Jr. High Students In TIP Program

Fourteen students from Friona Junior High School have qualified for participation in this year's Talent Search for mathematically and verbally advanced students sponsored by Duke University's Talented Identification Program (TIP). The program identifies highly able seventh-graders from a 16-state region in the south, southwest, and midwest.

To be eligible students must have scored within the upper 3 percent of national age-grade norms on acceptable math, verbal, or total composite section of an in school achievement test. They will take the Scholastic Aptitude Test (SAT) or ACT Assessment (ACT), normally taken only by college-bound juniors and seniors, in December, January, or February.

Many of these students score as well as or better than the average college of Merit and some become eligible for state-wide recognition ceremonies or a variety of educational programs.

TIP, established in 1980, has provided thousands of students with information about their abilities and educational options. The purpose of the program are to help academically bright students develop their special abilities, to assist school in working with their brightest students, and to understand the nature of exceptional mathematical and verbal ability.

The following students from Friona Junior High School are eligible for the

1998-99 Talent Search: Becky Aronce daughter of Jesus and Manuela Aronce; Robbie Jan Barrett daughter of Robbie and Stephanie Barrett; Haleigh Herbert daughter of Donald and Marka Herbert; Juan Hernandez son of Carmella Hernandez; Keith Hunt son of Chris and Terry Hunt.

Also, Stephanie Jones daughter of Steve and Donice Jones; Timothy Messer son of Waide and Pam Messer; Jacob Miller son of Curt and Kathi Miller; Adam Perkins son of Leslie and Becky Perkins; Bridget Soltero daughter of Epifanio and Amelia Soltero; Lewis Vasquez son of Luis and Connie Vasquez; Mashay White daughter of Mike and Tammie White; Tiffany White daughter of Phillip and Rebekah White; and VLesha Wilcox daughter of Terry and Varla Wilcox.

Chiefs Visit Cooper; 'Stretch Drive' Here

It's crunch time for the Friona Chieftain football team.

Although the team could be excused for looking a week ahead, when Friona visits Muleshoe in a game that could be for "most of the marbles" in District 2-AAA, Coach Scott is quick to give the expected warning about

this week's opponent.

The Chieftains visit Cooper in their second-straight first-ever game with a Lubbock area school.

"Cooper has played well defensively. They could be the best defensive team we will have faced. They played Littlefield well last week (in a 21-3 loss)," Coach Scott said.

The Chieftain coach pointed out that the Pirate quarterback has some talent, and will probably throw the ball against Friona. "We need to go in with some caution, because they will be after us," Scott said.

The Pirates were expecting to compete for a playoff

position after going 7-3 in 1997. Cooper had turned the corner last season, after suffering through an 0-10 season in 1996.

Cooper brings a 4-3 season and 1-1 district record into the contest. Their wins have been over Floydada, 24-21; Slaton, 7-0, and Roosevelt, 16-13. Losses have been to Lamesa, 16-0, Lubbock High, 47-0 and Littlefield, 21-3.

The Pirates returned 15 letters which included six offensive and seven defensive starters.

The best we can tell, the community is called Woodrow, just south of Lubbock on Highway 287.

Larry Rogers Wins On Top Tie-Breaker

BY RON CARR

The football contest for week 7 may have to be nominated for the Football Contest Hall of Fame.

First of all, our game selection committee included two games which were played on Thursday night before the Friday contest deadline. So the Amarillo-Coronado and Green Bay-Detroit games were "free games" for you.

Sorry about all the trouble some of you went to in changing your guess after Thursday night.

So we were left with 16 games in the contest. A total of 21 contestants had 15 (out of 18) correct. In other words, 21 of you missed three games.

The tie-breaker was a very weak Dallas 12, Chicago

13, the second time Dallas has lost by that score this year.

So we computed all 21 tie-breakers to declare a winner. Lo and behold, one contestant, Larry Rogers of Friona, was 12 points off with his pick of Dallas 24, Bears 13. He captured the \$20 prize and has probably spent it by now.

Six players were 13 points off, so there was a six-way tie for 2nd place. Normally if two people tie for 2nd or 3rd place, we split the \$15.

But since we had two games thrown out and because dividing \$15 among six contestants would make us look cheaper than we already are, our committee decided to award all six 2nd place finishers \$5 each.

These six lucky entrants were Mike Hutson, Raul Brailiff, Tim Elmore, Steve Foster, Richard Dickson, and Jack Clark.

The other contestants who had 15 correct and their points off the tie-breaker are: Lana Bracken (15), Colby Carthel (15), Mark Zachary (15), Don Max Vars (16), Mal Manchee (17), Jerry Hinkle (17), Bobby Wied (18), Alesia Tucker (20), Shirley Fangman (20), Donita Martin (20), Ron Smiley (22), Walter Hudson (29), Shirley Steinbock (33), Max Steinbock (33).

Another 17 players picked 14 games correct. The race for the 1998 point total prize of \$150 is still close since so many of you had similar scores in week 7.

There are 6 more weeks to make your serious move in the point race.

In the meantime, I predict the 1998 Friona Chieftains will be 10-0 this year too. The boys are looking great. Go Big Red!

Good luck and good pickin' to all our contestants.

THE '98 ELECTION is right around the corner. In fact, early voting has been going for a week and is almost over. Carol and I decided to share with our readers who we will be supporting and why. Every election is important, but this one could be even more so than usual.

U. S. Representative: **Larry Combest** has done an exceptional job for this district ever since he was first elected. Combest is genuinely interested in the fate of our farmers, having a farm background. His appointment to the House Agriculture Committee puts him where he can do the most good. If it ain't broke, don't fix it!

Governor: **George W. Bush** has done an outstanding job in his first term, and should be re-elected. He is the conservative voice that residents of our area and state agree with. He has shown exceptional ability to work with influential Democrats, such as Lt. Gov. Bob Bullock and House Speaker Pete Laney.

Lt. Governor: **John Sharp** (Dem.) We have been impressed with John Sharp ever since he emerged on the state's political scene. Since election as the State Comptroller, Sharp has come up with cost-cutting measures which has saved the voters of Texas \$8.5 million. Sharp knows our area and its leaders.

Sharp supported the dissolution of the State Treasurer's position, pointing out that his office could perform the tasks formerly done by the treasurer's office. It worked, and again saved residents \$\$\$.

Have you ever heard of another state or national office being shut down? This race has added stakes in the event that Gov. Bush should seek and be elected president. In that event, the Lt. Governor would move up. We really don't believe that Bush will be tempted, but if so, Sharp can fill the bill as governor.

Attorney General: **John Cornyn** has promised to turn up the heat in the area of child support enforcement. He also has promised to increase the prosecutor's role of the Attorney General, and to establish a statewide "gang database."

Comptroller: **Carol Keeton Rylander** is aware that this position is a critically important one. She regards education as the top issue in the state, and has pledged to devote a larger portion of the education dollar in Texas to make it into the classroom.

Land Office Commissioner: **David Dewhurst**. The General Land Office manages some 20 million acres in Texas, to the benefit of the public school fund. Dewhurst has pledged to work diligently to generate as much money as possible for education in Texas.

Agriculture Commissioner: **L. P. (Pete) Patterson** (Dem.). Both of the ag candidates are qualified, but Patterson gets our nod. We think Patterson will better represent the state's agriculture producers, as well as the other citizens of the state.

Railroad Commissioner: **Tony Garza** has promised to make the best use of natural resources in Texas in conjunction with good environmental policies. He has received good bipartisan support during his campaign.

State Representative: **Pete Laney** (Dem.) has worked and earned the spot as top ranking member of the Texas House of Representatives. As Speaker of the House, Laney is able to exert considerable influence on legislation. He is a farmer, and understands farmers' problems. In a day when the rural areas such as ours get less and less representation, we need to take advantage of Laney's leadership, and return him to another term in the Texas House.

State senator **Teel Bivins** is unopposed in his bid for reelection, and that probably speaks volumes for the job Bivins has done in the Texas senate. He has been to Parmer County numerous times, and is the kind of friend you need in Austin.

People in our state and area are more apt to vote for the "candidate" rather than the "party," and our choices bear this policy out. For more information on most of the candidates, see the Voter's Guide being published in this week's issue.

Early Voting This Week

The official election will be Tuesday, November 3.

Early voting in Friona began this week and will continue next week on October 27, & 29 at the Friona State Bank community room from 9 a.m. to 5 p.m.

Bovina early voting day will be October 28 at First Bank Bovina. The hours in Bovina are also 9 a.m. to 5 p.m.

All eligible citizens are urged to vote in this important 1998 election.

Chiefs Have Longest State Win Streak

The Chieftain football team has been verified as having the longest consecutive wins in regular-season games for the state of Texas--26 straight!

The current streak began with the second game of the 1996 season, after the team had suffered a 21-14 loss at Littlefield in their season opener. That team went on to win their other nine season games, and added four wins in the playoffs.

Friona's 1997 team became the first FHS team to post a perfect 10-0 regular season, to stretch the streak to 19 games. So far this year the team has added seven wins to the streak, going into the Friday game at Cooper.

In addition, the Chieftains have won 30 of their last 31 games--a torrid 97 per cent!

With a win at Cooper, Coach Mike Scott would tie for the most wins, as well as consecutive wins as a first-year Friona coach. Don Light set the standard by turning a 27-game losing streak around and going 8-2 in 1963.

Red Ribbon Drug Free Week Observed October 26-30

The week of October 26-30 is designated as Drug Free Red Ribbon Week throughout Friona ISD.

Student activities are being planned throughout the week by students and teachers.

At Friona High School, students will receive red ribbons to wear, student

council members will put red ribbons on trees in city park, students will have a Halloween costume contest and on Friday all students are encouraged to wear red.

At the junior high, Monday will be boy/girl switch day (boys dress like girls and girls dress like boys).

Tuesday will be weird hair day, Wednesday is teacher/student switch day, Thursday will be sports day and Friday the student council will be putting on a skit titled "Maturity".

At the elementary school, each homeroom will be involved in a number of instructional activities.

The student council is sponsoring Hat Day, Hippy Day, and Red Day.

And at the primary school, teachers will be creating lessons and activities to teach drug prevention. Primary students will try to collect \$1,000 in their Save for America accounts and donate a percentage to the Police Drug Dog fund.

Daylight Savings Time Ends Sunday!

JV Topples Roosevelt; Stand 5-1

The Chieftain junior varsity downed Roosevelt here last Thursday, by a score of 18-0.

Cason White hooked up with Michael Ortiz on a 40-yard touchdown for the first score. White hit Charlie Saiz for a two-point conversion: 8-0.

Tyson Neill took over at QB after White injured an ankle, and ran it in from the one for a TD. Neill also had a two-point run, and Saiz tackled a man in the end zone for a safety, to round out the scoring.

The Chieftain JVs held Roosevelt to only one first down in the entire game. Justin Boyd at safety, Frank Dominguez, freshman linebacker, and Oswald Almaguer, linebacker, were mentioned for their play. "It was just an overall good defensive game," said Coach Mike Scott.

KING SCORES....Nathan King scored his first varsity touchdown on a 95-yard fumble return, to ignite Friona in its 58-6 win over Roosevelt. (ron carr)

GRAJEDA GALLOPS...Noel Grajeda (24) is shown with the ball, moving upfield. Teammate Joseph Bandy is at left, having thrown his block. Grajeda scored four TDs in leading the team to its win. (ron carr photo)

Chiefs Hold 'Stat' Lead For Area 3A

The Chieftains remain top-ranked in the area for total offense and defense, although Dimmitt has made it close in the offensive department, where Friona holds a 2.1 yard-per-game.

The Bobcats are 47 yards behind in second place on team defense.

His four TDs shot Noel Grajeda into the scoring lead with 76 points, and Matthew Kendrick is second with 66.

Seminole's Bobby Dale rushed for 347 yards against Slaton last week, to take over first place in rushing in the South Plains. Dale has 923 yards to Kendrick's 909. He has carried the ball 33 times more than Kendrick. Grajeda stands sixth with his 704 yards.

Friona also leads in Amarillo's ranking of Panhandle teams. The Chiefs are listed with a six-yard per game lead over Sanford-Fritch in team offense, and a 20-yard lead over Fritch in team defense.

Justin Daniel ranks fourth for pass completions at 45.5 per cent.

FOR 7-0 RECORD

Chieftains Thrash Roosevelt By 58-6

by BILL ELLIS

Coach Mike Scott let Matthew Kendrick suit up for the game, but hoped he would be able to rest Kendrick's tender knee.

That turned out not to be a problem, as the charged-up Chieftains pinned a 58-6 loss on visiting Lubbock Roosevelt, with Kendrick acting as a cheerleader on the sidelines. Running back Noel Grajeda, who has run in Kendrick's shadow most of the season, got the chance to play a starring role, and did it quite adequately. Grajeda scored four touchdowns and ran a two-pointer.

That accounted for 26 points, most by a Chieftain in two years, and gave the Friona junior the team leadership in scoring with 76 points to Kendrick's 66. Grajeda likewise stands atop the area class 3A scoring list after seven games.

For the first four minutes of the game, fans weren't sure that the expected blowout win was going to materialize. The Eagles took the kickoff, gained a few yards and punted. Joseph Bandy fumbled the punt return as he was tackled, and the visitors were given new life.

Roosevelt responded to the break with a 43-yard scamper by Jeff Jackson. James Evans made a touchdown-saving tackle at the Friona 17. A minute later, Jackson gave the Eagles a first and goal with a run to the Chieftain five.

Just when it appeared that the visitors would take the lead for sure, the ball was popped out by a rock-ribbed tackle. Defensive back Nathan King picked up the ball and ran it back the other way. King sprinted up the west sideline, 95 yards for a defensive touchdown.

Grajeda ran for two points, and the Chieftains had gained momentum with an 8-0 lead with 6:41 left in quarter one.

King's run with a fumble is the longest in school history.

The Eagles put the ball in play, ran three plays and punted. Bandy's return gave Friona the ball at Roosevelt's 37. Friona QB rolled left, and got a good clearing block by Daniel Wiseman, for a first down at the 25. Wiseman's block was on the Eagles' Jackson, their fastest man, and he left the field limping, not to return.

Grajeda ripped 15 yards to the ten, then ran around right end for the touchdown. Daniel pulled down a high snap on the PAT and raced around right end for a two-pointer. Friona's lead had become 16-0, with all of the points coming in a 3:08 span of clock time.

Friona's tough defense caused Roosevelt to run "three plays and out" once again, and Friona got the ball right back.

Daniel hit Jorge Torres on a 19-yard pass play, and Grajeda raced 30 yards--his longest gain of the night--as

Friona set up first and goal as the first quarter ended.

On the first play of the second quarter, Grajeda blasted five yards up the middle for his second TD. Trent Cook's point-after gave Friona a 23-0 lead.

A penalty against Friona gave the Eagles a rare first down, but Friona's defense rose to the occasion. Ismael Juarez and Barry Procter caused a five-yard loss on a draw play, and Hugo Rivera's sack of the quarterback led to Roosevelt's fourth punt in as many possessions.

Friona put the ball in play, and on second down Joseph Bandy, starting in Kendrick's place, took advantage of his chance to start by breaking a 53-yard, reverse-field run for a touchdown. Cook's perfect kick made it a 30-0 game with 7:42 yet to play before halftime.

Friona punted only once all night, and Cook's kick pinned the Eagles on their own five-yard line.

Two plays later the Chieftain defense threw the runner for a four-yard loss on another draw play, and on third down the Eagle quarterback was tackled in the end zone for a safety, and Friona's lead became 32-0.

Friona was driving as the halftime ended, with Grajeda catching a pass and running to the Roosevelt one as time expired.

