From what I have been able to find out, DDT isn't as dangerous as some of the rumors indicate. For instance, it won't hurt human beings unless they swallow a fair-sized quantity of it or unless they go out of their way to apply it to their skin. But it does have poisonous qualities and should be handled with a normal amount of precaution. As for the insects it will kill, tests have shown that it means certain death to flies, mosquitoes, termites, fleas, lice, bedbugs, Japanese beetles, a number of vegeta-From what I have been able

BIRDS . . . gardens According to my informants, DDT is not particularly harmful to any warm-blooded animal. It is most harmful to insects which have what is called a lipoid layer in their skin—a sort of protective coating. DDT goes into solution in that layer and from there attacks the nervous system of the insect.

Everything you have heard about DDT's effectiveness in getting rid and the return to town of the local of flies and mosquitoes is probably chairman, Rev. J. F. Isbell, good true. DDT is available in both powder and liquid form. When used on people or dogs, the powder form is recommended, but for fighting flies, mosquitos, etc., a liquid spray is

There is still a lot of experimenting to be done with DDT. Dr. Paul Muller of Switzerland, who discovered the insecticidal properties of this compound, thinks it is possible that it will eventually free the world of germ-carrying insects and be supplied in forms which will rid us "bad" insects and be harmless "good" insects. But that may be a long time off.

Farmers will probably use DDT utions more and more from now on. By next spring some farmers are expected to mix it with their soil in order to get rid of certain harmful insects. It is found that DDT is about 100 times as effective s lead arsenate for this purpose and only 15 pounds of DDT are needed per acre to do an effective

# Fairy — By — Mrs. J. O. Richardson

We received about one inch of rain last week, which will be very beneficial to the late-sown grain, as there was insufficient moisture to bring the grain up to a good stand. Early-sown grain is looking pretty.

Rev. Ozra Newton will fill an appointment at the local Church of Christ Sunday, while Rev. Oran Columbus will go to Pottsville and take Rev. Newton's place there. The news last week stated last Sunday as the day for exchanging appointments. We thought we made it clear that it was the third Sunday, but either we or the editor made a mistake in the writeup. All are invited to attend these services.

Workmen began foundation work for the E. M. Hoover resident Wednesday of last week. The building will be a seven-room residence with all modern conventences, and will be brick veneer. Mr. Crouch of near Hico is overseeing the carpenter work, while the brick mason (whose name we haven't secured) comes from Me-

Mrs. Clifford Tinkle, Mrs. J. T Jackson, and Mrs. C. M. Broyle were joint hostesses honoring Mr and Mrs. Doode Patterson with a miscellaneous wedding shower o Wednesday night of last week at the home of his parents, Mr. and Mrs. Jeff Patterson of the Age community. Guests registered as they arrived and a miniature sailor cut-out was pinned on each guest as favors. Refreshments consisted of delicious fruit punch and cookies. The men folks enjoyed games of "42". After all were served, the gifts were arranged on the lace covered dining table , where the bride and groom unwrapped each gift and passed to the guests. The couple have been married a little over a year, but he has been in the Navy and this was his first visit home for more than just a few days on leave. This time he had thirty days. He expects a discharge some time in February Those from here attending the shower were Mr. and Mrs. J. O. Richardson and daughter, Mrs Carl Ray Sellers and Carolyn Ruth, Mrs. Gladys Cox. Mrs. W. L. Mrs. Pat Patterson and two children, Joan and Butch, of Dallas are visiting at this writing with her parents, Mr. and Mrs. E. C. Allison, and family. Mrs. Patterson was unable to be here last month when the family reunion was held honoring her brother Waynand, who had returned from overseas. He is now employed with the Humble Oil Co. at Baytown, Texas, in the position he held before entering the service.

Walter Porterfield was greeting old friends in Fairy Monday. He has been operating a grocery store and service station at San Angelo for the past few years, but due to sale of the property he had rented, he closed his business there. He is here visiting his son and daughter-in-law, Mr. and Mrs. Marvin Porterfield, of the Lanham community. Marvin is operating one

Mr. and Mrs. Oran Williford had as guests Sunday some friends and acquaintances from Brownwood.

