U. S. Boys Maintain Tradition in Fierce Clash

Surrender Only When Threatened To Be Blown Into Eternity By Germans With Hand Grenades

With the American Army in France, Nov. 5.—A small detachment of American infantrymen were attacked in the front line trenches early Saturday morning by a much superior force of German shock troops. The Americans were cut off from relief by the heavy barrage in their rear. They fought gallantly until overwhelmed by numbers.

The fighting in the trenches was hand to hand. It was brief and fierce in the extreme.

As a result of the encounter three Americans were killed and four were wounded. A sergeant and corporal and ten men were taken prisoners.

Two French soldiers who were also in the trenches were killed.

The enemy lost some men but the number is unknown as their dead and wounded were carried off by the retiring Germans.

From the beginning of the engagement until the end the Americans lived up to all traditions of the American army, the records showing the bravery of the detachment and of individual members.

The following is the official casualty list:

Killed.
Private Thomas F. Enright; sister Mrs. Mary Irwin, 6641 Premo Street, Pittsburgh, Pa.

Private James B. Gresham; mother, Mrs. Alice Dodd, 1001 West Ohio street, Evansville, Ind.

Private Merle D. Hay; father Harry D. Hay, Gidden, Iowa.

Wounded.

Private John J. Smith, Ludington, Michigan.

Private Charles J. Hopkins; brother, James W. Hopkins, Stanton, Tex.

Private George L. Box, Altus, Okla.

Private Homer Givens, Cloverdale, Alabama.

Private Charles L. Orr, Lyons, Kan.

Captured or Missing
Sergt. Edgar M. Halyburton, Stony Point, N. C.

Corp. Nicholas L. Mulhall, Jersey City, N. J.

Corp. Edwin H. Haines, Woodward, Oklahoma.

Private Herchel, Godfrey, Chicago.

Private Vernon M. Kendall, Roll, Oklahoma.

Private William P. Grigsby, Louisville, Ky.

Private Frank E. McDougall, Maryville, Mo.

Private Daniel B. Gallagher, Blockton, Ala.

Private John P. Lester, Tutwiler, Mississippi.

Private Harry Langham, Chicago.

Private Dewey D. Kern; mother Mrs. Eva Tilton, Collins, La.

Private — Keckon; cannot be identified.

The German raid on the American trench was carried out against members of the second contingent entering the trenches for training. These men had only been in a few days. Before dawn Saturday the Germans began shelling vigorously the barbed wire front of the trenches, dropping many high explosive shells of large caliber. A heavy artillery fire was then directed so as to cover all adjacent territory, including the passage leading up to the trenches, thereby forming the most effective barrage in the rear as well as in the front.

A young lieutenant in charge of the detachment of Americans started back to the communicating trenches to his immediate superior for orders. The barrage knocked him down, but he picked himself up and started off again. He was knocked down a second time, but determined to reach his objective, got up again. The third time he was knocked down and badly shell-shocked and was put out of commission.

Soon after that Germans to the number, according to the report, of 210, rushed through the breaches and wire entanglements on each side of the salient, their general objective barrage in the forefield having lifted for a moment. The Germans went into the trenches at several points and were met with stout resistance. Pistols, grenades, knives and bayonets were freely used.

For many minutes there was considerable confusion in the trenches.

College President Visits Pecos Schools

F. G. Jones, of Midland College High in His Praise of Conditions That Surround Our Student Body

Through the courtesy of The Enterprise, a few words of appreciation from an out-of-town visitor to the Pecos Public Schools may not be unacceptable.

On Monday morning a remembered invitation from the superintendent brought us to the new and elegant public school building. The campus was happy with the joyous shouts and faces of several hundred boys and girls. At the sound of the gong all these pupils marched into the building with noticeable good order.

The High School with the Seventh grade, were quickly and quietly assembled in the auditorium. After a concert rendition of the 23rd Psalm and the Lord's Prayer, a patriotic song and a salute to the flag were led by Mr. Hayden. Following a few words by the visitors on the good influence the war is exerting over the attendance, interest, and discipline of the American schools, Superintendent Yoe assigned a memory gem to be committed to memory by the school. This selection was President Wilson's statement of the American war issues.

The visitors were next conducted to the rooms of the several grades below the high school, where the work was proceeding with fine interest under teachers who seemed to hold easy mastery over the situation. The sewing classes next came in for inspection followed by the cooking room. Both of these branches of the Domestic Arts are adequately equipped for practical and successful work in the teaching of the foundation principles of home keeping.

The science room was next entered, where the new equipment is complete and up-to-date and remarkably well arranged and preserved. Here the students in Physics and Biology are amply provided with the apparatus to illustrate and impress the truth of the physical sciences. Superintendent Yoe has charge of this department and is justly grateful for supplies that have been furnished.

The visit to the heating and ventilating plant revealed complete provision for the comfort and health of the students in the air they breathe. Computations of this plant indicate the air of each room completely changed each period of eighteen minutes. Arrangements for proper sewerage and for floor sanitation all add to the complete provision for the guarding of the health of the students.

No one can enter this building, so lately remodeled and renovated, without a feeling that another Western city has swung into line and has made handsome arrangements for the education of its boys and girls under conditions being demanded all over our great country. It means that the school board and the faculty have responded to the progressive demands of the community and have pledged themselves to keep abreast of the times in the great cause of public education.

The new building, equipment, organization and support of the Pecos schools will surely result rapidly in very high recognition of these schools by the colleges and universities of the country, and by the state Department of Education. From these will come a very practical training of those students ceasing their school work with the home school and complete credits on preparatory work for all students entering the colleges and universities after graduation at Pecos.

F. G. JONES,
President Midland College.

Postmaster General Burleson Guest of City

In Interview Declared That Politics and "Pull" Have No Weight in Appointment of Postmasters

Postmaster General Albert Sidney Burleson was an honored guest of the City of Pecos this week, arriving from Austin Tuesday morning, where he had been visiting.

He has ranch interests near Rankin, and in company with his cousin, Sid Kyle, one of Reeves county's honorable commissioners, and a prominent stockman, they visited the ranch of Mr. Burleson, where they found range conditions about the same as in this immediate section of the country. Mr. Kyle says all along the route traveled conditions were apparently about the same as in Reeves county—very dry.

They returned to Pecos Wednesday and during the day Mr. Burleson was

Superintendent's Report for October

Is Pleased With Start for New Year's Work....A Few Pertinent Suggestions to Parents.

To the Board of Trustees, Pecos Independent District. Gentlemen:

The following is a summary of the items of general interest concerning the schools of the city for the month just ended.

Number of scholastics enrolled.—Males 166, Females 142; total, 308.

Number of pupils enrolled under scholastic age.—Males 10, Females 8; total 18.

Grand total all ages, 326.

Total number of cases of tardiness, 60.

Room having the lowest percent of tardies and absentees, Seventh Grade, Mr. McCasland, teacher.

The work of the year has started off in a most gratifying manner. We have a splendid faculty and the pupils in most instances are interested in their work, and the spirit of the entire student body is good. The first monthly report has been sent out to parents and I trust that every father and mother looked very carefully into the grades made in the various subjects and also at the characteristics marked on the back of each card. If your child has a number of "C's" and "D's" on his card the matter should be looked into at once. If the work of the grade is too difficult, then it is best that the child go back at once into a grade where he can do the best work. If the work is not too difficult and such grades are recorded each month it is evident that the pupil is not studying as much as he should. I want to ask that parents do not wait this year until the last month to question why their children are failing but will come and consult with the teacher immediately after the monthly report card has been received if the grades are not satisfactory.

If we wish to build up a good school system in Pecos the standard should be raised a little higher each year until we reach a point where our diplomas are recognized not only by the colleges of the State but by those of the Association of Colleges throughout the country. There are many towns no larger than Pecos that have attained this standard. Many pupils fail to do good work and finally lose interest altogether because of their irregular attendance. I want to plead with parents to have their children in school every day possible and that they be on time every time. The number of cases of tardiness reported this month is out of all proportion to the size of the school. In this connection I want to call attention to the difference between an "excuse" and a "reason" for tardiness. To say that "our clock was slow," or "I had some work," are excuses and not reasons. If the teachers were to give these same excuses for tardiness on their part, would they be acceptable?

