## THE BETTER BABIES CONTEST

A New and Important Feature to Be Added to the Reeves County Fair for 1915.

A Better Babies Contest will be conducted at the Reeves County Fair next month, under the supervision of the Mothers' Club.

The contest is a popular and yet scientific movement to insure better babies and a better race. Physical and mental development only are considered; mere beauty does not count.

The better babies contest is a nation wide movement which is aimed ultimately to insure a better race of Americans by teaching parents to improve the physical condition of their children.

The club aims to arouse interests in the conservation of child life and health, and in all forms of child welfare work. Accurate and scientific information which the mother will receive concerning her child's physical and mental development, should prove a strong connecting link between the parents and teachers, and between the home and the scientific study of child life.

The contest aims to promote civic interest in the children of the community; their schools and their recreations, and finally, by means of a uniform score card, will supply mothers, teachers and physicians with a scientific data concerning the normal child.

The contest will be conducted along educational lines. Parents leave the contest knowing more about their own children than they ever did before, and the children are given a better start in life because of the added knowledge they gain through the parent.

Children of six months and up to and including three years, may be entered in the contest. There will be three divisions for entry: First division—Children six months of age, up to and including one year. Second division—Children thirteen months of age, up to and including two years. Third division—Children twenty-five months of age, up to and including three years of age.

Medals and certificates will be presented by the Better Babies Bureau to the children in each division receiving the highest score for mental and physical perfection. These medals and certificates have been awarded to winners of these contests in all the large cities of the United States, and are highly prized by the parents. The popularity of this movement in other cities, insures a large number of entries for our own progressive community.

The Ready-Cut Jewelry Company and Charles Mahan have offered prizes of jewelry for the girl and the boy who scores highest in the contest.

### MAKE IT TEXAS.

President Waters of the Kansas State Agricultural College, in an address delivered at our own A. & M. College, declares that:

"Of the raw material used in the manufacturing industries of the United States about one-half of 1 per cent is derived from the sea, about 5 per cent is from the forest, about 13 per cent is from the mines and more than 81 per cent is from the farm. The farm-grown materials entering mostly into manufacturing are cotton, wool, wheat, corn, oats, milk, butter and livestock."

Based on that inventory of raw materials, President Waters expects the Central West to become the greatest manufacturing center of the United States in which he includes Texas.

But President Waters continues: "Texas has equal if not better advantages than Massachusetts and Massachusetts with a smaller population manufacturing six times more of the raw material of this region than Texas. Texas is fifth in population and seventeenth in manufacturing. Skilled labor is cheaper to transport than the raw material and if we do not have it we should import it."

All of which is said in good time and place in Texas. Encourage enterprise and industry to make it in Texas. Let Texas prosper. Star Telegram.

## SAN ANGELO ADOPTS CITY MANAGER PLAN.

New Charter is Adopted by a Big Majority—Commissioners Will Be Named.

San Angelo, Texas, Aug 4.—San Angelo voters Tuesday adopted by a large majority what is said to be a model charter for cities of this size. The total vote cast for the general charter being 429. The city manager's majority was 346. An election will be called for the selection of three commissioners on September 7th.

## IMMIGRATION, LOWEST FOR SIXTEEN YEARS.

Net Increase in the Last Twelve Months is Only 48,000.

Washington, August 4.—Immigration was at its lowest ebb since 1899 during the 12 months ending July 1. The net increase in the foreign population for the year was less than 48,000. Statistics issued show 326,700 immigrant and 107,544 non-immigrant aliens admitted into the United States during the year, while 240,074 emigrant and 180,000 non-emigrant aliens departed. Admission was refused to 24,111 aliens.

American travelers in Europe creased 196,385 during the year, as compared with the previous twelve months and there was also a decrease of 47,007 in the number of Americans arriving from abroad.

## MEXICANS BURN TEXAS BRIDGES.

Austin, Aug. 4.—According to advices received here today by Adjutant General Henry Hutchins, all wires are down south of Corpus Christi, and another bridge has been burned by Mexican bandits.

General Hutchins said that he had been unable to get any word today from Brownsville as to the situation brought about by the continued raids by Mexican bandits. He had also failed to get in touch with the state rangers at Harlingen. General Hutchins said he did not know the exact location of the bridge which had been destroyed, but is advised that it is a railroad bridge. He has been in communication with the governor and also with the military authorities at Fort Sam Houston.

Wire and rail communication between the Brownsville section and the rest of Texas was cut off last night near the point where the United States cavalrymen yesterday cleared a stockade of alleged Mexican cattle thieves.

A 230 foot bridge on the Saint Louis, Brownsville & Mexico railroad, the only rail link between a large portion of the border and the rest of the United States was destroyed by burning.

Telegraph and telephone wires were cut at the same time about 33 miles north of here. The wires were restored this afternoon.

## PECOS VALLEY HOTEL HAS NEW MANAGER.

Monday morning, Ben Young, recently from Uvalde, took charge of the Pecos Valley Hotel, having succeeded Mr. C. A. Eggleston who has been in charge for some time past.

They are repairing the upper gallery on the North and East sides of the building and otherwise fixing things up.

We have not learned what Mr. Eggleston will engage in, but it is to be hoped that he and his splendid family will remain in Pecos.

The Times joins in welcoming Mr. and Mrs. Young among us and cordially trusts that they may succeed beyond even their best anticipations.

## RECOMMENDS CHAMBERLAIN'S CHOLERA AND DIARRHOEA REMEDY.

"I never hesitate to recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," writes Sol Williams, merchant, Jessé, Tenn. "I sell more of it than any other preparation of like character. I have used it myself and found it gave me more relief than anything else I have ever tried for the same purpose." Obtainable everywhere.

## BALMORHEA, TEXAS.

(Contributed).

Once a spring lay in the desert No one cared. And its waters idly wandered Here and there. Someone came and saw a prospect In the air, Built a mile or two of ditches, Sowed alfalfa on the side; Dammed the ditch and threw the water Far and wide.

Once a little town was started— Just a store; Then a house or two was added, Then some more. Now a little city prospers From that start; And now the people all have interests Heart to heart, And the town is always busy Night and day. What's its name? Why, don't you know it? BALMORHEA.

## SEPARATION PLAN IS DECISIVELY DEFEATED.

All Doubt is Removed on the Receipt of Returns From Rural Precincts.

All doubt concerning the fate of the amendment to separate the A. & M. College from the University of Texas have been removed by the latest returns of the election of July 24th. The amendment was defeated by a probable majority of 25,000.

The majority against the amendment has increased as returns from the rural district have come in and it is almost exclusively rural precincts that are yet to be heard from.

## JESS D. WOODS IS ADVANCED

Henrietta, Texas, July 15, 1915. Office of the Vice President and General Manager.

The following appointment is effective on this date: "J. D. Woods, Assistant to the General Manager, with office at Henrietta, Texas."

J. D. Woods, one of Pecos' best young men, who was raised and spent most of his life here, was formerly General Clerk of the Pecos Valley Southern Railway, shortly after the road was placed in commission and his work was so well done that he has received an appointment with the Southwestern Railway Company and within a very short time was promoted to the above office.

This "Pecos-Woods" boy has the kind of metal within him whereby you need not be surprised at his advance to a higher position at any time.

Misses Fannie and Fern Fleming who have been in Pecos for some time past visiting their brother R. R. Fleming and family, left Sunday night on their return to their home in Fort Worth. They are two of Fort Worth's popular young ladies and made many friends among our young people during their stay in Pecos, who trust that their visit may be repeated in the near future.

