HALF OF RIBBONS COME TO HALE CO.

Local Exhibit Took 50 Per Cent of All Awards Made to Individual Counties at Dallas.

37 BLUES; 33 REDS

First on Alfalfa Has Been Won by Plainview's Display Five Consecutive Years.

Hale County won seventy awards at the Texas State Fair. Thirty-seven of these were firsts, and thirty-three were second prizes. In addition to the list published last week, blue ribbons were given our exhibits on buckwheat and flax; second on big sweet peppers and Jerusalem corn.

According to Messrs. Hanby and Perry, who were in charge of Hale County's exhibit, we won more prizes than all other counties having exhibits at the fair. Last year Hale County won 56 awards—more than any other ten counties. Central Texas exhibitors said it was an accident. This summer drouth visited Central Texas; it also cut our crops short. We won more than all the balance. They are beginning to "believe" now.

First prize on alfalfa hay has been won by Hale County for five consecutive years. Jo W. Wing, of the Breeders' Guide, in Chicago, said last week that Hale County alfalfa had the finest fiber and the most leaf of any plant he had seen in America. It does bring a higher price on the market than other alfalfa, usually about \$2 a ton. We also took first prize on alfalfa seed.

Hale County won sixth place on "county displays." In explaining this, Mr. Perry said to-day: "Variety counts heavy in this award. Hopkins County, which won first, had 347 varieties of grass. They showed a total of 1,400 varieties. Perhaps one variety in fifty had an economic value. However, economic value only counts 3 per cent."

"Hale County had 224 varieties, and every one of them was a marketable product. For example, Hopkins County had an endless variety of woods, and these counted just as much as alfalfa hay, or any other single variety."

We ought to begin right now, Mr. Perry thinks, and next year we can sweep everything offered at the State Fair.

The non-perishable products were brought home and will be on display at the headquarters of the Chamber of Commerce, in the Ellerd Building. The big pumpkin which took first prize was broken by the express company, while it was being returned to Plainview.

PLANTED IN SEPTEMBER, RYE IS HALF KNEE HIGH.

James R. DeLay Thinks It Is Man's Own Fault If He Hasn't Something for Feed.

James R. DeLay is one who believes that a man will pretty nearly always have something if he keeps "everlastingly at the job." The drouth this summer cut feed crops short for people who don't irrigate. Mr. DeLay was no exception.

But he isn't without feed. He went right ahead ploughing his land. During the latter part of September he planted 40 acres to rye and speltz. The night his planting was finished it began raining, and that field has not wanted for moisture; neither has any other field on the Plains.

Mr. DeLay's rye and speltz are half knee high now. It will furnish fine pasture this winter. Seed cost \$1.68 a bushel, and three days' work were required for planting. Couldn't every farmer have a field of rye, and speltz or wheat for his live stock if he had just kept at the job?

MOTHERS' CLUB TO HEAR OF MODEL PLAYGROUND.

Miss Justice Will Read Paper on "A School That Is Doing Real Work."

The following is the program that has been arranged for the meeting of the Mothers' Club at the High School Building Friday afternoon, November 14th:

Invocation—Supt. B. M. Harrison.
Business Session.
Paper—"My Idea of a School That Is Doing Real Work"—Miss Justice.
Talk—"A Model School Playground"—Miss Gertrude Hooper.
Reading—May Braselton.

COLONEL SAYS CAN'T FORCE MILITIA TO ENLIST.

Visitor Thinks Company in Plainview Would Benefit Individuals and Town.

Plainview is to have a militia company—or is it? Ben Golding and a number of the young men of our town say that the company will be organized. The fact that Captain Golding has about fifty enlistments, including six transfers from Amarillo, would indicate that he is correct.

A militia company must have 55 men and three officers. However, Captain Golding will not restrict the company to this minimum. If desirable applicants show up, seventy-five may be enlisted.

The idea was extremely popular until news came of the President's ultimatum to Huerta. Then the boys began to dream of Mexicans and long knives. They weren't afraid, of course, but a number of those who had vowed their anxiety to get into the company "just couldn't find time" to take up the work.

As a matter of fact, no man can be taken to Mexico, even if he joins the militia, unless he is entirely willing to go, suggests Lieutenant-Colonel Charles W. Nimon of the Fourth Regiment of the National Guard. Colonel Nimon came in yesterday for a conference with Mr. Golding.

If the United States should decide to intervene in Mexico, Colonel Nimon says, volunteers would be called for just as in the war with Spain. The Plainview organization would volunteer as a company, but every individual member could stay at home unless he volunteered as an individual.

The Constitution of the United States is clear on this point. It provides that the militia, of which the National Guard is a part, can only be called into service to uphold the laws of the United States, suppress insurrection and repel invasion.

Speaking of the benefits accruing from such an organization, Colonel Nimon suggests that in addition to the benefit of the individuals, the way of physical training and discipline, the Federal Government will lease land and build and equip a target range, provided suitable ground can be found around Plainview.

In connection with this target range, a civilian rifle association may be formed with the privilege of using the range. If as many as twenty members go into this club, it is entitled to membership in the National Association, on payment of a club fee of \$10 for the first year and \$5 each year thereafter. This membership entitles the club or individual members to enter the National shoot each year. Members of this club also have the privilege of buying the service rifle and ammunition from the Government at actual cost to the Government.

Since it is known that the young men cannot be taken off to war without their consent, it is likely that a number who have been waiting will enlist at once. Captain Golding expects to organize in the next few days.

The Plainview Company will be mustered into the Fourth Regiment of the National Guard. Colonel Cecil A. Lyon, of Sherman, is in charge of this regiment. The Fourth Regiment covers Texas north of the Texas & Pacific Railroad.

CIVIC LEAGUE TO ELECT OFFICERS NEXT MONTH.

Committee Will Ask School Board to Have Buildings Disinfected During Christmas Vacation.

Members of the Civic League who were present at Wednesday's meeting are enthusiastic over the interest that is now being manifested in the work of this organization. Possibly never before has there been as many of Plainview's ladies interested in as many things tending to the benefit of the entire citizenship.

Wednesday's meeting was freighted with action. A committee of eight was appointed to endeavor to have wrestling matches discontinued in Plainview. This committee will endeavor to get an expression from every citizen of Plainview relative to professional wrestling.

A committee was appointed to draft and have published a recommendation to the School Board asking the Board to have the public school buildings of Plainview disinfected during the holidays.

The nominating committee is composed of the following ladies: Mrs. L. T. Mayhugh, Mrs. L. L. Gladney and Mrs. R. G. Heard. At the next meeting of the Civic League the annual election of officers will be held.

SEEKING FUNDS FOR AUDITORIUM

Mass Meeting at Methodist Church Approves Plan to Secure Summer Assemblies.

COMMITTEE WANTS \$8,000

Building to Be Controlled by Board of Directors Elected by the Stockholders.

At last night's meeting the citizens of Plainview gave their approval to the plan for building an auditorium near Lake Plainview with a seating capacity of 1,500 to 1,750.

J. B. Maxey estimates that such an auditorium, with window panels 7 x 9 feet all the way around, arranged so that they can be pivoted and throw the entire building out of doors in good weather, will cost about \$5,600, without seats. H. I. Miller, President of the Texas Land and Development Company, has offered a 5-year lease on the ground just north and west of Lake Plainview for \$1 a year.

A number of subscriptions of from \$50 to \$500 were taken at last night's meeting. The committee appointed last week by the Chamber of Commerce was asked to proceed with the securing of funds. It is planned to raise \$8,000.

The subscription blank provides that when \$7,000 has been subscribed the subscribers shall be notified, and a majority of the stockholders shall proceed to form a stock company and elect officers and proceed with the building.

One-half of the amount subscribed is due when the company is organized, and the remaining one-half on call of the board of directors. The stock is to be in \$10 units.

The committee hopes to finish up its work by Monday night. It will be perhaps sometime in February before any of the money is payable. Haste just now is necessary because, with the building of this auditorium, it is hoped to secure a summer assembly of the Methodists of the North and Northwest Texas Conferences. Conference meets in Vernon Tuesday. A committee will go to Vernon in an effort to secure the endorsement of the Conference, provided funds can be secured.

The Methodists have been holding a meeting at Lake Wichita each summer, but have abandoned the plan because of a number of reasons. Their leaders have expressed a willingness to come to Plainview, provided suitable arrangements could be made.

Fifteen hundred to two thousand Methodists camped at Wichita Falls for ten days each summer, and it is believed that practically that many could be secured for Plainview within a short while.

President I. E. Gates of Wayland College said last night that if we build the auditorium the Baptists will have a summer encampment by Lake Plainview. In dollars, these encampments mean an expenditure of \$20,000 to \$30,000 every summer in our town. In mental uplift they have a larger value.

Rev. S. A. Barnes, pastor of the Methodist Church, who was one of the directors at Lake Wichita, mentioned some of the advantages we have over Wichita Falls. First, he said that Lake Wichita is some four miles from town, and that made it expensive to get out to the camp ground and to get into town once you were out there. He said that we have a climate which will delight the people of Central and

(Continued on Page Seven.)

SELLS THREE OVERLAND CARS AT CANADIAN.

Geo. W. Corlett, of the firm of Egge & Corlett, telephoned Mr. Egge to-day that he sold three Overland automobiles yesterday in Canadian, Texas. The company has the Overland agency for about 40 Northwest Texas counties. Mr. Egge expects to be in his new garage, on North Pacific Street, about December 1.

GARRISON IS BUILDING.

D. M. Garrison is building a new home, on Pike Street. Mr. Garrison's home burned some three months ago. The cottages being erected by McAdams Lumber Co. and Rev. Mr. Williams, of Matador, are nearly finished; also Dr. Lindsay's new residence, on Wayland Street. Mrs. J. V. Guyton, who will have charge of the new Guyton-Nichols Sanitarium, expects to be in her new building before January 1. She will have a corps of five trained nurses.

METHODISTS GIVE \$86,939 FOR YEAR

Seth Ward's Portion Is \$62,500; \$2,300 for S. M. U.; \$24,439 for Other Purposes.

1,056 IN SUNDAY SCHOOL

Local Church Has Added 226 Names During Conference Year; Membership Numbers 908.

The Methodists of Plainview have given \$86,939 during the conference year ending Sunday, according to report of their pastor, Rev. S. A. Barnes. Sixty-two thousand five hundred dollars of this amount has been contributed in money, land and interest-bearing notes, toward the \$75,000 endowment of Seth Ward College. Southern Methodist University was given \$2,300. For general church purposes \$24,439 has been given.

Two hundred and twenty-six names have been added to the church roll during the year. Of this number 118 joined by profession of faith and 108 by letter from other churches. Sixty-eight adults and ten infants have been baptized. Forty-six members have been dismissed by letter or by death, leaving a net gain in membership for the year of 180. The Church has a membership of 908.

The Methodist Sunday School has an enrollment of 1,056. This includes infant and home departments. Actual attendance at services Sunday mornings varies between 400 and 500. The Epworth League has 85 members. The Woman's Missionary Society has 127 members and has raised, as an organization, during the year, \$785.15.

Plainview claims to have the strongest Methodist Church in the Northwest Texas Conference. Polk Street Church, in Amarillo, Brother Barnes says, is a close rival.

"If such a report can be made during a year when drouth has afflicted us, what might be done under favorable conditions?" the preacher asks.

