

DISTRICTS CO-OPERATING ON THE SAND LAKE RESERVOIR

Pecos, Texas, April 12, 1921. We, the undersigned, members of special committees named by our various districts to confer on the Sand Lake Reservoir proposition hereby agree to recommend to the boards of directors and people of our various districts, or proposed districts, that by the joint effort of the three parties the building of the Sand Lake Reservoir be determined on and that said parties shall accept proportionate shares in the project and its waters and share in the construction price of the proposed reservoir and its waters in the percents named below:

- Ward county water improvement district No. 1.....33.33 per cent.
 Ward county water improvement district No. 2.....41.67 per cent.
 Proposed Pecos district.....25.00 per cent.
 Total.....100.00 per cent.

We further recommend that each name an executive committee of three members who shall have authority and direction to prepare at once a proposed joint building plan for ratification by the parties.

For Ward county water improvement dist. No. 1; R. B. Thurston and W. I. Burkholder.

For Ward county water improvement dist. No. 2, M. L. Johnson, A. D. Cummins and E. V. Sweatt.

For proposed Pecos dist. Jim Camp and D. W. Bozeman.

The foregoing paper was signed at the joint meeting of the special committee from the three districts to arrange for the start of operation on the Sand Lake Reservoir.

A dredge secured from the Bartow Drainage district was being moved on the canal line late this week, and will probably be in operation by the end of the week.

The agreement was reached after an amicable discussion of the needs

of the various districts. Grandfalls was allotted the largest share in response to their plea that they had the largest acreage to be placed under the reservoir and because of the general belief that the water allotted would be able to care for the needs of the other districts for a number of years to come due to the several years that will undoubtedly be required to settle all of this additional acreage.

The meeting was held at the Chamber of Commerce rooms in Pecos after preliminary meetings in all of the districts. These committees will report back to their various districts and if the proposition meets with the approval of these districts, the committees or new committees will report back, and arrange for the details of the organization.

Under the appropriation proposed Pecos would receive 20,000 acres feet of water for each time the reservoir is filled. This, it is believed, will care for 6,000 acres, or perhaps more. As several thousand acres of land on the west side of the river is now under irrigation or entitled to water rights from the Bartow district it is probable that this land would be included in any district to be organized on this side of the river, and this would provide the 10,000 acres, which it is believed will be the limit that may be cared for under the present arrangements.

Engineers' estimates on the Sand Lake proposition state that the reservoir could be increased from 80,000 acre feet capacity to 120,000 acre feet by the addition of five feet to the height of the dam, and the purchase of additional land. In later years when the new territory is thoroughly settled it is probable that the increase will be made and additional land put under the reservoir.

U. S. GOOD ROADS ASSOCIATION MEET

(Special To The Enterprise)

Greensboro, N. C., April 10.—Enthusiastic interest is being aroused over the coming meeting of the United States Good Roads Association, the Bankhead National Highway Association and the United States Good Roads Show which will be held in Greensboro, April 18-23. The official program of this great event will be announced within the next few days. It will contain a list of the most distinguished speakers and good roads advocates that have ever appeared in a convention. Among the list of speakers are United States Senators, Congressmen, state highway engineers, county engineers, city engineers, county road commissioners, and road boosters of national fame. Hon. Thos. H. McDonald, Director of the Bureau of Public Roads, Washington D. C., is on the program and he has sent to the U. S. Good Roads Show one of the most comprehensive exhibits that has ever been sent from the road department at Washington.

Mr. J. A. Rountree, who is Director General of these great organizations and who has charge of the exclusive details, has received letters and telegrams from all parts of the country to reserve hotel accommodations and space at the show from delegates from over 40 states in the Union. These delegates are made up of leading citizens in their respective states who are going to take part in this great epoch making Convention which will pass the strongest resolutions possible and appoint the ablest delegation that can be selected to go on to Washington and urge Congress to make a billion dollar appropriation for the continuation of the building of good roads under the Bankhead Federal Aid act, also to take steps to establish a system of transcontinental highways. Another movement will be started for the purpose of inducing congress to pass an act appropriating from year to year the interest on the war debts due the United States by the Allies. These three policies will be advocated and carried out by the Association.

The meeting of the Bankhead National Highway Association which is promoting and building a great transcontinental line from Washington to San Diego, California, will probably be the most enthusiastic meeting that has ever been held in the United States. This Convention will definitely decide and put in its constitution the main line of the Bankhead Highway in all the States in order that the government, map makers, and tourists may know which is the main line and which are the branch lines.

Large parties of enthusiastic automobilists from the various states are planning to come to the Convention cars over the Bankhead Highway. April 21, a great automobile

parade will be staged. It will be participated in by people all along the route and citizens of Greensboro. Two loving cups will be presented to the first and second best decorated cars. A great military band will head the procession and arouse much enthusiasm.

The opening session of the Convention will take place in the Guilford county million dollar court house. It will be a most brilliant affair. The delegates from all parts of the country and the citizens of Greensboro will turn out en masse. The convention will be called to order by Director General J. A. Rountree, who will introduce the Mayor of Greensboro and Governor Cameron Morrison, representing State of North Carolina, who will deliver welcome addresses. These will be responded to by Gov. Chas. H. Brough, president of the U. S. Good Roads Association, who will take charge of the convention and preside over all the meetings.

Each day after the opening, there will be a continued round of oratory, practical speeches and entertainments furnished by the citizens of Greensboro. The city is being decorated with flags, bunting and electric lights. Reduced rates on all the railroads have been secured and thousands of people from North Carolina and adjoining states, as well as delegates from forty odd states, are expected to throng the city on this occasion.

MAKE IT A PARTNERSHIP AFFAIR

When Jonny's pig becomes father's hog and Willy's calf becomes father's cow, and this is repeated for a few years, both Jonny and Willy decide that the farm is no place for them. Perhaps father wonders why he has been left to run the farm at a time in life when his sons should have been of great help.

The merchant with a son is an exception who does not make a place for the boy and when he attains the proper age adds "Sons" to the firm's name, but the average farmer fails to interest his son as a partner and as a result, the boy gets a job in town his first opportunity.

Create an interest in the conduct of the farm early in the life of the boy, making him understand his importance as a factor in the success of the firm; treat him as a partner as a boy and make him an actual partner as he approaches manhood and we will have better farmers in another generation.

The boy who finds farm life monotonous and farm work a drudgery is the one who has a father who drives him to the field as he would his work horse; who borrows him for amusement and refuses to let him enjoy even a small portion of the fruits of his labor. Boys brought up under such conditions run away from home. Who can blame them? —Farm and Ranch.

THE BEST SPRING TONIC

PECOS OIL HISTORY EDITION

The edition of the Enterprise which will give the history of the Pecos Oil Field which was promised on the 15th or 22nd of this month will not appear before the 29th owing to the fact that the Enterprise was unable to get paper for that edition in time. Thirty-eight hundred pounds of paper for this issue is now on the road.

Orders have already been turned in for more than 10,000 copies and more than likely 15,000 copies will be issued on the 29th. If those who have sent in money for copies do not get their papers as soon as they think they should just hold on for another week before writing. It is a big job to print and mail out 15,000 copies of a paper which is only turning out 2,500 copies and it takes time. So be patient and your copies will come. In the meantime advertisers are advised that most of the space which has been allotted to advertising has been taken and when this is all gone you will be too late. At \$1.00 per inch this will be the very cheapest advertising you can get and if you get in you'll have to hurry.

FRUIT NOT KILLED

Damage to fruit crops is estimated by Mr. Cecil of the C. A. P. ranch to be only about 20 per cent where trees were out in bloom and no damages as yet to late apples. Mr. Cecil stated that the fruit on the C. A. P. ranch was not damaged enough to more than make a slight thinning and predicts a bumper crop provided late frosts do not get the crop. Hundreds of pear trees were not in bloom during the cold snap and with medium good luck the pear crop will be ample for this season, and under the same conditions apples will again make the Pecos Valley famous.

Mr. Cecil advises that a close watch be kept on all orchards in case the temperature drops again and in particular urges all orchardists to give their trees the usual number of sprayings this year.—Artisia Advocate.

THE PUNCH CLOCK

Keys for the night watchman to punch his tell-tale clock were distributed this week at various stations in the business district.

The present incumbent will not draw a pension as the clock record will both keep him awake and on the job. There are eight stations and the time consumed in recording his visits will be about thirty minutes of each hour. The merchants who contribute towards his wages will now feel better satisfied, not that the duties were not faithfully performed before, but there was always room for suspicion when pay-day came around.

CITY COUNCIL

The city council met last Tuesday evening with Earl Easterbrook, secretary, and all members present. Considerable routine business was transacted and warrants ordered issued for claims filed.

Permission was granted to P. T. Hammond to erect a garage in the rear of the Hammond Hotel. The heavy wind Tuesday blew down part of the west wall of the old Cowan building brought out a condemnation resolution and the walls were ordered torn down to the top of the first story. The recent aldermanic election returns were canvassed and I. J. Sims and A. G. Taggart declared elected.