The Chiefs received to start the second half, and Bandy returned the kickoff 37 yards to the Friona 46. He and Grajeda had gains as Friona moved to the enemy's 25, and at this point Daniel tossed a pass to Grajeda in the left secondary, and he went up the sidelines for his third TD, giving his team a 38-0 lead.

A couple of minutes later Bandy returned a punt to the Roosevelt 31. At this point Coach Scott pulled Daniel to

allow King, the back-up, to finish up. He succeeded in engineering a quick scoring drive. Sergio Campos (33) had a 25-yard run, and Grajeda got his fourth TD from the one. Cook kicked the PAT for a 45-0 score.

Eric Rojas of Roosevelt spoiled Friona's shutout by getting to the outside and running 76 yards for a TD and a 45-6 score.

Bandy had gains of 15, 16, 15, 4 and 6, to pace Friona's best sustained drive of 66 yards (91 counting penalties) in 14 plays. Josh Burleson went up the middle three yards, and Cook converted for a 52-6 score with 10:51 still to play.

Bandy ran 20 yards and Burleson 31 for the score in a quick drive. Cook's kick was just wide, but the scoring was wrapped up at 58-6.

The point total was the most for a Chieftain team since the 1985 team blanked Bovina, 68-0. Bandy gained 131 rushing, and had 140 yards in "returns," for 271 "all purpose" yards. Grajeda had 100 yards rushing and King gained 29 rushing besides his 95-yard fumble return.

Coach Scott's Game Comments

"The defense really got after it. In fact, the entire team had a great effort all night. The kids kept focused throughout the game. Sometimes you tend to get sloppy in a (one-sided) game like this, but they executed well all night."

"They did what they needed to do to win."

Concerning Nathan King's long fumble return when Roosevelt was threatening to take the lead at the Friona five-yard line, "That was a big play. We were about to get behind, and that undoubtedly took something out of them."

EXTRA POINTS...

*The 58 points against Roosevelt were the most scored by a Chieftain team since the 1985 team blanked Bovina, 68-0 in a non-district game.

The 1998 Chieftains have scored 248 points through seven games, an average of 35.4 per game. This is ahead of the pace of the 1996 state semi-finalist team, which had scored 186 points, or 26.6 per game after seven games.

Defensively, the Chieftains have allowed 53 points, 7.6 per game after seven games, compared to 103 points, 14.7, in '96.

In fairness to the '96 team, they had already played their toughest opponents of the regular season, and won their last three games (vs Dimmitt, Perryton and Sanford-Fritch) by a combined total of 157-7 points.

*Grajeda's four TDs against the Eagles were the most since Matthew Kendrick scored four against Dimmitt in 1997.

*Nathan King's 95-yard fumble recovery is the longest one in FHS history. Sammy Perez returned a fumble 50 yards against Seminole last year in the bi-district game.

GONNA' BE A STAR....FHS sophomore Jena Grimsley won the Division I varsity girls cross country meet held in Friona last Saturday. In the first annual Tribal Trails, Grimsley turned in a time of 13:15. Watch for great times from this youngster in the future. ron carr photo

United Way Kicks Off 1998 Drive

Friona's United Way Chapter kicked off the new money drive at a board breakfast this week. The United Way donations serve a broad spectrum of the citizens of Parmer County. United Way volunteers will conduct a phone-a-thon on November 2 from 6:30-9 p.m. Hi-Pro has donated office space and phones for the evening. Donations to the United Way can be made at Friona State Bank at any time. New United Way Board members this year are Joe Lafuente, Cindy Butman, and Ricky White. The Girl Scouts and the

Red Cross are two recipients of funds from the United Way. Money given to the Girl Scouts goes to maintain the girl scout building on Ashland, programs for the 50+ Friona girl scouts, Halloween and Christmas functions, awards ceremonies, and equipment. The local Tri County Red Cross Chapter depends on the United Way to fund first aid, CPR, and water safety classes. Disaster classes train volunteers to help disaster victims during and after a disaster. Without the United Way, the Chapter would not have the funds to help when help can't wait.

HEAD HIM OFF....When Roosevelt's Jeff Jackson (white jersey) turned the corner, it looked like he was gone for a TD. However, Friona's James Evans (23) had a slight angle and enough speed to save a score. (ron carr photo)

HERE COMES THE TRIBE....Roosevelt quarterback Chad Hardy spent a lot of time scrambling away from the Chieftain defense. Here Barry Procter (89), Adrian Cruz (85), Landon Martin (22), and Ismael Juarez (76) make his life miserable. ron carr photo

7th Graders Win Couple

Friona's seventh grade Braves' "Red" team downed Lubbock Roosevelt last week, 26-0. Jorge Castillo gained 201 yards on just six carries. Jason Gutierrez added 115 yards on five tries. Scoring plays were not listed. Brock Field completed two of two passes for 19 yards. Ty Potts had a catch for 18 and Gutierrez caught a one-yarder. Tackle leaders were: Fidel Gonzales 12; Bruce Ramos and Ruben Alvarado 9 ea.; Castillo 7; Gutierrez and Juan Hernandez, 6 ea.; Emmanuel Vega 5. The 7th grade "White" team beat Hereford, 26-0. Juan Rivera gained 101 yards on five carries, and Wesley Stewart had 85 on just four tries. Tackle leaders were Rivera 11; Stewart and Joseph Delao, 6; Keith Hunt 5; Mark Hernandez 4; Anthony Nunley, Juan Garcia, Frank Hollman, Andrew Merritt and Ivan Hernandez, 3 each.

8th Braves Top Eagles On TD Pass

Friona's eighth grade "Red" Braves scored a 6-0 win over Roosevelt's eighth grade team last week. Jeff Zamora scored Friona's touchdown on a 14-yard TD reception from Adam Bandy. Ty White and Bandy each gained 43 yards for the Braves and Nathan Haile added 40. Chris Wiseman caught one pass for 21 yards. Tackle leaders were: Bandy 8; Jesus Trejo 7; Haile, Alex Wilkerson, Victor Fabela, Wiseman and White, six each; Heath Gammon four; T. J. Randolph and Marko Garcia, three each. Wilkerson and Wiseman each had a sack. The eighth grade "White" team fell to Hereford's eighth grade team, 16-8. Adam Lozano led the Braves with 101 yards on just five carries, and scored Friona's touchdown. Jose Pina had 34 yards rushing and Randy Baca 12. Tackles included: Jose Pina 9; Isaac Arzola 5; Michael Stanberry 3; Lozano and Baca, 2 each. Sacks: Stanberry 1; fumble recovery: Lozano.

TRIBAL TRAILS...Friona hosted their first ever cross country meet on a course designed by Coach Ben Kirton near the Community Center. Varsity girls and their times were, l-r, Jena Grimsley 13:15 (won the event), Dalinda Black 17:02, Ashlee Hunt 16:15, Rocio Lugo 15:42, Felicia Lafuente 16:06, Whitney Ellis 14:35, V'Laura Wilcox 15:22. ron carr photo

HOW TO TALK TO YOUR KIDS ABOUT DRUGS.

The best thing about this subject is that you don't have to do it well. You simply have to try.

If you try, your kids will get the message.

That you care about them.

That you understand something about the conflicts they face.

That you're there when they need you.

The alternative is to ignore the subject. Which means your kids are going to be listening to others who have strong opinions about the subject. Including those who use drugs. And those who sell them.

ACCEPT REBELLION.

At the heart of it, drugs, alcohol, wild hairstyles, trendy clothes, ear-splitting music, outrageous language are different ways of expressing teenage rebellion.

That's not all bad. Part of growing up is to create a separate identity, apart from parents — a process which ultimately leads to feelings of self worth. A step along that path is rebellion of one kind or another — which is to say rejecting parental values, and staking out new ones.

You did it. They're doing it. And that's the way it is.

The problem comes when kids choose a path of rebellion that hurts them, destroys their self worth, and can ultimately kill them.

That's the reality of drugs.

DON'T GET DISCOURAGED.

When you talk to your kids about drugs, it may seem as though nothing is getting through.

Don't you believe it.

The very fact you say it gives special weight to whatever you say.

But whether or not your kids let on they've heard you, whether or not they play back your words weeks or months later, keep trying.

START ANYWHERE.

"Have you heard about any kids using drugs?"

"What kind of drugs?"

"How do you feel about that?"

It's never too early to start.

"Why do you think kids get involved with drugs?"

"How do other kids deal with peer pressure to use drugs? Which approaches make sense to you?"

"Have you talked about any of this in school?"

However you get into the subject, it's important to state exactly how strongly you feel about it.

Not in threatening tones. But in matter-of-fact, unmistakably clear language:

"Drugs are a way of hurting yourself."

"Drugs take all the promise of being young and destroy it."

"I love you too much to see you throw your life down the drain."

SOME DO'S AND DON'TS.

The do's are as simple as speaking from the heart.

The biggest don't is don't do all the talking. If you listen to your kids — really listen and read between the lines — you'll learn a lot about what they think. About drugs. About themselves. About the world. And about you. They'll also feel heard and that, too, is a step along the path towards self esteem.

There are other do's and don'ts: Don't threaten. Don't badger them. Don't put your kid on the spot by asking directly if he or she has ever tried drugs. They'll probably lie, which undermines your whole conversation.

If you suspect your child is on drugs — there are all sorts of symptoms — that's a different matter. Then you've got to confront the subject directly.

In the meantime, just talk to them.

It's okay if you don't know much about drugs. Your kids do.

But they need to know how you feel about the subject.

And whether you care.

For more information on how to talk with your kids about drugs, ask for a free copy of "Keeping Youth Drug-Free." Call 1-800-729-6686.

J. Sharp Addresses SWCD Meet

John Sharp, Texas Comptroller of Public Accounts, and State Representative Peter Patterson, Chairman of the House Agriculture Livestock Committee, addressed natural resource issues to approximately 800 soil and water conservation district directors and other conservation leaders who attended the 58th annual meeting of Soil and Water Conservation Districts (SWCD) which was held at the Bayfront Plaza Convention Center in Corpus Christi.

Sharp focused on issues concerning the eradication of the boll weevil and how the project might be funded. Among other major concerns, he expressed the need of the state to fund efforts to manage mesquite and cedar tree populations to conserve water in certain areas. "We don't need any more pilot projects to demonstrate what we already know, and that is, we know some species of brush consume vast quantities of water. This water that could enhance amounts already available.

Patterson, a long time advocate of the SWCD program, said that it is time for the state to look at ways to provide SWCDs with the support to allow them program delivery and technical services to cooperators who voluntarily wish to take advantage of conservation planning provided by local SWCDs.

We need to encourage the legislature to support SWCD's abilities to provide programs and technical assistance to conserve soil and water. We can't afford not to," said Patterson. "Nothing is more important than clear, safe water. We need to make sure that what we do is right for Texas and that we move forward for the future of agriculture," he added.

expensive Red Cross disaster relief effort in its 117 year old history.

In addition to the everyday disaster work the Red Cross is doing across the country (house fires, etc.), at the moment, there are major disaster relief operations in 8 states currently underway including Tropical Storm Frances in Texas and Louisiana, Tropical Storm Earl along the Gulf Coast, the Kansas floods and the Oklahoma tornadoes.

On Sunday, October 4, Oklahoma set a new record for the most tornadoes in a single October day-20. The National Weather Service said Oklahoma's turbulent Sunday also set a new record for the most tornadoes rated F-2 or higher in a single day. Four of the tornadoes were rated a F-2 or higher, breaking a record that had stood since 1889. And the American Red Cross was there, helping the people of Oklahoma to prepare for and recover from these devastation storms.

That same week in Kansas, flash flooding was reported in five counties and resulted in multiple deaths (rescue teams are still looking for at least two more people). Seven American Red Cross service centers have been opened to date where victims of the flooding are continuing to receive Red Cross assistance.

In the Kansas Cities area (MOKS), it is estimated that fewer people will have applicable insurance-flood insurance. In fact, it is estimated that only 5 percent of those affected will have applicable insurance.

The homes of 26 percent of those affected received either major damage or complete destruction. Even though more homes in the KC areas had minor damage, Red Cross assistance is usually sought by a greater number of clients who have flood damage (even minor).

The Tri-County Chapter of the American Red Cross is accepting financial donations for the Texas flood victims as well as other disaster victims. Donations may be taken to our office at 224 South Main or mailed to Box 1371 Hereford, Texas 79045. All donations will be greatly appreciated.

Cotton

News

from Plains Cotton Growers, Inc.

Making a commitment to improve is the best way to describe the action taken by the Plains Cotton Growers, Inc. board of directors at their October business meeting. The PCG board unanimously voted to move forward with a realignment of the 43 year old organization's board of directors.

The change, first proposed nearly a year ago, will shift the board's composition from one producer and one business representative from each of PCG's 25 member counties, to a single producer board member selected by producers at each eligible member gin.

A total of 25 business directors, one from each of PCG's member counties, will also be selected by the producer directors from those counties to serve as board members.

The PCG board approved changes to the PCG By-Laws which create the change. The By-Law changes will remain in effect unless disapproved by a majority of the PCG membership present at the annual meeting next April.

"This move is designed primarily to improve the communication between producers and PCG," explains PCG Executive Vice President Steve Verett. "Through this new structure, producers will have a single contact person at their gin that they can turn to for information about important issues." Additional information will be mailed to member gins in the next few weeks, with implementation of the new structure completed by April 1999.

All that remains are final votes by the House of Representatives and the Senate in order to send President Bill Clinton an important \$6 billion agriculture assistance package. The disaster assistance is part of an omnibus appropriations package totaling some \$500 billion.

For agriculture, the important parts of the bill include nearly \$6 billion in assistance for producers affected by this year's drought and price disasters. Secondly, but no less important, is the \$60 billion in funding for USDA and its programs, including boll weevil eradication.

Details about the disaster package continued to change throughout the day Thursday. Changes to the disaster assistance package following President Clinton's veto of the 1999 Agriculture Appropriations Bill have been good for agriculture.

The original \$4.3 billion disaster package, initiated by the Republican majority, has been scaled up to \$5.939 billion during the negotiation process. The bulk of the money will finance a supplemental Agriculture Market Transition Act

(AMTA) payment equal to approximately 50 per cent of the 1998 AMTA payment.

Also included in the omnibus appropriations bill are some important tax cut provisions that will benefit farmers. In the legislation Income Averaging is made permanent, Net Operating Loss carryback is increased from two to five years and an increased percentage of health insurance premiums will be allowed as a deduction from net income by a self-employed person. All of these provisions should be very beneficial to agriculture.

The following is a final breakdown of the original package and the final compromise currently in place.

Agriculture	Disaster Assistance Original	Disaster Assistance Final
Market Loss	\$1.65 billion	\$3,057 billion
1998 Crop Losses	\$1.5 billion	\$1.5 billion
Multi-year Disaster	\$675 million	\$875 million
Livestock Feed	\$175 million	\$200 million
FSA Loan Authority	\$31 million	\$31 million
FSA Admin.	\$40 million	\$40 million
Dairy Indemnity	---	\$3 million
Price Reporting	---	---
Soy Biodiesel	---	---
Total	\$4,304 billion	\$5,939 billion

As defoliation and harvest of the 1998 cotton crop moves into high gear, boll weevil populations that have built through the growing season are moving into traps and also into overwintering habitat.

In spite of hot, dry conditions during the summer that many thought had decimated boll weevil infestations, this hardy insect has bounced back with a vengeance. Counties that had experienced only light weevil numbers in previous years have seen extremely heavy trap catches, some economic crop damage and the need for costly sprayings. Cochran, Hockley, Hale and Swisher counties are among these.

