Letter From M. L. Swinehart, Korea

Sends Us Copy of Native Paper On Which We Seek Light From Some of Our Language Students

The following letter was received this week from M. L. Swinehart, who is well known in every part of Reeves county. The paper may have six pages for all The Enterprise man knows. It is printed in Chinese, supposedly, and if some one would inform the editor which is the fifth page, he might be able to read it, but not being able to ascertain this will not read any of it. The paper is now on exhibition in The Enterprise office and if any of our readers care to peruse its pages they are welcome to do so.

The letter follows:

Editor Pecos Times, Pecos, Texas.

Dear Friend:

I am enclosing a copy of the Union newspaper published in Korea, by the Methodists and the Presbyterians, and of which I am one of the editors. I thought you would enjoy seeing the kind of paper we issue, and if you are agreeable I will be pleased to place your name on our exchange list if you will return the compliment.

We have over 4000 circulation, and the price is one Yen, or 50 cents per year. The paper is self supporting, as we made it pay out last year. In the face of the advance in paper and cost of printing.

Hoping all is well with the Pecos Valley country for which I have a very soft spot in my heart, and hoping to visit there next year when we return to America on our regular furlough, after seven years in the Orient, I remain,

Faithfully yours,

M. L. SWINEHART.

Practically all the fifth page is from copy I furnished. Can you read it?

Over Subscribed to Second Liberty Loan

News That Our Boys Were in The Trenches Gives Impetus to Move. \$5,000,000,000 is Reached

The second Liberty Loan is a grand success. This is the news that comes from Washington, with the further statement that the call for three billion has been oversubscribed by two billions of dollars.

The nation-wide thrill at the news that our boys had at last entered the first line trenches in France was the impetus needed to push the loan over the five billion mark.

A SURPRISE PARTY

A number of William Kerr's friends, in mask costume, met at his home Wednesday night and enjoyed various kinds of games and tricks in keeping with the day. A feast of delicious apples was enjoyed.

Rushing Cars to Texas and New Mexico

Cars from Eastern Roads Being Requisitioned in Effort to Move Cattle from Drouth Territory

Washington, Oct. 30.—The drouth conditions in the southwestern part of Texas are spreading into New Mexico and rapidly becoming serious, according to a statement of the food administration.

Drastic action is necessary to save the livestock in that section and upon the representations of the food administration 1500 stock cars have been requisitioned from the Illinois Central, Chicago, Burlington & Quincy, and Missouri Pacific railroads for movement to the territory. Additional cars will be requisitioned and sent forward as fast as practicable.

Some time ago the situation became acute along the lines of the Texas & Pacific and the Kansas City, Missouri & Orient railroads, with no cars obtainable in the west to get the cattle out of the country into sections where water and feed could be found for them.

About 1500 cars were then taken from the eastern section of the country furnished by the Pennsylvania, Wabash, Chicago, Burlington, & Quincy, Milwaukee & St. Paul and the El Paso & Southwestern lines.

Less than forty hours elapsed after the food administration received word of the deplorable conditions before the cars were moving into Texas.

These cars are now beginning to arrive, although much delay is being caused by the fact that these cars coming through the quarantined sections east are required to be cleaned and disinfected at Baird before coming farther west. Owing to the fact that only twenty-five or thirty of these cars can be treated per day, the men are still held from shipping their stuff to better pastures.

RED CROSS BENEFIT IS SUCCESS

The entertainment at the Opera House Monday night by the Euterpean Club, for the benefit of the Red Cross, was well attended and is pronounced one of the very best entertainments of the season.

The players, composed of home people, each and all of them, showed they had been well trained and were well adapted to the parts assigned them.

THE WEATHER

The weather? How's that? We don't have such a thing here, no three bob or tee, every day, each day, all days the sun, rises in a clear, cloudless soft blue Italian sky, the kind that artists the world over are so fond of depicting in their most famous pictures. All day long the sick, the feeble, the bum, the lazzaroni of Pecos, as well as the artisan, the laborer, the banker can bask in the soft warm rays that Phoebus so kindly and lavishly bestows upon us, and need no other fire.

War Taxes in Effect From November 1st

All Phases of Transportation Affected By New Law. Post Yourself and Don't Cuss the Agent.

Beginning yesterday the war tax on every phase of transportation, and everything connected with the railroads went into effect. All tickets less than 35 cents are immune from the tax, while tickets above that rate are subject to the tax rate of 8 per cent of the amount.

A circular issued by the Texas and Pacific Company gives full details of the tax, the laws governing same, and classes or service taxable. These can be had by those wishing to post themselves on the law which, by the way, is not of the company's making. It will save much time and annoyance, and will lighten, considerably, the cares of the various agents.

A few of the statements in the circular are as follows:

A tax rate of 3 per cent on freight charges as follows:

Will apply on all shipments tendered for transportation on and after the 1st day of November, 1917.

Will apply on all shipments offered for transportation previous to November 1, where the transportation is not completed until on or after that date, unless the transportation charges are actually prepaid prior to Nov. 1.

The tax will be assessed upon all charges published in tariffs for transportation or service incidental thereto, as defined in Sec. 1 of the Act to Regulate Commerce, which reads as follows:

"The term 'transportation' shall include cars and other vehicles and all instrumentalities and facilities of shipment or carriage, irrespective of ownership, or of any contract, expressed or implied, for the use thereof and all services in connection with the receipt, delivery, elevation and transfer in transit, ventilation, refrigeration, or icing, storage and handling of property transported."

The tax applies to shipments moving between points in the United States.

A tax of 8 per cent of the amount paid either in money or mileage scrip, with the following exceptions:

No tax on commutation or season tickets for trips less than 30 miles.

No tax where the fare does not exceed 35 cents.

