CANDIDATES HAVE NEW THRILL--MEET MANY LADY VOTERS

The voters of Reeves county had an opportunity at the picnic and barbecue Thursday to see and hear the various candidates present their claims for the respective offices for which they were running. It was a unique occasion in the politics of Reeves county, and possibly, to some extent at least, brought about by the recent Woman's Suffrage Act. It is rather a hard matter for candidates to canvass all the lady voters, but by this method they were enabled to present themselves to this body of voters, who appreciated the opportunity, as ladies generally like to first see the candidates before making their selection.

The speakers were introduced by Attorney J. A. Drane, who acted as chairman of the meeting. A number of candidates were not present on account of pressing business out of the county, among whom were Judge Chas. Gibbs, candidate for district judge, who was engaged in court at Barstow and in the trial of an important case; Birge Holt, for district attorney, engaged with the grand jury at Barstow; B. W. Baker, who was absent in east Texas at the bedside of his mother who was dangerously ill; Tom Garrard, candidate for district judge, who was engaged in the trial of a case at San Angelo, Texas; E. B. Kiser, Sheriff, before the grand jury at Barstow.

Hon. W. W. Stewart, of Balmorhea, candidate to succeed himself as Representative in the State Legislature, opened the speaking. Mr. Stewart gave an able presentation of his stewardship as our representative, and dwelt at length upon the many important laws which he has been instrumental in having passed by the Legislature affecting West Texas and particularly our portion of the State, dwelling upon the different irrigation acts, the change in the minerals rights of State lands, all of which he has been instrumental in having passed, and also the present interest to create a State Park in the Davis Mountains. He promised, if re-elected, to continue his vigor in having passed laws beneficial to the district which he represents.

Hon. Leigh Clark, present district attorney of El Paso county, and candidate for Associate Judge of the Court of Civil Appeals at El Paso, was present and made a high class speech. He said that ethics prohibited him from going into a detailed political discussion of the reasons why he should be elected to the high position which he sought. Judge Clark said he was always glad of an opportunity to come to Pecos and speak to the people of this community, and in his address, paid an eloquent tribute to women.

Hon. W. A. Hudson, candidate for district judge, made a strong and interesting appeal to the voters and called attention to the fact that Reeves county had never yet elected a district judge, but that they had always been elected from Midland county. He showed the voters that they now had an opportunity to obtain this honor and asked for the solid support of Reeves and Loving counties.

T. F. Slack, of Pecos, candidate for district attorney, made a very humorous speech and said he had quit selling oil stock a long time ago, and gave many reasons why he should be elected district attorney.

B. Frank Haig, of Midland, also candidate for district attorney, and introduced as the handsomest candidate, said he was not running on his looks; but upon his past record as an attorney and county attorney of Midland county, and his ability to fulfill the duties of the office of district attorney. Both Mr. Haig's and Mr. Slack's speeches were well received by the audience.

Roy I. Biggs and Harry MacTear, candidates for county attorney, both presented their claims for the office and promised faithful service if elected.

Hon. Henry Webb, of Odessa, candidate for the Legislature arrived on the one o'clock train, and made an address after dinner. He stated his position upon all the public questions of the hour, calling attention to the fact that for a number of years Reeves county had elected the Representative, and that his own county, Ector, had never had this honor. He stated that he was not without experience in the Legislature and was well able and competent to represent the district.

All of the county candidates were called upon, and practically all of them stood the gaff and came to "the Hick log," the crowd enjoying their performances very much. Brief speeches were made by F. P. Richburg, Tolbert Garrett, M. A. Durbin, E. C. Doty and Max Krauskopf. In the absence of Sheriff E. B. Kiser, candidate to succeed himself, Bud Baker, a bright young man from Saragosa, represented him and

New Committee Studies Ford's Muscle Shoals Offer

Controversy over the Muscle Shoals offer made by Henry Ford has resulted in the creation of a new, special committee which will consider the offer. Photograph taken in the Military Affairs Committee Room in the Capitol shows the committee which consists (left to right) of J. W. Worthington, Washington representative for Ford, W. B. Mayo, Ford's Chief Engineer, Congressman Wright of Georgia, Congressman Morin of Pennsylvania, Congressman Miller of Washington, Chief Clerk of the Sessions (standing), Congressman Fisher of Tennessee, and Congressman Crago, of Pennsylvania.

EX-GOVERNOR FERGUSON TO BE ON STATE TICKET

The effort to eliminate James E. Ferguson as a candidate for U. S. Senator was rejected, and with one dissent the sub-committee recommended that the proposition as to light wine and beer be left off the ticket.

By a vote of 12 to 11, the State Democratic Executive Committee permitted the name of former Governor James E. Ferguson to go on the official ballot as a candidate for the United States Senate, but had previously adopted a pledge or test for voters to take before they can participate in the primaries. The test is aimed to prevent Mr. Ferguson's followers from voting in the primary election, as it excludes all those who did not vote for the Democratic nominee in the last election or who gave aid or comfort to the opposing parties. The committee also placed the name of Mrs. Ferguson on the official ballot next to that of her husband, and thus husband and wife are opposing candidates for the Senate and will be certified to the counties.

By an almost unanimous vote the committee rejected the Ferguson Everett application to have the official primary ballot carry the question of an amendment to the Volstead act to permit the sale of light wines and beer. Only one dissenting vote was heard, that of Mr. Kercheville of San Antonio, who believed the law contemplated by the committee shall submit the matter when presented in proper form. He endeavored to read the contenting statute, but was ruled out of order.

San Antonio was unanimously chosen as the place for the next Democratic State convention, which meets September 5, to ratify the nominees of the two primaries. There was no opposition.

Dallas was selected as the meeting place of the State committee on August 7, to canvass the returns of the first primary of July 22 and to provide for the run-off primary on the fourth Saturday of August. Galveston and Fort Worth were nominated, but not pushed. The vote was viva voce.

Big Rancher Says San Angelo Country In Fine Shape

John D. Shipman of San Angelo, came in Wednesday afternoon to look over the oil situation here, and is pleased with the present prospects and outlook. Mr. Shipman has lands in this county and in Loving county and is materially interested. Mr. Shipman also boasts of having the very best fenced ranch in the entire world—size considered. His ranch is north of San Angelo and consists of five sections and around this five sections he has constructed a fence which cost him approximately \$2,000 per mile. It is of woven wire, the strands being only one inch apart at the bottom and is ten feet high. The fence posts used are mountain cedar and cost Mr. Shipman all the way from three to five dollars each.

Mr. Shipman is an old timer in the San Angelo country yet he says he never saw that country in finer condition. In fact they have had too much rain, the water holes are all full and the grass is as fine as could be desired. All stock and farming interests are in fine shape.

made a fine oration. Judge James F. Ross, unopposed for county judge, was missed from the occasion, being ill at his home.

Palacios Ranchman Believes in Advertising

J. W. Sartwell, president of Sartwell & Bros., Crescent V ranch at Palacios, Texas, was a pleasant visitor at the Enterprise office this morning. Mr. Sartwell is a breeder of the Brahman cattle and is a strong believer in them—in fact he thinks they are the best cattle for the state and that they will be the money makers for their owners in the future.

Mr. Sartwell is a strong believer in advertising so he says and attributes a great portion of the failures in the cattle business to the fact that stockmen have quit advertising. He says the cattle business is a real man's business the same as a mercantile business and that it cannot be run successfully without putting it in a class with other live businesses and advertising. "I have spent more than a thousand dollars in advertising in the past year or so," says Mr. Sartwell, "and every dollar I have spent in advertising has brought me back five dollars in actual coin." Mr. Sartwell will likely place some of his Brahman bulls in the herds of Reeves county stockmen in the near future, and it is to be hoped he succeeds in doing so as they have proven their worth wherever tried and have been money makers for their owners.

Cowboys Lead Hastings Funeral

Samford, June 13.—An impressive funeral in which cowboys of the Swenson ranches participated, was conducted last yesterday for Frank S. Hastings, nationally known cattleman, author and West Texas developer, who succumbed to Bright's disease Monday.

A short service at the residence, conducted by Rev. Frank Steadman of St. Luke's Episcopal church, preceded the funeral march to the railway station, where the casket was sent to Leavenworth, the place of burial.

Pall bearers composed of employees of the Swenson interests here were: A. J. Swenson, P. P. Berthelot, Frank Reeves, W. G. Swenson, Eanes Brophy and W. P. McDonald. The cortege was led by 30 cowboys. They rode in double file in full cowboy regalia. Immediately behind them Jess Allison, negro servant of the deceased for many years, followed, leading Black Dolly, Hastings' favorite horse, saddled, stirrups thrown up and crossed over the horn. Then in succession followed the bier with pall bearers on either side. The family car, a long procession of Shriners and a lengthy line of automobiles; along the path at the train hundreds of automobiles were flanked on either side, forming unbroken lines from residences to station.

At the station the cavalcade of cowboys formed in double line formation through which less, the negro servant, led Black Dolly, followed by the family automobile and the casket.

Headquarters officers here have received hundreds of telegrams of condolence. The floral offerings were profuse.

ARRESTED ON A STATUTORY CHARGE

H. G. Bryan a citizen of Toyah, 68 years of age, was arrested last Saturday on a statutory charge of assault, or attempted assault against a young girl of tender age. Sheriff Kiser brought Bryan to Pecos and he is now in custody, but his safe keeping is not in Reeves county and is known only to Sheriff Kiser and his officers. He will probably be tried at Barstow next week as the District Court is now in session in Ward county.

CANDIDATES' DAY BIG SUCCESS--ALL HAVE GOOD TIME

The Candidates' Day picnic which had been extensively advertised as such and which was turned into a real old fashioned West Texas barbecue was pulled off yesterday and today will wind up the festivities. It was not decided to have the barbecue until too late to give the matter much publicity, yet a very good number of out-of-town people were in attendance. They were here from all the surrounding towns and a good number of candidates were out and made their claims known to our people.

The day yesterday was one of the hottest of the season and the ladies who served stood out in the broiling hot sun for an hour or so but no complaint was heard from them. The dinner was piled high on plates and the tables were filled while the candidates were making their pleas and when dinner was announced all there was left to do was to step up to the table, get a plate, then to the place where ice cold tea was served or hot coffee, to suit the taste of the one to be served. It was a very nice affair and enjoyed by the large crowd present.

At night last night the crowds were all that could find standing room on the sidewalk and in the streets in front of the Bozeman Drug Store where the carnival was staged. All were happy and all appeared to be having a good time.

TENNIS TOURNAMENT

A Tennis Tournament was held in conjunction with the Candidates' Day program, players from Big Spring, Carlsbad, Fort Stockton, Barstow, Midland and Pecos competing.

First round, doubles—Walter Browning and Ed Braak of Pecos defeated Johnson and Drake of Fort Stockton 6-2; 6-1.

