## JUDGE GIBBS MAKES STRONG CHARGE TO GRAND JURY

District court convened with Judge Gibbs on the bench last Monday. The grand jury answered to their names and Judge Gibbs' charge was eloquent and comprehensive. Devoid of legal phraseology and to a point which did not admit of doubt or misunderstanding he pointed out the principal violations of law by a local element he stigmatized as "salty ones" along the lines of gambling and bootlegging. He instructed the jury to carefully weigh any testimony presented which would incriminate the local bootlegger by protection of the higher ups who run run from El Paso to the oil fields. Judge Gibbs was emphatic and to the point on the local gambling situation and told the jury it should feel personally responsible for the existence of this law violation in Reeves county. The jury deliberated Monday and Tuesday and returned seven true bills. Further investigations will be begun next week. A digest of the charge follows:

Mr. Daniels is appointed foreman of the grand jury. The foreman of the grand jury is just like the foreman of anything else, he is "boss of the outfit," and runs and directs the work.

I want you to first dispose of the cases where defendants are in jail. Get the bills of indictment so that we can get these cases disposed of first. They are on the expense of the county and if the parties are innocent they ought to be discharged as soon as possible; so dispose of these cases first. Then take up the other work that the sheriff may lay before you.

Ordinarily it is sufficient if the grand jury investigates all the matters suggested by the sheriff. The sheriffs know better than anyone what is going on. People tell the sheriff things they won't tell the grand jury sometimes; so you will have covered the field pretty well when you do the work the sheriff wants done, and there will be but little use of you beating the brush to see if you can scare up something else. I don't mean for you to indict everybody the sheriff wants indicted for the sheriff always have their fingers out and want half the people in the country indicted. That is all right, I would be the same way, I guess, if I were sheriff. It is for him to present the charges and you to sort them out.

Heretofore I have asked the grand juries not to investigate petty offenses for the reason that the county attorney and the justice of the peace and sheriff, as peace officers, can hold a court of inquiry for the purpose of investigating petty offenses. But, in this county I understand you have no county attorney at present, and for that reason the courts of inquiry will not have the advice of State's Counsel, and therefore I will not make any exceptions in this instance of this term of court. The petty offenses will be taken care of in the same as felony offenses, and in that connection I want to lay before you gambling, especially, and I want you to feel responsible for it if it continues after you adjourn. So investigate such charges as may come to your knowledge as to gambling and any other petty offenses that may come to your knowledge.

Now I have the caution to give you in investigating these minor offenses. Be careful that you are not drawn into a community stink. It frequently happens that some citizen will have a grudge at some neighbor and will undertake to vent his spleen through the grand jury. He feels satisfied if he can embarrass his neighbor with a grand jury investigation. If the grand jury falls for it the women and children of the community are summoned and the community is aroused for a day, or two—a general stink is stirred up and nothing comes of it. Keep your nose out of other people's affairs unless you have reason to believe that you will probably report a bill of indictment. Pursue a safe and sane policy of enforcing the law along the lines that common humans believe in. The American people like to be let alone. That is a privilege that the Southern people especially cherish. We believe in the governmental principle that the people that are the least governed are the best governed. We have an inherent idea that we have a moral right to do as we please with our property and conduct ourselves as we please so long as we do not trespass upon the property or personal rights of our men. Life is sweet to us only so long as we can live it according to our own ideas. Public sentiment is the greatest power among

## As President Waves To Teddy's Grandchildren

Grandchildren of former President Roosevelt returned to the White House lawn Easter Monday, when they participated in the annual egg-rolling contest. Shown in the picture are President and Mrs. Harding greeting the kiddies from the White House porch. Inset shows the children of Secretary of Navy Denby and Asst. Secretary Theodore Roosevelt receiving a salute from the President.

men. It is bigger than the law, it is dreaded more than the law. All good men dread the condemnation of public sentiment. We are striving daily to improve our standing in the community in which we live. We want to be better men, and that is the reason old men are better than young men, they have been striving longer to improve their condition. We have made our mistake and we have stumbled, but because of public sentiment and our desire to improve our condition we have corrected our own blunders and thus we are reforming ourselves daily. My suggestion is this: So long as a man is trying to improve his own conduct and is amenable to public sentiment he will reform himself better and quicker than our jail and penitentiary authorities can reform him, and my suggestion is to let him alone, even if he has stumbled.

But there are some who are not amenable to public sentiment. They have reached the point where they do not care what people think of them and what they do. They are the "salty" ones and there is nothing left to do but indict and convict them and send them out of the way. These "salty" ones are the men that I want you to give your attention to.

There are some restrictions thrown about us by law limiting our personal conduct and the disposition of our own property. I refer especially to our gambling laws and our liquor laws. They are the hardest laws to enforce because men feel that they have a right to gamble with their own money or buy anything with it that is available.

We have a State and a Federal liquor law. My idea is that it is best to let the Federal authorities enforce the Federal law as against the transient bootleggers. The Federal Government appropriates ten million dollars per year for prohibition enforcement. There are thousands of National Prohibition enforcement officers constantly on the trail of the transient bootlegger plying his trade from point to point, and the Federal authorities can apprehend and prosecute these transient bootleggers much more speedily, certainly and economically than the State authorities. By transient bootleggers I refer to those operating between El Paso and the oil fields. I believe the State law should be enforced against your home, or local bootleggers. It is your duty to locate and prosecute your home bootlegger-resident of Reeves county. Clean up your own back yard before going out to clean up El Paso and the oil fields. It is cheaper and will have a greater tendency to clarify the atmosphere in Reeves county.

Now let me tell you something: A transient bootlegger couldn't do any business in Reeves county without the assistance of a local confederate bootlegger. A stranger would try to sell your sheriff or your county judge just as quick as he would a thirsty buyer, for he is not acquainted. If liquor is being sold it is through bootleggers living right here in Reeves county, and if you put your local offenders in prison where they belong your transient bootlegger will be put out of business.

I want to hold your attention to your home man, and that is where the rub comes. Our home citizens are our friends and kin folks. They have families that need them or they have influential kin folks and it is hard to get at them. We are always ready to give the non-resident the dickens. But to my mind he is the least harmful. We have two well known stills in Midland county operated by influential men, and a wealthy cattle man. He keeps his ranch debts paid with his still. I tried to hold the attention of the grand jury to them, but they failed to indict.

## SUPERVISOR'S REPORT ON PROGRESS OF PECOS SCHOOL

Below the reader will find the report from the State Department of Education on the visit of the Supervisor who visited our local school recently. We sometimes do not appreciate the growth of the school until we stop and consider it. You will notice in this report that the Supervisor is complaining about the lack of room. The grades are crowded and the high school is cramped. Three years ago the high school had about sixty students enrolled, this year there have been enrolled in the high school 124 students. All available space is taken for seats in the study hall. Conditions will not likely get better. We are told there are thirteen in the graduating class and about thirty will be promoted into the high school from the seventh grade. There will be about twenty per cent next year.

Despite the increase in attendance and the crowded conditions the school has gone forward steadily. The number of affiliated units have been raised in the three years from sixteen to nineteen and one half; the units for graduation from sixteen to eighteen. And from the recommendations in the report several more units of affiliations may be added to the ones we now have. A visitor from one of the large cities recently remarked that she believed the work in the Pecos school was more thorough than those of her city. She had children in the city school in question.

The report follows: The work of classifying and accrediting the public schools of Texas is under the direction of a State Committee composed of six members chosen by the public schools and six by the colleges. This committee determines the conditions upon which the high schools are classified and accredited for the purpose of establishing educational standards, encouraging schools to attain these standards, and certifying those that have attained them so as to facilitate the transfer of students to any other school or college.

The regulations as prescribed by this committee are administered by the State Department of Education through high school supervisors. In the visits of the supervisors and in their reports to school authorities, recommendations are offered in the spirit of co-operation and helpful suggestion, with the earnest desire that all school authorities will join with the State Department of Education in raising standards of secondary education in Texas.

In order that the school may be properly certified it is essential that the minimum requirements as outlined in Bulletin 132 be met. To that end, the supervisor who recently visited your school makes the following recommendations:

1. More room and teachers will be needed in the elementary grades next year, if the steady increase of recent years continues, in order to maintain an enrollment of 40 or less to the room, which is the maximum set for a classified school.
2. There are now more than forty in some of the rooms, and enrollment has reached as high as 55. The high school is also cramped for room.
3. A library of good reading books to the value of about \$25.00 is needed for each elementary room.
4. There are two reference sets in the seventh grade room and a few books in the sixth grade room, but all of the rooms are lacking in attractive books suitable to the age of the pupils, which are needed to develop habits of reading and enjoying good books.
5. There is need for a chart for physiology, in which there were two classes this year.
6. Charts are needed for early European and for modern European history. See Bulletin 124.
7. Reference books are needed for American history, civics and economics.

The library has many good books most of which are in popular sets, in attractive cases, in the study hall.

6. Provided the specimens to be submitted shall meet the standards of the examining committee, that accrediting be allowed for a half unit in civics, three units in Spanish, two units in home economics, one unit in each in bookkeeping and shorthand with typewriting, and one half unit each in physiology and physiognomy.

Classwork of each of the teachers and of all grades of the school was visited during the day. The teachers are all mature, experienced and well prepared for their work. The order was easy and natural in all classes. The classwork and written work was uniformly good, the students working with interest and spirit. The school is well organized and in good working order.

## HERSHENSON WELL

No work was done on the Hershenson well in southern Reeves county this week. Glenn Breen, of the Pecos Vulcanizing Company, was called to serve on the grand jury, and his brother, Sam Breen, who has the contract for the Hershenson well, took charge of the shop for a few days. Work is to be resumed next week.

## TRANS-PECOS

Six inch pipe was set this week to 1700 feet in the Longnecker well of the Trans-Pecos Oil Company.

## THE LOS-PECOS

The Los Pecos Syndicate is drilling steadily on their well a half mile north of the Bell Well.

## PECOS ANGELES

Reaming operations continue at the Pecos Angeles well. Ten inch casing is being carried from 900 to 1300 feet.

## INTERESTING DATA ON PECOS OIL FIELD—NEW WELL STARTED BY WILLOUGHBY INTERESTS

### NEW WELL SPURRED IN

Interests associated with the Willoughby Petroleum Company have spudded in a second well in Western Reeves county as a result of the favorable showings made in the Willoughby No. 1, on the Cowan ranch. The new well is located on section 16, block C-13, school lands, two miles south and slightly east of the Willoughby No. 1, and is located on the Cowan ranch. A Keystone rig, elephant style, is being used, and efforts are to be made to reach the oil bearing formation which the reports of the Willoughby Company indicate are located between 550 and 700 feet.

### WILLOUGHBY NO. 1

The Willoughby No. 1, has set casing and shut off water at 552 feet after considerable difficulty with caving formations, and resumed drilling operations on Thursday with excellent showing of oil and gas. Some free oil shows in the hole, while the gas bubbles show on the water. Examination of cuttings from the well by geologists at the University of Texas indicates that even at this shallow depth the drill has penetrated the Comanchean Cretaceous formation similar to those just above the oil bearing sands in the Mexico field.