No tax on round trip tickets purchased prior to Nov. 1, where return portion is not used until after that date.

A tax of 10 per cent of the amount paid for seats, berths or staterooms in parlor cars or sleeping cars.

On express shipments there will be a tax of 1 cent for each 20 cents or fraction thereof, of the amount paid on same. This will be applied in the same manner as the tax on freight charges.

MEXICAN JUSTICE ON THE BORDER NEAR DOUGLAS

John Skelton has recently returned from a visit to Douglas, Arizona. He gives a very interesting account of that section of the country. Very few of us know that one side of the main street in that town is the American city of Douglas, and the opposite side is the Mexican town of Prieta.

Mr. Skelton gives a very graphic account of the summary administration of justice in Mexico. A few days before he left a Mexican girl had killed her mother, and was at once arrested, carried to the judge or Jeffe, who heard the evidence, sentenced her to be shot immediately, which was done. No jury, no lawyers, no expense. From the commission of the crime to the execution was a question of only a few hours.

COLLIE PREWIT MOVES TO NOGALES, ARIZONA

J. C. Prewit, familiarly known as "Collie", has moved to Nogales, Ariz., where he is now in the automobile supply and garage business with his brother, Jim. All of the old-timers remember when these gentlemen were mere boys and came here with their father, Uncle John Prewit, in the winter of 1890 and 1891.

Don't be too common. It's the uncommon man who causes the world to sit up and take notice.

A Visit to the Oil Fields North Toyah

Editor is Impressed With Indications Favorable of Gusher in Near Future. Gas Pressure Heavy at 135 Feet

Through the courtesy of C. R. Troxel, the editor on Saturday night, accompanied him and Mr. Yates to Toyah in the Ford car of the former. Sunday morning, in company with the above gentlemen and Mrs. Troxel, he visited the oil and gas well a short distance north from the old Texas Company well No. 1, in the Toyah oil field. Long before reaching the well, the wind at this time blowing toward us, the smell of gas was strong indeed, too strong for the comfort of the visitors. There is a continuous roaring or growling in the well, which at times can be heard for some distance. To give a faint idea of the pressure of this gas Sunday, a bucket turned over the well with a man standing upon it was insufficient to hold in the gas. The well was then about 135 feet.

This well at this depth is showing strong indications of oil and the flow of gas is said to be growing stronger as the well goes down. Several stratas of gas have already been cased off.

Many people of Toyah and Pecos are interested in this well and are watching the outcome with great interest and anxiety.

The day was spent pleasantly and after hearing a splendid sermon by Rev. B. G. Richbourg at the Baptist church Sunday night, the editor returned home on the early train Monday morning.

LIBRARY REPORT

The members of the library board wish to express their thanks for the generous response made to the people for books and magazines for our soldier boys in the Texas training camps. Thanks are due Mr. Hibdon also, for the generous amount of advertising space given in these columns for several weeks. The house to house canvass would not have been the success it was were it not for the very business-like committee of boys and girls from the Pecos high school. Two large boxes have been sent to El Paso and a letter received from Mr. Klaerner, the State Librarian, says that every good book and magazine donated helps that much, and is gratefully received.

Several requests having been made for a comprehensive history of the war, "The Elements of the Great War" by Hilaire Belloc, (6 volumes) has been ordered and the two first volumes received. These deal with the remarkable differences between the French and German strategy, the secret preparations of the Germans for three years before the conflict, and the momentous issues involved in the violation of the neutrality of Belgium.

The following books have recently been received:

"Long Live the King," by Mary Roberts Rinehart.

"1000 Ways to Please a Husband," by Louise Weaver.

"Sunny Slopes," by the author of "Prudence of the Parsonage."

"Temperamental Henry," by Samuel Merwin.

"Martie, the Unconquered," by Kathleen Norris.

"Neighbors Unknown," by Chas. D. G. Roberts.

"Kings in Exile," by Chas. D. G. Roberts.

"The Bears of Blue River," by Chas. Major.

"Four in Camp," "Captian of the Crew," and "Behind the Line," by R. H. Barbour.

HALLOWE'EN OBSERVED HERE

Wednesday night was Hallowe'en in Pecos the same as in every other hamlet and city in the county. There were several parties honoring the occasion and ghosts, large and small, were to be seen all over town. The usual number of pranks were played and many drays, empty tanks, closets and in fact most everything loose at both ends had to be hunted up by the owners Thursday morning.

The festivities continued until a late hour and all hands, apparently, had a most delightful time.

Geris, remember, that a husband worth having is worth taking care of.

The Carnegie Library Association met in regular monthly session at the library building Thursday afternoon. The president, Mrs. W. R. Hankins, presided. SELLS CAR OF HORSES

Uncle John Prewit returned Saturday from a trip to East Texas, near the Louisiana line. He carried a car of horses there and had no trouble in catching them in. Mr. Prewit says the people raised fine crops in that section of the country this year and are simply "lousy" with money.

Serious Accident on Farms Road Monday

Car Being Towed to Pecos Overturned Severely Injuring Occupant. Car is Wrecked in Hishap.

W. W. Brookfield, stockman of the Leeman neighborhood in Loving county, happened to an accident Monday which came near ending his life, when his car turned turtle on the road this side of Hugh Roberson's place, north of town.

Mr. Brookfield was on his way to Pecos when his car got out of commission and before he got it in order, Bob Majors came along, took in the situation and they tied the disabled car to Mr. Majors' car to drag it into town. After starting up, he felt a severe jerk on his car and turned to look back and saw the trailer upside down, and Mr. Brookfield lying on the ground, nearly apparently dead. Mr. Majors hurried to the sanitarium with the injured man and the physicians summoned. At first it was thought that his neck was broken and the physicians in charge placed his neck and head in a plaster cast. At this writing, Thursday, Mr. Brookfield is doing quite well and able to talk when spoken to. His wife and little child are now with him. The surgeons are quite hopeful as to his ultimate recovery.

