Miss Leota Beauchamp, one of Pecos' most popular and attractive young ladies, was selected as "Miss Pecos" at the grand ball in El Paso Thursday night. Her retinue of attendants were the following popular and beautiful young ladies: Misses Nell Kerr, Hazel Berry, Nannie Mae Collings, Mildred McCarver and Bernice Richburg. The chaperones—Mrs. J. W. Parker and Mrs. J. E. Starley.

MRS. JNO. PREWIT PASSES AWAY

Mrs. John Prewit died Monday afternoon at 2:30 o'clock at the home of her daughter, Mrs. C. F. Manahan. She leaves a devoted husband, and the following children: S. M. and Collie Prewit and Mrs. C. F. Manahan, who reside in Pecos, and Jim Prewit of Arizona, all of whom were at her bedside during her last illness. Mrs. Prewit had lived the allotted time of three score and ten years and was 70 years of age on the 5th day of August. She had been a long and patient sufferer and when death came and the portals of heaven were opened to receive her and she was bade to enter, for she lived the right life, what a relief it must have been to the tired and worn body. Mrs. Prewit was a devoted follower of Christ, a consistent member of the Christian church.

The funeral was held at the Christian church Tuesday afternoon at 3 o'clock by the pastor, Rev. Homer L. Magee, who paid a beautiful tribute to her most excellent life. Interment was made in the city cemetery amid a large concourse of sorrowing relatives and friends.

It had been just two months and six days since her sister-in-law, Mrs. R. E. Prewit, passed away. The two ladies had been such close friends here and now the friendship can be renewed.

The Prewits are among the first settlers in this country where they are held in the highest esteem by every one. The Enterprise extends condolence to the bereaved.

Pecos Boosters Go To El Paso In A Body

On Wednesday afternoon a Pullman car loaded to the guards with Pecos business men and boosters left for El Paso to attend the Exposition. Through the efforts of Secretary Eberstadt of the commercial club a Pullman coach had been procured which is to be used not only on the way there but while there as a kind of rendezvous and hotel for those who went. They expect to be there until Saturday and will do much toward boosting Pecos.

On the rear of this coach a banner bears the legend: "Pecos, Texas, Business Men's Special to El Paso." On one side of the coach a streamer bearing this inscription was placed: "Pecos, Texas—City of Team Work, All Boosters for El Paso."

Those who took passage on this particular car were: L. W. Anderson, T. H. Beauchamp, M. W. Collie, B. T. Biggs, T. Y. Casey, W. H. Browning, Jr., S. E. Eberstadt, W. A. Hadson, J. A. Drane, C. A. M. Pitts, R. S. Johnson, R. L. McKnight, E. L. Collings, M. S. Schermerhorn, Dr. C. F. Magee, O. J. Sims, W. R. Glasscock, Tom McClure, John Cowan, Geo. D. Coon, H. LaSalle and D. Wood Bozeman. F. W. Johnson and Dr. Jim Camp had secured reservations on this car but on account of other important and pressing business could not go. Dr. Camp sent his son along to occupy his place among the boosters.

This is a body of representative citizens who will show their adaptability to the occasion and will prove competent boosters for the town.

One of the pastors of the city will preach.

You are cordially invited to attend these services.

Rev. H. L. Magee has been on the sick list for the past two weeks and confined to his bed most of the time with a slight fever. He will not be able to fill his appointment at the Christian church Sunday, much to the disappointment of his appreciative congregation.

SCHOOL NEWS

The High School Keeping-Up Club, which was organized for the purpose of keeping up with world affairs, met in open session last Friday afternoon. The first number to be given was a piano solo by Ora Pruett, but, owing to her absence this was omitted. Otherwise the program was as follows:

1. Reading, "Causes of the European War"—Jewell Cowan.
2. Reading, "How the Seventy-Five was Saved to France"—Lola Hines.
3. Piano Duet—Warren Collings and Nell Kerr.
4. Reading, "A New Sea for the World's Commerce"—Sybil Bowie.
5. Jokes, "A Handful of Chestnuts"—Hill Hudson.

"Inventions and Discoveries"—Lloyd Mitchell, Thomas Wheeler and Hillard Camp. This was the first program given by the club and everyone present declared it to be interesting and instructive. The programs which follow will have to be very good to reach the standard set by this one.

After some delay the apparatus for playing volley ball has arrived and the younger girls are now practicing under the direction of Miss Donnelly.

The members of the High School foot ball team have been practicing faithfully during the last few weeks, preparing for the game with the Pecos All-Stars which is to take place Monday, October 23. There will be some good yelling during this game, as Jane Looby, the yell leader, has been drilling the high school pupils.

There have been six tardies and twenty absences in the entire high school this week. Most of the absences is due to the fact that a number of students is attending the exposition in El Paso.

The seventh grade has two new pupils this week, Flossie Moore and Rufus Taggart.

Billie Prewit has been absent from the sixth grade this week on account of sickness in the family.

Ruby Eggleston has been promoted from the fifth to the sixth grade.

