Rioters protest publisher slaying

SEX IS SURREAL THING — An unidentified design student carries a plaster leg encased in a stocking as she stands in London's Trafalgar Square with her head covered with a flower arrangement. The whole thing was a "surrealist event" entitled "The Phantom of Sex Appeal", and was intended to duplicate a similar surrealist event staged in 1936. Event was part of a number staged by London's Arts Council.

MANAGUA, Nicaragua (AP) — Fiery protests, teargas barrages peppered with bullets fired into the air and calls for a mass rally and 24-hour business shutdown swept Managua in advance of the funeral this afternoon of assassinated publisher Pedro Joaquin Chamorro.

Demonstrators wrecked buses, burned cars and at least six buildings, including a Citibank branch, Wednesday night to protest the slaying of Chamorro, an outspoken critic of the Somoza dictatorship who died in a machine-gun and rifle ambush in downtown Managua Tuesday. Other torched buildings included a Bank of Central America branch and a blood plasma firm, both partially owned by the Somoza family; the customs headquarters, the offices of a construction firm where nearly 1,000 gallons of gasoline were stored and a Renault showroom. The plasma firm, Plasmaferesis, had been accused by Chamorro's newspaper La Prensa of making a profit in Western Europe and the United States on blood it bought from poor Nicaraguans. Police fired volleys of tear gas and bullets into the air to disperse the rampaging crowds, which splintered off from an estimated 30,000 mourners escorting Chamorro's glass-topped coffin to La Prensa's office for an overnight wake. A number of persons in the crowds were reported injured. Members of the Chamorro family said they expected 100,000 persons, a sixth of Managua's population, to attend the funeral in the biggest outpouring in Nicaragua in a decade. Political opponents of President Anastasio Somoza called a rally, and the national businessmen's council urged all shops and factories to close for 24 hours to protest the assassination. Four opposition groups including Chamorro's

Democratic Union for Liberation announced they were calling off a two-month-old dialogue with President Somoza, whose family has run this Central American nation for 45 years. The National Guard, the combination police force and army, announced the arrest of four suspects and said it seized three cars and a number of firearms in connection with the assassination.

Killers of news reporter expected death penalty

PHOENIX, Ariz. (AP) — Two men sentenced to the gas chamber for the June 1976 murder of newspaper reporter Don Bolles said they expected the death penalty.

"We were expecting it. There hasn't been anything fair in the trial. (I was) basically prepared," said contractor Max Dunlap, 48, who along with plumber James Robison, 55, was

sentenced to die "by lethal gas" in the Arizona State Prison's gas chamber. Shortly after sentence was passed Tuesday by Superior Court Judge Howard Thompson, Robison told reporters, "It was no great shock. The verdict was consistent with the rest of the trial."

Dunlap and Robison accused Thompson of conducting an unfair trial and the prosecution of sup-

pressing evidence. "I felt during the course of the trial like a man with his hands tied," Dunlap said. "After the fight is over they un cuff you and say, well, it's been a fair fight."

Dunlap and Robison were arrested last January after John Harvey Adamson admitted placing a bomb beneath Bolles' car. Adamson pleaded guilty to second-degree murder and agreed to testify against Dunlap and Robison in return for a reduced sentence.

As the state's key witness in the eight-week trial, Adamson testified that Dunlap hired him to kill Bolles, Arizona Attorney General Bruce Babbitt and a former public relations man. Adamson, 34, a former dog breeder, claimed Robison triggered the bomb with a radio control device as Bolles backed from a space in a hotel parking lot.

Bolles, an investigative crime reporter for the Arizona Republic, died 11 days later.

A jury found Dunlap and Robison guilty of first-degree murder and conspiracy Nov. 6. Thompson ordered the two to spend not less than 29 and not more than 30 years in prison for the conspiracy conviction.

Under Arizona law, the death penalty will be appealed automatically to the state Supreme Court. Dunlap's attorney Larry Debus predicted the appeals process will take up to two years.

Water meeting will be dedicated to Mahon

AMARILLO — The 11th annual membership meeting of Water, Inc., will be dedicated to Cong. George Mahon for his dedicated and outstanding service to the High Plains area, the state and the nation.

The retiring Mahon, chairman of the House Appropriations Committee, will be honored during ceremonies Feb. 11 at the Quality Inn here. Vernon Congressman Jack Hightower will participate in the ceremonies.