"The essential need of our church in Plainview, as well as in its greater world work, is leadership," the pastor continued.

"Everybody's business is nobody's business." We must have business men who will look after their Master's business. The purpose of the Church is to develop workmen—that means service."

Brother Barnes came to Plainview last November. He was formerly Presiding Elder of the Abilene District. He leaves for Annual Conference, at Vernon, Monday.

SHIPPING BIRDS TO-DAY FOR DEMONSTRATION TRAIN.

J. C. Goodwin, H. J. Dillingham and S. S. Stoneker Are Sending Chickens, Ducks and Turkeys.

Six pens of Indian Runner Ducks, White Holland Turkeys, White Wyandottes and Buff Orpington chickens went out to-day for Amarillo. They will be used by the Santa Fe on its demonstration train which starts next week on an extended trip over the railroad in Texas and New Mexico. This is the first time that Panhandle chickens have been taken for exhibition purposes on a demonstration train.

J. C. Goodwin sent one pen of White Wyandotte chickens and a pen of Indian Runner ducks. H. J. Dillingham shipped a pen of Buff Orpington chickens. S. S. Stoneker sent a pen each of White Orpington chickens, White Holland turkeys and Indian Runner ducks.

The train will visit Plainview Wednesday, November 19.

BLUE-BOOK MAN COMING TO LOG HIGHWAY.

Colorado to Gulf and Borderland Routes Will Be Officially Marked.

O. M. Unger, secretary of the Chamber of Commerce and Vice President of the Borderland Automobile Route, is in receipt of a telegram from Mr. Wm. Dods, official representative of the Automobile Blue Book of America, advising that he can come to Plainview Monday, or will go to El Paso.

Mr. Unger has wired the Roswell Commercial Club to meet Mr. Dods in El Paso, according to pre-arranged agreement. An automobile will be sent to Roswell, N. M., from Plainview to bring Mr. Dods this way.

After logging the Borderland Route, Mr. Dods will log the Western Division of the Colorado-to-Gulf Highway from Amarillo to San Antonio.

MAYOR TELLS SANTA FE LIGHTS COST \$7 A MONTH.

Railroad Company Makes Inquiry as to Cost of Erecting and Maintaining Illumination.

Following correspondence between Mayor J. L. Dorsett and F. Fox, Vice President of the Santa Fe Railroad, with headquarters in Amarillo, a letter from Mr. Fox last week requested the Mayor to give him cost of installation and operation of a light at the foot crossing leading from the depot to Lake Plainview.

Mayor Dorsett at once advised Mr. Fox that the cost of putting up this light would be \$21 and cost of maintenance \$7 a month. These figures were furnished by Charley Malone, of the Malone Light and Ice Company. The light will be a 250-candlepower incandescent, the same as lights now burning around the public square.

The Texas Land and Development Company and Mr. Malone are placing lights at the carriage entrance to Lake Plainview. The railroad company at first refused to install lights, but have reconsidered, since learning of the action taken by Mr. Malone and the Syndicate.

SETH WARD HOPES TO WIN PANHANDLE CHAMPIONSHIP.

North Side Boys Are in Good Condition for Monday's Game with Normal School.

The Seth Ward rooters are clamoring for the football championship of the Panhandle. But they are not shouting any harder than Coach Crouch and his team are working.

This is how Seth Ward can bring the championship to Plainview. The Methodists go to Canyon City Monday for a game with the Normal School. On Monday week Clarendon comes here for a game. If the north side team can count the larger score in both of these contests, then final test will come turkey day.

Wayland and Seth Ward meet for the Thanksgiving contest. Supposing that Seth Ward wins the next two games, they can claim the championship by beating Wayland Thanksgiving; if the Baptists win that game, after Seth Ward has taken scalps in the next two gridiron battles, then Wayland may claim the championship. It is a fight yet. Seth Ward hopes to win.

Purdue will be in the game with Clarendon. He may play Monday. The heady quarter suffered a broken rib when Seth Ward played Lowery-Phillips. Purdue is perhaps the best quarter seen on a local gridiron this season. He handles the team well, can carry the ball and is accurate with his boot. He also gets his punts off well for good distances.

Monday's game will be played on the High School grounds.

SUPREME COURT SAYS MUNCEY MUST TESTIFY.

Case Was Carried from Floyd County When Youth Refused to Give Evidence in Mother's Trial.

Elbert Muncey must testify in the case of the State of Texas vs. Mrs. Birdie Muncey, in connection with the death of Mrs. Muncey's husband, at Lockney, last May. This is the mandate of the Supreme Court, from Austin, yesterday.

Young Muncey refused to testify when his mother was brought to trial at Floydada. He was jailed for contempt of court and released on habeas corpus. His bond was placed at \$500 to await action of the Supreme Court.

The boy is 12 years old. His mother's trial is set for the January term of court.

LAYNE TO DRILL WELLS AT TULIA AND DIMMITT.

The Layne & Bowler Company moved one of their drilling rigs to Tulia yesterday, under contract to put down a big well for L. Klaus & Sons. Their rig which put down the big well at Hurley was moved Wednesday to G. P. Davis' place 3 miles from Dimmitt, to put down an irrigation well for Mr. Davis.

HIGH SCHOOL GIRLS TO PLAY LUBBOCK.

The local High School girls' basketball team will play Lubbock's team at the High School grounds to-morrow (Saturday) afternoon at 3 o'clock. The Plainview girls won from Lubbock at Lubbock, some two weeks ago.

WATER EXTENSION CONTRACT TO IRICK

Plainview Man Gets Award for Putting in Sewer and Water Lines at \$7,021.10.

FIVE FIRMS MAKE BIDS

W. R. Simmons' Offer of \$8,842.38 Is Highest; Will Lay 8,100 Feet of 6-Inch and 4-Inch Pipe.

At a special meeting the City Council let the contract for water extension to R. M. Irick and H. W. Knapp. The consideration was \$7,021.10. The award calls for 6,050 feet of 6-inch and 2,050 feet of 4-inch pipe, with 15 hydrants. Messrs. Irick and Knapp are to give a bond in the sum of \$7,000 for satisfactory performance of their contract.

Other bids were as follows: N. S. Sherman, Oklahoma City, \$7,503.50; J. W. Moore & Sons, Austin, Texas, \$7,570; W. R. Simmons, Plainview, \$8,842.38; L. O. Shropshire, \$7,330.82.

A bond issue of \$10,000 was voted November 9, 1912, for this work. The money is on deposit in the First National Bank, and draws 7 1/4 per cent on daily balances.

The contract provides a payment of 76 1/2¢ a foot for 6-inch pipe, installed; 62 1/2¢ a foot for 4-inch pipe, installed; 4 1/2¢ a foot for fittings; \$29.50 for each hydrant set; \$14.20 for each 4-inch valve set; \$19.25 for each 6-inch valve set, and \$4.25 for each connection with the old main.

A 6-inch line is to be laid on Covington Street, connecting the line on Main Street with that on First Street, approximately 1,450 feet, placing therein two fire hydrants; 6-inch line south on Prairie Street from its intersection with Third to the intersection of Prairie with California Avenue, with two fire hydrants, thence east on California Avenue with a 4-inch line to the main in Pacific Street, requiring approximately 850 feet of 6-inch line and 750 feet of 4-inch line. A 6-inch line will connect with the main in the intersection of Jones and Second Street, running west on Second Street 2 blocks, to the intersection of Second and Westmoreland, with 2 fire hydrants; thence on Westmoreland Street with a 4-inch line to the intersection of Westmoreland with Restriction Street, with 2 fire hydrants; thence east on Restriction with a 6-inch line to the intersection of Restriction and Jones Streets, having 2 fire hydrants. This will require approximately 1,500 feet of 6-inch pipe and 1,300 feet of 4-inch pipe.

A 6-inch line will begin at the intersection of First and Pacific Streets, to run on First Street to the intersection of First and Jones Streets, connecting with the present water main, and having 5 fire hydrants; approximately a distance of 2,250 feet of 6-inch line.

These specifications are in accordance with the recommendations of the committee of Councilmen appointed in charge of this matter, viz: B. L. Spencer, R. W. Brahan and H. W. Harrel.

Payments are to be made for one-half the value of the material as same is delivered at the town of Plainview. Payments for the remainder will be made on the first and fifteenth of each month on estimates of B. L. Spencer, as the work progresses, up to 80 per cent of the value of work done; 20 per cent is to be held by the city until the completion of its contract and its work is accepted by the city after test is made.

COUNTY BUYS SIX DRAGS FOR ROADS.

Commissioners Propose to Keep County Highways in First-Class Condition.

Six road drags have been added to Hale County's highway equipment. These were purchased last week while Judge W. B. Lewis was in Dallas, and will be in Plainview at once.

The county owns sixteen mules, which are divided into two road-working squads. One is grading the road between Plainview and Hale Center; the other is working in the southeast part of the county. Much grading has been done, but the Commissioners found it almost impossible to keep roads first-class without dragging.

With the six drags, Hale County will have a first-class road-building and repair outfit. The Commissioners also propose to put all culverts in first-class condition.

WISCONSIN LIFE POLICIES ALREADY BOUGHT BY 200.

No New Officers Necessary to Handle Work; Expense Low, Through Absence of Agents and Commissions.

- State Life Insurance Facts.
- First State life insurance in America.
- Maximum policy is now \$1,000.
- No new offices created to operate the fund.
- Savings to be returned to policy holders.
- Cheaper insurance through low rates and less expense.
- Funds must be invested in the State.
- Only Wisconsin residents to participate.

Persons living in Wisconsin may now buy life insurance from the State. That was announced in the newspapers of the country a little more than a week ago. The inference to be drawn from such brief mention might be that the scheme is a radical and somewhat flighty bit of legislation. As a matter of fact, the basis of oper-

ations is conservative and also economical.

The high commissions paid to agents of private companies will be avoided. There will be no solicitors to present in glowing terms the duty and benefit of taking out a policy. The person who desires insurance by the State must go after it, and make application to the city, town or county clerk or treasurer, to a bank official receiving State deposits, or to a State factory inspector.

Already more than two hundred applications have been received, says the Kansas City Star. The senior class of the University of Wisconsin took out one hundred policies on the lives of its members, to establish a permanent loan fund to assist worthy students. Many working women are taking it up.

Economy is the chief end obtained by the innovation. That and the influence on citizens of moderate means to protect their families. The State's life insurance is nothing more than the taking over of the best insurance practice of the day reduced to its simplest terms and offered to the people at cost.

Tested by European Nations.
Herman L. Ekern, commissioner of

insurance, who worked out the plan, declares it will be a success. It is founded upon the experience of the State life insurance systems of Italy, Belgium, Great Britain, Norway and New Zealand.

"Of the total expense of old line companies," Mr. Ekern says, "more than one-half goes to agents in commissions and salaries. The expense will be eliminated by the Wisconsin system. The present rates require that 3 per cent interest shall be earned. At least 5 per cent should be earned, leaving a margin of 2 per cent."

Existing government machinery will be used for the operation of the insurance fund. As no new offices are created, it will simply give the officials a little more to do.

Insurance may be granted to persons between the ages of 20 and 50 years in multiples of \$500. Policies are now limited to \$1,000. When two thousand policies have been issued the amount will be increased to \$2,000, and when there are three thousand members the amount will be fixed at \$3,000, the limit under the present law.