Prospects for Oil Gusher are Brighter

Field Illuminated By Gas From Well Can Be Seen For Many Miles Owners Are Very Hopeful

C. R. Troxel was in from the oil and gas well Tuesday of this week, looking as bright and happy as ever. Just now he evidently has good reason for being happy from the fact that his well is now lighting up the oil field district in a most satisfactory way. The gas stratas have been cased off and the pipes run out from the well and lighted, and can be seen burning for miles away. The indications for oil are also growing better as the well is dug deeper.

Mr. Troxel believes there is oil in the Toyah field and is still spending his time and money in an effort to locate it. Troxel is certainly a stayer and doesn't seem to know anything about the word "quitter" and it is hoped he will be successful in locating the pool of oil which will belch forth the greasy liquid which will make his name great and swell his purse until he will have more "filthy lucre" than he and his jolly, good wife will ever be able to spend. They appear to have a very fair chance of reaching this goal.

DISTRICT SECRETARY OF Y. M. C. A VISITS PECOS

A. J. Bacher, district secretary of the Pecos District, has been organizing the Y. M. C. A. War Works so that local committees can raise the \$400 which is our apportionment of the \$35,000,000 fund which is being raised to carry on the work of the Y. M. C. A. among the soldiers during the next nine months.

OTHERS GIVE THEIR LIVES, WILL YOU GIVE YOUR DOLLARS?

While in Pecos Mr. Bacher arranged for announcements to be made at the various churches Sunday and for committees to be appointed to solicit and collect this fund next week.

The work of the Y. M. C. A. is a grand and noble work and is doing a great deal for the men in the camps as well as for those in the trenches, where thousands of America's best young men will be in a few months, and it is the duty of every patriotic citizen of the United States to contribute to this work. Do your bit and do it cheerfully.

The Russian army of 13,000,000 men is asking for 200 Y. M. C. A. secretaries. France is asking for 500, and Italy for 500.

By the middle of the year 1918 over 6000 secretaries will be serving the enlisted men.

These countries are largely dependent upon America to carry on this great work among the enlisted men of the allies.

SALE OF RED CROSS CHRISTMAS SEALS TO BEGIN NOV. 15

Austin, Texas, Nov. 5.—The 1917 Red Cross Christmas Seal Sale is under way. The Texas Public Health Association, 616 Littlefield Building, Austin, Texas, is the State representative of the American Red Cross and the National Association for the Study and Prevention of Tuberculosis again this year. Last year nearly \$18,000 was raised for anti-tuberculosis work in Texas, and it is expected that the seal sale this year will total \$20,000.

The date of the beginning of the sale is November 15. During the past year this Association has donated \$1000 to the State Hospital for Crippled and Deformed Children suffering from Tuberculosis, at Galveston. In South Texas Miss Bula Baugh, the public health nurse of the association, is examining the children of the public and parochial schools from physical ailments which interfere with their studies, in order that they may be corrected and thus become better scholars and more efficient citizens. During the past year the association has also been able to stimulate interest in public health matters in many parts of Texas.

In order to continue these activities and at the same time carry on the educational campaign among Texas soldiers, which is so needed at this time, it is necessary that the State association have at least \$5000 more income than ever before. In the larger cities of Texas, where organized public health work is carried on, Red Cross Christmas Seals are sold and a commission is retained by the local organization with which to carry on its activity during the coming year.

There are still several communities in Texas where arrangements have not been made to sell the Red Cross Christmas Seals. The Texas Public Health Association will be glad to hear from responsible organizations who are willing to cooperate in the work of this association.

COMPLAINT ALMOST GONE

"Foley's Honey and Tar is great," writes L. W. Day, 65 Campbell Ave., E. Detroit, Mich. "It relieves bronchitis quickly. My complaint has almost gone and I hope never to have it again." Strictly speaking, all citizens of America save the Indians are "foreigners," but Americanism in its higher sense is a state of mind and conscience. In this sense every believer in and upholder of democratic ideals, no matter where he was born or lives, is a true American. No treachery, though his family has lived in America for 300 years, is an American in spirit. The foreign-born American patriot or the upholder of democracy in a foreign land puts him to shame.

To Cure a Cold in One Day.

Take LAXATIVE BROMO Quinine. It stops the Cough and Headache and works off the Cold. Druggists refund money if it fails to cure. E. W. GROVE'S signature on each box. 30c.

RED CROSS BUSY

This is a very busy season for the Red Cross workers. A committee, with Mrs. J. F. Ross in the lead, is making a desperate effort to fill the Christmas boxes for the soldier boys. The allotment for Pecos is 200 boxes, and the cost of each box \$1.50.

The Chapter begs of you to do your utmost to help send cheer and greetings to our homesick, lonesome, sick and wounded soldiers at the front.

The Red Cross states that with the proper assistance, no one shall be overlooked on Christmas morning. Let us do our part to make somebody's boy happy on Christmas. The boxes must be off by November 15th.

The Euterpean Club very generously donated \$45, the proceeds of the musical held last week, to the Christmas boxes.

Mrs. T. Y. Casey, with an energetic committee, has been busy with the Food Conservation Pledge Cards. If you have not signed one, you are requested to call Mrs. Casey and she will gladly furnish you with a card.

Mrs. C. C. Colwell, who has a son with the colors, has graciously volunteered to see to the upkeep of the sewing room, a duty which has been badly neglected, and this will be much appreciated.

Mrs. Henry Slack and Mrs. O. J. Bryan have organized a unit of neighbor workers to sew for the Red Cross Chapter, at the home of Mrs. Slack. 100 cut garments are on hand. Don't forget how important it is to sew.

The Euterpean Club have further arranged to give a benefit for the Red Cross each month.

Miss Florence McCarver will be the hostess at her home on the afternoon of November 17th, from 2:30 to 6, to a Red Cross knitting and 42 tea. The proceeds will be given to the Chapter. All are cordially invited. Each guest is requested to donate 10 cents, and an additional ten cents if the game is entered.

In response to an invitation to this hospitable home, one always meets with a happy return.

SPECIAL FEATURE FOR STATE FAIR IN 1918

Preparations for an exhibit at the 1918 State Fair of Texas which will in extent, equal any industrial feature at former world fairs is being made by the Buy It Made In Texas Association.

It is hoped that by the opening of the next fair the Association will have erected at the State Fair Park in Dallas, an exhibit building which will be unique in itself. This building will be a handsome structure in which will be used only Texas-made material. It will be a commodious one and the Association officials believe every foot of exhibit space will be used.

Possibly every one of the tens of thousands of Texans who visited the exhibit of 1917 at the Fair were astonished at the extent and variance of Texas manufacture. Members of the Association, enthusiastic over the success of this year's effort, are planning to make the 1918 Exposition of Texas products represent to the last degree the possibilities of the State's raw resources. This should make the Buy It Made in Texas building one of the chief points of interest at the great State Fair.

Estimates of attendance at the Buy It Made in Texas exhibit in its first year at the State Fair, indicate that fully ninety-five per cent of State Fair visitors saw Texas made products that were shown there.

CERTAIN CURE FOR COUGH

Mrs. Rose Middleton, of Greenville, Ill., had this experience in the treatment of this disease. She says, "When my children were small, my son had croup frequently. Chamberlain's Cough Remedy always broke up these attacks immediately, and I was never without it in the house. I have taken it myself for coughs and colds with good results."