Water, Inc., Executive Director Duncan Ellison said, "As Mr. Mahon concludes his final term of office, we believe he should be recognized for his outstanding Congressional record during the past 44 years. Few people in Washington today have received the bipartisan respect that Mr. Mahon has

maintained during his distinguished Congressional career. His peers and constituents recognize him as a true statesman.

"The meeting dedication is simply a gesture of our appreciation to Mr. Mahon," Ellison continued, "not only for his support of water resource development for the entire High Plains region, but also for his untiring efforts in all areas to truly represent his district, his state and his nation with honor and dignity."

More than 200 people are expected to attend the Water, Inc., session and participate in the recognition of Congressman Mahon. Dedication ceremonies will be conducted during a luncheon meet and will be preceded by a morning session when several speakers will address the area's water situation.

Grace declares cash dividend

NEW YORK — The board of directors of W. R. Grace & Co. has declared a quarterly cash dividend of 45 cents per share on its common stock. The dividend is payable March 10 to shareholders of record on Feb. 8. This is the 161st consecutive common stock dividend paid by W. R. Grace & Co.

The Grace board also declared dividends for the year 1978 of \$6 per share on the preferred stock and \$8 per share on each of the Class A preferred and Class B preferred stocks, which will be paid quarterly at the rates of \$1.50 and \$2.00, respectively.

Girl in 'fantasy world' will not be charged in death of her baby

FORT WORTH, Texas (AP) — A 16-year-old Grapevine girl, said by psychological evaluators to be "operating in a fantasy world," will not be charged in the death of her newborn baby, authorities say.

The baby, who died from exposure in 20-degree weather, was found wrapped in a piece of white sheet and placed inside of a brown paper bag Dec. 6. It was left in a car outside a Grapevine apartment complex.

Assistant District Attorney John Beatty said Wednesday the decision not to prosecute was based on the psychological evaluations.

A note in the paper bag read, "Please take care of him. His name is Gary Don and I love him."

The county medical examiner ruled the death infanticide after the child was found by two high school girls when they started out for school.

The mother was located a few days later.

The mother's lawyer, Ernie Bates, described his client as having the social sophistication and awareness of a 13-year-old. She managed, he said, to keep her pregnancy a secret because she thought religious convictions of the aunt and uncle with whom she lived would make them angry.

Bates said the mother thought the baby would be discovered shortly after she placed it in the car.

Council meets at 7:30 today

A regular meeting of the Coahoma City Council is set for 7:30 p.m. today in the Coahoma City Hall.

Subjects to be discussed include the police department, insurance on employees, delinquent taxes, a man to serve as dog catcher, uniforms for outside employees, and water provisions for the scout hut.

Also on the agenda are discussions of personnel and problems with the sewer on the north side of Interstate 20.

More than one in four are affected by cancer

Out of the approximately 30,000 people in Big Spring, nearly 8,000 will be affected by cancer directly or through kinship.

Cancer, according to Don Resignol, Midland, area education chairman for American Cancer Society, is the leading killer among children, among women 40 years and older, and second only to cardiac problems as the leading killer of all diseases. Resignol spoke Wednesday to the Downtown Lions at Cactus Room on Howard College campus.

In the seven years that 55,000 American lives were lost in Vietnam, he continued, there were 2.6 million cancer deaths in the United States. And yet, much can be done about it. Early-detected cancer can be cured or controlled, but left untreated until later, cancer likely will be terminal.

He urged individuals to have annual medical checkups; to obtain copies of the free booklet — "What

Everyone Should Know About Cancer," and if diagnosed to have cancer, don't give up established treatment even if insisting on some controversial remedy such as laetril. ("If you must take laetril, don't stop your other treatments.")

American Cancer Society, he reported has a four-fold program including education (with emphasis now on teaching children not to smoke), crusade (fund raising), service and rehabilitation (loan of hospital beds, wheel chairs, etc. and instruction in recovery); and professional education and research to treat and find a means of curing cancer. Volunteers perform most of the program.

Directors of the club will meet 6:30 p.m. Thursday at Big Spring Country Club. M. A. Barber, president, reminded that the mid-winter conference will be Jan. 28 in Sweetwater.