V. Hicks and C. Manahan of Pecos defeated Perry and Long of Carlsbad in two well played sets 6-4; 6-4.

The second round—Browning and Braak defeated Weyer and Barstow of Barstow 6-1; 6-2.

This win places Browning and Braak in the final.

In tomorrow's matches Hicks and Manahan play M. Kerr and Pat Moran of Pecos and Browning and Braak versus winners of above match for doubles championship.

In the singles 15 players competed.

Braak defeated Johnson 6-2; 6-3. Long defeated Moran 7-5; 7-5 in two hard fought sets.

Manahan defeated Drake 6-0; 6-1.

Weyer defeated Perry 10-8; 6-8 in the fastest sets of the day, both players giving a remarkable exhibition of tennis.

Browning won from Yows by default.

Kerr defeated Spear 6-0; 6-1. Braak won from Barstow by default.

Long defeated Manahan 6-0; 6-0. Weyer won from Kerr by default.

Browning defeated Barnett 6-4; 6-0.

The third round—Only one match being played, Braak defeated Long 6-2; 6-2.

Finals in both singles and doubles will be played tomorrow.

THE BALL GAMES

Yesterday the Carlsbad team met defeat by the Pecos boys in two games, the scores being 6-3 and 7-3. The game today resulted in a tie of 7-7 and could not be prolonged to a definite finish on account of the Carlsbad players being obliged to make the Santa Fe train for their home.

"NOTHING NEW UNDER THE SUN" IN PECOS OIL FIELDS—REPORT OF PROGRESS OF OIL WELLS

"There is nothing new under the sun" in the oil development in the Pecos oil field to report this week. However, the situation looks as good as it ever did and a little bit better than at many times during the history of the field. According to latest reports obtainable by the Enterprise the Bell well was still fishing for tools blown up in the hole when the plug was drilled out and the tools blown several hundred feet up in the hole and wedged a week or ten days ago. The Toyah Bell expected to get out the remainder of the casing today and the River well was drilling away, making good time.

THE LAURA WELL

Mr. Heller, manager of the Sunshine-Federal interests, putting down the Laura well, returned the early part of the week from Fort Worth, where he had been on a business trip connected with the interests of the well, and reports arrangements being made to complete this work with a combination standard and rotary outfit. There is little doubt but that the work will be pushed to completion and at an early date the tale will be told with reference to the Laura well.

THE RIVER WELL

Down to 4,605 feet Tuesday of this week the crew at the River well were making satisfactory headway and going down to the psy sand. The log of this well is something similar to that of the Toyah-Bell only the same formation is found at a much shallower depth. They were passing through thin layers of salt and lime according to reports made to the Enterprise. Mr. C. A. Owen, the manager, left Sunday for New York City to be gone about ten days or two weeks, but it is reported that the work will go on steadily and that the well will be put down to pay or to a depth where the indications are unfavorable to production.

THE BELL WELL

From information gained at the offices of the Bell interest today they are still fishing for the lost log in that well some ten days ago when the tools were blown up some several hundred feet and hung in the hole. They have the greatest hopes of being able to get the tools out in a short time, however, when they will proceed in some way to finish this well, which has the greatest promises of making a good producer.

THE TOYAH-BELL

The Enterprise understands that the Toyah-Bell expected to finish taking out the remainder of the casing from that well some time today. It is reported that this well has been flowing by heads for the past two or three days at intervals. When the casing is removed and the hole put in readiness the Enterprise understands that this well will be shot with a charge of nitroglycerine and when this is done unless some unforeseen accident occurs our people practically as a whole believe it will prove a gusher—or at least a good producer of pay oil. Every indication points to the fact or rather belief that it will prove a good one, since it has never failed to flow occasionally since it struck this sand.

WILLOUGHBY WELL

The shoe lost in the Willoughby No. 1 well has about been drilled out and it is expected that the casing will be set by the last of this week. In drilling the shoe out to the bottom of the hole is thought to have been put into perfect condition and no fear is entertained as to securing a successful water shut off. The bit will be sent into the formation from which a fine showing has been had since the first week in March, and as the weeks have gone by more oil has found its way into the hole. Every time the tools are drawn Mr. Willoughby says they are well covered with oil and he is very hopeful of securing a good well within a very few feet.

The No. 2 well of this company is making good progress and the formations are running true to that found in the No. 1 well, two miles northwest.

HERSHENSON WELL

The Hershenson well, located in Southern Reeves county, reports the work of the digging of a pit to overcome the soft all formation still in progress. They hope within the next week or ten days to have this work completed. This well is under contract to go to a depth of 4,000 feet, unless oil is found at a lesser depth. The contract calls for a hole large enough to admit an 8-inch casing at 4,000 feet, should it

be necessary to go that deep. Much interest was manifested by oil men and geologists who have recently visited the section of Reeves county embracing the limestone foothills of the Davis Mountains, taking in the Hershenson property. Mr. Landrum of the Hershenson interests ventures to say that, from all reports, the Southern part of Reeves county is destined to soon become the center of much drilling activity. Mr. Landrum states, however, that he is not in a position just yet to make any definite statements as to who is next to enter the field, but that there are several getting lined up.

A report as to the structure and possibilities for oil on the Hershenson property was made by D. D. Christner, consulting geologist, formerly with the U. S. Geological Survey.

THE LOS-PECOS WELL

The Enterprise has had no report on this well this week but it is believed they are making good footage or else some report would have been made. Mr. Arch Bell, in charge of this operation, has been quite busy of late looking after details and keeping things moving and has done exceedingly well.

STATE DEMOCRATIC TICKET AND PRIMARY VOTE PLEDGE

Austin, June 13.—Here is the pledge as recommended to the various county committees by the State committee:

"1. Such person shall be a white Democrat.

"2. Such person shall take a pledge that he or she will support at all times and vote for in the general election all the nominees of the Democratic party in the general primary election, including nominees for National, State, District, County, Precinct and all other offices.

"3. Such person shall have supported and voted for in the last general election, if he or she voted at all, all nominees of the Democratic party, and no person shall vote in such general primary elections who, in the last general election, voted for, gave aid, support or comfort to any political party or the nominees of any political party other than the Democratic party."

The following is the ticket as finally approved:

United States Senator—C. A. Culbertson, Dallas County; Earl E. Mayfield, Bosque County; Cullen F. Thomas, Dallas County; James E. Ferguson, Bell County; Marjiam A. Ferguson, Bell County; Clarence Ousley, Tarrant County; Robert Lee Henry, McLennan County; Sterling P. Strong, Dallas County.

Congressman at Large—E. W. Cole, Travis County.

Chief Justice, Supreme Court—C. M. Cureton, Bosque County.

Associate Justice, Supreme Court—Thomas E. Greenwood, Anderson County.

Judge Court of Criminal Appeals (full term)—W. C. Morrow, Hill County; A. J. Harper, El Paso County.

Judge Court of Criminal Appeals (unexpired term)—F. L. Hawkins, Ellis County.

Governor—Pat M. Neff, McLennan County; W. W. King, Sabine County; Fred S. Rogers, Fannin County; Harry T. Warner, Lamar County.

Lieutenant Governor—T. W. Davidson, Harrison County; Joe E. Edmondson, Anderson County; W. A. Johnson, Hall County; Colonel Billie Mayfield, Jr., Harris County.

Attorney General—W. A. Keeling, Travis County.

Railroad Commissioner—Allison Mayfield, Grayson County; J. C. Mason, Taylor County.

Comptroller—Lon A. Smith, Rusk County; William M. Woodall, Nolan County.

State Treasurer—C. V. Terrell, Wise County; A. H. Kerr, Tarrant County; L. E. Tennon, Bosque County; George G. Garrett, Dallas County; W. D. Carroll, Comanche County; Ed. A. Christian, Bexar County; Lee Kirgan, Freestone County.

Commissioner of the General Land Office—J. C. Thompson, Foard County; J. T. Robison, Morris County.

Superintendent of Public Instruction—Ed R. Bentley, Hidalgo County; S. M. N. Marrs, Travis County; Jefferson G. Smith, Upton County.

Commissioner of Agriculture—George B. Terrell, Cherokee County.

FINANCIAL REVIEW

Prepared for The Enterprise by The First National Bank in St. Louis.

Reports to the United States Employment Service of the Department of Labor shows a more marked improvement in employment conditions in May than in any recent month. There was a net increase of 3.2 per cent in the number of workers employed by 1,428 firms located in the 65 principal industrial centers of the United States.

There were increases in the number employed in 11 groups of industries and decreases in only three groups.

Out of the 65 cities, 49 reported employment increases during May over April. New York City showed an increase of less than 1 per cent. Chicago showed an increase of 6 per cent.

According to a statement made by Francis I. Jones, Director General of the Employment Service, vehicles for land transportation recorded 11 per cent increase in employment over April.

Railroad shops showed 4 per cent; iron and steel and their products, 4.5 per cent; clay and glass products, 4.5 per cent; lumber and its manufacture, 3 per cent; food and kindred products, 2.96 per cent; metal and metal products, 1.5 per cent; textiles and their products, 1.1 per cent; and paper and printing, 8 per cent.

Decrease in employment was shown in leather and its finished products in May of 3.9 per cent; tobacco manufactures, 2.9 per cent; and liquors and beverages, 99 per cent.

MARRIED FOLKS SHOULD FIGHT WORLD AND NOT EACH OTHER, SAYS JUDGE

'Tell 'em to marry young.' Says Judge Joseph Sabath, Chicago authority on divorce. This celebrity has passed on 6,500 divorce cases and should know what he is talking about.

The United News Service sends out the following from Chicago which is interesting as well as instructive: 'Tell 'em to marry young.'

This from the bedside of Superior Judge Joseph Sabath, Chicago's most celebrated divorce authority, who, after two solid years spent in hearing 6,500 tales of domestic woe, has suffered a nervous breakdown. He has petitioned Chief Justice Sullivan and the executive committee to transfer him to a law court, declaring that his illness has been caused by efforts to reconcile thousands of battling couples.

His petition stated that the hardest thing a divorce judge has to do is to assign custody of children, the next hardest is trying to bring about reconciliation and the third phase is the alimony question.

'I simply couldn't stand it any longer,' the enfeebled jurist said in a weak voice. 'Nothing in the world is so hard as to be the instrument that separates families and rules on the future of little children.'

'Marry Young,' He Says. 'After sitting over more than 6,500 cases in which every tale of woe imaginable in domestic unhappiness has been told and retold, I have come to one conclusion about marriage.'

'That is—Marry young. The majority of those 6,500 cases came before me because either the man or woman was selfish.'

'Nowadays folks wait too long to get married. They insist on having bank accounts, furnished homes, automobiles and everything all ready.'

A NOVEL ORANGE EXHIBIT

Golden oranges of California—heaps of the finest of them—were used in making many attractive and novel creations seen at the Annual Valencia Orange Show at Anaheim, California. Photograph shows the Blue Goose exhibit, which attracted much attention—the blue goose being the center of attraction for the kiddies.

