GOOD ONLY IN TEXAS AND OKLAHOMA

2.150 Pounds Amount of Food You Eat Per Year

You will eat a ton of food this year-2,150 pounds, the statisticians say. Milk, fluid and canned, and other dairy products, will account er to an employee of the office for \$2 for half of this. (Milk is heavy.) You will eat about 150 pounds of meat, and about the same amount of fresh fruit; 150 pounds of fresh vegetables, not counting 150 pounds of potatoes.

In bread and cakes and breakfast foods and macaroni, you will consume 230 pounds of flour and cereals. Sugar, 102 pounds of it, is the next most important item. Of canned fruits and vegetables, you will eat 38 pounds, states Today.

CONSTIPATED **30 YEARS**

never felt better. I sleep soundly all night and enjoy life." - Mrs. Mabel Schott If you are suffering from constipation, sleeplessness, sour stomach, and gas bloating, there is quick relief for you in Adlerika. Many report action in 30 minutes after taking just one dose. Adlerika gives complete action, cleaning your bowel tract where ordinary laxatives do not even reach.

Dr. H. L. Shoub, New York, reports: 'In addition to intestinal cleansing, Adlerika checks the growth of intestinal bacteria and colon bacilli." Give your stomach and bowels a real cleansing with Adlerika and see how good you feel. Just one spoonful relieves GAS and chronic constipation. Sold by all druggists and drug departments.

tion next year, and not earlier.

SELF-GOVERNMENT became a real- | signsetter business, the Times ity for the Philippines on November 15, according to schedule, and it is now up to the islanders to utilize their

independence wisely and safely, with only general supervision by the United States. In the presence of a great throng of distinguished persons in the magnificent legislature building at Manila, Manuel Quezon, veteran advocate of independence, was inaugurated as the first president of the

Manuel Quezon commonwealth. Representing the United States were Vice President Garner, Speaker Byrns and a large party of senators and representatives with their wives. Many foreign governments sent unofficial observers, and the leading statesmen of the islands were present.

After Quezon had taken the oath of

office, Sergio Osmena, vice president, and the members of the new unicameral legislature were sworn in. President Roosevelt was personally represented by Secretary of War Dern. who made a pleasant speech and read the proclamation, simultaneously issued in Washington, terminating the old government of the islands and establishing the commonwealth government which is to lead to complete independence of the archipelago in ten

years. A cablegram of congratulation also was received from Mr. Roosevelt. Because of the danger of outbreaks by the extremist followers of Emilio Aguinaldo who have opposed Quezon, the constabulary was out in full force, thousands of its members being brought in from all over the archi-

The day before the inauguration the legislature held its final session and Frank Murphy, the last of the governors general, appeared before it to review the accomplishments of the American regime that lasted 36 years. "Having found democracy good for itself, America believes it will be good for the Filipinos" he said. Mr. Murphy was then sworn in as high com-The entire American delegation at-

Floyd Olson of Minnester on the co-ordinator of the New and Gov. Deal, is having a hard time co-ordiistries. An industry-labor conference has been

arranged for December 9 in Washington, but it is evident that some very considerable industries will not be represented. First, the Ford Motor company refused curtly to send a representative; then the Automobile Manufacturers' association objected to the affair, announcing its

public interest." Nevertheless, the conference will be held, and representatives of labor are expected to advocate a plan for licensing industry, a proposal that all government contractors comply with code provisions and the 30-hour week.

F SECRETARY ROPER in address-If SECRETARY ROLL IN SECRETARY AND IN SECRETARY ROLL IN SECRETARY ROLL IN SECRETARY WAS A SECR facturers of America in New York was speaking with authoritative knowledge of the intentions of the administration, business may feel considerably reassured. He said "the breathing spell which we are now enjoying is to be the end of governmental regimentation' He declared business was the "scapegoat" of the depression and he upheld the profit system. Of Mr. Roosevelt's announcement of a "breathing spell," the secretary said:

"This declaration of the President is clear-cut and concrete. It means specifically that the basic program of reform has been completed. It means that business no longer needs to feel any uncertainty as to what may come in the future with respect to governmental measures."