E. R. Cox the ever-smiling, accommodating agent for the Pecos Valley Southern at Saragosa, came in yesterday afternoon on a business trip and returned home this morning. His hosts of Pecos friends are always glad to see him in Pecos.

## ASKING TOO MUCH

A certain broker went to a dealer in horses and tried to pick up a general utility nag. He explained that he wanted a nice looking quiet animal for himself, which could be driven by his wife in a dog cart, and would not on occasion object to being hitched up to a lawn mower.

The dealer listened with rapt attention and finally asked in dulcet tones:

"Would you like him to wait on the table sir, at all?"—Pittsburgh Chronicle.

## BURNED NEGRO TO THE STAKE.

Temple the Scene of a Murderous Assault and the Subsequent Lynching.

Will Stanley, a negro, was arrested in Rogers, Texas, Thursday, charged with murdering the three small children of Mr. and Mrs. W. R. Grimes living one-half mile to the south of Temple. The deed was done with a railroad hammer, the children's skulls being beaten in as were also the skulls of the parents, who, however, will recover, though it now stated that Mrs. Grimes will lose her sight as her eyes will have to be removed.

Stanley was taken from Rogers to Temple and an examining trial held. Thousands of men and women thronged the streets, and the large crowd clamored for the negro's life. As soon as enough testimony had been taken to settle the question of his guilt, Stanley was taken from the justice's courtroom by the infuriated crowd, to the public square where a funeral pyre was built of woods boxes. The negro did not show any signs of fear, and stated that two other negroes did the killing while he held the horses, and that a white man had hired them to do the deed. It is estimated that 10,000 men and women witnessed the burning of Stanley.

W. R. Grimes is a brother of Aiken Grimes, who formerly was connected with the J. D. Carroll Hardware Company, of this city.

Mrs. W. C. Holbert, of Saragosa, is a sister of Mrs. Grimes. On receiving news of the awful tragedy, left on the first train for Temple.

## SHOWER FOR MISS CONSTANCE MCCARVER.

On Tuesday evening from four to six o'clock, Mesdames R. R. Smothers and L. W. Anderson entertained at the latter's home in honor of Miss Constance McCarver who is to be married this week.

The guests were met by Mrs. Anderson who received the packages that were later to be showered. Mrs. Smothers received in the parlor and saw that everyone was acquainted. After the guest had arrived the bride-elect entered with her sister, Miss Florence McCarver, the honored guest looked quonely, gowned in a very handsome blue crepe de chine, and wore an expression of surprise, as the purpose of the occasion had not been made known to her; she accepted the situation with her usual charm and grace of manner.

A floral romance was the first feature of the evening, which consisted of filling in blanks with the name of flowers. As necessary articles are much desired, the guests hemmed sup-towels for the coming nation. Misses Prewitt, a sister of Mrs. Anderson, served punch during the evening.

The most interesting feature was the entrance of little Nell Smothers and Master Wallace Anderson with a large basket containing the packages brought by the guests. The opening of these packages caused much interest and amusement, because each package contained an original verse suit for the occasion. The rhymes were read by Mrs. Smothers as the bride-elect untied the gifts. She was showered with many beautiful and useful articles: Crochet, hand embroidery, hand-painted china and kitchen utensils.

Delicious refreshments of vanilla ice and bride's cake were then served. Misses Florence McCarver and Nannie May Collins favored the party with music. Splendid selections were also given throughout the time on the Victrola, and with many hearty good wishes for the bride-to-be the guests departed.

## KNIGHTS OF PYTHIAS GIVE A BANQUET.

Last Monday evening the Pecos Knights of Pythias held forth with a most pleasing banquet for its members and their families and a few invited guests.

The main speakers of the evening were Messrs. Max Krauskopf and C. B. Jordan who made pleasing addresses.

The tables groaned under their load of good things to eat and all went home feeling pleased, full and satisfied.

## KEEPING THE ROADS SMOOTH

The traffic on earth and gravel roads has a constant tendency to develop ruts, chuck holes and depressions. The chief aim and purpose of road maintenance is to prevent and remedy this destructive action. To be successful and efficient, road maintenance must be systematic and continuous. Haphazard work is expensive and unsatisfactory.

If the road is very rough or the crown very low the road machine or grader is very efficient for placing it in shape. One must guard, however, against the all too common practice of scraping the sod and other vegetable matter and refuse from the sides and ditches on to the road. In general, on the clay and heavy soil roads all vegetable or the spongy matter should be carefully excluded. Such materials absorb moisture readily and furnish but little resistance against wear. The road surface should be built up with the best material possible—material which will pack and consolidate under traffic and which will be as nearly water-proof as possible and will wear uniformly.

In general the road machine or grader should be used in the spring of the year while the ground is still moist and in such a condition that it will work easily and at the same time pack well under passing traffic. Considerable skill and judgment is required to use the road grader to the best advantage. An unskilled and careless operator will sometimes actually leave the road in a worse condition than when he began work. Do not scrape sod and refuse into the road. Good earth is far better as it will not decay nor absorb the moisture so readily. Do not be guilty of the too common practice of leaving a windrow of clods or of loose earth along the middle of your road to impede traffic and to absorb water at the first rain. Leave the roads smooth over the entire surface and traffic will spread and be less likely to produce ruts. Always use the grader in such a way as to make the road better and not worse for the passing traffic.

When the road has been placed in good condition as to crown and to smoothness the road drag is the best tool for maintaining it in that condition. Drag the road after each rain while the surface is still moist but not sticky. Use a light drag and move only a very little earth—just sufficient to fill all the ruts and depressions and leave a little surplus if the crown is very low. Ride on the drag and shift your position according to the amount of earth necessary to be removed. If the rain has been of long duration it may be advisable to drag the road twice; first very soon after the rain, and again when the clay is drying out or beginning to set.

Do not drag a dry road. Successful dragging is dependent on a certain amount of water or moisture in the road surface. Practically all clays and most soils, if not too sandy, will puddle if worked when wet, and on drying out will set very hard. The drag in connection with traffic is essentially a puddling machine, which, when properly used, leaves the road surface crowned and covered with a smooth layer of puddled or a densely packed soil. This layer is as nearly impervious to water as it is possible to make it. Following rains find little or no lodgment, as the water quickly runs off to the side ditches. Unless the rain is long continued the road surface is not softened to any great extent or to a great depth. The prompt use of the drag after each rain leaves the surface smooth and ready to withstand the next storm.

Therefore, to make your road smooth, use a road machine or a grader to put it in the proper shape in the spring of each year. To keep your road smooth, use the road drag judiciously after each rain. This will keep an earth or gravel road in the best of shape in which it is possible to maintain it throughout the year.

PEACHES! PEACHES!

JOHN W. GREEN,  
DARTMOUTH, TEXAS.

FARMERS PLAN TO HOLD THEIR NEW COTTON.

Union Opens Convention at Houston—Warehousing and Marketing Discussed.

The 13th annual convention of the Farmers' Union of Texas was called to order in the city of Houston at 10 o'clock Tuesday morning.

The morning session was devoted to preliminary speeches, including an address of welcome by the mayor, Ben Campbell, a response by Henry N. Pope, of Fort Worth, permanent warehouse law by Col. F. C. Weinert, of Sanguin, and a talk of warehousing and marketing by Sinclair Talliaferro of Houston.

