# The San Angelo Press-News

San Angelo, Texas, Saturday, August 14, 1909. Vol. 12, No. 205

## DR. BRUMBY IN CAMPAIGN AGAINST FLY

**DECLARES THAT PESKY INSECT IS CAUSE OF BETWEEN 60 AND 80 PER CENT OF TYPHOID.**

**IN SAN ANGELO**

**PRaises SPRING WATER AND AN- NOUNCES INTENTION TO TEST.**

**TO SEE SPRING CREEK**

Dr. W. M. Brumby, state health officer—and a good one, too—is in the city on matters connected with his department. Dr. Cornick here being a member of the state board of health created by the last legislature.

"I wish you would please assist the health department of Texas in waging a warfare against flies," said Dr. Brumby to a Press-News man, and having apparently struck a most agreeable trail, Dr. Brumby warmed up to the talk like a real racer. "The day is not far distant when it will be as much of a disgrace to permit flies to remain in a house as it is today to permit bedbugs to have easy possession of a bed. Undisputed and undisputable investigations show that from 60 to 80 per cent of the typhoid fever of this country is directly traceable to the common house fly. It was formerly thought that water played a big part in the spread of typhoid, but recent and more thorough investigations have put this theory to the bad. The flies breed in filth. Hence the easiest method of killing them is to destroy their breeding places. All houses should be screened. All filthy places should be cleaned. Especial attention should be given to the cow lot and the stable yard, and if this war is waged incessantly for any length of time the good effects of the fight will become apparent and typhoid fever will become a thing of the past."

Dr. Brumby will more than likely make a visit Saturday to the big cluster of springs on Dove and Spring creeks.

"I have heard a great deal about the water in San Angelo," continued Dr. Brumby, "and I have heard more about the great springs to be found a few miles above here. I am particularly anxious to see these great springs, for if half that I have heard about them is true, then San Angelo has a future that will not be disturbed by an irrepressible water question. I want to see that spring, or nest of springs, more out of curiosity than any other cause."

Dr. Brumby was extremely modest when asked for a statement about how his department is making out, since it was organized by a law contemplating a full corps and was hampered by a veto. Dr. Brumby's visit to San Angelo at this time has no connection with the strange disease now prevailing in Coke county, which is being investigated by Dr. Lancaster, the bacteriologist of the department, and Dr. Sturgis of this city.

## LAST SATURDAY IN EACH MONTH IS TRADES DAY

"Please let the fact be known far and near that the last Saturday in this month is trades day in San Angelo, and that the city has given the city lot on Harris avenue as the place for the traders to congregate," said Dr. John Abe March to a Uress-News man Friday.

"There is no reason why trades day in San Angelo should not prove a great occasion every month. It is the best plan that has ever been devised for a general clearing of all products of the ranches and farms and it is a good way to get the people together. I hope that there will be a big crowd here on next trades day and that this fall it will prove to be a winner every month."

## NORMAL BOARD DUE TO ARRIVE HERE AUG. 26

**INSPECTOR KELLY.**  
Inspector Thomas J. Kelly of the New York police force was the officer chosen by Mayor McClellan as his personal representative on the force after the mayor's break with General Bingham.

## BOOKLET TELLS OF SAN ANGELO

**PICTURES THIS CITY AS BEING "THE BEST IN THE WEST."**

**CONTAINS FORTY PAGES**

Published by Wayland & Foreman, Who Have Exerted Every Effort to Correctly Represent This.

One of the largest jobs ever turned out in The Press-News print shop is that of the booklet entitled "San Angelo—The Best in the West." There are to be ten thousand copies of this booklet, requiring seven runs on the book press, making a total of 70,000 impressions. The booklet is published by Wayland & Foreman of this city and is printed on heavy book paper, well illustrated with half-tone illustrations of San Angelo residences, business blocks and street scenes, and contains forty pages.

The booklet is being gotten out under the supervision and direction of the advertising committee of the Business club, the subject matter being creditable to San Angelo. The typographical characteristics of this big piece of work are in keeping with the classy kind of printing done in this big shop. The advertisers are San Angelo's leaders in commercial and financial affairs.

