W. W. Stewart Member Oil Development in Important Committees County Progressing

IS MADE CHAIRMAN OF PUBLIC LANDS COMMITTEE AND SECURES PLACE ON CONSERVATION COMMITTEE

A letter from W. W. Stewart of Balmorhea, who is now at Austin as Representative of the 120th District, writes to the editor that several copies of the House Journal will be sent in a few days. The copies will contain a record of the organization of the 36th Legislature of Texas, and will show to what field of usefulness each member thereof has been assigned.

Stewart has been signally honored by being named chairman of the Public Lands Committee of the House. His request was that he be placed on committees whose acts would materially affect the interests of West Texas, and he was placed on what is now called the Conservation Committee, whose duties largely will have to do with oil, mining, gas and roads. It can be seen at a glance that present laws along these lines are unsatisfactory, especially those relating to oil, gas and mining, and Mr. Stewart will have ample opportunity to place the needs of his people before the different bodies. This he promises to do to the best of his ability in an endeavor to secure results that will pave the way for a bigger and greater West Texas.

Through The Enterprise Mr. Stewart invites the counsel and advice of the people he represents, that out of such cooperation good may accrue to our common country. Stewart requests, above all to send The Enterprise to him as he cannot legislate worth a whoop without its guiding influence.

Mrs. R. L. Barlow of Balmorhea, arrived Wednesday to nurse her friend, Mrs. W. H. Drummond and son, Frank, who are ill with influenza.

Roy I. Biggs, who has been serving Uncle Sam as an instructor in aviation at Fort Sill, Oklahoma, for nearly a year, is home again, having arrived last week.

RIGS IN PECOS AND TOYAH OIL FIELDS GOING DOWN—SHOW OF OIL WITH STRONG GAS PRESSURE AT TOYAH

The oil resources of Reeves county are now in fine way to be developed. Two rigs, at widely separated points, are now boring in an endeavor to tap the precious flow that is certainly beneath the soil.

Last week the Sunshine Oil Corporation spudded in on the Laura Well site seven miles north of Pecos, and progress during the present week has been fair, though The Enterprise was unable to see the promoters to ascertain the correct depth. Great faith is pinned on the operations of this company for several reasons, the main one being that the spot selected was passed upon as the most likely one in this vicinity by the several geologists employed by the company in the preliminary surveys. All reports centered on this location, no matter how they differed in other respects.

In the Toyah fields the Troxel Oil Company struck shallow oil in their well accompanied by a strong gas pressure. In this field oil is struck at a shallow depth but not in commercial quantities. The first oil is of very high per cent, and without refining can be used on machinery. The flow is struck anywhere between 125 to 180 feet.

The operations of the Texas Company in the Toyah field, and their sudden shutting down, has removed from the minds of many faith in oil development in that vicinity. But, on the other hand, many are of the opinion, and rightly so, that the capped well on their holdings needs but a few more jabs of the drill to produce a gusher.

The action of the Texas Company, no doubt, clouded the situation to a considerable degree, but it has never shaken the faith of those who have even casually investigated, that oil in quantities unsurpassed in any field lies beneath our soil awaiting the tap of the drill. The companies now in the field have a flying start in that direction.

Macaulay After the Coast to Coast Record

FLYER FROM TALIAFERRO ATTEMPTS TO OUTDO ALL PREVIOUS FEATS—HALF OF TRIP TAKES FOUR DAYS

Major Macaulay, who has paid several flying visits to our city, was as good as his word to drop in on us some day. He did that very thing Sunday morning while the religiously inclined of our population were about to start their Bible lessons at the various churches, and by the same token the Major succeeded in disrupting the study period altogether.

His visit was a decided surprise to the people for The Enterprise did not even hear it hinted that we were to be visited by an airplane any way soon. On this trip Major Macaulay was using one of the famous De Havilland bombing planes and his purpose was to fly from Fort Worth to San Diego in twelve hours, to return to Fort Worth within the next twelve hours and then fly to the Atlantic coast and back in another twenty-four hours. Everybody along the route was pulling for the Major and the experiment was watched with no small interest by officials at Washington. Trouble, however, seemed to stalk in the flyer's wake, and between Fort Worth and this place he was forced to land on account of minor troubles. Actual flying time from Taliaferro to Pecos was four hours, a large part of the route being covered at an average speed of 115 miles an hour.

On reaching Pecos precious minutes were lost because the aviator couldn't locate the new landing station and, after several circles he was forced to land at the old station east of town.

Notwithstanding these mishaps the trip to the coast was made in good time, but the return was delayed by an accident at Casa Grande when the Major, to avoid running into the crowd gathered there, ran the plane into an irrigation ditch damaging the wheels, and from then on he experienced more or less trouble with the engine, and on reaching Pecos Wednesday afternoon had to install a new battery.

The object of the flight was lost to the Major, but he has the grit and one of these days it is hoped that the jinx that seems to follow him will stay at home.

The second landing was made at the new station west of town and Major Macaulay expressed delight at the fine work, and stated he doesn't know how in the world he missed it Sunday, as the markings are plain.

Mrs. J. C. McMillan arrived the latter part of last week from Clovis, N. M., for a visit with her parents, Mr. and Mrs. Ed. O. O'Connell, and to her home yesterday.

TOYAH VALLEY FARMERS SHIP HAY AND COTTON

Though the haying season is past, the farmers in the Toyah Valley have had such phenomenal success during the 1918 season, notwithstanding the fact that all other sections of West Texas failed utterly on account of the drouth, shipments of alfalfa still continue from that section.

Cotton, also has taken a place in the spotlight out there, the acreage planted last year demanding the installation of a new gin at Saragosa. Recent shipment of hay, cotton, and cotton seed are as follows:

Last Saturday fourteen car of hay were shipped from the Valley to eastern points.

The same day one car of cotton seed was shipped.

Wednesday of this week shipments were: one care of cotton, one of cotton seed, and eleven cars of hay.

Miss Mary Wilcock and little sister, Alice, arrived Wednesday from their home at Lubbock for a visit to their sister, Mrs. R. P. Hicks and family.

HOBAN PEOPLE HARD HIT WITH INFLUENZA EPIDEMIC

The Hoban neighborhood is just emerging from a siege of influenza that leaves that sparsely settled section more so than ever. Hardly a person in that little farming district escaped the ravages of the epidemic.

Two deaths among the American population was the toll, those of Mrs. Yaws, who was buried last week, and Miss Mamie Yaws, who was laid to rest in the local cemetery last Sunday.

One pitiable sight is that of an old Mexican who has been with the Collier-Love interests for more than fifteen years. Eight children were taken from him, first and last, by influenza.

The Enterprise is glad to state that the good people of Pecos did all in their power to minister to those who were ill and without relatives to look after them, and as a result the situation is much improved out there.

ENTERPRISE JUST LIKE A LETTER FROM HOME

People, once residents of this section, now removed to distant points, appreciate the weekly visits of the Enterprise. Every week the editor is in receipt of many letters telling him how much the paper is appreciated. Occasionally one is reproduced to remind the people that when they are at their wit's end, looking for something to send relatives as gifts on holidays and birthdays, that one that never fails to please is right at hand—the home paper. From R. R. Rodgers, who for years, until Uncle Sam made substitutes popular, made the best bread Pecos ever did or will smack their lips over, the following letter was received:

The Enterprise.
Pleased find enclosed check for renewal for another year. Simply can't get along without The Enterprise. Just like a letter from home. The ONLY PAPER my wife will read.

I am doing a good business here, and the future prospects for town and county are very bright. Remember us to Pecos friends.

R. R. RODGERS.

Rodgers, by the way is proprietor of the Liberty Bakery at Alamogordo, N. M.

CATTLE SHIPMENTS

Saturday, January 18, H. C. Slack shipped out from Saragosa to Peyton & Cabott at Canutillo, two car of cattle.

Sunday J. L. Fuqua shipped seven cars of cattle from Hereford to Allamore.

The same day eleven cars of cattle were shipped by W. H. Fuqua from Friona to Allamore, and four cars from Friona to Van Horn.

Tuesday of this week Thurman & Gibson shipped eleven cars of cattle from Friona to Van Horn.

Demand the best of other; in return you'll get the best you have.

Ward County Wins Privilege to Name Ship

IS ONE OF TEN COUNTIES HAVING LARGEST OVERSUBSCRIPTION TO LOAN—CULBERSON HAS SAME HONOR

Mrs. Woodrow Wilson was accorded the privilege of naming the ships built by the United States Shipping Board, which are being turned out in large quantities notwithstanding the fact that submarine warfare is at an end.

The wife of the President thought it would be a suitable action to give every Federal Reserve District the privilege of naming ten ships after those counties showing the greatest over-subscription of their quotas to the Fourth Liberty Loan combined with the greatest number of individual subscribers. The awards in the Eleventh Federal District have been made very carefully and the combined percentages of oversubscriptions with percentages of population buying bonds is shown against the ten counties naming ships. The ships will be christened at an early date and the county chairman in each case will be asked to name a sponsor who will probably be a lady in each case.

It was arranged with the War Department that ten tanks should be named by the incorporated cities of the Federal Reserve Districts showing the greatest over-subscription together with the greatest number of subscribers. In view of the fact that tanks are not now being made and will never go into actual warfare, a request has been made of Mrs. Wilson that she allow the authorities to name ten more ships in place of the tanks. The decision will be made at an early date and the cities interested will be immediately advised.