THE RED CROSS CALLS

The Red Cross earnestly appeals to every woman in Pecos to come see for our soldiers.

Only last week we answered a Red Cross call and immediately sent our last finished garments—only 2 dozen each of pajamas, ice caps, ice bags, operating coats, and other necessary articles. We have on hand dozens of cut garments, ready to be made. The few who have so faithfully served the past two months must have help—this isn't work for a few, it is the work for ALL.

Our brave, noble boys are today in battle in France, in those horrible trenches, the very thought of the makes our very life blood run cold. They are there in place of yours and mine; they are in rain, and mud above their knees, all day and night, and in a very short time will be standing in frozen trenches. WE MUST SEW AS WE NEVER HAVE SEWED! WE MUST WORK AS WE NEVER HAVE WORKED! Put on your thimble, make it your emblem of National defence. Fill the library basement overflowing, make the air fairly ring with the hum of those machines. "So little that we are asked to do compared with the sacrifices of our nobles. Come, join, one and all. Help to lessen their sufferings, help to make them warm, comfortable garments help to send aid to them when they are flying and bleeding. Deem it the sweetest privilege your country offers you—to serve Our Soldiers and Our Flag.

Sewing days, Wednesdays, Thursdays and Saturdays, 3 to 5 o'clock. Mrs. C. C. Prewit, president.

Trial of Negro Soldiers Began Yesterday

Sixty-Three Blacks to Face Court Martial in San Antonio; 111 Will Be Tried in El Paso

Sixty-three negroes, all of whom are said to have confessed to complicity in the Houston rioting on August 23, when 18 persons lost their lives, will be tried by court martial in Fort Sam Houston post chapel on November 1. Among the court martial officers who will try the cases are: Col. S. R. H. Tompkins, Seventh cavalry, from Fort Bliss; Col. Geo. E. Stockle, Twelfth cavalry, Columbus, N. M.; Lieut. Col. J. J. Hornbrook, Seventeenth cavalry, and Col. DeR. C. Cabell, Tenth cavalry from Douglas, Arizona.

Gen. George K. Hunter, Fort Riley, Kans.; Gen. Joseph Gaston, Ninetieth division, Camp Travis, Texas; and Gen. R. A. Richards, Thirty-second division, Waco, Texas, are the three brigadiers who will head the court.

Col. E. A. Millar, Third field artillery; Col. A. C. McComb, Fourteenth cavalry; Col. H. Freyer, Thirty-fifth infantry; Col. C. J. Manly, medical corps; Lieut. Col. Charles J. Hymon, Sixth cavalry; Lieut. Col. C. B. Meyer, Fourteenth cavalry, are the officers assigned to the duty. Col. J. A. Hull will be judge advocate, and Col. D. V. Sutphin assistant judge advocate. Maj. Harry S. Grier has been named as counsel for the defendants.

For the negroes who have confessed there is a likelihood that they will not share the extreme punishment as the rioters who refused to talk, but who are known to have been among the leading spirits in causing the outbreak. A separate court martial will be held at Fort Bliss and Columbus for the 111 negroes who have been obstinate in telling about the case, and others who were merely forced to accompany the rioters or who have told conflicting stories about the affair. Maj. Homer N. Preston will be the judge advocate in the trial at Fort Bliss.

MAN TROUBLED FOR TWO YEARS

No one should suffer backache, rheumatic pains, stiff joints, swollen, sore muscles, when relief can be easily had. MUST WE DRAFT VOTERS?

Ninety-eight Texas counties failed to make any return to the state canvassing board for the special election of August 21, involving constitutional amendment. It does not seem possible that one or more of the provisions specified in the amendment failed to apply in so great a number of counties. In recent years the disposition to ignore certain elections involving state-wide provisions and importance it is becoming more and more apparent. Are we falling into a habit of slacking where action is desired?—Fort Worth Star-Telegram.

Texas has long been a slacker when it comes to voting either in general or special elections. The recent election does but emphasize the general disposition to evade responsibility in governmental affairs. We shall probably come to a time when voting will be compulsory and when county officials will be severely punished for failure to hold an election or to announce its result.—Houston Post.

SOLDIER BOYS REGARD Y.M.C.A. AS GODSEND

PROVIDES SUBSTITUTES FOR HOME LIFE—GOOD CHEER, SOCIABILITY, CLEAN LIVING.

Texas Boy Says Can't Resist Writing Mother and Home Folks With Materials Furnished.

One of the most humanizing organized activities of war time is the work of the Y. M. C. A. in army training camps, in prison camps and in camps behind the firing line. Wherever your boy and the other boys may be sent that big organization will be close beside them with its tonic atmosphere of good cheer, sociability and clean living.

Can't Resist Writing Home. Any one of the 75,000 Texas boys in the cantonments, or any one of the "Sammlies" in France, would tell you the same thing this Texas boy wrote to his folks at home:

"I feel as if you ought to know something of the work of this life-saver—the Y. M. C. A. Since the 'Y' shack was opened, the Mess bar and Bill's place are pretty well deserted. If you have loved ones at home, you just can't resist the open ink bottles and the pens and paper. It makes you ashamed to think that the 'Y' is more interested in your loved ones than you are. It hands you out religion in doses a man can take. It tightens up the halter that gets loose when a man gets away from home. Who pays? I don't know, but whoever it is, God bless them. They are the fathers of thousands of boys."

Look to Y. M. C. A.