Messrs. Wayland & Foreman expect to leave the city next week to begin the work of distribution under the terms of their contract with the Business club. Each town touched by and adjacent to the line of the Orient railroad will be visited and these booklets will be given directly into the hands of the people of these rapidly developing sections.

The object of the book is to picture San Angelo as the wholesale, financial, educational and commercial center of this entire section of the state. All institutions coming under these heads are graphically described. Retail stores and other institutions come in for their share of the story. On the whole the booklet is a very creditable affair to the Business club and the city in general; to the advertisers, the printers and the publishers.

The Press-News regards it as a good advertising proposition, going out to the territory it does and at a time so auspicious—just ahead of the trades excursion. And, by the way, don't forget that little affair. Get ready for it. It will be a trade-getter for San Angelo merchants.

**LIGHT.**

**Slim Attendance Causes Calling Off of Meeting of Poultry Association.**

Owing to the fact that a quorum was not present, no meeting of the Tom Green County Poultry association was held Friday night. Secretary Hunter announces that he will appoint a judge within the next two or three days for the poultry exhibition to be given at the fair.

He asks that those who have any names to suggest send them in immediately.

## CITY ENGAGED IN CLEANING ITS STREETS

**EVERY EFFORT BEING EXERTED TO TRANSFORM SAN ANGELO INTO SPOTLESS TOWN.**

**STREET RAILWAY MATTERS MOVING AT FAST CLIP**

**MAYOR ACTIVE**

**THERE'S A REASON**

With Superintendent Sempres headed for the north and east to purchase material, work on the power plant ordered, and President Crowther calling on the subscribers to make their first stock payments, things in a street railway line are developing fast in San Angelo.

President Crowther expects to hear from Mr. Sempres by telegram Tuesday with reference to the pattern of car to be selected and the number available at this time. "We must work fast," declared Mr. Crowther, "for we want to have everything in first class shape by the time the fair opens. It is our intention to show off our visitors, so that when they go home they will tell their friends that San Angelo has an up-to-date car system, and one the best in the state. We do not know how many cars will be needed, but you may say that the San Angelo Street Railway company will order a number sufficient to meet the demands."

The following notice has been issued by Mr. Crowther:

The first payment of 50 per cent of the amount subscribed to the stock of the San Angelo Street Railway company is now called for on all subscriptions. We have placed with each of the banks of the city a list containing names of such of their customers as have subscribed to the stock. Please call at once at the bank you do business with and make your payment. Those who do not bank in this city may make their payment by mail or personally to me at my office in the Crowther Hardware company. It is very important that these payments are made at once so that we may meet our obligations for material purchased for the purpose of operating the road during the fall fair. Yours respectfully,

SAM CROWTHER, Pres.

## BIG CATTLE DEAL CLOSED IN ELDORADO

J. E. Jones of Eldorado has sold to Frank Douglas 400 head of cattle for \$6900, and a three-year lease on seventeen sections of land at \$100 per section. Mr. Miller of Austin will manage the ranch for Mr. Douglas, and will probably buy an interest in the cattle.

Mrs. Nora Richardson of Eldorado has sold to E. R. Jackson three sections of land in the north edge of Sutton county, in the Thompson pasture, for \$4000 cash.

## NOW IS TIME TO BUY YOUR WINTER COAL

"Now is the time for all good men to—put in a supply of winter coal," is the advice of J. F. Ross manager of the Alfalfa Lumber company, who is a coal baron seven months in the year. "You see, after August the price of coal will advance anywhere from 50 cents to \$1.50 a ton, all account of an advance in the freight rate that takes place yearly. I am looking for an enormous consumption of coal here this year and the prices will average a little under last, judging by the signs that are now to be read."

Incidentally, the Alfalfa Lumber company got the contract to coal the public schools here next winter. It was awarded Friday—Friday, the 13th.