Seven Forms of Policies.
Seven forms of insurance are be-

ing issued by the State: Ordinary life, 20-year payment life, 20-year endowment, 10-year endowment, 10-year term, endowment at age of 65, and term to age of 65.

Premiums may be paid annually, semi-annually, monthly or weekly, making it convenient for day workers and persons receiving small wages. Many employers are putting the plan before their employees and offering to advance money to pay the first premiums.

In cases where the payments are deferred, the amount is charged as a loan against the policy until paid. The policy holder may borrow to the full extent of his reserve, and there is no restriction as to change in occupation or travel. The balance of net profits, after all expenses are paid, is to be distributed among the policy holders. The funds must be invested in the State.

AGAINST RED INK HEADLINES.

Readers of the Rocky Mountain News Declared in Favor of Black.

The Rocky Mountain News, of Denver, which was purchased recently by John C. Shaffer, of the Chicago Eve-

ning Post, has discontinued the use of red ink headlines on the front page. The change was made after the proposition had been submitted to the readers of the paper. They were invited to write their preference in the matter, and an overwhelming majority of the letters declared in favor of black ink.

HOUSEKEEPING KNOWLEDGE NEEDED

Woman Admonishes Every Housewife to Properly Educate Herself for Greatest Work.

COMPARES CUTS OF MEAT

Cheaper Ones Just As Palatable as More Expensive When Properly Cooked; Ways of Serving Cold.

"My view of the situation is that it is not so much the high cost of living as it is the cost of high living," a woman writes in the Dallas News. "Meats are higher, to be sure, but people dress better as a rule, and much money is expended for picture shows,

which many persons deem impossible to deprive themselves of.

"Some people are of the opinion that a meal cannot be served without meat. Vegetables and eggs are just as nourishing, and can be served in palatable style. Then, also, remnants of cold meat can be made to go a longer way when chopped and served with sauce on toast.

"Various cheaper cuts of meat are just as tasty as more expensive when cooked properly. Ham off the shoulder, selling for 16 cents a pound, is just as palatable when boiled and served cold as the best ham, which sells for 25 cents. In knowing just what to buy and when to serve it is really necessary in this day. Every housewife should educate herself in these matters and know that simple but nourishing food is the best."

NOTICE, FIREMEN.

All members of the Fire Department are called to meet at the Station next Sunday morning, November 9, at 10 o'clock, to attend special services at the M. E. Church.

C. FRANKLIN, Chief.
FRED COUSINEAU, Secretary.

SHOES AT COST

We have a few pairs of shoes that we will sell, while they last, at cost. They are the popular Peter's Selz, and Giesecke brands and are of staple styles. Sizes are mostly for boys and girls but we have a few men's work shoes. Of most sizes we have only one pair to the size, as following list shows, so come early to get the size desired. There is only one pair each unless otherwise stated.

Boys'. Size. Price. 9 1/2 \$1.25 10 \$1.45 11 \$1.10 11 (2 pairs) \$1.45 11 1/2 (2 pairs) \$1.10 11 1/2 \$1.45 12 \$1.10 12 1/2 \$1.25 13 \$1.10	13 \$1.25 13 \$1.45 13 1/2 \$1.10 13 1/2 \$1.60 1 (2 pairs) \$1.60 4 (2 pairs) \$1.65 4 \$1.90 Men's. Size. Price. 6 \$2.10 7 \$1.10	7 \$1.75 8 1/2 \$2.95 10 \$1.95 Misses'. Size. Price. 9 1/2 \$1.25 10 \$1.15 10 \$1.20 10 1/2 \$1.15 11 \$1.10 12 \$1.15	12 \$1.20 12 \$1.25 13 \$1.00 13 \$1.70 13 1/2 \$1.45 1 (2 pairs) \$1.15 1 \$1.35 1 \$1.45 1 1/2 (3 pairs) \$1.25 2 (2 pairs) \$1.20 2 1/2 \$1.15	3 \$1.10 3 \$1.75 3 \$1.85 3 1/2 \$1.15 5 \$1.35 5 1/2 \$1.75 Children's. Plainview, Texas Amarillo

Loeb, Mrs. Hugo Reisinger, Mrs. Edward A. Faust, Mrs. Paul von Gontard, Mrs. Edouard Scharrer and Carl Busch. August A. Busch is to have two-eighths of the estate, which will produce an income of about \$2,000 a day. The others, except Carl, are to have one-eighth, which will produce about \$1,000 a day for each. The share of Carl, who is an invalid, is given to August, with the provision that \$12,000 a year shall be set aside for Carl's care. The eldest and youngest daughters, Mrs. Loeb and Mrs. Scharrer, however, are restricted as to the full use of their inheritances. The portions of these two are to be kept in trust for them. In the event of the death of Mrs. Loeb, her husband, if she has any (she is now a widow), is to receive one-fourth and the remainder is to be divided among her children. In the event of the death of Mrs. Scharrer her husband is to receive nothing, her estate to be divided among her children. If she should not be survived by children, her share would be divided among her sisters and brother. Exclusion of Scharrer from sharing in the estate was due to Busch's displeasure with the manner in which Scharrer won Miss Wilhelmine Busch. He drove with her to Bellville, in the expectation of persuading her to marry him there, but they were intercepted by a representative of Busch and were not married at that time. Scharrer later followed Miss Busch to California, and they were married there. Busch favored the courtship of a St. Louis attorney, Villa Lilly, in Germany, and an adjoining estate of 1,200 acres, is left to Mrs. Busch, with \$50,000 for her personal use. Mrs. von Gontard is to have the first chance to buy it. The three principal industries, the Anheuser-Busch Brewery, the Manufacturers' Railway and the Busch-Sulzer Bros.-Diesel Engine Co., are not to be liquidated or divided until this can be done without injury to the property. The two employees to whom bequests of \$10,000 each are made are Miss Alvin Clementina Berg, secretary of Adolphus Busch, and Miss Anna Schumann, secretary and companion to Mrs. Busch. Miss Berg had been Busch's secretary for years, and is said to have received a salary of \$5,000 a year. The will was written December 16, 1908, and has three codicils, dated December 8, 1910, December 23, 1911, and June 7, 1912. It was drawn by Charles Nagel, and the original was witnessed by L. R. Osterhaus, Edmund V. Krug and Daniel N. Kirby. Mrs. Busch, A. A. Busch and Charles Nagel are trustees under the will.

KANSAS CITY MAN HAS INVENTED COAL OIL MOTOR.

Claims Cost of Running Cars and Stationary Engines Reduced 75 Per Cent; \$50,000 Plant Planned.

C. Ed Summers, of Kansas City, Missouri, seems to have worked out the device for which motorists and engineers are most anxiously seeking—a kerosene carburetor for motor cars and gasoline engines, motor trucks, aeroplanes and farm motor machinery. Mr. Summers' kerosene motor promises a reduction in the cost of motoring of about 75 per cent. Mr. Summers is a graduate of Purdue University, class of 1906. He was later in charge of commercial testing of internal-combustion motors at the Lewis Institute of Technology, in Chicago. Mr. Summers and others have made extensive tests on Reo and Ford motor cars. The Reo car was run 7,000 miles and the Ford 2,500 miles. Extensive tests were made around Kansas City on cold days and hot days since Mr. Summers solved the problem to his own satisfaction, last February. It has been tried at high and

WILLIAMSON HAFFNER CO. ENGRAVERS-PRINTERS

DENVER, COLO.

low speeds. A Ford car equipped with the kerosene carburetor was turned over to the motor car and truck department of the Kansas City Star. This has proven satisfactory under a most exacting test. One big advantage of his carburetor, Mr. Summers claims, is that it will use gasoline as well as kerosene. It measures the oil in to the machine and gauges it automatically. It is said to be specially adapted to the use of aeroplanes, because it will go twice the distance on the same amount of fuel. Plans have been made in Kansas City for a \$50,000 plant to turn out 2,000 kerosene carburetors a day. It is a simple device, and is much smaller than the gasoline carburetor now used. Use Gasoline to Start. The inventor claims his device will be a boon to the large farmers who use motor power. It can be attached to any kind of motor engine. It is started on gasoline, and then the coal oil is switched on. A motor car using the device will have to carry a gallon tank of gasoline to start the car. Immediately the kerosene is switched on by the simple turning of a lever. Then the car is off, and the operator will not notice the difference in the use of gasoline or coal oil, except that the coal oil gives greater power. The advantage the coal oil or kerosene carburetor has over gasoline, according to Mr. Summers, is "increased mileage, cheapness of fuel, the fact that fuel can be obtained at any farmhouse if the motor runs out of a supply, the removal of the danger of explosions in the storage of fuel on the premises, no evaporation, a preservative of paint on the motor car (as coal oil, or kerosene, is good for paint instead of damaging, as is gasoline), is practically odorless, deposits no carbon sediment to gum spark plugs and cylinders, has perfect ignition, is self lubricating, is smaller than the ordinary carburetor, has fewer parts and nothing to break or wear out, removing cost of repairs and seldom needs adjustment." The expert manufacturer must pass on these claims first, and the inventor says that he shall go to these before trying to establish his claims anywhere else. The kerosene carburetor will be watched with much interest by the engineering world.

FEW FARMERS HOUSE MACHINES.

Besides the Economy, Sheltering Means a Gain in Appearance.

If a careful and complete list should be made of the farm machinery, binders, mowers, hay rakes, hay loaders, plows, cultivators, etc., which are now standing out exposed to the weather in the fields or in the barn lot, its total value would be a great surprise to everybody. Here and there is a farmer who appreciates the importance of housing his machinery, but the number who do this is astonishingly small. The liberal use of grease and paint, and promptly putting the machine under cover when no longer needed for the season, will probably at least double its life. When the machinery is put away at the proper time, notes can be made of any repairs that may be needed, and these can be obtained during the fall and winter, and the machine put in ship shape for the next season. Entirely aside from the economical phase, housing the machinery is well worth while for the sake of appearances, and the man who is in the habit of keeping things cleaned up and in their proper place will carry the same habit into every operation of the farm, to his great profit and satisfaction.—Wallace's Farmer.

WORLD'S COTTON CONSUMPTION.

Statistics of the consumption of cotton for the year ended August 31, 1913, and of the stocks of cotton in spinners' hands on August 31, 1913, issued by the International Federation of Master Cotton Spinners' and Manufacturers' Associations, show that during the year mentioned 129,895,651 spinning spindles out of a total estimated 143,452,659 spinning spindles in the world were at work, and that the consumption of cotton during the peri-

Better cookies, cake and biscuits, too. All as light, fluffy, tender and delicious as mother used to bake. And just as wholesome. For purer Baking Powder than Calumet cannot be had at any price. Ask your grocer. RECEIVED HIGHEST AWARDS World's Pure Food Exposition, Chicago, Ill. Paris Exposition, France, March, 1912. You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

od was 20,277,386 running bales, of which 13,760,261 were American. The stock on hand at the close of the year was 3,540,771 bales, of which 1,622,366 bales were American.

SUMMARY OF WORLD NEWS OF THE WEEK.

