THE FORT STOCKTON OIL FIELD "DAY BY DAY IN EVERY WAY IS GETTING BETTER AND BETTER"

Fort Stockton Pioneer.

Since tapping a new oil sand at 3,100 feet by the Troy No. 1 well, the development and activity in the Fort Stockton oil field is getting "better and better in every way."

There is every evidence that active drilling operations are going to be more diligently and zealously prosecuted. This is due to the fact that a deep pay horizon has actually been discovered. There is little doubt that the Troy well on section 20, block 140, land owned by Judge Howell Johnson, has encountered commercial pay oil, and it is possible that production from this well will prove greater than the most sanguine predictions. The Fort Stockton oil field has had a good showing of shallow production for many years and without a doubt the discovery of deep pay means that the drill is going to now get down to business—in fact it has already begun.

Last week, the Pioneer is reliably informed, a close alliance was formed between the Grant Oil Corporation and the W. B. Troy interests, the purpose of which is to speed up drilling activity. As a result of forming this alliance between the Grant Oil Corporation and the W. B. Troy interests, the allied companies place in charge as general superintendent of the Fort Stockton oil field a man who has for the past three years made a very close study of every condition and need of the field. He is an experienced, capable and thorough going oil man, and is none other than J. W. Grant, vice-president and general manager of the Grant Oil Corporation. Mr. W. B. Troy was also informed and retained as general manager of the Troy interests and will continue active as heretofore, and we hope successful with the drilling operations that will be under his supervision.

Superintendent J. W. Grant in discussing with the Pioneer the future outlook for our oil field and the effect the new oil sand found in the Troy well would have and was having on development operations, was very optimistic. He said that the installation of a Clark Gas Drilling engine on the Grant No. 6 well, formerly known as the Oregon-Texas well which is located on section 19, block 140 one-half mile west of the Troy well had been completed and drilling resumed at 2,200 feet. Superintendent Grant further stated that the drilling of this well will not only be pushed, but that it will be rushed and the well completed in the very shortest time possible.

One quarter of a mile west of Grant well No. 6, is located Grant No. 5 well better known as Polk Prospect, which has been drilled to a depth of 1,212 feet. Supt. Grant expressed himself as being sanguine that this well also will be drilled to completion at an early date, and said it would be watched closely and with much interest. The location of this well is on land owned by James Rooney, section 18, block 140, and is considered one of the finest locations in the field, being the nearest deep test to the Grant shallow wells. The log of this well is of great interest, owing to the many substantial oil showings encountered in drilling and the prediction that it stands on or near the apex of the dome.

Commenting further, Supt. Grant said a contract had been closed this week with Dave Humphrey to drill to completion Grant Well No. 12, which is located on section 592, six miles northwest of Grant No. 6, near the Sulphur Springs blowout and located about 1,000 feet from what seemed to be a good well, but was lost in the shooting. This territory is favored by many, due to shallow sand already encountered. T. W. Gree and associates are soon to begin drilling in this territory and have made a location on section 28, block 10.

Troy well No. 2, according to the Pioneer's best information, has been located in the center of section 20, block 140.

Troy well No. 1, is waiting for casing and other materials that are necessary before it can be drilled in. Just how long it will be before this well can be completed, no one knows and is everybody's guess. But conservative estimates, place the minimum time at 30 days, however, it

is probable a longer time will be required. The Pioneer also desires to here state for the benefit of the inquisitive that it does not know who the Troy associates are. But despite denials by people interested, the Texas Company is continually rumored to be interested in the Troy enterprises. South of Fort Stockton a few miles, on the John M. Odom ranch, the Southern States Lease & Production Company well, being drilled by E. B. Ligon, is reported to be drilling in hard lime.

West of the Southern States Lease & Production Company well on the Odom ranch, near the Pecos County line, Mrs. I. Hershenson and sons of Chicago, who own several thousand acres of oil land and leases, are drilling a well on a structure that has been pronounced by geologists and oil men as very flattering. Nothing but the most favorable reports are heard from this well.

The above facts, are a correct resume of all the information obtainable at this time relative to Fort Stockton oil field activities, and should be reassuring as to the development of the field and the renewed activity. The Pioneer is unable to visualize the oil situation other than that it is getting "better and better day by day" and attributes the renewed activity to the deep pay sand encountered at 3,100 feet in the Troy well No. 1.

As a tribute to W. B. Troy for his faithful and successful development work the Pioneer is suggesting that the sand found in the Troy well at 3,100 feet be named the Troy sand.

THE POLLY MUSIC AND TEA ROOM

The above is the caption of a new enterprise for Pecos, under the ownership of Mrs. Lucy Mitchell and Miss Ora Pruett. They will probably open for business next Monday and the place will be over the fountain, which is now being prepared in first class style for them.

Their stock of music, which is of the latest and most up-to-date, has already arrived.

They will make a specialty of chicken and ham sandwiches, and pies, tea, hot chocolate and coffee will be served.

Both these ladies being popular and having the qualities of knowing how to do things to please the public, they are sure to have a good trade and The Enterprise hopes the public will give them a cordial reception and a lion's share of their business.

CITY COUNCIL APPOINTS MARSHAL TO WORK NIGHTS

The City Council met in regular session Tuesday evening with all the officers present except A. G. Taggart, as follows: Mayor Ben Palmer in the chair, city secretary E. A. Easterbrook, councilmen I. J. Sims, S. M. Prewitt, H. H. Johnson, R. E. Williams.

The council appointed L. H. O'Neal as city marshal, to succeed Leo Roddy, deceased. His duties will be the same but his hours on duty will be from one hour after sundown to one hour before sunrise. His salary was fixed at \$100 per month.

The firemen are to have new rubber coats and helmets, according to an order of the council. These suits or rather coats and helmets will cost approximately \$160 and the firemen are to pay \$80 of this amount and the city the remainder of the costs.

The city allowed a raise in telephone service effective March first as follows: Residence phones to be raised from \$2.00 per month to \$2.50; business phones will be raised from \$3.00 per month to \$4.00.

The council extended the time to May first at which city taxes may be paid without penalty attached.

W. H. Browning, Jr., of the Pecos Valley State Bank, is expected home this afternoon from a business trip "down east" of a week's duration.

Charlie Chaplin and Bride-to-be

Charlie Chaplin has found his true love. He admits it—and so does she Pola Negri. They are engaged and to be married within the year. They are so sure of it that they posed in a fond embrace for the camera and giggled in their happiness.

BELL WELL HAS FISHING JOB BUT LOOKS LIKE AN OIL WELL IN SHORT TIME—OIL NEWS SHORT

THE BELL WELL

The crew at the Bell well are still encountering considerable difficulty in their endeavor to make progress in the very promising formation at this well.

The management of this well feel that they should be both careful and conservative in making statements as to the well and its apparent possibilities and their only statement this week was "we have a fishing job, and hope to recover the tools shortly."

Interest in this well remains unabated, and those who are in position to know, feel that in a very short time after they are able to resume drilling at the Bell well, that the well itself will make an announcement most pleasing to every one interested in Pecos and the vicinity, but in the meantime the drilling crew are "sawing wood" as it were in making hole, and saying nothing.

BAPTISTS TO OVERHAUL CHURCH

A. G. Taggart informs the editor that the Baptist church of Pecos has employed George Bruce of Toyah, to overhaul and repair their church edifice. Portions of the foundation will be reinforced, the basement cemented and remodeled so that it can be used for a Sunday School room. The outside of the building and roof will be worked over and it is hoped to make this beautiful edifice look like new before they are through with it.

The work, material, etc. will more than likely cost between two and five thousand dollars.

FAST FORTUNES IN SHALLOW OIL FIELDS (By John Wall, in "American Oil Examiner.")

Tall trees from little acorns grow and vast fortunes have been pumped out of the little shallow wells of Texas in the past, just as still vaster ones will be developed in the great future that stretches so prominently before the shallow fields of the state today.

Gusher production may come and go. Gusher wells may drill in, spout, electrify the world with their staggering production for a brief period, then vanish in a slow fade away as Nina Putman might put it, but the shrinking little shallow well, modest but constant, doing its little, bit every day and night, year in and year out, typifies the old Scotch proverb that "many a mickle makes a muckle," for out of the shallow wells has developed one of the world's largest independent producing and refining companies, the Magnolia Petroleum.

Nor is this the only shining example of the fortune-making potentialities of the shallow well. Hundreds of instances might be cited wherein the modest little shallow well has been the basis of mighty fortunes for companies and individuals. Adjoining aristocratic film famous Hollywood many a sturdy derrick stands at Colegrove, representing shallow wells still pumping attesting every day to the financial potency of the shallow field. Many of the original owners of the wells have long since passed away and others have

The Enterprise has been unable to get much oil news for this week. The Bell well is still the center of interest since the showings are excellent and its depth such as would indicate an oil well in a short time, if at all.

The Ramsey interests are still trying to finance their projects and feel encouraged that they will be drilling shortly.

Jim Wheat says: "I have nothing to give out this week but will have something good next week."

C. M. Haughton has great hopes of getting the River well finished in a short while.

There are other propositions maturing which will mean much to the field but for business reasons The Enterprise is not allowed to give out the information until they are certainties.

COMMISSIONERS' COURT

The commissioners' Court met in regular session Monday and besides the regular routine business and passing of bills approved the treasurer's quarterly report. All officers of the court were present.

B. A. Oden came in Saturday for a visit with family and friends and to look after business matters. While here he celebrated his 58th birthday anniversary.

