texas Pacific Coal & Oil Company No. 1 Lane-Mill Unit, wildcat in Central-West Lea County, has been abandoned after showing some oil in the Pennsylvanian at plugged back depth of 9,620 feet. It had been drilled to 13,655 feet.

Last test reported in the Pennsylvanian was 20 barrels of oil and three barrels of water in three hours, at the end of which time the hole was swabbed dry.

Location was 660 feet from north and 1,980 feet from east lines of section 32-15a-32e and six miles west of the South Saunders field.

In South-Central Eddy County, Stanolind Oil & Gas Company and Gulf Oil Corporation have plugged and abandoned their No. 1 Guadalupe Foothills Unit. It was drilled to total depth of 13,034 feet and was plugged back to 8,675 feet.

It was 660 feet from south and 2,160 feet from east lines of section 20-22s-25e and 11 miles southwest of Carlsbad.

Cattlemen Request 'Permanent Relief'

By The Associated Press
Cattlemen from eight South Texas counties Wednesday sent President Eisenhower a petition asking "permanent relief to the cattle industry."

The petition was circulated by the Gonzales Production Credit Association, set up by the government during the depression but operated cooperatively in recent years.

L. A. Lot, the association's president from Leesville, said most ranchers in the area favor a program to slaughter and process 5,000,000 head of cattle with the meat going to needy nations. Others, he said, want 90 per cent parity support for cattle.

Lot also said many South Texas cattlemen believe current drought relief efforts are worse than none. They are keeping surplus cattle alive and prices down, he asserted.

Luxury Trains Open Mexico City Service

BILL GETS OFF TO EARLY START

RALEIGH, N. C. — William Willis Pollard, 22, won his parole from an 18-month sentence for drunken and reckless driving. But the parole came too late.

The papers arrived at the John County Prison camp the day after Pollard escaped.

Now the police are looking for him.

Maryland Celebrates Bridge's First Year

BALTIMORE — Thursday is the anniversary of Maryland's 45 million dollar Chesapeake Bay Bridge, opened to traffic at 6 p.m. last July 30.

The driver of the last car to cross the bridge before that hour Thursday will be asked to cut a special birthday cake baked for the occasion and have a slice.

Oil Man's Daughter Loses Court Appeal

HOUSTON — Attractive Barbara Cullinan, disinherited waitress daughter of a Houston millionaire oil man, had lost another round Thursday in her fight to share in her father's \$4,600,000 estate.

Judge W. P. Hamblen, Jr., Wednesday dismissed her will contest on appeal from probate court.

Hamblen ruled in behalf of Miss Cullinan's brothers, Craig, Jr., and Joseph II, and other beneficiaries.

Miss Cullinan charged her father had an obsession of hatred toward her that affected his capacity to make a will.

MOVE TO BALLINGER

Mr. and Mrs. J. A. Chaney and children, who have been making their home at 2404 Elizabeth Street, have moved to Ballinger, where he is station manager for The Western Company.

Religious Leaders Move To Renew Life In Nation's Foundering Rural Churches

By GEORGE W. CORNELL
NEW YORK — Country churches—what's left of them—are making a lively comeback.

"They were dying off pretty fast for a while," said Dr. Thomas Alfred Tripp, head of the Congregational Christian Churches Department of Town and Country. "But they're picking up strength now."

For two decades, up to World War II, rural churches in America were closing at the rate of about 1,000 a year. Hundreds continued to fall by the wayside up to 1950. Many still are in shaky condition.

Encouraging Day Ahead
"But I don't think many more will be lost," said Don F. Pleistick,

head of the Town-Country Department of the National Council of Churches. "What we lose one place, we now are gaining somewhere else."

"I see quite an encouraging day ahead, with new programs and a new type rural minister. Rural America is going to be better served by its churches during the next 10 years than ever before."

A big factor in curbing the casualty toll has been the development by almost all major denominations of intensive, national programs to pump new life into the faltering rural churches.

Training of Ministers
"We've become more conscious of the importance of rural people," said Msgr. Luigi G. Ligutti of Des Moines, head of the National Catholic Rural Life Conference.

"As a result, our rural churches are much better off than they were five years ago. There has been a tremendous improvement in the outlook."

All kinds of techniques, plans and strategies have been put into action for waking up the sleepy little church at the crossroads.

Social researchers have canvassed the countryside. Seminars are channeling students into the rural ministry, not just as a training ground, but to make a profession of it.

Financial aid has flowed out from city headquarters. Rural church federations have popped up all over. Conferences and seminars to guide country preachers have become about as numerous as weeks in the year.

A series of stunning blows combined to kill off more than 20,000 rural churches since the 1920's.

Mechanized farming shrunk rural population, so did the depression and "Dust Bowl" migrations. Cars and good roads made the nearby church less essential. Defense industries also sapped farm life. Population movement to the cities still is going on.

Lonely Steeples In Sky
Other influences, authorities said, also hurt the rural church. Poor preaching. Lack of money. Too little planning or leadership, and a resulting indifference and weak church morale.

Many little churches were left vacant to rot—lonely, steepled der-

Cold Canadian Air Mass Moves South

By The Associated Press
A broad mass of cool Canadian air Thursday continued its invasion of the northern part of the nation, pushing south and east to extend from the Northern Rockies to the Great Lakes.

Scattered thundershowers hit the southern Great Lakes region early Thursday but brought little rain. Widely scattered light showers and thundershowers also were reported in the Southern and Central Rockies.

Early morning temperatures generally were in the 60's in the sections blanketed with the Canadian air. Readings along the West Coast and in New England were in the 50's and 60's. Elsewhere, temperatures were mostly in the 70's and 80's.

Having Money In Greece Makes Visitor Wealthy; Being Broke's Same Anywhere

By GRACE HALSELL
Reporter-Telegram
Special Correspondent

ATHENS, GREECE—In this part of the world, you get contrasts. You're treading the ground where Socrates once trod, and from a small shop, Patti Page is trumpeting with her big, plain voice: "True and Forevermore."

You're trying to inspect the spot where a piece of art, dating from the Seventh Century B. C. was unearthed, and you can't help but notice nearby Randolph Scott is starring in "Sugarfoot."

Across this ancient land singer, Sacony-Vacuum, RCA-aided by Hollywood and the State Department—are giving Plato's land a helping of Americanism.

The "Mission" is well received. Greeks, I find, are more courteous and friendly to Americans than almost any nationality.

People here dress a lot like Americans. Their tailoring runs more to American taste, although unlike Texas, who sweeter in Summer heat, Greek men go in more for comfort, with open collars and short sleeves.

Sleeveless Jackets
They also have smart loose-fitting linen jackets, which they wear when a coat is deemed proper. But these coats also have short sleeves.

The people are good looking—the women and the men. The men for the most part have heavy mustaches and dark glasses, making a full appraisal of their features rather difficult.

There is much singing. Tastes are cosmopolitan. In an open air cafe, I saw Greeks sitting around enjoying cool drinks and requesting an orchestra to play Beethoven and Chopin. A popular vocalist, singing in Greek, did a medley of American, French and Italian songs.

