### SPORTS NEWS

The Hico Tigers went to Strawn Friday night and got beat 19-0. The Tigers will play Gorman here Friday night, November 21. The Tigers haven't beat anyone

this year and we sure hope to beat Gorman as the game with Gorman will be the last game of the year.

### SENIOR NEWS

The Seniors elected their members for the annual staff. They are:  
 Editor, Marlene Adams.  
 Art Editor, Jeane Gilbert.  
 Business Manager, Mary Nell Battershell.  
 Snapshot Editor, Joan Golightly.  
 Sports Editor, Don Eakins.  
 Senior Representative, Patsy Roberts.  
 We will be selling popcorn at the football game Friday night.

### JUNIOR NEWS

We have elected officers from our class for the annual. Odell Terry is assistant business manager, Billy McLendon is assistant art editor, Betty Knight is assist-

ant editor, and Mildred Ellis is the Junior representative.

We are all looking forward to a good annual this year.

### SOPHOMORE NEWS

This is something of how the room looks on a Monday morning when Mrs. Segrest leaves the room for a while.

Glen and Lester are yelling something hateful to a little blonde across the room.

Mary Moore, Betty Hicks and Joan Malone seem to always have something to say about their Saturday night dates.

Patsy Tooley acts as if her mind is far away. (Fort Worth?)

Pat Duzan is slipping out of the room to meet a certain blue-eyed Junior in the hall.

Myrna Sparks and Loretta Funk are just talking, as usual.

Wendell Burden is staring at the ceiling.

Donald Davis is making eyes at a blonde at the back of the room. And everyone is studying—or pretending to be!

### FRESHMAN NEWS

Only a few of the Freshmen said that they enjoyed the Armistice Day holiday. Most of them got out of school only to go home and have to work.

The Tigers have hopes of winning the Gorman game tonight, and we believe they can and will.

### HOMEMAKING II NEWS

We are starting on our second project and of all the chattering! You get all of the latest gossip while you're sewing.

Shall we look around a bit?

Myrna is yelling at the top of her voice while at the machine.

"Loretta, bring me a pin quick!" Loretta stops whatever she's doing and runs.

Pat Duzan and Patsy Tooley are talking about something very interesting. It seems as though Betty Alexander can't sew unless Mary Moore is watching.

Lois Grey is fussing as usual. Louise Barnett, Marie Churchill and Valma Norrod are sewing—just like Miss Rohne said to. Margie Grimes and Dinky are talking real low about something.

### HOMEMAKING I NEWS

The Homemaking classes were all wondering which class will have the best party.

Homemaking I was ahead last Thursday. So if they win Homemaking II gives the party.

Since Miss Rohne was away last Friday, Imogene Elder took her place as homemaking teacher. Friday was a good day to cook, so we

made pop-overs and griddle cakes. They all seemed good, except most of them were a little too brown.

We (the ones that use it) enjoy the new electric stove. The ones that don't get to use it have the pleasure of looking at it.

The Homemaking classes are looking forward to our Thanksgiving party.

### F. F. A. NEWS

We are going to send our Sweetheart's picture to the Future Farmer Magazine. Pictures from the chapters are sent in and the Sweetheart of the Month is chosen from them and her picture appears in that month's issue. We hope our entry will win a place in one month's issue, and we think it will.

### POEM OF THE WEEK

I jump with joy  
 And pound my head  
 Because Kilroy  
 Is really dead!

### BAND NEWS

Don't forget the Band Boosters' program for the 26th, and if you want to be on the program, tell the committee.

Tonight is the last game we play and everyone come. The Band has been working on a drill.

### WORM'S EYE VIEW

Who is this I see? Oh, that's Mary Nell Keller going down the hall. I've been hearing that this girl has been neglected by The Mirror.

Nilly will proceed to see what he can find out about Mary Nell.

She's the Freshman girl who all the time is wondering who Zingara is. Well, Nilly knows Zingara personally. He (?) is a nice person who dwells in a nice cobwebby cave.

Really, Mary Nell is a cute little blonde with green eyes. She is also a very nice girl with loads of personality.

### CRYSTAL BALL

Since this is Saturday night I believe I'll take my girl down to the park and find out what goes on down there. This is what I found:

Jeanette Dowdy and Fred Spinks, Walter Latham and Jeane Gilbert, Jasper Proffitt and Nell Dunn.

 Phone 947  
 STEPHENVILLE, TEXAS

Betty Golightly and Paul Allen, Betty Hicks and Earl Simpson... all at the wiener roast. Also I hear Janelle Dowdy talking about her "big date" (Eugene Randolph).