The afternoon session will be an executive meeting and will be devoted to the discussion of plans for holding as much of the incoming crop as is possible to prevent its being dumped on a market incapable of absorbing the carried over crop and the new staple. Visitors will not be allowed to attend the afternoon sessions.

H. N. Pope of Fort Worth is the general favorite for the next president of the organization and will probably be elected. The convention will last four days, Thursday being devoted to a trip down the ship channel and a free barbecue on the banks of the deep waterway, a few miles below the city.

POOR AIM MAY GET HIM ON GOVERNOR'S STAFF.

Atlanta, July 30.—The fact that he shot at Governor Nat Harris of Georgia sixteen times—and missed each time—may win for I. C. Wade of Cornelia, Ga., an appointment on the governor's staff, provided the governor can prevail upon the state legislature now in session to abolish the age limit of 60 years. Governor Harris is a Confederate veteran. Wade served in the Northern army.

When the present governor was campaigning a year ago he met up with Wade at Cornelia. Talk turned to the fighting at Moore Field, Va., in the 60's.

"Where were you on the morning of the second day of the battle when you fellows were making it so hot for us?" asked the Confederate veteran.

"I was on outpost duty on the extreme end of the upper right wing and I thought every minute would be my last," replied Wade.

"You don't mean it! Well, did you see a man saddle a roan horse, and ride off at top speed?"

"Did I see him! Why I shot at that man sixteen times and missed him every time."

"It's a good thing you missed," laughingly concluded Governor Harris, "or I wouldn't be here. I'm the man you shot at."

A close friendship resulted from the meeting and culminated today in Governor Harris announcing that he would try and have the legislature change the age limit in Wade's favor.

THE CLERK GUARANTEED IT.

"A customer came into my store the other day and said to one of my clerks, 'have you anything that will cure diarrhoea?' and my clerk went and got him a bottle of Chamberlain's Colic, Cholera and Darrhoea Remedy, and said to him, 'If this does not cure you I will not charge you a cent for it.' So he took it home and came back in a day or two and said he was cured!" writes J. H. Berry & Co. of Salt Creek, Va. Obtainable everywhere.

13 PER CENT OF BABIES BORN DURING JUNE DIED.

Austin, August 1.—A loss of 13.3 per cent of all the babies born in Texas during the past month is the announcement of state registrar of vital statistics, W. A. Davis. Mr. Davis reports 4,199 births and 589 deaths of children under 1 year of age.

As an evidence of pellegra increase in the figures given from reports made to the department: Deaths for April reported, 36; May 79; June, 94.

TWO COMMON SUM-MER AILMENTS.

Thousands of hay fever and asthma victims who are not able to go to the mountains to find relief find it in Foley's Honey and Tar Compound. It allays the inflammation, soothes and heals raw and rasping laryngeal tubes and helps to overcome difficulty in breathing, and makes sound refreshing sleep possible. For sale by Pecos Drug Co.—Adv.

AMERICA'S EXPOSITIONS.

Two on the Pacific Coast, Were Made by Man; the Others Nature Made for Our Enjoyment Unto all Time

Two expositions, like great magnets, are drawing the eyes and the desires of the people of America. The Panama-Pacific, at San Francisco, is the acknowledged masterpiece of international fairs. The Panama-California at San Diego is a gem of sub-tropical beauty and substantial worth. Each of its own kind, is altogether admirable. They conflict in no wise; each supplements the other.

But these are by no means all the expositions in the West this summer. Nature in her noblest manifestations beckons the traveler to spectacles of grandeur and loveliness unexcelled. Glacier National Park invites America to an Alpine wilderness which some day will draw Europe's thousands across the sea and continent. Mount Ranier, icy octopus of the west, extends her glacial fingers down among georgious gardens of wild flowers to offer welcome to her visitors. Crater Lake sucks the blue from the skies to mix anew in her depths and to give forth again in hues that do not seem real. Yellowstone exhibits fields of spouting geysers with which those of Iceland and New Zealand offer no comparison. Yosemite presents her incomparable valley. Sequoia exhibits 12,000 or more giant trees, some of which has lived through all written history. The Grand Canon hides her river 7,000 feet deep in a gulf of color so georgious that no painter can reproduce it. And Colorado invites all to her two National Parks, Rocky Mountain, our newest, the gateway of which is beautiful Estes Park, and Mesa Verde, with its cliff dwellings of prehistoric times.

NATIONAL PROHIBITION OPPOSED BY GERMANS.

San Francisco, Aug. 3.—Opposition to national prohibition was expected in some tangible form today in the shape of a definite program at the National German-American Alliance of the United States.

The report of Secretary Adolph Timm of Philadelphia, recommending that prohibition be opposed, was adopted yesterday and steps were taken to formulate a plan of action. It was indicated that the alliance was not opposed to prohibition itself but to the usual methods of gaining it. Education, it was a better means.

Perpetuation of German ideals by Germans who had become naturalized Americans was advocated last night in an address by Dr. C. J. Hexamer, of Philadelphia, president of the alliance, who admonished the delegates that their first duty was to their adopted country, but at the same time to preserve the ideals of the Fatherland and transmit them to their children.

TOAAH RANGES IN GOOD SHAPE FROM RAINS.

During the past two weeks rains have fallen over much of the range in Reeves County and the reports from many of the cattlemen is to the effect that the range is in an excellent condition and that the cattle are fat. All are confident that the present season of prosperity will continue indefinitely.

Many cattle are being put on the range in this vicinity. W. B. Collins has moved a bunch of 81 steers which he purchased recently near Pecos, to his ranch on Hackberry, northwest of Toyah. Within the past three months Collins has purchased 2000 steers for his ranch. Ab. Tinnin has received 300 heifers which he put on his ranch.

EDUCATIONAL OPPORTUNITY.

Subjects of the most vital importance are discussed in an entertaining fashion in the following studies—none of the old, dry theological essays: "Weeping All Night," "Our Lord's Return," "Two Salvations," "Necessity For Messiah's Kingdom," "What God Requires of Us," "Cardinal Gibbons' Sermon and Reply," "Thousands of Demons Infest Earth," "Jesus No Longer a Man," "Responsibility to Creeds," "Christ's Sacrifice Ignored," "The Lost Key of Knowledge," "Many Ministers Preaching Without Divine Authority Should Stop Preaching," "Foreign Mission Facts," "Jesus Preached to Spirits in Prison," "What Is Baptism?" "Philosophy of the Deluge," "Forgivable and Unpardonable Sins," "Preaching to the Dead," "Darwin Evolution Theory Exploded," "Errors of Death-Bed Repentance," "Infants Saved From Torture."

OUR PUBLIC FORUM

OUR PUBLIC FORUM

C. E. Schaff On Railway Investments

President Wilson recently referring to our railroad problems said in part: "They are indispensable to our whole economic life and railway securities are at the very heart of most investments, large and small, public and private, by individuals and by institutions. There is no other interest so central to the business welfare of the country, as this. No doubt, in the light of the new day, with its new understandings, the problem of the railroads will also be met and dealt with in a spirit of candor and justice."

