MRS. HIGGINS HAS NARROW ESCAPE

Mrs. A. Z. Higgins, our pioneer dairymaid, who for ages, it seems, regardless of wind or weather, has made her daily rounds, supplying our people with the lactical fluid, received a rude interruption Wednesday night, when an auto driven by Mrs. Joseph Tinnally crashed into her wagon at the intersection of Cypress and Fourth streets.

The car, fortunately, was running at a low speed, otherwise the accident might have had a more tragic ending. As it was, Mrs. Higgins received a cut over the eye and was badly shaken up, while Harold Moyer, who was assisting in the delivery of milk, was thrown from the wagon, his legs considerably skinned and he was otherwise bruised. Neither was seriously hurt, and while pretty sore this morning from the shake-up, Mrs. Higgins will soon be back on the job. Two wheels of the milk-wagon were broken.

Mrs. Tinnally rendered all assistance possible to the injured, calling a physician to their aid.

ARMY TRUCK BARELY MISSES SECOND VICTIM

The big army motor truck that for several months has been a familiar sight on our streets, missed its second victim Monday by a margin of inches, when it knocked George Slovener down and was stopped at the front wheel in contact with his body. The youngster was more scared than hurt.

The driver of the truck was held blameless for the accident, as the little fellow, who was playing at the fountain, deliberately ran in front of the truck.

HARDGRAVE IN CHARGE OF VAN HORN LIGHT AND ICE CO.

Bob Hardgrave and family left last Friday for Van Horn, where Mr. Hardgrave will assume charge of the light and ice plant at that place. Bob is an expert machinist and thoroughly understands every phase of the business in hand. Though regretting the loss of this estimable family, the Enterprise wishes them success.

BACK FROM OVERSEAS.

Walter Ruhlen, son of Mr. and Mrs. W. W. Ruhlen, arrived home the latter part of last week, having been discharged from the service. Walter was one of the youngest volunteers in this section of the country, and saw service with the Army of Occupation in Germany.

Walter's experience seems to have been a benefit to him, physically, anyhow, but he is as glad to be home as his friends are to have him here.

BIRTHS.

Born, to Mr. and Mrs. Add Owen, Tuesday, August 26, a fine boy.

ACTIVITY IN PECOS OIL FIELD INCREASING

Oil scouts innumerable have been in Pecos the past week, and several are still here for that matter, who are thoroughly investigating every phase of conditions connected with the development of oil. These men represent interests from every section of the country, and they are unanimous in declaring the outlook good for the Pecos oil fields.

Messrs. H. C. Johnson and J. Speck, of Chicago, spent two or three weeks here, and both gentlemen are enthusiastic over the situation. They are members of a company owning land near Pecos, and left Saturday to report the findings of their investigations.

"Things certainly look good," said Mr. Speck, before leaving. "We will be back again in a week or so, and there is no doubt that operations will start on our holdings in the very near future."

Other investigators commented in like manner, but while details were withheld, one cannot help but discover an undercurrent that points to an era of extensive development in the very near future.

SUNSHINE TO BURN OIL.

A change, to take effect immediately, at the Laura well, will do away with much delay now encountered by the company. It is a change of fuel for their stationary engine, from coal to oil, and the use of only soft water in their boiler. Mr. Biggs, local manager of the Sunshine company, states that the new boiler has been set and that the change is being made, which will take about two weeks. Arrangements have been made with the Santa Fe for a spur track which will reduce the haulage to one mile instead of seven, as at present. Biggs has just returned from the Ranger field, where he secured a crew of drillers who will be ready to start operations as soon as the new features are installed at the well-site.

WORK STARTS IN LOWING COUNTY.

W. J. King moved his drilling rig to the site of the proposed test in the Leedman acreage in Loving county. The contract has been closed for a 3500-foot hole and work will be under way in a few days. King is also drilling a test-hole near Pecos, which shows considerable gas pressure, with slight traces of oil.

VICTORY WELL SITUATION.

Failure to receive necessary machinery is delaying work on the Victory well near Quito. Jesse Williams has contracted to drill 3500 feet on this site.

All the above are projects of the Sunshine Corporation, and as an incentive to quick development of the field, they have offered a bonus of \$6000 to the drillers who bring in the first oil-producing well. In a short while, according to Mr. Biggs, all wells will be drilling simultaneously. In this way, he said, the fate of the Pecos fields will not hinge on one well or on one locality.

"There is not the least doubt in my mind about oil being found here," he concluded. "It is going to take a little time, but that time will be short when the prosperity that is going to result is considered."

The optimism of Mr. Biggs is shared by the people of this section in no small degree, brought about by the unanimity of opinion among geologists who have investigated the field.

"The English language is inadequate to describe the Texas oil fields," declared an oil scout recently, when questioned on the subject, he continued:

"I've put in two years here now and haven't touched a fraction of the possibilities."

In all expressions from the many noted geologists who have visited the Pecos country there is not a dismal note.

MORE CHICAGO PARTIES EXPECTING TO DRILL SOON

Hon. C. A. Phillips of Chicago, who owns leases and lands in block C-18 and also in the Barillo country, was a business visitor in Pecos this week.

He was accompanied by Major General Edward Fielding, also of Chicago. These two gentlemen visited practically all the wells in this district now operating and were well pleased with the progress being made and the indications of oil, guided by the surface structures and formations struck in drilling.

Mr. Phillips' mission here, as stated by him to the Enterprise, was to begin the boring of a well on section 3, block C-18, but since the freight deliveries are so uncertain he decided to make an effort to secure a rig nearer the site of his operations if possible.

Both these gentlemen were loud in their praise of the Pecos oil field and faith is evidently unlimited.

"JUST A SOLDIER"—DID YOU DO AS MUCH?

Soldiers are disappointing. When battles were raging and victory hung in the balance, we longed for the day when "our boys" would "come home" and tell us about them. But they won't. Why? Because—

A man on the streets of Carlsbad asked a lad who had spent a year overseas what he did and he said, "Nothing much. Has it rained out your way?"

But he was a friend—and a good one—so one night he told me this:

"I was a member of the 31st Engineers, placed behind a locomotive. I went numberless times from 12 to 48 hours with nothing to eat, driving an engine, pulling up long trains of ammunition to the firing lines—that is, if they did not get blown up before I got there, or were not surrounded by a barrage. I pulled to the rear Red Cross trains of wounded men—some dead, some dying—had to go slow then. I quit my engine to kill Huns in hand-to-hand fights or to repair broken ties. I slept in the mud of shell holes, one night on top of dead Germans. It was dark, but I knew they were dead, for when I ran my hand through their hair it slipped off. I went a. w. o. l. forty-eight days and saw England, Ireland, Spain, Luxemburg, Berlin, Germany; Roumania, France, Scotland and Belgium as a private citizen. (Had no trouble except in Spain, the only neutral country I was in.) This cost me ten days' confinement to barracks. I saw an American doughboy, with only a pair of wire nippers, kill one German who was fully armed and caused ten others to flee by getting his enemy's gun and bayonet. I had three ribs broken by a big Hun "G-I" can directed at my train. I drove my engine without cab or cover, through sleet and snow, and was ruptured by awful jars as I was daily tossed about in my cab—this from shell-torn tracks. I ran on every road in France, from St. Mihiel to the coast." His pay was \$1.10 per day.

No, Sammie boy, "Nothing much" you say? A year of that, with all its dangers, is that nothing?—Carlsbad Current.

MISSIONARY TEA.

Mrs. T. E. Brown, Mrs. C. B. Jordan and Mrs. A. G. Taggart were the charming hostesses to the Woman's Missionary Society of the Methodist church Tuesday afternoon at the elegant home of Mrs. Brown.

