Highway News Notes

It has been called to our attention that there has lately been several men working highway promotion schemes along our route, the merits of which are doubtful. On account of the local interest taken and the publicity given our highway, every agent with propositions of this kind as soon as he reaches the state works the territory served by our road. In many cases, if the parties approached would consult our local officers, money could be saved them. If desired either our president or secretary would give an opinion as to the value of these propositions presented.

A meeting was held last week at Big Spring to work out a program for our meeting at Mineral Wells next month. Your secretary has been requested by Pres. S. A. Penix to meet with secretary D. E. Colp of the Texas Good Roads Association, and Mr. S. E. Miller, secretary of the Mineral Wells Chamber of Commerce, and complete the details of this program. This meeting will be held this week, and the program will be made public within a few days.

Engineer J. D. Merriwether made a trip recently over the route between Abilene and Big Spring, according to some local reports.

Judge Ben Palmer and brother John, who is here on a visit, left Thursday morning for a fishing trip up the river. John came in Friday night of last week from Big Spring for a visit with his mother. He is a truck grower and owns a nice farm in California. John is an old friend of the Enterprise and is one of those fellows who never knows when to let his friendship cease when once claims that allegiance.

Brings Good Report From N. M.

W. D. Hudson, the most prosperous and best fixed stockman in Reeves county, returned Friday of last week from Engle, New Mexico, where he has a large ranch of something like, one hundred and fifty sections, and reports everything in that section as in fine condition. The cattle are fat and shedding off and the grass is coming splendidly. Mr. Hudson is associated with Henry Avant in this business and says he is perfectly satisfied with the prospects out there and thinks that one of the best stock countries he ever saw.

Don't Fail to Register June 5

The federal law requires every man between the ages of 21 and 30 to register on Tuesday, June 5th. As it requires 365 days to make a year, one who reaches his thirtieth birthday is not 30 until the 365 days are completed after the beginning of the thirtieth year.

A failure to register subjects the offender to a very heavy penalty.

The fact that one registers does not mean that he is to be chosen for military service. There will be many exemptions.

Mrs. George Brooks and little son left Saturday for Lonark, Deming and Silver City, New Mexico, for a visit of a month or two with relatives. During her absence George will be busy measuring for new suits, cleaning and pressing.

One of the six month old infants of Mr. and Mrs. Sam Nolan died Friday night of disentery and was buried at Fair View cemetery Saturday afternoon. The many friends of these good people deeply sympathize with them in their loss.

A Narrow Escape From Drowning

What came near being a tragedy occurred at the old Roberson place about four miles west of Pecos Thursday when the little two and a half year old child of Mr. and Mrs. Bob Hudson, Margurrite, fell into the irrigation ditch and was washed under a bridge and came near drowning. The tragedy was averted only by the prompt action of M. C. Buchanan and the mother of the child who were near by and saw the accident. Mr. Buchanan stopped the pump, secured a bar and pried a plank off the bridge which enabled the mother to get hold of the limbs of the child and draw it out of the water. It was almost gone but by prompt action and active pumping they succeeded in resuscitating the child.

It seems Mr. Buchanan was looking after the pumping plant and the child was playing near a bridge under which was run a trough for the water to pass. The child fell in the ditch and was washed under the bridge beyond the reach of the arm and not until a board from the bridge was pried off could they reach the body of the child.

Palmer-Buchholz

Ben Palmer, jr., and Miss Lillie Pearl Buchholz were quietly married at the Methodist parsonage at 6 o'clock, Saturday evening, May 26, 1917, Rev. J. H. Walker, pastor of the Methodist church officiating. Mr. Palmer is a young man of sterling worth, and has attained good business qualifications. He is one of the firm of Hubbs & Palmer, prominent and prosperous tailors of this city. Miss Lillie Pearl is the daughter of Mr. and Mrs. C. E. Buchholz, has grown to young womanhood in Pecos, where she is much admired and loved. She is a lovely character, is a practical house keeper, and coupled with this she is accomplished in literature and music, having finished her education in the Methodist University at Georgetown. Mr. and Mrs. Palmer have house keeping apartments at the home of Mrs. J. E. Weyer and are at home to their many friends. The Enterprise extends congratulations and wishes for this popular young couple all the joys of a long and happy married life.