President Wilson is at work on a new plan for the restoration of peace in Mexico. It is certain that he will not accede to the wishes of foreign governments for intervention. The Wilson doctrine of basing foreign policy not on expediency or material

interest, but on moral grounds, will be reasserted. It is expected that he will vigorously declare the determination of the United States to maintain the Republics of this hemisphere without interference from Europe. The substitution of General Blanquet, Huerta's right-hand man, for Huerta in the President's chair has become more than a probability. Huerta is

expected to return to his old position of commander-in-chief of the Mexican Army, which office carries with it virtual rule over Mexico. This arrangement would not satisfy President Wilson.

Declaration of martial law in Southern Colorado, where coal miners are on strike, was followed by three battles between guards and strikers, one at Berwind, one at Tabasco and one at Hastings, in which one guard was killed, four union men wounded, two children of nonunion men shot and a county guard wounded. One guard is missing. In the 39 days of the strike, there have been 18 fights and skirmishes, with 28 killed, 41 wounded and injured, six personal assaults and 11 buildings and bridges wrecked or damaged by dynamite. The property loss is estimated at \$50,000 and the loss in wages is estimated at \$2,500,000.

Charles G. Gates, son of the late John W. Gates, died in his private car at Cody, Wyo., of apoplexy. A few days before his death he ascertained the debts of the various churches at Cody and wiped out the indebtedness of some and made substantial contributions to others. Gates had been on a big hunting trip for the benefit of his health. The outfit was the largest that ever went into the big game country east of the Yellowstone Park from Cody. Fifty-five horses were needed to carry the camp equipage. Ten guides and camp helpers were taken along. Twenty-five days were spent in the mountains about Thoroughbred Creek. Gates and his companions killed 10 bull elks, five deer, a grizzly bear and much other game. Twenty horses were needed to bring out the meat and heads. Gates, who was 37 years old, married Miss Hopwood, of Minneapolis, two years ago. She was his second wife.

Mrs. Dave Kennery, wife of a young farmer living near Mountain Grove, Mo., was arrested on the charge of extensive check forging. Numerous checks alleged to have been forged by her were cashed by banks at Cabool, Norwood and Mountain Grove.

Lorenz Hagenbeck, director of a famous zoo near Hamburg, Germany, has accepted a tentative offer to lay out a Zoo in Forest Park, St. Louis, Mo. In a letter to George E. Dieckman, president of the Zoological Society of St. Louis, he says it could be completed in twelve months. The plan he favors is the open-air effect, reproducing as nearly as possible the native habitat of the animals. Lions and tigers would be in a jungle, with iron bars on three sides and a moat 30 feet wide filled with water on the fourth side.

The will of Adolphus Busch, brewer, divides the \$50,000,000 estate, with the exception of \$210,000 for charity and \$20,000 for two women employees, among Mrs. Busch and their seven children—August A. Busch, Mrs. Jacob

HE DIDN'T INTEND TO GO HUNGRY.

A tall, gaunt young man entered the office of the Globe Museum and Family Theater and asked for the manager.
 "What can I do for you?" inquired a pudgy man in a checked suit.
 "I want an engagement as a freak in the curio hall."
 "Who are you?"
 "I am Enoch the Egg King."
 "What is your specialty?"
 "I eat three dozen hen eggs, two dozen duck eggs and one dozen goose eggs at a single sitting."
 "I suppose you know our policy."
 "What's that?"
 "We give four shows every day."
 "I understand that."
 "And do you think you can do it?"
 "I know I can."
 "On Saturdays we often give as many as six shows."
 "All right."
 "And on some holidays we give a performance every hour."
 The young man hesitated.
 "In that case," he finally said, "I must have one thing understood before I sign a contract."
 "What's that?" asked the manager.
 "No matter how rushing business is at the museum," the Egg King replied, "you gotta gimme time enough to eat my regular meals at the hotel."
 —Lippincott's Magazine.

WOMAN 74 TO RUN CACTUS RANCH

The spineless will pay, Mrs. Pickereil, of El Paso, Believes.
 A woman 74 years old is to establish the only spineless cactus ranch in the Southwest, says the San Antonio Express. She is Mrs. E. V. Pickereil, of El Paso, and she intends to go into this peculiar business on a wholesale scale. She is enthusiastic over the proposition, and has but recently returned from California, where she thoroughly studied and investigated the spineless cactus, its growth and uses. Mrs. Pickereil has ordered seven hundred of Burbank samples, and will plant these on her farm near El Paso, and later increase the amount. Each plant will grow thirty-five slabs a year, and make excellent and cheap fodder for horses, cattle, hogs and even poultry. Little has been done with the plant so far except in an experimental way, but Mrs. Pickereil sees an opportunity to make it pay.

The spineless cactus is a semi-tropical plant and will not grow or thrive where the temperature reaches zero. That low a temperature, however, is rarely reached in El Paso. In addition to the slabs used for forage, the plant also bears a fruit that is pleasing to the taste. It resembles the orange. The plant also may be cut into strips and fried or boiled. Those who have sampled the cactus food have found it appetizing. Luther Burbank not long ago gave a banquet at which all dishes served consisted of the spineless cactus cooked in various forms.
 A test was made at the Burbank ranch recently with this cactus. One cow was pastured on the spineless cactus and another was fed on alfalfa. The animal which ate the cactus produced one-third more butter than the alfalfa-fed cow. To prove the value of the experiment the cows' food was then reversed, and with like results. Hogs fatten when given cactus alone.

WHY GLASSES FALL IN COOL WEATHER.

"How did you break your glasses?" inquired the optician of the young woman.
 "Oh, they just slipped off my nose without warning and fell down before I could intercept them," she replied.
 "Well, that's not strange at this time of the year," continued the optician. "As soon as the weather grows cool the nose seems to contract, and glasses slip off very easily. I have had many cases similar to yours."
 "Some people say that my theory about the nose expanding and contracting according to the temperature is all rot, but I find evidence to support it. In summer the glasses fit snug and tight, and sometimes the most violent actions fail to dislodge them. Then, in cool weather the glasses are continually slipping, and sometimes tumble from the nose without warning, as they did in your case. I have often warned my customers to watch their glasses when the weather is cool."—New York Sun.

DETAILS OF DRESS.

Veils.
 Gloves.
 Headgear.
 Footgear.
 Neckgear.
 Handkerchiefs.
 But the most neglected of these is gloves, says an acknowledged social leader.
 They are all important in contributing to elegance of appearance. Take care of these small items of the costume, and the large ones will take care of themselves.

HOGS

What's the Use of Feeding

costly corn, kaffir or maize to a hog that will weigh 150 to 175 pounds at 8 months of age when the same amount of feed may be fed to a pure blood or high grade Duroc Jersey that will weigh from two to three hundred pounds at the same age.

It costs a little more to start but it pays to raise the best type of hogs. Duroc Jerseys are prolific, grow rapidly, have good disposition and attain enormous weights. The head of the herd at Helen Temple Farm is young, vigorous and at present weighs 840 pounds. Many of the dams weigh from 500 to 600

GIRL CANNERS SECURE TRIP TO THE CAPITAL.

Misses in Fifteen Southern States Will Spend Several Days Visiting Washington, D. C.

Fifteen girls, one from each of the fifteen Southern States, are soon to be given a trip to Washington, as a reward for their work in connection with the Girls' Canning Clubs. These clubs are conducted under the auspices of the Department of Agriculture. These fifteen girls are the state winners in the various contests carried on, and are picked from about 25,000 girls who are enrolled in canning clubs.

The Marion County Club won in Texas, but we cannot find the name of the Texas miss who will make the trip. Miss Lillian Shackelford has charge of the Marion County girls.

The canning club work was begun three or four years ago by the Bureau of Plant Industry, in co-operation with various private agencies. Prizes have been given each year, but the visitors have never been sent in a body to Washington before. State

winners in the Boys' Corn Clubs have been rewarded in this manner.

The Department of Agriculture considers that now is the time for the prize girls to have a similar trip. While the department does not supply the funds for the trips, it has arranged that the women agents of the canning clubs shall be summoned to Washington for an official conference at the same time that the girls are to visit the capital. They will, therefore, be called upon to chaperon the girls from their respective states, and will be in charge of them during their visit. December 11 is the date on which this conference is now expected to be called, and on which the girls will probably arrive. They will stay four or five days.

SILVERTON HAS MODEL PUBLIC SCHOOL BUILDING.

Manual Training and Domestic Science Departments Well Equipped; Modern Auditorium.

"The best school building on the Plains" was the verdict of a recent visitor to the Silverton Public School,

and he has seen most of the school buildings which might compete with Silverton.

The building is two stories high, with basement. It is steam heated throughout.

In the basement of the building are rooms completely equipped for work in cooking and sewing. A room for manual training has nine cabinets fitted with modern apparatus. It would compare favorably with equipment found in any city school of Texas or the Northern States.

Class rooms are amply supplied with maps for geography; also for teaching human physiology. Six hundred people may sit with comfort in their well-arranged auditorium. It is seated with the best opera chairs.

Silverton is 35 miles northeast from Plainview. It is an inland town; the county seat of Briscoe County. Their school building cost \$25,000. It gives evidence of being the best value given for money invested of any public building we have seen.

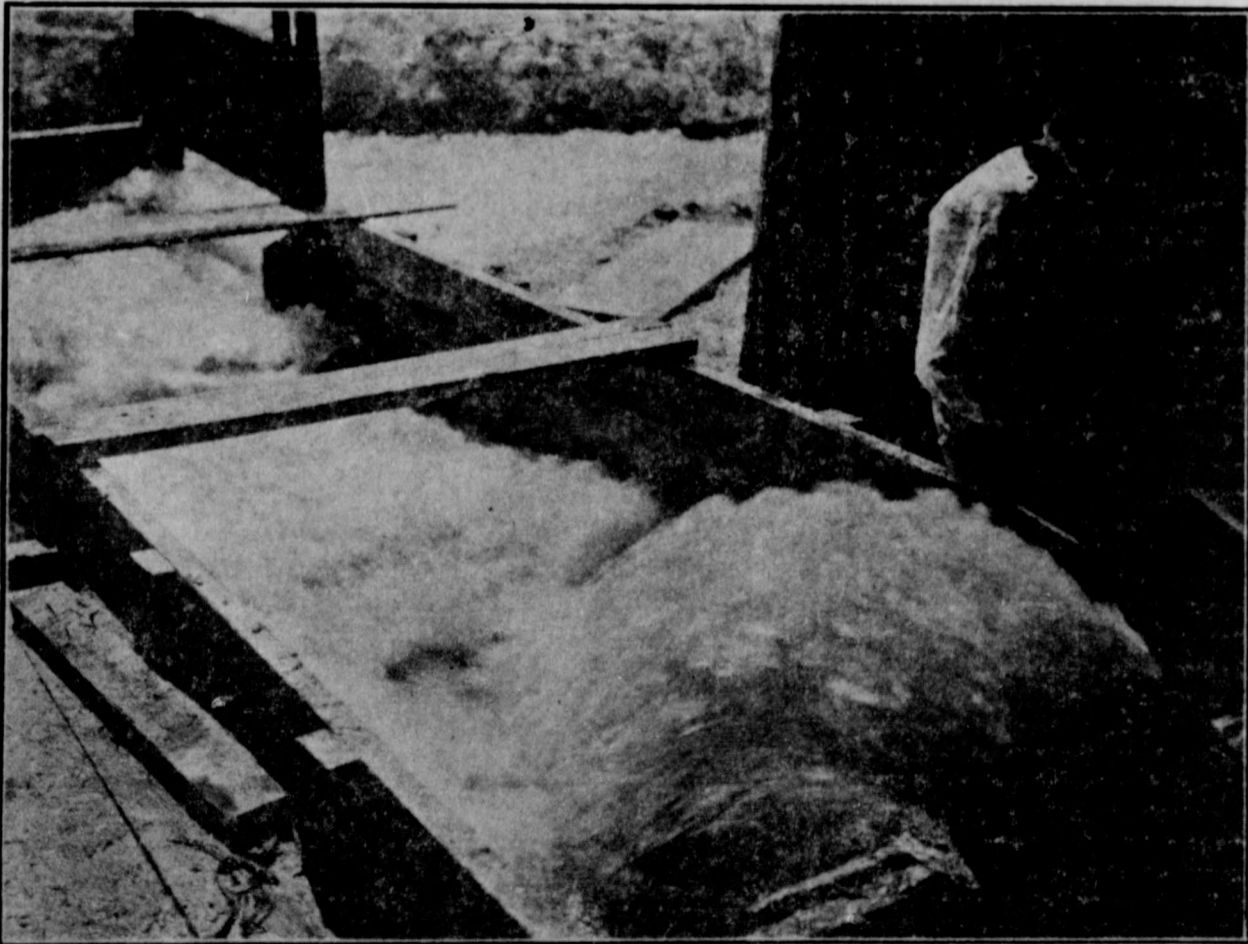

Professor W. G. Sears is Superintendent. The school enrolled a few more than 400 pupils last year.