A musical program—and the handsome baby grand was never in better tone—by Mrs. Lillian Butler and Miss Ora Pruett, the former singing in her characteristically pleasing manner and delightful readings by Miss Nell Kerr were intensely interesting and edifying.

A Bible contest and a contest in naming Texas towns was also an enjoyable feature. At the conclusion a delightful ice course was served.

Bachelor buttons were the favors, grown in the beautiful flower garden of Mr. and Mrs. Brown. This was an unusually bright and cheery occasion for a hot summer afternoon and the guests were loathe to say adieu to the pleasant hostesses.

COOLER WEATHER FOR PAST WEEK

A summary of the weather report for the week beginning August 21 and ending August 27, indicates that the natives had a few days of relief from the unusual heat that marked the preceding weeks. A glance at the record, however, shows that the relief is only temporary, as the mercury has had an upward trend for the past three days.

The record for the past week is as follows:

Thursday, 21st, maximum temperature 90, minimum 66, with no rainfall.

Friday, maximum 90, minimum 65, no rain.

Saturday, maximum 93, minimum 70; no rain.

Sunday, maximum 84, minimum 69; local showers.

Monday, maximum 84, minimum 69, with good local showers.

Tuesday, maximum 90, minimum 83; light showers.

Wednesday, maximum 93, minimum 65; no rain.

RECORD SHIPMENT OF VALLEY HAY

On last Friday all records for daily shipment of alfalfa from the Toyah Valley were broken when the P. V. S. staggered into Pecos with a string of forty-two cars of the pea-green hay that has made the valley famous. As far as could be learned this was the record shipment of the valley's history for a single day.

Monday, 17 more cars were shipped, and yesterday the number was supplemented by eight more.

There will be at least two more cuttings before the haying season closes, and according to residents of the valley, both will be heavy.

This year has indeed been a prosperous one for Toyah Valley farmers, and a large cotton crop to supplement that of hay, is about ready for the gin. All of which gives an insight to the wonderful opportunities this section offers to tillers of the soil. Drouths, to the farmer, is no menace, as irrigation is the sole method employed.

COTTON ACREAGE SHOWS CLEAR OF PINK BOLLWORM

At the approach of the cotton season there is much conjecture as to the probable decision of the United States Horticultural Department regarding the restrictions on cotton growing in 1920.

On account of infestation from the pink bollworm certain restrictions are now in force among the cotton farmers of Reeves and Ward counties, and for the past year the Department has maintained an office here with a corps of men, under the supervision of Mr. Sidney Smith. The sole duty of these men is to keep in touch with the farmers who are growing cotton, informing them as to best methods of ascertaining whether or not their crops are infested and how to keep down the spread of the pink bollworm menace.

On the threshold of the cotton season the efforts of the Department have been multiplied to eradicate the pest, and just now Mr. Smith's force is thirty-two strong, and their time is well taken up each day.

According to Mr. Smith the next two or three weeks will decide the fate of the cotton industry in this section. However, his utterances at this time are of a nature that predicts the lifting of the ban during 1920.

"At the present time," said Mr. Smith, "we find absolutely no trace of the pink bollworm in the crop now maturing. The cooperation of the farmers in this section of Texas has been wonderful; they have met us more than half way on every proposition outlined, and that is the real answer for the possible eradication of the pest."

Regarding seed from the 1919 crop, Mr. Smith said: "Of course we could not make the farmers give up this seed, nor could we make them ship it to the crusher, but we did ask that none of it be planted in 1920, and I am sure the request will be heeded as have all others made by the Department."

This advance report of conditions in Reeves and Ward counties will be welcomed by the farmers, and the little inconveniences underwritten by the restrictions of the Department will appear on the credit side of the ledger in the next year or two.

RESIGNS AS HEAD OF BOARD

Judge W. A. Hudson, who for several years has been president of Board of Trustees of the Pecos Public Schools, this week tendered his resignation as such. As far as the Enterprise could find out his successor has not yet been named.

A vacancy in the faculty, also, has been reported at this late hour, that of Miss Colon Prewitt, who was to teach Domestic Science. It is hoped that her place will be filled as the Board is at considerable expense in equipping the school with this feature, which, it is understood has been idle—as a regular course—for one or two years.

WIRELESS STATION HERE ORDERED DISCONTINUED

By order of the war department, the wireless station that has been maintained at this place for nearly a year, was this week discontinued, and the outfit connected with the station loaded out yesterday, and consigned to San Antonio.

The personnel of the station, who left yesterday, is as follows: Lieut. D. Pieri, in charge; Sergeant first class, Taylor; ranking non-com., Sgt. Wolfe, Corporal Gantt, and master signal electricians Schindler and Williamson.

A finer set of fellows than these it would be hard to find. Their stay in Pecos has been without a social ripple, and their courtesy and gentlemanly behavior at all times was refreshing. The going will be regretted, most of all by the boys themselves, who state that were it not for orders and a possible jail sentence they would remain with us. Several of the boys will enjoy periods of refreshing from weekly visits of the Enterprise.

All with the exception of Lieut. Pieri and master electrician Schindler, will be discharged at Fort Bliss during the next few days. The two former belonging to the regular army.

RECITAL AT BAPTIST CHURCH.

A recital will be given at the Baptist church, Saturday night, at 8:30 o'clock, by Mrs. Chilton, a former resident of Pecos. There will be no admission charged and the entire free will offering will be given to the Buckner Orphan Home.

TOYAH OIL COMPANY SPUDS

IN WELL IN TOYAH PARK
John F. Grogan has been spending the week in town with his family. He informs the Enterprise that he set the rig and spudded in the well for the Toyah Oil Company at Toyah, in just one hour. The machinery on the ground, he started work setting the rig at 4 o'clock, and at 5 o'clock the machinery was ready and the well spudded in. Mr. Grogan says the Toyah Oil Company is composed entirely of home people, as follows: E. O. Olds of Orla, J. F. Collins, E. B. Daniel, Jno. B. Young and W. B. Collins, all of Toyah.

Mr. Grogan informed the Enterprise that he had sold his rig to this company and they have secured experienced drillers from Douglas, Arizona, who are going down with this well.

This new well, it is understood, is being bored in the park just south of the public school building and was located by Barton Smith, who promises them a flow of oil at 300 feet.

Grogan has spent the major portion of his life drilling wells and has recently finished several wells for W. D. Cowan at the headquarters on the V H ranch. These wells were shallow wells drilled around a spring in order to increase the flow for irrigation. The wells are about 40 feet and the water from each one of these wells, which flows over the top, is piped into the irrigation ditch. By the addition of the water from these wells, according to Mr. Grogan, Mr. Cowan is now enabled to irrigate ten checks at a time, whereas he could only irrigate two before the wells were put down.

Grogan has drilled many wells in this county and his long experience in drilling over this county fully qualifies him as one who knows how.

CARLISLE FISHER

Friends of Mr. and Mrs. J. H. Carlisle, formerly of Pecos, but now residing at 3322 Junius street, Dallas, will be interested in the recent announcement of the marriage of their son, Joseph H. Carlisle, Jr., who recently returned from service overseas, to Mrs. Ruth Adele Fisher, a graduate nurse of the Baptist sanitarium, Dallas. They were married Monday, August 11, at the home of Dr. W. D. Bradfield, pastor of Grace Methodist church. Mrs. Carlisle was a war widow, whose husband was killed in battle in France a couple of years ago. Mr. and Mrs. Carlisle will reside on a farm near Dallas.

SOLDIERS, ATTENTION.

