Titles, Report on Value and

Occupancy of Lands, Etc.

Will Buy and Sell

HORSES, CATTLE AND SHEEP

On Commission.

All Business placed in my hands will receive prompt

personal attention.

White Slavery.

The World's graphic and shocking stories of white slavery in the coal districts of Pennsylvania will be everywhere read with painful interest. But they will not accomplish the object for which they are written if they fail to force the emancipation of the wretched miners, either through the shame or the fears of their selfish pharisaical oppressors. The mine owners and iron-producers of Pennsylvania have figured before the world as the special protectors of American labor. While shouting for a high tariff they have pretended to deplore the wretched condition of the laborers of Europe and have asked American workmen whether they desired to be brought down to that level. And while asking the question they are either profiting directly by the misery and injustice meted out to the thousands of wretched workers in their mines or are aiding those who do.

One of the worst features of this cruel system of the coal monopolists is that exposed in the World's correspondence yesterday. The poor miners are compelled to pay \$9 each yearly out of their scanty wages, if married, and \$6 if single, to supply the salary of a doctor whose duties can be readily imagined. He is kept by the companies to give such convenient evidence before a Coroner's jury, in case of accidents, as will protect the rich owners from responsibility for criminal carelessness and neglect. So arbitrary are the slave-drivers that a miner is discharged instantly if he consults any other doctor or refuses to pay the fee required for the maintenance of this convenient medical witness. This is an outrage sufficiently shameful without the aggravation of intemperance and incompetency in some of the contract doctors.

The people ought to take this matter up and demand a reform. Public sentiment forced the abolition of the black slavery of the South. Public sentiment ought to drive out the white slavery of the North. The oppressed and cheated miners living on 30 cents a day cannot protect themselves. The American people who detect injustice and oppression ought to do battle in their behalf.—N. Y. World.

HOW TO BE HEALTHY.

A Noted Pennsylvania Philanthropist Opens His Big Heart and Writes Words of Wisdom.

The various "health hints" which have been going the rounds of the press for several years, writes J. H. Williams, are becoming rather monotonous, and it is about time they had fallen into innocuous desuetude. Something more practical and sensible is demanded. The subjoined are warranted to go right to the spot and save many valuable lives, if the directions are strictly followed.

Refrain from eating toadstools in mistake for mushrooms just after taking a bath, or between meals.

Avoid standing under a ten-ton safe which is being raised to the fifth story of a building with a rope having one broken strand. The safe is liable to make a mash, and the corpse wouldn't look pretty.

It is not conducive to health to bathe in water hot enough to boil an egg. Misadventures who have tried it in heathen countries have lost their lives.

If you go up in a balloon and suddenly remember when at a height of 5,000 feet that your life insurance policy has expired, your life may be prolonged by waiting until the air-ship touches terra firma, before you step out to have the policy renewed.

Don't go West, armed with a pocket pistol, to exterminate Indians. The loss of the scalp is painful, and wigs are expensive.

Should you secure passage for a trip to Europe and find the vessel had departed with your baggage ten minutes before you reached the pier, don't jump overboard with the intention of swimming across. A shark might grab you by the hind leg before you had proceeded 500 miles.

If you are without money and without friends, and wish to leave this world, don't attempt suicide. In case of failure you would get arrested and locked up. Secure a job in the New York aqueduct.

Don't attempt to shoot the whirlpool rapids at Niagara in a barrel. Use an iron safe for that purpose, and then there's one fool less in this world. If you are a miser, you will find when a fire breaks out that you are found quite as dead as if you had from a seventh-story window.

FOR SALE.