The ten counties to name ships are as follows:

Culberson, Potter, Wichita, San Augustine, Dallas, Oldham, Jeff Davis, Harris, Galveston and Ward.

The ten towns to name tanks are: Lordsburg, N. M., Atlanta, Texas, Fort Worth, Texas, Freeport, Texas, Rockport, Texas, Rayville, La., Dalhart, Texas, Sherman, Texas, Vernon, Texas, and Weatherford, Texas.

ARMSTRONG IS LOCATED AT RANGER POSTOFFICE

A letter from Alex Armstrong, received this week, states that he is located at Ranger, and is as busy as four cranberry merchants. He wants The Enterprise, and wants it bad, and states that after a hard day's work he gets more relief by a perusal of the doing of his friends in this section than anything else.

Alex is a hustler, courteous, any chevalier of old ever dared to be, and when the people of Ranger become acquainted with his qualifications it's a cinch they'll never let him come back here, only, perhaps for short visit during the holidays.

Rehabilitation of Disabled Soldiers

PROVISIONS TO BE MADE FOR THEIR MEDICAL CARE AND RE-EDUCATION BY THE U. S. WAR DEPARTMENT

The War Department has just made public the following statement by M. W. Ireland, Surgeon General of the United States Army which is being placed in the hands of every returning disabled soldier:

"Upon your arrival in port you will be sent to a debarkation hospital for a very brief stay. From there you will be sent to the general hospital, base hospital, or convalescent center, the nearest to your own home. Of course, when special treatment is required it may be necessary to have you sent to the hospital where there are facilities for this treatment. If your condition is such that you do not need hospital treatment you will be sent to a convalescent center in an Army Camp nearest your home until entirely recovered and ready for discharge.

"In the cure of the sick and wounded soldier, not only the ordinary measures of medicine and surgery will be used, but also physical measures, such as are employed under physiotherapy; active exercises; indoor and outdoor games; massages and curative occupation in the hospital wards, curative workshops, and gardens. This treatment is for the purpose of correcting, as far as possible, the defects and disabilities of the soldiers.

"The curative workshops are established in the section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Catarrah is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrah Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrah Medicine fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, Etc. Hall's Family Pills for constipation.

established to restore the use of injured parts of the body through useful work. The ankle-joint, for instance, that has become stiffened through injury, is made to function again by exercise on a foot power machine such as a band saw, jig saw, printing press, etc. The patient while getting the curative exercises, has something to do which keeps his hands and head busy, takes his mind off his disability and may be of educational value to him in his occupation.

"The curative workshop activities are under the charge of the hospital educational service. This provides for each patient according to his needs: (a) Besides occupation to divert his mind from his sickness or injury, and to give him something worth while to do while he is confined to the bed and ward. (b) A curative occupation in the ward, the shops or gardens. (c) Opportunities for study and instruction in bed, or in shops in subjects that will help him in civil life after his discharge. (d) Preliminary work in reeducation for a new occupation if his injury is of a nature that he cannot return to his old occupation. (e) Advice in regard to vocational reeducation and occupation for discharge. Also in regard to compensation to which he may be entitled from the War Risk Insurance Bureau.

"Whether you take advantages of the opportunities offered you by the Educational Service depends upon yourself. You are not required to do so. It will not affect the length of the time that you will remain in the hospital. The opportunities are offered to you to assist your recovery in the shortest length of time possible, so that you may spend the time that you are in the hospital undergoing treatment for your own best personal advantage.

"All men who have been disabled so that they cannot follow their old occupation, or cannot follow it successfully, are provided by the Government with an opportunity for reeducation for new occupation after cured or discharged from the Army. This reeducation is under the direction of the Federal Board for Vocational Education. It may be in a college, technical trade, commercial or agricultural school near his home or in an industrial plant or on a farm. The Government pays the entire expense, including the cost of instruction and living expenses. If any man has dependents, the Government pays for them the same allowances that it paid while he was a soldier.

"The Government has provided a compensation for all men who unfortunately have become permanently disabled in whole or in part. The compensation depends upon the nature of the injury and is not effected by reeducation course that he may take advantage of. Full information in regard to vocational reeducation and compensation will be given you by the members of the hospital educational staff if you will ask them. Printed bulletins, giving information are available in the hospitals.

"The soldier from overseas will receive a warm welcome when he arrives in the United States. But in accepting this welcome and the benefits which the Government accords him if disabled, he must not forget his obligations to himself, his relatives, and his country. He is a soldier still, and if he has been a good one he will continue to act like one. He will cheerfully follow Army regulations as to the uniform for domestic service, will show respect to his superior officers and will treat his fellow soldiers as he would be treated, including those who, less fortunate than he, were unable to play the war game overseas."

ARIZONA AND POTATOES

The marketing of the potato crop furnished a leading project this year for the farm bureau in Coconino County, Ariz. A marketing committee, with the assistance of the county agent, has established a better reputation for the potatoes in this county and has graded all tubers to conform with the U. S. No. 1 grade.

A year ago no attempt was made to grade potatoes, but meetings were held and the farmers were acquainted with grades that were necessary to bring a top price on the market. A business house was induced to handle the regulation sorter and grader and many were sold to the farmers. This fall, 90 per cent of the farmers graded, which means a better pack and a conservation of labor. Grading was taken up with the buyers. Sample sacks were opened, and if too large a per cent passed through the regulation screen the rest were re-sorted at the farmer's expense. In some cases this was a costly experience, but a good reputation and a standardized product, meaning a good market, are considered as recompense.

BIG WAR GARDEN TURNED INTO A "PIGGERY"

Twenty acres near Glendale, Ohio, donated for a community garden project, proved unwieldy, and the Garden Club of Glendale called in the county agent. He advised abandonment of the garden project, putting the entire tract in corn and getting enough pigs to provide a hoof market for the crop. So the garden club turned over its interest to a new organization called the Glendale Piggery. A farmer agreed to put the twenty acres in corn on shares, and from him the club bought 40 pigs with the understanding that he would maintain them until the crop was harvested and then feed them on the club's share of the crop. The club got nearly 500 bushels of corn as its share, and this corn is being fed to the pigs, which are making gains that promise a substantial contribution to the club's war-relief fund.

FRENCH GIRLS

Wise County Messenger: Dispatches state that the "sawed off" soldiers received most of the kisses from the French girls when the armistice was signed. But we bet a dollar to a doughnut that those tall Decatur heroes met the girls halfway—coming down—and got their share of the osculatory pleasures.

It isn't likely that the French girls did as much kissing as some correspondents have reported. French girls as a rule are well raised. They are smart. They have solid brains under those coquettish coiffures. The French girls don't throw their hearts at passers-by. They do not marry strangers. French laws make marriage rather difficult and the palpitating lover discovers before all the preliminaries are arranged that getting married is not as easy as licking a postage stamp. And when a French girl marries she expects to stay married. She expects to do her best for the success of the firm. The French husband usually does his part. The result is that the French home is a substantial institution. Of course, the cheap stage and the gutter novelists have depicted French marital fidelity in bizarre colors. They have tried to make it appear that the French wife usually has a lover who is not her husband, and the French husband an "affair" which would be disgraceful if discovered. But that evil conception of the French home is grossly libelous. No people could fight and endure, sacrifice and suffer, as the French have done if their home lives were not virtuous and the domestic ideals grounded on granite. And, listen, girls, French mesdemoiselles, do not gallivant around at all hours of the night with young men in motor cars, unchaperoned and unfettered by conventions. They would consider such conduct a reflection upon their maidenly integrity. And if, under such circumstances, they got married at all, their husbands probably wouldn't be worth having. There are some such husbands in this country.—State Press in Dallas News.

Grove's Tasteless Chill Tonic

restores vitality and energy by purifying and enriching the blood. You can soon feel its Strengthening, Invigorating Effect. Price 60c.

The day of women legislators is fast approaching. In all States, this fall, sixteen women were elected to State Legislatures. Two women who ran for Congress—Miss Jeanette Rankin of Montana, and Miss Anna Martin of Nevada—were defeated.

The First Xylophone

Once upon a time Mendelssohn heard a musical instrument at which he greatly marvelled. He thought it merely a toy—"a few sticks lying on straw, and struck with other sticks," said Mendelssohn, describing it. "Yet," he had to add, "its tone was sweet and bell-like." It was known then as a straw-fiddle, this little toy instrument that musicians laughed at in derision.

Now you call it a xylophone—unique little agile athlete among makers of music.

The RE-CREATED music of the xylophone—the modern xylophone—that no one now dares deride, you can have in your own home if you own

The NEW EDISON

"The Phonograph with a Soul"

The dainty, trilling Mocking Bird, the thunder of Cavalry in von Suppe's great overture, the triumphant strains of the masterful overture from "William Tell"—these and many others are best suited to the peculiar talents of the xylophone. The greatest, most skillful players of the modern xylophone have played them for The New Edison. And in tones you cannot distinguish from the original, The New Edison will RE-CREATE them for you, at your pleasure.

Ask us to RE-CREATE for you the xylophone selections of George Hamilton Green, Charles Daab or Lou Chihra Frisco.