Hon. William Jennings Bryan passed through Pecos Tuesday enroute from some point in New Mexico to Big Spring where he lectured that night, and from there he went to Abilene where he will preach the commencement sermon for Simmons College.

Mrs. Ben Palmer left Monday morning with her two little grand-daughters, Opal and Vivian Palmer, for Columbus, New Mexico. The children will remain with their parents, Mr. and Mrs. Kenneth Palmer. Mrs. Palmer will see her son, Frank, at San Simon, Arizona, and visit friends in El Paso before returning home.

NOTICE

We have this day bargained, sold and delivered to John Hibdon the entire plant, subscription list, good will and accounts of The Pecos Times. All accounts due The Pecos Times of any nature whatever are due and payable to John Hibdon, and any and all obligations due by the said The Pecos Times will be paid by us as trustees which may be due by said Pecos Times, as the said Hibdon assumes no prior obligations of said paper.

Trustees for the Pecos Valley State Bank, F. W. Johnson and M. L. Stine.

Pecos, Texas, June 2, 1917.

Referring to the above I wish to state that I have purchased The Pecos Times and will consolidate it with The Enterprise, and will move the two offices into the building occupied by The Times next Monday, where I will be glad to meet friends and patrons of both papers, and where I will be in a better position to supply their needs in printing. I will have more to say about this change in next weeks' paper.

You will note by the above that all accounts due the Pecos Times are due and payable to me, and no one is authorized to collect anything owing to the Enterprise or Times.

JOHN HIBDON.

Sulphur People Will Buy in Pecos

Dr. E. C. Warden, geologist, Milburn, N. J., and J. C. Grogan of Shreveport, La., accompanied by John F. Grogan, came in from the Sulphur mines Monday to do some shopping. The two former gentlemen are interested in the Dott Sulphur Mines and have scads of money to operate and are spending the money in a way which will not only develop the mines but put money in the country. Grogan has a contract with this firm to do their test hole drilling and last week moved his new rig to their fields. Mr. Grogan succeeded this week in bringing these gentlemen to Pecos Monday and they made arrangements to make large purchases in the wholesale line from our merchants here. This means many dollars spent in our city and will mean a saving to this company, as our wholesale men are in a position to save them money.

To Build Dam in Leon Valley

W. E. Hamilton has just returned from a two weeks' visit to relatives in and near Fort Worth and reports everything in that county in first-class condition. He says crops are fine and that wheat will make from twenty to thirty bushels per acre and everything else is looking equally as good. Mr. Hamilton is the man who built the good roads in Precinct No. 1 and has since remained in Pecos as his home. He will leave in a few days however for Fort Stockton where he has a contract to build a large dam in the Leon Valley to conserve the water for irrigation. This, he says, will make that valley one of the most attractive in the United States and one of the very best propositions for investment. Mr. Hamilton is a good judge of the soil as well as of human nature.

PENALTY FOR FAILURE TO REGISTER.

Failure to register on June 5th renders one liable to a year's imprisonment. The fact that one is not entitled to vote does not excuse him from registration. White and colored, between the ages of 21 and 30, inclusive, must register on June 5th.

INJUNCTION SOUGHT AGAINST DRAFT ACT

PETITION FILED AT KANSAS CITY ALLEGES ARMY LAW IS UNCONSTITUTIONAL.

OFFICIALS BEGIN AN INQUIRY

Statement Made "Any Man or Woman Trying to Dissuade Men From Registering Will Be Locked Up."

Kansas City, Mo.—Coincident with the appearance in the state circuit court here Tuesday of proceedings asking an injunction to prevent officials from enforcing the army draft registration law, every criminal investigation agency here of the federal government focusing its attentions upon running down alleged conspiracies to defeat the selective draft plan. In addition preparations were being made for convening a special grand jury here June 6 to consider only cases growing out of alleged violations of federal war statutes.

The injunction, bearing the names of Raymond I. Moore and Thomas R. Sullivan, officers of the federation for democratic control, was filed in the circuit court only a few minutes after Judge A. S. Van Valkenburgh announced he would call the federal grand jury upon petition from Francis M. Wilson, United States attorney for western Missouri.

The injunction is directed against Governor Gardner, Mayor Edwards, the election commissioners and the county sheriff.

