War Bread Program Effective September 1

ALL FORMER RESTRICTIONS BY ADMINISTRATION REMOVED TO CONFORM WITH UNIFORM SCHEDULE BELOW

Beginning September first, there will be a universal war bread program, lifting the present restrictions and all bread for America, England, France and Italy and other Allies will be made of mixed flour containing 80 per cent wheat flour and 20 per cent substitute cereals.

The Victor Bread so made is very wholesome, and no difficulty in preparing. It is intended that the public continue to use corn bread as much as possible and corn meal for this purpose should be purchased separately from your combination purchases.

It will be some time before a supply of the new mixed flour will be on the market. In the meantime every one is put on their honor to make bread from a mixture of 80 per cent flour and 20 per cent substitute cereals.

The standard substitutes fixed by the Food Administration which are to be sold one pound for each four pounds of flour are: barley flour, corn meal, corn flour, kafir flour, milo flour, feterita flour, bean flour, and buckwheat flour. Pure rye flour may be sold as substitute in the proportion of two pounds to three pounds of wheat flour.

When the Victor mixed flour is available it will not be necessary to buy substitutes with it, as it will contain the necessary substitutes already mixed.

The above new regulations removes all former restrictions as to the amount of purchase per head in each family. Don't forget that you are expected to continue to conserve in the use of all food stuffs in order that our armies may be relieved of any more stringent restrictions.

T. Y. CASEY,
Food Administrator, Reeves County.

—Pay the President— CATTLE MOVEMENTS DURING THE PAST WEEK

For some time the cattle movements in this sections had the effect of depleting the herds on the different ranches, and there is hardly a stockman that The Enterprise recalls at this time who did not ship cattle either to market or to pastures green. This week, however, the movements recorded below are indicative of the improved condition of the ranges in scattered spots in this section.

Last week Camp Brothers received a shipment of twelve head of choice Hereford bulls shipped to them by Mack Camp from Marfa. They were unloaded at Orla and added to their herd.

Monday of this week they received two cars of stock cattle from Marfa which they unloaded at Orla and added to their herd at that place.

Monday Collier & Love received two cars of stock cattle from Fort Worth, which were taken out to their ranch near Hoban and added to their herd.

—Pay the President— TO ESTABLISH CAMP MEETING NEAR SILVER CITY, N. M.

Sam Means and family who have been here for some time visiting relatives, left Monday on their return to the ranch in New Mexico. They were met in El Paso by Rev. Porter of Dallas, who accompanied them to the Y6 ranch where they were joined by nine auto loads of people, and from there drove to the Joe Evans ranch near Silver City, N. M., where they organized a camp meeting, selected the grounds and are now holding a meeting there.

At the close of the meeting Mr. and Mrs. Means will go on to their ranch near Magdalena N. M.

—Pay the President— KNIFFY KNITTERS

The Kniffy Knitters met with Miss Jessie Heard yesterday afternoon at the home of her aunt, Mrs. Ethel Reynolds. As no thread has yet come for this work the afternoon was spent in playing games of "42", after which ice cream and cake were served.

Teachers' Institute and the School Year

A PLEA FOR CO-OPERATION IN FACING NEW CONDITIONS THAT VITALLY AFFECT EDUCATIONAL SYSTEM

More than in former years the opening of our schools is fraught with meaning for us. So abnormal are conditions that even the minds of our youth will be held to the routine of school work with difficulty. Only deep-seated earnestness and consecrated purpose will avail our teachers if they are to measure up to the grave tasks imposed upon them. Above all, must the fathers and mothers exercise the wisest prudence if they would avoid irreparable injury to their boys and girls.