Ex-maid says H.L. Hunt stayed with his wife 'just long enough'

SHREVEPORT, La. (AP) — A former maid for oil billionaire H.L. Hunt says he often came home when he lived in Shreveport but rarely stayed more than a few days with his wife — "just long enough."
Annie Mae Solomon, 73, who worked for the Hunts in the late 1920s, testified in federal court Wednesday for Frania Tye Lee, who is suing the Hunt estate for a share of his fortune.
Mrs. Lee says in her suit she had four children while married to Hunt from 1925 to 1934 when she discovered he

also was married to another woman.
Those were the days when Mrs. Lee, now of Atlanta, contends she was Hunt's harassed wife, always either pregnant or moving — with no idea that he was shutting back and forth between her and a wife in Texas.
The U.S. District Court suit seeks a ruling naming Mrs. Lee as Hunt's common-law wife, entitled to half of the cash and property he acquired between 1925 and 1934, plus all the subsequent — fruits thereof.

Mrs. Solomon was an unexpected dividend for Mrs. Lee's lawyers. She volunteered as a witness after recognizing an old photograph published in a Shreveport newspaper as that of "Mrs. Hunt."
She said she worked for Mrs. Hunt for about two years.
Hunt died in 1974. Legal argument centers on whether the marriage to Frania Tye Lee was valid, since he already had a wife, and on a claim that she relinquished her rights in a 1942 financial settlement.

A huge amount of money could be involved, but Hugh Lee Hunt, 43, of Alexandria, Va., one of Hunt's two sons by Frania, said there was no estimate of how much.
Trial opened Monday. Mrs. Lee, 73, sits quietly with her battery of four lawyers as her romance with one of the world's richest men unfolds before a civil case jury of three women and three men.
Depositions from two sisters, Helen Wolzniak and Jennie Stovall, both now dead, were read into the record.
Hunt "absolutely" presented himself as Frania's husband, Helen Wolzniak testified. He seldom stayed home more than a few days, she said. "My business is calling me, he would say."

A SHOT IN THE DARK — Tricia Spangler bares an arm and covers her eyes as she proceeds down the assembly line to receive her mandatory immunization shots at an Eagle Grove immunization clinic. A district judge ruled in Cedar Rapids Wednesday that the Iowa law requiring immunization of schoolchildren is constitutional.

Lamesa nursing home stripped of certification

AUSTIN, Texas (AP) — The Texas Department of Health stripped two nursing homes in San Antonio and Lamesa of their certification Wednesday.

Broadway Lodge in San Antonio and Leisure Lodge in Lamesa were "decertified."

Broadway Lodge in San Antonio and Leisure Lodge in Lamesa were "decertified."

The department also announced it is withholding state and federal vendor drug funds from five nursing homes: Hart Memorial Home, Commerce; Bryanwood Care Center, Amarillo; Lake Park Manor Nursing Home, Lewisville; Medicenter of America, Inc., Corpus Christi; and Retama Manor Smuth, Victoria.

Vendor funds withheld earlier from Monterey Manor, Wichita Falls, and Deering, Odessa, have now been released to them, the department said.

Rhodes to greet voters at 4 p.m.

Dusty Rhodes, candidate for Congress in the 17th District, will be honored at 4 p.m. today at an introductory coffee at the office of Roger Brown, 109 W. 4th.

The public is invited to the event and to meet Rhodes, who was the first announced candidate for the position. He is an Abilene attorney.

Junior livestock show begins at 9:00 Friday

STANTON — The annual Martin County Junior Livestock Show will open at 9 a.m. Friday and continue through Saturday.

The Martin County Championship Club is sponsoring the event. The lamb show is first Friday morning, followed by the swine show at 2 p.m.

Saturday's events include a buyer's appreciation barbecue and the steer show at 9 a.m. The barbecue is at noon.

Additional activities include a dance Friday night and a grass judging contest Saturday.

The dance will be sponsored by the Martin County Chamber of Commerce and held at the Legion Hall starting at 8:30 p.m. lasting until 12:30 a.m.

Proceeds from the dance go to the chamber's depot moving fund. The funds will be utilized to help move and

remodel the historic railroad depot. It will eventually be used as a chamber office.

The Mustard Oil and Water Conservation District is sponsoring awards for the grass judging contest, set to begin at 9 a.m. Saturday at the community center.

There will be a youth and adult division. The event is sponsored by the Martin County Range subcommittee.

The Martin County 4-Hers and Future Farmers of America from Grady and Stanton High School will compete at the show.