Building construction widened in May over April. A shortage of carpenters, bricklayers and plasterers exists in many of the 231 principal industrial centers. Wheat cutting has started in Texas, and large numbers of men will be absorbed in the harvest fields.

GIRLS AND BOYS ARE YOU PROGRESSING IN THE WORLD OR MOVING BACKWARD?

Are you chained to a small job and a small salary? Are you in a rut where you are just holding your own, where you are not improving yourself and have no future? Don't think you are standing still. You can't, you either move forward or backward.

There are several ways from here to there. You can travel the twenty-five thousand miles around the earth and arrive in the next street, or you can take a straight line across the block and reach your destination in two minutes.

A direct route to a business position is through the Tyler Commercial College.

If you don't believe this, go out some day and make a dozen applications for positions. Approach the employer and say: 'I would like to have some kind of a position,' and when you are asked what you can do, tell him you haven't any particular training, but that you can do most anything.

There is a short cut to business success and there is a long route, and when you are young you have the opportunity to select the one or the other. Doubtless you can get some kind of a job in a business and

work up. But don't underestimate the difficulty of the task of working up. Successful business men are too busy to teach school in their office. Select the shorter, direct route, through T. C. C., and you will reach your destination early enough to enjoy the fruits of the journey.

You do not have to be a sage to understand that these things are true but you will be a wise young man or woman if you realize their significance, realize that they apply to you and not to some one else, and take advantage of the opportunities that the right sort of action will open up.

Name Address TYLER COMMERCIAL COLLEGE, Tyler, Texas. (Advertisement)

ASPIRIN

Name 'Bayer' on Genuine

Warning! Unless you see the name 'Bayer' on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monocrocinolide ester of Salicylic acid. (Advertisement)

'And in waiting for these things they learn to be self centered and selfish. They want things their own way. When things go wrong they rush into divorce.'

'They won't give in. The future of their children don't seem to concern them. They are selfish to the core.'

'But a young fellow and his girl who start on nothing and work their way out might seldom come into my court when their marriage is founded on real love.'

'Of course, there are hundreds of foolish children who mistake infatuation for love and wind up wrong. But as a general rule, the younger they are and the harder they have to fight, the better the result.'

'This is June. Tell the young fellows not to be afraid.'

'I have seen enough unhappiness in marriage to make any man a cynic. But I am its greatest booster. If a young fellow has a job that is steady, and the right girl, he should forget about orange blossoms, church weddings and automobiles, and he should help his girl forget it, too. They should get busy fighting for a home; fighting the world and not each other.'

'I got married when I was 18, without a dime, and I know.'

Spilling the Fun.—The teacher said to her pupils:

'Wouldn't this be a great world if people would all love one another and treat each other with kindness?'

One small boy looked doubtful.

'Wouldn't you like to see everybody treat everybody else with kindness?'

After a moment's reflection the boy answered:

'Then there wouldn't be any more Mutt and Jeff pictures.'

Youngstown Telegram.

Painless Dentistry.—Aunt Ethel—'Well, Beatrice, were you very brave at the dentist's?'

Beatrice—'Yes, auntie, I was.'

Aunt Ethel—'Then there's the half crown I promised you. And now tell me what he did to you.'

Beatrice—'He pulled out two of Willie's teeth!'

Punch.

Try one of those 25c want ads and make some money. Others do it; why not you?

ANNOUNCEMENTS

The following persons announce their candidacy for the respective offices subject to the action of the Democratic Primary in July:

For Associate Justice of the Court of Civil Appeals, Eighth Supreme Judicial District of Texas:

E. F. HIGGINS, re-election. (of El Paso)

LEIGH CLARK. (of El Paso)

For District Judge:

W. A. HUDSON. TOM GARRARD. CHAS. GIBBS, Re-election.

For District Attorney, 70th Judicial District:

T. F. SLACK, Pecos. BIRGE HOLT, Barstow. B. FRANK HAAG. B. W. BAKER.

For County Judge:

JAS. F. ROSS, re-election.

For Tax Assessor:

F. P. RICHBURG. W. W. CAMP, re-election. TOLBERT GARRETT.

For County Attorney:

ROY I. BIGGS. HARRY MAC TIER.

For County and District Clerk:

S. C. VAUGHAN, re-election.

For Sheriff:

E. B. KISER, re-election. E. C. DOTY.

For County Treasurer:

M. A. DURDIN, re-election. C. B. JORDAN.

For County Commissioner Precinct No. 2:

A. W. HOSIE.

For County Commissioner Precinct No. 4:

R. N. COUCH, re-election.

For County Commissioner Precinct No. 3:

J. W. B. WILLIAMS.

For County Commissioner, Precinct No. 1:

JULIUS EISENWIENE.

Habitual Constipation Cured in 14 to 21 Days. 'LAX-FOS WITH PEPSIN' is a specially prepared Syrup Tonic-Laxative for Habitual Constipation. It relieves promptly but should be taken regularly for 14 to 21 days to induce regular action. It Stimulates and Regulates. Very Pleasant to Take. 60c per bottle.

No Worms in a Healthy Child. All children troubled with Worms have an unhealthy color, which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS-CHILL TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or digest the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY. Surveys Nos. 45, 47, 48, 55, E. half of 61, and 62, in Block 4; and Nos. 43, 44, 47 and W. half of 51, in Block 5. The surveys in these blocks are situated from 5 to 9 miles from Pecos City, in the northern half of the Pecos River country and will be sold only in whole sections. Also, surveys No. 46 in block 4 and Nos. 9, 13 and 15 in block 7. Also, surveys Nos. 1, 2, and 3, situated on the Pecos River, in Reeves county, and Nos. 12 (in area survey) Pecos county. Also 12 surveys in block 11 and 3 surveys in block 13. None of these are river lands. All are in Pecos county. All these lands are under lease for oil, gas and mineral purposes and any sale of same will be subject to conditions. H. & G. N. RY. of Pecos is agent for the sale of all these lands situated in Reeves County and applications should be made to him for the purchase of same. There is no local agent for the sale of the lands in Pecos County, and parties desiring to purchase any of same should apply to the undersigned. EUGENE CARTLEDGE, Agent and Attorney in Fact. AUSTIN, TEXAS.

TEXAS CROP REPORT

By E. M. Johnston, Agricultural Statistician, Representative of conditions June 1, 1922:

Winter Wheat.

Winter wheat has sustained a drop of six points during May, falling from 71 per cent of normal to 65 per cent. This downward trend has been due largely to excessive rains which fell during the first half of the month and subsequent damage from rust and other causes. Red rust is quite general throughout the north, central and west-central parts of the state and some black rust is reported from Denton county in North Texas.

A condition of 65 per cent of normal on June 1st, is indicative of an average yield for the state or 11 bushels per acre and a total production of 11,253,000 bushels from the 1,023,000 acres standing for harvest.

Oats.

The oat acreage for the state is estimated to be 1,641,000 acres, which is 88 per cent of the acreage for the previous year. The dry fall retarded planting in the fall oat section and the extremely wet spring, together with late freezes delayed planting and destroyed some of the plantings in the spring oat section. Neither the spring, nor the fall has been very satisfactory so far as seeding is concerned.

The present condition is estimated to be 78 per cent of normal, which is none too satisfactory, and has been brought about by all the causes which have affected the condition of wheat. Most of the crop is rusted, either a little or badly, the stand is thin in many sections, has not headed evenly and has sustained other rain and flood damage.

A condition of 78 per cent of normal at this date points to a prospective yield of 29.41 bushels per acre and a total production of 48,262,000 bushels.

Barley.

The acreage of barley is placed at 86,000 acres, the condition at 83 per cent of normal and the average yield per acre at 25.73 bushels.

General Farm Crops.

The condition of rye is 84 per cent of normal which forecasts an average yield of 14.28 bushels per

acre and is a drop in condition of one point during the past month. The condition of all hay, both tame and wild, is 92 per cent of normal and is very satisfactory indeed. The alfalfa acreage has increased 2 per cent, most of this increase coming in the western irrigated parts of the state and the condition is 93 per cent of normal which is high for this time of year and traceable directly to abundant rains and irrigation water. Pasture and ranges are in the finest condition known for many years being 98 per cent of a full normal. In fact the physical conditions, so far as the ranges of West Texas are concerned, could hardly be improved upon and have seldom been as good as at present. Though the fall and winter were dry and the start of grass was late as a result, yet growth has been rapid since February and is excellent at the present time. The general condition of field beans and field peas are 84 and 86 per cent of normal, respectively. During the wet season of early spring some plantings were lost due to the cold and moist condition of the soil, in some cases the stands are a little thin as a result but replanting have offset this condition largely and rapid improvement has been made during the last few weeks.

Truck Crops.

The condition of that part of the crop still standing at this date is, for cabbages, 69 per cent of normal and, for onions, 85 per cent of normal. The commercial end of both crops have already moved to market and this represents the bulk of the crop. An increase in production has been made in both cases. With a short northern crop of onions Texas came into the field with bright prospects and a high market but this advantage was largely lost by rainy and unfavorable harvest weather which prevailed at that time and subsequent delays in shipment.

The present condition of watermelons is 76 per cent of normal and muskmelons 78 per cent of normal.

Fruit Crops.

Peaches in the state have been severely damaged by the late spring freezes. At first it was thought little damage was sustained as the

fruit remained on the trees but it developed, later, that injury was done, the fruit finally drying up and falling to the ground. Reports to this office indicate that a general condition of but 37 per cent of a normal prevails which indicated a prospective production of but 1,684,000 bushels for the state; the normal production being 4,552,000 bushels.

The conditions of apples is 69 per cent of normal which points to a prospective total agricultural production of 3,631,000 bushels and a total commercial production of 206,000 bushels. Pears, for which the condition is usually low and which are largely affected, show no change this year. The condition is 60 per cent of normal and the probable condition prospects, will be 402,000 bushels.

The season has been very favorable for blackberries. The prevailing condition at this time is 89 per cent. During the middle of May several cars were reported to have been shipped from Lindale, in Smith county, in addition to heavy freight and express shipments from that and other points throughout east and southeast Texas. Both the wild and cultivated crop produced well.

SAYS TEXAS RANKS FIRST IN "FIRSTS"

The Texas delegation of advertising men who are attending the Convention of the Association Advertising Clubs of the World, at Milwaukee, June 12-16, are not overlooking their chance to do a little incidental advertising of the Lone Star State.

The delegation which made the trip on a special train from Fort Worth to Milwaukee, carried plenty of material advertising Texas, collected by the Research Department of the Texas Chamber of Commerce for Lowry Martin, of Corsicana, Chairman of Publicity of the Texas delegation.