Honorably discharged soldiers, or those furloughed to the Reserve, are entitled to permanently retain the following articles of uniform and equipment:

One hat and cord, 1 pair breeches, 1 pair shoes, 1 pair leggins, 1 waist belt, 1 slicker, 1 overcoat, 1 barrack bag, 1 pair gloves, 1 O. D. shirt, 1 coat and ornaments, 1 toilet articles, 2 suits underwear, 4 pairs stockings, 3 scarlet chevrons.

Additional if overseas: 1 gas mask and helmet, 1 overseas cap in place of hat and cord.

If you did not receive all of the above, or if you returned yours, write me at the address below and I will forward you the necessary affidavits and assist you in securing the same.

We are indebted to the generosity of the Enterprise for giving this statement publicity.

Very truly yours,
C. B. HUDSPETH, M. C.,
House Office Building,
Washington, D. C.

WEEKLY FINANCIAL REVIEW.

Prepared for the Enterprise by the First National Bank of St. Louis.

The gold holdings of the Imperial Bank of Germany have been considerably depleted since the armistice was signed. At the beginning of November, 1918, the holdings equalled about \$630,000,000, and on July 24 they amounted to only about \$275,000,000.

Part of the loss represents gold sent to Belgium under the terms of the peace, and probably an important amount has gone to the adjoining neutrals in payment for supplies, but the large amount which has disappeared is not easily accounted for.

London papers have said that much of it had been paid to the United States for food supplies, under the terms of the agreement of last March but no gold of consequence has been received in this country from any quarter excepting about \$18,000,000 from Canada in June.

Will open my expression class with the beginning of school. All interested call or phone 262. Nell Kerr, Pecos. 2*2

No Worms in a Healthy Child

All children troubled with worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Pleasant to take. 50c per bottle.

Mrs. E. C. Boles is local agent for the Spirella Corset, which is well known to every Pecos lady who wants not only the best but solid comfort as well. Phone 286 and she will call and take your measure for one or more of them. 1-4t

LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion For A Few Cents and See For Yourself.

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to also whiten the skin and to bring out the roses, the freshness and the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well and you have a whole quarter pint of skin and complexion lotion at about the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so that no pulp gets into the bottle and then this lotion will remain pure and fresh for months. When applied daily to face, neck, hands and arms it should help to bleach, clear, smoothen and beautify the skin.

Any druggist will supply 3 ounces of orchard white at a very little cost and the grocer has the lemons.—Advt.

PECOS OIL EXCHANGE

BALMORHEA NEWS

Fiske Emery and wife returned on Wednesday from an extended visit in the northeastern States, both looking and feeling better, of course, but glad to be back in the good Toyah Valley again.

The good farms of the valley have begun to change hands again. The former owners got rich and retired. The latter owners will be rich in a few years, then more transfer will be made; Mr. Jno. Odell buying the L. D. Kingston farm just below Brogado, Mr. W. A. McWhorter buying the C. M. Linton farm.

The valley was blessed with light showers again all Sunday night.

W. D. Randolph and son are visiting with E. P. Robinson and family this week.

Mrs. J. H. Walker and daughter arrived at home from an extended visit with relatives and friends in the eastern part of the State.

Mrs. E. M. Brown is another retired farmer of the Toyah Valley. She has sold her nice little farm and departed for Oklahoma, her future home.

W. E. Gould and T. M. Delaney have their big tractor and separator out now and will commence to thresh another golden crop of which is common in the valley—it's alfalfa seed, of which the valley is famous.

Mrs. E. J. Brady of Barstow has been in the valley for the past three weeks. She returned to her home last Sunday.

H. F. Woods, auditor and general freight agent for the Pecos Valley Southern, was out on the road and in Balmorhea Monday.

The Pecos Valley Southern is putting in a Y at Balmorhea, so that now the big motor, which has been laid up since the bridge on the can was washed out, can turn here. From now on the Pecos Valley Southern will give better passenger service.

Alfalfa hay continues to move out of the valley by the train load, and only a few days now there will be another cutting on hand, which promises to be another bumper—the only kind that the valley produces.

C. M. Linton has purchased and moved into the Balmorhea hotel and will put on the eats for all who will partake, and promises to put up the best table that the market will afford.

ALPINE WILL PUSH COMPLETION OF SMELTER PLAN

The Metal Products Association of Texas is to rush their construction work and complete its smelter plans here, with the expectation of blowing in their double furnace shortly. In an interview with Mr. H. Gearing, the consulting engineer of the association, it was learned that while waiting for further material from Los Angeles, the floor in their large engine room would be concreted, the foundations set for their steel water tanks, and the smelter office completed in the main smelter building for the resident engineer.

After inspecting construction here, and outlining the work necessary for the completion of the plant, Mr. Gearing left for Los Angeles to ship the balance of material that is now ready for the smelter. By the first of September these shipments should be on hand, and the completion and operation of their plant, now seem to be only a matter of a very short time.—Alpine Avalanche.

CALOMEL DYNAMITES

A SLUGGISH LIVER

Crashes Into Sour Bile, Making You Sick and You Lose A Day's Work

Calomel Salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with sour bile it crashes into it, causing cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50 cent bottle of Dodson's Liver Tone, which is a harmless vegetable substitute for calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides it may salivate you, while if you take Dodson's Liver Tone you will wake up, feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to the children; they like it.

13 Advertisement

Pecos, Texas, July 24, 1919

To the Public:

At a recent annual meeting of the Board of Directors of this Company a change in the policy of our business was found to be necessary if we earned a reasonable return on the invested capital. After a careful and considerate discussion of the matter by our full Board of Directors, it was decided, and the management was directed, that no further long time credits will be given, and on and after September 1, 1919, no credit will be given for more than 30 days. All goods bought in one month will be due on the first of the following month, and if same is not paid by the 10th, no further charges will be permitted. In order to make this rule a success we can not show any partiality, and we will be compelled to treat all of our customers alike, regardless of who they are. The enforcement of this rule means no reflection on you or your credit standing, but is absolutely necessary in order that we may be able to sell you goods at the lowest cash prices, which we expect to do.

This will relieve us of a heavy and expensive burden in carrying a large amount of money in unpaid notes and accounts.

We want every one who now owes us to come in and settle their present accounts by cash, if possible; if not, by satisfactory note. We will start new accounts September 1st, and want all old accounts adjusted.

We have been glad to help our people by accommodating them in the past, but the changed conditions and high cost of merchandise has made it impossible for us to continue to do business as we have in the past.

We ask for your hearty co-operation in making this change, and feel that you too will benefit from a system of this kind, as you will have better knowledge of your expenses and financial condition, and in the end all will be better off.

We will continue to carry what the people want with special attention to the best quality at the lowest cash prices.

Trusting that we may continue to have the pleasure of your business under our new rule, we are,

Yours very truly,

PECOS MERCANTILE COMPANY,

T. Y. CASEY,
General Manager.

FOR SALE

H. & G. N. LANDS IN REEVES COUNTY

Surveys Nos. 45, 47, 53, 55, E. half of 61, and 63 in Block 4, Nos. 43, 46, 47, and W. half of 57, in Block 5. The surveys in these blocks are situated from 5 to 8 miles from Pecos City, in the arroyo belt of the Pecos River country and will be sold as a whole or in quarter sections. Also surveys No. 49, in Block 6, and Survey Nos. 9, 13, and 15, in Block 7. Also surveys Nos. 31, 33, 35, and 37 (fronting on the Pecos River) and 39 in Block 1 and Nos. 11, 15, and 17, adjacent thereto, in Block 2, in the vicinity of Riverton, on the Pecos River Railroad. Also Surveys Nos. 1, 3, 5, and 13, fronting on the Pecos River, in Block 8, in the extreme northern portion of Pecos County, and partly in Reeves County. Also 11 surveys in Block 10; 16 surveys in Block 11, and 3 surveys in Block 12; none of these river lands. No local agents for these lands, which are handled direct by the Agent and Attorney in Fact for the owner, William M. Johnson.