President Wilson, Secretary of War Baker and Secretary of Navy Daniels are looking to the Association to afford them wholesome recreation, opportunity for study, substitutes for home life and manifold other comforts and necessities. The Y. M. C. A. program is designed to do just this thing for our boys from the time they enlist right up to the firing line—for they must die clean or come back straight if the yearnings of hundreds of thousands of homes are to be realized. To provide these few touches of home, whatever be the money cost of doing so, is in reality an insignificant service compared to the sacrifice these men are making for us.

Texas to Help Generously.

Texas is expected to give more than the \$400,000 allotted as her share of the \$25,000,000 national Y. M. C. A. war work fund to be raised in the campaign from Nov. 11 to Nov. 19.

 BEVO BEVERAGE

You've enjoyed it at restaurants and other places—now you want your family and your guests to join you in the same pleasure. That's one of the joys of serving Bevo—to hear your guests say how good it is—then to listen to their arguments as to just what it is. If they haven't seen the bottle they'll all agree that it is something else—if they have seen the bottle each will have a different explanation for its goodness.

Bevo is nutritive—pure through pasteurization and sterilization—non-intoxicating, wholesome and thoroughly refreshing. Note—Bevo should be served cold.

Y. M. C. A. KEEPS THE HOME FIRES BURNING

THIS COUNTY WILL TAKE PART
IN STATE CAMPAIGN FOR
\$400,000 WAR WORK FUND.

Texas War Work Council, Organized,
Will Send Executive Secretary
Here for Campaign.

To keep the home fires burning in
the hearts of the 100,000 American
troops in France during the long,
cold winter that faces them in the
trenches and to preserve the high
moral and social life of the 1,700,000
men under the colors at home, the
Young Men's Christian Associations
of America are raising a national
war work fund of \$35,000,000.

This County to Aid.
Texas has agreed to give \$400,000
to this amount, and this county has
been asked to do its part in the
campaign.

At an organization meeting of the
Texas War Work Council in Dallas
recently, at which practically every
county in the state was represented,
the following men were named as
members, with Rhodes S. Baker as
chairman, and L. A. Coulter of Dal-
la, as state campaign director: H.
H. Simmons, Hillsboro; R. E. Burt,
Houston; E. R. Brown, Dallas; W.
C. Paige, Houston; W. S. Mosher,
Dallas; C. A. Nichols, Georgetown;
James Kapp, San Antonio, and J. P.
Milligan, Fort Worth.

A district executive secretary will
be sent to this county in the inter-
est of the campaign which will start
Nov. 11 and continue through Nov.
19.

Keep Home Fires Burning.
Millions of soldiers each month
thank God for the friendly Y. M. C. A.
centers as a relief from the hard
cold life of the camps and trenches.
But it takes millions of dollars to
continue and to extend this vital
home touch—to keep these home fires
from breaking.

\$35,000,000 Apportioned.

It is proposed to distribute the
\$35,000,000 to be raised as follows:
For work with U. S. army and
navy men in this country, \$11,130,-
000; for work with U. S. army and
navy men overseas, \$11,594,000; for
Y. M. C. A. work in the Russian
army, \$3,305,000; for Y. M. C. A.
work in the French army, \$2,449,000;
for Y. M. C. A. work in the Italian
army, \$1,000,000; for work among
prisoners of war, \$1,000,000; for ex-
tension work, \$3,832,000.

LIKE AN ELECTRIC BUTTON ON THE TOES

Tells Why a Corn is So Painful and
Says Cutting Makes
Them Grow

Press an electric button and you form
a contact with a live wire which rings
the bell. When your shoes press
against your corn it pushes its sharp
roots down upon a sensitive nerve
and you get a shock of pain.

Instead of trimming your corns,
which make them grow, just step into
any drug store and ask for a quarter
of an ounce of freezone. This will
cost very little but is sufficient to re-
move every hard or soft corn or cal-
lus from one's feet. A few drops ap-
plied directly to a tender aching corn
stops the soreness instantly, and soon
the corn shrivels up so it lifts right
out, root and all, without pain. This
drug freezone is harmless and never
inflames or even irritates the sur-
rounding skin.

Dumas, Texas, was visited by a snow Monday night and the weather reported the coldest experienced there in October for several years.

Maise and kaffir are now the highest price of any feed on the markets of this city. Many are feeding wheat to their poultry and consider it the cheapest feed on the market for that purpose.

Ice has been plentiful in the water troughs and exposed places in Reeves County this week. Really it has been several years since this county has experienced as cold weather in October as it has this.

Ohio is billed for a state prohibition election on November 6. On that date the people of that state will also vote on the question as to whether women of the State will be permitted to vote for presidential electors.

The prohibition election in Tom Green county resulted in continuing that county in the wet column by 85 votes. It is believed the pros will contest the election. One of the city boxes in San Angelo gave the antis a majority of 93 votes and it is this box the pros are planning to contest.

Atlantic coast steel ship builders in conference with government officials in Washington this week declared the labor shortage presents a serious menace to the National ship building program and that the merchant tonnage will be seriously impeded unless 300,000 laborers can be drawn from other industries.

Mayor Kirby of Abilene, answering Col. Roosevelt's unpatriotic criticisms of the government, in the Star-Telegram, simply skins the Colonel to a finish. Col. Roosevelt is very much like a good many other people the world over. Nothing is ever done right unless he either did it himself or had a hand in it. The Colonel is still the "big stick," especially in his own estimation.

A post card from Ben Warner which contains a view of a company of men on the target range with Ben in the forefront, came to the editor this week and reads as follows: "First platoon 6th Co. on target range. Not fired yet, but have my fingers crossed. Sixteen went up to the benzine board today. We are ragged but around here, 5:30 a. m. to 10 p. m. Nothing to do till tomorrow."