That Texas ranks first in "firsts" is among the other things being told the advertising men of the world by the Texans. Texas is first in production of beef cattle, grain sor-

America's favorite Beverage

The Ideal Package for the Home - Picnic and Outing

Pecos Mercantile Co.
Wholesale Distributors
Pecos, Texas

ed annually, and within a few years Texas will rank with California and Florida as a producer of oranges and grape fruit. Citrus trees are now bearing in the Rio Grande Valley and thousands of additional trees are annually reaching the age of maturity.

Live Stock.

Texas has about 4,600,000 beef cattle upon her ranches in addition to about 1,500,000 dairy cattle. The state leads in beef production. Texas also leads in the number of goats with approximately 1,700,000, and mules with a total number of 850,000. There are 990,000 horses on Texas farms; 2,573,000 sheep; 2,225,000 hogs, and 20,000,000 chickens and turkeys.

About 174,000,000 gallons of milk are produced in the state annually from which 49,000,000 pounds of butter are made. Approximately 64,000,000 dozens of eggs are produced on Texas farms each year. The total annual production of honey from 232,000 beehives is approximately 5,000,000 pounds. The annual production of wool runs from 12,000,000 to 20,000,000 pounds, while the mohair produced average approximately 5,000,000 pounds.

Minerals.

Texas produces, including petroleum, approximately 3300,000,000 in mineral products annually. Beside producing an annual average of nearly 100,000,000 barrels of petro-

leum, the state produces practically one-half of the sulphur supply of the world. Texas also ranks high in the production of pottery, brick and other clay products, gypsum and gypsum products, quick silver, Fuller's earth, cement, limestone and lime, granite, marble and lignite. Texas also produces about one-half million tons of coal annually.

There are approximately fifty different valuable minerals found in various parts of the state, including such a wide range as iron, lignite, ochre, radioactive earth, potash, quick silver, salt, silica, and

READ THIS FIRST
Before Painting any New Building

If you think any old paint is good enough for the prime or first coat on a new building, then this is the paint for you.

WHEN the building was started, didn't you make sure that the foundation was as good as could be made?

It's just as important that the foundation coat of paint be as good as can be made. You can't start with a poor paint and end with a good painting job.

The only way to end right is to start right. Use Lowe Brothers High Standard Paint, thinned with pure raw linseed oil for the priming coat, and follow that with one or two more coats without thinning.

You'll be more than satisfied with the saving, as well as the good looks and long lastingness.

PECOS MERCANTILE COMPANY

Lowe Brothers
Paints - Varnishes

hums, mules, cotton, goats, mohair, cotton seed and manufactured cotton seed products, onions, pecans, honey, and total annual value of agricultural products, but Texas is primarily first in undeveloped resources and latent opportunities.

Texas has upwards of 100,000,000 acres of cultivable land of which less than one-third is now improved. This small percentage of cultivable land has for the past three years led all other states of the Union in total value of agricultural products by a wide margin. When fully developed, Texas will produce annually three or four times the value of the agricultural products of any other state in the Union.

What Texas Produces.

Texas produced during 1921, 2,129,000 bales of cotton; 175,000,000 bushels of corn; 60,000,000 bushels of grain sorghums; 39,000,000 bushels of oats; 5,996,000 bushels of rice; 123,000,000 pounds of peanuts; 20,810,000 bushels of wheat; 8,000,000 bushels of sweet potatoes; 6,200,000 gallons of sugar cane and sorghum syrups; 2,000,000 bushels of barley; 2,200,000 bushels of white potatoes, and approximately 80,000 car loads of spinach, cabbage, onions, pecans, watermelons, and other small crops.

Texas is coming rapidly to the front as the producer of the most diversified farm crop of the Union. The plains regions are rapidly developing into great wheat and grain sorghum producing areas, while the Rio Grande Valley, Gulf Coast country, and East Texas regions are rivalling California, and Florida as producers of vegetables for the early markets of the north.

Texas is also a considerable producer of fruits, ranking high among the peach producing states of the Union, with an average of about 4,000,000 bushels annually. Plums, prunes, apricots, apples and pears are also being produced in commercial quantities. About 1,000,000 pounds of figs are harvest-

Business Advertising Representative THE AMERICAN PRESS ASSOCIATION

An item in the Fort Worth and Dallas papers relates a story of a couple of girls who differed and decided to settle that difference by a real honest to goodness prize fight, and that they might not be molested they were accompanied to the country by almost twenty autos loaded with about, variously estimated, fifty to seventy-five people, to witness the affair. It appears the decision to settle the matter in this way was made in a dance hall and when the party arrived at the selected spot the fistic ring was completed by the arrangement of the twenty autos in such a way as to throw the lights on the combatants, who in their ball room attire, proceeded to "settle." One was summarily put over the "ropes" and carried home unconscious. This is a fine story and very interesting, coming as it does from the great city of Dallas. Think of that number of people sitting in autos watching such a battle to the end without having to pay admission? It would be hard to find that many people in any congregation outside of a dance hall who would be willing to watch such a performance, and yet mothers will allow their daughters to attend such places at their will. Even the Pecos dance hall, so the Enterprise is informed, was run in a manner which caused some of the mothers to forbid their daughters to attend. If such places cannot be run decently and enough good people attend to see that they are run in such a manner that would justify them in allowing their daughters to attend, then they should be suppressed.

RETURNING PROSPERITY

It is a sure sign of returning prosperity when the newspapers are filled with advertising. In the News columns this morning there are over sixty business firms and individuals represented in its advertising columns, and the combined inch space used by those advertisers is something over 700 inches. But there's a reason—in fact several. First, our business men, and those having merchandise or other commodities to sell, realize that the News is read by the people, and is therefore one of the best advertising mediums in West Texas. This fact is not only becoming known to our business people but other living in other sections near Cisco, but covered by the News subscription list. But the chief cause for our elation is the fact that this increased advertising is indicative of returning prosperity. When the business people commence to advertise it is a sure sign that money is getting easier, and business is improving. The News welcomes this return of better times, and congratulates the country on improved conditions. Also, the News is appreciative of the splendid patronage given the paper today, and requests every friend of the paper to read these advertisements, and make their purchases from those who are inviting you to their places of business. Yes, there's a reason.—Cisco Daily News.

The McCumber tariff bill, which is the Fordney bill, with 2,057 amendments, drags its weary way in the Senate, daily arousing new opposition and antagonism from men of all shades of political opinion; from the Republican, Independent, and Democratic press, from business men, including manufacturers and importers; from farmers, and almost every element with any understanding of economic principles.—Pecos Enterprise.

Strangely enough, there is more criticism of the McCumber tariff measure in Northern than in Southern newspapers. It has occurred to many old-line Republican organs that American industry has so expanded since ante-bellum times that unless the world's markets are made or kept available much of American factory extension must go unused. And as they know, along with everybody else except the hidebound and the new converts, we can't sell much abroad unless we buy a good deal. As long as we buy, we can sell. But when we quit buying, we must quit selling. A tariff measure that will inhibit all except a few peculiar imports will automatically hinder all but a few peculiar exports. This is as plain as a pump handle. Senator McCumber's

those who think along his line, imagine that the home market will be all-sufficing. It may be all-sufficing for some little businesses, little businesses the size of little politicians, but for as productive a continent as this of North America, localized industry will be insufficient to sustain the standard of living to which Americans aspire. The agriculture of the United States, especially the agriculture of the Southern States, can not subsist itself prosperously on the home market. It must have foreign outlet, as was proved by the prices of cotton and grains when the foreign demand halted last year, and in the autumn of 1914. What is pushing up the price of cotton today is not the home demand, but the foreign demand. That demand will not last, if our ports shall be closed to foreign goods. Our greatest export markets were developed under a Democratic tariff policy.—State Press in Dallas News.

CONGRESSMAN BLANTON

The Merkel Mail, published in Thos. L. Blanton's district has the following editorial in its last issue discussing his speech in that town. It is sensible and to the point. When any man comes to the conclusion that all others are crooked and he the only loyal one to his constituents, he becomes dangerous. Mr. Blanton has acted in such a manner in congress as to kill his usefulness and has shown himself unworthy. It is to be hoped the people of his district will give him the same treatment received by his sister, Miss Annie Webb Blanton in the late election—snow him under good and strong—and send someone to congress in his stead who can accomplish something for his people. The editorial in the Mail follows: The editor of this paper listened for more than two hours to the Hon. Thomas Blanton as he addressed the voters at the Tabernacle last Tuesday night. We noted the liberal applause that occasionally emphasized the approval of those who heard him.

Much as we have always admired Mr. Blanton we failed to hear anything in his speech that would inspire in us an ambition to be elected to congress. If he speaks truly that body is a bunch of cheap grafters with possible exceptions. The writer allows no one to be more loyal to West Texas than himself, and yet he finds it impossible to believe that we have the only honest congressman in the state.

For years, perhaps for fifty years, it has been lawful for members of that body to have given them certain sums as mileage. Those certain sums are allowed each congressman whether he travels or remains in the capital, and have been considered as part of their compensation. In addition to mileage it is a matter of law that each congressman is allowed so much—\$360 for stationary. He can draw this amount from the department in cash or its equivalent, whether it be in stationary or not, and it is regarded as a part of his compensation. Some other congress, way back in the years passed the law, but it is the law, and since it is the law it is not graft. Every business house allows its employees to use postage without charge, and yet no one would charge its employees with being grafters every time they mailed a letter with postage purchased by the employer.

Mr. Blanton may be entirely right in calling our attention to these petty matters, but in doing so he is not measuring up to our ideal of a congressman. We are opposed to graft in every form and we despise a grafter, but Mr. Blanton does not convict his colleagues of being guilty of graft without admittingly convicting himself. He admits that he draws the mileage and the stationery allowances, perhaps eats at the congressional restaurant and is shaved and groomed by the congressional barber, but he spends it all in trying to persuade congress to towns of the same population. Let us not serve the state with repeal the law that gives it to him. We frankly admit that we are one of Mr. Blanton's constituents who believes that his admitted energy and ability could be directed far more profitably to the country and to his district.

EASY MARKS FOR EASY MARKS

With German marks being peddled around at three for a cent perhaps there was an excuse for the New York wag who in trying to sell a bill of such goods a week or so ago remarked in passing that "this is the day of easy marks," and then proceeded to unload on the unwary. It may be well to remember there are many "astute" money changers in the big cities who are loaded up with the German coinage and who are casting right and left to find a market for their unpopular treasure. There is always a temptation to buy a hundred thousand dollars "worth" of money for a five dollar bill or whatnot. Those who are inclined to yield to such Get-Rich-Quick Wallingford temptations, however, should remember the Confederate bills that are stacked up in the garrets of little homes from the Atlantic to the Pacific, so that when the great city propaganda begins, aimed as it will be first at "stabilizing the German monetary system," they will see the part of wisdom is to seal up their pocket books.