Marvin Smith returned from overseas a few days ago. His wife and 2½-year-old daughter. Marianna, have resided most of the time during his absence with her parents, Mr. and Mrs. E. C. Parks. He is another of those fathers to see and greet his child for the first time. Mrs. Smith is the former Miss Ila Ruth Parks.

Mrs. E. Z. Brummett was called to the home of her parents last week as her father had fallen and her mother needed help in caring for him. It will be remembered that her father, Mr. Forest Cavanaugh, has been a semi-invalid for some time. Mrs. Brummitt returned home late Sunday, reporting that Mr. Cavanaugh broke a rib in the fall. We are sorry to learn of the accident and hope he is soon fully recovered from the injury.

Well, as we were just waiting for news to learn that Audie Parks had landed in the good old U. S. A., we learn that his parents have received a letter from him stating that he was still in France waiting to sail. Too had our boys are heing delayed so in returning, after they have done their bit in this awful conflict. It seems there could be some way provided travoid such delays, and we hope this can be accomplished in the very near future.

Very near future.

Visitors in the home of Mr. and Mrs. J. T. Jackson this week end were their children. Miss Mary Jackson. Mr. and Mrs. Vernon Jackson and daughter, Hanna, and also Mr. and Mrs. Roy Driver and

Miss Frances Barrett of Waco.

Mr. and Mrs. M. E. Parks have received a letter from their youngest son, Pvt. Elzie Lee (Rab) stating he has arrived in Japan, but expects to be sent on to China in the near future. He trained at

North Camp Hood.

We received word from our sister. Mrs. Myrtle Enger of Brady. that she is still okay and has almost completed the treatment for rables after she was bit by her dog a few weeks ago.

# AMERICAN HEROES

OMDR. JAMES HAILE MINI, U.S.N., already holder of a DFC. has been awarded a Navy Cross for leading a flight of carrier planes against the Japs in the Philippines. He so deployed his command that they severely damaged six major combat vessels. Despite heavy anti-aircraft fire, he made an accurate bomb-run on a battleship, scoring a direct hit with a 1000-pound bomb. War Bonds helped pay for the planes and bombs that enabled the Manila-born officer to render that foe ineffective. His home now is at Vallejo, California.

Camp Dahlgren Great Lakes, Ill. November 9, 1945

Dear Holfords Here we are again. But we have hanged stations and states.

The school in Connecticut closed down so we were sent here to Great Lakes for demobiliatzion schooling. From here we will be sent to some separation center for We have asked to be sent duty. to Houston. Most of the guys here have been getting their preference when it is close to home, so here's of them. noping we are sent to Texas. Our training here will last two and not time." Keep up the good work. longer than three weeks.

Yes, we are still together, and also another boy from Washington (Louis Giesecke Jr., AM 2/c) State who has been with us since we were in boot camp. Everyone takes up for us "triplets." He does ook a lot like us, I guess.

And best of all, my wife is up here with me, and as long as she is with me, everything is okey. She and I are staying with my relatives in Chicago.

Boy, it's cold up here. It's supposed to go down to 15 degrees b morning, and our gear hasn't arrived yet so we have no cover for onight. Hope we don't freeze.

You can change our address now and also our rate. It is RM 3/c and not S 1/c, since the first of Haven't received a paper lately, but I hope the football boys are still winning their games. Oh, yes, we got to see Marjorie before she left for home.

### Wee Bits of JESTURE

[Opinions expressed in this weekly feature are the writer's, and not necessarily those of the News Review.-ED.]

Tell you what, folks, this new discovery of Atomic Power has so many of us having "nightmares" reminds me of that story about the little dog that got started to digging in holes and one day dug up something bigger than he could handle. The sixty-four dollar question seems to be just what in the dickens to do with it now that we have it. Washington is fully aware that they have a problem tossed in their laps that can not be solved by "buck passing." And while it is not my desire to appear suggestive in the matter, I would like to know why they don't retire all gather around to read a Texas Jake Eubank. According to their that Atomic Bomb on the "inactive This secret, if it may be fitter second class, is among the called such (and so far I haven't told a soul about it-have you?) is undoubtedly of American origin for other nations are now holding out their hands like children ask-
