## THE MILLS OF THE GODS GRIND SLOWLY BUT SURELY—WORK GOES ON IN PECOS OIL FIELD

**THE TOYAH-BELL WELL**  
That the Toyah-Bell well is one of the wonders of the oil industry is proven by the fact that despite all obstacles which have prevented its coming in and that it has had a constant stream of water trickling in for more than a year, it is still doing its best to come in a real producer. The pump was pulled about a week ago for the purpose of running the swab for a few days in the hope that after all that would open it up and bring it in. B. Ramsey, in town yesterday, stated to the Enterprise that it still has as fine showings as the day the pay was first touched. The gas is as strong if not stronger, than at any time and the hole is full of oil and spraying over the top at short intervals now. The pump will probably be replaced today and the oil stored in tanks after which it is expected that they will run the swab for a few days in an effort to open up the hole, and it is believed by many that this will bring this well in a good producer.

Mr. Ramsey is receiving very encouraging information from parties in California which indicates that it will be no trouble in financing another well on his property and the indications are very favorable that in a very short time at least two or three other wells will be drilling near the Toyah-Bell.

### THE BELL WELL

There is nothing new to report relative to the Bell, or Discovery well, this week. Mr. Bell who has just returned from a trip east states that they are pounding away steadily every day. Making from five to ten feet per day. They are below the 3100 foot mark and drilling in a very hard lime formation, and running all machinery, stoves and lights from the gas from this well. It is not improbable that they will have something to tell in a very short while which will astound the natives. Let's hope they do.

### THE LAURA WELL

Messrs Heller and Granger of the Laura well, of the Sunshine Federal interests, are expected home today from Fort Worth where they went to converse with Henry Deutsch who is financing the proposition.

While they have made no real footage in this well for the past week or so, Mr. Green of Granger & Green, drillers, says they believe they are making progress.

### LOS-PECOS WELL

Arch Bell returned yesterday morning from the East where he had been in the interest of the Los-Pecos well. He believes his company are getting things lined up to renew operations at this location in a short while.

### HERSHENSON WELL

Report from the Hershenson well indicates they are drilling daily in dark blue gumbo, and that everything is going along nicely.

### SAYS TOYAH IS "NORMAL"

County Commissioner A. W. Hosie is a Pecos visitor Tuesday of this week and spent the greater portion of the day renewing acquaintances and "vesting" with his many Pecos friends. Mr. Hosie is improving in health and is beginning to look like himself once more.

Asked about Toyah and her citizenship, Mr. Hosie says, "Toyah is normal. We are all about the same as we have been during my residence in that town for something like 25 years." "Nobody in our town is starving and none are being supported by the county," he says, "and so far as I have been able to observe all are getting their three square meals each day."

Mr. Hosie is an optimist and booster for his town and people and never lets an opportunity pass to say something good of both. The recent rains, he says, have done much good to the cattle industry of his section—the ground "has not been dry in a whole week."

Hosie is a valuable citizen in any community and always looks on the brighter side of every proposition, "May his tribe increase."

Judge and Mrs. Chas. Gibbs and little son, Charles, Jr., returned last Thursday from a very pleasant visit to Gordon, returning by way of the Dallas Fair. Gordon is Judge Gibbs' home town, and while these visits to our native hearth are in many respects delightful, yet the pruning hand of time has wrought so many changes and so many friends of our youth are gone that these same visits are oftentimes also occasions for memory and for tears.—Midland Reporter.

## FERGUSON PREDICTS GREAT PRODUCTION FOR REEVES COUNTY

R. G. Ferguson has just returned from an auto trip through the oil fields of Wyoming, Montana and Alberta, Canada.

In an interview he reports a most wonderful time—traveled 6300 miles, making an average of 100 miles per day. One of the interesting things he mentioned was a night spent at a spring—the head of the Pecos River.

Mr. Ferguson made the trip to test for his own information an oil locating device which he owns and which he tried out at Florence, Colo., Big Muddy and other fields around Casper, Wyoming, Elk Basin, Cat Creek and Kevin-Sunburst fields in Montana.

By the use of this instrument one can locate the oil pools, work out the boundaries and drive the stake at the point of greatest production, and make approximate estimate of amount of production, Mr. Ferguson says.

Mr. Ferguson says according to the recording of this instrument Reeves county has greater possibilities for production than the famous fields around Casper, Wyoming.

The Great Falls (Montana) Journal of October 13th contains the following editorial in reference to this device or magnet:

Montana is to have a test of the virtue of a mechanical oil locating device, similar to the instrument known in the past as a "doodle-bug," but now called by a more dignified name. A well has been spotted a short distance north of Great Falls by such an instrument and capable business men have put up \$25,000 to give it a try-out. This device has been used extensively in Great Falls district and is said to have revealed the greatest oil pools in the world in close proximity to the city, without respect to geological conditions.

A "doodle-bug," which is a name used for convenience, appeals more largely than good geology, for the human is likely to err, as against a device of unknown failing. The mechanical device has an appeal, for it offers greater odds than the most wild-eyed geologist can claim. A device of this kind recently located an oil pool nearby, one and one-quarter miles in width—length un-revealed—and offers the possibility, the owner said, of 2500 barrel wells. Such an outlook is pretty hard competition for a pinch but such as an offset to the Mid-Northern producer with a certainty of 100 barrels a day—\$250 a day or \$7,500 a month or \$90,000 a year income, at present field prices.

However, the United States geological survey has devoted not a little study, recently, to these petroleum locating devices. There is one hailing from Germany now operating on the northern boundary in Canada. The device is said to have upheld its reputation by locating a pool of tremendous size. The device used around Great Falls is said to have recorded the fate of several wells in the Kevin and Sunburst fields and drilling has confirmed the prognostication in each case. Its owner claims that it is made of certain chemicals, with an electrical attachment that produces a molecular attraction for petroleum. When the operator walks across a pool, the device violently struggles to join its affinity in the depths below, and thus it records the location of the oil and its violence is indicative of the depth from the surface to the pool.

### MR. AND MRS. FINLEY HOMES HONORED

Mr. and Mrs. E. B. Daniel and Mr. and Mrs. Theo. Andrews entertained Mr. and Mrs. Finley Holmes and children Tuesday, October 17th at a six o'clock oyster dinner at the residence of Mr. and Mrs. Daniel. The dining table was centered with a massive bowl of cut flowers and it was beautifully laid in cut glass, china, and silver and was laden with good things to eat.

After dinner, pleasant conversation with merry repartee, music and games furnished pleasant pastime and were much enjoyed the remainder of the evening. Mr. and Mrs. Holmes and family will leave soon for Abilene where they will make their home in the future.

T. T. Downes, Clint Lanier and "one of the Preusser boys" were over Tuesday taking a view of the situation in Pecos and shaking hands with Pecos friends.

## Exclusive Pictures of Amundsen in Arctic Snows Making Ready for Air Trip to North Pole.

In a door of a little hut 80 miles from Point Barrow, in the Arctic wastes, stands the grizzled and gray explorer, Capt. Amundsen, awaiting what seems an opportune hour during the long Polar night for the first airplane flight over the Top of the World—to the North Pole. These exclusive photographs are the first brought back of the hearty Norwegian explorer since his ship helping his crew unload the motors for his airplane. To the right, Capt. Amundsen in the door of his hut at Wainwright. Amundsen will fly an American all-metal plane.

## FARMER'S DAY TURNS OUT TO BE MARKED SUCCESS

The assumption that there is no money in the country and that the entire population is busted was refuted in toto last Friday and Saturday when the farmers and citizens in this trade territory flocked to Pecos in response to the advertising broadcasted over this territory that Pecos, through its Chamber of Commerce, was to have a two days' celebration and during these two days the merchants and business men of Pecos were going to give special bargains in all classes of merchandise and special bargains in other lines.

Owing to the inclemency of the weather Friday was not such a big day, but on Saturday the sun shone brightly, the birds were singing merrily and everybody in and out of town were just as happy as the warblers in the trees. They came in from every point of the compass and brought their families and purses with them and the stores—all of them—were crowded most of the day and at the close of the day when the premiums were awarded there was such a jam on the streets of Pecos as has not been seen since the oil boom in 1920. The check-up on tickets given out by the various merchants showed cash sales in the amount of about \$6,000.00, according to President Browning of the Chamber of Commerce.