Chairman of the new championship club are Bob Sale and Gerald Hanson with others helping contact buyers including Mike Holcomb, Bruce Key, Eldon Welch, Corky Blocker, Butch Howard, Nolan Parker, Preston Faris, and Rick Vestal.

Tax cut by July 1 urged

WASHINGTON (AP) — One of Congress' most powerful leaders on tax matters says he favors a smaller tax cut this year than the \$25 billion President Carter is expected to propose later this month.
Citing a stronger than expected economic recovery, Rep. Al Ullman, chairman of the House Ways and Means Committee, said a \$25 billion tax reduction is too high and might prove inflationary.

The Oregon Democrat added in a telephone interview Wednesday that whatever the cut is — he would not give a specific figure — it should take effect by July 1, if Congress can act by then, rather than Oct. 1 as Carter is proposing.

Ullman also said that several controversial tax revisions Carter wants to tack onto his tax cut, such as eliminating certain business tax breaks and deductions, are almost certain to be put off until at least 1979.

The tax cut should only be as large as would be needed to offset new federal energy and Social Security tax increases, Ullman said, adding that he could not give a figure now because the energy plan is still bottled up in Congress.

He acknowledged, though, that "if we get the full crude

oil tax," the two new taxes "could be in the range" of the \$15 billion to \$16 billion that some economists have estimated.

The oil tax, which would add about 7 cents to the price of a gallon of gasoline, was proposed by Carter and passed by the House but rejected by the Senate. It remains in conference committee.

Congress did complete action last month on Social Security legislation that will sharply boost taxes for both workers and employers. Government officials estimate the taxes will go up by about \$4 billion this year.

"Twenty-five billion (dollars) is more than an offset," Ullman said. "It would be dangerous to put out too high a figure now and get locked into something that is more than the economy would need. It would be inflationary."

Carter has not announced details of his tax cut plan, which he is expected to unveil in a few weeks. But administration sources have put the total reduction at \$25 billion, a figure Ullman did not dispute.

Oct. 1 is the start of the new fiscal year. If a tax cut were to take effect July 1, Congress would have to revise the budget that it already approved for the

current 1978 fiscal year.

Ullman said the size of a tax cut also has to be weighed against "the need for revenues and the need to work toward a balanced budget as quickly as possible."

As for it taking effect by July 1, he said, "We certainly can't pass a tax cut until we get an energy package. I favor July 1, if it is possible, and that depends on the energy program."

Ullman said he favors Carter's general approach to a tax reduction, which administration sources say includes a 2 percent cut in tax rates for individuals and businesses, replacement of the \$750 personal exemption with a \$250 credit and a more liberal investment credit for business.

Cigarette smoking 'Public Health Enemy No. 1'

WASHINGTON (AP) — The woman whose smoking withdrawal program taught Joseph A. Califano Jr. how to quit cigarettes says the health, education and welfare secretary should use "every cent he has" to counter tobacco industry ads.
Jacquelyn Rogers, founder of SmokeEnders Inc., hailed Califano's declaration of cigarette smoking as "Public Health Enemy No. 1," but said she hopes "the guy has enough guts and political savvy to take the second step."

Califano, once a three-pack-a-day smoker, went through the private, profit-making SmokeEnders program in 1975. He has since become an outspoken antismoking campaigner.

Califano announced Wednesday that HEW's smoking information and education programs will be expanded and coordinated by a new Office on Smoking and Health with an annual budget of \$23 million.

The \$23 million, which includes almost \$17 million already budgeted for smoking research and education programs, is nearly half what the

spends on subsidies to tobacco growers.

Mrs. Rogers commended Califano for not proposing an end to the politically popular subsidy program. "I'm glad he didn't fall into that trap, although I resent the fact he's allowing \$50 million for subsidies and only \$23 million for the new office," she said.

Presidential press secretary Jody Powell said of the subsidies Wednesday that the Carter administration doesn't feel communities dependent on tobacco-growing "should bear the burden of economic ruin" because of the anti-smoking drive.

Mrs. Rogers, an Easton, Pa., dentist's wife who has built SmokeEnders into a multimillion-dollar international business, said the government and other antismoking interests should put all their efforts into marketing techniques to counter the \$14-billion-a-year the tobacco industry spends on advertising.