It probably sounds nice to the average person when he hears I can afford to travel around the world, but marring my own personal pleasure in this, I always am plagued by financial problems.

Should I have money, there are a thousand hands, it seems, which reach into my one handbag and relieve me of it—just as this happens to you in the States. That's not so bad when you are among friends at home, but for me, usually I am in some place knowing no one but short-time acquaintances.

As this has happened twice, I found the experience taught me:
1. Getting a loan is as hard as finding a cool spot at a Fourth of July picnic.

2. American officers are tighter-fisted than bank presidents.
3. But enlisted men, with what they have, are as generous a lot of human beings as one can find.

They aren't as foolish with their money as you might suspect. But living close with their fellows in circumstances none too easy, they learn sympathy. They have the greatest of all traits—a warm heart.

As usual, I arrived in Athens without any money.
I tried to sell a movie camera to an American officer for \$30—simply because I needed money in a hurry. He was skeptical, and while he pulled out a fistful of greenbacks, he kept procrastinating, and I stood penniless "smelling" the wonderful stuff so nearby in my grasp.

The officer put his roll away. He wouldn't part with a single dollar. I kept my camera—and later was glad he by-passed the bargain.

Then I thought about a small savings I had in a German bank. It amounted to only \$47.42. I went to the Greek branch of the American Express.

"This money is in Germany," I explained, "but I need it—can I get it?" I asked. The Greek in charge was sympathetic. He said yes, he'd give it to me in Greek drachmas. For the \$47.42, he then counted out to me more than one million drachmas!

Now I have 1,415,000 drachmas—and I am sure Aly Kahn couldn't feel as rich as I do!

I flew into Greece from Naples on a Military Air Transport (MAT) plane, along with stacks of mail, crates of bottled milk, and an odd assortment of passengers, a few armies, a couple of colonels and some wives with children.

It was the first trip that I had taken a MATS ride—and their services struck me as being something of the chain which holds American's vast outposts together. After we landed, Capt. Hyton Sagely got aboard to welcome us and explain a few facts. He was modest and courteous and soft-spoken—as Texan as they come.

The surrounding countryside here looks a great deal like Texas, as a matter of fact. Especially around the Texas-Mexico border—parched land, scrubby-like trees, even the houses and fences around them look like they could be in that region. And the mountains near

Athens look a great deal like the Davis Mountains in Texas. At the picnic, I met Captain Sagely's attractive wife, the former Jean Booth of San Antonio. She has brothers, C. C. in Bastrop, and Burrell and Finely, in Baytown. And I met Capt. and Mrs. Tom Walker of Wichita Falls. And Captain Sagely's boss, Lt. Col. J. F. Wiley.

His small son came toddling off. "Daddy, I want an ice cream," he said. The colonel peeled off a 20,000 note. "Okay," he said, "have yourself an ice cream." Back in the States what will a mere nickle mean to this boy—who buys his ice cream with "thousand" denominations!

The Midland Reporter-Telegram

THE BEST INVESTMENT FOR YOUR ADVERTISING DOLLAR
MIDLAND, TEXAS, THURSDAY, JULY 30, 1953

SECTION TWO

Steel Mills Foresee Peak Production Until January 1

NEW YORK—(AP)—Steel mills will continue for about three months more to operate at the present break-neck rate. After that the industry should return to more normal conditions.

Orders already on the books will keep most companies operating near capacity for some time. Several important leaders think that the peak of demand has now been reached and new orders will soon be coming in at a slightly lower rate. The Korean truce, they say, will be less responsible for this slackening than will the fact that users of steel for the making of civilian products appear to be near the end of their inventory-building program.

First U. S. President to ride a railroad train was Andrew Jackson.

COUPON

COUPON

Youth Center Chatter

By NANCY LOU KLINGLER

Another hot seven have come and gone! Think that you will be ready for winter to come? We certainly will.

We want to welcome two newcomers, Carolyn Howell and Kay Fitzgerald, into the Youth Center. Carolyn is from Tahoka and will be a Junior. Kay hails from Dallas and will be a Junior also.

Congratulations to Wayne Cooper who was awarded the "Most Valuable Player" on the Hornet baseball team for 1953. For this honor Wayne got an identification bracelet. Sure is pretty.

Florida Hicks, Margie Hensley, Jane Wright, Jenetha Holt and Robinette Curry all seemed to be having a gab-fest over at Gloria's house last Friday. Gloria and her family left for Durango, Colorado, where they will be vacationing the next few weeks. She promised to send some snow balls down to Midland. Sure hopes she does.

Jean and Don Hudson are back in town but only on a visit this time. They are former Midlanders who now have their tent pitched at Amarillo. Welcome back partners! ! !

Jayman Edwards returned from six weeks at Waldemar and a week or so visiting with her aunt in Kerrville. We had Jayman back about a week ago but she really wasn't. Sorry!

Orman Hubbard has returned from Hidden Valley Camp in Breckenridge, Colorado.

A few people were trying to get rid of Elaine Conger a year too early. Several persons were talking to Elaine and she was all excited about being accepted for Christian Girls School. When we asked her why she was going away to girls' school next year, poor Elaine almost fell over. She explained she is going after she graduates from MHS. Thanks for straightening things out.

Hey, grab your "audiograph" books and have the new stars jot down their famous (famous-to-be anyway, we're sure) "John Henry's." Who are the famous stars? Well, they are Harvey Diemer, James Stewart (not the one who already has made his debut into motion pictures), George James and Billie Henson. It is a safety film produced by the Midland Police Department. Since working with the policemen, we must admit they really are about the best guys we've ever met. But the way not to meet them is for them to blow their fascinating (?) siren at you because you were in the wrong! Be on your toes. Guess how many policemen there are in Midland? There are just 48! But we think they really are the best anywhere and we wouldn't trade one of them off, would we John and Stanley Putnam?

No Comment, Yet!

Robert Payne has returned from Summer school at the University of Texas. Haven't heard any comment from him yet, but we can tell he really liked it.

Sara Cameron has returned from a two-month visit in Houston. While in Houston, Sara visited her aunts and uncles. How many do you have in Houston, Sara? While she was gone she did something rather unusual. She grew a dimple! If you think that isn't hard, you try growing one. We've tried for 16 years now.

Poor Pete English couldn't find the "3D" glasses for the "3D" magazine. He was trying to find them every place. To the little angel who took them off by mistake (of course) please bring the mback so Pete

can "eyeball" it. Thanks!

Jerry Ball and Don Fritz seem to be back in the "gay nineties" in their minds. They were just riding away on their bicycles. That's not so odd, but when they start riding them in the Youth Center, well that's a different matter. There were no traffic mishap though.

New Shuffle Board

If you are wondering what the new addition in the YC is, it is a new shuffle board for the girls. Begs, you are to leave this little jewel alone. The boys shuffle board table will be six feet longer. Guess that is cause they are a little bit stronger than most girls.

Glad to have Wesley Pittman, Clayton Tatum, and Robert Stubbeman back with us again. They have been to Colorado University Summer School. They said they had a great time up there. They especially liked the cooler weather. Wonder why they don't think it is cool here?

