

THE NEW ERA

Published among the Silver-Lined Clouds, 4,692 feet above sea level, where the sun shines 365 days in the year. The healthful, pure air makes life worth living.

Marfa is the gateway to the proposed State Park, which contains the most beautiful scenery in the whole Southwest. Spend your vacation among your own scenery.

Cowman Has Come Back

By Mrs. W. B. Hamilton.

ALPINE, Feb. 15.—Herbert L. Kokernot of Alpine, millionaire Texas Cattle king, President of the Texas & Southwestern Cattle Raisers' Association, also President of the First National Bank of Alpine, and the largest ranch owner in the Big Bend Davis Mountain and the Trans-Pecos district of Texas, gave the following interesting resume of the outlook for 1926 of the Cattle industry in the southwest, when asked recently for an outline for the press.

On the Whole Outlook Good—Range Above Normal.

Having studied the cattle business from every angle, and knowing the industry from A to Z, in passing we will say that there is no better authority on the cattle industry—which is among the leading industries of not only Texas, but the entire Southwest. Very briefly Mr. Kokernot gave the situation as follows:

"As to the outlook of the cattle industry for 1926, on the whole I think it is good. Range condition generally are above the normal. There has been so much forced liquidation for the past five years that it does seem that our surplus has disappeared—that our production now is not above our own consumption, and with fair treatment it would only be a short time before the industry would work back to where it would be on a par with other industries. From the best information I can get the Cattle man's dollar is worth at present about 80c. in purchasing power of the average commodities of the country."

Three Things Necessary to Restore Normal.

Mr. Kokernot said that the three things most necessary to restore the cattle business back to normal are:
1st—A better system of marketing.
2nd—Financing that will in the requirements of the business, that is, that which would be self liquidating say within a period of three, four or five years.

3rd—Protection, sufficient to prevent our country from being thrown in direct competition with those countries where land values and labor costs are far below what they are in this country.

"These three things are far from being accomplished. In fact, we have hardly begun on them, for it is to be a long hard fight."

The Industry Threatened With Another Burden.

In reference to the freight rate problem, Mr. Kokernot analyzed the situation in the following words: "Just at this time the industry is threatened with another burden in the way of increased freight rates. These hearings are being held now in different sections and the outcome is very uncertain. If the railroads are successful, this will be hard to recover."

In closing this brief summary of the outlook for 1926, he said, "I am not attempting to give you any argument but simply an outline as I see it of the conditions confronting us, both favorable and unfavorable."

Local Cattle Outlook Encouraging.

The local cattle outlook out here in the cattle country of Western Texas is better than for any year since the deflation of livestock values, caused by the slump in the consumption to the ending of the World War, and the continuous drought for several years thereafter. Mr. J. D. Jackson, of Alpine, a former President of the Texas & Southwestern Cattle Raisers Association, and now a Vice President, said, that this section is facing the best prospect for a cattle come-back in 1926, than for many years. The industry began its come-back last year, and barring no setbacks, Mr. Jackson says that 1926 will be a banner year.

Jackson & Harmon, who are among the larger cattle barons of the Highlands of Texas, made heavy shipments to Northern markets throughout 1925, and also were among the largest purchasers of cattle. In conversation, Mr. Jackson said that one purchase alone from a local cattle raiser amounted to \$50,000.00, for which a check was written for that amount. Mr. Jackson is very optimistic regarding the outlook for 1926, locally.

Mr. and Mrs. W. R. Preddy Will Move to El Paso March 1.

W. R. Preddy who has represented El Paso houses in this territory for the last five years has been appointed District Sales Manager for W. and H. Walker Co. of Philadelphia and will open office in El Paso on 1. The Walker Co. is one of the largest manufacturers of Drugs and Household specialties in the country. They were established in 1857, and already have of two-hundred branch offices in the principle cities.

Mr. Preddy will be in charge of territory from Del Rio, Texas to Deming New Mexico, and Marfa to Big Springs, Texas.

Mr. and Mrs. Preddy have made many friends here and regret very much to have to leave Marfa.

Highland Hereford Association Facing Splendid Year.

The Highland Hereford Breeder's Association, now more than six years old, with headquarters at Marfa, Texas, of which Mr. H. T. Fletcher is secretary, is also facing a better outlook than for several years. This Association is composed of cattlemen of Brewster, Presidio, and Jeff Davis counties, and through its co-operative selling members in the Association have benefitted. The membership raises registered Herefords in the three Highland counties. This Association is becoming nationally known, and Highland Herefords wherever exhibited receive recognition and in many instances take away the first prizes. It is certain that much greater profits will accrue this year than ever, as the quality of the Hereford breeding herds has been brought to a higher standard.

In conclusion, weighing both the favorable and unfavorable conditions and considering the splendid range all over the cattle country not now overstocked, the cattle industry in the southwest stands a good chance to stage the biggest come-back of any single industry in the south.

—West Texas Today.
Judge W. G. Young has been this week spending a few days in El Paso.

MRS. PHILIP E. ARTHUR

Mrs. Philip E. Arthur died at the ranch home south of Marfa Thursday evening, Feb. 18, 1926. Mrs. Arthur had been suffering for some time, but she did not become dangerously ill with Acute indigestion until the day of her death. Her daughter, Mrs. W. T. Davis of Marfa, had been with her several days. A large number of friends gathered at the home of W. T. Davis Saturday afternoon where funeral services were conducted by Rev. S. F. Marsh of the Baptist Church.

Mrs. Arthur's maiden name was Ella Dobbis and she was a native of Texas. At the age of seventeen she was converted under the ministry of the noted evangelist Major Penn and united with the Baptist Church of Tyler. She and Mr. Arthur were married forty-four years ago. After leaving East Texas they lived in the territory south of San Antonio for many years. They first came to Presidio County some fourteen years ago and since that time have resided here more or less continually. Mrs. Arthur is survived by her husband, P. E. Arthur, her son Clarence and her daughters, Mrs. W. T. Davis, of Marfa; and Mrs. D. Z. Windrow, of Laredo. All these were present when the body was laid away in the Marfa Cemetery.

RUTH BIGAMAN—See Mrs. HARRISON HERMAN

Who gives a piano recital Tuesday evening, March 16, at the First Christian Church, studied with two world famous teachers—Ernest Hutcheson and Alberto Jonas. She made her first public appearance at the age of ten years when she played at the Beethoven C major concerto with the San Antonio Symphony orchestra, then organized under the baton of Carl Hahn, and has played publicly every year of her life since that time. She has won the warmest praise from all the critics who have heard her.

Mrs. R. E. L. Tyler returned Thursday from San Antonio where she went to see Mr. E. P. Still. She reports that he is still very ill.

THOS. C. MITCHELL

In this issue of the New Era appears the name of T. C. Mitchell as a candidate for the office of County Commissioner for precinct number one. Mr. Mitchell does not voluntarily seek this important position but has been urged to by a host of our leading citizens to allow his name to be presented to the voters of the precinct. Formerly he served as Commissioner and served most faithfully and effectively and when going into office he found a depreciated County warrant, but before retiring, by his business foresight and economical administration of County funds, aided by the Co-operation of others who trusted in his knowledge of affairs, the warrants of Presidio County were worth 100 cents on the dollar. Mr. Mitchell has lived in Presidio County for over forty years, during most of these years has been engaged in the stock business, and now by his thrift energy and knowledge has become one of the leading stockmen of West Texas, and for years has been one of Marfa's leading citizens, always by word and deed a champion in the cause of education, religion and all good endeavors for Civic improvement.