Even the northwesternmost counties of the High Plains, where few weevils have ever been detected, have had measurable and increasing infestations late in the 1998 growing season.

Numbers of boll weevils this year can be expected to continue to increase until the cotton crop is harvested and freezing conditions marking the onset of winter are seen.

Rock & Roll Is Okay But Don't Throw Stones!

It is a little after 12 noon on Thursday and I should be through with this column, but I have just started it.

The ladies in the back are griping, the phone is ringing, and some of my readers are none too happy with me.

The weather is turning cold, I need to go get film for tomorrow night's football game, and the paper has to be in Canyon to print tomorrow morning with or without my column.

Not that it matters much in world affairs what I do. My opinions are far reaching but my influence is subterranean.

Speaking of affairs, what do you figure Billy Jeff, Hill Rod, Algore, and Maddie Allright have been up to lately. Seems the world's most famous rugrat, Yasser Arafat, is soiling U. S. soil again.

He of the carpet hairstyle came over to negotiate with

Benny Netanyahu, Israel's current leader. Poor Billy Jeff had to cancel a fund raising trip to California to stay on the east coast and referee a Mideast peace agreement.

Some people were actually feeling sorry for Billy Jeff that he did not get to go to California on a taxpayer subsidized Democratic fund raiser vacation.

Now at the risk of arousing the ire of Billy Jeff fan club members, I was wondering if negotiating peace agreements isn't part of a president's job.

The thing that bothers Billy Jeff and his traveling partners is they hate to cancel a trip to Hollywood for these two Mideast yahoos who will finally shake hands, go back to their countries, and start killing each other again.

Why waste time on peaceful things when I could be partying the night away in Tinsletown. Being president is a really hard job.

What I really wanted to write about this week is rocks. Or stones if you prefer.

Last week, an elderly reader sent me an article out of the Dallas paper that 62% of "the American people" thought the Congress had done a lousy job this year.

On the bottom of the page they said "72% of the American people can not name one thing this Congress has done."

Now I don't find that

unusual since at least 72% of the American people can not even name their own Congressman or Senator. Most people in the U. S. do not know how many Congress members there are.

The last sentence from this elderly philosopher said, "He who is without sin cast the first stone or vote."

I started thinking how easy it has been for some people to pull that verse out of the Bible to defend Billy Jeff from adultery, perjury, and other character defects.

I guess if that "first stone" rule is to be taken seriously, then crime can no longer be punished. "Hey, I robbed a store and beat up the clerk, but, you know, the first stone rule."

I guess judges, juries, lawyers, and preachers would be unemployed if we are not allowed to cast the first stone.

It doesn't say if it is okay to cast the second or third stone, but surely that wouldn't be too cool either.

Nor is it very specific about what happens to you if you cast the first stone in spite of the warning.

The liberal bleeding heart yellow dog Democrats (and other people) have warned that all of us have done the same or worse as Billy Jeff, therefore we can not do anything to him.

In my case, I have indeed done deeds that might equal or surpass Billy Jeff's sins. There is a large difference. I am not the president. (I might have a chance now, though, since everything BJ does is okay.)

The first stone theory says that we should not judge others since we are just as bad. But when an elderly citizen warns me about my obnoxious behavior, isn't that casting a stone of their own at me?

Boy, this throwing stone thing is really complex and complicated. Besides it depends on what the definition of the word "stone"

...THE ONRUSHING LINE OF PHILISTINES CRUMBLES UNDER THE DEADLY ONSLAUGHT OF THE ISRAELITE BOWMEN.

NOW DAVID GIVES THE AWAITED COMMAND TO HIS SWORDSMEN...
ARISE ISRAEL! PUT THE SWORD TO ALL WHO REMAIN!

AND WITH A RUSH, DAVID'S MEN ARE UPON THE STAGGERING PHILISTINES!

SWORD AGAINST SWORD, SHIELD AGAINST SHIELD — THE PHILISTINES, DISCOURAGED AND DISMAYED BY THE ACCURACY OF DAVID'S ARCHERS, ARE NO MATCH FOR THE FIGHTING FEROCITY OF DAVID'S MEN!

O DAGON, HELP ME! ALL IS LOST!
FLEE FOR YOUR LIVES! THE ISRAELITES' GOD IS TOO STRONG FOR US!

BERTHA LLOYD

Mrs. Lloyd's Rites Held

Funeral services for Bertha Schibbelhute Lloyd, 83, of Friona, were held Friday morning at Calvary Baptist Church in Friona with Rev. Bill Boyd of Roswell, New Mexico and Rev. Alvin Petty, pastor of Calvary Baptist Church, officiating.

Burial was in Follett Cemetery in Follett with graveside rites at 5 p.m.

Mrs. Lloyd died Wednesday, October 21 at Prairie Acres Nursing Home in Frion. She was born November 28, 1914 in Ellis County, Oklahoma.

Mrs. Lloyd was a member of the Assembly of God in Friona. She moved to Friona in 1966 moving from Shattuck, Oklahoma and was a custodian for the Friona Independent School District for many years.

She married Otto Schibbelhute on October 22, 1922. He died in 1966. She married Fred Lloyd October 3, 1967. He died in 1992.

Preceding her in death was a son, Jerry Lynn, six years old. He died from a gun shot wound.

Survivors include four daughters, Laverna Harmon of Follett, Texas, Evelyn Marie Edgar of Wichita, Kansas, Ida Lee Wooley of Scott, Arkansas and Fay Gill of Dalhart, Texas; one sister, Lea Malone of Humbolt, Kansas; two half-sisters, Irene of Oklahoma City, Oklahoma and Esther Sue Wilson of Amarillo.

Twenty-two grandchildren and thirty-five great-grandchildren also survive.

Her grandchildren served as pallbearers.

Halloween Youth Costume & Dance Party

The Friona Youth Commission is sponsoring a Halloween dance and Costume Party for our Youth on Saturday, October 31, 1998 at the Friona Community Center.

The dance will start at 7 p.m. and last until 11:45 p.m. The party will be open to our youth in grades 5 through 12.

Prizes will be awarded for various costume designs, along with door prizes and games being conducted throughout the evening. The

cost will be \$2 per person or \$3 per couple. DJ will be provided.

If you would like to bring your favorite music, feel free to bring it (marked with your name). Parent Participation (costumes encouraged) is being sought to help make this a successful night of dancing and socializing for our youth. A list of prizes will be published at a later date.

Any volunteers are requested to contact Joe Lafuente at 250-2761 or e-mail to joe@wvrt.net.

Calvary Baptists Sets Note-Burning Event

Calvary Baptist Church plans a big celebration for **Sunday, October 25**. They have paid off their church debt on the new auditorium and will burn the note in their 11 a.m. worship service. "The church has really disciplined itself this last year

to remove this debt several years ahead of time," a spokesman said. They sent in the last payment shortly before their new pastor, Alvin Petty, arrived and preached his first sermon.

This Sunday is also **High Attendance Sunday** in Southern Baptist Churches across the state of Texas. Setting an attendance goal and working to achieve it is a good way to begin the "Fall Back" Time Change on October 25.

The church will be having a **Youth Fund Raising Dinner after the morning Worship Service**. Then after the meal there will be an **Indoor Balloon Volleyball Tournament** with all ages participating. It is played similar to regulation volleyball except with a balloon and players remain seated. Valton Howard and Lee Campbell will referee the games.

Reverend Petty is the creator and president of the National Indoor Balloon Volleyball. He says he is looking forward to introducing this fun party game to Friona. Free copies of the rules and definitions of the game may be obtained by contacting Calvary Baptist Church, 1500 Cleveland, Friona or calling 250-3000 for more information.

Parmer Co. Receives Sales Tax

State Comptroller John Sharp today delivered a total of \$173.6 million in monthly sales tax payments to 1,093 Texas cities and 118 counties.

The October payment was for local sales taxes collected on August sales and reported to the Comptroller in September by businesses filing monthly tax returns.

Parmer County received \$20,285 which is down about \$4,000 from the same period last year.

Bovina received \$1,942; Farwell \$3,463; and Friona \$14,879.

1998 payments to date are Bovina \$24,464; Farwell \$41,604; and Friona \$221,385. These amounts represent a 15.89% over comparable payments last year.

No Injuries In Police Car Collision Friday Night

In spite of rumored drug busts or police shootouts, the action on W. 9th Street Friday night was a two-vehicle accident involving a police car driven by Officer Joe Herrera.

The accident happened during the second quarter of the Chieftain-Roosevelt football game. The scene, W. 9th St., is at the north end of the field alongside the school's tennis courts.

Officer Herrera was westbound on 9th where he was in the process of pulling over to visit another officer. A 1994 Mustang, driven by Maria Mendoza of Friona, collided with Herrera's car when she glanced in the backseat to check on a 3-year-old child.

The Mustang veered into the police car, striking it left headlight to left headlight, almost head-on. The impact deployed airbags in both vehicles.

Mendoza's children, the 3-year-old and an 11-year-old,

both in the back seat, were not injured, although all parties were taken to Parmer County Community Hospital and later released.

The impact of Officer Herrera's airbag threw his right hand upward and broke the windshield of the police car.

The accident was investigated by DPS Trooper Craig Hunt at the request of Chief Gerles, since a city police unit was involved.

Estimates are that the police vehicle will be declared a total loss. According to Police Chief Randy Gerles, the department had just taken delivery of a new police car and had planned to get rid of an older car.

However, the one they were going to get rid of was not the one that had the wreck.

For now the department has enough cars and will have to wait for the insurance adjusters before decisions about a replacement car can be made.

Modern Study Club Members Met Oct. 20

Windbreak Seedlings Available Locally

Seedling applications for conservation windbreaks are now available to Parmer County landowners through the Texas Forest Service West Texas Nursery or local Soil and Water Conservation District. Several varieties of evergreens and deciduous trees and shrubs are available.

Each year, West Texas Nursery provides adapted windbreak seedlings, at cost, to assist

producers in incorporating conservation windbreaks into their farming and/or ranching operation.

"Windbreaks are trees and shrubs systematically planted adjacent to fields, homesteads or feedlots as a barrier to reduce or redirect the wind," says Robert Fewin, Texas Forest Service forester, Lubbock. "And when properly planted, they become a management tool that effects every aspect of the farm or ranch."

Windbreaks create permanent, natural protection and habitat for wildlife, reduce erosion and increase land values and aesthetics.

Evergreens are sold in boxes of 30 for \$52 and the hardwoods in bundles of 100 for \$48. All prices include shipping and handling. Seedlings ordered this fall will be shipped or delivered in the spring of 1999.

Wildlife packets for habitat establishment also are available. Each of the four wildlife packets contain 100 bare-root trees and shrubs which cater specifically to the habitat needs of quail and pheasant, deer, turkey or squirrel. Each wildlife packet is \$46.

West Texas Nursery's primary objective is to produce and sell quality seedlings at a price landowners can afford, allowing them to plant large quantities of trees for windbreaks. Producers are encouraged to purchase seedlings this fall before preferred stock is sold out.

To order windbreak trees or for more information contact the Texas Forest Service West Texas Nursery at (806)746-5801.

Deena Willard, Steve Sellars United In Church Ceremony

Deena Willard of Amarillo and Steve Sellars of Odessa exchanged wedding vows Saturday, June 27 at 3 p.m. The ceremony was performed in the Paramount Baptist Church of Amarillo by Dr. Gil Lain, pastor. Dr. Lain used the bride's Bible, which was given to her by the Acteens of Friona's First Baptist Church. Parents of the bride are Dee and Connie Willard of Friona. She is the granddaughter of Mildred Willard of Kress, Texas. Jess and Virginia Sellars of Odessa are the groom's parents. The altar of the church was decorated with six angled candleabras separated by a large arch. The candleabras and archway were covered with tulle, fresh ruscus and soft baby's breath. Hand tied tulle bows flowed from the middle of each candleabra. Draped tulle accented with fresh ruscus, soft baby's breath and hand-tied tulle bows marked the center aisle. Musical selections were presented by The Vienna Conspiracy, a stringed quartet. Michael Griffin and Heather Graham, both of Amarillo, sang "This Is The Day," "I Prayed For You" and "Wedding Pledge." Other selections were "Jesu, Joy Of Man's Desiring," "Canon in D," "Bridal Chorus" and "Alla Hornpipe." Christi Richardson of Amarillo was the matron of honor. Bridesmaids were Kim Beechem of Nash, Texas, Laura Drury of Canton, New York, Gena Willard and Tena Willard of Lubbock, sisters of the bride. Serving as flower girls were Katie and Emily Holden of Tulsa, Oklahoma, nieces of the groom and twin daughters of Steve and Ann Holden. The feminine attendants wore full length sleeveless black matte satin gowns. The gowns featured scalloped necklines that dipped to u-shaped backs with rosettes at the waistlines. They carried nosegays of fresh flowers and tulle. David Ransopher of Westerville, Ohio served as best man. Groomsmen were Rowdy Welch of Canyon, David Grussendorf of Denver, Colorado, Brian Abel of Beaumont, Texas and Dale Pfrimmer of Amarillo. As the bride was presented in marriage by her father, she was attired in a formal length ivory satin gown fashioned with a modified sweetheart neckline. Sequins and pearls trimmed the neckline and accented the long-sleeved bodice. The gown formed a grand cathedral length train with accents of applied lace and bead work. Her fingertip length veil of ivory tulle was attached to a pearl and sweetheart rose headpiece. The veil was made by Kathy Pridmore of Amarillo, friend of the bride. She wore a strand of pearls that her dad had given her when she was thirteen years old and carried a linen handkerchief that belonged to the groom's grandmother, Louise Hanna. For something blue, a wedding charm, a gift from the bride's sisters, was tied to the dress with a light blue ribbon. The bride carried a cascading bouquet of white roses, calla lillies and stephanotis accented with petti point ivy and whisperry bear grass. Elizabeth Pfrimmer and Kristy Koch presided at the guest registry. The reception was held in the church Fellowship Hall. A floating four tiered Italian Creme wedding cake was served from the bride's table. The cake was accented with fresh smilax, gardenias and stephanotis. A chocolate cake topped with chocolate dipped strawberries was served from the groom's table. Vanessa Ransom, Robynn Falcinelli and Devona Smith served the cakes. Punch and coffee were served by Kathy Yates and Alaine McAfee. Following the reception, seventy-five balloons were released in honor of the couple's parents. The year 1998 marks a combined seventy-five years of marriage for the parents. The couple went to Colorado Springs on their honeymoon. Miss Willard is a graduate of Ouachita Baptist University, Arkadelphia, Arkansas and is a teacher in the Amarillo Independent School District. The bridegroom is a graduate of West Texas State University, Canyon and Texas A&M University, College Station. He is a cooperative education coordinator for West Texas A&M University.

Mrs. Steve Sellars

REHEARSAL DINNER
The groom's parents honored the couple with a rehearsal dinner at Marty's Restaurant Friday evening. *****
The day before the wedding, the bride was honored with a luncheon at the Adaberry Inn of Amarillo. The luncheon was hosted by Aundrea Frye. Assisting Mrs. Frye were Paula O'Brian, Ann Nichols and Celia Mason.

Comedy Concert Benefits Children

It's been said that laughter is the best medicine for what ails you. If this is true, then anyone who has seen Chonda Pierce in concert, must be feeling pretty good.

The love of laughter and a true desire to bring Christ to all who hear her testimony is the foundation of the clean, true-to-life, Christian comedy brought to audiences by Chonda.

A Southern preacher's kid, she has grown into a self-effacing, self-confident wife and mother whose off-beat take on contemporary life is shot through with good-natured fun and a deep faith in a God who's got a keen sense of humor! Sitting in the audience listening to Chonda's wild and wacky routines will prove that God laughs and loves us all.