J. T. Tucker and wife are here on a visit to Mrs. Tucker's daughter, Mrs. E. L. Vickers. They came from Merkel where they have a farm, having sold their city property. Mrs. Tucker is in poor health and will probably be with her daughter indefinitely. Mr. Tucker is an old Texan, having come to this country when it was yet a republic, and lived for many years in Erath county and that section of the country. He was in many Indian raids and helped on many occasions drive the Indians back on the frontier. He is an interesting talker and knows all the old settlers in that section of the state and has for many years lived in West Texas. He expects to return soon—probably the latter part of this week to Merkel to look after business matters for a few days.

A trial is all we ask, goods the best, price lower—Green's Grocery.

The Lockett Adair "Glory Barn" Going Up

Mr. Libbey, advance man for the Lockett Adair meetings, arrived in Pecos the latter part of last week and has been busy with the preliminaries of the proposed meeting since that time. He is looking after the matter like an old hand at the business and is "gathering his forces" and working his men like he meant business. The "Glory Barn" is being erected on the vacant square just west of the courthouse and will be ample to hold all who may attend this revival—and it is expected that there will be great numbers in attendance.

Barring unforeseen difficulties, the tabernacle will be up and in readiness for the meeting by Sunday and it is the intention to make it comfortable and complete.

It is hoped that the meeting will be begun on next Sabbath, but up to the time of the writing of this article The Enterprise is not informed for certain.

Rev. Adair has been holding some splendid meetings in point of attendance and conversions and is somewhat behind with his appointments due to the fact that he was not allowed to quit the places where he was at work on the "dot" from the fact that his meetings had stirred the people to a point where they could not afford to let him go. He is most wonderfully successful in his meetings and is a man who has a way of drawing the people to his meetings and convincing them when they are there. You cannot afford to miss a single one of his services if you do not want to miss something worthwhile, for he will entertain as well as instruct all who hear him.

W. Parker, J. E. Starley, J. G. Love, and little daughter Margaret, and Mr. and Mrs. Wm. Garlick.

Arsenic Absorbed by Living Hair.
New light has been thrown on the legal side of arsenic poisoning, says the Scientific American. It has been found that arsenic compounds are absorbed by the hair of living persons, though not absorbed after death. In the hair of man arsenic has been known to reach a concentration of one to five parts in 100,000. The deposit takes place in the hair after it has been absorbed by the abdominal organs—liver and kidneys in particular. Therefore, in cases of acute, quick poisoning a chemical analysis of the hair would show no arsenic, while it would be found in the liver and kidneys. On the other hand, if slow arsenic poisoning were suspected, analysis would show arsenic in the hair, but not in the liver and kidneys, and it could be safely assumed that the poisoning was not recent. The legal value of such evidence is apparent.

New Kite Balloon.
A military kite balloon, observed by thousands of persons, landed near Washington Court House, O., after a trip from Akron, O., a distance of about 120 miles. The balloon was piloted by C. H. Roth and C. A. Wollen of Akron, and made the trip in three hours and 45 minutes.
The balloon was shaped like a large cigar, but carried no motive power. It was guided by means of planes, and the trip was made for the purpose of testing the steering, elevating and lowering apparatus.
The pilots said that it was the first time that such a trip in a balloon so equipped had been attempted in this country, and that the idea is a new and undeveloped one in Europe. They said that the fast time and perfect control proved the value of the craft.
The balloon was shot at over a farm in Green county, but the machine rose out of range.

STAGE TO CUT CROPS

Several Important Factors Must Not Be Overlooked.

Proper Curing of Fodder and Feeding Value of Cured Material Are Essentials Often Neglected in Harvesting.

Farmers should harvest their forage crops at proper stage of maturity, if best results are desired. Several factors must be taken into account. According to Farm and Home, the yield per acre, the proper curing of the fodder, and the feeding value of the cured material, all are essentials too often overlooked.

The mixed crop, oats and peas, will improve in composition, as it grows older and should be allowed to stand as long as the pea vines remain fairly erect. In this stage of maturity, the flesh-forming and fat-forming constituents in the fodder obtained will be very nearly the correct one for a well-balanced ration for most animals.

Field corn, millet, sorghum and kafir corn will decrease very rapidly in protein content while heading out. The percentage of crude fiber also decreases. Both of these changes are due to the rapid accumulation of starch and sugars in the plant juices at that time, while there is an increase in the much-desired nitrogen free extract. In

Cutting Corn for Silage.

order to obtain a fodder having as narrow a ratio of flesh-forming to fat-forming elements as possible, the crop should be cut at as early a stage as it can be well cured.

For roughage to be fed in connection with highly nitrogenous foods, it may well be allowed to grow until seeds are formed. After that period the stalks rapidly become woody and the proportion of waste is greatly increased, while the feeding value is decreased.

In determining the period best to cut these crops, wholesomeness, digestibility and other factors must be taken into account, whereas the chemical composition has little to do with the comparative feeding value.