Turn Your Sense Into Dollars

If you are really interested in making a good sound investment at a time when it can be made to pay big dividends without any effort on your part other than to sit still and wait, talk real estate in the Shallow Water Belt with us.

We have a big lot of real bargains in all sizes of tracts; raw land, partly developed farms, and fully developed farms.

We are offering a special bargain just now of 640 acres, one-half in cultivation, within 5 miles of Plainview.

We make a Specialty of Town Property

Our city list is the largest, therefore you cannot buy to better advantage than through us. Write us, wire us, phone us, or see us whenever you think of real estate bargains.

Plainview Rubber Company

tion of the efforts put forth by both teachers and pupils. Their next entertainment will be given on Friday night after Thanksgiving.

Mrs. A. C. Goen and children, of Floydada, spent several days last week visiting Mrs. Goen's sister, Mrs. E. Burress.

Miss Doris Millue, after spending several months with relatives in Iowa, returned to her home, one mile south of Olton, last week.

Miss Effie Fitzloff is with her sister, Mrs. Dennison, at Los Angeles, Calif., where she expects to study art and music this winter.

Mrs. C. H. Curl, who sustained a broken ankle some few weeks past, is able to get about now with the aid of crutches.

Russell Clark, of Plainview, spent Sunday with his parents.

Mr. L. L. Johnson, formerly a merchant of Olton, is back again, shaking hands with old friends.

Hallowe'en Party.

One of the most enjoyable occasions the young people of our community ever attended was the Hallowe'en party given by Miss Margaret Shellabarger and Miss Bessie Branson, at the home of Miss Branson, on last Friday night.

The guests were met at the door by a witch who directed them upstairs, where they were then met by a ghost who quickly assisted the young ladies in disguising themselves as ghosts, who, as they descended the stairs, solemnly took a vow uttered by the witch that they would do everything asked of them during the evening.

The home was beautifully and appropriately decorated with festoons of yellow crepe paper suspended from the ceiling, with here and there a lantern hanging, which furnished the dim, weird light necessary for the occasion.

A room had been especially prepared where the witch might sit upon her throne and read the futures of those presenting their hands.

Autobiographies were written and prizes given, in the form of tiny yellow pennants with black cats on them.

A delicious three-course supper was served by the popular hostesses on a table that was beautifully decorated with tiny candles at each plate, together with numerous other emblems of the night.

As the guests were about to depart, the fair hostesses declared they would bestow a kiss upon each one. At this the young men were elated, but—alas!—the kisses were passed upon a

COMMUNITY CORRESPONDENCE

OLTON.

Silabee-Jeffries Wedding.

November 4.—A pretty home wedding occurred at the residence of H. C. Silabee, Wednesday, October 29, at 8 o'clock p. m., when his daughter, Cora Edith, was united in marriage to F. L. Jeffries, of Plainview, Rev. S. A. Barnes, of Plainview, officiating.

The couple marched into the parlor to the strains of Mendelssohn's Wedding March, which was skillfully rendered by Miss Prudence Bower, who also softly played "Blushing

Roses" during the ceremony, after which a two-course luncheon was served to the sixty assembled guests.

Many beautiful and useful presents were presented to the young couple, which will add charm and elegance to their new home, which they expect to make in Plainview.

The many Olton friends of Mrs. Jeffries wish them all that is bright and happy in the coming years.

Mr. and Mrs. J. J. Clark and Mr. and Mrs. W. W. Pugh were in Plainview Thursday night.

Miss Dorothy Foley, who is teaching school at Spring Lake, spent Saturday and Sunday with her parents.

A very interesting program was rendered by the Olton School, at the Court House, Saturday night. A crowded house showed their apprecia-

An Ideal Christmas Present

Phone 327

plate, each one wrapped in tissue paper, with their fortunes enclosed.

Each one present voted this entertainment the most delightful of the season.

HALE CENTER.

November 3.—Brother Gates, of Plainview, preached at the Baptist Church Sunday morning, and Brother Saffle filled the pulpit Sunday evening at 7:30.

Mr. Smithee, who has been living on Uncle Bob Lemond's farm near town, is nearly ready to start on his move to New Mexico. Mr. Smithee has the good wishes of his many friends around Hale Center.

Last Friday night several boys played the prank of turning over closets, misplacing wagons and buggies, etc. Saturday morning a few words of advice and admonition from the justice of the peace induced the boys to replace and repair all things removed or molested.

The Literary Club of the High School rendered an interesting program Friday afternoon. One number on the program was a debate of the question of compulsory school attendance. The negative side won. "Uncle Less" Harrington spent nearly two weeks at the Dallas Fair. He also visited his brother near Dallas while there.

Mr. E. B. Brown, science teacher in the High School, returned Sunday from a two days' trip to Canyon.

Mr. S. W. Perry and his family visited in Plainview last Saturday and Sunday.

Next Friday evening there will be an entertainment for the Senior League at the Methodist Church. A program will be rendered.

KRESS.

November 5.—These rains are making fall wheat look fine. May the good work continue!

Several of our boys have been before the Grand Jury in Tullia this

week. It's a pity so many fellows in our vicinity take "court" and "law" so very frivolously, counting it as a pastime joke, rather than an institution to be feared and honored.

Among those returning from Dallas this week were Mr. J. W. Skipworth, Jr., and wife, Roger and Billy Scheihagen and their father. All report having had a good time.

Bro. F. T. Skipworth, with his wife and daughters, Maude and Ira, left Wednesday for Oklahoma. They are visiting one of Mr. Skipworth's daughters, who is seriously ill with rheumatism.

Mr. and Mrs. Bert Bigley are visiting this week with her parents, Mr. and Mrs. Houser. They expect to leave for their home in a few days.

Mrs. B. N. Graham is taking a subscription, by order of the Woman's Missionary Society of the M. E. Church, for the purpose of purchasing a new suit of clothes for the pastor, Brother Butterfield, of Plainview.

Ira Frazier is at home and in school again, after an absence of about seven weeks.

Mrs. V. A. Beck returned Wednesday from Zephyr, at which place she had been making a few days' visit with relatives.

KRESS.

November 4.—Mr. O'Neal received a carload of cotton seed cake last Thursday, and hauled it out to the McFarlan Ranch, about 20 miles west of Kress.

Mrs. Jordan and children left Kress Friday, to make their future home at Forney.

Mrs. May Rousser has been on the sick list two or three weeks, but is getting better, and visited with her parents, Mr. and Mrs. E. E. Overly, in Kress, Sunday.

Mr. C. Houser was a caller in Silverton Saturday.

The German minister of Plainview preached at the Central Plains school house, eight miles west of Kress, Sunday.

A heavy rain fell Monday night.

Rob Rousser went to Tullia Monday morning, to be a grand juror.

Mr. Skipworth shipped two carloads of sheep to Kansas City Saturday.

Mr. Hinkle and family autoed out to the Central Plains school house to attend the German services Sunday.

Dr. Ford and Mr. Skinner were callers in Tullia Tuesday.

Messrs. J. A. Bush and T. A. Oliver drove to Tullia Wednesday.

Howard Overly went to Kansas City last week.

PRAIRIE AVENUE.

November 4.—The young people had a fine singing at Jas. Pullen's last Sunday night.

Mr. Frank Hudgin's baby was on the sick list last week.

The dance at Mr. Fred Boedeker's Saturday night was well attended.

Clayton Williams visited at Sand Hill over last Sunday.

A fine rain fell here Monday.

W. E. Palmer was the guest of J. A. Pullen over Sunday.

School is progressing nicely.

Mr. Jim Baggett built a fine wash-house last week, Jim Pullen being the main carpenter.

Mr. Stovall, of Plainview, was in our midst last week, and delivered two brand-new standard Gerhardt pianos, to Jas. Pullen and Mr. E. C. Dodson, of Providence precinct. It is reported that Jim sat up and watched his all night and tried to pick out the tune on it of "Gone are the days when you and I were young, Nellie." We failed to learn what Mr. "E. C." did.

Mrs. Nine McComas and children visited her aunt and uncle, Joe Barrett and wife, over Sunday.

WEST SIDE.

November 5.—Mr. T. A. Douthitt made a trip to Plainview.

Mrs. W. A. Doan will leave soon for Clarendon, Texas, where she will

SPARE THAT TREE.

A tree on the Plains is a thing of
beauty and of real commercial worth.
Plainview has made a continued effort
to induce tree planting. As a
result more trees may be seen around
town than a visitor will find anywhere
else on the Plains.

It has been necessary while putting
down street crossings to block passage
on certain thoroughfares. Most
drivers have gone around. One or
two have been so anxious to save steps
that they would drive across lawns,
over sidewalks and against growing
trees.

On Jones and Second Streets two
growing trees have been trampled
down by some individual who cared
more for a hundred steps than he did
for the rights of property.

It has taken time to grow those
trees. The time element is of more
importance than the money necessary
to replace the injured property.
Whether this act was done in a spirit
of careless vandalism or thoughtless-
ly it is reprehensible.

Individual rights, the importance of
trees to Plainview and a sense of civic
pride should prevent any man from
driving across another's lawn, much
less riding down his shade trees.

ELECTION RETURNS.

Returns from Tuesday's election in-
dicate that David I. Walsh, Democrat,
was elected Governor of Massachusetts.
The Legislature is Republican.
James F. Elder, Democrat, won in New
Jersey by a majority slightly less than
that of President Wilson when he be-
came Governor of his Commonwealth.
A Democratic Senator was chosen
in Maryland.

The Democrats won in Virginia.
Republican councilmen were elected
in Philadelphia, and the "G. O. P."
machine was victorious in Pittsburgh.

Republicans claim a majority in the
lower branch of the Legislature in
New York State. In Greater New
York John Purroy Mitchel and his en-
tire fusion ticket won over Tammany
by a majority estimated at 75,000.
William Sulzer, recently impeached as
Governor, was elected to the State
Assembly from the Sixth District.
The returns are not significantly

different from those of last November.
A revolt against Tammany in New
York City was expected by observing
non-partisans.
The question is: Will Tammany
win next time?