FEDERAL REVENUE TAX

The following is an extract from "an Act to provide revenue to defray war expenses and for other purposes" passed by Congress and approved on the 3rd day of October 1917:

SEC. 500. "That from and after the first day of November, 1917, there shall be levied, assessed, collected, and paid * * * a tax of 5 cents upon each telegraph, telephone, or radio dispatch, message, or conversation, originating within the United States, and for the transmission of which a charge of 15 cents or more is imposed; provided, that only one payment of such tax shall be required, notwithstanding the lines or stations of one or more persons, corporations, partnerships, or associations shall be used for the transmission of such dispatch, message or conversation."

SEC. 501. "That the taxes imposed by section five hundred shall be paid by the person, corporation, partnership, or association paying for the services of facilities rendered. * * * SEC. 502. "That no tax shall be imposed under section five hundred upon any payment received for services rendered to the United States, of any State, Territory, or the District of Columbia. The right to exemption under this section shall be evidenced in such a manner as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe."

SEC. 503. "That each person, corporation, partnership, or association receiving any payments referred to in section five hundred shall collect the amount of the tax, if any, imposed by such section from the person, corporation, partnership, or association making such payments, and shall make monthly returns under oath, in duplicate, and pay the taxes so collected * * * to the collector of internal revenue of the district in which the principal office of place of business is located. Such returns shall contain such information, and be made in such manner, as the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury, may by regulation prescribe."

Applied to telephone messages, the above law will work as follows: From and after November 1, 1917, each message or conversation transmitted over any telephone for which the charge is fifteen cents or more, is subject to a tax of five cents. The law requires the telephone company to collect this tax from the person paying for such message or conversation in addition to the regular charge therefor.

The law applies not only to all messages on which the initial rate is fifteen cents or more per message, but also to all messages on which the total charge, including overtime, will amount to fifteen cents or more. Thus, while a message at the initial rate of five or ten cents bears no tax, should the conversation be prolonged for a period which would make the aggregate charge fifteen cents or more, it is subject to a tax of five cents.

It is reported that Australia has the unprecedented surplus of 100,000,000 bushels of wheat for export, which should tend to relieve the strain on our patriotic farmers.

WILT RESISTANT COTTON

As a part of its work in combating the destructive cotton wilt, the U. S. Department of Agriculture is supervising the production for sale of wilt-resistant cotton seed by about 50 farmers in South Carolina, Georgia, and Alabama. These cooperative breeders agree to secure proper seed, to follow the breeding methods outlined by the field pathologist, to exercise necessary care to maintain the purity of their seed, and to offer it for sale at a reasonable price, not to exceed an amount previously agreed upon. They also agree not to sell seed not grown by them unless so stated.

A field pathologist, as a representative of the State and of the Department of Agriculture, provides these cooperative breeders with small quantities of select planting seed in the beginning or refers them to other breeders from whom they can purchase such seed at a reasonable price. He visits the breeders several times during the season to advise with them regarding the work and to show them all the details, from the planting through the selection, note taking, and ginning. He will also soon take up the work of inspecting the seed fields and will give the breeders seed certificates.

Breeders who carry out in all details the methods of breeding advocated by the United States Department of Agriculture will be given certificates for "registered seed." All other seed where the standard or variety in wilt-resistant, productiveness, and in purity is being maintained, but where the plant-to-row-method is not being followed in all its details, will be certified as "improved seed."

AN OLD MAN'S STOMACH

As we grow older and less active, less and less food is required to meet the demands of our bodies. If too much is habitually taken the stomach will rebel. When a man reaches the advanced age of 85 or 90, you will find that he is a light eater. Be as careful as you will, however, you will occasionally eat more than you should, and will feel the need of Chamberlain's Tablets to correct the disorder. These tablets do not contain pepsin, but strengthen the stomach and enable it to perform its functions naturally. They also cause a gentle movement of the bowels.—Adv't.

The things to eat that haven't had a big boost in cost since the war are green coffee, oranges and dried apples. Now you have some idea how to set the table economically.

If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money. Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

Doings at Saragosa

J. C. Jones shipped three double-decked cars of sheep to the Kansas City market Monday.

Last Monday was moving day in Saragosa. Rev. C. A. Dickson moved into his new residence which he recently purchased and added two rooms to; Jesse Williams moved into the S. T. Hobbs residence; John Conger to the C. J. Donoho residence, and W. W. Chandler, Sr., to the E. B. Conger residence, which he bought.

Arthur Stanciliff, son of Mr. and Mrs. G. W. Stanciliff, was married at Dallas last Monday and he and the bride arrived Tuesday night for a short visit with his parents, leaving Friday morning for California, Washington and Canada. Mr. Stanciliff is superintendent of the Western States Cement Company, at Independence, Kansas. We extend to the bride and groom our best wishes.

Quite a crowd of Saragosa folks attended the Saragosa-Balmorhea Red Cross Hallowe'en Carnival at Balmorhea last Wednesday night. The carnival was a huge success. The grand march by the ghosts was good, and the playlet, entitled "Goddess of Love," played by Misses Jimmie Conger and Katherine Erwin, was excellent. "Mr. and Mrs. McGinty," played by Dixie Patterson and Miss Delaney was fine. The different booths were attractive and well patronized. We understand that quite a nice sum was realized for the Red Cross.

HAVE IT HANDY FOR CROUP

Grandmothers and mothers who have raised families of children have learned from experience that it pays to keep a bottle of Foley's Honey and Tar in the house ready for emergency. It gives prompt relief from dread croup attacks, checks coughs and colds, relieves whooping cough. A safe medicine—no opiates. For sale at Bozeman's Drug Store.—Adv't.

CATTLE SHIPMENTS

Tuesday, Hargraves and Patridge shipped 10 cars of cattle over the T. and P. to Clint where they will be put on pasture.

A. A. Eddins shipped 9 cars of cattle to Clint Tuesday where they will be placed on pasture.
Monday Collier and Love shipped 10 cars of cattle from Hoban to Angeles via the P. V. S. and Santa Fe roads. On Wednesday they shipped 20 cars more to the same place.

J. C. Jones shipped 3 cars of sheep from Saragosa to the Kansas City market.

On Monday R. P. Verhalen shipped a car of hogs from Verhalen to the Fort Worth market.

WOMEN TORTURED

Suffer Terribly With Corns Because of High Heels, But Why Care Now.

Women wear high heels which buckle up their toes and they suffer terribly from corns. Women then proceed to trim these pests, seeking relief, but they hardly realize the terrible danger from infection, says a Cincinnati authority.

Corns can easily be lifted out with the fingers if you will get from any drug store a quarter of an ounce of a drug called freezezone. This is sufficient to remove every hard or soft corn or callous from one's feet. You simply apply a few drops directly upon the tender, aching corn or callous. This is relieved at once and soon the entire corn or callous root and all, lifts out without one particle of pain.

The freezezone is a sticky substance which dries up in a moment. It just shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Tell your wife about this. (Advertisement.)