AGENTS WANTED

Because of the employment of so many women in the railroad offices at Topeka, Kansas, employees are forbidden to smoke while on duty.

The first Government motor sleigh was recently shipped from Cleveland for mail delivery work in Alaska. The sleigh is to take the place of dog-

teams, and is expected to travel at least a hundred miles of road along snow and ice track, with a burden of five hundred pound of mail.

The Pink Boll Worm Situation in Texas

A DETERMINED EFFORT BEING MADE TO ERADICATE PEST WHICH HAS INVADED THE STATE FROM MEXICO

The presence of the pink bollworm of cotton (*Pectinophora gossypiella*) in 1917-18 has occasioned an entomological fight that attracted the attention of planters, cotton men, scientists and others in almost every part of the world.

The pink bollworm law of Texas made it the duty of the State Commissioner of Agriculture to cooperate with the United States Secretary of Agriculture to prevent the pink bollworm of cotton from entering the United States through Texas from Mexico and to eradicate those worms that had already made their appearance in this State.

Although the State appropriation for this work was not sufficient, the liberal assistance of the Federal Horticultural Board of Washington, D. C., financially and otherwise, has made it possible, in spite of many obstacles, to apparently wipe out the early infestations at Hearne, Texas, and along the coast between Brazoria and Beaumont, and to hold in check the recently discovered infestations in Western Texas.

This new cotton pest of the United States, if allowed to become established in our cotton section, would do a great deal more damage than the Mexican cotton boll-weevil. It has been found where it is too hot and dry for the weevil, and live specimens have been taken from the field where the cold weather stood at zero for several days.

The worm under discussion will destroy the lint and seeds of young bolls and will ruin the seed of large bolls reaching maturity.

It will take another year's strenuous work to wipe out the present known infestation in this State, and additional appropriations are necessary to do this successfully.

EASY WAY TO INCREASE THE FRUIT SUPPLY

After fifty years of effort to increase the nation's supply of fruit by the ordinary methods of tree selling as practiced by the nurseries, there is still a great deficiency of fruits and nuts for the general consumption, according to E. W. Kirkpatrick, the president of the Texas Industrial Congress.

"Sixty per cent of the Texas homes are without fruit trees," said Col. Kirkpatrick, "and the remaining forty percent are but poorly supplied. By general adoption of the propagation of fruits, berries and nuts by the seed and scion method, which consists of planting the seed and cuttings, the shortage of these food products can be quickly overcome."

"In response to the appeal of the Government, millions of bushels of peach seed were collected last fall to be used in making charcoal for gas masks, but since the war is over, the seed remain on hand in large quantities. They should be planted about the homes and farms, and will in a few years produce many valuable fruit trees. Certain strains of fruits reproduce from seed and cuttings to a very valuable extent."

"More than thirty years ago I planted seed from a late Heath Cling peach tree that had been cross-fertilized by a nearby early peach, and the result was the Early Wheeler or Red Bird peach, as it is called in some sections of the country. The Early Wheeler ripens in May and is the best peach for shipping that we have. Millions of these trees are now scattered over the United States and their fruit commands the highest market prices."

"If the people of Texas had generally followed the excellent advice given them by the late Governor Hogg and Col. Exall with reference to tree planting, thousands of people in town and country who have to do without fruit would now have a bountiful supply grown at home."

"Fruit and nut trees will yield products of much greater value than any farm crop that can be produced on the same area, because they penetrate the greater depths in the earth and extend to greater heights in the air, enduring through a long series of years and becoming more valuable each year."

"Millions of valuable seeds from peach, plum, and other fruit and nut trees, and the cuttings of grape and berry vines are wasting in our orchards, which if planted early in the fall or winter in the waste places about the homes, where no useful thing now grows, would within a few years produce an immense amount of wholesome human food."

THE MILITARY KISS IN FRANCE

Probably no custom of our Allies in France seems stranger to our own boys "over there" than the practice of kissing among men. Bearded poilus just out of the trenches greet and take leave of each other in the manner described, quite as school girls do in this country.

The kissing of a soldier on both cheeks is part of the ceremony when a most distinguished honor is bestowed—the red ribbon of the Legion of Honor. Kissing is not part of the ceremony whereby the Military Cross or the Croix de Guerre is given.

Today, this formula is repeated before the giving of what is perhaps the most coveted decoration that France has to bestow:

"In the name of the President of the Republic, and in virtue of the power he has, I make you chevalier (officer, commandant, or whatever the grade may be) of the Legion of Honor." Then when the decoration is pinned on the soldier's blouse, the superior officer salutes him on both cheeks.

The custom of kissing in this way comes down from the days when the young French noblemen, about to be knighted for some valiant deed, spent twenty-four hours in solitude and prayer, and then came forth, knelt down, received the stroke of the sword across the backs and were kissed by the knight who was conferring knighthood. When Napoleon formed the Legion of Honor, he eliminated many of the old customs, but he kept the touch of the sword and the kiss.

The Strong Withstand the Winter Cold Better Than the Weak

You must have Health, Strength and Endurance to fight Colds, Grip and Influenza.

When your blood is not in a healthy condition and does not circulate properly, your system is unable to withstand the Winter cold.

GROVE'S TASTELESS CHILL TONIC Fortifies the System Against Colds, Grip and Influenza by Purifying and Enriching the Blood.

FIGHTING LOOSE SMUT IN COUNTRY'S WHEAT CROP

Loose smut, which reduced the wheat yield of Shelby county, Ind., more than 100,000 bushels last year, meaning a loss of more than \$200,000 to the farmers, is expected to be wiped out of that county in the next two or three years, as a result of the combined efforts of the county agent and farm bureau. A central treating station was established and 200 bushels of seed wheat were treated this fall by the hot-water method for the purpose of obtaining a strain of pure, disease-free seed. This treated seed was distributed, among 40 farmers. Next year the wheat from the 40 treated plots will be sold as seed to other farmers in the county, and they in turn will sell their disease-free seed to others. This treating work will be done on a more extensive scale next fall. In the course of two or three years, according to farm bureau plans, loose smut will have been eradicated and the average yield of wheat in the county should be increased at least 2 bushels per acre. This county grows 60,000 acres of wheat annually, and such an increase at present prices will add over \$250,000 to the value of the crop.

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion For A Few Cents and See For Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to also whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so that no pulp gets into the bottle and then this lotion will remain pure and fresh for months. When applied daily, to face, neck, hands and arms it should help to bleach, clear, soothe and beautify the skin.

Any druggist will supply ounces of orchard white at a very little cost and the grocer has the lemons.—Adv't.

There seems to be a movement, nation-wide, to change the date of Thanksgiving Day to November 11, so as to combine Victory Day with the old holiday, and thus have an up-to-date reason for celebrating. If this were done, it would mean much to the people, for American people certainly have something to be thankful for, that "our boys" truly brought about the end of the world's greatest and most terrible war. Yet the objectors claim that Thanksgiving might lose its original significance, and the day might be changed into a holiday, like the Fourth of July, with a lot of noise and celebration, rather than thanksgiving in its truest sense.

HANDS, ARMS, LIMBS ASLEEP

And Was Run-Down, Weak and Nervous, Says Florida Lady. Five Bottles of Cardui Made Her Well.

Kathleen, Fla.—Mrs. Dallas Price of this place, says: "After the birth of my last child, I got very much run-down and weakened, so much that I could hardly do anything at all. I was so awfully nervous that I could scarcely endure the least noise. My condition was getting worse all the time."

"I knew I must have some relief, I would soon be in the bed and in serious condition for I felt so bad and was so nervous and weak I could hardly live. My husband asked me about my taking Cardui. I said, 'It's a good medicine, and good for that trouble,' so he got me 5 bottles. After about the second bottle, I felt greatly improved. Before taking my limbs and hands and arms would go to sleep. After taking however, this poor circulation disappeared. My strength came back and I was soon on the road to health. After the use of about 5 bottles, I could do all my household and attend to my six children's sides."

You can feel safe in giving Cardui a thorough trial for your troubles. It contains no harmful or habit-forming drugs, but is composed of most valuable, medicinal ingredients with which have voluntarily written, telling of the good Cardui has done them. It should help you, too. Try it.

PRINCE ALBERT

the national joy smoke

YOU can't help cutting loose joy's remarks every time you flush your smokespot with Prince Albert—it hits you so fair and square. It's a scuttle full of jimmy pipe and cigarette makin's sunshine and as satisfying as it is delightful every hour of the twenty-four!

It's never too late to hop into the Prince Albert pleasure-pasture! For, P. A. is trigger-ready to give you more tobacco fun than you ever had in your smokecareer. *That's because it has the quality.*

Quick as you know Prince Albert you'll write it down that P. A. *did not* bite your tongue or parch your throat. *And, it never will!* For, our exclusive patented process cuts out bite and parch. Try it for what ails your tongue!

Toppy red bags, tidy red tins, handsome pound and half pound tin humidors—and that clever, practical pound crystal glass humidor with sponge moistener top that keeps the tobacco in such perfect condition.