Emily Hamilton also has returned from University of Colorado Summer School of Dancing.

Betty Pigford has had a hair cut and we do mean a hair cut. Is it a girl's burr, Betty?

Summer School Out!

Summer school finally is out. Everyone seem kinda on the happy side because the little books will be closed until September comes.

Juanita Tibbets still is in Robert Lee and we received word from her that she really is having a good time. Glad you are enjoying yourself, Juanita.

"Welcome back" also goes to Doris Ingham. Haven't seen her around for sometime. She also has been in Colorado.

Wonder why Gloria Hicks, Nellie Sutton and Billie Jane Henson were so excited last Thursday night. They were all going around playing detective. Oh well, some people you just have to give up on.

Please, oh please limit your conversation on the telephone to two minutes. Other persons really get aggravated with us for getting on it and talking for about 10 to 15 minutes. It really is annoying to try to get someone and have to try for a solid 15 minutes. Try to remember this the next time you talk on the phone.

There will not be a picture show as announced last week. The film company said it was unable to send us the ones we wanted, so we have

BERT 'N GERT

By Jack Levin

to change companies. But there will be one next week—next Friday to be sure.

'Crazy Man Crazy'

Everyone is trying out his vocal cords on the song, "Crazy Man Crazy." We mean everyone, too. If you could hear some of them, we think you would much prefer the record.

Jackie Brady dropped in the Youth Center for the first time in a many a moon. "Shore" glad you came to see us! Jackie graduated in 1952.

There will be no more Bulldog Stomps for about a month or so. Sorry! ! !

When we asked Grace Boles what has happened to her in the way of excitement, she said she has been eating, sleeping, (bet you thought

Woman Gives Birth To Nineteenth Child

NANTICOKE, PA.—(AP)—A 43-year-old wife of a truck driver gave birth to her nineteenth child, a girl, Tuesday.

The baby was delivered by Caesarean section to Mrs. Ernest Lanning in Nanticoke State Hospital. Seventeen of the Lanning children—12 girls and five boys—are living.

BUSINESS IN CITY

Mrs. L. W. Roth and children of Odessa attended to business in Midland Wednesday.

We were going to say the rest of the phrase, didn't you? She's really enjoying the Summer rest.

That's about "30" for this week. Be seeing ya around.

+ Crane News +

CRANE—Pvt. Don Johnston, Pvt. Ray Knox and Pvt. Art Boothe are stationed at Camp Belvoir, Va., for 16 weeks training after completing boot camp at Fort Hood. Johnston visited his parents, Mr. and Mrs. Wallace Johnston over the weekend before leaving for Virginia.

Mr. and Mrs. Wallace Johnston and daughter, Cheryl, attended the Baptist Encampment last week in Palsano.

Mr. and Mrs. Del Hubbard, Berger, Mr. and Mrs. Ted Hubbard, Fort Worth, and Mr. and Mrs. R. T. Hubbard, San Angelo, were recent visitors in the home of Mr. and Mrs. Wallace Johnston. Del Hubbard and Ted Hubbard are Mrs. Johnston's brothers and Mr. and Mrs. R. T. Hubbard are her parents.

Mrs. Lady Faye Callaway attended the annual Texas Music Teachers Association convention Thursday through Saturday held in Fort Worth at the Hotel Texas. Following the convention she and her mother, Mrs. Lula Scott, visited relatives in Corsicana.

Pvt. Darrell Tomlinson, Fort Bliss, spent the weekend with his parents, Mr. and Mrs. E. R. Tomlinson.

Mr. and Mrs. Lewey Brents have returned to their home in Lowell, Mass., after visiting in the home of his parents, Mr. and Mrs. J. H.

Brents. Mrs. Brents is the former Jeane De Gagne, Ayer, Mass. The couple was married in her home June 28.

Mrs. J. D. Buchanan and daughter, Johnnie Sue, have returned from Fort Worth where they visited in the home of another daughter, Mrs. Charles Hog. Mrs. Buchanan underwent surgery while in Fort Worth.

E. T. Coleman, Fletcher Freeman, D. M. Holcomb, Bruce Ashburn and A. B. Corley were in Pecos Saturday for a barbecue supper and dedication of the new Masonic Lodge building there.

The rocks on half the earth's surface are unfavorable for the occurrence of petroleum.

Strong Communist Ideals Followed By Estes' Hosts

By DWAIN ESTES
LJUBLJANA, YUGOSLAVIA — This is the story of Mr. and Mrs. Zlatnar Peter.
 They are my official hosts while I am living here as a Community Ambassador and for the next month or so I will share their apartment in a big apartment building here.
 They speak no English and I speak no Slovene so it has been a rather tough job learning their story through the help of Misko Knustrin, the young man who lives in the same building and serves as my interpreter.
 Zlatnar is a dentist and he is also a good Communist.
 He is one of the two dentists here in Ljubljana, who will not do any private dental practice on the side, although there are about 80 dentists in the whole city.

Their main job, of course, is working for the state in their profession. My Yugoslav "father" believes so strongly in the Communist ideals that he believes it is wrong to do anything on a private basis.
 I asked Zlatnar to explain how some of the dentists could carry on a private practice.
 Waiting Disasteful
 He said there were not enough dentists to take care of all the people here and some people do not like to wait in line to receive the free dental work. So they simply go to one of the dentists after regular hours.
 Zlatnar works on a monthly salary basis.

He receives 14,000 dinars a month and that is equal to about \$46 in American money. He makes a thousand dinars a month more than the maximum dentist's salary because he is chief of his particular shift. He works six hours a day, six days a week. On two days he works from noon to 6 p.m. and the other four days from 7 a.m. to 1 p.m.
 A beginning dentist—one who has just finished his training—starts off at a salary of 6,500 dinars (\$22). I understand that all beginners, regardless of their profession, begin work at about this same salary.

Zlatnar was a captain in the war and was one of the first to fight with the Partisans in 1941. He is 38 years old now and personally is acquainted with Marshal Tito.
Bomb Kills Father
 He was working on the railroad at the beginning of the war, when Italy invaded Yugoslavia. After the invasion, he and his father began to do sabotage work. His father was killed by a bomb which he was to use in blowing up a bridge.

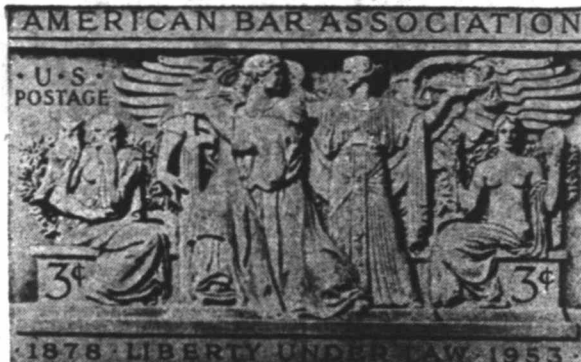

After his father was killed, Zlatnar went underground to escape the Italians. He finally was arrested, however, in January, 1942, and sent to an Italian concentration camp. He remained there until January, 1944, when he was liberated by American forces. He later fought in the islands of the Adriatic Sea.
 In 1945, he served as political commissar in Trieste and was in charge of the political education of the soldiers in the hospital. He received his army discharge in 1946 and resumed his dental training.