CITATION BY PUBLICATION

THE STATE OF TEXAS
To the Sheriff or any Constable of Reeves County—Greeting:
You are hereby commanded to summon Commerce Trust Company, a corporation who resides in Missouri, Harry Palmer, C. G. Davenport, F. O. Van Deren, A. C. Binder, R. E. Bell, J. N. Levin, L. H. Coley, and R. S. Johnson, the bondholders, A. B. Bell, by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 70th Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest district to said 70th Judicial District, to appear at the next regular term of the District Court of Reeves County, to be holden at the Court House thereof, in Pecos, Texas, on the 3rd Monday in November, A. D. 1917, the same being the 19th day of November, A. D. 1917, then and there to answer a petition filed in said court on the 15th day of October A. D. 1917, in a suit numbered on the docket of said court No. 1753, wherein H. J. Venn is plaintiff, and Pecos and Toyah Lake Irrigation Company et al, are defendants, and said petition alleging that heretofore, to-wit: on or about the 17th day of December, 1913, the defendant A. C. Binder, did make, execute and deliver to Pecos and Toyah Lake Irrigation Company, a corporation, his certain deed in writing wherein and whereby he did convey to the said Pecos and Toyah Lake Irrigation Company, and its successors and assigns, the following described real estate located and situated in Reeves County, Texas, said lands described as follows: Sections 20, 21, and 22, in block C7, Public School lands, consisting of 1920 acres, an undivided one-half of the N. E. 1-4 of section No. 17, being 80 acres, also an undivided one-half of section 23, of 320 acres, also section 24, 640 acres, all in block C7, Public School land, totaling 1040 acres. Sections Nos. 10 and 16, in block C7, 1280 acres and the E 1-2 of the N. W. 1-4 of section No. 4, Block 51, Tsp. 7, T. and P. Ry. Co. Survey. Also the E. 1-2 of section No. 9, block C7, Public School land, 320 acres.
And at the time of the execution of the deed and as a part of the consideration therefor, the defendant the Pecos and Toyah Lake Irrigation Company, executed its 8 certain promissory notes for the aggregate sum of Thirty Thousand Two Hundred and Fifty Dollars, four of said notes being for the sum of \$2500 each, Three for one Thousand Dollars each, and one for \$250. There each of said notes are and were Vendor's Lien notes and a lien upon the hereinbefore described land with other lands, and that by regular transfer and assignment the plaintiff herein became the owner of note No. . . . for the sum of \$2500. That said note and all notes in said series, provided for 6 per cent interest from date, and the usual attorney's fee due and payable one year after date, and that all of said notes are each long past due, and demand has been made for their payment, the defendants fail and refuse to pay the same or any part thereof, to damage of the holders of all of said notes in the sum of \$18,000.00.
Premises considered, plaintiff prays for citation to issue to the defendants in terms of law, and that all non-resident defendants and defendants whose residence is unknown be cited by publication, and that on hearing the plaintiff have judgment for the full amount of the said notes mentioned in said deed and a foreclosure of the Vendor's Lien upon the land herein described, that an order of sale issue to sell said land, and the money paid into court to be distributed first to the payment of the cost, and then to the payment of the said Vendor's Lien notes, if there be enough to pay them, and if not, that they participate in the proceeds of the sale of said land pro rata, as the amount each note bears to the whole amount the land may bring.
Herein fail not but have before said Court, at its aforesaid next regular term, showing how you have executed the same.
Given under my hand and the seal of said Court, at office in Pecos, Texas, this the 26th day of October, A. D. 1917.

IN SANITARIUM THREE WEEKS
Splendid results in kidney and bladder troubles are achieved by Foley Kidney Pills. Mrs. Edie E. Kleppe, Averil, Minn., writes: "I was at Fargo Sanitarium three weeks for rheumatism and kidney trouble; got no relief. I began using Foley Kidney Pills and found immediate relief. A bottle completed the cure." For sale at the Bozeman Drug Store.—Adv't.

The government would come nearer getting sufficient from the war tax if it would prevent the price boosters from getting it first.

SUFFERED FROM BACKACHE, RHEUMATISM, DROPSY.

Dear Mr. Editor:—"I wish to tell you of a recent experience I had when suffering from backache, weak back, rheumatism, dropsy, and congestion of the kidneys. I tried a new medicine, called "Anuric," which has recently been discovered by Dr. Pierce, of whose medicines and Surgical Institution in Buffalo, N. Y., you have no doubt heard for years. This medicine acted upon me in a wonderful manner. I never have taken any medicine so helpful in such quick time. I do wish anyone who needs it would give it a trial."
(Signed) G. H. HERR.

NOTE.—If backache, scalding urine or frequent urination bother or distress you or if uric acid in the blood has caused rheumatism, lumbago, gout, neuralgia or sciatica, if you suspect that you have kidney or bladder trouble, send 10 cents to Doctor Pierce, at Invalids' Hotel, Buffalo, N. Y., for large trial package or at all druggists in 50-cent package.

Subscription, \$1.50 a year In Advance

Statewide prohibition carried in the State of Ohio, on the 7th, by an approximated majority of 2837 votes.

Early returns from the New York election held Tuesday, indicate that the Woman Suffrage Amendment carried by 40,000 majority.

San Jose California, this week went into the dry column by a substantial vote, putting out of business on January 1st, about 80 saloons.

In the New York municipal election Tuesday, Mayor Mitchell, who was a candidate for re-election on the Fusion ticket, was defeated by Judge Hylan, the Tammany Hall candidate.

The investigation of the affairs of the different state departments at Austin was started this week and will continue until everything is looked into. Some sensational developments may be made public before the month is out.

The second Liberty Loan was oversubscribed by \$1,617,532,300, which is an oversubscription of 54 per cent of the 3,000,000,000 asked for and only \$383,000,000 less than the \$5,000,000,000 maximum fixed by the treasury. Secretary McAdoo says that the third loan which was to be asked for in January, will not be necessary.

Meatless days, sugarless days, and wheatless days are being observed in different parts of the United States at present, in an effort to conserve the supply of these commodities. A good idea, for if this country is preparing for a three years' fight, the American people better save every ounce of food stuff possible. Conservation is the keynote to the situation just now.

New Mexico voted on a Constitutional Amendment Tuesday to prohibit the manufacture, sale or importation of intoxicants into that State. The amendment carried by about 20,000 majority. In some of the smaller towns it is reported that some of the saloon keepers turned out and worked with the prohibitionists to carry the amendment. Another unusual feature of this election was that all the larger towns of the state gave majorities for prohibition. Old John Barleycorn is surely doomed.

People who have been away from Pecos recently and have returned after traveling over considerable country, report conditions pretty bad in some sections and say that Reeves county looks good to them and they are glad to get back. It's pretty dry here, but we are better off than are those in many parts of the State, and especially West Texas. The people who are dependent upon rain to make their crops have been pretty hard hit this year. In some counties thousands acres of fine land has not had a plow put in them. Moral: Come to Reeves county where you don't have to depend on rain to make your crops.

IMPROPER JURY CHARGE GIVES MAN FREEDOM

Austin, Nov. 7.—The court of criminal appeals today reversed and remanded the case of Octaviano Flores from Reeves county, convicted of violating the local option law, and given three years, the extreme penalty for such an offense. The reversal was because the trial judge failed or refused to grant the request of the appellant for a special charge with reference to a remark the district attorney made in his argument to the jury. The remark was:

"If you don't convict the defendant in this case I am going to have you all indicted and sent to the penitentiary for perjury."

The defendant promptly objected to this remark, and the court as promptly sustained the objection, but the judge failed to reprimand the district attorney. The appellant then proposed a special charge in writing instructing the jury in reference to the objection to the district attorney's remark. For some reason the judge failed or refused to give the charge. In the opinion of the court of criminal appeals he should have given the special charge.

The defendant in the above case was defended by Ben Palmer and no. B. Howard and Clay Cooke of Pecos in the trial, which was held here during the April, 1917, term of the court.

A LETTER FROM FRANCE

In France, Sept. 26th, 1917.

Dear Mrs. Wilson:
Am sure that this will reach you as quite a surprise, but have never been able to tell you and Mrs. Werner how much I appreciated your visit at Chicago, and was quite disappointed that I was unable to call on you people before we left the States but everything was so uncertain, could not get away, and when we did leave, left on short notice. Left old U. S. A. on July 23, and just 21 days from that date landed in England, where we camped a few days at a beautiful camp near Borden. After a few days rest we entered about 4:00 a. m. one eventful day and paraded in London. You very likely read about it in the papers. We next day steamed out across the noted English Channel for France. Should say this was done at night, as day sailing in the Channel isn't the most popular sport in the world. The Germans find it a very convenient place for their submarines. We came across in fine shape, although for 3 days I was very sea-sick due to some very rough water we ran into. One of our boats ahead of us ran into a submarine and after an exchange of some 50 shots escaped without damage.