Office of Commissioner is one of sacrifice and patriotism other than one of emolument, and doubtless Mr. Mitchell will have no opposition for this important position.

NOTICE

I wish to state to the votes of Presidio County and to my friends that for reasons, which would not be of interest to the public, I am withdrawing from the candidacy for the office of District Clerk, and most sincerely thank those who have so generously given me encouragement and promised support.

Mrs. S. R. Barelay.

John T. Hamie who has been at the bedside of his father, T. J. Hamie since Friday night returned to his home at Marfa Wednesday morning. —Glen Rose Reporter.

POLITICAL ANNOUNCEMENTS

The Marfa New Era is authorized to make the following announcements of candidates for office, subject to the action of the Democratic primaries of Presidio County, July 24, 1926:

FOR SHERIFF:—

Jeff Vaughan (Re-election)
Joe Bunton

TREASURER:—

Sam Wooley (Re-election)

ASSESSOR:—

Robert Greenwood (Re-election)
John A. Pool, Jr.

COUNTY JUDGE:—

W. T. Davis
Judge K. C. Miller, (Re-election.)

FOR DISTRICT CLERK—

Miss Anita Young (re-election)

COMMISSIONER PRECINCT NO. 2—

J. W. Bishop
COMMISSIONER PRECINCT NO. 3
H. W. Brooks.

HIGHLAND HEREFORD BREEDER ASSOCIATION ELECTS OFFICERS

The Highland Hereford Breeders Association elected officers for 1926 on February 23. T. C. Mitchell, of Marfa, was elected President, and W. P. Fischer, also of Marfa, was elected Vice-President. Directors were chosen as follows: B. B. McCutcheon, Fort Davis; Guy S. Combs, Marathon; H. L. Kokernot, Sr., and W. J. McIntyre, Alpine; W. B. Mitchell, T. C. Crosson, T. E. Smith, W. W. Bogel and Lloyd Mitchell, Marfa. H. T. Fletcher, who has served the Association as Secretary-Treasurer since 1923, retires from official connection with the Association to look after his own cattle interests. His Successor has not been chosen.

The Highland Hereford Association enters upon its eighth year with very flattering prospects. The 1925 calf crop sold at very satisfactory prices. Highland cattle have continued to make friends in the feed lots, Live Stock Shows, and at the central markets.

All cattle have wintered well and an early and propitious spring is promised. Prospects are good for a high percent of calves and good prices for 1926.

POLITICAL ANNOUNCEMENTS

This paper is authorized to make the following announcements of candidates for office, subject to the action of the Democratic primaries of Jeff Davis County July 24th, 1926.

For County Judge—
R. Barnett (Re-election)
W. A. Yarbrow

For Sheriff—
F. L. Sproul

For County Assessor—
C. E. Jones

For Treasurer—
William Granger (Re-election)
Miss Virginia Lee Ellis

For Commissioner Precinct No. 3—
A. J. Tippit
H. L. Kokernot, Jr.

SCHOOL NOTES

Cephus Wilson, Carl Matthews, Elizabeth Bloys, and Kenneth Edwards were perfect in spelling review.

Jean Stewart had the most head-marks in the first grade, George Brubb had the most in the second grade, and Amos Willoby in the 3rd grade.

We surely enjoyed the holiday Monday.

Chapel

Tuesday morning in chapel the primary grades gave us a very interesting Washington program. We always enjoy these little folks.

The following numbers were given:

1. A Rally—Cephus Wilson.
2. The Reason Why—George Grubb.
3. Which General?—Charles Bird.
4. The Good Old Times—Carl Matthews.
5. Washington Song—Girls.
6. Three Little Sisters—Moreau Miller.
7. The New Geo. Washington—Robert Miles.
8. Patriots—Hudnel Jones.
Kenneth Edwards
9. The Flag—Amos Willoby.
10. The Little Red Stamps—Margaret Miles.
11. Story of the Cherry Tree—Lee Sproul.
12. Something Better—Jeanne Stewart.

Margaret Mitchell was absent Tuesday but she recited, in a very creditable manner, too, her piece Wednesday morning in chapel.

The Sixth and Seventh grades discussed the slides on Texas Missions Thursday morning. These slides were the best ones we have had.

For the last six weeks' term Audrey Miller made the highest average in the fifth grade, and Dorothy Clark made the highest in the fourth grade.

Jack Dumas led the Modern History class with an average of 87.

Richard Irving made the highest grade in eleventh grade English.

Louise Matthews in the Ninth and Jack in the Eight.

Robert and Preston Johnson have been out of school several days. They have the "flu".

Dorothy Clark won the sub-junior spelling match Friday.

Edna Edith Jones spent the week end and holiday at her parents' ranch.

Basket-ball Party.

Ernest Carlton entertained the Basket-ball boys Friday night with a Valentine party. Forty-two were played for awhile and we listened over the Radio; then after a little Mrs. Carlton passed to the girls some very pretty Valentine aprons, and to the boys, some caps. We all put these articles off and went to pull candy. Don Carlton and Eva Edwards were the partners to pull candy. Don stirred the candy awhile in the plate, then Eva stirred it. When they got it up to pull, it sugared. Richard Irving and Lady Bird Fowlkes got first prize and Eva and Don got the

booby prize. Every one enjoyed him self very much.

Those present were: Ellen Yarbrow, Salome Walker, Lady Bird Fowlkes, Mae and Eva Edwards, Edwin Barnett, Preston Johnson, Richard Irving, Jim Espy, Don and Ernest Carlton, Chas. Ogden, Mrs. Thompson and children.

Marathon Vs. Davis

Saturday Marathon played our boys. The teams were well matched. About one-third of the game began. It became more exciting when the teams tied in the score twice. At the end of the third quarter the score was 20-20. During the next quarter Marathon made two points, which made the score 22-20 at the end of the game, in favor of Marathon.

After the game the Parent-Teachers Association served dinner at the school house.

The girls expected Marfa over Saturday to play Volley-ball, but Marfa did not come. The Marathon boys gave them fine practice, however.

We are all practicing tennis and Volley-ball now we hope to win over Valentine. A number of the Citizens have contributed funds for improving the Tennis Court, down by the bank. Work on it has been started. Thanks.

The Fowlkes "bunch" spent the holiday at their Highland Spring ranch.

Mrs. B. H. Grierson left Friday p. m. for her home in Table Grove, Ill.

Mr. and Mrs. "Billie" Kingston and Mrs. Joe Kingston were in from their ranches Monday p. m. to attend lodge.

Mr. Spittgarber attended lodge here Monday.

Mr. and Mrs. Beau McCutcheon have installed a new radio in their town home.

Mr. and Mrs. Withers went to Valentine Monday.

Dorene Granger and Miss McClure were over from Sul Ross Sunday.