Law is Unconstitutional.
The petition sets forth that the registration law is unconstitutional and causes "involuntary servitude." The law also is in opposition to the Missouri constitution, in that it makes state officials act in federal positions, it states.

Jail Accommodation Ready.

New York.—The federal grand jury will convene Monday and will be in readiness to take up any reported violations of the president's draft proclamation. It was announced at the office of the United States district attorney.

"We are not going to tolerate any monkey business on June 5," said Assistant District Attorney John C. Know. "Any man or woman trying to dissuade a man from registering will find accommodations in jail."

FOOD SURVEY BILL BY HOUSE.

Carries Appropriation for Immediate Investigation of Resources.

Washington.—The administration food survey bill was passed by the house Monday without a record vote. It appropriates \$14,700,000 for an immediate investigation of the country's food resources and for measures to stimulate production. A similar bill is under debate in the senate.

The agriculture department expects to present a fair, accurate estimate of food resources within three weeks after the bill is signed by the president, Secretary Houston said. As soon as the measure becomes a law the department will start its 17,000 employes and the 150,000 voluntary crop reporters to work on the investigation.

Material gathered will be turned over to Herbert C. Hoover, who will be named to head a food administration as soon as the pending regulatory food measure becomes a law.

Italians Fight Nearly All Aus Army.

Washington.—The Italian successes were explained here by the Italian commissioners as gained in the face of practically the whole Austrian army. No Austrians are said to be in France and not many on the Russian or Roumanian fronts. Italy's successes on the Trentino front led to the prediction here that the Austrians will soon launch a huge offensive on the Trentino sector. This will be for the purpose of diversion and is expected to meet with some initial success.

SUMMARY OF WORLD'S IMPORTANT EVENTS

AMERICA HAS ENTERED GREAT WAR WITH ALL HER POWERFUL RESOURCES.

EUROPEAN WAR IN BRIEF

Many Occurrences of Interest and Information Recorded Here in Condensed Form.

AMERICA'S PART IN WAR—

An agricultural army, composed of those disqualified for military service, to use public lands and be advanced money, implements and seed by the government, was proposed in a bill introduced by Senator Lewis of Illinois. Half the crops would go to the government.

A squadron of American torpedo boat destroyers has safely crossed the Atlantic and is patrolling the squadron arrived in Queenstown after an uneventful voyage across the Atlantic, but almost immediately after a formal exchange of greetings with the British naval officials put to sea again for the hard work that is before it.

Four days before the American destroyer flotilla arrived in England Berlin knew it was on the way and to what port it was going and the day before the little vessels steamed into Queenstown German submarines had strewn mines about the harbor entrance. This startling information came to the navy department in a cablegram from Rear Admiral Sims at London.

Owing to the ability of some of the bigger concerns of the United States which, it is claimed, have enormously profited out of the war, to avoid taxation under the excess profits section of the revenue bill, the senate committee probably will adopt the plan followed by Great Britain and lay a tax without regard to the amount earned, based upon the capital stock of such corporation.

WASHINGTON.

Emphatic disapproval of the peace propaganda of European Socialists was expressed by the American government, which denied passports to American delegates to the Stockholm conference and issued a warning that any American taking part in the negotiations would be legally liable to heavy punishment.

The southern department will maintain three camps in Texas for training soldiers of the first cadre to be called under the selective draft, two of the camps having been designated for Leon Springs and El Paso. Fort Worth and Dallas are among the contenders for the North Texas camp. The board is said to have been well impressed by the Dallas claims.

Thousands of unsigned letters urging border residents to fight registration and refuse to be drafted are reaching the border. Many who have received the letters have turned them over to department of justice officials at El Paso. The letters come from portions of Pennsylvania and New York.

Germany is rejoicing in an over-supply of fish, according to reports from Copenhagen, owing to unusually large catches in the waters of the Baltic sea and heavy imports. Fish now are obtainable below the legal maximum price. The potato situation is proceeding from bad to worse.

The Spanish premier has announced the Spanish steamship Begona had been sunk. The Begona was a vessel of 2,862 tons gross and was 805 feet long and had a beam of 42 feet. She was owned in Bilbao.

Perhaps the most remarkable development of the war situation in the Philippines has been the startling unanimity with which Filipino leaders, newspapers and people have taken the American attitude as their own.