This downright funny, yet faithful comedian has opened for Garth Brooks in concert and is a keynote speaker for The Billy Graham Evangelistic Association. She has made over twenty appearances at "Women of Faith" conferences throughout the country and over 15 appearances with "Aspiring Women" conferences.

She has authored a book entitled "It's Always Darkest Before the Fun Comes Up!" that is due to be released in October 1998. Her first book, "Second Row, Piano Side," spawned her first recording and national comedy tour.

She also personally organized and executed a national campaign for Adult Preacher's kids through the First Annual Conference for Adult PK's that took place in October 1996. It is now a scheduled yearly event.

Ms. Pierce has appeared on The Grand Ole Opry and numerous television shows and specials in national syndication, in addition to her own national comedy tour called "A Girl's Night Out!" with Chonda Pierce & Friends.

Chonda will be appearing in concert Saturday, November 14 at 8 p.m. at the Farwell High School Auditorium. She is making this

CHONDA PIERCE

appearance in the midst of a very busy schedule on behalf of the Lunsford Scholarship Fund.

This fund was established after the death of a very well-loved Farwell resident by the name of Leslie Lunsford, who lost a courageous battle with cancer earlier this fall. It was Leslie's wish that her three children be able to attend college. After the medical bills and expenses were paid, all monies tagged for college were gone.

Members of her family and friends established the scholarship fund for the children and for future students that need financial assistance for college.

Advance tickets are only \$10 each for the performance that will feature routines from Chonda's "A Girl's Night Out!" and "Second Row, Piano Side" comedy tours, books and recordings. She'll perform vignettes entitled "Men & Duct Tape" and "Mother Cracks Me Up" in addition to her testimony, songs and other hold-your-sides routines.

All advance tickets must be purchased by November 1 by calling Rev. Beth Harrington at (806)481-3604 in Farwell. If available the night of the performance, tickets at the door will be \$12. However, due to high demand for tickets, advance purchase is strongly recommended.

Menefee Named Plant Manager In Arkansas

Jim Menefee of DeQueen, Arkansas, added the title of plant manager to his list of duties at the Frigidaire Home Products company.

Menefee, a former Frionan, was named division controller and plant manager in July. In his new position, Menefee will be responsible for the Frigidaire Home Products plant in DeQueen.

His duties will include responsibility for the DeQueen plant, two plants in Nashville, Arkansas, and a fourth plant in Juarez, Mexico. The DeQueen plant has 800 employees.

Menefee, a certified public accountant, has been at the DeQueen plant since February, 1997. Prior to moving to DeQueen, he was involved in public accounting in Texarkana.

The Frigidaire Home Products plant in DeQueen makes electric and gasoline

chain saws, electric trimmers, blowers and edgers.

YOUR EYES

Dry Eyes

You can get dry eyes from the wind, from being on a plane, from air-conditioning or heating systems and by taking certain medications. It can make wearing contact lenses very uncomfortable or, worse, lead to infections.

- Place a warm compress--such as a wash cloth soaked in water--on them for five to ten minutes two or three times a day.
- Blink frequently.
- Use artificial tears that you can buy over the counter.
- Avoid makeup for a couple of days.
- Keep a humidifier in your bedroom or place a pan of water on the radiator.
- Wear sunglasses with wraparound lenses when outdoors.
- If you use a hair dryer, be sure to point it away from your eyes.

If dryness persists, see your optometrist.

League of Women Voters

Voters Guide Guía del Votante

GENERAL ELECTION ♦ NOVEMBER 3, 1998

This Voters Guide is funded and published by the League of Women Voters of Texas Education Fund to help citizens prepare to cast an informed vote. This educational organization, associated with the League of Women Voters of Texas, operates exclusively for educational purposes in the general areas of government and public policy, carrying out its objectives through research, publication of educational materials, and other appropriate projects. The League of Women Voters is a nonpartisan organization that works to promote political responsibility through active, informed participation of all citizens in their government. Neither the League nor the Education Fund supports or opposes any political party or candidate.

This Voters Guide lists statewide candidates who appear on the ballot and includes questionnaire responses. Replies are printed without editing or verification. Due

to space restrictions, candidates were given word limits for replies. Replies exceeding word limits are indicated by slash marks (///).

Candidates were asked to confine their responses to the questions asked and avoid references to opponents. The Secretary of State's office provided Spanish translations of the candidates' responses and is solely responsible for the content of the translations.

The Voters Guide and other information is available online at the League's Web site at www.main.org/leaguewv/home.html. The Voters Guide is also available, in limited quantities, on audiocassette for the visually impaired by calling the League's office at 512/472-1100.

Governor

Four-year term. Must be at least 30 years old, a citizen of the United States, and a resident of Texas for five years before the date of the general election. Among duties: executes all laws and conducts all business with other states and the federal government; fills appointive offices; fills vacancies in state or district elected offices by appointment; calls special sessions of the legislature and sets their agenda; approves or disapproves every bill passed by the legislature. Salary: \$115,345.

What qualifies you for the office you seek? (750 word limit for answer to this question)

What specific initiatives do you intend to support which will improve the lives of the 28% of the Texas children who live in poverty? (75 word limit)

Discuss the role of state government in developing a balance between environmental concerns and economic interests. (75 word limit)

What, if any, changes should be made in the way political campaigns are financed in Texas? (75 word limit)

¿Qué calificaciones tiene para el cargo para el cual se postula?

¿Qué proyectos específicos apoyaría para mejorar la vida del 28% de los niños de Texas que viven en la pobreza?

¿De que manera debería el gobierno del estado buscar un equilibrio entre la protección del medio ambiente y el bienestar económico?

¿Cómo debería cambiarse, si es que debería cambiarse, la financiación de las campañas políticas en Texas?

George W. Bush, Republican

As governor, I have done in office what I promised to do. My business background helps me set clear goals and focus on results. I have tried to be fair and inclusive, and will continue to push a positive, forward-looking agenda to make Texas a beacon state.

I've made teaching every child to read my top priority. My plan calls for early diagnosis of reading problems, intensive intervention and state of the art reading instruction. We know many of the threats facing our children today are not a matter of chance, but of choice. My 'Lone Star Leaders' initiative will help kids make smart, responsible decisions by expanding after-school programs, promoting abstinence, supporting mentoring and expanding character/citizenship education in schools.

Texas can have clean air, clean water and a strong economy. The State should establish clear, performance-based standards based on sound science, ensure compliance, and encourage voluntary conservation efforts, innovation, and new technologies. Texas businesses have already committed to reduce over 25,000 tons of pollutants through my voluntary emissions reduction program. With a balanced environmental policy, we can create jobs and conserve Texas' natural resources for future generations.

In 1995, I signed legislation limiting contributions to judicial campaigns by individuals, law firms, PACs and political parties. As long as campaign expenditure and contribution reports cannot be copied and used for solicitation (current federal law), reports should be filed more frequently, electronically, and posted on the Internet (as technology permits). I also support reporting the occupation and principal place of business of every contributor to enhance public disclosure.

Como gobernador, he cumplido con lo prometido. Mi experiencia en el mundo de los negocios me ayuda a fijar objetivos claros y a enfocarme en los resultados. He intentado ser justo e incluir a todos los ciudadanos en mis esfuerzos, y continuaré proponiendo una agenda positiva y progresiva para que Texas sea un estado líder.

Mi prioridad ha sido asegurar que cada niño aprenda a leer. Mi plan contempla un diagnóstico temprano de problemas para la lectura, una intervención intensa, y una instrucción avanzada en lectura. Sabemos que muchos de los problemas que hoy amenazan a nuestros niños no son casuales sino que son el resultado de las decisiones que tomamos. Mi iniciativa de "líderes del estado Lone Star" ayudará a que los niños aprendan a tomar decisiones inteligentes y responsables, ofreciéndoles más programas para después del horario de escuela, promoviendo la abstinencia, apoyando los programas de tutores y ofreciendo una mejor formación de ciudadanía y de carácter en las escuelas.

Texas puede tener aire limpio, agua limpia, y una economía fuerte. El Estado debería fijar normas claras de protección ambiental fundamentadas en probados conocimientos científicos, asegurar el cumplimiento con las mismas, y alentar las iniciativas voluntarias de conservación, innovación y nuevas tecnologías. Las compañías de Texas ya se han comprometido a disminuir su uso de 25,000 toneladas de contaminantes por medio de mi programa voluntario de reducción de descargas. Con una política ambiental equilibrada, podremos crear nuevos empleos y conservar los recursos naturales de Texas para las próximas generaciones.

En 1995, firmé una ley limitando la cantidad de la contribución a la campaña política de un juez por un individuo, un bufete de abogados, una Comisión de Acción Política (PAC), o un partido político. Mientras no se permita que los reportes sobre contribuciones y gastos de campañas puedan ser copiados y usados para buscar contribuciones (según dispone la legislación federal en vigor), dichos informes deberían presentarse con mayor frecuencia, de manera electrónica, y por medio del Internet (según lo permita la tecnología). También estoy a favor de que se informe sobre la profesión y el domicilio profesional de cada contribuyente a una campaña a modo de asegurarle al público una mayor y más amplia información.

Garry Mauro, Democrat

The diversity of our economy provides Texas with a historic opportunity for state government to use the projected budget surplus to reprioritize resources and address real problems, beginning with public education. Texas cannot casually stroll into the new millennium. This election will determine if we roar into the 21st Century.

Any initiative to help children must begin with public education. The best jobs in the 21st Century will go to states with the best trained workforce. The best trained workforce will result from the best public education system. My Texas Families First plan provides every Texas child smaller class sizes, programs and policies to keep the best teachers in the classroom, and an opportunity to earn a college degree through the HOPE scholarship program.

Environmental protection and economic development are not mutually exclusive. Environmental quality must be maintained or companies will stop relocating to Texas. State government must be a leader, ensuring that all Texas families have healthy air to breathe and safe water to drink. Families do their share to protect our environment. It's time for those "grandfathered" facilities, which produce nearly 50 percent of all industrial pollution and meet no state pollution regulations, to do their part.

I support limiting PAC contributions to state candidates. PAC contributions allow special interests to have a much greater voice in public policy decisions and often detract from the real issues affecting everyday Texas families.

La diversidad de nuestra economía le ofrece a Texas una oportunidad histórica para que el gobierno estatal utilice el superávit presupuestario esperado para poder fijar nuevas prioridades para nuestros recursos y ocuparnos de problemas reales, empezando con la educación pública. Texas no puede iniciar descuidadamente el próximo milenio. Estas elecciones fijarán de qué manera vamos a llegar al siglo 21.

Toda iniciativa para ayudar a la niñez debe comenzar con la educación pública. Los mejores empleos en el siglo 21 van a surgir en aquellos estados que tengan la fuerza laboral mejor capacitada. La fuerza laboral mejor capacitada será el resultado del mejor sistema de educación pública. Mi plan de "Texas Families First" le ofrece a cada niño de Texas clases con menos alumnos, programas que aseguren que los mejores maestros sigan enseñando, y la oportunidad de que sus estudios universitarios sean pagados por medio del programa de becas HOPE.

La protección del medio ambiente y el desarrollo económico no son objetivos excluyentes el uno del otro. De no asegurarse la calidad de nuestro medio ambiente, las empresas dejarán de venir a radicarse en Texas. El gobierno del Estado debe liderar el esfuerzo de que cada familia de Texas pueda respirar aire saludable y beber agua sin contaminantes. Las familias de nuestro estado aportan para la protección del medio ambiente. Es hora de que también lo hagan aquellas instalaciones que se han beneficiado de ciertas exenciones, que producen casi el 50 por ciento de todos los contaminantes industriales y que no cumplen con ninguna reglamentación estatal relacionada a la contaminación ambiental.

Apoyo a que se limiten las contribuciones de las Comisiones de Acción Política (PACs) a candidatos de las elecciones del estado. Las contribuciones de los PACs permiten que grupos de intereses especiales tengan una voz mucho más importante en las decisiones de nuestra política de gobierno, y a menudo impiden que nos ocupemos de los temas reales que afectan a la mayoría de las familias de Texas.

Lester R. "Les" Turlington, Jr, Libertarian

Empathy constitutes absolute qualification. Constitutional adherence requires individual liberty. Without empathy and liberty, slavery and tyranny reign unchecked. When political individuals refrain from outspokenly supporting Constitutional Individual Liberty, then sacred honor demands empathetic individuals stepping forward demanding liberty and justice for all. I demand liberty and justice for all Texans.

La empatía es una calificación absoluta. La fidelidad a la constitución requiere la libertad individual. Sin empatía y sin libertad, predominan sin resguardo la esclavitud y la tiranía. Cuando los actores políticos se contienen y no apoyan abiertamente la Libertad Individual Constitucional, entonces el honor sagrado exige que aquellas personas con empatía salgan adelante para reclamar libertad y justicia para todos. Reclamo la libertad y la justicia para todo ciudadano de Texas.

Specifically, pardon all political prisoners, restitute unconstitutionally seized property regardless of jurisdiction, inform the U. S. government emergency status has never constitutionally existed in Texas consequently seizures and incarcerations resulting therefrom are set aside. Propose Texas Constitutional Amendments allowing land owners to deannex from cities and school districts, allow direct determination of voting precincts by citizens, allowing extra jurisdictional Grand Juries and no state income tax. Without liberty 100% of us exist in poverty.

Específicamente, debemos perdonar a todos los prisioneros políticos, restituir toda propiedad que haya sido expropiada inconstitucionalmente sin importar la jurisdicción, e informarle al gobierno de los Estados Unidos que nunca ha existido el estado de emergencia en Texas y que por lo tanto son descartados los encarcelamientos y las incautaciones que resultaron del mismo. Debemos proponer Enmiendas a la Constitución de Texas para: permitir que los dueños de propiedades dejen de estar anejados a distritos escolares y a municipios, autorizar la determinación directa por la ciudadanía de los distritos electorales, permitir la formación de Gran Jurados extra jurisdiccionales, y desautorizar los impuestos estatales sobre la renta. Sin libertad, el 100% de nuestro pueblo vive en la pobreza.

Government historically has proven incompetent as managers of environmental concerns and economic interests. The proper solution is to privatize all Texas land. The proceeds could be loaned to students, eliminating the necessity for school taxes and subsidies. Land owners must be liable for adversely affecting their neighbors environment. When free people control their economic interests without government assistance or permission they are not like the slaves of today needing government assistance and permission for everything.

Los gobiernos históricamente han demostrado ser incompetentes como administradores de intereses ambientales y económicos. La debida solución es privatizar toda la tierra en Texas. Se podrían usar los ingresos de dichas ventas como préstamos para estudiantes, eliminando la necesidad de tener impuestos y subsidios escolares. Se debe responsabilizar al dueño de una propiedad por el daño ambiental que pueda haberle causado a sus vecinos. Cuando un pueblo libre controla sus intereses económicos sin la ayuda o el permiso del gobierno entonces no será como los esclavos de hoy en día que necesitan la ayuda o el permiso del gobierno para todo.

A Texas Constitutional Amendments requiring (1) no restriction as to the amount contributed directly or indirectly to candidates as long as those contributions are disclosed; (2) any expansion of government on any level will require a majority vote by registered voters of Texas, and any reduction of government on any level will require only a simple majority of those voting. Government is a master to be feared, not the solution slaves believe it to be.

Una Enmienda Constitucional de Texas (1) que no fije ningún límite para la cantidad de una contribución directa o indirecta al candidato siempre y cuando dicha contribución sea declarada públicamente; (2) que requiera, para poder aprobar cualquier expansión del gobierno, un voto por mayoría de todos los votantes registrados en Texas y que, para poder aprobar cualquier reducción del gobierno, requiera un voto por simple mayoría de todos los votantes que participen de una votación. El gobierno es un amo que debe temerse, y no la solución que los esclavos creen que es.