Besides the bargains offered by our business men in seasonal merchandise, there was plenty of amusement—all free to our visitors. The Rialto proved to be a popular place as well as the ball games.

One span of mules was auctioned off and brought a very satisfactory price.

According to President Browning, of the Pecos Chamber of Commerce, there will be put on another Farmers' Day program in about a month from the date of this one and it is the intention and purpose to make this a regular affair at which farmers can come to Pecos and get such bargains as they can secure at no other place in this territory, sell and exchange property for which they have no use. This kind of a day is a feature in most all central Texas towns and has proven of great value not only to the towns putting them on but to the country people as well.

On this Pecos' first trade day, B. T. Biggs secured a new wagon, value about \$175.00 which it is understood he sold almost immediately for \$100. The Pecos Valley State Bank gave Judge J. W. Wadley a ten dollar William for the best guess at a jar of pennies, and other business men actually gave away many other articles of value. It was a great day for Pecos. May it become a regular affair.

### LIFE SENTENCE FOR A RECKLESS MOTORIST

An Oklahoma jury has just returned a verdict of first degree murder and the court has passed a life sentence upon a young man found guilty of driving his motor car into another car resulting in the death of two young women and serious injury to two other persons.

The severity of the sentence, it is said in the news dispatches, surprised even the State attorneys who prosecuted the case.

It is possible, however, that the jury had in mind when it assessed the extreme penalty something more than this particular case. It may be that the jury was attempting to pioneer in finding a remedy for the rapidly increasing number of speed maniacs who have no regard for the convenience, safety, life or property of others. Drunk or sober these motor morons are a menace to any community in which they live or through which they drive.

It doesn't so much matter whether a man is a gunman or speed maniac so far as results are concerned. Such men kill and maim and terrorize. Perhaps the Oklahoma jury believed that they should be placed on the same grounds legally. And it may be unless some other effective method to curb the mania is found, juries everywhere will begin to adopt the Oklahoma idea. Certainly it will come to that if educational campaigns through reasonable and liberal traffic ordinances and rules fail to make a dent in the intellect of this class of drivers.

The country is not ready yet for the extreme penalty of the first degree murder in cases where death ensues from reckless driving. Murder is a serious charge and a repulsive one. But, on the other hand, the killing of men and women by wanton disregard for the rights of others, such as the speed maniacs display, is also a serious and a repulsive thing. The terms may come to be synonymous in other courts, if once the public patience reaches the limit of endurance.—Kansas City Times.

## PECOS TO HAVE TRADES DAY EACH FOURTH SATURDAY

At a meeting of the business men of Pecos, this afternoon in the Chamber of Commerce rooms it was decided to make the Trades Day a regular affair and hold same on the fourth Saturday of each month.

The next trades day will be on the fourth Saturday in November, or the 24th day of the month. For this day it is proposed to raise \$200 for expenses—this cover advertising and premiums which will be given away the same as on last trade day. The business men were enthusiastic over the matter and decided to not only make the next, or November's trades day a bigger affair than the first one, but will make the December day, which will be held on the fourth Saturday or December 22 the biggest day of them all and not only make the grand prize a worth-while prize but see that the prices on merchandise is cut so that all who come may make a great saving in their purchases.

## LIGHT COMPANY HAVE INSTALLED MONSTER ENGINE

The Pecos Power and Light Company have their new 150 Horse power Fairbanks-Morse engine and generator installed and hope to put it in operation and try it out sometime today or tomorrow. With this machinery installed this company should have no further worry as to power and the people of Pecos as to both power and lights.

The generator is connected directly with the engine and therefore there will be no belt troubles as far as this engine is concerned. The new machinery, according to Mr. Nelderborn, will cost in the neighborhood of \$15,000.

### HALLOWE'EN TEA

One of the most delightful social occasions of the season took place Tuesday afternoon at the beautiful bungalow home of Mr. and Mrs. Thomas McClure in the west part of town, when the Womens Missionary society of the Methodist church and a goodly number of friends from the other churches were entertained at a Halloween tea by Mrs. McClure, Mrs. W. W. Runnels, Mrs. Oram Green and Mrs. Harry Woods, assisted by Mrs. Runnels' daughter, the beautiful and accomplished Miss Virginia, who presided at the victrola and assisted in other ways. The entire receiving suit was beautifully and artistically decorated in every conceivable emblem imaginable, incident to Halloween, and the entertaining features were unique and novel, each feat according to ones ability to accomplish it, omened ill or good fortune.

Delicious pumpkin pie, topped with plum jelly and coffee were served to a hundred or more guests.

## PECOS CITY STUDIO TO OCCUPY NEW HOME

W. T. Howard of the Pecos City Studio has had C. C. Caldwell busy this week preparing the interior of the Dawson building which is now the property of Mr. Howard, for his studio and expects to move into his new home within the next ten days.

In making this move Mr. Howard will also make other improvements which will harmonize with the new setting in the new home—in fact his studio will be electrically equipped throughout and the most modern appliance will be installed. In the first place he will install a 50,000 candle power arc light which will take the place of skylight. This will require a special line from the light plant which will be used exclusively for this arc light. An electric printer for printing and finishing photos will also be installed.

The above appliances have been ordered and should be here and installed some time next week when he will be able to do some work at that place. He expects to be moved in his new home within the next ten days or two weeks at most.

This move on the part of Mr. Howard is a distinctive step forward and will put him in line for the very best in the photographic line and will enable him to turn out the work after the most approved methods.

### LYING FOR BUSINESS

A lot of people who stand at awe at the thought of falsifying on any other occasion will sometimes do it for the sake of business. Which brings to mind a text in the bible that if people would take into consideration and apply to themselves might help them to overcome such things at times and that reads: "What shall it profit a man if he gain the whole world and lose his own soul," and this coming in the face of the statement that no liar shall enter the kingdom of Heaven, associates the two statements very closely in importance.

The following paragraph in one of the Lamesa papers brings this subject to our mind when it says:

"We are told that Snyder, Roscoe, Colorado and some other points east of us have been telling travelers there were no roads to Lamesa that were hardly passable. We don't mind seeing the ticky towns boost for their town but we do resent their knocking us. You guys, hands off of us or we will print a story about your county."

We could never appreciate people very much who will willingly tell falsehoods about a competitor, or for the sake of a little business, but this is often the case, especially in communities where there is a rivalry that has drifted into jealousy to admit littleness to enter into their feelings toward each other. Cut it out folks, and give every fellow a fair deal, and you will grow and prosper and you will make better citizens, better men and your reward will be worth while in the end.—Lubbock Avalanche.

## ALLEGED THIEVES ARE ARRESTED BY SHERIFF KISER

There was some petty thievery going on in Pecos this week and 1st, but where the victims have made known their losses to Sheriff Kiser, the goods have been recovered and he has landed the alleged culprits in jail. Two young men drove into Pecos this week in a car with a Washington license and Sheriff Kiser had them under surveillance for a couple of days. They are accused of stealing a tire and tube from the Johnson Battery station, a spot light from Joe Camp and articles of value from Lang Buchanan.

They made a getaway east but were followed by the sheriff, arrested at Midland and returned to Pecos. Their cases will come up at the next term of court. They gave their names as John P. Wilson and Wesley Donaldson and claimed Wenatchee, Washington, as their home. The stolen goods were found in their car.

Two young men were arrested Wednesday by Sheriff Kiser accused of theft of wearing apparel from R. E. Miller. The loot was found on one of them and they are now in jail.

### ON AZTEC GALLOWS KATONKA SAYS HE KILLED MAN HERE

Up to a late hour last night the sheriff's office here had received no word from Sheriff Wynn of Aztec, N. M., who is quoted in press dispatches to the effect that Steven Katonka, whom he executed there for the murder of two taxi drivers, had confessed before his death to another murder, committed in El Paso.

Sheriff Wynn, the press dispatches state, declined to make the confessions public. It was presumed that that Sheriff Wynn would communicate his information to authorities here.

