PLAINVIEW, TEXAS, FRIDAY, AUGUST 1, 1913

NUMBER FORTY

YOUNG MEN WANT Y.M.C.A. BUILDING

Gymnasium and General Reception Room Asked for; Many Willing to Help.

SPECIAL DAYS FOR WOMEN

Chamber of Commerce Might Have Exhibit in Building; Headquarters for Visitors.

The young men of Plainview want a Y. M. C. A. Building. A gymnasium and baths are the first consideration. The boys would also like a room for games, a reading room; and reception room. Of course, a complete gymnasium would have swimming pool, bowling alleys, billiards and pool.

It has been estimated that such a building could be erected for \$5,000, exclusive of cost of lot. Such a building would not include everything mentioned; but it would serve admirably to meet the needs of young men and older men in Plainview. It has been suggested that a lot might be furnished without cost. A. E. Harp says that he will turn over a lot on North Pacific Street for this purpose on the same basis which he proposed to do for the Chamber of Commerce sometime ago; that is, that he will lease the lot for three or five years (the lease might be made for a longer period) for a sum of \$1. He even agrees to fix a price at which the lot may be purchased at the end of the lease, or he will purchase the building.

The boys have no place to go at present. Men working in offices or stores need exercise. Other men need recreation. They are going to have it in some way—often unwholesome. A number of young men have signified their willingness to contribute to such a building. The business houses of Plainview would find money put in such a building a splendid investment. It would mean that their clerks would come to work every morning with clear brains. Wholesome exercise increases a man's efficiency. He can turn out more work in a given period if his brain is clear and his blood red than if he has been just "standing round."

One young lady suggests that the women would contribute if there could be certain days set apart for them. This is done in many of the gymnasiums in larger cities. It certainly could be done in Plainview.

A room in the Y. M. C. A. Building could be used by the Chamber of Commerce for exhibit purposes; this could also be made headquarters for visitors coming into town. Towns which are making the most rapid progress say that no visitor should ever come into town without being taken "in town" by the Chamber of Commerce and made to feel at home. His good will is of large value to the community after he is gone. It is one of the best forms of advertising, and costs little.

The young men who have proposed the building do not underestimate the task of "completing the job." They are anxious for a Y. M. C. A. Building, in which they can have a gymnasium, baths and recreation rooms. Some of them are determined to have such a building. It may not be today; but they are men who know how to wait—and work.

LIKES PLAINVIEW BETTER EACH TIME.

A. F. McDonald, of Abilene, Texas, is in Plainview this week. He owns some property on the South Plains. Mr. McDonald says that he has made a number of trips to Hale County, and that it looks better every time he comes. He says that sometime he hopes to move somewhere on the South Plains, and "Plainview looks better to me than any other town I have seen."

CLEMENTS RETURNS FROM AUTO TRIP TO COLORADO.

Solon Clements and family returned Sunday from a visit to Colorado points. They drove a Buick car. Mr. Clements came home via Pueblo and Lamar. The roads were good, he says, except that recent rains had left some mud and a few rough places.

"AS YOU LIKE IT" CLUB MEETING FOR MONDAY.

A meeting of the "As You Like It" Club is called at Mrs. McIntyre's residence for 5 o'clock Monday afternoon.

SYNDICATE SELLS FIRST LOAD HOME-GROWN MELONS.

Horticulturist for Texas Land and Development Company Is Setting Out 35,000 Celery Plants.

The first load of home-grown watermelons was sold yesterday by the Texas Land and Development Company to the Sewell Grocery Company. Two of the melons weighed 34 pounds each. A load was brought in to-day for Wright & Dunaway. A. M. Kruger, horticulturist, says that he will have cantaloupes next week.

Mr. Kruger planted four acres of watermelons. They are bearing well. He expects to ship 700 or 800 crates of cantaloupes. Several shipments of cucumbers, squashes and beans have been made to Fort Worth and Waco. Mr. Kruger says that the work this year has been an experiment. Next year he will plant larger quantities of some vegetables and cut down the acreage of others. He says that regular shipments could be made to Fort Worth, Dallas and Waco, but he does not have sufficient supply.

Vegetables here come in after those further south have burned up, and the merchants in Central Texas are anxious to secure our products.

Mr. Kruger has found that Mexican green chile, early cabbage, lettuce and radishes do well. He set out 35,000 celery plants this week. Mr. Kruger thinks that this country will produce excellent celery.

DETROIT TRUST COMPANY PURCHASED BOND ISSUE.

Nothing Remains Except for Attorneys to Pass on Transcript and Pay Over Money.

The Detroit Trust Company, a \$2,000,000 concern of Detroit, Michigan, is purchaser of the street and water bonds of Plainview. Waiver of the school board has been secured and the bonds have already been registered. Nothing remains except for the attorneys of the Bond Company to pass on the transcript of record. As this was accepted by the Attorney General's Department, at Austin, it is not thought that any delay will arise from this cause.

Unless there is some delay which is unexpected, the money should be available in a very short time now.

E. L. Twing, of San Antonio, purchased the bonds. He was acting for the Detroit Trust Company.

ABILENE AUTOMOBILE PARTY VISITS PLAINVIEW.

Shallow Water Belt Looks Good to Visitors from Texas & Pacific Country.

Dr. F. E. Haynes, J. E. Arnold, Abdon Holt and Abdon Holt, Jr., are registered to-day at the Ware Hotel. They came in yesterday from Abilene in an automobile.

"It is a wonderful country," Dr. Haynes said this morning. "We have wanted to see your big wells for a long time. They are better than the stories you tell of them."

Dr. Haynes found some rough roads. However, his party liked the roads north from Lubbock, except that some of the culverts are in bad condition.

ROCHELLE PARTY EN ROUTE TO COLORADO IN AUTOMOBILE.

Dick Sellman and party, of Rochelle, Texas, near Big Springs, passed through Plainview Wednesday, en route to Denver, Colorado. Mr. Sellman found the roads considerably cut up after the recent rains. He says that the roads across the Plains could be made excellent by a little grading and some dragging after each shower; there are some gulleys, too, which need fixing.

MABEE WILL WRESTLE AGAIN.

Roy Mabee will be up in a few days, according to Dr. W. H. Flamm. His physician thinks that the Oklahoma champion will be back in training within a month. Mabee suffered a fractured knee and instep Monday night while riding W. H. Box's Indian motorcycle, when he collided with John Newton in his Thomas Flyer.

GILLILAND TAKES HOTEL PLAINVIEW.

J. B. Gilliland is taking charge of the Plainview Hotel to-day. Mr. Gilliland has lived in Plainview for a long time. He formerly was proprietor of the Missouri Hotel and the Pippin Hotel.

SETH WARD WANTS \$50,000 ENDOWMENT

Active Campaign Will Begin August 18, under Direction of Southern Methodist University Commissioner.

\$10,000 ALREADY PLEDGED

Overhauling of Buildings for Opening of School Includes Fitting Up of Gymnasium.

Seth Ward's campaign for an endowment of \$50,000 will begin in earnest August 18. R. V. J. T. McClure, Commissioner for Southern Methodist University, in Dallas, will come to Plainview to take active charge of the campaign. Brother McClure has been associated with Southern Methodist University in the campaign which that institution has just closed. Five hundred thousand dollars was pledged in a little more than a year, thus securing a gift of \$200,000 from the General Board of Education.

Pledges amounting to about \$10,000 have already been made, according to R. A. Long, member of the Board of Trustees of Seth Ward. The institution is practically out of debt, and when this endowment is raised it will be one of the best equipped of the junior colleges in the Methodist Church.

President Pearce is giving the college property an entire overhauling this summer. All of the buildings are being painted to harmonize, a coating of roof paint is being put on the college building, and two large rooms have been made accessible in the boys' dormitory by the cutting of windows on the third floor. A library and reading room has also been added to the dormitory.

A new gymnasium is the most attractive addition to the college building. The old study hall in the basement is being turned into a gymnasium. It is 30 x 60 feet, and has shower bath and dressing room adjoining. President Pearce says that punching bags, hand ball court and other apparatus will be installed.

Already more students have signified their intention of entering college than had done so at the time college opened last September. President Pearce is canvassing this summer in a Studebaker automobile, which he purchased from Brown Motor Co. He finds the automobile a great help in hunting up students. E. C. Raney, a student in the college, is also campaigning for student's this summer.

President Pearce has made Seth Ward campus one of the most attractive spots around Plainview. His trees have been cultivated eight times this summer, he says. They show the result of such care by having grown unusually rapid.

The President has a fine field of kaffir, a pen of chickens, some cows and a fine bunch of hogs, which he will use to supply the boarding department and to reduce the expense of students.

College opens September 2.

PARTY GETS DUCKING WHEN BOATS COLLIDE.

Motor Boat Sinks Smaller Craft at Lake Plainview Tuesday; Nobody Hurt.

It was only a ducking, and nobody minded that much, but it served to liven up traffic considerably at Lake Plainview this week. Tuesday afternoon at Lake Plainview a motor boat occupied by Howard Elliott, Hugh Speed and wife and party collided with one of the row boats occupied by Misses Babel Jeffries and Cole, Oscar Cole, Cecil Cole and Sam Nations.

The water was only four feet deep and the occupants of the capsized boat were wet through. Otherwise they were uninjured.

SOUTH PLAINS LOOKS GOOD TO TEMPLE MAN.

A. C. Buchanan, of Temple, is another "black land" Texan who likes the Plainview country. Dr. R. R. White and Dr. A. C. Scott, who have put down the largest wells in the Shallow Water Belt, both live at Temple.

Mr. Buchanan says that the South Plains looks better to him than any other country he has even seen—except the "black land belt" of Texas. Mr. Buchanan has lived down there twenty years. Of course, his old home comes first. But he comes to Plainview every summer.

SILO COMES NEXT TO IRRIGATION

Colonization Agent of Santa Fe Thinks That Large Profits Would Follow Its Use.

LIVE STOCK, TOO

Irrigation from Your Own Well Makes You "Monarch of All You Survey," Says Berry.

"Irrigation is the great lever for interesting people in the South Plains now," said P. H. Berry, of Chicago, Illinois, to a Herald representative this morning. Mr. Berry is with the Colonization Department of the Santa Fe Railroad. His particular work is giving stereopticon lectures all over the United States.

This is Mr. Berry's first visit to Plainview in three years. He was surprised at the growth of the town, and amazed at the big wells. He wanted to see these so that he might tell the people on his lecture tours just what there is here.

"Pumped irrigation is in some respects the most satisfactory system of irrigation," Mr. Berry said. "Irrigation under a Government project like the Roosevelt Dam is good, but there a man may not find it convenient to use the water when 'his day' comes. With a big well and pump he can place water on his crops when it is most needed and when it suits his convenience. He is really 'monarch of all he surveys.'"

Next to irrigation, Mr. Berry favors the silo and live stock. The silo will increase the food yield of every acre from three to four times, by saving all the yield and making all of it available for food. By increasing the yield of any farm on the South Plains three-fold the owner would have a profitable yield any year. The silo has been so thoroughly tried in the Middle West, in Kansas and Nebraska, Mr. Berry says, that it is in no wise an experiment. He predicts that inside of half a dozen years every farmer will own from one to four or five silos.

Even on an irrigated farm, Mr. Berry says, the silo will double profits. Furthermore, the stock farmer, with big well and silo, is independent in the fullest sense of the term.