A few words, therefore, to our people at the threshold of the school year. Our system of education rests in the Trustees the control of our schools. The policy of the law is "the greatest good for the greatest number." It is humanly impossible to locate a school at every door, and the utmost of accomplishment attainable is a judicious expenditure of an inadequate revenue with a view to the education of the maximum number of children. The Trustees receive no compensation for their services and, too often, are made the objects of unthinking or malicious attacks by people either unthoughtful or unappreciative. Your plain duty, therefore, and, much more, your personal interest, demands an intelligent co-operation with the Trustees in the procuring of facilities for the training of your children. You may or may not be big and broad enough to catch and act from this viewpoint, but you may rest assured that, as you do so, will result the measure of good you derive from the school year. If you lend yourself, actively or passively, to the efforts of the more or less petty, but persistent, fault-finders and scandal-mongers you will do your bit toward making the year a failure. It is equally obvious, however, that a patient and honest effort to encourage good work and to discourage destructive criticism and lazy indifference will return dividends in the way of moral and mental vigor for your children. And, too, it is well to bear in mind that your neighbors' children will be similarly benefitted. All the big, broad, generous men and women will, as usual, oppose their wholesome strength and optimism to the anemic elements who know little of and care less for the spiritual life of a community.

Our teachers will succeed or not just in proportion as they catch the spirit of the new age. Some of them will see in full the splendor of the opening day, a number will view it with half-opened eyes, while a few will continue to grope in darkness. We cannot avoid this. As with other professions, teaching has its slayers and parasites, its flabby-minded demagogues and inert hangers-on. Some day a discriminating intelligence, more than human, will weed them out. But not yet. By the mentally and spiritually alert, therefore, must be borne the heat and burden of the day. These will comprehend the richness of the raw material with which they deal, and see with the inward eye the beauty of the finished product. They have sworn by the hunger of their own souls that the boys and girls who sit at their feet shall enter with them the palaces of light. God bless the real teachers, the faithful men and women who hold the keys of Knowledge and wisely point the way to the chambers of Wisdom.

The Institute week opens the school. Its days are sessions of preparation, opportune times for the casting off of weights and the sharpening of faculties, for the armoring of the spirit and the winning of the will to work. Here's the chance for the critical patron to size up the teacher to whom his good money is paid. From a very comfortable chair you may get first-hand impressions of the men and women who will have charge of your children. The teachers must attend, patrons may do so. Here and there during the week, strong educators will deliver their

Negro's Greatest Opportunity Comes With War

COLOR LINE NOT CONSIDERED IN TRAINING MEN FOR PRESENT DUTIES AS SOLDIERS OR FUTURE CITIZENSHIP

The color line plays no part at all in the efforts made by the United States to train, equip, and make suitable for the supreme effort to be made against the Germans, by the men called to the colors by the selective draft act. White man or colored, they are all equally provided for, notwithstanding some of the arguments made by German sympathizers.

Never before in his life has the negro had such opportunities accorded him as he has at the present time in the service of the United States. No more must he keep on a continual scramble for such employment as will afford him bread and meat and clothes for himself and family, to the absolute annulment of any of the chances to better himself. As a soldier in the great armies of the country the black race has an opportunity long desired but never before possible.

At Camp Travis, for instance, the negro soldier has opportunities of schooling, or training along mechanical lines, of training along hundreds of other lines of work that will better fit him when the war is over to take his place in the world. Thousands of negroes have gone from Camp Travis in engineering units, or stevedore companies, or in fighting branches. In every instance they have been able to accomplish much. Especially in the work as fighting men have they called forth the praise of General Pershing and of the French and English military officials.

Aside from his work at drill, with his rifle on his shoulder, or in his studies in the camp bakeries or the cooking schools, or in the mechanical repair shops, or constructing bridges and roads according to the most approved methods, there also is plenty of pleasure for the negro soldier. Schools are open for his study of English, for reading and writing. Thousands of library books are at his disposal. The Y. M. C. A. has a branch open for the negro where he has the benefit of everything the Y. M. C. A. can give him for good.

Entertainments of a literary and athletic nature are provided by the commissions on these various activities. Recently at Camp Travis a negro band of more than fifty members was organized that is developing into one of the finest of its kind in the country. A negro minstrel show displayed such talent that it was invited to perform at neighboring camps and the money thus acquired will be used in the purchase and erection of a negro dance hall near the camp. At certain intervals great field meets are held with cash prizes for clog dancing, jigging, for

boxing, wrestling, leap frog racing, etc. Then there is competitive athletic drill as well as military drill. These are but few of the advantages offered the negro of today.

Added to this is the fact that in the Government service the soldier as a private receives \$30 per month, with his clothes, bedding, a place to sleep, and three good square meals per day. Medical attention is also provided when necessary. The negro in Uncle Sam's army has an opportunity to develop physically, mentally and in every way to make him a better citizen.