R. J. Reynolds Tobacco Company, Winston-Salem, N. C.

ST. MARYS SUPER DIESEL OIL ENGINE

PUMPING PLANTS

We make a special study of Pumping Plants and gladly give our friends the advantage of our experience along this line. We have secured the agency for the

St. Marys Super Deisel Oil Engine

which, without doubt, is far superior to any other make of oil burning engine on the market. Think of an engine that does away with the carburetor, fuel pump, torch, magneto, batteries, coils, spark plugs, wire, hot bulbs, plates and tubes. Through the absence of all these devices 99 per cent of all your engine trouble is done away with. To start this engine you simply turn on the oil, turn the engine over and it starts at once regardless of weather conditions. These engines are built from 4 to 60 horse power.

If interested in Pumping Machinery of any description, either gasoline or oil engines or windmills, we have the following well known lines to tell you about and price to make you: St. Marys Super-Deisel Engines, Stover Gasoline Engines, Samson and Standard Windmills, American and Advance Pumps. We carry in stock Pipe, Cylinders, Pump Rods, and Pipe Fittings---in fact everything to pump water.

Let us help you plan the installation of your Pumping Plants and figure with you on the cost.

Our people have no idea how news spreads. Several letters and telegrams have been received by The Enterprise this week asking for details of the oil development. Some were of the impression that a gusher had been brought in. The point is this: All eyes are turned in this direction and ears are straining to hear first-hand the news of our new-found prosperity which is bound to come. It would have been a delight to announce to these inquirers that a 50,000 barrel well was running wild over the flats north of us, but this good news had to be deferred to a later date. The above should be ample proof that there are many outsiders—non-residents—who have more and stronger faith in Reeves county than some of the natives exhibit. Pecos people, it is understood, have invested heavily in fields far removed from here. How many will cash in? At home they had just as good an opportunity—a much better opportunity—but passed it up. So firmly does The Enterprise believe that oil, and lots of it, will be struck in Reeves county, that it does not hesitate to prophesy that many regrets will be registered by those who refused to cooperate with the home enterprise.

The Enterprise does not wish to go on record as peremptorily telling other people how to run their business, but, on the other hand it is solemnly pledged to cry down anything that remotely will discredit Pecos or Reeves county. A few more scenes—such as was enacted at the aviation landing station Wednesday will go a long way toward removing the permanent landing to Toyah or Barstow. Major Macaulay is to all appearances a gentleman of the first water, and could not hold the position he now holds with the Government were he otherwise. He is proud of Uncle Sam and not only believes, but knows his promises to pay are always kept. To make matters plain, Pecos people must be able to supply such small repairs as were needed on this occasion and furnish them without leaving the impression on the mind of the aviator that he is considered a dead beat and trying to fake the repairs. It will ever pay to be courteous at all times and especially to the one who is conferring the favor and the man in khaki should be the last one to show disrespect to another wearing the uniform.

The Enterprise has a deep regard for the young men of the country, both of the draft and who volunteered, and who stood ready to fight the country's battles. But there are some who, if reports are true, now discharged from the service whose chief pastime seems to be discrediting the service in general. They may or may not be justified in the criticisms, but be that as it may, one thing is noticeable: they seem loathe to discard the uniform representing that service. The uniform stands for what is best in our army and navy, and those who can say naught but ill of either of the branches should hang the uniform in a dark closet until they experience a change of heart at least.

Cardinal Gibbons, one of the highest dignitaries of the Catholic church in America, has taken up the cudgel against nation-wide prohibition. His argument is that it infringes on the rights of the home. People have more respect for the fellow who says he is opposed to it because it cuts him off from his morning's morning and his night's nighties. The latter is more to the point and, best of all, it's honest.

In the Dallas News of recent date there appeared under the head of Marriage Licenses the following: "Columbus Moore and Mary Angel." The ordinary heading in a country weekly would be "Moore-Angel," while in reality there is one less angel—maybe two, after the honeymoon.

A lady in Chicago opines that now the war is over we turn our swords into plowshares, and in view of nation-wide prohibition, our corkscrews into pins. The Enterprise suggests (empty) on hand be used to tote oil for wife's sewing machine.

The Texas Methodist preacher who swiped \$20,000 from the Y. M. C. A. and privates who entrusted him with their change that it might be sent home in case they fell in action, wishes the war might continue so that he might go over the top with the boys whose coin he appropriated. Going over the top and dying like a man would be much more preferable than "taking his medicine" now. He should have insisted on carrying a gun and a spade in the front lines, instead of the coin in the rear, in the first place.

The secret is out at last and the officials of the Pennsylvania Railroad are credited with discovering why the trains of the country are late. Observers state that the narrow dress now worn by women does not permit of haste in boarding and alighting from the cars. There is no doubt but that the T. & P.'s tardiness is from the same cause.

TOM HARRISON

The citizenship of Pecos was shocked as it had not been in many a day when it was announced Monday morning that Tom Harrison had passed away at six o'clock that morning at his home as the result of a pistol wound, self-inflicted, at eleven o'clock Sunday night.

Mr. Harrison had recently suffered a severe attack of influenza and the after effects has left its mark in unbalancing his mental equilibrium, as had been noticed at intervals by the family and friends, though it was believed to be only temporary and the depth of the depression was not realized.

Mr. Harrison was born in Waco, June 6, 1866, was educated at Baylor University, and came to Reeves county twenty-six years ago, and has been prominent in developing this country. He was whole-souled, generous to a fault, faithful to his friends and they are legion. He was three times elected sheriff of Reeves county.

Deceased was member of the Masonic Lodge, the Woodmen of the World, Macabees, Praetorians and the Knights of Pythias.

He was married to Miss Willie Elkins December, 1890, and to them were born seven children, Ray and Tom, Jr., who early in the war volunteered their services to their country, and are now in France; Mrs. John Baker, Willie and Bettie Blanche, James and Philip; also one grandchild, Harrison Baker, son of Mr. and Mrs. John Baker, survives.

He provided well for his family and was a devoted husband and father. The perfect family harmony that existed was frequently made note of by friends. Besides the family above-named, he is survived by two brothers, Admiral W. K. Harrison, in California, and Attorney James A. Harrison of Beaumont, who was present at the funeral; one sister, Mrs. B. H. Carroll of Waco, wife of the prominent divine of the Baptist church, Rev. B. H. Carroll.

Funeral services were held at the home Wednesday morning at ten o'clock by Rev. W. A. Knight, pastor of the Baptist church, immediately after which burial was made in Fairview Cemetery under the auspices of the Masonic Lodge, their beautiful and impressive ritualistic service being used. There was a large concourse of sorrowing friends in attendance.

The handsome casket and mound were covered with costly and magnificent floral offerings. The family has the sympathy of their many friends in this their sad hour.

KEEP THE KIDNEYS WELL

Health is Worth Saving and Some of The Pecos People Know How to Save It.

Many Pecos people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health, but there is no need to suffer nor to remain in danger. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers.

The following leaves no ground for doubt:

F. N. Brown, railroad conductor, 111 Scurry St., Big Spring, Texas, says: "I think the drinking water here is what affects my kidneys. My back gets weak and lame and the kidney secretions become irregular in passage. I get Doan's Kidney Pills and they never fail to relieve me."

Price 60c, at all druggists. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv't.

If your environments are small it will be easier to rise above them.

Waxahachie Light: Henry Ford starts into the newspaper business with a paid-up capital of \$40,000,000. That ought to enable him to hold out for several days.

Yes, but even with forty million dollars at his command, Mr. Ford will have to go easy if he expects to stay in the newspaper business long enough to do the public much service. Feeding white paper into a printing press these days is mighty near like pushing dollar bills into a corn sheller. James J. Hill, the multimillionaire railroad builder, went into the newspaper game at a time when print paper was selling at about half the present price. He worried along at the losing game for a few years and surprised everybody by locking the printing office door and quitting cold. He didn't even try to sell the business. He was so disgusted he just quit short off. In the first place, he found the newspaper game rather too tough for a mere captain of industry. There was too much happening everywhere. He found also that his editorial influence reached hardly as far as he could spit out the window. The people were strangely indifferent to his editorial voice. They are strangely indifferent to all editorial voices, but Mr. Hill didn't realize it for a long time. Molding public opinion looks easy to those who have never tried it. And after Mr. Hill tried it a while he quit suddenly. It may turn out that way with Mr. Ford. He is certain to be disillusioned sooner or later. Possibly he will fall into the frame of mind of a certain advanced thinker, who, feeling that Truth had built a nest in his hair, labored with a dozen different audiences in a dozen different localities without having made any impression. Finally his money running low and his patience altogether exhausted, he cried out passionately: "Gosh darn the thickheads—Wall Street's biting—State Press in Dallas News. them and they scratch for chiggers."

EPISCOPAL CHURCH

Rev. Clarence McClellan of Marfa, will hold services at the Episcopal church Wednesday night at seven o'clock, January 29th, and the public is cordially invited to attend.

METHODIST CHURCH

Sunday school, 9:45 a. m.
Preaching at 11 a. m. by the pastor.
At 7 p. m. Presiding Elder Cochran will occupy the pulpit.
Prayer meeting at 7 o'clock Wednesday evening.

FRED B. FAUST.

CHURCH OF CHRIST

"The Dividing Line," and "A Perfect Pattern" will be the sermon subjects, morning and evening, respectively.

The Bible school and C. E. meetings will be held at the usual hours. There have been so many distracting things to hinder our services the last few months, let all resolve to make special effort to have the meetings well attended and to make them most helpful to all.

