## Show Interest in Others

**D**URING THE WINTER of 1937-38, Donald A. Dahlberg, Omaha, Nebraska, was working as a room clerk at the swank Nauticus Hotel, Miami Beach, Florida.

This could have been a monotonous job, even a boring one to some people, but not to Donald Dahlberg. He believed that whether a job was interesting was entirely the responsibility of the one who held it down. So he became interested in the guests of the hotel. What a lot of nice people there were in the world! And how many of them came right there to his hotel.

Carnegie

When they came to the desk to inquire for their mail or to get their room keys, he often exchanged conversation with them. Frequently he was able to give bits of information that were very welcome to those guests. If the guest displayed a desire to converse, he let him do the talking. And he got a lot of information he welcomed.

They had a good season that winter; made a lot of money. But since everything comes to an end, so did the good season.

Now Don must look around for another post. He had made some attempts at getting located but so far nothing had materialized. He wasn't worried — exactly — but he did want to get settled in his mind.

Then just two days before the season ended, the boss, Mr. Fred Abel, called him into his office. "Don," he began, "what are your plans for the spring and summer season? Have you made a connection with a northern hotel?"

When Don told him that nothing had turned up as yet, Mr. Abel continued, "I've just had a call from a Mrs. Wright at Pirates Cove, Florida. She was a guest here earlier in the season. Remember her?"

Don said he did recall her. "She liked your manners," said Mr. Abel, "and she noticed that you took a genuine interest in all the guests, and that you didn't overdo it. She'd like to have you down at Pirates Cove to manage her fishing camp."

Well, Don lost no time in making contact with Mrs. Wright and he says that he never spent a more delightful season himself. He not only got in a lot of fishing but he met a lot of interesting people, among them Gene Tunney, Ernest Hemingway and the painter Lynn Boge Hunt.

He continues to show genuine interest in others. As who wouldn't?

## Farm Economist Gives Optimistic Report on Agricultural Progress

Houston, April 2.—Dr. Tyrus Timm, Farm Economist for the Texas Extension Service, addressing the regular monthly meeting of the Houston Farm and Ranch Club last week, said agricultural progress is a shining example of the miracle of America.

Dr. Timm said that the success of our agricultural progress in supplying the people with the greatest amount of goods proves the American economy to be better than any other system in the world. At the same time, he continued, we still have a great amount of freedom in the way we operate our farms.

Speaking of production controls, Dr. Timm said they could not be credited to any political party, but follow a natural trend which dates back to 91 A. D.

The bills farmers paid last year to produce their crops and livestock amounted to a greater sum than total farm income for any year up to 1942. He said although this seems to create an abnormal situation, it isn't really. The trou-

ble is, he explained, nobody knows what a normal situation would be. After Dr. Timm finished his talk, he was presented an honorary membership in the Farm and Ranch Club by Vice Presidents Archer Romero and Gail Whitcomb. The speaker was introduced by Charlie Willhoite.

Walter Jefferson of Jasper, State FFA Vice President, appeared on the program to invite the Club to participate in the 1951 State Convention of the Texas Association of Future Farmers of America, to be held at the Shamrock Hotel in Houston July 11-13.

## DOYLE HARRIS AMONG U. T. STUDENTS TO TOUR HOUSTON

Austin, April 3.—Twenty-six civil engineering students from the University of Texas will tour Houston industrial and city engineering projects April 11 and 12 for an inspection trip. Ben B. Ewing, civil engineering instructor, will be in charge.

Students from this section registered for the tour include Doyle D. Harris of Hico and Paul Fisher of Dublin.

## LOCAL GIRL HONORED

Denton, Tex., April 2.—For having maintained a high scholastic average this year at Texas State College for Women, Miss Mary Annette Phillips, daughter of Mr. and Mrs. E. E. Phillips of Hico, will be among the students honored at a special "Honors Day" assembly program April 12.

Miss Phillips is a senior Home Economics Education major.

## Funeral Held in Sabinal For Mrs. T. R. Thomas, Resident Here 19 Years

Mrs. Roena Burrough Thomas was born March 4, 1875 in Sugar-town, La., and died at her home in Sabinal, Texas, March 27, 1951.

Funeral services were held at the Sabinal Baptist Church March 28 at 3:30 p. m. Rev. M. O. Cheek of Waco officiated, with Rev. J. D. Brown of Sabinal assisting. Burial was in the Sabinal cemetery.

Mrs. Thomas was married to Theodore R. Thomas on June 5, 1903 at Kirk, Texas. She became a Christian early in life, uniting with the Baptist church at Kirk. Her Christian life demonstrated her love for others; she was always doing for others.

She and Mr. Thomas lived in the Dry Fork community near Hico from 1929 until 1948, at which time, because of failing health, they moved to Sabinal to be with their daughter there.

She is survived by her husband, T. R. Thomas of Sabinal; two daughters, Mrs. M. S. Shelton of Sabinal and Mrs. M. A. Vann of Eastland; her stepmother, Mrs. S. A. Burrough of La Rue, Texas; five brothers, J. I. Burrough of Lubbock, T. B. Burrough of Tahoka, Connie Burrough of La Rue, Taylor Burrough of Dallas, and David Burrough of Corsicana; two sisters, Mrs. B. E. Hudson of Mart and Mrs. Chellie Carter of La Rue; nine grandchildren and one great-grandchild.

All through 1950, Purina Research worked to make the 1951 Startena the best ever. It took 1028 separate feeding tests to discover the growth boost required. That's why we call it "Formula 1028." It makes the 1951 Purina Chick Startena the best Purina has ever made. "Formula 1028" now added to Chick Startena, is Purina's right combination of APF, Vitamin B-12 Supplement, Antibiotic Supplement and Growth Vitamins.

**BIGGEST CHICKS EVER AT 5 WEEKS**

Purina Research results show the new 1951 Startena, with "Formula 1028" added, produced the biggest chicks at five weeks ever raised on Startena. That's going some... for Startena has always been famed for fast growth.