When the first citizen of the land stresses the importance of understanding and dealing justly with the railroads, certainly the American plowman can venture upon a careful study of the problem. C. E. Schaff, president of the M. K. & T. railway company, when asked to outline the relation of the public to railroads investments, said in part:

"It may be said that the railroad world is encumbered with a lot of phantoms which exist only in the popular fancy. For instance, because there have been a few so-called 'railroad magnates' whose names have figured prominently in finance, many people have come to believe that the railroads of the country are largely owned by a few rich men. As a matter of fact nothing could be further from the truth. Out of the colossal sum of twenty billion dollars of American railroad securities, less than five per cent is now, or ever has been, in the hands of these men who have figured prominently in the newspaper headlines—while the other 95 per cent is in the hands of over two million investors, large and small, who in many instances have put the modest savings of a life time into these securities in order that they might lay away a competency for old age. When, therefore, the value of these securities is depressed or perchance destroyed, the hardship is a hundred-fold greater upon thousands of every-day citizens, than upon the handful of millionaires, good or bad, who have figured prominently in railroad circles."

Hundreds of millions of dollars of the assets of our great life and fire insurance companies, savings banks, trust companies, educational and fiduciary institutions are invested in railroad bonds—and the moment, therefore, that the soundness of these bonds is called into question the financial solidity of these myriad institutions—directly affecting the welfare of millions of policyholders and bank depositors—is gravely menaced. During the last several years, many millions of dollars representing depreciated values, have been charged off the books of concerns like those enumerated above. American railroads have become a vital part of the very woof and fabric of the nation. Their continued efficiency is absolutely essential to the smallest community in the land.

In blindly striking at the railroads our blows fall not merely upon thousands who have committed no wrong, but, in the last analysis, upon ourselves. We should remember how interdependent we have come to be in this mighty republic of ours—that each is in truth becoming more and more his brother's keeper, and that we need to act and think circumspectly, lest in our mistaken zeal we destroy those who, like ourselves, need whatever of this world's goods the toil and sweat of years has bequeathed to them."

A dollar saved by buying goods produced elsewhere is a dollar as good as thrown at the neighbor's birds. If you want to know the news, read the Pecos Times. The Reeves County Fair is to be held September 15, 16, 17 and 18.

STATE UNIVERSITY ITEMS

VANDERSLIP CREDITS THE SCHOOLS WITH GERMAN SUCCESS.

President Vanderslip of the National City Bank, the famous financier and writer, said to the National Association in 1905.

"In the group of the great industrial nations there has come forward in recent years one that has taken a place in the very front rank among industrial competitors. It has reached pre-eminent positions in many special fields of industries, wresting from others the advantage they had long held in serene security. That nation is Germany. By the aid of rapidly developed skill and constantly improved methods, Germany has closed its own markets to the products of the manufacturers of other countries. But Germany has done more than that: it has developed an ability to successfully compete in the neutral markets of the world, until today it shows the greatest capacity in this field of international competition that is displayed by any one of the great nations. Her people have lacked the peculiar inventive ingenuity which in many fields of industry has been the sole basis of our achievement.

Her artisans have almost none of the delicate sense which makes the French handiwork superior to the obstructions of all tariff walls. Her industries were forced to grapple with English competitors entrenched behind a control and domination of the international markets which for generations have been successfully maintained. But amidst this poverty of natural resources and from a people not signally gifted with inventive ability or artistic temperament, there has in a generation emerged an industrial nation which stands forth as a marvel of economic development.

I have had a somewhat unusual opportunity to study the underlying causes of the economic success of Germany, and I am firmly convinced that the explanation of that progress can be encompassed in a single word—'schoolmaster'. He is the great cornerstone of Germany's remarkable industrial success. From the economic point of view the school system of Germany stands unparalleled."

FARM TENANCY IN TEXAS IS SUBJECT TO THE NEW BULLETIN.

Messrs. Austin and Wehrwein of the Extension Department of the University of Texas are the principle authors of the new bulletin on the subject "Studies in Farm Tenancy in Texas" just received from the press and designed for free distribution. The work bristles with facts. Over 30 illustrations, maps, and diagrams are included in its pages, setting forth with wonderful clearness statistics couching the tenancy problems.

Those desiring a copy should apply at once to the Extension Department who will furnish copies free as long as the supply lasts.

FOR A SPRAINED ANKLE.

If you will get a bottle of Chamberlain's Liniment and observe the directions given with it faithfully you will recover in much less time than is usually required. Obtainable everywhere.

BAZAAR! BAZAAR!

The annual Bazaar of the Christian Ladies Aid will be held sometime during December. Watch for the exact date.

OUR PUBLIC FORUM

W. D. Lewis

On Mission of the Farmers' Union

W. D. Lewis, president of the Texas Farmers' Union, whose tenure of office expires by limitation in August, has issued the following farewell statement to the Texas farmers:

"The Farmers' Union stands before the public of Texas today proud as a King; glorying in its achievements and boasting of its possibilities of rendering service to the men who follow the plow. The Union sounds the bugle call of organization, summoning every yeoman to rally around its colors. In business it stands for education and co-operation; in the home it stands for Sally and the babies; in government it stands for constructive statesmanship. At the moment it directs the attention of the farmers to warehousing and financing the present cotton crop! Fellow farmers arise and salute King Cotton, a sovereign in whose reign the prosperity of this State is involved and a ruler whose scepter turns the fleecy fibre into gold. A King at whose loom nature weaves, and an imperial potentate at whose shrine millions kneel and sing his praise. Strike for your home, your family and your country by joining the Union and becoming a part of the great economic force that is uplifting this state and nation. The Farmers' Union is the plowman's hope. Without organization he can neither help himself nor be helped by others, and through organization he is all powerful.

When the Texas Farmers' Union holds its annual convention in Houston, August 3rd, every farmer in Texas should pause and bow his head in honor of the men gathered there to render a patriotic and unselfish service to agriculture. This organization, born in the cotton fields of Texas, has grown until, geographically, it covers almost the whole of the United States, and economically, it deals with every question in which the welfare of the men who bare their backs to the summer sun are involved. It has battled for a better marketing system, rural credits, cheap money, diversification, scientific production, agricultural legislation and has carried on its work of education and co-operation in season and out.

The Farmers' Educational and Co-operative Union of Texas brings the question of organization squarely before every farmer in this state.

The farmers of the nation contribute more and get less from government than any other class of business. They have better securities and pay a higher rate of interest than any other line of industry. They market more products and have less to say in fixing the price than any other business, and they have had more political buncombe, and less constructive legislation, than any other class of people. The farmers can only acquire such influence in business, in government and economics as will enable them to share equitably the fruits of their labor through organization, and every farmer on Texas soil who desires to help himself and his fellow plowmen, should rally around the Union."

Community Cooperation

It is safe to say that a very small per cent of consumers are capable of accurately judging by personal inspection the quality and value of the many articles they buy and use.

Inferior materials and workmanship may be effectually concealed beneath veneers—a deception that can hardly be detected until the goods have been purchased paid for and put into use for which they are intended. In many cases—for example in canned goods and other preserved edibles—consumers are frequently deceived or misled.

How many buyers of shoes are competent to judge for themselves the quality and actual value of a shoe? Paper, composition and other inferior materials may be easily substituted for leather and unwary purchasers be none the wiser until too late for the information gained to be of any possible benefit to them.

This same line of reasoning applies to clothes, hats, furniture, to stoves, carpets, rugs, pianos, talking machines, watches, jewelry, to breakfast foods, tools—practically all of the almost countless articles in common use.

Manufacturers who have spent much time and large sums of money to establish favorable reputations for products bearing their names, or trade names, positively cannot afford to misrepresent their goods to the public, or allow their titles to fall below the standards they have established. Goods upon which they place their names must come up to the claims they make for them and must render purchasers continuous uniform service at a reasonable cost. Otherwise the demand for them will cease, thus destroying their greatest asset.