The great disparity in depth is caused by the general slope of the underground formations in Texas, these rocks sloping gently toward the Gulf to the south and east, thus causing the western section of the country to be much higher than the eastern except where the structural disturbances have been so great as to throw these earlier geological formations nearer the top.

Much oil is found in the Cretaceous formations along the Gulf Coast. These formations were being laid down on top of the Comanchean in West Texas at the time the Rocky Mountain uplift was first caused, according to the state report of C. L. Baker of the State Bureau of Economic Geology and Technology, and at that time Texas was a broad plain similar to a table which has been tipped at an angle of several degrees to the south and east. Later other uplifts occurred, much of the folding and faulting of this territory and that of eastern Texas occurring during the Pliocene age, and during the Lafayette period of that age, the River valleys were formed.

Interesting sidelights on the geological history of the Pecos territory are revealed by a close study of these geological reports. Mr. Baker declares that there is much evidence to show that the headwaters of the Pecos River in the early days flowed through the channel of what is now the Brazos River. Later folding and faulting occurred, which caused the Pecos River headwaters to flow through the territory now known as the Pecos Valley in Texas, and into the Gulf by way of the lower Pecos River and the Rio Grande.

This situation gives considerable backing to those who maintain that the Pecos River follows a general fault line, and that oil pools similar to those found along the Balcones fault near the Mexico field will be located here.

### THE LAURA WELL

The depth of the Laura well of the Federal Service Systems is now 2400 feet, forty feet having been drilled below the eight inch casing, and a string of six and five-eighths inch pipe is to be inserted and carried down with the drill. It is planned to set this pipe at about 2700 feet, but the caving formations made it necessary that the pipe be carried down with the drill.

### THE RIVER WELL

Great progress has been made at the River well during the past week and the hole was well below 4150 feet late this week, and working in a hard gray lime formation. Difficulty in securing a satisfactory log of the Toyah Bell well has caused some confusion as to the geological depth of the River well. Formations similar to those in the Toyah Bell have been found in the River well and employees of the former Toyah Bell management have declared that these formations were those found in the Toyah Bell just above the oil formation.

Drilling is to be continued in the River well until Sunday night under the present arrangements, and it is hoped that by that time the situation in the well will be known sufficiently to enable the operations to be carried on unless the unexpected happens and the oil is found before that time.

The structural formations exposed around the River well have

caused a great deal of favorable comment, as it is one of the few wells in the Pecos territory whose structure is distinctly outlined on top of the ground.

The drill of the River well during the past week has penetrated several hundred feet of gray lime formation and some salt rock. The last lime formation has been drilled into for 110 feet.

### BELL WELL NO. 1

Reaming at the Bell No. 1, continues, the reamer being down below 2350 feet late this week, half way through the 700 feet that is to be reamed before the big gas formation at 2730 feet is entered. The biggest interest in the field is now centered at this well, and the showings have been such as to leave practically no doubt but that it will be a commercial producer when the hole is placed in shape.

## JAIL BREAKERS LANDED BACK IN JAIL

On the night of March 25th two men who gave their names as Dow Cotten of Orange, Texas, and Allen Smith who refused to give any residence, were alleged to have burglarized Bozeman's Drug Store at Balmorhea. Sheriff Kiser kept the wires busy and they were apprehended at Van Horn and part of the loot recovered. They were driving a car supposed to have been stolen, but the owner has not yet been located. Sheriff Kiser had these men in jail and in less than a week, they, with Louise Hernandez, Mexican, dug their way out through the walls on the night of April 21st.

Sheriff Kiser was notified of the jail delivery before daylight and a systematic search was begun at once. The men were traced to the river and all peace officers between Pecos and El Paso, west, and Pecos and Abilene, east, were wired descriptions of the men, and they were apprehended in a stolen car at Odessa. They are further accused of breaking, entering and looting the stores at Poyte, operated by H. S. LaBeff and F. L. Sitton. These merchants, acting on wires from Sheriff Kiser, and in company with J. B. Walton of Kermit, Winkler county, owner of the stolen car, and H. C. Ratcliff took the trail and came up on the men with the stolen car at Odessa on Sunday afternoon. Sheriff Kiser of Reeves, and Sheriff Wade of Ward, who were hot on the trail, brought the prisoners back to Pecos and lodged them in jail. They had planned to steal the Dodge car of deputy sheriff Middleton to make their get away but a prisoner who went out with them beat it to the sheriff's home and notified him of the escape. This young man returned to the jail for breakfast. When Mr. George Bruce, contractor, examined the means of exit it was discovered that the construction of the cell door had some weak points which was unknown to the sheriff and his officers, and probably was not known to the contractor who constructed the jail. The break has been strongly repaired by Mr. Bruce and the grand jury, in session this week, have brought in true bills against the alleged culprits.

These men have yet to answer the burglary charges in Ward county and also the theft of the Walton car. Although the Mexican who escaped with the above white men has not yet been located, there is little doubt but what he will be. Sheriff Kiser has mailed a descriptive card of the man to all peace officers within a large area which announces a reward of \$25.00 for his arrest. He answers to the name of Louise Hernandez and is described as follows:

Age, about 27; height, 5 feet, 7 inches; weight, 135; copper colored, slim face, small black mustache, scar on top and a little to one side of head about size of dollar, probably has not healed up yet. Had large hat, think it was white.

He was arrested in Ward county for breaking into a box car and stealing car goods.

The prompt action of Sheriff Kiser and the efficient assistance given him in this matter by the officers and citizens of Ward county are entitled to commendation from all law abiding citizens. It is expected that the trials of the alleged culprits will come off at this term of court, when they will be tried for the Balmorhea burglary, and jail breaking. Their further prosecution in Ward county is another question which Ward county will settle for these young men.

**SWINEHARDT PRAISES ENTERPRISE— SENDS INTERESTING DOPE ON KOREA**

Most of our people remember Mr. and Mrs. Swinehart as citizens of Pecos some years ago and recognize their worth as citizens and their ability. Mr. Swinehart has visited Pecos as often as his work would permit since taking up his work in Korea, and his visits always bring gladness to the hearts of our people for he never fails to bring a message of cheer and comfort to our people. In sending in a subscription to The Enterprise, he takes the opportunity to enclose some of his literature which the editor found interesting, and believes the readers of The Enterprise will appreciate. The letter and a portion of the bulletin are herewith reproduced:

Kwangju, Chosen (Korea),  
 March 13, 1922.

Mr. John Hibdon,  
 Pecos, Texas,  
 My Dear John—

Enclosed you will please find my check for \$2.50 in payment for the "Enterprise," according to the attached statement. Thank you very much for sending it to me. A good many magazines and papers reach our home these days, but when the "Enterprise" comes everything must take a back seat until I have looked over that. Of course you understand that it means a good bit to me to get this news fresh from the press (only one month old), for although I have been away for eleven years, I still find that my heart goes back to Pecos and her country and people in a very sure way.

I wish you the best success in your undertaking personally, and that the valley yet may see the time when it shall come into its own through the discovery of not only wells of oil but rivers of oil; but all the while you are going through this excitement, please do not forget occasionally to give a loving thought to your truly.

Faithfully yours,  
 M. L. SWINEHART.

**KOREA—TOPICS IN BRIEF**

Ford cars retail for \$1,012.50 in Korea.

Koreans say a deaf man has "eaten his ears."

All typhoid and tyhus patients are convalescent.

The Yen is falling—being worth only 47 7-8 cents now.

Daily prayer meetings are held by the members of Kwangju Station.

Soonchun Station is equipped with an electric light plant, a gift from the late Mr. George W. Watts.

Word has just come of the reappearance of Dr. and H. L. Timmons as missionaries to Korea. A warm welcome awaits them.

Rev. W. D. Reynolds, D. D., of our Mission, is acting President of the Union Christian College at Pyeng Yang during the absence of President S. A. Moffett, D. D.

The church in the Leper Colony at Kwangju provides the entire support of a native Helper on the Island of Chaiju. "Freely ye have received, freely give."

The Ellen Lavine Graham Hospital at Kwangju has a complete Delco lighting and X-ray system.

Mr. C. E. Graham, Greenville, S. C., who supports this hospital, is the donor.

Missionaries in charge of Mission Schools, and teachers and pupils in the same are given a Government permit, entitling them to a half fare rate on the railroads in Korea.

One Korean states to the writer that he knows where his ancestors to the ninth generations are buried, and, before he became a Christian, offered sacrifice annually at each one.

The Bible Institute at Kwangju closed its month's session January 26th. The average attendance for the month was about one hundred, of which number eight came from the Island of Chaiju, 400 miles away.

A contract for the new Theological Seminary Building at Pyeng Yang, has been awarded by Rev. C. A. Clark, D. D., Capt. E. D. Soltau and Capt. M. L. Swinehart, the Committee appointed by the last General Assembly. The building is to cost \$30,000.00.

Realizing the need for physical exercise and the advantage to be gained by the students in our Mission School through the development of team-work, Mr. C. A. Rowland, of Athens, Ga., has provided an athletic outfit for each of the Mission Schools. Thanks.

Wanted:—75 discarded overcoats for distribution among the native Evangelistic Helpers and Colporteurs who travel through the country during the cold winter months, visiting churches and groups in the territory assigned to them. Their maximum salary is \$20.00 per month. Send by Parcel Post, marked "Used clothing."

The Ad Interim Committee of the Mission was in session at Kwangju January 26-27, to consider plans for meeting the 10 per cent cut in our 1922-23 Budget. The Executive Committee found this necessary owing to the failure of the church to meet the call for funds with which to carry on the work. Needless to say our work suffers as a consequence.

Over 150 volumes, forming a nucleus for a Circulating Library for our Mission, have already arrived from the Beech Haven Group of Laymen. These are of inestimable value to our members in their

preparation for teaching in Bible Classes and Institutes where regular courses of Bible study are followed, and also for private reading and study.

Mrs. R. G. Vance, Wayneboro, Va., is doing a splendid work in receiving and distributing the Industrial work from many of the schools of different Missions. She is saving a missionary's time to the work here, in attending to the retailing of these products, and her unselfishness and ability is appreciated by all, especially by those in charge of the Industrial work.

January 28th was the Korean New Year. It is a time for the payment of all debts, although there is no law or custom which prevents borrowing at will the following day. Clothes are cleaned and pressed in advance that all may start out the New Year "free from debt and stain." The Chinese observe the same day, but the Japanese have adopted the New Year's Day of the modern calendar.

Mr. Edward L. Junkin, a son of the late Rev. Dr. Junkin, who until his death was a missionary in Korea, has written his determination to enter our Mission and take up the work which his father began nearly 30 years ago. With Mr. J. B. Reynolds, already appointed a member of the Mission, and Miss Charlotte Bell who will become the bride of Mr. W. A. Linton in Kusan, next June, this makes three of the second generation of Missionaries in Korea in a work scarcely three decades old.