Lieutenant Governor

Four-year term. Must be at least 30 years old, a citizen of the United States, and a resident of Texas for five years before the date of the general election. Among duties: presides over the Texas Senate; casts deciding vote when the Senate is equally divided; serves as chair of the Legislative Budget Board and Legislative Council; serves as Governor if the Governor is unable to serve or is absent from the state. As president of the Senate, the Lt. Governor has much influence in shaping state policy and influencing laws that may be passed by the Senate. Salary: \$7,200. (Receives same salary as the governor when serving as governor.)

Rick Perry, Republican

I have a proven record of conservative leadership. In 1989, I was named one of the most effective legislators for my work on workers' compensation reform. As Agriculture Commissioner, I've worked to keep the multi-billion dollar agriculture industry strong while streamlining the agency and eliminating hundreds of unnecessary regulations.

Tengo un comprobado historial de liderazgo conservador. En 1989, fui nombrado uno de los legisladores más eficaces por mis esfuerzos en la reforma del sistema de compensación por accidentes laborales. Como Comisionado de Agricultura, he tratado de reforzar la multibillonaria industria agrícola y al mismo tiempo hacer más eficiente el trabajo de la agencia de agricultura eliminando centenares de reglamentaciones innecesarias.

There is no better economic development tool than good schools. Education will be my top policy and budgetary priority. My plans include research-based, phonics-driven reading instruction, back to basics curriculum, high academic standards, and local control. I propose rewarding teachers who pursue specialized reading instruction with a state-funded annual stipend of up to \$7,000. To ensure economic opportunity and job creation for all Texans, I've proposed tax cuts, regulatory and tort reform.

No hay herramienta mejor que las buenas escuelas para asegurar el desarrollo económico. La educación será mi prioridad política y presupuestaria. Mis proyectos contemplan la instrucción de lectura por fonética y basada en la investigación, un curriculum orientado a la instrucción de las materias básicas, un alto nivel académico, y control local de las escuelas. Propongo recompensar a aquellos maestros que participen de una instrucción especializada sobre la lectura con primas de hasta \$7,000. Para asegurarle oportunidades económicas y la creación de empleos a todos los ciudadanos de Texas, he propuesto recortes presupuestarios, y una reforma legal y del sistema de responsabilidad civil.

Texans deserve a clean and healthy environment. I support environmental policies based on scientific facts, not fads. As a former farmer and rancher, I know that Texans whose livelihood depends on the land are often the best stewards of the land. We must be vigilant in protecting the private property rights of Texans. Our environmental policies should strive for clean air, water, and land by bringing citizens, communities and businesses together, not dividing them.

Los ciudadanos de Texas merecen un medio ambiente sano y limpio. Apoyo políticas ambientales basadas en hechos científicos, no en fads/modas. Mi experiencia como agricultor y ganadero, sé que los texanos que viven de la tierra en muchos casos son los mejores administradores de la tierra. Debemos estar atentos a la necesidad de proteger los derechos de la propiedad privada de los texanos. Nuestras políticas ambientales deben asegurarnos aire, agua, y una tierra limpia reuniendo a ciudadanos, comunidades, y empresas, y no dividiéndolos.

The best campaign finance policy is one of full, thorough and frequent disclosure of campaign contributions. Texas has avoided many of the Washington, D.C. campaign finance problems because our ethics laws provide for full and regular disclosure of political contributions and ban contributions during legislative sessions. I support electronic filing of fundraising reports, and more thorough and frequent disclosure of contributions made by individuals or organizations.

La mejor política para financiar las campañas políticas es mediante una completa y frecuente divulgación de todas las contribuciones. Texas ha sabido evitar muchos de los problemas de financiación de elecciones porque nuestros reglamentos de ética requieren una declaración completa y frecuente de todas las contribuciones a una campaña política y prohíben las contribuciones mientras esté sesionando la legislatura. Apoyo que se haga un registro electrónico de todos los reportes de recaudación de fondos, y una declaración más completa y más frecuente de las contribuciones de individuos y de organizaciones.

John Sharp, Democrat

My Texas Performance Reviews found \$8.5 billion in taxpayer savings and helped stop an income tax, the Lone Star card eliminated paper food stamps and helped one million Texans leave welfare, and the Texas Tomorrow Fund is allowing families to prepay the costs of their children's college at today prices.

Mi Texas Performance Review resultó en el aborro de \$8.5 mil millones de dólares para el contribuyente y permitió evitar impuestos a la renta en Texas. El programa de la tarjeta Lone Star eliminó las estampillas de alimentos e hizo posible que un millón de ciudadanos de Texas dejaran de recibir asistencia del gobierno, y el Texas Tomorrow Fund les está permitiendo a las familias de Texas pagar por anticipado el costo de los estudios de sus hijos a precios de hoy.

Last year, I proposed a plan to help 1,000,000 children who lack insurance get health care; that plan formed the basis of the Texas Healthy Kids Corporation, and I'm working to maximize Texas' share of federal funding available through the Children's Health Insurance Program (CHIP). A particular priority will be to raise living standards along the Texas-Mexico border—the state's fastest growing, poorest region—in part by improving health, living conditions and education opportunities.

El año pasado, propuse un plan para ayudar a 1,000,000 de niños que no tienen seguro de salud a obtener un plan de salud; ese plan fue la base del Texas Healthy Kids Corporation, y estoy trabajando para aprovechar al máximo los fondos federales para Texas que pueden obtenerse por medio del Children's Health Insurance Program -CHIP. Una prioridad ejemplar será incrementar los estándares de vida a lo largo de la frontera de Texas y México—la región más pobre y de mayor crecimiento en el estado—al mejorar, por ejemplo, las condiciones de salud y de vida, y las oportunidades educativas.

As the state's chief financial officer and an avid outdoorsman, I have promoted and will continue to promote a healthy business climate—including franchise tax cuts and research and development tax credits for Texas businesses—while helping local communities safeguard their natural resources.

Como el funcionario de finanzas de más alto rango del estado y un gran amante de la naturaleza, he podido promover y continuaré promoviendo un ambiente propicio para el comercio—con reducciones de impuestos a las franquicias y créditos impositivos de desarrollo para las empresas de Texas—sin dejar de ayudar a las comunidades locales a salvaguardar sus recursos naturales.

I am in favor of any common sense plan that affords the widest possible variety of potential candidates for elected office the opportunity—and privilege—to pursue a career in public service. I believe in full and complete disclosure of all campaign contributions so Texans can know exactly who is donating money to their political candidates.

Estoy a favor de cualquier plan que le permita al mayor número de candidatos posibles para un cargo electivo la oportunidad y el privilegio de postularse a las elecciones. Apoyo la declaración completa y total de todas las contribuciones a las campañas políticas para que los texanos puedan saber exactamente quiénes están donando dinero a sus candidatos políticos.

Anthony Garcia, Libertarian

I desire to help make Texas a freer, more prosperous place to live and work. As Lieutenant Governor, I would support legislation which would free individuals and companies from unjust regulation and taxation.

Deseo hacer de Texas un lugar más libre y más próspero para vivir y trabajar. Como Vicegobernador, apoyaré leyes que no impongan ni impuestos ni reglamentaciones injustas a nuestros ciudadanos o a nuestras compañías.

Reducing government interference in the marketplace will produce a more prosperous Texas with better chances for everyone to improve themselves. Families in poverty will not be able to permanently overcome their situation by piecemeal handouts. The way out of poverty is to expand the economy, creating more entry-level employment opportunities.

La reducción de la interferencia gubernamental en el mercado resultará en un estado más próspero con mejores oportunidades para que todos puedan mejorar sus vidas. Las familias que viven en la pobreza no podrán salir permanentemente de su situación con donativos parciales o limosnas. La manera de salir de la pobreza es haciendo crecer la economía y creando mayores oportunidades de empleos de primer nivel.

Current government policies have given polluting industries carte blanche to freely emit industrial byproducts. A more fair and just solution would be to hold emitters fully responsible for trespass whenever their emissions leave their premises. It is wrong to dump garbage on your neighbor's lawn; it is likewise wrong to dump garbage in his air and water. I would support legislation towards making emitters fully responsible for their emissions.

Las políticas actuales del gobierno permiten que las empresas contaminadoras descarguen libremente sus productos industriales secundarios. Una solución más justa sería responsabilizar a los emisores cada vez que una descarga sea liberada de sus instalaciones. No es correcto descargar basura en el jardín del vecino; tampoco es correcto descargar basura en el aire o el agua del prójimo. Apoyaría una ley para responsabilizar plenamente a los emisores por las consecuencias de sus descargas.

Political campaigning is an expression of free speech, and people should not be limited in how they support political campaigns. I support an end to contribution caps and mandatory reporting of contributions, since they intrude upon the right to free expression. Candidates should be encouraged to report contributions, but not forced to do so. I oppose any government funding or subsidy of political campaigns. I support an end to state funding of primary elections.

Las campañas políticas son una expresión de la libertad de palabra y de prensa, y no se debe fijarle límites al pueblo en cómo apoya las campañas políticas. Estoy a favor de que se acaben con los límites de las contribuciones a las campañas y a que sea obligatoria la declaración de las contribuciones, ya que van en contra del derecho a la libre expresión. A los candidatos debería alentárseles a reportar las contribuciones que hayan recibido, pero no debería obligárseles a hacerlo. Me opongo a cualquier financiación o subsidios gubernamentales para las campañas políticas. Apoyo que se acabe con la financiación estatal de las elecciones primarias.

Attorney General

Four-year term. Among duties: defends the laws and Constitution of the State of Texas; serves as legal advisor to the governor and all state officials and agencies; represents the state and its officers in lawsuits before the Supreme Court of Texas, the Texas Courts of Appeal, and the lower courts; issues advisory opinions on state and federal law to guide state agencies and officials; and performs any other duties imposed by the Texas Legislature. Salary: \$92,217.

What qualifies you for the office you seek? (50 word limit for answer to this question)

How would you enforce the Public Information Act (open records) which mandates that records of state agencies and most governmental bodies be public information? Would you advocate changes in current law or enforcement procedures? Please explain (75 word limit)

Sometimes, state interests seem in conflict with federal regulations. What is the role of the attorney general in such instances? (75 word limit)

¿Qué calificaciones tiene para el cargo para el cual se postula?

¿Cómo haría valer la Ley de Información Pública (de archivos abiertos —"open records") que exige que los archivos de las agencias estatales y la mayoría de los organismos gubernamentales sean de información pública? ¿Propondría alguna modificación de la ley vigente o de los procedimientos de aplicación de la ley? Por favor explique en detalle.

En ciertos casos, los intereses del estado parecen estar en conflicto con las leyes del gobierno federal. ¿Cuál es el papel del Procurador General en tales casos?

John Cornyn, Republican

My tenure as a judge (six years on the Texas Supreme Court and seven years as a District Judge in San Antonio), my seven years of experience as a courtroom lawyer, and my legal training have prepared me to serve as the lawyer for the citizens of Texas.

Public access to state records is vital in order to give all citizens equal say in how our government should be run. Although our current open records laws are adequate, they have not been properly or universally enforced. As Attorney General, I will ensure that no one hinders, or stalls, citizens' access to public information.

Whether dealing with our state prison system, education, health care, the family, or the environment, our state is bombarded by efforts by the federal government to encroach on our state and individual rights. Unfortunately, these encroachments have been met with little resistance. I believe that Texans can run Texas. As Attorney General, I will use my legal experience to personally fight in court to stop this constant invasion of our states' rights and responsibilities.

Los años que ocupé el cargo de juez (seis como juez de la Corte Suprema de Texas, y seis como Juez de Distrito en San Antonio), y los siete años de experiencia como abogado litigante, y mi entrenamiento como abogado me han preparado para ser el abogado de los ciudadanos de Texas.

El acceso del público a los archivos del estado es de vital importancia para que todos los ciudadanos puedan decidir como debería funcionar el gobierno. Aunque las leyes sobre los archivos abiertos son adecuadas para este propósito, no se ha cumplido con las mismas de manera universal ni uniforme. Como Procurador General, aseguraré que nadie impida o dilate el acceso de los ciudadanos a información pública.

Nuestro estado está siendo bombardeado por los esfuerzos del gobierno federal de usurpar nuestros derechos individuales y estatales, ya sea en el ámbito de nuestro sistema carcelario estatal, o educativo, de plan de salud, ambiental, o de la familia. Lamentablemente, estas intrusiones no han sido resistidas con mucha fuerza. Opino que los texanos podemos ocuparnos de los asuntos de Texas. Como Procurador General, usaré mi experiencia jurídica para litigar personalmente en los tribunales y ponerle fin a esta usurpación constante de nuestros derechos y de nuestras responsabilidades como estado.

Jim Mattox, Democrat

Texas Legislator, U.S. Congressman, and two-term Attorney General. I was a staunch advocate for children, collecting child support through a program selected as Most Improved in the Nation. *Cosmopolitan*, Women's Political Caucus, and Council on Family Violence honored my support of women's issues. I oppose overturning *Roe v. Wade*.

I'll aggressively bring about compliance through opinions and litigation. I'll fight attempts in the Legislature to chip away at open records and open meetings, and against private companies holding public records and charging taxpayers for access. As a former state-representative, I helped write the Texas Open Meetings and Open Records Act. When I was AG, my office issued more open government rulings than had been previously issued in the history of the Act.

The Attorney General must enforce and defend state laws when they are not in conflict with federal laws. The AG must also recognize when the state is not in compliance with federal law and either seek a waiver or declare the state law unconstitutional.

*Legislador Estatal, Congresista de los Estados Unidos, y durante dos períodos fui Procurador General del Estado. Fui un férreo protector de los intereses de los menores, laborando para recolectar asistencia alimenticia mediante un programa que fue reconocido como el Más Destacado del País. La revista *Cosmopolitan*, el Women's Political Caucus, y el Council on Family Violence me honraron por el apoyo que le brindé a las causas de la mujer. Me opongo a derrocar el caso *Roe v. Wade*.*

Por medio del litigio y de las opiniones jurídicas, lucharé agresivamente para obtener el cumplimiento de dicha ley. Me opondré a cualquier intento por parte de la Legislatura de limitar el alcance de la ley de archivos abiertos y de reuniones abiertas, y me opondré a que compañías privadas se adueñen de datos públicos y le cobren al público por acceder a los mismos. Como ex representante estatal, ayudé a redactar la Ley de Reuniones Abiertas y de Archivos Abiertos. Durante mi mandato como Procurador General, se emitieron más ordenes de reuniones abiertas para el gobierno de las que habían sido ordenadas en toda la historia de dicha Ley.

El Procurador General debe hacer cumplir y debe defender las leyes del estado cuando no estén en conflicto con las leyes federales. El Procurador General también debe reconocer cuando el estado no está cumpliendo con la legislación federal y pedir en tales casos una exención o declarar que la ley estatal es anticonstitucional.

My qualifications are as common for Texas voters as they are uncommon for Texas politicians. I work for a living. I struggle every day to pay my bills, feed my family, and pay higher and higher taxes. I understand what government does to us.

I probably wouldn't. What I would do is work to keep the state government from acquiring information it has no need for, such as the recently enacted requirements we provide social security cards and fingerprints when renewing our drivers licenses. Government has us on a need to know basis. We need to put our government on a need to know basis instead.

As Attorney General I would actively resist federal intrusions into the affairs of Texas and of Texans. Instead of selling our rights to civil litigation to tobacco companies, the AG should be challenging federal control of Texas prisons, federal roadblocks harassing Hispanic Texans, and federal intrusions into the affairs of our communities. As Attorney General I will work for Texas and Texans, not for Washington.