**MILITARY INTERN PROGRAM UNDERWAY**—Appointment of 132 senior medical students for the Military Intern Program and the Army Medical Service has been announced by the Army Surgeon General. This program provides that medical students can, upon graduation, be commissioned in the Medical Corps Reserve and serve their internship in an Army hospital with the pay and allowances of a First Lieutenant. For the first time since World War II, there is now a requirement that the new doctors serve one year on active duty in addition to the year of internship.

**"WASHED OUT" CADETS BECOME AIRMEN**—Civilians entering the Air Force for aviation cadet training now must sign four year enlistment statements which, in the event of elimination from flight training, brings airmen rather than civilian status. The new policy became effective on March 5th. Those entering the program prior to that date are not affected.

**30,000 WACS NEEDED BY THE ARMY**—Job vacancies galore are offered by the U. S. Army, to the young lady seeking a brilliant career. Too, she will be serving her country as she serves herself in preparing for her future. Interested applicants will find further information at their nearest US Army and US Air Force Recruiting Office.

**"... AND UP STEPPED THE GENERAL"**—(Orlando AFB, Fla.)—The long line of officers filed past the desk of Classification Cpl. G. L. Davis, while he checked off each man in the Air Force's annual head count. The Air Force was taking its census at Orlando and every military body had to be counted. "Thomas, Charles," the next man spoke up. "What rank?" asked the Corporal, never looking up. "Major General," was the reply. The Corporal looked up sheepishly and counted Major General Charles Thomas, Commanding General of the 14th Air Force. The General was on an informal inspection when the head count was ordered.

## WITH OUR SUBSCRIBERS

As Mrs. J. E. Goud came in the  
back door Wednesday of last week,  
she told us "I'd better not have  
scratched my name off the list,  
I've been taking this paper too  
long for that." She didn't specify  
how long that was except  
"ever since I've been in Hico, and  
that's been—well, I'd rather not  
say."

Jack Bradley, football, wrote a  
short note last week requesting a  
renewal of his subscription. For  
stationery he used a sheet from a  
memo pad describing Quaker  
State Motor Oil. That's welcome  
to the News Review, Jack, but  
don't expect too much of it.

Since the move closer to this of-  
fice than the one, W. E. Brown  
turned in a renewal for Albert  
Brown of Big Spring. Being way  
out there in West Texas, Albert  
doesn't get back very often to the  
former home.

C. W. Gonsky came by the of-  
fice last week to renew a subscrip-  
tion for his daughter, Mrs. C. G.  
Land of Dallas, who was a recent  
visitor here with her parents.

Business transacted by Luther  
Runkin at the News Review office  
last week included, besides the re-  
newal subscription, the purchase  
of some adding machine paper.

A recent letter from Mr. and  
Mrs. C. E. Cunningham in Big  
Spring brought their check for re-  
newal of the hometown paper.  
They were confident that before  
going west.

Ray Addison, News Route 2, said  
he had been going through a di-  
lemma of forgetting to renew his  
subscription when he was in town  
and remembering it as soon as he  
got home. Last week, the thought  
occurred to him while in town, so  
he came by to renew before miss-  
ing any copies.

A subscription sent by our com-  
mission agent in Fair, William Earl  
Goyne, has been received and en-  
tered for Mrs. Emma Leckey,  
Fair.

Jim Phipps, representing the  
Phipps Memorial Company of  
Waco, was in Hico on business last

Friday. Usually identified as a  
reader of the News Review, Jim  
found that the company's name  
was off the list for some reason,  
and immediately did the necessary  
and obvious thing by re-sub-  
scribing.

"Will you send me the hometown  
paper for another year?" was the  
question written by Mrs. Ruth  
Esperin of San Mateo, Calif., re-  
cently. She went on to say, "I  
would sure miss it, as I'm no hand  
at writing, so don't hear all the  
news."

F. H. Dickson, News Route 4,  
promptly renewed his subscription  
last Saturday for at least the 2nd  
consecutive year, and perhaps  
longer than that. (Our records  
just go that far.) A subscriber  
when the present management of  
the News Review came to Hico, he  
has continued to keep his name on  
the list ever since.

"I think I'm getting the paper  
on borrowed time," said Edgar  
Bradley, News Route 2, when he  
came in Saturday to check on the  
expiration date. He cheerfully paid  
up for another year after learning  
that the date was close by.

Emmett Anderson and L. S. Cun-  
ningham, both of News Route 4,  
were in the News Review office  
Saturday to subscribe. Mr. Ander-  
son said, "If you subscribe to the  
paper this week, you will get to  
read about what happened last  
week." To which Mr. Cunningham  
replied that he was going to sub-  
scribe for his wife, but didn't want  
her to know it. Well, we won't tell  
her.

W. E. Ford came by the office  
Monday to pay for his subscription  
and order some job printing.

A check came through the mail  
this week from Mrs. Frances Hall,  
to renew her News Review sub-  
scription. Mrs. Hall, who recently  
said her home is Mr. and Mrs. Odu  
Petrick, is living at Russell Apart-  
ments.

Mrs. Alice Rodgers of Canton  
mailed in the price of a renewal to  
the News Review Saturday.

## CIVIL DEFENSE

### Standard Training Is Needed By Civil Defense Volunteers

By Walter A. Broad

(This is the fourth in a series of five articles on the civilian defense  
program.)

A **THOROUGH** in the line of command for the tremendous civil  
defense army needed in case of full scale war stems from the  
President, through Civil Defense Administrator William Caldwell,  
to the 48 state civil defense directors and down the line to the  
appointed officers in cities, towns and counties throughout the  
nation.

National defense against atomic,  
biological and chemical warfare  
rests upon thorough training to  
start in a civil defense staff college  
to be established for top civil de-  
fense planners and administrators.  
The college will serve as a source  
of all latest information. Regional  
technical training centers are also  
planned where this information will  
be disseminated in the civil defense  
training programs in the states and  
local communities. The technical  
centers will be staffed by thorough-  
ly trained men and women in all  
phases of the work and will provide  
means for standardization of the  
technical and specialized training  
necessary. Standardization is a  
prime factor for successful mutual  
aid and mobile support which re-  
quire a force of uniformly trained  
civil defense workers.