In the November number of Topics in Brief, through error it was stated that the First Presbyterian church at Savannah, Ga., had provided the fund for a Memorial to Miss Nellie Rankin, a former member of the Korean Mission. It was the Independent Presbyterian church, of which the Rev. Neal L. Anderson, D. D., is pastor that not only supplied this much needed building, but which has been contributing in a very generous way to the support of the Girl's School at Chunju, Korea, for the last ten years.

**Between the Acts and Behind the Scenes**

Last Friday night the senior class of the Pecos High School produced at the Rialto theatre a three act drama called "The Early Bird." The play was witnessed by a well filled theatre and was put over in very good shape. The players delineated their characters splendidly and we expect to see some of them eventually starred at Hollywood High as the public rated the production. I believe the comedy that was being pulled off behind the stage and between the acts far exceeded the play itself. Picture if possible the wise Mr. Kilbuck seated in a chair, his face screwed up in a knot while Mrs. Campbell deftly applied the lipstick, rouge, and mascara. Artie running around having an awful time finding his fake telegram and calling cards. Then on the other side of the stage Betty with anxious eyes trying to hold up a curtain while (we won't mention her name) was trying to slip out of some feminine mystery into another. Also the sigh of relief from Floema when the curtain went down on the first act. Tony Kilbuck trying to appear sleepy in the second act when he was never more wide awake before in his life. That cigar of Mr. Allen's must have been in the drug store five years before he purchased it because when he bit off the plug the wrapper spun around like a top. By the way, Rosa Bella is quite a first, better look out boys. Mrs. Beavers was quite realistic; with that mob of keys she sort of reminded one of a safe cracker. When the curtain fell our hero was sobbing away as though his heart would break, but when the poll bumped the floor you would have been surprised to see him execute a war dance around the table he had just been sobbing over. Poor Dilly, the would-be champagne refused to fez and it looked to the audience as if Dilly was having an awful time with a bottle of dishwasher. We are awful sorry that Mr. Bird stepped in the mud puddle—that is, that we weren't there to see it. Well when the curtain made its last final bump it was then that the lead went off our shoulders. We want to add further that the senior class expresses their sincere thanks for the help they received from Mrs. Campbell and Mrs. Brooks and that without them they would never have accomplished their undertaking. —Whirlwind.

**Record Radio Voice Hurlled To Far Point**

By Mayne N. Houston.

Pecos, thriving little city on the western bank of the river of the same name, in Reeves county, about 386 miles west and south of Fort Worth, came within speaking distance of The Record's radio station Tuesday night of last week, when the concert numbers from The Record's radiophone leaped through the ether, across the hills and val-

leys of West Texas, slipped over the high elevation about Abilene and Sweetwater and coasted down the slope into the valley of the Pecos, where the music could be heard six or eight feet away from the "phones" of a head receiving set by Ralph Williams of that place.

While the music from The Record station was flooding West Texas and into New Mexico—for Pecos is beyond the meridian which forms the Texas-New Mexico line further north—it was also sweeping southward toward the gulf, just how far south it is impossible to say, for reports are not yet complete. But Rockdale, in southern Milam county, 150 miles from Fort Worth, as the crow flies, reported that The Record's concert came in plainly and was received on sets owned by P. P. Perry, Sr., and Preston H. Perry, Jr.

Marlin, also to the south and nearer Fort Worth, reported that The Record broadcasts were coming in clearly and much better than on Monday. To the east, southeast and northeast, Tyler, 120 miles away; Denison, nearly 100; Bonham, about the same, and several other cities reported. The distances given are air line, the rail mileage being considerably greater.

**500-Mile Estimate Low.**  
 From a study of the reports quoted it is believed that the original estimate of a 500-mile radius, with the set operating on less than half power, is low, and that the calls are reaching possibly 600 or 700 miles. Careful tests as to extreme radius will be made within a few days, when full power will be used.

Amateurs and others in Fort Worth and vicinity are finding that The Record signals are so strong that they have to adjust their apparatus so as to prevent injury to it. In his broadcasts "Sparkie" has warned the receiving operators to prepare for the heavy radiations of the big set now operating and to be more than doubled in power within the next day or two.

The regular schedule is being maintained daily, as follows:  
 11:30 a. m.—United States government weather forecast (485 meters).

2:30 p. m.—Emergency storm warnings, if any (485 meters).

7:30 p. m.—Fort Worth police report, baseball scores, concert (360 meters).

9:30 p. m.—News bulletins (360 meters); United States government weather forecast (485 meters).

**Proves Big Attraction.**

Abilene, April 19.—The radiophone broadcasts of The Fort Worth Record are proving a big attraction in this city, according to radio fans who declare that they are getting all bulletins, baseball scores and other features clearly every night. There are several sets in this city and all of the operators declare that they get "WPA" (The Record) oftentimes when they can get no other station. One resident has a home-made set which he put up himself, and declares that "WPA" comes in clearly.

**Pecos Hears Clearly.**

Pecos, April 19.—Ralph Williams

*"Madder, I always win the race when I carry home Kellogg's Corn Flakes. I can't hardly wait till I have some quick madder!"*

**Watch the little folks speed home for Kellogg's Corn Flakes**

It's great to see child-enthusiasm for Kellogg's; great to see every one in the family enjoy their crisp crunchiness and wonderful flavor! To sit down before a heaping bowlful of these cheery, oven-browned "sweet-hearts-of-the-corn" and some milk or cream—and fresh fruit, if it's handy—is just about the very last word in appetizing appeal! And, your good taste will prove that!

Kellogg's Corn Flakes ought to be superior—they are the original Corn Flakes! Kellogg's are never tough or leathery; never hard to eat; never a disappointment!

Be certain to get Kellogg's—the kind in the RED and GREEN package—because none are genuine without the signature of W. K. Kellogg, originator of Toasted Corn Flakes!

Don't forget, KELLOGG'S Corn Flakes are made by the folks who gave you the JUNGLELAND Moving Pictures. Coupon inside every package of KELLOGG'S Corn Flakes explains how you can obtain another copy of JUNGLELAND.

**Kellogg's CORN FLAKES**

Also makers of KELLOGG'S KRUMBLES and KELLOGG'S BRAN, cooked and krambled

**Rockdale Has Report.**  
 Rockdale, April 19.—P. P. Perry, Sr., and Preston H. Perry, Jr., licensed radio operators here, say they are hearing The Record broadcast quite plainly. They heard the concert tonight before 8:30.

of this city heard The Record evening concert very clearly and, although he has only a head receiving set, reports that the music could be heard six to eight feet away from the phones. Static still interferes somewhat with the clearness of the voice.

**YOU'LL NEVER GO BROKE IF YOU USE ENTERPRISE ADS**

**You Can Depend On The Man Who ADVERTISES**

Nine times out of ten you will find that the man who advertises is the man who most willingly returns your money if you are not satisfied.

He has too much at stake to risk losing your trade or your confidence. You can depend on him.

He is not in business for today or tomorrow only—but for next year and the years to come. He knows the value of good will.

You get better service at a fairer price than he could ever hope to sell if he did not have the larger volume of business that comes from legitimate advertising and a product that bears out the promise of the printed word.

Don't miss the advertisements in The Enterprise. The live firms of the city are represented in its pages. It is the man who is broad minded in his advertising policy who will be broad minded with you.

**Don't Fail to Read the Advertisements**

### The Congressional Hike

COPYRIGHT BY THE PUEBLO-CASTER SERVICE, INC.

## Uncle John's Poem

### PESSIMISM

Friend, let me utter it, under my breath,—ain't it a fright to be governed to death? Think of the pitiless riders we tote, spurring us deeper each time that we vote! Taxes increasin' and Liberty squeezed—freedom befettered, deformed and diseased, luxuries,—things that we seldom may find, covered with "license" to fatten the grind. Legislate constant, and legislate strong—plenty of fools that must boost it along. I have grown weary with burden of tax, weary of blood-suckers leeching our backs! Prone to rebel, if rebellion could win. Calling with pain at the fix we are in. Dirty poltroons with a surplus of greed, suck up our earnings and rob us of feed. Hence I am muttering, under my breath, Lord, it's a shame, to be governed to death.

### The Town Team Wins at Baseball With School Team

The town and the school again met on the diamond Tuesday to decide the sixth game. Caroline was in the box for the school with Hicks, the town's mainstay, pitching for them. The town won by a score of eleven to three. Caroline pitched good ball, but through lack of support had a hard time. Feature of the game was Don Bell's home run. We think this was the first time he ever hit a ball, but he started out right. Wheat also got a circuit out but failed to touch second.

**Pecos High 5; Barstow High 2.**  
Wednesday we journeyed over to the city of Barstow and met their town team. As this was our first game away from home we easily took the game Murray was on the mound for the school with O. Hicks of Pecos in the box for Barstow. Parker of Pecos was also playing for Barstow. Inquiries were made for Milton Wadley, but we don't know whether they wanted him to play or not. Following is a summary of this event: Pecos won the toss and chose the field. Workman drew a pass but was put out steal-

ing second. Burkholder took first on fielders choice. Parker safe on shorts error, but out going to second. Burkholder scored. Tarlton out second to first.

**1st. Of Second—**  
Black served on short's error; Martin flied to first; Armstrong out second to first; Black scoring; Burkfield out short to first.

**2nd. Of Second—**  
Pruett hits; Murray hits. Both score; Caroline hits, put out going to third; Rhulen hits, put out at second.

**1st. Of Third—**  
Hicks out third to first; Workman out same way; Burkholder out; Murray to Pruett.

**2nd. Of Third—**  
A. Ross pops to Martin; Weyer thrown out at first; Moran had three called on him.

**1st. Of Fourth—**  
Parker imitated a windmill for three; Tarlton out by the air route to Moran; Black safe on shorts error, but died on first when Martin failed to beat one out.

**2nd. Of Fourth—**  
G. Ross thrown out at the initial bag; Pruett did the same; Murray

safe on error but died when Carol flied out to first.

**1st. Of Fifth—**  
Armstrong threw his bat at three; Burkholder grounded to pitcher for second out; Hicks whiffed the air.

**2nd. Of Fifth—**  
Wheat knocked one for a double but died at third; Rhulen soaked one for a two-bagger; Camp and Weyer took exercise by swinging at three.

**1st. Of Sixth—**  
Workman and Burkholder came near breaking backs for two outs; Parker got their hit of the game, but died on second when Tarlton breezed three.

**2nd. Of Sixth—**  
Moran and Pruett fanned, and Kerr taking catcher's place flied out.

**1st. Of Seventh—**  
Black and Martin struck at six together; Armstrong safe on short's error, but Burkholder failed to advance.

**2nd. Of Seventh—**  
Murray drew a walk and scored on a Caroline's hit; Wheat out by three short to first route; Rhulen out on fly; Camp missed the pill.