The mayor was instructed to settle for costs incurred in city tax suits and the secretary ordered to certify that taxes had been paid on property sold. Reports of the Secretary and Treasurer were examined and approved.

The city has recently purchased a punch clock as a check on the night watchman and A. G. Taggart and R. E. Williams were appointed to locate stations for the keys. The night watchman's wages were raised to \$20.00 per month, J. S. Chandler was appointed night watchman.

Earl Easterbrook, Pat Fulgin, John Wadley and Frank Cavet motored to a point on the river about fourteen miles north of Pecos Saturday. They brought home eighty pounds of channel cat fish, the largest weighing twelve pounds.

IS THIS A NATION OF THIEVES?

A cabled story from Berlin the other day that 17,000 freight cars had been stolen in Germany since the armistice was made the object of much merriment by American newspapers.

They had better look at home—better throw a stone in their own glass houses. There is no such stealing in all the world as is done on American railways. The only figures made up for a full year as yet, are for 1919, when SEVENTY-FIVE MILLION DOLLARS worth of goods were stolen out of American railroad cars.

The record shows that no object less than a ton's weight was safe against thieves of the rail. Much small package pilfering occurred, but there are tens of thousands of reports per year of goods stolen that must have been carried away in wagons or motor trucks.

This thievery is taking place in all parts of the United States, and no doubt there are organized hands engaged in it in some parts. The total loss, which must be paid by the railroads, is one of the chief problems of financial railroading today.

When we take into account all the local, petty and grand larceny cases and burglaries regularly reported every day of the year in all of our cities and towns; when we read of daily holdups and bandit attacks on banks all over the country; when we think of the mammoth losses of the railroads; when we note the hundreds of millions that are lost annually by glibble people to stock promotion fakers and innumerable sharpers of all sorts, we could hardly blame a foreigner if he said after a year on our shores that this is a nation of thieves.

DRILLER CREWS CHANGED ON THE FEDERAL-SUNSHINE WELL

The Sunshine-Federal interests are changing drilling crews on the Laura this week and operations were suspended for a short time. The men who have been at work on this well, it is understood, will repair to their farms—one in California and the other in Illinois, where they will take it easy for awhile.

A. Mr. Livingston of Eastland, the man who drilled the Ranger-Hudson well at Desdemona, putting down a hole 3850 feet in ninety days, came in yesterday and will have charge of operations at the Laura well and it is expected that he will begin drilling today. The management stated to the Enterprise that the change was made in order to speed up the work.

President Tinally of the Sunshine stated to the writer that the Laura is in fine condition, the water absolutely cut off, casing and hole in most excellent shape and that the showing of both oil and gas and formation about the same as for the past ten days. The Laura is now down to a depth says Mr. Tinally, of 2256 feet.

Nitroglycerin will probably be used in the Pecos territory for the first time some day next week. With fifty feet of oil saturated sand in the Fort Stockton syndicate well in Pecos county, and with eighty feet of oil saturated sand in the Troxel well in the heart of the Toyah shallow district, operators of both of these concerns are investigating conditions and conferring with associates over the advisability of "shooting" these sands in an effort to obtain production.

"Shots" are used in practically all of the older fields to obtain production, but developers in this territory have so far been reluctant to try this method and those that have had good showings have gone deeper in the hope of striking a natural flow.

The big flow of water has been successfully shut off in the Ranger-Hudson well on section 18, block 2, and the drill is now pounding away below the cement bridge into an oil saturated formation believed to overlay the sands found last summer, at about 1429 feet. Some lost underreamer lugs which have been pushed ahead of the drill have struck a hard formation and are now being pounded up in order to remove them from the well. This work should not require over a few days, and at the end of that time the drill should find the oil sand proper and develop the potential production of the well.

In Ward county another heavy flow of artesian water has been found as expected in the River No. 2 of the Arthur-Pitts Oil Co. This was found at about 800 feet, as was the case in the No. 1, which the No. 2 is off-setting. The water sands about sixty feet in thickness were found in the No. 1 and the company is carrying 15 1-4 inch casing down to that depth which they plan to set at about 900 feet. This will be the largest hole in the Pecos region carried down to that depth, and will permit the well to be carried to a depth of several thousand feet if it is found necessary.

The flow water from the No. 1, has continued ever since the sands were struck late last summer, and the No. 2, flow promises to rival it. The water is now pouring out of a 15 1-4 inch casing and provides a stream several feet wide and about a foot in thickness.

This water pours into the Pecos river just above the Grandfalls diversion dam, and will probably prove invaluable for irrigation purposes if properly handled. The flow from the No. 2 well is conservatively estimated at about 200,000 barrels of water a day.

This is considered one of the largest water wells ever drilled in West Texas.

The Soda Lake well of the same company is drilling at 1930 feet. The management announces that the past 200 feet the drill has encountered nothing but limestone and sandy lime with occasional showings of both oil and gas. After drilling through over 1,000 feet of gypsum formation in which the gypsum crystals were found in practically every foot of drilling, it was finally drilled through at 1730 feet and no evidence of gypsum has been encountered since. According to the geology of the district it is quite evident that the Soda Lake limes since 1730 feet are of the Delaware formation, which is of peculiar interest to all operators of the Pecos district.

The spectre of hard luck has seemed to come on the Bell case for the past two weeks. After a long wait for casing before drilling into the gas rock found at 1730 feet, the casing was set and drilling resumed. A short fishing job served to delay matters and while the casing was being lifted the casing was stuck deeper in the rock, the strain proved too much for the derrick, and the crown blocks gave way, caving in one side of the derrick. Four men

were in the derrick at the time, but fortunately escaped unhurt.

Pearce Bros. took a crew of men to the lease Thursday to rebuild the derrick. This work will probably require two to three days. Several days will then be required to rig up the tangled line, and it will probably be Tuesday or Wednesday before drilling operations can be resumed. It is planned to underream the distance of 15 feet into the gas rock in order to get a better seat for the casing.

At the Helen S. underreaming has been successfully accomplished and the ten inch casing is set at about 775 feet and drilling has been resumed without any water in the hole.

Casing for both the Texoil and syndicate and the Pecos-Angeles well have reached Pecos and has been hauled to the location and is being set. On the setting of the casing, C. A. Wilson, manager for the Texoil and announces that two crews will be placed at work and the well rapidly pushed down from the depth of 830 feet.

The delay in the receipt of some needed tools, now ordered, will prevent operations being started at the Pecos Angeles.

The last word from Culberson county was to the effect that the Owens No. 2 was drilling at below 400 feet with a good show of gas and that the No. 1, was still engaged in a fishing job. No word has been received from the Lewis Jones well during the past week.

Guy Covey of the Guaranty Oil Co. returned to California this week leaving Mike Cremidas in charge of operations. The ten inch casing set to 104 feet, is being pulled and 12 1-4 inch casing will be set to that depth when the hole is reamed out. The location is on section 11, block 70, school land.

Work of rigging up the deep test of the Pinal Dome Oil Co., in eastern Loving county has been completed and it is probable that this deep test will spud in during the next week. This is one of the best equipped outfits in the local field.

The Los-Pecos Syndicate well, section 20, block 2, A. W. Bell field manager and Edwin F. Smith of Los Angeles, Calif., trustee, the only officers of the company both on the job. The Los-Pecos is now down 700 feet and according to both the above gentlemen have a complete cut-off of the water which has been giving them trouble. They have good showings of gas and oil and hope to reach the sands of the Bell discovery well at any time and are fully prepared to go on down with the well. They have passed through the Permian red beds at a shallower depth, any other well in the field. While the Los-Pecos started the last deepest in the Pecos field they have great hopes of being the first to bring in a producer, especially in the Bell territory. They also expect to drill several other wells commencing immediately on completion of this one—some in the same territory and others in Culberson county.

The Toyah Shallow Oil Co., with John A. Lee as a manager, is now down to a depth of more than 120 feet with their well which is off-setting the El Paso-Saragosa. This well is to test out the shallow sands found in the El Paso-Saragosa.

The Monroe Slack well in the same vicinity as the El Paso-Saragosa is drilling away.

SARAGOSA NEWS

Mr. and Mrs. H. Brannon and children of Stockton were the guests Saturday and Sunday of Mrs. Martha Adams and family. They returned to the home Sunday afternoon.

Mr. and Mrs. C. M. Honaker were Pecos visitors Thursday.

Bob Reid was down from the U. ranch Monday.

Mr. and Mrs. Hubert Hester motored to Pecos on business Thursday.

Messrs W. R. Black and P. A. Harbert left Tuesday for a visit with Mr. Harbert's father who lives near Carlsbad, New Mexico.

C. R. Sancan and family were among the Pecos visitors Tuesday.

The Saragosa B. Y. P. U. entertained last Friday evening. After the splendid program, delicious refreshments of cake and punch were served.

Mrs. Horn Carpenter and Mrs. E. A. Humphries were among the ones that motored to Toyah last Saturday to attend the school meet.