Was agreeably surprised in the scenery in England; it is simply grand. Most every house is built of brick and in large towns you can't help but not they are all built in the same fashion. The thing you note especially is the large number of women and no men. They have all been called to the trenches. One never sees any one in England or France in civilian clothes. We had the good fortune to see the King and Queen of England during the parade and took lunch on his grounds. One of the largest crowds ever seen in London turned out for the parade. One thing that is very noticeable in both England and France is the odd railway equipment. All cars are very small and the passenger coaches or carriages as they are called are very peculiar. Have eight compartments to the car which will seat eight persons each and one cannot travel from one compartment to the other but must stay where he first locates. No drinking water, etc. on trains. One must get off at stations and purchase it. We had quite a time getting used to the ways, and in fact we are still having quite a time getting used to things. We were received with open arms by the French people and they are a very fine lot and never tire of trying to do things for you. Our big set back is that we cannot speak French, but think we will pick it up fast—necessarily will have to.

We are located quite near the front and the firing is very audible. Quite interesting to get on a high hill at night and watch the different light signals and flashes from the guns. When one gets near enough to the front to hear the cannon balls it gives him the impression of an empty wagon rolling down the road but when they hit you idea changes immediately. Due to very frequent air raids it is necessary to dig bomb proofs at every camp for your personal safety, because the Germans are doing their best to blow up everything they see. After night when you hear an aeroplane coming it is quite proper to hunt your bomb proof and in case you hear the engine stop you automatically lay down just as fast as you can, the stopping of the engine always means he is dropping a bomb, and by laying down your chances are much better as the fragments from the shell have a tendency to rise but they are very dangerous and when a man gets struck he usually has a very bad wound. The aeroplane feature reminds one of a lone bird and a man with a long range gun; you never know when or where to dodge, as one place is about as safe as another, and you are unable to protect yourself. Have seen several planes brought down by the French anti-aircraft guns, and such fighting is very exciting. You always want a shell to strike and the odds are against you, but, as everything else, you get used to it and eventually you tire of watching them, they are so numerous.

Due to the fact that our censor is a very busy man, must close and will try and relate some of our experiences later, but we are not allowed to tell much that goes on. Give my best regards to Mr. and Mrs. Werner, also to Clifton. Would be very pleased to hear from you.

Sincerely,
RAY HARRISON.

Leonard, Wendt left Wednesday afternoon for El Paso where he will work for the Overland people in that city. He is a splendid machinist and a fine young man, and we bespeak for him success in all respects.

Dr. H. N. Lusk returned Saturday from Pendleton, where he had been at the bedside of his father who had been very ill. The Enterprise is glad to state that the doctor left his father improving.

Miss Mabel Bessire was over from Toyah Friday and Saturday mornings.

PARENT-TEACHER ASSOCIATION HOLD MEETING

The Parent-Teacher Association met in regular session at the school building last Friday afternoon. The president, Mrs. B. R. Stine, presided. After the opening by repeating the Lord's prayer, the routine of business was immediately entered into and it was decided to hold a spelling bee for the public, with a program of musical numbers and readings from the High School in the auditorium on Friday night, the 23rd inst., as a school benefit, the nominal price of ten cents for admission to be charged. Webster's "Blue Back" spelling book with the correct division of syllables and pronunciation after each to be used.

The following committees were appointed:
Spelling Bee.—Mr. Hayden, Mrs. T. J. Yoe and Mrs. Sid Cowan.
Program Committee for December, January and February.—Mrs. Wylie Cole, Mrs. J. F. Ross and Mrs. Will Cowan.
Membership.—Mrs. Max Krauskopf, Mrs. Albert Sisk and Mrs. C. C. Colwell.

Y. M. C. A. WORK AT CAMP TRAVIS

Statistics recently published relative to the Y. M. C. A. army work at Camp Travis, San Antonio, Texas, indicate the use that is made of the Y. M. C. A. buildings. 31,500 soldiers visit the building every day. They use 65,000 pieces of stationery, and according to the number of stamps sold by the secretary, 90,000 pieces of mail go out daily.

Through the efforts of the Y. M. C. A. the 46,000 men at the camp have the pleasure of viewing almost 16,000 feet of moving picture film each night, and in a camp situated in the hot and dry country as—Camp Travis, the 24,000 pounds of ice used daily to furnish cool drinking water is no mean feature of the work.

We think of the men of the National Army as working 12 to 15 hours a day, and then being too tired to do anything but sleep, but when it is considered that 4725 recreational games took place at the "Y" buildings at Camp Travis, it does not seem to be the case. The men also seem to have ample time for attendance at gospel meetings, for the average attendance per week was 12,000, and the average attendance at Bible classes per week was 4800.

One could go ahead and give such statistics over many columns, but it is not necessary, for every one knows the big service the Y. M. C. A. is performing in the war work, and all appreciate the immensity of that service.

A striking example of the good that is being done by the Association among our allies will be gained by the following:

Mr. Louis A. Crossett of Boston, of the War Work committee, has recently returned to the United States from an extensive absence abroad for the purpose of studying methods of the British Y. M. C. A. at the front. In reply to a request for some of his experiences, Mr. Crossett spoke with deep admiration of the splendid efforts of the British Association in Northern France.

"I found a 'hut' near the entrance of the front trench where the shells were coming down all around it," he said. "This hut was a little dugout made of logs and covered with sand bags. At one end was a little kitchen where there were two tanks of water boiling. Here fresh tea was made and set out fresh for the men who came to the hut when relieved of the terrific strain in the front line trenches. Not infrequently a cup of hot refreshing tea is given free of charge to each of 300 or 400 men in those trenches, and I am sure that this is appreciated by those brave fellows. While talking with some of the men, one of them remarked, 'if it had not been for the Y. M. C. A. there would have been mutiny here. That is where we get our comfort and cheer.'"

Officers have gone on record with the statement that with the coming of the Y. M. C. A. to a post, the desertions were cut in half, and the morale of the troops were considerably raised. The war department recognizes the Y. M. C. A. as one of the most effective forces in the building up of a strong, clean and efficient manhood in the ranks of the enlisted men.

REV. MOORE AND FAMILY LEAVE FOR ALAMAGORDO.

Rev. and Mrs. Henry O. Moore left Tuesday for Alamogordo, N. M., where they will spend the winter, and where Rev. Moore will preach during that time, having been granted a leave of absence by his charge in Pecos for that time. He hopes by this move that he will by that time sufficiently regain his health to return and resume his work here.

Rev. Moore is not only a splendid gentleman but a strong, forceful expounder of the Word, and the necessity of his going is greatly regretted not only by his flock, but by many other Pecos friends. He has been expected to return here in a few days and speedily regain his wonted health.

superintendent's Report for October

(Continued from page 1)

Nothing short of sickness or physical inability to attend should keep a child from school.

Practically all of the equipment purchased this summer has been received and installed. When everything is in place the faculty desires that we have a house-warming occasion, and that every patron and friend of the school come and inspect the building and see something of the conduct of the classes. Mr. Doughty, State Superintendent of Schools, was a recent visitor to Pecos and after he had been shown over the plant said at the time and has since written twice to the same effect, that Pecos is in line for the best of everything in the way of State and National aid. Next year several hundred thousand dollars will be available for use in Texas as the result of a National appropriation to aid Domestic Science and Manual training in schools that can qualify. The personal visit and recommendation of Mr. Doughty will go far toward helping us to secure a liberal portion of this money.

The following pupils have made the highest average in their respective grades for the month just closed:
Low First.—Dorothy Bean. High First.—Paralee Nell.
Low Second.—Janice McKellar. High Second.—Waldon Harbour.
Low Third.—Josephine Rodgers. High Third.—Harry Ross.
Low Fourth.—Tilman Durdin. High Fourth.—Balsor Hefner and Harold Sims.
Fifth Grade.—Mary Mount.
Sixth Grade.—Lora Lyles.
Seventh Grade.—Ruby Eggleston.
First Year High School.—Amber Brown.
Second Year High School.—Gussie Richburg.
Third Year High School.—Jewell Cowan.
Fourth Year High School.—Burette Hefner.

