Reynolds, our town librarreally put a smart-aleck moin his place last week t in center of town, corner of lain and Walnut.

Her car stalled, tying up traffic. Most drivers just waited quietly -realizing she couldn't help itbut one fellow kept blaring away m his horn.

So Miss Reynolds gets out of her cer, walks over and says sweetly, "Im afraid I can't start my ene. If you'd like to try I'll stay ere and lean on that horn for "That stopped him!

From where I sit, a lot of us are sometimes a little overeager to "sound off" before we really understand what it's all about. Let's try to see the other fellow's side in whatever he does - how he votes, what he thinks, whether his preference is for a glass of beer or buttermilk-rather than simply blast out anyone who "gets in the way" of our ideas in these

DIAMETRIC PRECISION WHEEL BALANCER

This marvelous machine, installed for better service to our customers, detects every spot on the wheel which is out of balance. Designed to give you from 50 to 100 per cent more tire mileage—come in today and see it operate.

Wheels out of balance don't roll smoothly down the road giving you easy riding and easy steering. INSTEAD, they hop, pound and swing from side to side on every revolution.

The present owners, Mr. and Roland L. Holford, have striven to present a picture of the local happenings primarily for current interest, as all their this sheet will have the same quaint antiquity that the 1896 ssue does now.

Enjoying the dubious distinction of having "sweated out" a sometimes weary existence longer than any of their forerunners, the Holfords arrived on the local scene the first day of 1930, with little more than a knee-high redheaded daughter, a desire to run a decent paper, and the good will and assistance of a tolerant publie to carry them through a depression, a World War, and the existing Korean conflict. They are "happy if their efforts, currently fortified with that nowgrown red-headed daughter's lend-lease assistance during an emergency labor situation, have met with the public's approval."

WE SAY "THANK YOU" FOR YOUR FRIENDSHIP AND PATRONAGE, AND FOR PLEASANT ASSOCIATIONS IN EVERY WAY WHILE IN THE DRUG BUSINESS.

It would indeed be hard to say goodbye, if we were severing our business and social connections with the people of this community. But since this is not the case, we still want to express our feelings upon announcing our withdrawal from the drug business.

We appreciate our friends who have been so nice to us, and we want you to know we will miss visiting with you down at "The Corner." But Hico will still be our home, and we'll be seeing you from time to time under different circumstances.

TUBELESS TIRE "TAKES IT"

This picture demonstrates how the new puncture-sealing tubeless tire, now on sale in this area for the first time, can "take it" - and not breathe a sigh. In this destructive spike-board test one spike, under-neath, has completely pierced the tire and another, right, is about half way through. But air does not leak out of the tire. A gummy inner layer of special rubber which "surrounds" the piercing objects, then closes the hole when they are withdrawn, gives the new tire its self-