**THE BIGGEST THING FOR
PLAINVIEW.**

The Biggest Thing for Plainview
isn't an auditorium which will cost
\$5,000 or \$6,000. Measured in man-
hood, in culture, in better citizenship,
the locating here of an assembly of the
Methodist Church for ten days and a
like assembly of Baptists for ten days
is the biggest thing Plainview may
secure.

In dollars, it offers a remarkably
profitable return on the investment
required; a return each year of three
or four times what it will cost us.

In the way of advertising the Plain-
view country, it offers publicity more
valuable than any community can pur-
chase. Every visitor will become a
living advertisement for Hale County.

If it will enable us to secure sum-
mer tourist rates from all points in
the United States, and give us adver-
tisement as a summer resort point,
that alone is of much larger value
than the cost.

The work must be done quickly.
That it will be done it not doubted by
those who know Plainview and Plain-
view's way.

In view of the gain for Plainview,
and for every man, woman and child
in Plainview, isn't it surprising that
fewer than 100 men came out to last
night's mass meeting? As a matter
of fact, Plainview's way of getting
what will benefit the town is the way
of considerably fewer than 100 of her
citizens.

These men will get up the \$7,000 or
\$8,000. They could have done it with
considerably less effort, a sacrifice of
less of their time, and with very little
less of your time if you had come out
to Thursday night's mass meeting.

Plainview's way has won; it con-
tinues to win. It means dollars to you,
Mr. Businessman, Mr. Merchant, Mr.
Real Estate Dealer, Mr. Banker.
Wouldn't the square thing be for you
to come out to some of these meet-
ings?

Get Stationery at The Herald.

**LAYMEN TO CONDUCT
SERVICE AT CALVARY.**

R. M. Iriek Will Have Charge of Meet-
ing in Pastor's Absence; Subject Is
"Growing a Great Work."

A laymen's meeting will be held in-
stead of regular preaching service at
Calvary Baptist Church Sunday morn-
ing. Rev. C. R. Hairfield, pastor, will
be absent Sunday, and R. M. Iriek
will take charge of the meeting.

The following program has been ar-
ranged:
Subject—"Growing a Great Work."
Leader—R. M. Iriek.

- Song.
- Prayer—By Leader.
- Scripture Lesson—Col. 1:1-39; Eph.
1:15-23.
- Offering.
- Announcements.
- 1. "Constructive Planning an Im-
portant Factor in Every Truly Great
Work"—H. J. Dillingham and W. B.
Joiner.
- 2. "Prayer a Mighty Force in Re-
ligious Achievements"—G. F. Pool.
- 3. "Enlisting Others—Get Another
One"—J. M. Lovelady.
- 4. "All Working Together—Every
Man According to His Ability"—C. A.
Bivens.

- 5. "Going After Larger Things"—
J. C. Jones.
- Song, with invitation to church
membership.
- Benediction.

**ORGANIZING PRESBYTERIAN
CHOIR AND ORCHESTRA.**

E. A. Bannister, who recently moved
to Plainview from Lamar, Colorado, is
organizing a choir and orchestra for
the Presbyterian Church. Before
coming to Plainview Mr. Bannister
conducted a large choir at the Meth-
odist Church in Lamar.

Call The Herald for Business Cards

**MISS JULIA ANSLEY
TO LEAD LEAGUE SUNDAY.**

"What Can We Do for Our Little
Brothers and Sisters" is the topic for
Epworth League Sunday. The meet-
ing is called for 4 o'clock. Miss Julia
Ansley is leader.

The program is as follows:
"An Accusing Conscience"—Miss
Beulah Poston. Gen. 41:22.
"Feed My Lambs"—J. E. Martin.
Jno. 21:15.

"The Child, the Judge"—O. D. Coan.
Matt. 18:5-6.

"The Supreme Treasure of the
House"—Annie Lou Waddell. Gen.
44:30-34.

PUBLIC SINGING SUNDAY.

A singing to which everybody is in-
vited has been arranged for 3 o'clock
Sunday afternoon at the Church of
Christ. The church is located at the
corner of Grover and First Streets.

RECOMMENDATION.

Inasmuch as it is a menace to health
for a building to be continuous-
ly occupied without proper disinfection,
we, the members of the Civic
League recommend to the Board of
Trustees of Plainview Schools that
the public school buildings of Plain-
view be disinfected during the Christ-
mas holidays, under the supervision
of the City Health Officer.

CIVIC LEAGUE

Mrs. J. A. Varnon, who visited Mrs.
Dick Bryan, returned Wednesday to
Roswell, New Mexico.

Rev. M. S. Leveridge, of Tulsa, came
in yesterday. He is a member of the
examining committee of the Methodist
Church, and is here with the com-
mittee to catechise three young men
who will ask for license at the Con-
ference at Vernon next week.

John Wilkins, of Near Bartonville,
was in Plainview yesterday. John
says that the people in the Abernathy
country have gone wild over silos.
They can't "go wild" over an improve-
ment which will mean more to them in
dollars.

Lieutenant Colonel Charles W.
Nimon, of Gainesville, Texas, Fourth
Regiment of the National Guard,
came in yesterday. He is looking into
the organization of a militia company
in Plainview.

NOTICE.

Plainview, Texas, Nov. 4, 1913.
In order to let our delivery men and
teams turn in earlier during the winter
months,

We, the undersigned Grocersmen,
hereby agree to close our stores at
6:30 p. m. until March 1st, except on
Saturday night and December 22nd to
Dec. 25th, 1913.

AND TO TAKE NO ORDERS FOR
DELIVERY AFTER 5:30 P. M. And
we will thank our customers to order
early, so the men and teams will not
have to be out so late in the cold.

This takes effect Monday, Nov. 19th.

LOCAL AND PERSONAL

R. H. Mitchell went to Amarillo to-
day.
B. F. Scott, of Paris, Texas, was in
Plainview Tuesday.
Judge Lancaster went to Hope, New
Mexico, Wednesday.
A. J. Keenan, of Abilene, came to
Plainview yesterday.
Mrs. J. Penny, of Lubbock, went to
Roaring Springs to-day.
M. T. Cunningham, of Lubbock, was
a visitor in Plainview yesterday.
Mrs. J. R. Brooks, of Coleman,
Texas, went to Tulia Wednesday.
Judge Joe E. Lancaster left yester-
day on a business trip to El Paso.
R. S. Morrison, of Oklahoma City,
is a visitor in Plainview this week.

Judge W. B. Lewis returned from a
trip to the fair at Dallas Tuesday
night.
S. J. Wood and family moved Wed-
nesday from Coleman, Texas, to Tulia,
Texas.
Mrs. H. F. Long, of Houston, came
in today to visit her parents, Judge
L. C. Penry and wife.
Mrs. J. C. Finley went to Lockney
yesterday to visit her father, the Rev.
H. G. Finley.
Mr. and Mrs. M. R. McCluskey, of
Spring Lake Ranch, were in Plainview
Thursday, in their automobile.
T. D. Lipscomb came in the first of
the week from Iowa, where he has
been in business some months.
Judge C. H. Curl, of Olton, accom-
panied by Mrs. Curl, drove to Plain-
view this morning, in their Ford.
Little Mary Fawver is rapidly get-
ting well. Mrs. J. V. Guyton says that
she will be able to leave the sanita-
rium early next week.
Dr. George J. Williams, of Kentucky,
has moved to Plainview and is opening
an office for the practice of dentistry
in the Smyth Building.
E. H. Perry returned from Dallas
Tuesday night. Mr. Perry was in
charge, with J. D. Hanby, of Plain-
view, of the exhibit at the State Fair. He
is another one of the party who
"freighted" it in.

Dr. J. V. Guyton went to Chicago
today to attend the North American
Surgeon's Congress. This meeting
will be attended by eminent physi-
cians from all over the United States
and England. Dr. Lane, the noted
English specialist, will give a number
of demonstrations.

A boy was born to Mr. and Mrs.
L. D. McDaniel Saturday.
P. D. Coulson, of Lockney, was a
visitor in Plainview Wednesday.
Mrs. J. W. McCoach, of Post City,
came in yesterday to visit her sister,
Mrs. L. L. Gladney.
Miss Mattie Slaton, of Lubbock,
was here yesterday. She has been
confined in Guyton Sanitarium.
Mrs. L. F. McDonald, who has been
on a week-end visit to her parents,
A. E. Harp and wife, returned to-day
to her home, at Channing, Texas.
Rev. C. R. Hairfield left Wednesday
for Chickasha, Okla., to attend the
Oklahoma State Baptist Convention,
which is in session there this week.
W. B. Philpott, of Amarillo, is look-
ing over the Plainview country this
week. He has much faith in the out-
look for irrigation with our big wells.
Mrs. C. C. Gidney left Wednesday
for Waco, to attend the Cotton Palace.
She will also visit her daughters, who
are in school at Fort Worth, before
returning home.
Mr. and Mrs. J. H. Lutrick, from the
south part of the county, were in
Plainview last night, attending the
fourth Quarterly Conference of the
Methodist Church.
J. L. Wheeler returned this week
from the Dry Farming Congress, at
Tulsa, Oklahoma. He distributed a
liberal supply of literature about Hale
County while in attendance on the
Congress.
T. H. Hickman is moving to Plain-
view, from Central Texas. He has
bought a farm north of town. Mr.
Hickman is a Missourian, and former-
ly attended the University of Missouri,
at Columbia.

J. L. Moore, of Carthage, Missouri,
is looking over the Plainview country
this week.
Vertreece Barnes went to Amarillo
to-day. He will drive an Overland
back for Egge-Corlett Auto Co.
Professor R. L. Marguis, of the State
Normal School at Canyon, is in Plain-
view to-day, en route to Floydada.
He is to speak for the Mothers' Club
of Floydada to-night.
B. W. Wilkins came in today to
take examination before the Quarterly
Conference. Mr. Wilkins is a young
Methodist preacher, and formerly at-
tended Seth Ward College.
J. F. Duncan returned Tuesday
night from the Dallas Fair. As a mat-
ter of fact, there are no night trains
scheduled for Plainview. The Doctor
claims that he came by freight.
J. D. Hanby, one of Hale County's
representatives at the Texas State
Fair, returned Tuesday night. There
seems to be no explanation of why
the Fair visitors all came home "by
freight."
FOR SALE: One 1,500-pound motor

shears' and the young ladies at Miss
Nance's—and were blindfolded. The
march to meet each other in the street
at a designated point began. When
face to face, partners were matched
up and all marched to the home of
Miss Nance, where games were played
and masques removed.
Miss Ola Bishop played Gipsy and
told the guests their past, present and
future.
The young people to enjoy this
unique Hallowe'en party were: Misses
Gists, Nell Webb, Josie Goode, Miss
Anderson, of Canyon; Flora May
Scudder, Dorothy Bolton, Ada Winn,
Majorie Saffles, Beulah Rushing,
Allene Hall, Georgia Brashears and
Lillie Nance. The young men were
Messrs. Paul Barker, Curtis Wes-
coat, Dun Powell, Fred Cousineau,
O. T. Rushing, Julian Rushing, Hor-
ace Lindsay, Earl Grey Owens, Wiley
Brashears, Wade Roberts, Wallace
Davenport, Luther Bain and Cecil
Warren.
**FIREMEN TO ATTEND