Mrs. I. Hershenson has returned to her home in Chicago after a visit to Pecos for two or three weeks in the interest of the Hershenson well in the southern part of the county.

J. I. King has purchased from R. N. McCarthy the fixtures in the little restaurant building next to R. E. Miller's Second-hand Store and expects to be open for business within the next day or so.

JUST LIKE A WOMAN.

She said if I kissed her, she'd scream for her mother,
And I got all confused and red;
But just the same I kissed her as I wouldn't a brother,
And she shouted "Sweet Daddy," instead.

YEA VERILY.

A fool picks a fly from a mule's hind leg. The wise man lets out the job to the lowest bidder.

migrated to the more fashionably odorous neighborhood of Wilshire Boulevard, but were you to ask those in charge today regarding the profits of the shallow well you would be advised to "go to it, there's millions in it."

As previously stated, the largest independent producing and refining company of America, the Magnolia Petroleum owes its start in life to the shallow fields of Corsicana. Some of the wells of that field have been pumped for almost a generation. Some of them produce only three or four barrels a day, but the aggregate, year in and year out, for twenty-seven years, would make a modern gusher blush with shame and mortification, such colossal barrelage does the startling figure attain

PECOS VALLEY WATER USERS ASSOCIATION HOLD MEETING AND ELECT OFFICERS FOR YEAR

The annual meeting of the Pecos Valley Water Users Association of Texas was held in the directors room of the Pecos Valley State Bank on Monday of this week and elected officers for the ensuing year besides attending to other important business matters. The old officers had done their work so efficiently during the past year that they were re-elected for the ensuing year and all standing committees remain the same as last year except that Jim Miller of Barstow, was elected on the finance committee to succeed J. H. Miller. It was a harmonious meeting from start to finish and much work was accomplished which will eventually result in great benefit to the organization.

In the absence of President W. H. Browning, Jr., Vice-president R. H. Gray presided over the meeting, Judge John H. Gray for the ensuing year were elected as follows:

W. H. Browning, Jr., president, R. H. Gray, vice-president; John H. Boogher, secretary; J. C. Love, treasurer.

Representatives for the different projects represented in this organization present were:

J. H. Boogher and John Miller, Grand

falls; R. B. Thurston and Ed Miller, Barstow; R. H. Gray and J. F. McKee, Beuna Vista; E. B. Barrow and John Hagey, Imperial; Floyd Goodrich and D. Newton, Porterville; Judge Lee Monroe and B. T. Biggs, Cedarvale; C. K. McKnight and R. N. Couch, Farmers' Independent Canal Co.; J. C. Love and Dr. Jim Camp, Pecos Chamber of Commerce.

Communications were received from council, Major Richard F. Burgess who is at this time in Washington, saying that while in Washington the matter of appointment of a commissioner by the President to act for the Federal government with commissioners from States of Texas and New Mexico would be taken up with proper authorities.

Word received from Washington is very encouraging for passage of the Smith-McNearney reclamation bill in the near future.

[A review of the past year shows that much progress has been made and that the prospects for success of the Red Bluff project are brighter than ever before.

Col. Geo. E. Barstow of Barstow also attended the meeting presenting some valuable suggestions for consideration.

PECOS UNIVERSITY STUDENT HONORED

Out of 3,032 students in the College of Arts and Sciences in the University of Texas, 774 have been given special recognition for excellent scholastic averages achieved during the fall term. The object of this honor list is to commend officially one-tenth of the student body whose grades ranked them scholastically above the remaining nine-tenths. The honor students are divided into five groups, according to their averages, and there are 37 in group 1, 97 in group 2, 148, in group 3, 201 in group 4, and 291 in group 5. In constructing the list account is taken both of the grades made and the number of courses passed; that is, both quantity and quality of the work accomplished is given credit. Freshmen grades run lower than those of upper classmen and to attain a certain rank among his fellow classmates a freshman does not have to make as high score as an upper classman.

During the first ten years of its existence, 1883-93, the University published annually at commencement a list of distinguished students in each of the various courses. In 1919, this annual, or long session honor list was replaced by the present term list, the work being done by a student in all of his courses being commended rather than the work in each individual course.

The following student from Pecos was distinguished by mention on the honor list for the fall session which has just been completed:

Group five, Miss Caroline Glover.

CATTLE BRING BOTH LOW AND HIGH PRICES

During the past week the cattle market has varied some and the different grades of stuff are at a wide variance in price as will be seen from the following clippings; the first is from the Star-Telegram and reads:

The National Livestock Commission Saturday sold 11 carloads of cattle here. The shipment consisting of 260 head of white-faced stocker and feeders. They brought \$7.25. The cattle were shipped here by Poe & Pollard of Albany.

The next one which follows carries a San Angelo date line and gives a much better price:

Seven hundred and fifty three and four-year-old steers have just been sold in Menard County to Kansas buyers at \$60 each.

Willie Callan disposed of 350 to a Mr. Palmer of Emporia, loading out a week ago. Frank Wilhelm sold to another Kansas man 400 steers also at \$60.

Range conditions in Menard County are reported good, having benefited by rain early last week, ranging from three-quarters of an inch to one and a half inches. The moisture, it is believed, has insured wheat, oats and barley crops.

John Miller, merchant-farmer of Grandfalls, is a business visitor in Pecos today.

MARFA WINS DISTRICT BASKETBALL MEET—ALPINE PUTS UP GOOD FIGHT

On last Friday and Saturday the five basketball teams of the Alpine Interscholastic League district played off the basketball championship on the Sul Ross hall court, the college under Coach Tom Gibbs being host to the visiting teams. Marfa won the championship, Alpine yielding the palm after putting up a superb fight.

Sul Ross played two games with Pecos, and won these, but these did not count in the championship contest. Marfa, the winning team, was due to play with Sul Ross but the cold weather interfered. This game will be played later.

The scores and percentages for all games were as follows: Friday—Alpine 32, Davis 1. Marfa 25, Stockton 4. Davis 12, Sanderson 27. Alpine 22, Marfa 23. Davis 10, Stockton 16.

Sul Ross 48, Pecos 9. This game was not included in the interscholastic event.

Saturday—Sul Ross 56, Pecos 6. (Not included in championship contest.) Alpine 12, Sanderson 5. Marfa 26, Davis 6. Stockton 11, Alpine 24. Marfa 11, Sanderson 4. On account of the cold weather the halves were reduced from 20 to 15 minutes. The boys played in the stiff northern all day Saturday.

The contesting teams piled up the following percentages: Marfa 100; Alpine 75; Sanderson 50; Stockton 25; Davis nothing.

The contests between Marfa and Alpine was a fast-played game, marked by daring offensive on both sides. The score saw-sawed suddenly and one might have flipped a coin to see which side would win from start to finish, so evenly matched were the contestants. The Alpine coach and players are to be congratulated upon the splendid fight they made and Marfa has reasons to be proud of the laurels she won. The Alpine coach and players are also to be commended for taking their defeat like true sportsmen.

Quite a number of visitors were here with the several teams, Marfa showing loyalty to her boys by coming in goodly numbers.

The general district meet will be held here later, at which time Alpine High is expected to win all the important events.—Alpine Avalanche.

RAINS GENERAL

The weather has been unsettled all week—mostly cloudy and cold—and last night it rained almost incessantly but slow. The precipitation is variously estimated at from one-half to one inch and was, so far as The Enterprise has been able to ascertain, pretty general throughout West Texas.

The weather is warmer today, still cloudy and looks as if the wet weather would not end now.

To Stop a Cough Quick
Take HAYES' HEALING HONEY, a cough medicine which stops the cough by soothing the inflamed and irritated tissues. A box of GROVE'S O-PEN-TRATE SALVE for Chest Colds, Head Colds and Croup is enclosed with every bottle of HAYES' HEALING HONEY. The salve should be rubbed on the chest and throat of children suffering from a Coid or Croup.
The healing effect of Hayes' Healing Honey inside the throat combined with the healing effect of Grove's O-Pen-Trade Salve through the pores of the skin soon stops a cough.
Both remedies are packed in one carton and the cost of the combined treatment is 35c.
Just ask your druggist for HAYES' HEALING HONEY.

THE SCIENCE OF GIVING EDUCATION

From the Boston Transcript: The annual report of Dr. Henry S. Pritchett acting president of the Carnegie Corporation of New York, for the year ending September 30, 1922, is of peculiar interest to all interested in religious and philanthropic enterprises. He not only presents a survey of the operations of the corporation for the year, but reviews the charitable giving of the last twenty years, which has far surpassed that of any former period in the history of the world. This period has witnessed the establishment of no less than sixteen great charitable foundations in America alone, with a combined capital of \$525,000,000. These are: The Burke Foundation, 1902; General Education Board, 1902; Milbank Memorial Fund, 1905; Carnegie Foundation for the Advancement of Teaching, 1906; Russell Sage Foundation, 1907; New York Foundation, 1909; Carnegie Corporation of New York, 1911; Phelps Stoke Fund, 1911; Altman Foundation, 1913; Rockefeller Foundation, 1913; Brez Foundation, 1917; Commonwealth Fund, 1918; Juilliard Musical Foundation, 1920; Laura Spelman Rockefeller Memorial, 1920; Harmon Foundation, 1921, and the Heckscher Foundation, 1921.
From the experience of these charitable funds certain facts and tendencies have appeared which make valuable contributions to a science of giving. Perhaps the most important lesson is that the bestowal of gifts in a way to produce desirable results is by no means so simple and easy as it appears. The trustees of these funds, and especially of the great foundations established by Andrew Carnegie and John D. Rockefeller, have found themselves targets for multitudinous appeals for all sorts of enterprises professedly benevolent—many unworthy, but most of more or less worthiness. Even their great resources have been inadequate to meet all the calls even for meritorious objects which have been made on them. They can only seek to do the most effective service in a limited number of enterprises promising the greatest usefulness to mankind.