**1st. Of Eighth—**  
Hicks and Workman both failed to touch the ball; Burkholder safe on Weyer's error but tried to steal on Kerr and Moran, third out.

**2nd. Of Eighth—**  
Weyer, Moran and Kerr all fanned.

**1st. Of Ninth—**  
Hicks out third to first; Parker safe on error; Tarlton same; Black out fly to Camp in right; Martin out Murray to first.

**2nd. Of Ninth—**  
Pecos ahead 5 to 2 so did not take bats.

Another game will be played soon with this team minus Hicks we guess. "Come out and see another track meet."—Whirlwind.

**Colds Cause Grip and Influenza**  
LAXATIVE BROMO QUININE Tablets remove the cause. There is only one "Bromo Quinine." E. W. GROVE'S signature on box. 50c.

**No Worms in a Healthy Child**  
All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the child will be in perfect health. Treat to take. 60c per bottle.

## WHERE ARE ALL THE PROFITS?

Judge Gary, presiding genius of the United States Steel Corporation informs us the steel business has doubled in the past year. Have the profits of the farmer doubled?

The railroads have greatly improved their income in the past year. Has the cost of living for those who work on the railroads shown any proportionate decline for the workers?

Business is up approximately fifty per cent and so is the cost of living even compared with 1914. Where are the profits going?

The meat packers are now considering a still closer combination by which they can effect greater economies and increase their profits. What about the man who raises and sells the steer? When he talks combination an alarm is sounded that echoes among the money changers from coast to coast. When are we to find that financial Moses who will lead the people to some sort of combination that works for the public? We have developed the exploitation of the cow until the meat of the animal is only a small portion of the profit accruing from his predestinated slaughter. We turn the beast into everything from hair combs to floor varnish and pay a hundred profits in every hair of his hide. We have made the by-product more valuable than the product itself, and yet by some strange hocus pocus the people are hungering, and paying extortionate prices for the bit of meat they can afford to buy. Our meat is sold abroad at figures Americans despair of seeing in this country. When the public voice is raised, however, it is soon quieted by our "old friend" Statistics, who proves to us beyond a doubt that the margin of profit on a cow is so small that it cannot be cut without disappearing altogether. It will be a good thing when the public schools give to the rising generation a course in corporation arithmetic and business analysis. As we stand the Chinese puzzle is a simple proposition compared to the mental fog caused by economic juggling.

## THE REAL WIRELESS MISSION

A vision of the useful purpose to which wireless telephony eventually must be put comes to us in the broadcasting from the Newark, N. J., station of a bedtime story telling the children of the country how the children of the great city of New York are undernourished and in need of milk, asking the suburban little ones to help their tiny brothers and sisters of the tenements. A wonderful, a splendid work, but let it not stop there. (How soon will the government see the wisdom as well as the duty of talking to the mothers of the nation and advising them how to foster the health of their children? When are they to be taught how science to some extent at least can check the death rate raised by landlord profiteers who force the poor into unhealthy dwelling conditions? The opportunity of the government to help the health of the nation has been knocking at the doors of Washington for years through the medium of government signed advertised information for the public, but political chicanery plus the influence of the corporation press agents has blocked the way. Now that information can be spread generally for the talking, possibly there may be an awakening. There are just two questions the public would like to have answered: 1. Has the government as a result of spending the people's money gathered in Washington any information of public value? 2. If it has, why is that information not given to the people who have paid for it?

Pecos has a superfluity of worthless curs which roam the streets and make it very uncomfortable at times for those who are trying to raise a flower garden and have no fences. They mess up the yards, scratch up and mash down the flowers and worry the parties trying to beautify their homes. Really there is very little need of dogs in town anyway and the attitude of the city council and city marshal, which will be noted in another place in this paper is commendable and will be read with delight by many of our people. The Baird Star has this to say with

reference to the dogs in its town: Baird has more worthless dogs, according to our notion, than any town of equal size in Texas. We hope the city marshal will enforce the law to the letter. There is no earthly reason why some people—any people—should have three to half a dozen dogs, that roam the streets day and night. They are a nuisance and people who insist on keeping dogs of any kind, should be forced by law, if possible, to keep them in their own yards. We wish the city council would investigate and, if they can legally do so, enact an ordinance prohibiting dogs from running at large, the same as other animals.

## HOMEY PHILOSOPHY FOR 1922

Twice two are four this year. Next year twice two may be five—not likely, of course, but maybe. Twice two will be five as soon as the people say so. If everybody agrees then that settles it. We put men to death and praise ourselves for doing it because everybody agrees. We frame up laws that spell the gathering of great wealth because everybody agrees. Then we take the wealth away from the men who have done what we said they might do, and we tax the eternal lights out of them, because everybody agrees. Come to think of it, the people who go into the game of inducing people to think their way will have some accounts to settle when the time comes if they are not on the level. Maybe if each of us was honest with himself everybody would agree to do the thing that is right, and then we would have justice.

In another place in this paper will be found an article headed, "Dr. Benedict Tells Why Men Go Wrong," which is good sound sense and should be read by every father, mother, son and daughter in the land. It is good logic. Thinking of this article, the fact that our own city council has just passed a curfew law, the ordinance being published in this issue of the Enterprise, shows that they were thinking somewhat along the same lines. Recently there has been much loitering on the streets by our young boys and this led, in all probability, the passing of the ordinance, which the Enterprise approves most heartily. Of course there will be some who object, but the few who will not be benefited by the law can abide by it in order to help protect those who do need it and are weak along that line. The Enterprise hopes it will be enforced.

## THE LOCAL PAPER

A prominent magazine, of national importance, delivers the following pertinent lecture which is thoroughly appreciated by all publishers of local newspapers and should be read and considered especially by local business people:

Don't make fun of your local paper. It has possibilities of being as good as any in the country—and remember that it reflects the community in which it is published and is the one product that goes to far places bearing the town trade mark. It deserves the best you can give of active support and sympathetic understanding.

"Give the editor news, whether it benefits you or not."

"Don't ask him to print it on the front page and just the exact way you handed it in."

Don't worry lest the editor makes too much money. If he's prosperous, he'll be foolish enough to give his community a better paper; that's an editor's ambition—that's why he engages in the publicity business.

"Tell him when he has a good paper. You are willing to congratulate your preacher on a good sermon and your merchant on an attractive window display. The editor is no less grateful for a word of praise."

"Make it a point to visit the print shop and learn of its difficulties and complexities. At least that will give a more charitable attitude. The paper should not be the product of the editor solely but of all those who are interested in it as friends, contributors, readers, or advertisers."

—Ex.

## "TEX."

"Ike Dollarhide and the Mrs. arrived o. k. from Ok. Cy. on the 1st inst. & will spend the time between now & Sat. of next wk. with homefolks." We smile sometimes when we see a notice of that kind tucked away between patent medicine advertisements in the local column of the old home paper. But there is some reason for the abbreviations. The large ten-point type calls for short words if the lines are to be justified conveniently, and then the space for live matter is limited in every newspaper, particularly the small one. Then, too, when you are "hand-picking" the type one by one, the line of least resistance is the line of speed. The fewer trips for the flying fingers from case to composing stick, the longer the string of type at closing time and the sooner the week's edition can be put to bed on the press. Abbreviation may be tolerable on a small hand-set newspaper—but what is the excuse for "Tex." as representing the great State of Texas?

The State Highway Commission has apparently come to the conclusion that there is no excuse at all for abbreviating the name of the Lone Star State. At least it has decided that the name shall be

spelled out in full, on the number plates which will decorate Texas-owned and Texas-operated automobiles. The change to "Texas" from "Tex" may be a little one from one standpoint, but from another it isn't. Certainly on number plates which are labels of State supervision and State authority the full title of the State is not out of place.

If Texas were Mokuaweweo or Montecchno di Val di Nievole or Kormoczbanaya or Hennaardsadeel, there might be some call for abbreviation. But the name of Texas couldn't be much of a name and be much shorter than it is. "Tex." isn't an abbreviation, anyhow. It is more of a nickname, like "Mex" and "Jap" and "Wop." It ought to be "Texas" when we mean Texas. It's a good name and a convenient name, and there's room enough for all of it. Let's use it.—Dallas News.

## ADVERTISING

El Paso Times: Newspaper advertising is one of the greatest educational influences in this country today. Everybody with anything which he expects the public to buy can avail himself of it. If you have a good thing which the public ought to want, but doesn't—try newspaper advertising and charge it to operating expenses. It belongs there.

A thing that isn't worth advertising usually isn't worth frivolling one's time away on. Things the people need must be advertised in some manner, if the people use them. But there are hundreds of other things that the people don't know they need that can be brought to the attention of prospective purchasers by advertising. The steady acquisition of new comforts and luxuries is the mainspring of civilization. Advertising makes us conscious of new needs, new needs induce new industries, new industries employ and pay new workmen, and all parties benefit. A social condition comprehending only the simplest necessities would be insufficient to satisfy modern minds. Therefore, one of the most attractive aspects of modernity is the progressive rising to higher and higher levels of living. The clerk of today has in his home more actual physical comforts than Prince Hamlet had in his Danish palace when Shakespeare wrote of him. The provision of such comforts gives employment to countless skilled and unskilled men. Advertising is the strongest influence in making new demands for new articles, therefore advertising is responsible for much that is civilizing and gratifying and comforting to all classes of people everywhere. It is.—Dallas News.

H. B. R. Briggs, editor of the Denver Express, in a talk before the Optimists Club the other day, while claiming some credit for good for the newspapers and admitting certain defects, told his audience that the public was much to blame if the newspaper were not what the people wanted. He said in part:

"Your newspaper is a complex, hybrid sort of animal—a cross between the ordinary business firm and a public utility. As a business it gathers raw materials (sometimes extra raw) and fabricates them into a product. It markets that product. It must, like every other business, keep out of the 'red ink.' It must be a going concern—or it's a gone concern."

"But added to that is its public utility phase. For its true success—to reader and advertiser alike—is not manufacturing, selling and financing. It is—or should be—service."

"For the reader, it takes the place of the old town crier, village gossip and royal proclamation. It is the well-informed acquaintance who tells you what's happened, adds some temperate, well-considered comment, cracks a joke or two, visits with the rest of the family for a few minutes and goes on its way."

"Its relation to the advertiser is again a matter of simple, courteous service. It introduces him to the reader. In effect, it suggests to Mr. Reader that Mr. Advertiser has a business proposition he might like to consider."

"If the newspaper is an honest friend of Mr. Reader, it will not introduce an advertiser it knows or strongly suspects to be crooked. No more than you personally would introduce a crook to a friend."

"This simple introduction is all an advertiser pays for or has a right to expect. The old days of a pair of suspenders with a suit of clothes are gone."

"And the advertiser who seeks to suppress news or have a voice in editorial policy is headed for very definite negative enlightenments—if he tries it with an honest newspaper. Very few do."