The Santa Fe, Mr. Berry says, is anxious to co-operate with farmers here in making the country more prosperous and the farmer contented. His lectures extend all over the United States, and he thinks that there is no section offering larger possibilities than the South Plains.

AUTOMOBILE VS. TRAIN SAN ANTONIO TO DENVER.

E. R. Guenther and Wife Make Wager as to Which Mode of Travel Offers Quickest Passage.

E. R. Guenther and Helen Guenther, his daughter, passed through Plainview Tuesday evening, en route to Denver, Colorado. They had come from San Antonio, Texas. Mr. Guenther was pleased with the South Plains, but he didn't tarry here. He was in a hurry.

It wasn't that Mr. Guenther was traveling against time—it wasn't that, exactly. He had made a wager it seems, with his wife that he could reach Denver from San Antonio by automobile before she could make the same journey on the train.

Of course, it was a handicap race. Mr. Guenther left San Antonio Sunday. His wife left Wednesday night.

WESLEY BARACA CLASS TO ELECT OFFICERS.

The Wesley Baraca Class of the Methodist Sunday School will elect officers Sunday morning. A meeting had been called for last Monday evening, but the wind storm and shower of rain kept the young men from coming out. The Wesley Baraca Class has a membership of 65 young men.

BOLD HARLEY-DAVIDSON MOTORCYCLE AT CROSBYTON.

J. C. Haggard went to Crosbyton Tuesday on his motorcycle. He placed a Harley-Davidson motorcycle in Crosbyton as a result of the trip; "and I returned with the money in my pocket," Mr. Haggard said yesterday.

Geo. W. Corlett, Mrs. Corlett and their son, Robert, came in this afternoon from Amarillo. They are driving an Overland.

HONORS EVEN IN CIVIC LEAGUE SPELLING BEE.

Mrs. B. L. Spencer and Mrs. E. E. Warren Both Sit Down When They Miss "Amerecement."

A looker-on at the spelling bee given Tuesday night under the auspices of the Civic League was heard to say that if those who stayed away through fear of being conscripted and made to spell had known how much fun they missed they would have been there.

Rev. S. A. Barnes "gave out" the words from Webster's "blue-backed spelling book" to a double row of thirty spellers—fifteen on a side. These spellers toed the mark on the new pine floor of the vacant store-room in the Masonic Building.

A number of rounds were made, up and down the lines, before the contestants began to drop out. Occasionally one would spell with more or less deliberation; others, more familiar, came "glibly from the tongue," as Hamlet urged the players to speak his lines.

Toward the back of the book the words got harder—and the spellers became fewer! Only one trial was the rule, and for this reason each one was careful to pronounce the word before attempting to spell it. "Cynicism," "correlated," "cynosure," "indigenous," "attorney" and "manacle" all proved more than enough to down the spellers.

Mrs. B. L. Spencer and Mrs. E. E. Warren "stood up the longest," each one finally missing "amerecement." The word means the infliction of punishment at the discretion of the court.

SHOFNER GOES TO BUY FALL MERCHANDISE.

Manager of Plainview Mercantile Company Will Visit Eastern and Northern Markets.

W. A. Shofner, Manager of the Plainview Mercantile Company, left Wednesday on the southbound Santa Fe. Mr. Shofner said to a representative of The Herald that he was going to all of the big Eastern and Northern markets to lay in a supply of fall merchandise.

Before going to market, Mr. Shofner will spend a few days at Weatherford and Killeen, Texas, visiting relatives and friends. He may come back via Plainview en route North.

"Our big sale was a success," Mr. Shofner said before leaving. "The people availed themselves of the big bargains which we offered them through The Herald. My trip East is for the purpose of making such purchases as will enable me to give them the best values in style and quality this fall that money can buy."

Just before leaving Mr. Shofner gave each clerk a \$10 gold piece. He had said to them that if sales during this clearance were \$2,000 ahead of those during the same period last summer he would reward the employees. Total figures for the clearance sale this summer were nearly \$4,000 in excess of those a year ago.

"INDIAN" TO AMARILLO.

W. H. Box's "Twin Indian" was taken to Amarillo yesterday to be worked over. The "Indian" was pretty nearly demolished Monday night in a collision with John Newton's automobile.

JORDAN GOES IN AUTO TO VISIT WIFE'S PEOPLE.

J. N. Jordan, Tax Assessor, and family left Thursday for Williamson County, to visit Mrs. Jordan's people. Mr. Jordan drove through in his automobile.

LAYMEN ANNOUNCE PROGRAM AT CALVARY BAPTIST CHURCH.

The following program has been arranged for the Laymen's Meeting at Calvary Baptist Church at 4:30 p. m., Sunday, August 3:

"How to Deepen the Spiritual Life of the Church"—J. M. Lovelady.
"The Relation That I Sustain to My Pastor in Church Work"—C. A. Bivens.

"The Greatest Need of Our Sunday School, as I See It, and the Best Way to Meet This Need"—G. F. Pool.
"The Future of This Church, as I See It"—R. M. Irick, W. B. Joiner and C. R. Hairfield.

Announcements.
COMMITTEE.

STORES MAY CLOSE FOR "CLEAN-UP"

Petition Will Be Presented to Mayor and Council Monday Night for Proclamation.

BASKET DINNER PROPOSED

Dillingham Offers 75 Loaves of Bread; Only One Merchant Says He Will Not Close.

"One day for clean-up." That is the proposition the merchants are working on. Other towns have used the idea so successfully that Plainview proposes to enlarge on it. Plainview has a way of winning what the people go after. This time it is the "clean town" prize offered by Holland's Magazine.

Considerable work has been done, but there are places which ought to be cleaned up. The inspectors are out, but there are a few days before they will likely come to Plainview. So the merchants and the Civic League propose to take one day and get rid of everything unsightly.

R. A. Long went out this afternoon with a petition to be presented to the Mayor and Council Monday night, so that a petition may be issued for a holiday. Practically every merchant signed the petition. One man didn't think that the idea interested him. It seems he doesn't care about the town—but he would like to have more business. He doesn't see where he would make anything by closing up.

A clean town means more than a beautiful town. It means a town which will attract home-makers. Visitors are going to talk about it. And the increased healthfulness of such a town makes it so much better as a place to live that the day contributed by each man is only a good investment, even from the selfish standpoint.

Most of the merchants suggested Tuesday. Some one suggested that Wednesday would do just as well. The day will be decided upon later. Mrs. L. Lee Dye, president of the Civic League, says that the town will be divided into precincts, with a captain in charge of each. Every man in town will be asked to turn out. Boys will work, too.

Mrs. Dye thinks that a basket dinner would be a good thing. This idea seems to meet with approval. H. J. Dillingham, of the City Bakery, says that he will donate seventy-five loaves of bread to the basket dinner.

Just one day—and a town every whit clean.

DALLAS MAN SEES PLAINVIEW COUNTRY.

Rev. J. J. Pipkin Comes in Interest of Buckner Orphans' Home.

Rev. J. J. Pipkin, field evangelist for Buckner Orphans' Home, at Dallas, was in Plainview Wednesday and Thursday of this week in the interest of the Home. Rev. Pipkin spoke at Calvary Baptist Church Wednesday evening, and received a cash offering for the Home.

Thursday morning, in company with Rev. C. R. Hairfield, the visitor was shown the Syndicate development works. Rev. Pipkin expressed himself as having great faith in the future of the Plainview country. The wonderful development made possible by our great wells was a marvel to him.

AMARILLO PARTIES EN ROUTE TO LUBBOCK.

W. L. Shimp and C. B. Shaw, of Amarillo, passed through Plainview yesterday, en route to Lubbock. They were driving a Case car. These gentlemen found that some work is being done through Swisher County on the Colorado-to-Gulf Highway.

GETTING USED TO IT.

"Why do you fish every morning in the bath tub, old man? Is it a bet?"
"Oh, no, I just want to get used to not catching anything. Am going on vacation soon."—Kansas City Journal.

He (nervously)—"Margaret, there's been something troubling on my lips for months and months."
She—"Yes, so I see. Why don't you shove it off."—Princeton Tiger.

Mrs. R. M. Williams, of Dallas, arrived Friday for a visit with her son, E. R. Williams.

New Line Kahn Fall Samples

Also Regular Display Lengths Now Ready for Inspection

Do not confuse this line with other lines bearing like or similar names, as this is the genuine Kahn Tailoring line of Indianapolis, formerly handled by Pipkin-Knapp Co.

To the many who have worn Kahn made

clothes we have but to announce the arrival of Fall Samples and suggest an early order; to those who have not worn them we urge you to test the wearing quality, the style and the price of Kahn Suits.

We guarantee perfect fit and prompt delivery of Kahn clothes. These clothes cost no more and give better service than many high grade lines.

"There's individuality in Kahn made Suits."

THE "SPOTLESS TOWN" STORY CONTINUED.

This is the way the society with the very long name cleaned up Friendship Village: They canvassed the town, finding thirty families willing to pay twenty cents each, per week, to have the garbage carted away. But the open cart seemed to differ from the open holes only in the fact that one was "traveling unsanitary," the other "stationary unsanitary."

Calliope Marsh finishes the story in this wise:

"And what we done them next four years I'm going to set down like a little table, because it's so easy to do that a child can do it, if it tries: We bought a tank for thirty dollars which held twelve barrels and could be fitted to any wagon. We hired a team at five dollars a day to collect twice a week. The whole cost, one hundred and ten dollars, was raised by dues, ice cream socials, and by digging it out of the town in general.

"The next year we done the same, and the next year we done the same for four months. Then the health officer got interested and had an ordinance passed that everybody with no other way for its disposal must buy a covered metal garbage pail, and he had the city buy a hundred to sell at cost price—and they had to order more!

"The fourth year we had a man and his team spend the whole time at five dollars a day, and make three collections a week for five months, and the village paid half the cost! And next year we've got a dream—a good, clear dream—that maybe the village will do it all and pay for the whole thing!

"Why not? We've had our lesson. We've had typhoid fever come. And we know that sewerage and garbage collection is a million times more necessary than medicine. And we

know that a little bit of a village has got just as much of a right, and just as much of a duty, to have these two things as a great, rich city—and it can be done!

"I've told you the way to do it. It's the only way to do anything. Put a seed in the ground and it'll grow—I tell you, it'll grow!—and health and life can be the fruits on its branches."

There is the whole thing in a nut shell. Each town has its own particular problem along this line, as all other lines, but if each town has a few people with the necessary energy and determination, the solving will not be too difficult. What a somnolent condition that health officer must have been in, to be three years in getting his eyes fairly open! What models of patience those women of Friendship Village!

May we tell you next week what the Civic League stands for—its aims, its scope and its reason for being—from the viewpoint of its members?
CIVIC LEAGUE SECRETARY.

PLAINVIEW HIGH SCHOOL CLASSIFIED.

Former Superintendent Points Out Some of Difficulties Encountered in Building Up Institution.

Editor of Hale County Herald:

The following letter may be of interest to your readers. In 1910-11 the Public High School of Plainview had a six months' term, on account of a shortage of funds. When the public term closed, in order to prevent disorganization, an attempt was made to continue the work by means of a subscription school.

Many of the patrons were unable to pay, while many others had the feeling that if they had to pay they might as well send to one of the colleges. The result was almost com-

plete disorganization of the High School. Within the last two years a thorough reorganization has been effected, the High School has been placed, for the first time, on the list of schools affiliated with the State University, and it has been classified by the State Department of Education as a high school of the first class.