Mrs. Loeffler, Louis and Reuben, and Tom Bows were visiting friends in Ft. Davis Sunday.

Bro. Hines of Marathon was in town Monday.

Espy Miller was in town Monday. He is now living on his ranch near Valentine.

Mrs. Morton Barnett spent the day in town Wednesday.

Mrs. R. C. Williams entertained with a bridge party at her home, Wednesday afternoon.

Mrs. Beau McCutcheon and Jack spent the week-end at the ranch.

Miss Mary Newman, from Marfa spent the Sunday with Miss Mable Belcher.

rs. E. L. Utley, sister of Mrs. W. C. Jones left Friday for her home in San Antonio.

Mrs. Bennett McCutcheon and small son, Jim Ragsdale, spent Monday with her sister, Miss Callie Holt.

Mrs. Carmack left Tuesday for Jackboro to visit her mother who is sick.

Several members of the Fort Davis Masonic Lodge attended a Washington Birthday celebration at the Marfa Masonic Lodge Monday evening.

Mr. and Mrs. R. S. Miller and little son Jack were guests in the R. C. Williams home Wednesday and Thursday, while there, Mr. Miller made a business trip to the B. B. McCutcheon ranch.

Mrs. R. C. Williams was hostess at a charming bridge party Wednesday afternoon, complimenting Mrs. R. S. Miller, one of the recent additions to the Young Matrons' Colerive of Marfa.

The Decorations in the Living rooms were covered pink and lavender sweet peas.

In the center of the table was a large bowl filled with the lovely spring blossoms. Cut glass candle sticks held pink wax papers.

Prizes were awarded, Mrs. Gene Munger, Mrs. Beau McCutcheon Sr. and Mrs. Kenneth Smith. The honoree was also presented with a useful gift.

After eight games a delicious refreshment course was served, which carried out the color scheme, to the following: Mrs. R. S. Miller, Marfa; Mrs. Gene Munger, Alpine; Mrs. Mary Hays, Alpine; Miss Pauline Terry, Alpine; Mrs. Beau McCutcheon, Sr., Mesdames, Frank Jones, George Jones, Kenneth, Smith, Jim Walker, Whit Leverett, Harold Thompson, Edwin Fowlkes, F. M. Miller, Lee, Sproul, Kenneth, and Miss Katherine Espy.

ANNOUNCEMENT

This paper is authorized to announce H. L. Kokernot, Jr., as a candidate for re-election to the office of County Commissioner for precinct No. 3 Jeff Davis County subject to the action of the Democratic primary July 24.

H. L. KOKERNOT, JR.

In this issue of the paper appears the name of H. L. Kokernot Jr., as a candidate for re-election to the office of County Commissioner for Commissioners precinct No. 3 of Jeff Davis County. Herbert Kokernot has for some time filled this most important office, and during his incumbency has faithfully and intelligently looked after the financial affairs of his county, and especially, looked closely after the affairs of his precinct.

The Commissioners Court of a county is not only partly executive but also quasi legislative, and the interests of a county is best served by obtaining where possible the services of the best talent to be had.

Mr. Kokernot has charge of large interest in Jeff Davis County and can be depended upon to serve the people in the capacity of Commissioner with fidelity.

ACTIVITIES OF OUR COUNTY AGENT, R. S. MILLER.

Eight thousand five hundred Coyote baits have been prepared and distributed to twelve or fifteen ranchmen in Presidio, Jeff Davis and Brewster Counties, according to County Agent R. S. Miller. The bait is very cheap costing only 1 1/4 cents per bait. Several Ranchmen have reported good success with the bait and the bacon on which the strichnine is placed will remain effective for several weeks.

Prairie Dog bait mixed.

Last week R. S. Miller and L. C. Whitehead mixed up two tons of Prairie dog bait at Valentine, Kingstons ranch and the Rock Pile ranch. The bait for Presidio County will be mixed next week, and can be obtained from the County Judge.

Killing Gophers.

Demonstrations in poisoning gophers were held on the farms of J. H. Fortner and E. C. Carlton at Fort Davis this week. The method used was processed strichnine on carrots. Gophers have been doing considerable damage to apple trees and the cost of poisoning them is only about ten cents per acre. Anybody having gophers on their land and desiring to have them killed should see the County Agent.

FAMOUS EQUESTRIANS COMING

The feature act with the Dutton Society Circus which comes to Marfa Next Week will be the famous Dutton's without doubt the World's most beautiful and spectacular bareback riding act. Four beautiful Arabian horses are used in the presentation of this act in which five people participate. Unexcelled feats of horsemanship are accomplished on the back of these pretty animals and the costumes of the entire act is really a picture itself. This act has been around the world three times appearing before a multitude of people in Europe and Africa and is everywhere as "The Act Beautiful."

However, the Dutton Society in a program of education all of which are so entertaining and novel. Another feature is Miss Nellie Jordan, queen of the silver thread. This lady's Miss performs feats on a slender silver wire suspended in mid-air and is considered among the best in the business. Miss V. Van Vere a dainty little lady who died in the West of Death's grasp, the air with her eyes wide of the laws of gravity. Miss Marie Compton recently a claimant of the most beautiful girl in the Circus World is another feature on the program. It's little sister is an exhibition of great ability. Work the store in Marfa by an unbroken and unsaddled horse Miss

other attraction with the Circus will not only furnish music for the performance but will also give concerts each evening on the streets during the engagement here. The Dutton Society Circus will open here Friday night for an engagement of three performances including a matinee Saturday and a night show Saturday. The show will go from here to El Paso. Tickets will be on sale this week at the Union Drug Store, and at the Army Canteen for the convenience of the public.

Miss Idah Delno, the famous physical culture girl is another starring feature of the circus program. Miss Delno is the possessor of a perfect figure and her feats of contortion and equilibrium show the results of care and exercise. Pewee and Howard, offer and exceptional comedy aerobic act. These nimble lads not only create much laughter with their antics but also perform some remarkable feats of acrobatic nature, tumbling from one end of the tent to the other.

With the Dutton Circus comes the famous Spark-Plug, the smallest mule in the world. This little animal is but 28 inches high and weight only 130 pounds, but is one of the best performing animals in the circus business. His antics with the clowns and especially with Barney Google his trainer, are one of the comedy surprises of the show.

Merle Baker's Concert Band and

Supremacy Maintained through Features which Established Ford Leadership

Left-Hand Drive— Originally introduced by Henry Ford on the Model T car in 1908 and since adopted for most American-made cars.

Three Point Motor Suspension— First used by Henry Ford in 1903, and a feature of the Model T power plant for eighteen years.

Dual Ignition System— Dual ignition is provided for Ford cars, (1) the Ford magneto and (2) the generator and storage battery. This has been a great factor in establishing the Ford reputation for reliability.

Planetary Transmission— Costs more to build than the conventional sliding gear type but gives better light car control.

Multiple Disc-in-oil Clutch— The multiple disc clutch is generally conceded to be the best and smoothest type for any car. The Ford clutch runs in oil.

Thermo-Syphon Cooling System— Extremely simple—always efficient. No water pump to require packing. Circulation of water is governed entirely by engine temperature.

