CONFERENCE CLOSES MOST INTERESTING SESSION WITH READING OF APPOINTMENTS

That is said by many ministers in attendance to be one of the most delightful sessions of the New Mexico Annual Conference ever held came to a close last Sunday night with the reading by Bishop James E. Dickey of the assignments of the pastors of their work for the next year. Pecos did herself proud in the entertainment and so far as this editor has learned the entire session was pleasant and the entertainment as good, if not better, than is the custom of towns to entertain.

There were fewer changes made in the pastorate this year than common. The Rev. Allison was given the presiding eldership of the El Paso district while the former presiding elder of the El Paso district, the Rev. C. K. Campbell, was sent to the Roswell church. The Rev. L. L. Thurston was returned to Pecos to finish his work here, and it is not out of place to say that his congregation was delighted. He has done a splendid work here and is not only a fine preacher but a good man who makes and holds the friendship of all who keep their church vows, to say the least.

Marfa was unanimously selected as the next place of meeting and the conference voted unanimously to have Bishop Dickey returned to hold the p. aside over the session then.

Sunday morning the church was filled when Bishop Dickey preached from the Second Epistle of Peter, third chapter and last verse. "Grow in grace and the knowledge of the Lord Jesus Christ."

The Bishop proceeded to the ordination of young preachers to the office of deacon. The candidates were J. O. Cox, W. A. Fulbright, D. T. Knight and W. R. Bennett.

The conference met at 3 o'clock for a memorial service, Rev. W. S. Huggett presiding.

Candidates Admitted.
Saturday the conference admitted into full connection the candidates for the ministry who had served two years and passed the necessary examination. These candidates were J. O. Cox, of Clint, W. A. Fulbright, of La Mesa, and D. T. Knight, of Taiban. It was noted that one preacher had withdrawn from the ministry and joined the Baptist church.

The superannuates of the conference are J. A. Trickey, who is living at Nashville, Tenn., and W. H. Duncan, who is in a sanatorium at Dallas.

Rev. A. C. Searey was placed in the supernumerary list. Some allowance is made to the superannuates and to the widows of preachers, of which there are two, both resident in New Mexico. One minister, R. H. Evans, was discontinued at his own request. Dr. J. R. Gray, who represents the Methodist orphanage at Waco, Texas, gave an interesting account of the work, stating that their property was worth \$100,000; are caring for 100 more children this year than last, and were rapidly making provision for 100 more.

There are about 500 children in the institution at the present time.

New Publishing Contract.
The conference adopted a committee report to support the joint board of publication in making a new contract for printing and publishing the Texas Christian Advocate.

Another discussion arose upon the report of the commission on finance regarding the increase of the assessments, which has become imperative.

Sunday afternoon there were memorial services for two deceased preachers and the wife of Rev. J. T. Redmon, of El Paso. The preachers names are J. H. D. Terral, who died three days before the conference, and Geo. S. Givan, who died about three weeks after last year's conference.

The preachers received their appointments for the next conference year as follows:

Albuquerque district: J. B. Cochran, presiding elder; Albuquerque, N. M.; C. C. Higbee, Carrizozo; J. E. Fuller, Alamogordo; J. H. Walker, Deming; J. M. Glazier, Fort Bayard; R. C. Edwards, Gallup; J. W. Hendrix, Gallup; Grandy-Bellview, W. B. Simmons; Hot Springs, to be supplied; Lordsburg, W. H. Vanderpool; Magdalena, R. A. Crawford; Melrose, C. V. Williams; Moriarity, M. E. Gardner; McAllister, to be supplied; San Marcial, L. B. Ellis; Santarita, W. R. McPherson; Taiban, W. R. Fulbright; Tucumcari, W. G. Gaston; Tularosa, Cloudercroft, A. J. Brown; Vaughn, L. W. Carleton; missionary western Mexican mission, W. D. King.

Clayton district: J. H. Messer, presiding elder; Bernalillo, Santa Fe and Trapp; Veda Davis; Clayton, E. H. Miller; Clayton, J. H. Evans;

INTERESTING FACTS ANENT SUL ROSS' NORMAL

The Sul Ross State Normal College opened its third term September 26, 1922. An analysis of the enrollment shows the following facts: The number of students enrolled to date is 140. This does not include the children who constitute the training school. Of these there are five grades, aggregating 49 children. This enrollment of 140 is 60 above the enrollment for the same time last year, which is an increase of 75 per cent. The average age of the student body is 19-1-5 years. There are 37 men and 103 women. These represent 36 counties and two states. The parents of these students represent 23 occupations. There being 40 ranchmen, 24 farmers, 11 teachers, and the remainder are bankers, contractors, etc.

When students enroll they are asked to indicate their church membership or preference only. This information is voluntarily supplied. Only seven failed to indicate their church relationship. Analysis shows the student body to consist of: Methodists 44; Baptist 38; Christian 24; Presbyterian 12; Church of Christ 4; Episcopalian 6; Catholic 2; Christian Science 1; Nazarene 1; Lutheran 1; None 7.

The grand total number of students under the care of the faculty, training school, normal school, and normal college, totals 189.

At present the students are housed in good comfortable homes and are well cared for. One great need of the institution, however, is a dormitory for women which will adequately care for at least 100 students. With this for a beginning, the housing problem could be easily taken care of as the student body grows.

The winter term begins January 2, 1923, at which time a considerable increase in the enrollment is expected.

BEAUFORD-GROGAN
Richard Beauford and Miss Mae Grogan were married Monday evening at the Methodist parsonage. Rev. L. L. Thurston officiating.

The bride is the youngest daughter of Mr. and Mrs. J. F. Grogan, is a beautiful and practical young woman and was a member of the Senior class of the Pecos High School this year. Mr. Beauford is said to be a most excellent young man and is of sterling worth.

They visited the early part of the week his parents at Buena Vista. They will return to Pecos today and will leave soon for Santa Anna where he has employment and where they will make their home.

The Enterprise extends congratulations and wishes for them much joy and happiness.

Roswell district: J. C. Jones, presiding elder; Artesia, R. F. Davis; Acme-Inex, Paul Moon; Carlsbad, A. C. Douglas; Clovis, F. B. Faust; Clovis, W. B. Gilliam; Dexter-Lake Arthur, C. H. Hatfield; Elida, L. E. Conkin; Hagerman, J. S. Rice; Hope-Loving, Z. B. Moon; Lovington, W. M. Beauchamp; Odessa-Barstow, J. W. Rayner; Ochoa, C. W. Ely; Pecos, L. L. Thurston; Portales, J. J. Richards; Queen, J. D. Terry; Roswell, C. K. Campbell; Sacramento, A. L. Means; Tatum, J. N. Webb; Texico-Farwell, H. W. Carter; conference evangelist, R. B. Freeman; missionary western Mexican mission, Dorney Newborn.

FARMERS' DAYS OCTOBER 20-21 TO OUTSTRIP ANYTHING EVER ATTEMPTED IN CITY OF PECOS

The Pecos Chamber of Commerce has perfected plans for a big Farmers' Day program on October 20 and 21 which bids fair to outstrip anything ever attempted in the city of Pecos.

A big, fully equipped farm wagon will be given away by the Pecos Chamber of Commerce absolutely free, and special prices will be made at all stores on this date and special sales will be put on by some other stores together with a free matinee at the Rialto theatre on each afternoon. The garages announce that they will give away many valuable automobile accessories to those coming from out of town.

By special arrangement with the numerous cotton buyers having headquarters at Pecos, the Pecos Chamber of Commerce will also guarantee top prices on all cotton sold in Pecos on these two big days.

The Union Gin Company will knock \$1.00 per bale off their regular prices on all cotton ginned by them on Friday and Saturday, October 20th and 21st, Farmers' Day in Pecos.

You cannot afford to miss the great benefits offered you in Pecos

on Farmers' Days; you will find specially low prices at all the leading stores, shops and garages. Lot's of free entertainment.

Aside from the above the Pecos band will furnish music and the fire department will give a free exhibition each day.

All in all this promises not only to be a gala day for all farmers who come to Pecos on this occasion, but the low prices which will be placed on all merchandise by the merchants of the town as well as the donation by the Pecos Chamber of Commerce of a farm wagon valued at approximately \$200 will make it worth your while to attend and while here you can make a great saving of money by purchasing your supplies and putting the difference in another suit of clothes or in the bank, just as you like it.

At any rate you cannot afford to miss this opportunity to take a needed rest from your labors and while having a sort of vacation or picnic make a substantial saving of money by buying while the prices are right. Come and have a good time once in your life at the expense of the Pecos Chamber of Commerce.

SEES SERIES FREE

James P. Hon, a St. Louis salesman, was given a complete free trip to see the World Series games by Pres. Ban Johnson of the American League. Hon explained how Wieg a Yank player, was knocked unconscious in a final St. Louis game when in running he stepped on the neck of a pop bottle, which flew up, hitting him in the head.