One of this country's largest bankers made the statement not

long ago the "the small-town banker is in position to render his community a most valuable service if he will recognize and take advantage of the opportunity by doing his full part in community welfare work."

pression from one of our small-town bankers to the effect that a large majority of small-town banks really do more to retard community welfare and development than they do to promote them. This is a most lamentable condition even if only partially correct as stated.

Many bankers consider their banks institutions for community service and conduct them accordingly. A splendid example of this class came to my attention a few days ago.

The president of a bank in a small town, when asked as to his and its obligations to the community said, "Inasmuch as we are the largest corporation in our town, we feel it our duty to take the lead in every movement for the good of the locality. We are the largest subscribers to the local chamber of commerce, civic improvement fund, etc., and never fail to have the bank represented in every local improvement campaign. We also make it a rule to take as much or more advertising space in our local papers than anyone else in the town."

He further stated "that when a small borrower needs from ten to thirty dollars for a short time we charge him the same rate per cent per annum on his loan that we would if he had borrowed \$25,000 or more. We treat the small customer as liberally as the large one, thus making him feel that no advantage is being taken of him because he is poor. He will remember and appreciate this when he becomes a large customer.

BRAKEMAN WAS CURED.

F. A. Wootsey, Jacksonville, Texas, writes: "I was down with kidney trouble and rheumatism; had a bad backache all the time and was fixed of living. I took Foley Kidney Pills and was thoroughly cured." Thousands have written similar letters. Foley Kidney Pills are tonic in effect and act promptly. Pecos Drug Co.—Adv.

TEXAS INCREASES SILVER OUTPUT.

The output of Texas mines for 1914, as stated by Chas. W. Henderson, of the United States Geological survey, amounted to \$234 in gold, 536,817 fine ounces of silver, 149,027 pounds of lead, 23,760 lbs. of copper and 216,451 pounds of zinc, with a total value of \$313,787 which was slightly greater than the total value of 1913.

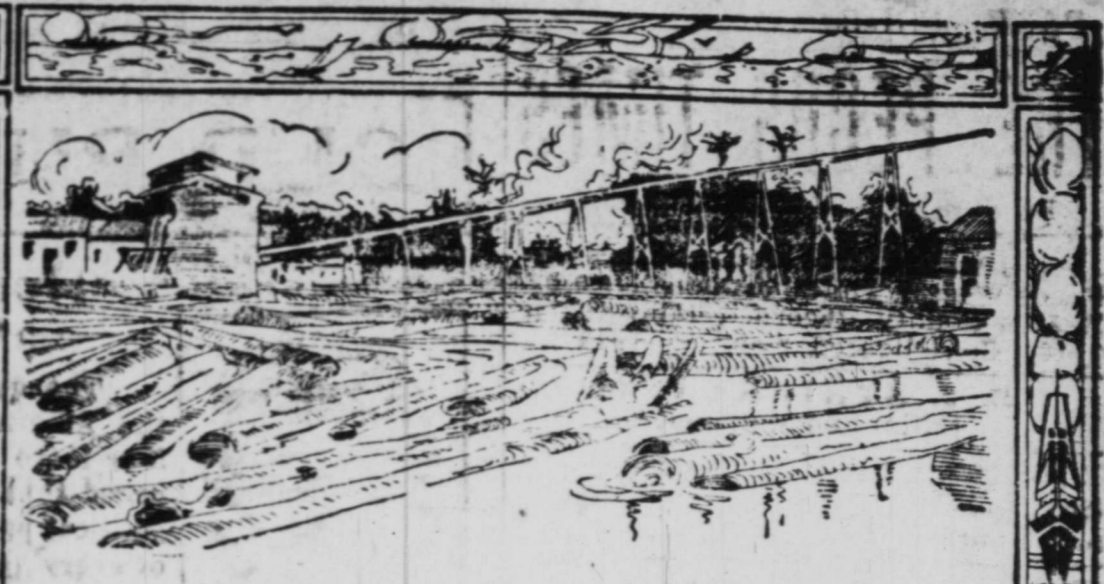

These figures show a considerable increase for silver, a large decrease for zinc, and smaller increases for gold, copper and lead. The greater part of the output of silver came from the Presidio silver mine and cyanide mill, in the Shafter district, Presidio County. Some silver, copper and zinc were produced at Van Horn, Culberson County. The greater part of the lead and zinc came from the Sierra Blanca district, El Paso County.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

Over Fifty Per Cent Saved

The lumber industry in the South represents many millions of dollars in the business of the States in which the lumber plants are situated.

Materials which were formerly regarded as waste are utilized for making many things of importance to the people of this country.

Paper, boxes, shingles, staves and other articles have been added to the products of the mill which formerly produced only planks, etc.

In the organization of this vast industry every available means for reducing waste has been studied with great care. It is natural to find that the largest lumber plants in these States with the most complete organization are using

TEXACO PRODUCTS

for their work. One lumber company of great importance found that it had effected a saving of over 50 per cent, in the lubricating oil consumed, by the use of Texaco Products.

Texaco Quality and Service have demonstrated their value to the manufacturers of lumber wherever they have been installed.

Texaco Products have justified the policy and work of the company by their success.

Texaco quality will do the same for you. Buy it. Use the "Made in Texas" Red-Star-Green-T oils manufactured by

The Voice of Now

It is the present, the today, the NOW in which we are interested. Shakespeare wisely says:

"Tomorrow never yet On any living mortal rose or set."

It is the printed page which deals most intimately and with the greatest detail in the movements of the present. It is THE VOICE OF NOW proclaiming to the world the things that are happening today. The Government of the United States is NOW gravely concerned in certain aspects of the war in Europe and has had trust on it several serious international problems which are NOW in process of solution. The American farmer is NOW interested in this titanic struggle, for his interests are being affected by it today and will be tomorrow, and he wants to keep in close touch with it NOW.

EVERYBODY is interested in the cotton crop from the time of its planting to the days of its harvesting and marketing. They want to know "the NOW" in all that pertains to the great Southern staple; they want to know "the NOW" of all other agricultural markets, the latest in modern farming, the facts of the warehousing problem, and all else that pertains to the progress of the times in every theater of life.

The tens of thousands of men and women who know the Semi-Weekly Farm News know it is "THE VOICE OF NOW," telling in direct and positive tones of what is going on at home and abroad.

A. H. BELO & CO., Publishers DALLAS, TEXAS.

Nervous?

Mrs. Walter Vincent, of Pleasant Hill, N. C., writes: "For three summers I suffered from nervousness, dreadful pains in my back and sides, and weak sinking spells. Three bottles of Cardui, the woman's tonic, relieved me entirely. I feel like another person, now."

Cardui The Woman's Tonic

For over 50 years, Cardui has been helping to relieve women's unnecessary pains and building weak women up to health and strength. It will do the same for you, if given a fair trial. So, don't wait, but begin taking Cardui today, for its use cannot harm you, and should surely do you

OUR PUBLIC FORUM

Hon. Elihu Root On Woman's Sphere

The question of Woman Suffrage is an issue before the American people. Twelve states have adopted it, four more states vote upon it this fall and it is strongly urged that it become a platform demand of the national political parties. It is therefore the privilege and the duty of every voter to study carefully this subject.

GIVE BABY EXERCISE EARLY IN MORNING.

Intense Heat of July and August Is Particularly Trying on the Little Ones.