"Blame yourself if you don't like the kind of newspaper you have. A city's newspapers are the composite reflections of its citizenship, past history and present development."

"You can have any kind of papers you want. If you prefer seven buckets of blood and a fragrant spray of scandal—why, help yourself!"

"If you want something better, encourage those who are trying to give it to you."

"You are complacent when a newspaper switches its policy, between editions, on some important political or industrial question, but you damn it roundly if it disagrees with you honestly on some such question."

Read the ads in The Enterprise.

## WORLD SERVICE COUNCIL MEETS

The World Service Council of the Y. W. C. A., composed of a group of 145 key women selected from various parts of the United States, will meet during the National Convention of the Young Women's Christian Association at Hot Springs, Ark., April 27th. Mrs. Lewis H. Lapham of New York City is chairman and will preside.

HAY WANTED—Two tons of No. 1 alfalfa hay wanted at once. Do not want damaged hay. State price. Enterprise office.

# Your Ford

Your Ford Is An Economy Car

Have you ever figured what causes your operating cost to be high or low?  
Correct Lubrication is the most important single factor in keeping down the cost of operating your Ford.  
Economy of Repairs, resulting in a direct money-saving and in decreased wear and tear on your car.  
Economy of Gasoline, which keeps down your fuel bill by giving you maximum power from minimum fuel consumption; and  
Economy of Oil, resulting in a direct money-saving and greater protection for your engine.

The consequences of incorrect lubrication in your Ford Car are serious in proportion to the incorrectness of the oil either in body or in lubricating efficiency.  
The cost of one repair bill for burned out bearings, scored cylinder walls, or worn-out piston rings will often more than offset your annual bill for lubrication.  
Experience has proved that over 50 percent of all repairs on the engines of automobiles is caused by incorrect lubrication.  
Common results of using an oil incorrect in body or of low lubricating efficiency are unnecessary repair bills, loss of power, and excess consumption of fuel and lubricating oil—all resulting in shorter life of your car.  
Cargoyl Mobiloil "E" meets the lubricating requirements of the Ford engine with scientific exactness. It is an oil of the highest lubricating efficiency and of the correct body to flow freely to all friction surfaces under all operating conditions.

Everything That Make These Sports a Pleasure and a Science

## CITY PHARMACY

## PRUETT LUMBER CO.

Twenty-five years experience in Pecos should give us an idea about how to supply your wants. We are always on the job. Lumber prices have hit the bottom. Now is the time to get ready for the next oil boom which is expected daily.

ALL KINDS OF BUILDING MATERIALS.

**HERE COMES A STRANGER!**

Let's make our post office look neat. Mr. Postmaster. Straighten up the rural letter box. Mr. Farmer. Tidy up some, Mr. Rural Carrier. First impressions are lasting. Maybe Mr. Stranger, taking notice of these improvements, will come back, bringing you benefits. Start these with "POSTAL IMPROVEMENT WEEK" May 1-4.

Read The Enterprise ads.

**NOTICE!**

After our present supply of S. & H. Green Trading Stamps is exhausted we will discontinue giving them away, which will be about May 1st, 1922.

Pecos Mercantile Co.

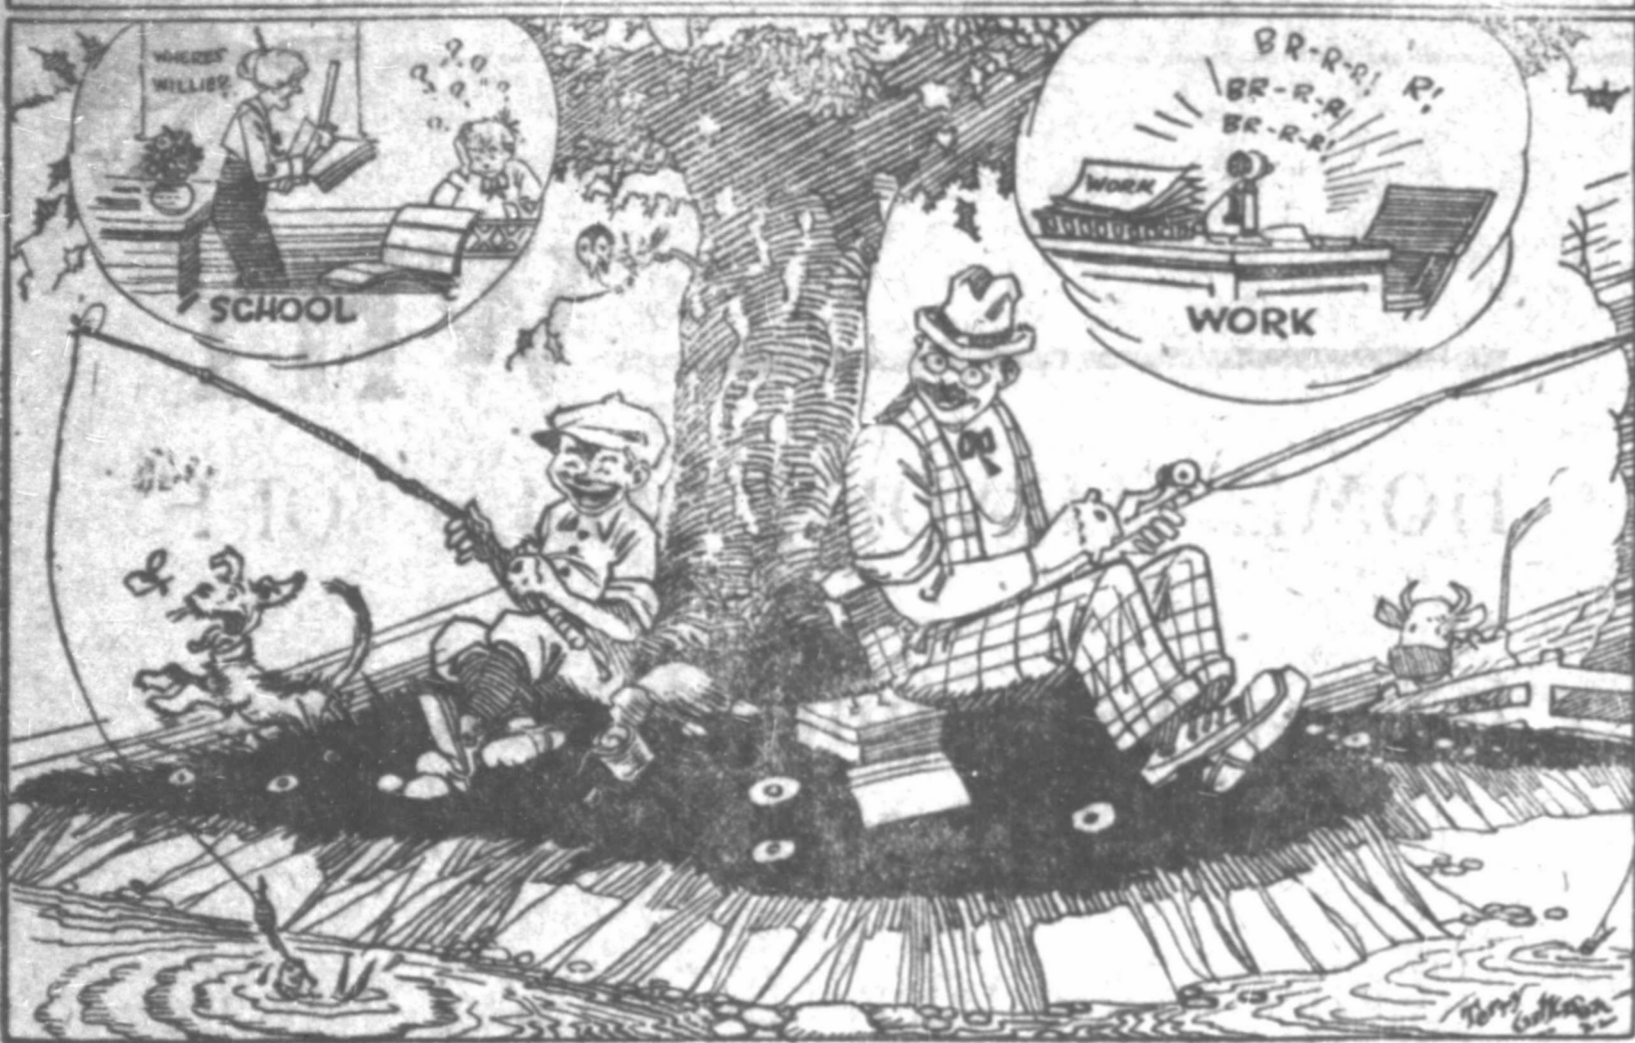

## Sure-Bearing Fruit Trees and Hardy Shrubs and Evergreens

We have been collecting them for forty-seven years. We think we have the best for each section, for both small and large orchards. The cold and rains make planting safe till middle of April. Extremely few trees have been planted for market for many years. Prices of fruit will stay up. Good times are coming. Get big prices instead of paying them.  
We will exchange trees for market orchards for land. A bargain could be good enough for us to plant and guarantee. Fine trees; best varieties. Catalog. We pay express.

## THE AUSTIN NURSERY

F. T. RAMSEY & SON, Austin, Texas.

### Like Father, Like Son

### CANYON NORMAL STUDENTS CURE "LUMPY JAW"

There is not much of the disease known as "lumpy jaw" in this section of the country but the few cases which do appear should be cured at once and the students of the Canyon Normal claim to have found a cure for same and the following sent out from that school as the remedy may be taken for what it is worth and may be the means of some of our people saving a fine cow at some time. The article in the daily press is as follows:

Three cases of actinomycosis, commonly known as "lumpy jaw" were found recently in the normal dairy herd. This disease is considered by many farmers to be incurable, but the class in livestock disease undertook the treatment of the cases and secured complete cure in each instance.

Treatment used was potassium iodide in two dram doses daily for three weeks, followed by a rest of a few days and the treatment repeated.

These cows would certainly have died with this disease if the proper treatment had not been given them. Some of the tumors were removed by surgical operation, but the disease in the system was destroyed by the medical treatment.

This class has done interesting work this year in the treatment of milk fever, caked udders, tuberculosis tests, castration, ruptures and numerous diseases. The purpose of the class is not to produce veterinarians, but to teach the farmer how to prevent and treat diseases common to farm animals.

### ASKED DISARMAMENT AT GENOA

This is the man who upset harmony at Genoa. It is George Tchitcherin, the Russian Foreign Minister who headed the Soviet delegation to the conference. He announced the signing of a treaty between Germany and Russia and also asked disarmament in Europe.

**CELEBRATES BIRTHDAY**  
Mr. I. E. Williams celebrated his 85th birthday at his home Easter Sunday. Mr. Williams is one of Reeves county's oldest as well as one of its best believers in its future.

This being Mr. Willie Hofe's birthday also the two gentlemen celebrated together.

Grandmother Williams certainly did justice to the occasion with such a nice dinner. The table was loaded with all kinds of good eats to satisfy both old and young.