BAPTIST LADIES RENDER INTERESTING PROGRAM

An all day meeting of the W. M. A. of the Pecos Valley Association was held at Toyah Friday, October 6. While the association proper was in session at the Baptist church the women held their meeting in the Presbyterian church.

The following program was rendered: Devotional—Mrs. T. J. Hefner.

Prayer—Mrs. E. L. Collins.

Welcome Address—Mrs. B. F. Powell.

Response—Mrs. T. W. Lehear, El Paso.

President Address—Mrs. R. D. Blaydes.

Special Music—Mrs. Finley Homes and Miss Irene Andrews.

Appointment of Committees.

Adjournment until afternoon session.

During the noon hour the Toyah ladies served lunch to all present.

We were called to order again at 2 o'clock. Mrs. T. W. Lehear led the devotional. Mrs. Fred Johnson led in prayer.

Then came a talk on the 75 million campaign by Rev. Jeff Davis, Field Secretary for West Texas. Business followed.

A constitution and by-laws was adopted.

Report of Secretary and Treasurer—Mrs. Stanley Wilson.

Report on Missions—Mrs. Finley Homes.

Talk by District Chairman of Missions—Mrs. Howell Johnson.

Report Personal Service—Mrs. A. J. Adcock followed by general discussion.

A very unique program on religious literature was rendered by a group of Toyah children.

Report on Benevolence—Miss Edna Harris.

Very interesting talk on the "General Plan of Woman's Work"—Mrs. T. W. Lehear, of El Paso.

Sunbeam Report—Mrs. Fred Johnson.

Report of Obituary Committee.

Report of Nominating Committee was adopted as follows:

President—Mrs. R. D. Blaydes, Fort Stockton.

Vice President—Mrs. G. C. Parker, Pecos.

Recording and Publicity Chairman—

TOYAH-BELL CUTS ANOTHER CAPER—BELL WELL RUNS ON OWN GAS—OTHER OIL NEWS OF FIELD

PROPOSED DAM AT RED BLUFF WILL COST \$1,894,500

People of the Pecos Valley who are interested in the Red Bluff Reservoir proposition, and that includes not only those who own land under this project in Texas but everyone who lives in this section of the state, will be interested in the figures submitted by Vernon L. Sullivan consulting engineer, in regard to the cost of construction and published in the El Paso Herald of the 12th instant as follows:

Cost of the proposed dam at Red Bluff, N. M. which would create a storage reservoir with 300,000 acre feet capacity will be \$1,894,500.

This estimate is contained in a report just completed by Vernon L. Sullivan, consulting engineer, which will be presented this week to the Pecos Valley Water Users Association of Texas. R. H. Gray, of Buenavista, is president, and W. H. Browning of Pecos, is secretary.

Would Irrigate 90,000 Acres.

The site of the proposed dam is just north of the New Mexico-Texas state line. The normal flow of the Pecos river is caught by the Carlsbad irrigation project and stored. It is proposed to store flood water in the Red Bluff reservoir. Measurements taken since 1913 show an average of 407,500 acre feet of water flow past the Red Bluff site each year.

Mr. Sullivan estimates the dam would make possible storage of water to irrigate 90,000 acres in Texas. Under the project are now eight small irrigation projects. The projects are the Arno, Porterville, Farmers Independent Canal System, Cedarvale, Barstow, Grandfalls, Imperial and Zimmerman.

Three Plans On Foot.

Three means are suggested for building the dam. One is inducing the federal government to make of it a reclamation project, the second is to form a financing company from the water users, and the third is to await action of the state legislature which Mr. Sullivan believes will make provision for aiding projects like the Red Bluff.

At one time there was sufficient water to irrigate most of the lands, Mr. Sullivan says, but new developments in New Mexico have cut down the water supply until many of the Texas farms are being abandoned and storage of flood waters has become necessary.

THE TOYAH-BELL WELL

Thursday afternoon the Toyah-Bell broke loose once more of its own accord and spouted gas stronger than at any time in its history, and it is said the sounds of escaping gas could be heard at Arno, about four miles distant. This well has been pumped for some time. It is said it is pumped all the time not taken up in pulling the rods and putting on new leathers—which is about half and half—and it continues to hold up at from thirty to fifty barrels every twenty-four hours.

Many of our citizens believe that if the casing had been out of the way or the spear removed from the casing that it would undoubtedly have blown itself in last night when the gas was so strong. This is certainly something different from any oil well known to the oil fraternity. That it is an oil well which would prove a wonder is not questioned by those who have watched its maneuvers from the time the oil sand was first struck. Had it been shot at that time it would have proved to the world the Pecos oil field.

THE BELL WELL

Very satisfactory progress is now being made at the Bell well which is drilling at approximately three thousand feet in a hard lime formation with the hole in excellent shape.

This well is using natural gas from the well entirely for fuel, and so far as we know, is the only well west of the Ranger district firing its boiler entirely on gas from the well, with enough surplus gas to fire any number of boilers not being utilized.

Use of gas as a commercial proposition in Pecos and vicinity is something worthy of serious thought and consideration—there can be no question of the immense benefit both generally and financially that natural gas would bring to Pecos.

The great volume of gas from the Bell well has proven to be not merely a pocket of gas that exhausts itself in a short period of time, but is a great volume of gas, under great pressure that has been coming steadily from this well without any cessation, under the most adverse circumstances and conditions for more than six months, and which shows no sign of decreasing in strength or volume.

In addition to its indication of the existence of a great oil pool in the vicinity of the Bell well, this gas alone has great commercial possibilities that should make it well worth the serious consideration of everyone interested in Pecos and its future, by the very fact of its actual existence, and the positive knowledge of its great and continuous volume.

THE LAURA WELL

Work at the Laura well has progressed slowly since last week and no footage has been made. The time has been spent in repairing the machinery and in fishing for a lost pipe which became unjointed, according to best reports obtainable. It is said they were to resume drilling today and when forced to close down for repairs were in a new formation and making new hole and the hope is entertained that since this is a fact that they have passed or will pass all obstructions without further trouble and that in a few days they will be able to tell a very different story.

WILLOUGHBY WELL

On account of recent decisions handed down by the Texas courts in which the stockholders of companies are held liable, both personally and collectively, for indebtedness, Mr. Willoughby, president of the Willoughby Petroleum Company announces that no further drilling will be done until the money is in the bank to pay for the footage. It is generally admitted that Mr. Willoughby is in dead earnest in his efforts and believe they will open a most prolific field and while all are anxiously hoping and praying for relief, that oil alone seems to promise, it is very apparent that the best interests of the stockholders as well as the country are being protected and it seems a pity as well as an injustice that men of this caliber should be denied funds and ample funds with which to keep the drills pounding. Read their ad.

HERSHENSON WELL

Drilling is being resumed at the Hershenson well today. A broken bit has delayed drilling for the past two weeks. It is now hoped that no further delay will result from broken bits, as a good job was made by the El Paso Foundry in repairing this bit the second time during the last 30 days. Although rather slow, everything is moving along nicely, so states Mr. Landrum.

Jungle Man Comes Wearing Gloves.

This is a new and most recent picture of Battling Siki, the Tunis Algeria jungle man who knocked out the European champion, Georges Carpentier, in six rounds at Paris, and is now coming to the U. S. He wants to fight Dempsey, but will be forced to show his class against some lesser light, maybe Harry Greb or Kid Norfolk.

Over 350,000 farmers, according to reports to the United States Department of Agriculture, introduced legumes, principally soy beans, cowpeas, velvet beans, and alfalfa into their cropping system as a result of demonstrations in the use of legumes in soil improvement given in 1921 by agricultural-extension agents.

You get a whole year's reading of the Pecos oil field through the Enterprise for \$2. Send it to a friend.

ASPIRIN

Say "Bayer" and Insist!

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

- Colic, Toothache, Earache, Neuralgia, Headache, Lumbago, Rheumatism, Pain, Pain. Accept only "Bayer" package which contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic Acid.

FIVE WAYS OF MAKING THE COMMUNITY MORE BEAUTIFUL

We need more beauty in rural architecture. There has been a great improvement in this respect in recent years, but too many farm houses are still "without form and void." It takes no more money or material to build a house along approved and beautiful architectural lines than it does to build one in the form of an architectural monstrosity.

2. Let's help "Make the South a Land of Painted Farm Houses." In this day of high-priced lumber and high-priced carpenters, paint pays for itself once as a financial investment. It pays a second time in the added beauty it gives to the house.

3. Let's make the home grounds beautiful. We are not going to suggest plans that call for the constant watchfulness of a caretaker on the home grounds. It is not hard, however, to have grass on the lawn and mow it a few times a year.

4. Our fields and forests need better care. We need to quicken our sense of the beautiful as applied to our fields and forests. The sheer ugliness of a gullied field or a fire-swept forest ought to hurt us as would some deformity or show of disease in a horse or cow.

5. Church buildings and school buildings should be the most beautiful buildings in the community. Not only should these buildings be the best in the matter of architecture, materials, care and painting, but they should have the most beautiful grounds. Too often nowadays we find cases where large amounts of money have been spent for the erection of beautiful high school buildings or church buildings but not a thing has been done to improve and beautify the grounds.