"Tell people about the sexiness of not smoking... that they can quit if they want to; convince kids that smoking is a sign of im-

DAYAN MEETS WITH POPE — Israeli Foreign Minister Moshe Dayan shakes hands with Pope Paul VI at the Vatican during a special audience today. Prelate at left background is unidentified. Cohabiting cops' suspensions upheld

AMARILLO, Texas (AP) — The 12-day suspensions assessed a male and a female police officer last month for living together without being married have been upheld by the Amarillo Civil Service Commission.

Officer Tommy Lane, a dispatcher, and Katherine Johnson, a patrolwoman, had appealed their suspension to the three-member commission.

Sgt. Stanley Wisenhunt and Officer Janet Shago were also suspended without pay by Amarillo Police Chief Lee Spradlin for cohabitating, but the commission decided Wednesday to delay action on their appeals until Jan. 23.

Wisenhunt will also have a hearing at that time on Spradlin's recommendation that he be demoted to patrolman.

The ruling by the commission means Officers Lane and Johnson will not receive back pay for the suspension and cannot have records of the matter removed from their personnel files.

According to records reviewed by the commission Wednesday, Officers Lane and Johnson allegedly lived together from Nov. 19-Dec. 19, 1977 in Miss Johnson's apartment.

Lane and Miss Johnson denied the charges Wednesday, but Spradlin said an internal investigation found that the two couples were cohabitating.

"They have not held themselves out to the community as husband and wife," said attorney Steve Scott, who represented Lane and Miss Johnson and said the two had dated other persons during the time they allegedly lived together. "They have maintained their own separate abodes."

Spradlin said citizens

Liquor law violations

AUSTIN, Texas (AP) — The Texas Alcoholic Beverage Commission reported Wednesday its agents filed 3,695 criminal cases in fiscal 1977, resulting in 2,775 convictions.

Fines paid for liquor law violations totaled \$239,745, the commission said in its annual report for the year that ended Aug. 31, 1977.

The Houston district led in cases filed, with 649. But other major population centers lagged far behind — Dallas, for instance, with 192, San Antonio with 94 and Fort Worth with 107.

On the other hand, the Paris district with no major urban centers trailed the Houston office only a small number, filing 596 cases. Judges and juries in the Paris district imposed \$47,180 in fines, compared with \$31,128 in Houston.

Four stills were seized during the year — one in Harrison County and three in Marion County, both in deep East Texas.

Teacher exams to be given

The National Teacher Examinations (NTE) will be given at Howard College Feb. 18.

Scores from the examinations are used by states for certification of teachers, by school systems for selection and identification of leadership qualities, and by colleges as part of their graduation requirements.

Educational Testing Service, which prepares and administers the tests, says they are designed to measure knowledge gained from professional and general education and in 26 subject-matter fields. Bulletins describing registration procedures and containing registration forms may be obtained directly from the National Teacher Examinations, Educational Testing Service, Box 911, Princeton NJ 08540. Deadline for regular registration is Jan. 26. On-the-spot registration is not permitted.

Columnist dies

CHICAGO (AP) — Johnrae Earl, restaurant critic and food columnist for the Chicago Tribune, and author of 10 cookbooks, died Tuesday. He was 59.

Earl, who also supervised copy editing of local and financial news for the Tribune, had previously worked for The New Castle (Pa.) News, the Pittsburgh Sun-Telegraph, the Chicago Daily News, and the now-defunct Chicago's American.

Employers will set up booths during job fair

Job seekers from throughout the region will have an opportunity to learn about and apply for as many as 600 different jobs at the second annual Permian Basin Job Fair Jan. 21 at Midland Air Terminal.

Some 50 employers are expected to set up booths in the South Aquila Hangar from 9 a.m. to 3 p.m. to take applications and interview prospective employees for jobs.

The job matching fair is co-sponsored by the Odessa and Midland Chambers of Commerce, the Odessa and Midland offices of Texas Employment Commission, the Permian Basin Regional Planning Association; Texas Association of Business; and the Texas Industrial Commission.

Jobs listed with the Odessa Chamber of Commerce thus far fall into a wide range of categories including

geologists, registered nurses, truck drivers, salesmen, welders, machinists, heating and air conditioning servicemen, engineers, lathe operators, plumbers, firemen and clerical workers as well as many others.

According to Attieson Halbrook, chairman of the Odessa chamber's existing industries committee, employers can still sign up for booth space at either

chamber office. Booth rental is \$35 per space. There is no fee for employees.