The experience of the managers of the Carnegie funds has taught three things which may seem somewhat harsh, but which are well established as general principles for the guidance of all givers. One fact, proved by the experience of the Carnegie Foundation for the Advancement of Teaching, is that free pensions, even for ministers and teachers, are both undesirable and impossible. Noncontributory pension systems discourage thrift and are beyond the resources of any institution except governments which have unlimited power of taxation. The Carnegie Foundation, with about \$30,000,000 resources, proved that time would bankrupt any free pension system. The Carnegie Corporation gave \$1,000,000 to pay the overhead charges of the Teachers' Insurance and Annuity Association, in which teachers can obtain life insurance at cost and the ministerial pensions of various religious bodies have profited by the costly experience of the Carnegie Foundation and have established contributory pension systems in which the beneficiaries bear part of the cost.
The Carnegie Corporation also has discontinued the giving of public library buildings. Mr. Carnegie, during his life gave \$30,000,000 for this purpose, and the corporation has given \$12,990,069.63 for the same purpose. The trustees conclude that the movement for the founding of public libraries is now so strong that it needs no further encouragement from them. The conclusion is warranted. The public library may now be said to be the most familiar institution on the American continent. Its establishment and maintenance has become a community matter, and in that position it should remain.

Another conclusion of Dr. Pritchett's report may not meet with universal approval, but it is well entitled to full consideration. Dr. Pritchett holds that while the great gifts of Mr. Rockefeller and Mr. Carnegie have acted as a great stimulus to the upbuilding of our colleges they have resulted in an overemphasis on going to college. The colleges are overcrowded and overtaxed, he thinks with a "multitude of young men and young women who would find their greatest usefulness and their greatest happiness in other vocations than those to be sought through college attendance." Dr. Pritchett also deprecates the transforming of "the American college president into a soliciting agent."
Here two new and possibly startling ideas seem to be suggested—that we may have too many free libraries, and too many more or less eleemosynary education institutions. With regard to the libraries this may well be true in the case of those which are merely distributing agencies of popular fiction and burial vaults for a little good literature. Yet no one can

FINANCIAL REVIEW

Prepared For The Enterprise By The First National Bank In St. Louis.

The American Railway Association reports loadings of revenue freight for the week ended January 20, totaled 865,578 cars, 7673 less than the previous week but 134,469 more than the same week last year and 156,920 over the corresponding week of 1921.

70,066 cars were loaded with forest products, which represented an increase of 1434 over the week before, 20,074 over last year, and 21,935 over two years ago. A new record for this time of the year in the number loaded with merchandise and miscellaneous freight, including manufactured products, was also established at 495,901 cars, 3060 in excess of preceding week, 72,500 over last year and 104,267 over 1921.

Loadings of grain and grain products were 48,280 cars, a decrease under the week before of 2754 and 3935 under last year, but an increase of 1173 cars over 1921. Livestock loadings totaled 33,790 cars, 3,710 under the week before, but 1,980 over last year and 1,928 below 1921.

Car loadings totaled 192,824 cars, 5,862 below the previous week, 30,705 over 1922 and 24,645 over 1921.

Loadings of coke were 13,817 cars, 22 above the preceding week, 6,548 over last year and 3833 over 1921. Ore loadings increased 137 over preceding week, at 10,900 cars. This also exceeded last year by 6597 and two years ago by 2995 cars.

What forgotten book in some village library may prove the starting place, the pousto, of a great world-transforming genius. With regard to the colleges the situation is very much the same. Those which exist should be maintained at their highest standard of efficiency. Every one of them is a center of culture, a place for the saving of remnant whereon to stand. But he who now multiplies the number of passable colleges merely increases the educational embarrassment and congestion of our time.

YOUNG FRIEND! IF GEORGE WASHINGTON COULD RISE FROM HIS GRAVE ON HIS BIRTHDAY THE 22ND OF THIS MONTH

and see our cities at midnight lighted as bright as day, hear the whirl of the electric car, talk over the wireless telephone, send a message by wireless to a ship far out at sea, examine his own bones with an X-ray, view the sunny plains and canals of Mars through a telescope, take a flight from America to Europe in an airship, and return under the waters of the ocean in a submarine, get run over by a automobile going ninety miles an hour—but what's the use going back a hundred years? A system of Shorthand and Bookkeeping thirty years old is of but little use today.

As the steam ship has crowded out the sail boat, as the typewriter the goose quill pen and the pokeberry ink, so have the famous Byrnes Systems of Bookkeeping, Business Training and Shorthand taken the place of the old systems, and the Tyler Commercial College with its modern progressive business methods has taken its place at the head of American business training schools. The reason is plain: these systems cut in half the time and costs of becoming an expert accountant or stenographer; they teach business as well as Bookkeeping, they make it possible for the student to graduate and begin earning while the student of other systems is less than half through his course; they give the student a more thorough practical working knowledge which means a higher salary and the college has kept abreast of the times and met the demands of the most exacting business office.

These practical, modern, time-saving systems can be had in this section only in the Tyler Commercial College. You would not think of riding in a horse-drawn vehicle in preference to an automobile. Then why think of studying the old exact systems of accounting and stenography when you can get the Byrnes Systems which possess such wonderful advantages that they enable the management of the Tyler Commercial College to build the largest business training school in America, with an annual enrollment of four thousand. For free catalogue, fill in and mail to Tyler Commercial College, Tyler, Texas. You want the best from a college with a reputation:

Just What He Needs

Editorial

"AND THE TRUTH SHALL MAKE YOU FREE"

To The Glory of Womanhood

NO greater tribute has ever been paid to the women of America than is found in the calm analytical report of the University of Wisconsin which dispassionately discloses the fact that widows and self supporting mothers sent 143 sons and daughters to the University this fall to join the freshman class. Mothers registered 93 sons and 60 daughters.
Now learn the story of the self sacrifice of these mothers. One hundred and twenty-five were housewives, 5 were nurses, 3 dressmakers, 3 milliners, 2 matrons, 2 stenographers, 1 a dramatic critic, 1 a librarian, 1 chaperon, 1 musician, 1 retired farmer, 1 club manager, 1 business woman, 1 caterer, 1 hotel proprietor, 1 saleswoman, 1 beauty operator, 1 canner and finally, one a telephone operator. Truly of such mothers as well as children is the Kingdom of Heaven.
Fathers who sent boys to college embraced a variety of the most menial callings.
Such is the American melting pot. Such is the hunger for education to provide education that will fit the rising generation for better things than father or mother ever knew. From the seeds of sacrifice may come to us in a single generation development that will spell a newer and a better America. Let these youngsters not forget.

Government Gambling

WHILE our dear old Uncle Sam frowns on gambling he seems to indulge in the sport quite freely in the conduct of his own affairs, all of which shows the difference between national and personal moral conduct.
The total amount appropriated by Congress for the fiscal year of 1923, which began July 1, is \$3,747,935,382.64. This is \$319,280,984.10 less than the appropriation for 1922. What the deficiency appropriations for the current year will foot up naturally is problematical.
The preliminary estimate of total expenditures for the current year is \$3,771,258,452 or \$24,223,139.36 more than has been appropriated. The preliminary estimate of total receipts for the current year is \$3,073,825,311. This of course indicates a deficit at the end of this year of \$673,210,071.64. At the close of the last fiscal year there was a balance on hand of \$272,105,612.63.
In this way the government goes calmly ahead with the certainty of a deficit so far as human minds can foresee, but yet with the knowledge that there is a good gambler's chance that things will come out all right. Heart is taken from the fact that the estimated receipts for 1922 were exceeded and anticipated expenditures were \$759,000,000 less.
No individual or corporation of course would dare conduct its business in such a way, yet there is little else the government can do unless a still heavier tax burden be placed on the people to provide for a margin of safety, and gracious knows taxes are heavy enough, as heavy in fact, as they are unscientific.

Punchettes

Rev. M.A. Matthews D.D.L.D. AUTOCASIER

THE COMING REVIVAL

MEN must turn from the material madness of this hour.
There is no salvation in the things of the world.
The kingdoms of this world have utterly failed to feed the soul, comfort the heart, bind the bruised spirit, soothe the aching head, and give mankind an outlook of hope and salvation.
Men must come back to God. They must appeal to Christ. They must listen to the Holy Spirit.
Yes, they must be born again. Serious men are thinking these things. Consecrated Christians are preparing for the coming revival. There is no repentance after death. There will be no preaching in hell.
No one will have a chance to be saved after he has closed his eyes in death.
Men are staying away from the church because they are afraid to listen to the gospel. That is a sign of the coming revival.
Men are dodging ministers. That is a sign of the movement of the conscience.
Evil men are hating and persecuting Christian ministers who believe in the blood of Christ. That is a sign of the approaching day of repentance.
The rustle of the wings of the spirit of eternal hope and salvation can be heard.
Ministers and churches should awake and begin to pray. The revival is coming.