Both feed and care of 1,600,000 hens giving no returns were saved in 1921, reports to the United States Department of Agriculture show, when farm women, practicing for the first time the methods of identifying nonlayers demonstrated by agricultural extension agents, culled these "loafers" from their flocks.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY

Survey No. 65, 67, 68, 69, E. half of 67, and 68, in Block 4; and Nos. 61; 62; 63 and W. half of 61. The surveys in these blocks are situated from 2 to 3 miles from Pecos City, in the arid belt of the Pecos River country and will be sold only in whole sections.

EUGENE CARTLEDGE, Agent and Attorney in Fact. AUSTIN, TEXAS

THE FALL AND WINTER GARDEN

For early fall garden, before frost comes, all of the tender, quick-growing vegetables can be had by making successive plantings, and continued fertilizations.

If frost is not expected until after October 15, plant the Green Pod Stringless bean up to September 1. If one will notice about how long it takes a certain crop to grow, he can easily tell just about how late it will plant.

I leave my carrots in the open ground all winter, and they are as good in the early spring as in the summer before.

I leave some of my late beets in the row where grown, and bank them up a little. In this way they will stand a good deal of freezing, and will be better than those put in the cellar.

Spinach can be sowed in August or September, either broadcast or in rows, and be used from late in the fall until late in the spring.

One of the most ornamental of our edible plants is the Dwarf Scotch Curled kale (sometimes called the Norfolk kale). Sowed the latter part of August, it is used from November to May, and needs no sowed broadcast. For the small garden I would prefer it in rows, though it makes an excellent cover crop when sowed broadcast.

ADVICE TO THE AGED Age brings infirmities, such as sluggish bowels, weak kidneys, torpid liver. Tutt's Pills have a specific effect on these organs, stimulating the bowels, giving natural action, and imparting vigor to the system.

FURS WAY UP! BIG SEASON AHEAD. FOUKE FUR CO., ST. LOUIS, MISSOURI. 522 Fouke Building, St. Louis, Mo. Send me samples of NOXON and REMOV-A-SHED. I will send you a sample of my own. I will also send you a sample of my own. I will also send you a sample of my own.

Strength from Ironized Yeast Simply Glorious!

It Follows a Natural Law Which Never Changes or Fails. The Entire Body Quickly Feels New Power!

"I've just about gone to pieces!" Do you know that getting back strength is comparatively easy? But do you realize that it is almost impossible to get back your strength by means of unnatural drugs? Do

Madam, Ironized Yeast Will Build You Up Amazingly and Quickly! You know that about one woman out of every three is exhausted because of nerve and blood starvation? The remarkable power of yeast-vitamin-ironized has been proven. There is now no further excuse for being weak, sick, run-down. Ironized Yeast contains the tremendous natural building forces of vitamins and iron, and it builds and strengthens in half the usual time.

protection. It can be planted in rows or those who like radishes will be likely to enjoy the winter varieties, particularly the Chinese Winter Rose. I like them better than turnips for cooking, and they grow nearly as large. The latter part of August is a good time for planting. Plant in rows, this to about three inches, and bank up a little when hard freezing weather comes.

Rutabagas planted early in August are used from November until the last of May, and are given no protection. This year,

though, I intend to try banking them a little. Peas can be planted in August and September and eaten in October and November, perhaps later. In 1918, we had the Luscious, a variety of the edible podded pea after Christmas.—The Progressive Farmer.

IT PAYS TO ADVERTISE In The Pecos Enterprise. Rates 40 cents an inch or 10 cents a line for readers.

The 15,000 negro farm boys enrolled in crop and live-stock clubs in 1921, under the direction of agricultural-extension workers, raised products valued at \$230,000, according to reports to the United States Department of Agriculture.

A Tip to Our Merchants: Tell It With Pictures. We leave it to any woman living in this town if she doesn't read the grocery advertisement that is illustrated first and the one that is unillustrated second if at all. It's because of that trait of human nature, the love for pictures, that this paper procured the exclusive right to the local advertising illustrations of the Publishers Autocaster Service.

THE WHEAT GUARANTEE WELL!

While quite a sum of money has been sent to the bank to put down the Wheat Guarantee Well, yet the returns are very unsatisfactory and it now looks like it will take the united efforts of everyone interested in the Pecos Oil Field and directly in the territory adjacent to the Toyah-Bell Well to put it down to pay.

The following letter from Granger-Green Drilling Company is self explanatory and will give an idea as to the cost of the well, the faith the drillers have in this territory to be exploited and the amount of money which will have to be raised in order to put the well down. Letter have been coming to me which indicated that the well could not be put down for the money I am endeavoring to raise, and the letter of Granger-Green Drilling Company is here attached for the benefit of the doubting Thomases who have so written. The letter follows:

Now as to the well: I know as well as I know anything that there is an oil pool in the Toyah-Bell well territory—the Toyah-Bell well has absolutely, without the peradventure of a doubt, proven that territory. The putting down of this well will in my opinion make enormous returns to every stockholder—and everyone holding a lease in that territory would be able to cash in for enormous return while at present their holdings are practically worthless.

Pecos, Texas, Oct. 12, 1922.

Mr. J. J. Wheat,
Pecos, Texas,
Dear Sir:—

Replying to your favor of recent date regarding drilling of Wheat Guarantee Well on your property in Loving County, location to be chosen.

We will drill this well to a depth of 4500 feet furnishing everything necessary, except casing, we to build the derrick. Our consideration to be \$40,000, to be paid \$35,000 in cash and \$5,000 interest in the well.

Yours truly,
GRANGER-GREEN DRILLING COMPANY.
By J. D. Granger.

Send In Your Money And Let's Get To Work!

That is the only way I see for your property to bring in the coin. Your leases will many of them expire sometime within the next year or two, and unless a producer is brought in in the meantime in that territory you have lost all.

Every Lease Holder Can Afford to Gamble Another \$45.00 On This Proposition

But if you go with me you will have to do so NOW as I am putting up every cent of the promotion money with no hope of any returns from same unless it be through the advance in price of my holdings in that territory, and I can not afford to keep on spending my money indefinitely unless more interest is shown by those holding property that will be increased by this drilling and the proposition may be blowed up unless everyone interested shoot in the money and shoot quick.

Fill in the coupon below and send in to the Pecos Valley State Bank at once and let's go.

ONLY 1,000 SHARES WILL BE SOLD

Each share will represent a one-thousandth interest in the well and lease. More than one share may be purchased but in no event will more than one thousand shares be sold.

EACH SHARE will be Forty-five Dollars, or, One Cent Per Foot, to be paid only one cent per foot as the well is drilled.

MY GUARANTEE PROPOSITION

You send to the Pecos Valley State Bank, Pecos, Texas, \$45.00 for each share you can purchase. This fund will be held in trust by the bank and paid out only as the well is drilled at the rate of one cent per foot for each share, only upon the sworn statement of the driller that he has actually drilled the number of feet for which he asks payment.

JUDGE J. E. STARLEY WILL BE ATTORNEY FOR THE WHEAT GUARANTEE WELL.

NO PROMOTION STOCK—EVERY CENT GUARANTEED TO GO INTO DRILLING

Not one cent of this money will be handled by me and I will pay out of my own pocket every cent of the promotion money. All I want is a well. I will put into the bank money for my shares just like you do. The well will be drilled under contract, The Toyah-Bell well has shown the contractor just what to expect so he knows what he can do.

Our success will mean a fortune for each share holder. One well will do that. Think of what five acres did at Mexia with a capitalization of thousands of dollars. Here you will have forty acres with only a capital investment of \$45,000.00.

Are you sure to win? I think so. WHY? Because the Toyah-Bell has proven the existence there of a great oil field. I base my opinion upon what I have seen and the opinion of geologists, drillers and practical oil men. We can't afford to stop or miss this great opportunity—what if Col. Humphreys had stopped when he drilled the discovery well at Mexia. It was his second well that made fortunes and so I am confident it will be with our second well—My Wheat Guarantee Well.

NOW IS YOUR OPPORTUNITY

Get in on this proposition at once for after the one thousand shares are sold no more subscriptions will be or can be accepted. Fill in the coupon below and mail to the Pecos Valley State Bank, Pecos, Texas, Wheat Well Trust Fund, and your certificate will be issued to you.

J. J. WHEAT, Pecos, Texas.

.....1922.

Pecos Valley State Bank
Pecos, Texas.

Enclosed find for \$..... in payment for
..... shares at \$45.00 per share in the Wheat Guarantee Well and
forty acres of leases, the well to be drilled in Loving County, Texas, near
The Toyah-Bell Well. It is understood and agreed that this money is to
be held in trust by you and paid to the drillers of the Wheat Guarantee
Well, at the rate of one cent per foot per share of stock purchased by me
only upon the sworn statement of the driller that the foot for which he
asks payment has actually been drilled. It is understood and agreed that
in no event is this money to be paid until such affidavit is tendered in
writing and that I am to pay only one cent per foot per share for actual
footage drilled. You are to issue me receipt at once for all shares paid
for herewith.