Simple, Dependable Lubrication— Exceedingly simple, combining the splash principle with gravity flow. No pump required.

Torque Tube Drive— Henry Ford originated the Torque Tube in 1908—a driving principle now embodied in many of the highest priced cars.

"We have never lowered the quality of the car to reduce the price"

Cow Testing Associations Invaluable Aid to Milk Production

Quantities of non-productive cows from milk herds increases net profits.

Getting more milk from fewer cows is the aim of the cow testing association. Hundreds of cases have demonstrated in a most striking manner that the weeding out of non-productive milk cows and better care for the producing members of the milk herd pay big dividends.

This point was strongly stressed in an exhibit at the International Dairy Exposition held at Indianapolis last October. An actual instance was given which disclosed the following facts:

A milk producer had a herd of six milk cows producing 27,000 pounds of milk annually. He joined a cow testing association. The first step taken was to weed out the non-productive cows, that is, those cows yielding insufficient milk to net a profitable income over and above feed cost.

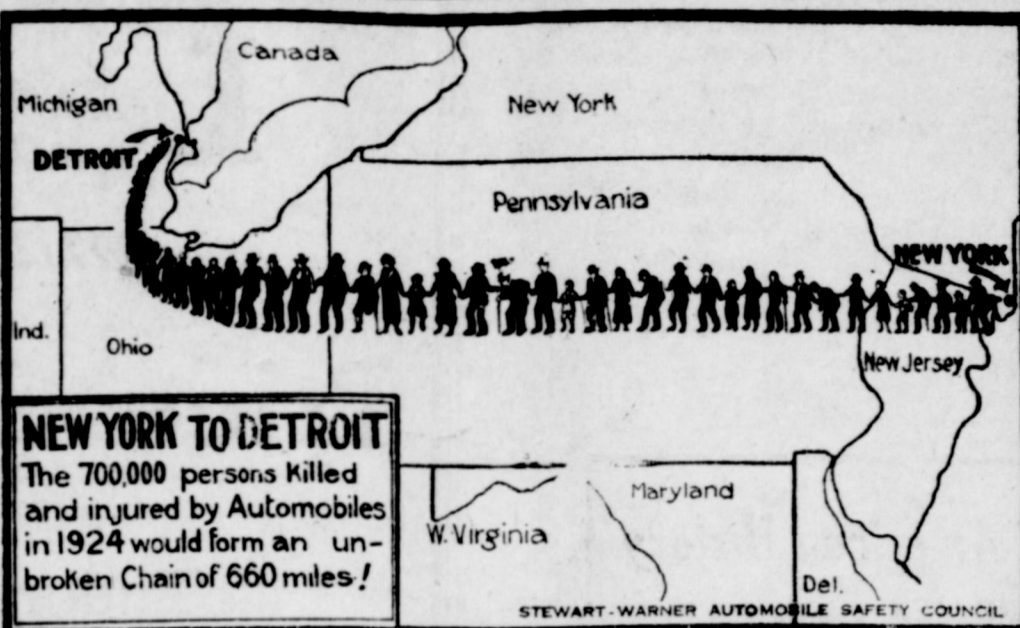

The weeding out process left only four cows in the milk herd. But these remaining cows were fed according to their individual requirements. No sanitary or beneficial feeding measure was neglected. During stabling months, they were given plenty of clean bedding; stables were kept clean; the long hair on flanks and udders were kept clipped. The cows were brushed or wiped with a damp cloth before each milking. Udders were sterilized. The stable was well ventilated and plenty of clean, pure water was given the cows.

A year from the time the member joined the association, his records showed an increase in milk to more than 23,000 pounds from the four cows as compared to 27,000 pounds from six cows prior to this period. There was more than a corresponding increase in butterfat.

The cow testing association consists of about twenty-six farmers who co-operate and employ a trained tester to test their cows for economical production of milk and butterfat. The tester spends one day a month on each farm and obtains a complete record of each cow's milk and butterfat production, feed consumed, feed cost, growth, and income and income over feed.

The first cow testing association in the United States was that organized at Newaygo County, Michigan, in 1905. Since then, there has been a fairly constant growth until 1925 shows a tally of 752 cow testing associations with excellent prospects of the number doubling within the next three years.

Caravan of Death 660 Miles Long Is Nation's Auto Story

NEW YORK TO DETROIT
The 700,000 persons killed and injured by automobiles in 1924 would form an unbroken chain of 660 miles!

A CARAVAN of death and suffering 660 miles long is what the annual automobile casualties of the United States would form if placed in one continuous line. From New York to Detroit, painful mile on painful mile, this ghastly and pathetic human chain would reach. This graphic picture, prepared by the Stewart-Warner Safety Council for the prevention of automobile accidents, tells its own story. Twenty-two thousand killed annually by automobiles and 660,000 injured is the present toll caused by thoughtless drivers and careless pedestrians. Only a small per cent of the accidents are due to defects in the cars or can rightly be called unavoidable.

Zero Hours of Automobile Accidents, 4, 5 and 8 P. M.

ONE thousand and thirty of Chicago's 11,785 auto accidents last year, according to the Stewart-Warner Safety Council for the prevention of automobile accidents, occurred between five and six o'clock. Just when congestion is at its worst in the home-going rush. Only 47 of these 1,080 accidents were fatal.

Four o'clock is the children's zero hero. Thirty-three of the 182 children killed by autos in Chicago last year came to grief at four o'clock, playing in the streets after school.

Seven to nine is the dangerous time for adult auto fatalities, according to Chicago's 1924 record. Eighty-six of 353 such deaths occurred around the theater-going hours.

Moderating

ELLISON-WHITE

The Ellison-White Chautauqua is scheduled to appear at Marfa beginning April 19. A fine list of attractions are on the program this year, special features of which will soon appear from time to time in the New Era.

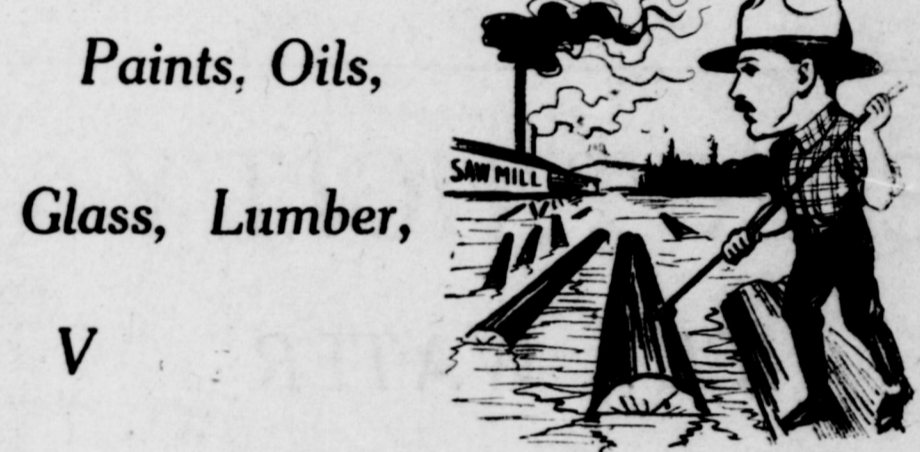

Mr. and Mrs. L. C. Brite spent several days this week in the City of El Paso combining business with pleasure.