Last of American Troops Home From Europe

"Sweet land of Liberty" hummed khaki-clad American doughboys of the regular army as they smilingly sailed into Savannah (Ga.) harbor last week aboard the U. S. Transport *San Mateo*. The insert picture shows the American troops leaving Coblenz, Germany, marching to the train past the French Guard of Honor. Sad at parting where a sincere friendship had grown with German civilians—the Yanks one and all were glad to be home again.

TECHNOLOGICAL MEASURE

CARRIES SUM OF \$1,002,500

Austin, Texas, February 10.—The bill establishing the Texas Technological College in West Texas, carrying a total appropriation of \$1,002,500, became a law at 3:15 p. m. today, when Governor Neff affixed his signature to the bill and filed it with the State Department.

The measure passed both houses with sufficient votes to carry the emergency clauses, and became operative immediately after approval by the Governor.

The ceremonies in connection with the signing of the bill, which were held in the Governor's private office, were attended by Senator W. H. Bledsoe of Lubbock and Representative Chitwood of Sweetwater, the former having sponsored the measure in the Senate and the latter in the House; Homer D. Wade of Fort Worth, assistant manager of the West Texas Chamber of Commerce; Charles F. Marsh of Austin, former member of the

board of directors of A. & M. College and Dr. J. W. Cantwell, superintendent of the State Juvenile Training School at Gatesville.

Governor Neff used three pens in the process of signing and approving the bill. One of these he presented to Dr. P. C. Coleman of Colorado City, president of the West Texas A. & M. College Association, organized six years ago, which initiated the movement for a West Texas College. Another was presented to the West Texas Chamber of Commerce and the third pen was retained by the Governor.

"This is the biggest piece of constructive legislation a Texas Legislature has enacted in years," said Mr. Bledsoe, as he thanked and congratulated the Governor for approving the bill.

Mr. Wade said: "This is the happiest day West Texas has seen in a decade."

Mr. Chitwood was also lavish with thanks to the executive, saying "the Governor would never regret his action."

The extra \$2,500 carried in the appropria-

tion is to pay the expenses of the locating board in examining the various sites to be offered. The locating board is expected to meet in the very near future, since the bill has become law.

It is contemplated that the college shall have approximately 2,000 acres of land the bill so providing, and that it shall be located in the western part of the State, north of the twenty-ninth parallel and west of the ninety-eight meridian.

Besides the arts and sciences, the school is to teach the full courses in technology and textile engineering. It is to be co-educational and will be a land grant school, that is, have military tactics to conform to the requirements of the Federal act.

Its location is to be made by a majority vote of a board consisting of the chairman of the State Board of Control, at present E. B. Covell, State Superintendent of Public Instruction, S. M. N. Marrs, president of the University of Texas, Dr. R.

E. Vinson; president of the College of Industrial Arts, Professor F. M. Bralley and the president of the A. & M. College, Dr. W. B. Bizzell.

The first unit of the appropriation becomes available September 1 of this year and is \$150,000, to be used for the purpose of purchasing land for the location of the institution. Much of this may be saved by donations by citizens seeking to have the college located in their community, but the law says the board shall not be unduly influenced by such offers, but shall take the best site available, regardless of bonuses.

Under the terms of the law, the college has its own president to be selected by its separate and independent board of nine directors, who are to be appointed by the Governor for terms of six years, the terms

Watch Your Child's Health

Jal. Amer. Med. Assn. says children's diseases prevalent now.

Recent tests conducted among school children disclosed an alarming percentage in deficient health. Physicians are warning their friends to watch child health carefully at this season. It is now definitely known that weak eyes, poor teeth, twisted bones and wasted frames are directly traceable to a deficiency disease. Not a deficiency of food, but lack of the vital elements the food should supply. Usually the first indication of approaching deficiency disease is loss of weight.

At the first sign of loss of weight, start your children on Ironized Yeast. It supplies the vitamins needed and will soon have the children in normal health. According to Dr. Atherton Seidell of the U. S. Public Health Service, Dr. W. B. Eddy of Columbia University and other eminent scientists, brewer's yeast is the richest source of vitamins. That is what Ironized Yeast is—a concentrated extract of brewer's yeast in union with the iron needed to enrich the blood.

A ten-day treatment of Ironized Yeast costs only a dollar. Its use will make a wonderful improvement in your child—it will bring back normal weight, rosy cheeks, bright, snappy eyes and the vim and vigor of happy childhood. Get Ironized Yeast from your druggist on the positive guarantee that if it fails to do these things, your money will be refunded. Ironized Yeast Co., Atlanta, Ga.

Recommended and Guaranteed by PECOS DRUG COMPANY

of three members expiring every two years. The board of directors are given the power of eminent domain, to acquire land that may be needed for college purposes.

MUCH ADO ABOUT NOTHING.

The original of all the mother-in-law stories is said to be the following: As the cave man was gnawing at a bone one morning, the cave woman rushed in yelling: "Quick! Get your club! Quick!"

"What's the row?" growled the cave man. "Saber-tooth tiger chasing mother," gasped the cave woman breathlessly. "Oh, bosh," said the cave man. "What do I care what happens to a saber-tooth tiger?"—Argonaut.

A QUESTION OF BRAINS.

"Why don't you and Bilkins go into partnership?" "He was engaged to my wife before I was. You don't suppose I would take a smarter man than I am for a partner, do you?"

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding Piles. Instantly relieves itching Piles, and you can get careful advice after the first application. Price 6c.

You get a whole year's reading of the Pecos oil field through the Enterprise for \$2. Send it to a friend.

LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Frezzone costs but a few cents at any drug store. Apply a few drops on the corn, callus and "hard skin" on bottom of feet, then lift them off.

When Frezzone removes corns from toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated. (Advertisement)

MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

Even if cross, feverish, bilious, constipated or full of cold, children love the "fruity" taste of "California Fig Syrup." A teaspoonful never fails to clean the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the souring food and nasty bile out of the stomach and bowels, and you have a well, playful child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of ages printed on bottle. Mothers must say "California" or may get an imitation fig syrup.

Richard Lloyd Jones tells DARE THE IMPOSSIBLE

EVERY schoolboy knows the story of the two women of the American Revolution who, screened behind a rock, mimicked so well with rifle and drum the approach of soldiers that the hostile red coats took fright and fled.

see where the machine is entrenched, and it looks like a real fortress, as if real men were inside, as if they had real guns. Go touch it. It is a house of cards. Those are imitation generals. Put the shoulder against the thing and it collapses.

poem by UNCLE JOHN

There wouldn't be no troubles, if the people didn't tell 'em,—but some ain't satisfied, unless they speak of what's befell 'em. . . . You ketch a chimney-corner full of weather-bound commuters, and, nineteen out of twenty, you would class as trouble-shooters.

HOMEY PHILOSOPHY for 1923

DOWN with the pain killers. Away with the crowd that would make life just a sweet indolent song. These fellows pose as our friends, and yet they'd strip us of protection, and leave us victims of the stealthy and insidious approach of evil and disease.

A large advertisement for Autocaster Service featuring various illustrations of people and products. The central text reads: "A Tip to Our Merchants: Tell It With Pictures". It includes portraits of Maurice Berony (Advertising Designer and Artist) and Meyer R. Wolfe (Advertising Expert and Designer), and mentions Marion Fox as a woman fashion authority. The ad promotes the use of pictures in advertising to attract customers.

West Texas towns have begun a strong line-up for the fight for the West Texas Tech. Several towns are now busy building their breastworks and the fight promises to be a good one.

The First Methodist Church, South, of Wichita Falls, is going to erect a Sunday School room at a cost of \$150,000. The Methodists there should gain a good knowledge of the Bible.

A young man, only 90 years of age, is in Walla Walla, Washington, prison for threatening the life of his 78 year old son-in-law. It is said his grandson, past fifty, interfered. Only ninety and has not yet learned enough to stop fighting and threatening. This young man was evidently spoiled in training.

The New Mexico senate has appointed a special committee to confer with the governor of that state and state engineer and interested persons, pending action on a bill providing for the appointment of a water commissioner to meet one from Texas already created by the Texas legislature, and negotiate a treaty for the division of the waters of the Pecos river. This is apparently the only way to settle this matter so that either state can further appropriate water from the Pecos river at an early date. Any other way of settling the matter might result in a long drawn out law suit which would take years to settle.

ADVERTISING.

Advertising is absolutely essential to successful business, says The Salt Seller. Not printed advertising, but all kinds of advertising.

The quantity, the price, your own personality, your aggressiveness, everything in your business is an advertisement. either a good advertisement or a bad one. It behooves you to watch and see that whatever kind of advertising you do is good. Have every detail of your business carry a good advertisement, that is, have it help your business. Good advertising is good publicity. Advertising is the thing that makes your trade increase. Reputation is an advertisement, so is honesty, politeness, methods, catalogues, circulars, magazines, newspapers, telephones and salesmen. Neatness is an advertisement and so is promptness and thoroughness. Some printed form of advertising is by far the most far-reaching and effective; good advertising refers to everything in connection with your business that makes an impression upon the public or the prospective buyer. Some old timers refrain from advertising, depending on merit for business success. Merit is a fine asset, a necessary link in your business, but too slow in its action and results in this day and age. Watch your customers, study their demand and their wants, advertise daily.—C. G. Reich Druggist.

AN OUTSTANDING DIS.