—Pay the President— GALLERY OF HEROES AT BRADY-CAMP JEWELRY CO.

No display recently has caused more interest than that in the window of the Brady-Camp Jewelry Co. Surrounded on all sides by the Stars and Stripes are recent photographs of Reeves County boys who are now doing their share to make this a better world in which to live, the majority of them having for their address that significant legend: "Somewhere in France." The display this week is the second of a series that will appear with a complete change from time to time. This week The Enterprise identifies the following:

Virgil Holman, Polly Hollebeke, Dan Mount, Nathan Slover, Walter Sloyer, Jerome Dolezal, Floyd Oden, Homer Christian, Charley Cross and Scotty Clark, representing the Army.

In the Navy department of the group are Ed McMahan and Milton Cross.

In full regalia, by the side of his "Eagle" is Charlie Martin of the Aviation Corps.

Those who have pictures of boys in the service should bring them to the store that this interesting feature may be perpetuated. They will be returned to you in good order.

—Pay the President— QUARTETTE OF PECOS PEOPLE PURCHASE OIL STOCK

D. Wood Bozeman, Monroe Slack, I. J. Sims and Joe Caroline, returned home Wednesday evening from an overland trip to the oil fields at Burkburnett. They were so pleased with the outlook there that they purchased oil stock in one of the companies there, and feel sure that they will make a winning.

Mr. Bozeman, in conversation, stated that he would not say that ten per cent of the crops in much of the country through which they passed would be saved.

FOURTH ALFALFA CUTTING

Thirteen carloads of the famous pea-green alfalfa were brought into Pecos Wednesday from the Toyah Valley, by the P. V. S. Railway.

This represents the fourth cutting which the farmers in that prolific valley have netted this year, and one more good cutting is expected.

The hay finds a ready market in the east and is now worth something like \$28 f. o. b. Saragosa and Balmorhea.

messages to those who have ears to hear. Of course, such auditors will be few, for last year Dr. Benedict, one of the strong men of the nation, was permitted to carry an audience that, for numbers, would have shamed dog-fight, into the infinite distances of the realm of stars. But they will be choice. Still, you are honestly invited to be with us. We will serve ice-water in sanitary drinking-cups and try to make you feel at home. As a matter of fact our schools cost Reeves County over \$30,000.00 per year, and a few minutes spent in looking over your investment will only evidence average intelligence on your part.

I commend the Institute to our people as educational. I commend the teachers to their courtesy, and the schools to their awakened regard. Only those whose eyes are anointed see the full measure of the worldwide spiritual renaissance, but its quickening impulses are beginning to make things anew. The school is the cradle of real reform. The schools, therefore, will be first to find and feel the new life. In war or peace, the school is the strong fortress which guards the invaluable youth that makes secure the future of the Great Republic.

Some day the war will end. Flags will be furled and the tramp of armed men will cease. The noble sacrifice of the Nations will find favor in the eyes of God and peace will dwell in the earth. Until then, and that the manhood and womanhood of the land may fittingly be trained, may our schools prosper in His sight by reason of our loyal earnestness and our devotion to duty.

JAS. F. ROSS, County Superintendent. —Pay the President— DRILLING FOR OIL TO BEGIN HERE AT EARLY DATE

Alfred Tinally left last week for a ten days' or two weeks' business trip in the North. He authorizes The Enterprise to say that upon his return he would at once take up the oil well work and that the actual drilling would begin on the first well at an early date.

—Pay the President— U. S. GUN WIPING CLUB

Tuesday afternoon, August 13th, the girls U. S. Gun Wiping Club met with Edith Hudson. Fifteen were present and 38 shot bags were made. Refreshments of punch and ice cream were served.

On the 20th instant the club met with Jennie Drummond. There were thirteen present and a quilt was worked on. Ice cream and cake were served.

On the 22nd it met with Margaret Howard with nine present, and forty shot bags were made. Ice cream and cake were served. August 27th the club met with Virginia Bozeman, and 30 shot bags were made. The refreshments were ice cream and war cooking.

Yesterday the club met with Annie Lou Cole, 30 shot bags were made. The refreshments were pimento sandwiches, lemonade, and cake.