All of these things have been accomplished under difficulties of which the patrons have had little conception. In order to have a nine months' term, the most rigid economy was necessary. All that has been accomplished has been done, not through favorable conditions and adequate equipment, but in spite of unfavorable conditions and lack of equipment. Let credit be given where it is due—to the earnest efforts and untiring energy of the faculty, the loyalty and co-operation of the school board, and the faithful endeavor of the student body.

The letter below accompanied the Certificate of Classification which was recently received from the State Department of Education:

"Miss Ellen Robinson,
Plainview, Texas.

"Dear Miss Robinson:
"I am sending you herewith a Certificate of Approval of your High School, the classification indicated by the certificate being based on evidence submitted by you to this Department with respect to your High School for the current year.

"A special report will be called for, or an inspection of your High School will be made, at least once a year. It is, therefore, of the utmost importance that the present standard of your High School be maintained or, if possible, improved. It is hoped that you will have the active and sympathetic co-operation of your Board of School Trustees, as well as of the

citizens generally, in giving to the children of that district a school of high quality.

"Respectfully yours,
"F. M. BRALLEY,
"State Superintendent."

In conclusion, I wish to speak for my successor the earnest support of students, patrons and school authorities, for without these your school can not be what you should make it—a live factor in the upbuilding of your community.

MARY ELLEN ROBINSON,
Ex-Supt. Plainview Schools.

Geo. W. Corlett, of Amarillo, will drive down from that city in an Overland this afternoon.

To Prevent Blood Poisoning apply at once the wonderful old reliable DR. PORTER'S ANTISEPTIC HEALING OIL, a surgical dressing that relieves pain and heals a wound the same time. Not a tincture. 25c. 50c. \$1.00.

International - Overland - Service

Every Overland has behind it the greatest system of international automobile service in the world. Every Overland owner is entitled to all the privileges of this vast system. It is the most highly developed and finely organized service in the industry.

It is probably difficult to grasp or comprehend the immensity and completeness of such a world-wide system. Its thoroughness, advantages and importance is best understood, and appreciated, by the tens of thousands of Overland owners who use it.

There are over 3,000 Overland dealers. This great service chain is closely wrapped around the entire globe. It daily serves, supplies and satisfies over one hundred thousand Overland owners. You will find Overland Service Stations, at your service, in every civilized section of both hemispheres.

Overland parts are stocked in every country under the sun. A special staff of "parts auditors" constantly travel all over the world, checking this stock and keeping it

up-to-date. These men study and anticipate your needs in the many different countries—and see that you get what you want when you want it. A large force of men at the Overland Executive Offices do nothing but keep in touch with and keep tab on the efficiency of this system. It is never permitted to fall below a certain standard.

Overland owners are never put to the inconvenience or annoyance of waiting days or weeks for parts to come from the factory. No matter what part of the civilized world you are in, you can always get whatever you require in a few hours. And all this is the result of establishing, developing and maintaining what has grown to be the most far-reaching system of automobile service in the world.

Service is a matter to which you should give more consideration. The establishment of the Overland system has cost hundreds of thousands of dollars. It is always at the command of every Overland owner in any part of the world.

GARFIELD COUNTY, OKLAHOMA, CONSTRUCTING 200 SILOS.

Six Hundred Silos Already Built in One Oklahoma County Convince Farmers of Value.

With 600 silos, and nearly all of them erected within the last year, Garfield County, Okla., is building 200 more. Garfield County probably leads the State in the number of silos on farms, and almost every type of silo is represented. Farmers are well satisfied with their experiment, and are getting prosperous as a result of feeding silage to cattle and other live stock, says Victor H. Schoffelmayer, in the Oklahoma Daily Live Stock News.

"There are more silos in the vicinity of Enid than near any other city in Oklahoma. The writer spent some time in that section and, with W. I. Drummond, editor of the Interstate Farmer, visited many farms where the silo had brought affluence to its owner. For ten miles or more on each side of the road traveled by the party silos were visible in every direction. Their pointed roofs peered above the tallest trees, their ample proportions dominated the landscape and their glistening sides beckoned from afar and heralded the new era of agriculture for Oklahoma, in which the farmer converts previous waste into dividends.

"There are at least a dozen silos in the immediate outskirts of Enid, and two or three are within the corporate limits of the city. Farmers who had none talked of building a silo this summer, and those who had silos talked of erecting more. Experience has taught these men that the silo is the best friend of the farmer, and that without one farming in a country of variable rainfall and uncertain climatic conditions is at best hazardous.

"One of the strongest silo advocates in the Southwest is J. H. Jackson, famous the country over as a breeder of pure-bred Percheron horses and Jersey and Shorthorn cattle. Every head of stock on the Jackson farm is registered, and there are several prize-winning stallions, one of them, Albany II, being valued at \$2,500. Mr. Jackson says both corn and kaffir silage are fine feed for horses.

"Twice a day he fills long troughs with silage and lets the horses eat all they want. He is careful to see to it that there is no waste, and strikes an average ration for every head. His 15 work horses were kept in fine condition all winter and had nothing but silage and wheat straw for roughness and no corn.

"Mr. Jackson's silo has a capacity of 140 tons, and cost \$350. It has given complete satisfaction.

\$250 Monthly from Milk.

"Mr. Jackson's 15 Jersey milk cows, all the time they were fed on silage, brought him in a monthly income of about \$250, or from \$13 to \$14 for each cow per month. For the seven and a half months he fed the herd silage, Mr. Jackson figures that his feeding bill will not exceed \$250, and this includes labor as well. He says the possibilities of silo feeding in connection with the dairy business are very tempting.

"Corn off 20 acres was cut and put in the silo, and a little kaffir was also put up for silage. This year Mr. Jackson will fill the silo with kaffir. Twenty brood sows and shoats followed the dairy cattle and kept in good condition all winter. The registered Percherons were also fed alfalfa hay, there being about 70 acres of alfalfa on the Jackson farm. Mr. Jackson is well pleased with his silo experiment, and will erect another silo in the near future.

"Walter Hodgden, of near Enid, is one of the pioneer silo men of Garfield County. He has a 200-ton silo which cost him only \$150, because he

was quick to buy it after it had been partly blown down on a neighbor's farm. It had cost, new, \$485. He also has a 200-ton silo which cost \$495. He had such faith in silo feeding that when he did not have enough feed on his farm to fill both he promptly bought the corn on 28 acres for \$3 an acre, and converted it into 200 tons of the best silage he said he ever saw. He cut and hauled it two and one-half miles to his silo, at a total expense of \$196, or less than \$1 a ton. He fed the corn silage to 300 steers, milk cows and stock cattle. Sixty steers made an average gain of about two pounds a day for 90 days, but the most remarkable gain was made by some old Hereford cows which Mr. Hodgden wanted to get rid of.

Old Cows Gain Three Pounds a Day.

"Six pure-bred Hereford cows, ranging in age from 16 to 18 years, and which Mr. Hodgden considered poorer than 'canner' stuff, were fed corn silage for four months, and at the end of that time they showed a net gain of 400 pounds a head, or from two to three pounds a day per head. Their average weight, when weighed at the stock yards, was \$1,600 pounds, and they brought \$7.25 a hundred pounds, an unusual price for old cows. Several of these cows had very bad teeth, and could hardly chew hay, but they had no difficulty in disposing of silage.

"Mr. Hodgden is a breeder of mules, and he owns several registered jacks. His mules are kept in good growing condition on silage, and by spring, he says, they are in about the same condition as if they had been on luxuriant pasture all winter. A bunch of 44 hogs followed the cattle on the Hodgden farm and got their living for practically nothing. Mr. Hodgden also has fed pigs kaffir and corn silage for eight months and put them on the market weighing 225 pounds and selling for 8 cents a pound. More than 100 pigs were running on alfalfa when the writer visited the Hodgden farm, and all of them will follow silage cattle this fall.

"Mr. Hodgden says both his silos paid for themselves every time they have been filled, and he intends to erect another one or two. He cautions all silo farmers to be sure to tramp the silage well around the edges of the silo and keep the center heaped, so as to force the feed against the side and make it air tight.

Silo Trebled Value of Feed.

Glen Walters, of near Enid, Okla., last year erected a 200-ton silo, at a cost of \$350, and paid for it the first year from the profits of a herd of 100 steers which he fed from November 10th to March 1st. He fed them all the silage they would eat, about 30 to 35 pounds a day. At the stock yards they brought \$7.10 a hundred pounds. The silo was filled with kaffir off 30 acres and corn off 10 acres, and in each case the feeding value of the silage was worth at least three times what the dry feed would have been, says Mr. Walters.

"As a result of his satisfactory experiment, Mr. Walters is building two more silos this year, one of 400 tons and another of 200 tons. He says: 'My cattle now get as much good out of what we formerly wasted as they used to get out of the dry feed we fed them. I cannot afford to farm without a silo; it is too costly. Kaffir and corn silage will keep stock making good gains all winter. If I want to full feed I add a little cotton seed meal and corn and also some alfalfa.'

"Jerome S. Brooks, of near Enid, last year erected a silo of 100 tons, at a cost of \$350. It is made of 14-gauge iron, and is said to be the simplest metal silo on the market. It is set in a foundation wall ten inches thick and five feet in the ground. He cut his silage a little too late in the season, after the corn had become matured, and the blades fell off. He added water in blowing the feed into the tank. He fed 30 head of mixed cattle and ten horses and colts during fall and winter, and all kept in best of condition. Hogs followed the cattle, and made good gains. He figures that the silage was worth to him more than the alfalfa off the same acreage would have been at from \$12 to \$14 a ton. This year he will fill the silo with kaffir.

Silage Makes Big Milk Profits.

"Dan W. Robinson, of near Enid, has a 150-ton stave silo. Last fall he fed 12 seven-eighths Holstein milk cows and five registered Holsteins corn silage. His milk checks amounted to more than \$200 a month for the time he fed the silage. Hogs followed the cattle and gained two pounds a day, being fed alfalfa hay once a day. Mr. Robinson says he does not know how he ever farmed without a silo.

"W. H. Peckham has a 150-ton metal silo on his farm near Enid. He fed kaffir and corn silage to 50 head of milk cows, calves, horses and mules, and was well satisfied with the gains they made and the condition in which they finished the winter. He intends to erect another and larger silo this year.

My loan proposition is not a scheme to get Life Insurance, nor a commission from the people who borrow the money through me. H. A. WOFFORD.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

WOMEN AIDING MOVEMENT FOR BETTER HEALTH.

Heating, Lighting, Ventilating and Sanitation of Schools to Be Considered by General Federation.

One of the biggest health movements ever undertaken in America, it is interesting to note, is now enlisting the earnest support of the women of this country. It is, in fact, more or less depending upon their support, says the Dallas News. This movement is an effort to improve the health and efficiency of our 20 million school children, and the co-operation of the women of America is being furnished in a number of ways, namely: As school teachers, gain as physicians and nurses, as mothers, and still again through those numerous organizations in which women play an important part—organizations like the school improvement association, the parent-teachers' association, school boards, mothers' congresses and the several thousand women's clubs of the General Federation of America.

In Buffalo the last week in August a special feature on the program of the fourth international congress on school hygiene will be a session organized under the direction of Mrs. S. S. Crockett, of the General Federation of Women's Clubs of America. Mrs. Crockett is chairman of the public health department of the general federation, which is now calling attention to the serious importance of the Buffalo gathering.