Zlatnar married his wife in 1938 and she remained in Ljubljana during the war. Their son was born the day before he was sent to the Italian concentration camp and he never saw him before he left.
 Zlatnar pays 1,200 dinars a month for rent on his apartment.
 The building itself is half owned by the government and half owned by private owners. Zlatnar pays his rent to a manager for the two. I asked him how the state had acquired its half interest.
State Seizes Interest
 Zlatnar explained one of the owners had been a collaborator with the Germans and when Yugoslavia was nationalized, the state seized his interest.
 Zlatnar and his wife together make 25,600 dinars a month (\$84).

This includes the 8,000 dinars earned by Zlatnar's wife, working in the library of the University of Ljubljana and the 3,000 dinars they receive from the government for their child.
 Food for the family and the wages for the maid run to about 12,000 dinars. The water bill is about 135 dinars (45 cents) and electricity costs another 900 dinars.
 With the remaining money, they have to buy their clothes and that is about the most expensive item on any family budget in Yugoslavia.

BUSINESS VISITORS
 Earl Behringer and Frank Patterson of Hobbs, N. M., attended to business in Midland Tuesday.

ENTERTAIN GUESTS
 Mr. and Mrs. Ed Knowlton are entertaining guests this week from Greenville. They are his sister, Mrs. Jewell Graham, and Florence Smith.

STAMP HONORS LAWYERS—A new three-cent stamp honoring the 75th anniversary of the American Bar Association will go on sale Aug. 24. The design was taken from a frieze in the U. S. Supreme Court depicting Justice, Divine Inspiration and Truth. There will be 165 million stamps printed.

Democrats Blast Proposal To Raise U. S. Debt Limit

WASHINGTON (AP)—Key Democrat said Wednesday President Eisenhower will be inviting a major debt boost if he proposes an increase in the 275 billion dollar debt limit in this session of Congress.
 Senators George (D-Ga.) and Byrd (D-Va.) joined Democratic Leader Lyndon B. Johnson of Texas in predicting the Senate will reject any increase at this time.
 And Senator Williams (R-Del.) said in a separate interview that unless the Administration can produce a lot of facts he doesn't now know, he will oppose lifting the statutory ceiling.
 "I don't believe the Administration can get any such proposal through the Senate," Williams said.

Enthusiastic Texas Republicans Draw Bead On Congress For 1954's Elections

By DAVE CHEAVENS
AUSTIN —(AP)— Texas Republicans are looking with lustful eyes on one U. S. Senate seat and a half a dozen House places they think they might win in 1954.

But their enthusiastic plans to nail down and clinch their history-making victory with Dwight D. Eisenhower will not be confined to a flashy drive for major offices. They are already deep into a

door-to-door precinct organization campaign that has as its objective a militant, long-lasting machine to build up Texas as a two party state. They are playing patronage for all its political power. Their knives are

out and already working on Democratic appointees. Texas has fallen into the two-party category only twice this century. In 1928 Herbert Hoover won the state's electoral votes. The second time was last autumn's ride on the crest of the Eisenhower tidal wave.

After 1928 the Republican organization made only a token effort to solidify its gains partly on the theory Hoover's victory was a fluke that wouldn't happen again.

But the new organization headed by National Committeeman H. J. (Jack) Porter, wealthy Houston oil man, believes the Eisenhower sweep was largely the product of basic changes in political thinking that

can be capitalized to build a strong Republican party in Texas. In essence, Porter's plan is an unrelenting appeal for all conservatives to make the GOP their political weapon on every level from dog catcher to senator.

Sometimes the shades of difference in the political philosophy of conservative Democrats and Republicans in Texas are barely perceptible. For example, the chairman of the State GOP Executive Committee is Attorney Alvin E. Lane of Dallas. His law partner is Wallace Savage—chairman of the State Democratic Executive Committee.

In the Texas Eisenhower campaign last Fall they worked closely. Savage was operating under the state Democratic convention man-

date rejecting Adlai Stevenson in behalf of the conservative wing of the party in Texas. Republicans are opening wooing such anti-New Deal Democrats.

Strategy Outlined
The Republican strategy to consolidate 1952's gains is following this pattern in Texas:

1. Claiming the highest possible practical political percentage from patronage. Porter and the Republican organization are latching on to every appointive opportunity that turns up hoping to undergird their organization for the long pull.
2. Strengthening the central party headquarters, bringing in new blood with good Democratic connections, weeding out the old stand-patters who never believed a strong

Republican party could be built in Texas.
3. Early and continued money raising to fatten the state and national war chest for 1954 and to keep the state organization on a favored basis with the national organization. Everybody knows there's a lot of big money in Texas that favors the Republican way of doing things.

4. Organization built from the ground up, beginning with each of the state's 7,000 precincts.

5. Persuasion of high-level citizens to run as Republicans for local, district and state offices. They might offer either as Republicans or as combination Republican-Democrats under Texas' cross-filing law.

Porter announced at a recent rally in Fort Worth that Texas' Republicans are already on the lookout for a strong candidate to challenge Senator Lyndon B. Johnson who comes up for reelection in 1954. Porter himself ran a strong race against Johnson in 1948.

Texas Republicans also believe there are half a dozen congressional districts where they might make a killing against New Deal incumbents. They are especially interested in capturing some seats in the state Legislature.

TO DALLAS

Blanche Grand left Tuesday for Dallas where she will visit her mother.

Reports Of War Casualties To Continue Several Weeks

WASHINGTON —(AP)— American families will be hearing for several days to come of men killed, wounded or missing in Korea, even though the fighting ceased Monday morning.

The public will be reading the names of battle casualties in newspapers two or three weeks from now.

These delays are products of the military system which stresses accuracy above all else in dealing with human lives and of the official in-

distence that the families concerned must be the first to hear that anything has happened to their sons, husbands or brothers.

Pentagon's System
The average lag between the occurrence of a casualty on a field of battle and the receipt of the formal notification by his next of kin ranges from three to five days. Such reports first are checked and rechecked in the unit to which the man was attached and then are relayed to the appropriate headquarters in Washington. Here formal telegrams are prepared and sent to the families, giving brief details and, in case the man is wounded, telling his next of kin where they can write to him.

A tentative battle casualty total for the Korean war will not be available for perhaps 10 days. The casualty reporting and publication system calls first for notification to the families. Thereafter, usually on Wednesdays, the Pentagon has issued a battle casualty summary based upon the numbers of official notifications to next of kin through the previous Friday.

Last Wednesday the cumulative total of casualties reported in the summary was 139,272. During the last 24 hours of the fighting in Korea, the Pentagon received reports of 350 additional killed, wounded and missing, but all of these occurred several days before the truce was signed.

Businessmen Expect Greater Competition
NEW YORK —(AP)— There is little indication of a serious decline in business in the rest of 1953, according to 189 industrial executives polled by the National Industrial Conference Board.