NOTED AVIATOR WILL BE SEEN IN INTEREST OF DRIVE

When the next Liberty Loan drive is being waged throughout the country the leading cities of the South will have an opportunity to see one of the most famous daredevils in the aeronautic world today. Mr. Rodman Law, who has probably startled more persons by his feats of daring than any other man in the United States, will repeat a stunt that was one of the features of an entertainment arranged for Secretary McAdoo when he was at Kelly Field, San Antonio, Texas, last fall. Law leaped from an aeroplane which was traveling over 5000 ft. in the air at better than a mile a minute, and descended to earth safely in a parachute. A repetition of the feat recently by an aviator in France was the cause of considerable comment in the French papers. Law's itinerary, if it goes through as planned, includes the following cities: Kansas City, St. Louis, Chicago, Buffalo, Albany, N. Y., Boston, Providence, R. I., New Haven, Conn., New York City, Washington, Philadelphia, Richmond, Va., Chattanooga, Tenn., Mobile, Ala., and New Orleans.

B. T. Biggs writes the editor from Thornton, Texas, under date of the 23rd and has the following to say: "Cotton and feed is poor all over Texas, so will be scarce and high priced this winter. Cotton 35 cents here today."

In reference to oil leases and the oil well business here he says: "I have been very successful in getting leases and if I get the leases I am after we will drill as soon as I get home, but the non-resident must lease the same as the home man."

If the non-residents will get busy and make their leases we will soon have an oil well going down.

Our Weekly Letter From Camp Travis

LARGER PORTION OF 90TH DIVISION FORMERLY TRAINED AT CAMP ARE OVERSEAS— HOW TO ADDRESS LETTERS

The 18th Division is the numerical designation announced by the War Department for the new division that is soon to be formed at Camp Travis to fill the vacancy created by the movement of the 90th Division to France. The announcement of the formation of a new division will mean much to those who may hereafter be assigned to Camp Travis on the future draft calls. Until the announcement of the new division the camp has been much of the nature of a combined training and replacement camp. Men who reported may still be in camp or may be moved in a few weeks to fill gaps in divisions elsewhere.

The largest percentage of those reporting to Camp Travis hereafter will probably be retained for the organization of the new division which in every branch will mean the services of approximately 30,000 men and officers. Just what period of time the division will be trained at Camp Travis is problematical and depends greatly upon weather and training conditions. However, five to seven months training is almost a necessity and those who report to Camp Travis hereafter may be among those who will remain in camp for that period of time.

Many of the men reporting to the camp come here overburdened with clothes, toilet articles, etc. They are only here a short time until they find out that these are more in the way than they are necessities. The government furnishes the soldiers with everything that is absolutely necessary. For that reason other than a few toilet articles, really nothing is needed. The Camp Exchanges offer a market for everything the soldier can possibly need and he gets them at cost price plus a very small percentage, and does not pay the wartime prices or the prices of some profiteers. As an example: standard brands of tooth brushes are ten cents below retail price and the prices of other toilet articles would surprise the civilian.

It is far better that those reporting to Camp Travis, now or hereafter, bring very little with them, and wear only their old clothes. They will be returned as soon as possible, can be sent home or donated to the Belgian Relief Society here or to the Red Cross. Especially is the matter of carrying light baggage worth consideration when it is possible that men may be in camp several months, and will have ample opportunity to send home for anything they need when they ascertain just what it is.

Thousands of people in Texas and Oklahoma have friends or relatives with the 90th Division in France or with some other branch of the American Expeditionary Forces. Because of the heavy mail service the United States has had to set down some hard and fast rules for the addressing of mail to the men abroad. The latest announcement from the Postmaster General stipulates: "Mail intended for members of the Expeditionary Forces should bear the addresses and name of the sender in the upper left hand corner and be addressed in the following manner: (1) Name of addressee including his rank, first name in full and initials, if any; (2) Official designation of the unit or organization to which the addressee belongs, as, for instance, 'Company X—Infantry'; (3) The words 'American Expeditionary Forces'."

If the words of the official designation of the unit or organization to which the addressee belongs is not given in the address the matter will not be dispatched and the postmaster at the office of origin shall return the letter to the sender for proper designation.