A payment of \$75,000,000 has been made to Italy as balance of the \$100,000,000 loan announced some time ago by the United States government.

The war revenue bill framed to bring into the treasury \$1,800,000,000 through new taxation during the coming year, has passed the house by a vote of 329 to 76 in almost the same form that it was presented by the ways and means committee two weeks ago.

DOMESTIC

A severe earthquake was experienced throughout southern California Sunday night. In the town of Brawley the quake rocked a school, where exercises were being held, so severely that a panic was narrowly averted.

Unfavorable weather reports and a strong spot demand last week put the price of cotton on the New Orleans market to the highest levels ever recorded against futures and to the highest levels in half a century against spots. The July position reached 21.37c and in the spot department middling 21.19c.

The lumber town of Bowie, La., was practically wiped out as the result of a fire which originated in the Bowie Lumber company's plant and spread rapidly into the residence section. Property damage was estimated at \$1,000,000. About 30,000,000 feet of lumber, a sawmill, planer and system of drying sheds, all were destroyed.

A Japanese admiralty announcement says that the British troop ship Transylvania, which was torpedoed in the Mediterranean on May 4, was being escorted by Japanese destroyers. The destroyers engaged the submarine. According to the announcement, the Japanese rescued 2,800 out of 3,000 troops on the Transylvania.

FOREIGN—

Americans lately arrived in Switzerland from Germany report the food situation improved because spring vegetables are now available. The Americans expressed belief that Germany will be able to hold out until relief is brought by the next harvest.

Brazil's entry into the war is regarded as a question merely of days. Those who have watched developments closely believe that the sinking of the steamer Tijuca may provide the incident required to place the more pacific members of the Brazilian congress in the list of those willing to vote for hostilities against Germany.

Crow, sparrow and woodchucks constitute the favorite meat luxuries on German tables, according to a physician returning to New York after eight years in Berlin. "Crows cost about 40c each and are considered luxuries," said he. Sparrows retail at about 8c and are greatly relished by the poor. Butter, when obtainable at all, is more than \$2 a pound.

EUROPEAN WAR HAPPENINGS—

"The successes against submarines have resulted in a distinct improvement in our food situation," said Premier Lloyd-George in the house of commons. The premier said more effective blows had been dealt the submarine during the last three weeks than in any corresponding period of the war.

The sinking of 18 merchantmen of more than 1,600 tons, is reported in the weekly shipping statement. Nine vessels of less than 1,600 tons and three fishing vessels also were sunk. This week's figures show that the navies are keeping up the good work of submarine destruction of the previous fortnight.

From Plava on the Isonzo to the Adriatic sea the Italians and Austrians are fighting bitterly and the forces of General Cadorna are still making steady progress, especially on the southern end of the 21-mile front eight miles south of Gorizia. The Italians have driven the Austrians back and taken additional important positions, and added to the number of prisoners, bringing the total now up to 10,250.