The intense heat of July and August is sufficiently hard on those who must remain in town but to mothers with little children this period is particularly trying. Babies suffer much more from very hot weather than do adults, for they are too young to know how to save themselves.

No. 13 In Bankruptcy. In the Matter of FRANK HOWARD CURRY, Bankrupt.

To the Creditors of Frank Howard Curry, Bankrupt: Notice is hereby given that on the 29th day of July, A. D. 1915, the said Frank Howard Curry was duly adjudicated bankrupt.

TAKE OUT THE ASHES.

Uremia is due to the circulation in the system of poison and waste products that should be removed from the body by the kidneys. If the ashes are not removed the first dies and the machinery stops. So with the waste products of the system. Foley Kidney Pills help the kidneys remove waste matter that causes rheumatism, aches and pains stiff joints and sore muscles.

If the child shows any symptoms of pain in the stomach or any symptoms of continued nausea, accompanied by sharp cries, call a doctor at once.

There is no reason, however, why the baby should not come through the summer as well as an adult, if some pains are taken to make him cool and comfortable as possible.

MEXICAN RAIDERS ESCAPE.

Brownsville, Texas, Aug. 4.—Information received here today is to the effect that the Mexican bandits with whom American troops of the 12th cavalry battled in the tall brush north of here, have escaped.

Buck Shot

By D. J. M.

Pecos, at the next fair which is to be held next month, will have a Better Babies contest. We hereby make application for the job of chief judge.

We notice some queer things as we trot along. For instance: We saw a sign in front of the Western Union this morning that a good "burrow" was for sale.

"Safety First" reads the placard posted by one of our leading tonorial parlors. Now we always had an idea that a barber had a pet aversion for a safety razor.

"The new Skirts are Here" runs an advertisement in this issue of The Times. We only hope they are a little more playful than the ones that are already here.

We have been running it thru our minds ever since the announcement came to our notice and we are unable to make up our mind whether it should read "MORE babies or better babies," or "MORE, and better babies." We pass.

One good thing we have discovered about patent sheets used by a big per cent of our country weeklies, and that is when you clip an item of interest on the home-print side there is no danger of spoiling anything of interest on the opposite side.

A bereaved husband at a sitting asked the medium to get his wife and ask her where she laid his Sunday clothes.

We are in position to sympathize with this poor human. Whenever it happens that we are left to hold the fort by our lonesome, we never think of a change. Why we couldn't find the hydrant unless someone were careless enough to leave it running, when we are by ourselves.

Everybody is interested in the kind of attractions we are going to have at the fair. We trust that they will be at least one grade above the usual run of former years.

Notice that write-up of the local Knights of Pythias banquet. It says that they went home full. Shame on the Knights! And some of them are our best neighbors.

The bunny hug, Texas tommy, and kindred foolishness are fast going out of style. In their stead we have the nymph dances and the sylphian caners, which consists of dressing, or undressing as if for a bath and chasing soap bubbles over a grassy lawn, still wet with the morning's dew.

One of the most inspiring sights is to see a neighbor putting in a grass lawn. He is more solicitous about it than he was over his first mustache. Day and night is he at it, failing often to hear the call to meals. Seriously though, it is an industry that needs big encouragement in Pecos.

In conversation with one of the Councilmen the other day we asked how we could get around the ordinance prohibiting shooting within the city limits, as we had a few nightly serenaders in the shape of cats, and wished to put a quietus on their howling.

We know the title of every town lot and tract of land in Reeves and Loving counties.

Our abstracts are reliable.

We are a little suspicious that the folks who attend the San Francisco fair are cutting the swath a little wider than is permissible by law. None of them have time to write and though there are quite a few from this section of the woods, they have a hard time meeting up with each other. They should worry, us either.

FREE PORTS BUILDERS OF COMMERCE

CONGRESS SHOULD GIVE THEM PREFERENCE IN APPROPRIATIONS.

By Peter Radford.

This nation is now entering upon an era of marine development. The wreckage of European commerce has drifted to our shores and the world war is making unprecedented demands for the products of farm and factory.

This article will be confined to a discussion of our ports for the products of the farm must pass over our wharfs before reaching the water. We have in this nation 51 ports, of which 41 are on the Atlantic and 10 are on the Pacific Coast.

A free port is progress. It takes out the unnecessary link in the chain of transactions in commerce which has for centuries laid a heavy hand upon commerce. No movement is so heavily laden with results or will more widely and equally distribute its benefits as that of a free port and none can be more easily and effectively secured.

Black Pepper and White Pepper Come from Same Plant

Many people think that there's a white pepper plant and a black pepper plant. There's not. The difference between the two peppers is entirely a matter of manufacture—or rather what part of the peppercorn is ground.

Notice that write-up of the local Knights of Pythias banquet. It says that they went home full. Shame on the Knights! And some of them are our best neighbors.

The bunny hug, Texas tommy, and kindred foolishness are fast going out of style. In their stead we have the nymph dances and the sylphian caners, which consists of dressing, or undressing as if for a bath and chasing soap bubbles over a grassy lawn, still wet with the morning's dew.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a big bottle of Dodson's Liver Tonic.

It is a pleasant, vegetable tonic which will start your liver just as surely as calomel, but it doesn't make you sick and can't salivate.

Children and grown folks alike take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your liver. Take a dose of nasty calomel and you will feel weak, sick, nauseated tomorrow.

Take a dose of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, dizziness, headache, coated tongue or sour stomach.

Calomel your money is waiting for you.

PERSONAL MENTION.

It is reported that Prof. E. E. Layton, who was principal of the Pecos High School during the 1914 and 1915 term, has accepted the superintendency of the Gorman school. Gorman is to be congratulated on securing his services. His efficient work here last year helped secure affiliation with the University.

The Ladies of the Presbyterian Church will hold their annual Christmas Bazaar on Friday and Saturday, December 10 and 11, 1915. 32-ff

Mrs. W. D. Nelson, who has been spending the summer months here and at their Loving County ranch, leaves this afternoon for Stamford where the family have lived for the last year. Her health was so benefited by her stay here that the family will move back in the fall. Mr. Nelson will stock his ranch in Loving County. Pecos people keep coming back home. Miss Grace Nelson accompanies her mother home for a short visit before entering the State University. Miss Nelson resigned her position here as instructor of mathematics to attend the University. She has been connected with the Pecos High School for four years, having gained affiliation in her subject for the school during that time. It is with regret on all sides that Miss Nelson leaves as she is much loved and respected by both teachers and pupils. May much success be hers in the future.

—O-Cedar Mops and Polish at Vickers & Collings. 26-ff

Miss Mary Nelson takes her sister's, Miss Grace Nelson, place in the high school and we feel sure that she will make good, as Miss Nelson has done, she having had advantages in the University training and experience in teaching.

Miss Bernice Richburg is registered at the Adolphus Hotel in Dallas this week. Miss Richburg has gone on a trip to purchase her fall and winter stock of millinery, and from her experience in trimming and fitting up millinery, we feel sure that she will make a success in this line.

—Try one of those non-working Freezers at Vickers & Collings. 26-ff

Messrs. M. Popham, owner and J. H. Renfro, one of the cowpunchers of the U ranch were visitors in Pecos Sunday.

H. A. Bly was in from his ranch Tuesday circulating among his Pecos friends.

Manse Woods, the hustling traveling salesman of the Maverick-Clark printing establishment of San Antonio, was a business visitor in Pecos yesterday, and dropped into the Pecos Times office for a short, pleasant visit.