The suit brought against the Ford Motor Company and Henry Ford by John F. Dodge and Horace E. Dodge to compel Ford to disburse accumulated dividends to the stockholders instead of using the money to increase the company's business was decided in favor of the Dodge brothers. The Dodge brothers, who are stockholders of the Ford Motor Company, attempted by injunction to prevent Ford from using his company's profits to erect great blast furnaces at River Rouge, near Detroit. The State Supreme Court allowed Ford to begin building provided he furnished a bond to protect the company's stockholders from loss in case the Dodge brothers won their suit. The bond was furnished, and the work was started. Ford in a statement made some time ago and in his testimony at the trial of the suit, declared that he would appeal the case if the lower court's decision was against him. It was charged by the Dodge brothers at the trial of their case that Ford was supreme in directing the business of the Ford Motor Company and that the minority stockholders had no voice in the affairs of the company. Ford denied this charge. About \$60,000,000.00 are involved in the suit.

Criticism of usual attendance at places of amusement and diners as usual at restaurants is beginning to be heard in the land. The intensively serious would put out the lights at the theatres and discharge the cooks at the cafes. All because of the war. War is the most serious business that can come upon a people, but people may be entertained and served without putting a large dent in their patriotism. England has been in this world war since the first gun was fired, and the Britisher has piled sacrifice upon sacrifice. Yet the London Globe in reporting a recent air raid tells of a large audience in one of the

big music halls being kept in "happy ignorance" of what was transpiring by the coolness of the artists and the management. At the time while "dinner was in progress" at the Ladies' West End Club a crash was heard, but the function proceeded and "while guns were booming the toast of 'The King' was proposed and enthusiastically responded to." There is more at hand to be considered in this country of ours than working up a high pressure of critical wrath for those who would seek recreation and even a chop and toast as usual.—Star-Telegram.

The Telegram is dead to rights, True, we should be economical and "save the waste," but no occasion has yet arisen to justify a diet of dried apples and water.

HALLOWE'EN PARTY

A delightful Hallowe'en party was given by Irene Andrews at her home in Toyah Wednesday evening, honoring her many friends. The home was decorated in Hallowe'en symbols, and jack o' lanterns in every nook and corner, shed a weird light upon the surroundings. Many mysterious and hair-raising games were enjoyed, also ducking for apples, fortune telling, and a huge bonfire over which all toasted marshmallows, and indulged in an Indian waltz.

Refreshments consisting of pumpkin pie, salmon croquettes, creamed potatoes, sandwiches and coffee were served at 12 o'clock after which the ghosts disappeared. The young hostess was assisted in entertaining her guests by her mother and Mesdames J. B. Young and C. C. Cargill.

SEVENTH GRADE ENTERTAINED

Miss Frances Hubbard was hostess to the Seventh Grade at a delightfully appointed Hallowe'en party Wednesday night. All were masked and the decorations were in keeping with the occasion. Such games as Winkum, Towel race, Ring, grabbing suspended apples, and disappearing ghosts were played and thoroughly enjoyed. There was also a gypsy fortune teller that added much to the fun of the occasion. Punch and sandwiches were served and at ten o'clock the weird ones, chaperoned by Miss Dyer, and Miss Tomlinson, and Mr. Hayden and Mr. McCaslan went out and played Hallowe'en tricks on their neighbors and friends.

Juniors Entertain Seniors With Progressive Luncheon.

A unique and altogether delightful social fete was the result of days of mysterious whisperings on the part of the Juniors, and curious wonderings on the part of the Seniors on last Friday night.

At 7:30 p. m. the Junior class, chaperoned by Miss Byrdie Tomlinson, met at the home of Irene Prewitt, where they greeted each Senior separately in a darkened hall with muffled voices, tying their hands behind them and blindfolding them. Without further warning the frightened Seniors were marched up and down streets, into culverts, etc., until they were utterly confused, and then thrust into cars, and whirled away to parts unknown, amid numerous protestations.

Upon arriving at their destination, the home of Miss Ora Pruett, their blinking eyes beheld spread for them the first course of a progressive supper, fruit cocktail. Mrs. Butler rendered a vocal solo while the guests enjoyed the feast. The next course was cream of pea soup, served at the home of Miss Aileen Love, and from there they went to Miss Alice Hankins' to enjoy creamed chicken on toast.

The fourth course consisted of fruit salad with saltines, punch, and marshmallows, served at the home of Edward Warn. No sooner was this delicious course finished than all proceeded to Miss Jewel Cowan's where all partook of cream and cake.

The color scheme of green and white, the Senior colors, was very effectively carried out in the menu and throughout the entire luncheon. Music and games were in order during the evening and when time to disperse came all left with a sigh of regret and many pleasant memories of a warm spot in our hearts for the Juniors of the Pecos high school.

The Seniors agreed that they would have to "dig some" to be able to compare with the Juniors when it comes to entertaining.

Delightful economy

Oh—that sinking of the heart, when you look in your ice-box and see the tiny dab left from yesterday's pound of butter!

As a matter of fact, you would probably not be using butter for cooking nowadays, if you could get the same delicious results without it.

You can. Yes—without a particle of butter!

Here is the way: Use wholesome, economical Cottolene for your fine cooking, in place of expensive butter.

In purity Cottolene has set the highest possible standard for shortenings.

Try Cottolene in any familiar recipe. Use one-third less than you would use of butter.

You will find that shortenings which seem cheap, when scooped out by the pound, are often more expensive than Cottolene in actual use.

Why

Because many careful housewives have found that Cottolene—owing to its superior richness—goes much farther than other shortenings which they had been using.

Try Cottolene next time. It is sold by grocers in tins of convenient sizes.