The proper form for letters to be sent to former members of the 90th Division and to all units in France is:

First be sure to write your own name with full address on the upper left side of the envelope, then address the soldier like this: Private Oscar F. Brown, Company A, 357th Infantry, Ninth Division, American Expeditionary

PLEASE GIVE US OUR DUE

We give you our services, you shut off our beer, But the slacker can drink until it runs from his car. We quit a good job to keep you from harm, But the slacker goes by with a girl on each arm. And he laughs at the soldier—poor unlucky cuss— Girls go with slackers, why criticize us? The slacker rides 'round in a Ford of his own, And charges a quarter to take us to town. We're doing our duty, his liver is white, Yet we leave the streets at ten every night While he sticks around as long as he cares, And laughs at the soldiers wherever he dares. Discipline, we know, is a thing that must be; But, honest to goodness, we fail to see If the soldier drinks nothing but water and "pop", Why the drinks of the slacker can't also be stopped. If the slacker can dance, it seems rather hard That at all decent dances the uniform's barred. We've shouldered our rifles and taken our places, And we'll go to death with smiles on our faces; But this is our honest appeal to you: Until we cross over, PLEASE GIVE US OUR DUE.—Exchange.

WEEKLY FINANCIAL REVIEW

Within the last year under war conditions, the twelve Federal Reserve Banks of the United States have shown a rapid growth. A comparison of the resources and liabilities reported at the close of business August 16, 1918, with similar reports made August 17, 1917, shows a remarkable increase in the strength of the Federal Reserve System.

Total resources in the year more than doubled, amounting to \$2,048,442,000 then and to \$4,242,384,000 now. This increase was caused principally by the tremendous expansion of the banks' discount business, that may be measured from the report of only \$299,275,000 bills on hand a year ago as compared with \$1,497,572,000 now. Gold reserves in the year jumped from \$1,374,583,000 to \$1,992,543,000, and this made it possible to expand credit operations many times.

Among the liabilities, members' reserves increased from \$1,130,817,000 to \$1,464,011,000, and gross deposits from 1,425,480,000 to 2,136,002,000. The amount of Federal Reserve notes in circulation nearly quadrupled, being reported at \$558,782,000 a year ago and \$1,985,419,000 now.

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of Reeves County—Greeting:

You are hereby commanded to summon J. L. Manning and D. T. Manning by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Reeves County, to be held at the Court House thereof, in Pecos, Texas, on the 3rd Monday in November, A. D. 1918, the same being the 18th day of November, A. D. 1918, then and there to answer a petition filed in said Court on the 3rd day of July, A. D. 1918, in a suit numbered on the docket of said Court No. 1790, wherein Mrs. S. C. Heard is plaintiff, and H. S. Earle et al, are defendants, and said petition alleging, That on December 23rd, 1913, the defendant, H. S. Earle, executed and delivered to the plaintiff three promissory vendor's lien notes two of said notes being in the sum of \$1666.66 and the third of said notes being in the sum of \$1666.68, due in one, two and three years from date respectively, said notes payable to the plaintiff in Pecos, Texas, bearing 8 per cent interest per annum from date, providing for the usual 10 per cent attorney's fees. That said notes were given as part of the purchase price of the following described real estate, situated in Reeves County, Texas, to-wit: 1st Tract. Being 163.75 acres in Section No. 68, Block 4, H. & G. N. R. R. Co. survey, described by metes and bounds as follows: Beginning at an iron pipe in S. boundary line of said Sec. 68, at SE corner of an 80 acre tract patented to J. B. Heard out of said section, for the SW corner of this tract; thence N 56° 45' E 2009.5 varas, with S boundary line of said Section 68, to an iron pipe on W bank of Pecos River, the SE corner of said section 68, and SE corner of this tract; thence up said river with its meanders, N 59° 15' W 493 varas, and N 14° 15' E 45 varas to a stake on W bank said river, for the NE corner of this tract; Thence S 56° 45' W 1870 varas to an iron pipe, the NE corner of said 80 acres patented to J. 2nd Tract. Being 2.88 acres in said Sec. 68, Block 4, H. & G. N. R. R. Co. survey, said Reeves County, and being a triangular tract out of said 80 acres in said Sec. 68, patented to J. B. Heard; Beginning at iron pipe set in the S boundary line of said Sec. 68, at a point where said section line intersects the center line of the Public Road, same being the SE corner of a 4.83 acre tract conveyed by J. B. Heard to R. S. Grissom, from which corner an iron pipe