Publicity for the job fair is being planned in several major Texas cities and in Oklahoma City to try to draw workers in the job fields that are experiencing a shortage of workers in the West Texas area. Newspaper ads will be run in major newspapers in Oklahoma City, Dallas, Fort Worth, El Paso, San Angelo, Midland and Odessa.

JUMBLE

THAT SCRAMBLED WORD GAME
by Henri Arnold and Bob Lee

Unscramble these four Jumbles, one letter to each square, to form four ordinary words.

DYPUG **GOROF**

FLEEDI **TARROM**

Now arrange the circled letters to suggest the surprise answer, as suggested by the above cartoon.

Answer here: "_____"

(Answers tomorrow)

Yesterday's Jumbles: CABLE ENTRY ADJUST FORAGE
Answer: Tip them to keep quiet — TOES

Your Daily HOROSCOPE

from the CARROLL RIGTER INSTITUTE
FORECAST FOR FRIDAY, JANUARY 13, 1978

GENERAL TENDENCIES: There is apt to be some confusion and muddled thinking now, so avoid what can be deceptive and fraudulent. Later, a whole new series of conditions comes into being by which you can advance to a much better life with more prosperity.

ARIES (Mar. 21 to Apr. 19) You get a puzzling communication early but ignore it; do not take it seriously. Try to be of assistance to friends and relatives. Increase own happiness.

TAURUS (Apr. 20 to May 20) Don't permit a monetary affair to disturb you now since later you can see how best to handle it. An expert can be of great assistance if you consult him.

GEMINI (May 21 to June 21) You are not in a good mood. Take time to improve your appearance and your feeling of well-being. Seek company of good friends.

MOON CHILDREN (June 22 to July 21) Conditions are rather trying for you but be philosophical and all works out to your benefit. Don't forget to pay important bills.

LEO (July 22 to Aug. 21) A new contact is disappointing, but a good friend comes to your aid. Take no chances with one who is a fair weather friend.

VIRGO (Aug. 22 to Sept. 22) Give attention to outside affairs that are important early, then plan other activities for later. Show you are a thoughtful person. Take no chances with reputation.

LIBRA (Sept. 23 to Oct. 22) Study future plans and make revisions if you deem them necessary. If you have a trip in mind, make arrangements well in advance for best results.

SCORPIO (Oct. 23 to Nov. 21) Take care of promises you have made early, although it may be somewhat annoying. Then arrange other obligations intelligently. A loved one may be irritated but this condition soon passes.

SAGITTARIUS (Nov. 22 to Dec. 21) A new attitude toward some association matter brings good results. An outside affair can also be beneficial to you. Do whatever will bring you more happiness.

CAPRICORN (Dec. 22 to Jan. 20) Your work may seem annoying but if you persevere you can turn it into pleasure and gain benefits. Take treatments to improve health.

AQUARIUS (Jan. 21 to Feb. 19) Get details of some social or fun affair worked out well. Take mate, loved one along for best results. Don't neglect important work you have to do.

PISCES (Feb. 20 to Mar. 20) Don't be so reticent at home since all works out nicely later. Study into every aspect of a new undertaking since this can bring you much benefit.

IF YOUR CHILD IS BORN TODAY ... he or she will be full of doubts if you do not give the right kind of ethical training. Be sure to do so and there will be a fine and upstanding person here. Slant education along business lines, especially dealing with property, real estate, building and the like.

Ridin' fence

The faithful watchguards

with Marj Carpenter

A lot of things have been said in the newspapers and a lot of puns made by educators and other citizens about the groups that often object to school textbooks.

But Mrs. R. C. Bearden of San Angelo, who is state chairman of textbooks and films in the schools for the Daughters of the American Revolution, made a believer out of me this week when she came over to talk to the Child Study Club here.

She showed me some books and items in books that had been approved by the state textbook committee which shocked me to the core. And I've been out and around in the news business long enough that I'm pretty hard to shock.

One of the ones that was particularly gross was a dictionary, which the Texas Education Agency in their final hearing overruled the State Textbook Committee and removed from the list of approved books.

All I can say is bless them. The words and definitions in the dictionary were shocking even to me — and when upset, I sometimes curse like a sailor on a dock. I can't give you the examples here, because they are words and definitions that I would not include in my column. But they were getting ready to go to our school children.

But this isn't even the most dangerous trend that is happening in textbooks. The vile language and lack of morals is only one item.