To seal in the delicious Burley tobacco flavor. It's Toasted

THE TRACK MEET

From The Whirlwind. The track meet was held Saturday, April 2, 1921, at the old race track. The first race was the 100 yard dash...

The next event was the 220 yard dash. Pecos again proved to have the best runner, as George Ross took 1st place...

The next event was the 440 yard dash, in which Ft. Stockton loomed up with "Jonnie" Lawrence taking 1st place...

There were several entries for the Broad Jump. One point was given to each school. One point was also given to each school for the High Jump...

DON'T CLUCK TO JACKASS. Gulf Coast Lumberman: The Baldwin locomotive works got an order for a monster locomotive. It was shipped in fifteen days.

Here is an illustration worth while, which surely applies to men as well as lower animals. A wonderful thing is the ability to respond with complete efficiency whenever called upon.

The Quinine That Does Not Affect the Head. Because of its tonic and laxative effect, LAXATIVE QUININE is better than ordinary Quinine and does not cause nervousness or ringing in head.

DIVISION OF CONSUMERS' PRICE ON CABBAGE

That the farmers will have to concoct a better system of marketing or quit raising anything for the market except the little surplus they may have after supplying their own needs is evident from the following figures taken from the Dallas News...

The price that has been paid at San Benito for cabbage during the last several weeks, according to testimony given in Dallas a few days ago, is \$6 a ton. The freight charge on that ton of cabbage for transporting it to other Texas points, such as Houston and Dallas is \$11.20 a ton...

On cabbage shipped from San Benito to Kansas City, the total of the freight and ice charge is \$31.25 a ton. Last Sunday's Kansas City Star quotes the jobbing price of cabbage in that city at \$55 a ton.

NOTICE

All Land Lease, Permit Holders and Royalty Owners who are interested in development of the field in the vicinity of Section 8, Block C-20, public school lands, Reeves County, communicate with ARROHEAD OIL COMPANY, Pecos, Texas.

Permit Holders If you want to block in your acreage and prove it up thru a well to be drilled in above vicinity advise us fully in your first letter what you have, give full description first letter.

ARROHEAD OIL COMPANY

CHEERFUL WORDS

For Many a Pecos Household. To have the pains and aches of a back removed—to be entirely free from annoying, dangerous urinary disorders, is enough to make any kidney sufferer grateful. The following advice of one who has suffered will prove helpful to hundreds of Pecos readers.

Mrs. J. B. Prewit, Pecos, says: "It has been quite a few years since I have needed Doan's Kidney Pills, but before I tried them I had a pretty bad case of kidney trouble. I had sharp pains in the small of my back and severe headaches. I am glad to say Doan's Kidney Pills brought me the relief I wanted. Since then whenever I have felt any soreness across my kidneys a few of Doan's have fixed me up in fine shape."

Oberholzer, J. W. Ogburn, Chas. Passmore, Pecos Valley Land and Irrigation Company, a corporation, J. T. Pinkston, J. J. Prentice, T. L. Patrick, W. L. Monroe, J. W. Phillips, Lee Monroe, J. W. Phillips, B. F. Posey, W. S. Roark, Mrs. W. S. Roark, unknown heirs of W. S. Roark, deceased, C. A. Roark, Marvin Reinhardt, and his wife, Mrs. Marvin Reinhardt, Hettie Reinhardt, Mary Reinhardt, W. L. Sargent, J. E. Starley, D. L. Stiles, Geo. H. Tucker, W. P. Toole, R. B. Thurston, Mrs. Mamie Townsend, J. S. Van Devere, H. J. Wade, J. J. Walker, W. H. Yates are defendants. And said petition alleging that it is a suit to enjoin the defendants and Ward County Water Improvement District No. Three, and all other defendants from diverting the waters of the Pecos river out of said river above the point of plaintiffs diversion thereof. Plaintiff alleges the ownership of the waters of said river to a continuous flow of more than six hundred second feet per second of time, that it has owned said waters since 1889 that the defendants have interfered with its use of said waters and have undertaken to convert same to their own use to the plaintiffs great damage, that the plaintiff heretofore was decreed a judgment in the Circuit Court of the United States for the Western District of Texas, El Paso Division, fixing and establishing its right to the said waters and the use thereof as against each and all said defendants, and that in cause No. 301 in the District Court of Ward County, Texas, the rights of said plaintiff to the use of said water as a superior right to any use thereof by defendants was established by judgment of said court. That the defendants are disregarding the said rights of the plaintiff and the said judgments and are attempting to take and are taking said water out of said river depriving the plaintiff of the use thereof to its great damage. Plaintiff prays for a decree enjoining the defendants and each of them from diverting said water of the Pecos River out of said river or in any wise interfering with the plaintiffs use thereof to the extent of a continuous flow of six hundred second feet continuous flow.

Farm Bureau Fruit Growers Organizing

Another unit in the American Farm Bureau Federation steps toward commodity organization through the action Jim Howard in calling a convention at Chicago for April 15. Growers of the nation are convinced that they are systematically through present distribution agencies—apples, for instance, sell for 50 cents a bushel—selling for 10 and 15 cents a bushel. Pictures show "Wes" Love, "Peach King" of the South, a big figure in the Chicago meeting, President Howard, Bureau and lower—a scene which is to be eliminated. cantaleu growers glutting the market by dumping surplus taloupes on the market—after "scare stories" had been told by unscrupulous buyers in forcing the market down.

UNADVERTISED RAILROADS

An exchange suggests that if the railroads would make money they ought to do like the successful merchants—advertise and offer their wares at prices that will attract business—Sherman Democrat.

In the good old days the railroads were advertisers. These days they are like a lot of other institutions whose managers imagine they have a monopoly. They are "saving" the cost of advertising. And the more they save that way the poorer they become. There have been 10,000 prosperous businesses built up on a foundation of intelligent, directive advertising and then been permitted to rot down for lack of advertising. Many short-sighted, though otherwise competent and conservative, business men have never gotten over the idea that advertising is an expense which sometimes may be profitably used as a temporary expedient, but should be abolished as quickly as possible. This idea is an inheritance from the old days of slow transport and slow thinking. Whenever an old establishment these days succumbs to the changes of the times it may usually be discovered that its advertising was neglected and its younger and more aggressive competitors had taken its customers. In the railroad business there is little competition in the way of rates, but there is competition in the way of service and the intangible correlates of service. Advertising would certainly stimulate travel, and travel certainly stimulates freight traffic. But the railroads are gradually settling down to staccato methods, and the motor truck may have to take over their duties eventually, as they took over the stage coach's.—State Press.

ABOUT HAZING

Every few years the matter of hazing is brought to the attention of the Legislature. Usually it takes a case of an aggravated nature, possibly a tragedy, to bring the practice to the attention of the law makers. An investigation follows, resolutions are adopted, and the matter is dropped—and hazing goes on. While the matter is under discussion a few always rush into print to say hazing cannot be abolished—that boys will be boys, that hazing is a part of student life and must be endured by all educational institutions. I am as sure as I am of anything that hazing can be banished out of the state schools but I am also sure that it will not be banished out so long as writers and teachers cry out that it can't be done. Other institutions have banished hazing. Drastic action was required to do the work, but hazing was driven out and remains out. One institution sent about 75 students home. There were threats of cutting, and other calamities, but the institution is still "keeping school." The contention is that every parent has a right to send his child to a school with full assurance that the child will not be hazed. I also contend that if the Legislature would pass a law prohibiting hazing in any institution for which it appropriates money, and the officers were diligent in enforcing the enactment of the law, the people would hear no more of hazing.—J. H. Lowry.

SPRINGTIME AGAIN

Once a year Nature starts anew, and in its revivification teaches the people of the world the great lesson of the resurrection. Old winter comes with withering winds and chilling blasts, and leaves our world dusty and bare with naked trees and dead brown stems. But soon the air grows gentler and the sun grows warmer. The sea harnesses its clouds in chariots, the sky sends down its blamy air, and the sun sends its warm rays—and what a scene! Buds swell and burst, flowers burgeon and bloom, velvety leaves appear on the trees and the grass puts on a carpet of green. The spirit of the Seasons is with us now, and when our world comes out of its winter quarters, dresses up and goes on parade. Beautiful indeed behold a world arrayed in vernal robes. Our love of the beautiful is fostered as we look out upon the ever-hospital plains and see the work of magic beauty woven in the tans of the young and tender sea. There is a new-washed sky—a sky washed and polished by the great celestial concave is an infinite vault of amethystean glow. There is a new earth beneath, and every tree and vine and shrub is doused in the radiant vesture of green. But as we feast upon the beauties spread before us by the spring message to man, a message which should rejoice our hearts even as her beauty delights our eyes. Spring tells us that the year is not the end. Human life, has its winter, which chills; but it has its springtime, which warms. And this is spring's message to man; this is the voice of Nature and the lesson of the song of the birds.—J. H.