According to a Washington dispatch in the New York Times, informal orders have been issued by President Roosevelt to administrative officials to killed and many wounded by the police cut federal expenditures under the 1937 budget to \$500,000,000 less than the newly estimated total for 1936.

As a result, the disputch says, the lives of many federal bureaus and munity in Egypt, and for a long time agencies were reported to be hanging it has been understood that Mussoin the balance.

The economy wave is heightened by up discontent against Britain there.

OCEANS AND HILLS SLOW DOWN EARTH: DAYS LENGTHENING

French astro-physicists are completing a series of calculations which prove this world of ours is slowing down, like a wobbly top, as it spins around its polar axis.

The loss of speed is estimated by scientists at the Meudon observatory, near Paris, at one-ten thousandth of a second a month at the present time, which means that in 1,000,000 years our 24-hour day will be lengthened to a 41-hour day.

This phenomenon is caused partly by the fact that the earth is losing the perfect streamlined curves of its early days and is becoming wrinkled with mountains and volcanoes which Thory, originatus impede its whirling.

The main factor, however, is stated to be found in tidal movements. Working under the combined influence of sun and moon, oceans bulge out and act as brakes on the rota tion of the earth. Another important cause is found in geological disturbances brought about by the shifting of internal masses. This flinging about of the world's contents, like so much loose baggage in a freight car, tends to detract from the constancy of the earth's spinning.

Calculations to date show this loss of speed increases progressively so that 100 years hence the earth's rotation will have suffered a loss of 18 seconds, and within two centuries, one minute and 12 seconds. In 2,000 years it will be one hour and 50 minutes behind its merry-go-round schedule. This lengthening of the day is explained by the longer time it would take for the earth to complete one single turn on its polar axis.

The majority of these calculations are based on the studies of tidal actions on planets and their satellites carried out by the astro-physicist, M. Antoniadi, and his collaborators at the Meudon observatory.

This clocking of the speed of the globe's rotation is entirely apart from computations regarding the changes in time that it takes the earth to revolve around the sun every year.-Detroit News.

Don't Entrust Your Own or Your Family's Well - Being to Unknown **Preparations**

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the fastest methods yet dis-covered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store — simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this — and see that you get what you want.

how are you going to induce men to be moral without either laws or religion? Are you to depend on

IT WORKED FOR ME

MORE people could feel fine, be fit and regular, if they would only follow the rule of doctors and only follow the rule of doctors and hospitals in relieving constipation.

Never take any laxative that is harsh in action. Or one, the dose of which can't be exactly measured.

Doctors know the danger if this rule is violated. They use liquid laxatives, and keep reducing the dose until the bowels need no help at all.

Reduced dosage is the secret of aiding Nature in restoring regularity.

Reduced dosage is the secret of aiding Nature in restoring regularity. You must use a little less laxative each time, and that's why it should be a liquid like Syrup Pepsin.

Ask your druggist for a bottle of Dr. Caldwell's Syrup Pepsin, and if it doesn't give you absolute relief, if it isn't a joy and comfort in the way it overcomes biliousness due to constipation, your money back.

The Day Defore Thanksgiving

New England Thanksgiving Busy Time

"HANKSGIVING day! How these words spelled days and days of work and worry for the colonial housewife! A festive holiday it was called by proclamation, observes a writer in the Boston Herald, but actually it represented a day which demanded more preparation than most any other in the year. Our old New England traditions required it-the Puritans did, so must we-was the common understanding of the day.

In days of yore grandmother would start her Thanksgiving preparation weeks in advance. The pies must be made. Of course she wouldn't serve mince ples that hadn't "ripened." They were made in quantity and put down cellar where they frequently froze to a solidity overcome only by a hot oven just before the feast,

In passing it might be well to remind you of the custom in one New England family to have three pieces of pie for breakfast on Thanksgiving morn. Mince, apple and squash were the three dictated by tradition.