E 417.2 feet; thence N 1° 29' E with center line of said Public Road, at 497.5 feet pass an iron bolt in center of said road, the NE corner of said Grissom tract, 731.5 feet to a harrow tooth driven in ground at point of intersection of the center line of said road with the E line of said 80 acre tract patented to J. B. Heard, for N corner this survey; thence S 33° 15' E 602.4 feet, with E line said 80 acres patented tract, to an iron pipe for SE corner this tract, same being the SE corner of said patented tract; thence S 56° 45' W 417.2 feet to place of beginning; together with water rights Nos. 293 and 294, issued to J. N. Heard by the Barstow Irrigation Co. for Water Tracts 15 and 16, of 40 acres each.

That said land was conveyed to the defendant H. S. Earle by the plaintiff on the 23rd day of December, 1913, and said notes were executed in part payment thereof, and plaintiff retained a lien on said land for the payment of said notes; that the interest on all of said notes has been paid to the 23rd of December, 1915, and that additional sums of \$57.00 and \$149.28 of dates December 20th, 1916, and December 23rd, 1917, respectively, have been paid on the first of said notes. That the defendants, J. L. Manning and D. T. Manning are claiming some right or title in and to said property. That all of said notes are past due and unpaid except the interest aforesaid, and plaintiff has placed said notes in hands of attorneys for suit and prays judgment for the amount of said notes, principal, interest and attorney's fees, together with a foreclosure of her lien on said described property, and for costs of suit.

Herein fail not but have before said Court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said court, at office in Pecos, Texas, this the 24th day of August, A. D. 1918.

THE UNIVERSAL CAR

When you compare the low prices of Ford cars with the prices of farm produce, farm stock and everything else on the market, the great value of the Ford car can be fairly estimated. The price of the Ford Touring car is only \$360 f. o. b. Detroit—the same as last year. It is the greater value, not only among motor cars, but in the whole run of articles grown and manufactured. Think of a five-passenger motor car with the reputation for service, durability, and economy that's behind the Ford car, selling for \$360! We urge prospective purchasers to give their orders without delay.

Every time the Hun is pushed back the people are told that it is a strategic retreat, and a celebration follows.

The Enterprise has a nice list of names on its subscription books of boys serving the country overseas to whom the paper is sent each week by relatives.

The daily press reports that the "Clown" Prince is at the head of the German army in front of Haig.

"Another shot fired from Mexico and I will take every available man over and put a stop to this foolishness," was the gist of a message of the American commander at Nogales Wednesday evening.

The "old swimming hole" is very much a reality with Pecos people at last. 'Twas a time, and not long ago when a bathing suit in this section would have created as much commotion as did the first airplane.

The Enterprise is glad to note that some system has been injected into the movement to help drought sufferers in the stricken areas of Texas.

Again The Enterprise wishes to remind the people that one of the best ways they can help in the war is to write to the boys who are now in the service.

making the supreme sacrifice deserve a great deal from us at home, an occasional letter is very little indeed.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts Like Dynamite on a Sluggish Liver and You Lose a Day's Work There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel. It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate. Children and grown folks can take Dodson's Liver Tone because it is perfectly harmless. Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than the horrible calomel your money is

Plans for Student's Training Corps

NEW DRAFT WHICH INCLUDES AGE OF 18 MODIFIES PLANS ORIGINALLY FORMED FOR THEIR MAINTENANCE

Dr. R. E. Vinson, President of the University of Texas, who was recently appointed Regional Director of the Students' Army Training Corps for the states of Texas, Oklahoma, New Mexico and Arizona, and who has recently returned from Washington, made the following announcement in regard to the Training Corps and the effect of the new selective draft, which will call to active service those reaching the age of 18, will have upon them:

"The plans for the organization of units of the Students' Army Training Corps in various educational institutions in the United States doing standard college work, have been considerably modified by the terms of the proposed new Selective Service Act which is now pending in Congress. This is mainly due to the fact that the bill would place all men between the ages of 18 and 20, inclusive, upon the list of those eligible for immediate military service, instead of on the training basis, as was contemplated under the orders previously issued by the War Department. The Committee on Education and Special Training, however, has gone forward with its plans for the organization of the Students' Army Training Corps, and is ready to receive application from all institutions doing two years of standard college work or more to be designated as institutions where Students' Army Training units may be maintained.