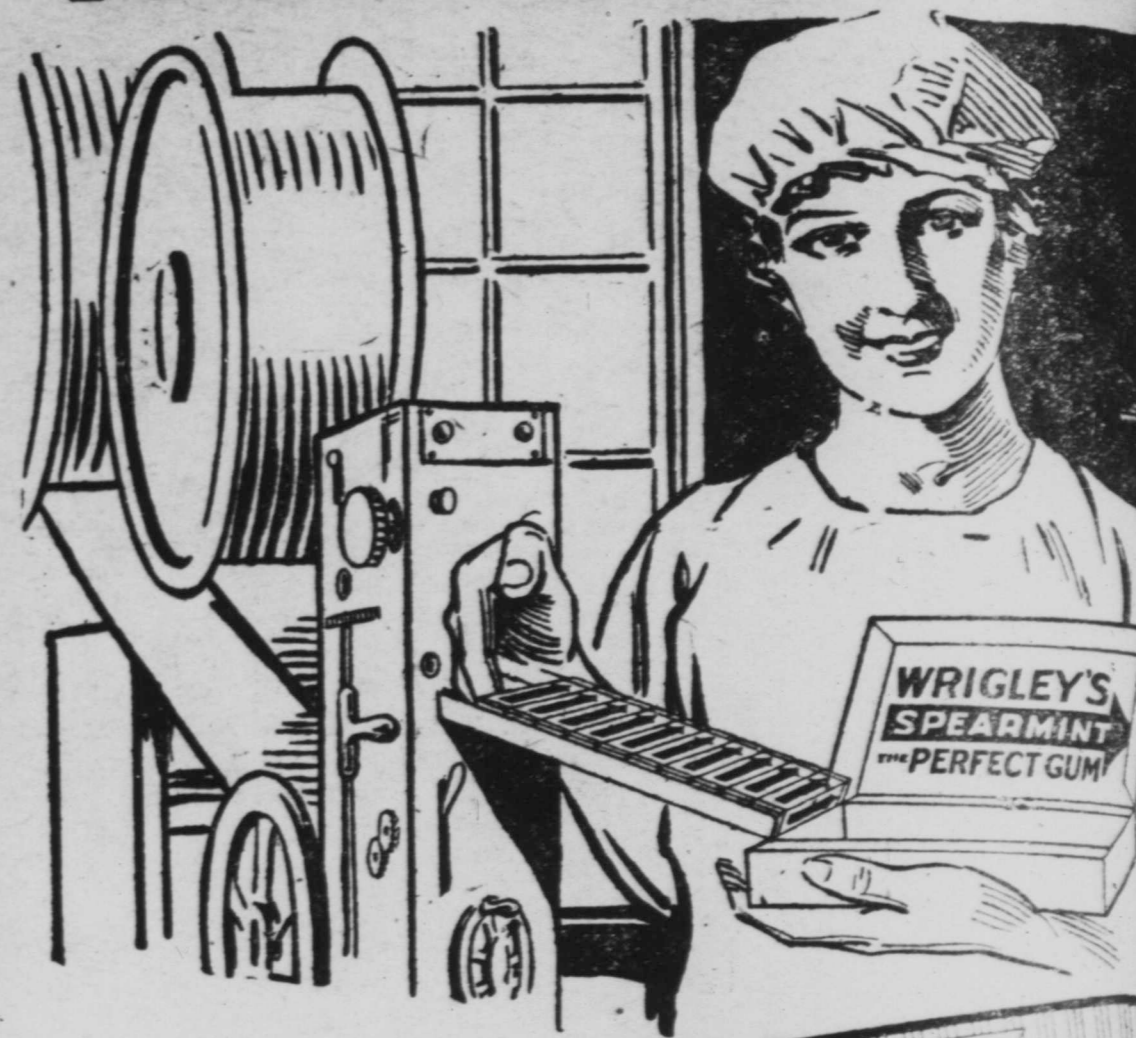

The British transport Transylvania was torpedoed May 4, with the loss of 413 persons.

On a front of nearly ten miles on the Carso plateau, the Italians troops have taken various positions from the town of Castagnavizza to the head of the gulf of Trieste. Not alone were the Italians successful in capturing numerous points of vantage, but more than 9,000 Austrian prisoners, including officers in excess of 300, were taken.

An official report from Petrograd says: "On Tuesday the Germans released a wave of asphyxiating gas east of Lipitza Dolna, north of Galitch, but a change in wind diverted the gas toward the enemy."

The Italian successes were explained by the Italian commissioners to America as gained in the face of practically the whole Austrian army. No Austrians are said to be in France and not many on the Russian or Roumanian fronts.

The average wheat production for Texas for 1910 to 1914 was 11,164,000 bushels. The government estimate for this year, May 1st, is 13,200,000, but for the United States there is a considerable falling off. It looks like Texas will be on deck with her part.

The loving wife sits in her cottage home
And wonders how far and long she will roam
Before she can take her children three
And meet again her loved one and Thee!

Three sisters, too, are left here below,
And it is not for them to truly know
When they shall hear his voice and mother's
Mingled in the sweet chorus with others.

'Tis a beautiful thought we have today
Of how we shall meet in God's sweet way;
It is not for us to know the day or hour
For it will come with His wonderful power.

How sweet it will be when we shall meet,
His father and him at Jesus' feet!
How happy the chorus when we'll see him there
In Beulah Land, so peaceful and fair!

They were chaperoned by Rev. and Mrs. J. H. Walker.

President Proclaims Red Cross Week.