Graduates of the federal tech-  
nical training centers will train  
other civil defense workers and  
trainers within the states, who, in  
turn, will train the local volunteers.  
Under the program, two kinds of  
training will be provided—general  
and specialized. General training  
will consist of instruction in basic  
subjects to include fundamental  
principles of organization and op-  
eration, basic first aid and im-  
proved rescue operations.

The American Red Cross, offi-  
cial of the public health service  
and other organizations concerned  
with health services will conduct  
certain phases of specialized train-  
ing such as first aid and nursing  
and training. Many medical officers  
of the military services, public  
health services, the volunteer ad-  
ministration and other organiza-  
tions have taken specialized courses  
or are now taking courses given by  
the military services, public health  
services and the national security  
resources board. Similar courses  
for nurses have been started. Other  
courses either federal, state or lo-  
cal, will be available for dentists,  
veterinarians and other profession-  
al and technical people working in  
health services. Basic health offi-  
cials have taken courses in radio

logical monitoring which included  
many aspects of the civil defense  
program.

Similar training courses will be  
available for biological warfare  
against humans and animals,  
against chemical warfare and  
against biological warfare against  
crops. Courses in these subjects  
will have three prime aspects—de-  
tection, treatment of casualties,  
and methods of decontamination.  
Training will be available for  
nurses, first aid and home nurses,  
radio-logical monitors, auxiliary san-  
itary personnel and auxiliary labo-  
ratory workers.

For large segments of the gen-  
eral public, the major type of train-  
ing will be in the category of first  
aid—what to do first in any of the  
fields of civil defense. The goal is  
2,000,000 trained first-aiders in a  
22-hour course which will also in-  
clude training in special weapons  
defense and in procedures for treat-  
ing minor illnesses in time of emer-  
gency when physicians will be over-  
burdened with casualties.

Every state will operate under a  
uniform system of organization,  
equipment and procedure. Estab-  
lishment of control stations in  
strategic areas, of first aid stations  
and the implementation of all nec-  
essary ambulances, hospitalization,  
fire fighting equipment and a score  
of other defense mechanisms will  
be taught. It is estimated that ap-  
proximately 25 per cent of sur-  
viving casualties in an atomic  
bomb burst would require trans-  
portation by litter to first-aid sta-  
tions, hence the importance of first  
aid work. As an example, if there  
were 40,000 injured survivors, about  
10,000 probably would have to be  
carried by litters. Another 20,000  
could walk, or would be taken to  
first aid stations by other means.  
So the most important function is  
in first aid training, since even fire-  
fighters, rescue teams, police, en-  
gineering and other personnel, first  
aid courses, would be called upon for first aid to casualties.

So every individual should watch  
for announcement of establishment  
of regional training centers.

## April Fools' Day Is Program Theme For B & P W Club

The Business and Professional Women's Club met in regular session Tuesday night with Miss Carolyn Holford serving as hostess. Nine members and two guests were present for a delicious dinner served at the Chicken Palace and business meeting and program at the Holford home. The menu consisted of steak, French-fried potatoes, vegetable salad, iced tea and coffee, and strawberry sundae.

The following account of the meeting and program was taken from the minutes of Miss Louise Blair, secretary.

With April Fools' Day only a few hours old, the order of business was reversed, thus being very amusing as well as confusing to those present. Mrs. W. H. Green, president, called the meeting to order. Miss Blair moved that the meeting be adjourned. The motion was seconded by Miss Holford. No votes on this motion were cast.

The meeting was turned over to Miss Holford, who presented Mrs. S. W. Everett as the first speaker on the program. Mrs. Everett gave an interesting account of the life and of W. A. C. activities of Mrs. Oveta Culp Hobby, who did wartime service in that organization as a colonel.

Mrs. W. E. East, second speaker, related amusing, as well as interesting, facts on the poetess, Grace Noll Crowell.

Mrs. Green reviewed the constitution with each member participating. The president called for old business. The motion was made and seconded that old business be deferred until after the reading of the minutes. Mrs. Everett mentioned the suggestion made at a previous meeting regarding the inviting of guests to the club's May meeting. The preceding motion was not voted on.

Hostesses for the 1951-52 club year beginning in September were selected for each month.

Miss Blair made the motion, seconded by Mrs. Wm. D. Bradley Jr., that the July, 1951, meeting be held on Friday night, July 6, rather than on the regular night specified, because of conflict with the Independence Day holiday. Motion carried. This completed the new business.

Committee reports were read, followed by reading of minutes of the previous meeting. Ballots for officer nominations were cast, following a call for old business. These ballots were turned over to the nominating committee.

Miss Holford moved, seconded by Mrs. Everett, that each member bring a guest to the May club meeting. Motion carried.

The roll was called, and the meeting was called to topsy-turvy order, and was adjourned at the close of the April Fool program.

Those present were Mrs. R. L. Holford and Mrs. T. E. Roberts, guests, and the following members: Mrs. L. N. Lane, Mrs. J. W. Richbourg, Mrs. J. Fred Patterson, Mrs. Bradley, Mrs. Green, Mrs. East, Mrs. Everett, Miss Blair and the hostess.

Mrs. Charles Shelton and daughter, Sue, and Mrs. Hattie Norton of Fort Worth were here Tuesday visiting in the homes of Mrs. Hord Rands and Lusk and T. A. Rands.

Mrs. J. A. Hendricks returned to her home Tuesday after visiting her brother, Lowell Hicks, and family of Three Rivers, Texas. They spent Monday visiting in Corpus Christi.

Mr. and Mrs. Rufus Phillips and children, R. C., Mary Helen, Johnny, Mack and Frank, moved Monday from here to Evans, where he will be employed at the Evans Locker Plant.