"The committee has presented to the general staff and to the Secretary of War a program looking to the utilization of the faculties and physical equipment of the institutions above designated as training schools for officers, but the details of this plan can not be announced at this time, pending the decision of the authorities in Washington. I am looking for immediate action in this matter, but, in the meantime, would advise every boy in the states of Texas, Oklahoma, New Mexico and Arizona, eighteen years of age or above, to make his plans to enter some higher educational institution next session, and I would advise all boys eighteen years and above who are not qualified to enter some educational institution of college grades to hold their plans in abeyance until definite announcement can be made by the War Department.

As I have been appointed the Regional Director of the Students' Army Training Corps for the states of Texas, Oklahoma, New Mexico and Arizona, it insures the prompt receipt of all official information. This will be given to the press and will be sent out in circular form to heads of all colleges in this district immediately upon advice from Washington.

ROBERT E. VINSON.

CITATION BY PUBLICATION

THE STATE OF TEXAS. To the Sheriff or any Constable of Reeves County—Greeting:

You are hereby commanded to summon H. E. Lemer by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Reeves County, to be holden at the Court House thereof, in Pecos, Texas, on the 3rd Monday in November, A. D. 1918, the same being the 18th day of November, A. D. 1918, then and there to answer a petition filed in said Court on the 15th day of August, A. D. 1918, in a suit numbered on the docket of said Court No. 1796, wherein W. O. Mathis is plaintiff, and J. N. Johnston, H. E. Lemer, W. R. Hunt and wife, S. E. Hunt, are defendants, and said petition alleging that heretofore, to-wit, on or about the 11th day of July, 1913, the defendant, H. E. Lemer executed and delivered to the defendant J. N. Johnston his four certain promissory notes bearing said date, each for the sum of \$250.00, numbered 1, 2, 3, and 4, respectively, and due 6, 12, 18 and 24 months after date, respectively, and payable to the order of J. N. Johnston, with interest from date at the rate of 8 per cent per annum, and signed by the defendant H. E. Lemer and further providing among other things, that if placed in the hands of an attorney for collection or collected by legal proceedings, 10 per cent additional of the principal and interest due thereon would be paid by the maker as collection fees, whereby the said defendant H. E. Lemer promised and became bound to pay to the plaintiff the amount of said notes according to the terms and conditions thereof. That simultaneously with the execution of said notes and as a part of the consideration thereof, the said defendant J. N. Johnston executed a deed conveying to the said H. E. Lemer that certain tract or parcel of land lying and being situated in the County of Loving, State of Texas, known and described as Section 42, in Block 54, Tsp 2, Certificate 4945, T. & P. Ry. Co. Survey, in Loving County, Texas, and in said deed expressly retained a vendor's lien to secure the notes above described upon said land, which said notes on their face acknowledge said lien; that the said defendant H. E. Lemer failed and neglected to file the deed aforesaid for record in Reeves County, Texas, and the said defendants and each of them are notified to produce said deed on the trial hereof or secondary evidence thereof will be offered.

That the defendants W. R. Hunt and wife, S. E. Hunt, are claiming some right, title or interest in and to the said land above described, through plaintiff alleges that any such right, title or interest is inferior to the lien of plaintiff securing the notes aforesaid.

Plaintiff further alleges that the said defendant J. N. Johnston prior to the maturity of any of said notes and for a valuable consideration transferred and assigned said notes to the plaintiff, together with said vendor's lien securing same, and said notes are now the property of the plaintiff; that same are past due and unpaid, and have been placed in the hands of Howard & Cooke, attorneys, for collection and this suit instituted thereon, whereby the said defendant has become liable for 10 per cent additional on the principal and interest as attorney's fees.

WHEREFORE, premises considered, plaintiff sues and prays that the defendants each be cited to appear and answer this petition; that the defendant H. E. Lemer be cited by publication as required by law, and that on final hearing, the plaintiff have judgment for his debt, principal and interest and attorney's fees, for all costs of suit, and for foreclosure of the said vendor's lien upon said premises, for order of sale, writ of possession, and such other and further relief as plaintiff may be entitled to in the premises, and plaintiff will ever pray.