The "Flu" this week has almost knocked out the entire office force of the New Era, including the devil.

The Wife-Ship Woman

By Hugh Pendexter
Author of *KINGS OF THE MISSOURI, PAV GRAYEL, A VIRGINIA SCOUT, ETC*

COPYRIGHT BY HUGH PENDEXTER, 1923-1925

NOT only a fascinating story, but a permanent contribution to literature and to history. The French occupation of Louisiana, the clashing interests of England and France, the attempts of the former to settle the country with sturdy home-makers and of the latter to link Canada and the Gulf with a chain of forts, John Law's fantastic financial schemes culminating in the famous "Mississippi Bubble," Indian wars and other exciting and colorful accompaniments to the conquest of the American continent in the early part of the Eighteenth Century are woven into a romantic pageant. Hugh Pendexter's delightful actors play their thrilling parts, and none more thrilling than that of the wife-ship woman, herself.

Will be Presented in Serial Installments in

Duttons Society Circus

Friday and Saturday
March 5th and 6th

Matinee Saturday 3:00 p. m.

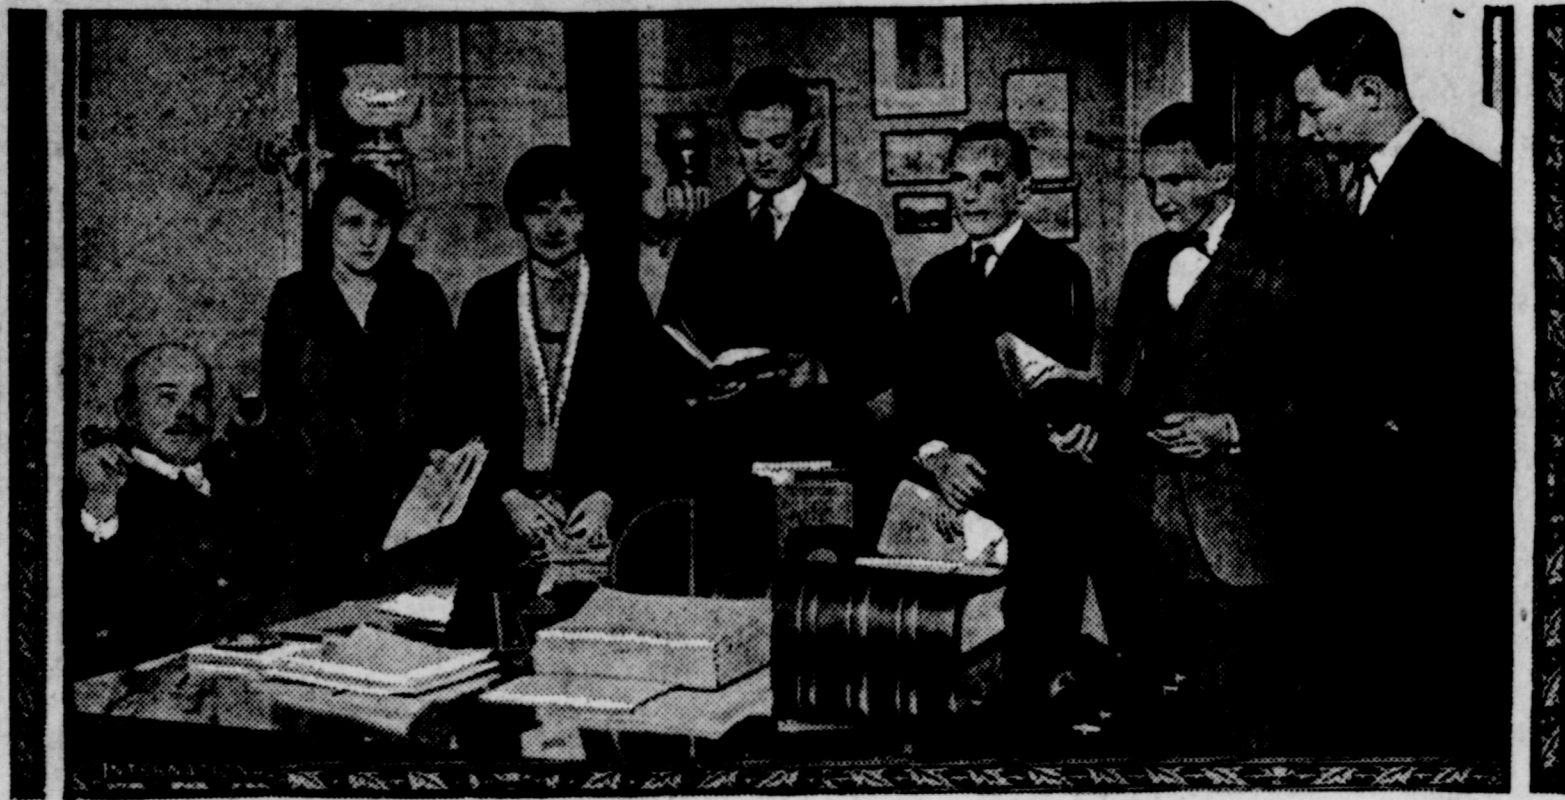

DON'T COME

Unless you are prepared to laugh at the army of funny clowns

Dont miss the big show

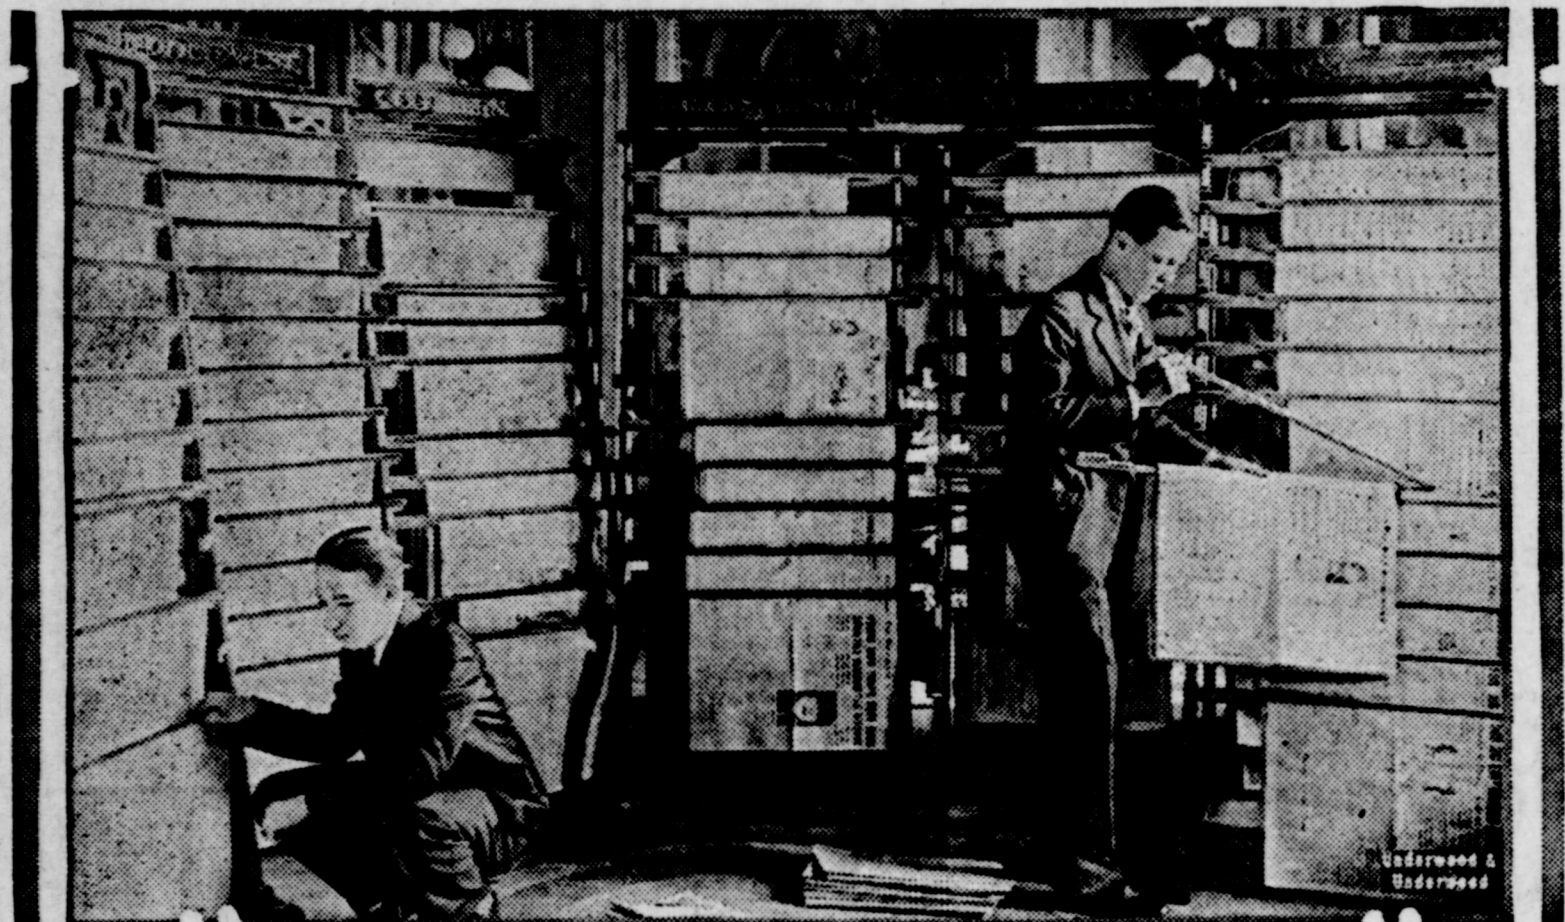

Admission 50c. Children Under 12, 25c

Official Photograph of "Nick and His Gang"

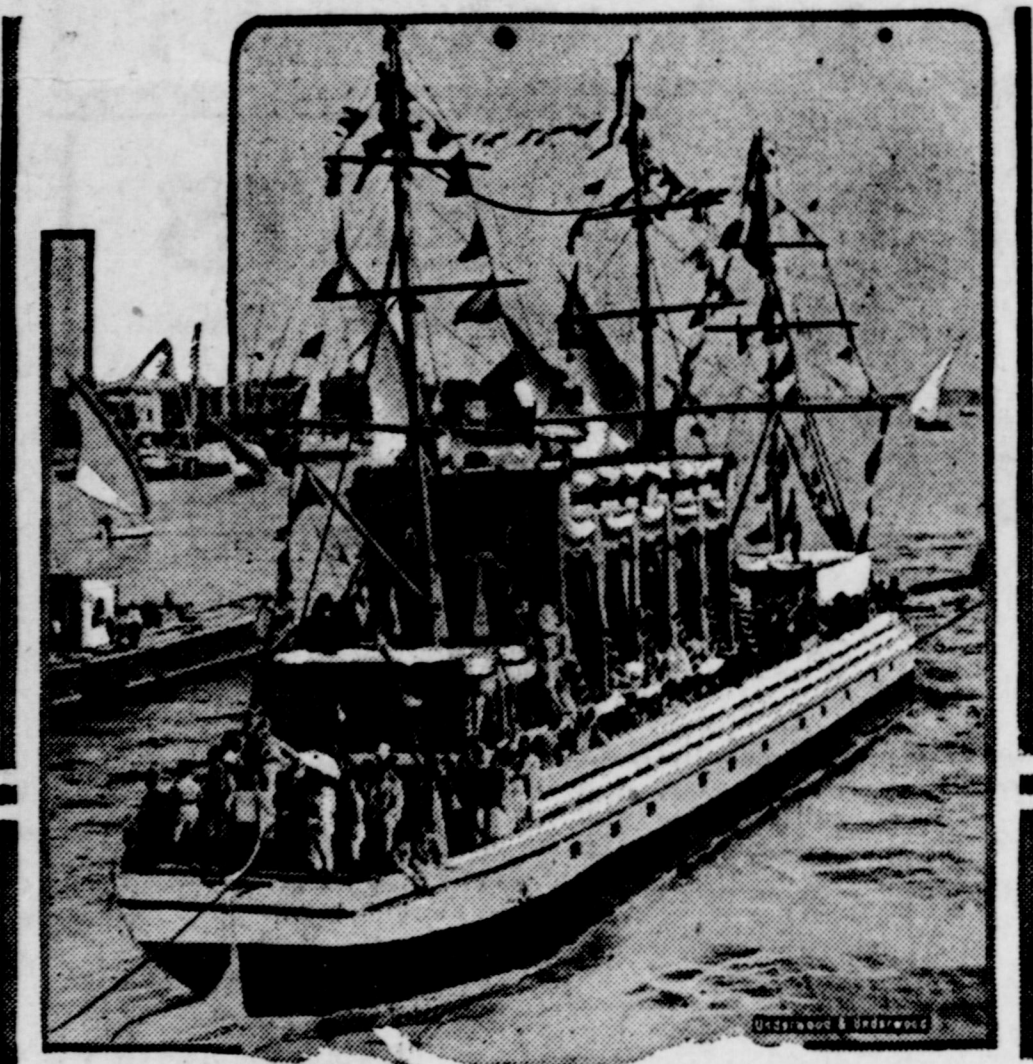

The first official photograph of the speaker of the house with his official family. They are called "Nick and His Gang." Left to right are shown: Speaker Nicholas Longworth, Miss Mildred E. Reeves, secretary; Lucile McArthur, assistant secretary; William T. Roy, clerk to the speaker; Nehr Fess, clerk at the speaker's desk; Robert B. Parkham, clerk at the speaker's desk, and Lewis Deshler, clerk.

Here Congressmen Keep in Touch With Their Districts

In the lobby of the house of representatives in Washington are racks containing the latest copies of 300 newspapers from all parts of the country, which keep the members of congress informed as to how things are going in their home districts.