There are some very dangerous books on socialism under the guise of being about free enterprise. And one of the most frightening things is a trend toward trying to change behavioral patterns of

DISCUSS TEXTS — Mrs. R. C. Bearden of San Angelo discusses textbooks with Mrs. Wayne Henry and Mrs. Doug Stelter at the Child Study Club meeting here Wednesday.

children instead of teaching facts.

I'm even a little bit afraid of such programs that are on the surface supposed to be great new teaching methods such as the Hawaiian Master Plan which starts out more or less on the premise that all students have special mental problems and need help.

The D.A.R. is even fighting modern math, working on the premise that students are coming through schools not knowing good old traditional math. They don't think students should have to waste a lot of time "discovering" what they used to just simply memorize — such as the multiplication tables.

The books are put out for the public to see and February is usually the month that the local school board acts on local textbook recommendations before

they go to the state level. If you are interested in seeing the books up for adoption this year, contact the local school administration office. They are always made available to the public. Hopefully there are not terrible ones among them. But there might be.

One of the frightening things added recently to the school curriculum is a state mandated course on drug problems. They are apparently devising their own textbook without going through the channels of textbook control, and this might be brought to the attention of legislators. That's a pretty important field nowadays.

There is also a manual on V.D. that is filled with terms for schoolchildren that are pretty shocking. I'm not taking the tack that I am against all of these things, which apparently need to be

taught at school because nobody at home seems to give a darn, but I am thankful for any organization or individuals who take the time to keep a watchguard on them.

Mrs. Bearden and some of her friends were sued at one time for \$30 million by the Economy Publishing Co. This didn't slow them down and that case was dropped with the publishing company apparently paying the court costs.

The D.A.R. groups brought to the attention of the commissioner of education a drama book, where at one point in the play animal blood was splashed on the audience and at one point, one of the actors was to offer to urinate on the audience.

I sat and thumbed through some of these things in horror. And I, for one, will never again make light of the D.A.R. State Textbook committee. Thank goodness for the watchguards.

Mrs. Bearden said West Texas educators and citizens are usually a lot more concerned than folks in some other portions of the state. Thank goodness for the concerned.

Aldous Huxley is quoted as having once said, "Never before have so few been in a position to make fools, maniacs or criminals of so many."

I'm glad you came our way Wednesday, Mrs. Bearden, and I'm thankful for the concerned and the watchdogs — while I'm out ridin' fence.

\$20,000 more than in '77

CRMWD charges fixed

Monthly fixed charges during 1978, the key factor in determining water rates, were established for member cities of the Colorado River Municipal Water District today. Rates of other cities and customers are geared to those of the member cities — Odessa, Big Spring and Snyder.

The monthly fixed charges, which are established by CRMWD

directors to assure payment of debt service, operation and maintenance of the system, aggregate \$228,109 after adjustments to modify the charges. This is \$20,000 more than in 1977.

Actual water unit costs (per thousand gallons) of water also are influenced by deliveries, because in addition to the fixed charges, member cities are charged 6 cents per thousand gallons of water received by them.

The district arrives at the fixed charges of member cities in the ratio of the percentage of their deliveries bears to the total. Also, expenses are apportioned as to pipelines and pump stations, on a distance-from-source factor. The remaining charges are prorated on the basis of deliveries as to production and general expense.

Directors Thursday voted to apply \$90,000 of non-municipal customer revenues to the modification

of fixed charges. Thus the \$185,944 which would have been Odessa's share was reduced to \$154,016 per month; Big Spring was reduced from \$72,744 to \$56,619; and Snyder from \$22,805 to \$17,427.

If Odessa uses 5.3 billion gallons of water in 1978 as estimated, the unit cost will be 40.88 cents per thousand gallons; if Big Spring uses its estimated 2.825 billion gallons, the rate will be 30.05 cents; if Snyder uses its estimated 900 million gallons, its rate will be 29.24 cents. If the cities, however, use as much as they did in 1977, the actual Odessa rate will be 38.42 cents, Big Spring 29.52, and Snyder 27.76. Essentially these are the same rates as calculated for member cities in 1977.

Other customers pay a differential — 3.27 cents per thousand gallons in the case of Midland and Stanton — over the rate charged proximate member cities.