Charles Kelly, father of William Kelly, one of the men murdered near Aztec, witnessed the hanging and wept for joy, the press report states.

W. B. Kilpatrick, deputy sheriff in charge of the local office yesterday, said that, although nothing had been heard from the New Mexico sheriff, the alleged confession might have reference to the death of Nevill V. Nixon, service car driver and former policeman, about September 21, 1921, whose body was found September 2 of the same year near Barstow, Texas.

J. H. Key, who was manager of the stand on which Nixon worked, told the authorities that one of the two men last seen with Nixon had a name "something like Katonka."

Authorities said there apparently was some similarity between the manner in which the two service car drivers met their death in New Mexico and the way Nixon disappeared. Nixon was hired to drive two men posing as oil operators to leases near Pecos and Toyah. His body was found seven days after he drove away with the men.—El Paso Times.

R. E. TAYLOR, MOHAIR GROWER, WINS PRIZES

C. W. Taylor, son of R. E. Taylor, the well known Angora goat raiser, returned recently from a trip to various places in Texas, where they exhibited at fairs, and came home with a fine list of prizes. The Taylor ranch is about forty miles southwest of town and is one of the finest in the state. They exhibited at the Sabin Fair, and also at the Texas State Fair at Dallas, taking prizes in both places. At the Sabin Fair they secured prizes on the Championship buck and doe, and also secured a special prize of twenty-five dollars offered by Roy J. Davenport, for the best doe and buck. Mr. Davenport is a mohair buyer and expects to come to this part of the country in the near future to buy that commodity.

Mr. Taylor also made a number of winnings at the Dallas State Fair where there were a large number of exhibitors. The list of his premiums at the latter place is as follows: Buck, two years and over, first; doe, one year and under two, second, third and fourth; doe, two years and over, first, second, third and fourth; doe one year and under two, first, second, third and fourth. Champion buck and doe (these all in long haired class). Short haired class: Buck kid, second, third and fourth; doe, two years and over, second and third; doe, one year and under two, first, second and third; doe kid under two years, first, second and third. Champion doe. Exhibitors flock, first, second and third; pen of four yearling, first. Breeder's flock (silver Trophy cup), first. Long mohair exhibit on goat, second; pen of four kids; silver Trophy. Pleece exhibit, off goat, twelve months kid, first; six months kid, first.

Such a number of premiums is seldom received by one person and when the large number of exhibits is considered the winner has a good right to feel proud of his flock.—Calisbad Current.

DOCTOR TELLS HOW TO LIVE LONG AND PROVES IT; AGED 90

Chicago, Oct. 21.—Dr. R. Norman Foster, former professor of obstetrics at Hahnemann college, proved his theory of longevity by living to be 90 years old. His prediction 10 years ago was recalled when he died at Oceano, Cal., recently.

When 80 years old Dr. Foster told his Sunday school class here how to live to be 90 years old, by observing his 12 rules:

- Do not eat too much. Do not drink too much, especially of intoxicants. Do not work too much or too many hours. Do not work too little—better to work for nothing than to be idle. Do work that is for common good; all other is destructive. Take just what sleep experience proves right. Use recreation not for its own sake, but for new vigor. Do not always be in a hurry. Dress first for comfort, then for style. Avoid worry; it enfeebls mind and body. Shun all trespasses against the plain physiology of your existence. Thus lay the surest foundation for life of the spirit here and hereafter. During his medical career Dr. Foster estimated he brought more than 3,000 Chicagoans into the world.

Tutt's Pills To cure constiveness the medicine must be more than a purgative it must contain tonic, alterative and cathartic properties. possess these qualities, and speedily restore to the bowels their natural function.

IF YOU CUSS, YOU'RE EXCUSED

Perhaps you have a flivver. Or a near-flivver. Or some other kind of motor-driven vehicle. Or tractor. If you belong to this club you remember, no doubt, the boost in gasoline prices in early summer. First one cent, then another cent, then still another. All in rapid succession. This in spite of the fact that crude oil was lower than it had been in a long time and reserve stocks of

gasoline far greater. Well, the other day Standard Oil began cutting melons—began to pass out the profits. Stock dividends to the tune of \$750,000,000 were handed out by directors of three of the many Standard Oil concerns. The others are yet to be heard from. First was Standard Oil of California—\$100,000,000. This is 100

per cent of the previous capitalization, and gives every man one extra share of the stock for each share he holds. Next was Standard Oil of New Jersey—\$500,000,000, or about 400 per cent of the previous capitalization, giving every stockholder four extra shares for each one he holds. Now here's the final kick: Uncle Sam gets nothing out of this by way

of income tax. Your own little salary will be taxed none the less heavily. You see, instead of cash dividends, they paid the profits in stock. And the supreme court recently ruled such dividends are non-taxable. And it's Standard Oil that determines the price of gasoline in Texas.—Fort Worth Press.

Richard Lloyd Jones tells About Our New Crop, Culture.

IN 1847 a play by an American author was produced in a New York theatre. It was the custom then, as long since, for Americans themselves to believe that that which represented purest culture must come from overseas.

Before the curtain rose on this new play, the leading actor stepped before the footlights and read a poem-prologue which scoffed at the idea that an American could write a drama, and then rebuked the sneer by emphatically declaring that an American can. The audience greeted the patriotic plea and the play with cheers.

Since that day many Americans have written many great plays. An American culture has expressed itself as well in the field of fiction, poetry and philosophy; in art, music and in science.

Culture is just as much a crop as corn. It is the refinement of the product of the cultivated field. Growing great crops, producing great bulk, we have refined our output into the best makes of food and clothes the world has ever known. From the earth we dig both gold and iron ore, and through the refining processes we produce the delicately intricate watch. The genius that can dig out the hillside and convert it into a watch can find the melody of the brook in the string of the violin.

An American pianist who had acquired international note went abroad to play. With the skill of 1922 she had the frail faith of 1847, and had to go abroad to discover America.

In her first performance only once, and then for an encore, did she play a composition penned by an American composer. The critics rebuked her.

"We know what European music is," they said. "We came to get your message. We came to rejoice over the harvest of your crop of culture. Give us not that which is ours; give us that which is yours."

America is developing an architecture as distinct and as secure as that of Ancient Greece or Rome. One of our greatest sculptors found his art on the parched plains of Utah. One of our greatest painters came from a little town hidden in the foothills of the Adirondacks. He has pictured for the future historian the romance of the opening West.

O. Henry, the master artist of short-story writing in the English language, found his fiction in the ranch life of Texas.

When a \$10,000 prize was recently offered for the best contributed movie scenario, it went to an unknown writer from Apalachicola, a small town with a big name. Brains are found on Main Street as well as on Broadway.

The phonograph, the radio and the moving picture screens are building, not only appreciation, but the creative genius to which appreciation responds.

We need no longer look east for the finer things. That east is looking westward for that which we have to give.

We are ripening a crop of culture just as surely as we are ripening a crop of corn.

poem by UNCLE JOHN I love to talk with fellers, with a glitter in their eye, in defiance of the panic that is slowly passin' by. . . I love to see 'em swagger, an' to elevate their chin—an' to hear 'em speak of pluggin' till their ship comes in. . . I like to run across 'em, as we travel on ROUGH SEA our way. . . I take a lot of stock in what they do, an' what they say. . . I get my inspiration, and the firm desire to win, from the feller that's a-pluggin' till his ship comes in. I ain't got time to listen at the bird of grim despair,—that dotes on disappointments, till they get him by the hair,—but you'll see my spirit quicken, like you'd stuck me with a pin—when my neighbor speaks of pluggin' till his ship comes in! You own Uncle John.

HOMELY PHILOSOPHY For 1922 WHAT a wonderful boy they say he is—David Gladstone, fifteen years old, four feet tall, and yet a freshman in the College of Arts and Pure Sciences of New York University. He plans to enter law school as soon as he has completed his college requirements. Education? A prodigy, one of the seven wonders of the world. Ain't it a funny idea when these who see the setting of the sun know that a boy of David Gladstone's caliber always has a much better education than Gladstone when he is taught, and really learns that happiness comes from making the other fellow happy. That's the meat. Why fuss over the trimmings?