IRA H. EVANS, Agent and Attorney in Fact,
AUSTIN, TEXAS.

Atlanta, Ga., Aug. 28.—For purpose of discussing the high cost of living, the general economic conditions affecting cotton producers, and to recommend a minimum price for cotton, a great mass meeting will be held in New Orleans, La., September 8 and 9, having been called by Southern Governors and the American Cotton Association, through its president, J. Skottow Wannamaker, St. Matthews, S. C. The call had just been issued from the Atlanta membership campaign headquarters of the organization.

To date the following State chief executives have signed the joint proclamation: Governors Hugh H. Dorsey of Georgia, Thomas E. Kilby of Alabama, Charles H. Brough of Arkansas, Sidney J. Catts of Florida, A. H. Roberts of Tennessee, Robert A. Cooper of South Carolina, and W. P. Hobby of Texas.

The proclamation follows: "Whereas, the President of the United States in his address to the Congress of the United States on August 8, 1919, has called attention to grave conditions of distress confronting large numbers of our people by reason of constantly rising living costs, due to the perversion of the ordinary laws of supply and demand and to the activities of speculators and profiteers in the necessities of life; and,

"Whereas, those conditions are of special concern to the people of the Southern States in view of their absolute dependence upon the cotton industry as the basis of their well being, and especially in view of the fact that cotton prices have entirely failed to keep pace with the prices of manufactured products and other commodities which they must buy.

"Therefore, we, as Governors of the States of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee and Texas, in association with the President of the American Cotton Association, do hereby summon representative farmers, merchants, bankers, business and professional men from our several States hereinbefore named, to confer together in the city of New Orleans, La., on the 8th and 9th of September, and to study, on behalf of the people of the South, ways and means of dealing with such prices as they relate to the life and comfort of our people; and,

"In particular, to study such conditions as they relate to the cotton industry as a whole to the determination of a fair and just price for cotton, based upon considerations of supply and demand and the price of manufactured products of cotton."

The first day will be devoted mainly to organization and membership work of the association and the consideration of the general situation in the business world. Recommendation of a minimum price for cotton will be the feature of the concluding session, a decision to be reached after the conservative study and discussion of all matters affecting the producers of the staple. Speakers of national and state prominence will be on the program.

Aerial Mail Will Save Many Days.

Air mail service between Chicago and Cleveland was recently inaugurated, and it is predicted that, as soon as arrangements can be made, a chain of cities will have planes in service, so that the time for mail to go east or west from New England and New York will be decreased in a truly wonderful way. With the ocean service in sight, what a revolution there will be! Think of mailing a letter in Chicago at nine o'clock in the morning and having it opened by a firm in London in less than three and a half days! That may sound unreasonable, but it is just what is predicted!

JAMES SPROULL SUCCEEDS T. S. PLOWMAN AS HEAD OF THE BANKHEAD HIGHWAY

The Bankhead National Highway Association announces through Secretary J. A. Rountree that under the constitution and by-laws of the association that Mr. James Sproull of Anniston, Ala., ranking vice president and vice chairman of the executive committee of the board of directors, will serve as president until the next annual meeting of the association, to

**Velvet Always Hits a 3 Bagger:
Sight! Smell!! Taste!!!**

THEN it's easy to get to the home-plate, right where you snuggle down in an old coat and slippers to enjoy life.

To begin with, Velvet Tobacco, in its jolly red tin, has a wholesome generous look to it. Nothing namby-panby about it. A red-blooded tin full of red-blooded tobacco, for red-blooded folks.

Open it up—and you get the fragrance that Nature stored in the tobacco during eight changing seasons, while it mellowed in great wooden hogsheads.

And say! It's great! That good, natural fragrance of Kentucky's wonder tobacco—Burley—King of Pipe-land. No camouflage about it. No drolling up.

Pack a pipeload. Light up and you'll get the fragrance of real tobacco—the incense to solid comfort.

And a mild, pleasant taste, that only our Nature-ageing method can impart. You will never taste a finer cigarette than the one you roll with Velvet.

Fifteen cents a tin—not a cent more.

Batter up!

Lightly, as tobacco

A friendly pipeful makes even the umpire seem almost human.

Velvet Joe

—the friendly tobacco

The near-tragedy at the Fountain this week when the big Army truck came near crushing the life out of little George Slexer, should prove a valuable lesson to our people. In the first place the Fountain should be discontinued as a loafing place for the older people as well as a playground for the boys. Grown men leaning against the Fountain have recently had to draw in their feet to keep them from under car wheels, so close did the cars run to the Fountain. On the other hand, no car should be allowed to turn around the Fountain at a speed which would prevent the stopping of same almost instantly. It is said the Army truck skidded twenty or twenty-five feet after the brakes had locked the wheels. Those with the proper respect for the lives and safety of their fellow men should need no laws passed to prevent their driving at a speed which endangers the safety of others—on the other hand, those who have not this due regard—well, The Enterprise has too much respect for the English language to even make an effort to say what should be done to such. Think it over for yourself.

Although an ordinance of the city prohibiting the driving of cars within the city limits by children under thirteen years of age was given wide publicity, there are yet some of quite juvenile appearance still driving, and it has been said some under that age are driving cars in Pecos. The editor does not know if these children are under or over thirteen, but the law should undoubtedly be enforced. Those who claim to know the ages of children driving cars and know that the law is being violated owes it to himself, the public, city officials and the town to make complaint.

THE WOMEN OF THE OLD SOUTH

The following beautiful tribute to the womanhood of the Old South is taken from an address by Dr. R. A. Webb, of Mississippi:
"I plead for the old order which is passing away; for the old society which is fading; for that womanhood which created the gallantry and crowned the chivalry of the land of the South. I hate to see the woman of the Old South go. She was my mother, my sister, my sweetheart. She had the form which the Grecian chisel traced in marble, and the character

which the Roman orator framed in sentences.

"She had a face like an opal that had slipped red wine; lips that had been touched by the brush of a pink cupped in the blood of a rose; hands softer than velvet, smoother than satin, and truer than steel. She had the princely graces of a maiden and the royal virtues of a matron—the star of her lover, the pride of her husband, the idol of her children, the model of her slaves. The crimson tides which flowed through her veins were full and bounding, nothing languorous nor lackadaisical, nothing bold or brazen; not a mere mollusk fattening upon the banks of life for the fishery of death.

"The ideas which possessed her mind were forceful and intelligent, never stupid, insipid, and insane. The feelings which throbbed in her heart were queenly and radiant, rich and luxuriant. Her speech was clean as the face of the stream, and her words were like jewels on a purple tray. Refinement and culture, elegance and modesty, charity and kindness, sweetness and courage, piety and devotion waited at the altar where she made the offering of the best that was in her. The tone of her life was as pure as the liquid note of the woodlark's evening song when she charms her mate in the fragrant gloaming. She loved poetry, music, and art, dancing and laughter and song, riding and boating and frolic and play; but pleasures unsoiled its shoe and whitened its lip when it crossed the threshold where she stood. To her womanhood each morning emptied a golden goblet, and each evening hymned a sacred lay.