Nazi Party seeks ruling

HOUSTON (AP) — A state appeals court has taken under advisement a request by the American Nazi Party to remove a temporary injunction that prohibits telephone tape messages by the party.

The messages offer a \$5,000 reward to any white who kills a non-white "while being attacked."

The three-judge 14th State Civil Court of Appeals gave no indication Wednesday

when a ruling would be announced.

In early December, State District Judge Richard Millard approved the temporary restraining order. It had been requested by Houston television personality Marvin Zindler. Mike Maness, an attorney for the Nazi party, told the court the injunction was "a violation of the right of freedom of speech."

"It is unconstitutional," he said. "The injunction violates the rights of the Nazi party."

Maness said the statements on the tapes do nothing to indicate a true threat to anyone.

"Actually, the \$5,000 is a legal fund to help those who may kill someone while protecting themselves," he said.

Attorneys for Zindler told the court that certain types speech "are not protected under the Constitution, and that includes threats."

"There have been payments of \$5,000, and a member of the American Nazi party admitted to that under oath," the attorneys said. "They are continuing to pay these rewards."

The recorded messages said, "We are calling for an all-white war against Jews and other non-whites. We

are beginning a battle by offering \$5,000 for every non-white killed during an attack on a white person."

Meanwhile, the headquarters of the Ku Klux Klan in Pasadena had a telephone message calling for the "death penalty for homosexuals."

"We of the Knights of the Ku Klux Klan are not embarrassed to admit we endorse and seek the execution of homosexuals," the recorded message said.

No legal action has been taken to stop the KKK telephone messages.

Record crowd at supper

The annual fund-raising chili supper held at the Kentwood Older Adult Center, 2805 Lynn, drew the largest crowd in the history of the event.

A total of 420 tickets were sold for the Tuesday night supper.

Jack Price was head cook, and ladies from the center brought pies. The supper brought in \$515, and Marshall Brown, center coordinator, expressed thanks to area merchants and all who helped to make the affair a success.

Stallions in show

The Howard County Youth Horsemen agreed to show stallions in their open horse shows during the coming year, to be shown by adults only.

The board of directors met at the Pioneer Flame Room this week and scheduled activities for the coming year. The HCYH will now include roping and goat tying in their activities.

Clinics are to be formed for each playday event and to include grooming and showing.

The club will pay half of

the instructor's bill with participating persons paying the other half.

The 1978 senior show committee includes Don Brewer, Amber Jones and Bud Graham.

Junior members who want to be on the show committee, call Valyncea Kirby at 3-0074.

The youth group requests persons who have parade equipment to return it to Buford Hull by calling 7-8814.

New members include Karen and Amanda Hyder, John and Ann Damron and Jerrod and Brandon Wooten.

The club reminds families that dues are \$7.50 per family.

483 enrolled in AE classes

The Howard College Adult Basic Education Program will be offering evening and day classes for persons interested in reviewing basic reading, mathematics, and English skills; preparing for the G.E.D. test; or learning English as a second language.

The first G.E.D. graduation held October 25 was a success in all respects. The next graduation will be held in May, 1978. Persons who pass the G.E.D. test and are enrolled in Adult Education classes will be eligible to participate.

Adult Education classes are held in Coahoma, Garden City, Stanton, Big Lake, Forsan, Big Spring (Howard College), the Big Spring State Hospital, and the V.A. Hospital. Day classes are held Monday through Friday at the Howard College Library from 8 a.m. to 5 p.m., and at the V.A. Hospital on Monday, Wednesday, and Friday from 2:30 to 4:30 p.m.

So far, a total of 483 persons have been enrolled in Adult Education classes for the 77-78 fiscal year, and 19 people have passed their G.E.D. test since October.

Call Miss Rosie Torres or Herb Johnson at 263-4581 for more information on how to enroll.

Songwriter files suit

LOS ANGELES (AP) — Singer-songwriter Paul Williams, who worked on the film "A Star is Born," has filed a breach-of-contract suit in Superior Court claiming he was deprived of his fair share of the movie's profits.

Williams served as music supervisor and songwriter for the film under an agreement negotiated by Houbitron Enterprises Inc. The pact called for Williams to be paid \$60,000 plus 2 percent of the movie's soundtrack sales, according to the suit.

The suit, filed Monday by Houbitron, names Barwood Films Ltd. as the defendant. Jon Peters, who co-produced the film with its star, Barbra Streisand, was unavailable for comment.