Proclamation.
Inasmuch as our thoughts as a Nation are now turned in a united purpose toward the performance to the utmost of the services and duties which we have assumed in the cause of justice and liberty; Inasmuch as but a small proportion of our people can have the opportunity to serve upon the actual field of battle, but all men, women and children alike may serve effectively by making it possible to care properly for those who do serve under arms at home and abroad; And inasmuch as the American Red Cross is the official recognized agency for voluntary effort in behalf of the armed forces of the Nation and for the administration of relief: Now, therefore, by virtue of my authority as President of the United States and president of the American Red Cross, I, Woodrow Wilson, do hereby proclaim the week ending June 25, 1917, as Red Cross Week, during which the people of the United States will be called upon to give generously and in a spirit of patriotic sacrifice for the support and maintenance of this work of national need.

PROPOSED AMENDMENT TO THE STATE CONSTITUTION, PROVIDING FOR AND RELATING TO THE CREATION OF CONSERVATION DISTRICTS.

Senate Joint Resolution No. 12.
Proposing to amend Article 16 of the Constitution of the State of Texas by adding thereto at the end thereof another section to be known as Section 59, declaring the conservation and preservation of all the natural resources of the State of Texas are public rights and duties; providing for the creation of conservation districts, declaring such districts bodies politic and corporate, defining the authority of such districts, and conferring upon the Legislature authority to pass laws with reference thereto; declaring that the Legislature shall have authority generally to legislate for the purpose of conserving the natural resources of the State; fixing the time for the election for the adoption or rejection of said proposed constitutional amendment; making certain provisions for said election and the ballots thereof and the methods thereof; directing the issuance of the proclamation therefor, prescribing certain duties of the Governor of the State and making an appropriation to defray the expenses of said election. Be it resolved by the Legislature of the State of Texas:

Section 1. That Article 16 of the Constitution of the State of Texas be amended by adding thereto at the end thereof another section to be known as Section 59; and which shall read as follows:

Section 59a. The conservation and development of all of the natural resources of this State, including the control, storing, preservation and distribution of its storm and flood waters, the waters of its rivers and streams, for irrigation, power and all other useful purposes, the reclamation and irrigation of its arid, semi-arid and other lands needing irrigation, the reclamation and drainage of its over-flowed lands, and other lands needing drainage, the conservation and development of its forest, water and hydro-electric power, the navigation of its inland and coastal waters, and the preservation and conservation of all such natural resources of the State are each and all hereby declared public rights and duties; and the Legislature shall pass all such laws as may be appropriate thereto.

(b) There may be created within the State of Texas, or the State may be divided into, such number of conservation and reclamation districts as may be determined to be essential to the accomplishment of the purposes of this amendment to the constitution, which districts shall be governmental agencies and bodies politic and corporate with such powers of government and with the authority to exercise such rights, privileges and functions concerning the subject matter of this amendment as may be conferred by law.
(c) The Legislature shall authorize all such indebtedness as may be neces-

sary to provide all improvements and the maintenance thereof requisite to the achievement for the purpose of this amendment, and all such indebtedness may be evidenced by bonds of such conservation and reclamation districts, to be issued under such regulations as may be prescribed by law and shall also authorize the levy and collection within such districts of all such taxes, equitably distributed, as may be necessary for the payment of the interest and the creation of a sinking fund for the payment of such bonds; and also for the maintenance of such districts and improvements, and such indebtedness shall be a lien upon the property assessed for the payment thereof; provided the Legislature shall not authorize the issuance of any bonds or provide for any indebtedness against any reclamation district unless such proposition shall first be submitted to the qualified property tax-paying voters of such district and the proposition adopted.

Sec. 2. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held for such purpose on the Third Tuesday in August, A. D. 1917, the same being the 21st day of August, A. D. 1917; At said election the vote shall be by official ballot which shall have printed or written thereon the words "For the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government and regulation," and also the words "Against the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government and regulation." All voters favoring this proposed constitutional amendment shall erase the words "Against the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government regulation," and those opposing it shall erase the words "For the amendment to Article 16 of the constitution of the State of Texas providing for conservation districts, the creation of such districts and their government and regulation," which said erasures shall be made by making a mark with pencil or pen through said words. All ballots cast as above provided shall be counted as cast for or against the proposed amendment, and if a majority of the votes shall be for the amendment it shall be declared adopted; if a majority of the votes cast shall be against the amendment said amendment shall be lost. All the provisions of the present election laws as amended and in force at the time said election is held shall govern in all respects as to the qualifications of electors, the method of holding such election and in all other respects as far as such election laws can be made applicable.