# ARE YOU INTERESTED IN THE WHEAT GUARANTEE WELL!

I have spent considerable of my own money in trying to promote the Wheat Guarantee Well with very unsatisfactory progress. While I have had a good response from many; those who are more vitally interested and would be more greatly benefitted should this well be put down and come in a producer, have—not a one of them, responded. I must know, and that quick, if those who have large holding which would be increased in value by the drilling of this well are interested—interested to the extent of putting some money in it to make it a go. I am now convinced that it will take the united efforts of all interested in that section to make it a go.

## If You Will Help Do It Now--Write and Tell Me

For upon this action will I decide whether or not to go on spending my own hard earned money in the promotion of this well. By this time you are acquainted with the facts and I ask that you write and tell me what, if any, action you will take in this matter.

## EVERY CENT GOES IN THE HOLE

Every cent of money put in this proposition will be spent in putting the well down to pay. Not one cent will be used for promotion or on salaries other than those drilling.

## TO THOSE WHO HAVE PAID IN

I wish to say that every cent of your money is in the Pecos Valley State Bank and in case it is not used in drilling the well will be returned to you in full.

Fill in the coupon today and mail with your check to the Pecos Valley State Bank, Wheat Guarantee Well Trust Fund and let's go.

Foreign Advertising Representative THE AMERICAN PRESS ASSOCIATION

Where is the man who said Pecos could not have a successful trades-day? He has evidently left these parts and stopped in Barstow.

The rains early this week have again made the prospects for winter grazing look much brighter. Let's hope the frost holds off until late in the season so that the grass can have a chance to mature.

A meeting of the Pecos Chamber of Commerce has been called for 2:30 this afternoon to discuss another trades day. It is to be hoped this can be made a regular event in Pecos, and it can if the proper spirit is shown.

A shortage of stock cars is costing our stockmen a lot of money and making it impossible to sell stock since there is no probability of being able to move them at an early date. The same complaint is heard all along down the line.

R. P. Hicks has three cars of coal on the tracks and is stalling it at the lowest prices possible—considerably lower than Pecos people paid for coal last winter. Depend on Hicks to furnish your coal when you need it at a reasonable profit and you'll not be disappointed.

SOME AMERICANS ABROAD

While it may be true that a prophet is not without honor save in his own country it is also true that many Americans are not without patriotism save when they are out of their own country.

Recently the manager of an important hotel in New York gave us a striking example. Talking to the Paris hotel men he told them in effect that they should learn more of the gentle art of looting Americans. Their prices were ridiculously low.

If Americans could get the best food and service for a normal price in the great hotels of the French capital how could they be expected to put up with the extortionate prices they have been trained to pay in New York?

The message to France was as plain as the message to Garcia—if you don't rob the American traveler you are missing a bet and crabbing the game.

Perhaps this friendly tip was to repay in part the great debt the New York hotels owe to the French. Were it not for the French language, Heaven knows what would happen to the New York hotel industry.

In one great American hostility for example a dab of cold left-over mashed potatoes is put into a pat-a-cake form, warmed over in a frying pan, and when browned it becomes "pomme de terre Marquisette," price 85 cents. The poor fish of a guest pays the piper without a whimper and then tips the waiter fifty cents for serving it with coffee at 35 cents a cup.

Evidently, whether it be through taxation, the juggling of a tariff schedule in the interest of some select set of industrial robbers or what not the American must pay through the nose for whatever he gets.

The editor of the Cisco American pays this splendid tribute to Fred Roberts. It is only another case of putting a gun on an otherwise bad man, and sending him out to murder those who are really worth while. It is only more conclusive evidence that only the best men in the community should be allowed the privilege of wearing a gun. The tribute follows:

In the murder of Fred Roberts at Corpus Christi a good man was sent hence without cause and the criminal element of that city is probably congratulating itself because the ranks of four-square men was thereby reduced. Never offensive, never a busy-body, Fred Roberts was always on the side of law and order and for that which makes the hearth stone safer. Called to the business place of a friend he went there, unarmed, for the purpose of making peace between three so-called officers of the law and the friend in question. After returning to his automobile he was shot three times while in the act of starting his car. Joe Acebo, one

of the officers in question, was formerly the proprietor of a disreputable saloon in the Mexican district and was commonly known as a sneak and cowardly gunman. Why he was permitted to walk about as a special officer is a question for the good people of Corpus Christi to answer.

HURRAH FOR WEST TEXAS!

West Texas has California backed off the map when it comes to the devotion of the people for their own land. California has long boasted of the ability of her people to shout the praises of California, but in this line they have nothing on the people of West Texas. And the people of California are no keener in working for the development and progress of their state than are the people of West Texas.

West Texas is a great agricultural country. It was long the greatest livestock raising section of all the United States, and yet is, but the livestock raisers have learned to make use of forage crops and grain in combination with range grasses, so that they can get better results today off one acre than formerly off fifteen acres. They are raising graded and registered stock, too, instead of the longhorns, thereby getting better prices when they send the animals to market.

West Texas captured eight blue ribbons at the State Fair in Dallas for county agricultural exhibits, taking all the blue ribbons in sight. Some of the products are off irrigated lands, but irrigation is yet in its infancy in West Texas. With soil, climate and irrigation, West Texas will, within a few years, take rank as the greatest agricultural section of the United States—Fort Worth Record.

SUPPORTING WEST TEXAS?

Commenting upon the recent action of the West Texas Chamber of Commerce, in merging "West Texas Today," the official publication of the chamber, with Texas Commercial News, published at Sugar Land, a town far removed from West Texas, the Reporter at Abilene carried an editorial Sunday morning which expresses the opinion of the Record. The editorial follows:

"It is announced in a recent issue of the Texas Commercial News, published at Sugar Land, South Texas, that the West Texas Chamber of Commerce magazine, West Texas Today, has been merged with the Commercial News. The West Texas Today has transferred all its subscriptions and advertising contracts to the Commercial News, and all members of the West Texas Chamber of Commerce will receive a copy of the News every week. The sum of one dollar is set aside from each membership for the purpose of furnishing each member with the News."

"This, it seems to us, is not keeping West Texas business or West Texas money in West Texas. In effect, it is giving the News a subsidy of ten per cent of the gross income of the West Texas Chamber of Commerce. In return for this, the News will devote four pages of its edition every week to West Texas activities—just as it devotes a portion of its space to the activities of the Texas Chamber of Commerce.

"Sugar Land has nothing in common with West Texas. It does not support the West Texas Chamber of Commerce, we fancy. And if the Chamber of Commerce has 5,000 members, the sum of \$5,000 is a pretty good slice of cash to send to South Texas every year.

"The West Texas Chamber of Commerce is supported by West Texas money. It should serve West Texas and West Texas alone."

The Southwest Plainsman, published at Amarillo by W. J. Cheney, is also somewhat perturbed to understand why "West Texas Today" should be delivered to a concern several hundred miles outside the territory represented by the West Texas Chamber of Commerce. In the current number of that paper, we find the following editorial:

"Subscribers of West Texas Today the official publication of the West Texas Chamber of Commerce, were surprised, this week, to receive a copy of the Texas Commercial News, published at Sugar Land. The reason therefor, however, was set forth in an announcement on the first page of the magazine, which stated that West Texas Today had been merged with the Sugar Land publication and would, hereafter, be issued as a section of that excellent journal. Doubtless, the readers find the News interesting; but we are wondering why it was necessary to go way down on the Gulf Coast to find a suitable publication willing to take over the subscription list of our West Texas publication."

There are several other leading newspaper men of West Texas who have expressed the same opinion in this matter. The Lubbock Avalanche, one of the best papers published in this state, and a champion of the interests of West Texas, says: "The Avalanche editor may be dull of comprehension. May not be good on arithmetic, and we will admit that we can't figure out just why some things are done. For instance we cannot figure the following problem: The West Texas Chamber of Commerce is an organization that is supposed to be made up of West Texas people. It is supported by West Texas folks and yet when it came time to make a contract for the printing of their

West Texas publication they went off down in the sticks—to Sugar Land and let the contract, when there were numbers of printing plants in the West that were capable of doing the work, and doing it well. May be that the price might not have been so good, but even at double price it would have been better business policy for the W. T. C. C. to have spent their money in the home territory. People would have gotten more benefit out of it, and they would have felt that the West Texas Chamber of Commerce was more sincere than when they slip off down in the weeds and let a contract in a section of the State where the people are not even friendly toward us. Thousands and thousands of dollars are paid into this organization yearly by the West Texas people, then why not have their printing done in this section? We are just wondering. We are a little dull of understanding. Will some one of the executive board please explain in a satisfactory way."—Colorado Record.