Signed

THE AMERICAN PRESS ASSOCIATION

Don't forget the date of Pecos trades day, and be on hand—Friday and Saturday, October 20 and 21.

Since so many of the hens of Pecos joined the conference last week it is to be hoped that the good effect on those left will be lasting and that they will stay at home and eat up their own gardens.

A good sized flock of "chickens" entered the ministry last week while the conference was in session, but Pecos still has a plenty to satisfy twice as large a bunch of Methodist preachers.

It looks as if Mayfield is in just as bad a fix now as is Paddy—neither of their names will go on the ticket now unless something occurs and that quick. The tables seemed to have turned since Mayfield and his crowd of pickers and hooded Kluxes succeeded in keeping Paddy's name off the ticket and now he is perfectly willing that the latter's name appear on the democratic ticket along with his own—provided they can accomplish this feat. The powers that be have gotten things in a mess, if you will allow the expression. It might not be a bad time to put out a real true blue democrat who will not bolt anything but the K. K. K's. and fight for real true blue democracy.

MADE GOOD WOLF CATCH
The best piece of work by a single trapper in the eight years C. R. Landon has been in charge of the predatory animal work under the Bureau of Biological Survey of the United States Department of Agriculture was made by Edwin Homan in Culberson county last month, according to Mr. Landon. Homan was successful in practically ridding the county of a pack of lobo wolves, which, it is estimated, did damage to the flocks of ranchers amounting to \$20,000.
The pack had been hunted by individual hunters and ranchers for the last two or three years without success. Homan in the space of two weeks trapped five of the wily animals, and so far as is known wiped out the pack, says Mr. Landon.

A Chicago party writes in for information regarding the Hershenson well. All the information the Enterprise has to give in regards to the wells drilling or intended to drill will be given in the Enterprise from time to time. This paper is not advising anyone to buy stock in any of the wells with the exception of the Wheat Guarantee Well which it believes would be a good investment for any one who has lands or leases near the site of this drilling. You might lose then but it would be worth the price to know just where you stand in the premises. There is no promotion stock in this concern and all you put into it will go into making a hole so the editor is informed.

NOTICE TO INCOME TAX PAYERS.
The following statement is issued by James W. Bass, Collector of Internal Revenue Austin, Texas, of the First district of Texas:
The third quarterly installment of the income tax for 1921 is due on or before midnight September 15. Notices have been sent to taxpayers, but failure to receive a notice does not relieve a taxpayer of his obligation to pay the tax on time. Failure to pay the installment renders the whole amount due and payable upon notice and demand from the collector.
The tax may be paid at the office of Collector, Austin, Texas, on the following branch offices: Waco, Texas, Houston Texas, San Antonio, Texas, and El Paso Texas. Payment may be made by cash, money order or check. If made at a branch office, payment should be by check or money order to avoid danger of loss in transmission to the office of the Collector. Checks or money order should be made out to order of "Collector of Internal Revenue, Austin, Texas."

WHO'S WHO IN THE TELEPHONE DIRECTORIES
It is a significant fact that the Literary Digest, in its recent vote, conducted to ascertain the public sentiment in regard to prohibition and the soldiers' bonus, used the telephone directories throughout the

country as a basis for compiling their mailing lists. Evidently the Digest believes that people who have telephones in their homes are fairly representative of the solid American citizenry whose opinion on these questions they were anxious to obtain. Folks who move about from place to place—the so-called "floating population"—do not have telephones listed under their own names, it is true; but on the other hand, many an excellent boot-legger has his name under the innocent head "barber supplies."—Southwestern Telephone News.

WEEKLY FINANCIAL REVIEW
Consumption of domestic and imported petroleum in August was largest of any month aggregating 50,817,000 barrels, a daily average of 1,639,258 barrels. This compares with 50,615,000 barrels in July, a daily average of 1,632,742 barrels. In the first eight months of 1922 consumption totaled 370,802,000 barrels, according to U. S. Geological Survey, compared with 344,542,000 barrels for the 1921 period.
Domestic production in August was 46,295,000 barrels, or 4,700,000 barrels less than consumption the same month. Production in August averaged 1,493,387 barrels daily, about 10,000 barrels daily less than in July.

However, imports of crude oil more than made up the deficit, so that crude oil stocks were increased 3,385,000 barrels, including both domestic and foreign oil. August imports of 8,300,000 barrels register a decline of 1,700,000 from 10,492,875 barrels in July. Daily imports in August averaged 283,871 barrels, a decline of about 54,000 barrels daily from July.
August imports were the smallest since August 1921, when they were 3,352,000 barrels due to curtailment of operations in Mexico because of tax question.
American refiners again drew on stocks of Mexican crude in this country, as in July. At the close of August there were 21,948,000 barrels of Mexican crude oil stored in this country compared with 23,162,000 at the close of July, a decrease of 1,214,000 barrels.

22 YEARS AGO
Nobody swatted the fly.
Nobody wore a wrist watch.
Nobody had appendicitis.
Nobody wore white shoes.
Nobody sprayed orchards.
Nobody knew about radio.
Most young men had "liberty bills."
Farmers came to town for their mail.
Many people read by the candle or kerosene light.
The heavens were not full of manbirds.
Nor the seas alive with underwater boats.
The hired girl drew one-fifty a week and was happy.
Young men learned trades at \$5 per week.
The butcher "threw in" a chunk of liver.

SEEING IS BELIEVING
Among the numerous "Doubting Thomases" who form a part of the population, there are some, here and there who think that the number of automobile drivers killed or injured at railroad crossings is exaggerated.
To all such we make the suggestion that they might keep a record for a month or so and see what the figures will show.
Of course, outside of some big disasters, the accounts of crossing accidents are not published far from the place where they happen. So you would miss a majority of the cases all over the country.
Through the newspaper that you read you will get a lot of information, quite enough to start a record.
There are clipping bureaus in the large cities that could furnish you a flood of such items. Seeing is believing, so make a record and study it.
Statistics show that 3,000 automobiles were struck at grade crossings in this country last year. In these accidents, over 2,000 men, women and children were killed and over 3,000 others were injured. In dozens of instances whole families, numbering from four to six, were wiped out as completely as though a cyclone had struck them.
A cyclone comes without warning, from an unexpected quarter. A train of cars always comes along a permanent track so you will know where to find it.
Ever since we were children we have known the fatal result of being struck by a locomotive. Nobody can plead ignorance of consequences.
And yet, this very day, more than one driver, somewhere, will heedlessly drive onto the tracks, without looking or listening, and then a rushing train will demolish his car. In company with wife and children he will meet sudden death.
A little thought—a little of the serious attention you give to your business affairs would save you from such a fate.
Are you doing anything to assist in the "Careful Crossing Campaign?" Don't trust to luck. Use common sense if you want to live long.

PUBLIC OWNERSHIP THAT BENEFITS THE PEOPLE
In an address before the National Electric Light Association, Harry M. Dugherly, attorney general of the United States, says: "Regardless of class or color or means, more money belonging to the people is invested in the electric power and light industry than in any other utility in the world except the steam railroad companies."
"That is the character of public ownership I am frank to say I am in favor of. I am in favor of political governmental or municipal ownership. I venture to say that in ninety-five out of a hundred in-

stances municipally-owned or government-owned utilities have been failures both as a matter of finance and as a matter of service. I believe this to be true in every country in the world."

AID IS GIVEN BY THIS PUBLIC SERVICE COMPANY
The old belief that big business was cold-hearted is without foundation in this day and time when big business concerns are so ready and willing to help their friends and patrons and often the public in general. A recent example of this was seen when the Van Alstyne waterworks system was closed down on account of engine trouble and the people there called on Manager Jack Apperson of the Texas Power & Light Company, with headquarters at McKinney. Mr. Apperson took quick action, sending to Waco for a motor, took it to Van Alstyne and put it to work, giving the people their usual supply of water. The people of that fair little city felt very grateful to this big concern for this act of kindness. The Texas Power & Light Company furnishes light for Van Alstyne, but have no power plant there.—McKinney Courier-Gazette.

BARRON SHOWS PROGRESS OF THE GAS INDUSTRY
In a recent issue of Barron's financial review W. C. Barron replies to an inquirer who says he owns securities in several gas companies and has been much disturbed by a letter recently issued by a well-known market adviser who says that gas companies have seen their best days.
"It is true that gas companies have lost business to electric companies in the last few years," replies Mr. Barron, "but they have more than made it up in other fields. The total output of manufactured gas increased 200 per cent from 1901 to 1920. Use of gas as an illuminant is now practically a thing of the past. Electricity is cheaper and better. On the other hand the use of gas for heating has seen a tremendous growth while the electric companies have been capturing the illuminating field. Both types of public utilities have benefited in a large degree by the more constant use of their service. Instead of having the principal demand for their service come in a few evening hours the use of gas for cooking, heating water and a multitude of industrial purposes enables gas companies to use their plants much more nearly to capacity. Gas is invading the field of domestic heating and if some summer use for gas of equal magnitude can be developed in order to justify the necessary plant investments this may ultimately become one of the principal business fields of the gas companies."
"The gas stocks have recently had an excellent come back as a result in the decreasing operating costs and the epoch making decision of the United States Supreme Court holding the New York 80-cent gas law confiscatory."