ALL OIL WELL DRILLERS SHOULD BE LICENSED

There is a disposition on the part of owners and developers of oil properties in Texas, to ask the oil and gas department of the state railway commission to insist that every man who poses as an oil well driller submit to an examination as to his ability in that direction and be given a license before he may be employed as a driller or assistant driller. If it is discovered that the commission has not the power to make a rule of the kind indicated, the legislature will be asked to pass a regulatory law governing the situation, at the special session which it is believed will be called by Governor Neff, during the early summer.

It is asserted, by those who are urging that oil well driller be licensed after passing a rigid examination to prove their right to a license, that millions of dollars of the public's money, as well as many more millions of barrels of oil and cubic feet of gas have been wasted beyond recall because of the incompetency and utter inefficiency of many men posing as drillers of oil wells and getting away with it through lack of means by which their claims may be proved.

Judging from what has happened in the Toyah fields, both shallow and deep, there seems to be reason for the demand of those who favor the plan of licensing those who would undertake the drilling of oil wells. But it should not be lost sight of that, in by far too many instances the managers of companies organized and financed for the purpose of developing oil prospects are inclined to pursue a niergardly course and, to save a few dollars, employ men offering themselves as experienced drillers because they will work for lower wages and call themselves oil well drillers because they have operated drilling machines or have dressed tools around some rig or other in some field.

A man to be a competent driller of wells in an oil field should have knowledge of formations and how to come with them when encountered as the drill goes down, in the estimation of those who are asking that drillers be licensed. They hold that it is not enough that an oil well driller know enough about a drilling machine or rig to keep his tools in shape and the hole straight. They insist that hundreds, if not thousands, of wells have been lost by men of that class as well as by those who haven't that sixth sense which enables them to know what the drill is doing down in the bowels of the earth. The most dangerous man of all, in their esteem, is the driller who, as soon as he steps on the floor of the rig to take charge, assumes a hard headed attitude and doesn't care what happens so long as he can get as much, or more, footage, as the man he is working against.

Another dangerous man for the stockholders is the contractor who is drilling by the foot and doesn't care about the formations or anything else so long as the footage is made.

It has been suggested that one way to combat the menace of careless footage contractors or even drillers employed on a daily wage basis, is to offer a bonus for the discovery of oil or gas. It is thought the bonus plan would have the effect to make drillers more careful and more inclined to watch for oil or gas signs and more ready to keep the hole free of water which might trouble if not shut off before oil or gas is struck.

The matter of suggesting that drillers be licensed will be taken to the railway commission by the newly organized Association of oil well developers; it is said and a canvass of the various branches of the state organization is now being made. A branch of the state association has been formed at Pecos and a number of Toyah operators have memberships in that branch. None of the local men who belongs to the Pecos Chapter have heard that the question of licensing drillers is to come before that body but they say they will favor the move if it is submitted for their vote.—Toyah Basin News.

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of Reeves County—Greeting: You are hereby commanded to summon Margaret S. Bell by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, to appear at the next regular term of the District Court of Reeves County, Texas, to be held at the Court House thereof, in Pecos, Texas, on the 25th day of April, A. D. 1921, then and there to answer a petition filed in said Court on the 24th day of March, A. D. 1921, in suit No. 2118, wherein Ivan C. Bell, is Plaintiff, and Margaret S. Bell is Defendant, and said petition alleging that Ivan C. Bell and Margaret S. Bell were legally married on or about October 14, 1913, at Salt Lake City, Utah, and that they lived together as husband and wife until about February 15, 1918, when the defendant left the home of the plaintiff and voluntarily abandoned him and that since said time they have not lived together as husband and wife, wherefore plaintiff prays the court that the marriage contract

be dissolved and for such other and further relief both in law and in equity as he may be justly entitled to. Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Pecos, Texas, this 24th day of March, A. D. 1921.

S. C. VAUGHAN, Clerk, District Court of Reeves County, Texas. By C. E. ALLISON, Deputy. Issued this 24th day of March, A. D. 1921.

S. C. VAUGHAN, Clerk, District Court of Reeves County, Texas. By C. E. ALLISON, Deputy 32-4

Here are principals in the most startling divorce suit of recent years. On one side, James A. Stillman, President of the National City Bank, N. Y. and international banker, on the other side, his wife, Mrs. "Fifi" P. Stillman, rich, pampered society woman, and the French-Canadian Indian guide, Fred Beauvais. In between is the innocent little thirty-one month old child—Baby Guy Stillman, whom the banker claims is illegitimate—naming the Indian guide as correspondent. Mrs. Stillman denies all charges. Look at the two men—and the child. Which do you think little Guy resembles? The court is going to try to decide.—

COMING COUNTY MEET

On the coming Thursday the final High School Meet will be held and the final eliminations made for the county meet, which will be held at Toyah Friday. We regret much that this meet can not be held at Pecos this year but due to the fact that, when these arrangements were made, Pecos expected to get the District Meet. Other complications arose and Midland will again hold the meet. We expect big things of Pecos and of course will not be disappointed, as we have some fine declamers as well as debaters.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Reeves County—Greetings: You are hereby commanded to summon J. J. Turnham by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your County, to appear at the next regular term of the District Court of Reeves County, to be held at the Court House thereof, in Pecos, Texas, on the fourth Monday in April, A. D. 1921, the same being the 25th day of April, A. D. 1921, then and there to answer a petition filed in said Court on the 22nd day of March, A. D. 1921, in a suit, numbered on the docket of said Court No. 2117, wherein W. D. Hudson is plaintiff, and J. J. Turnham is defendant, and said petition alleging in substance, that defendant is indebted to the plaintiff upon three promissory notes, the first of said notes being in the sum of \$2,500.00, and the other two notes being in the sum of \$3,000.00 each, all bearing date February 10th, 1920, the first of said notes being due November 1st, 1920; the second note being due May 21st, 1921, and the third note being due November 21st, 1921, all signed by the defendant and payable to plaintiff at Pecos, Texas, all of said notes providing for 8 percent interest per annum from date, payable annually, providing for ten per cent attorney's fees and providing that if any one of said notes or the interest on any of said notes was not paid when

due. That said notes were given for a part of the purchase money of Sections Nos. 20, 25, 28, 36, N 1-2 of 34 and W 1-2 of Section 10, Block 57, Tsp. 1, T & P. Ry. Co. survey, Reeves County, Texas, and that in said notes and said deed the lien was reserved to secure the payment thereof. That the first of said notes is past due and unpaid and the interest on the balance of said notes is due and unpaid and plaintiff has declared all said notes due and payable and sues for the amount of same and to foreclose the said vendor's lien on the lands above described.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and the Seal of said Court, at office in Pecos, Texas, this 24th day of March, A. D. 1921.

S. C. VAUGHAN, Clerk, District Court, Reeves County. By C. E. ALLISON, Deputy. Issued this 24th day of March, A. D. 1921.

CITATION BY PUBLICATION

THE STATE OF TEXAS To the Sheriff or any Constable of Reeves County—GREETING: You are hereby commanded to summon The Unknown Heirs of M. Brown and Mrs. M. Brown by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Reeves County, to be held at the Court House thereof, in Pecos on the 4th Monday in April, 1921, the same being the 25th day of April, 1921, then and there to answer a petition, filed in said Court on the 19th day of March, 1921, in a suit, numbered on the Docket of said Court No. 2114 wherein The Town of Pecos City, Texas, is Plaintiff, and The Unknown Heirs of M. Brown and Mrs. M. Brown are Defendants, and said petition alleging that the defendants being the heirs of M. Brown and Mrs. M. Brown, Deceased, owe plaintiff the sum of \$14.40 for delinquent taxes upon the real estate herein-after described, together with interest penalties and attorney's fees that said taxes are for the year 1918 and 1919, upon Lots Nos. 7, 8, 9, 10, 11 and 12, in Block 38, in West Park Addition to the Town of Pecos City, in Reeves County, Texas, same being the West half of said Block 33, as shown by the map or plat of said West Park Addition to said Town of Pecos City, now of record in the deed records of Reeves County, Texas.

HEREIN FAIL NOT, but have before said Court, on the said first day of the next term thereof, this writ with your return thereon, showing how you have executed the same.

WITNESS S. C. Vaughan Clerk of the District Court of Reeves County, Texas.

Given under my hand and the seal of said Court, at office in Pecos, Texas, this 19th day of March 1921.