CANDY AND FLOWERS NOT ENOUGH

Mrs. Julia Brightmore of Chicago, bride of thirty days, is suing for a divorce because she is convinced that her husband "didn't care."

During the month after their secret marriage, Mrs. Brightmore declared, her husband called on her every evening at her home, bringing gifts of candy and flowers, but never asked for a kiss.

"I had so hoped that ours would be a romantic marriage such as I had read about," said Mrs. Brightmore, "but instead it was worse than colorless." She was awarded \$10 a week for her support.

Reeves county grocers are warned not to forget the most important item—that kissing.

KEEP WHITE AND BLUE IN OUR FLAG

Our country with a generosity unmatched in history opened her doors to all peoples.

It is known to our Department of State that some European countries have used us, as England once used Australia—a dumping ground for misfits. Some of these undesirable responded to the better opportunity and righted themselves. Others have filled our jails and given our courts much work.

The spawn of generations of oppression, they have only suspicion and destruction for any established order. Their passion is to destroy. They hoist the red flag of anarchy in place of the banner we venerate and that welcomed them. They early seek the franchise. With a guileless generosity we give it to them.

The Reds and the Radicals and the Bolshevik-minded had one of their typical conventions in Central Europe this summer. But they were not content to stop with Central Europe. There is an organized system of propaganda and promulgation.

An American tourist met one of the American student delegates to this convention on an Austrian railway train. The boy boasted of the quota of REDS he was to bring into America in September to enter a great American college. He was one of many chosen to bring the flaming members of Europe's discontent to inoculate no less than two hundred American colleges.

There are some things more precious than precious stones. As precious a thing as blesses the world today is our American ideal of democracy. Imperfect as is our demonstration of it, the ideal is flawless. It is not for us to leave that ideal unguarded by the roadside for any malcontent to malign or injure.

When we find anarchists and experimentalists using our institution of culture to spread their ungrateful doctrine it is time for us to act.

Regents and trustees, visitors and overseers, professors and college presidents should be mindful of the work that is going on silently and surreptitiously in our college halls to undermine the foundations that uphold our flagstaff.

42 CLUB ENTERTAINED

Mrs. J. W. Brooks and Mrs. L. W. Anderson were hostesses Thursday afternoon to the 42 club, which consists of 20 members. The color scheme of the occasion was black and yellow, a happy reminder of the approaching Halloween.

After a number of spirited games had been played a delicious salad course was served to the following ladies:

Mrs. A. E. Wilcox, Mrs. Roy Wilcox, Mrs. Wiley Cole, Mrs. G. B. Finley, Mrs. John Lilly, Mrs. J. G. Love, Mrs. Sid Cowan, Mrs. Will Cowan, Mrs. A. G. Taggart, Mrs. Gid Rowden, Mrs. H. N. Lusk, Mrs. Wm. Garlick, Mrs. W. W. Runnels, Mrs. Albert Sick, Mrs. J. W. Parker, Miss Lucile Rulien, Mrs. W. R. Glascock and Mrs. Carl Eddins.

Little Miss Nell and Master Wallace Anderson assisted in entertaining the guests.

ONE WAY TO GET AN EDUCATION

Some time ago, writes a subscriber to The Youth's Companion, I was traveling in Europe with a young lady who lived in a small town way down East in Maine, and who was more generally informed in the history, literature, art and music of the countries we visited than those who had lived in and had the advantages of a large city. "Where were you educated?" I asked. "I was brought up in my home town and on The Youth's Companion," was her reply. And this same liberal education is in The Companion for anyone who will seek it. # Pecos School Notes Of Interest

## Clipped From The Whirlwind

### Many Are Planning To Go To Fort Stockton

The Junior class of the Pecos High School has decided to entertain the Seniors October 28, 1922. This function will be one of the greatest social activities that has ever been "pulled." The Seniors will be the guests of the Juniors to Fort Stockton, where there will be a football game, Stockton vs. Pecos also a basketball game.

Transportation will be furnished by the Juniors, the "eats" will be furnished by the Juniors, so you will see that it will be the Juniors that do the entertaining.

The lunch will be taken from Pecos, the main factors will probably be: fried chicken, sandwiches, cookies, pickles and potato chips. If the weather man is generous so as to allow a nice day, the crowd will eat at the famous Comanche springs.

After every one has had their fulfillment of the wonderful lunch they will go to the football and basketball games. There will probably be at least seventy-five persons over at Fort Stockton. There is no reason that Pecos should not make Fort Stockton ashamed of their rooting section at the home.

Only the Seniors, Basketball girls and Football boys will be invited to eat the lunch because of the large crowd that intends to make the trip.

The Pecos band will make the trip, there will be about fifteen persons in this organization. Many of the Pecos people have arranged that they can go. So from the looks of things there is going to be a "hot time" in Fort Stockton that day, so you must try and go. People, you owe it to the team; and also to yourself, why should you stay at home and deny yourself this pleasure.

Be ready Saturday morning of the 28th, and above all be prepared for a good time, you can't keep from enjoying yourself.

### Fort Stockton Unable to Cross Goal Line

On Saturday October 14th a large delegation from Ft. Stockton rooters and fans accompanied their basketball and football teams to the local grounds only to witness a near slaughter. The girls' game was what the score would indicate, a light workout for the home girls. The football game was not exactly what the score would indicate, for although the Pecos gridders were not able to register a count in the first half, there was never a doubt from the opening minute of play that she had her opponent hopelessly out-classed. The teams were fairly matched as to weight with the home team having a slight advantage, but the superiority of the Pecos team was due more to teamwork and a varied attack than to weight.

The game opened with Stockton defending the north goal and receiving.

Wheat kicked off forty five yards to Jacobs who returned five yards. Two attempts at the line and an end run netted Stockton only six yards and Jacobs punted to Wheat who returned ten yards. Pecos' ball on her own 48 yard line. Wheat and Cowan made first down on two line tucks. Another buck gained two yards, a fumble lost five yards and Pecos punted. The ball saw-sawed in midfield the remainder of the quarter. End of the first quarter. Score, Pecos 0-Stockton 0.

**SECOND QUARTER**  
Pecos has ball on Stockton's 45 yard line. A series of bucks and off tackle plays carries the ball to Stockton's 5 yard line where Wheat fumbles on first down and Stockton recovers and punts out of danger. The ball was in Stockton's territory the entire quarter with Pecos making four first downs and Stockton one. Score; Pecos 0, Stockton 0.

**THIRD QUARTER**  
Pecos receives and returns 20 yards to midfield. Wheat hits the line for five yards, Caroline passes to Wheat for six yards and first down. Wheat reeled off 25 yards around left end, Caroline makes 5 off right tackle, Moran squirmed over left tackle and wormed his way 15 yards to Stockton's 5 yard line. Wheat makes three over tackle—Cowan carries the ball over left tackle for the first touchdown. Moran misses drop kick for the extra point. The quarter ended with Pecos in possession of the ball on Stockton's 25 yard line. Score; Pecos 6, Stockton 0.

**FOURTH QUARTER**  
Pecos held for downs and punts. Stockton returns to her own 40 yard line. Stockton fails to gain on three center rushes and punts. Pecos returns 15 yards to her own 40 yard line. A series of off tackle and line plays advances the ball to Stockton's 20 yard line. Moran makes 18 yards around left end. Wheat hits the line for the second touchdown for Pecos. A drop kick for the extra point by Moran fails.