OIL FIELDS OF NORTH-CENTRAL TEXAS ARE NOT EXHAUSTED
The excitement and elation of the oil producers in Eastland and Stephens counties, Texas, over the discovery of the Ranger and Caddo fields some years ago was followed by depression and gloom as it became apparent that these fields would be short-lived. Companies that had made great investments and prepared elaborate drilling programs had to sustain losses some of them staggering. Optimism was followed by pessimism. First the operators could see nothing good in the region; then they could see nothing good in it.
The pessimism was as shortsighted and as destructive of rational judgment as the unrestrained optimism. Operators who persistently stuck to the region and intelligently prospected and developed it found new pools and extended old ones. Obviously the region still has reserves of oil with which to repay those who can learn the secret of their hiding places and who, after finding them, are gifted with the intelligence to develop them rationally. Suicidal rentals, high lease prices, and huge royalties are becoming less and less common, and it is to be hoped that the paying sands of this district will soon be developed entirely as a business and not as a gamble or a pure speculation.
Geology has played its part in the discovery of the fields of central Texas, and will evidently be of high value in their future development, but the country is not one where the geologist can ride out in his car, glance over the landscape, squint at a rock through his magnifying glass and indicate exactly the spot where a fortune is waiting for the drill to discover it. At last, if his work is done in that way it is likely to come to a painful end at the hands of the outraged operators whose "dusters" he has so simply and quickly located. This is a region where the geologist must spend weeks or months in the mesquite scrub, must spend long hours plotting and studying well records, must call upon fact and fancy—or at least scientific imagination—to enable him to visualize the conditions below ground, and must give deep thought to every recommendation that he makes, for the successful development of the region depends largely upon him. Fortunately, the geologist's work is gradually becoming easier with better prospects of success. At first very few geologic facts had been published concerning this region, and geologists working there were compelled to rely entirely upon

published descriptions of the geology are scarce, and the newcomer in the field is badly handicapped. Even the United States Geological Survey, that first aid to the commercial geologist, has published comparatively little regarding this region—in fact only two short bulletins, No. 726-g on the Lacasa area, and No. 736-c, on the Wiles area, in Stephens county.

These bulletins discuss regions that are perhaps as fully developed as the cost of development and the selling price of oil will at present justify, but the facts they present are applicable to adjacent areas and will furnish a safe foundation for geologic work. Such a foundation is particularly needed by geologists who are new in the region and who have therefore not become acquainted with the conditions.

SULPHUR CLAIMS IN CULBERSON SOLD
Van Horn, Oct. 11.—Charles J. Lippman of New York City and Jules C. Littellier of South America have purchased the Fred G. Irby sulphur claims, which lay about 75 miles northwest of Van Horn, in Culberson county.
This is the biggest mineral transaction in Culberson county, since the business depression.

DESTRUCTIVE WOLF IS CAUGHT.
"Hunter Bud Wedley has trapped the Hanford wolf." That was the welcome message received one day in September by the predatory animal inspector of the United States Department of Agriculture at Olympia, Wash. For two and a half years this elusive marauder had preyed on the herds and flocks for miles around, and for months the canny hunter had laid traps for him. From statements made by stockmen it is probable that this single wolf has killed at least \$5,000 worth of live stock.
The trap that finally closed on the killer was carefully concealed in a trail. The wolf dragged trap and chain nearly 7 miles before the hunter overtook and shot him. The tape line showed him to be 5 feet and 8 inches from tip to tip. The skin and skull will be sent to the Biological Survey at Washington, D. C.

Pecos Chamber of Commerce has arranged for special sales by the leading merchants in Pecos on Farmers' Days, October 20th and 21st, in addition to free entertainment.

Don't forget the 1c sale, Thursday, Friday and Saturday, October 19, 20, 21.—Pecos Drug Co., The Rexall Store.

That many farm boys who enroll as club members in the production of live stock and crops become successful farmers is demonstrated in the case of eight young men living in Itaska County, Minn., who carried on club demonstrations from three to four years. According to a report to the United States Department of Agriculture four of them are now engaged in general farming, three of whom are growing certified potato seed. One is a dairy farmer, two are students at Minnesota college of agriculture, and one is studying for the ministry.

MONEY TO LOAN
On Ranches and large farms anywhere in West Texas or New Mexico. Also loan on Pecos or El Paso business property.
Get your life insurance of some people who loan money in West Texas and New Mexico. Best Company, best Policy, with double indemnity and disability clause.

**CHAS. H. LEFFINGWELL
DIED AT LA JOLLA,
CALIF., LAST FRIDAY**

Chas. H. Leffingwell, a resident of Barstow, who came here from St. Louis in 1907, died on last Friday, October 6th, at La Jolla, Calif., where he had been since last July in the hope of regaining his health. The remains were sent from La Jolla to Kirkwood, Mo., for burial besides his wife who preceded him in death a number of years ago.

Mr. Leffingwell was for a number of years traveling representative for the LeClerc Brick Co., of St. Louis, and resigned that position to become secretary of the Barstow Irrigation Company of Barstow. After this company disposed of the irrigation system he became active manager of the farming interests retained by the company.

During the past summer Mr. Leffingwell had an attack, and in company with his daughter, Mrs. A. N. Edwards, of St. Louis, went to California seeking better health conditions, and remained there until his death on last Friday.

The deceased is survived by one son and one daughter, E. A. Leffingwell, of Barstow, and Mrs. A. N. Edwards, of St. Louis, both of whom we understand were at the bedside of their father when the end came.—Ward County News.

Groves Lumber Co.

A TONIC

Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.
Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

**DR. MONROE SLACK
STANDS AT TOP OF LIST**

Monroe Slack was in attendance upon the meeting of the State Optical Board meeting at Sweetwater October 7th and took the examination, making a grade of 95, which was among the highest grades made by any of the more than one hundred who came from every part of the state to be examined. The result of this examination will give Mr. Slack a permanent certificate as doctor of optics in Texas.

While sixty was a passing grade Mr. Slack's ninety-five looks good and puts him in the forefront of the best opticians in the state, and our citizens will rejoice with him in his splendid achievements along this line. He has the very latest equipment and the examination would lead one to believe that he is as well prepared to go ahead with his work as the best opticians in the entire state.

In the Fire Prevention essay contest in the Pecos public school, prizes offered by W. W. Dean insurance agency, were awarded by a committee of judges composed of Mayor Ben Palmer, W. H. Browning, Jr., President of the Chamber of Commerce, and County Clerk, S. C. Vaughan, as follows: Grammar school prize to Wylie Sue Cole, and the Pecos High prize to Curtiss Wasson, as the best of each class.

Eleven students submitted papers in the Grammar school and eight in High School, most of which were excellent, and showed the result of teaching of fire prevention methods in our schools.

Some excellent papers submitted by the High School students had to be eliminated because they were written on school fires only, and did not cover the subject as announced. In fact the committee had considerable trouble in selecting the best as all papers were so good. The committee did not know the names of any contestant, as numbers only were used to identify each essay.

SEED DISTRIBUTED IN HAWAII

During the past year seed of improved pigeon peas, grown by Hawaiian farmers from seed stocks distributed by the Federal agricultural experiment station of Hawaii, were distributed to responsible growers, it is reported to the United States Department of Agriculture, in sufficient quantities to plant 4,000 acres. Experiments by the Hawaiian experiment station have shown the value of the pigeon pea as a hay and pasture crop which, it has been found, under favorable conditions, will support throughout the year from one and a half to three head of mature cattle in prime condition. From 3 to 5 acres of native pasture grass on the same land would be required per head of cattle.

COUNTY AGENT WORK IN LOUISIANA.

Successful extension work in a section where the plantation system of farming prevails is reported to the United States Department of Agriculture in the case of Madison Parish, La. There are approximately 100 plantations in the parish, practically all of which the county extension agent visits in the course of a year. Last year 35 per cent of these plantations were aided in their pecan work, 15 per cent carried on demonstrations in soil improvement, and 8 per cent received help in live-stock sanitation. In carrying on these demonstrations the farm manager acts as the local leader, and through him practically all the tenants benefit from the extension agent's activities.

To Stop a Cough Quick

take HAYES' HEALING HONEY, a cough medicine which stops the cough by healing the inflamed and irritated tissues. A box of GROVES' O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Cold or Croup. The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Groves' O-Pen-Trate Salve through the pores of the skin soon stops a cough. Both remedies are packed in one carton and the cost of the combined treatment is 35c. Just ask your druggist for HAYES' HEALING HONEY.