That Germany will come back there can be no doubt because the Germans are an enterprising

They are likely to regain power while the world sleeps, but no matter how rapidly they get to their feet it is generally agreed that before they run very far the whole of their monetary system will have to be changed, and in the new issue of the national stock the existing financial tokens will be tremendously reduced in value if not entirely wiped out. Beware the Greeks bearing gifts may still with wisdom be kept in the public mind.

THREE DAYS CONVENTION OF OLD SPANISH TRAIL ASSN.

Will be held in the proposed State Park in the Davis Mountains eight miles west of Fort Davis, Texas, July 6th, 7th and 8th.

We will all take our camping outfit and go by auto. Not a single town between San Antonio and Fort Davis will have hotel accommodations sufficient to care for our party, and besides, we want to get out into the mountains and camp two nights so we can get the benefit of the park from every angle.

Those who do not want to camp can get splendid hotel accommodations at Fort Davis. In the event this town can't care for all those wanting hotel accommodations it is only 28 miles over a good road to Alpine and 28 miles to Marfa, where at least 100 can get first-class accommodations. It is 38 miles to Balmorhea where the hotel is good but small—road fair. 39 miles to Valentine—hotel good but small; roads fine.

The caravan will start from Orange on the east, picking up additional cars at all points along the route into San Antonio. Another caravan will start from Brownsville to the south, gathering recruits from all towns in the Magic Valley and along the route to San Antonio, where the two caravans will merge and the San Antonio delegation will join, with probably twenty cars from other than Old Spanish Trail towns.

The writer has just returned from an inspection and arrangement trip over the entire route west. Selected the camp site for the convention and accepted the generous invitations of the towns along the route to be their guests for all noon and night meals. Breakfast being the only meal we will have to prepare between San Antonio and the camp in the Davis Mountains.

The caravan will leave San Antonio Monday morning, July 3rd, at 8 o'clock, and reach the Davis Mountains Thursday p. m., July 5th. The convention will open at 8 p. m., and last until Saturday July 8th.

On adjournment Saturday we have a very pressing invitation to go to Alpine as the guests of the Chamber of Commerce for their annual celebration July 10th to 11th—Old Settlers Re-Union and Cowboy Round-Up. This will be the greatest attraction of its kind ever staged in West Texas.

The Alpine people have the reputation of doing things in a big way. You would know all this to be true, when they had the nerve to invite every member of our convention party to come over and be their guests from Saturday p. m. until Wednesday morning. Most of us know something of this beautiful and hustling city by its reputation when they landed the Sol Ross Normal there a few years ago, and now have 500 young lady teachers there for the summer normal.

The convention program will be given to the press for next Sunday. We will have some of the best speakers in the State. We want every candidate in the State for the legislature to meet us at the Davis Mountains and get first-hand information on what the Old Spanish Trail needs through this State, the real importance of this and the Bankhead Highway, also Central Texas Highway. All three highways join near the proposed State Park. "Mr. Senator" and "Mrs. Representative," won't you come out and take a look at the 5000 to 7000 people that will attend this convention and get acquainted with what these two big highways need? You must know already that they serve around 75 per cent of the people of this State, and if the State Highway Department and Federal Government are to continue aid to Texas Highways you gentlemen will have to do some law-making for us.

All towns within 100 miles of Fort Davis have agreed to "throw in" to our convention with their Fourth of July celebration. This will give us a tremendous crowd. We expect to take several hundred people from East and South Texas, and there will be cars joining us from nearly all large towns throughout the State.

We have invited, and expect, the Texas Highway Association, Bankhead, Jefferson Davis, and Central Texas Highway Associations, to all join us in the Davis Mountains and take over a part of the program.

INVITATION—We extend an invitation to all the people of Texas to take their vacation with us at this convention. Write us for further information.

Yours very truly, OLD SPANISH TRAIL ASS'N, D. E. COLF, Manager Western Dept., San Antonio, Texas.

June 12, 1922.

Pastor First Christian Church Dead

Rev. Frank Lanehart account of whose death at Wellington, Texas, appears hereto attached, was well known in this section and had many warm personal friends who will grieve at his demise. He is a brother to J. T. Lanehart of Jal, New Mexico. To the bereaved the Enterprise extends sincere sympathy. The Wellington Leader gives the following account of his death:

Rev. Frank Lanehart, pastor of the First Christian church, died of apoplexy about 2 a. m. Saturday, May 26, at his home in the west part of town. Death came after only a few hours of suffering, and was a shock to the entire community. The funeral service was conducted Tuesday at the Christian church by an old friend of the deceased, Rev. Haddock of Erick Okla., and burial was made in Wellington cemetery. The young men of the Christian church acted as pall bearers and the young ladies as flower bearers. A large crowd was present at the funeral to pay tribute to the memory of a man whom all had learned to love.

Rev. Lanehart, with his wife, came here from Lampasas first of the year to take the pastorate of the Christian church and during his five months stay here endeared himself in the hearts of the people, saint and sinner alike, and regardless of church affiliations all learned to love him for his sterling and Christian character. He was a man who always looked on the bright side of everything, and was a booster for his home town and home people; was an exceptionally good preacher and fought sin on every inch of the ground. Rev. Haddock, during the funeral service, paid the tribute to the deceased one ever heard paid to any one, and his congregation felt that every word of it was the truth, knowing Rev. Lanehart as they did.

Rev. Lanehart was born Jan. 23, 1858, in Wilkinson county, Miss., and has been preaching the Gospel for many years. He always looked for the hardest places, and wanted to be doing something; not wanting an easy place in life. "He was a man of fine physique," was well educated, and delighted in doing a man's work at all times. Friday night he attended a choir practice at the church, went home and began to suffer, it is believed, from indigestion, and after midnight a physician was called in, but before anything could be done for him he suddenly expired. His son, C. J. Lanehart of Beaumont, and daughter, Mrs. B. D. Dawson and husband, of New Orleans, arrived Tuesday for the funeral. They returned home Thursday and Mrs. Lanehart will remain here for awhile.

The community has lost a valuable citizen and the church a good pastor and leader. His place will be hard to fill, for his congregation had just begun to realize his valuable help to them.

NEXT DOSE CALOMEL MAY SALIVATE YOU

IT IS MERCURY, QUICKSILVER SHOCKS LIVER AND ATTACKS YOUR BONES.

Calomel salivation is horrible. It swells the tongue, loosens the teeth and starts rheumatism. There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel. It is a pleasant vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Calomel is a dangerous drug, besides it may make you feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No salts necessary. Your druggist says if you don't find Dodson's Liver Tonic acts better than treacherous calomel your money is waiting for you.

Protecting the Small Investor—Asy Your Local Banker

(By C. H. Willoughby, Oil Operator)
 "Ask your local banker," has become the National Slogan when the man or woman of small means, yet with the ambition to forge ahead asks for advice regarding the placing of their money where it may return a profit such as they want and need. I say flatly that the local bankers are victims of this

wide spread propoganda and not partners to it. The United States saw the wildest scramble for riches the world ever knew during the recent years which have marked the discovery of the world's greatest gusher fields of high grade oil and Texas having taken and maintained the lead as the greatest high-grade gusher State has, therefore, harbored a percentage of fake promoters but no greater per cent than any other oil producing state. But Texas and "crooked promotion" seem to be as one thought in the minds of some of the writers of her sister state who are advising the investors through the news medium to "keep your money at home and leave Texas oil investments alone."

CLASSIFIED

FOR SALE.
 FOR SALE—One Jersey or Holstein milk cow. E. A. Humphries, Saragosa, Texas. 44-2t.

WHY Pay Rent?—I will sell you a house for \$150. See me at once for quick sale. Phone 137, Mrs. S. E. Wilson. 43-tf.

FOR SALE—Forty acres, block 4, section 37, about six miles north of Pecos. \$25 per acre.—C. C. Prude, Colorado, Texas. 43-4t

FOR SALE—Navajo saddle blankets of best grade in sizes up to 38x66 inches, in colors desired, sent C. O. D. postage paid at \$7.50 each. Money will be refunded if not satisfactory. New Mexico Rug Co., Box 2, Gallup, N. M. 32-22*

REAL ESTATE, Oil Leases, Furnished Houses, and Auto for sale. I. E. Smith. 30-tf.

FOR RENT.

WHY Swelter?—In hot, stuffy rooms? I have cool sleeping porch beds, and big, airy rooms close in. Reasonable rates. Phone 137, Mrs. S. E. Wilson. 34-tf.

FOR RENT—At a reasonable price, my furnished home for the summer. See me at the Fiebler Laundry.—Mrs. F. W. Fiebler. 41-tf.

LOST.
 LOST—Headlight rim. Return to Johnson & Garrett Garage and get reward. 1t*

MISCELLANEOUS.

STRAYED or Stolen—Blood bay peeing saddle horse, under fifteen hands high, heavy built, shod in front, unbranded. Suitable reward will be paid for information leading to his recovery or return to Lee Ligon, Pecos, Texas. 1t*

BUY Fisk Red Top Casings and Tubes from us, and save money. We give 10 per cent off of the list price. You are not mistaken, they are the best on earth.—Johnson & Garrett. 44-4t*

Who eats at the best cafes?
 Who rides in the swellest cars?
 Who can afford a vacation for recreation and pleasure with probably a cruise on the Mediterranean?
 The man that has to cringe around to the side door for advice or—the one that can stand up and recognize the call of opportunity and has the initiative to ACT for himself?

A greater opportunity never existed for large and immediate profits with men of proven characters and ability. Awaken your timid, doubting poisoned thoughts, Mr. Citizen and investor, to the unlimited possibilities and the great promising future and give us the backing needed to bring the Pecos country into its own and you into the full realization of a life worth living.

Knickerbocker Soon Will Leave El Paso

On account of his wife's health, Rev. P. R. Knickerbocker, pastor of Trinity Methodist church, soon will leave El Paso.

Mr. and Mrs. Knickerbocker will go to Los Angeles next Monday, where they will get a cottage for the summer. The pastor will remain on the coast a month, then return.

"Bob" Jones' union revival will commence the first Sunday in September, and he will be here for this. Then, on October 4, conference will be held at Pecos, Texas, presided over by bishop James E. Dickey.

Mr. Knickerbocker will go to the conference, and there will be transferred to some city in east Texas, probably. Then he and Mrs. Knickerbocker will be together at the new pastorate. Mrs. Knickerbocker will return to El Paso before conference time, Mr. Knickerbocker said, but is not sure just when.

The pastor has been at Trinity church for six years. During this time the membership has increased from 850 to 1700, and the church budget has grown from \$10,000 a year to \$32,000.—El Paso Herald.

Wanted—Ten thousand chickens, will pay cash.—J. W. Moore, Pecos, Texas. 44-tf.

RESULTS WATER CARNIVAL

Fancy diving, boys 16 years and under; nine entries—Kermit Allen of Fort Stockton, first; Frank Drummond of Pecos, second, and Quannah Allen, third.

Fancy diving, free for all girls—Estelle Hicks, Pecos, first; Louise Stanley, Pecos, second; Mary Townley, Barstow, third.