The board reported the executives, although expecting no sharp downturn the latter part of this year, generally felt business in the last half would be on a more competing basis.

reporting is the publication of individual names and addresses. The casualty report appearing in Tuesday's newspapers includes battle deaths and injuries that occurred almost three weeks ago.

Such reports are compiled in the Pentagon and mailed to newspapers and organizations throughout the country for publication on a future date.

It may be years before the final count is completed on the number of Americans who were killed, wounded and captured in the Korean conflict. It was only this summer that the Army issued its final report on battle casualties of World War II.

Korean Veterans Granted Special TCU Scholarships

FOR TWORTH—Texas Christian University will grant all Korean veterans annual scholarships of \$100 starting this Fall, Dr. M. E. Sadler has announced.

"The action has just been approved by our board," the University president said. "It was taken in appreciation of the services of our veterans who have served in Korea. The men and women who qualify will receive \$100 each year while attending school."

To be eligible for the scholarships, veterans must qualify under Public Law 550 and any amendments thereto. Veterans must enroll as fulltime students carrying 12 semester hours or more. Qualification will be based on certification by the Veterans Administration.

"The \$100 scholarship will be given as a supplement to any benefits that veterans may receive from the Veterans Administration," Sadler said.

Businessmen Expect Greater Competition

NEW YORK —(AP)— There is little indication of a serious decline in business in the rest of 1953, according to 189 industrial executives polled by the National Industrial Conference Board.

The board reported the executives, although expecting no sharp downturn the latter part of this year, generally felt business in the last half would be on a more competing basis.

What's wrong with American women?

Their husbands are supposed to be the world's best, yet they have the world's highest divorce rate. What's wrong? Are American women too bossy? Too independent? Too prudish? In the new August Ladies' Home Journal, Dorothy Thompson explores the facts and comes up with a provocative answer. Don't miss it. Get your copy of the Journal and read it today!

* Daddy Ringtail *

Daddy Ringtail And Do Not Pick The Flowers

Uncle Bunkum, who lives at the zoo, once went for a walk in the city. Soon he found himself in a park. The park was a beautiful thing to see. There were great trees, and a little lake where ducks were swimming. Most wonderful of all, beautiful flowers were everywhere. They were happy things to see, except there were signs around and about and everywhere. The signs said: "DO NOT PICK THE FLOWERS."

The flowers were for people to see, you see. Nobody was supposed to pick the flowers, because then there wouldn't be any flowers for other people to see. But now, oh how Uncle Bunkum was wanting some flowers.

He was going to pick some of them, and take them back to his cage at the zoo, but everytime he

started to do it, a policeman said: "Ah-ah-ah! Mustn't do it!"

Policemen really are friendly fellows, but the policeman's business is to see that people behave them-

grew. Uncle Bunkum was going to pick it, but the policeman stuck his head from around a tree for a little surprise. "Ah-ah-ah!" the policeman said. "Mustn't do it!"

And every time Uncle Bunkum decided that he was alone at last, every time his fingers began to finger-walk toward a flower to pick it, again the policeman would pop from behind a tree with an "Ah-ah-ah!"

At last Uncle Bunkum knew that the policeman, friendly fellow, was going to see to the business that no one did what the signs were saying should not be done. When Uncle Bunkum saw that he wasn't ever, ever going to get to pick the flowers, he decided he'd better be happy about. So he did what the signs said and left the flowers for other people to see, and he was happy to do it.

People may as well be happy, you know, with doing the things they have to do. Why not? Happy day!

New First Stringers Command Air Force

By DOUGLAS LARSEN
NEA Staff Correspondent
WASHINGTON—The U. S. Air Force has practically a whole new first team these days.

Gen. Nathan Twining brought it with him when he took over from Gen. Hoyt Vandenberg as Air Force Chief of Staff. It's a team of outstanding younger generals, all with brilliant World War II records, who have risen to even greater prominence since the end of the war.

Their ages range downward from 53 to 47. They've come up as outstanding administrators, planners or commanders in the last seven years, and have had post-graduate training in the cold war, the Korean battle, and Air Force post-war problems. All but one is a pilot.

Top Six Men

Here are Twining's top six:

Lt. Gen. Earl E. Partridge, Twining's Deputy Chief of Staff for Operations, is 53 and has one of the most colorful careers to be found in the Pentagon.

A doughboy in France in World War I, he returned to make his way through West Point and become an Army pilot, then made his mark as one of the Army's best aerial gunners and test pilots.

During World War II he helped set up the gigantic Air Force training program, served with Jimmy Doolittle in bomber operations in Europe, got into the scrap in the Pacific and came back to Washington for a key staff job. In the early days of the Korean fighting he went out there to take over direction of

the Fifth Air Force.

Smoothest Operator
Lt. Gen. Thomas D. White, 52, who will be Twining's Vice Chief of Staff, is rated one of the smoothest operators in the Air Force today. He's lean, cold-eyed and completely efficient.

His experience includes many years with diplomatic missions in China, Russia, Italy, Greece and Brazil.

During World War II he had several assignments in intelligence work and saw combat in the South Pacific. He also has served as liaison officer with Congress—an important background in the current Air Force tussle with the Administration over budget cuts.

Fighting General
Lt. Gen. Glenn O. Barcus, 50, who takes over as vice commander of the important Air Training Command, is the famous flying general who couldn't resist going on missions against the Chinese Communist forces during his recent stint as commander of the Fifth Air Force in Korea.

In World War II in Europe he established himself as one of the outstanding authorities on tactical aviation, which ultimately led to his taking over and revitalizing the Tactical Air Command after the Korean fighting started.

Training Expert
Maj. Gen. Kenneth P. McNaughton, 50, the new Vice Commander of all Far East Air Forces, is a veteran Army Air Corps pilot whose special field is administration and training.

Before taking key assignments with the strategic bombers in the Pacific during World War II, he had been directing important phases of the training command back in the States. He is rated a command pilot, combat observer, and aircraft observer.

Stays On Ground
Maj. Gen. William F. McKee, 47, is the only member of Twining's new team who isn't a pilot himself. He becomes Vice Commander of the Air Materiel Command. Until World War II he was an Army artillery officer.

Joining the Blue Yonder Boys in 1942, he quickly established himself as an inspired planning officer and staff man. In 1946 he was commanding general of the headquarters command of the Air Force in Wiesbaden, Germany. Most of his duty

since then has been in important Pentagon jobs.

Maj. Gen. William H. Tunner, 47, new Deputy Commander-in-Chief of the U. S. Air Force in Europe, is better known as "Mr. Airlift." He directed the famous Berlin airlift of 1948 which did much to cool off the Russians in their cold war tactics.

Following that he organized the famous airlift Maneuver for Operation Swarmer and then set up the airlift to Korea when the show opened. During World War II he ran the famous "hump" operation in China.

On Twining's First Team: Left to right, Generals Partridge, White, Barcus, McNaughton, McKee and Tunner.

ANYBODY WANT FOUR BUFFALO?

AUSTIN—(P)—Texas' total of unwanted hayburning buffaloes is now four.

The State Parks board has two surplus bison at Palo Duro Canyon it would like to get rid of. They eat too much.