To fool worms it is necessary to use a fire, & a 1/2 lb. of Wax does not. 30 lots in each block, green court houses. Don't at all. 2 Block 18, San Angelo, front on Madison street. 3 Block 20, San Angelo, front on Madison street. 4 Block 21, San Angelo, front on Madison street. 5 Block 22, San Angelo, front on Madison street. 6 Block 23, San Angelo, front on Madison street. 7 Block 24, San Angelo, front on Madison street. 8 Block 25, San Angelo, front on Madison street. 9 Block 26, San Angelo, front on Madison street. 10 Block 27, San Angelo, front on Madison street. 11 Block 28, San Angelo, front on Madison street. 12 Block 29, San Angelo, front on Madison street. 13 Block 30, San Angelo, front on Madison street. 14 Block 31, San Angelo, front on Madison street. 15 Block 32, San Angelo, front on Madison street. 16 Block 33, San Angelo, front on Madison street. 17 Block 34, San Angelo, front on Madison street. 18 Block 35, San Angelo, front on Madison street. 19 Block 36, San Angelo, front on Madison street. 20 Block 37, San Angelo, front on Madison street. 21 Block 38, San Angelo, front on Madison street. 22 Block 39, San Angelo, front on Madison street. 23 Block 40, San Angelo, front on Madison street. 24 Block 41, San Angelo, front on Madison street. 25 Block 42, San Angelo, front on Madison street. 26 Block 43, San Angelo, front on Madison street. 27 Block 44, San Angelo, front on Madison street. 28 Block 45, San Angelo, front on Madison street. 29 Block 46, San Angelo, front on Madison street. 30 Block 47, San Angelo, front on Madison street. 31 Block 48, San Angelo, front on Madison street. 32 Block 49, San Angelo, front on Madison street. 33 Block 50, San Angelo, front on Madison street. 34 Block 51, San Angelo, front on Madison street. 35 Block 52, San Angelo, front on Madison street. 36 Block 53, San Angelo, front on Madison street. 37 Block 54, San Angelo, front on Madison street. 38 Block 55, San Angelo, front on Madison street. 39 Block 56, San Angelo, front on Madison street. 40 Block 57, San Angelo, front on Madison street. 41 Block 58, San Angelo, front on Madison street. 42 Block 59, San Angelo, front on Madison street. 43 Block 60, San Angelo, front on Madison street. 44 Block 61, San Angelo, front on Madison street. 45 Block 62, San Angelo, front on Madison street. 46 Block 63, San Angelo, front on Madison street. 47 Block 64, San Angelo, front on Madison street. 48 Block 65, San Angelo, front on Madison street. 49 Block 66, San Angelo, front on Madison street. 50 Block 67, San Angelo, front on Madison street. 51 Block 68, San Angelo, front on Madison street. 52 Block 69, San Angelo, front on Madison street. 53 Block 70, San Angelo, front on Madison street. 54 Block 71, San Angelo, front on Madison street. 55 Block 72, San Angelo, front on Madison street. 56 Block 73, San Angelo, front on Madison street. 57 Block 74, San Angelo, front on Madison street. 58 Block 75, San Angelo, front on Madison street. 59 Block 76, San Angelo, front on Madison street. 60 Block 77, San Angelo, front on Madison street. 61 Block 78, San Angelo, front on Madison street. 62 Block 79, San Angelo, front on Madison street. 63 Block 80, San Angelo, front on Madison street. 64 Block 81, San Angelo, front on Madison street. 65 Block 82, San Angelo, front on Madison street. 66 Block 83, San Angelo, front on Madison street. 67 Block 84, San Angelo, front on Madison street. 68 Block 85, San Angelo, front on Madison street. 69 Block 86, San Angelo, front on Madison street. 70 Block 87, San Angelo, front on Madison street. 71 Block 88, San Angelo, front on Madison street. 72 Block 89, San Angelo, front on Madison street. 73 Block 90, San Angelo, front on Madison street. 74 Block 91, San Angelo, front on Madison street. 75 Block 92, San Angelo, front on Madison street. 76 Block 93, San Angelo, front on Madison street. 77 Block 94, San Angelo, front on Madison street. 78 Block 95, San Angelo, front on Madison street. 79 Block 96, San Angelo, front on Madison street. 80 Block 97, San Angelo, front on Madison street. 81 Block 98, San Angelo, front on Madison street. 82 Block 99, San Angelo, front on Madison street. 83 Block 100, San Angelo, front on Madison street.

ANGELO.