Odell Welborn, who is attending an embalming school in Dallas, was a business visitor in Hico Monday. He also visited with his parents, Mr. and Mrs. Roy Welborn, in Cranfills Gap.

Week-end visitors in the home of Mr. and Mrs. J. B. Ratliff were their son, Bobby Ratliff, and Misses Myrna Sparks and Jane Underwood, all students at Tarleton State College, Stephenville.

Mr. and Mrs. Raymond Lowe and children, Joy and Mike, and Mrs. Tom Loden spent Sunday in Waco with Mr. and Mrs. George Loden and Mr. and Mrs. Mike Hoge.

**BLOOMING PLANTS**

Mr. and Mrs. J. W. Autrey entertained several former residents of Hico in their home Sunday, accompanying Mrs. L. N. Lane. Visitors were Mrs. W. A. Cox (the former Laura Alford), Mr. and Mrs. Will Byrd, all of Dallas, and Mrs. Ruth Byrd Barton of Fort Worth.

Out-of-town visitors with Mrs. Bettie Worrell and Mr. and Mrs. A. L. McAnally, since Mrs. Worrell returned home from the hospital, have been Mr. and Mrs. Bud Cranfill, Mrs. Rob Russell, Mr. and Mrs. Elton Sanders, Wynne and Ann, of Irredell; Mrs. L. L. Houston and Larus of Meridian; Bewel Chandler, Rev. E. D. Dunlap and Mrs. W. B. Worrell of Waco; Mr. and Mrs. J. M. Barnhill of Cleburne; Bonnie Battershell of Fort Worth, and Mr. and Mrs. Louis Bateman and daughter of Clifton.

## Review Club Meets in Homemaking Cottage, Studies United Nations

Mrs. J. T. Appleby was hostess last Thursday, March 29, to the Hico Review Club, meeting at the Homemaking Cottage. Mrs. Harry Gleason was co-hostess, acting in the place of Mrs. Lusk Rands, who was out of town.

A delicious salad plate was served to 17 members and one guest. During the business meeting, the program committee, composed of Mrs. R. B. Jackson, Mrs. W. M. Horsley and Mrs. Morse Ross, gave a report on the year-books, plans for which are nearing completion.

According to a report given on the art exhibit, sponsored by the Review Club at Hico Public Schools, the school spent \$30.00 on pictures for the rooms, from the tickets sold by each class. The club members voted to donate to the purchase of band uniforms in the current drive.

A gift for little Ellen Rhone Blair was sent by the club by her grandmother, Mrs. S. E. Blair Sr. International Affairs, United Nations and World Destiny was the topic of the program for the afternoon. Mrs. Odie Petsick was speaker, and she discussed the roll of the United States in the United Nations, emphasizing the vital part that our nation plays in helping make the U. N. successful. She also gave background information on the history of the U. N., how it functions, its purposes and ideals and some essential characteristics necessary to make it a success.

Those present participated in an open house discussion, following Mrs. Petsick's talk. Attending the program and meeting were Mrs. Bryan Angell, Mrs. Wayne Rutledge, Mrs. L. J. Wood, Mrs. Bernell Jernigan, Mrs. C. H. Boyd, Mrs. T. E. Roberts, Mrs. Edgar Bradley, Mrs. J. E. Lincoln, Mrs. Marvin Marshall, Mrs. Appleby, Mrs. Blair, Mrs. Jackson, Mrs. Horsley, Mrs. Ross, Mrs. Petsick, members; Mrs. Gleason associate member; Mrs. J. A. Guyton, honorary member, and Mrs. O. C. Cook, guest.

## Hico Schools Take Teams to District Ball Tourney Today

Hico Public Schools plan to enter the district tournament in volleyball and softball today for the first time in several years. The tournament will be held in Clifton, starting Friday at 9:30 a. m.

Girls playing softball and volleyball for high school are Jaggars, Suitt, Salmon, M. Sherrard, Kennedy, Bolton, Goughly, Keller, Hampton, Carpenter, Walker, Ruebush, Latham, Fillingim, J. Sherrard and Berna.

The boys will play volleyball only. Players are McLean, Knight, Lane, Loden, Gray, Slaughter, Garrison, Ross, Adams, Chaney, Kennedy, J. Terry and B. Terry.

The grade school boys and girls will enter both softball and volleyball events, and they will also begin playing Friday morning at 9:30. This tournament will be held in Meridian.

## Valley Mills Seniors Won District Track, 3 Hico Boys Placed

Valley Mills won district championship in senior high school track last Saturday at the meeting in Clifton. Clifton won second; Hico, third, and Meridian, fourth.

The weather was very disagreeable for track, due to the winds and the cool weather.

Valley Mills had a well-balanced track team, and made points in every event, and practically won all the points in high and low hurdles.

Hico boys qualifying to go to Dallas for the regional meet April 21 are Jim Kennedy (second in 220 dash; first in 440 yard dash), Duane McCarty (third in discus), and Steve Garrison (third in mile run).

In the grade school division, the Hico boys won out over Valley Mills by the narrow margin of one point.

## Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother, and like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should she decided to do something about it. Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B<sub>1</sub>, B<sub>2</sub>, Iron and Niacin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL, my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

**HADACOL is So Effective**  
An important thing about HADACOL is that you get Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron in liquid form, which means that they are easily absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when iron is present) to carry these precious vitamins and minerals to every part of your body.

### ATTENTION GIVEN FHA SCRAP BOOK AT AREA MEETING

From all reports, our FHA scrapbook brought many favorable comments from advisors, superintendents, and FHA'ers at the Annual Spring Meeting of Area XI. To us it is attractive, bound in white satin, bearing the FHA emblem in red and white, and the word "Hico" on the front. We think the best page is our bride and groom page dedicated to Jim and Jean Kennedy.

With a few additions it will be displayed at Fort Worth. Two delegates from each chapter in the state will attend this meeting at Will Rogers Auditorium, May 3, 4 and 5.