Recipe for MOLASSES COOKIES

- 1 cup molasses
- 1 level tablespoon ginger
- 1/2 cup Cottolene
- 1/2 level teaspoon soda
- 1/2 cup sugar
- 1/2 cup cold water
- 1/2 level teaspoon salt
- 3 to 4 cups flour

Heat molasses, pour over Cottolene. Add sugar, salt and ginger or a mixture of other spices if preferred. Dissolve soda in cold water and add to first mixture. Stir in flour, making a soft dough to drop from spoon, or a stiff dough to be rolled and cut. Bake in moderate oven.

THE MOUTH

The mouth is the front door of the face. It is the aperture to the cold storage rooms of your anatomy. Some mouths are pictures of peaches and cream and others look like a hyscopped in a brick wall with a hoe, to admit a new door or window. The mouth is the hotbed of toothache and the place to keep your tongue. A mouth was never made too small, but some are so large that their owners have to walk backwards to keep from stepping on them. A mouth is the doorway out of which comes beautiful words of hope and courage, and through which passes cold, mustard and kraut, coffee and whiskey. Some people sleep with their mouth adjusted for kissing, while others drop them sufficiently ajar to admit a railroad engine or a Hughes Springs camp meeting. The mouth is the hangout of oratory and a baby's crowning glory; it is the crimson aisle to your liver and nature's apparatus for blowing out gas; it is the preacher's fountain head and a tool chest for pie. Without it the auctioneer would be a wanderer upon the face of the earth and the loud mouth of the street car conductor and the chorus girl would go down to unhonored graves. A mouth is the grocer's friend, the orator's pride and the dentist's hope; it puts some men on the rostrum and many on the rock pile. It is temptation's lunch counter when attached to a maiden and the tobaccoist's best friend and the cigarette dealer's long suit when attached to a man. It has ruined many a young man's prospects and caused his best girl to weep; without it a Methodist campmeeting would be a lifeless affair; when the penitent friend went to the front the congregation would have to stand on their heads to show their delight and give vent to their feelings; without it married life would be a perpetual dream, and a dude would lose half of his attraction. Greatest of all, if there were no mouths there would be no sweet good-byes or happy greetings between a fellow and his best girl; no words of comfort or of hope; no laughter full of sunshine and no songs of praise. The poor old faithful shack would be reprimanded for not doing his duty, for could he tell his troubles to a policeman. There would be no one to follow, "wait a minute," or say, "where did you get that hat?"—Ex.

MRS. P. O. STUCHELL TELLS HOW SHE CURED HER SON OF COLD

"When my son Ellis was sick with a cold last winter I gave him Chamberlain's Cough Remedy. It helped him at once and quickly broke up the cold," writes Mrs. P. O. Stuchell, Homer City, Pa. This remedy has been in use for many years. Its good qualities have been proven by many thousands of people. It is pleasant and safe to take.—Adv.

A BRIGHT BOY

A Missouri boy wrote the following composition on newspapers: "Newspapers are sheets of paper on which stuff to read is printed. The men look over the paper to see if their names is in it often, and the women use it to put on the shelves and such. Don't know how newspapers got into the world. I don't believe God does. The bible says nothing about editors. I never heard of one being in heaven. I think the editor is the missing link them fellers talk about. The first editor I ever heard of was the feller who wrote up the flood. He has been here ever since. Some of them belong to the church and some of them try to raise whiskers. All of them are liars, at least all I know, and I only know one editor never die. At least I never saw one. Sometimes the paper dies, and then the people are glad, but some one starts it up again. Editors never went to school because editors never get licked. Our paper is a very poor one, but we take it so ma can get it on the shelves. Our editor don't amount to much, but pa says he had a poor chance when he was a boy. He goes without underclothes in the winter and has no socks in the summer—and his wife has to support him. Pa hasn't paid his subscription in five years and he don't intend to."—Ex.

THE TRUTH COMES OUT

The Kaiser and the Crown Prince were slipping a cordial. "Father, who started the war?" quothed the Crown Prince, pulling on his cigarette. "Why, we've proved it on England, France and Belgium, to say nothing of Russia," sharply answered the Kaiser. "Yes, I know," said the prince, "but who was really responsible?" "Well," his father answered, "if you must know, it was like this: You remember when Roosevelt came back from Africa? I gave him a good time, I showed him all around, and I took him out and together we reviewed the army. When we got back to the palace, Teddy slapped me on the back, and said: 'Well, you can lick the world.' And like a damned fool I believed him."—Ex.

A YEAR OF CHEER

A lot of good fortune is in store for those families who are on The Youth's Companion subscription list for 1918—a year of good cheer. There will be 12 glorious serial or group stories, ranging from a girl's war story by Grace S. Richmond and Indian adventures by James Willard Schultz, to the unrivaled tales of former days by C. A. Stephens. The charm of Companion stories lies in the fact that whether they are especially written for boys or for girls everyone enjoys them to the full. Then there are special pages for the family, boys, girls, and even for little children—while the Editorial page, Current Events and a Doctor's Corner will supply all the requirements of the family for good reading. And this particular feast can come from no other source. The Companion alone is \$2, but by special arrangement new subscribers for the Companion can also, by adding only 25 cents, have McCall's Magazine for 1918, both publications for only \$2.25.

CERTAIN CURE FOR CROUP

Mrs. Rose Middleton, of Greenville, Ill., had this experience in the treatment of this disease. She says, "When my children were small, my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results."

Even if there should be a reduction in food prices, there will be no excuse for waste. No amount of money will buy food after the supply is exhausted.—Portland Oregonian.

HIDDEN DANGERS.

Nature Gives Timely Warning That No Pecos Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are weak. Well kidneys excrete a clear, amber fluid. Disordered kidneys send out a thin, pale and foamy, or a thick, red, and ill-smelling urine full of sediment and irregular of passage.