SCHOOL LANDS.
Valuable Information From the Commissioner.
The following letter is of extensive interest, as it contains specific instructions regarding applications to purchase school lands:
1887.
L. C. HARRIS, Commissioner.
Dear Sir:—Herewith is handed you a list of the unsold public free school lands in Oldham, Potter and Deaf Smith counties, showing the classification and value of each survey, in accordance with chapter 90, general laws of Texas, acts of the Twentieth Legislature, pages 83 to 91, approved April 1st, 1887.
Section 6 of said chapter makes it your duty to record said list in a well bound book, which shall be kept in your office open to public inspection.
You will please acknowledge receipt, furnishing this department with a certificate showing the date said list was filed in your office for record. So soon as this list shall have been filed in your office, the lands therein described are on the market for sale, upon the terms and conditions prescribed by law.
Inclosed forms of application and affidavit to purchase, with obligation attached, must be followed strictly by applicant to purchase.
For the information and guidance of said applicants, the following instructions are given, to-wit: Any bona fide actual settler, residing on any of this land on the 4th day of July, 1887, has six months from date of filing of this list in your office in which to make his application to purchase land classed as agricultural, or watered. He may purchase not less than one quarter nor more than the whole of one section.
If two quarters are purchased, said two quarters must constitute a given half of said section.
Of lands classed as dry grazing he may purchase not less than one quarter nor more than four sections.
A part of two sections cannot be purchased without taking the whole of one of said sections.
A part of three sections can not be purchased without taking the whole of two of said sections.
A part of four sections cannot be purchased without taking the whole of said sections.
If two or more sections are purchased, such sections must be contiguous, or as nearly so as the classification and other circumstances permit. The above refers to leased and unleased lands alike.
Leased lands are subject to sale as follows, to-wit: All bona fide actual settlers who were residing on said lands at the date said lease was filed for record in the county clerk's office, may purchase the same as if said lease did not exist, and will be allowed six months from the date of filing the appraised list of said lands in the county clerk's office in which to make application to purchase.
All lands classed as agricultural, except such sections as have improvements thereon belonging to the lessee to the value of \$100, are for sale.
All lands classed as grazing are not for sale except, as hereinafter specified, without the consent of the lessee.
All persons entering upon leased land for purpose of settlement must make application to purchase within thirty days from date of settlement, otherwise said lands will be sold to another applicant.
All applications not in accordance with the foregoing instructions will be returned for correction before filing in this office.
Respectfully,
R. M. HALL,
Commissioner Gen'l Land Office.
To the Assessors and Collectors of Texas.
Notice is hereby given that a convention of the assessors and collectors of this state will be held in the city of Austin on the second Monday in December, 1887.
The purposes of said convention are to consider and formulate a better and more uniform system for the assessment of personal property, corporation stock and railroad property and for the collection of the tax on same.
Hon. John D. McCall, Comptroller, has agreed to be present and offer such suggestions to the convention as, in his judgment, will aid in a better system of assessing and collecting the taxes of this state. J. W. ROBINSON, Assessor, Tarrant Co. J. E. MURRAY, Collector, Tarrant Co.
All Texas papers please copy.
Feed and stock farming is making rapid strides all over the State and authorities say that in the near future countless herds will no more roam over the Texas prairies, which will be converted into fine stock farms like those in the eastern States.
The leasing of the public lands assessed val-

FIRE AND INSURANCE.
The City Re-classified and Re-rated—Trouble in the Fire Department.
The ENTERPRISE is pleased to note that the agitation begun some time ago for more thoroughly equipping the San Angelo Fire Department for more efficient service and consequent reduced rates of insurance has at last taken such shape as will almost insure for San Angelo the model fire department of West Texas, and the placing of the city in 2nd class of insurance instead of 4th class, with consequent reduction in rates.
Mr. Milton Dargatz, the secretary of the State Underwriters Association arrived in the city last Friday and proceeded at once to work. The city has been placed in the second class, instead of 4th, as heretofore, and nearly all the rates lowered. All new insurance will be placed at the new rates, but, of course it depends upon the acquisition, by the fire department, of the new hose and cart, whether they will "stick."
The fact that some rates have been reduced very little does not give a correct idea of the benefit we have derived from re-rating. To give an example, the Harris & Cartledge block was only reduced from \$3.55 to \$3.30 on building, the reason being, that a frame row has been built in close proximity since the block was originally rated. Should this city be placed again on the fourth class list, this building would rate at \$5. Messrs. Nasworthy & Johnson's livery stable is a fair specimen of the change in rates. In the 4th class, it rated \$13.50 on building and stock, now the rate is \$9 on the building and \$8.25 on stock. The bank of Veck, Sterrett & Co. is also a good exponent of the change "where there has been no increase of risk, the former rate being \$2.75, against present \$1.85. Our business men should remember that if the town should be re-placed in the 4th class ALL rates would be raised, not to what they were before, but to a 4th class rating. Another great advantage to merchants is the substitution of the 3-4ths value for the 3-4ths loss clause in all brick, stone and adobe buildings. From the above it will be seen that it is a plain business proposition. By the expenditure of a few hundred dollars to pay for the hose and cart, the property owners and business men of San Angelo save annually several thousands on insurance, and a proper understanding should be sufficient to guarantee the immediate raising of the money. There are only three more days to do this in. If the apparatus is not paid for by that time it goes back to the factory, and Messrs. F. Lerch, Wm. E. Ellis and other public spirited citizens will have to pay out of their own pockets the freight both ways, which they generously promised to do. But it is hoped that such will not be the case, as it would be an indelible blot on the fair fame of San Angelo and her wonderful and reputed enterprise. Whatever you do, don't work the "stand-off" or "crash" racket.
TROUBLE IN THE DEPARTMENT.
Fire department circles were thrown into a fever of "excitement" this week. Hose company No. 2 rose in what it considered righteous indignation, at the action taken by the other companies, in electing department officers without giving any information of the intention to Hose company No. 2, which considered itself a member of the department, claiming to have made application in due form, while the other companies, it seems, from the action taken, did not so consider.
At a meeting of the fire commissioners held this week No. 2 was formally declared a member of the department, and matters are expected to be working smoothly in the near future. It is regretted, by all, that any trouble should have arisen, and the charitable construction placed on the cause is that it was the result of misunderstanding, for it is not in keeping with the reputation for gallantry, integrity, honor and magnanimity which firemen have won for themselves, to lay at their doors acts done out of pure selfishness or for the subserviency of private ends. The regrets of the trouble have now given place to hope of speedy settlement of the difficulty, which is essential to the efficiency of the department, as the fire laddies are a class of public benefactors and even martyrs, "among whom there should be neither strife nor contention, but that noble emulation, as to who can best work and best agree."
HOSE CO. NO. 2'S ENTERTAINMENT.
At a meeting of the above company, held yesterday, it was decided to provide an entertainment to raise funds necessary to build a house to shelter their apparatus, provide a fire alarm attachment to the town clock, etc. The enter-