CURE FOR SOIL CONDITIONS

Sorrel Thrives on Activity and Lime Is Recommended for Improvement and to Kill Weeds.

Some weeds are indicators of soil conditions, and the remedy is to change these conditions. Sorrel grows on acid soils. When this weed makes its appearance, treat the soil with lime and it will not be improved but the weed will disappear. No amount of cutting or cultivating would have eradicated it so thoroughly.

Wet spots always have a particular class of weeds, as swampgrass, sedges, cattails, etc. No amount of cutting will eradicate them but a tile drain will do so thoroughly and quickly.

PROFITABLE TO RAISE SHEEP

Raise Few Nice Animals Every Year for Breeders Who Are Endeavoring to Improve Flocks.

A profitable side line of farming is to raise a few nice sheep every year for men who are willing to pay a bit extra for the sake of improving their stock.

To do this, one should have good stock and good pastures and good barns, as well as a good man to care for them.

CONCRETE IS HANDY ON FARM

Of Especial Value in Construction of Walks, Houses, Floors, Watering Troughs, Etc.

Farmers who have not studied the subject of concrete construction will do well to take it up. In most cases the material will be cheaper and handier than lumber.

It is of high value for walks, dairy floors, milk houses, watering troughs and steps, as well as for general architectural work.

RIGHT TREATMENT FOR ROUP

Best Plan to Rectify Conditions Likely to Cause Trouble—Be Sure That Coop is Dry.

Roup, or contagious catarrh, as it is sometimes called, shows itself in the fall and winter when the chickens are housed and when hand feeding is used almost entirely. Therefore, at this time of the year chickens do not get the usual amount of exercise, are affected by dampness and lack of ventilation of coops, and are often fed table scraps or mash which become easily contaminated.

The symptoms of this disease vary considerably, but the most common ones are swelling of the head, discharges from the eyes and sometimes from the nose, and inflammation of the mouth, in which sometimes cankers and false membranes are formed. In advanced stages of the disease the chicken becomes drowsy and listless and loses weight. There may be some slight attacks in which only the eyes or the mouth are affected, the bird otherwise being apparently healthy.

The essential treatment for this trouble is to rectify the conditions which are likely to cause it. Make sure that the coop is dry and has plenty of ventilation without drafts. Roup is not often found where the hens are housed in the open-front type coop. Also make sure that the food and water are fresh and clean.

SAYS HOGS ARE NOT FILTHY

No Farm Animal More Deserving of Care and Protection, Yet He is Frequently Neglected.

(By PROF. K. T. J. EKBLAW, University of Illinois.)

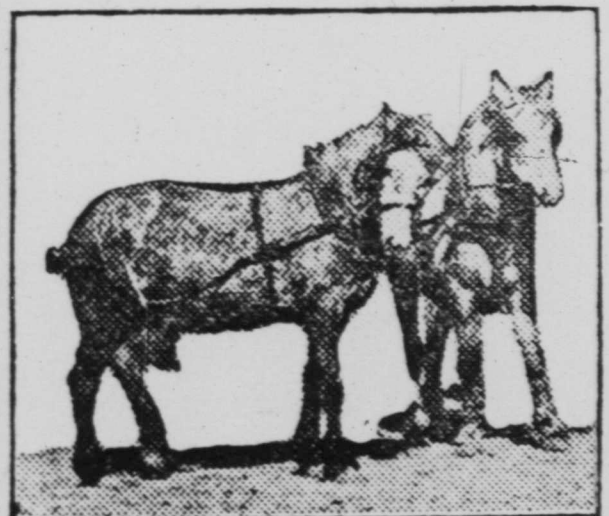

Hog raising has probably returned proportionately greater profits to the corn belt farmer than any other enterprise. In view of this, it might naturally be expected that the hog be the best-housed animal on the farm. In the majority of cases, however, the opposite is true.

The old-fashioned idea that the hog is a tough, filthy animal still persists, and many farmers believe and act in the belief that anything is good enough for a hog. As an actual thing, there is no farm animal that needs care and protection more than the hog.

DEFECTS IN HORSE'S TEETH

Often Happens One Long Tooth Keeps Others From Closing Down and Prevents Mastication.

Occasionally most farmers find an old horse on their hands. Lots of these old horses have a hard time to keep their ribs covered with enough fat to look respectable. We have found that a good many times the trouble is not with the horse in particular, but with its teeth, says a writer in an exchange. As a horse

Splendid Farm Team.

gets older—up in the teens—the teeth are more slanting than while younger. They adjust themselves by steady wear considerably, yet not all of them wear to the right length. Sometimes just one extra long tooth will keep the others from closing together as they should, and the horse cannot masticate its feed properly. The result, of course, is improper nourishment and a poor-looking animal.

LAMBS FATTENED IN AUTUMN

Make Better and Cheaper Gains in Fall, Provided There Is Plenty of Rape and Clover.

If the market warrants it lambs will make better and cheaper gains during the fall, provided there is plenty of rape and clover pasture, than they will during the winter.