Despite his years, Mr. Williams was as one of the youngest.

After this wonderful feast the little great-grandsons of Mr. and Mrs. Williams went to the home of their forefather and grandmother with a goodly number of their little friends and enjoyed an Easter egg hunt.

ONE OF THE GUESTS.

**IT PAYS TO ADVERTISE**  
In The Pecos Enterprise. Rates 40 cents an inch or 10 cents a line for readers.

### MINNESOTA WOMAN IN RACE FOR SENATE

Mrs. Peter Olesen, of Minnesota, proposes to give U. S. Senator Kjellog, Republican, a hot fight for his seat in the coming fall elections. She has the endorsement of the Democrats and also a large independent following.

### The Passing of Joe P. Seay, Pioneer

Mr. Joe P. Seay, a pioneer of this section, who had been at Long Beach, California for some weeks seeking restoration to health passed away on last Friday, April 21, at that place. The body was brought here for burial Wednesday.

Mr. Seay was within seven days of sixty-eight years of age, having been born in Taladega Co., Ala., April 28, 1854.

He came to this county forty years ago and became active in the cattle business where he was well and favorably known.

The esteem in which he was held was attested by the host that attended his funeral despite the down-pour of rain. One has hardly seen such an aggregation of old-timers in a long time.

The funeral was conducted by Rev. L. L. Thurston, pastor of the Methodist Church, from the residence of Mrs. W. L. Ross, and interment followed at Evergreen cemetery.

Mr. Seay leaves a wife, daughter, two sons, eight grandchildren and two brothers.

The Enterprise joins in extending sympathy to the bereaved.

In the announcement column will be found the name of Harry MacTier as a candidate for county attorney of Reeves county, subject to the action of the democratic primaries. Judge MacTier has been a resident of Reeves county so long that he does not need an introduction to our people. He is aggressive, attends to business, and will make a splendid attorney if the people see fit to place him in that responsible position. He solicits your vote and influence in the coming election.

### PARCEL POST SALE

The Methodist ladies will hold a parcel post and candy sale at the Pecos Auto Co. Monday evening beginning at eight o'clock. The public is cordially invited to come and patronize this sale. You are sure to get your money's worth in each package at the price of thirty-five cents.

### NOTICE!

After our present supply of S. & H. Green Trading Stamps is exhausted we will discontinue giving them away, which will be about May 1st, 1922.

Pecos Mercantile Co.

### TOYAH BELL

A new calf wheel is being installed at the Toyah Bell well this week, the material being trucked from Pecos county with considerable difficulty as a result of the storm condition.

### CARD OF THANKS

We wish to express our heartfelt thanks to the people of this section for the many acts of kindness to our loved one during his illness and for the beautiful floral offerings following his death. For the words of tender sympathy to us we are truly grateful, and while the hour is dark, we cannot fail to appreciate the sunlight that comes from the presence of tender, sympathizing friends. May God bless each and every one of us in our wish.

MRS. J. P. SEAY and FAMILY.

### CATTLE MOVEMENTS

H. F. Anthony has closed deals for over one hundred thousand dollars' worth of three and four year old steers within the last week. 1,000 of these were bred and raised by James Brothers at Carlsbad, New Mexico. The balance were raised in the Pecos territory and all are to be shipped to Kansas grass. These deals top everything negotiated here in many years. Mr. Anthony has just returned from the Carlsbad field and reports a superabundance of rain in that country. Cattle are doing fine and the cowmen are wearing a broad smile.

### NOTICE TO DOG OWNERS.

This is to notify the public that all ordinances now in a force with reference to dogs will be strictly enforced hereafter and you are hereby warned to comply therewith. First, all who have dogs within the City of Pecos must call and pay taxes on same. Second, all dogs running at large must wear muzzles. All who fail to comply with the requirements of these ordinances are subject to fines and in case of failure to comply will be prosecuted.

L. M. RODDY, City Marshal.

### "MORE BUSINESS IN GOVERNMENT"

This apt phrase was used in President Harding's first message to Congress and applies particularly in postal management where postmasters are being impressed with the fact that they are managers of local branches of the biggest business in the world.

### NOTICE!

After our present supply of S. & H. Green Trading Stamps is exhausted we will discontinue giving them away, which will be about May 1st, 1922.

Pecos Mercantile Co.

### CHURCH BASEBALL LEAGUE TO PLAY AGAIN THIS YEAR

The church baseball league will play a schedule again this year. This has been decided and the Methodists are the first to organize, and the first game may be played next Tuesday evening at 8 o'clock if opponents get a team in shape in time. The Methodists have named Mill Wadley, captain; Monroe Kerr as manager, and O. T. Norwood as their representative on the executive committee. Other members of the executive committee are Charles Manahan for the Christians and H. H. Johnson for the Baptists.

It is proposed to play a twilight schedule such as was done last year, and games will be played, probably on Tuesday and Thursday evenings, although these dates have not been definitely set.

Much interest was evidenced in these games last year, and large crowds witnessed the contests, and interest was intensified late in the season when all three teams were tied for the final rounds.

### AT THE METHODIST CHURCH

Next Sunday will be another high day at the Methodist church. It is "Sunday School Day," formerly called "Children's Day." There is suitable program arranged and all are invited to attend.

The subject of the morning sermon is suitable to the occasion: Jesus Bless Little Children.

In the evening the subject is "Hope For The Most Miserable."

It is a source of comfort to have the large audiences that greet me at the services and I ask the prayer of those who pray that God may be revealed in all.

### TOYAH SCHOOL BOARD ELECTS FACULTY

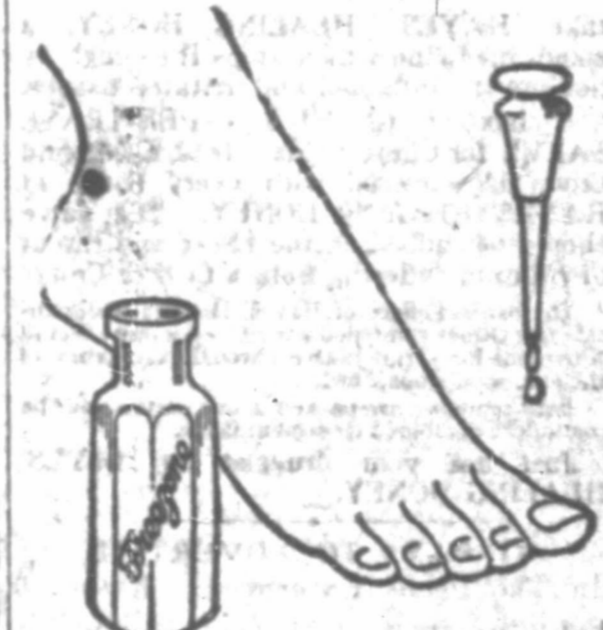

At a recent meeting of the Toyah school board the entire faculty of that school was reelected for another term. Professor A. H. Smith was reelected as superintendent, which position he has held for the past two terms at least. He has made a splendid record of which he and his board are proud and his retention is looked upon as favoring the continuation of the splendid school Toyah has enjoyed for the past few years.

The Gusher failed to gush last week and the Enterprise has been asked if it was being cemented off. The Enterprise cannot answer this question but supposes it will appear again, at intervals, as heretofore.

If you are run down, discouraged and out of heart, get a bottle of Tanlac and see how different it makes you feel. Sold by Pecos Drug Co. (Advertisement)

### LIFT OFF CORNS!

Apply few drops then lift sore, touchy corns off with fingers

Doesn't hurt a bit! Drop a little Frezzone on an itching corn, instantly that corn goes hurting, then you lift it right out. Yes, magic!

A tiny bottle of Frezzone costs but a few cents at any drug store, but is sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Frezzone is the sensational discovery of a Cincinnati genius. It is wonderful. (Advertisement)

The Mental and Physical Comfort of Your Family Depends Upon Its Eyes.

This is, not only often the case with adults, but very frequently the children suffer, not knowing that the source of the entire trouble comes from some defect in vision which may readily be relieved through proper examination and the providing of proper glasses.

But care should be taken that the examination IS properly made and PROPER glasses provided. Much more is involved in the proper fitting of glasses than the simple act of getting lenses that seem to correct the errors of vision.

Experience and Scientific research have been our educators in this line and we are well equipped to render best of service.

THE EYE—the most delicate organ of the body, will, if it is not normal, give rise to baffling mental unrest which sometimes approaches and even superinduces acute physical disorder.

## THE CHURCH CHEAT

Church support is an obligation. Church attendance is a duty. Worship is absolutely essential. And every honest man and woman discharges these duties and obligations every week. Contributions of time, talent, thought, and interest are demanded. It is an honor to give. It is an honor, privilege, and duty to give. We are God's stewards. All we have has been entrusted to us. It is our duty to support the church. The Christian church has created and added fifty cents of every dollar's worth of property in America.

Every time one goes to church he should make an honest, conscientious contribution to the great work of the church. When the collection plate reaches one his honor, sincerity, integrity, and character are immediately tested and when he, because he imagines no eye sees him, puts upon the plate pennies when he ought to put pounds brands himself before God and the Bar of God as a thief. He is perfectly willing to pay any extravagant sum to go to a filthy theatre, questionable show, or suggestive screen production, and then go into the

House of God and lay upon the plate pennies. He owes God everything.

The average churchgoer today is a church cheat, robbing God, searing his conscience, and leaving unpaid his honest obligations. The spirit of cheating soon fastens itself upon some men, and they become so dishonest that they actually stay away from church in order to avoid the test to which their characters will be put. The average churchgoer in America gives three cents per Sunday for the greatest blessing ever bestowed upon mankind. Therefore, the average church cheat will have to face the Bar of Judgment and be branded as a church fraud robbing God, depriving the church of her dues, and preventing the spread of the gospel and the blessings of salvation to thousands.

B. W. BAKER.

To the Voters of the 70th Judicial district:

I desire to announce my candidacy for a second term as District Attorney, subject of course, to the action of the Democratic primaries of this year.

I have been a resident of this judicial district for the last eight years, actively engaged in the practice of my profession. I have come to know the sterling worth of the splendid people of my adopted section of the State, and know their love of the right, and as a people ever looking onward towards the best interests of their community and good government, and as a people interested in choosing for their officers those best fitted by temperament and training to render efficient service. I submit my candidacy for your consideration on the sole issue that the man best qualified to render service should be elected, and now express my abiding faith in your ability and in your honesty of purpose in so choosing.

It becomes the duty of that one who serves you in this position to represent the State of Texas in your courts of justice in all criminal cases where the offense is of the grade of felony. Naturally, when a man is charged by bill of indictment with such an offense where the sacrifice of his life or liberty is the penalty in the event of a conviction, he seeks the service of the best criminal lawyer at his command that he may be ably represented, for which he cannot be blamed; and unless the district attorney is able and experienced in the presentation of both the law and facts there is a certainty of a miscarriage of justice, for it devolves upon him alone then to uphold the cause of the State. Even though the district judge trying the case should see such a miscarriage eminent, he is powerless to speak for the State, for an undue interference on his part during the trial would result in a reversal of the case in the appellate court.