Mis calificaciones son tan comunes para los rotantes de Texas como son extrañas para los políticos de Texas. Trabajo para ganarme la vida. Luchó todos los días para pagar mis cuentas, alimentar a mi familia, y pagar impuestos cada día más altos. Entiendo lo que el gobierno nos está haciendo.

Probablemente no lo haría. Lo que trataría de hacer sería tratar de impedir que el estado adquiriera información para la cual no tiene necesidad, tal como el requisito reciente de que proveamos nuestro número de seguro social y nuestras huellas digitales cuando renovamos el permiso de conducir. El gobierno nos informa a nosotros solo lo que considera que necesitamos saber. Más bien debemos nosotros informarle al gobierno solo aquello que tiene necesidad de saber.

Como Procurador General, resistiría activamente la intrusión del gobierno federal en los asuntos de Texas y de los texanos. En vez de abandonar nuestros derechos a litigio civil contra las compañías de tabaco, el Procurador General debería estar oponiéndose al control federal de las prisiones de Texas, las barreras federales que molestan a los hispanos de Texas, y las intrusiones del gobierno federal en los asuntos de nuestras comunidades. Como Procurador General, trabajaré a favor de Texas y de los texanos, y no para Washington.

Comptroller of Public Accounts

Four-year term. Among duties: serves as the chief financial officer for the state; maintains records and accounts of state income and expenditures; assesses and collects most state taxes, supervises local tax collections; certifies revenue estimates for the legislature; conducts performance reviews on state government and local school districts; administers unclaimed property and Texas Tomorrow Fund programs. Salary: \$92,217.

¿Qué responsabilidades tiene el contralor general de informar a la legislatura y al público en general sobre la condición de las finanzas del estado?

Carole Keeton Rylander, Republican

Chairman, Texas Railroad Commission; Railroad Commissioner 12/94 - Present. Former: three term Austin mayor; President, Texas Municipal League (representing all Texas cities); President, Austin ISD; public school teacher; small business owner; twice appointed by President Bush to National Petroleum Council. Mother of five sons; Grandmother of two baby girls.

I will: (1) Be the "Education Watchdog," auditing school districts to get more of every education dollar going directly to the classroom. (2) Ensure Texans are treated fairly in all tax matters. My "Taxpayer Fairness and Accessibility Plan" calls for Texans to be paid the same interest on tax overpayments as they pay on tax underpayments. (3) Continue reducing government spending and cutting taxes for working Texans. (4) Work to create jobs and economic opportunity.

Education will be my top priority. I rejected the Legislature's 15% pay raise for statewide elected officials; they should raise teacher pay first. The Comptroller has a vital role in setting priorities, controlling spending and creating jobs. We need less government. I will appoint a citizen-led "Texas Waste Fighting Commission" to recommend ways to eliminate wasteful spending, reduce regulations and cut taxes. I cut the Railroad Commission budget 12% and staff 13%.

Directora, Comisión Estatal de Ferrocarriles; Comisionada de Ferrocarriles del 12/94 hasta la fecha. Ex alcaldesa de Austin durante tres períodos de mando; Presidenta, Liga de Municipios de Texas (representando a todas las ciudades de Texas); Presidenta del Distrito Escolar Independiente de Austin, Maestra de escuela pública, dueña de una pequeña empresa; nombrada dos veces por el Presidente Bush al Consejo Nacional de Petróleo. Madre de cinco hijos; abuela de dos niñas.

Seré (1) la "Guardiana de la Educación," llevando una auditoría de los distritos escolares para aprovechar al máximo el presupuesto educativo y destinarlo a las aulas de clase. (2) Aseguraré para los ciudadanos de Texas un trato justo en todo lo relacionado a los impuestos. Mi "Plan de Accesibilidad y de Trato Justo del Contribuyente" exige que se le devuelva a los texanos el mismo interés por haber pagado demasiado en sus impuestos que el que se cobra cuando pagan menos de lo debido. (3) Continuaré reduciendo el gasto del gobierno y eliminaré impuestos para los texanos que trabajan. (4) Procuraré crear nuevos empleos y oportunidades económicas.

La educación será mi más alta prioridad. Rechacé el aumento del 15% del pago a los funcionarios estatales elegidos; primero debería aumentarse el salario de los maestros de escuela. El Contralor cumple un papel vital en el establecimiento de las prioridades, el control del gasto público, y la creación de empleos. Necesitamos menos gobierno. Nombraré una "Comisión de Lucha contra el Desperdicio" compuesta de ciudadanos que recomienden de qué manera podemos eliminar gastos innecesarios, reducir las reglamentaciones, y disminuir los impuestos. Reduje el presupuesto de la Comisión Ferroviaria un 12% y el personal del mismo un 13%.

The combination of my business experience and my public service qualifies me to serve as Texas' chief financial officer. As Comptroller, I can improve government and help school performance. I built a high-tech business, served on hospital, school and neighborhood boards; and was Lt. Governor Bullock's Chief of Staff.

El conjunto de mis experiencias como empresario y en cargos de gobierno me han preparado para servir como primer funcionario financiero de Texas. Como Contralor de Cuentas Públicas, podré mejorar el gobierno y ayudar en su funcionamiento a las escuelas estatales. He creado una empresa de alta tecnología, y he sido miembro de juntas directivas de hospitales, escuelas y vecinales, y fui el Secretario de Gabinete del Vicegobernador Bullock.

I want to help Texas to become a high-skill, low-tax state. A skilled workforce comes from quality public schools. Low taxes come from fiscal restraint and a passion for efficiency. As Comptroller, I can affect both sides of that equation. My passion for education will help pull our state literacy rate up from 48th, and my background in technology will help us to administer government better, faster and cheaper.

Quiero ayudar a que Texas se convierta en un estado de impuestos bajos y con una fuerza laboral altamente calificada. Una fuerza laboral altamente calificada es el resultado de un sistema escolar de gran calidad. Los bajos impuestos son el resultado de una política fiscal conservadora y una pasión por la eficiencia. Como Contralor, puedo afectar los dos lados de dicha fórmula. Mi pasión por la educación ayudará a que la tasa de alfabetización de nuestro estado suba del 48o lugar, y mi experiencia en el campo de la tecnología me ayudará a administrar el gobierno mejor, más rápidamente, y a un costo más bajo.

The Comptroller administers the state tax system on a daily basis; but in Texas, the Comptroller also looks out on the economic horizon. That is because the Legislature requires a revenue estimate more than two years in advance to facilitate the budget process. Interest rates, monetary phenomena (like inflation) and international trade all affect our local reality, and the Comptroller is charged with framing these important fiscal issues for the Legislature and for state agencies.

El Contralor administra de día a día el sistema estatal de impuestos, pero en Texas el Contralor también se ocupa de estudiar el panorama económico. Esto se debe a que la Legislatura exige una estimación del presupuesto con más de dos años de anticipación para facilitar el proceso presupuestario. Las tasas de interés, los fenómenos monetarios (como la inflación) y el comercio internacional todos afectan nuestra realidad local, y el Contralor tiene la responsabilidad de atender estos temas fiscales importantes para la Legislatura y las agencias estatales.

¿Qué calificaciones tiene para el cargo para el cual se postula?

¿De qué manera propone reconciliar la protección del medio ambiente con la administración eficiente de las tierras del estado?

David Dewhurst, Republican

As the only candidate experienced in oil, gas, energy, real estate, conservation industries and a veteran, I am uniquely qualified to lead the GLO. This experience has taught me how to best negotiate contracts which will make more money for public education, and run a more efficient, cost effective agency.

Al ser el único candidato con experiencia en la industria de petróleo y gas, en negocios inmobiliarios y en actividades de conservación, y como el único veterano de guerra, tengo aptitudes únicas para liderar la Agencia de Tierras Públicas. Estas experiencias me han enseñado cómo negociar los mejores contratos y obtener mayores recursos para la educación, y a saber dirigir una agencia más eficientemente y a costos más bajos.

I will bring efficiency and responsiveness to the GLO by streamlining the agency and updating operations at a savings to the taxpayers. I will modify the veterans loans programs making them more beneficial to today's veteran. I will preserve the ecological sanctity of the coastline while preserving private property rights. Most importantly, I will generate more money for public education, not the same old education, but a better education.

Al racionalizar y actualizar las operaciones de la Agencia de Tierras Públicas, aborrandole dinero al contribuyente, haré que dicha institución sea eficiente y capaz de responder mejor a las necesidades de los ciudadanos. Cambiaré los programas de préstamos de veteranos para que sean de mayor beneficio para los veteranos de hoy. Me ocuparé de proteger la valiosísima ecología costera pero sabré proteger los derechos de la propiedad privada. Más importante aún, obtendré más dinero para la educación pública, no para el mismo sistema educativo de siempre, pero para un sistema mejor.

Experienced in the energy industry, I know first-hand the ability of industry to consider environmental impact in their business. Moreover, I have direct experience with environmental clean up and conservation. My collective experience will allow me not only to be proper steward of the land's natural resources and unique attributes, but to also capitalize on the greatest revenue producing aspect of Texas government — oil and gas lease sales, royalties and commercial development.

Con la experiencia que tengo en la industria de la energía, conozco personalmente la capacidad del sector industrial de tomar en cuenta el impacto ambiental de sus actividades comerciales. Además, poseo experiencia directa en la conservación y en la limpieza ambiental. El conjunto de mis experiencias me permite no solo ser un buen administrador de los recursos naturales que ofrecen nuestras tierras y de sus atributos particulares, sino también me ayuda a saber aprovechar al máximo las operaciones que más ingresos rinden para el gobierno de Texas—la renta de permisos de explotación de gas y petróleo, las regalías, y el desarrollo comercial.

Richard Raymond, Democrat

I have experience money can't buy. I have served three terms in the Texas House as a state representative where I wrote the legislation for welfare-to-work and the Texas Tomorrow Fund. Before that I was an executive assistant at the General Land Office.

Tengo experiencia que no se puede comprar con dinero. He sido durante tres períodos de mando representante estatal en la Cámara de Representantes de Texas, en donde fui el redactor de la ley que cambió el programa de asistencia pública y creó el Texas Tomorrow Fund. Anteriormente fui asistente ejecutivo en la Agencia de Tierras Públicas.

I would most like to increase revenues to the Permanent School Fund so that every Texas child has the opportunity to learn at a quality, well-funded public school. To do this, I will fight efforts to take our public school funds and to give them to elite private schools and home schoolers. We must invest in our public schools, not abandon them.

Mi mayor anhelo es aumentar los ingresos del Fondo Permanente para las Escuelas para que cada niño en Texas tenga la oportunidad de aprender en una escuela pública de alta calidad y bien financiada. Para lograrlo, me opondré a los intentos de tomar nuestros fondos para las escuelas públicas y dárselas a las escuelas privadas de elite y a los niños que hacen su escuela en el hogar. Debemos invertir en nuestras escuelas públicas, no abandonarlas.

I have a management plan that will accomplish both of these goals—and save taxpayers \$115 million. First, Texas must make better use of state lands, e.g., unused office space, vacant lots, to generate revenue. Second, I propose a comprehensive audit of our vulnerability to a major oil spill and the installation of Vessel Traffic Systems along our shipping channels. Tankers as big as the Valdez enter Texas waterways everyday, yet nobody is watching.

Tengo un plan de administración que logrará estas dos objetivos—y le aborrrará al contribuyente \$115 millones. En primer lugar, Texas debe hacer un mejor uso de sus tierras estatales, por ejemplo, edificios desocupados y terrenos vacíos, para generar ingresos. En segundo lugar, propongo una auditoría completa del riesgo que podría representar para nuestro estado un grave derrame de petróleo y la instalación de Sistemas de Tránsito de Embarcaciones a lo largo de nuestros canales de transporte. Todos los días entran en los canales navegables de Texas buques petroleros del tamaño del Valdez, pero nadie se ocupa de vigilar la situación.

J. Manuel "Monte" Montez, Libertarian

Three basic qualifications—dedication, education and determination. Dedication to public service by only 1 to 2 terms of office, not to personal advancement in a political "career." Education—native Texan, B.S. UT-Dallas, 1985, management and veteran's affairs experience. Determination—truly to reduce expensive, oppressive and inefficient government.

Tres calificaciones básicas—dedicación, educación, y determinación. Dedicación —a cumplir sólo 1 ó 2 períodos de mando en la función pública, y no hacer una "carrera" política que favorezca mis ambiciones personales. Educación — Texano nativo, Bachiller en Ciencias de la Universidad de Texas—Dallas, 1985, experiencia en administración y en asuntos relacionados a los veteranos. Determinación — sincera de reducir el gobierno costoso, opresivo e ineficiente.

Among many goals as land commissioner, the most important would be allowing non-violent state prisoners an option to serve part of their sentence maintaining state parks and other property, including abandoned urban land. It would save taxpayer dollars, save prison space for dangerous inmates and help rehabilitate non-violent lives without shortening sentences. For other important goals of the Land Commissioner, please see <http://members.tripod.com/~Texlib/MONTEZ1.HTM>. Thank you.

Entre las muchas metas que tengo como Comisionado de Tierras Públicas, la más importante sería poder permitir que los prisioneros no violentos tengan la opción de cumplir parte de sus sentencias ocupándose del mantenimiento de los parques estatales y otras propiedades, incluyendo terrenos abandonados en las ciudades. Esto aborrraría dinero del contribuyente, aborrraría espacio en las prisiones para los prisioneros peligrosos y ayudaría a rehabilitar las vidas de los prisioneros no violentos sin reducirles la sentencia. Para ver los otros objetivos del Comisionado de Tierras, por favor diríjase a: <http://members.tripod.com/~Texlib/MONTEZ1.HTM>. Gracias.

State land can be more efficiently maintained by the use of the labor of some of the 40,000+ non-violent prisoners currently costing the state \$1,600,000,000.00 a year for doing nothing. With state parks and other properties maintained by this idle labor, more funds would be available to assure reasonable environmental standards are met elsewhere. Abandoned urban land should be included in this program to return it to the tax roles.

Las tierras del estado pueden mantenerse más eficientemente mediante el uso de algunos de los más de 40,000 prisioneros no violentos que actualmente representan un gasto de 1,600,000,000.00 anuales y no hacen nada. Al aprovechar esta mano de obra para el mantenimiento de los parques estatales y otras propiedades, se podrían utilizar más fondos para asegurar el cumplimiento en otros sectores de normas ambientales razonables. Los terrenos abandonados en las ciudades deberían incluirse en este programa para poder volver a incorporarlos a los padrones de impuestos.

Commissioner of Agriculture

Four-year term. Among duties: heads the Department of Agriculture; serves as an advocate for Texas farmers and ranchers; administers programs to protect consumers; enforces agricultural laws. Salary: \$92,217.

What qualifies you for the office you seek? (50 word limit for answer to this question)

¿Qué calificaciones tiene para el cargo para el cual se postula?

What would you like to accomplish most during your term in office? (75 word limit)

¿Qué es lo que más desea lograr durante su mandato?

How would you balance environmental concerns and the economic interests of Texas farmers and consumers? (75 word limit)

¿De qué manera propone reconciliar la protección del medio ambiente con los intereses económicos de los consumidores y agricultores de Texas?

Susan Combs, Republican

Eighteen years of direct agricultural experience running my own cow calf operation on over 50,000 acres in Brewster County; two sessions as a member of the Texas House; service on the boards of a Texas ag lending bank, and Texas Beef Council; active involvement in ag issues and regulatory matters.