"She glorified the land where she lived, the home where she dwelt, the land of poetry and pathos, of suffering and heroism, of chivalry and love, of blooming flowers and leafy woods, of sunny fields and laughing meadows and singing birds; where the tall pines shook their emerald crests in the angry face of the Northern war storm, where the moss-draped oaks are the symbols of her strength hung with the crepe of defeat. If, as we are told, the Bard of Avon was created by the witchery of the scenery in which he lived, perhaps the charm of the Southland threw a spell upon the daughter of Dixie like a bridal veil falling upon the maid at the marriage altar. But, however she came she was like an 'apple of gold in a picture of silver.'

"I hate to see her go, this woman of the Old South, who mothered the sons that followed Lee and Jackson, and who brought back from Appomattox an honor stainless enough even for her lips, a fame like that untracked snow on the Alpine mountain tops. She laid her hands upon the pots and kettles and sang the song of hope and cheer, while his brave hand made wealth out of poverty and built homes out of ashes, and reconstructed society out of chaos. In the halcyon days, before the cannon's broad strokes had trenched the land, she won the brightest star 'n the Southern sky, in the days of battle and blood she was the inspiration of courage and the angel of mercy, and in the days of defeat and desolation she was the

spirit of hope and the helpmate of man.

"Conditions are changing, and men and women are changing with them. But I hate to see her go, the woman of the Old South. Before she is entirely gone, before her presence fades from the earth and the luster of her name be committed to the golden urn of history and story, poetry and song, music and art, morituri salutamus—'We who are about to salute you, queen of your sex and the glory of your race.'

ADDITIONAL PERSONALS.

M. A. Durdin has purchased the Slover blacksmith shop and moved the same to his home and made a barn of same.

Mr. and Mrs. George F. McKinney and son George L., and daughter, Miss Frances, were in from their farm near Balmorhea yesterday, shopping. Mr. McKinney is one of the valley's prosperous alfalfa farmers, while George L. is fighting old H. C. of L. by raising Belgian hares. They are a fine family.

Lieut. Monroe M. Christian and wife were guests this week between trains of the families of Monroe Kerr and Capt. W. W. Dean. Mr. Christian, whose home is Carlsbad, N. M., has just been released from the military service at Fort Bliss.

Miss Ida Breeding returned last Saturday from a visit with relatives and friends at Carlsbad, N. M., and is spending the week with her sister, Mrs. W. W. Dean, before returning to El Paso, where she will resume her work in the El Paso schools.

Porter Fancher was a business visitor from Toyah the fore part of the week, making the Enterprise office a pleasant call, leaving a nice order for stationery. Porter returned home in a brand new Nash, purchased from Add Owen.

A. E. Miller of Fort Worth, arrived in Pecos this week to look after cotton interests in this section. Reports indicate that the cotton crop will be large this season and Mr. Miller intends, if possible, to reap his share of the harvest.

Bill McDermott will leave today for a month's visit with relatives at Sterling City.

W. R. McDermott and granddaughter, Mildred Buckles, are expected to return Saturday from a visit of three weeks to Mr. McDermott's daughter at Big Lake.

Attorney Clem Calhoun was a business visitor to Van Horn a day or so last week.

Miss Mabel Nold left Sunday for Toyah, where she will spend a week or two with her sister, Mrs. Gus Hopper.

George Nold and daughter, Miss Mabel, returned last week from a visit to the old home in Minnesota, where they were the guests of relatives. They also visited a week in Winnipeg, Canada, with relatives. The trip, they state, was a most delightful one, and they thoroughly enjoyed every day they were away.

Henry Slack, inspector for the Cattlemen's Association, arrived yesterday from Fort Worth, where he had been for two months. Henry says he will probably be home a month or two. He says it is sure hot down there, and he is glad to get back home.

Ben Kraus is in from the mines near Van Horn, where he had been for some time and will visit here for several days.

Dad Baker, in company with two or three others, indulged in what he termed his farewell fishing-trip the first of this week, and to make his word good he burned his bridges behind him by giving away his entire outfit, consisting of an assortment of lines, hooks, lead, etc. Dad will probably leave Monday for Mineral Wells, where he resides.

You Do More Work,

You are more ambitious and you get more enjoyment out of everything when your blood is in good condition. Impurities in the blood have a very depressing effect on the system, causing weakness, laziness, nervousness and sickness.

GROVE'S TASTELESS CHILL TONIC restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

GROVE'S TASTELESS CHILL TONIC is not a patent medicine, it is simply IRON and QUININE suspended in Syrup. So pleasant even children like it. The blood needs Quinine to Purify it and IRON to Enrich it. These reliable tonic properties never fail to drive out impurities in the blood.

The Strength-Creating Power of GROVE'S TASTELESS CHILL TONIC has made it the favorite tonic in thousands of homes. More than thirty-five years ago, folks would ride a long distance to get GROVE'S TASTELESS CHILL TONIC when a member of their family had Malaria or needed a body-building, strength-giving tonic. The formula is just the same today, and you can get it from any drug store. 60c per bottle.

ALL TIRED OUT

Hundreds More in Pecos in the Same Flight

Tired all the time. Weary and worn out night and day.

Back aches; head aches; Your kidneys are probably weakened.

You should help them in their work.

Let one who knows tell you how. Mrs. M. D. Jester, Pecos, says: "I was in bad condition and it seemed I could get no relief. My kidneys acted irregularly, much too often, but not freely enough. I was in great pain. I was all tired out and could hardly get around. After using different remedies I tried Doan's Kidney Pills and they soon put me on my feet. Doan's regulated my kidneys and I felt better in every way. I wouldn't be without Doan's Kidney Pills."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Jester had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Advt. (41)

DAZZLING MILLINERY TO BE DISPLAYED SATURDAY

An assortment of pattern hats, fresh from the markets of Dallas and St. Louis, will be displayed at the Pecos Bargain House Saturday by Mrs. Tom Lewis and Mrs. Doyle Garrison, proprietors of the new local venture—The Pecos Hat Shop. Every woman in Pecos is invited to call and see the beautiful mid-summer and early fall styles. You are not expected to buy—merely inspect these importations—but you will be impressed at the showing. The styles on hand are varied and you will have no trouble in getting just what is needed to set off that new dress you contemplate buying. No left-overs—Mrs. Lewis just returned with the first shipment of latest styles, and left orders for other shipments which will arrive from time to time. So if the style you desire isn't here Saturday, have patience—it's bound to be in the next shipment. The kiddies are welcome at the Pecos Hat Shop, and their wants will be attended to—you bet.—Advt.

The Island of Yap

Washington, Aug. 24.—In connection with the announcement by President Wilson that the island of Yap may be acquired by the United States as a reparation for the sinking of the Lusitania and as a wireless or cable station, the following bulletin is issued by the National Geographic society:

"Yap, the westernmost of the Western Caroline Islands, is situated about 300 miles southwest of Guam and 300 miles east of the Island of Mindanao of the Philippine group. It has a population of about 7,000 and was the administrative center for the Western Carolines, the Pelew and the Lardone Islands. The Germans had made plans to locate a wireless station there but were prevented when Australian troops captured the island in October, 1914.

"Yap is strangely old and strangely up to date. Its inhabitants are still in the stone age of progress and copper is almost the only export, but there are features in their life that seem as ultra-modern as the latest socialist doctrines.

"On the island of Yap, the natives are strict prohibitionists, made so by

the race that made Fibes and Munch famous. Children belong to the community, are frequently adopted or exchanged, and throw off parental control at an early age. Bachelor clubs, closed to the women, dot the island. What corresponds to the Yap dress suit cannot be bought, but is rented to the young beau who desires to shine in society. And since food and drink and clothes all grow on trees, where anyone can secure them, the money of the island represents labor, rather than any material thing. But one can better understand the meaning of the burden of wealth when one hears that a single coin of their stone money sometimes weighs hundreds of pounds.