In this connection it might well be said that no particular field of work in the line of health improvement offers a better opportunity possible than a movement for the betterment of the schools of today. No problem is more vital to the mother certainly than the care and protection of her children while they are beyond her sight. All children go to school, but the conditions under which they go to school—are they what they ought to be? Is the school room properly heated? Is it properly lighted? Is it well ventilated? Are the sanitary conditions surrounding the school house such as they ought to be? Are the other school children carriers of disease? Is the school session too long? Is the mental condition of the school children taken into consideration when it comes to the hours of study? There are questions which can be asked by the women of any community.

To the women of the country the

Buffalo congress is important because it will give them the result of research work carried on in all the leading nations. It will give them the best methods of work for their own individual communities. One of the objects of the Buffalo congress is to make known the best ways of improving the health of school children.

HEAVY RUNS OF LIVE STOCK AT KANSAS CITY.

Prices on Cattle and Hogs Are Strong, Despite the Unusual Shipments.

Kansas City Stock Yards, July 28.—Cattle receipts here last week were heaviest of the season—49,000 head; 16,000 greater than corresponding week last year. Killers' efforts to depress prices were largely nullified by the presence of an extraordinary demand for stock cattle and feeders.

Country buyers took 17,000 cattle, and submitted to a rise of 25 to 60 cents at the same time. Middle and low grades of grass steers, including quarantines, declined 25 to 50 cents, but upper grades, good cows and prime fed steers held steady, calves 25 to 50 higher. Receipts today, 13,000; market strong, except fed steers, which are barely steady.

Quarantine cattle are 10 to 20 cents higher today, stockers and feeders unevenly higher. Best Greenwood County grass steers are as high today as any time last week, at \$7.80 to \$8.25; lighter steers from that section, and Westerns from the Brookville district, are selling at \$7.10 to \$7.45. Prime Missouri grass and corn steers today \$8.50 to \$8.85. Old Mexico steers grazed in Eastern Colorado brought \$5.65, cows \$4.85, and a car of 113-pound calves \$8.00.

Quarantine receipts only 42 cars today, steers at \$5.60 to \$6.85. Stock steers run from \$5.25 to \$7.75, feeders \$7.00 to \$8.10.

Additional showers around the cattle circle the last two days have postponed the necessity to move cattle account of dryness, improved the outlook for Kansas and Oklahoma corn, and almost insured the Missouri and Iowa crops. Normal marketing of cattle will rule for a time.

Hog receipts are moderate, though larger than a year ago. Prices hover around \$9.00, and dealers can see nothing that will cause declines. Packers' needs are urgent, and the East is ravenous for fresh pork. Lard demands will be greater than usual

this fall, with extremely light stocks in packing houses now. Receipts 5,000 here today, market strong, top \$9.05, bulk \$8.90 to \$9.00.

Sheep and lambs advanced 40 to 65 cents last week, and commission men say prices will stay up. Lambs are lower today, tops \$7.75, and ewes sell around \$4.50. Nevada wethers brought \$5.25 last week.

J. A. RICKART,
Market Correspondent.

FAYORS WRESTLING AS HEALTH PROMOTER.

Roy Mabee Points Out Need of Symmetrical Development for Success.

Antedating the days of imperial Rome, during the ages when "might made right" down to our own time, when commercialism dominates all, the physical development of the boy and man has constituted the bulwark and defense of the home and state.

During the strenuous ages mentioned the gymnasiums and military camps afforded places of physical development. They were fostered by the states, under an obsolescent system, and as a result we read of the splendid military organizations of those nations and the magnificent victories obtained by their armies under many and adverse circumstances.

Not so today. With our commercial ideas uppermost, the boy is incarcerated in the schools to have the newest ideas of astronomy and other higher branches crammed into his brain; on the completion of his course he is immediately thrust into a bank or office, confined there all day in a stuffy room, with no thought as to his physical well-being, with the result, in many cases, that after a year or two he is a thin, weakly and narrow-chested young fellow who easily falls a prey to tuberculosis or other disease.

This article is designed to make a plea for the physical development of the boy at school and encourage healthy sports, such as wrestling, after completion of his school term. Wrestling is, without doubt, the premier developing exercise. It is not brutal, requires good wind, alert mind, activity and agility of the highest degree and brings every muscle into play, and does not develop one set of muscles at the expense of another group. Today in many of our universities physical exercise and sports are made a part of the curricu-

SONG BIRDS

Recently we received a shipment of White Javas, beautiful white song birds. They are imported from Java, an island of the East Indies group. They rival the mocking bird for clear sweet notes.

Parrots and Parakeets

In the shipment were a half dozen Cuban Parrots. These birds are guaranteed to talk. If they don't talk, we will get you one that will. They are young and you can train them as you like.

The Parakeet is an Australian bird. This specie has been taught to talk.

In a few days we will build an addition to the greenhouse for the express purpose of keeping the birds in an attractive apartment. We plan to keep birds in stock at all times.

Our trade has been growing and we are going to increase our floor space over 1000 square feet. We appreciate your trade and are preparing to give you the most up-to-date service.

Cabbage Plants

In our beds are a large number of late Fall Cabbage plants now ready for transplanting. See us at once for them.

Plainview Floral Comp'y

"We Beautify Always"

lum, both for boys and girls, the result being a healthier and harder number of pupils.

To become proficient in wrestling one should have a good physique, although a weaker physique, under careful training, can be fairly well developed. In addition, one must have an active and alert mind, for while brawn counts for a great part, still the knotted muscles of a physical giant in many respects are often overcome by the supple, well-trained muscles of a smaller and more scientific wrestler. The wrestler should possess great activity and quickness, for upon these depend the greatest success.

He should entirely abstain from alcohol and tobacco, for these are the two most detrimental vices against good physical condition and good wind, which is necessary to stand the gruelling contests on the mat. To maintain good wind, road work, or long runs short of fatigue over roads, do most to develop good wind. This, in addition to skipping the rope and hill climbing, develops it by enlarging and strengthening the respiratory apparatus and bring into play all the accessory muscles of respiration. With such development the boy

grows into manhood with every self-confidence in his ability to protect and care for himself without recourse to weapons, and when physical development is given the proper care and encouragement in our schools we will have a more self-reliant and self-confident group of boys, who will depend more upon their own physical prowess and fair play, thus lessening the tendency to carry weapons. We will then develop a sound mind in a sound body, with all that means to a growing boy.

Very truly,

ROY MABEE.

THE ELOQUENCE OF SILENCE.

When Sir John Tenniel, the famous cartoonist, retired from the staff of Punch, his associates gave him a dinner. Sir John's ability to make graceful after-dinner speeches, impromptu, to all appearance, made his friends expect a most interesting response from him on this occasion. In "John Forster and His Friends," Richard Ren-ton describes the dinner, and the toast of the evening, which was proposed by Arthur Balfour.

So great was Sir John's emotion that he was utterly overwhelmed, and, having risen to acknowledge the toast,

which had been wonderfully acclaimed, he could only utter the words, "My lords and gentlemen. Then, utterly overcome, words failed him, and he had to resume his seat, speechless. The effect was marvelous.

The eloquence of silence was, after a brief pause, electrical, and the speechless speaker was acclaimed even more heartily than he had been when he first stood up to speak. It was a touching and memorable scene, and none of those present are ever likely to forget it.—Youth's Companion.

Plainview, Texas

ANOTHER WONDER!!!

COME LET US SHOW YOU HOW TO REDUCE YOUR FUEL BILLS

Showing Burner Attachment to Cook Stove or Range

We have solved the fuel problem by producing an Oil Burner that burns Crude Oil right from the wells as well as any products from the highest grade kerosene down to the lowest grade of fuel oil, and gives perfect, uniform heat, thereby cutting fuel bills in half.

Housekeepers are offered at last an Oil Burner that is a success, that will meet with your approval, is guaranteed to give perfect satisfaction, is perfectly safe, cannot cause explosion, and anyone can operate it. Start fire in a moment. Stop fire when desired by simply turning off oil, avoiding that awful hot kitchen in summer. Run fire all day and night in winter if heat is required. Equally desirable and economical in Heating Stoves.

Simple--Safe--No coal to carry in or ashes to carry out. No soot--no dust--just good clean heat.

Showing Burner Attachment to Heater

You get the maximum amount of heat with the minimum amount of fuel by using the SUCCESS OIL BURNER, which will fit any cook or heating stove, and can be attached within fifteen minutes without destroying any parts of the stove. There is absolutely no danger from explosion. It heats the stove within fifteen minutes after lighting, and is ready for baking within eight minutes. (How is this for baking?) Fire is started with a match--no kindling wood used or needed. Your stove holds uniform heat, insuring uniform baking, impossible with wood or coal.

SOON PAYS FOR ITSELF.--It soon saves its cost by cutting your fuel bill in two. Its use in a cook stove or range insures a clean, sanitary kitchen, eliminating the dirt made by wood, coal or ashes.

This is not a Gas Generator or Gas Burner, but an Oil Burner --applying oil direct to the flame.

This wonderful utility is being demonstrated at Montgomery-Lash Building, Pacific Street, Plainview. Ladies are specially invited to call and see it in operation.

THE SUCCESS OIL BURNER CO.

MANUFACTURERS

MT. VERNON, ILLINOIS

LOCAL AND PERSONAL

Clint Shepard made a trip to Hale Center today.
George Keck made a business trip to Amarillo Saturday.
Otis Trulove made a business trip to Amarillo this week.
Passenger train No. 28 was twenty minutes late Thursday.
Mrs. Eula Merrell and family have moved to Springdale, Arkansas.
P. S. Wood and wife, of Cuba, Missouri, are here for Mr. Wood's health.
Miss Dorothy Foley, of Olton, has returned from the Normal at Canyon.

A. M. Crozier visited in Plainview Wednesday.
W. L. Crandall, of Olton, was here Wednesday.
Mrs. Lula Davis left Thursday for Buena Vista, Colorado.
Mrs. H. J. Morton left Thursday for Pecos City, where the family is moving.
D. B. Watson has been in Lubbock this week visiting his father, who is ill.
J. B. Gilliland has leased the Plainview Hotel, and took possession today.
J. E. Griggs was called Wednesday to the bedside of his father, who lives at Norfolk, Va.
Rev. J. M. Harder returned Thursday from Miami, where he has been holding a meeting.
Mrs. H. E. Ragland and son, Hugh, were here Thursday, from Abernathy, to consult a dentist.
Mrs. E. L. Findley and wife, of Houston, will arrive tomorrow for a visit to the family of J. W. Seivally.
A. J. Patrick, of Gainesville, was here Friday, en route home. He has been visiting his daughter, at Floydada.
T. J. Crow and family have returned to their home, at Shamrock, after a visit to Mr. Crow's brother, B. O. Crow.
J. W. Haggard, of Plano, has been visiting his son, Clyde Haggard. He left Friday for Pampa, for a short visit.
Willie Lorange and wife, who have been teaching a singing school at Prairieview, left Friday for Sayre, Oklahoma.
C. E. Ridgway, wife and son, Virgil, of Tonkawa, Oklahoma, were here during the latter part of the week, prospecting.
Mrs. Boyd Magness has returned to Sayre, Oklahoma, after a visit to Mrs. H. H. O'Bryant and her niece, Mrs. F. E. Connally.

