Overland Autos Again in Pecos!

For ten days I have been unable to get Overland cars on orders on account of the "Spring Rush" that is now on in al the territory. I now have an auto-on hand and will have a car load this week ready for delivery. Some of these cars are alread sold, and I have no hopes of getting more care after these order as this is all the cars I have contracted for until July.

When You Come to Consider

that the most serviceable cars that have ever been in the P Country are unquestionably the OVERLAND cars.

When You Come to Consider

the size of a car and the general make-up-including the wheel base, horsepower, the electric source, the carburetor and the gen eral finish of a car for \$950 to \$1350, the one with the most i the money is unquestionably the OVERLAND car.

When You Come to Consider

what you are to get from your car the one offering the most is any questionably the OVERLAND car.

When You Consider

the factory building a car, and their financial strength, their disposition and assurance of help to buyers the one offering the most is unquestionably the OVERLAND.

These Facts

coupled with the fact that I have already sold in this territory more than my yearly supply; that 90 PER CENT OF ALL THE CARS SOLD THIS YEAR IN THIS CLASS IN PECOS HAVE BEEN OVERLAND CARS.

All These Facts

should be conclusive evidence and assurance that you need hesitate no longer as to your new car, but consider YOURSELF LUCKY if you get one of this year's production. Place your order now while you can get it filled at once.

Let me show you this new car.

KERMIT HAPPENINGS.

Joe Lovett, Frank Mitchell and Arthur Tannahill, have returned home after several days assisting Ben Dawson on his auto road from Kermit to Monahans. The roads was completed yesterday and is in fine fix, having been graveled and rolled. So our mail facilities will be much better.

W. A. Priest left today for Midland to be present at the great Ma sonie blowout.

H. B. Lovett has purchased the known as the Dr. Hamilton place. After making some repairs he will move home and begin gardening. There seems to be a great move-

Jack Wright, umpire.

The game stood 12 to 17 in favor of the Sand Lopers. Arthur Tannahill went over to root for the Outlaws, but after the game started there were so many pretty girls rooting for the Monahans boys he soon forgot himself and began rooting for the Sand Lopers. Says he could think of nothing to say for looking at the girls. The Outlaws say they would have won the game if so many had not been crippled. There is a better day coming.

Are you willing to aid in the suppression of consumption in Texas: Remember that more people die from this disease in our state than from any other.

Of 30,000 deaths in 1913, 3,000 were due to consumption. Valuing a human life at \$5,000, this mean an actual loss to the state of about \$15,000,000 in one year as a result of this disease.