### BASKETBALL JACKETS AND SWEATERS RECEIVED

The girls' and boys' basketball jackets and sweaters arrived this week. The Senior girls and boys ordered white wool sweaters, and others ordered red and blue jackets. The girls' sweaters have "Regional Runner-Up, U. I. L." written on the sleeves.

We are real proud of them, and we know we will get a lot of real enjoyment out of them.

### WORM'S EYE VIEW

The days are just zooming by and soon school will be out. All these "intelligent" Seniors will be starting out into their different ways of life. I don't exactly know how long a worm's life is, but I would sure like to be around to see what becomes of a certain editor of The Mirror!

This girl, no doubt, will be making a career of bulldogging pea-green elephants in Madison Square Garden. No fooling, she is liable to really do it! But you can never tell, she might be making a dignified housewife.

If you don't know by now who this girl is just take a look up at the top of the page. See! She is Mary Nell Keller, or better known as "Nellie the Nut" or "Moose."

Mary Nell is always where you least expect her, but that doesn't bother anyone, since she is always welcome.

You never see her when she isn't smiling or talking. She is five feet, six inches tall and has brown hair and green eyes.

Mary Nell is popular with everyone because of her cute personality. Like most of the kids in Sirman's Bookkeeping class, she also has trouble keeping her books straight.

"Nellie" played forward on the girls' basketball team. Right now, she's running all over school showing off her new white sweater that she received Monday. The Senior class elected her as their favorite, and if you knew her she would be your favorite, too.

Come to think of it, I don't guess Mary Nell will be bulldogging elephants, after all. She will be taking Bob Hope's place as a comedian on the radio!

By—  
Mrs. Eunice Massengale

We have had very high winds with cooler temperatures for the past few days. Farmers are busy preparing land for their maize and cotton crops. It seems there will be more land diverted to cotton this year than in the past, since a portion of the grain was killed by the freezes and dry weather.

Our hearts were made sad when news was received here early Monday morning that a dear friend and former citizen of this community, Mrs. Sallie Purdom of Hico, had passed away on Sunday night. Mrs. Purdom, who reared her family to maturity here before moving to Hico, had a host of friends here who will ever keep in memory a mindful picture of "Dear Old Mug" and the Christian character and bit of humor she possessed. To know her was to

love her. Through her last illness up until her last conscious moments, she reached out her arms for a tender embrace of her many friends who visited her bedside. This had been her custom through life. To the dear children and other relatives, we would say, weep not as those who have no hope. May God bless and comfort them in these sad and lonely hours.

Those from here attending services for Mrs. Purdom, whose names we secured were: Mr. and Mrs. E. M. Hoover, Mrs. Gladys Cox, Mrs. A. L. Newman, Mrs. M. E. Parks and son, Elzie Lee, W. E. Goynes, Mrs. Edd Allison, Mr. and Mrs. W. E. Cunningham and Mrs. Eunice Massengale. We feel sure many failed to hear of the arrangements in time to attend the services.

Mr. and Mrs. G. Rivers and little son, Jimmy Glen, left for their home in Pittsboro, N. C., last Wednesday morning, after a month's visit with her parents, Mr. and

Mrs. J. W. Abel and family and Miss Nora and Bill Abel, also of the home.

Mr. and Mrs. Leon Springer of Miles, Texas, who have purchased the former A. R. Hoover place, moved their stock down last week and expect to move their household effects later in the week. We welcome them to our community.

Mr. and Mrs. D. E. Allison, Ruby Jean and Darrel, and Oswald Balch, little friend of Darrel, all of Dublin, visited here a while late Sunday and Sunday night in the home of his parents, Mr. and Mrs. Edd Allison, and Texie. Mrs. Allison and Ruby Jean also visited in the home of her mother and sister, Mrs. Eunice Massengale and Mr. and Mrs. Carl Ray Sellers and family.

Mrs. Gladys Cox was a business visitor in Hamilton last Saturday and while there visited in the W. C. Oglesby home with Mrs. Oglesby and her mother, Mrs. Minnie McCarty.

Neta Ruth Jones of Lanham vis-

ited Sunday with her cousin, Carolyn Ruth Sellers.

We received a letter last week from Newt D. Crow of Brewton, Ala., son of the late Mr. and Mrs. J. N. Crow of Fairy, stating that he was a Sunday school pupil of the late Mrs. Sallie Purdom more than forty years ago, during the time of their residence here. He also stated that he was a Hico News Review subscriber and had enjoyed our Fairy news letter each week for the past twenty years. It had been quite some time since we had heard from Newt—the last time when he wrote our brother, Prentis Newman. Since he is traveling for the Jacksonville Blow Pipe Company of Jacksonville, Fla., he is kept on the move, but stated that his job at Brewton had lasted long enough to have the News Review sent to him there. He sends regards to all Fairy folks.

The writer attended singing at Green's Creek, near Dublin, last Sunday afternoon and stopped for a while at the home of our daugh-

ter, Mr. and Mrs. D. E. Allison, family of Dublin.

Mr. and Mrs. Dub Blakley and little son of Colorado visited recently with his parents, Mr. and Mrs. Roy Blakley, and other relatives.

### Uncle Cyrus McCarty

We were shocked when we received word that one of the oldest (if not the oldest) citizens of Duffau had passed away in a Los Angeles hospital Saturday night. Cyrus McCarty was born here over 83 years ago. He would spend the winter months with his children in California, returning to this place which he called home and would stay until cold weather set in, usually staying with his very good friends, Mr. and Mrs. Norman Howard. His physical condition was excellent until a short time ago. He is survived by a sister, Mrs. Alice Cline, and a stepson, Dan Harzer, of Fort Worth. One of our best citizens has gone. Peace to his ashes.

Louis Hutson has returned to his home here after several weeks spent in a hospital at Temple. He is feeling much better.

Mr. and Mrs. E. B. Price, Patsy and E. B. Jr. of Granbury, Miss Frances Latham of Hico and Orville Templeton were dinner guests of the Paschal Browns Sunday.