RIPE PEACHES

Piles Cured in 6 to 14 Days Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.

—Remember this is Ice Tea time, and Vickers & Collings have the best Tea. 26-ff

Mr. and Mrs. S. E. Johnson and children who have been visiting with Mrs. Johnson's parents, Mr. and Mrs. R. S. Johnson, at the Orient Hotel for the past month, returned to their home in Keatchie, Louisiana.

W. E. Winston was in from Saragosa yesterday to meet his sister, Mrs. L. W. McCurdler, who had been out to San Francisco to visit the exposition. She will go out to Mr. Winston's place for a short visit after which they will go on to their old home in Harrison County for a visit.

Mrs. J. H. Bowles of Uvalde, is here visiting her daughter, Mrs. Seth Lewis and family and her son Evy Bowles and family and numerous friends. She will go on up to the Ferrell ranch near Carlsbad and visit with Mr. and Mrs. Frank Ferrell before returning home.

—Singer Sewing Machines rented by week or month. Sold on easy payments or taken in on new sales. Call at Brown's Furniture Store and see T. E. Brown or L. W. Fields, Agent. 24-ff

Mr. and Mrs. J. S. Johnson are visiting with relatives and friends at Odessa this week.

Messrs. J. H. Boogher and W. A. White were Pecos visitors the forepart of the week while on their way to the Falls. Mr. Boogher was on his way from St. Louis at which place he visited the home-folks, and Mr. White had been up to El Paso getting acquainted with his family and friends. The report things in general were in pretty fair shape.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

Jno. L. Barber was in from his ranch for a short stay the latter part of last week.

W. B. Thorp, the "Ford" man, was up from Balmorhea last week Thursday.

Messrs. H. H. Jones and Dr. J. H. Wolverton of Balmorhea were visitors in Pecos Thursday of last week.

Mrs. S. W. Crenshaw of Saragosa, was in Pecos last Thursday.

R. J. Wagnon of Balmorhea was transacting business in Pecos last Friday.

Reeves County should make the best showing we have ever had at our fair this year.

LeRoy Johnson of Sweetwater, was a visitor in Pecos Friday of last week.

Sheriff Tom Harrison and County attorney, J. A. Drane went out to Saragosa last Saturday on official business.

SWEET MILK TO SELL. Mr. M. A. Davis wants a few more customers for sweet milk. Will deliver the milk both night and morning. Phone 280.

STATE FUNDS WILL LAST TO SEPT. 1.

Treasurer Edwards Declares That Money Will Last Longer Than Had Been Reported.

It was announced in Austin today by State Treasurer Edwards that from the present indications the state's finances will be ample to remain on a cash basis until Sept. 1.

It had been previously thought that the state would go on a deficiency on August 15th, because of the slow returns of tax collections over the state.

POSTPONING OLD AGE.

Overworked or diseased or weak kidneys make one feel old before middle age. Rheumatism aches an pains, to free perspiration of a strong odor and other symptoms are warning that the kidneys need help. Foley Kidney Pills make the kidneys strong and active. For sale

LONDON PAPER FEARS DEMOCRATIC SOUTH.

London, July 30.—Whatever action the British takes with regard to cotton—whether it merely be kept out of Germany or declared as contraband—the Spectator, in an editorial today, expresses the opinion that the Southern Cotton growers of the United States should be recompensed.

"The pressure," this paper goes on to say, "which the innermost cotton industry of the Democratic South can bring to bear on a Democratic President is indeed the crux of the situation. It may be the British Government will find that a scheme which it is said they are considering of compensating American cotton growers by buying a proportion of their crop over and above the British normal purchases is feasible. If this were thought possible and right it would we need hardly say, an enormous satisfaction to Englishmen to feel that the scruples of the American government over precedent and the grievances of the Southern cotton planters had been satisfied."

DESPONDENCY DUE TO INDIGESTION.

"About three months ago when I was suffering from indigestion it caused headaches and dizzy spells and made me feel tired and despondent, I began taking Chamberlain's Tablets," writes Mrs. Geo. Hon. Macedon, N. Y. "This medicine as one day's treatment re-cieve proved to be the very thing I needed me greatly. I used two bottles of Chamberlain's Tablets and they rid me of this trouble." Obtainable everywhere.

OUR PUBLIC FORUM

Henry N. Pope On Waste in Cotton Marketing

Henry N. Pope, lecturer Texas Farmers' Union, when asked to estimate the annual loss due to improper methods of marketing the Texas cotton crop said in part:

"The waste in cotton marketing begins at the gin and it follows the product through every step from the gin to the mill and it aggregates an enormous waste which could be prevented, amounting to not less than five dollars per bale. Samples taken from the bale by the cotton buyer amount in the United States annually to 100,000 bales, which is known to commerce as the 'city crop'. At normal prices, that cotton is worth \$6 per bale making a total of \$6,000,000 per year. Experts calculate that storage for cotton can be provided at a cost of \$1.50 to \$2.00 per bale for the permanent structure. This loss, amounting to \$6,000,000 occurs annually and the saving of this item alone within two or three years would provide all the cotton warehouses that the South can possibly use at the time of its greatest need for storage and with the largest crop that it can possibly produce, for cotton will move continually from September to March and at no time, nor under any circumstances, would there ever be more than one-third or one-fourth of the total crop under shelter.

As a consequence of the cutting of the bale for the sample, the cotton must be repacked at the compress. The ragged condition caused by much sampling and exposure in the gin yards, or in the back yard, or in the cotton yards, or on the railroad platform, or elsewhere, from the gin to shipside, results in an accumulation of dirt and trash in 'pluckings' on compress platforms and in cotton yards in increased insurance, in damage from exposure, in increased fire hazards and the deduction for the tare which always exceeds the actual weight of the bagging and ties by ten pounds at least—I say that these several items of waste and graft amount in the aggregate to a sum not less than five dollars per bale, every cent of which is calculated in advance by the purchaser, and is deducted from the price which the spinner pays the farmer. None of this appears in the bill of lading but is all in the transaction and it all accrues to the loss of the producer.

The next process is official grading of the cotton sample. In my judgment the farmers are losing from fifty cents to one dollar per bale by the grading of the cotton buyer, who naturally will give himself the benefit of the doubt in order to protect his own business with the mill. A cotton buyer, uncertain as to whether a bale of cotton is strict, middling or middling fair, will buy it at the lower grade rather than the higher. We must allow that there are many dishonest men in the cotton trade, as in other vocations, and that a large number of them will take advantage of the farmers' ignorance and possibly grade the cotton much lower than its actual grade."