If the fall markets are slow and the lambs unfinished it will no doubt pay to feed until the new year. This will cost from 3 to 5 cents a day according to the prices of feed in the local market. But due allowance must be made for the fertility returned to the land.

Uncle Sam's Chemists.
Despite the monumental work of such government experts as Doctor Rittmann, the discoverer of a new gasoline process; Dr. Harvey Wiley of pure food fame, and the whole corps engaged in fertilizer experiments, public opinion will not give credit for any good thing to Uncle Sam's chemists. After making a low cost record for producing smokeless powder at the Watkinson arsenal and producing "dynamite"—our famous secret "high explosive 'D'"—the workers in explosives have succeeded in producing a flashless powder. The great heat developed in smokeless powder detonations causes flying particles to become incandescent, producing a flash, but this new explosive produces only a pear-shaped descent flow at the muzzle, invisible at two miles. At night, a mask as high as a mounted man (technically known as "mounted defilade") will conceal the glow; the "defilade" required at night for our present explosive is not exactly known, but artillery officers have been known to declare, pessimistically, that a mile would be none too high.

When three destroyers steamed out of the harbor at Newport, R. I., it was reported that they would begin a neutrality patrol along the New England coast as a result of the recent German submarine raid.

Losses estimated at between \$7,500 and \$10,000, with some insurance, were sustained when a negro watchman dropped his lantern in a seed-house on the A. F. McDade plantation at McDade, La., several miles south of Shreveport, and caused fire that destroyed about 75 bales of cotton, a quantity of seed and the plantation barn.

The Boston Americans divided the winners' spoils of the world series. Under the apportionment decided upon by the players, full shares of \$3,326.25 each were given 22 players, including several men who had figured but little in the teams success. The remainder of the \$97,756.47, which the team won, was given to substitutes and club employees.

According to the Hamburger Nachrichten, Captain Paul Koenig of the German submarine Deutschland, replying to a telegram of congratulations from his native town on his voyage to the United States and return, said he was busy with preparations for a second trip across the ocean which would begin soon.

The Shreveport city council has ordered a referendum election for the people to say whether or not the city shall buy the plant of the Shreveport Waterworks company, which the company has agreed to sell for \$500,000, a price offered by the council as a counter-proposal to a proposition of the water people to sell out for \$1,000,000.

City and parish officials, about 2,000 school children and hundreds of adult residents of Bogalusa, La., participated in ceremonies attending the breaking of ground for a new paper mill to be erected and operated there by northern and eastern capitalists. Company officials estimated the mill and equipment would cost \$1,000,000 and that the plant would have a daily capacity of from 75 to 90 tons of paper.

A woman was killed, at Bayonne, N. J., two men probably mortally wounded and a half dozen other persons less seriously hurt when the police fired a volley into a crowd of Standard Oil strikers and their sympathizers, which was demolishing a fire engine. The engine had responded to an alarm and had been held up by a barricade thrown across the street by the strikers.

The enormous extent of recent gains in the export trade of the United States is disclosed in statistics issued by the U. S. department of commerce. Total exports for the first eight months of the calendar year were in many cases millions of dollars greater than those of the entire fiscal year of 1914 and very large increases are shown in percentages. This vast export trade shows an apparent trade balance for the eight months of \$1,730,000,000 in favor of the United States and department officials predict that by the end of the year it will exceed \$2,500,000,000. The total exports amounted to \$3,435,969,212, an increase of \$1,205,082,910 over the same eight months a year ago.

The Boston Americans firmly clamped the championship laurels of the baseball universe upon their brows at Boston, Mass., when they defeated the Brooklyn Nationals, 4 to 1, in the fifth and final game of the world's series of 1916. The greatest gathering in the history of the American national sport witnessed the victory, 42,620 fans departed after the contest convinced that the Red Sox were the baseball machine par excellence of recent years.

General Emiliano Orozco of the Zapata forces, who has caused much trouble in the state of Mexico, was captured in the near-by hills with 11 of his men. They were shot.

ARE FAULT OF COMMUNITY
Many Diseases Which Afflict Humanity Might Easily Be Wiped From Earth's Evils.

Some eminent physicians and surgeons have been telling the public a number of unpleasant truths lately about diseases which ought to be as extinct as the dodo, yet which kill thousands and tens of thousands of people every year. As a paper which has done and is doing its utmost to bring home the same truths to its readers, the Journal hopes the eminent doctors will continue their campaign of publicity.

Diphtheria ought to be as rare as smallpox in every civilized community. Antitoxin is not only an almost perfect cure when given in time, but is likewise a sure preventive, yet diphtheria ranks fourth among causes of deaths of children under ten years of age. Puerperal sepsis, or child-bed fever, is almost unknown in any well managed maternity hospital, and ought to be a stranger everywhere, yet it kills almost as many women of child-bearing age as does cancer. Typhoid is a filth disease, to be banished by effective sanitation; tuberculosis is a disease of bad housing and poor nutrition, but up to date our knowledge of these facts has availed only to check these ailments, not to abolish them.