Fancy diving, free for all—James Harrison, Pecos, first; Charles Kendall, Pecos, second; Quannah Allen, Fort Stockton, third.

35 yard swim, boys 16 years and under—Kermit Allen, Fort Stockton, first; Quannah Allen, Fort Stockton, second; James Harrison, Pecos, third.

35 yard swim, girls free for all—Frances Hubbard, Barstow, first; Joetta Cowan, Pecos, second; Jane Dean, Pecos, third.

35 yard swim, free for all—Kermit Allen, Fort Stockton, first; Ronald Robertson, Pecos, second; James Harrison, Pecos, third.

Running and swimming race—Kermit Allen, Fort Stockton, first; William King, Pecos, second; Jack Payne, Pecos, third.

Interest Increases At Story Hour

There was an increased number of children present at the story hour Wednesday afternoon at the school building, and the program was enjoyed.

Next Wednesday in the kindergarten department the story will be "How Mother-Nature Cradles Her Baby," given by Mrs. Oram Green. In the primary the story will be given by Mrs. A. G. Waugh.

BRIDGE CLUB

Mrs. Marion Snow Hudson delightfully entertained the Thursday Bridge Club on the afternoon of the club day last week at a beautifully appointed party. Vases of sweet peas and nasturtiums were used as decorations. There were eight tables of players, high score in the games being made by Mrs. W. W. Dean. A refreshing iced fruit drink was served during the games, and at the conclusion of which an ice course was served. The hostess was assisted in serving by Miss Ione Krauskopf.

The following were the guests: Mesdames W. A. Hudson, J. E. Starley, W. N. Sutherland, Monroe Keir, Hugh Robertson, Max Krauskopf, H. B. Prickett, J. B. Howard, W. W. Dean, Chas. Manahans, M. W. Collie, Ralph Williams, Harry Woods, Don Bell, Mabel Beauchamp, Dorothy Heard, Harry Anderson, O. J. Bryan, David Tudor, E. J. Weyer, Carl Smith, Len Bell, Tom Jones, J. A. Drane, Willie Hudson, Walter Browning, W. W. Hubbard, Chas. Kendall, Ethel Reynolds, Wiggate, Campbell, Ratcliff, and Miss Hazel Sparks.

You get your money's worth when you buy Tanlac, because it produces results. Sold by Pecos Drug Co. 1t.

LAND FOR YOU

And a way for you to buy it. We can furnish black, black loam or sandy loam soils. Land with plenty of rainfall, moderate rainfall, or irrigable. Land that is level, rolling or hilly. Land suitable for almost any crop, fruit, vegetable or livestock. Terms easy for real farmers. Some raw lands without cash payment to those who will improve them, and long easy terms of payment. Write for our new booklet.

GATES TIRES

The Tire with the Wider and Thicker Tread

If You Use Tires You Know This—

The cord or fabric in a tire can deliver miles only so long as a rubber tread protects it.

Clearly, a wider and thicker tread—with more rubber in it—wears longer and gives the inside fabric extra protection.

It's perfectly plain, then, why you are getting more miles from Gates Super-Tread Tires. They have a wider and thicker rubber tread.

THE SHORTER BIBLE

The heretical, rationalistic forces do not seem to be satisfied with the wreck they have produced. They are responsible for the late war. They are also responsible for the crime wave sweeping this country and Europe. The orgy of sin and crime can be traced directly to false teachings. Like the vultures they make a feast of the decaying carcass. Not satisfied with murder, expense, wreck, and ruin produced, they have written a shorter Bible which will perpetuate the orgy.

The astonishing thing is that there are leaders connected with the Y. M. C. A., and the Y. W. C. A., who have lent their names and their influence to the infamous hell-born production called the shorter Bible. If the Y. M. C. A. and the Y. W. C. A. organizations permit their names and the names of their leaders to be attached to this abortion, then the righteous, orthodox Christian forces of America should crush the Y. M. C. A. and the Y. W. C. A. Our boys

and girls cannot be entrusted to the leadership or to the educational and club features of institutions drawing their sustenance from the churches of the living Christ, to have the faith of those children undermined by such infamous attacks upon God's infallible Word.

The Shorter Bible, so called, is one of the most blasphemous attacks made upon God's Holy Bible. Let the Y. M. C. A. and the Y. W. C. A. repudiate their leaders or suffer the consequences.

Orthodox, self-respecting, consecrated men and women will not be insulted by such attacks of the rationalistic forces.

TUBERCULOSIS DEATH

RULE DECLINES

"The decline in the death rate from tuberculosis shows that this disease is coming under control. It is advisable for everyone to take an interest in the tuberculosis situation," states D. E. Breed, Executive Secretary of the Texas Public Health Association, "so that the death rate may be still further reduced."

"A successful plan to follow in the battle against tuberculosis must begin with the education of the public. This should be followed by legislation and the removal of bad living conditions."

"If you are interested in the campaign against tuberculosis you can render great service in the following ways:

"By helping secure the establishment of tuberculosis hospitals and camps.

"By supporting public officials in the enforcement of the laws requiring the reporting of all tuberculosis cases by physicians and all other laws and ordinances in regard to public health.

"By urging upon boards of education the employment of school nurses, medical inspection and examination of school children, and open air schools for sickly children.

"By stimulating interest in the development of a strong local public health department and the employment by them of public health nurses and sanitary inspectors."

BOUNDARY DECREE

SATISFIES KEELING

Austin, Texas, June 8.—Attorney General Walker A. Keeling returned today from Washington, where he was present when the United States Supreme Court entered its final decree in adjudicating the controversy between Oklahoma and the Federal Government in that phase of the Red River boundary case.

"The decree was highly satisfactory to Texas," the Attorney General said, "and was in line with our view of the case."

Continuing, Judge Keeling said: "The fact that the court held the remainder of the case under advisement until next term is encouraging to counsel for the State of Texas and we are most hopeful of the result."

"Oklahoma's claims have already been eliminated from the case by the decree entered last Monday and all that remains is for the court to definitely fix the location of the northern boundary line of Texas along Red River. The claims of Texas and the Federal Government conflict to some extent and, now that the court has consented to fur-

ther examine the record and hold its decision in abeyance until next term, makes us believe that the Texas contention is meeting with favorable response and that the court is not inclined to instantly adopt the claims made by counsel for the Federal Government."

It has been the belief that the boundary line will be fixed at the cut bank of the river and that the court will provide some means of having that cut bank definitely designated and the means found to mark it. Precise designation at this time is imperative, think counsel, because the flood waters shift the bank from place to place and thus the boundary line would move with it. The last is to be prevented by permanent markers.

Should the cut bank be adopted by the court as the boundary line, Texas will retain the very large per cent of the oil wells and only a few go to the Federal Government, none to Oklahoma.

SAYS TEXAS RANKS FIRST IN "FIRSTS"

(Continued From Page 3)

granite. Some of these products including salt and silica, are now being produced in commercial quantities.

Texas possesses one of the largest iron ore deposits in the United States. This deposit underlies 5,000 square miles of land in the vicinity of Rank in east Texas, and contains a 60 per cent metallic brown ore. Attempts to develop this deposit have not been very successful to date, due to the lack of a source of fuel, but new processes of retorting lignite are expected to produce an abundance of fuel for this purpose within the next few years.

Other Natural Resources.

Texas produces about 1,500,000,000 board feet of lumber annually, there being about 600 sawmills operating throughout the timber belt of east Texas. The greater portion of this lumber production is pine, though there is a considerable amount of hardwood timber. Texas ranks well up among the states in this industry.

The annual production of oysters from Texas waters has ranged from 34,000 barrels to 103,000 barrels annually during the past ten years. For the same period approximately 4,000,000 pounds of fish have been taken from Texas waters annually by Texas fishermen.

STUART M'GREGOR,
Manager, Research Department,
Texas Chamber of Commerce.

Most of the wilt-resistance tomatoes in the South where Fusarium wilt is prevalent, is being made by the United States Department of agriculture working in cooperation with State agricultural colleges through country agents to improve the varieties of tomatoes grown and introduce the wiltless varieties into new communities.

All the 5 resistant varieties, Marvel, Norton, Columbia, Arlington, and Norduke, sent to boys and girls club members have been grown successfully in many localities where many commercial varieties failed because of wilt. Although these varieties are not immune, they possess enough resistance to insure a good crop if other conditions are favorable. A few reports of failure have been received, but the real cause in all such cases investigated was rootknot, bacterial wilt, or blight. It therefore seems wise to urge the general introduction of these and other wilt-resistant varieties wherever Fusarium wilt is prevalent, says the department.

From three years work already accomplished it seems that these varieties will have to be tested repeatedly to determine which is best adapted to the local needs and conditions of any community; but this is true of varieties of any other crop, it is pointed out. In some gardens the resistant tomatoes were free from blossom-end rot and in no case reported did they suffer more from this disease than the varieties formerly grown.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening Invigorating Effect. 50c.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freesone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off. When Freesone removes corns from the soles or calluses from the bottoms of feet, the skin beneath is left pink and healthy and never sore, tender or irritated. (Advertisement)

WHY

HOME TRADE FALLS OFF

It Always Slumps When Business Is Unbusinesslike

Most business men have this failing—they are swept off their feet when business booms.

We hit prosperity. Then starts the trouble. Everybody buys everything in sight and the merchants are caught in their own trap. They start advertising to beat the band. A riot of selling follows, the merchants OVER ADVERTISE and OVERSELL THE MARKET. Demand for goods keeps up and then comes the trip to the bank to borrow—for expansion. Then What? shortage and rising prices—a riot of buying before prices tilt to the top and a wild spree of advertising to keep the game going.

Suddenly there comes a halt. Buying slows up, and timid unbusinesslike merchants curtail advertising and the buying halt continues. Then advertising is stopped and business becomes stagnant.

When trade needs no stimulus the merchants buy space like drunken sailors, but when trade needs a strong push, they contract.

If business spent one-third the money in advertising when trade is booming and three times the money when trade is poor, business would find stability.

Now is the Time to Advertise Extensively

Don't throw chips on a blazing fire. The wood is needed when the fire is low. Advertising now means a real service to the buying public. The people want to know where and what they can buy economically.

Merchants Get Busy.

"DUST EXPLOSIONS" SUMS UP SEVEN YEARS OF INVESTIGATION

Dust Explosions, a book containing the results of 7 years of investigation by the United States Department of Agriculture, is soon to be issued by the National Fire Protection Association, Boston, Mass., in the interest of reducing fire and explosion losses. The book was prepared by David J. Price and Harold H. Brown of the Bureau of Chemistry of the department, and is expected to be a welcome addition to the meager literature on a subject that has been found of great economic importance to divers industries. It is of interest particularly to manufacturers of dust-producing industries, operators of grain-threshing outfits, coal mine operators, owners of cotton gins, fire and accident insurance, companies inspection departments, engineers, architects, colleges, and libraries.