Dieciocho años de experiencia directa en la agricultura como dueña de mi propia producción ganadera en más de 50,000 acres en el Condado de Brewster; dos sesiones como representante en la Legislatura de Texas; experiencia como miembro de la junta directiva de un banco prestamista para la agricultura en Texas; y como miembro del Consejo de Carnes de Texas; y participación activa en temas de agricultura y de reglamentación de la industria.

I will use the Texas name as a marketing and advertising tool to promote Texas agriculture products to Texans and to consumers worldwide. Texas consumers want to support their neighbors if given the choice to "buy Texas." Also, attract production facilities to Texas to produce consumer ready products within the state without sending them out of state for processing. Value added processing will allow Texans to reap more of the benefits from Texas' raw commodities.

Utilizaré el nombre de Texas como una herramienta de mercadeo y de publicidad para promover los productos agrícolas de Texas a los texanos y los consumidores del mundo entero. Los consumidores de Texas quieren ayudar a sus vecinos si se les da la oportunidad de comprar productos de Texas. También, deseo atraer empresas de producción a Texas para que dentro del estado se puedan producir productos listos para el consumidor sin tener que enviarlos fuera del estado para ser procesados. El procesamiento del valor agregado permitirá que los ciudadanos de Texas puedan aprovechar mejor los beneficios de las materias primas de Texas.

Reliance on sound science should guide the creation of this balance. Agricultural economy is compatible with a safe environment and consumer confidence in safe food is essential for a healthy economy. It is important to continue finding ways to ensure safe water, air and soil while maintaining a strong economy for Texas farmers and ranchers. Consumers are entitled to receive the world's safest food and I will work to see that they continue.

Este equilibrio debe crearse basándose en datos científicos probados. Una economía agrícola es compatible con un medio ambiente seguro. La confianza del consumidor en que sus alimentos sean sanos es fundamental para una economía sana. Es importante que continuemos buscando la manera de garantizar la seguridad del agua, el aire, y los suelos, y al mismo tiempo mantener una economía fuerte para los agricultores y ganaderos de Texas. El consumidor tiene derecho a que sus alimentos sean los más seguros del mundo y seguiré trabajando para que eso continúe así.

L. P. "Pete" Patterson, Democrat

I am a life-long farmer and rancher and I have served on the Texas House Committee on Agriculture and Livestock for 21 years. I am presently in my fourth term as Chairman of that committee. I also serve as Chairman of the Southern Legislative Conference Agriculture Committee.

Toda la vida he sido ganadero y agricultor y he sido miembro durante 21 años de la Comisión Legislativa de la Cámara de Representantes de Texas sobre Agricultura y Ganadería. Actualmente estoy cumpliendo mi cuarto período como presidente de esa Comisión. También presido la Comisión sobre Agricultura de la Conferencia Legislativa del Sur.

To put in place an inspection system to guarantee that food imported into Texas meets the same standards of purity and safety that food produced in this country meets. This would ensure that Texans get the food they feed their families is safe and it would also protect Texas farmers from unfair competition from foreign producers who have no restrictions on the use of chemicals or additives.

Poner en funcionamiento un sistema que garantice que los alimentos que importamos a Texas cumplan con las mismas normas de seguridad y pureza que la que exigimos para los alimentos producidos en el país. Esto les daría a los texanos la seguridad de saber que los alimentos que le den a sus familias son seguros, y también protegería a los agricultores de Texas de una competencia injusta de productores extranjeros que no tienen restricciones sobre el uso de químicos o aditivos.

I support the Soil and Water Conservation Board and other agencies monitoring land and water use for environmental concerns. I will continue to encourage research programs under USDA to protect land from wind and water erosion. I encourage development of new crops such as kenaf, which provide methods of fiber production without over-cutting woodlands. I have also proposed a program to inspect imported food to ensure they meet our regulations regarding chemicals and additives.

Apoyo el trabajo de la Junta de Conservación de Aguas y Suelos y de otras agencias que llevan un control ambiental del uso del agua y de los suelos. Continuaré apoyando a los programas de investigación bajo los auspicios del Departamento de Agricultura de los Estados Unidos para proteger los suelos de la erosión por aguas y viento. Apoyo el desarrollo de nuevos cultivos tales como el kenaf, que ofrecen métodos de producción de fibra sin tener que sobre-cortar nuestros bosques. También he propuesto un programa para inspeccionar alimentos importados y asegurar que cumplan con nuestros propios reglamentos relacionados al uso de químicos y aditivos.

¿Qué calificaciones tiene para el cargo para el cual se postula?

What would you like to accomplish most during your term in office? (75 word limit)

¿Qué es lo que más desea lograr durante su mandato?

What should be the role of citizens and public-interest groups in the decision making process of the Railroad Commission? (75 word limit)

¿Cuál debería ser el papel del ciudadano y de los grupos de interés público en el proceso de toma de decisiones del Comisionado de Ferrocarriles?

Tony Garza, Republican

As Governor Bush's Secretary of State, I worked to ensure the integrity and openness of Texas' elections. As County Judge, I worked to make local government more accountable and fiscally responsible. As Railroad Commissioner, I would be guided by my conservative philosophy, and "hands on" experience running a state agency.

Como Secretario de Estado del Gobernador Bush, me ocupé de asegurar la integridad y la transparencia de las elecciones de Texas. Como Juez de Condado, trabajé para que el gobierno municipal fuera más responsable y tuviera una mejor administración fiscal. En mi labor como Comisionado de Ferrocarriles, me orientaría mi filosofía conservadora y mi experiencia práctica como director de una agencia del gobierno estatal.

Public safety and public health will remain my principle objective as the next Railroad Commissioner. The Commission's prime responsibility is the oversight of the Texas energy sector, which provides over 400,000 jobs and pumps \$60 billion dollars into our economy. I'll strive to protect the environment and expand opportunities for all Texans who depend on the energy sector. I'd like to help create the safest, most productive energy and transportation sector in the nation.

La salud y seguridad del público continuarán siendo mis objetivos principales como el próximo Comisionado de Ferrocarriles. La responsabilidad principal de la Comisión es supervisar la industria de energía de Texas, que provee mas de 400,000 empleos y contribuye \$60 mil millones de dólares a nuestra economía. Me dedicaré a proteger el medio ambiente y a procurar nuevas oportunidades para todos los texanos que dependen de la industria de energía. Mi deseo es ayudar a crear la industria de transporte y de energía más segura y más productiva del país.

My candidacy is about common-sense government that is responsible and accountable. Texans can best run Texas, and private citizens, industry and public interest groups need to be heard at all levels of government. Fact is, I'm very much a free-market conservative who believes that business can create more jobs and opportunities for Texans when government stays out of the way. After all, the marketplace is all of us.

Como candidato, propongo un gobierno orientado por el sentido común y responsable. Nadie puede ocuparse mejor de Texas que los texanos. En todos los niveles de gobierno deben poder participar los ciudadanos, las industrias, y los grupos de interés público. El hecho es que soy un conservador convencido de las ventajas del libre mercado, que cree que el sector privado puede crear más empleos y más oportunidades para los ciudadanos de Texas cuando el gobierno se bace a un lado. Al fin y al cabo, el mercado somos todos nosotros.

Joe B. Henderson, Democrat

I have 28 years experience in law and business, writing and interpreting complex rules and regulations. During this span, I have served as a prosecutor, state trial judge, and have owned and operated two small business in regulated industries. Most importantly, I am not bound by any special interest obligations.

Tengo 28 años de experiencia como abogado y empresario, redactando e interpretando leyes y reglamentaciones de gran complejidad. Durante este tiempo, he sido procurador, juez estatal de primera instancia, y he sido dueño y director de dos pequeñas compañías en industrias reglamentadas por el gobierno. Más importante aún, no respondo a ningún grupo de intereses especiales.

My goals are to: streamline the administrative procedure to cut costs; increase pressure on NAFTA truck traffic to meet U.S. safety standards; improve rail safety, particularly at crossings; accelerate clean-up of plugged and abandoned wells; seek legislation requiring Railroad Commissioners to be subject to judicial campaign finance requirements; and support Comptroller Sharp's legislation abating the severance tax on marginal wells when the price of oil is less than \$18 per barrel.

Mis objetivos son: racionalizar el procedimiento administrativo para eliminar costos; aumentar la presión en el tránsito camionero del TLC para hacer valer las normas de seguridad vigentes en los Estados Unidos; mejorar la seguridad ferroviaria, sobre todo en los cruces ferroviarios; acelerar la limpieza de pozos petroleros abandonados y tapados; apoyar una ley que le obligue al Comisionado de Ferrocarriles a cumplir con las restricciones de financiamiento de campañas políticas judiciales; y apoyar la ley propuesta por el Contralor Sharp que reduce el impuesto de cesantía de un pozo marginal cuando el precio del petróleo es inferior a \$18 por barril.

The public's interest should be paramount. The nature of the process favors industries affected. To remedy this imbalance, the Railroad Commission should not only encourage, but actively seek, the input of public-interest groups. The public would also benefit from having an independent, pro-consumer Commissioner, unbound to industry. These groups should serve as "watchdogs" for the public interest on matters of public policy. This can be achieved through intervention and amicus-type input.

Nada debe ser más importante que proteger los intereses del público. El sistema tal como funciona favorece a los intereses de las industrias afectadas. Para remediar este desequilibrio, el Comisionado de Ferrocarriles debería no solo alentar, pero debería también buscar la participación activa de grupos de interés público. El público también se vería beneficiado por un Comisionado independiente y pro-consumidor, sin compromisos con los sectores industriales. Tales grupos de ciudadanos deberían participar como "vigilantes" del interés público en temas de política social y gubernamental. Esto puede lograrse por medio de la intervención y de la participación jurídica por terceros con opiniones del tipo amicus.

You may bring this Voters Guide into the voting booth! In a recent case, U.S. District Judge Sim Lake struck down as unconstitutional a 1903 Texas law prohibiting use of pre-printed materials, such as this Voters Guide, in the polling place.

Jim Spurlock, Libertarian

I believe that one of the most important qualities that the Railroad Commission as a regulatory agency should recognize and encourage is the free enterprise ethic that made this country the largest economic engine in the world. I believe my 16 years business ownership to be vital.

Creo que una de las cualidades más importantes que el Comisionado de Ferrocarriles como agencia reguladora debe saber reconocer y alentar es la ética de la libre empresa que hizo de este país la economía más dinámica del mundo. Considero que mi experiencia de 16 años como empresario es vital.

My main goal would be to reduce or eliminate the extent possible, the tendency of the present commission to create through regulatory practices a near monopolistic, non competitive arena of operation for the industries under it's control. If a more competitive environment could be created, especially among the railroads, I believe we would see a much effective product produced for the use of the citizens of Texas.

Mi objetivo principal sería reducir o eliminar lo más posible la tendencia de la presente comisión a crear, mediante prácticas reglamentarias, un campo de operaciones casi monopolístico y anti-competitivo para las industrias que están bajo su control. Si es posible crear un ambiente más competitivo, sobre todo entre las compañías ferroviarias, creo que podríamos producir un producto mucho más eficiente para los ciudadanos de Texas.

There should be no question that the Railroad Commission exists to serve and benefit the individual citizens of Texas and should be totally accountable to that citizenry. Any decisions should be held up to scrutiny and any citizen should have access to the Commission and the right to a full answer to legitimate concerns that arise. I have heard that this is not always the case at the present time.

No debería existir la menor duda que la Comisión de Ferrocarriles existe para servirle y serle de beneficio a los ciudadanos individuales de Texas, y que debería saber responder plenamente a los intereses de dicha ciudadanía. Todas las decisiones deberían poder estudiarse y todo ciudadano debería tener acceso a la Comisión y debería tener derecho a que se responda plenamente a cualquier inquietud legítima que se presente. He oído decir que no siempre ocurre así en la actualidad.

Craig T. Enoch, Republican

Served as Presiding Judge, 101st District Court-Dallas County; Chief Justice, 5th District Court of Appeals at Dallas and in 1992, became a Justice on the Texas Supreme Court. In the Texas State Bar preference poll, I recently received the most votes of any candidate for the Texas Supreme Court.

Fui Presidente del Tribunal del Distrito 101, en el condado de Dallas; Presidente del Tribunal de Apelaciones del 5to Distrito en Dallas, y en 1992, fui elegido Juez de la Suprema Corte de Texas. En una encuesta reciente del Colegio de Abogados de Texas, recibí el mayor número de votos de todos los candidatos de la Suprema Corte de Texas.

As the Court's liaison to the Commission of Judicial Efficiency Task Force on Judicial Selection, I have recommended changes in judicial selection to the Legislature. Most Texans believe partisan elections of judges is not appropriate for picking judges who should interpret the law, not impose their political agenda. Consequently, in an effort to build consensus for meaningful reform, the task force recommended to the most recent Legislature a retention election system to replace partisan elections.

Como representante de la Suprema Corte al Grupo de Trabajo sobre Selección de Jueces de la Comisión sobre Eficiencia Judicial, le he recomendado a la legislatura ciertos cambios relacionados a la selección de jueces. La mayoría de los texanos cree que una selección partidaria de jueces no es la manera correcta de escoger a los jueces que deben interpretar la ley, y no imponer su agenda política. Por lo tanto, con el afán de crear el consenso necesario para una reforma sustancial, el grupo de trabajo le recomendó al último congreso un sistema de elecciones de retención de jueces para reemplazar al sistema de elecciones partidarias.

Texas' Supreme Court has been at the forefront of openness in Court proceedings. In 1990, the Court promulgated Rule 76(a), the most far reaching rule on open court records in America. While some problems exist with the breadth of Rule 76(a), particularly privacy rights of individual litigants, I support the rule's concept. Additionally, the Court was one of the first to open state courts to cameras. I wholly support the Court's direction in this area.

La Corte Suprema de Texas ha estado en la vanguardia de procurar una mayor transparencia en los procedimientos de la Corte. En 1990, la Corte promulgó el Reglamento 76(a), el reglamento más avanzado relacionado al acceso del público a los documentos oficiales en Estados Unidos. Aunque existen ciertos problemas con el alcance del Reglamento 76(a), en particular con respecto a los derechos de privacidad de los litigantes, apoyo el concepto del reglamento.

Mike Westergren, Democrat

Judge Westergren has a record of nearly three decades of public service, from JP to District Judge. As a judge he has presided over many and varied high profile cases, enjoying a good reputation as exemplified by being named Outstanding Judge of the Year '95-'96.

El Juez Westergren ha cumplido casi tres décadas en la función pública, desde Juez de Paz hasta Juez de Distrito. Como juez ha oído muchos casos, algunos de muy alto perfil, y goza de una buena reputación como lo atestigua su designación como Juez Sobresaliente del Año 95-96.

Yes, as long as the method arrived at is fair, which at the very least means it would have to insure that all segments of society have a chance to have a judge that looks like them. The most critical change is to improve the Fair Campaign Practices Act in order to minimize the impact of special interest money.

Sí, siempre y cuando el método que se use sea justo, que por lo menos significa que se debe asegurar que todos los segmentos de la sociedad tengan una oportunidad de tener un juez que se parece a ellos. El cambio más importante es mejorar la Ley de Prácticas Justas en las Campañas Electorales para poder minimizar el impacto de las contribuciones de los grupos de interés especial.

Absolutely, subject only to very narrowly defined and minimally exclusionary privilege, such as intellectual property and trade secrets. Phone records should be available to anyone, anytime and any place. No exception is needed because any communication relative to a pending case is prohibited by the rules against ex parte communications.

Definitivamente, aunque con pocas y muy estrictamente definidas excepciones para casos de propiedad intelectual y secretos comerciales. Los registros de llamadas de teléfono deberían estar a disposición de cualquiera, en cualquier momento y en cualquier lugar. No se necesitan excepciones porque cualquier comunicación relacionada a un caso pendiente está prohibida por las reglas de procedimiento que no autorizan ninguna comunicación ex partes.