GRACE TO TEXAS

Back in 1917, a boy fifteen years of age climbed, with others, onto a wooden awning in order to get a better view of a prearranged parade marching down one of the business streets in the city of Dallas. The awning, not being constructed to bear so great a weight, fell, precipitating its load of men and boys to the paving below. This boy suffered a broken leg and other injuries. His legal guardians brought suit against the city and the owners of the building for damages sustained. The ground for the suit will not be discussed here. The point Farm and Ranch calls attention to the fact that the courts have just handed down a decision in the case. It has taken six years for the district court to decide that neither the city nor the owners of the building were responsible for the accident. No other question was before the court. Only a question of responsibility, yet the law-

yers, using first one excuse and then another, postponed the hearing until the boy had grown into man's estate and witnesses had forgotten the incident.

The case does not stand out as an exception to the rule. Many other cases are dragged along for a much longer period. That is the reason why Dallas county will be given two additional district courts and why new courts will be established in other counties of Texas.

The case with which lawyers can delay and prolong litigation in our courts is an outstanding disgrace to the State of Texas, second only to the practice of our higher courts in reversing and remanding cases on technicalities which have no bearing whatever on the merits of the questions in dispute or on the guilt or innocence of the prisoner before the bar. If necessary, the people of Texas should hold mass meetings demanding a complete revision of the rules of practice and such other reforms as will enable the courts to administer justice quickly and inexpensively in all matters coming before them. Today the man with money has neither respect nor fear of our courts. The man without money has only fear. Any case properly financed can be delayed long enough to defeat the ends of justice. The poor man suffers injustice in silence. The courts, which have been established at the expense of all the people for his protection, miserably fail to serve him. Expensive lawyers, the unwinding of yards of tape, the preparation of innumerable legal papers; postponements of hearings; other expensive delays and appeals, reversals or remands cost more than the average citizen can afford. The ends of justice are defeated—but it makes good business for lawyers. The English system of courts and rules of practice would reduce the number of lawyers and expense of courts in Texas by 75 per cent.—Farm and Ranch.

THE CHURCHES

BAPTIST CHURCH.

It does not matter about the weather, for the same fine spirit prevails through it all at the Baptist church. The quarterly reports made to the church recently showed progress along all lines. All regular services will be held Sunday. The public is invited.

J. M. GARNER.

AT THE METHODIST CHURCH.

There will be all regular services next Sunday, the Lord willing.

The morning sermon theme is "The Plight of the Conscienceless Professor," based on Matthew 16:14 and Mark 8:11-13.

At 7:45 P. M. the sermon will deal with our need of personal independence: "Simons Says Thumbs Up" would not be a bad title, or it might be thus: "The Spider in the Cup of the First King of Israel."

You are invited to all service of the church. Come.

L. L. THURSTON, Pastor.

PRESBYTERIAN CHURCH.

All the regular services will be held at our church. At the morning service the subject will be "The Opening of the Seven

Sealed Books of the Apocalypse." The subject for the evening service is "The Nightless Country."

I want to call special attention to the fact that the self-denial envelopes which were distributed by the Ladies Auxiliary should be brought to the morning service.

I am very glad to notice the increased interest in the mid-week services for the last few weeks. We have been studying the book of Genesis. When we have completed this we will take up the book of Acts.

We will not have the regular lesson for next Wednesday, as next week is the week set apart by the Assembly as a week of prayer. Mrs. Coon will have charge of a special program at the mid-week service.

The lesson for the following Wednesday is chapters 30 to 35 Genesis.

WOMAN'S MISSIONARY MEETING.

The Woman's Missionary Society will meet in Missionary Study session, Tuesday, February 20, 3:30 P. M. at which time the following program will be rendered:

Leader, Mrs. Emma Boles.

Song.

Bible lesson: "Jesus the Lamb of God." John 1-19-37.

Prayer by Mrs. L. L. Thurston.

Song.

"In Evangelistic Centers," by Mrs. W. W. Rannels.

"In Training Centers," by Mrs. Waugh.

Song.

"A Missionary's Experiences In Evangelistic Itineration," by Mrs. Thos. Ashe

"The Leaven Working In Mexico," by Mrs. Ben Randals.

Song.

Benediction.

THE LADIES OF THE METHODIST

Church will have an apron and bonnet sale at the City Pharmacy Saturday March 3rd, at ten o'clock. 27-21

SIGNS.

For a Laundry—"Don't kill your wife—let us do the dirty work."

For a Restaurant—"Don't divorce your wife because she can't cook. Eat here and keep her for a pet."

SWAN'S DOWN DEMON. STRATOR VISITS PECOS

Miss Cannie Martin spent all the forepart of the week in Pecos demonstrating The Swan's Down products and feeding all who came generously on cake and muffins.

The Swan's Down products is the last thing in cooking since all you have to do is to put the mixture in a vessel and add sufficient cold water to make the dough the right consistency and the eats are delicious at that.

Miss Martin is a pleasant lady and has the knack of displaying her goods and telling of their merits in a manner that wins public favor.

She divided her time this week between the Pecos Mercantile and Leader Grocery Company stores. All the grocery stores in Pecos will handle the products.

SMART BOY, SMART BOY!

Tommy—"Play store with me, mama?" Mother (with a headache)—All right. But you must be quiet—very quiet.

Tommy—"Sure we'll pretend, I don't advertise."

Note the especially low prices on tires and tubes made elsewhere in this paper by Marshall H. Pior. If you will need these articles soon better see him for the prices are advancing.

MISS HUBBARD WRITES

INTERESTING LETTER TO "DAD"
Miss Frances Hubbard, daughter of Judge and Mrs. W. W. Hubbard, is one of Pecos' lovely girls who is making good in the University of Texas. She is not only beautiful and graceful but is quick of perception, bright and altogether worthy of her fond parents. She has recently written her father enclosing a theme on the "Jelly Bean" and the editor believes both the letter and theme will not only be interesting to the many friends of Miss Hubbard who read The Enterprise, but to those who do not know and love her as well and the editor herewith reproduces them both and believes they are worthy the space taken. They show a knowledge of English and the expression is excellent. Read them.

The letter follows then the theme:

Austin, Texas, Feb. 6, 1923.

My Dearest Daddy:

We have had heavy snow for the last three days but it has stopped now and is already melting. Sunday the whole University turned out en masse to coast. There is a great steep hill on the Campus and it had a hard coat of sleet on it. There was everything from a tin tray to a folding chair being used for sleds. You would have laughed to see your dainty young daughter flying down hill in an ordinary kitchen sink. There were a few real sleds and a great big bob-sled that we had a lot of fun on. Some one produced an old sleigh from I don't know where and I had a grand time riding in it. This is the first coasting and sleigh riding I've ever done. Sunday afternoon a bunch of us hitched a ladder on behind a Ford and sat on it and slid up and down every street in town. All Austin was out riding on ladders. The snow was great while it lasted but it is horrible now since it's melting. Sunday night it was only sixteen above zero. All the water pipes in town were frozen yesterday morning. I expect it snowed out there too didn't it?

At last I have gotten my theme "On The Jelly Bean" back and am sending it to you. It doesn't amount to much but I thought you might enjoy seeing what kind of themes your young hopeful writes.

You get a whole year's reading of the Pecos oil field through the Enterprise for \$2. Send it to a friend.

I haven't any news for you except the snow and I've told you all about that, so I will close now.

Adios with heaps of love,
FRANCES.

ON THE JELLY BEAN

In the University of Texas one may see any number of interesting types, but the "Jelly Bean" type is in the majority. No matter where and under what conditions this pest is seen he is always easily distinguished by his soft, flat-topped hat, long cigarette holder, lounging, aimless gait, smoothly plastered hair and bored expression.

The "Jelly Bean" is seen most frequently lounging about the Campus. This particular variety of mankind delights in gathering in large groups near the entrance of the main building and watching the girls as they go to and from classes. He observes them through bored, half-closed eyes, occasionally summoning enough energy to wink sleepily or lift an inquisitive eyebrow at some member of the fair sex who has especially pleased him. He is seldom seen exerting himself to the extent of talking and is less frequently seen moving about on the campus. He changes his position only when the sun becomes offensive to him in this way resembling an alligator. The members of the "Jelly Bean" brotherhood who are especially addicted to this habit of loafing are known as "Campus Buzards."

At a dance the "Jelly Bean" is of necessity a little more energetic, for to perform the modern dances one must be the very soul of energy. He is always noticeable in the ball room because he knows the latest fancy steps and always executes them in the most extreme fashion. Take, for instance, the dancing of the present day; it consists in swaying madly about and wagging one's head in the most grotesque fashion. Now, there is no one who can sway more dangerously or wag his head more idiotically than the "Jelly Bean." From this we may consider that he is an extremist.

At a football game one's attention is especially attracted to him, on account of his ability to remain so listless and lifeless throughout so thrilling an event. He pushes his hat far down over his eyes, slips way down in his seat and allows a

cigarette to hang loosely in one corner of his mouth while he languidly watches the progress of the game through half-closed eyes. Not even a touch-down arouses him from his indifferent attitude.

Having observed the "Jelly Bean" in practically every phase of University life I have come to the conclusion that the words of the Bible, "Why lumbereth it the ground?" apply most aptly to him.

IN THE PROHIBITION HALL.

"Supposing, friends, that I had here a bucket of water and a bucket of beer and a mule was led in—which bucket do you think he would drink?"

"Water—water—water."

"Precisely. And why would he drink the water?"

Bass Voice from Rear: "Because he's an ass."

After Every Meal

WRIGLEY'S

Top off each meal with a bit of sweet in the form of WRIGLEY'S.

It satisfies the sweet tooth and aids digestion. Pleasure and benefit combined.

FOR THE CHILDREN

The Cheapest Health Protection You Can Buy

Ice is an actual Health Insurance Policy—a mighty small Premium indeed.