Well in advance of the traditional day one would see grandmother take down the seasoning used but a few times a year, the crackers would be ground up and gradually the stuffin' for the turkey was prepared-this also went down cellar to ripen. We mustn't forget the plum pudding which was made well in advance and hung in a bag up in the attic suspended from a nail so interested mice could not approach.

Then came the days before Thanks giving. Sons were drafted to collect and crack the butternuts, walnuts, beechnuts, etc. (and more than one finger was smashed in the process). Daughters were drafted to peel squash, turnips, carrots, potatoes, sweet and white, and of course the proverbial tearproducing onions.

The turkey must be caught, killed, plucked, singed and hung up for a day before he was brought to the kitchen. Grandmother must make her famous nut bread for William ("he does like it so when he comes home"). "Sadie, you make the fudge-Alice, you make the molasses candy-Sue, you make-" and so it goes. Everyone hustles, all wanting the same dishes, the same stove cover, the mixin' spoon, etc.

"Johnnie. Oh Johnnie! Go down to

Thanksgiving Preparations Started Long in Advance.

the village and get me some more crackers-Glory me! I've run out of seasoning"-and the errands start. These were typical New England days

of preparation for the Thanksgiving feast, all of which must be executed in addition to the regular chores of making butter for market twice a week, churning the cottage cheese, collecting the eggs, etc., etc.

Then came the day-the house must be spic and span. Dozens of pictures must be dusted, the parlor must be opened up, wood brought in for the extra stove, chestnuts gathered to put on the fireplace hearth-and on went

the great process of preparation. The folks came, bugs and kisses went the rounds, the new baby was chucked under the chin and an immediate retreat to the kitchen by the feminine definite ideas of just what a pumpkin members took place. By one thirty or | pie should be from color to taste.

PLYMOUTH ROCK

BECAUSE the proprietor of a home for tourists solicited patronage on historic old Plymouth Rock in Massachusetts, he was brought before the town council of Plymouth within whose border the old rock lies. The ruling of the council was that the old rock does not belong to the town or to any private individual but to the entire country, all Americans having the same rights of ownership-in this shrine.

two the feast took place-and then the dishes. Stacks upon stacks of dishes, pots and pans (usually the turkey pan went under the sink for scouring the following day).

Games, gossip, etc., occupied a brief period until time for supper, when again the kitchen staff swung into action and made turkey sandwiches, poured the cider and cut up the pies. As the lights were blown out it was

unusual to hear the women folks say, "Didn't we have a good time, but isn't Thanksgiving a tiresome day!"

This was the Thanksgiving of yore contrasted to the modern Thanksgiving of a restful morning, a motor ride through the country or a ride "in town," a sumptuous dinner prepared by

The Wonderful Feast is Served to the Happy Guests.

chefs who have vied with grandmother and her recipes until even she is forced to admit that she has been surprised -a delightful matinee at the theater and an evening in the game cellar at home. What a contrast-and what a pity that grandmothers of old couldn't be here now to reap the benefits of the advance of New England family tradi-

THANKSGIVING PIE

Thanksgiving Pumpkin Pies

From the time the first golden pumpkin makes its appearance until the last one has been taken out of storage, there's no more universally popular dessert than pumpkin pie. Although canned pumpkin is available at all times and makes excellent pies, pumpkin pie enjoys a definite season and is most appreciated during the autumn months. Everybody has his own very

IRON DOG GROWLS

The use to which the phototube popularly known as the electric eye. is put are literally numberless. One of the most peculiar is used by a practical joker to give voice to an fron dog on his tawn. When a visitor approaches he is startled by growts for on his approach he interrupts a beam of light focused on an electric eve and that sets off the vocal mechanism-a big, rancous buzzer, -Oil

How Calotabs Help Nature To Throw Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.

How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxines.

Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.

Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of colds.