L. C. Morrison of Austin has two on his farm at Leander he'd like to get rid of: They eat too much.

Morrison tried to have his two buffaloes slaughtered at the city abattoir, ran afoul of an old state law that says it's unlawful to kill buffaloes in Texas, except 16-year-old males. Morrison's buffaloes don't qualify.

Dams Started Trouble, But May Save Mighty Rio Grande

LAREDO—(P)—The river Americans call the Rio Grande and Mexicans the Rio Bravo nowadays is neither big nor fierce.

Boundary commission records show the Rio Grande country is in the grip of the greatest drought in its recorded history. It began in March, 1943, and year after year rainfall deficiencies have accumulated.

Drought and man-made dams have reduced the flow of the once-mighty Rio Grande.

The river's flow began dropping back in 1915 with construction of the Elephant Butte dam in New Mexico and continued as others were built—the Boquilla reservoir on the Rio Conchos, Don Martin on the Rio Salado, Maria Gomez on the San Juan; a dam on the Devil's River above Del Rio, and others.

The big dams do not account for all of the water stoppage.

During recent years as soil conservation practices were launched in Texas, thousands of small dams and tanks were built on creeks and arroyos.

One county downstream from Laredo boasts one tank for every square mile. Although this county doesn't take a great amount of water from the river for irrigation, it still uses more than it contributes.

The solution? Rain—and dams on the river itself to store floodwaters for release in lean years.

Now almost finished, 75 miles downstream from Laredo is the huge, five-mile-long Falcon dam, one of three such dams authorized by the 1944 water treaty between the United States and Mexico.

Falcon will protect the Lower Valley in years to come—but it won't help upstream points.

Laredo, Del Rio and Eagle Pass have joined forces to work for so-called Middle Dam.

The three cities have formed the Central Rio Grande Water Storage Committee and begun enlisting the aid of Texas senators and representatives.

As A. E. Guajardo, Laredo, chairman of the committee, put it: "A year ago we didn't think the Rio Grande could go dry at Laredo. Believe me, it can happen at Eagle Pass next year and at Del Rio the year after. The situation is more than an emergency; it approaches a calamity."

Clergymen Reported Beaten By China Reds

HONG KONG—(P)—A pro-Nationalist newspaper Wednesday said 30 Christian clergymen in the Communist China City of Szewui were arrested Monday on charges of aiding a plane which dropped anti-Red leaflets over the city.

The newspaper Wah Kiu Yat Po said the clergymen were tried and beaten, then released.

List Of Petitioners May Halt Wet Vote

WAKAHACHIE—(P)—A group fighting a plan to legalize beer in Ellis County has a plan it hopes will defeat the wet movement.

A group of ministers and laymen have approved a plan to have printed in all newspapers in the county names signed to any petition asking a beer election.

Speakers at a meeting said they believed a sufficient number of signers could not be obtained for the petition if it was known the names would be published.

Field Artillery Unit Decimated By Reds

SEOUL—(P)—The Army Wednesday said the 556th Field Artillery Battalion was the American unit overrun by Chinese July 14 in the last big Communist offensive on the east-central front.

It was one of the worst massacres of Americans in the Korean War and the second in Korea for the battalion.

The battalion came out with only five of its 106mm howitzers. There were heavy losses of personnel and equipment, but they were not detailed.

ODESSANS HERE
Mrs. F. L. Miller and Mrs. Claude Johnson were in the city Tuesday from Odessa.

Dallas Columnist Steals Local Scribe's Thunder

Every now and then someone will leave a Dallas News on the counter of the cafe where we drink our coffee. Then we get a chance to read Paul Crum's column, "Big D".

About a month ago I wrote "STREET CORNER PICKUP": A man who seemed to be an expert on lawns was giving another some advice about fertilizing and such. Anybody who wants a fine lawn, he said, should never, never, never the lawn-mower to cut close. The mower should be high so that the grass will shade the roots. Just recently, he said, his wife complained because he didn't set the mower blades closer to the ground.

Said the man: "I told her, 'Don't you dare set your hand to those blades. You just push!'"

Those are Mr. Crum's very words. It is a good story with a lot of truth in it. Mr. Crum got paid for writing it in one of the country's big dailies. We pay advertising rates, week after week, to bring you tips on keeping your lawn in order. Queer world! Ho! Hum!

But back to his story—Suppose you wanted to make the little woman's work easier—you might call us. We will SHARPEN her mower for her! You might even get her one of those swell Jacobson Power Mowers—just to show her how considerate you are?

Locations Set For 53 Projects In Midland RRC District

Twenty West Texas counties shared in the 53 new locations for oil and gas explorations on which drilling applications were filed with the Midland (No. 8) district office of the Railroad Commission of Texas during last week.

Ten of those projects were wildcats and the other 43 were in or adjacent to proven fields.

In addition, nine amended applications were filed during the same period. Those applications covered the shifting of locations, revisions projected depths or other changes on projects which had previously been reported.

Howard At Top

Howard County was at the top of the list in total new locations with 13 field projects reported.

Andrews County was next with eight new locations and Peecos County was in third place with seven new explorations.

Gaines County came in fourth place with five. Hockley, Loving and Scurry each had three new locations.

Ector and Winkler were listed for two new projects each.

Borden, Crane, Garza, Lynn, Sterling and Ward each were listed one new development.

The wildcats were scattered as follows: Andrews, one; Borden, one; Crane, one; Gaines, two; Garza, one; Hockley, two; Lynn, one; and Sterling, one.

Andrews County

Shafter Lake (Yates)—H. Bryan Poff of Fort Worth No. 8 University, 530 feet from north and 500 feet from east lines of the southwest quarter of section 16, block 14, University survey, rotary to 3,200 feet.

Shafter Lake (Yates)—H. Bryan Poff No. 7 University, 530 feet from north and 1,433 feet from east lines of southwest quarter of section 16, block 14, University survey, rotary to 3,200 feet.

Furman-Mascho—L. F. Oil Company of Houston No. 3 Stanolind-University, 1,320 feet from north and 880 feet from west lines of northeast quarter of section 6, block 8, University survey, combination to 4,800 feet.

(Field Name Pending) (to deepen)

Conoco No. 1-37 (University), 690 feet from south and east lines of section 37, block 1, University lands survey, rotary to 14,000 feet.

Shafter Lake (Yates)—Magnolia No. 4 State-Perry, 330 feet from east and 1,430 feet from north lines of the lease, which is the south half of the northwest quarter and north half of southwest quarter of section 11, block A-36, pal survey, rotary to 3,200 feet.

Shafter Lake (Yates)—Cabot Carbon No. 1-C University, 1,850 feet from south and 330 feet from east lines of section 15, block 14, University Lands survey, rotary to 3,200 feet.

Wildcat—Ralph Lowe, et al. of Midland No. 1 Deep Rock, 1,980 feet from north and 660 feet from west lines of section 5, block A-46, pal survey, rotary to 12,500 feet.

Shafter Lake (Yates)—T. H. McElvain of Santa Fe No. 1-A M. M. Miller, 405 feet from north and

400 feet from east lines of section 12, block A-36, pal survey, rotary to 3,500 feet.