HOMER L. MAGEE.

MISSIONARY SOCIETY MEETS

The Woman's Missionary Society of the Methodist church met in the ladies' parlor of that church Tuesday afternoon and elected the following officers: Mrs. W. B. Boles, president; Mrs. F. B. Faust, first vice-president; second vice-president, Mrs. John Hibdon; Mrs. C. B. Jordan, recording secretary; Mrs. J. G. Love, corresponding secretary; Mrs. H. N. McKellar, connectional treasurer; Mrs. A. E. Wilcox, church treasurer; Mrs. E. J. Moyer, local treasurer; Mrs. W. W. Runnels, superintendent of study and publicity; Mrs. M. D. Smith, superintendent of social service; Mrs. W. K. Wylie, superintendent of supplies; Mrs. Earl Collings, agent for "The Missionary Voice"; Mrs. Ben Randals, organist.

City Tax Payers Notice!

The law provides that taxes must be paid by January 31st, each year, and if not paid that a penalty of ten per cent shall then be added. The City Tax Collector's office will be open each work day during the month, Miss Collings being in charge of the office. We will appreciate it very much if you will pay your taxes as soon as possible to avoid a rush on the last days of the month.

It is to the interest of every one to pay their taxes promptly. Last year nearly every taxpayer met his obligation. As a result The City is upon a sound financial basis. The City Hall property was bought and paid for in cash without a cent's debt against it. In addition to this and in spite of the increased cost of all material and labor, the tax rate was reduced from ninety cents per hundred to eighty-five cents per hundred. If the taxpayers will pay their taxes promptly and save themselves the extra cost of enforced payment, the tax rate can probably be further reduced. Please call at the City Hall and pay your taxes. Remember the ladies should pay the poll tax if they want to be prepared to vote in any primary elections.

21-t3

J. E. STARLEY, Mayor.

The Enterprise man would like to inquire about the physical, mental, and normal status of his old friend and copartner in the milk goat business, Evy Bowles. The editor has not seen him since Christmas and is wondering if he is off on a visit to relatives in South Texas, has the flu or has simply absconded. Should he again happen to come this way will some friend please steer him toward this office as our goat herd is again increasing and would like to enlarge his flock with one more milker.

Doings at Saragosa

Mrs. W. C. Holbert arrived from El Paso Saturday where she visited for a few days.

Rev. C. A. Dickson went to Monahans last Saturday where he held services Sunday.

The influenza epidemic now being much improved in this vicinity, the public schools opened Monday.

Mrs. G. B. Wilkins, who has been here for the past two weeks visiting her daughter, Mrs. W. W. Chandler, Jr., left for her home at Roswell, N. M., Monday.

Mr. and Mrs. E. R. Cox returned Monday from Santo, where they had been attending the funeral of Mrs. Cox's brother, J. A. T. Bearden, who died last week at Duran, N. M., of influenza.

Judge and Mrs. Jas. F. Ross are rejoicing over the arrival at their home Tuesday of this week, of a daughter. The little lady has taken charge of the household and all sit up and take notice at her bidding.

R. P. Morrison, who is Santa Fe agent at Loving, N. M., and also in the alfalfa business there, spent the fore part of the week in Pecos with his sister, Miss Eula Morrison, who has been seriously ill with pneumonia.

Jack Hines came in last week from Mare Island where he had been in training in the Navy for some time. He has been discharged and, after a visit with his mother, M. v. Ida Hines, and family, left the latter part of this week for Carlsbad, N. M., where he has employment.

DRESSMAKER AND DESIGNER

To my patrons: After about a month's absence on account of the flu, I will be back to my work Monday, January 27th. Sewing rooms second floor of the Pecos Mercantile Company.

MISS MARGUERITE WRIGHT. Advertisement

Attorney Jno. B. Howard and family left Thursday for a visit with his father at Longview.

Judge Chas. Gibba was in Pecos a few hours Tuesday. He had been holding District Court at Barstow, and autoed to Pecos to get a good start for his home at Midland, as Court had adjourned.

Mrs. Claude Hairston and baby left Tuesday for Warwick, Okla., having been called by a telegram stating her sister, Mrs. Addie Williamson, had died. Mrs. Hairston and other relatives have the sympathy of our people in their sad hour.

Attorney Clay Cooke returned the first of the week from Fort Worth and other Central Texas points. He says Fort Worth is wild over the oil business and that it is no trouble whatever to sell any kind of oil stock or shares—all that is needed is a plat with a few derricks shown around.

Piles Cured in 6 to 14 Days. Druggists refund money if PAZO OINTMENT fails to cure Itching, Blind, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can get restful sleep after the first application. Price 60c.

There is mighty little to do for a man who gets down and stays down.

PATENTS GRANTED TEXANS

Compiled for The Enterprise by Wm. A. Redmond patent attorney of Washington, D. C.

Thomas M. Cass of Tyler, apparatus for separating and cleaning hulls and trash from cottonseed.

Charles R. Edwards of Houston, a motor.

Ira S. Harris of Dallas, interest-computing device.

Charles A. Rivers of Kenedy, a pneumatic cotton-picker.

Edmund A. Whittenborn of New Braunfels, a gas-engine vegetable cutter.

Lee Williams of Texarkana, a bottle-closure.

Mr. and Mrs. E. R. Cox were in Pecos Monday, having returned from Santo, Texas, where they accompanied the body of Mrs. Cox's brother, who died in Duran, Okla., for burial.

Colds Cause Grip and Influenza. LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 30c.

CALOMEL DYNAMITES A SLUGGISH LIVER

Crashes Into Sour Bile, Making You Sick and You Lose A Day's Work

Calomel Salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to the children; they like it. Advertisement

OIL! OIL!

Watch the Sunshine Oil Corporation's Operations in the Pecos Oil Fields

150,000 acres in Reeves, Loving and Ward Counties Under Lease. Derrick Erected and Drilling Now Going On

Incorporated With Authorized Capital of \$300,000.00 Par Value of Stock, \$1.00 per Share

A LIMITED AMOUNT OF STOCK WILL BE FOR SALE

When Mr. Alfred Tinally, who has not only visited the principal oil fields of the world, but has formerly engaged in opening producing oil fields, more than a year ago, came to Pecos, and observed the characteristics present here, he found in Mr. B. T. Biggs an observer who has for many years studied the environs of Pecos for oil indications. Their unanimity of opinion resulted in their active co-operation, and as a result, several geologists were successively employed to make independent surveys of this territory.

Reports made by these geologists justified the employment of a geologist to make an exhaustive examination of the territory, and Mr. Hugh H. Tucker of Dallas, was engaged for this purpose. His report, made after many weeks of careful and comprehensive examination of the territory in Reeves County, assures us that a large and unbroken oil and gas structure exists almost at the door of Pecos.

Mr. Tucker's report concludes with the following summary:

"To further brief this report, the important facts are, a well-defined structural fold, with the formations dipping both ways from its axis. An anticlinal structure with well-defined dips of sufficient degree to give height enough to the fold, for great accumula-

tion. The direct evidence, found in the presence of both oil and gas at or near the surface and well distributed over the area examined, and well known for oil and gas production.

"REMARKS—In the light of these facts, it is altogether unnecessary to state that the territory covered by this examination and report is worthy of the greatest consideration and investigation.

"It is my firm belief that if the proper effort is put forth and wells drilled on this structure, more than one sand will be found that will produce oil in commercial quantities.

"The Pennsylvanian should be reached at a depth not far from 3,800 feet, with two sands in the Permian before that depth is reached, which may prove pay."

The procuring of these examinations have consumed much time and much money. Some \$10,000 was wisely expended, as by its use we have eliminated, as far as humanly possible, the element of risk attendant upon the opening of a new field.

HIGH SCHOOL NOTES

Organization of the Literary Society

During the past four years there have been several attempts made to organize a literary club, but until last year, there was none worth mentioning.

With every possible effort, the first successful club was formed by the High School of 1918. It was given the name, "Keeping Up Club" and has retained this name until now. Excellent programs were given from time to time and, occasionally, visitors from town would spend their time with us. They, however, expressed their gratitude and stated they would be glad to help in any way possible.

This year we have reorganized, but due to sickness and dismissal of school we have been greatly hindered. The officers for this year's club are: Jewel Cowan, president; Hilliard Camp, vice-president; Carrie Glover, secretary.

With these officers the club's work should surpass that of last year's by far. The program committee, which consists of two members from each year in High School, was immediately appointed after the election.

The programs of last year's club were given on Friday afternoons, but this year the meetings will be held in the evening at the High School auditorium. On Friday, January 24th, the following program will be given: Quartette.

"Life of Roosevelt,"—by Edward Warn.

Piano Solo—Mozelle Bryan.

Reading—Zorene Todd.

"Delegates and Preliminaries of the Peace Conference,"—Julia Magee.

High School Chorus.

"America Greet the Russian Republic,"—John Gill.

Piano Solo—Anna Boles.

"Jokes,"—Barney Haygood and Bert Ross.

"La Golindina"—Spanish Class.

"Grand Finale."

The program will begin at seven o'clock, and the student body of the High School extend an urgent invitation to the public, especially to the parents of students, to attend this meeting of the "Keeping Up Club."

VEAZEY KITE.