P. Hendricks, of Lubbock, has been here this week, for treatment.
G. A. Pole, of Olton, was here Wednesday, en route to Pecos City on business.
Mrs. George Shafer left Thursday for a few days' visit in Clay Center, Nebraska.
Mrs. N. L. Burns, of Lockney, was here Friday, on her way home. She has been visiting in Bellvue.
Rev. J. D. Burleson, of Lockney, was here Thursday, en route to Portales to hold a Christian meeting.
A. B. Ray was here Friday, on his way to Amarillo. He has been on the Coast two years for his health.
Mrs. T. P. Bussell returned today from Mineral Wells and Weatherford, where she has been for her health.
Mrs. C. G. Bingham and child left Wednesday for Crosbyton, where she will visit her parents.
J. J. Rushing, of the Rushing Land Company, left Thursday for points in Nebraska, in the interest of the company.
Mrs. Ed Carpenter and Mrs. Seals left Thursday for Vernon, where the families of both will make their homes.
Mayor A. J. Sewell and wife, of McGregor, Texas, are in Plainview visiting their sons, C. W. and "Dutch" Sewell.
Noah Meeds, brother of Mrs. J. C. Finley, returned to Plainview yesterday from a visit of several weeks in Shamrock.
Miss Annis Duck, who has been attending the Normal at Canyon, was here Friday, on the way to her home, at Floydada.
Misses Burr Goode and Mabel Wayland have returned from Chicago, where they have been attending Chicago University.
J. M. Shropshire left Wednesday for Abilene and Merkel. He will visit Dr. D. N. Shropshire, his brother, at Abilene, and other relatives at Merkel.
Alex M. Anderson and his brother, Sam H. Anderson, left Wednesday for Lamesa, on business. Sam H. Anderson will go from there to Hillsboro, where he lives.
A. F. Quisenberry, of Hale Center, has rented the Matthews property, on First Street, occupied by C. W. Sewell, and will move to Plainview the fifteenth of August.
J. L. Hunton and daughter, Miss Emma, of Orange, California, were the guests of Mr. and Mrs. J. B. Gilliland Saturday and Sunday.
Mr. and Mrs. Cyrus Erb, of Olton, were here Friday, en route to Pleasantville, Iowa, where they will visit relatives. Mr. Erb has been quite ill.
Mrs. J. W. Shepard, of Plano, left Friday for Tulla, for a few days' visit to friends and relatives. Mrs. Shepard has been visiting her two sons here.
J. R. Snapp, of Tulla, was here Wednesday looking at the shallow water wells. He is planning to put in some wells on his property fifteen miles north of Plainview.

Miss Pattie Dalton returned yesterday from a visit to Kress, Texas.
C. S. Williams, of the firm of Mathes & Williams, is in Amarillo on business.
J. W. Elliott left Wednesday for Fort Worth, Dallas and other points on his route.

F. E. Blasingame made a business trip to Sweetwater Thursday.
Mrs. F. G. Hill visited her father, H. C. Talley, at Hale Center, Monday and Tuesday.
Mrs. S. E. Hill is visiting her son, W. E. Winfield, and old-time friends in Plainview.

John C. Kirby, of Houston, who was formerly a resident of Plainview, is here, visiting.
Mrs. Jess Carter and son, of Fort Worth, and Miss Ada May McKinney, of Lockney, are guests this week of Mrs. C. V. Quisenberry.
Mr. and Mrs. W. H. Bloomer and child were here Wednesday and Thursday. Mr. Bloomer is foreman for the Santa Fe at Ferguson.
Mrs. Maude Hollands was here Thursday, en route to her home, in Jordanton. She has been visiting her father, Judge Duncan, at Floydada.
M. D. Henderson and Z. E. Black have returned from California, where they have been in the interest of the Texas Land and Development Company.
Misses Ethel Tubbs, of Floydada, and Lula Johnson, of Matador, were here Friday, en route to their homes. They have been attending the Normal at Canyon.
Mrs. Ella Sebastian, who has been visiting her son in Canada, is now visiting in Auburn, Washington, according to a letter received Wednesday by B. E. Sebastian.
Mrs. G. E. Conner and little daughter, Virginia, of Canyon, and A. J. Moreland, of Canyon, arrived Thursday for a visit to Miss Artie Moreland, at the Moreland ranch.
J. A. Fawver made a business trip through Floyd and Motley Counties during the early part of the week. He reports fine crops in those sections and plenty of water in the tanks.
Mrs. J. L. Guest and children, of Lockney, were here Wednesday, en route to Lubbock, where they will visit Mrs. W. S. Posey. Mrs. E. O. Nichols, of Plainview, accompanied her.
Dr. Jno. Hamilton, graduate of the State Dental College, of Dallas, has taken a place with Dr. C. D. Wofford. Dr. Hamilton is a son of our fellow-townsman Uncle Jno. Hamilton, county treasurer.
Mrs. P. H. Andrews, the popular dressmaker at the Plainview Tailoring Company, will leave Monday for Anson, Texas, where she will visit her father, T. J. Scott, and from Anson she will go to Abilene, to visit friends.
L. C. McCrary, of Waco, was here Thursday, on the way home from Floydada, where he has been visiting Bill Moore. He says crops are poor in McLennan County. Last year he made three-fourths of a bale of cotton per acre, and does not expect to make over one-fifth this year. Forage crops are poor, he reports.

MONDAY, AUGUST 4th

Our shop in the O'Keefe Telephone Building will be fully equipped and we'll be ready to make any soiled or damaged apparel like new. We can clean the most delicate fabrics with our new French dryer for ladies apparel. Ladies footwear and gloves cleaned perfectly without damage. French dryer, vacuum cleaner and drying tumbler for men's or ladies coarse fabrics.

We call promptly for your work and deliver promptly. Ed V. Price's New Line of Fall Samples will be here soon. Wait for them.

THE OTHER FELLOW.

Plainview looks better. The clean-up has improved appearances, as well as health conditions. In a high altitude, with open country, and lots of room, little thought is taken as to health conditions. The death rate is so low that we turn the entire matter over to "Mother Nature."

Unwisely weed jungles still stare at you from fence corners, alleys and vacant lots. Too many citizens have ignored their duty and overlooked the economic value of cleaning up.

It is a notable fact that the men who are doing most for Plainview, and are prospering most themselves, have laundered their premises.

But the other fellow? He is bothered because of indiscriminate dumping around town. All around Plainview there is a considerable community of home-makers. There are also, in Plains parlance, "lake sites." Into these no small amount of rubbish has been dumped.

Just north of Lake Plainview and west of Seth Ward College considerable refuse has been dumped. This is unsightly to any visitor coming in over the Santa Fe Railroad it is nauseating to visitors driving across that way when going to Seth Ward, to the Nursery or to the homes of their friends; it is a menace to the health of the college community. There is room elsewhere for your trash.

Clean up!—but don't throw your refuse into your neighbor's yard.

A BETTER WAY.

Says the Fort Worth Record: "The fertilizer expert at the Agricultural and Mechanical College reports that 76,000 tons of fertilizers were purchased by Texas farmers last year. This proves that Texas farmers are keeping abreast of the times and are determined to get the largest possible yields out of their farms.

"This expert wrote a bulletin on the proper kind of fertilizer to use on the various soils, and that fact was printed in the newspapers of the State. Within ten days he received 1,000 requests for copies of this bulletin. This proves that the press is a potent factor in agricultural progress."

The purchase of fertilizer is necessary because in too many instances farming has been nothing more than a system of mining the soil. Such farms must be fertilized by artificial means. Where this is true the purchase of artificial fertilizer is wise farm management.

A combination of stock farming and the rotation of crops will practically eliminate the necessity of adding commercial fertilizer.

By the production of hogs and cattle, so that he might pocket the \$50,000,000 which Texans send outside every year for their meat supply, the Texas farmer will increase his bank account; he will also eliminate, in large measure, the necessity for purchasing artificial fertilizer.

Stock farming offers large profits on the South Plains.

FARMERS FAVOR SEPARATE COLLEGES.

"Separate colleges" was a keynote of the recent Farmers' Congress at College Station, Texas.

Let the University and A. & M. be entirely separated, if that step seems wise. But it would seem more important that we provide adequately for all of our educational institutions.

Friends of A. & M. have recently opposed a bond issue for the University of Texas because it would enable the regents to duplicate our present agricultural college. They have seemed to want to handicap the University in order that A. & M. might grow strong.

A. & M. cannot enlarge upon the

strangulation of the University. Surely the University will not attempt to prosper at the expense of the agricultural education of the youth of Texas. University regents, so far as we can discern, have not manifested any desire to hamper A. & M. They did favor union of the two schools. There is much to be said in favor of such union. Perhaps it is wise to maintain the two entirely separate. Texas is too diverse in climatic con-

institution.

Separate the University and A. & M. If it seems wise; the larger question is adequate support for both institutions.

J. A. Brown, of Amarillo, was here four days this week, prospecting. He is much pleased with this section, and will probably locate here. He finds shallow water to be a distinct advantage to the Plains farmer.

Dr. E. O. Nichols left Wednesday for New York, via Galveston. Dr. J. L. Guest, of Lockney, accompanied him. They will do advanced experimental work, studying diseases of the eye, nose and throat, for two months.

Mrs. Z. C. Steakly, of DeLeon, who has been in Plainview visiting her father, D. W. McGlasson, is now visiting her sister, Mrs. C. R. Bennington, at Kress, but will return to Plainview for an extended visit with her father.

Anton Ahrens and wife, of China, Texas; Rudolph Kaklich and wife, of Cuero, Texas, and Henry Dreys, of Wilson, were here this week, studying the wells with a view to installing pumps on their farms in other parts of the State. They will return to their homes in a few days, and, after making experiments there two weeks, expect to return with other interested parties.

She is a woman of superior training, successful experience, aesthetic tastes in all lines. She is a Methodist, and an active christian worker." Includes a portrait of Miss Gladys Marsalis.

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the Sheriff or any Constable of Hale County—GREETING:

YOU ARE HEREBY COMMANDED, That you summon by making Publication of this Citation in some newspaper published in the County of Hale, if there be a newspaper published therein, but, if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th Judicial District, for four weeks previous to the return day hereof, W. V. Kennedy, Edward Kennedy and R. S. Lemons, whose residences are unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the Court House thereof, in Plainview, Texas, on the 4th day of August, 1913, then and there to answer a Petition filed in said Court, on the 7th day of June, A. D. 1913, in a suit numbered on the docket of said Court No. 963, wherein L. W. Elliott and M. J. Elliott, R. W. Elliott are plaintiffs and W. V. Kennedy, Edward Kennedy and R. S. Lemons are defendants. The nature of the plaintiffs' demand being as follows, to-wit:

STATE OF TEXAS, County of Hale.)

In District Court, August Term, 1913.

To the Honorable District Court of said County:

Now come L. W. Elliott and M. J. Elliott, who are husband and wife, and R. W. Elliott, all of whom reside in Hale County, Texas and are hereinafter styled plaintiffs, and, complaining of W. V. Kennedy, Edward Kennedy and R. S. Lemons, herein-after styled defendants, and whose places of residence are unknown, show to the Court:

That heretofore, on the 1st day of January, 1913, plaintiffs were lawfully seized and possessed of the following described tracts of land lying and being situate in Hale County, Texas, claiming, holding and owning the same in fee simple, to-wit:

FIRST TRACT: Beginning at 4 pits and stake at the Southwest corner of the D. P. Goodwin Homestead Pre-emption Survey; thence North 1,456 feet a 1/2-inch pipe; thence West 1,320 feet a buggy boxing for corner; thence South 1,456 feet 4 pits and a cedar post at the Southwest corner of the S. A. White Homestead Pre-emption Survey; thence East 1,320 feet to the place of beginning, containing 44.13 acres of land.