Borden County

Wildcat—Vickers Exploration, Ltd. of Oklahoma City No. 1 J. R. Canning, 660 feet from north and 1,980 feet from west lines of section 127, block 25, H&TC survey, rotary to 7,500 feet.

Cochran County

Slaughter (to deepen)—Magnolia No. 23-DD F. L. Woodley, 1,238.1 feet from west and 1,440.5 feet from north lines of labor 6, league 57, Oldham cal survey, rotary to 5,100 feet.

Crane County

Wildcat—Humble No. 5 Jax M. Cowden, et al., 1,980 feet from north and 660 feet from west lines of section 25, block X, OCS&DRONG survey, rotary to 11,100 feet.

Dawson County

Cedar Lake S. E. Pool—Texas Crude Oil Company No. 1-122 Lindsey, 660 feet from south and 560 feet from west lines of southwest quarter of section 122, block M, EL&RR survey, rotary to 5,200 feet.

Dickens County

Girard (Tannehill Sand)—Pacific Western Oil Corporation No. 2 S. M. Swanson, 660 feet from west and 2,310 feet from south lines of section 162, block 1, H&GN survey, rotary to 4,650 feet.

Ector County

Goldsmith (Clear Fork)—Warren Petroleum Corporation No. 6-G Scharbauer, 660 feet from north and 560 feet from west lines of southwest quarter of section 27, block 44, T-1-N, T&P survey, rotary to 6,450 feet.

HEADACHE ON HAND—Pvt. George Abanava, stationed in Bamberg, Germany, is a millionaire, but it doesn't do him much good. It's all in Greek drachmas—15 billions of them—which he learned he was heir to when he visited his parents in Greece recently. Due to Greek money regulations, he can't take his bankroll out of the country. Here he looks over a handful of drachmas, which are worth 30,000 to one dollar.

Newsman's Delight: Texans Romping In Foreign Corrals

By BRUCE HENDERSON
Associated Press Staff

It's not true that an unidentified Texan preceded Norkey and Hillary up Mt. Everest by 24 hours. But it seems from news dispatches that Texans do more world-traveling and headline-making than numbers warrant.

Maybe it's Ben Hogan casually winning the British Open. Or El Paso lady matador Pat McCormick dispatching her bull in some Plaza de Toros south of the Rio Grande. The Texan is bound to crop up, usually in entertainment circumstances.

This has caused an alarming case of mass myopia among newspapermen. The most microscopic four-line item from, say, Monte Carlo must be scrutinized for the inevitable name of somebody from Houston, Tahoka, Muleshoe or Cedar Bayou.

Possibly Texans, known far and wide for their captivating reserve have unwittingly intrigued the world's newsmen. Anyway, a traveling Texan hardly ever escapes notice.

Here's what back-home editors came across on a recent night:

Dallas model takes out marriage license with golfer-sparkplug heir Frank Stranahan at Chicago.

Texas pilot whose jet crashed in sea off Korea rescued by helicopter so fast feet stay dry.

Navy announces Dallas captain to command San Diego Fleet training group.

Two Texas golfers advance in Public Links Tourney at Seattle.

North Texas Country Squire Byron Nelson playing golf again in Arkansas.

Mumps hit National Boy Scout jamboree in California. And who's down with the malady—four juniors-size Texans.

The situation is such that when an annoyed man several months ago insisted to Georgia police he was not from Texas they wouldn't believe him. Sure enough, he was—and they brought him back on charges of escaping from a Texas jail.

Oil Men List Factors Justifying Hike In Price Of Gasoline, Other Products

By SAM DAWSON
NEW YORK—(AP)—Gasoline price hikes just now snag the pocket-books of many a vacationing motorist.

They puzzle some congressmen who can't see how higher prices fit into the law of supply and demand which supposedly was restored with the end of price controls. The supply of crude oil is kept so closely tailored to demand as to look like

price fixing to some inquiring congressmen.

Oil men contend price hikes are necessary and just, and in the long run in the interest of national defense. Their arguments run like this: Search Goes Deeper

The price hike in crude oil, and in gasoline, fuel oil and other products which followed, was based on rising operating costs.

The search for oil is becoming

more expensive. They have to drill deeper each year to find it. The cost of transporting oil, refining it and distributing the products to the public keeps going up.

In the interests of national defense, the oil industry is maintaining a reserve of a billion barrels a day carrying from which it gets only carrying costs, no revenue.

Earnings statements of oil companies show profits for the first

half of 1953 are behind those of a year ago, a trend contrary to that in many other industries. The oil industry expects the recent price hikes to reverse that picture.

Under the law of supply and demand, operating costs can be passed along in higher prices only if: (1) The consuming public will accept them; and (2) competitors don't under-cut the price.

That's where oil men have to bring up extra arguments. Because supply and demand in their case frankly is tailored by state laws to see that only enough oil is taken from the ground to meet current demand. These conservation laws prevent waste of the nation's reserves of oil.

Encourage Exploration

They also incidentally put a stabilizer on prices, legally maintaining a balance between supply and demand, and thus discouraging price cutting.

Without conservation rules oil might be pumped too fast from a given oil field, so that the underground pressure needed to force oil to the well is expended quickly and a major part of the oil may be lost forever.

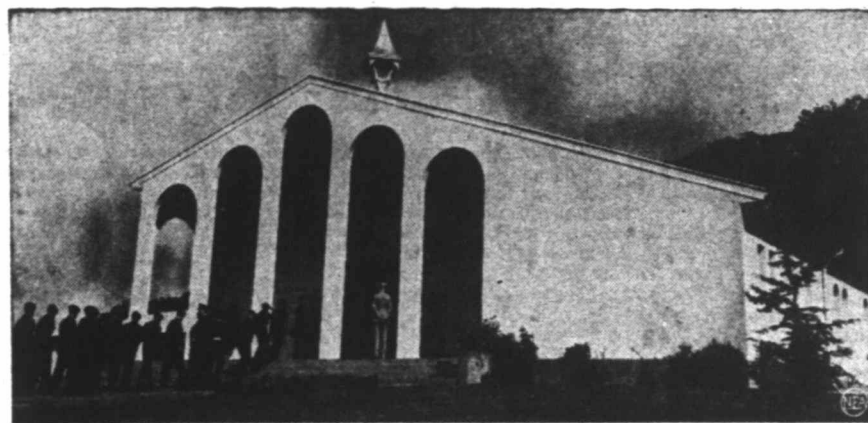

The nation needs these oil reserves. For defense, it also needs to encourage the search for more oil fields. More than 47,000 new wells are being drilled this year, a record.

Depletion Allowance

Oil men insist that to get men to take drilling risks (they strike oil less often than they end up with a dry hole) there must be the incentive of profit. With operating costs rising, prices must rise, too, or risk-taking will drop.

So goes the oil men's argument. It is the same argument used to justify the 27.2 per cent tax allowance for oil depletion the industry enjoys.

Small producers and refiners have an added argument in defense of hiking prices although supplies of oil products are ample. They contend that big oil companies can survive even if running on small profit margins for a time, but that the little man hasn't the financial reserves that sustain the big one. Some contend that without the recent price hikes they'd have had to close down.