Pecos kick off to Stockton. Stockton forced to punt. Pecos' ball on the 50 yard line. Cowan makes 15 yards off tackle. Wheat makes 8 over right tackle. A pass Caroline to Moran is good for 15 yards, and Moran eludes several tacklers by a beautiful exhibition of open field running and stiff arming to a touchdown. Moran failed for the third time to drop kick goal. Stockton receives and punts. The punt is bad and Pecos has the ball on Stockton's 40 yard line. On a fake run around left end Wheat reverses and passes the ball to Moran for 20 yards, Moran again thrilled the fans by ceiling, squirming, side stepping and stiff arming all tacklers for a 25 yard run and the fourth touchdown, the third of the quarter and the second in five minutes of play Cowan attempted to carry the ball over left tackle for the extra point but fell short. Score; Pecos 24, Stockton 6.

### Game Called, Pecos Has Ball on Two Yard Mark

Pecos Hi football team met the Odessa team last Friday on the White Sox park. The teams were very evenly matched, though the Pecos rooters had it on the Odessa bunch. The game in full details is found below:

Wheat lost the toss and kicked to Odessa. The pigskin sailed into the waiting arms of Coates who made a short run before Rhulen took him to the ground. Kelley was sent through the line but fumbled and Norwood covered the oval for Pecos.

Pecos has the ball on the thirty yard line, Caroline was sent against the line for six yards, Moran gained five yards around left end. Cowan with five yards to his credit, Wheat fails to gain through the line, Cowan is turned back with no gain. Wheat made one yard on a center rush. The ball went over to Odessa.

Odessa started the ball northward with a series of line bucks that made first down.

Meadows dashes around right end for six yards, Kelley then plows through the line for five yards. Coats makes first down around left end. A five yard pass was successful Ambergly to Kelley. Brown throws Coats for a loss of five yards. Whistle ends first quarter, no counts had yet been chalked for either side.

Second quarter starts with the ball on the fifty yard mark with Odessa in possession of the ball. Ambergly punts to Moran, who runs the ball back to the fifty yard line.

Moran punts forty yards, Meadows is nailed in his tracks. Ambergly makes fifteen around left end, Cowan elips Meadows for a loss. Ambergly punts twenty-five yards.

Moran punts thirty-five yards. Wheat takes a pass from Tucker. Brown gains fifteen by pass. Cowan rushes center for ten yards, Wheat makes a beautiful dive over the line for the first count. Moran drop kicks the goal.

Wheat sends the ball into the Odessa ranks. Kelley completes a fifteen yard pass. Coats snatches a five yard pass. Kelley hits the line for six yards. Cowan intercepts a pass.

Moran is downed for one yard loss by Kelley. Moran punts fifty yards, Meadows fumbles and Warn recovers and gallops over for another touchdown. Moran kicks goal.

Wheat kicks to Jones who is tackled in his tracks, Meadows takes the pig skin around left end for five yards. Kelley is checked with no gain, Coats is tackled for a small loss, Ambergly makes two yards through center. End of first half Pecos 14, Odessa 7.

Cowan receives the kick off and makes twenty yards before being downed by Ambergly, Wheat makes five yards through the line, Pecos fails to complete pass, Caroline fumbles and Odessa recovers.

Brown intercepts pass, Moran makes fifteen around end. Wheat makes five on line plunge, Ambergly intercepts pass and makes a forty yard run for touchdown. Meadows kicks goal from placement.

Ros receives the ball and makes ten yards, Cowan makes fifteen on end run. Moran collects ten yards off left tackle. Caroline smashes through the line for ten yards. A fee fumble makes first down for Pecos.

Moran hits off tackle for thirty-five yards, Kelley downs Moran on Odessa's two yard line. Kelley is knocked unconscious for twenty minutes. Tucker is unable to return to the game because of a bad kneecap. Odessa did not have another man so the game was called. The score was 14 to 7 in favor of Pecos.

### Odessa Girls Yield Fast Game To Pecos

Again the Red Streaks came out victorious when the Odessa basketball tossers envaded the Red Streaks camp. The Odessa girls is the best team that the Pecos quintet has tackled this year, but at that it was a very easy victory for the fast Pecos players.

The game was very hard fought on both sides, also rather rough as two of the players were forced to leave the game because of injuries. While Hicks of Pecos should have been replaced but her gameness kept her in the harness. There was only two personal fouls during the game. Boles of Pecos and Coats of Odessa being the offending players.

Boles and Prewit did the goal shooting for the Pecos clan. They played up to their usual form, hitting the basket from all angles.

Prewit was the highest point tosser of both teams. Capt. Boles worked more on the defensive during this game.

The center section was taken care of by Hicks and Kiser, the midget wonders. Never has there been a pair of centers that could play up to these girls. They almost make the spectators dizzy by their playing. Hicks was almost forced to leave the game when she fell on her face in the third quarter. But the first thing that she asked about was: "Is my face ruined?" Gentry and Alexander started

guard duty for Pecos, and believe me they sure keep the opponents score to a very small amount. Alexander hurt her leg and was compelled to leave the game, but Mary Mount took care of the guard position in a wonderful manner.

Coats and Jones were the outstanding stars for the visitors. With a little bit more practise the Odessans should make the Pecos girls go the last notch to beat them.

The final score was 48-18 with Pecos holding the long end. R. B. Norman officiated the game in a very creditable manner.

# GATES TIRES

The Tire with the Wider and Thicker Tread

Isn't This What Counts?—

It isn't the mileage that's in a tire, but the miles you get out of it, that counts.

Take a cord tire for example—fully 50% more miles in the cord carcass, but you'll be throwing these extra miles away unless the rubber tread wears longer, too.

That's why a wider and thicker tread is especially important on cord tires.

Gates Super-Tread Cords have the wider and thicker rubber tread and that's why you're getting two or three thousands extra miles out of them.

FINANCIAL REVIEW

Prepared for The Enterprise By The First National Bank in St. Louis.

Stock of zinc in producers' hands in this country were 18,860 short tons September 30 compared with 21,629 September 1, a reduction of 2,803 tons. Embargo upon freight movement other than fuel on the Pennsylvania system toward the end of the month held down shipment considerably as most of the galvanizing plants of this country are in that territory, and galvanizing demand has been back of much of the recent heavy buying.

Smelter output for September was 33,134 tons, the largest for any month since November, 1920, compared with the low for the post-war period in September, 1921, 14,366 tons. This large output, 1,711 above August, the previous high for 1922, kept stocks from showing as large reduction as had been expected.

Mine output is at present about 28,000 tons, or almost 8,000 tons below shipments for the month, which were 35,957 tons compared with 38,412 in August and 5,000 tons below average shipments for the year.

Shipments for the first nine months of 1922 have averaged 33,164 tons a month, and output 27,856, making reduction in stocks for the period 47,802 tons. This average shipment of around 33,100 tons compares with a monthly average of practically 18,500 in 1921, 29,300 in 1920 and 24,000 a month normally pre-war.

BOY'S ESSAY ON THE GOOSE. The goose is a low, heavy-set bird, composed mostly of meat and feathers. His head sets on one end and he sets on the other. He cannot sing much on account of the dampness in the moisture, in which he lives. There ain't nothing between his toes and he carries a toy balloon in his stomach to keep him from sinking. A goose has two legs and they are set so far back on his running gear that they come pretty near missing his body. Some geese when they get big are called ganders. Ganders don't have to set or hatch, but just loaf, eat, and go swimming. If I was a goose I had rather be a gander.

Flapper's Farewell

The flapper is gone. She said she wouldn't wear long skirts—still here she is, wearing it and looking very charming in a new rich blue, hand-painted duvety trim with wolf fur, and all topped with a canary yellow trim with silk roses.

CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any Constable of Reeves County—Greeting:

You are hereby commanded to summon J. R. Sharp, S. Tuttlemyer, W. R. James, W. C. Rountree, J. R. Goldston, W. J. Woods, Rich Furniture Company, W. E. Allen, H. C. Power, T. W. Tuttlemyer, John A. Deering, Frank Gibbons, F. E. Kestler, S. T. Kestler, by making publication of this Citation once each week for four successive weeks previous to the return day hereof, to appear at the next regular term of the District Court of Reeves County, Texas, to be held at the Court House thereof, in Pecos, Texas, on the 20th day of November, A. D. 1922, then and there to answer a petition filed in said Court on the 20th day of October, 1922, in suit No. 2277, wherein J. M. Speed is Plaintiff, and J. R. Sharp, S. Tuttlemyer, W. R. James, W. C. Rountree, Frank Gibbons, F. E. Kestler, S. T. Kestler, J. R. Goldston, W. J. Woods, Rich Furniture Company, W. E. Allen, H. C. Powers, T. W. Tuttlemyer, John A. Deering are Defendants and said petition alleging that heretofore to wit on the 14th day of December, A. D. 1912, this plaintiff purchased under tax sale and obtained tax deed to Sections 7 and 19, Block 59, Public School Land, Reeves County, Texas, obtaining thereby all of the title and interest of T. W. Tuttlemyer by virtue thereof. That since said date plaintiff has had peaceable, adverse and continuous possession of said tract of land, paying the taxes thereon under title and color of title, to-wit, the tax deed aforesaid, and certain warranty deeds from T. W. Tuttlemyer. That defendants, T. W. Tuttlemyer, J. R. Sharp, S. Tuttlemyer, W. R. James, W. C. Rountree, J. R. Goldston, W. J. Woods, Rich Furniture Company, W. E. Allen, H. C. Power, John A. Deering, Frank Gibbons, F. E. Kestler, and S. T. Kestler are each claiming some interest in said tract of land, the exact nature of which are to plaintiff unknown, except that certain mineral leases, deeds of trust and deeds have been entered into between the defendants hereto and by them placed of record. Plaintiff avers that such instruments so recorded place a cloud upon his title, though same are in fact null and void and of no effect in reality.

And plaintiff in view of his title by deed and by limitation, now prays that he have judgment quieting his title in and to said tracts of land, cancelling the claims of said defendants, and removing such clouds from his title to the premises and quieting his title in and to same.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Pecos, Texas, this 20th day of October, A. D. 1922.

CITATION BY PUBLICATION

The State of Texas, To the Sheriff or any Constable of Reeves County—Greeting:

You are hereby commanded to summon Lee V. McEntire, William Owens, L. J. Grossblatt, D. MacKenzie, I. S. Adams, C. S. Davis, G. R. Smith, and C. T. Bates, each individually, as partners in the El Paso Saragosa Oil Company, and as

trustees of the El Paso Saragosa Oil Company, a trust estate, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, to appear at the next regular term of the District Court of Reeves County, Texas, to be held at the court house thereof, in Pecos, Texas, on the 20th day of November, A. D. 1922, then and there to answer a Second Amended Original petition filed in said court on the 20th day of October, A. D. 1922, in suit No. 2244, wherein John J. Bush is plaintiff, and the El Paso Saragosa Oil Company, an unincorporated joint stock association, Dee Davis, Lee La Rue, S. T. Hobbs, Lee V. McEntire, William Owens, C. M. Honaker, J. W. B. Williams, S. C. Vaughan, I. S. Adams, L. J. Grossblatt, C. S. Davis, G. R. Smith, C. T. Bates, D. MacKenzie, and W. A. Hudson, individually, as trustees of the El Paso Saragosa Oil Company, a common law trust estate, and as partners composing the firm of El Paso Saragosa Oil Company, a partnership, are defendants; and said petition alleging that from May 1, 1920, to May 1, 1921, plaintiff performed labor as general manager and as field manager, for the El Paso Saragosa Oil Company, and the said defendants, and under a contract of hire with its officers and trustees, being the other defendants herein, at the price of \$300.00 per month during such period. That there was earned by plaintiff under such contract the sum of \$3600.00. That there was paid to him on such account the sum of \$663.02, so that there is still due and payable to him the sum of \$2,936.98. In addition thereto plaintiff alleges that he holds by proper and legal assignment, the account of Lee La Rue in the sum of \$1,100.00, due for labor performed in guarding the property of the El Paso Saragosa Oil Company from September 15, 1920, to April 15, 1922, at a contract price of \$60.00 per month. And that none of said account has been paid. That though plaintiff has made numerous demands for payment of said debt, defendants have failed and refused to pay the same to plaintiff's damage \$4,036.98, for which sum with interest and costs of suit plaintiff prays judgment, etc.

In the alternative plaintiff alleges that the plaintiff and all of the defendants named above on April 15, 1919, entered into a partnership agreement to carry on the business of dealing in mineral leases, drilling oil and gas wells, and carrying on the required development under such leases in an effort to discover oil and gas strata, under the firm name of the El Paso Saragosa Oil Company. That under such agreement the partners have acquired considerable property in leases, fixtures, well machinery and casing. That no equitable division of said property can be made except by sale of the property as a whole and a division of the proceeds among the partners according to their respective interests. That plaintiff is entitled to a dissolution and accounting of said partnership because defendants are not actively carrying on the business of the partnership according to agreement; that defendant S. T. Hobbs has failed to account for certain partnership moneys but has appropriated same to his own use and benefit; and that the partnership is in an insolvent condition. And plaintiff prays for a dissolution of the partnership, that a receiver be appointed, and that after payment of the debts of the partnership and the costs of this suit, the proceeds remaining be divided between the parties hereto, according to their respective interests, etc.

Herein fail not but have before said Court, at its aforesaid regular term, this writ with your return thereon, showing how you have executed the same.

CITATION BY PUBLICATION.

The State of Texas.  
To the Sheriff of any Constable of Reeves County—Greeting:  
You are hereby commanded to summon P. T. Hammond by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Reeves County, to be held at the Court House thereof, in Pecos, Reeves County Texas, on the 3rd Monday in November, 1922, the same being the 20th day of November, 1922, then and there to answer a petition, filed in said Court on the 5th day of October, 1922, in a suit, numbered on the Docket of said Court No. 2262 wherein Mrs. P. T. Hammond is Plaintiff, and P. T. Hammond is Defendant, and said petition alleging in substance, that Plaintiff and Defendant were married on or about the 17th day of September, 1918, and on or about the 1st day of December, 1921, the defendant permanently abandoned plaintiff, and left her and went away to another State. That during the time that she and defendant lived together as husband and wife she faithfully discharged all of her marital obligations to him, but the defendant was cruel and tyrannical, and abused plaintiff and towards plaintiff, and abused plaintiff and used cross and rough language to her. That he failed and refused to support her, and she was compelled to do hard work to support him and herself, as well as two of his children. That defendant is a stout, strong able bodied man and able to work and earn support for himself and plaintiff, but refused to do so. That plaintiff is a weakly, frail and delicate woman and in bad health. That defendant was extremely unclean and filthy and dirty. That on account of his treatment of her and also on account of his uncleanness, it renders their living together as husband and wife insupportable.

Plaintiff also alleges that there is no community property belonging to her and defendant, but that she owns in her own right Lots Nos. 2, 3 and 4 in Block 29 in North Pecos Addition to the Town of Pecos City. Also Lot No. 5, in Block No. 32 in the Town of Pecos City as shown by the original map or plat of said Town of Pecos City. Also Lots Nos. 11 and 12 in Block No. 3, in West Park Addition to the Town of Pecos City. All being in Reeves County Texas. That the defendant is claiming and asserting a community interest in said property, but in fact and in truth he does not own any interest in the same, but that all of said property was purchased with separate and individual funds of plaintiff and is now owned and held by her in her own separate and individual name and right.

Wherefore plaintiff prays for a divorce from the defendant and that said real estate be decreed to be her separate and individual property, and that defendant be adjudged to have no right, title or interest in the same.

Herein fail not, but have before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness S. C. Vaughan Clerk of the District Court of Reeves County Texas.  
Given under my hand and the seal of said Court, at office in Pecos, Texas, this 10th day of October 1922.

S. C. VAUGHAN,  
Clerk District Court, Reeves County.  
H. P. KERR, Deputy.  
By No. 2262, in District Court, Mrs. P. T. Hammond vs. P. T. Hammond, Citation by Publication. Issued this 6th day of October, 1922.

S. C. VAUGHAN, Clerk.  
H. P. KERR, Deputy.

PERSONAL

N. F. Chapman (Lawyer Evans Chew) was a visitor in El Paso this week.

Mrs. R. T. Jones returned last week from a visit to relatives in Big Spring.