Medical research is invaluable, but general use of medical facts already known would work a revolution in the health conditions of the world.—Chicago Journal.

Bernhardt Frightens Reporter.
A Swedish reporter interviewed Sarah Bernhardt. He asked her how she played "La Tosca." The result was a demonstration which drove him in terror from her private car. In describing his experiences to his city editor he said:

"With each step she took toward me, ranting screaming and brandishing the paper cutlass, I backed the chair toward the door, dragging my belongings with me. Finally she stood before me pale, breathless, terrible, knife in the air, ready to strike. When she made the final lunge, I just had strength enough left to fall out of the chair and half ran and rolled into the vestibule. In the scramble I had left my overcoat. When I got on my feet the madame had disappeared. I made a dash for it, just as she protruded her head through the pale blue portieres, presumably to view the corpse: 'Zat es "La Tosca," m'sr.'"—American Magazine.

MILLIONS IN BOTTLE CAP
Jewish Peddler Staked Savings, on Baltimore Man's Invention, and Made Much Money.

How many persons, householders or others, who have had occasion to remove the little tin caps from catsup or other bottles—beer bottles, for that matter—ever give a thought to the little wrinkled edge affair that keeps the contents from the air and holds it in its original form? It's a good guess that not one in a thousand. It's an unpretending little affair, but it has a most interesting history, so far as results count.

It was upward of a quarter of a century ago that a man named Taintor of Baltimore bethought himself of the cap and succeeded in bringing it to a successful demonstration. He was a poor man, and it was uphill work trying to interest moneyed men in his invention. A traveling Jew peddler of jewelry and "nicknacks," by the name of Friedenwaldt, became interested, took his years of savings, amounting to some \$5,000, from the bank, and invested in the invention.

Years went by and the peddler lived to see factories all over the world resulting from his investment. Good judges assert that more than \$50,000,000 was divided among those interested in the simple little device.

Doctors now call laziness a symptom of disease.

"We cannot disturb the old natural balance of our food supply and get away with it. We may deceive ourselves, but we Can't Cheat Nature."

—Dr. Goudiss, Editor The Forecast Magazine.

This "old natural balance" is simply Nature's perfect arrangement and proportioning of food elements in our food supply for perfect building of body, brain and nerves. Modern commercialism destroys this "balance," when, in milling flour it casts out (to make it white) most of the mineral elements so essential to health.

**WATCH FOR BANDS ON WILD
 DUCKS**

If you kill or capture a wild duck bearing an aluminum band around one leg, having a number on one side, and on the other a statement requesting that the United States Department of Agriculture, or the Biological Survey, be notified, you are requested to send this band at once to the Bureau of Biological Survey, Department of Agriculture, Washington, D. C. This band, if accompanied by a statement as to date, place, and circumstances under which the bird was taken, will be of service to the Survey in its efforts to determine the longevity of individual ducks and the routes of migration of the species. The bands are being attached to considerable numbers of wild duck of several species which have been cured of the duck sickness prevalent around Great Salt Lake, Utah, and there released. The department is particularly anxious to secure reports from these birds to determine their complete recovery from this malady which has killed hundreds of thousands of ducks in Utah.

**COLE BROS.' WORLD-TOURED
 SHOWS**

Away from the old time methods of presenting tented amusement enterprises, is Cole Bros.' World-Toured Show and Trained Animal Exhibition, which will give two performances, afternoon and night at Pecos, on Friday November 10. The Cole Bros.' World-Toured Show travels in its own two all steel trains. As its title denotes, animal features predominate, but do not by any means form all of the program; high class European novelties and horse, pony, dog and monkey acts are interwoven into the program with such varied effects, that the onlooker is taken from one surprise to another with such wonderful rapidity that he hardly knows what to expect next, and it is in the arranging of the program so as to take advantage of these surpris-

es wherein lies the charm of Cole Bros.' performance.

A noticeable feature of the show is its absolute freedom from anything suggestive that mars so many performances; its clean wholesome fun, the real comedy of the clowns, in burlesquing important topics of the day, and grotesque impersonations of people prominent in the limelight, is real humor and greatly appreciated. Twenty funny clowns under the leadership of Happy Billy Reid, the master clown of the day, feature many absurdly comic acts. "The Big Suffragettes Meeting," "A Baseball Number," "Comedy Policemen," "Flying Machine and Automobile Number," "Rube and Old Lady Number," and dozens of other foolish and ludicrous comedy acts by clowns who are eminent in foolery.

The Berne Brothers the strongest men in the world, direct from Europe first time seen in America, keep the audience spellbound with their many varied feats of strength and wrestling. Prof. John Ducander the world's greatest horse trainer, with his troupe of five, educated performing white Arabian horses. Prof. F. J. Rogers with his troupe of educated dogs and Shetland ponies will be the delight of the children and interesting to the grownups; 25 of these ponies present drills and difficult military maneuvers with all precision and skill of trained soldiers. This is recognized as the best trained school of ponies seen with any tented organization. Chas. Post and his trained trick mules. Herr Diefenbach's trained bears are another European importation. Herr Diefenbach comes highly recommended by the press of Europe and the performance of his huge Siberian Grizzly Bears range from comedy to sensationalism.