DANGER SIGNAL No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, suggest weak kidneys and in that case warn of the danger of dropsy, gravel and Bright's disease. Doan's Kidney Pills are endorsed by thousands. Here's Pecos' proof:

J. B. Davis, Fourth St., Pecos, says: "I had quite a bit of trouble with my kidneys. My back was weak and lame and ached. I had bladder trouble also, and the kidneys secretions were too frequent and burning in passage and highly colored. Doan's Kidney Pills did me a great deal of good, and when I have noticed any return of the trouble since, I have procured a box at the City Pharmacy. They have never failed to relieve me."

Price 60 cents at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Davis had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

POSTOFFICE TO PAY INTEREST ON LIBERTY BONDS

To obtain interest on Liberty bonds when due will be as simple as calling for one's mail. Postmaster General Burleson has announced in a letter to Secretary McAdoo.

A bondholder may receive interest by merely presenting his coupons or treasury warrants issued in payment of interest on registered bonds to any postmaster. They will be cashed immediately. Postmasters will be reimbursed from Washington for all coupons and warrants which they cash.

The Postmaster General issued special instructions to postmasters to honor both coupons and warrants upon presentation.

The United States treasury, sub-treasuries and banks also will pay interest.

AN OLD MAN'S STOMACH

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should, and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain opium, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.—Adv.

FIVE FILTHY FINGERS

Did you ever make a diary of your fingers? Did you ever set down in cold black and white the things your fingers touch every day and did you ever consider the number of times daily that your unwashed fingers seek your mouth?

When surgeons discovered that it was their own infected fingers which carried germs into the wounds they set about trying to discover a means whereby their hands could be rendered surgically clean, that is, free from germs. The whole realm of chemistry was ransacked for agents which would disinfect hands and the scrubbing and immersions to which they subjected their hands are even yet a tender memory to the surgeons of that period. But all of these efforts proved useless and at last in despair, surgeons took to wearing the rubber gloves, which could be boiled, thus bringing to each patient, as it were, a fresh pair of sterile hands. In other words, try as you will you can't by any known method make your hands absolutely clean.

The great agent in the spread of those diseases whose causative organism is present in the secretion of the mouth and nose; is the human hand; and if the saliva was bright green we would be amazed at the color of our fingers. As a matter of fact most of us carry our fingers to our mouth or nose many times daily, there to implant the germs of disease which otherwise careless people have spread about, there to collect a fresh cargo of infectious material to scatter for somebody else.

It is true that most germs of diseases die quickly once they leave the human body, but what does the death of a few billion germs matter so long as the supply is copious and never-ending? What an enormous number of things we touch during the day and how infrequent and cursory are the hand washings we perform.

The answer is to keep your fingers out of your mouth and nose. Thus we limit the spread of disease from these orifices at least, thus we eliminate the danger of contracting disease from somebody else who is not so careful.

FOR A WEAK STOMACH

As a general rule all you have to do is to adopt a diet suited to your age and occupation to keep your bowels regular. When you feel that you have eaten too much and when constipated, take one of Chamberlain's Tablets.—Adv.

MATCHING A BUTTON

I am not so opposed to women voting. If they will go to the polls fearlessly, cast their sovereign ballots, and return in time to cook dinner, it is all right.

But, on the other hand, if men must do the shopping, as a consequence of dividing the right of suffrage equally between the trousered knight and the skirted queen, I am "agin" it.

Why. Because a he shopper is a misfit. A he shopper couldn't buy anything and get back home with it in time to do the milking.

I had the laborious task assigned me not long since of purchasing a button that had been lost off a lady's dress.

It was just an ordinary looking pearl button, so far as my untrained eye could tell, but I searched the realm of buttomdom and failed to find one of the same sisterhood.

There were millions of buttons in the city where I had this experience—it was the largest city in Texas—but as sure as there are no two stars in the heavens, or two grains of sand on the sea shore just alike, that sure there was no other button to be had for love, money or murder that looked like the sample I carried. The clerks of course, would unload on me, just to keep from being bothered, and I spent seventeen dollars buying "specimens" that they declared were the "nearest to it we have."

You should have seen the pile that I delivered to the "wantee" of that button. There were big buttons and little buttons, square buttons and round buttons, pearl buttons and common bachelor buttons, smoked buttons and glass buttons, collar buttons and shoe buttons, in fact everything but the kind of a button I was sent to buy.

I went to three hundred dry goods stores in a fruitless search, clipped one from the coat of a cop, tried to pull one off a lady's skirt and was hit on the head with a parasol and did everything honorable in an effort to make good, and then when I threw up my hands and declared that no match to that button could be found in the universe, the lady scratched around in a sewing machine drawer for about a minute and got just what she wanted.

I would not be ungrateful, I hate to deny the dear women anything they want, but I had rather they would buy their own buttons and let me save the country by manipulating the ballot.—Austin Cahlan in The Temple Mirror.

TURN FEED CROPS TO PROFIT

The 1917 growing season is closed and every farmer may now take stock of the feed crops produced this year. Every bit of feed in this section may be turned into cash through use in the feed lot in fattening or in wintering cattle and sheep. The farmer with surplus feed has an opportunity to get live stock to eat it.

The astounding decrease in the world's supply of meat animals since the war started, has sent prices to the stars. The first week in October this year saw in Chicago the highest prices on record for October on cattle, hogs, and sheep. For instance, the top price for hogs in Chicago in October, 1895, was \$3.65, in 1905, \$6.80, in 1911, \$6.90, in 1915, \$8.95, in 1916, \$10.35, and this year, \$19.65.

With a total world shortage of meat animals of a million and a quarter head there can be no serious slump in prices. And the demand for meat is increasing in the face of the decrease in supply. The matter of price is no longer considered; the consumer must have meat.