"Yap, or Uap, when translated means the land, and is the only land that many of the islanders know, although many a native from the island has been driven hundreds of miles away from his home and returned without chart or compass among islands where he could not speak a word of the language used. Yap is surrounded by an atoll but is itself of volcanic origin. The only good harbor is Tomil Bay.

"Married and unmarried men alike belong to the club which maintains a fine hall, or bachelor house, the hostess of which must be secured by force or cunning from some distant tribe. There she lives under a polyandrous system where no man becomes jealous and the wives of the village never object to their husbands' evenings at the 'club.' If one of the men eventually marries the hostess he sets up a new home for her, but the tattooed hands and legs which distinguished her as mispil or 'queen of the club' remain to prove in her weazened old age that once she was the darling of the district. If the mispil shows a preference for any one member of the club that member is told to seek other fields for his social graces and the party goes on without any bad feelings.

"The chief decoration of the male is a string of pink shells made into a necklace, and since no man is rich enough to own such a treasure the best ones are loaned out for such a period as the wearer may choose to be dressed in the height of fashion. As there are no buttonholes they may wear two bouquets in each ear—a sort of corsage bunch in a large hole in the lower lobe and a small boutonniere in a smaller hole higher up in the ear. Shell cuffs made of conchs add the finishing touch to the correct attire.

"Yap women do not wear the veil. Their only dress is a voluminous skirt made of leaves of fiber and composed of four or five thicknesses. Although one month is the average life of a woman's dress, and it is necessary for

anyone to sweep up a bundle of discarded dress goods after every female gathering, the style does not change. But this voluminous skirt has little to do with the modesty or immodesty of the wearer. What corresponds to the veil of the harem beauty in Yap is a thin cord of fiber which every woman, old or young, must wear about her neck at all times.

"The 'large money' of the island consists of millstone-like disks of limestone from Babelthuap, 400 miles to the south, and one of these disks four feet in diameter is the usual price that is paid when the bachelor club abducts a new mispil. Such a piece of currency may be worth 10,000 coconuts.

"The 'small change' of the island is made of shells, which the natives carry strung on fiber as does the Chinaman with his cash. For external trade the coconut is the common standard of exchange.

"It is not necessary that the Yap Croesus should shelter his entire 'pile' in his house. He simply lets it be known that that particular half-ton piece of money belongs to him and no one steals it. On one occasion a very fine piece of money was shipwrecked in transportation and its owner is credited with the wealth represented in that fine bank pile which is now reposing in a safety deposit vault composed of 400 feet of ocean water. When the Germans wanted to have the roads repaired they could devise no way of fining the people until they bethought themselves of 'attaching' some of these limestone pieces of currency, after which the roads were soon repaired."

I have returned from my study in Chicago and will begin teaching my class in piano the first week in September. My studio will again be at the M. M. Leeman residence. Anyone interested or wishing to study, phone 160.

THE STATE OF TEXAS.
To the Sheriff or any Constable of Reeves County—Greeting:
You are hereby commanded to summon Francis Borsch and Henry Franklin by making publication of of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any

newspaper published in the 70th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 70th Judicial District, to appear at the next regular term of the District Court of Reeves County, to be held at the court house thereof, in Pecos, Texas, on the 3rd Monday in November, A. D. 1919, the same being the 17th day of November, A. D. 1914, then and there to answer a petition filed in said court on the 11th day of June, A. D. 1919, in a suit, numbered on the docket of said court No. 1853, wherein Mrs. Kate McAulay is plaintiff and T. E. Crawford is defendant, and said petition alleging suit on two notes for \$400.00 each, dated November 30th, 1914, due respectively June 15, 1915, and May 15, 1916, made by defendant payable to C. T. Wright and transferred by payee to plaintiff before maturity. Said notes bear interest at the rate of eight per cent per annum, payable annually until maturity and also provide that past due principal and interest shall bear interest at the rate of ten per cent per annum and said notes also provide for ten per cent on the principal and interest then due as attorneys fees.

Plaintiff further prays for foreclosure of vendor's lien on the southwest quarter of section 13, in block C-21, public school land in Reeves County, Texas, containing 160 acres of land, to secure the payment of above notes.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Pecos, Texas, this the 26th day of August, A. D. 1919.

S. C. VAUGHAN, Clerk.
By VANNIE INGLE, Deputy. 2-4t

THE STATE OF TEXAS.
To the Sheriff or any Constable of Reeves County—Greeting:

You are hereby commanded to summon T. E. Crawford by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the 70th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 70th Judicial District, to appear at the next regular term of the District Court of Reeves County, to be held at the court house thereof, in Pecos, Texas, on the 3rd Monday in November, A. D. 1919, the same being the 17th day of November, A. D. 1914, then and there to answer a petition filed in said court on the 2nd day of August, A. D. 1919, in a suit, numbered on the docket of said court No. 1856, wherein J. I. Campbell is plaintiff and Mrs. Francis Borsch et al are defendants, and said petition alleging: Plaintiff sues to cancel and set aside deed executed by him to defendant Francis Borsch dated July 19th, 1919, and an oil, gas and mining lease made by defendant Francis Borsch to defendant Henry Franklin, dated July 21st, 1919, the former conveying and the latter covering the following described lands in Reeves County, Texas, viz: Section 10, Block 55, containing about 672 acres, and Section 204, Block 13, containing about 640 acres.

Plaintiff alleges that defendant, Francis Borsch, and her authorized agents, one Digby and one Morrow, falsely and fraudulently represented that said Borsch was the owner of 856 acres of land in Henderson county, Texas, about 476 acres being out of the Eli Hillhouse survey, about 150 acres out of the Jackson Smith survey, and about 230 acres of the John L. Kennedy survey, and to be of the value of \$5,000, and thereby caused plaintiff to execute a deed to his Reeves county lands above described. That plaintiff relied upon such representations and that they were made for the purpose of defrauding plaintiff of his lands and inducing him to make said deed. That in truth and in fact said defendant Borsch did not own said Henderson county lands. That in furtherance of a conspiracy to deprive plaintiff of his said lands the lease above mentioned was made and recorded in Reeves county, Texas. That defendant Franklin had full knowledge of the fraud herein alleged at the time of the execution of said lease. Plaintiff tenders reconveyance of the Henderson county lands and prays for cancellation of said deed and lease on his Reeves county lands for \$5,000.00 damages, for cost of suit and for general and special, legal and equitable relief.

Herein fail not, but have before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Given under my hand and seal of said court, at office in Pecos, Texas, this the 26th day of August, A. D. 1919.

S. C. VAUGHAN, Clerk.
By VANNIE INGLE, Deputy. 2-4t

"BAYER CROSS" ON ASPIRIN

Always Ask for Genuine "Bayer Tablets of Aspirin"

Only Aspirin Tablets with the safety "Bayer Cross" on them are genuine "Bayer Tablets of Aspirin," owned and made by Americans and proved safe by millions of people. Unknown quantities of fraudulent Aspirin Tablets were sold recently by a Brooklyn dealer which proved to be composed mostly of Talcum Powder.

"Bayer Tablets of Aspirin" should always be asked for. Then look for the safety "Bayer Cross" on the package and on each tablet. Accept nothing else! Proper directions and dosage in each Bayer package.

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

Get Your Money's Worth

Hearing the New Edison for the first time is like opening the blinds to the sunlight.

You expect to hear the familiar talking machine "tone." You are agreeably surprised to hear something different—something that you did not expect to hear from a phonograph. You hear the human voice and the music of human-played instruments in all their natural beauty—positively indistinguishable from the performances of the artists themselves.

When we sell you an Edison RE-CREATION we sell you the actual voice of the artist, or his instrumental performance—nothing more, nothing less.