The following pupils have maintained a standing of 90 percent in both department and studies for the month:—Burette Hefner.
A most cordial invitation is extended all friends and patrons to visit the school at any time.
Respectfully submitted,
T. J. YOPE.

the Germans stalking the Americans and the latter stalking the Germans. In one section of the trench one American engaged two Germans with the bayonet. That was the last seen of him until after the raid, when a dead American was found on the spot. Another was killed by a blow on the head with a rifle butt from above.

Some of the Americans apparently at the beginning of the attack did not realize just what was going on. One of the wounded, a private said:

"I was standing in a communication trench watching for orders. I heard a noise back of me and looked around in time to see a German fire in my direction. I felt a bullet hit my arm."

The Germans left the trench as soon as possible, taking their dead and wounded with them.
An inspection showed, however, that they abandoned three rifles, a number of knives and helmets. The raid was evidently carefully planned, and the American officers admit that it was well executed. As a raid, however, there was nothing unusual about it. It was such as is happening all along the line. There is reason for believing that the Germans were very much surprised at finding Americans in the trenches instead of French.

The French general in command of the division where the American detachment formed a part, expressed extreme satisfaction at the action of the Americans, for they fought bravely against a numerically superior enemy, the handful of men fighting until they were smothered.

The bodies of the American dead were brought back to divisional headquarters and buried with honors today. The wounded are at the base hospitals.

The whole American expeditionary were brought back to divisional headquarters and buried with honors today. The wounded are at the base hospitals.

Postmaster General Burleson Guest of City

(Continued from page 1)

induced to visit our splendid public school, where he made a splendid patriotic talk to the high school pupils for about twenty minutes, using as his subject the all-absorbing question of today, the war.

Mr. Burleson held the attention of his audience to such an extent that it is said one could have heard a pin dropped on the floor. He said that the atrocities ascribed to the Germans are true; that they have actually cut the hands off infants; that the prisoners taken by the Germans are now being fed and taken care of by the Red Cross. The conditions in the war-stricken country is deplorable and almost indescribable.

It is the belief of Mr. Burleson that the United States is now making preparations for a three years' war.

Being approached on the subject of the appointment of a postmaster for Pecos by one of the applicants, this gentleman was assured, most emphatically by Mr. Burleson that politics and "pull" would have absolutely nothing to do with the appointment, and that the one standing the highest in the civil service examination would get the position.

As stated above, Mr. Burleson is a cousin of Sid Kyle of our city, and since learning this fact our people feel more than ever proud of our postmaster general and our fellow-townsmen, Sid Kyle.

Mr. Burleson left yesterday morning for Washington in order to be on hand at the opening of Congress on the first of December, and that he might have his work well in hand on the opening day.

TOYAH RED CROSS MAKES A FINE SHOWING

The Toyah branch of the Red Cross held a very interesting meeting at the Baptist church Wednesday of this week.

The ladies of the town deserve a great deal of praise for their willingness and for the great amount of work that has been done since last meeting. The following work was accomplished in this time:

- 19 suits of pajamas.
- 26 bed shirts.
- 20 pairs of bed socks.

The work was all beautifully done, and now all have gone to knitting vigorously and we are sure the knifey knitters will have a splendid report at the next meeting.

A written vote of thanks was extended Mr. Felch for his personal check of \$50, and the Victoria Club for \$21.75 to help local Red Cross work.

We are anxious to have every lady in town cooperate with us in this great work and a cordial invitation is extended to every one to come to our monthly meetings, the first Wednesday afternoon in each month, at 3 o'clock at the Baptist church and sewing every Wednesday afternoon.

Circle No. 1 to meet with Mrs. A. W. Hosie. Circle No. 2, with Mrs. A. G. Van Horn. Circle No. 3, Mrs. Hart, chairman, with Mrs. Claypool. Circle No. 4, Mrs. Troxel, chairman, with Mrs. W. B. Humphries.
Come and do YOUR bit.
MRS. CLAYPOOL, Chairman,
MRS. ANDREWS, Secretary.

Miss Julia Padgett came over from Toyah Tuesday, where she had been visiting for the past week or two and is again in the employ of the Tri-State Telephone Co., filling the position as night operator, which she recently filled with great satisfaction to the public, which will be delighted to know that her prompt services are again to be enjoyed by them.

A cordial invitation is extended to all to worship with us.

HOMER L. MAGEE.

PRESBYTERIAN CHURCH

Sunday school at 10 a. m. This is a good Sunday school for you to attend.

Rev. J. F. Lloyd, our new chairman of Home Missions, will preach at 11 a. m. and also at night.

This pastor is granted an indefinite leave of absence in order to try and recover his health. He is going at present to Alamogorda, N. M. He will try and supply the Presbyterian pulpit there for a time hoping the change of altitude and water may put him on his feet once more. In the meantime the supply of the Pecos pulpit is in the hands of our Session. They will arrange for preaching and all other services from time to time as they may be able and may deem best.

I request all our people to cooperate with the Session, to attend all services they announce, to keep up their finances (I do not intend to call on you for financial assistance until I return, if it can be avoided) so we may have a fund to pay any minister who may come to preach, to pay our benevolent claims, and to make needed repairs on the church and manse in the spring.

Praying God's blessing on the best people I have served in my life, I remain,

Your servant in Christ,
HENRY O. MOORE.

REV. KNIGHT GOES TO PECOS

Sunday morning was a dramatic hour at the First Baptist church when Rev. W. A. Knight for the second time offered his resignation as pastor of the church. A few weeks ago Rev. Knight offered his resignation but the church by an overwhelming vote refused to accept it.

There were not many dry eyes in the church as Rev. Knight reviewed his pastoral record of three years. Since he has been pastor the church has received 129 new members by baptism and 88 by letter, making a total of 217 members added to the church in the three years. In that time the church has contributed for all purposes about \$15,000. The pastor has delivered 425 sermons and addresses, has conducted 30 funerals, married 52 couples, and made 1600 pastoral visits.

Rev. Knight has not only done a notable work in the Baptist church and throughout the county but has made a host of friends outside the Baptist church. He has ever been in the forefront of every forward movement in the community and we regret to lose him as one of our citizens.

Rev. Knight goes to Pecos, Texas, where he becomes pastor of the First Baptist church of that place.—The Frederick (Okla.) Leader.

SEND IN YOUR CONTRIBUTION

The Woman's Home Companion has instituted a "Treasure and Trinket" fund for the airmen of the American Army, and solicits broken, useless, not wanted pieces of jewelry or tableware, solid or triple-plated. Have you any old bracelets, watches, old cufflinks, watch or cigarette cases, gold or silver umbrella tops, all useless toilet articles, or coins of silver that are mutilated, etc? If so, please send them to the Citizens State Bank at Toyah, Texas, or to the "Treasure or Trinket Fund" of the Woman's Home Companion at 381 4th Ave., New York City, by December 1st, if possible.

All will be melted down by the U. S. mint and turned into money, the proceeds of which will be used to buy comforts and equip hospitals for the airmen.

What is the most economical cooking fat?

When you step into your grocer's you find different shortenings—quoted at different prices. You may want to know which is the truly economical shortening.

The prices don't tell.

Some shortenings will go much farther than others.

For instance:

Many careful housekeepers have found that Cottolene goes very much farther than other shortenings which they had been using.

The reason?

It is very much richer.

Cottolene contains no water. It is always uniform in quality.

You will find, too, that pure, economical Cottolene gives to biscuits, cakes, pies and fried tid-bits a delicate flavor that even expensive butter might well be proud of.

The unusual richness of wholesome Cottolene makes its economy a true economy.

In baking, use one-third less of Cottolene than you have ordinarily used of other shortenings.

Remember that the next time you order from your grocer. Remember, too, that he can supply Cottolene in tins of convenient sizes.

Recipe for

BAKING POWDER BISCUIT

Into two cups of sifted pastry flour sift and mix one level teaspoon salt and two rounded teaspoons baking powder; chop in one level tablespoon chilled Cottolene. Wet to stiff dough with 3/4 cup half water and half milk.

Rolled 3/8 inch thick and cut with 2-inch biscuit cutter this recipe will make about a dozen biscuits.