Every pound of feed, therefore, that will make more meat or will winter cattle and sheep, needs to be taken into account. Every additional pound of meat put on the steer, the hog or the lamb adds to the nation's meat supply, and will also give the farmer a price even for forage and straw, usually wasted.

It is an opportune time to take an inventory of the available feed. Cattle and sheep are moving to market from pastures and the range and now while there is plenty to choose from, is the time to buy what stock is needed to eat all the surplus feed.

Talk it over with the banker. A. M. HOVE.

EVER SALIVATED BY CALOMEL? HORRIBLE!

Calomel is Quicksilver and Acts Like Dynamite on Your Liver. Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and never should be put into your system.

When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel remember that your druggist sells for 50 cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and cannot salivate.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe. Advertisement.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD. IN 1917.

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

The value and need of a newspaper in the household was never greater than at the present time. The great war in Europe now half-way into its third year, and, whether peace be at hand or yet be far off, it and the events to follow it are sure to be of absorbing interest to many for months to come.

These are world-shaking affairs, in which the United States, willing or unwilling, is compelled to take a part. No intelligent person can ignore such issues.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Pecos Times together for one year for \$1.65. The regular subscription price of the two papers is \$2.

Americans in Trench With the French

U. S. Soldiers Man Big Guns. Send First Shell to President Wilson

WITH THE AMERICAN ARMY IN FRANCE, Oct. 27.—American troops are in the first line trenches on the French front. The artillery fired the first shot of the war at 6 o'clock on the morning of a recent day at a German working party.

There had been intermittent artillery fighting since helmeted infantry marched in without the knowledge of the enemy, on the same night, through rain and mud. The French soldiers in the trenches welcomed them enthusiastically.

The nearest enemy trench is several hundred yards away. The sector is one of the quietest on the front. It has not been taken over, being under the direction of the French.

The Americans have shelled German positions and troops, the enemy sending shell for shell. The first shell will be sent to President Wilson. The case is now in possession of General Sibert. The shot was fired by a red-haired gunner as his comrades in the ranks and the assembled officers cheered. Later a luncheon in the field was attended by the American and French artillerists in celebration of the first American contact with the enemy.

The gun used in firing the first shot was one of the famous French 75s. On the second day the French shelled a German battery position which was located by the sound and the enemy replied vigorously, the projectiles falling close to the Americans who joined in the artillery duel. All the troops will be relieved after a certain period by others. Thus the American expeditionary forces are getting the benefit of actual war conditions.

Standing in a little, almost deserted shell wrecked village well within hostile gun range and a few kilometers from the trenches, the Associated Press correspondent watched the troops marched up in a driving rain, over roads covered with sticky mud.

The artillery had been firing all day, and as a result the impression was

given that there was considerable more activity on this front than there had been for some time.

It was soon after the lulls in the firing and in the dark that the first machine guns, hauled by Missouri mules, the drivers swathed in ponchos and with shrapnel helmets over their eyes, came up the road beside a dark canal. There was a long line of these and then came some infantry rolling kitchen, giving off a savory odor of the warm food.

All passed in silence. The last gun carriage had sprawled on it the form of a soldier who had been taken ill and who was being held on by two of his walking comrades.

Through another street paved with cobblestones and its sides lined with gaunt skeletons of shell wrecked houses, came the sound of the tread of many hob-nailed boots and in the dark the dim forms of men could be seen marching.

The cautious flash of an electric flashlight disclosed that they were the American infantry, packs on their backs, rifles slung on their shoulders, rain glistening on their helmets and coats, the wind whipping the bottoms of their coats around their legs which were moving with machine like precision.

The Americans swung down the street apparently as proud as though on dress parade, notwithstanding that they had marched miles from the billets where they had been since coming by motor trucks and railway from the instruction camps. As their ranks passed every now and then a soldier could be heard whistling softly to himself, his nearby comrades listening silently to sentimental and popular pieces.

Finally from the rear came whistled strains of a tune which all knew and from many places in the ranks whistles and voices joined in. The tune was "Tipperary." It lasted very briefly, as an officer, turning, ordered "stop that noise."

As the Germans were nearby much depended on approaching the scene quietly. The troops turned a corner and disappeared down an ink-black screened road. As a major standing there listened, he looked continuously at an illuminated watch dial. He said: "The men from the other direction should now be entering the trenches. I have been standing here

covered the movement."

He paused and listened and continued: "There is no sound, although I expect it for some time are in for a 'strafe' if the boys know we are going in."

No "strafe" developed. The Germans put over a few machine shells—hitting nothing.

The troops entered the trenches safely, unit by unit, passing the places marked them, which was essential, but the French were none the less as usual, and the enthusiastic. Every American was taken by the hand, and some were even kissed on both cheeks in French custom. Some of the French troops were those who had been the Americans. The trenches were found to be muddy, but nevertheless in good condition. Greetings being exchanged, the Americans settled down and daylight under low hanging clouds they got their first glimpse of German lines stretching across the rolling terrain.

It has rained daily since and the troops are now covered with mud.

Officers say they are certain the Germans know the Americans are beside them, but there has been special activity.

One American battery observed scattered a marching enemy group its shell fire.

Following is the first official statement issued from the American headquarters:

"In continuation of their training a nucleus for instruction later a contingent of some battalions of our contingents, in association with a French battalions, are in the first line trenches of a quiet sector on French front. They are supported some batteries of our artillery in association with veteran French batteries. The sector remains normal. Our men have adapted themselves to actual trench conditions in the most satisfactory manner."

Mr. and Mrs. Roy Wilkes of Toyah are the happy parents of twins, to them this week. The Enterprise hastens to extend congratulations hopes these youngsters may even a joy to their parents.

S. K. Lewis came in from his ranch this morning and is looking as happy as a big sunflower.