S. C. VAUGHAN, Clerk, District Court, Reeves County. 32-4t By C. E. ALLISON, Deputy.

CITATION BY PUBLICATION

THE STATE OF TEXAS, To the Sheriff or any Constable of Reeves County—Greeting: You are hereby commanded to summon Richard F. Englert, Las Leatherman, John Leatherman, A. W. McPherson, J. A. Kuhn, Carl Upchurch, Clay Ezzell, W. B. Sands, C. R. Percival, Wm. D. Carr, C. R. Roberts, John M. Barr, J. L. Starnes, Ben James, Millie James, Frank H. Bertucci, Gordon Wood, W. H. McGuinity and F. M. Bratton by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, to appear at the next regular term of the District Court of Reeves County, Texas, to be held at the Court House thereof, in Pecos, Texas, on the 25th day of April, A. D. 1921, then and there to answer a petition filed in said Court on the 24th day of March, 1921, in suit No. 2120, wherein W. W. Brookfield is Plaintiff, and Richard F. Englert, et al, Defendants, and said petition alleging that on July 1st, 1919, he executed oil and gas lease covering sections 7, 8, 9 and 45 in Block 23 Public School Land, Loving County, Texas. That the above defendants are assignees and present owners of parts of said lease but have failed to commence the drilling of a well on the said lease or to pay rental in lieu thereof. Lease covering section 9 having been executed on the 20th of January, 1920. Plaintiff prays that said lease or that part of it on which rentals have not been paid to be declared null and void and of no further force and effect. Herein fail not, but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same. Given under my hand and seal of said Court, at office in Pecos, Texas, this 24th day of March, A. D. 1921.

S. C. VAUGHAN, Clerk, District Court of Reeves County, Texas. By C. E. ALLISON, Deputy. Issued this 24th day of March, A. D. 1921.

THE STATESMAN

The statesman throws his shoulders back and straightens out his tie, And says, "My friends, unless it rains the weather will be dry." And when this thought into our brains had percolated through, We common people nod our heads and loudly cry, "How true!" The statesman blows his massive nose and clears his august throat, And says, "The ship will never sink as long as it's afloat."

Whereat we roll our solemn eyes, applaud with main and might, And slap each other on the back, the while we say, "He's right!" The statesman waxes stern and warm, his drone becomes a roar, He yells, "I say to you, my friends, that two and two make four!" And thereupon our doubts dissolve, our fears are put to rout, And we agree that here's a man who knows what he's about. —Quoted by The Christian Advocate (New York)

Foreign Advertising Representative: THE AMERICAN PRESS ASSOCIATION

Texas has had another touch of real winter weather starting Saturday. Many portions of the state was visited with heavy frosts this week.

The city council having condemned the standing walls of the Cowan building, the owners are now having them torn down at their own expense.

These hideous looking shacks are not favorably impressive to the writer. Not only this but if these shacks should catch on fire, when the wind was blowing like it was Tuesday, the entire business portion of the town would be destroyed.

There is not a man in Pecos who has a greater desire to see our boys and young men grow up with a proper respect for the law, good morals and show a higher class of citizenship than this editor and whatever he may say or do is for the purpose of raising their standard as gentlemen.

How many lovers of oranges, apples, peaches, and other fruits realize that their supply of these delicacies is dependent on the practice of forestry as well as of horticulture? Nevertheless this is actually the case, and the explanation is simple.

The editor was not so very sure on Monday that he was not going to be eliminated or "ejected" from the face of the earth when waited upon by the three young men who were ejected from the Rialto Theater Thursday night of last week.

The Enterprise does not believe that Mrs. Knight offered such a rebuke as these youngsters got without adequate cause and that they were ejected from the play house when they were acting like little angels.

stories therein by heart, you can easily find the story of dog Tray and therein depict just about what will happen to you if you do not watch the company you keep.

ARE YOU A KNOCKER OR A BOOSTER

It has been said by many writers that small towns, no matter where located were practically alike in make-up. We find the usual number of doctors, lawyers, merchants and representatives of various trades together with teachers, preachers, newspapers men and society folks.

There is another element in the small town that no one would call essential from any standpoint, but we always find them at work, night and day working not for the good of the town, but keeping up one continual anvil chorus, knocking everything that comes within the scope of their vision.

A writer once said, in explaining the presence of the knocker, that after God had about finished the earth and the inhabitants thereof he had left some of the evil of the rattle snake, a final remnant of the skunks, a few warts from the horned toad and a small portion of the breath of Hell.

Moral: If you knock, use a club. —Artesia Advocate.

SOUND THE ALARM

How many lovers of oranges, apples, peaches, and other fruits realize that their supply of these delicacies is dependent on the practice of forestry as well as of horticulture? Nevertheless this is actually the case, and the explanation is simple.

Boxes now absorb 15 percent of the wood in the country. In Florida alone the growers of oranges and grapefruit already require more than 12,000,000 boxes a year to get their crop to market.

Where is the lumber to build the boxes to come from? Florida fruit growers are already becoming alarmed at the steadily waning supply of southern yellow pine and are considering ways and means of meeting the situation.

This involves the harvesting of present stands in such a way as to secure the renewal of the forest, the reforestation of lands now denuded, and the regulations of the cut so that the amount removed from the forest each year will equal approximately the amount grown.

HAMILTON EDITOR ON THE CHRONIC BORROWER

There was a time, and but a little while ago, when jobs were few and money a good deal harder to get than it is now.

We have with us yet however, a few who can see no good reason for subscribing to their home-town paper when their neighbor appears willing enough to loan his.

We don't believe there is a man in this community so poor but he can find a good investment in a subscription to his home paper.

THE KNOCKER

We have had an insane idea that the knocker's propaganda did not reach east of the Pecos river, but the echo of it is heard a long way off as the following letter will show.

Herewith \$2.00 to keep the best "Texas Weekly" coming, that I am permitted to see. Better catalog the knocker now for when the "well comes in" you will be unable to find them.

Yours truly, J. E. COOPER.

THE NEW FOOD CROP.

The United States supreme court having decided that any citizen can possess wild fowl and breed them and sell them for food, under proper regulation, the game breeding industry is sure to enormously increase.

It is very little more work to raise a pheasant or a grouse than a common chicken, a wild duck than a tame duck.

About sixty of the two hundred species of wild fowl are found in America. There are two families or classes of ducks; the sea ducks or divers and the shoal-water ducks or dabblers.

One pair of quail and its progeny would produce over six million quail in eight years provided each nest contained only twelve eggs and there were no losses.

Wood-ducks, the handsomest wild ducks in the world, are easily raised in wire enclosures containing some water.

EDITOR COMPILING BUCK FAMILY TREE

James T. Buck, editor of the Crosbyton Review, is compiling a history of the Buck family, beginning with the arrival in this country in 1610 of Rev. Richard Buck, a minister of the Church of England, who settled in Virginia.

The above editor is a brother of our fellow townsman, Judge J. A. Buck. It might be well for some of Judge Buck's Pecos friends to write a history of his career for some years past for it is feared he may leave out some very important history—since he is averse to selfboosting.

PUTS A QUESTION UP TO BANKERS

Levang's Weekly Wants We Know Why They Fail To Patronize Their Home Town Publishers For Printing.

(From Levang's Weekly, Lanesboro, Minn.)

There's a country town not a thousand miles from Lanesboro which for some months now has been trying the experiment of being without a local newspaper.

"So the print paper robbers got your goat at last?" was our salutation.

"No, not exactly," was the answer. "Sure they helped along to hurry the end, but the cause of the fatal disease was the attitude of the business men of the town."

"Well, you remember the one time preacher in Lanesboro who advised his congregation to do as the preacher says, not as he does."

But why did they send away? Couldn't you do the work?"

"Certainly I could, and in most every case my shop could have turned out better and more correct work than they got from outside shops.

That would have meant more money in circulation right at home—more money for every business man in town, including the banker.

"Why do you single out the banker in mentioning the business men of your town?"

"Because in every small town the local bank is the greatest user of printed matter, and the banker is always the worst offender against the local print shop.

While this phenomenal record is still in the making in New York City, other organizations presenting the spectacle throughout the country upon the same scale as it was originally brought forth in New York have been piling up unprecedented returns, which proves Way Down East the wonder success of all time.

This engagement will be shown at the Rialto Theatre Monday and Tuesday, May 2nd and 3rd, accompanied by the Griffith Symphony Orchestra.

WHERE RESTS THE RESPONSIBILITY?

Where rests the responsibility for the continuation of the cost of living at high altitudes? Why are the prices of the prepared and finished product so out of proportion to the cost of raw material?

While "passing the buck" has become a fine art and one class finds it convenient to shift the responsibility to the shoulders of another, a careful sifting of the evidence presented is a strong indictment against those organizations of labor which are im-

BEAUTY OF WARDROBE THRILLS AGNES AYRES

BY MARY ETHEL PAIGE

"It's the supreme moment for me,—when I see myself in that wonderful creation designed by Clare West. After all, you know, I am only human and what woman could fail to respond to such beauty."

Agnes Ayres was talking. She was looking at the picture above, which I held. We were in the Paramount studios, where the last work had just been completed on Cecil B. De Mille's newest production, "Forbidden Fruit."

Miss Ayres and Forrest Stanley and Clarence Burton portray the three characters in a central triangle of married life where

wealth clashes with poverty, duty with love, honor with duty. In the action of the production, Miss Ayres wears gowns of surpassing beauty, an ermine stole negligee being next in beauty perhaps to the opera cloak I was admiring.