The above are only a few of the many acts interwoven in a program of undisputed excellence.

The only show that is absolutely different from all others and is without doubt the highest class, most progressive and most pleasing tented exhibition that will visit Pecos this season. Free street parade at 10 o'clock a. m. A tremendous exhibition of splendor of scores of open dens, glittering tableaux, savage animals lead in leash, four brass bands, forty clowns, scores of pretty women. The entire parade enriched by a beautiful display of flashy costumes and trappings, altogether representing an immense fortune.

**PARENTS, YOUR BOY OR YOUR
 GIRL'S FUTURE IS ON TRIAL!
 WHAT ARE YOU GO-
 ING TO DO?**

You would be a very unnatural parent if you did not wish to give your boy or girl the best educational advantages that are in your power, a very thoughtless parent if you sent him to the first school that mailed you a catalogue, and an unpardonable parent if you entered him in a school without first investigating its location, sanitation, equipment, character of student body, faculty, system of discipline, and above all, the moral surroundings. Yours is the duty of investigation, comparison and ultimate decision.

You acknowledge the hearsay that "One school is just as good as another," "it all depends upon the boy or girl." If you rest your decision on that, you may later on have bitter occasion to regret your indolent and indiffer-

ent attitude. Your boy or girl is the hope of your life. In him or her is centered your most cherished ambitions. On him or her rests your future happiness, your joyful right to live, or your sorrow or your willingness to die. His or her worth to you cannot be measured by dollars and cents, but his or her value must be measured by the training which he receives in home and in school. If the local school were an ideal place for your boy or girl, you wouldn't think about sending him away from home. Under present conditions, they doubtless need more self reliance, because they lack the power of initiative, are wanting in breadth the scope of vision, haven't learned how to study, can't make for themselves, and are ignorant of the fine art of a business career. If so, their education should be continued in a school where discipline really means something, where personal supervision by the faculty is constant, where our service is rendered above everything else, and where manly and womanly character and conduct are held paramount to all other considerations.

Our school offers many advantages that no other commercial school can afford. Its location, excellency of environments, its student body is made up from the best homes of the country, the faculty is second to none, its discipline is the outgrowth of long experience, tempered to conserve individual needs, just, sane and firm. One or two hundred dollars spent on your boy or girl now may mean an unbounded success for their future life. There is a time in every young person's life for them to consider an education, and if that time goes by, unheeded by the parents, and they fail in the future, you are, in a measure, responsible for that failure. On the other hand, if you encourage the seed thought of an education when your son or daughter is interested, it may mean the turning point in their lives, and will cause you much joy and happiness in the future. One or two hundred dollars spent on them is one of the best business investments you ever made. It will pay greater dividends in their future than anything else you could bestow upon them.

Our 223 page catalogue will tell you as to the financial standing of our institution. It will tell you of the endorsements by the best business men, ministers, lawyers and bankers, it will give you the experience of young people who came to us with limited means, and in a short time in our school, what their success and future has meant to them. We know you are bound to be interested, so ask us to furnish you the proof. Our large, beautifully illustrated catalogue is free. If you will fill out this coupon and mail to us.

IMPORTANT NOTICE!

With the exception of black ink, all raw materials used in manufacture of a newspaper have advanced in cost during the past twelve months approximately 100 per cent. This means that it will cost your publisher practically double to supply you with a newspaper the coming year.

Under stress of these unusual conditions, The Star-Telegram has been forced to increase its "Bargain Days" rate from \$3.25 to \$3.65. An increase of 40c per year (2 1-3c per month) or 12 per cent. Based on the conservative estimate increase in production cost of 100 per cent, under this price the division of added expense will be as follows:

Increased expense to The Star-Telegram 88%
Increased expense to The Reader 12%

This situation means that after "Bargain Days" the regular rate of \$6.00 per year must be strictly enforced. We have battered the price to the very bottom in order to protect our Annual Subscription Cheap Sale Period, which has been in effect since the establishment of The Star-Telegram.

Do not take chances, save the \$2.35, by ordering before Bargain Days expire. Take advantage of the \$3.65 rate.

The high standard of The Star-Telegram will be maintained as long as there is a Star-Telegram regardless of any war burdens.

CITATION

THE STATE OF TEXAS.