Mr. and Mrs. Marvin Solsbury have bought the John McGlasson place and have moved down from Tahoka. We welcome them.

Mr. W. M. Magee is back in the Hico Hospital. We are wishing for him a speedy recovery.

Mrs. James Upshaw of De Leon stopped by to see her parents, Mr. and Mrs. John Land, before going to Georgia, where her husband is stationed.

Mr. and Mrs. J. H. Hall of Chalk Mountain, Mr. and Mrs. Nathan Robinette of Stephenville and Mr. and Mrs. John Little of Welcome Valley visited Mr. and Mrs. Johnnie W. McKnight Sunday afternoon.

Mr. and Mrs. Pete Burgan of Stephenville visited the C. B. Burgan family Saturday night.

A party honoring Miss Margaret Brown, daughter of Mr. and Mrs. Paschal Brown, on her 16th birthday was held at the home of Mr. and Mrs. Johnnie Roberson Saturday evening. Punch and cake were served to the following guests: Misses Carolyn Head, Bonnie Brown, Martha Britton, Frances Latham, Edna Earl Shaffer, and the honoree, Miss Margaret Brown; Messrs. Harry Brown, Arlin Gaither, Bill and Junior Burgan, Jimmie Roberson, Jerry Stringer, and Orville Templeton. The young folks were chaperoned by some of the parents.

## CREEP FED CALF GAINS FASTER, SELLS BETTER

Would it pay me to creep-feed my calves? How much will it take to produce 100 pounds of gain by creep-feeding?

Those questions, typical of the present interest in creep-feeding, were recently asked by a cattleman in a county beef cattle meeting. Texas Extension Service Animal Husbandman A. L. Smith answered by referring to research conducted by the Texas Experiment Station.

One hundred fourteen pounds of extra calf gain was produced by feeding 229 pounds of cottonseed meal and 915 pounds of grain. The weaned calves were fat enough for slaughter. They would have sold for 10 per cent more per pound than calves not creep-fed. Cows, whose calves were creep-fed, gained 50 pounds more than other cows.

This feed would cost about \$40.00 today. With present cattle prices, the creep-fed calves would sell for nearly \$50.00 more than calves not fed.

The extra 50 pounds of weight on the mother cows insures a better calf crop next year. On the market, that 50 pounds would sell for \$12 to \$14. The Experiment Station workers explained that the mothers of creep-fed calves gained more because they ate some of the feed while the calves were being trained to eat. Also, the calves did not nurse these cows as much as did the calves not creep-fed.

Creep-feeding is usually not profitable if the calves are to be sold as fat slaughter calves or immediately full-fed after weaning. It also is desirable for developing breeding heifers early. Purebreds develop good conformation and thick fleshing, bringing better prices.

Creep-feeding may not be profitable for steer calves which will be grazed or wintered on roughage after weaning.

Proportions of grain and protein concentrate in creep-fed mixtures should vary according to the amount of milk the calves are getting and the condition of the pasture. More protein is needed when milk flow is low or if pastures are not green and plentiful. Usually, 5 to 7 parts of grain are mixed with 1 part of cottonseed meal. In the Texas experiment, 1 part of cottonseed meal was used with 4 parts of grain.

A good mixture, until calves are 4 months old, is: 200 pounds of coarsely-ground corn or sorghum grain; 100 pounds of oats, coarsely-ground barley or wheat; and 50 pounds of cottonseed meal. After 4 months, use 600 pounds of coarsely-ground grain with 100 pounds of meal.

Purebred calves do well on this mixture: 400 pounds of coarsely-ground corn or sorghum grain; 250 pounds of ground oats; 150 pounds of wheat bran; and 100 pounds of cottonseed meal.

The feed mixture may be self-fed or hand-fed in amounts needed to produce the desired gain. Check self-feeders regularly to insure regular feeding. Discard any feed which has become spoiled from getting wet.

Locate creep-feeders near watering places. The calves learn to eat the feed in the creep while the cows are resting around the water or salt trough. Calves start eating quickly if a small amount of salt is sprinkled on the feed in the trough.

Calf creeps are easily constructed. Enclose the trough or feeder with a fence to keep out the cows. Calves enter the creep through gates or gaps which are large enough to let the calf pass through but too small for the cows. Some self-feeders are constructed with small passages leading directly to the feed trough. These are convenient to use when it is desirable to move the creep several times during the season.

### ATTEND SISTER'S FUNERAL AT SEYMOUR LAST WEEK

Mr. and Mrs. J. P. Owen returned last Friday from Seymour, where they attended funeral services for Mrs. Ozro Parks, sister of Mr. Owen, who died in a Wichita Falls hospital Monday night, after an illness of several months. Funeral services were held in the Methodist church at Seymour at 2:30 Wednesday afternoon, with burial in the East Side Cemetery at Seymour.

Mrs. Parks was 71 years old. She left to mourn her passing her husband and their daughters, Mrs. Jennie Evans, and two children of El Paso; Mrs. Pauline Mobley and six children of Bonmarion, and Mrs. Jim Richardson and one daughter of Seymour; also five brothers and two sisters.

### DUFFAU HOME DEM. CLUB STUDIES DRESSMAKING

The Duffau home Demonstration Club met March 27 in the home of Mrs. Stanley Roach.

The president, Mrs. Frank Stipe, called the meeting to order. Club prayer and pledge were repeated by members.

Mrs. Roy Lee Magee gave a demonstration on dressmaking and brought out lots of interesting points. It was greatly enjoyed.

Refreshments were served to the following members: Meses. Ben Herrin, Frank Stipe, F. S. Landers, Lem Weeks, Roy Magee, Pestal Elkins, a visitor, Mrs. J. E. Sesom, and the hostess, Mrs. J. E. Roach.

The next meeting will be in the home of Mrs. Ben Herrin, April 10. REPORTER.