Nombrada por el Gobernador Bush al 14o Tribunal de Apelaciones, recibió la evaluación más alta de todos los jueces en la Corte en la consulta sobre la evaluación judicial (con una tasa de aprobación del 91%); ex Juez de Tribunal de Distrito; una de los Jueces de Distrito del Fuero Civil con la más alta distinción en una votación del Colegio de Abogados en 1995; 10 años de experiencia como abogada y mediadora; fundadora del programa de los tribunales de apoyo a la alfabetización.

I would not support a proposal that bypasses the voters' right to elect judges. However, positive changes should be made to prevent unqualified candidates from being swept into office. For example, independent judicial elections could be held so that voters could concentrate on the judicial races. Efforts to inform the voters about candidates' qualifications should be actively promoted.

No apoyaría una propuesta que obviaría el derecho de los votantes a elegir sus jueces. Sin embargo, deberían implementarse cambios positivos para evitar que un candidato no apto para el cargo sea elegido sorpresivamente. Por ejemplo, se podrían tener elecciones judiciales separadas para que los votantes puedan concentrarse sobre las elecciones de los jueces. Se deberían promover activamente los esfuerzos para informarle a los votantes sobre las calificaciones de los candidatos.

Yes. Although such records are exempt from the Open Records Act, judicial records unrelated to the court's deliberative or decision-making process that relate to the public's health and safety and the operation of government should be subject to review.

Sí. Aunque la Ley de archivos abiertos no abarca dichos documentos, los expedientes judiciales que no tengan relación con el proceso de deliberación o de toma de decisiones de la corte y aquellos documentos que afectan a la seguridad y salud del público y al funcionamiento del gobierno deberían poder ser consultados por el público.

Rose Spector, Democrat

Six years ago, I became the first woman ever elected to the Texas Supreme Court in its 150-year history. Prior to that, the people of Bexar County elected me five times to the district and county court benches, where I served as a trial judge for 18 years.

Hace seis años, fui la primera mujer elegida a la Suprema Corte de Texas en 150 años de historia. Previamente, los ciudadanos del Condado de Bexar me habían elegido cinco veces como juez de distrito y de condado, adonde fui juez de primera instancia durante 18 años.

I support the election of judges. However, these elections should be less time-consuming and far less expensive. Once judges have initially been elected, the voters should have the opportunity to retain them or remove them from office. The next session of the Legislature should consider allowing the people of Texas to vote on changing the way judges are selected.

Apoyo la elección de jueces. Sin embargo, estas elecciones deberían ocupar menos tiempo y ser mucho menos costosas. Una vez que los jueces han sido elegidos inicialmente, los votantes deberían tener la oportunidad de retenerlos o de removerlos de su función. El próximo congreso estatal debería considerar permitir que el pueblo de Texas vote para cambiar la manera de seleccionar jueces en el estado.

I support the Texas Supreme Court's action, by rule, in mandating broad public access to court records related to "the general public health and safety, or the administration of public office, or the operation of government." Texas Rule of Civil Procedure 76a. All records relating to a judge's expenditure of public monies should be open to the public; judicial deliberations must remain confidential.

Texans have the constitutional right to elect judges. However, I support a change in the current system that would reduce or eliminate the amount of money involved in the campaign process and that would allow judges to spend more time doing their job rather than campaigning.

Los texanos tienen el derecho constitucional de elegir sus jueces. Sin embargo, creo que se debería cambiar el sistema actual para reducir o eliminar las cantidades de dinero que se gastan en el proceso electoral y que les permitiría a los jueces concentrarse en su trabajo y no en la campaña electoral.

Government belongs to the people and should be open. That's why I joined the Texas Supreme Court opinion in *General Tire v. Kepple* where we stated that court records must be made public if they concern "matters that have a probable adverse effect upon the general public health or safety, or the administration of public office, or the operation of government." This reaffirms Rule 76a issued by the Texas Supreme Court.

*El gobierno le pertenece al pueblo y debería ser un proceso abierto. Es por ello que firmé la decisión de la Suprema Corte en el caso de *General Tire v. Recibí el más alto reconocimiento de mis colegas en el anuario *Martindale-Hubbell* (con evaluación AV) y en el anuario de *Los Mejores Abogados de Estados Unidos*. Mi experiencia como abogado de un bufete pequeño, representando a los ciudadanos y no a las corporaciones, contribuirá cierto equilibrio a la Corte.*

This is a really a question for the legislature, and for the people through Constitutional amendment, rather than for the judiciary. However, my personal opinion is that the members of the Supreme Court should be elected from nine single-member districts. This would (1) reduce the costs needed for effective campaigns, (2) make the judges and candidates more visible to the voters, and (3) increase diversity on the Court.

De hecho este es un tema que debe resolver la legislatura y el pueblo, mediante una Enmienda Constitucional, y no el poder judicial. A pesar de ello, mi opinión personal es que deberían elegirse los miembros de la Suprema Corte de nueve distritos electorales con un juez por distrito. Esto (1) reduciría el costo necesario para una campaña eficaz, (2) les daría mayor visibilidad a los candidatos con los votantes y (3) resultaría en un mayor grado de diversidad en la Corte.

Absolutely yes. The Supreme Court should open its administrative records fully to the public without further delay. The Court should resist all efforts to seal court records relating to health and safety of the public or to the operation of government.

Definitivamente, sí. La Suprema Corte debería abrirle completamente sus expedientes administrativos al público sin dilación alguna. La Corte debería resistir todos los esfuerzos de sellar los archivos judiciales relacionados a la salud y a la seguridad del público o a la operación del gobierno.

Yes. While campaign finance reform has corrected past abuses by requiring that judges have broadly-based financial support to be elected, expensive campaigns must still be conducted with funds necessarily raised from potential participants in court proceedings. To eliminate this problem, facilitate the initial selection of highly-qualified candidates, and make judges accountable to voters, judges should be appointed with voters having the right to decide whether to retain them in office.

La reforma de cómo se financian las campañas ha logrado corregir los abusos que ocurrieron en el pasado, obligándole a los jueces a conseguir una base de apoyo más amplia. Aún así, las campañas de alto costo requieren todavía fondos que necesariamente provienen de posibles litigantes en la corte. Para eliminar este conflicto, y facilitar una selección inicial de candidatos altamente calificados, y para que los jueces sean responsables con el electorado, debería cambiarse a un sistema de nombramiento inicial de los jueces, dándole la opción a los votantes de votar para decidir si guardarlos o no en su función.

Yes, because I believe in open government. However, our founding fathers realized, and history has proven, that an independent and principled judiciary is vital to maintaining our democracy. Therefore, records relating to the courts' deliberations and decision making process must be confidential to protect the integrity of that process.

Sí, porque creo en el gobierno abierto. Sin embargo, nuestros padres fundadores se dieron cuenta, y la historia ha probado, que un poder judicial independiente y fundamentado en los principios es de vital importancia para mantener nuestra democracia. Por lo tanto, los documentos relacionados al proceso de deliberación de los jueces y al proceso de toma de decisiones deberían mantenerse en secreto para proteger la integridad de dichos procesos.

Yes. Voters criticize the current system because they do not believe in partisan judicial elections. Political philosophies are the root of every race, and includes judges' races. Our problem is the flow of money to candidates from lawyers and parties that have litigation pending before the courts. Our current system of electing judges should continue, however, contributions should be capped and limited to individuals only. It is a good system that could be improved.

Sí. Los votantes critican el sistema actual porque no creen en elecciones judiciales partidarias. Las filosofías políticas son la raíz de toda elección, incluyendo las elecciones de jueces. Nuestro problema es el flujo de dinero a los candidatos de los abogados y de las partes litigantes que aparecen ante las cortes. Deberíamos mantener nuestro sistema actual de elección de jueces, pero debería fijarse un límite a la cantidad de las contribuciones y deberían permitirse solo las contribuciones de individuos. Es un buen sistema que podría mejorarse.

Absolutely. I am a firm believer in open government and this includes virtually every aspect of judicial records. The only exceptions would be the most private and personal family type records, including adoptions. Records concerning the health and safety of the public and the operations of government should be wide open for public inspection. Our courthouses should be places of revelation, not concealment.

Definitivamente. Creo firmemente en el sistema de gobierno abierto y esto incluye casi todos los aspectos de los expedientes judiciales. Las únicas excepciones serían para los documentos más privados y de orden personal o familiar, incluyendo los registros de adopción. Cualquier documento que afecte a la salud y a la seguridad del público y al funcionamiento del gobierno debería ser de total acceso y consulta del público. Nuestros tribunales deberían ser lugares de esclarecimiento, no de encubrimiento.

Me formé como abogada luego de 10 años de trabajo en otros campos, fui secretaria judicial en un tribunal federal de apelaciones, he ejercido como abogada durante 14 años, tengo un certificado de especialización en derecho penal, y tengo una visión más amplia del sistema de justicia penal por mi marido, un agente de policía jubilado.

Each election cycle, the people of Texas lose qualified judges because the voters are unaware of the qualifications of each candidate and, therefore, vote on the basis of party affiliation alone. Partisan politics should be removed from the judicial selection process because there is no Republican or Democratic justice, only justice for all Texans. Consequently, I support the nonpartisan election of judges, which removes partisanship but retains accountability.

En cada elección, el pueblo de Texas pierde a jueces calificados porque los votantes no conocen las calificaciones de cada candidato, y por lo tanto votan siguiendo su afiliación partidaria exclusivamente. Debería eliminarse el factor de política partidaria del proceso de selección de jueces porque no existe una justicia Republicana o Democrata, sino una sola justicia para todo texano. Por lo tanto, apoyo la elección libre de afiliación partidaria de los jueces, que elimina el factor de favoritismo partidario, pero conserva el elemento de responsabilidad judicial con el electorado.

One cannot assume that protecting the rights of the accused leads to a lack of public safety. The Bill of Rights to our Constitution, the guide for all of my judicial decisions, established a fundamental harmony between the sanctity of our liberty and the protection of our citizens. Consequently, in a society governed by the rule of law, these two ideals are intertwined and are not mutually exclusive.

No se puede suponer que la protección de los derechos del acusado automáticamente conduce a una falta de seguridad pública. Las Enmiendas de Derechos del Ciudadano de nuestra Constitución, que son la guía para todas mis decisiones como juez, establece una armonía fundamental entre la inviolabilidad de nuestra libertad individual y la protección de nuestra ciudadanía. Por lo tanto, en una sociedad donde rige el estado de derecho, estos dos ideales están entrelazados y no son mutuamente excluyentes.

Political philosophy should be expressed in the legislative process, not by judges attempting to apply a political bias to the choices made by the Legislature. I prefer non-partisan selection, which tends to emphasize judicial philosophy. We also need to revise the law to require from judicial candidates meaningful experience beyond merely a minimum age and time as a licensed attorney.

Las diferencias de filosofía política deberían expresarse en el proceso legislativo, no por jueces que traten de aplicar una preferencia política a las decisiones tomadas por la Legislatura. Prefiero una selección de jueces no partidaria, porque ésta tiende a enfatizar las diferencias de filosofía política. También debemos revisar la ley para exigirles a los candidatos judiciales una experiencia significativa más allá de una edad mínima y cierto tiempo ejerciendo la profesión de abogado colegiado.

Strict adherence to constitutional requirements is required. Appellate courts are charged with ensuring that due process was observed; if it was, the conviction will be affirmed. When law-enforcement agencies consistently follow constitutionally-required procedures, convictions are consistency upheld. When law-enforcement agencies cut corners, in an understandable effort to get offenders out of society, appellate courts must, as required by the oath to uphold the Constitution and laws, intervene to defend constitutional rights from erosion.

Se necesita un cumplimiento estricto a los requisitos constitucionales. Los tribunales de apelación tienen la responsabilidad de asegurar que se haya cumplido con el procedimiento debido; y en caso de que así haya sido, la culpabilidad del acusado sería avalada. Cuando las agencias policiales cumplen de manera sistemática con los procedimientos que exige la constitución, entonces de manera sistemática también son avaladas las decisiones de culpabilidad del acusado. Cuando las agencias policiales tratan de acortar el camino, por más comprensible que sea su intento de sacar del medio social al delincuente, los tribunales de apelación deben intervenir, en cumplimiento de su juramento a defender la Constitución y las leyes, para evitar la erosión de los derechos constitucionales.

We should divide Texas into nine regions, each electing a Supreme Court justice and a Court of Criminal Appeals judge. This would: (1) make campaigning less costly and reduce the perception that "Money talks;" (2) allow voters to know the candidates better; and (3) promote election of more minority judges. One case at a time. A judge is not supposed to be pursuing an agenda. I have substantial experience on both sides, I understand both sides, and I will be fair to both sides. One current problem the court is the "Yogi Bear" approach: some of the judges think they are "smarter than the average bear" and have been deciding cases on bases which were not argued by either party. I won't do that.

Un caso a la vez. Un juez no debería estar apoyando una agenda particular. Tengo bastante experiencia en los dos lados, y comprendo a los dos lados, y sabré ser justo con las dos partes. Uno de los problemas actuales de la Corte es el fenómeno del "Oso Yogi": algunos jueces creen "ser más listos que el común de los osos" y han estado tomando su decisión sobre bases que no fueron argumentadas por ninguna de las dos partes. Yo no haré lo mismo.

Larry S. Perry, Libertarian

Have practiced law in Texas for 20 years, including both civil and criminal cases; a life-long resident of Texas and very familiar with the laws, customs, and attitudes of Texans; sensitive to the need to uphold the protections guaranteed to all residents by both the Texas and U.S. Constitutions.

He ejercido la profesión de abogado en Texas por 20 años, en materia penal y civil; he vivido toda mi vida en Texas y tengo muy buen conocimiento de las leyes, costumbres y actitudes de los texanos; soy sensible a la necesidad de hacer valer las protecciones que las garantizan las constituciones de los Estados Unidos y de Texas a todos los residentes.

The present method of selecting judges by partisan elections should be altered by: making all judicial elections be non-partisan; limiting the dollar amount that a judicial candidate can spend (directly or indirectly) on elections; requiring that all judicial candidates meet certain strict qualifications in terms of education, experience and temperament; requiring that only persons residing in Texas (or within the judicial district) be allowed to make campaign contributions for any judicial race.

El método actual de selección de jueces por elecciones partidarias debería modificarse haciendo que todas las elecciones sean no partidarias, eliminando el monto en dólares que puede gastar un candidato (directa o indirectamente) en su elección, exigiéndoles a todos los candidatos a juez a cumplir con ciertos requisitos estrictos en cuanto a educación, experiencia y temperamento, y obligando a que solo aquellas personas que residen en Texas (o en un distrito judicial) puedan contribuir a cualquier campaña electoral judicial.

The protections guaranteed to all persons in criminal proceedings protect all persons from certain governmental actions in criminal proceedings. These protections must be vigorously and jealously guarded by the courts in order that they are not trampled by the government's drive to protect the public from the actions of law breakers. The courts are the last line of defense against our elected government's zeal to react to the electorate's clamor for a crime-free society.

Las protecciones que tiene un individuo en un procedimiento penal protegen a toda persona de ciertas acciones del gobierno en procedimientos penales. Estas protecciones deben ser celosamente cuidadas por los tribunales para asegurar que no sean abusadas por el gobierno en su afán de proteger al público de las acciones del transgresor. Los tribunales son nuestra última línea de defensa contra el afán de nuestros líderes políticos de reaccionar al clamor del electorado por una sociedad sin delincuencia.