THE PASSION PLAY

In the small town of Ober-Ammergau, in Germany, the people had been having this play, but had discontinued it. Later a plague broke out among them and they thought it was because they had discontinued the observance of the play. After the cessation of the plague they made a solemn vow that the Passion Play would be given once every ten years for a period of twelve weeks.

Most encyclopedias give a very concise account of this play; but from the lectures of John T. Stoddard we can gather information as to the production of the mysteries, scenes and incidents relative to the crucifixion of Christ.

The Bavarians are the only people who have made extensive and relative efforts to perpetrate the event through the medium of a theatrical production. The town of Ober-Ammergau, one of two villages situated in the district near the River Ammer in Bavaria, is the place where this play has been produced. People from all parts of the world journey to the village during the period, occurring every ten years, to witness this great religious drama. Their greatest expectations are surpassed by the grandeur of the play.

The characters of the play have been handed down in families for many generations—since the thirteenth century. In 1870 the character of Christ was portrayed by Joseph Maier, who was drafted to the army during the Franco-Prussian war; also, in this year, King Ludwig, being a lover of the drama, placed Maier beyond the danger of battle, and he was spared to continue portraying the character of the Christ.

The actors of the play are received by the villagers, and to strangers are pointed out as Moses, Herod, Samuel, St. Joseph, and other Biblical characters. John Lang, the mayor or burgermeister of the village acts as stage manager, prompter, and instructor of the characters. The production of this mystery play is looked forward to as a most important Bavarian event. The function due recently was postponed on account of the European war, and it is believed some of the principal actors were drafted in this war and killed in the trenches.

It is almost impossible to even guess at the time of the next production of the play. We do not know now who will play the part of Christ, his disciples and other important personages who figured in the ill punishment of our Savior, but we are sure the next production will take

place at Ober-Ammergau. To most people of Europe and America the play is considered sacred, and considerable opposition is expressed when the matter is discussed.

Limited space forbids even a partial description of the wonderful effect of this play upon visitors who have witnessed it.

The Juniors of the High School had a round table talk Monday morning about the Passion Play, and have completed a study of mystery, morality, and miracle plays in the English drama. By these plays we have traced the developments of the English drama through the Elizabethan age.

ANNABELLE WATSON.

Topics in Brief

There were so many reasons for not studying last night, we do not need to give them grudgingly.

Time and Tide wait for no man, and Shelton is always behind time.

Study is the ballast of our school days.

An optimist is the fellow who imagines himself smiling after next week.

Dull students are the ones who leave the widest reputations.

I don't believe Mr. Rutledge enjoyed the "flu" any more than he does grading my chemistry papers.

A well constructed outline is the sign-board of a good English lesson.

All the Juniors are praying for a subjective mind: It might be of use to them in the Geometry exams next week.

ALYCE LEEMAN.

Current Events in the School

Mr. Rutledge, who for the past week has been out of school on account of a light case of the "flu," is just back and doing his work again, and though we did very well during his absence we can do much better now that he is back.

Mr. Blalock also had the "flu" but is now back, right side up, and everything looks comfy and clean.

Clyde Andrews has been out of school for the past month, ju-jitsuing with the common foe, Spanish influenza, but is back again, hard at it, making up for lost time.

A few days ago the High School met and reorganized the "Keeping Up Club." On accounts of the ups and downs—mostly downs—of the school during the epidemic, the reorganization was deferred. We hope to make this the best year of the Club. The program committee has arranged a program which appears in this column, for Friday evening, and the general public is cordially invited to be present at its rendition.

Last Monday the Junior English Class had a round-table talk on the Passion Play. Interesting facts in connection with the Passion Play are given in this column by a Junior student.

F. P. RICHBURG

Land and Rental Agency

No. 150—40 acres, about all in cultivation, 6 acres in alfalfa. Lies on the Toyah Creek and in the Big Reservoir district. Two houses—5-room and 13-room—underground cistern. Within one mile of Saragosa on the P. V. S. Ry. Good, sandy loam soil, suitable for alfalfa, cotton, wheat, Oats, maize and sweet potatoes. Also a barn 50x60 feet. Price \$4,400, as follows: \$1600 in Federal Loan, 5 1/2 per cent interest; two other notes of \$400 and \$500, 8 per cent, two and three years. \$1500 cash, balance easy.

No. 160—Four sections—Nos. 2, 4, 24 and 26. Situated right near the railway station of Orla on the Santa Fe Ry. This lies right near the Pecos River and about 12 or 15 miles from the famous Reeves County sulphur mines. Price \$3 per acre bonus; \$1 to State can be assumed. Can give good terms.

No. 164—Four sections about 7 or 8 miles northwest of Pecos, within 3 to 5 miles of the Laura Oil Well which was started on January 16th. A big bargain in this lot of land. Let us hear from you if interested.

No. 172—One section near Verhalen on the P. V. S. Ry. This is in the shallow water belt. Price \$10 an acre. Good terms.

No. 280—300 acres situated at Patrol on the Santa Fe Ry., 10 miles north of Pecos. Situated on the Pecos River; about all under cultivation and irrigation from the Pecos River. 94 acres in alfalfa. The entire tract is drained. One 3-room residence and 2 or 3 Mexican shacks. This is a splendid River Valley farm. Price, \$40 to \$100 per acre. The purchaser to assume \$4 per acre due the State at 3 per cent interest.

No. 285—We have several small farms under pumped water irrigation at prices ranging from \$50 to \$100. Some of them have made wonderful crops in 1918. Can sell you one of them at reasonable price and terms. These lands are especially adapted to cotton, maize, watermelons, cantaloupes, etc., and some of it well adapted to growing garden truck and sweet potatoes.

No. 290—Four sections in square block; 5-room house, well windmill. All fenced with 2 or 3 cross-fences; within one mile of the Troxel oil well which now has a derrick already, and now drilling for oil.

No. 301—One 4-room house on 75 ft. front lot, situated on southeast

and is up in good shape. The entire lot is fenced. Has a 30-barrel cistern. Entire lot fenced. A 30-bbl. cistern. On Main Street. Price, \$1000, half cash, balance easy.

No. 310—One 4-room house on lot 100 ft. front. Artesian well in yard; good shade. Barn and chicken yards and grass. Practically new and up in good shape. Price \$1000. One-fourth cash, balance in five annual notes, 8 per cent, or for less price if paid cash.

No. 350—One 6-room house, on 100 ft. lot. Weather-boarded; good barn, lots of shade, cow lot and chicken pens and two gardens. Artesian well on lot. This is situated in good part of town with good sidewalks to all churches and school. Price \$1750. Some terms if wanted.

No. 375—5-room house on 100 ft. east front, on southeast corner, good shades, out houses and garden place; all fenced. House is wetherboarded has bath, lots of porch room, etc. A special bargain. Price \$1000; one-half cash, balance easy.

No. 386—A 5-room house, situated on a 155 ft. lot with east front and northeast corner, on two good streets. A splendid place to make a permanent home. Price \$1500, one-third cash, balance easy.

No. 401—6 rooms and bath; one and a half story house on 100 ft. lot, southeast corner. House well built and freshly painted. Situated in a good part of town. This is a splendid place for a permanent home. Lots of shade, good iron fence, etc. Special value. Price \$1850; one-half in cash, balance easy.

No. 406—A 7-room house on 100 ft. lot, northeast corner. A splendid home. Yard nicely and substantially fenced and well grassed. Plenty of shade and good garage. Situated in best part of town. Price \$3000.

No. 450—A 4-room house on 100 ft. lot and northeast corner. A nice little home. Price \$800. Half cash.

No. 480—A 30-Section Ranch—7 sections owned, balance leased. This ranch is all fenced and cut up into three parts with water and a house in each pasture. \$2 per acre bonus on the 7 sections and assume the State's debt of about \$2 per acre at 3 per cent interest. This ranch is situated 20 miles northwest of Pecos and 15 miles north of Toyah. Can give possession at any time.

We expect to make Oil Leases and Oil Royalties a Specialty. We would like to get the names of as many as possible of those who own land that carries the mineral rights. If you don't find what you want in this list call and see us, on Westside of Cedar Street. We want to be ready for the BIG OIL RUSH. If you have property to sell, list it with us.

LIST WITH US

We want a brand new list of land and resident lots that are for sale. It has rained and things look good. Let's try to sell your ranch land.

We can handle your oil leases and royalties

Interest in Religious Work at Camp Travis

IN SPITE OF DEMOBILIZATION RELIGIOUS ACTIVITY IS ON THE INCREASE—NEW BIBLE SCHOOLS ORGANIZED

Demobilization has not meant any let-up in the religious work of the Army Y. M. C. A. at Camp Travis, as is shown by the reports of the various religious work secretaries in the buildings. The work, in fact, was actually speeding up, in an effort to bring the Christian influence into more lives than ever before.

During December there were 177 religious meetings, not including the ones held by Army Chaplains, and the total attendance at such meetings was 18,992. Twelve new Bible classes were formed during the month, an enrollment of 349, and 46 Bible class sessions were held, the total attendance at all meetings being 1,258. At the close of the month there were 20 Bible classes with a total enrollment of 397, and using seven soldier teachers as well as two civilians as teachers, these in addition to the "Y" men themselves.