Herein fail not, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Pecos, Texas, this 17th day of August, A. D. 1918. S. C. VAUGHAN, Clerk Dist. Court, Reeves Co., Texas. By MAGGIE GLOVER, Deputy. First insertion Aug. 23 Last insertion, Sept. 13

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

JUNIORS ENTERTAINED

Mrs. John Hibdon, who is superintendent of the Junior Epworth League and Junior Missionary Society of the Methodist church, assisted by Mrs. J. H. Walker and Mrs. Ben Randals, delightfully entertained the members of these two societies Friday afternoon at her home in honor of her son, John Hibdon, Jr., and his friend, Charles Melville Kiker, both of whom will be leaving soon, John for Dallas, where he will be in school during the ensuing year and Charles Melville for Birmingham, Ala., where with his parents, Mr. and Mrs. M. P. Kiker, he will make his future home.

Many fascinating games were enjoyed after which ice cream in cantaloupes were served to the following: Misses Virginia Runnels, Ruby Eggleston, Ida B. and Susie Hines, Hettie Lois Randals, Aulene and Ruby Mae Stephen, Amy Schermehorn, and her cousin, Evelyn McCary of Shreveport, La., Rose Ward, of Big Spring, Janice and Helen McKellar, Lillian Wells and Masters Donald Runyon, Raymond Norwood, Charles Walker, Tellus Randals, Harold Moyer, Charles Melville Kiker and John Hibdon, Jr.

To Our Friends and Customers

We regret very much that conditions are such on account of the drouth in this section and general financial conditions which cover all sections where we purchase goods have come to such that it is impossible for us to get credit. We understand that the Government has asked the banks not to loan us money and the wholesale houses and factories have demanded Cash from us. The general public of course knows we cannot pay Cash unless we sell for Cash therefore we the undersigned have agreed to extend to our patrons even a more liberal deal than we receive and its this, to give those who are entitled to it 30 days Credit only, and all bills not paid on the 1st and not later than the 5th of each month the account will be Closed without further notice.

About 90 per cent of the Drug Stores of West Texas have been forced to begin selling for Cash only.

NEW EDISON

"The Phonograph with a Soul"

But your "somedays" will never come until you turn them into todays. Every day you say "someday" you lose twenty-four hours that can never be regained. You have but one life to live. If you would live that life to the full, you should do as much today as possible, because you know not what tomorrow will bring.

Then, why not make TODAY your "someday?" Then, perhaps tonight, or at the latest, tomorrow night, you can be listening enraptured to the most exquisite music re-created by the New Edison right in your own home. We are ready to send up one of Mr. Edison's marvelous new instruments without the slightest cost or obligation to you.

Gratify your anticipation TODAY—know the delights of possession, not in the vague future but NOW.

Scores of Pecos people can tell you about Doan's Kidney Pills. Many a happy citizen makes a public statement of his experience. Here is a case of it. What better proof of merit can be had than such endorsement?

Ben Palmer, attorney at law, Cypress St., Pecos, says: "I used Doan's Kidney Pills several years ago and while I have never been a great sufferer with my kidneys I found them to be very good. I think they are a good, reliable medicine and gladly advise anyone to get a box of Doan's Kidney Pills at the City Pharmacy if troubled with weak kidneys."

Cincinnati Man Discovers Drug That Loosens Corns So They Lift Out

Good news spreads rapidly and the druggists here are kept busy dispensing freezone, the recent discovery of a Cincinnati man, which is said to loosen any corn so it lifts out with the fingers.

A quarter of an ounce costs very little at any drug store which handles drugs, but this is said to be sufficient to rid one's feet of every hard or soft corn or callous.

You apply just a few drops on the tender, aching corn or toughened callos and instantly the soreness is relieved and soon the corn or callous is so shriveled that it lifts out without pain. It is a sticky substance which dries when applied and never inflames or even irritates the surrounding skin.

This discovery will prevent thousands of deaths annually from lockjaw and infection heretofore resulting from the suicidal habit of cutting corns.