BOZEMAN RETURNS FROM GREAT TRIP IN NORTH

D. Wood Bozeman returned Saturday morning from Boston, Mass., where he attended a meeting of officers and directors of the United Drug Co.

Wood says that he helped appropriate one million dollars for the purchase of Liberty Loan Bonds of the second issue of 1917, the United Drug Company paying cash for same.

He visited many points of interest while on this trip at the expense of the United Drug Company, who are the manufacturers of the famous Rex-all brand of articles. His sightseeing included a trip into Canada, where he arrived in time to see a contingent of wounded soldiers back from the war zone. Some of the sights, he stated, if witnessed by all America would awaken them to the grim reality of war. The boys are royally welcomed and cared for by the people, and Wood says that Canada is really alive to the situation. Prices up there, however, with the possible exception of tobacco are about as they are here.

He reports the time of his life on this trip, and now that he is back, has settled down to real business in one of the best drug stores in West Texas, where he is dispensing the stuff to make people well and happy.

The world hates a pessimist about as much as he hates himself.

Congressman Blanton

Visits in Pecos

Making Tour of Drouth-Stricken Territory With View of Obtain Relief From Government

Congressman T. L. Blanton came in Sunday morning and, in company with B. T. Biggs and others, visited Red Bluff, the proposed site for the big reservoir.

Mr. Biggs and Mayor Starley have already plans under way for the construction of this dam, yet government aid will hurry up the matter and make the proposition a sure thing.

It may be that Blanton can be of assistance to us in this matter, and he promises now to keep his promises when making his race for office, to do all in his power to further this matter.

Biggs is enthusiastic over the matter since Blanton's visit to the proposed site and the encouragement given in the matter.

Mr. Blanton also visited in the Toyah Valley and Davis Mountains the forepart of the week, looking into cattle conditions. In fact he has been taking notes on the range and cattle conditions from Fort Worth west, and on Wednesday of this week sent the following telegrams, in an effort to relieve that most important industry of West Texas:

Honorable Herbert C. Hoover, Food Administrator, Washington, D. C.

Have just inspected drouth conditions from Fort Worth to El Paso. Situation west of Eastland county tragic in the extreme. Without seeing, you cannot conceive of such awful conditions. Thousands of farms are bare as public roads. Thousands of farmers have been forced to leave the country in order to avoid starvation.

Fire destroyed the house owned by Judge Meier, and in which W. W. Massey and family were living on last Monday evening at about 3:30 o'clock. It caught from a flue in the kitchen. The crowd that soon gathered after the alarm was given did all they could to save the building, but the fire had gained such headway that it could not be checked.

THOMAS L. BLANTON, Congressman 16th Texas District.

Honorable W. C. McAdoo, Secretary of the Treasury, Washington, D. C.

Have just inspected drouth conditions from Fort Worth to El Paso. Situation west of Eastland county is tragic in the extreme. Without seeing it is impossible to conceive of such awful conditions. Thousands of farms are bare as public roads. Thousands of farmers have been forced to leave country seeking temporary work to avoid starvation.

THOMAS L. BLANTON, Congressman, 16th Texas District.

Anyhow, the new German chancellor has nothing on some of our Senators when it comes to talking several hours and saying nothing.

Toyah Valley Items

(From Toyah Valley Herald)

Mrs. H. Meulster and son were in town from their mountain home Monday with a large load of fruit and vegetables.

L. L. Barlow informed us that he took his first bale of cotton into Pecos last Saturday, and that it topped the market and brought him \$172.10.

Rev. J. F. Loyd filled his regular appointment with the Presbyterian congregation Sunday morning and conducted a Sunday School Rally Service Sunday night.

Mrs. W. L. Kingston and sons, Willie and Duncan, were down from the ranch Monday morning and Master Duncan entered the school at Balmore. Mrs. Kingston and Willie returned to the ranch Tuesday evening.

A. W. Wigley and wife returned the first of the week from an extended trip through the northern part of the state, and say that Toyah Valley looks good to them after viewing other parts of the country.

Mr. and Mrs. Bob Stevenson returned home last Friday from Haskell county where they have been visiting for some time. Bob says that he visited several points in Northwest Texas and that crop conditions are very spotted.

The Sunday School children held a Rally Service at the Presbyterian church last Sunday night, and a very interesting program was rendered, consisting of recitations, songs, etc., after which a collection was taken for the Sunday School Extension work.

B. W. Van Deren and family accompanied by his brother and wife from Kansas City, and the three young lady school teachers, the Misses Mott, Lacey and Holmes, went up in the Davis Mountains last Saturday evening and returned home Sunday evening. They report a very pleasant time.

The big wagon bridge across Toyah Creek, at the rear of the garage, fell in last Thursday night. It was undergoing repairs and had been propped up, while placing cement pillars. We understand that the broken section will be taken out and rebuilt together.

Fire destroyed the house owned by Judge Meier, and in which W. W. Massey and family were living on last Monday evening at about 3:30 o'clock. It caught from a flue in the kitchen. The crowd that soon gathered after the alarm was given did all they could to save the building, but the fire had gained such headway that it could not be checked.

MAN-TROUBLED FOR TWO YEARS

No one should suffer backache, rheumatic pains, stiff joints, swollen, sore muscles, when relief can be easily had. James McCrery, Berrien Center, Mich. says he was troubled with kidney and bladder trouble for two years.

On the other hand if a young married man does not claim exemption, it might be accepted as an indication that he considers that there are worse things than war.

Cincinnati authority tells how to dry up any corn or callus so it lifts right off

You corn pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn stops soreness at once and soon the corn loosens so it can be lifted out, root and all, without a bit of pain.

A quarter of an ounce of freezone costs very little at any drug store, but is sufficient to take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to inflame or even irritate the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this

A CHRISTMAS SUGGESTION

When you make a present of The Youth's Companion you are giving not merely the means of wholesome pleasure and fascinating information every week. The Companion is all of that. But it is something more. Hundreds of letters to The Companion all speak of the influence of the paper in binding home ties.

It is not a publication merely—it's a friend. The Companion alone is \$2. But the publishers make an extraordinary Christmas present offer—The Youth's Companion and McCall's Magazine together for \$2.25.

By special arrangement new subscribers for The Companion can also have McCall's Magazine—the fashion authority—for 1918, both publications for only \$2.25.

- This two-at-one-price offer includes: 1. The Youth's Companion—52 issues in 1918. 2. All remaining 1917 issues of The Companion free. 3. The Companion Home Calendar for 1918. 4. McCall's Magazine—12 fashion numbers in 1918. All for only \$2.25.

It will be sold right to the right party with or without the cash so sufficient security is given. If you are looking for a bargain do not pass this up. 50tf

WANTED

We want a tract of several hundred acres of land in a country where the land is reasonably productive and adapted to a variety of crops. The principal crops being corn, peanuts, field peas, sorghum, hay, fruit and vegetables, and a native grass that will turf and set to a regular stand. Would like for 1-4 to 1-2 be in state of cultivation. Would not object to it being in small tracts, provided the tracts join. We want as cheap land as we can find, but don't care to sacrifice everything else for cheapness. A few miles from railroad would not be seriously objectionable. Want good water for drinking and stock. If you have a tract that will come up to the above description let us hear from you. Respectfully, F. P. RICHBURG LAND & RENTAL COMPANY, Pecos, Texas.

If tin tags like these can be made for one-half of a cent each at a good profit, why was a bill proposed in the legislature to force the farmers to mark the 3,800,000 bales of Texas cotton with these tags at ten cents each? WHY? "For the good of the farmer"—so said the legislator who introduced the bill. Do you believe it? These tags at 1/2c each would have cost \$19,000. At 10c each they would have cost \$380,000. That would have made a minimum profit for somebody of \$361,000! SOME profit! Who do you believe would have benefited from this bill—the farmer or the man who made the tags? Read all about it in

FARM and RANCH The Farm Paper of the Southwest

Farm and Ranch is now running Senator Willacy's compelling story "The Heavy Hand of Invisible Rule" which throws the brilliant light of publicity on all the underground and nefarious forces that control our state government and make away with millions of the people's money every year. If you are tired of paying high taxes, Read This Story. If you are sick of seeing your money going to the support of Invisible Rule READ THIS STORY! If you think it's about time we had a general clean up in the government of this state and want to know how to go about it, READ THIS STORY!