Wedding of Nile Still Performed

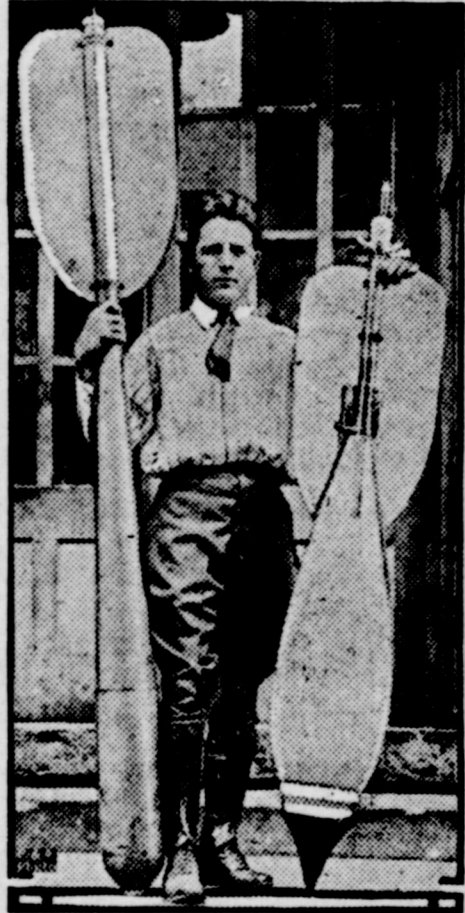

Ancient Egyptians, who worshiped the Nile river as a god, used to throw a sacrifice of a beautiful young girl, richly dressed. The custom is still kept, except that a clay statue is thrown in from a great boat called the "Akaba." The photograph shows the "Akaba" in midstream during the ceremony.

Two Fitzgeralds Who Represent Ohio

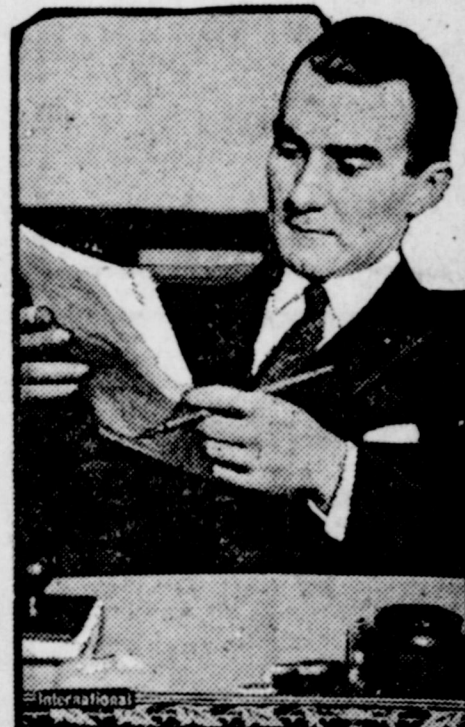

The name of Fitzgerald is popular in Ohio, judging from the roll of the Sixty-ninth congress, which contains two members with this Irish name. They are Roy G. Fitzgerald (left) Republican, from Dayton, and William Fitzgerald, Republican, from Greenville, who was a practicing physician before his election to congress.

NEW WAR TERROR

Lester P. Barlow, the "Bomb Wizard" of the World War, shown above with two of his inventions, has just invented a "flying torpedo," with horrible possibilities almost beyond description. He has told its powers to leaders in congress. It has a capacity for two tons of high explosives and a range of 1,000 miles.

GIVEN NEW OFFICE

This is Frederick I. Evans who has been appointed head of the new bureau of internal revenue division known as the administrative division. It is a consolidation of the appropriations and allotments section, the communicative division and the division of supplies and equipment. Mr. Evans has been connected with the Treasury department since 1909.

Community Building

Keep Home in Repair; Adds Much to Value

When inclement weather makes it impossible to do much work on the exterior of your home is an excellent time to plan your repair and upkeep campaign. Go over your home thoroughly both on the interior and exterior, and make a complete list of all things that require repairs or renewal. In the event that you have been lax in the past in keeping your home in first-class condition you probably will find a number of things that will require attention. This system of checking up on your home well in advance of the time when it will be possible to do the work will be of great advantage in either planning to do the work yourself or in finding the proper mechanic at the least cost, and it will also provide time in which to accumulate the necessary funds.

That keeping a home in good repair will add many years to its life and much to its value is recognized by most home owners, yet it is surprising how many homes are allowed to become dilapidated by reason of neglect. The home usually represents a sizeable investment and to many the only one of any magnitude.

Those who have other investments will go to great lengths to protect them, yet they will at times slight the most important investment that they can ever make and allow their home to depreciate in value.

Any one owning a home should strive to keep it in as near its original condition as possible, which can be easily done by strict adherence to the rule of replacing or renewing any worn part in its earliest stages of wear.

Schools of Highest Importance to Town

There are certain definite requirements which the school building, equipment and grounds must meet if they are to promote the health of the school children.

The location of the schoolhouse is the first point to be considered. Unfortunately, there is only one time when deliberation can accomplish much in this respect, and that is before the schoolhouse is built.

Board of education building rules read: "The school site must be accessible, well drained, quiet, and safe."

Ordinarily, the schoolhouse should be not more than a mile and a half from the most distant home. This rule does not apply in rural districts.

A site should be chosen which provides generous space for playgrounds. The usual standard is that there should be from 50 to 200 square feet of playground per child.

The schoolhouse should be planned by a skilled architect who is familiar with the best standards of school construction. Lighting, heating, ventilating and fireproofing are the outstanding problems of hygienic construction. —Hygela Magazine.

Pays to Remodel

"It is possible, by remodeling old houses, for the family of moderate means to own its own home, or even a country home in addition to its city apartment," says a bulletin from "Better Homes in America." The country house can even be had with profit, for it can be leased for short periods and be regarded as an investment rather than a liability and luxury.

"Finding such a home is not impossible, even within commuting distance of a large city, the only problem being to take time to find it, and to recognize the possibilities for improvements on old houses under unprepossessing conditions. Some of the most atrocious examples of mid-Victorian architecture and the most dilapidated old shanties may be made surprisingly attractive by the use of a little skill, ingenious thought and the removal of meaningless ornaments and partitions."

Better Cities

One encouraging thing about American life is the intense local patriotism of most citizens. Nearly every man you meet is always ready to defend his home city or town, and on occasion to do all he can to make it a better place.

Too often, however, we fail to have a good understanding of just what it takes to make a city a better place. Because it isn't simply a matter of getting more population, more factories, a new railroad or a deeper harbor.

It is something deeper—something that depends on the individual heart and conscience of the individual citizen. It can't be expressed in dollars or steel—few really worthwhile things can; but it makes the difference between a city that is stifling to intellectual and moral development and one that isn't.—Logansport Phoros-Tribune.

Flowers on Lamp Posts

Appearance of streets in a Pennsylvania city has been improved by baskets for flowers and vines attached to the lamp posts, says Popular Mechanics Magazine. The plants are supported high enough above the pavement to be protected from vandals and do not obstruct the vision or interfere with the lights. Hundreds of these "hanging gardens" give some of the streets the appearance of well-kept parks.

DEMAND "BAYER" ASPIRIN

Take Tablets Without Fear If You See the Safety "Bayer Cross."