It is far and away the cheapest health protection you can buy. A well filled refrigerator—kept filled the year round—insures pure, wholesome, nourishing foods.

PECOS LIGHT & ICE COMPANY

For Winter Ills

Every family has its winter ills to contend with. It is also true many big sickness bills could be avoided if precaution was taken to get "little symptoms" whenever they appear.

Nine Times out of ten the failure to start curing, before dangerous conditions have developed, is caused through not having simple little remedies on hand.

Come here and let us stock your medicine cabinet with simple home remedies. It may save you hundreds of times the expense in the long run—aside from unnecessary suffering.

This is the age of "prevention."

CITY PHARMACY

No Guess-Work Here

Most folks know that getting eggs depends largely upon the hen's feed—Yet with many people feeding is guess-work. Their hen's lay part of the time and usually "board" when eggs are most profitable.

More Eggs or Money Back

The guarantee behind Purina Hen Chow and Chicken Chowder eliminates all guess-work. These Chows have all the elements that make eggs. That's why they are offered on a money-back guarantee.

GATES TIRES

The Tire with the Wider and Thicker Tread

Just To Answer a Question—

We are often asked if it isn't true that we put exceptional rubber and fabric into Gates Super-Tread Tires.

We do use the best materials that can be bought but we believe that some other factories do this, too.

The extra miles you are getting from Gates Super-Tread Tires are due to having more rubber in the wider and thicker tread. More rubber to wear—more rubber to protect the inside fabric—naturally, more miles.

MARSHALL H. PIOR

MARY ANN GOODNIGHT.

Mary Ann Goodnight, the only daughter of Joel Henry and Susan Lynch Miller Dyer, grand daughter of Col. Robert Henry Dyer, a soldier and a hero who fought under the command of General Jackson at the battle of New Orleans, 1815, and great grand daughter of William Blount, first governor of Tennessee when it was still a territory, was born in Madison County, Tennessee, in 1839.

For four generations her ancestors were identified with important parts in State and Territorial affairs.

In 1854 Joel Henry and Susan Dyer decided that Tennessee had grown too old and well developed for them. The pioneer spirit of their ancestors was fermenting within them. They needed more room for the development of their stalwart boys. They had learned of the broad rich prairies of the then new Texas, and to Texas they determined to go.

At this time Mary Ann was a little girl of fourteen years. Arriving at the little village of Waxahachie, the Dyer family constructed a new home.

At the death of her mother in 1864, Mary Ann took her mother's place in the home and hearts of her father and brothers. At the death of her father in 1866 she was left as the sole protection of her three little brothers, the four older ones being still in the service of the Confederate army.

It was during the Civil War that through her brothers, she became acquainted with Col. Charles Goodnight. For ten years Col. Goodnight and Mary Ann had known and loved each other, but their duties and obligations were too many to permit them to marry and make a home for themselves.

In 1870 Mary Ann, with her two younger brothers, went for a visit to her relatives in Tennessee and Kentucky. From Pueblo, Colorado, Col. Goodnight went to Hickman, Kentucky, to meet her, where they were married, July 26th, 1870, going at once to Pueblo, where their wedding trip ended and their new life began.

The first seven years of their married life were spent under the shadow of the Rockies, where Col. Goodnight and the Dyer brothers developed a large cattle business. During this time Col. and Mrs. Goodnight built the first M. E. Church South in Southern Colorado.

During his journeys from Central Texas to Colorado, Col. Goodnight had always been vastly impressed with the boundless plains of the Texas Panhandle, and the grandeur of Palo Duro canyon as an ideal location for a great cattle ranch, so in 1877 they set forth to build a new home in an undeveloped country. It took nearly two months to make the trip from Pueblo to Palo Duro, traveling in wagons and driving a herd of cattle before them. Mrs. Goodnight drove one of the wagons the only woman in the party except Mrs. John Adair of England, who, with her husband, went with them to look over the location.

When Mary Goodnight drove her team and load of supplies down through the Palo Duro canyon, to the little log cabin that had been constructed for her, the Panhandle of Texas was transformed from the haunt of the buffalo and the Indian to the home of man.

In time a little community grew up around the ranch and created a need for a church, and later children appeared and they must have a school. In the meantime, poultry, horticulture and agriculture had been initiated into this new world, and all through the energy and progressive spirit of this one little woman. Perhaps the most unique work which reflects the depth and tenderness of her sympathies, was the gathering up of the little buffalo calves left to starve by ruthless hunters. With the crack of the hunters' rifles, and the pitiful wail of starving calves ringing in her ears day and night, Mrs. Goodnight realized that a few years would see the extermination of the original pride of the plains, the American buffalo. She had the orphan calves brought to her, and raised them by hand that the future generations of Texas children might at least enjoy one feature of the Texas Plains.

The story of the origin and developing of the Goodnight Buffalo and Cattalo Park has been told around the world and Texas will always regret it if she fails to own and perpetuate this Park when Mr. and Mrs. Goodnight can no longer care for it.

With the development of the country came a demand for higher education and again the first to respond to the call was Mrs. Goodnight, with both ways and means for Goodnight College.

Many years have rolled round since Mrs. Goodnight presided over the only little cabin in the canyon. From a treeless, fenceless, uninhabited plain she has lived to see that favored section transformed into the home of 100,000 people, dotted here and there with villages, towns and progressive young cities, built together by hands of steel over which are shipped each year millions of bushels of life-giving grain.

Where a few years ago the red man skulked behind the mesquite bushes and snatched his bow and arrows at the careless deer and antelope, or raced his Indian pony in the buffalo chase, there stands today modern homes, churches, schools, and colleges. Beneath the sun-baked soil of the Llano Estacado has been discovered an ocean of water richer in its possibilities than mines of gold, and this land, for which she gave up all other worldly gifts and pleasures, is the dearest place in the world to Mary A. Goodnight, who has spent her life in its cause.

Mr. and Mrs. Goodnight never had any children of their own, but instead of living for themselves they have always lived for others. Their home has been a home for everyone who passes within its doors. Besides building schools and colleges for the good of everybody within their reach many a man and woman owe the price of their individual diplomas for their unselfish love. They have not only spent their money and lives for the good of others but it is the greatest desire of their declining days to see the fruit of their lifelong labors perpetuated for the comfort and pleasures of all who follow them.

Col. Goodnight has justly been called the Burbank of Animal Life. Nor have his experiments been limited to animal life only. The value of his agricultural

experiments to the Panhandle can never be measured in dollars. The greatest desire of their old age is to know that their home, with all the attractions they have created around it, will be perpetuated as a living, growing, self-supporting monument to the Pioneer Men and Women of Texas, who gave their lives to their State, who lived, not died, for their Texas. For what they have done for the Panhandle will the people of the Panhandle help them to realize this last desire and hold this rarest of Texas treasures in our own loved land when they have gone to their reward in the Beautiful Beyond.—Farm and Ranch.

KING TUT ET AL.

Modern science will not even permit a King who has been dead 3,300 years to rest in peace. The decision has been reached to X-ray Tut-Ankh-Amen, the Egyptian King whose tomb was recently opened, the scientists being anxious to learn how ancient anatomy compared with the modern. It may be rather interesting to the scientists, but it is a safe bet the old King would enter strenuous objections if he were able.—Brownsville Herald.

The archeologists consider the tomb of Tut-Ankh-Amen a veritable mine of ancient history. They have found cartloads of household and kitchen furniture, besides various assortments of toys and gimcracks, in the vestibule of his tomb. King Tut flourished, so said, about 1,300 years B. C. and was buried with unequalled magnificence, either because his surviving contemporaries held him in high esteem or because they thought that any kind of funeral expense was justified in getting rid of him. It is astonishing that the manual fine arts had attained such delicacy of perfection as is said to be revealed by bric-a-brac in Tut's antechamber. After he was sealed up in the inner tomb the front room was furnished with innumerable playthings and pretty things, in case he should want to come out and play with them. But how could he get out of his hermetical concealment? The idea that such things might be of value to old Tut signifies the childish theology of his time, a theology very similar to that held by the masses of China at the present day—and which our missionaries are endeavoring to reform for the good of the Chinese souls. When we think of the incalculable host of heathens who inhabited antiquity, and the enormous aggregation of modern heathens with fresh ones being born every day, we can realize how much has been left undone by our predecessors. However, getting back to his deceased majesty, Tut—a name which in the mind of State Press has always been associated with pills—is it not unfair to his mummy to uproot it from his last earthly home and by modern science pry into the most secret archives of his liver and lungs.—State Press in Dallas News.

ADVICE TO THE AGED
Age brings infirmities, such as sluggish bowels, weak kidneys, torpid liver.

Tutt's Pills
have a specific effect on these organs, stimulating the bowels, giving natural action, and imparting vigor to the system.

SHERIFF SALE.