To the Sheriff or any constable of Reeves county—greeting:

You are hereby commanded to summon Emma White by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 70th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 70th Judicial District, to appear at the next regular term of the District Court of Reeves county, to be holden at the court house thereof, in Pecos, Texas, on the third Monday in November 1916, the same being the 20th day of November 1916, then and there to answer a petition filed in said court on the 7th day of July 1916, in a suit, numbered on the docket of said court No. 1639 wherein Mitchell White is plaintiff, and Emma White is defendant, and said petition alleging that the defendant is an actual bona fide inhabitant of the State of Texas, and that he has resided in Reeves county for at least six months next preceding the filing of this suit, and that on the 7th day of January, A. D. 1907, plaintiff was lawfully married to defendant, that they continued to live together as husband and wife until about July 1st, 1913, when by reason of the cruel and harsh treatment, and improper conduct of defendant toward plaintiff, he was forced to permanently abandon her, and since which time they have not lived together as husband and wife. Plaintiff alleges that during the time he and defendant lived together as aforesaid, he was kind and affectionate to her, and always provided for her support and maintenance, but defendant, unmindful of the duties and obligations of her marital vows began a course of unkind, harsh, outrageous treatment toward plaintiff, which continued until plaintiff was forced and compelled to abandon her, as aforesaid. That defendant was insulting and violently abusive in her treatment toward plaintiff, and negligent of her marital duties in every respect, and did so without any cause or provocation on the part of plaintiff. The defendant became addicted to the immoderate use of intoxicating liquors, and became a drunkard, and also became a lewd woman, and lived for many months with other men, which men were drunkards and vagabonds and gamblers; and defendant was arrested, indicted and convicted in the District court of Lawrence, Massachusetts for the offense of lewdness and also for drunkenness and was sentenced to serve a term of three months imprisonment upon the State Farm of the said state of Massachusetts, and did serve same, all of which occurred after her marriage with plaintiff. That the defendant has not reformed, but is still living a life of shame

and disgrace. That such conduct upon the part of the defendant is unbearable to plaintiff, and renders their living together as husband and wife insupportable. Therefore plaintiff prays that the defendant be cited to appear and answer herein, and for judgment dissolving said marriage relations, and for costs of suit and all other and further relief, to which he may be entitled.

Herein fail not, but have you before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness Willie-de Woods clerk of the District court of Reeves county.

Given under my hand and the seal of said court, at office in Pecos, Texas, this the 19th day of October, 1916.

D. 1903, plaintiff was lawfully married to defendant in Brewster County, Texas, plaintiff then being a single woman by the name of Marie Baldez; that they continued to live together as husband and wife until about the 1st day of November 1910, and during all the time they lived together as aforesaid, plaintiff was always kind and affectionate to her said husband and was ever mindful of her marital duties toward him, and did all in her power to make him a good and faithful wife, but the defendant unmindful of his duties and obligations towards plaintiff, and without any cause whatever, left her with the intention of abandonment, and did permanently abandon plaintiff, and their children, and left her to make a living for herself and children, and has not contributed anything to the support of plaintiff or her children for more than three years next preceding the filing of this suit. That said abandonment has been for a period of more than three years. That plaintiff does not know the whereabouts of defendant, and does not know his place of residence. Therefore plaintiff prays the Court that defendant be cited by publication to appear and answer herein, and for judgment dissolving said marriage relations, for costs of suit, etc.

All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N. Y.

Worries Bring Aches

Life today brings many worries and worrying brings on kidney troubles, so the doctors say. Kidney weakness reveals itself in backache, pains when stooping or lifting, dizzy headaches and urinary disorders. Be cheerful. Stop worrying. And, to strengthen weak kidneys, use Doan's Kidney Pills, the kidney remedy that is used and recommended the world over.

A Texas Case

Mrs. George R. a. d. 207 Diaz St., San Antonio, Tex., says: "Kidney trouble kept me in misery. I had a dull, nagging pain in the small of my back and it seldom let up. Finally, I used Doan's Kidney Pills and they not only stopped the backache, but restored my health. Whenever I have used this medicine since, it has benefited me."

ROUMANIANS HAVE HALTED PURSUERS

DUST GERMANS AND OCCUPY SEVERAL POSITIONS IN ALT RIVER REGION.

BUT LITTLE DONE IN WEST

Big Guns Do Most of the Fighting in Contest for Ground in Northern France.

London.—While both the Vienna and Berlin war offices announce merely a continuation of the fighting on the Transylvania front between the Austro-German forces and the Roumanians, the Roumanian army headquarters reports that in the Alt river region the troops of King Ferdinand have occupied several positions formerly held by the Teutonic allies. On all the other sectors of this front, according to Bucharest, attacks were repulsed by the Roumanians except in the Burzen valley, where the Roumanians were compelled to withdraw slightly farther south. The Roumanians had been falling back several days along the whole front.

Hard fighting is going on from the west of Lutsk through Galicia to the Carpathian mountains. In Volhynia, despite fierce attacks by both sides, there seemingly is a stalemate. Petrograd reports that neither the Austro-Germans nor the Russians have been able to gain an advantage in Galicia.

The big guns on both sides of the Somme in France did the greater part of the work Monday. South of the river, however, a small wood between Genemont and Ablaincourt 100 prisoners and three guns fell into the hands of the French. A violent counter-attack by the Germans east of Berry-en-Santerre was repulsed by the French.

On the Macedonian front the British troops have reached the village of Bursuk, eight miles southwest of Demir-Hissar.