There were 8,335 copies of the Scriptures given out to soldiers, and 1,465 men pledged themselves to in-

dulge in daily readings of the Bible. The "Y" secretaries had an opportunity to have 3,865 personal Christian interviews with the soldiers and 665 men asked for prayer and 358 made Christian decisions, while 1,346 others renewed their Christian purpose. That prayer gained strength in the soldier's life was shown by the fact that 1,397 soldiers pledged to pray daily. Eighty-one of the men pledged themselves to personal purity, 41 to forswear profanity, 22 to be total abstainers, and 10 to gamble.

Visits to the sick, which forms part of the religious work secretaries' task, numbered 8,814 during December, while 16,641 pieces of religious reading matter were given out.

CROP ACREAGE IN TEXAS IS STEADILY INCREASING

Kaffir, milo maize, feterita and grain sorghums raised in Texas last year occupied a total acreage of one million six hundred and five acres, and 85 per cent of it was in the western section of the State, according to the data furnished the West Texas Chamber of Commerce by the Government officials at Washington.

The 1918 acreage was 321,000 acres in excess of that of 1917, and the 1918 yield of grain was 24,000,000 bushels or nearly 10,000,000 more than the previous years. The value of these seeds was \$36,000,000.

Indications point to one of the heaviest grain crops in history throughout this section. The ground is in better season than ever before during the past 25 years.

Let your idle books help our soldiers—You can do your bit.

NEWS OF THE WEEK

Although the development of aviation for war purposes is now on the decline, aviation news items are still of interest because of the many important uses for which aircraft are available; and for this reason we submit the following items:

Recently in a single day—December 31st—Lt. T. C. Redman, of the U. S. Marine Corps, at Pensacola, Fla., made airplane flights, with 11 passengers, totaling 900 miles, and then became the winner of the cash prize of \$1000 for the longest single-day flight of the year 1918.

The world's airplane altitude record was broken at Mirtleshall, England on Jan. 3d, 1919, by Capt. Lang of the R. A. F., with Lt. Bowers as passenger, when in 66 minutes and 15 seconds they reached a height of 30,800 feet, at which point the engine stopped because of the lack of fuel. The previous airplane altitude record was made on Sept. 8th, 1918, near Canton, Ohio, by Capt. R. W. Schroeder, who at that time succeeded in reaching a height of 28,900 feet.

It is reported that among the airplanes that are being surrendered by Germany under the terms of the armistice, there are a number of new machines of a type which the Germans claim would have given them control of the air if the war had continued. These machines contain Bavarian motors, of a hitherto secret design which are said to generate 30 horsepower more than the powerful Mercedes motors. There is also reported to be in connection with these new planes a new method of storing gasoline which prevents it from burning during flight. While the improvements pointed out in connection with these machines are important, they do not seem to be sufficient—especially in view of the surprises in airplane construction which the Allies were preparing for the Central Powers when hostilities ended—to justify the German claim that these new planes would have given them aerial supremacy. Apparently this is just another German bad guess.

The Claims That Do Not Affect the Head Because of its tonic and laxative effect, LAX-FOS WITH PEPIN is better than ordinary pills and does not cause nervousness or ringing in head. Remember the full name and look for the signature of H. W. GROVE, Inc.

A Tonic Laxative

that will remove the bile from the liver and cleanse the system thoroughly without causing anything but a healthy and pleasant laxation.

LAX-FOS WITH PEPIN is the name of a Reliable and Perfect Laxative which soon relieves the Headache, Dizziness, Indigestion, Stomach Trouble, Gas and Piles caused by a Torpid Liver and Constipation. Also remove a Reliable Laxative in the treatment of Colic, Grip and Influenza.

LAX-FOS WITH PEPIN is a Liquid Digestive Tonic Laxative excellent in its effect on the system, both as a tonic and as a laxative. It is just as good for Children as for Adults. Pleasant to take. Children like it. See the name and recommendations to the public by Paris Medicine Co., St. Louis, Mo., manufacturers of Grove's Tasteless Chill Tonic.

Carbon Paper—Legal size, for sale at The Enterprise office.

LEGAL NOTICES

Notice is hereby given that the Commissioners' Court for Reeves County will, at its regular term, on February 10th, 1919, receive proposals from any banking corporation, association or individual banker in Reeves County that may desire to be selected as the depository of the funds of the county.

Any banking corporation, association or individual banker in the county, desiring to bid, shall deliver to the County Judge, on or before the first day of the February term of the Court (February 10th), a sealed proposal, stating the rate of interest offered on the funds of the County for the term between the date of such bid and the next regular time for the selection of a depository. Said bid shall be accompanied by a certified check for not less than one-half of one per cent of the county revenue for the year 1918, as a guarantee of good faith on the part of the bidder, and that if his bid should be accepted, he will enter into bond as provided by law. Upon failure of the successful bidder to give bond as required by law, the amount of such check shall go to the county as liquidated damages.

This notice is given in accordance with Arts. 2440, et seq., Vernon's Sayles' Texas Civil Statutes, 1914, and amendments thereof, to which reference is hereby made.

JAS. F. ROSS, County Judge. January 16, 1919 22-43

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain order of sale issued out of the Honorable District Court of Reeves county, on the 4th day of January, A. D. 1919, by the District clerk of said court, against Everett L. Stratton for the sum of Three Hundred Fifty-one and 59-100 (\$351.59) Dollars and costs of suit, in cause No. 1737 in said court, styled D. R. Haworth versus Everett L. Stratton, et al, and placed in my hands for service, I, E. B. Kiser, as sheriff of Reeves County, Texas, did, on the 4th day of January, A. D. 1919, levy on certain real estate situated in Reeves County, Texas, described as follows, to-wit:

All of tracts Nos. 14 and 15, consisting of 40 acres of land in each tract, said tracts being a part of the S. W. one-half of the S. W. one-half of survey No. 75, in Block 33, situated partly in Ward County, and partly in Loving County, State of Texas; said S. W. one-half of the S. W. one-half out of said survey No. 75, being 160 acres of land heretofore subdivided and designated as tracts Nos. 13, 14, 15, and 16, containing 40 acres each, and the two tracts foreclosed against being said tracts Nos. 14 and 15.

And levied upon as the property of said Everett L. Stratton, and on Tuesday, the 4th day of February, A. D. 1919, at the court house door of Reeves county, in the Town of Pecos, Texas, between the hours of ten a. m. and four p. m. I will sell said lands at public vendue, for cash, to the highest bidder, as the property of said Everett L. Stratton by virtue of said levy and said judgment and order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale in The Enterprise and Pecos Times, a newspaper published in Reeves county.

Witness my hand this 4th day of January, 1919. E. B. KISER, Sheriff Reeves County, Texas. First insertion Jan. 10. Last insertion Jan. 31.

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain order of sale issued out of the Honorable District Court of Reeves County, on the 9th day of January, 1919, by S. C. Vaughan, clerk of said court against N. H. Thorpe, et al, for the sum of \$2,100.00 Dollars and costs of suit, in cause No. 1813 in said court,

LEGAL NOTICES

styled W. E. Bell versus N. H. Thorpe et al, and placed in my hands for service, I, E. B. Kiser, as sheriff of Reeves County, Texas, did, on the 9th day of January, 1919, levy on certain real estate situated in Reeves County, Texas, described as follows, to-wit:

Section No. 2, in Block No. 8, H. and G. N. Ry. Co.'s survey, Reeves County, Texas, containing 640 acres, except 40 acres thereof sold by N. H. Thorpe to Alphonse Roscoe, said 40 acres being more particularly described as follows:

Beginning at an iron rod in the north line of said Section No. 2, and one hundred feet from center of Dixieland Canal for N. E. corner of this survey whence an iron in the north line of said section No. 2, bears North 68° 45' E. 124 varas distant; and the N. E. corner of said section No. 2 bears North 56° 45' E. 1192 varas, thence South 23° 55' E. 50 varas to piece of iron pipe one hundred feet from center of said canal for a corner of this survey; thence South 39° 03' E. 129 varas to a piece of iron 100 feet from center of said canal for corner of this survey, thence South 38° 31' E. 295 varas to piece of iron 100 feet from center of canal, for S. E. corner of this survey, thence W. 505 varas to iron pipe for S. W. corner, thence N. 33° 15' W. 475 varas to iron pipe set in North line of said Section No. 2, for N. W. corner of this survey, thence N. 56° 45' E. 472 varas with north line of this section to beginning.

And levied upon as the property of said N. H. Thorpe et al, and on Tuesday, the 4th day of February, 1919, at the court house door of Reeves County, in the Town of Pecos, Texas, between the hours of ten a. m. and four p. m. I will sell said premises at public vendue, for cash, to the highest bidder, as the property of said N. H. Thorpe, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice, by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in The Enterprise, a newspaper published in Reeves County.

Witness my hand, this 9th day of January, 1919.

E. B. KISER, Sheriff, Reeves County, Texas.

First insertion Jan. 10. Last insertion Jan. 31.