The State of Texas, County of Reeves,
By virtue of a certain Order of Sale issued out of the Honorable District Court of Reeves County, on the 6th day of February, 1923, by the clerk of said Court against Robert L. McKnight, et al., for the sum of Eleven thousand three hundred twenty-one & 94/100 (\$11,321.94) Dollars and costs of suit, in cause No. 2246 in said Court, styled Pecos Mercantile Company versus Robert L. McKnight, The Pecos Valley State Bank, Pruett Lumber Company, Swift & Co., P. O. Benjamin, Parlin & Orendorff Implement Co., and C. J. Waddell, and placed in my hands for service, I, E. B. Kiser, as Sheriff of Reeves County, Texas, did on the 6th day of February, 1923, levy on certain Real Estate, situated in Reeves County, described as follows, to-wit:

The West one-half (W 1/2) of Section No. Seventy-five (75), Block No. Four (4), H & G. N. R. R. Company survey, containing 320 acres of land and levied upon as the property of said Robert L. McKnight. And on Tuesday, the 6th day of March, 1923, at the Court House door of Reeves County, in the town of Pecos, Texas, between the hours of ten A. M. and four P. M. I will sell said real estate at public vendue, for cash, to the highest bidder, as the property of said Robert L. McKnight, by virtue of said levy and said Order of Sale.

And in compliance with the law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Pecos Enterprise, a newspaper published in Reeves County.

Witness my hand, this 6th day of February, 1923.

E. B. KISER,
Sheriff Reeves County, Texas.

NOTICE.

Notice is hereby given that the Annual Meeting of the Stockholders of The Pecos River Railroad Company will be held at the General Offices of said Company in Pecos, Texas, on Wednesday, March 7th, 1923, at the hour of 12:00 noon, for the purpose of selecting a Board of Directors for the ensuing year and for such other business as may come before such meeting.

The Annual Meeting of the Directors of said Company will be held on the same date and at the same place, immediately after the meeting of Stockholders.

The Pecos Enterprise, the big new newspaper.

The Quinine That Does Not Affect the Head
Because of its tonic and laxative effect, LAXATIVE BROMO QUININE is better than ordinary Quinine and does not cause drowsiness nor ringing in head. Remember the full name and look for the signature of H. W. GROVE, 20c.

A TONIC
Grove's Tasteless chill Tonic restores Energy and Vitality by Purifying and Enriching the Blood. When you feel its strengthening, invigorating effect, see how it brings color to the cheeks and how it improves the appetite, you will then appreciate its true tonic value.

Grove's Tasteless chill Tonic is simply Iron and Quinine suspended in syrup. So pleasant even children like it. The blood needs QUININE to Purify it and IRON to Enrich it. Destroys Malarial germs and Grip germs by its Strengthening, Invigorating Effect. 60c.

ASPIRIN
Say "Bayer" and Insist!

BAYER
Genuine

Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer product prescribed by physicians over twenty-two years and proved safe by millions for

Colds	Headache
Toothache	Lumbago
Earache	Rheumatism
Neuralgia	Pain, Pain

Accept "Bayer Tablets of Aspirin" only. Each unbroken package contains proper directions. Handy boxes of twelve tablets cost few cents. Druggists also sell bottles of 24 and 100. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid (Advertisement)

IF SICK, BILIOUS!
START YOUR LIVER

Don't Take Calomel! "Dodson's Liver Tone" Acts Better and Doesn't Gripe, Salivate or Make You Sick—Don't Lose a Day's Work—Read Guarantee

Ugh! Calomel makes you sick. It's horrible! Take a dose of the dangerous drug tonight and tomorrow you may lose a day's work. Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel, when it comes into contact with sour bile crashes into it, breaking it up. This is when you feel that awful nausea and cramping. If you are sluggish and "all knocked out," if your liver is torpid and bowels constipated or you have headache, dizziness, coated tongue, if breath is bad or stomach sour, just try a spoonful of harmless Dodson's Liver Tone tonight. Here's my guarantee—Go to any drug store and get a bottle of Dodson's Liver Tone for a few cents. Take a spoonful and if it doesn't straighten you right up and make you feel fine and vigorous I want you to go back to the store and get your money. Dodson's Liver Tone is destroying the sale of calomel because it is real liver medicine; entirely vegetable, therefore it can not salivate or make you sick.

H. & G. N. RY. LANDS FOR SALE IN REEVES COUNTY

Survey Nos. 45, 47, 49, 51, 53, E. half of 51, and 53, in Block 4; and Nos. 43, 45, 47 and W. half of 51 in Block 5. The surveys in these blocks are situated from 5 to 8 miles from Pecos City, in the eastern half of the Pecos River country and will be sold only in whole sections. Also, surveys No. 49 in block 6 and Nos. 9, 13, and 15 in Block 7. Also surveys Nos. 1, 3, and 5, fronting on the Pecos River, in Reeves county, and No. 19 (a river survey) Pecos county. Also 12 surveys in block 11 and 3 surveys in block 12. None of these are river lands. All are in Pecos county. All these lands are under lease for oil, gas and mineral purposes and any sale of same will be made subject to such lease. J. C. LOVE of Pecos is agent for the sale of all these lands situated in Reeves County and application should be made to him for the purchase of same. There is no land open for the sale of the lands in Pecos County, and parties desiring to purchase any of same should apply to the undersigned.

MR. MERCHANT
You Need the Newspaper

The newspaper of today is the most powerful medium of advertising on earth. In the old days the merchant may have thought he was a benefactor and that he was contributing his bit "as a public-spirited citizen" when he carried a two-inch space in the village paper every week in the year and generally without change of copy. Possibly he was.

But that is changed now. A new order has arrived. People read advertisements. Many find their greatest interest in looking over the advertising pages to get news that will save them money, and take it from John D. Rockefeller, the way to save your dollars is first to save your pennies.

Advertisements today are right up to the minute. They are as fresh as the news of the world or the latest baseball score. Live merchants cater to live people and they know they must not alone be up to the minute, but they must be some distance ahead. They must anticipate the wants of their customers.

And they do. Turn to the advertisements in this paper right now. Just read what the merchants are offering. Notice how attractively the advertisements are set up and how inviting they are.

Business men—that is the successful ones—know advertising pays big returns. Unsuccessful men don't advertise because they are unsuccessful. That's the answer. Look over your town right now and pick out the big firms. They're the advertisers. Advertising is the tonic that puts dividends in the banks.

Everybody reads advertisements today. Mr. Merchant, is your advertisement in this paper?

HOME SWEET HOME
Dear Knows He Knows
by Terry Gilkison
AUTOCASER

THAT'S THE LAST TIME I EVER GO TO A PARTY WITH YOU! THE LOOK THEY GAVE YOU—OH!

YOU MEAN WHEN I LAUGHED AT THE BIG FELLOW WHO GOT CHEWING GUM IN HIS WHISKERS!

NO, I MEAN WHEN YOU MADE THAT WISE CRACK REMARK ABOUT THE BRIDE BEING A GOOD LOOKER.

WELL IT'S TRUE SHE LOOKED FOR YEARS BEFORE SHE FOUND HIM!

—AND WHEN THAT WORRIED LOOKIN' MAN TOLD YOU HIS TROUBLES I HEARD YOU TALKING TO HIM ABOUT A DIVORCE!

YOU'RE WRONG! I ADVISED HIM TO GIVE HIS WIFE A FINE PRESENT. HE SAID THAT.

SHE HADN'T SPOKEN A WORD TO HIM FOR WEEKS—I TOLD HIM HE WAS A LUCKY FELLOW—THAT HE'D NEVER GET ANOTHER WIFE LIKE THAT!

HOME HABITS
HAVE YOU A "HOME HABIT"—SEND IT IN—AND WE WILL PRINT IT! M.E.S.N.C. SENT THIS "MY HUSBY LIKES TO CHEW UP THE CRACKED ICE LEFT IN HIS GLASS!"

If you want results Mister Man, use Enterprise ads.

IF YOU ADVERTISE AT ALL

Place your ad in a paper with a guaranteed circulation. The Enterprise advertisements carry your message each week to 1800 families and at a less cost than you can reach the same people in any other way.

A message to have weight must come through an accredited source which has a standing and an influence.

The Enterprise affords you all this.

THE PECOS ENTERPRISE

PERSONAL

Mike Niederkorn was a business visitor in Dallas last week.

Richard Lynn is still confined to his bed with a severe case of the flu.

Ben Kraus is spending some time now at his home just northwest of Pecos.

Dr. W. H. Moore of Fort Stockton was in Pecos Saturday seeing old time friends.

Three children of Mr. and Mrs. W. F. Stephen who have been ill with flu for the past week are improving.

Vernon Hicks went to Wichita Falls last week to join Mrs. Hicks who was already there and where they will make their home.

Mrs. A. J. Cooksey has been confined to her room the past several days with a case of the flu. Her many friends will be glad to know she is improving.

Miss Warren Collings went up to El Paso Wednesday morning to visit relatives and to hear Paderewski play Thursday evening.

Mrs. Joe Seay and daughter, Miss Jessie, returned Wednesday to their home at Toyah after a visit of several days to relatives and friends in Pecos.

Mrs. Sid Kyle spent a day or so in town this week, coming in from the ranch. She is looking well and says the snow and rain are making it look good in her section.

Little Miss Willie Mae Moorehead, little daughter of Mrs. T. Y. Moorhead, who has been critically ill with pneumonia, is very much better which is delightful news to the many friends of the family.

Miss Irene Prewit resigned her position as English teacher in the Van Alstyne high school on account of ill health and has returned home where her many friends hope for her speedy recovery.

D. W. Bozeman went to Dallas the latter part of last week to order a new supply of goods for The Pecos Drug Company, recently burned out.

Mrs. L. A. Haygood and Mrs. Henry Kerr and children left Wednesday for San Antonio where they will reside. Mr. Kerr had gone on several days before.

B. A. Oden came in from El Paso the latter part of last week and has been visiting with his wife and friends during the week, as well as looking after business matters.