What do we have here? Oh! It's Clinton R. with Joy Ann G. and Janelle Dowdy with Truman Loden.

Oh, yes! I want to know where Logan Evans finds all those nicknames. Is it a secret, Logan?

Saturday I see Lucy Talley with "Dear Old Daddy" in Stephenville. Just before the show I see Mildred Ellis, Charles Golightly, Patsy Roberts, Margie Land, Billie Louise Jackson, Ralph Ellis, and Billy Jackson—all having a nice time, it seems.

I also see Mary Nell Battershell, Harold Norrod, Jeane Gilbert, Walter Latham, Marlene Adams, and Garland Latham riding around. It wasn't a little crowded in the back was it?

Where did Betty Land and Hugh Willis Caughey go Saturday night?

At the midnight show I see the following: Patsy Tooley with "Stub" Funk, Myrna Sparks with Delbert Brooks, Joan Golightly with Ray Keller, Charlotte Turner with Billy Loden, Jean Caughey with Marshall Rogers, Patsy Meador with Dub French, La Verne Parker with Ralph Turner, Dolores Roberson with James Leeth, Mary Moore with Odell Terry, and "Buildog" Hill with Doris Herrin.

## Are You Saving All the Grain You Can?

The grain needed to Win the Peace must be saved on the farm. That calls for efficient feeding and management practices. The way to save the grain is to cut feed waste — not cut out good producing flocks and herds!

Come in and ask us for information that will help tie-in with this vital program. Check yourself on these feed practices that can help supply the grain the world needs:

**CULL LOW PRODUCERS**

1. Remove hens as soon as they stop laying. Sell all old hens.
2. Sell low producing cows — don't waste feed on them.

**FEED BALANCED RATIOS**

1. Every bag of Purina Pig & Hog Chow saves 12 to 13 bushels of corn when fed according to the Purina Plan.
2. Efficient rations can save about 3 pounds of feed per dozen eggs.
3. A good broiler ration can save up to 3 pounds of feed per bird.

**FEED ACCORDING TO PRODUCTION**

1. Know how much milk each cow gives. Then feed according to her production.
2. Feed 26 lbs. of feed per 100 birds per day to keep them at peak production. Top feed Layena Checkers to get enough feed into birds.

**MARKET EARLY**

1. Market hogs at 220-225 lbs. Heavier hogs take more grain per pound.
2. Market broilers at 3 lbs. or less. Early gains use less feed per pound.

**STOP WASTE FROM GERMS, WORMS, RATS**

1. Keep stalls and houses clean, dry and disinfected to guard against disease losses.
2. Worm pigs at 12 wks. with Purina Pigtab Granules — Save up to 2 bushels of corn.
3. Kill rats—one rat eats and wastes about 100 pounds of grain in a year. Use Purina Rat Killer.

Trinidad with the ATC during World War II and has just recently returned from Germany where he had been aide to a general in the Air Corps for the past year and a half.

Mrs. Leeth, an ex-WAVE, met Sonny while she was instructing children of American families in the occupation zone in Germany. The couple left from Dallas Tuesday for Fort Bragg, North Carolina, to make their new home.

**TOURISTS PLANNING A TRIP TO MARS CAN LOOK IT OVER FEBRUARY 15**

Austin, Nov. 18.—Astronomers are going to get a good look at the planet Mars next February 18, Dr. Gerard F. Kuiper, director of the University of Texas McDonald Observatory, says.

On that date, Mars will be close enough for magnification to a size four times as large as the full moon appears to the eye. Dr. Kuiper says he hopes to observe the infrared spectrum of polar caps and green areas previously visible, and perhaps determine whether water is present on Mars.

Mars will make its closest approach to earth for the next two years. Astronomers will look at the planet through a spectrometer, sensitive instrument which applies the science of electronics to astronomy.

Be a faithful nursemaid when the pigs are born and raise two litters a year, making the most of your feed and equipment is the advice of the American Meat Institute.

A pig with pneumonia usually has chills and fever, accompanied by difficult and rapid breathing, commonly referred to as asperms.

Frost proof the barnyard hydrant on your water system. To do this, install a valve below the frost level and put in an extension rod so you can turn the water off from above ground. When you turn it off, the water in the stand pipe drains out into a small gravel-filled pit, and this keeps the stand pipe from freezing up.

Many abortions are caused by rations deficient in vitamin A, phosphorus and calcium. Feeding good alfalfa hay supplies vitamin A. Phosphorus and calcium can be provided by feeding a good mineral mixture.