### ROBERSONS ATTEND FUNERAL IN CISCO FOR GRANDDAUGHTER

Mr. and Mrs. A. B. Roberson of Hico attended funeral services in Cisco Monday, March 26, for their granddaughter, Mrs. Gail Bailey, 23, of Houston, the former Miss Billie Jean Dean, who had been ill in a Houston hospital for some three weeks. She was the daughter of Mr. and Mrs. W. E. Dean of Cisco. Mrs. Bailey died Saturday, March 24, at 8:40 a. m.

Other relatives from here who attended the services were Mr. and Mrs. Sherman Roberson, Mrs. Ola Wallace and Mrs. Wallace Ratliff. The following information was given in the obituary in The Cisco Daily Press:

Mrs. Bailey came to Cisco with her parents in 1933 from Fort Worth, where she was born on August 3, 1927. She attended school in Cisco and was graduated with the class of 1944 at Cisco High School. During her high school career, Mrs. Bailey was one of the most popular students in the school and participated in all activities.

She was married to Capt. Gail Bailey in Cisco on June 6, 1945. The couple had one son, Stephen Dean, four, who survives. Captain Bailey is with the United States Air Force. At the present time he is at Ellington Field, near Houston. For a while, Captain and Mrs. Bailey and their son lived in the Philippines where he was stationed with the Air Force.

Funeral services were held at 4:00 p. m. Monday at the Cisco Church of Christ, with G. S. Westbrook of Lubbock officiating. Mr. Westbrook is a former minister of the Cisco church. Burial was in Oakwood Cemetery.

### C.P.S. Award Given Lem C. Paschal for Long Service Record

Awards for a quarter century of service with Community Public Service Company and its predecessors were presented to Lem C. Paschal, Hico plant operator, and two other employees from Perryton at March division meetings.

Mr. Paschal, who has been employed with C. P. S. Co. in Hico since April, 1950, succeeded Raymond E. Collins as plant operator.

Also honored were Division Manager C. E. Whippo and Power Plant Superintendent Tom Waugh, both of Perryton. The three men were each presented with a 19-jewel Hamilton gold wrist watch, engraved with his name and service record. Vice-President N. R. Parsons presented Mr. Paschal with his award at a luncheon during the Central Division employee meeting at the Roosevelt Hotel in Waco, March 22. Also attending this division meeting from the local company office were Mrs. W. E. East, cashier; O. L. Davis, manager; and George M. Stringer, serviceman.

Excerpts from a news release in The Communicator, company employee magazine, gave the following information:

The Huaco room of the Roosevelt Hotel was the scene of the presentation to Mr. Paschal. There, Central Division employees heard Mr. Parsons trace Mr. Paschal's career with our company and its predecessors, beginning in 1924 when he went to work for Walker Caldwell Water Company, which later became a C. P. S. Co. property. Mr. Parsons complimented Mr. Paschal for his efficiency as an employee and stated that his loyalty and devotion to duty has set a good example for all employees. In presenting the award to Mr. Paschal, Mr. Parsons said: "This watch does not mean retirement or that you are going to do more or less work for the company, but is a well-deserved symbol of appreciation for your loyal service, and carries with it the best wishes of the management for your future."

Mr. Paschal obtained his first utility experience as a fireman in the plant of the San Saba (Texas) Light, Ice and Bottling Company in 1914. After nine years of employment with that company, he moved to Breckenridge where he began working for the Walker Caldwell Water Company, suppliers of the city's water service, in the fall of 1924. He was operating the river pumping station at Crystal Falls when our company acquired

the Walker-Caldwell system in 1928, and continued in the capacity until the system was sold to the City of Breckenridge in December, 1946. Since that time, he has served as operator in the Lone Oak power plant and in the Hico power plant, where he is presently employed.

Plant Operator Lem Paschal of Hico has not only served this company and its predecessors for over a quarter of a century, thus qualifying among the oldest employees in point of service, but has worked this long period of years without having a single accident, lost-time or otherwise. This is a record of which he may well be proud.

Lem attended the Brady Public Schools. During the last three years he was in school he not only attended classes but held down three jobs each day "on the side," a rather ambitious program for one of his years. He went bright and early in the morning to clean up the Commercial Bank of Brady before it opened for business. Then he attended classes until 3 o'clock and returned to the bank, this time to mount a bookkeeper's stool and post the journal. When the bank closed at 5, he went on to his third job, that of delivering groceries and feed, and at this he worked until after dark.

After finishing school, Lem worked full time at the bank for some months. Then he took a job with a cleaning and pressing establishment. About this time the "money panic" of 1907 came. The owner of the shop was thrown from his horse and suffered injuries which laid him up for a long period, during which Lem operated the business. "Those were lean days, but I took in enough money to pay the rent and other operating expenses," Lem recalls, "except for wages for myself."

In June of 1914, Lem got his first taste of the public utility business. He was employed by the San Saba Light, Ice and Bottling Co. in their plant. "My job was firing a boiler with lignite, about which I knew nothing," Lem says. "I learned the hard way. The pay was \$1.50 a day, and a day consisted of 12 hours."

Mr. Paschal continued working for the San Saba utility for nine years. Meanwhile he was married, on March 10, 1915, to Miss Gaynell Benham. Four children were born to them—two boys and two girls. The second child, a boy, died at four months of age.

In the years of depression, during the '30s, working days were long ones for Lem. There were times when he averaged over 100 hours a week. In addition to his work at Breckenridge, he also did several special assignments on other company properties. At Memphis, Texas, he installed some engines and equipment and built a couple of pump houses. He did maintenance work from time to time on the Strawn power plant.

When our company sold the property at Breckenridge, Lem Paschal was transferred to Lone Oak, as previously mentioned. He operated the power plant at Lone Oak from December 15, 1946, to April, 1950, when he was transferred to Hico as power plant operator there. It was here that he became acquainted for the first time with a five-day work week.