Sec. 3. The Governor of the State is hereby directed to issue the necessary proclamation for said election and to have the same published as required by the constitution and laws of the State.

Sec. 4. The sum of Five Thousand Dollars (\$5,000.00) or so much thereof as may be necessary is hereby appropriated out of any funds in the Treasury, not otherwise appropriated, to defray the expenses of said proclamation, publication and election.

C. J. BARNETT,
Secretary of State.

MICHELIN

Notice the curve in which Michelin Tubes Naturally Hang

INSTEAD of being simply a piece of straight tubing cemented at the ends, the Michelin Tube is formed on a circular mandrel in the shape of the inside of the casing. Thus when inflated it is neither stretched on its outer side nor compressed into destructive wrinkles next to the rim. This perfect fit gives the Michelin Tube greater durability and practically eliminates danger of pinching the tube.

The Last Week of District Court

Tomorrow Judge Gibbs of Midland will close his first session of the Reeves County District Court. Much work has been done and we have heard many compliments passed upon our new judge, both by attorneys as well as other of our citizens, who are well pleased with him.

The following were the State cases, and handled as follows:

W. B. Hipp, charged with selling mortgaged property; upon motion of defendant the indictment was quashed and he was discharged.

Jose Villariel, bootlegging; defendant plead not guilty; after part of the testimony was introduced by the State, the jury was discharged by court on motion of the District Attorney and the case continued for the term on grounds that the evidence produced by the State was a surprise; the defendant is to remain in custody of the sheriff.

Jno. Bell, theft of over \$50; jury trial; defendant plead guilty and was sentenced to 2 years in the penitentiary.

Geo. Lyles, jury trial; found not guilty and discharged.

Octaviano Flores, bootlegging; jury trial; found guilty, and given two years in penitentiary. Attorneys gave notice of appeal and his bond was placed at \$300.

Jesse Pitts, murder; upon motion of defendant case was continued to the November term of the Court.

Jno. Bell, Jose. Rios, Ylearris Alitos and Basillo Espion, bootlegging; defendants discharged.

Octaviano Navaretta, Trino Barron, two cases; continued. J. L. Tyler, Mrs. Elizabeth Newell, and Clarence Payne, continued by agreement.

The following other cases were disposed of:

A. S. McChesney vs. J. L. Tyler, et al; T. H. Beauchamp was appointed receiver to succeed O. H. Beauchamp, deceased, for the Southern Land Development Co.

Marian Snow Hudson vs. Jno. E. Hudson, divorce; the same being granted.

Dave Watson vs. J. B. Kynard, to set aside judgment in Cause No. 1353; continued by operation of law.

John J. Bush vs. Toyah Valley Irrigation Co., et al, injunction; continued until next term of court to make the proper parties to suit.

Mrs. J. L. Moore vs. Toyah Valley Irrigation Co., et al; continued by agreement.

Pecos Valley State Bank vs. El Paso Realty Co., First National Bank of Pecos, O. J. Green, C. W. Goedeke and H. Robbins, all garnishment; all five cases dismissed upon motion of plaintiff.

W. C. Welborn vs. H. T. Collier, et al, suit for damages; continued until next term.

John Lopo, D. H. Bone, O. J. Green vs Ward County Irrigation District No. 1, three cases, damages; all continued.

Mrs. B. Kiser vs. T. A. Ezell et al, injunction; motion of defendant to dissolve the injunction was overruled and the case transferred to Ward county, being set for June 11, 1917.

W. R. Ramsey, vs. Fred Brasted, et al, suit on note and foreclosure; J. A. Drane appointed to represent defendant; judgment for plaintiff in the sum of \$23,389.05 and costs.

Newman Eastman vs. A. B. Heath, et al, suit on note and foreclosure; jury trial, judgment for plaintiff; motion for new trial overruled; both parties gave notice of appeal to the Court of Civil Appeals at El Paso.

Messrs. B. G. Smith, W. K. Wylie, R. E. L. Kite and son, Vesey, and I. T. Kesler and son, George, were out several days last week on a fishing trip up the river and report having very good luck, catching quite a number of fish.