If we sold you an Edison RE-CREATION, knowing that it was not 100% true to the actual recording of the artist, we would be guilty of not giving you your full money's worth. We know that when we sell you an Edison RE-CREATION we are giving you your full money's worth because we have proof.

Two thousand music critics have endorsed our claim that

The NEW EDISON
"The Phonograph with a Soul"

RE-CREATES the human voice and the music of human played instruments without the slightest deviation from the original.

"What the Critics Say" tells the story better than we can tell it here. May we send you a copy?

Livable Tenant Houses for Farm Help—

Farm help is now more of a problem than ever before—harder to get and harder to keep. The farmer who wants to be sure of his help must offer extra good inducements.

The best possible inducement is private, attractive, and comfortable quarters—in other words, livable tenant houses. The farm laborer has the same desire as the farmer for a home of his own.

A modest, moderate priced home for your help is the wisest and surest form of farm labor insurance and, when lumber is the building material used, it will prove to be the most economical.

BUILD NOW and be assured of permanent farm help.

NOTICE TO GROWERS OF COTTON IN REEVES COUNTY
A meeting will be held on the 2nd day of September at the Chamber of Commerce, Pecos, Texas, for cotton growers to designate firms to whom they wish to ship the 1919 cotton crop to in accordance with agreement entered into with the State and Federal departments of agriculture. It is urgently requested that those interested in the matter will attend the meeting.

MILK GOAT GAINING FAVOR.
Prejudice is perhaps the most vicious of the narrow propensities of the human mind, and has done more to retard human progress than all the other warped tendencies combined. It is this quality, and nothing more, that has curbed, and has discriminated against one of mankind's oldest and most faithful friends, the milk goat. Let me make it very plain that the milk goat is not a joke. Neither is it "just another fad" that is destined to "flicker out" under the test of time. Indeed Nanny has survived the acid test of time, having been the principal milk supply in Europe and the Orient for thousands of years before the dawn of the Christian era. Thanks to those faithful friends of these wonderful little producers, Nanny is rapidly emerging from the fog of narrow prejudice that has so long engulfed her and is taking the important place in the American livestock calendar to which she so richly deserves.

Although America is last among the civilized countries of the world to recognize the importance of the milk goat, we have a right to believe, in the light of past accomplishments with other breeds of livestock, that now we have come to know that she is worthy and deserving of recognition, we will, through intelligent breeding and scientific feeding, bring her up to a point of productiveness that the slow moving Europeans and Orientals have not been able to do.

One of the principal prejudices concerning the goat is regarding its "fragrance" and it is to be admitted that a single whiff of the aroma exhaled by the common, ordinary, barnyard buck is sufficient to leave a lasting impression upon the olfactory nerves, but with the milk breeds this objection has been reduced to a minimum through scientific breeding and the practice of rigid sanitation and the simple laws of cleanliness; the "goaty" odor is entirely eliminated from the milk by keeping the milking does separate from the bucks and milking them in clean, sanitary surroundings.

Milk of any sort is extremely susceptible to odors of all kinds. We know that if we place an open vessel, filled with milk, in a refrigerator in which there are onions, garlic, cantaloupes or any odoriferous fruit or vegetables, the milk quickly becomes contaminated with the surrounding influences. To avoid this result we simply remove the influence or keep the milk in airtight containers. So, if the bucks are kept remote from the

does and the milking quarters there isn't the slightest likelihood of milk being of a "goaty" smell or flavor.

Goats' milk is used for every purpose that cows' milk is used for, such as drinking, cooking, for use in tea and coffee and for making cheese and butter. Some of the smoothest and richest ice cream that I ever tasted was made of goats' milk. On account of the ready sale of the milk and the attractive prices received for it, however, very little of the milk is utilized for butter or cheese making in America, but some of the best and most expensive of the imported cheese that we know anything about is made from goats' milk.

There are many cases on record where goats' milk has proved particularly valuable for infants and invalids when all other foods had failed to agree with the patients. In my rounds among the breeders I saw many robust children who had been practically raised on goats' milk and in many instances the parents told me that but for this milk their babies could not have survived.

I do not believe, as some enthusiasts do, that Nanny will, or can, ever supplant Bossie in America, but I do know that she will supplement the dairy industry of this country in an ever increasing capacity and as rapidly as the foolish legend and blind prejudice that is prevalent concerning her gives way to the solid fact that she is a wonderful producer of the highest quality of milk that we know anything about.

This is not an idle prophecy. It is now an accomplished fact. On the Pacific coast there are hundreds of herds, varying from just a few, to thousands of head and in many places there are regular goat dairies in operation all of which have an eager patronage for every ounce of milk produced and receive prices for it far in advance of the amount secured for cows' milk. At San Francisco, the Widemann Goat Milk Company has a herd of about three thousand head of goats, the milk from which is condensed, canned and sold in every portion of the Western Hemisphere.

Riding on the trains and interurban lines of California, Oregon, and other States of the Pacific coast it is a very common sight to see one or more milk goats "staked out" and grazing upon the lawns of the residences along the way. I talked to many of the owners of these goats and in almost every instance it was revealed that they had formerly shared the common prejudices concerning the milk goat, but delicate children or invalids in the family, demanding nutritious food, had been responsible for the presence of the goat, and having been given a chance, Nanny quickly won her way into the affections of the family and proved to be such an economical source of the family milk supply that the owners would not part with her for any cash consideration. The milk goat fills a long felt want in America.—Tom Mann, in Farm and Ranch.

GREAT AGRICULTURAL RALLY
Better methods are taught and better crops encouraged by the International Farm Congress, which is to hold its fourteenth annual sessions at Kansas City, Mo., September 25, 26 and 27.

The International Soil-Products Exposition, which is staged under the management of the Farm Congress, will open on September 24, and run until October 4, also at Kansas City. These combined events constitute the great rallying point of the year for farmers from far and near.

The premium list for this year's Soil-Products Exposition shows that nearly \$15,000 in cash and trophy prizes will be awarded to those who make exhibits. These premiums are the largest offered by any fair or exposition in the United States.

The exhibitor of the best half-bushel of wheat may win \$1,020 in cash and trophy prizes. The lowest it can win will be \$385. The best ten ears of corn may win \$320 in cash and trophies. Proportionate prizes are offered in all agricultural and horticultural classes.

Individual farmers everywhere can enter their blue ribbon products. Valuable prizes are offered for collective exhibits by Boys' and Girls' Corn, Grain-Sorghum, Garden, Canning, and Sewing Clubs representing each state. In order to compete in this contest, the Club members must have won in competition at their respective State and local fairs, or have their exhibits approved by the State club leader.

The exposition also carries a complete line of industrial and other exhibits and an unequalled amusement program, known as the International Hippodrome.

Large collective agricultural exhibits have been entered by the gov-

ernments of Canada and Mexico, by a dozen States, and many counties. Kansas and Oklahoma are among the States that have made legislative appropriations for this purpose.

The annual sessions of the International Farm Congress will be held September 25, 26 and 27, in connection with the Soil-Products Exposition. The President of the United States is authorized by congressional action to invite the participation of other countries in this meeting. An attendance of not less than 5,000 delegates is expected. The Farm Congress sessions, including all lectures, addresses, demonstrations, etc. are open to all who attend the exposition.

MILLIONS OF CATTLE TICKS WERE CLEANED OUT IN JUNE

Despite extensive rains, swollen streams, flooded vats, and shortage of labor for grain harvesting, more than 7,000,000 dippings of cattle to get rid of the cattle-fever tick were supervised in June by Federal, State and county inspectors. The actual number of dippings was 7,097,260, and while that is 524,009 less than the dippings in May, it is thought to be a remarkably good one in view of the adverse conditions with which the tick fighters had to contend.