The Paschals have three children and three grandchildren. Their son, Frank Paschal, has been in the Air Force since 1939. Their two daughters are Mrs. Bill Chalmers of Tucson, Ariz., and Mrs. Frank Maddox of Dallas.

### Indelicate, But It's a Vicious Circle

## More You Itch, More You Scratch, More You Itch . . .

When you itch in one spot, it usually isn't so difficult to find out what's making you itch, but when the itching is just general, all over the body, sometimes one place and sometimes another and sometimes all places at once, it not only is more aggravating to you, it's also more aggravating to your doctor because it's harder to locate the cause.

Persistent itching is a robber of comfort and since anything that makes you uncomfortable may interfere with your health and well-being, itching may be considered a signal of distress.

Itches that awaken you from sleep and demand scratching are probably the most nerve-racking of the brand. Other forms of itching may keep you from falling asleep, since some itches start up after undressing, but there is a distinction between the ones that keep you from falling asleep and the ones that break into your sleep.

The timing of the beginning of the itch may give some clue as to its cause. If you itch when you get cold or hot when you get hot or itch at any abrupt change of temperature, that's an important piece of evidence in pinning down the robber.

The manner in which you scratch the itchy areas may also have some bearing on the source of the itch, particularly whether you can stop scratching when you set your mind to it or whether no matter how much you say you won't scratch, you still have to.

Different brands of itches frequently arouse different types of scratching. The most common type is dragging the nails over the itchy spot, leaving parallel lines of different depths, depending upon the intensity of the scratch. These lines themselves may create more desire to scratch and lead to that vicious circle that the more you more you scratch, the more you itch.

Lice, mites, the itches that may accompany pregnancy, tumors, liver diseases, kidney diseases and cancer will generally create the unrelenting dragging of the nails over the itchy area. Not only might it lead to more itching but it may also lead to infection, called secondary infection.

Those suffering from nervous disorders frequently use the nails to scratch, too, but theirs is more of a digging with one nail than the dragging of several nails across the annoying area. Neurodermatitis, which is considered one of the very worst of the itches so far as the necessity to scratch is concerned, may be distinguished by the high shine on the finger-nails because with that affliction you're most likely to rub the backs of the nails over and over and over the itchy areas and the rubbing gives a manicured look to the nails.

Hives and wheals frequently itch but they usually call for a brand of scratching that doesn't involve the fingernails; you might pinch them, hoping for relief, or push them back into the skin, or knead them like a wad of dough.

The external and internal causes of itching would make a long list. The family doctor can usually eliminate many of the possible causes and then, after scratching them off the list, start in on some of the less obvious causes. Sometimes the doctor who specializes in skin diseases is able to locate the cause more quickly because of his specific knowledge; sometimes the doctor who specializes in female disorders may be able to trace the source more quickly in women patients; the same may be true in children or old people, that doctors who have gathered their medical knowledge with special reference to the differences in children and the elderly may detect the cause more quickly; since some origins of itches lie within the system of nerves in the body, a doctor with minute knowledge of the nerves may be consulted to trace the cause. Allergy specialists often have a medical interest in itches.

Finding the cause of a constant, annoying itch may be very simple or it may be one of the most complex problems that can confront the doctor. Your family doctor is the best bet when it's your trouble; if he can't locate the source or treat it to give you relief, he can usually tell you what kind of specialist is more likely to be required.

which I'm sure is answer to the letter of Mrs. Handy.

Yours very truly,  
ALSEY ALFORD.

Dear Mr. Alfard:

We appreciate your letters in answer to Mrs. E. W. Handy in Tomball, Texas, and feel sure that she has gained the information she sought by now, through the co-operation of those who remember the beginning of cotton gins in Hico. From your letter printed in our paper March 2, and the above letter of Frank Fisher, there should be enough details that would answer her question.

Mr. Lee Trantham and Mr. J. J. (Mac) Smith have also accommodated us with what they can remember about the ginning business in this county. The first one Mr. Smith remembers is a small gin operated in 1876 by John Barbee on his farm (the Bob Lewis place now) for the convenience of other workers on that place. This gin building was made of logs and was operated on power obtained from the Bosque River.

The first public gin Mr. Smith remembers was operated by Jim and John Huchingson and was located on the Kal Segrist place this side of Old Hico. It was pulled by the power of 12 horses. Then when John Barbee built the old rock gin, Huchingson did away with his in Old Hico.

After Hico was moved in to the railroad, Joel Fisher put in a cotton gin in connection with his roller mill, and Jim Rosamond operated a gin at the same time. Later Doss Barbee moved the equipment from his father's gin in Old Hico to the place where the Kight Gin is now, and began operation of a cotton gin. These three were all in the new town of Hico.

Mr. Trantham also remembers the first cotton gin owned by John Barbee on his farm on the Bosque River. The gin was still running when the Trantham family rented land from Mr. Barbee, who built a house for them on his land. This was in 1887, when they lived there, and his younger brother, Joseph Trantham, was buried in a graveyard there by Money Creek.

And so, we feel that brings us up

to date on the first cotton gin in Old Hico and New Hico, 1876 to 1886. If you gentlemen find any discrepancies in the different versions, you might argue it out and report to Mrs. Handy, Box 117, Tomball, Texas. We have enjoyed hearing from you.  
Ye Assistant Ed.  
CAROLYN HOLFORD.

P. S. Since the above reports were given, Mrs. Newt Adams has volunteered some more information. The former Linnie Huchingson, she recalls the operation of the gin by Mr. Fisher, and recalls that it was later sold to Mr. Wieser of Hamilton. Her uncle, Captain Jim Huchingson, she stated, put in the first dry goods store here, and from him she learned much of the history of Old Hico.

She also challenged Mr. Alfard's statement in a previous letter that Mrs. Alice Hickman Wyly was born on the former J. N. Davis place south of town. According to Mrs. Adams, Mrs. Wyly was born in the city limits of Hico. Perhaps they can get together at the old-timers' class reunion in Hico this year and settle that discussion. At any rate, it should provide a subject toward which those who come back can contribute their versions.