Mrs. Herbert Frickett will return next week from a visit to relatives in Natchez, Miss.

Mrs. Sid Kyle, Mrs. Harry Anderson and Mrs. Beulah Wilson were visitors to Balmorhea Tuesday.

Mrs. J. W. Moore is expected home next week from a visit of two months to relatives in Kentucky.

Mrs. C. A. Johnson arrived Thursday from Indiana to join her husband in their home here.

Mr. and Mrs. Hubert Honaker of Saragosa are in town this week visiting their mother, Mrs. Martha Adams.

Mrs. Miller of Baird who has been visiting in California, spent a few days with Mrs. Roger White on her return home.

Mrs. Charles Stock of El Paso who is visiting her mother, Mrs. P. B. Smith, will return to her home Sunday.

Mrs. Noaker and children left this week for Belen, N. M., where they will join Mr. Noaker who has employment there.

Mrs. R. N. Conch left Sunday for Dallas to attend the meeting of General Grand Chapter Order of Eastern Star, that convened there this week.

Eugene Roberson returned Tuesday from Clovis, N. M., where he has been for some time doing guard service for the Santa Fe Railroad shops.

James, the eight year old son of Mr. and Mrs. J. G. Murray who has been critically ill the past four weeks with typhoid pneumonia is reported as slowly recovering.

Mrs. Florence Guthrie of Dallas en-route to California, was met in Pecos Wednesday by her mother, Mrs. Annie Davis, and brother, George Davis, of Balmorhea, for a few hours visit between trains.

Mark Schafer of Carlsbad, was in town for a day or two this week. He states that it is no better in his town than in Pecos and that if he had remained in Pecos instead of moving about he would have been at least \$1500 better off.

Mrs. Ben H. Palmer, and little son have returned from an extended visit to her sister, Mrs. Addison Wadley, of Midland. Her mother, Mrs. C. C. Buchholz, remained for a longer visit and is being much benefited by the change.

Mrs. Beulah Wilson who has been visiting her parents, Mr. and Mrs. R. S. Johnson, of this city for the past month will leave today for San Antonio, where she will fill the position of secretary to Dr. Burgin, pastor of the First Methodist church south, of that city.

Tom T. Garrard of Midland and candidate for district judge in the recent primary election was a passenger on the west bound T. & P. Tuesday, going to El Paso to argue a case before the court of civil appeals. Tom is a fine fellow and has many friends in Reeves county.

Mrs. Carl Morrison, daughter of Mr. and Mrs. John Mann, who has been critically ill at her home in El Paso, was removed from the Sanatorium to her home this week. Mrs. Morrison is slowly improving but it is believed another operation will be necessary before her complete recovery.

Mr. and Mrs. J. P. Collins received the happy news Sunday that Mr. and Mrs. Fred Collins, of Toyah, were the proud parents of a baby girl, upon whom they had bestowed the pretty name of Dorothy Mae. The Reporter with other friends extends congratulations.—Midland Reporter.

The Annual Business meeting of the Pecos Valley Baptist Association is being held in Fort Stockton today. The program for next year's work will be determined at this meeting. Rev. J. M. Garner, W. D. Cowan, E. L. Collings and A. G. Taggart of this place are attending the meeting.

Rev. J. A. Phillips, Presiding Elder of Mexican work in the Pecos Valley, passed through Pecos Wednesday en-route from Roswell, N. M., to Phoenix, Arizona, where Bishop James Cannon, Jr., will conduct the Mexican Annual Conference. Rev. Dorsey Newburn of Carlsbad accompanied him.

Rev. L. L. Thurston reports a most pleasant surprise occurring Wednesday in a pop-call made by an aunt, Mrs. J. M. Gudgeon of Madill, Oklahoma, and three of her grown sons who are en-route to California, a la Ford. Rev. Thurston had not seen these relatives for a number of years.

No hypocrite, thank God, I be; My front yard is a sight to see—The back one—not one whit better.

Mrs. Roger White came home Monday from a visit to Fort Worth.

Mrs. J. W. Parker is adding considerable improvements to her residence property. She will recanvass and paper the entire house, put up a garage and large tank and guttering to catch rain water. Since this home is nicely furnished and close-in Mrs. Parker should have no trouble in renting same at a reasonable figure.

Mr. and Mrs. Elmer Jones left for Midland Tuesday where they expect to reside permanently. Mr. Jones will engage in the cattle business there as well as look after his ranch interests in this part of the state. Mr. Jones is one of the most charming young matrons of Pecos and the many friends of this popular young couple regret exceedingly to lose them from their social circle.

Deputy U. S. District Clerk J. F. Carlisle, now located at San Antonio, visited with his family here from Saturday to Wednesday. Joe is well pleased with his work and with San Antonio although he is not there all the time. He states that rents are high in that city but that living is much cheaper than here. His many Pecos friends were glad to see him.

THE CHURCHES

**METHODIST CHURCH**  
"The Faith of a Child" sermon at the Methodist church last Sunday morning was well received by a large audience than usually gathers with us. I am glad about it.

Next Sunday morning I hope to bring a helpful message, the beginning of a series on "High Lives and High Living," and crave your prayers and presence.

L. L. THURSTON, Pastor

**WANTED!**  
A house full of people at the Methodist church next Sunday morning to hear me on the greatest thing that could take place in Pecos.

This is designed to be the first of a series of sermons on High Lives and High Living.

God grant us grace to do each other good.

L. L. THURSTON, Pastor.

**ANNOUNCEMENT**  
If Madame Rumor is half-way to be believed, there is enough of slush to gult the appetite of a buzzard and perhaps it would "draw the crowds" but I prefer to cultivate that part of man which "mounts up on wings like the eagle," and so announce the theme, "High Lives and High Living" for next Sunday morning.

You are cordially invited to hear it.

L. L. THURSTON, Pastor Methodist church.

**BAPTIST CHURCH**  
We have just created nine new rooms for Sunday School purposes in our church. This indicates a lively growth. Our teachers and officers are becoming more efficient in their work all the time. This is due to the immense amount of study course work being done, and the practical application of same. A big crowd is expected Sunday morning. Will you be there?

All regular services will be held Sunday except the evening preaching hour. We will worship with our brethren at the Christian church who are having their revival meeting at this time.

Don't fail to be on hand Sunday morning and see the new improvements and keep pace with any new plans that might be projected. New things are in evidence and new folks are welcomed. If you are not in a Sunday School you have an invitation to join ours. We have a class that will fit you.

J. M. Garner, Pastor.

**PROMINENT TOYAH LADY HONORED**

Mrs. Finley Holmes and her daughter, Miss Margie, were the recipients of a delightful hospitality recently at the home of Mrs. C. C. Cargill, when she, her daughter-in-law, Mrs. Clyde Cargill, Mrs. Thea Andrews and Mrs. J. J. Pope entertained at a delightfully appointed progressive "42" party in their honor. The rooms were beautifully decorated with autumn cut flowers and suggestions of Halloween were in evidence in a golden colored motif with black cats and other symbols in keeping with the season.

There were fifty guests present and after the usual number of games were played a delicious salad course was served.

W. H. DRUMMOND PLEASSED

That his daughter, Miss Jane, who is in attendance upon the State University at Austin and as busy as a cranberry merchant with her studies which are always brought up to a level with the best of her class, should think of his birthday, and wire him her happy thoughts, was very gratifying to W. H. Drummond who received the following telegram October 20th:

Austin, Texas, Oct. 20, 1922.  
W. H. Drummond  
Pecos Texas.

Dearest Dad, you are the same sweet dad that you ever were. I wish you seventy-two more happy birthdays. I love you,  
JANE DRUMMOND.

I am here tonight, not because I want to be, or because I get any pleasure whatever from regarding people who are manifestly inferiors, but because the political leader who gave me the nomination listed this place for tonight on my itinerary.

I want to go to congress and I suppose I have got to ask for your votes. I know nothing whatever about the duties of congressman, being a retired manufacturer by trade, but I should like to have the honor of the position, and my wife would enjoy the social life of Washington. I have a competent secretary who would do all the work for me.

I expect to do nothing whatever for any of you if you elect me, and will thank you to write me no let-