There is another reason, too, for the fewer dippings in June, and a reason that is cited with solid satisfaction by the bureau of animal industry of the United States department of agriculture. In areas where "mopping up" work was conducted in the spring, further dipping has been found unnecessary because of the absence of ticks. That is an indication of the condition that will become more general in the tick-infested sections.

The healthy progress of the anti-tick campaign is shown by the following summary of June dippings:

Alabama, 994,275; Arkansas, 665,479; Florida, 275,687; Georgia, 528,409; Louisiana, 1,505,614; Mississippi, 423,686; North Carolina, 7,589; Oklahoma, 627,572; South Carolina, 143,641; Texas, (north), 1,612,969; Texas, (south), 322,339.

Dipping vats in operation number: Alabama, 7,851; Arkansas, 3,582; Florida, 1,325; Georgia, 2,407; Louisiana, 4,545; Mississippi, 5,726; North Carolina, 543; Oklahoma, 1,137; South Carolina, 827; Texas, (north), 4,649; Texas (south), 1,197.

HOW A "SUCKER" WAS SAVED.

A city man got a very glowing circular from a Chicago "development company" offering him 10 acres of land in Florida for the surprisingly small sum of \$2,500—a "peanut unit" the circular called it. He could grow, the circular said, a thousand bushels of peanuts on his 10 acres and could sell the peanuts—allowing for low prices—at \$2 a bushel. The city man was impressed; but he sent the circular to the United States department of agriculture with a query as to whether or not the investment was a good one. Following are some sentences from the letter he got in reply: "The literature is of the kind designed to deceive city people in the North and West who do not know anything about farming." "The average return from 10 acres of peanuts would not exceed \$300 to \$500." "You could buy a 100-acre farm in almost any of the counties of western Florida, including the one mentioned in the circular, for the price these people ask for 10 acres." "The whole 'unit' system, whether it is peaches, peaches, figs, cane, peanuts, hogs, or what not, is simply a means of selling land at three to five times what it is worth to ignorant or unwary small investors." "To pay \$2,500 for this 10 acres of land would stamp you as a 'sucker' of the rankest class." "All this is without reflecting in any way on Florida, for it is a good state and lands are comparatively cheap there."

PERSONAL MENTION

W. H. Mullane, for many years editor of the Carlsbad Current, passed thru Pecos Wednesday on his way to the big celebration at Van Horn. Mr. Mullane has been on a ranch for the past year or so for his health and is once more looking about as usual. W. H. is a good newspaper man and a hustler. He made the Enterprise a very pleasant visit.

E. G. Boles and family were in town Tuesday. They came in to bring Mr. Boles' sisters, Mrs. W. A. Boles and Mrs. S. K. Lewis, who had been visiting at the ranch for some time. Mrs. Seth Lewis and Baby Ruth were returning to their home on the ranch near Midland, Mrs. W. A. Boles going along for a visit of a week or two before returning for a longer visit with Fry and family before returning home at Uvalde.

Joe Hollebeke and family, Mrs. P. V. Hollebeke, Misses Gladys Shaw and Ruby Mae Beauchamp left Wednesday via auto for Van Horn to attend the big celebration.

Miss Gladys Shaw returned from Ennis Wednesday, where she spent the summer, and is ready for institute and school work.

R. S. Johnson, proprietor of the Orient Hotel, left Wednesday for Van Horn to attend the barbecue and celebration.

Mrs. F. A. Bessire of Toyah spent Sunday with the Enterprise family and filled an appointment with Dr. C. J. Magee Monday before going home in the afternoon.

Mrs. P. J. Rutledge and children returned Friday afternoon from Denton, where she took a summer kindergarten course and later visited relatives at other points east of here.

Jack Linton was up from Baird Sunday for a short visit with friends (?) "Friends" were out in the mountains, however, having failed to receive his telegram in time.

H. T. Mitchell, now of El Paso, but formerly for years a blacksmith at Toyah, with his niece Misses Emma and Charlie Clark of Toyah, were Pecos visitors Tuesday. H. T. has been spending a week's vacation at Toyah with his brother, Dave Mitchell.

Geo. E. Jackson was in from the ranch Wednesday for supplies.

Mrs. Geo. E. Jackson and sister, Miss Julia Padgett, left Monday for Van Horn for a visit with their sister, Mrs. Ira J. Jackson, and to attend the barbecue and celebration.

Ed Otto and wife are in Dallas with their son, Jesse, for treatment by a specialist.

Dr. Black returned this week from a visit to points east of here, making Lubbock en route.

Rev. Fred B. Faust will assist in a protracted meeting at Barstow next week.

Miss Ruby Mae Beauchamp has returned from a visit during the summer to her sister, Mrs. Jim Sharp, at Medill, Texas.

Mrs. Lee Hanson of Carlsbad, N. M., on her way home from a visit to relatives at Big Spring, stopped off Monday for a visit with her brother-in-law, J. V. Hanson and family.

Rev. Fred B. Faust and family, O. T. Norwood and family and Mrs. J. O. Toliver left Monday for an outing in the mountains.

Miss Evelyn Somes, who spent the summer with her father, M. Somes, and sisters, Mrs. Hardin Ross and Mrs. Tatum Moore, returned to Waco last Friday, where she will attend school the coming session.

W. D. Randolph and son, who have been visiting for a week at Balmorhea, returned Wednesday.

Rev. J. E. Butler of Lake Creek arrived Wednesday afternoon and left via auto for Saragosa, where he will assist in the revival meeting to be held there. Rev. Butler is a brother of Mrs. W. R. Black and will be the family's guest while in this section.

Dr. J. A. Daniel of the Toyah Valley Sulphur Company, left Wednesday afternoon for Van Horn to attend the big barbecue and celebration.

Mrs. C. C. Colwell and children spent Wednesday visiting friends at Balmorhea and Saragosa.

Miss Minnie D. Jordan left Thursday for her home at Lampasas, after a two weeks visit to her brother, C. B. Jordan and family.

Miss Eula Mae and Master Morris Colwell will return home Sunday from a visit to relatives in Big Spring.

Mrs. Jay Heard and baby arrived Wednesday night from El Paso and will visit for some time with her parents, Mr. and Mrs. R. G. Warn.

Phil Pryor, who left Pecos two weeks ago to accept a position at Snyder, arrived here the first of the week and is at his old job in the grocery department of the Pecos Mercantile again.

Mrs. G. B. Rowden returned home Wednesday night after a month's visit with her son, Tony, at El Paso.

Mrs. W. T. H. Baker, after a visit of two weeks with relatives in Pecos

and Saragosa, left Monday for home at Mineral Wells.

Miss Anna Wright returned last Friday from a visit in the Davis Mountains, the guest of Miss Grace Duncan.

Tom Simmons was a visitor in El Paso for several days last week, returning home Tuesday afternoon.

Miss Zimmer Prewit arrived from El Paso Tuesday afternoon and is now the guest of her sister, Mrs. Jno. Higgins. She is a daughter of Mr. and Mrs. W. D. Prewit, and the family, after a residence of a year in El Paso, will again make Pecos their home.

Mrs. E. Caraway, of Spur, Texas, was the guest of F. P. Richburg's family last week from Thursday until Sunday. She was on her way home from an outing in California.

Dr. Homer Powers of Fort Stockton, was a visitor in Pecos yesterday. The doctor is one of the best known characters in the Southwest, and his friends are legion.

Ray Camp, who had been in Fort Worth and Dallas the past week, returned Tuesday and is visiting his mother, Mrs. J. C. Camp.