(Continued from Page One.)
North Texas and Southern Oklahoma.
He thought the assembly would be of
more benefit to Plainview than any
other enterprise we have had an op-
portunity to secure. Every man who
comes to the assembly will be a boost-
er for the Plainview country when he
goes back home, he said.
President W. M. Pearce of Seth
Ward College said that it would be
impossible to overestimate the value
of the assembly to the two colleges
and High School in Plainview. He
suggested that the two colleges could
each furnish a musical program for
the assembly.
President I. E. Gates of Wayland
College referred to the Baptist As-
sembly at Palacios. Palacios, he said,
was a town of 500 people when the
assembly was started, 5 years ago. It
has grown to have more than 6,000
people, and the encampment numbers
between three and four thousand peo-
ple each summer.
The visiting Baptists, he said,
founded a college at Palacios. It is
out of debt, and every year the en-
campment contributes \$5,000 to \$7,000
for its benefit—just because they go
there and become interested. They
will do the same thing for Wayland
and the Methodists will do likewise
for Seth Ward, he said, if we get them
to coming out here.
Dr. George Truett and Dr. Gambrill
and other leading Baptists of Texas
have urged Dr. Gates to start a sum-
mer assembly at Plainview.
It was also pointed out that with
the establishment of an assembly at
Plainview it would be possible to se-
cure summer tourist rates here from
all points in the United States, thus
verying advertising of Plainview,
which returns
the present that \$8-
mount to put up

THE CAR THAT SELLS
BY THE TRAIN LOAD

Buick

A few years ago if a motor car got where it started for, it caused remark. Nobody expected it to get there.

Today the motor car that doesn't get where it starts for is the car that causes the remarks. Everybody expects it to get there.

And when you come down to brass tacks, getting there is the fundamental oyo of motoring. It's the concern that builds a car that can't, that's the concern that's going out of business.

Did you ever stop to think how seldom it is that you ever see a Buick hung up on the road? That's Buick reliability.

If you have driven over really bad roads and haven't seen a Buick plowing right through it where another car is helplessly wallowing, you're the exception. A Buick has pulled more cars out of a hole than any other car on the market. That's Buick power.

If you are driving anything but a Buick, ask any Buick owner how far he goes on a gallon of gasoline. He'll have you beaten. That's Buick economy.

The Buick Overhead Valve Motor guaranteed to develop more power and give more mileage per gallon of gasoline than any other motor of its size, either American or foreign make.

Our Sale Has Been Successful

We have sold many new customers and have pleased them. We can please you too because we carry many of the best lines of furniture, mattresses, rugs and other floor coverings, stoves, etc. at prices that are right. Let us figure with you and we believe you will be pleased with the result.

If you have any old family heirlooms in the way of rich old furniture which you cherish let us brighten them up in our repair department. We can bring out the natural wood effect and make you glad that you gave up the idea of selling them as second hand goods. If you just must sell them to get them out of the way we will buy them.

Our motto is, "If it isn't good we make it good."

WHAT A CITY MANAGER DOES.

Clarinda, Iowa, Finds an Escape from Political Administration.

Some months ago the city of Clarinda, Iowa, adopted a plan of administering city affairs under the direct supervision of a single individual, called the city manager.

The Iowa law provides for a city council composed of a mayor and one councilman from each ward of the city, and two councilmen at large. As a first step in concentration the number of wards in this little city of about four thousand inhabitants was reduced to two, thus limiting the number of councilmen to four. At the same time the size of council committees was reduced from three members to one, and they only act as advisers to the city manager. The next step was to appoint one man outside the council to act as city manager. His duties were to be those of the former city clerk, the street commissioner, the water commissioner, the sewer superintendent, and the custodian of the cemetery.

Such a man was found in the person of T. A. Wilson, a resident of Clarinda, young, industrious, energetic, with previous business experience. His office is always open to the public, and all complaints received by him are registered and promptly investigated.—Engineering News.

A GREAT MAN.

That man is great, and he alone,
Who serves a greatness not his own,
For neither praise nor self;
Content to know, and be unknown:
Whole in himself.

Strong is that man, he only strong,
To whose well ordered will belong,
For service and delight,
All powers that, in the face of wrong,
Establish Right.

And free is he, and only he,
Who, from his tyrant passions free,
By Fortune undismayed,
Hath power upon himself, to be
By himself obeyed.

If such a man there be, where'er
Beneath the sun and moon he fare,
He cannot fare amiss;
Great Nature hath him in her care;
Her cause is his.

—Owen Meredith.

Cures Old Sores, Other Remedies Won't Cure.

HOW TO CAN MEATS.

Pork for canning must be baked or the beef boiled the same as for immediate eating, and the back pieces or the shoulders chosen. The shoulders, if cut in two, will bake nicely. When thoroughly done and while still hot, the meat is easily slipped from the bones in large pieces. In the back cuts there will be a nice roll of solid meat. After the meat has partly cooled, cut it in good-sized pieces, and pack the jars as full as possible. Fill to within an inch of the top with the brown liquor from baking or boiling, adding a small quantity of the fat.

Jars with large mouths should be used, as the meat can be packed in larger pieces and better shapes, and will come out better.

Set the cans in a wash boiler or other large kettle, putting thin sticks under the cans. Fill in between the

cans with paper, so that they cannot touch one another or tip over. Fill the boiler with water about to the necks of the cans, and bring it to a boil. Keep boiling steadily for one hour. Remove it from the stove, but not from the kettle.

Beefsteak should be chopped as for Hamburg steak, but not made into patties. Fry it in plenty of butter until the juice is all out, leaving just the butter. Pack it closely in glass jars, pressing the meat down until it is covered with butter, then seal the jars while hot.

Sausage and smoked ham do not need to be put in glass. Slice, fry and pack them in stone jars. Pour over the meat the fat which fries out, and press the meat down under a weight. When cold, cover it to a depth of at least one-half inch, adding fresh lard if necessary, and close the dish tightly.

If care has been taken the meat will be just as nice in six months or a year as when canned.—Farm and Fireside.

COMMUNITY CORRESPONDENCE.

(Continued from Page Five.)

spend two or three months with her parents.

Mr. J. C. Homan took a load of hogs to Plainview.

Mr. and Mrs. W. A. Doan visited Mr. Homan's last week.

Mr. T. J. Johnson has returned from Comanche.

Porter and Doan sold their sheep to Mr. Sansom and son, of Plainview. West Side school is progressing nicely. The attendance is good.

The West Side community received one of the hardest rains the night of the 3rd that has fallen this season.

CENTER PLAINS.

November 5.—Mr. Hobby Thomas has returned from Floydada.

Mr. L. J. King and family have moved to the Hooper community.

A number of our young people attended the spelling match at Norfleet last Friday night. They report a good time. Cake and chocolate were served.

Mr. Charlie Boyd came in from the Fair Tuesday.

C. C. Pachta's family leave for their new home, in Northern New Mexico, this week.

A crowd from Mayfield, Norfleet and Hale Center attended our Literary Society and play Saturday night.

Mr. Forest Sagaser has returned home, after an absence of several months.

Mr. T. W. Canterberry has sold out, and will leave with his family for Van Zant County in a few days.

Mr. T. D. Bennett and family, of Littlefield, are visiting J. W. Stevens this week.

Calling Cards at The Herald.

ELLEN COMMUNITY PLANS PUBLIC SCHOOL LIBRARY.

Judge W. B. Lewis Will Address Rally on Education; Box Supper for the Hungry.

Ellen community is planning to have a school library. A rally has been set for Saturday night, November 15, and a box supper will be given at that time to secure proceeds with which to begin the library. Judge W. B. Lewis will talk on "Education" at the rally.

West Side and Abernathy began plans for libraries two weeks ago. Rural schools over Hale County, as well as the Plainview schools, are making arrangements for libraries.

DROUGHT AND FARM PRICES.

Figures in the Southwest Are Not Lowered Because of Crop Loss.

Following the severe drought of last summer in the Southwest, representatives of two Eastern insurance companies which held mortgages on farms in the drought-affected district traveled through that section to find out how much their securities had been affected by the crop loss. They assumed, at least for purposes of investigation, that land values had suffered materially, and, going from farm to farm, asked what price would buy the farm and its equipment in the way of live stock and implements.

In no instance did they find any farmer who would consider any lower figure on account of the drought or the partial loss of crops. That was a mere incident, largely offset as a source of damage by the better prices received for what was produced, while the mere suggestion that it should constitute a reason for lowering of values only served to raise the estimates the farmers placed upon their property, as they cast up their assets under the insinuation that farm values had depreciated or were unstable. In such conclusion they were fully justified by the facts. Here are some of the facts: The consuming power of the country is increasing—at the rate of 21 per cent during the last decade; the first necessity of life is food; the food supply comes mainly from the farm; the census reports show large increases in values of food products of the farm—all out of proportion to the increase in volume of production—in fact, some staple articles show an actual decrease in production—while total values rise in large percentages. The increase in acreage in improved farms is only 15 per cent, compared with the 21 per cent increase in population, which, however, does not tell the whole story, for the official reports also show that urban population increased 34 per cent, while the rural, which includes the farming population, increased only 11 per cent.

The increase in value of products of the farm, taken as a whole—live stock showing a gain of 60 per cent in 1910, as compared with 1900, and field crops a gain of 83 per cent for the same period—seems to be a good basis for the advance from an average of \$15.57 to \$32.40 an acre for farm lands, taking the country as a whole.—Financial Review.

Get Stationery at The Herald.

Are You Going to Irrigate?

If you are tired of the uncertainties of dry farming--of having a crop this year and a failure next and have thought of the more certain way of putting "rain" on your crops when they need it you will next ask the question "What equipment do I need?" Our answer is, you need the best unless you are putting in a plant to unload. If you want it for your own use certainly the best is none too good.

We have put in 52 wells to date all of these wells are pumping water in sufficient quantities for irrigation.

One of the real needs for successful pumping is a good engine.

The Charter Type "R" Engines are built for just the service you most desire; the three cardinal principles of their construction are **Economy, Durability and Efficiency.** The three points most desirable in any engine and the most necessary in an engine for pumped irrigation.

Read what J. Rees Dillon says of the Charter Engine, then call on us to duplicate the job—well and pumping plant complete.

Charter Gas Engine Company,
Sterling, Illinois

Gentlemen:

I have the pumping plant purchased of you last Fall set up and although we haven't needed any irrigation this year so far, have pumped enough water to thoroughly test the engine and pump. I am more than pleased with the outfit. It delivers the water as you specified easily and the 25 H. P. Type "R" is the most complete engine I have seen. The drop feed of the fuel and the positive inlet valve features developing the power with minimum fuel are especially pleasing.