OUR PUBLIC FORUM

J. A. Kemp

On Proper Marketing of Cotton

When the farmers of this nation tore down their warehouses and granaries, closed their smoke houses and nailed down the cellar doors and turned their products over to speculators to hold until the consumer demanded them, they ceased to become a factor in fixing prices, for without the facilities to hold their products they lose the power to bargain. It is the mission of the Farmers' Union to rebuild storage facilities and turn the keys over to the farmers so that the prices may more nearly be governed by supply and demand. Mr. J. A. Kemp, President of the Texas Cotton Conference, in discussing the proper methods of marketing cotton, said in part: "We should not only build warehouses, but we should encourage the farmers to put their cotton in them. This must be done by the bankers and business men of the state and it is up to them to get busy. Every business man in Texas knows that it is wrong to force cotton to sell in September and that it is wrong to cause it to be thrown on the market at any time in amounts larger than the market demands, yet this thing has been going on in this country ever since cotton has been a factor in the crops of the South. Cotton is the very backbone of this country. When the cotton crop is off and the price bad the whole state suffers. When cotton is thrown on the market in a lump the price is forced down and Texas is hurt just as badly as though the price were down owing to bad staple of an off year crop. But business men have overlooked this important factor in the handling of the cotton crop. We must build warehouses all over Texas this summer and when the crop is baled it can be stored in good fire and storm proof structures, making a receipt for a bale of cotton as good collateral as the best bank note in the Federal Reserve Bank. The bankers of Texas can finance the Texas cotton crop and I believe they will demonstrate this fact this Fall. We have the money to carry the farmers. It is a mistake to wait until the cotton is picked and then start to bring about conditions for its financing. The planter must learn that it is in his interest to take proper care of his cotton and that this care can be had only through warehousing. The warehouse receipts will mean ready cash. Look what was done last Fall—the start was a late one. The price of cotton was raised in spite of the influences to hold it down. I do not contend that cotton should bring an abnormal price, but I do believe that it should bring a price that will give the farmer a good return on his investment. This can be done by feeding it to the market as the mills call for it."

Goat Roping and Broncho Riding every day.

J. I. Martin, one of Fort Stockton's prominent "Jitney" citizens, was over with a load of people. He was formerly an Odessa boy, and is well and favorably known to most of our people.

H. Robbins was up from "Saragosa the Beautiful" visiting in Pecos Tuesday and Wednesday, and circulating among his numerous friends.

Mrs. B. R. Stine and children returned home Sunday from her extended visit with relatives and friends in Mobeetie, and Henrietta, and other points in the Panhandle country.

If you have anything to sell, everyone will know it if you use the Pecos Times.

Mrs. A. H. Henderson, and her children, Harry, Edith Esther and Mary Elizabeth, were here from Odessa the forepart of the week visiting her brother, Mr. Cox and family.

LeGrand Merriman went out to Saragosa Thursday morning over the "Davis Mountain Route" on business connected with his uiano house. LeGrande is always hustling after more business.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

Tom McClure went out to Saragosa yesterday morning on the Pecos Valley Southern train on a recuperating trip.

A. L. Springer was up from his farm-ranch holdings near Crystal Water after supplies and was kept rather busy shaking hands with his hosts of friends.

Judge Ben Palmer was a business visitor out at Balmorhea last Saturday.

Miss Stamper, who had been in Pecos visiting with friends returned to her home in Saragosa Thursday morning.

Mrs. L. W. Anderson, mother of our L. W., arrived in Pecos this morning from Temple for a short visit with Mr. Anderson and the family, she being accompanied by Mrs. M. C. Pegues, of Spring Hill, Tenn. She is Mr. Anderson's aunt.

Miss Nellie Ferguson of Houston is here for a visit with her school chum, Mrs. L. W. Anderson and family. She arrived last Saturday.

Mrs. J. H. Wells and children, Miss Lillian, and sons, Jim and baby Jake Barton Wells arrived in Pecos Wednesday and are now located in the Chareks residence in the Western portion of the city. The Times joins in heartily welcoming these good people to Pecos.

Miss Lillie Pearl Buchholz, Mrs. Della Lewis, both of Pecos, and Mrs. Howard Alley, of Columbus, N. M., returned from Fort Stockton Tuesday, where they had been the guests of Mrs. Barney Riggs at a very enjoyable week-end party.

Mrs. T. Y. Moorhead left yesterday evening for a visit with relatives in Waco. She left on train No. 34.

Mr. and Mrs. Wes Roberts were visiting in Pecos the forepart of the week from Marfa, with their daughter, Mrs. Cox, and family, and their other numerous friends.

Zack Miles of Marfa visited in Pecos a few days this week with his friends. He came over to attend the Underwood-McCarver wedding. Zack has hosts of friends in Pecos who are always glad to have him come back to the city for a visit.

**Invigorating to the Pale and Sickly**

The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic for adults and children. 50c

Don't forget to have an exhibit ready for the Fair.

Misses Ethel and Colon Prewitt returned home Monday evening from their visit in El Paso.

Miss Ethel Prewitt, who has been here visiting with her sisters, Mrs. L. W. Anderson and Miss Colon Prewitt, left yesterday for her home in Dallas.

Misses Mary and Golda Wilhite went out to Balmorhea Monday for a visit with their many friends in that section.

Chris Ritz was in from his farm-ranch Tuesday after fencing and other supplies. He was accompanied by Earl Godeke who is staying out there during the school vacation.

If you want to buy anything, read the Pecos Times.

Mr. and Mrs. John B. Howard and son returned home the first of the week from their trip to the coast and report having had a fine time.

Messrs. Marcus and Fred Suyder returned Sunday afternoon from and other points in North Texas.

Mrs. Graffius and daughters, returned home first of the week from thei business trip to Fort Worth their visit with Mr. and Mrs. W. C. Holbert and family at Saragosa.

Mr. and Mrs. Lee Windham are now comfortably located in the Billy Gibbons residence having moved in the first of the week.

J. A. Buck returned yesterday from a trip to northern points on business—that is he said business.

Mrs. Ontis, the mother of Mrs. Roy Lane, who has been visiting with the family for some time past, left this week for her home in Colorado, taking her grandson, Roy, Jr., with her.

Miss Gladys Prewitt, who has been roughing it at the VH ranch for the past week, returned Wednesday. She hadn't got in the cook's way 'ere a time while gone.

Mr. and Mrs. Marvin Cowan who have been out to the VH ranch for the past week, returned Wednesday.

John DeRacey is down from his anch near Dixieland this week. He reports several rains that, while a great benefit to that section, were insufficient for the needs of the range.

Bo Higgins, wife and child are here visiting his mother, Mrs. A. Z. Higgins. Bo is considerable of a fiddler and the local hippists will welcome his fine renditions.

The Reeves County Fair is to be held September 15, 16, 17 and 18.

Mr. and Mrs. Porter R. Underwood left yesterday evening on No. 34 on their wedding trip to numerous points in Texas, before going to Amarillo, Texas their future home. The wedding notice will appear in next week's Times.

Messrs. Top C. Heard of Seminole, and Jack Heard of Knowles, New Mexico, arrived overland in a Ford, Wednesday for a few days visit with their mother, Mrs. J. N. Heard and other relatives and friends. The boys having been raised here number their friends by the extent of their acquaintances. They left this afternoon on their return trip.

**DENTAL OFFICE**

**TO BE CLOSED.**

On account of business which will take me out of the city for several weeks my dental office will be closed from August 14th until September 12th inclusive.

C. J. MAGEE.

**THE CHURCHES.**

There will be preaching at the Presbyterian Church Sunday evening at 8 o'clock.

Sunday School 10 a. m. An effort to increase class attendance beginning soon. Get busy.

A. A. DAVIS, Pastor.

**The New Skirts are Here.**

**Pecos Mercantile Co**

**Dry Goods Department**

**UGH! CALOMEL MAKES YOU DEATHLY SICK**  
Stop using dangerous drug before it salivates you! It's horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50 cent bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

**Only One "BROMO QUININE"**

Get the genuine, call for full name, LAXA LIVE BROMO QUININE. Look for signature of S. W. GROVE. Cures a Cold in One Day. Stops cough and headache.

**CALOMEL DYNAMITES A SLUGGISH LIVER**  
Crashes into sour bile, making you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, first go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Adv.