COULD HARDLY STAND ALONE

Terrible Suffering From Headache, Sideache, Backache, and Weakness, Relieved by Cardui, Says This Texas Lady.

Gonzales, Tex.—Mrs. Minnie Phillips, of this place, writes: "Five years ago I was taken with a pain in my left side. It was right under my left rib. It would commence with an aching and extend up into my left shoulder and on down into my back. By that time the pain would be so severe I would have to take to bed, and suffered usually about three days. I suffered this way for three years, and got to be a mere skeleton and was so weak I could hardly stand alone. Was not able to go anywhere and had to let my house work go...I suffered awful with a pain in my back and I had the headache all the time. I just was unable to do a thing. My life was a misery, my stomach got in an awful condition, caused from taking so much medicine. I suffered so much pain. I had just about given up all hopes of our getting anything to help me. One day a Birthday Almanac was thrown in my yard. After reading its testimonials I decided to try Cardui, and am so thankful that I did, for I began to improve when on the second bottle...I am now a well woman and feeling fine and the cure has been permanent for it has been two years since my awful bad health. I will always praise and recommend Cardui." Try Cardui today. M 78

J. L. Furr is back from a trip to El Paso. Miss Cora Schillings went to Pecos Tuesday. C. R. Troxel was a business visitor to Pecos Tuesday. Rev. B. G. Richbourg was a visitor to Pecos Tuesday. H. T. Mitchell has moved to the house next door to Bessires'. Mr. and Mrs. F. J. Billingslea were business visitors to Pecos Saturday. Alex Davis has returned from a recent trip with horses to Grimes county. Miss Mabel Bessire went to Pecos Friday and remained over until Saturday. Mrs. Ernest McElroy returned to Toyah last week after a visit to old friends in Toyah. Miss Marie Marlin has returned to her home at El Paso after a pleasant visit to Mrs. C. W. Crawford. Miss Julia Padgett left Tuesday for Pecos, after a visit of two weeks in Toyah, the guest of Mrs. Alex Davis. Felix Scholz, Cary Thompson, and A. H. Bugg were among those who went to Pecos on business Saturday. Mr. and Mrs. Pratts and daughter of Marshall, arrived last week and are occupying the home place of H. T. Mitchell. Mrs. Mac Saylor entertained with a Missionary Tea Saturday night as a church benefit. A delightful time is reported. Rev. Faust of Van Horn, filled the pulpit at the Methodist church Sunday at eleven, and Sunday night, this being his regular appointment. Mrs. Lydia Clark and children left last week for Arkansas where they will reside in the future. Mrs. Clark's mother, Mrs. Bohanan, will follow the family later. Mrs. J. P. Seay arrived Friday from Dallas where she is spending the winter, and where the children are attending school. She will visit Uncle Joe and other relatives for about a week before returning. Mr. and Mrs. F. A. Bessire delightfully entertained with a six o'clock dinner Thursday. To say the immaculate laid table was well filled with all manner of good things to eat but poorly expresses it, for it verily groaned with the choicest viands prepared to a queen's taste, for Mrs. Bessire is well versed in the culinary art. The following were the guests: Mr. and Mrs. F. J. Billingslea, Mrs. Alex Davis, and Misses Adams and Lloyd, and Miss Julia Padgett of Hoban.

WANTS ALL THAT IS COMING TO HER IN THE SCHOOL. Recently Wilrena, the little eight year old daughter of Rev. and Mrs. B. G. Richbourg, of Toyah, took it upon herself to add music to her other studies, and had been taking lessons for a week before her parents knew of it. It came about after this manner: The little lady is a worker, bright and studious, and started out with the intention of getting all that is coming to her in the splendid public schools of Toyah, and knowing that music was part of the curriculum of the school reported at that institution for instruction. Upon inquiry from her devoted father as to why she did it, she merely had this to say: "I thought I would take all that is coming to me in the school." It is needless to say that she is still taking music lessons. The Enterprise predicts this little lady will make a mark in this old world.

RED CROSS BENEFIT. On Thursday, October 25th, the ladies of the Victoria Club, of Toyah, gave a free will benefit for the Red Cross at the home of Mrs. M. McAlpine. A very pleasant afternoon was spent playing Rook, there being ten tables of players. In the evening both ladies and gentlemen played 42. Delicious refreshments were served both in the afternoon and evening and an enthusiastic crowd reported a delightful time. A liberal offering was received.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion For A Few Cents and See For Yourself. What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to also whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so that no pulp gets into the bottle and then this lotion will remain pure and fresh for months. When applied daily to face, neck, hands and arms it should help to bleach, clear, smoothen and beautify the skin. Any druggist will supply 3 ounces of orchard white at a very little cost and the grocer has the lemons.—Advt.

The idea of many of our girls marrying slackers make us doubt the wisdom of the old adage: "faint heart ne'er won fair lady."

R. P. Hicks, the dray and coal man, this week brought to The Enterprise office two radishes, planted in his garden in August. One of them has taken on part of the color of soil and the other is of a reddish cast half way on the bottom end and black on the top half. Those who are more familiar with the varieties than the editor can name them. They are of fine size and symmetrical shape; one of them measures 7 1/4 inches in circumference and is 6 inches long, while the other is 6 inches in circumference and 6 inches long. While Mr. Hicks brought them in, it is a safe bet that Mrs. Hicks had a good part in raising them.

NEW PUMP HAS ARRIVED

pleasant and lucrative position, but fighting. The new trailer pump was received last week and has been added to the city's fire fighting apparatus, which makes it very efficient.

The fire boys gave the pump a try-out Monday evening and it proved to be a splendid machine. Two strings of hose were attached to it and in a very few minutes had two streams of water going over the tops of the highest buildings in town, and still the pump did not appear to be working to its full capacity.

The pump is mounted on trucks and is used as a trailer to the hose motor truck, and is one of the best makes of pump for throwing water.

INSTRUCTOR IN AVIATION DEPARTMENT AT AUSTIN

The Enterprise is more than pleased to chronicle the position acquired by young Roy Biggs, son of Mr. and Mrs. B. T. Biggs, of this city. Roy is teaching in the aviation school at Austin. His forte is in demonstrating the phenomena of air, air currents, clouds, fog, and moisture, locating your position by stars, etc. There are about 1500 students in the class. Verily, Pecos is proud of him. Don't forget to list your pasture land with us. Richburg Land & Rental Agency. Advertisement

BEAR HUNTERS BRING HOME THE BACON

Jno. B. Howard returned today afternoon from the Davis Mountains where he had been on a deer hunt. In the crowd of deer were Jno. B. Howard, Elmer Reynolds, and J. J. Baskin, all of Balmorhea.

Howard brought back a deer meat and venison to his home in the Davis Mountains.

The bag up to the time it consisted of three deer. Baskin, Kingston, and J. J. Baskin, and the other two being one of the black-tailed deer.

Jno. B. Howard divided the deer among his friends Wednesday left with The Enterprise family bear roast and a fine lot of deer for which he and his party have sincere thanks of the family.

Each of these gentlemen are riflemen and seldom let a chance get away once they get a glimpse of it. However, on this trip Howard Kingston came upon a big bear with Kingston took a crack at with a shot (he had left his rifle at home) on this occasion in order to get a chance to kill a real bear called Howard to make a try at it when he appeared, and the latter where to look for the bear showed up at the exact spot and Howard cracked away at the bear some eight or ten times and he touched a hair. Evidently the bear's day off and he headed for home afoot.

Howard reports a most beautiful trip, but says it is dry in the mountains and water is scarce.