One of the numerous tables shows that in this country there are now about 21,000 manufacturing plants in which combustible dust is an unavoidable by-product. These factories, always under the menace of loss through dust explosions, annually turn out products to the value of nearly 7 billion dollars. That there is widespread danger has been proved by the occurrence of disastrous explosions of dusts of aluminum, coal, cork, cottonseed, flour, grain, rice, rubber, sawdust, spices, starch, sugar, and sulphur. The authors have investigated every notable dust explosion in the United States and Canada, many of which are discussed in the new publication.

Chapters are devoted to nature and theory of dust explosions, industries producing dust and their extent, elimination of sources of ignition, prevention of explosions by control of explosive mixtures, phenomena of explosions, dust collection and removal, static electricity, explosions in grain threshing machines, plant construction, cotton gin fires, coal dust explosions, and review of explosions.

THE BOLL WEEVIL HAS HIS LITTLE FAULTS BUT HE DOESN'T WEAR A SHEET AND OPERATE AT NIGHT.

COL. JOHNSTON DENIES 18TH AMENDMENT IS PEOPLE'S

Now as a matter of historical truth the people have never expressed their will as the subject of the Eighteenth Amendment. They were not given the opportunity to do so. To the contrary, they were by a factional Congress expressly denied that privilege.

When the amendment was pending a substitute was offered providing that the question should be submitted to State conventions instead of to State Legislatures. This would have brought the subject of national prohibition fairly and squarely before the people of various States in contests for election of delegates to the conventions. Bear in mind that this alternative, as offered in congress, is provided for in the manner of amending or changing the Constitution.

But no. Under the whip and spur of an all powerful lobby this substitute was defeated; and thus the right of the people to express themselves as to a material change in their governmental affairs, a right fundamental in our form of government, was progressively, and I think criminally, stamped upon.

The Eighteenth Amendment is an accomplished fact. We must submit but for the sake of truth and consistency quit talking about the "will of the people" in that connection.

You say further: But a proposal to amend the Volstead act so as to permit the sale of beer and light wines is not entitled to respectful consideration, because it is a proposal to have Congress do something which the Constitution forbids it to do."

In this The News seems to have lost sight entirely of the plain intimation of the Supreme Court to the effect that Congress could modify the Volstead Law without doing violence to the Eighteenth Amendment.

But be that as it may, I submit that the refusal by a fanatical Congress to permit the people of this country to express their will on the subject of the Eighteenth Amendment was and is far more deserving of censure than would be any proposal that I have noted to amend the Volstead Law.

R. M. JOHNSTON.

Houston, Texas, May 30.

Why Business is Now Dull.—"I've got a lot of things I want to talk to you about, dear," said the wife. "That's good," answered the husband; "you usually want to talk to me about a lot of things you haven't got."—Tit-Bits.

\$2.50 PER YEAR.

The Sunday edition of the El Paso Herald which contains 8 full pages of comics, 6 of which are in 4 colors; 2 pages of "Herald Junior" for boys and girls, and 2 pages of magazine features, together with 24 pages of news and other good reading matter, is now sold to mail subscribers at \$2.50 per year.

Every ranchman and every household in the Pecos Valley ought to have the big Sunday El Paso Herald, the greatest newspaper value for the money in the southwest.

W. Beisang, W. C. Heller, F. M. Rutten, and H. B. Baillie, as its trustees, Antonio De Pasquale, A. V. De Pasquale, Henry Deutsch, Abner Davis, Trustee, W. A. Hudson, M. P. Carlock, El Paso Printing Company, Krakauer Zork Company, Ben Williams, Tom Simmons, Pecos Land Company, A. P. Foster, J. O. Childers, George A. Rathburn, Paul C. Krank, W. C. Best and R. E. Alston, for the sum of Eight thousand three hundred thirty-two and 50-100 Dollars (\$8332.50), with interest thereon from May 29, 1922, at 6 per cent per annum, and costs of suit, in cause No. 2231, in said court, styled L. H. Lamkin, Plaintiff, versus H. S. Dunn, Christian Dubach, Laura E. Dubach, Unknown Heirs of Emma C. Meierhoffer, deceased, Reinhold Meierhoffer, Charles K. McKnight, Laura A. McKnight, Henry H. Murphy, Jesse D. Murphy, B. T. Biggs, Alfred Tinally, Jno. B. Howard, Sunshine Oil Corporation, Pierre P. Freyman, Federal Service and Development Systems, Inc., Federal Service System, not inc., a common law trust estate, with its trustees, Henry Deutsch, A. W. Beisang, W. C. Heller, F. M. Rutten, and H. B. Baillie as its trustees, Antonio De Pasquale, A. V. De Pasquale, Henry Deutsch, Abner Davis, Trustee, W. A. Hudson, M. P. Carlock, El Paso Printing Company, Krakauer Zork Company, Ben Williams, Tom Simmons, Pecos Land Company, A. P. Foster, J. O. Childers, George A. Rathburn, Paul C. Krank, W. C. Best, and R. E. Alston, Defendants, and placed in my hands for service, I, E. B. Kiser, as Sheriff of Reeves county, Texas, did, on the 8th day of June, 1922, levy on certain real estate, situated in Reeves county, Texas, described as follows, to-wit:

All of section Thirty-five (35), block Four (4), H. & G. N. R. R. survey, Reeves county, Texas, less the right-of-way of the Pecos Valley Railroad, and the right-of-way of the Pioneer Canal Company—said rights-of-way heretofore deeded to said companies.—Said real property levied upon as the property of said Defendants. And on Tuesday, the 4th day of July, 1922, at the court house door of Reeves county, in the town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said Real Property at public vendue, for cash, to the highest bidder, as the property of said defendants and by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Pecos Enterprise and Times, a newspaper published in Reeves county, Texas.

WITNESS my hand, this 8th day of June, 1922.

E. B. KISER, Sheriff Reeves County, Texas. By R. G. MIDDLETON, Deputy.

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain Order of Sale, issued out of the Honorable District Court of Reeves county, on the 5th day of June, 1922, by the Clerk of said court against H. Robbins, et al., for the sum of sixty-two thousand seven hundred and sixty-one (\$62,761.67) dollars and sixty-seven cents and costs of suit, in cause No. 2109 in said court, styled William Ikins versus H. Robbins, Gansviene Robbins, J. G. Love, T. Y. Casey, L. W. Anderson, W. D. Cowan, Mrs. Zemaiah Johnson, Mrs. B. R. Stine and W. D. Johnson, Executor, and placed in my hands for service, I, E. B. Kiser, as Sheriff of Reeves county, Texas, did, on the 5th day of June, 1922, levy on certain Real Estate, situated

in Reeves county, described as follows, to-wit:

The S $\frac{1}{2}$ and NE $\frac{1}{4}$ of section No. 161; all of sections Nos. 162, 176, 177, 178; an undivided one-half interest in and to sections Nos. 293, and 303; the E $\frac{1}{2}$ of section No. 292, all in block No. 13, H. & G. N. R. Company's survey, and an undivided one-half interest in all the unsold town lots and blocks of the townsite of Saragosa, Texas, situated on section 96, block 13, H. & G. N. R. Company's survey, said Reeves county, Texas, and levied upon as the property of said defendant H. Robbins. And on Tuesday, the fourth day of July, 1922, at the Court House door of Reeves county, in the town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said H. Robbins, by virtue of said levy and said order of sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Pecos Enterprise, a newspaper published in Reeves county.

WITNESS my hand, this 5th day of June, 1922.

E. B. KISER, Sheriff Reeves County, Texas. By R. G. MIDDLETON, Deputy.

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain Order of Sale, issued out of the Honorable District Court of Reeves county, Texas, on the 5th day of June, 1922, by the Clerk of said court against William H. Barry, et al., for the following sums of money, to-wit: In favor of Virgil B. Mays for the sum of \$6119.95, with 7 per cent interest per annum from May 30th, 1922, and in favor of said Virgil B. Mays for the sum of \$489.65, with 6 per cent interest from said date, and in favor of Albert Peterson, intervener, for the sum of \$373.91, with 7 per cent interest from said date, and all costs of suit, in cause No. 2141 in said court, styled Virgil B. Mays versus William H. Barry, et al., and placed in my hands for service, I, E. B. Kiser, as Sheriff of Reeves county, Texas, did, on the 6th day of June, 1922, levy on certain real estate, situated in Reeves county, Texas, described as follows:

All of section No. One (1), in block No. Six (6), H. & G. N. R. Company's survey, and containing 640 acres, in said Reeves county, Texas, and levied upon as the property of the defendant, J. C. Shirley. And on Tuesday, the fourth (4th) day of July, 1922, at the Court House door of Reeves county, Texas, in the town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said J. C. Shirley, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in the Pecos Enterprise, a newspaper published in Reeves county, Texas.

WITNESS my hand this the 7th day of June, 1922.

E. B. KISER, Sheriff Reeves County, Texas. By R. G. MIDDLETON, Deputy.

SHERIFF'S SALE

The State of Texas, County of Reeves.

By virtue of a certain Order of Sale issued out of the Honorable District Court of Reeves county, on the 8th day of June, 1922, by S. C. Vaughan, Clerk of said court against Unknown Heirs of R. E. Lunsford, deceased, for the sum of Five thousand five hundred seventy-three and 33-100 (\$5573.33) dollars interest from May 29, 1922, at the rate of 8 per cent per annum and costs of suit, in cause No. 2154 in said court styled John J. Bush versus Unknown Heirs of R. E. Lunsford, deceased, and placed in my hands for service, I, E. B. Kiser as Sheriff of Reeves county, Texas, did, on the eighth day of June, 1922, levy on certain Real Estate, situated in Reeves county, Texas, described as follows, to-wit:

That certain 100 acres tract of land out of section 219, block 13, H. & G. N. R. survey, Reeves county, Texas, deeded to R. E. Lunsford by John J. Bush by deed of date January 23, 1919, and levied upon as the property of said Unknown Heirs of R. E. Lunsford, deceased. And on Tuesday, the fourth day of July, 1922, at the Court House door of Reeves county, in the town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said real property at public vendue, for cash, to the highest bidder, as the property of said Unknown Heirs of R. E. Lunsford, deceased, by virtue of said levy and said Order of Sale.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks, immediately preceding said day of sale, in the Pecos Times and Enterprise a newspaper published in Reeves county, Texas.

WITNESS my hand, this 8th day of June 1922.

E. B. KISER, Sheriff Reeves County, Texas. By R. G. MIDDLETON, Deputy.

THE PECOS ENTERPRISE

PERSONAL

John H. Boogher of Grandfalls is spending a few days in our city.

Miss Mary Caroline returned last week from Stanton where she taught the past year.

Lee Ligon returned Sunday from east Texas where he had been for several days on a business trip.

Mrs. Brown Seay and sons, came over from Toyah Thursday and are the guests of Mrs. Joe Seay.