"WAY DOWN EAST" GREATEST HIT EVER PRESENTED

D. W. Griffith's elaborate production of Way Down East, which, as the world knows, is a new art form treatment of the basic theme of the play of the same title, has proven itself the greatest attraction ever presented within the four walls of a theatre.

It is the public estimate expressed in plain figures and facts which warrant this assertion.

Starting with its premiere in New York City at the 44th Street Theatre, last September, by the time this reaches your eyes it will be approaching its 450th consecutive performance in that playhouse.

It is in the number of people played to that Way Down East has about equalled the record of The Birth of a Nation.

While this phenomenal record is still in the making in New York City, other organizations presenting the spectacle throughout the country upon the same scale as it was originally brought forth in New York have been piling up unprecedented returns, which proves Way Down East the wonder success of all time.

This engagement will be shown at the Rialto Theatre Monday and Tuesday, May 2nd and 3rd, accompanied by the Griffith Symphony Orchestra.

WHERE RESTS THE RESPONSIBILITY?

Where rests the responsibility for the continuation of the cost of living at high altitudes? Why are the prices of the prepared and finished product so out of proportion to the cost of raw material?

While "passing the buck" has become a fine art and one class finds it convenient to shift the responsibility to the shoulders of another, a careful sifting of the evidence presented is a strong indictment against those organizations of labor which are im-

indictment of all labor, but only of such organizations as have through blind, selfish motives, decreased their production while at the same time demanding 100 per cent advance in their wage scale.

Manufacturers and other business institutions of the country are universal in their complaint of lack of production, individually and collectively, and their charges have been sustained by fair and unprejudiced investigations.

Farm and Ranch holds no brief for the profiteer whether he be a manufacturer or merchant, but labor is furnishing the weapons for profiteers to use against all consumers including themselves.

Whoforea has he made the Farm and Ranch?

THE CHURCHES

CATHOLIC CHURCH. Mass celebrated every Sunday and fourth Sundays as follows...

DUBOIS SUNDAY SCHOOL. Sunday School is held every Sunday afternoon at 2:30 at the Dubois school house, up the river.

CHURCH OF CHRIST. "The Great Commission and Life" and "Copies of Heavenly Things" will be the sermon subject, morning and evening respectively, on the coming Lord's day.

No Worms in a Healthy Child. All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance.

A few hundred shares of Sunshine Stock.

A. V. De PASCALE,

OIL REVIEW OF THE FT. STOCKTON FIELD

Ft. Stockton Pioneer.
Dave Humphrey has started a well on section 63, block 10, on the Evans-Lewis lease for a number of sub-lessees.

The Detroit Oil company, working with a standard rig on section 102, block 10 started drilling Tuesday after a wait for a heavy string of tools.

The Oregon-Texas Drilling syndicate, with its hole down 750 feet in section 19, block 140, T. & St. L. railway survey, is engaged in fishing for an underreamer.

The Poke Prospecting company, operating a national machine on section 20, block 140, T. & St. L. railway survey, has suspended drilling temporarily, while waiting for casing.

The Fort Stockton Oil syndicate, which went through a fifty-foot sand last week on survey 622, P. H. Fall Grant, is busy this week making some much needed repairs to the machine, a 38-star.

Bower, Hale, Lamb & Findies, for whom contractor Fowler is drilling a well on survey 592, G. C. & S. F. railway grant, have their hole down 240 feet, setting casing as the drilling proceeds. Water, as yet, has not been cut off but it is anticipated that this will be done in the course of the next few feet of drilling.

The Grant Oil corporation has just hooked up five shallow well pumps to a pump-power, on its location, section 19, block 140, T. & St. L. railway survey and the Miracle and Worder wells are making a very satisfactory yield of oil. Just what the production totals it is not possible to learn as the pumping is direct to a large earthen tank and from thence it is pumped, as demand arises, to the tank wagons that are hauling fuel oil to adjacent rigs.

EXCEPTENAL FINE PHOTO PLAYS AT RIALTO

A terrific storm at sea, giant waves dashing over the decks of a tramp schooner, lightning showing the crew shortening sails while the masts are careening at wild angles—these are actual scenes in the Universal-Jewel production, "Under Crimson Skies," which will be shown at the Rialto Theater Monday and Tuesday. Director Rex Ingram is said to have waited three weeks one hundred miles off the Golden Gate for the proper weather conditions to lend atmosphere to the production.

The many theater goers who remember Elmo Lincoln as the hero of Edgar Rice Burroughs' story, "Tarzan of the Apes," and more recently as the leading character in the Universal serials, "Elmo, the Mighty" and "Elmo the Fearless," will be pleased to know that this colossus of the screen has the principal role in the virile story of romance and adventure "Under Crimson Skies."

The management of the Rialto takes pleasure in announcing that he has booked Paramount Artcraft pictures to be shown one a week.

The first of these to be shown will be "What's your husband doing," featuring the ever popular stars, Douglas McLean and Doris May who made such a decided hit in "23 1-2 hours leave." This picture which has a delightful comedy atmosphere will be shown to Rialto patrons Wednesday and Thursday.

J. Warren Kerrigan's latest Brunton production, "The House of Whispers," a unique mystery play from the pen of William Johnston, the famous novelist and playwright, has been released by W. W. Hadkinson and will be given its premiere Friday at the Rialto Theater.

In this picture Kerrigan plays the role of a young adventurer who solves a baffling mystery that surrounds "The House of Whispers." The star is supported by an unusually strong cast, headed by Fred Bennett, his popular leading lady. The direction is by Ernest C. Ward and Jack Cunningham wrote the continuity.

The character of a man of fashion who huncors for adventure who becomes a "hunner" in a cheap underworld cafe in order to keep his eye on a girl of the slums in whom he becomes interested, is an unusual one, but it is played with much charm and skill by Frank Mayo in "Tiger Trail" at the Rialto Theatre Saturday. The story is by Max Brand and is replete with vigorous scenes and pulsequickening situations.

Due to the decision of the Texas & Pacific railroad not to change their schedules to comply with the change of West Texas from Mountain to Central time until Sunday March 24 Mayor Palmer and President W. H. Browning, Jr., of the Chamber of Commerce have decided to ask the Pecos district not to set their clocks an hour ahead until that date. The interstate commerce commission set Sunday, March 17 as the date for making the change, but due to the railroad schedules remaining the same for a week, it was believed that a chance next week would be too confusing in Pecos. When the clocks are changed they will be set one hour ahead.

WINDJAMMING ON SECESSION BUT DIVISION IS NEEDED

The following article written by H. A. Tillet of Abilene and published in the Dallas News of the 12th instant is full of good sound sense and logic and will be read with interest by those Enterprise readers who have a thought of the division of Texas:

"Unless the right of secession is still in existence, all the recent talk in West Texas about dividing the State into two or more States is pure 'windjamming.' To effect a division requires a majority vote of the citizens of Texas. East and Central Texas must help West Texas, if it ever aspires to separate statehood. The Declaration of Independence is of no service to the West, in its efforts to be free from the domination of other portions of Texas. If it is ever accomplished, it must be by ballots and not by bullets. It is, perhaps, an inopportune time to discuss the matter, when the orators from the West have only resentment at some injustice done the West to discuss. Nothing but unadulterated sentiment, a sickly, senseless sentiment, stands in the way of a division of Texas into two or more States. The writer, just like the vast majority of Texas citizens, formerly nursed and approved that sentiment, until he chanced to spend three summers in the small New England States and studied their different laws. Take for example, New Hampshire and Vermont, that lie by each other's side like two wedges, the two making a very fair rectangle. I doubt if a citizen in either State could be found who would vote to consolidate the two States into one State. Yet, were it accomplished, the consolidated State would be little larger than some West Texas counties. The statutory laws of these two States differ widely, and the reasons for the differences, you will be told, lie in the different needs of the two territories and the geographical situations. If the citizens of Texas could visit those portions of the United States which are divided into small States, though contiguous, and see for themselves how each little State had its peculiar and particular laws to meet the special needs of each territory, it would be a very easy matter, by popular vote, to divide 'grand old Texas' into four or five States, and do it by overwhelming majorities. To maintain one law-making body for such a vast territory, with climatic conditions so different, rainfall so different, industries so different, needs so different, is positively senseless, if the material welfare of the different portions of Texas is to be seriously considered.

If the people of Texas could be persuaded seriously to consider the question and with intelligent study it, one might ask the privilege of submitting specific reasons for dividing Texas.

As matters now stand, one could hardly ask such a paper as The News to print arguments, because so few citizens are willing to consider the matter at all seriously.

WHERE OUR IMPORTED EGGS COME FROM

While the United States is furnishing China and other countries across the sea with foodstuffs free gratis to keep those people from starving, they are shipping eggs to this country, selling them to Americans and competing with our eggs producers. The following is an eye opener:

The United States imported 1,708,701 dozen eggs, valued at \$617,909 during the year 1920. China was the chief source of supply, 846,863 dozen coming from there. Canada furnished 276,392 dozen; Hongkong, 239,567 dozen; Australia, 209,713 dozen; Japan, 84,755 dozen; and Argentina, 21,000 dozen.