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain order of sale issued out of the Honorable District Court of Reeves county, on the 9th day of January, 1919, by S. C. Vaughan, clerk of said court, against Chicago Title and Trust Co., a corporation, Porterville Irrigation Co., a corporation, Ella G. Shields, A. J. Simmerman, D. Stratton and Stratton Land Company, a corporation, for the sum of Four Thousand Five Hundred Sixty-three and no-100 (\$4,563.00) Dollars and costs of suit in cause No. 1773, in said court, styled J. B. Marshall versus Chicago Title and Trust Co., et al, and placed in my hands for service, I, E. B. Kiser, as sheriff of Reeves county, Texas, did, on the 9th day of January, 1919, levy on certain real estate situated in Reeves county, Texas, described as follows, to-wit:

That certain appropriation of water for irrigation of 30,000 acres of land as evidenced by the Declaratory Statement of one E. L. Stratton, and afterwards acquired by means of conveyance by said Porterville Irrigation Company, and also all weirs, headgates, dams, reservoirs, and all other property both real and personal of every description, used or to be used in connection with said Porterville Canal System and Porterville Irrigation Company, also all rights, claims, interest and liens now existing and owned by said Porterville Canal System and said Porterville Irrigation Company under the laws of the State of Texas in any tracts of land situated in Loving county and Ward County, State of Texas. All of the rights-of-way for any and all the said canal system and all the rights of occupancy of any lands for the said canal system. Also all personal property, including tools, machines and appliances to be used in connection with said canal system, now belonging to the Porterville Irrigation Company, together with all the property, real, personal and mixed, of whatever name, kind or description and wherever situated, now owned by the said Porterville Canal and said Porterville Irrigation Company, including any and all extensions and appurtenances thereto and any and all additional ditches or appropriations of water or water rights or estates in land or interest in personal property.

And levied upon as the property of said Chicago Title and Trust Company, et al, and on Tuesday, the 4th

LEGAL NOTICES

day of February, 1919, at the court house door of Reeves county, in the town of Pecos, Texas, between the hours of ten a. m. and four p. m. I will sell said premises at public vendue, for cash, to the highest bidder, as the property of said Chicago Title and Trust Company, et al, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week, for three consecutive weeks immediately preceding said day of sale in the Enterprise, a newspaper published in Reeves County.

Witness my hand, this 9th day of January, 1919.

E. B. KISER, Sheriff, Reeves County, Texas.

First insertion Jan. 10. Last insertion Jan. 31.

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain order of sale issued out of the Honorable District Court of Reeves County, on the 8th day of January, 1919, by S. C. Vaughan, clerk of said court against H. S. Earle et al, for the sum of Six Thousand Five Hundred Thirty-five and 48-100 (\$6,535.48) Dollars and costs of suit in cause No. 1790, in said court, styled Mrs. S. C. Heard, widow, versus H. S. Earle et al, and placed in my hands for service, I, E. B. Kiser, as sheriff of Reeves County, Texas, did, on the 8th day of January, 1919, levy on certain real estate situated in Reeves County, Texas, described as follows, to-wit:

1st Tract—Being 163.75 acres in Section No. 68, Block 4, H. and G. N. R. Co. Survey, said Reeves County, described by metes and bounds as follows:

Beginning at an iron pipe in the S. Bdy. line of said Section 68, at S. E. corner of an 80 acre tract patented to J. B. Heard out of section 68, Block 4, H. and G. N. R. Co. Survey, for the S. W. corner of this tract. Thence N. 56° 45' E. 2069.5 varas, with S. Bdy. line of said section 68, to an iron pipe on W. bank of Pecos River, the S. E. corner of said Section 68, and the S. E. corner of this tract; Thence up said river, with its meanders, N. 59° 15' W. 492 varas, and N. 14° 15' E. 45 varas, to a stake on W. bank said river, for the N. E. corner of this tract. Thence S. 56° 45' W. 1870 varas to an iron pipe, the N. E. corner of said 80 acre tract, patented to J. B. Heard for N. W. corner this tract. Thence 33° 15' E. 476.6 varas to place of beginning.

2nd Tract—Being 2.88 acres in said Section 68, Block 4, H. and G. N. R. Co. Survey, in said Reeves County, and being a triangular tract out of said 80 acres in said Section 68, patented to J. B. Heard, Beginning at an iron pipe set in the S. Bdy. line of said Section 68, at a point where said section line intersects the center line of the public road, same being the S. E. corner of a 4.83 acre tract conveyed by J. B. Heard to R. S. Grissom from which said corner an iron pipe the S. E. corner of said J. B. Heard patented 80 acres, bears N. 56° 45' E. 417.2 feet. Thence N. 1° 29' E. with center line of said Public road, at 497.5 feet pass an iron bolt in center of said road, the N. E. corner of said Grissom tract, 731.5 feet to a harrow tooth driven in ground at point of intersection of the center line of said road with E. line of said 80 acre tract patented to J. B. Heard for N. corner this survey. Thence S. 33° 15' E. 602.4 feet, with E line said 80 acre patented tract to an iron pipe for S. E. corner this tract, same being the S. E. corner of said patented tract; Thence S. 56° 45' W. 417.2 feet to place of beginning.

Together with water rights Nos. 293 and 294, issued to J. N. Heard by the Barstow Irrigation Company, for water tracts 15 and 16, of 40 acres each.

And levied upon as the property of said H. S. Earle, J. M. Booth, E. E. Bell, J. L. Manning and D. T. Manning, and on Tuesday, the 4th day of February, 1919, at the court house door of Reeves County, in the Town of Pecos, Texas, between the hours of ten a. m. and four p. m. I will sell said premises at public vendue, for cash, to the highest bidder, as the property of said H. S. Earle, J. M. Booth, R. E. Bell, J. L. Manning and D. T. Manning by virtue of said levy and said order of sale.

And in compliance with law, I give this notice, by publication, in the English language, once a week, for three consecutive weeks immediately preceding said day of sale in The Enterprise, a newspaper published in Reeves County.

Witness my hand, this 9th day of January, 1919.

E. B. KISER, Sheriff, Reeves County, Texas.

First insertion Jan. 10. Last insertion Jan. 31.

Jerome Dolezal came in from the training camp Tuesday, and reported for work early Wednesday morning, at his old trade of "shooting trouble" for the Tri-State Telephone Co. Dolezal is a hard worker, faithful and here's success to him, he's molded from the proper kind of mud.

Mrs. M. D. Smith and little daughter returned the early part of the week from Rising Star where they had been visiting relatives for some weeks, and Mr. Smith wears a happier face and is unusually courteous to those who appear at the cash window of the Pecos Mercantile Co.

Mrs. Ed Vickers returned the latter part of last week from Colorado City where she had been called on account of the serious illness of her niece, Mrs. John Daniels. The latter's condition was improved when Mrs. Vickers left and a card during the last day or two states her condition is past the critical stage.

RAYLAND FARMS

Eggs for hatching. Utility Rhode Island Reds. \$1.50 per 13. R. P. VERHALEN. 18*47

Wm. Garlick has returned from Toyah to Pecos, and is again with the Pecos Valley Southern. Billy could hardly afford to remain longer away from Pecos, and Pecos could hardly afford to be without Billy longer, so it is a 50-50 game in which Billy and Pecos are winners. Our people are glad to have him and his better three-fourths home again.

W. R. Black, whom one of his neighbors accuses of making more money than any body on the Creek, was in town Tuesday afternoon and spent three perfectly good dollars of his amassed fortune with The Enterprise, so he would be rich in knowledge also. One copy was sent to a brother, A. L. Black at Jasper, Texas. Many thanks.

Sheep and Hog Fencing, new and used. Phone me for prices.—R. P. VERHALEN. 18*47

Miss Eula Morrison, chief operator at the telephone office, who has been seriously ill with pneumonia, is reported much better and on the road to recovery.

Milton Wadley returned Sunday morning from Mare Island where he had been in training as a naval cadet for the past several months. He has been discharged and is delighted to again be at home, and one would infer from his talk he is glad to be out of the service.

Pink Harbert was in from Saragosa Tuesday and dropped into The Enterprise office to register a full-grown kick that his name never appeared in the columns of the paper. On being shown his euphonious cognomen in last week's issue he decided to subscribe so he'd know what he was talking about in future. Pink is a good scout all right, all right, and is never found wanting.

Dr. Starley, who has been practicing medicine at Odessa for some time past, was brought back to the home of his son, Mayor J. E. Starley, the fore part of the week, Judge Starley and Dr. Jim Camp going down for him. The doctor has been attending some 150 patients daily at Odessa for some time, which proved too much for his strength and he broke down. The Enterprise is glad to state that he is again much better and will be up and out again in a few days.

For the first time in the history of the English Channel, a railroad ferry, recently crossed the channel from Newhaven, England, to Dieppe, in France, with fifty cars on it.

Weekly Health Talks
What Doctor Pierce Has Done For Humanity!
BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloe, root of jalap—things that Nature grows in the ground. These Pellets are safe because they move the bowels gently, leaving no bad after-effects, as so many pills do. Very often they make a person who takes them feel like a new man or woman, for they cleanse the intestines of hard, decayed and poisonous matter that accumulates when one is constive. If you are constipated, by all means go to your druggist and get some of Dr. Pierce's Pleasant Pellets. They may prove to be the very thing your system requires to make you well and happy.

Jess Woods, after a few days' visit in Pecos with his parents, Mr. and Mrs. O. F. Woods, and other relatives, left Monday for Henrietta, where he has accepted a position with his former employer, the Southwestern Ry. Co.