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting the genuine Bayer Aspirin proved safe by millions and prescribed by physicians for 25 years. Say "Bayer" when you buy Aspirin. Imitations may prove dangerous.—Adv.

United States Far Ahead in Patents

Patents abound in years of industrial activity, and 1925 has set a record for the United States with 46,540 of these indices of American creative ingenuity. As far back as 1790 congress passed the first national act providing for the granting of patents. But the comprehensive modern legislation dates from 1836, when all former statutes were repealed. We issue far more patents than all other countries combined. Our total is double that of Great Britain or France and nearly four times that of Germany, having passed the 1,500,000 mark. The figure for 1925 is nearly double that registered for 1900. Just as each generation decides that there is nothing new under the sun, the unheralded pathfinders come along not merely with novel ideas but with singular derivatives of the old notions, claiming the credit and paying the fee, even though the bulk of the discoveries may never progress from the sketch or the model to the stage of wholesale manufacture.

Shave With Cuticura Soap

And double your razor efficiency as well as promote skin purity, skin comfort and skin health. No mug, no slimy soap, no germs, no waste, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing and shampooing.—Advertisement.

Canada Gets Oranges From United States

In the period from 1920 to 1924 more than 90 per cent (around 1,800,000 boxes) of the total shipments of United States oranges went to Canada, says the government's commerce reports. Smaller amounts were shipped to England, the Philippines, Cuba, China, Newfoundland and Labrador, Mexico and New Zealand. British trade statistics show that for each of the years from 1920 to 1923 imports of oranges from the United States comprised less than 1 per cent of the total orange imports of the United Kingdom. A comparison of United States exports of oranges for the periods 1920-1924 and 1909-1913 discloses that our recent shipments were around 1,895,770 boxes a year, as against prewar consignments of 1,005,247 boxes a year, an increase of around 1,000,000 boxes a year. Canada has always been the best market for our oranges.

Cure Your Cold the Sensible Way

At the first sign of Colds, Fevers, Headaches or "Flu," take one of Bond's Pills at bedtime. It will start your liver and remove the bile and poisonous germs. You wake up well. Cost 25c.—Adv.

New Yellowstone Planned

Plans for developing the system of parks in Denver, Col., are so ambitious that if they are carried out, the city maintains, it will have something on a par with Yellowstone National Park. The board has at its disposal 470,000 acres of parks extending from the foothills of the continental divide and between the Platte river and Clear creek to work with. The tract is 30 miles long and 25 miles wide, and includes mountains, game preserves, lakes and highways. The federal government will be asked to aid in some respects. Herds of wild animals and large fish hatcheries will be included.

A Meal in Return

Victim (to barber who has been careless with his lather)—It's awfully good. You must have lunch with me sometime.—Boston Transcript.

Dreaded An Operation

Dallas, Texas.—"I had all manner of aches and pains peculiar to women. My doctor said an operation was my only chance for recovery. An old lady advised me to take Dr. Pierce's Favorite Prescription and the 'Golden Medical Discovery.' Dreading an operation, I decided to take her advice and I am mighty glad I did, for I certainly was cured sound and well. I say to any woman, do not hesitate if you have any feminine trouble, take Dr. Pierce's Favorite Prescription, and the Golden Medical Discovery if you need a general tonic."—Mrs. Lulu Ferguson, 2016 Cockrell St. All dealers. Write Dr. Pierce, Invalids' Hotel in Buffalo, N. Y., for free medical advice.

Long Power Transmission
The longest high voltage system in the world, costing \$1,000,000,000, is being planned to carry hydroelectric power from the St. Lawrence river and the Adirondacks to New England, northern New Jersey and New York.

Mother! It's Cruel to "Physic" Your Child
DR. W. B. CALDWELL AT THE AGE OF 83
To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated infants and children had to be kept constantly "stirred up" and half sick by taking cathartic pills, salts, calomel and nasty oils.
While he knew that constipation was the cause of nearly all children's little ills, he did not believe that a sickening "purge" or "physic" was necessary.
In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even if the child is chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement, but, best of all, it never gripes, sickens or upsets the most delicate system. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.
Buy a large 60-cent bottle at any store that sells medicine and just see for yourself.
Dr. Caldwell's SYRUP PEPSIN

Milady's Shoppe, Marfa, Texas

C. V. MYRICK ADVANCED C. R. NORMAN MADE MANAGER

C. V. Myrick, the popular manager of the Texas Central Power Co. plant at Marfa for several years, has been put in charge of the company's Corpus Christi plant, leaving for his new field last Saturday. For a number of years Mr. Myrick and his interesting family have resided in Marfa, where he has built for himself a reputation for honesty and fair dealings as local manager of the electric light and ice plant, besides. he became identified with all progressive movements looking towards the betterment of our city. It was, therefore, with regret his many friends in Marfa felt his departure and all wished for him prosperity in his new field of activities.

Mr. C. R. Norman, who has been here for a number of years as chief engineer at the electric light and ice plant, has been advanced to the place formerly held by Mr. Myrick. It is expected that Mr. Norman will prove as popular and successful in his new position as that of his predecessor.

LAND DEAL

B. H. Grierson has sold quite a tract of Valley land about 2 miles north of Fort Davis to J. L. Vearey, formerly of Midland, Texas. Mr. Vearey is a successful business man and a fine citizen, and will prove quite an addition to the progressive citizenship of Fort Davis and Jeff Davis County.

TEXAS UNIVERSITY PRESIDENT TO SPEAK IN MARFA

President W. M. W. Splawn of the University of Texas will address the people of Marfa and the High School students at the High School Auditorium at 5 P. m. Monday March 1. Doctor Splawn will stop in Marfa to be present at the annual Banquet of the Marfa Texas Ex-Students Club on Monday Night. He will be on his way to El Paso to inspect the University of Texas College of Mines and address the Annual Banquet of the El Paso, Tex. Ex-Student club. It is a custom of Ex-Students of the University of Texas to dine on March 2, Texas Independence Day, in commemoration of Texas Independence and in honor of their Alma Mater. The Marfa Club changed the date of their dinner to March first in order to have the opportunity of having President Splawn with them. President Splawn is making a splendid success in the management of the University and he will have a fine message for the people of Marfa. Everybody will be welcome and their presence appreciated.

PERRIN MURDOCK SMITH

At El Paso on Feb. 21, P. M. Smith passed away, and on Monday evening at Valentine in the presence of a large gathering of relatives and friends funeral services were conducted by Rev. J. C. Jones, of Marfa held at the Methodist Church of which he was a member, afterward his body was laid to rest in the cemetery nearby.

The deceased was born in Selma, Baxter County, Texas, in 1856. In 1880 he was happily married to Miss Mary Nipper of his native town. In 1882 with his then small family he came west, settling in Presidio county, where for years he was engaged in ranching. For several years he has made his headquarters in El Paso.

Surviving him is his loving wife, who for now nearly 50 years was his faithful helpmate and four children; Frank Smith of Tucson, Ariz., Mrs. L. L. Neill and Mrs. Hodge Hunter of Valentine and Mrs. Chas. Dreiner, Jr. of El Paso.