To Cure a Cold in One Day

Take LAXATIVE BROMO QUININE (Tablets). It stops the Cough and Headache and works off the Cold. E. W. GROVES' signature on each box. 30c.

**Submit Your Own
GUARANTEE**

Fear, more than the hard times is delaying oil development. Frame your own ideas of "a square deal" and let's have it.

We guarantee you we will not run into debt, thus rendering the company insolvent and subjecting the stockholders to—pay for a dead horse. There will be no Consolidations. No Mergers. No "Selling You Out."

We are still giving FREE LEASES with stock. Interest in two wells and six sections of leases. LARGE ENOUGH TO MAKE MILLIONS. An honest run. A square deal and the best there is in us.

We have NO SALARIED OFFICERS. We PAY NO COMMISSIONS. We have no secrets.

We have good drilling outfits over both wells and can and will be drilling within a few hours—when pay day is assured the drillers.

I want men and women who know what old age means. Men and women who are no better off, financially, than they were TEN YEARS AGO. Men and women who will stand back of me, knowing that HARD WORK, PERSISTENCY and GRIM DETERMINATION will WIN. Men and women who can pay weekly or monthly. No one is denied or rejected but as surely as Ford's Magnate has made him the wealthiest man in the world, just that sure are we that oil will pile up untold millions.

We want your co-operation,
THE WILLOUGHBY PETROLEUM CO.,
C. H. Willoughby, President.

Smyrna Burning As Turks Massacre Christians.

First picture to reach America showing Smyrna in flames from torches of the triumphant Turks under Kemal Pasha. Thousands are believed to have perished in the flames and from swords of the Turks.

Tells Bankers of Rural Needs.

Eugene Meyer, Jr., manager of the War Finance Corp., told ten thousand national bankers at New York last week that our Federal Reserve system should be built up to properly care for agricultural and live stock needs.

EASY ENOUGH TO BE AN EDITOR! TAKE A LOOK

Most any man can be an editor. All the editor has to do is to sit at a desk six days in a week, four weeks in a month and 12 months in the year and edit such stuff as this: "Mrs. Jones, of Cactus creek, let a can-opener slip last week and cut herself in the pantry." "A mischievous lad of Picketon threw a stone and cut Mr. Pike in the alley last Tuesday." "Joe Doe climbed on the roof of his house last week looking for a leak, and fell striking himself on the back porch." "While Harold Green was escorting Miss Violet Wise from the church social last Saturday night a savage dog attacked them and bit Mr. Green on the public square." "The Trimmer, of Running Creek, was playing with a cat Friday when it bit him on the veranda." "Mr. Frang, while harnessing a young colt last Saturday, had the misfortune to be kicked near his corn crib."—Meade County Messenger.

FINANCIAL REVIEW

Prepared for The Enterprise by The First National Bank in St. Louis.

Bonds sales on the New York Exchange in August, 1922, totaled \$312,718,000, compared with \$302,975,000 in July and \$227,964,000 in August, 1921. Sales this year were the largest recorded for any August, and were helped materially by an unusually active miscellaneous bond market. Daily sales averaged; miscellaneous, \$8,254,185; Liberty issues, \$3,327,963; all bonds, \$11,582,148, and all bonds August, 1921, \$8,443,111. Liberty issues totaled \$89,955,000, the lowest in many months, against \$114,284,000 in July and \$127,718,000 in August, 1921. Trading in French, Belgian, British, colonial and Canadian issues aggregated \$20,132,000 against \$17,350,000 in August, 1921. French activity dominated this group, the government and Seine turnover was \$8,320,000 and municipal sales were nearly \$1,500,000 more. Other European loans—Italian, Czech-Slovak, Norwegian, Swedish, Swiss, Dutch and colonial, Danish and various municipalities contributed \$9,419,000 against \$12,618,000 in July and \$3,858,000 in August, 1921. Sales in Japanese issues were normal at \$2,356,000 against \$2,629,000 in July and \$1,339,000 last year. Mexican issues adopted a waiting attitude. Latin-American bonds aggregated \$6,919,000 against \$6,519,000 in July and \$3,289,000 in August, 1921. Brazilian issues were most active. Total of foreign and United States government bond loans, \$129,724,000, was 41.5 per cent of the month's trading. Eliminating all the foregoing foreign issues from miscellaneous leaves \$182,994,000, second highest total since 1904, against \$147,763,000 in July and \$74,770,000 in August, 1921. Ladies calling cards neatly printed at this office.

The Quinine That Does Not Affect the Head. Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause nervousness nor ringing in head. Remember the full name and look for the signature of E. W. GROVE, Inc.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers.

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Frezzone removes corns from the feet or calluses from the bottom of feet the skin beneath is left pink and healthy and never sore, tender or irritated. (Advertisement)

It's toasted. This one extra process gives a delightful quality that can not be duplicated.

BIGGEST HIGHWAY JOB IN HISTORY

National Road System to Be 160,000 Miles. To Include Texas.

Waco, Texas.—The highway construction program of the Federal Government is the biggest project of its kind in history, much bigger than the project to build the Panama Canal, according to a statement issued by the Texas Highway Association here. "The tentative program of the Government contemplates the construction of a national system of highways, composed of the various State systems, comprising seven per cent of the total post road mileage of the United States," says the statement. "It will include about 160,000 miles of improved highways, 12,000 of which would be in Texas. It will cost approximately \$3,000,000,000 and will probably require fifteen years to complete."

The Federal Government proposes to pay half of the cost of constructing this system, requiring that the State shall pay the other half in each case, and that the State shall maintain the roads after they are built.

In Texas the State has no authority to build and maintain highways, and temporarily this requirement has been suspended so far as Texas is concerned, in order to give the people the opportunity to change the laws so as to empower the State Government to build and maintain roads. So far the Federal Government has appropriated \$600,000,000 for road construction in the States, and about \$100,000,000 of this has been allotted to Texas. This money, however, is being spent only in counties which vote bonds to meet the Federal aid. The Federal law requires that this system shall be abolished and that the State system shall be constructed by the State Government as a connected and continuous system covering the entire State.

The Texas Highway Association is conducting a campaign to awaken the people to the necessity of passing the proper legislation to meet the requirements of the Federal Government and thus insure that Texas will have a State highway system as part of the national system. The Democratic platform, adopted at San Antonio, urges upon the Legislature the necessity of passing such legislation.

TEXAS IS PLEDGED TO ROAD SYSTEM

Democratic Resolution Declares Acceptance of Federal Aid Pledge to Nation.

Waco, Tex.—In addition to placing in the platform a plank declaring in favor of such legislation as may be necessary to empower the State Government to co-operate with the Federal Government in constructing a State system of highways in Texas, the Democratic convention at San Antonio adopted strong separate resolutions emphasizing this matter. Attention is being called to this fact by the Texas Highway Association, which has headquarters here. One of these resolutions particularly emphasizes the fact that in accepting Federal aid in the past, and in continuing to accept it, Texas has pledged itself to construct and maintain such a "system." Federal aid is allotted to the States on a basis which assumes that a State "system" of highways, comprising seven per cent of the total post road mileage of the State, will be constructed and maintained. The convention expressed its recognition of this obligation in the following language: "We recognize the acceptance of Federal co-operation in highway construction, through allotments of Federal funds, as a pledge to the Nation for the construction and maintenance of a system of highways primarily serviceable as a State system, responsive to the needs of the citizens of the State, and secondarily providing the basis for a system of highways extending from State to State."

Texas has so far received and will continue to receive a larger share of Federal highway funds than any State in the Union. It is estimated that Texas receives five times as great a share of these funds as it contributes toward them in the form of Federal taxes. In other words the other States are siphoning four out of every five dollars spent by the Federal Government in Texas for the construction of roads. This fact, as the Texas Highway Association points out, makes the responsibility of Texas all the greater. Most of the States in the Union have complied fully with the Federal requirements and are building State systems. Texas is one of a few States which have not complied with these requirements and the action of the Democratic convention was a pledge to the people that the Democratic nominees for the Legislature who will be voted on in November will pass the necessary legislation.

ONE COUNTY COULD DO IT.

A single county in Texas could bring about a situation in which all Federal aid for highway building in this State would be shut off, and the State Government would be powerless to prevent it. The Texas Highway Association is authority for this statement, and the Federal law is cited in support of it. The association will ask the next Legislature to make necessary changes in the laws to cure this situation.

PLATFORM DEMAND TO BE EXPLAINED

Texas Highway Association to Conduct Campaign of Education.

Waco, Tex.—The Texas Highway Association, with headquarters here, is preparing to conduct a campaign of education between now and the regular session of the Legislature to call attention to the full meaning of the highway plank in the Democratic platform adopted at San Antonio.

The platform declares in favor of a State system of highways but recognizes that without Federal aid such a system cannot be built. It then accepts the provisions of the recent act of Congress, "which declares that in the near future Federal co-operation in road building will be extended to those States only that provide that the State, through a properly authorized and equipped agency, shall finance from funds under the direct and exclusive control of the State the construction, maintenance and operation of a State system of public highways." The platform then adds the following: "We therefore recommend and urge upon the 38th Legislature the necessity for favorable action on all legislation, whether constitutional or statutory, that may be deemed requisite to enable the State to take over the construction, maintenance, control and operation of a system of public highways without prejudice to the constitutional rights of the counties and of the State."