SECOND TRACT: Beginning at the center of the D. P. Goodwin Homestead Pre-emption Survey, a wagon spindle; thence South 1,320 feet; thence West 1,320 feet to 4 pits and stake at the Southwest corner said Goodwin Survey; thence North 1,456 feet to a 1/2-inch pipe; thence East 1,170 feet; thence South 136 feet; thence East 150 feet to the place of beginning, containing 43.66 acres of land.

THIRD TRACT: Beginning at the Southwest corner of the aforesaid D. P. Goodwin Homestead Pre-emption Survey; thence West 1,320 feet a stake at the Southwest corner of the S. A. White Homestead Survey; thence South 531.7 feet, a stake and 3 pits; thence East 1,320 feet a stake; thence North 531.7 feet, to the place of beginning, containing 16.11 acres of the J. E. White Homestead Survey.

FOURTH TRACT: Beginning at Goodwin Homestead Pre-emption Survey the Southwest corner of the said D. P. Goodwin Homestead Pre-emption Survey; thence East 1,320 feet; thence South 531.7 feet; thence West 1,320 feet; thence North 531.7 feet, to the place of beginning, containing 16.11 acres of the E. M. White Homestead Survey.

And that on the day and year aforesaid the defendants unlawfully entered upon said premises and ejected the plaintiffs therefrom and unlawfully withheld from plaintiffs the possession thereof, to plaintiffs' damage in the sum of Five Thousand Dollars.

Plaintiffs claim said lands by chain of title as follows: Patent from the State to M. E. Black, assignee of D. P. Goodwin, Patent No. 176, Vol. 28, recorded in Vol. 1, page 62, of the Patent Records of Hale County, Texas; deed from M. E. Black to A. E. White, dated Oct. 19th, 1906, recorded in Book 6, page 572, Deed Records of Hale County, Texas; Patent No. 282, Vol. 30, of Record Book 1, page 209, Patent Records, Hale County, Texas, to Ed M. White; Patent No. 570, Vol. 30, of Record Vol. 1, page 396, Patent Records of said Hale County, to S. A. White, who married T. J. Black; Patent No. 569, Vol. 30, recorded Vol. 1, page 395, Patent Records, Hale County, to J. E. White; deed from J. E. White et ux. to Ed M. White, dated Feb'y 6th, 1906, recorded Vol. 12, page 446, Deed Records of Hale County, Texas; deed from T. J. Black et ux. S. A. Black to R. W. Elliott, dated Oct. 17th, 1907, recorded Vol. 16, page 437, Deed Records of Hale County, Texas; deed from Ed M. White and wife, A. E.

White, to Mrs. M. J. Elliott, dated October 12th, 1907, recorded Vol. 16, page 438, Deed Records of said Hale County; deed from Ed M. White and wife to Mrs. M. J. Elliott, dated October 12th, 1907, recorded Vol. 16, page 439, Deed Records of said Hale County; deed from Ed M. White and wife, A. E. White, to Mrs. M. J. Elliott, dated October 12th, 1907, recorded Vol. 16, page 440, Deed Records of said Hale County; and that the only title under which defendants claim any part of said lands is the deeds herein-after mentioned.

And Plaintiffs show that on the 26th day of April, 1909, plaintiffs signed, executed and delivered to W. V. Kennedy a certain deed, in form a general warranty, dated said day, and now of record in the Deed Records of said Hale County, Texas, Vol. 23, page 43, which said deed purports to convey unto said W. V. Kennedy a one-half interest in the north 120 acres in the townsite of Petersburg as shown by plat of said town on file in the Deed Records, except Blocks 7 and 8 and one acre deeded to T. B. Phillips by L. W. Elliott and wife, M. J. Elliott, and 3 acres deeded by L. W. Elliott and wife to Chas. Schuler and ten acres to W. V. Kennedy, further described as 120 acres out of a survey transferred to M. J. Elliott and L. W. Elliott by Ed M. White et al. And that on the same day, April 26th, 1909, plaintiffs signed, executed and delivered to said defendant, W. V. Kennedy, a certain deed, in form a general warranty deed, dated said day, and now of record in the Deed Records of said Hale County, Texas, Vol. 20, page 470, which deed purports to convey to said W. V. Kennedy ten acres off of the south side of a 120-acre tract of land conveyed to us by Ed M. White et al., and more particularly described as a strip of land 2,463 by 180 feet, and includes the north-west part of Block 4 and north part of Blocks 15, 22, 33, 40, 51, 58 and 69 as shown by margin line east and west on Petersburg Townsite plat, Hale County, Texas. And plaintiffs say that both said deeds are invalid and not binding against these plaintiffs, and should be cancelled, annulled and held for naught, because, as plaintiffs show to the Court:

That at and before the said day of the execution of said deeds these plaintiffs resided at the said Town of Petersburg, where said land is situated, and owned and possessed at and near said town other lands, and were desirous of having a railroad constructed into and through said town; and that said defendants, W. V. Kennedy and Edward Kennedy, at and just prior to the date of the execution of said deeds, came to said town of Petersburg, and, acting together for the purpose of acquiring from plaintiffs the land in said two deeds described, and for the purpose of defrauding plaintiffs out of said land, represented to plaintiffs, and promised and assured plaintiffs, that they, said Kennedys, would build, construct, complete and equip a railroad from the town of Memphis, Texas, to and through the said town of Petersburg, within two years from said date, and would have such road completed and trains running thereover within said time of two years from the said date, if plaintiffs would make said deeds of conveyance; and represented to plaintiffs that they were financially and otherwise able to so build, construct, complete and equip such a railroad, and would do so within two years.

That plaintiffs had no knowledge of the matters about which said representations, promises and assurances were so made, and relied wholly on the said representations, promises and assurances so made by said Kennedys, and, so relying thereon, signed, executed and delivered said two deeds last above mentioned to said W. V. Kennedy; and plaintiffs show to the Court that they would not have made or delivered said deeds nor either of them but for said representations, promises and assurances so made by said defendants.

And plaintiffs further show to the Court that all and every of said representations, promises and assurances were falsely and fraudulently made by said Kennedys for the purpose of swindling plaintiffs out of their lands; that said representations, promises and assurances were made by said Kennedys without any expectation or intention of fulfilling them or any of them, and without any ability to perform or fulfill them or any of them. That said Kennedys were, in fact, mere adventurers, and had no financial ability or standing, and did not have the ability to construct any such railroad; and plaintiffs say that the execution of said deeds was procured by fraud.

And plaintiffs further represent and show to the Court that said deeds were signed and delivered by plaintiffs to said W. V. Kennedy, they, plaintiffs, relying fully and wholly on the representations, promises and assurances so made by said Kennedys as hereinabove set out; that no money or other thing of any value whatever was

given, paid to or received by plaintiffs for their said land or for the execution of said deeds, and that the only consideration for said land and for the execution of said deeds was the representations, promises and assurances as so made to them by said Kennedys, as aforesaid; and plaintiffs further show to the Court that said Kennedys have wholly failed to perform or do any of the things which they so represented, promised and assured plaintiffs they would do; and have broken each and every of said representations, promises and assurances so made; that no railroad has ever been built into or anywhere near said town of Petersburg by said defendants nor by any one else; that plaintiffs have gotten nothing for their said lands; and plaintiffs said that said deeds are absolutely without any consideration to support them, and that the consideration for said deeds, if any ever there was, has wholly failed.

WHEREFORE, Plaintiffs pray that defendants be cited to answer this petition and that plaintiffs have judgment for the title, restitution and possession of the four tracts of land here-in first described, for a cancellation and annulling of said two deeds and the record thereof, and that said deeds and the record thereof be hereafter held for naught, for costs of suit, and for all other relief in law and equity to which they may be entitled under the evidence.

Attorneys for the Plaintiffs.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office, in Plainview, this, the 27th day of June, A. D. 1913. (SEAL) B. H. TOWERY, Clerk District Court, Hale County, Texas.

CITATION BY PUBLICATION. THE STATE OF TEXAS, To the Sheriff or any Constable of Hale County—GREETING:

YOU ARE HEREBY COMMANDED, That you summon by making Publication of this Citation in some newspaper published in the County of Hale, if there be a newspaper published therein, but, if not, then in any newspaper published in the 64th Judicial District; but if there be no newspaper published in said judicial district, then in a newspaper published in the nearest district to said 64th Judicial District, for four weeks previous to the return day hereof, W. V. Kennedy, Edward Kennedy and R. S. Lemons, whose residences are unknown, to be and appear before the Honorable District Court, at the next regular term thereof, to be holden in the County of Hale, at the Court House thereof, in Plainview, Texas, on the 4th day of August, A. D. 1913, then and there to answer Plaintiffs' First Amended Original Petition filed in said Court, on the 27th day of June, A. D. 1913, in a suit numbered on the docket of said Court No. 964, wherein Ed M. White and A. E. White are plaintiffs and W. V. Kennedy, Edward Kennedy and R. S. Lemons are defendants. The nature of the plaintiffs' demands being as follows, to-wit:

Ed M. White and A. E. White) vs.) W. V. Kennedy et al.) No. 964. In District Court, Hale County, Texas.

To the Honorable District Court of said County: Now come the Plaintiffs, Ed M. White and wife, A. E. White, and file this their First Amended Original Petition in lieu of their Original Petition filed herein on the 7th day of June, 1913, and for such amendment and for cause of action, and complaining of the defendants, W. V. Kennedy, Edward Kennedy and R. S. Lemons, whose places of residence are unknown to Plaintiffs and to plaintiffs' attorneys, show and represent to the Court:

That heretofore, on the 1st day of January, 1913, plaintiffs were lawfully seized and possessed of the following described tract of land, situate and being in Hale County, Texas, holding, owning and claiming same in fee simple, to-wit: Beginning at an iron pipe 1,853 feet south of a wagon spindle driven in the ground at the center of the D. P. Goodwin Homestead Pre-emption Survey of 160 acres; thence south 990 feet; thence west 987.1 feet; thence north 990 feet; thence east 987.1 feet, to the place of beginning, containing 22.43 acres of land; and that on the day and year aforesaid the defendants unlawfully entered upon said lands and premises and ejected plaintiffs therefrom and unlawfully withheld from plaintiffs the possession thereof, to plaintiffs' damage in the sum of two thousand dollars. Plaintiffs further show that they hold, claim and have title to said tract of land by title as follows:

Patent from the State of Texas to plaintiff Ed M. White, No. 282, Vol. 30, of record in the Patent Records of Hale County, Texas, Vol. 1, page 209; and that defendants have no title to said lands or any part thereof, so far as these plaintiffs know, unless it be under the deed hereinafter mentioned.