During the year and a half that I have been district attorney I have met in the trial of cases such attorneys as Jim Cunningham, John Howard, Tom Garrard, Ben Palmer, L. A. Dale, Dan Jackson, John Dyer, Judge Harper, and others of the best talent of this section; and I believe that all who have seen me in action against them will bear me witness that I fought aggressively for the interest of the prosecution, and with some degree of intelligence.

The training of a life time, and the influence of home and school have instilled in me a high sense of fealty to a constituency showing one political preference and a fidelity to the official oath. Since my incumbency I have attempted to let nothing interfere with the discharge of duty. I appreciate a friend as

much as any living man and am subject to the ties incident to a warm friendship as much as anyone, but I think that I am able to say that even though I have been confronted with a situation like this it has not swerved me from a course I conceived to be right in the discharge of official duty. I am not insensible to the past political preference you have shown me, and whether or not you continue me in office, I will ever be profoundly grateful for that preference, and now express my readiness and anxiety to publicly render an account of my stewardship, while I ask of you additional favors.

I believe in the enforcement of the law as it is written, and that the government and its institutions will endure on the rock of law enforcement alone; and that the holding of any one law lightly imperils all law to an extent that finally law enforcement as a whole is completely undermined. If our ship of state is ever to sink, lawlessness will cause the storm which wrecks it.

Many people are demanding, and I think rightly so, expressions from those seeking their suffrage as to the operations of the organization known as the Ku Klux Klan. Certainly they have the right to such expressions from those seeking positions as prosecuting attorneys. The very foundation of our institutions, of civilization and of the government itself rest solidly upon the law. The main bulwark of our liberties is found in the provisions of the law for a fair and impartial trial by a jury of one's peers with the opportunity to be heard and confronted with the witnesses against one. This organization would try and convict one in his absence and take it into its own hands to administer a prescribed punishment under the cloak of a mask and ghostly sheet, thus violating this fundamental principle which has come down to us through all the years. The conclusion is sure that its existence is inimical to our institutions and tends to destroy those things which make a government. There is no excuse for an organization of men binding themselves together with a secret oath and meeting in the darkness of night, in disguise, refusing to admit their connection with their order, or to come out into the open. Just now when the world is torn with dissension and when religious tolerance seems to have evaded many of the best of men, its existence is doubly dangerous because of where it might lead; and it is well that we should, at every opportunity, decry its existence. Even the Ku Klux-ism existing in the world 1900 years ago, which terribly tortured the One Perfect Man of all ages in whom Pontius Pilate "found no fault," was superior to that existing today, for it at least used no disguise in its terrible work.

Necessarily, because of the space permitted me, these remarks are merely conspectus; but I affirm my belief in the principles announced. Mistakes in life I have made, to be sure, and for them I am truly sorry, but my face is turned towards the bright light on the far-flung sky line that all of us are striving and struggling to overtake, for we have heard that its glow will heal every heartache. That light is ambition which leads us ever on.

Very respectfully,  
B. W. BAKER.

### MAKING HIM TOOT

"Willie!"  
"Yes, mamma."  
"What in the world are you pinching the baby for? Let him alone!"  
"Aw, I ain't doin' nothin'! We're only playin' automobile, an he's th' horn."—Louisville Courier Journal.

### IF YOU CAN'T FIND A JOB, CREATE ONE

Panics and crises have started more men on the road to financial independence than all the prosperous times ever will. Most of the successful men of today trace the beginning of their present success to some panic or business depression that threw them out of that much a week, easy going little job, otherwise called rut.

Robinson Crusoe, thrown on a desert island without so much as a pocket knife with which to dig roots, managed to live and be happy. Nothing helps to make a man better than hardships and obstacles.

Steady, easy jobs are responsible for 99 per cent of failures in life. History teaches us that continued prosperity caused the downfall of Greece, Egypt, Babylon, and many other great nations. If you cannot be a worker, why not be a boss. Don't ask me how; there is a way. All successful men have found it and you will find it, too; if you only look for it hard enough. But you have to use your head and that other key to success called "Will Power."

During the panic of 1900, a certain foreigner, out of a job, found himself with only a nickel in his pocket. He had no training, couldn't speak English and had no friends. He used the nickel to buy a sack of peanuts for what he thought would be his last meal.

Before opening the sack he had an idea.

He asked the peanut vendor for an empty sack. He divided that one sack into two. He stood at the entrance of an elevated train hollering "fresh roasted peanuts." In a few minutes he had sold the two sacks. He repeated the game several times and before the day was over he had enough to buy a good supper and a little money left with which he bought a small basket of fruit the next day. This foreigner is a prosperous merchant today.

This is a true story and only one of thousands of similar stories of successful men. "Where there is a will there is a way." If you can't find a job, create one and don't be an owl on a dry twig, looking backward.—Everybody's Business Digest.

### 1922 MODEL OF TWENTY-THIRD PSALM

Harding is my shepherd and I am in want.

He maketh me lie down on the park benches.

He leadeth me by the free soup houses.

He restoreth my doubt in the republican party.

He leadeth me in the path of destruction for his party's sake.

Yes, though I walk through the valley of the shadows of starvation, I do not fear evil for thou art against the policies and the profiteers, they frighten me.

Thou preparest a reduction in wages before me in the presence of mine enemies.

Thou anointest my income with taxes, my expense runneth over my income.

Purely poverty and unemployment will follow me all the days of this normalcy administration and I will dwell in a rented house forever. Amen.—Anonymous. (From Sumter (Alabama) Country Journal.)

### To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues.

A box of GROVE'S O-PENTRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup.

The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pentrate Salve through the pores of the skin soon stops a cough.

Each remedy is packed in one carton and the cost of the combined treatment is 50c.

Just ask your druggist for HAYES' HEALING HONEY.

# WHY

## HOME TRADE FALLS OFF

### It Always Slumps When Business Is Unbusinesslike

Most business men have this failing—they are swept off their feet when business booms.

We hit prosperity. Then starts the trouble. Everybody buys everything in sight and the merchants are caught in their own trap. They start advertising to beat the band. A riot of selling follows, the merchants OVER ADVERTISE and OVERSELL THE MARKET. Demand for goods keeps up and then comes the trip to the bank to borrow—for expansion. Then What? shortage and rising prices—a riot of buying before prices tilt to the top and a wild spree of advertising to keep the game going.

Suddenly there comes a halt. Buying slows up, and timid unbusinesslike merchants curtail advertising and the buying halt continues. Then advertising is stopped and business becomes stagnant.

When trade needs no stimulus the merchants buy space like drunken sailors, but when trade needs a strong push, they contract.

If business spent one-third the money in advertising when trade is booming and three times the money when trade is poor, business would find stability.

### Now is the Time to Advertise Extensively

Don't throw chips on a blazing fire. The wood is needed when the fire is low. Advertising now means a real service to the buying public. The people want to know where and what they can buy economically.

Merchants Get Busy.  
Make Your Drive Now

**FINANCIAL REVIEW**

Prepared For The Enterprise By  
The First National Bank in  
St. Louis.

Steel prices have been advancing throughout the past week, all of the independent companies having raised quotations on wire product \$2.00 per ton. Plain wire and fence prices are still unchanged but light rails and skip have advanced to \$1.50 per pound, Pittsburgh, while hot and cold rolled strip steel has stiffened to 2 and 3.65 cents per pound, base Pittsburgh. Some mills have advanced prices on shapes, plates and bars to 1.60 cents, but the general market is still \$1.50 Pittsburgh.

The Inland Steel Company advanced bars and shapes \$2.00 per ton to 1.70 cents and plates \$4.00 per ton to 1.80 cents, Chicago. Most of the mills have advanced railroad spikes from 2 to 2.25 cents, wire rods were advanced from \$36.00 to \$38.00 by the independents. The new high price level of blue annealed sheets is now established at \$2.40 and high pressure pipe has advanced \$1.50 per ton to \$34.50 per ton base, gas pipe is quoted \$3, 4-inch sizes \$4, and 3-inch, \$10 per ton above base. The composite price of finished steel products now stands at 2.122 cents per pound as against 2.104 cents last week.

Pig iron prices are advancing all around, and many of the leading interests have withdrawn from the market entirely, because of the growing scarcity and increased prices of coke. The composite price of pig iron this week stands at \$19.588 a ton which compares with \$18.928 a ton a week ago.

Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid.

**CITATION BY PUBLICATION.**

The State of Texas,  
To the Sheriff or any Constable of Reeves County,—Greeting:

You are hereby commanded to cause to be published once each week for a period of ten days, before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Reeves county, a copy of the following notice:

The State of Texas.  
To all persons interested in the Estate of Lizzie Singleton, deceased, R. L. Singleton has filed in the County Court of Reeves County, an application for the Probate of the last Will and Testament of said Lizzie Singleton, deceased, filed with said application, and for letters testamentary which will be heard at the next term of said court, commencing on the 2nd Monday in July A. D. 1922, the same being the 10th day of July A. D. 1922, at the Court House, thereof, in Pecos, Texas, at which time all persons interested in said Estate may appear and contest said application, should they desire to do so.  
Herein Fail Not, but have you before said court on the said first day of the next term thereof this writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Pecos, Texas, this 10th day of March, 1922.

S. C. VAUGHAN,  
Clerk County Court Reeves County, Texas.  
By H. P. KERR, Deputy.

**CURFEW ORDINANCE.**  
An ordinance to prohibit all persons under the age of eighteen years from appearing or loitering on the streets of the town of Pecos City, Texas, after nine-thirty o'clock p. m., and fixing and prescribing penalties for, the violation of the same.

Be it ordained by the City Council of the town of Pecos City, Texas:  
Section 1. That hereafter it shall be unlawful for any person under the age of eighteen years to be upon the streets of the Town of Pecos City, Texas, after nine-thirty o'clock p. m., and before six o'clock a. m., unless accompanied by one of their parents or by some adult person, and under the care and charge thereof, or unless actually sent upon some errand of necessity by a parent or guardian or person standing in the place of parent or guardian.

Section 2. Any person violating the provisions of the above and foregoing article shall be deemed guilty of a misdemeanor and shall be fined in any sum not less than one dollar nor more than ten dollars; and it shall be the duty of the city marshal, night-watchman, and all City Policemen to keep all children under the age of eighteen years off of the streets after nine-thirty o'clock p. m. and if necessary, arrest all violators of this ordinance and confine them in the City Jail, until a trial may be had, or may take bond for their appearance before the recorder's court.

Section 3. It shall be the duty of the City Marshal or some person acting under his authority and by his instructions to toll the fire-bell slowly at nine-thirty o'clock p. m. every night, and upon the tolling of said bell it shall be the duty of all persons under the age of eighteen years to immediately go to their respective places of abode and remain there until six o'clock the next morning.