**DEAL.**

**Washington Man Buys Block in Fort Concho Addition for \$2500.**

B. F. Estein has sold to C. E. King of Washington, D. C., block 106, Fort Concho addition, for \$2500. This property lies seven blocks south of the Orient station and is on the south side of Chadbourne street.

**MORGAN JONES TO SUBMIT A PROPOSITION**

At this particular time it is written in the fates that San Angelo is entering an era of destiny manifestly glorious and solid and substantial in construction. For the wings of the passing day bringeth to home a message to the effect that Morgan Jones, an opaque, silent and sombre Welshman, who does things, particularly in the way of building a railroad, will have a little proposition to make to San Angelo, the acceptance of which will mean a new outlet for the trade of this city and a new highway for the wealth of the world to come this way.

Just what the proposition is that Col. Jones may have in contemplation is a thing that no man knoweth at this time, and truth to tell, of all men in this state there is none who can keep a secret or preserve a silence with a greater zest than this man of action. It is believed, however, that Col. Jones will submit a proposition to San Angelo to build a line from Winters to this city, connecting at Winters with the Abilene and Southern line; now building from Abilene to Ballinger, and furnishing a more direct line to the north and east than San Angelo now has, or will even have after the Orient is completed.

It should be borne in mind that Col. Jones is marked by two characteristics. One is that he weighs well the possibilities from a plucking standpoint, and the second is that after he once makes a proposition it stays put. He won't hedge on it a single hedge. He won't budge from it a single budge. He won't change it, not even to the dotting of an i that had been overlooked in the writing, nor the crossing of a t that had been left out without its designating bar.

When Col. Jones comes to San Angelo with his project it will take the citizens of this place just about fifteen minutes to understand thoroughly and comprehend completely the aims, objects and the like of the reticent railroad builder. He won't mince words, he won't bandy trades. He has the money in the banks, bonds in the

 B. F. Extein to C. E. King, \$700; conveys block 106, Fort Concho addition.

**DEMAND THEIR BEER.**  
 Workmen at Steel Works Quit Work When Supply Is Cut Off.

Gary, Ind., Aug. 13.—Workmen at the Gary steel plant declares that beer is a necessity and that unless they be allowed to purchase what they need in Gary they will go where the beverage may be had.

Since the closing of "blind pigs," which were running in defiance of the law, which provides that there shall be no saloons until next spring, there has been much dissatisfaction among the workmen. Scores of men have left town and gone to work in South Chicago, Indiana Harbor and other cities in the Calumet steel belt, where this "necessary" fluid is to be had.

The situation is becoming quite serious, and in addition to the steel officials facing a labor shortage, Gary merchants fear a loss of business. Steps have been taken to obviate the difficulty. P. P. Deem, a Gary merchant, circulated a petition and obtained the signatures of merchants and hundreds of steel workers, who ask Mayor Knotts to permit the delivery of beer to private homes. It is feared that the mayor will disregard this petition, as he has employed additional police and instructed Chief Martin to prevent the importation of beer.

**Locates Here.**  
 Dr. J. D. Brooks, who for a number of years practiced his profession in Chicago, has moved to this city and will take San Angelo his home. He will make a specialty of nervous diseases and rheumatic troubles and will make his headquarters at the Cos-Hart drug store. Dr. Brooks comes south for the purpose of avoiding the real winters of the snow countries.

strong box and credit wherever finance is conducted without the assistance of murder. He has made a success and he is holding on to all he has ever made, plus a compounded ten per cent interest payable semi-annually, or more frequently.

When Col. Jones comes to town—but let's don't put it that way. When Col. Jones' railroad comes to town, San Angelo will be linked with hoops of steel to the Hill interests, for Jones has a way of saddling his independent lines onto the Colorado and Southern crowd, and the Colorado and Southern crowd has long since entered the vat stirred and bossed by the greatest genius in the railroad world without regard to boundaries or other geographical limitations or markings.

How's this, then? The Orient coming, fast and strong; the Lanin road looming up nicely; the Jones project taking on tangible shape; and—but the next is a secret. It is the biggest and the best surprise that has ever been in store for San Angelo.