tainment will probably take place between the 15th and 25th of November, and the members of the company hope to secure the valued aid of a lady who has already endeavored herself to our people by her assistance in matters of public benefit, and to whom in the main they are indebted for the town clock. The ENTERPRISE need "name no names" as everybody knows who that is. The assistance of other ladies also will be called for, and they will surely not refuse to help the fire laddies—who are everywhere looked upon by the fair as a gallant class—men who, with all their hate for the devouring elements, have never, even though the ladies themselves were the incendiaries, offered to quench the flames of love which they may have kindled. The natural conclusion is that the entertainment will be a complete success, and that the ladies will not only refrain from throwing "cold water" on the firemen's supplications, but even give their hands—with all their hearts. The committee appointed by the Hose Co., consists of R. B. Talbert, Felix Probandt, T. C. Wynn, W. D. Cochran, J. O'K. White, Jas. J. Nell and F. L. Harris. Of these W. D. Cochran, Jas. J. Nell and Felix Probandt constitute an executive board. Due notice will be given through the press as to programme, date, price of admission, etc.
It is rumored that the ladies are contemplating getting up a flag or banner; appropriately worded and designed, for the Hose company No. 2, as a token of appreciation of their "rushing capabilities," and if the matter assumes shape, a flag presentation may be one of the features of the entertainment.
FORT MCKAYETT.
An Interesting Batch of Hens From the Lively Burg—That Banquo-Ghost-Like Mail Line.
[From the Special Correspondent of the SAN ANGELO ENTERPRISE.]
FORT MCKAYETT, Tex., Oct. 24.—J. M. Taylor and lady left for San Antonio to-day on business and a visit to their children.
Perkins, the buckman, has sold his herd of fine bucks and will leave for his home in Vermont.
Charlie Adams' imported dog, that was supposed to have run mad, has returned home, and under proper treatment will recover. The above named dog caused quite a sensation in our city a few Sundays ago—rushing into Sam Wallick's store—with protruding tongue and smoking nostrils—the clerks and proprietor took refuge on top of the counter. The city physician coming in, and seeing the position of Sam and his clerks, thought as they had of late been selling goods so low that they had got on the counter to mark the price of goods up. But hearing some one sing out "mad dog!" the doctor, with a desperate effort, landed in the window. The dog left and order was restored.
The last week has been warm and pleasant, but to-day we have a brisk norther. The prospect for stock going through the winter is excellent.
Year correspondent paid Paint Rock a visit a few days ago on the route from Fort Kayett, and after passing Sam Henderson's there is but very little grass, and what stock we saw along the road looked rather thin. Paint Rock is a very pretty place; the court house is a splendid building, but business was very dull, and, after taking an excellent dinner with Henry Bacon and lady, we returned to the green fields, dales and valleys of Fort McKayett, fully satisfied that we have the best grass country in western Texas.
We attended the meeting of the Lone Star Literary Society, organized by Misses Herbert and Mays, for the intellectual, moral and social improvement of their students. The members of the society acquitted themselves creditably. The programme consisted of recitations, select reading, dialogues, essays and "The Critic;" the last was loudly applauded. Our school is a good one and the young ladies in charge of it understand their business as teachers.
We are going to hold the fort for our mail line is coming. In a short time the hotel man in San Angelo can sing out: "Passengers going south will take the stage going via Fort McKayett, Junction City, Kerville, San Antonio and all way stations." "Whoop her up!" W.
Henry Exall is in New York city, and Madison rumor says his visit has close connection with an enterprise for Dallas, and which will develop itself in the not very distant future. He is to return about the 1st of November.—Fl. Worth Live Stock Journal.
That may be rumor, but fact is he is selling lots in Exall's addition to San Angelo. Keep your eye on the real estate transfers.