Section 4. Nothing in this ordinance shall be so construed as to punish any person for being upon the streets after nine-thirty o'clock p. m. while going to or returning from church, nor while going to or returning from any show, theatre or circus, party or any other place of innocent amusement provided that they go and come promptly and not loiter upon the way, either going or coming, and provided they do not yell, shriek or engage in loud, boisterous or vociferous language while going or coming, but shall go to such places and return therefrom in a quiet peaceable and orderly manner and without delay.

Passed by the City Council, April 11, 1922.

Approved, April 22, 1922.  
BEN PALMER,  
Mayor of the Town of Pecos City, Texas.

Attest:  
E. EASTERBROOK,  
City Secretary of the Town of Pecos City, Texas.

**GALOMEL GOOD BUT AWFUL TREACHEROUS**

NEXT DOSE MAY SALIVATE, SHOCK LIVER OR ATTACK YOUR BONES

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salts necessary. Give it to the children because it is perfectly harmless and can not salivate.

THE PECOS ENTERPRISE

PERSONAL

J. G. Love of the Pecos Valley Bank, was a business visitor in El Paso the forepart of the week.

Mrs. Ira Jackson of Van Horn was in Pecos this week in attendance upon the funeral of Joe Seay.

Mrs. Frank J. Billingslea was over from Toyah to attend the funeral of Joe P. Seay.

Mr. and Mrs. L. M. Lawson have moved into the home of Mrs. S. C. Muck where they are now comfortably settled.

Mrs. Arch W. Beil is home again from Fort Worth where she spent several months and is now living out at the well with Arch who is busy keeping things going at the Los Pecos well.

Mr. and Mrs. J. B. Sullivan went to El Paso the latter part of last week where Mr. Sullivan was to undergo an operation. The Enterprise has not learned whether or not the operation was performed.

Mrs. Joe P. Seay and son, James, E., who came here from California with the body of her husband, will remain in Pecos and make their home here while looking after the affairs of the late J. P. Seay, deceased.

J. S. Haden of Plainview was in Pecos Monday, on business. Mr. Haden has holdings in the Pecos oil field, and was well pleased with the prospect here. While in Pecos he called at The Enterprise office and advanced his subscription for another six months.

Miss Jessie Seay will leave today for Los Angeles, California, where she will resume her studies in school. Miss Jessie will graduate at this term. She is a splendid young lady and all Pecos will rejoice to know that she is to graduate and thereafter will return to Pecos to make her home.

Among the old-timers to be here for the last sad rites of the late Joe P. Seay were the Kinkston's from the Davis Mountains. Uncle Bill Kinkston and family together with his sons came down to pay their respects to the venerable old veteran who helped to pave the way for the younger generation.

The Enterprise is informed that J. P. Reynolds of Toyah handled the underwriting job on the Willoughby No. 1, and that he did a most excellent job. Mr. Willoughby, through The Enterprise, wishes to state that he is a splendid workman and that his services on this job was and is greatly appreciated.

Among those from Toyah attending the funeral of Joe P. Seay this week were noticed the following: H. K. Jones, A. J. Hart, Tom Hart, Finley Holmes and family, Geo. W. Dabney and family, Tom Henderson, John Quincey Adams, Mr. and Mrs. Albert Tinnin, Prof. and Mrs. Smith E. B. Daniels. There were many others whom the Enterprise did not meet.

Mr. and Mrs. J. K. Davis now of Mineral Wells, are the happy parents of a fine six pound daughter, born to them on last Sunday, the 23rd instant. Mrs. Davis was formerly Miss Julia Pagett and is well known in Pecos and over Reeves county. The Enterprise extends congratulations and hopes the young Miss may grow to womanhood and ever be a joy and comfort to her fond parents.

The Gail, Borden county, newspaper, edited by W. V. Ervin who some years ago worked on the Enterprise, has the following item which is of local interest: W. D. Johnson of Kansas City and A. M. Clayton of Borden county closed a deal this week whereby they become owners of what is known as the Godwin ranch. This ranch consists of 32 sections of owned land and is one of the most desirable ranches in Borden county.

HEAVY RAINS CAUSE WASHOUTS WHICH STOP TRAINS

One and three quarters inches of rainfall fell in the territory west of the Pecos River during the past week, supplying moisture to the dry ranges and insuring a fine crop of grass for the cattle.

The rain east of the river was much heavier, and especially so from Big Spring east, and all railroad traffic east of Midland has been cut off since Tuesday.

Local trains are running from El Paso to Midland, through Pecos, and passengers are transferred to the Santa Fe at Pecos or the Southern Pacific at Sierra Blanca. There has been no mail from the east since Monday afternoon, but it is understood that the first batch of westbound mail will arrive today, (Friday) noon over the Santa Fe detour.

Floods in the territory between Big Spring and Dallas cut off that territory from communication by wire or rail with the outside world for several days, and it is understood that thirteen wash-outs occurred along the 250 miles of track of the Texas & Pacific. Local railroad officials state that it may be early in the next week before through railroad traffic is established.

The gauge of the Experiment farm four miles west of Pecos showed a rainfall for the week of 1.77 inches. The heaviest being Tuesday night and Wednesday when .68 inches fell.

The fall east of the river was reported to be much heavier, and at Big Spring several times that amount fell. The streets were running in water and the Dispatcher's office and the restaurant, and depot of the T. & P. was reported as standing from one to two feet in water.

Reports from all the ranches indicate that the entire country received a good soaking rain, although the fall was lighter to the west. The New Mexico territory got good rains, and the Pecos River has risen and fallen several times during the week, but at no time has reached a flood stage.

"DIXIE" PLAYED BY 1,500 MUSICIANS

From The Pecos Enterprise: The stirring strains of "Dixie" should be heard for miles when the massed bands which are to assemble at Dallas during Durbar Week play that favorite air in the evening in front of the Grand Stand at Fair Park, on the opening night of the festival, Monday, May 22.

It is stated that at least fifty bands will enter the championship contest in the afternoon and all of them will play in the night concert. As the average number of men in each band will be 30, it is assumed that at least 1,500 musicians will participate—the largest number of instrumentalists ever brought together in the Southwest, it is claimed.

The afternoon championship contest is attracting much attention. The prizes are said to range from a silver trophy and \$400 in cash for the top prize down to \$25.00 for the lowest prize in the easiest class. The premium list totals over \$1,750.

NOTICE!

After our present supply of S. & H. Green Trading Stamps is exhausted we will discontinue giving them away, which will be about May 1st, 1922.

Dr. Benedict Tells Why Men Go Wrong

"Nine ways young men go wrong was the subject of a lecture at the Young Men's Christian Association by Dr. E. L. Benedict of Tacoma, Washington, recently in Dallas so says the Dallas News.

The nine ways to hell enumerated by the speaker says the News were parental indulgence, broken homes, nagging parents, cigarette smoking, dancing, idleness, love of adventures, gambling and the improper use of automobiles. "A man at 25 who is not a Christian is almost a hopeless case," said the speaker. "At 25 the dead line has been crossed, the destiny is determined, nothing but a miracle of grace turn one in his course to ruin. My remarks are therefore addressed to the young, and I propose to point out to them some of the ways to avoid before the character is cast in its permanent mold.

Indulgent Parents. "Nowadays parents are too indulgent to punish their children when they go wrong. There is no discipline in the home. Children go and come without regard or respect for their parents. Once the family robs together, eat breakfast together and in the evening sit around the hearthstone and enjoyed each other's society. Then it was truly, 'God bless our home.' Now the motto should be revised to read, 'God bless the place where we have nothing worth while to do.'

"My father was a kindly man, but when I refused to share in the life of the household I was sent to cut a willow gad from the tree behind the house. My father, after removing my coat, would play a tune on my back with the gad, while I did the dancing. I got such a bad start at dancing that I have never cared for that pastime.

"Another thing that sends the boys to hell is the homes that have been broken up and the children seduced, leaving the Y. M. C. A. and the Boys' Club to be godfather and try to take the place of the home that does not exist. The infamous scoundrels that break up homes should be dealt with severely. There is no other effective punishment, then I say let them get the good old-fashioned whipping-post treatment.

Condemns Cigarettes.

"Nagging parents are sending their boys to hell. No boy can be brought up on a diet of 'don'ts.' The Y. M. C. A. is not the unit of society, neither is the school, nor the church, even; the home is the unit upon which the moral structure of the world depends, and it must be a constructive place. The moral apartment houses that are built, the less real homes there will be.

"Any student will tell you that there is a close relation between cigarettes and liquor drinking and crime.

"They tell me there are a good many idle men walking the streets of Dallas, but I will tell you that some of them are not fit to hold a job if one should present itself. I have recently been in a city where an investigation of the charity cases revealed that there was not one single Christian among them.

"The love of adventure, which is natural in the young, when led on by the sensational movie, the yellow novel and press, will lead to destruction. Dallas should make an effort to clarify the movie situation, so that wholesome films shall be shown.

"The love of getting something for nothing leads to gambling of all kinds. If I had a daughter, I would let her marry a drunkard before I would let her marry a gambler. At Monte Carlo they have the beautiful gambling palace, and outside they have a convenient place for the gamblers to jump off the cliff and a special cemetery to bury them in.

"Automobiles are wonderful instruments of progress. We could not do without them, but I am in favor of their being kept away from the hands of the boys and girls.

"There is a way out of all these roads to hell and that is the way of Jesus. He who has his life in

Jesus' keeping will not go astray on the roads to hell."

Tanite is a wonderful, reconstructive, systemic and stomachic tonic. It tones up the system, restores lost appetite and makes you feel strong, sturdy and well, as nature intended. Pecos Drug Co.

Citizens' Training Camp Blanks At American Legion

Last year several of our boys attended the Citizens' Military Training Camp at San Antonio and were well pleased with the work and the results obtained. It is a fine training and done by the government and well worth the time and the little money expended. The Government furnishes transportation and pays all expenses, however, that are necessary. Those of our boys who wish to take this training this year can get full particulars as to steps to take and also application blanks by making application to the American Legion at Pecos.

TOLL LINE COMPLETED

The Pecos & Northwestern Telephone Company have the best interests of this section at heart all the while and spare no means, time or energy in making it all that it should be in point of service and convenience to the public. They announce the completion last week of the long distance toll line through Balmorhea to Fort Davis, Marfa, Alpine, etc., which gives a direct connection and will give the very best service possible.

Since taking charge of the telephone line here, the Messrs. Sparks have greatly improved the same and given very satisfactory service, and all that in face of the fact that they have been handicapped by high wages, running expenses, etc., and a very negligible raise in rates.

B. W. Baker announces for reelection this week to the office of district attorney, subject to the action of the democratic primaries. He is now holding this office under appointment, filling the unexpired term of Tom Garrard. Mr. Baker has a card to the voters in this issue of the Enterprise in which he places his claims before the people in a lucid way and asks for your support and influence.

The Quinine That Does Not Affect the Head Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, INC.