Mrs. Leah Chancy and son, Lloyd of San Antonio, were here the forepart of the week, and returning home in their car were accompanied by her sister, Mrs. A. L. Haygood and Mrs. Henry Kerr and children.

Mrs. I. L. Barlow of Balmorhea, who came in Tuesday on her way to Los Angeles, Calif., to visit her sister, Mrs. Staffer, was called back home Wednesday morning on account of the illness of their daughter. She will go to California for her visit later on.

Mrs. Florence Shropshire enroute to her home in El Paso from Wichita Falls stopped for a visit to Mrs. C. Y. Looby. The ladies were school girl friends in Shreveport, La. Mrs. Shropshire was accompanied home Sunday by Miss Jane Looby for a two days visit.

C. W. Gathings came in this morning from Deming, New Mexico, where he spent the winter. He is on his way to Roscoe where he will be for awhile. Mr. Gathings owns land in Reeves county and reads The Enterprise to keep posted.

D. W. Bozeman returned Thursday afternoon from Dallas where he met the representative of The Wilmath Fixture Company of Grand Rapids, Michigan, and bought a set of modern Drug Store fixtures, as well as a new 16-foot marble soda fountain. He also bought a complete stock of drug merchandise. The Pecos Drug Company have leased the Collings building next door south of the First National Bank and will open for business as soon as material arrives.

The editor is rejoicing over the arrival at his home of a fine Jersey heifer calf from his young two-year old registered heifer.

Mr. and Mrs. Frank Cavett were visitors to El Paso Friday and Saturday of last week. They have moved this week into the home of Mr. and Mrs. Henry Kerr made vacant by their moving to San Antonio.

Mrs. C. A. Johnson, wife of the pastor of the Christian church, was called to Indianapolis, Ind., last week on account of the death of her father, J. M. McCready. The Enterprise extends sympathy to the bereaved.

Mr. and Mrs. Albert Sisk and daughter, Miss Dorothy, and Mrs. J. G. Love and daughters, Misses Aileen and Margaret, left on the early morning train Thursday for El Paso in order to hear the great pianist, Paderewski.

C. M. Houghton and mother were over from Barstow Tuesday. They are both "of the salt of the earth" and among the very best people in West Texas. Mr. Houghton says California parties are anxious to finish up the River well and all that is lacking for them to appear and begin actual operations is a few details relative to the rig which now stands over this well. He hopes to get things in shape for them in a short while when they will come in and in a short time bring in this well.

SOCIAL EVENTS

Honoring Mrs. J. A. Klasner of Clovis, N. M., Mrs. Marion Snow Hudson entertained the Thursday Evening Bridge Club with a three course, seven o'clock dinner at her lovely home. Besides the regular members who are Dr. and Mrs. O. J. Bryan, Mr. and Mrs. David Tudor, Mr. and Mrs. John Howard, Mr. and Mrs. Tom Jones and Mr. W. W. Deen, those invited to enjoy this hospitality were Mrs. Dorothy Heard, Mrs. Montee Kerr, Mrs. Clay Slack, Mr. and Mrs. Max Krauskopf and Mrs. J. A. Klasner.

HONORS FRIEND.

Mrs. Dorothy Heard and Mrs. Clay Slack were hostesses at the home of the former Thursday evening in honor of Mrs. J. A. Klasner of Clayton, New Mexico, at an informal bridge party.

After a number of spirited games a delicious salad course was served.

SIX O'CLOCK DINNER.

Miss Warren Collings was hostess at an informal dinner party at her home Tuesday evening at six o'clock in honor of Mr. M. N. Erlenbach, the day being his birthday anniversary.

The motif in the decorations was Valentine. The table was beautiful in its appointments and was centered with a large cupid surrounded with his darts. The place cards were heart valentines. The guests favors were corsage bouquets for the girls and red rose buds for the boys. The delicious dinner was served in five courses. Toasts were given between the two first courses, Miss Collings being the toast mistress. There were interesting contests between the other courses. Covers were laid for sixteen as follows: Misses Irene Prewit, Evelyn Slack, Jane Fite, Aileen Love, Ora Pruett, and Warren Collings, Mrs. Stella Levy, Mr. and Mrs. H. B. Prickett and Messrs. M. N. Erlenbach, Ed Doty, Bob Heard, Jeffreys Atwood, Mahoney and Small.

FORTY-TWO CLUB ENTERTAINS AT THE HOME OF DR. AND MRS. CAMP

The members of the Forty-two Club were at home to their husbands with a six o'clock dinner at the home of Dr. and Mrs. Camp Tuesday evening, February 13.

The spacious rooms were elaborately decorated in Valentine motif, an arrangement of white and red streamers and white and red hearts gave a pleasing effect. A rosy glow from shaded candles and artistically decorated floor lamps lent a charm to this happy occasion.

A delicious course dinner was served by four charming young ladies, Virginia Run-

nels, Annie Lou Cole, Dorothy Sisk and Mary Stine.

After a number of interesting games of forty-two, hearts were passed on which appeared humorous questions. Later the names of the person on the heart was revealed and the history of their characteristics read. Much valuable information was gleaned, "seeing ourselves as other see us."

It was a late hour before this pleasant affair came to a close.

The guests were: Dr. and Mrs. Camp, Mr. and Mrs. Cavett, Mr. and Mrs. Roy Wilcox, Mr. and Mrs. Albert Wilcox, Mr. and Mrs. Sisk, Mr. and Mrs. McClure, Mr. and Mrs. J. C. Wilson, Mr. and Mrs. Finley, Mr. and Mrs. Garlick, Mr. and Mrs. Will Cowan, Mr. and Mrs. Sid Cowan, Mr. and Mrs. Runnels, Mr. and Mrs. Love, Dr. and Mrs. Lusk, Mr. and Mrs. Taggart, Mr. and Mrs. Vaughan, Mr. and Mrs. Glascock, Mr. and Mrs. Rowden, Mr. and Mrs. Anderson, Mr. and Mrs. Brooks, and Mesdames Klasner, Stine, Lilley and Cole.

BAPTIST MEMBERS CELEBRATE IN CONNECTION WITH QUARTERLY REPORTS

The members of the Baptist church enjoyed an unusually good missionary program and social hour in connection with the regular quarterly reports from the different organizations of the church. The following reports were made: Church clerk, Sunday School superintendent, superintendent of Cradle Roll department, Senior B. Y. P. U., Intermediate B. Y. P. U., Junior B. Y. P. U.

The Woman's Missionary Society then gave good reports of all their work. The Young Woman's Auxilliary, Royal Ambassadors, Girls' Auxilliaries, Sunbeam Band, and Willing Workers.

Each report given showed very plainly that some one was on the job and the work of each organization was moving forward.

The following program was rendered: Song, "The King's Business"—Royal Ambassadors.

Pantomime, "Let the Lower Lights Be Burning"—Senior Band of Girls' Auxilliary. Sung by Mrs. J. C. Wilson.

The Flags of Other Lands—Junior Band of Girls' Auxilliary.

Song, "Beautiful"—by the Willing Workers.

Mother Goose Rhymes—Sunbeam Band in costumes.

Playlet, "The Sword Bearer"—by Y. W. A.

Chicken sandwiches, pickles, cakes, coffee and chocolate was served to about three hundred. All are cordially invited to attend each of the following such meetings to be given quarterly.

LUCAS-DAVENPORT NUPTIALS

Miss Ema-wylie Lucas and Frank Z. Davenport were united in marriage with a high nuptial mass at the St. John's Catholic church in Toyah, Texas, February 12th. Rev. Father Jannes officiated assisted by Mrs. Felix Sholz. The altar was banked with ferns, carnations and sweet peas. Preceding the entrance of the bridal party the choir sang Lohengrin's bridal chorus then "Oh Promise Me" was sung by Mrs. Rogers Whales accompanied by Mrs. James Lawney at the organ. At the first strains of Mendelssohn's wedding march little Mary Francis Johnson of six years entered with the bride's bouquet consisting of white and pink carnations sweet peas and lilies of the valley. She was followed by George Johnson of eight years carrying the wedding ring in the heart of a Russell rose; then the groom and groomsman, Mr. Earl Bumgardner enter from the sacristy door and joined them at the altar. Next came Miss Janie Joq Duncan, the bridesmaid, with bouquet of ferns and carnations and was followed by Robert Lucas, the bride's brother; then the maid of honor, Miss Kathryn Bernard with bouquet of carnations and sweet peas, then followed the bride with her father who gave her in marriage. The bride carried a white prayer book and was gowned in white satin canton crepe trimmed in openwork lace and tiny white rose buds in cluster effect and white georgette hat trimmed in white lillies, white satin slippers and long white kid gloves. The maid of honor and bridesmaid were dressed in white organdy with ruffled panels over pink. They wore white hats trimmed in pink. The little flower girl wore a real pink crepe de chine dress trimmed in small pink rose buds.

After the ceremony choir rendered Peter's Mass with Leonard's Agnus Dei sung as a trio, by Mrs. W. Lucas, alto, Mrs. F. Macek, contralto, Mrs. J. Keating, soprano, accompanied by James Lawney on the violin.

The bride and groom and attendants retired from the church to the strains of Lohengrin's wedding march. They then went to the bride's home where an informal wedding breakfast was served to the bridal party and choir.

al wedding breakfast was served to the bridal party and choir.

Mr. and Mrs. Davenport received a number of beautiful gifts from their many friends and relatives. They are now at home to their friends at their new bungalow apartment.

Marshall H. Pior is making some especially attractive prices on tires and tubes for the next few days. See him before purchasing. 11.