Drummond Makes a Large Shipment of Wool

W. H. Drummond, one of Pecos' hustling hide, fur and wool buyers handled the wool clip of Means & Evans this week, which amounted to over 10,000 pounds, and the prices were entirely satisfactory.

Mr. Drummond purchased the clip then sold and shipped it out to Goodloe & Nornhauser, at Carlsbad, N. M., Thursday. He received some more yesterday which he will ship out later. He is pushing his business along the different lines. Success to him is the wish of *The Times*.

"Liberty Loan" Meeting Held Last Saturday Night

Quite a number of our patriotic, substantial citizens met at the court house last Saturday evening, pursuant to the call of Jas. F. Ross, County Judge, who called the meeting to order.

Upon a motion, F. W. Johnson was elected chairman, who stated the object of the meeting to those present.

After a thorough canvass of the matter in hand, during which many present expressed their views, the chairman was instructed to select a committee consisting of all the banks in Reeves county to solicit buyers for the "Liberty Bonds."

Took 300 Cows to Barstow

Yesterday E. P. Stuckler came in with 300 head of cows from the U ranch which were taken over to the Barstow country this morning where they will be pastured on alfalfa.

They were loaded on the P. V. S. train at Saragosa, and Ed informed us that they expected to bring in about 1500 head more.

B. Y. P. U.

On Sunday, May 27 the Union was called to order by the president, B. M. Mims, and Mrs. T. Y. Casey was introduced as leader for the evening. The program was an unusually interesting one. Miss Marie Grafius rendered Schuman's "Tramerue" in a very pleasing manner. Mrs. Casey then addressed the Union, and in her most pleasant style told of her recent trip to New Orleans where she and Mrs. Sid Kyle recently attended the Southern Baptist Convention.

As Mrs. Casey talked, once again she landed on the beach of the Mississippi River, taking her auditors with her. We crossed this mighty stream of water on the canal boat, took a touring car and went up Canal Street, which divides the French town from the New Town, first seeing the sights of the New Town, after which the French Quarter was visited.

Old historic New Orleans is one of the most interesting cities in America.

The young people were delighted with Mrs. Casey's vivid description, and regretted the time was too short for a full description of her trip.

Misses Nannie Mae and Warren Collings, accompanied by Miss Collings, sang "At Even Tide." Their sweet young voices blended in beautiful harmony. This selection was a fitting finish to the evening's service.

Following is the program for Sunday, June 3rd:

Song.
Roll call, answered with quotations from Milton.
Scripture reading.
Biography of Milton, by Puena Mae Howard.
Reading of a selection from Milton's "Paradise Lost," Mary Lee Richburg.

The influence of the Bible on Milton's writings, Bro. Key.

Ray Camp came home last Saturday from Midland where he had been teaching in the Christian College the past year. He visited in Pecos for a few days with his mother, Mrs. Jo Camp, and other relatives and friends, and left yesterday for Alpine, via, auto, where he has been engaged to teach in the Summer Normal at that place. His brother, Jo drove him over, going by way of Fort Stockton.

The families of H. L. Magee, D. J. Moran, and O. A. Roberts accompanied by two fishermen of reputation, "Dad" Baker and "Uncle" Joan Pröwit, had a pleasant outing up the river Tuesday evening, camping at the Barstow dam. The high wind, which kept up all night made fishing disagreeable, but did not detract from the pleasure of the outing. One fish a 7-pounder, caught by "Dad" was the net result when the three families decided to return.

Mrs. J. W. Daniel of El Paso, arrived Tuesday for a visit of two weeks with her brother, E. L. Collings, and sister, Mrs. Ed Vickers and families. Her daughter, Mrs. Annie T. Miller, who has numerous friends in Pecos accompanied her this far being on her way to Norfolk, Va., where her husband is in the Naval Training Camp, having been in Panama where recently from one of the passenger boats in the canal between Colon and Panama.

Honlan DuBose and C. F. Noquin, of El Paso, spent several days in Pecos the past week visiting with Honlan's aunt, Mrs. Haygood, and other relatives and friends. They motorcycled down, nearly to Pecos, having to walk in about twelve miles on account of a broken chain. They had a twin cylinder attached. They left Tuesday on their return. Honlan was a Pecosite when a little fellow, and met up with many of his friends who were pleased to see him again.