The Texas Highway Association calls attention to the fact that what this proposal is to give the State Government the authority to construct a State "system" and to maintain and operate that system. Under the Federal law such a "system" shall not exceed seven per cent of the total post road mileage of the State, so far as Federal aid is concerned. In Texas this seven per cent system would embrace about 12,000 miles of highways, touching practically every county in the State. The authority it is proposed to give the State over to this system would not interfere with the powers and jurisdiction of the counties over the remaining 93 per cent of the roads nor disturb any of their present revenues nor their powers of raising revenues. The association points out that it is necessary to pass such legislation in order to continue to receive Federal aid for highway construction in Texas, and it is necessary also if a State system of highways, such as is being constructed in other States, is ever to be a realized fact in Texas.

According to the Texas Highway Association, Texas receives five dollars from the Federal Government for highway construction for every dollar which this State contributes in taxes to the Federal Highway fund. The other four dollars are paid in by other States. Texas receives more Federal aid for highways annually than any other State in the Union. But this Federal aid is threatened, the association points out, unless the laws of Texas are changed to conform to Federal regulations. The States that are paying the extra Federal taxes being spent in Texas have conferred. The association is carrying on a campaign to have the necessary changes made in our laws.

WILL TEXAS FORFEIT FEDERAL AID?

Highway Association President Says Organization Needs to Waken People.

HIGHWAY CRISIS IS NOT REALIZED

Highway Association President Says Organization Needs to Waken People.

Waco, Tex.—The chief reason Texas is still without adequate highway laws, and is now threatened with a discontinuance of Federal aid unless those laws are modernized, is that the facts have never been properly presented to the people in the opinion of W. V. Crawford of this city, President of the Texas Highway Association. And the chief reason for this is that there has never been the proper organization to perform this task, he declares. "The people cannot be expected to comprehend the highway situation unless somebody places the facts before them," says President Crawford in a statement just issued. "And placing such a question before the people of a State the size of Texas is a big job. That job can be performed only by means of organization, and organization on a scale in keeping with the size of the job. The Texas Highway Association has been organized to undertake this work and it has tackled it with no illusion as to its size. We know it is a big job, that it will take work and money to get the information to the people. And we know that it will require the co-operation of everybody who is alive to its importance. We need the co-operation of the newspapers, of chambers of commerce and other civic bodies, and most of all we need the co-operation of individual citizens who want to see Texas go forward and not backward. We want every such citizen to join the association."

"It is fashionable to blame the Legislature when there is failure of necessary legislation. We don't think the Legislature should be blamed. The average member of the Legislature wants to do the will of his constituents. But when his constituents have not been informed on a question, when they have false ideas about it, we cannot blame a member of the Legislature for reflecting that condition. We must discuss this matter with the people, and that takes organization. The man who wants to solve our highway problems in a way to promote the general welfare, therefore, can help in no better way than to join the Texas Highway Association and thus assist in the work it has undertaken."

CALOMEL GOOD BUT AWFUL TREACHEROUS

NEXT DOSE MAY SALIVATE, SHOCK LIVER OR ATTACK YOUR BONES

You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a bottle of Dodson's Liver Tonic for a few cents which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

Don't take calomel! It makes you sick the next day; it loosens you a day's work. Dodson's Liver Tonic straightens you right up and you feel great. No salivatory necessary. Give it to the children because it is perfectly harmless and can not salivate.

CITATION BY PUBLICATION.

The State of Texas.
To the Sheriff or any Constable of Reeves County—Greeting:
You are hereby commanded to summon P. T. Hammond by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Reeves County, to be holden at the Court House thereof, in Pecos, Reeves County Texas, on the 3rd Monday in November, 1922, the same being the 20th day of November, 1922, then and there to answer a petition, filed in said Court on the 5th day of October, 1922, in a suit, numbered on the Docket of said Court No. 2262 wherein Mrs. P. T. Hammond is Plaintiff, and P. T. Hammond is Defendant, and said petition alleging in substance, that Plaintiff and Defendant were married on or about the 17th day of September, 1918, and on or about the 1st day of December, 1921, the defendant permanently abandoned plaintiff, and left her and went away to another State. That during the time that she and defendant lived together as husband and wife she faithfully discharged all of her marital obligations to him, but the defendant was cruel and tyrannical, unkind and harsh towards plaintiff, and abused plaintiff and used cross and rough language to her. That he failed and refused to support her, and she was compelled to do hard work to support him and herself, as well as two of his children. That defendant is a stout, strong able bodied man and able to work and earn support for himself and plaintiff, but refused to do so. That plaintiff is a weakly, frail and delicate woman and in bad health. That defendant was extremely unclean and filthy and dirty. That on account of his treatment of her and also on account of his uncleanness, it renders their living together as husband and wife insupportable.

Plaintiff also alleges that there is no community property belonging to her and defendant, but that she owns in her own right Lots Nos. 2, 3 and 4 in Block 29 in North Pecos Addition to the Town of Pecos City. Also Lot No. 5, in Block No. 32 in the Town of Pecos City as shown by the original map or plat of said Town of Pecos City. Also Lots Nos. 11 and 12 in Block No. 3, in West Park Addition to the Town of Pecos City. All being in Reeves County Texas. That the defendant is claiming and asserting a community interest in said property, but in fact and in truth he does not own any interest in the same, but that all of said property was purchased with separate and individual funds of plaintiff and is now owned and held by her in her own separate and individual name and right.

Wherefore plaintiff prays for a divorce from the defendant and that said real estate be decreed to be her separate and individual property, and that defendant be adjudged to have no right, title or interest in the same.

Herein fail not, but have before said Court, on the first day of the next term, thereof, this writ, with your return thereon, showing how you have executed the same.

Witness S. C. Vaughan Clerk of the District Court of Reeves County Texas.

Given under my hand and the seal of said Court, at office in Pecos, Texas, this 6th day of October 1922.

S. C. VAUGHAN,
Clerk District Court, Reeves County.

H. P. KERR, Deputy.
By No. 2262, in District Court, Mrs. P. T. Hammond vs. P. T. Hammond, Citation by Publication. Issued this 6th day of October, 1922.

S. C. VAUGHAN, Clerk.
H. P. KERR, Deputy.

SHERIFF'S SALE

Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Midland County, Texas, on the 30th day of September, A. D. 1922, by C. B. Dunagan, Clerk of said Court, to satisfy a judgment in favor of The Midland National Bank in the sum of \$6,637.90, with interest and costs, against Thomas B. Jones and Will A. Martin, jointly and severally; and to satisfy a judgment in favor of Oklahoma Stock Yards National Bank against Thomas B. Jones and South Plains Cattle Loan Company in the sum of \$199,195.29, interest and costs, in a certain cause in said Court No. 1648 and styled The Midland National Bank vs. Will A. Martin et al, and placed in my hands for service, I, E. B. Kiser, as Sheriff of Reeves County, Texas, (to which Loving County is attached for judicial purposes) did on the 5th day of October, A. D. 1922, levy on certain uncultivated real property situated in Loving County, Texas, described as follows, to-wit: Sections 8, 9, 10 and 12 Block C-26 and Section 15, Block C-24, Public School Land, situated in Loving County, Texas, containing 3200 acres of land, more or less, levied upon as the property of Thomas B. Jones, Nora T. Jones, Will A. Martin and John I. Martin, and on the First Tuesday in November, A. D. 1922, same being the Seventh day of said month, at the Court House door of Reeves County, in the City of Pecos, Texas, between the hours of 10 o'clock A. M. and 4 o'clock P. M. by virtue of said order of sale and said levy, I will sell said above described real property at public venue, for cash, to the highest bidder as the property of Thomas B. Jones, Nora T. Jones, Will A. Martin and John I. Martin.

And in compliance with law, I give this notice by publication, in the English Language, once a week for three successive weeks immediately preceding said day of sale, in the Pecos Enterprise, a newspaper published in Reeves County, Texas, (to which Loving County is attached for judicial purposes) and the nearest newspaper to said Loving County, Texas.

Witness my hand this the 5th day of October, A. D. 1922.

E. B. KISER,
Sheriff Reeves County, Texas.

Mrs. Sid Kyle is in from the ranch visiting friends this week.

Tom Levey was a Pecos visitor for a few days this week.

Judge Ben Randals was a business visitor in El Paso this week.

Mr. and Mrs. Frank Cavett are attending the fair in Dallas this week.

Jack Love and family will leave today for Dallas to attend the fair for a few days.

Judge Jno. B. Howard returned last night from a business trip in El Paso.

Mrs. Geo. B. Finley is visiting with her husband at the ranch this week.

A. E. Hayes returned this morning from a business trip to Big Spring.

Mrs. A. L. Haygood left last week for Oklahoma City for an extended visit with her son, Macey Haygood and family.