During the same year the United States imported 29,022,577 pounds of dried and frozen eggs, valued at \$7,233,614. China furnished 25,646,791 pounds of this product. England sent us 2,378,752 pounds; Norway, 340,000 pounds; Canada, 311,052 pounds; and Japan, 131,475 pounds.

SOCIAL EVENTS

COMPLIMENTARY LUNCHEON AND FORTY-TWO PARTY

Last Saturday afternoon, April 8, at one of the clock, the beautiful bungalow home of Mr. and Mrs. Albert Sisk was opened to friends, with a delightful two course luncheon; Mesdames Sisk, Casey and Manahans as hostesses, honoring Mrs. Frank Rarey of Starawn and Mrs. Rowan Hudson of Dallas, two popular young matrons who are visiting relatives and friends in the city. The luncheon was served buffet fashion at tables where covers with sweet pens as favors, were laid for four guests each.

After the luncheon the covers were removed and a number of games of the ever popular "42" was played, after which the guests bade their hostesses and honorees goodbye with many congratulations for the charm and pleasure of the afternoon.

REGISTERED HEREFORD BULLS 60 HEAD AT AUCTION

Will sell at Auction sixty head of Registered Hereford Bulls, papers to accompany each bull.

These are yearling bulls, long ages and good sizes, in fine condition, to go on the ranch for service at this time, to grown cows; every bull is guaranteed, if not as represented money refunded.

These are Anxiety bred cattle, extra good bone; sires of these bulls can be seen at the place of sale.

Sale to take place at my residence in East Colorado, Mitchell county, Texas, at 11:00 o'clock, A. M. April 23rd, 1921. After the sale, then some barbecued calf.—Earl Morrison, Colorado, Texas. 1t.

\$90,000 ALIMONY HIGHEST GRANTED

Mr. James A. Stillman

Mrs. Florence H. Leeds

First victory in the famous Stillman divorce case in New York went to the wife of the International financier and president of the National City Bank. It was in the court granting of a record alimony of \$90,000 a year, and \$47,000 special counsel and legal expense money in detaching her suit. Banker Stillman sued his wife for divorce, naming a French-Canadian Indian guide as corespondent and disowning his two-year-old son, Baby Guy Stillman. Mrs. Stillman filed a counter-suit, naming Florence Leeds, former Broadway chorus

Money-Back Guarantee

If Chicken Chowder and Baby Chick Chow don't make your chicks develop twice as fast during the first six weeks, as when fed grains, you get your money back.

NOTICE

The State of Texas,
County of Reeves.

On this the 21st day of March, 1921, the Board of Trustees of Pecos Independent School District, being in regular session, come on to be considered the petition of James F. Ross and 113 other persons, praying that election be called by the said Board of Trustees of Pecos Independent School District, to determine whether or not said Board of Trustees of said School District, shall annually levy and collect an ad valorem tax, at a rate to be determined by said Board of Trustees, not to exceed One (\$1.00) Dollar on the One Hundred (\$100.00) Dollars valuation of taxable property of the district, for the purpose of the maintenance of schools therein.

It appearing to the Board of Trustees of Pecos Independent School District that said Petition is signed by more than twenty (20) tax paying voters of Pecos Independent School District and that the amount of the maintenance tax together with the amount of the bond tax of the district, shall not exceed One (\$1.00) Dollar on the One Hundred (\$100.00) Dollars valuation of taxable property in said District.

It is therefore considered and ordered by the Board of Trustees of Pecos Independent School District that an election be held in said School District on the 30th day of April, 1921, which is not less than 30 days from the date of this order, to determine whether or not the rate of taxation for the maintenance of schools in said District shall be increased in such amount as may be deemed advisable and necessary by the said Board of Trustees not to exceed more than One (\$1.00) Dollar on the One Hundred (\$100.00) Dollars valuation of taxable property, together with such bond tax as may have already been levied in said District.

Notice of said election shall be given by placing notice of the same in three (3) different portions of said School District at least 30 days prior to said election, and which notice shall state the time and place of election and the amount of taxes to be levied.

Said election shall be held at the Court House of Reeves County, at Pecos, Texas, and F. P. Richburg of Pecos, Texas, is hereby appointed manager of said election.

Said election shall be held as nearly as may be possible in conformity with the general election laws of this State. No person shall vote at said election unless he be a qualified voter under the Constitution and Laws of this State and a tax payer in said Pecos Independent School District, and those in favor of the levying of such taxes shall write or print on their ballots, "For the tax", and those against the levying of such taxes shall write or print on their ballots, "Against the tax" and the returns thereof shall be made to this Board within ten (10) days after the said election, and the result thereof shall be recorded.

A copy of this order, signed by the President and the Secretary of the Board of Trustees shall serve as a proper notice of said election and the Secretary of the said Board is directed to cause said notice to be posted in three (3) different portions of said district, at least 20 days before April 30, 1921, one of which shall be at the Court House door of Reeves County, at Pecos, Texas.

JIM CAMP,
President of Board of Trustees.
P. J. RUTLEDGE,
Secretary of Board of Trustees.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trate Salve through the pores of the skin soon stops a cough.

Both remedies are packed in one carton and the cost of the combined treatment is 35c.

Just ask your druggist for HAYES' HEALING HONEY.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer. A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corns from the toes or calluses from the bottom of feet the skin beneath is left pink and healthy. Ask spelling book, which

MIX YOUR CROPS TO DODGE HARD TIMES

"Don't put your eggs all in one basket" is the lesson which falling crop prices have taught agriculturists in southern states, say Texas farmers—and one that might well be observed in every state in the Union. Many southern states have "stayed with cotton" through fat and lean years alike—always at a big sacrifice in the end. But—as these pictures show—amidst the cabbages and palms—Texans at least are mixing their crops—but the point is—southern soil will grow most anything if the tillers will give it the opportunity.

WOMEN CIGARETTE SMOKERS

Dean Joseph French Johnson, of New York, has declared unequivocally for pipes for women. He suggests that they use nice clean clay pipes.

Of course, Dr. Johnson does not privately believe in women smoking. We imagine that his declaration was made for the purpose of shaming the female folks who have taken up the weed habit in our cities.

It is amazing how many women smoke cigarettes these days. Ten years ago the woman who was seen with a "Coffin nail" between her lips was regarded as a great curiosity. Today you can go into the dining room of almost any of the swell hotels in the large cities and find from one to a half dozen smartly dressed fashionable "ladies" nonchalantly puffing away at their cigarettes.

We believe in women's rights and full freedom for them in everything. But somehow the smoking business goes against our grain. Perhaps it was because our mother didn't smoke. And we hope our wife will never take up the habit.

One of the great sculptors of the olden days made a statue of a woman holding a baby to her bosom and looking down at its sleeping face. It was a wonderful picture of mother love and the generations of men that have gazed on that statue and paintings of it have adored it and wept over it, because men are only the sons of mothers. Not long ago, when we began to hear about women smokers, a flippant newspaper artist took one of the pictures of that statue and simply penciled a cigarette into the mother's mouth.

What a transformation it was, my masters!

No Worms in a Healthy Child All children troubled with Worms have an unhealthy color, which is due to poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off the Worms, and the child will be healthy and happy.

WEEKLY DIGEST OF THE WORK OF OIL OPERATORS IN FORT STOCKTON FIELD

Ft Stockton Pioneer. The Home Drilling syndicate is arranging to spud in two wells on locations not far distant from the Grant Oil corporation Miracle and Wonder wells.

The shallow test being made by the Pinal Dome Oil company on section 1, Devlin ranch, is going along nicely, with the hole down 45 feet, the drill working in limestone.

The Pinal Dome Oil company engaged in making a deep test on the Devlin ranch, section 208, Burleson survey, is down to the depth of 1,350 feet in a water sand, with drilling advancing satisfactorily.

Bower, Hale, Lamb & Findies, drilling on section 592, G. C. & S. F. railway survey, have successfully cased off the water with 15-inch casing and are setting 12-inch casing to the bottom—200 feet.

Bower, Hale & Lamb, operating a star machine on section 24, block 26, university lands, have made hole to the depth of 600 feet, with the drill now working in limestone, and things moving along in good shape.

The Texas Top Oil company with a location on the Baker-White ranch, section 11, block Z. T. C. railway survey, has been making good headway since getting the water cased off and has the hole down around the 2,800 foot level.

The Bordner-Shannon Oil company, who started to drill to the 1,600 foot sand on section 55, block C4, G. C. & S. F. railway survey, expects to resume drilling in a few days, following the setting of casing.

The Troy-Graham company, with a location a mile east of the Miracle well, section 20, block 140, T. & St. L. railway survey, is awaiting the arrival of a heavy star machine with which to continue drilling below the 1,105-foot level.

The Oregon-Texas Drilling syndicate, with a standard rig on section 19, block 140, T. & St. L. survey, has almost concluded its job of under-reaming to the 750-foot level and has been having flues in boiler repaired ready for the resumption of drilling.