And for further cause of action against said defendants, W. V. Kennedy, Edward Kennedy and R. S. Lemons, these plaintiffs show to the Court that on the eighth day of January, 1909, plaintiffs signed, acknowledged and delivered to said W. V. Kennedy a certain instrument in writing, a general warranty deed, bearing date said day and year, and now of record in the Deed Records of Hale County, Texas, Vol. 20, page 280, by the terms of which deed plaintiffs conveyed to said W. V. Kennedy certain lands in Hale County, Texas, described in deed as follows: Beginning at an iron pipe 1,853 feet south of a wagon spindle at center of the D. P. Goodwin Survey; thence South 990 feet to stake; thence West 987.1 feet to stake; thence North 990 feet to stake; thence East 987.1 feet to stake, containing 22.43 acres of land. And plaintiffs show to the Court that said deed of conveyance is invalid and not binding against these plaintiffs, and should be cancelled, annulled and held for naught, and the record thereof should be cancelled, annulled and held for naught, for the following reasons:

1st. At and prior to the time of the making of said deed, plaintiffs lived at the Town of Petersburg, Hale County, Texas, and had and owned and possessed certain other lands besides the lands in said deed described, and were, together with many other persons residing in and about said town, very desirous of seeing a railroad constructed into said town, and of seeing said town and the community thereabout grow and develop; and that said defendants, W. V. Kennedy and Edward Kennedy, at the time of the executing of said deed and before then, came to said town of Petersburg and represented to plaintiffs and promised and assured plaintiffs that if they, plaintiffs, and other persons would do certain things, including the conveyance to said W. V. Kennedy the lands in said deed described, that they, the Kennedys, would build, construct and complete a railroad from Memphis, Texas, to and through the said Town of Petersburg, and would complete said railroad and have trains running thereover within two years from that time; and represented to plaintiffs that they, said Kennedys, were able financially and otherwise to so build, construct and equip such railroad, and would so build, complete and equip same and have trains running thereover within two years from that date, if plaintiffs would execute said deed.

That plaintiffs had no knowledge of the matters about which such representations, promises and assurances were so made by said Kennedys, and relied wholly on the said representations so made by them, and, so relying on said representations, signed, executed and delivered to said W. V. Kennedy said deed; and that they would not have so signed, executed or delivered said deed to said W. V. Kennedy but for said representations, promises, agreements and assurances so made by said Kennedy.

And these plaintiffs further show to the Court that all and every of said representations, promises and assurances so made by said Kennedys were falsely and fraudulently made by them for the purpose of swindling plaintiffs out of their said land, and were made without any expectation or intention of fulfilling them or complying with or performing them, and without any ability to perform or keep them. That said Kennedys were, in fact, mere adventurers, without any financial standing or ability. And plaintiffs say that the execution and delivery of said deed was procured by fraud.

And these plaintiffs further show that said deed was signed, executed and delivered by plaintiffs to said W. V. Kennedy, they, plaintiffs, relying on said representations, promises and assurances so made by said Kennedy, as aforesaid; and that no money or other thing of value whatever was given to plaintiffs or received by them for said land in said deed described or for the execution and delivery of said deed, and that the only consideration for said deed, and for said land in said deed mentioned, was the said representations, promises, assurances and agreements on the part of said Kennedys, as above set out, and to the effect that they, said Kennedys, would build, construct, complete and equip a railroad into and through said town within two years from the said date of said deed, and have trains running over said railroad within that time; and plaintiffs further show the Court that said Kennedys have wholly failed to perform or do any of the things which they so represented, promised and assured plaintiffs that they would do, and have broken each and every representation, promise and assurance so made; that no railroad has ever been built into or anywhere near said town of Petersburg by said defendants or any other person; and

that plaintiffs have gotten nothing whatever for their said land; and plaintiffs say that said deed is absolutely without any consideration to support it, and that the consideration therefor, if any there ever was, has wholly failed. And Plaintiffs further say that said W. V. Kennedy and Edward Kennedy were acting together in all said matters.

Wherefore, plaintiffs pray that defendants be cited to answer this petition, and that upon a hearing hereof that plaintiffs have judgment for the title, restitution and possession of the lands hereinabove described; that said deed and the record thereof be cancelled, annulled and declared void; that plaintiffs have judgment for costs of suit, and that they have all other and further relief both in law and in equity to which, under the evidence, they may be entitled.

Attorneys for the Plaintiffs.

HEREIN FAIL NOT, And have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office, in Plainview, this, the 27th day of June, A. D. 1913. (SEAL) B. H. TOWERY, Clerk District Court, Hale County, Texas.

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the SHERIFF or any Constable of Hale County—GREETING:

You are hereby COMMANDED to SUMMON the heirs of W. H. H. Kilty, by making publication of this citation in some newspaper of Hale County, Texas, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for eight successive weeks previous to the return day hereof, to be and appear before the Honorable District Court of Hale County, Texas, at the next Regular Term thereof to be holden in the County of Hale, at the Court House thereof, in the City of Plainview, Texas, on the 4th day of August, 1913, then and there to answer a petition filed in said Court on the 23rd day of May, 1913, in a suit numbered on the docket of said Court, No. 960, wherein B. E. Crego is plaintiff and the heirs of W. H. H. Kilty, deceased, are defendants; the nature of the Plaintiff's demand as stated in said Petition being as follows:

STATE OF TEXAS, County of Hale.)

IN THE DISTRICT COURT, August Term, 1913.

To the Honorable District Court of said County:

Now comes B. E. Crego, of Aurora, State of Illinois, hereinafter styled Plaintiff, and, complaining of the Heirs of W. H. H. Kilty, deceased, whose names and places of residence are to Plaintiff unknown, hereinafter styled Defendants, shows and represents to the Court:

That heretofore, on the 1st day of August, 1912, Plaintiff was lawfully possessed of the following described tract of land lying and being situate in Hale County, Texas, holding, owning and claiming the same in fee simple, to-wit: The J. L. King Homestead Pre-emption Survey, described by metes and bounds as beginning at the Northeast corner of the W. F. Ad-

dison Survey; thence east 950 varas; thence south 950 varas; thence west 950 varas, to the northeast corner of the J. McClinton Homestead Pre-emption Survey; thence north to the place of beginning, and containing one hundred and sixty acres of land; and that on the day and year aforesaid the Defendants unlawfully entered upon said premises and ejected the Plaintiff therefrom and unlawfully withheld from him the possession thereof to his damage in the sum of Three Thousand Dollars.

Plaintiff further shows to the Court that he claims and owns said land by chain of title as follows: 1st, Patent from the State of Texas granting said land to J. L. King; 2nd, Deed of General Warranty from said J. L. King and wife conveying said land to Herman Schulz, dated October 1st, 1908, and of record in the Deed Records of Hale County, Texas, Vol. 17, pages 203-4; 3rd, Deed from said Herman Schulz conveying said land to W. H. H. Kilty, dated May 27th, 1910, and of record in the Deed Records of said Hale County, Texas, Vol. 24, pages 623-4, in which deed of conveyance the Vendor's Lien was expressly retained to secure the payment of four notes of even date with said deed, each for the sum of \$425.00, and due respectively July 1st, 1912, 1913, 1914 and 1915, and each note providing that failure to pay any note or any installment of interest when due shall at the option of the holder mature all said notes; 4th, Transfer and assignment from said Herman Schulz of said notes to this Plaintiff, which transfer and assignment also conveyed to this Plaintiff all the right, title and interest owned or held by said Herman Schulz in or to said land, and which transfer and assignment was in writing, dated July 1st, 1910, and recorded in the Deed Records of Hale County, Texas, Vol. 25, page 357, and conveyed to this Plaintiff the superior legal title to said lands;

That the only title or interest in or to said lands or any part thereof held or claimed by Defendants, so far as known to this Plaintiff, is under said deed from Herman Schulz to said W. H. H. Kilty, above described. And Plaintiff says that said notes in said deed mentioned are long since past due and have never been paid, and are and remain wholly unpaid, and Plaintiff has rescinded said contract of sale, because of the failure on the part of Defendants and said W. H. H. Kilty to pay said notes. And Plaintiff further shows that said W. H. H. Kilty is dead.

Wherefore Plaintiff prays that Defendants be cited by publication as provided by law in such cases, and that upon a hearing he have judgment for the title, restitution and possession of said above described tract of land, and for all relief to which under the law and the evidence he may be entitled.

MATHES & WILLIAMS, Attorneys for the Plaintiff.

HEREIN FAIL NOT, and have you before said Court on the first day of the next term thereof, this WRIT, with your return endorsed thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at my office in Plainview, this the 23rd day of May, 1913.

B. H. TOWERY, Clerk District Court, Hale County, Texas.

The Stomach Is the Target

Aim to make that strong—and digestion good—and you will keep well! No chain is stronger than its weakest link. No man is stronger than his stomach. With stomach disordered a train of diseases follow.

Dr. Pierce's Golden Medical Discovery

Makes the stomach healthy, the liver active and the blood pure. Made from forest roots, and extracted without the use of alcohol. Sold by druggists in liquid form at \$1.00 per bottle for over 40 years, giving general satisfaction.

If you prefer tablets as modified by E. V. Pierce, M. D., these can be had of medicine dealers or trial box by mail on receipt of 50c in stamps.

COMMUNITY CORRESPONDENCE

KRESS.

July 30.—Rev. Mr. Moore, of Kress, preached at the Central Plains school house, 8 miles west, Sunday and Sunday night. A Sunday School was organized that day, which will meet every Sunday.

Mrs. J. Estes, of Auburn, returned to Kress, on the train, Monday, after a visit with relatives at Hereford.

The Embroidery Club met last Friday at Mrs. Robard's, and will meet again next Friday afternoon, at Mrs. R. Ormsby's.

George Rousser went to Runningwater Monday afternoon.

Mrs. Rowland and daughter, from near Plainview, visited Tuesday at Mrs. J. Bush's.

Rob and Will Rousser are hauling grain to Kress this week.

Mr. Dustman was a caller in Kress Monday.

Mrs. E. Ackley and music class had a recital at Mrs. Kerr's Tuesday evening.

President Gates, of Wayland College, preached an excellent sermon at the Baptist Church Sunday evening.

The Baptist Church has some nice new seats now.

Brother Butterfield will commence a protracted meeting Thursday evening, July 31st.

Mr. and Mrs. Sam Bailey started this morning to their home, in Gould, Oklahoma, after a visit here with relatives.

Mrs. T. A. Oliver and Mrs. W. E. Stryker and son were Plainview visitors Saturday and Sunday.

Mr. Burke made a business trip to Plainview Wednesday.

Mr. and Mrs. Fred Overley, of Ames, Iowa, who have been visiting Mr. Overley's parents, leave for their home, in Iowa, Saturday.

Mr. Patterson had a bunch of cattle branded near Kress Monday.

Mrs. Dora Freeman, of Amarillo, is visiting her sister, Mrs. Tom Skipworth.

The protracted meeting begins at this place Thursday night, July 31st, at the Methodist Church. One and all are invited. Rev. A. E. Butterfield will do the preaching.

Another good rain fell west of Kress Monday evening.

Mr. Stryker got a load of feed from Mr. Bob Rousser this week.

Mr. Beak came in from Plainview Saturday, at which place he had been doing carpenter work for the Syndicate Company.

Miss Pattie Dalton, of Plainview, is visiting Miss Nell Webb, east of Kress, this week.

Mr. and Mrs. Bert Bagley are moving to Tulla this week, where they will make their future home.

Mrs. Hampton and daughter, who have been visiting Judge Webb, left yesterday for her home, in De Long.

Mrs. Skinner leaves today for the country, to visit relatives for a few days. Mr. Skinner is out inviting the men to call and see him tonight after he gets his supper over with. He says he will entertain the Kress men while his wife is gone, and invites them in to play checkers all night tonight, if they want to stay, for there will be no use to invite them to leave.

The Runningwater baseball team will play the Kress boys Saturday afternoon, at Kress.