Along the Cerna river and north of Nidje mountain forces of the entente allied troops attacked the Teutons, but were repulsed.

The provisional government of Greece, formed on the island of Crete has been formally recognized by the entente powers.

Russia and Japan Protest to China.

Pekin.—Japan and Russia have entered protests against concessions for railway and canal construction in China, which have been granted to Americans. Prince Nicholas Koudacheff, Russian minister to China, protested against the proposed American railway from Feng-Cheng, Shansi province, to Lanchow-Fu, alleging that the Chinese minister in Petrograd promised verbally 18 years ago that Russia should have the privilege of building railways in the vicinity of Mongolia. The disputed line was to be 400 miles long. Baron Gonsuke Hayashi, the Japanese minister to China, protested against this government's agreement with American contractors for the reconstruction of 900 miles of the grand canal in Shantung province.

Report Pershing Again in Namiqlupa.

El Paso, Texas.—A report reaches here by way of Mexico City that General Pershing had extended his line as far south as Namiqlupa, where the Fifth United States cavalry went into the camp that it abandoned when the punitive expedition was drawn northward because of the rainy season.

Peddler Fined at San Angelo.

San Angelo, Texas.—A pencil peddler was fined 1c and costs in the city court here. The charge made against the peddler was disregarding the ordinance requiring all peddlers to secure license before operating in San Angelo.

Jaw Dislocated by Yawn.

Dublin, Texas.—Mrs. J. R. Rentfro of near Dublin, while in the act of yawning, had her jaws slip from their sockets, and the services of a physician were required to reset them. No ill effects resulted, but much pain was suffered before the jaws were again set in place.

Infantile Paralysis at Blooming Grove.

Corsicana, Texas.—The 3-year-old daughter of Mr. and Mrs. Fred Cumpston died in Blooming Grove of infantile paralysis, and the 8-year-old daughter of Mr. and Mrs. L. S. Bacon of the same place died of that disease after only a few days' illness.

Retailers' profits in sales range from 8 to 33 per cent on meats prepared at the great centralized markets of the country and from 15 to 38 per cent on sales of farm-prepared meats. These gross profits were disclosed in a report by a committee appointed by the secretary of agriculture to consider economics of the meat situation.

The cotton market Friday reached the highest level of the season at Dallas. With it the by-products, cottonseed oil and cake, broke all records in the history of the trade in Texas. The Sherman Manufacturing company, which operates the cotton mill is building a fireproof warehouse at its plant in South Sherman. The building will cost \$30,000.

"I am of the opinion that Democrats will win in the coming election. I am thoroughly convinced that we should win. But it will be a hard, close race," said Mayor Henry D. Lindsley, who returned to Dallas after spending two months in the East.

SARAGOSA NEWS

Captain Ray of Midland, has been here several days. He has quite a crew of hands at work putting up several miles of fence on his ranch.

The U ranch boys have just finished a tedious, hard job which has lasted for two weeks—that of dipping their entire herd of cattle for the scab, which was caused by shipping in infected bulls.

Little Willie Chandler has been quite sick for several days, but is reported as convalescing.

Sam Crenshaw had a nervous breakdown last week and was not expected to recover for several days, but has since gone to Mineral Wells to recuperate and your correspondent learns today that he is much improved.

The rains of last week did great good to all ranchers.

The car famine, it seems, has broken and they are coming in bunches; everybody busy loading hay.

Mr. Harbert, brother of our fellow townsman, Lee Harbert, is visiting with the family after an absence of about 20 years.

Work on the big reservoir is moving along like clock work and the contractor, N. D. Jameson, is well pleased with its progress.

Judge Halbert is in El Paso with his little son, Albert, to have his eyes tested.

C. M. Honaker reports a little better than 700 pounds of alfalfa seed per acre on his entire crop, beating all records in Toyah Valley for the season.

Sheriff Tom Harrison and family returned from a several days visit in El Paso Tuesday. Mr. Harrison says if he had had plenty of money he would probably have purchased ten or fifteen automobiles while away. He saw many beautiful cars and almost with each turn of the street he would see another with superior points and a more beautiful car. He says the latest models are beauties. They all report a most delightful visit and say the town is full of people and many who had not secured rooms in advance were compelled to sit up at nights. El Paso is certainly a busy place at this time.

Uncle Woodie Johnson left Wednesday for San Angelo where he goes to look after a ranch proposition in which he is interested. He is on a trade for a proposition there which would not wait and he therefore had to forego the pleasure of the trip with the Pecos Boosters to El Paso, although he had already put his proportionate part of the finances in the pile to secure his berth in the Pullman. The crowd will miss this genial good fellow on this trip.

The infant son born to Mr. and Mrs. Geo. Brooks Friday of last week died Sunday. The precious little one was only permitted to gladden the hearts of its parents for a few hours until God, who knoweth best, took it unto himself. The little body was laid to rest in the city cemetery Monday. The Enterprise extends its sincere sympathy to the bereaved parents.

Cash or credit which suits you best, Green's Grocery.