The Fort Stockton Oil syndicate, operating a 28-star machine on survey 602, P. H. Fall grant, is drilling in shale and limestone around 1,140 feet, with every bailing showing oil or traces thereof. The company manager has decided not to shoot the 26-foot sands, recently passed through, just at present.

Grant Oil corporation has just completed the installation of pumps on four of the shallow wells and are connecting them up to the pump power. Pumping has started and as soon as the head of water is pumped off it is expected that a good yield of oil will be secured from each of the wells.

SLOVER GARAGE ALWAYS READY TO SERVE YOU WITH THE BEST OF WORKMEN AT REASONABLE PRICES AND Prompt Service OLD FIRE STATION PHONE 322

J. B. HEARD PECOS, TEXAS Agent For Purity Vaccine

SHERIFF'S SALE

The State of Texas, County of Reeves, By virtue of a certain Execution issued out of the Honorable Justice's Court of Reeves County, on the 29th day of March, 1921, by Max Krauskopf, Judge of said Court, against W. J. King for the sum of Ninety-five (\$95.00) Dollars and costs of suit, in cause No. 1225 in said Court, styled R. S. Lewis versus W. J. King and placed in my hands for service, I, E. B. Kiser as Sheriff of Reeves County, Texas, did, on the 29th day of March, 1921, levy on certain Real Estate situated in Reeves County, Texas, described as follows, to-wit:

All of the interest of W. J. King in the Northeast quarter and the Northeast quarter of the Southeast quarter of section thirteen block 56 Public School Land, Reeves County Texas. The land herein levied on being 200 acres more or less, and levied upon as the property of said W. J. King. And on Tuesday, the 3rd day of May, 1921, at the Court House door of Reeves County, in the Town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said land at public vendue, for cash, to the highest bidder, as the property of said W. J. King by virtue of said levy and said execution.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Enterprise and Pecos Times a newspaper published in Reeves County, TEXAS.

WITNESS my hand, this 29th day of March, 1921. E. B. KISER, Sheriff Reeves County, Texas

By Sheriff Reeves County, Texas 34-3

DODSON WARNS CALOMEL USERS Calomel is quicksilver. It attacks the bones and paralyzes the liver. Your dealer sells each bottle of pleasant, harmless "Dodson's Liver-Tone" under an ironclad, money-back guarantee that it will regulate the liver, stomach and bowels better than calomel, without sickening or salivating you—15 million bottles sold.

DRILLING REPORT

Corrected to April 6, 1921.

The following drilling report was compiled and furnished The Enterprise by W. A. Bennett, and is accurate, according to best information, and will be of much interest to the public.

Table with columns: Company, Well, Status, Sec., Township, Block, Depth, Remarks. Lists various drilling operations across different sections and townships in Reeves County, Texas.

The above list does not include many shallow wells in the Toyah field, and only those in actual operation in the Pecos Valley field. I know of no oil field that at the same stage of development (20 months) that had so many active operations, and the fact that migratory or seepage oil has shown to a remarkable amount proves beyond question that the big pools are surely here, and it is certain that some of these operations will go into them when they get deep enough, which may be anywhere from 600 to 800 ft.

ON THE BARGAIN COUNTER

640 acres, in fee, with ALL MINERAL RIGHTS, at \$5.97 per acre. Buy some lots in Pecos City before the price goes up.

R. C. WARN, PECOS, TEXAS

PERSONAL

W. D. Cowan spent Wednesday and Thursday in El Paso on business. Miss Ella Frazer of Toyah, came in Tuesday afternoon for a few days visit with friends. Mr. and Mrs. Lee Ligon and daughter, Miss Cornelia are spending the week at the ranch. Mrs. J. T. Hourigan of Balmorhea was in Pecos Thursday having some dental work done. Mr. and Mrs. W. J. Woolfolk of the Saragosa community were in Pecos shopping Thursday. W. W. Massey, the efficient deputy sheriff from Balmorhea was in town on business Thursday. Mrs. Howard Collier and Mrs. John Camp motored to Fort Stockton to visit Mr. and Mrs. Joe Camp. Judge Ross will leave shortly for Austin where he will meet the Highway Commission. Joe Caroline left for El Paso last Tuesday to testify in the case against Dr. Ritter. T. H. Beauchamp casner of First National Bank is in El Paso this week as a witness in the Ritter case. Mrs. Tom Harrison returned Sunday from a pleasant visit to her cousin Mrs. Pat Carson at Sierra Blanco. Mrs. Elmer Jones and children are in town from the ranch spending the week with Miss Lucy Ligon and her mother, Mrs. Looby. J. A. Scanlan went up to Carlsbad Saturday to see an aunt who is or has been quit ill. Jim paid the editor a pleasant visit while in Pecos. The editor and J. H. Walker went fishing Saturday night and brought home what the Irishman shot at, and an appetite. Sam Denny of the Pecos Mercantile Co., and Ed Doty spent two days fishing at the Young Bell ranch and brought home about sixty pounds of fine cat fish.

Mr. and Mrs. W. D. Casey of the K. C. ranch were visitors in Pecos this week. Mrs. J. Brice Jones and little daughter of Baird arrived Saturday for a visit to her siter, Mrs. L. M. Lawson and family. Mr. and Mrs. LeGrand Merriman are the happy parents of a fine son born to them on Tuesday of last week. The Enterprise extends congratulations. Johnnie Wilson came in from El Paso Thursday, where he has been transacting business for several days and went out to his home at Balmorhea. Mrs. R. C. Warn has returned from a visit to San Antonio and San Marcus. Mrs. Warn had been in poor health for some time, but returned home much improved. She visited friends in both places. J. Van Clark of the Federal Service and Development Co., Inc., left last week for a short business trip to Minneapolis. He is expected back within the next few days. John D. Shipman of San Angelo, was a Reeves county visitor last week and called on the Enterprise, renewing his subscription for another year. Mr. Shipman is still interested in the oil game and a live wire. Mr. Goeth traveling salesman for the E. C. Palmer paper house of Dallas was in town Tuesday visiting with the local printers. Mr. Goeth is an old newspaper man in point of service and a fine salesman and gentleman. E. E. Whiteley and wife of Temple, Texas, who have been in the Eliasville oil fields for the past four months, came into Pecos this week in their own auto and liked the looks of Pecos so much they decided to locate here. Mr. Whiteley is a barber by trade and is now holding down a chair in the Ritz shop. He is a pleasant gentleman and John Brocat, one of the proprietors, says he is a real genuine, first-class artist—one of the best he has ever had.

LINOTYPE COMPANY ORDERS 1000 COPIES

The following communication from Fred W. Bott, New Orleans, manager of the Mergenthaler Linotype Co., shows what that company think of The Enterprise equipment and work as well as an advertising medium. That it should be singled out of all the linotype set papers all over the country as a model to show prospective purchasers of machines an extra equipment is a compliment not only to The Enterprise but to Pecos and Reeves county. The letter follows:

New Orleans, La.
April 9th, 1921.

Mr. John Hibdon,
The Pecos Enterprise,
Pecos, Texas.
Dear Mr. Hibdon:—
Acknowledging your letter of April 6th, we note with pleasure you intend getting out the all Linotype edition about the 22nd of this month. Please enter our order for one thousand copies at the price of ten cents each.
We actually need about 650, but are ordering the even thousand so we may have some for future use.
Looking forward to receiving the big edition with a great deal of interest, we remain,
Yours very truly,
MERGENTHALER LINOTYPE CO.
F. W. BOTT, Manager.

Mrs. D. A. Dodds has been in Midland all of this week on business. Walter Ruhlman took the last degree in the Knight of Pythias last Monday night.

Maj. W. E. Bell came in from Chicago this morning and will spend two or three weeks in the Pecos field and with homefolk.

Grand master at arms Futch of the Knights of Pythias is a guest at the New Hotel. He holds extensive oil interests in this field.

Edwin F. Smith of Los Angeles, trustee for the Los Pecos Syndicate, is in town for a few days to look after his interests here and see the Los-Pecos brought in a producer, which they hope to do at any stroke of the bit. This well has been pushed with energy and it is expected will reach the Bell sands at any time. It has fine indication of an oil well now.

Mr. and Mrs. A. L. Florey were in Pecos last week for a day or two visiting Mrs Florey's sister, Mrs. C. K. McKnight. They were here in the fall on their way to California to spend the winter and were returning to their home at Bushnell, Ill. They drove through both ways in their splendid roadster, making splendid time. Mr. Florey in company with Mr. McKnight, paid the editor a very pleasant visit.

COUNTY COURT

The only case tried in the county court this week was a suit for damage to an automobile, arising from a collision. W. R. Johnson claimed damages against Charles Fitzgerald for \$381.00. The jury awarded Johnson damages to the amount of one dollar.

You Can Save Yourself

From the discomforts of hot weather by investing a few dollars in a
Perfection or Quick Meal Oil Stove