NEW SHAPE CHAPEL—Soldiers file into the new SHAPE chapel at Camp Voucou, France. Gen. Matthew Ridgway inaugurated the all-denominational chapel shortly before he left for Washington, D. C., to assume his new assignment as Army chief of staff.

States Wipe Secrecy Mask From Public-Aimed Action

CHICAGO—(AP)—Secrecy in government took a trimming in many state legislatures this year.

Lawmakers took action that had the effect of reducing the total area of secrecy by opening the doors to records and meeting concerned with the public's business.

There is a movement among newsmen to make sure that the people can be kept fully informed about what is going on in government. It is dedicated to the principle that the people have the right to know.

A survey by The Associated Press shows that foes of secrecy made noteworthy progress in the long 1953 state lawmaking season now virtually ended. But there were reverses, too.

Here is a brief summary of some of the actions by legislatures:

Tennessee—Approved a bill requiring local school boards to hold open meetings when acting on any matter involving public funds.

Idaho—Adopted a law stating all meetings of county, city and school boards at which final actions are taken must be open to the public.

Open Official Records

Washington—Enacted a law admitting the public to all final-decision meetings of state and local boards, commissions and agencies.

Ohio—Approved a bill requiring open meetings of all state boards, commissions and agencies.

California—Adopted legislation requiring open meetings by local governing bodies, and declaring a state policy access to public records.

Indiana—Enacted an anti-secrecy law making it the state's policy to keep official records open to public inspection.

South Dakota—A new law requires all state boards and commissions to file detailed minutes of their proceedings with the state comptroller, and makes them open to the public inspection.

Maryland—Killed a "gag" bill that would have forbidden law enforcement officers to talk with newsmen (for publication) about a criminal case before it came to trial.

Pennsylvania—House and Senate appropriations committees opened hearings on departmental budget requests to newsmen for the first time within the memory of old-timers.

Florida—Meetings of the Senate-House conference committee to

iron out differences in the general appropriation bill were open for the first time in years.

The number of states that have opened their welfare rolls to public inspection rose to 22.

They are Indiana, which started the series of such actions in 1951, Illinois, Kansas, Tennessee, Alabama, Utah, South Carolina, North Dakota, Oregon, Iowa, North Carolina, Arkansas, Florida, Oklahoma, Wisconsin, Montana, Georgia, Mississippi, Virginia, Louisiana, Michigan, Missouri.

Welfare rolls in Washington were opened slightly so that a citizen can ask if a certain person is on the rolls, and get a "yes" or "no" answer.

Right-to-Know Reverses

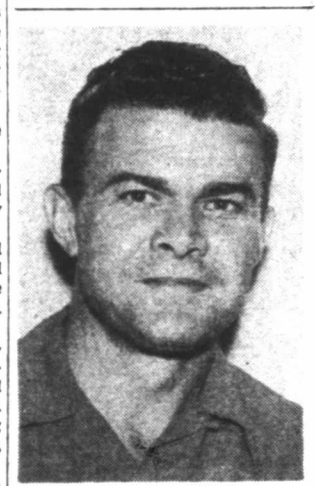

Right-to-know reverses included these actions by legislatures:

North Carolina—Changed the state's budget act to permit the appropriations committee and its subcommittees to hold closed meetings while considering the budget. An open meeting is required only for final action.

Maine—The interim legislative research committee was authorized to hold hearings in private if it felt publicity would hinder its investigations.

West Virginia—Rejected a resolution to require a committee investigating road commission practices and policies to open all sessions to newsmen.

Nebraska—Defeated a proposed change in rules that would have permitted publication of information on how each member voted in committee.

AD SALESMAN—Curtis Hollis, a native West Texan, has joined the classified department of The Reporter-Telegram as a salesman. Mr. and Mrs. Hollis and three children reside at 307 Waverly Drive.

Poet Coffin Visit Set At Sul Ross

ALPINE—The West Texas public is invited to attend an appearance of Robert P. Tristram Coffin, outstanding American poet, at an all-college assembly in the Sul Ross State College auditorium at 9:30 a.m., August 4. There is no admission charge.

The invitation is extended by students majoring in English at Sul Ross, who are sponsoring Coffin's visit on that campus.

Juarez Bans Women's Employment In Bars

JUAREZ, MEXICO—(AP)—Mayor Pedro N. Garcia has ordered bar owners and drive-in operators to stop employing women as barmaids.

The mayor's order affects about 230 women employed in this Mexican border resort town's 70 cantinas.

City Attorney Clemente Bollo said the mayor's order was issued in accordance with federal labor law which stipulates that no woman shall be allowed to work as barmaids in "centers of vice."

BUSINESS VISITOR

Mark Blanton of Roswell, N. M., attended to business in Midland Wednesday.

Midland Gins Add Machinery Despite Poor Cotton Outlook

The cotton outlook is mighty poor, but at least two Midland gins are adding new machinery and facilities for the coming season.

There'll be more cotton than last year or for the last two years, but officials assert, "that isn't saying much."

The Farmers Co-Op Gin Company at Indiana and Weatherford Streets almost has completed installation of new equipment, and says Perry Collins, manager, "We may not have it ready for the first bale, but we'll have it ready for the main season."

"We've added quite a bit," Collins continued.

"There are four new gins, new lint cleaners, new overhead cleaners and new feeders. The new equipment will really help out in processing cotton this season."

But, Collins was quick to point out, "the outlook in the ginning business looks like hell."

"There'll be quite a bit of good cotton from irrigated fields," he said, "but dry land cotton doesn't look so hot. The bulk of the cotton in this area is, of course, from dry land farms."

"We'll have more cotton this year than in the last two years, but that's certainly not saying much."

W. N. Rogers, manager of the Midland Co-Op Marketing Association, Inc., which is adding new lint cleaners and a new condenser, agrees with Collins in that this

year's outlook, though poor, still is better than last year's.

"We've got more irrigation going on this year and more acreage of dry land cotton," he pointed out.

"And, I believe the dry land cotton this year possibly will be better than last year's. At least the early picture shows this to be true."

"This gin handled about 3,500 bales last year—but I think we'll probably gin around 5,000 this season. There'll certainly be no bumper crop this year, but the situation will be improved."

The Midland association gin will have its new equipment ready by August 20, Rogers said, but he added, "I don't look for any cotton to

be ginned in Midland until after September 1."

Officials of Planters Gin Company could not be reached Tuesday for comment, but it was generally understood this firm also is adding new equipment.

Wildlife Project To Honor Engeling

AUSTIN—(AP)—The Game and Fish Commission has honored the memory of Gus Engeling, wildlife management area manager slain by a hunter near Palestine.

The commission designed the Anderson County project as "the Gus Engeling Wildlife Management area." A dedication ceremony will be held this Fall.

Engeling was slain while doing research work in the area.

HERE FROM ANDREWS

Mrs. D. A. Yarbrough and Dale Ferguson of Andrews visited in Midland Tuesday.

Some of the paint which was applied in 1300 is still on England's coronation chair.