Mrs. John Estes returned home Monday, after a two weeks' visit with relatives in Hereford.

Mrs. E. P. and Clyde Weidner spent the day with Mrs. J. V. Boston.

Mrs. J. C. Duty and children are visiting friends southeast of Kress this week.

LITTLEFIELD.

July 27.—Prof W. M. Pearce, President of Seth Ward College, a Methodist institution of Plainview, had charge of the service at the 11 o'clock hour today, at which time he delivered a most inspirational lay sermon, taking as his subject "The Measure of a Man." Rev. A. E. Butterfield, of Kress, pastor of this charge, was present and assisted in the service.

A general rain fell in this section of the South Plains yesterday afternoon and last night. Sod crops have held out remarkably well through the dry spell, and with this good rain a splendid yield is assured.

Every crew in the employ of the Construction Company building the Santa Fe Railroad, save two, is now at Littlefield. There are more than 200 men here, and the five miles of tracks in the yards are nearly all filled with cars. One well has been completed and the pump installed and work has begun on a second well. This will be the most important water station on the line. The track has been laid to a point seven miles northwest from here.

LAKEVIEW FARM.

July 26.—We had a full half inch of rain on the 24th, and on the 25th an inch, which will benefit all crops wonderfully.

Mr. W. J. Curtis had quite an accident on the 24th. He had a team of mules hitched to a hay rake and was starting to the field when the team became frightened and started to run, when one of the lines broke and they got away and ran against a post, breaking the rake and bruising Mr. Curtis up considerably, skinning his face and head pretty badly, cutting a hole under his jaw and bruising one knee.

Mr. Marcus Gregory and family spent Thursday with E. Callaway and family. Mr. Gregory is something of a hog man. He has more than a hundred head on hands now, and is making good money on them, even at the high price of feed.

WHITFIELD.

July 21.—Fair weather.

Mrs. Mary Harrison and friends went to the breaks last week, plum hunting.

Mrs. Nettie Durham is visiting her father and mother, Mr. and Mrs. Askew, this week.

Bennett.

Mr. and Mrs. T. J. Garner, were

First Monday Bargains

Cannot Compare With Forced Bargains

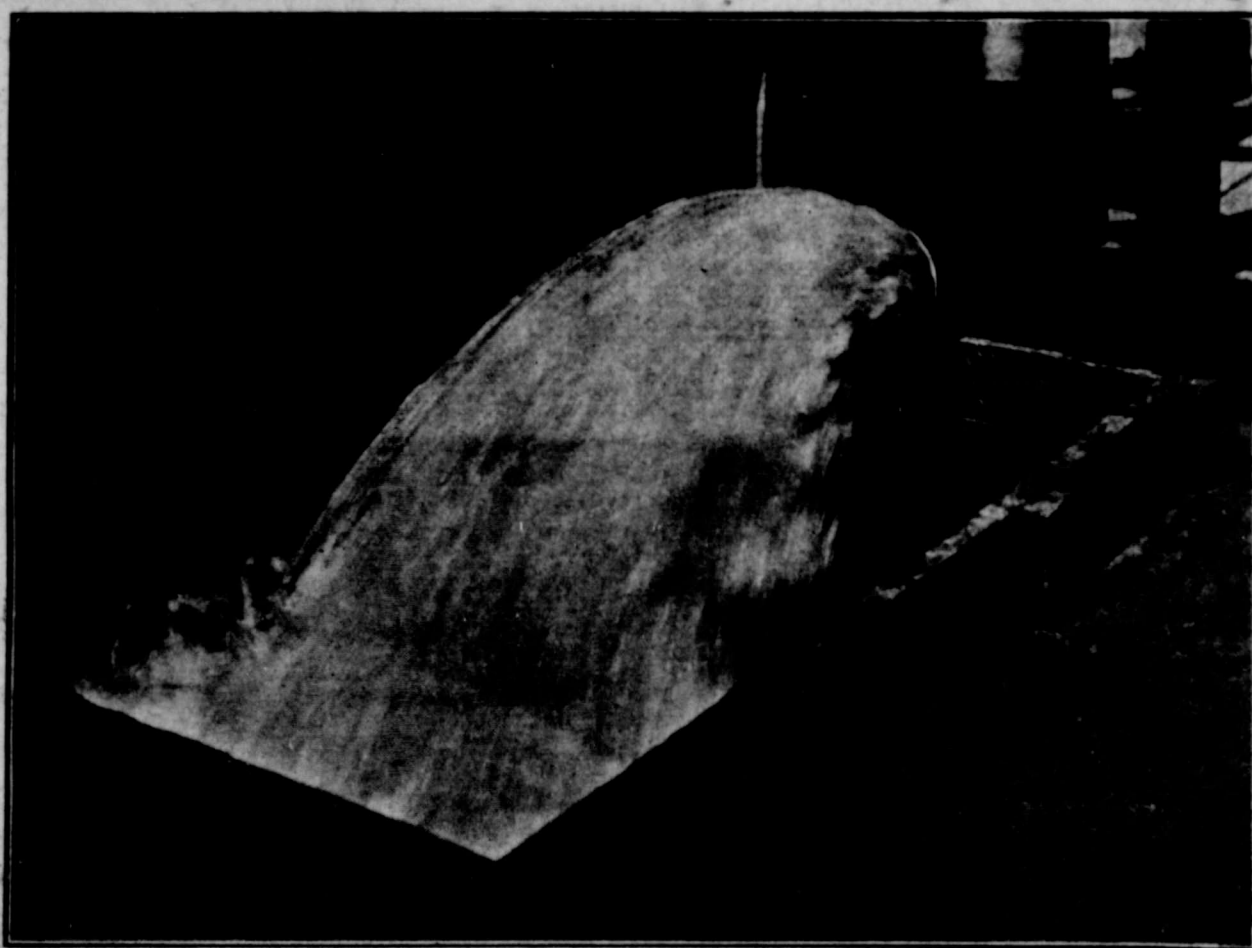

We have been forced into bankruptcy--and bankruptcy prices mean cost prices on everything in stock. All staple and fancy groceries in our big stock of good goods must go at once and cost prices surely mean something to you in figuring out what it costs to eat. It won't cost much if you buy Monday from us.

Stock up your pantry now while many lines are nearly complete and at prices you can't hope to get elsewhere.

Our Loss Is Your Gain

Vickery-Hancock Gro. Co.

Joseph Fowler, Assignee

Well on Dr. White's Farm Pumping 2,500 gallons per minute.

The biggest well and best improvements for sale in the shallowest section of the great shallow water belt of the Plainview country. Running one-half the time and pumping 2,500 gallons per minute means 7 1-2 inches of water for 277.33 acres of land every 30 days. This is about one-third more water than you need, but irrigation water is like money, you can't have too much.

Well equipped with No. 8 Layne pump and Layne screening. The engine is a 110 H. P. St. Mary's Solar Oil engine. This equipment means permanency, efficiency and economical operation.

RESIDENCE.--Up-to-date, new and modern. Five rooms with both pantry and closets.

LAND.--388 acres, 4 1-2 miles southeast of city; 160 acres ditched, bordered, leveled and cultivated for alfalfa. An additional 140 acres surveyed and platted and is ready for the plow. Balance is good pasture land.

If you have property you do not wish to sell, I will take it as collateral security and sell you the land and improvements, all on time--from one to ten years. For further terms see your real estate dealer or Frank Hill, the manager of the property.--DR. R. R. WHITE, Owner.

Mr. and Mrs. Lee Simpson, of Kress, were here Sunday to visit Mrs. Simpson's brother and wife, Mr. and Mrs. pleasant callers at the Blackerby home Sunday.

Mr. Blackerby had a fine horse to die last week.

Mr. Bernie Stark is on the sick list. The ice cream supper at Mr. and Mrs. W. A. Williamson's Tuesday night was well attended.

Mr. Wes Lovvorn left Thursday to visit his father, Mr. Roe Lovvorn.

Mrs. H. P. Walling went to Hale Center Tuesday to see her sister, Mrs. George Yates.

A nice little rain fell here Sunday morning, which was needed very badly.

Rev. Winn preached at New Hope Sunday night.

Mr. and Mrs. T. J. Garner were to Runningwater Friday, to visit their daughter, Mrs. Lon Pendley.

Mrs. R. H. Neal was a pleasant caller at the Walling home Monday.

Mr. Avie Stark, of Sherman, Texas, is here visiting his father and mother, Mr. and Mrs. L. D. Stark.

Quite a number of young people gathered at the home of Mr. and Mrs. Will Lovvorn Sunday evening. They were served with refreshments of ice cream and cake.

ABERNATHY.

July 30.—Bill Brown, with his wolf-and-dog team, passed through Abernathy yesterday.

Miss Vena Hinds is visiting in Plainview this week.

Messrs. Stambaugh, Goodman, Jones and Pearson attended the wrestling match at Plainview last Monday evening.

Mr. Carl Goodman has been to Amarillo, attending the Bankers' Association.

Mr. Vernon and son and daughter, of Amarillo, spent Sunday with Mrs. S. E. Stanfield.

Mrs. Kimbell and daughters, of Matador, are visiting Mrs. I. D. Merrill.

Mr. R. M. Hardesty went to Plainview, on business, Tuesday.

Mr. Will Landers has sold his motorcycle and purchased himself a new buggy. He says he likes to have company.

The Baptist ladies served ice cream last Saturday afternoon and evening. They took in about \$27.00.

Mr. H. D. Rosser is hauling sand this week to build himself a silo.

M. Z. Holland and E. F. Caldwell made a business trip to Plainview Wednesday.

PRAIRIEVIEW.

July 28.—Singing school will close Tuesday night with an entertainment here.

Mrs. Thomas, of Lincoln, Nebraska, arrived Saturday for a visit with her daughter, Mrs. Chas. Barrett.

Threshing is progressing in this locality this week.

A light shower fell here Friday night.

Mrs. M. E. Palmer, of near Plainview, returned home Monday, after spending a few days at the Short Horn Dairy Farm.

LOST: Black, folding bill book, containing one \$10 bill and 2 or 3 \$5 bills. Suitable reward for return to C. T. McCLURE, at the Missouri House.

\$50 REWARD.

Two 2-year-old mules disappeared from my place, 6 miles southeast of town, since Friday night, June 20. Branded X on left jaw; small wart on left shoulder of one mule. \$50 reward. Notify SHERIFF OF HALE COUNTY or J. A. COX, Plainview, Texas.

GREAT SCHEME.

"Why won't you buy something at my table?" demanded the girl at the charity fair.

"Because I only buy from the home-ly girls," said the man. "They have a harder time making sales."

The girl was not offended, and he worked this right down the line.—Kansas City Journal.

Our repair work has taught us how to judge the quality of tires

As tire surgeons we are in a pretty good position to know all the inside facts about the relative value of the different makes of tires.

Every day tires of all makes and styles are brought to us—they are in all conditions both from wear and abuse—so naturally in our repair work, we have become rather expert in rubber and fabric tire knowledge.

Knowing tires from the inside as well as the outside, we do not hesitate to sell and recommend

Goodrich Tires

Best in the Long Run

We know from our experience that you will get full mileage and service value from every Goodrich Tire you put on your car—and full value received means satisfaction on your part and more business for us in the end.

We have a fully equipped repair department that is at your service in any emergency—or when in need of an extra "spare" or a set of tires, call or phone us.

Plainview Rubber Company