Mrs. Chas. Stuck of El Paso will arrive Monday to visit her mother, Mrs. P. B. Smith, and sister Miss Marie Smith.

Mr. and Mrs. J. W. Brooks will occupy the home of Mrs. A. L. Haygood during her absence.

Mrs. Marian Snow Hudson returned Monday from a visit during the summer to home folk in Kansas.

Mrs. J. W. Watson has returned from a three week's visit to her son at San Martine and from a short visit to friends at Toyah.

Mr. and Mrs. H. G. Eppler, and son, Leonard Eppler, came in Friday of last week for a visit to their daughter and sister, Mrs. Max Krauskopf, and family.

Mrs. W. A. Whittenburg and her son, Walter, have gone for a visit of several weeks to her daughter at Crow's Nest Ranch in the Davis Mountains.

Walter Rubica was recently elected president of the Freshman engineering class at the State University where he is in school.

Mrs. J. L. Mann was called to El Paso Wednesday on account of the serious illness of her daughter, Mrs. Morrison, for whom there was held out no hope of her recovery.

Mr. and Mrs. Leo Barlow and Mr. and Mrs. Charles Boyd of Balmorhea, were visitors in Pecos Thursday, taking advantage of the holiday to visit relatives in this city.

Mrs. Tetum Moore and little daughter, Dorothy, and little son, John M. of Bragado, visited her sisters, Mrs. Hardin Ross and Miss Evelyn Somes at The Michigan this week.

Mr. and Mrs. Robert Middleton returned Tuesday from Stamford where they had been called by the death of Mr. Middleton's father, J. L. Jones. They were accompanied home by Mr. Middleton's mother.—Big Spring Herald.

H. C. Ferris came in from his home at Phoenix, Arizona, this week and has accepted a situation with the Pecos Mercantile Company, taking the situation vacated by H. A. Wren. Mr. Ferris is a pleasant gentleman and comes well recommended as a business man who gets what ever he goes after.

Mr. and Mrs. Billy Roberson of Toyah passed through Pecos Thursday enroute to Portales where Mrs. Roberson will visit a brother while Billy goes on to Canadian to visit one of his brothers there. They expect to be gone for a week or more before Mr. Roberson will return via Portales and pick up Mrs. Roberson on his return trip.

Dave Adams, the efficient bookkeeper at the Prewitt Lumber Company, left Sunday for Marysville, Ohio, to be present at the final settlement of the Adams estate. He expects to be gone three weeks and will visit relatives in Nebraska. There are other heirs to the estate who reside in Pecos, and Dave will act for all interested here.

Mrs. C. K. McKnight is home from a summer's visit to relatives at Bushnell, Illinois. She reports having had a most delightful visit and C. K. says, "The best woman in the world came in this morning," when talking to the Enterprise editor. When saying this his mouth was spread from ear to ear and he looked as if he believed every word he said.

Max Krauskopf left Thursday for Westford where he will attend a meeting of the directors of the Pythian Home as well as a district convocation of the K. of P. Lodge in that city. He will also be in attendance upon a meeting of the Henry Miller class when not less than twenty-five will be initiated into the rank of Page. Max is one of the prominent members of the Pythian order whose presence is very much desired at these meetings, and not one other in the entire state enjoys these meetings more than he.

Annual Ice Sale, Thursday, Friday and Saturday, October 19-20-21. Pecos Drug Co., The Rexall Store. It.

Misses Estelle and Hattie Durdin left yesterday for Tyler where they will enter Tyler Commercial College and remain there until they complete the full commercial course. These are both very bright and promising young ladies and are graduates of the Pecos High School.—Miss Estelle of the year 1919 and Miss Hattie of the year 1920. In this school both of these young ladies made exceedingly high grades and were energetic and accurate, and being hard students, accurate and energetic the Enterprise feels safe in saying that they will return home well equipped for the battles of life and independent of others for support. They are both members of the Christian Endeavor Society of the Christian church and on Wednesday night were tendered by that organization a farewell feast of good things to eat as well as a very pleasant social affair which was held at the old Mitchell place northwest of the city.

THE CHURCHES

BAPTIST CHURCH.

Everything is at high tide around the Baptist church these days. Every organization is moving forward with renewed interest. The Y. W. A. is doing a fine work under direction of their councillor, Mrs. E. L. Collings. The B. Y. P. U.'s are putting spiz into spizerintum in their meetings. They are three live organizations and are doing things for the Lord. The Sunbeam band has an enrollment of sixty wide awake youngsters. Our Sunday School is growing all out of bounds. A number of new rooms are being provided to take care of the increase. Prayer meeting is well attended and the spirit is great. Good crowds grace the auditorium during the preaching hours. Study classes are meeting every day. This means greater efficiency in all of our work. Don't you want to have a part in some department of our work. A warm welcome awaits you. To fully appreciate the above just come and see.

LADIES AID SOCIETY

The Ladies Aid Society of the Christian church was entertained at the home of Mrs. I. S. Eisenwine in west Pecos on Tuesday afternoon.

After attending to all business a very interesting, missionary program was rendered. Also reports from those who attended the Marfa convention last week was heard.

Delicious refreshments of mint ice cream and cake was served by the hostess.

Nineteen members and three visitors were present.

METHODIST PASTOR SAYS—THANK YOU

The itinerant mill has ground me out to Pecos for another year as most of you know by this time. In fact it is because you do know it and have behaved so patiently under that knowledge that I subscribe myself here.

I have never in all my life had a more cordial reception given me than has been accorded by persons both within the Methodist ranks and without. On every hand kindly words have been spoken such as make one feel good "all over" and inside too.

Part of the expressions were in the form of a pounding Wednesday. There was sugar, meat, lard, canned goods, potatoes and even some fifteen dollars in "coin of the realm"—things of a substantial sort to the value of some fifty dollars.

I do appreciate all this good will whether expressed verbally or materially. "I feel like going on" as the old folks used to say.

Now, God being my helper, I crave and pray to be a true and useful minister of the gospel to you both publicly and privately and crave your cooperation and prayers to help me therein—and I trust I shall have it. Come to church next Sunday morning.

Very cordially yours, L. L. THURSTON.

CHRISTIAN ENDEAVOR

Members of the young people Christian Endeavor Society gathered at the Christian church Wednesday afternoon and went in automobiles to the Mitchell place where they enjoyed a delightful picnic supper by the light of a bright bonfire. The outing was given in honor of two of their members, Misses Estelle and Hattie Durdin who are leaving for Tyler, Texas, where they will enter Tyler Business College.

CATTLE MOVEMENTS.

H. F. Anthony has this week closed a deal with H. Olphant, Standard Live Stock Commission Co., Wichita Kansas, for several cars of feeder calves and steers. These will be shipped direct to the feed pens in Kansas.

WILL DISCONTINUE DELIVERING ICE ON SATURDAY

The Pecos Power & Ice Company announces that they will discontinue the delivery of ice on Saturday but that those who wish ice will be able to get it at the platform where the usual courteous treatment will be tendered all who come.

CLUB OPENS

The Twentieth Century Club met in its initial session for the year, on last Wednesday afternoon at the home of Mrs. Harry Anderson.

The ladies spent an interesting half hour answering to roll call with summer reminiscences. At its close the business of the club was transacted and work assigned for the following week.

After adjournment the hostess served a delicious ice course, which was very much appreciated by the members.

FIRE PREVENTION WEEK

I will give \$2.50 each for the two best essays written by High School pupils.

1st. On How to prevent and combat fires.

2nd. On Carelessness; the cause of 90 per cent of all fires.

Awards will be by committee appointed by superintendent.

Yours for Service, E. L. COLLINGS, Ins. Co.

R. G. MIDDLETON RESIGNS AS JAILER

Owing to the continued indisposition of Mrs. Middleton, R. G. has resigned as jailer and the custody of the jail has been turned over to Louis Roberson. Mrs. Middleton has been an invalid at times for a long period and her duties at the jail were more trying than her physical condition would admit of. They have moved their home to the Sue Alley residence. Mr. Middleton will still retain his position with Sheriff Kiser as chief deputy at the office.

Come to Pecos Friday and Saturday, October 20th and 21st; and enjoy a big free entertainment. One new, fully equipped farm wagon will be given away by Pecos Chamber of Commerce. (Advertisement)

NOTICE.

I make a specialty of fitting children's eyes. In fitting young children that are not familiar with the questions an optometrist has to ask, I make a Retinoscopic test, that is where I use a small mirror and throw light into the eye and neutralize the shadow and prescribe the lenses that neutralize the shadow. I use the ophthalmoscope and examine the inside of the eye and if the eye is diseased I refer patient to a physician or oculist first before I make an examination.

I fit children with cross eyes giving prism exercises to strengthen the weaker muscles and fit them with proper lenses. Any case that is not a medical man's case can be properly fitted by me with the latest scientific instruments.

I have practiced optometry for eight years. Passed the Texas State board, making a grade of 95 giving me a permanent state license.