Mrs. Max Krauskopf and children will leave today for Cisco where they will visit relatives for the remainder of the summer.

The Little Misses Annie Lou and Wylie Sue Cole are visiting their grandparents, Rev. and Mrs. J. B. Cole, and other relatives in El Paso.

Mrs. Donley has returned to her home at Austin after a visit of a few weeks to her daughter, Mrs. Oscar Buckholz and family.

I. L. Barlow of Balmorhea, spent Sunday with his mother, Mrs. M. E. Randolph. He was accompanied by his son, Lee Barlow.

T. W. Slack, president of the North Texas Trust Company at Fort Worth, was in Pecos Monday and Tuesday.

Add Owen left last week on a prospecting tour up in Arizona. Mrs. Owen and Addison, Jr., are visiting her parents in Carlsbad, New Mexico.

C. E. Smyer, Superintendent of the Pecos Division Santa Fe railway, accompanied by his wife and daughter, were visitors in Pecos last Saturday.

Miss Jennie Drummond left Friday for Hereford in response to a message from her sister, Mrs. R. V. Rogers, that she was ill and would undergo an operation in the next few days for appendicitis.

A card from Miss Oro Pruett, postmarked Willets, California, says she is having a wonderful trip and will leave this week for San Francisco, and thence to Hollister to visit her sister, Mrs. Joe Hedgpeth.

Jim Seanlan was over this week from Toyah meeting with the county commissioners in an effort to adjust damages to his pasture by virtue of the cutting off of quite a strip of his pasture by the Bankhead Highway and also throwing open his pasture.

Mr. and Mrs. W. F. Jackson and little daughter were Pecos visitors Wednesday and took in the barbecue and festivities. Mr. Jackson is a telegraph operator and is on his way from San Angelo to Alpine where he takes a situation with the Orient as chief operator.

Mr. and Mrs. J. C. Wilson spent a few days the early part of the week visiting relatives in Loving and Carlsbad, New Mexico. They were accompanied home by Miss Ethel Herring and Miss Louise Moore of Carlsbad, nieces of Mr. Wilson's, who will be their guests for a few days.

There is not a single portion of the body that is not benefited by the helpful action of Tanlac. Sold by Pecos Drug Co. 1t.

If you want to sell your chickens and eggs for cash see J. W. Moore, Pecos, Texas. 44-tf.

The big reputation of Tanlac has been made by doing what other medicines failed to do.—Pecos Drug Co. 1t.

R. C. Warn has been confined to his bed since Saturday with a severe spell of rheumatism.

W. R. Birdwell, staunch stockman of the Pyote country, was in town today attending to business matters.

Mr. and Mrs. Frank J. Billingsley were among others from Toyah to attend the celebration here this week.

Mrs. R. E. Miller has been seriously ill since the forepart of the week but was reported somewhat improved as we go to press.

Arnold Totter and brother, James, of Saragosa, were visitors at the Enterprise plant today. They were very much interested in the fully equipped machinery and received some idea of the labor required to print a newspaper.

The speech of young Bud Baker, son of Mr. and Mrs. Bob Baker of Saragosa made at the candidates speaking on Thursday has received many compliments. He made a hit with the ladies especially. At the windup when he closed by saying, "Vote for Kiser," it was a pleasing surprise to the many hearers, since his theme was the duty of officers. Several ladies have pronounced his speech as "Masterly and well rendered."

Word to friends from Mrs. Kyle Thursday morning is to effect that Sid who is in a sanitarium in Los Angeles, rested well the night before and apparently was some better than when she arrived there late last week. Although yet very ill, the news that he was better will be read with pleasure by the many friends of the Kyle family. Mrs. Kyle and son, Mack, left late last week to be with him on hearing that he was critically ill. Sid Kyle has many friends in this section of the country who are hoping that he may recover and return home. He is one of our most respected stock men.

Woodie Browning left the early part of the week for the State Bankers' Convention now in session in Waco. En-route he stopped off at Fort Worth and took in the State Tennis Tournament which held forth there the early part of the week and as usual he carried off some of the laurels. In the opening round Monday between W. H. Browning, Jr., of Pecos, and O. Y. Miller of Gorman, Mr. Browning won in consecutive sets, 6-3, 6-2. Walter Browning is also one of the champion players of the state and only the fact that it was impossible for both of them to get away at the same time, prevented him from attending.

Hon. Tom Garrard came in this morning from San Angelo where he had been on legal business which prevented him from attending the big barbecue yesterday, intending to spend the day with the picnic crowd. Upon his arrival he was handed a telegram from his wife who is in Midland, stating that one of the men working on his ranch, a Mr. Browning, had just had his hand cut-off in a gasoline engine. Tom left for Midland on the afternoon train. He stated to the Enterprise that he regretted very much his having to leave at this time but that he would do his duty to his man. Tom is candidate for district judge and has flattering encouragement from every corner of the district, according to his statement to the editor. Tom is a mighty fine fellow and has many friends wherever he is known.

Piles Cured in 6 to 14 Days
Druggists refund money if PAZO OINTMENT fails to cure Itching, Bleeding or Protruding Piles. Instantly relieves Itching Piles, and you can defecate freely after the first application. Price 60c.

MASON LODGES

ELECT OFFICERS
According to High Priest W. A. Hendricks of the Pecos Royal Arch Chapter, No. 218, that lodge is in splendid condition at this time and the attendance is all that could be desired. They now have a membership of about 80 and at the last meeting about forty were present. Mr. Hendricks says he believes this lodge to be one of the best, if not the very best, in the state.

At the meeting on June the 9th the following officers were elected:
W. A. Hendricks, High Priest—re-election.

W. W. Camp, King.
B. A. Toliver, Scribe.
J. G. Love, Treasurer.
W. W. Rhulen, Secretary.
There are about seven other offices to be filled by appointment but these appointments will not be made until later at which time publicity will be given.

BLUE LODGE
At a meeting of the Blue Lodge on June 10th at which there was a representative attendance, the following officers were elected:

B. A. Toliver, W. M.
Dr. O. J. Bryan, S. W.
Max Otto, J. W.
E. L. Collings, Treasurer.
W. W. Rhulen, Secretary.
R. N. McCarthy, Tyler.

There are about four appointive offices in this lodge which have not yet been supplied. The Blue Lodge boasts of a membership of ninety-nine, and as in the Chapter peace reigns supreme and there is a splendid attendance at each and every meeting.

Mr. Hendricks informs the editor of the Enterprise that the two lodges now own a half interest each in the old Mathis building which was purchased about two years ago. They originally were to pay \$3,500 for the building and now have all but about \$500 of that amount liquidated, besides having done quite a little in improving the property. An installation of officers will take place on June 24th.

OCHOA COUNTRY

LOOKING GOOD
A letter from J. R. Alexander from Ochoa, N. M., says, "As I haven't received the Enterprise for two weeks I guess time is up so enclosed find check for \$1.25, and if you ever eat anything I'll try to bring you something for extension of time in the way of peaches, dry land watermelons, cantaloupes, roasting ears, butter or a piece of my old sow, as she is getting fat. I think all will come in in August. Just had a fine rain and everything is promising out here, only money."

Mr. Alexander was correct as to the subscription having expired. In this case the editor of the Enterprise is going to break over a rule which he has long since made never to trade either the paper or advertising for anything but money. The editor has one of the very best registered Jersey cows in the county, and therefore has plenty of milk, butter and cream, and has a cantaloupe and roasting ear patch which promises a good supply of that commodity, but the watermelons, peaches and a portion of that "old sow" is too tempting to refuse. Just bring them along, Bro. Alexander, and you may set your dates as far ahead as you like with these, and maybe get a little coin with which to buy coffee besides.

The editor is glad everything is promising in your neck of the woods "only money." It may be well that that is not "promising" since you might get fixed to use some of it, and fall down. The editor is promising money so long that it is getting to be a joke, since it appears that nothing but promises go in this day and time. Hurry up the peaches and watermelons and bring them along and the editor and family will have their mouths fixed for them when they arrive.

STORK GETS BUSY IN PECOS DURING WEEK

This week and last the Stork has visited Pecos and while here made three Pecos homes happy by leaving as many boys to bless these homes:

On Tuesday of last week a bouncing baby son was born to Mr. and Mrs. Elmer Jones.

On Tuesday of this week, June 13th, Mrs. G. L. Selman presented her husband with a bouncing son—a little daughter being stillborn at the same time.

On Tuesday morning of this week which was also the 13th day of the month, the stork left a fine, perfectly developed and beautiful seven and one-half pound son at the home of Mr. and Mrs. B. H. Palmer.

Reports are to the effect that all concerned are doing well and the youngsters are as fine as could be hoped for. The Enterprise extends congratulations to the happy parents.

Wanted all the chickens and eggs I can get.—J. W. Moore. 44-tf.

Hon. W. W. Stewart was here from Balmorhea and made a talk at the Candidates Day celebration. Mr. Stewart made a good talk and settled the question as to his making the race for re-election to the office or representative. Stewart has made good in that office and has done much for the good of this section of the country and our people should give him a solid vote for that office.

Veteran Editor Dies at Home in San Angelo

J. G. (Pat) Murphy, one of the veteran editors of the state and one of the best and most beloved, is dead at his home in San Angelo. He was not only a fine newspaper man and knew how to mix with the people and get the news and after he had gotten it write it up, but he knew how to boost his town and his people. In the loss of Pat Murphy San Angelo loses one of its most influential citizens and one of its best citizens as well. An article sent out from San Angelo and published in the state press about this worthy citizen follows:

San Angelo, June 13.—John George Murphy, 64, former owner and publisher for 36 years of the San Angelo Standard, died here today after four weeks' illness.

The paper, which was established by Murphy as a weekly with a hand press in an adobe shack when San Angelo was only a frontier village, dependent on old Fort Concho, and developed into a daily with modern equipment, will suspend publication Wednesday for the funeral at 5 o'clock. Courthouse offices also will close. Murphy had been a Tom Green county commissioner since his retirement from the newspaper field.

Besides his widow he is survived by the following: Daughter, Miss May Murphy; sister, Mrs. B. J. Boyle of Toronto, Canada, and one brother, Steve Murphy of Sonora, publisher of the Devils River News there. Murphy at one time was mayor of San Angelo. He was an Elk and Mason. Tributes to his life of usefulness were numerous today.

PECOS HAS A CHANCE FOR TEACHERS' TRAINING SCHOOL

Rev. L. L. Thurston was the only one from Pecos to attend the Teachers' Training school in El Paso the last week and a portion of this week. He reports about one hundred in attendance and a good work which will do much toward the efficiency of the Sunday School work in the future.

He states that in all probability there will be several such schools over the territory covered by this school another year and that Pecos had a very good chance of obtaining one of them.

To Stop a Cough Quick take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trade Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 25c. Just ask your druggist for HAYES' HEALING HONEY.