Very respectfully,

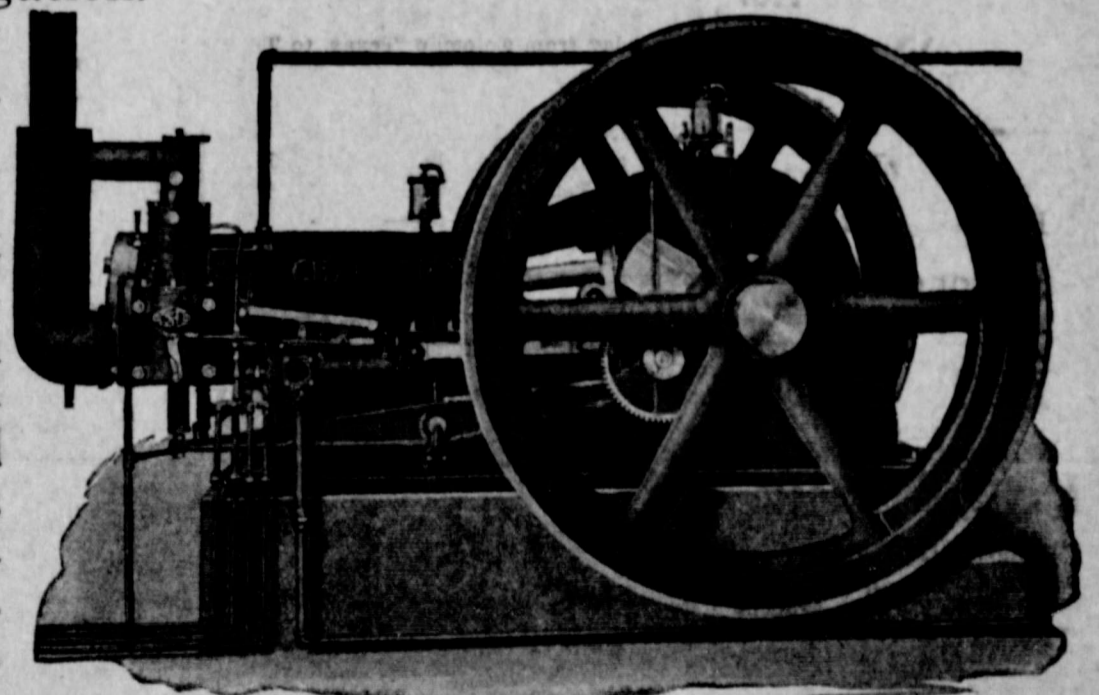

J. REES DILLON.

GREEN MACHINERY CO.

PUMPING PLANTS

Plainview, Texas

Bixby, South Dakota, May 29th, 1913.

Syrup That's Different

It looks different, smells different and tastes—well, its delicious, tempting flavor sets it above all other syrups made.

One cup Farmer Jones Sorghum, three eggs, one cup sugar, one cup butter, one cup sour milk, two teaspoons soda, one and one-half pounds seeded raisins, one pound currants, one-half pound chopped English walnuts, one-fourth pound chopped citron, three and one-half cups sifted flour, one tablespoon cinnamon, one teaspoon ground cloves, one teaspoon grated nutmeg. Dissolve one teaspoon soda in the sorghum and the other in the milk. Mix thoroughly and bake in slow oven. FREE—Farmer Jones Recipe Book on request.

It is made differently—treated differently—blended differently. First of all, only our own Sorghum is used, and we are the largest growers of Sorghum in the world. All foreign matter is carefully removed before the cane is treated. The juices are then boiled down in vacuum pans and are reduced to a heavy syrup without once coming in contact with the air. The natural purity is maintained absolutely unspoiled and is ensured by putting up the syrup in new, carefully sterilized tins, hermetically sealed.

Try it for yourself next time you sit down to your griddle cakes or waffles. You'll see the difference at once, and will create a new enjoyment for your appetite.

Packed in 5 and 10 pound friction-top tins—easy to open—easy to close up again. We include cane syrup with an addition of corn syrup to prevent fermentation.

Ask Your Grocer. If he shouldn't happen to have it—he'll get it. Send us 5c in stamps to pay postage and we will forward you a sample can of FARMER JONES SYRUP and a Recipe Book—see above.

THEY FAVOR WRESTLING.

Editor Hale County Herald:

I notice an article in the Plainview News of last week, "To Wage War on Wrestling;" also comment on same by the Civic League, summing up this harmless vice, the degrading and evil effects from a moral, social and financial standpoint.

What a seething mass of spiritual, mental, social and moral deformities we would be if we all felt, thought and looked alike. There are people in the town who do not care for forty-two, bridge or five hundred, but who long for an exciting stage in their lives such as comes to those who are about to win a \$5.00 stick pin or a \$10.00 shopping bag in the excitement of the above games. Brain, brawn and morality should be developed alike in a clean way.

I have never attended a wrestling match, but can conceive of no harm from these physical contests. Football is more brutal than wrestling, and if the people of Plainview will build an auditorium, organize an athletic club and go on record as advocating athletic sports, and make an effort to get some of the league ball teams to practice here, prior to the opening of the baseball season, which could be done, on account of our altitude, which is conducive to brain and muscle development, thus bringing several hundred athletes from every nook of the country, it would give us publicity that would herald Plainview to the four quarters of the globe, which would be one of the best business drawing cards imaginable, and I do not believe it would hurt us spiritually and morally, if we would cut out gambling in every form.

Some days prior to the vote on the pool halls, I had a party here who came with a view of building houses with foreign capital. Spending Sunday, he noticed account of the election in our county papers, and, being refused cigars and cold drinks, and being informed by some one that through auto tourists could not get supplies on Sunday, he left Monday, with this statement: "I cannot invest here. As I see it, your citizens will crush the efforts and prospects of your town to become a city."

I am not endorsing the pool hall—never played a game—but am merely giving others a right to express their opinion. On this broad expanse of fertile, level prairie country, where the eye is untrammelled and where the vision sweeps over the verdant beauties of the most promising country under our mother-hallowed skies, there must some day stand a city, and if our citizens will continue to work hand in hand and give free rein to every enterprise that is clean and progressive, Plainview will be the sparkling breastpin, the queen city of

the most cultured, broad-gauged and prosperous section of the Southwest.

The Civic League is doing a grand work; but don't you think you are using the lash too often? I am speaking as a woman's rights man. My hat is always off to the sweet influence of mother, sister and sweetheart. So, let's have the wrestling bouts. I do not know the contestants, but in seeing them on our streets they seem to be above the average, both physically, intellectually and morally. Let the masses have their amusement also, and I am willing to be a suffragette, brunette or blondette. Let us continue to teach the infant to say "Hurrah for Plainview, mother, daddy, morals, clean society and a great city." C. H. WHITE.

INDUSTRIAL CONGRESS WILL MAKE AWARDS IN DECEMBER.

Prizes Will Amount to \$10,000; 10,869 Contestants from 205 Counties Entered.

The fifth annual convention of the Texas Industrial Congress, at which prizes aggregating \$10,000 in gold will be given to the contestants who have obtained the largest yields of field crops per acre at the least expense, will be held at Dallas on December 13, in the convention hall of the Chamber of Commerce. At this meeting of members of the Congress and delegates from the State at large, besides awarding the prizes, a report will be made of the year's work, and the officers of the Congress will be elected for 1914. The railroads of the State are expected to grant reduced rates to the convention, as heretofore.

The Congress began the contest at the commencement of the growing season, with 10,869 contestants, located in 205 counties. Reports of yields and expense of production will be received until November 15, and are being tabulated and checked up as fast as they come in.

The following is the list of prizes to be awarded: Class A. Four-Crop Model Demonstration Farm.

For the largest combined yields of merchantable crops, cost of production considered, produced on four-acre plots cultivated in cowpeas (the vines to be plowed under at maturity), kaffir or milo, cotton and corn, \$3,000 in 25 prizes. First prize, \$1,000; second prize, \$500; third prize, \$250; fourth prize, \$150; fifth prize, \$100. Twenty prizes of \$50 each for the twenty next best results.

Class B. Boys' and Girls' Texas Corn Club.

For the largest yields of corn grown on one acre, cost of production considered, \$2,500 in 55 prizes: First prize, \$500; second prize, \$300; third prize, \$250; fourth prize, \$125; fifth prize, \$75. Fifty prizes of \$25 each for the fifty next best results.

Class C. Boys' and Girls' Texas Cotton Club.

For the largest yields of middling cotton grown on one acre, cost of production considered, \$2,500, in 55 prizes: First prize, \$500; second prize, \$300; third prize, \$250; fourth prize, \$125; fifth prize, \$75. Fifty prizes of \$25 each for the fifty next best results.

Special Combination Prize.—To any contestant entered in both Class B and Class C, winning first prize in each class, a special award of \$500.

Class D. Unirrigated Forage Crops.

For the largest yields, cost of production considered, from two acres of either kaffir or milo, \$1,000 in 12 prizes: First prize, \$300; second prize, \$200. Ten prizes of \$50 each for the ten next best results.

Class E. Irrigated Forage Crops.

For the largest yields, cost of production considered, from two acres of kaffir or milo, irrigated, \$1,000 in 12 prizes: First prize, \$300; second prize, \$200. Ten prizes of \$50 each for the ten next best results.

In addition to these cash prizes, nineteen scholarships, offered by the University of Texas, will be awarded to successful contestants.

TALK SHOULD BE A VENTURE INTO UNTRIED FIELDS.

We Approach Our Thoughts Too Often In Stereotyped Ways, as We Do Our Homes or Plans of Business.

The best talk is in its nature a reconnaissance, a gay venture into untried and unsafe territory on the doubtful side of the mapped confines of truth. Too much of our talk is historical, a resort to yesterday, a consumption of deposits. The good truth is the truth that is born or reborn at the moment of utterance or repetition. The interest of life is diminished by the fact that, left to ourselves, we approach our own thoughts, as we do our own houses, by stereotyped routes. The companionship of another may oblige us to refresh our perceptions by altering our course.

Nothing helps talk more than a touch of skepticism, a distrust of finalities. The shrewd man knows that the soundest of his convictions probably shuts him out from the clear view of some other truth by which his misguided neighbor illegitimately

profits. He loves to peer around the adverse and repellent wall of his own settled beliefs. He delights in the abrupt turn, and quick side glance, which surprises the unwary and fugitive truth. Respectable proprietor as he unquestionably is, he is also something of the vagabond, disposed to prowl with criminal designs in the vicinity of his own barn and hayricks.

For men of this type the fortitudes and the audacities of conversation have an equal suggestiveness. There are truths that lurk in the shadow of the unknown, that haunt the confines of error. They perish, like the unknown and the erroneous to which they cling, in the daylight of investigation.

The difference, both moral and physical, between conversation and books is that you need a clear light to read by, but you may talk as long as you please in the twilight. One could wish at times that there were more play in conversation—not more levity (of that the supply is ample)—rather less levity and more play—more forays into the unknown, more hide-and-seek with truth, more temptings of possibility. We should share the detective's right of belying the truth in the endeavor to evoke or ascertain it.—O. W. Firkins, in the North American Review.

OVERCONFIDENCE RUINED MANY.

Good Swimmers Are Drowned Often Because They Fear Nothing.

When the skillful general wishes to capture a fort, he often tries to find a place that the garrison, sure of its strength, has left unguarded. So Wolfe planned, and so Quebec fell.

Many of those accidentally drowned are good swimmers, afraid of nothing in the water.

Many a trainer, before a great inter-collegiate football match, has said that his team would surely win—if the coaches could cure the players of overconfidence. Overconfidence is the sure forerunner of disaster.

Every boy has seen some wretched drunkard, with his bleary eyes and broken gait, his rags and filth, shamelessly and pitifully pleading for a few pennies with which to buy a drink. No one can look on that sight, common as it is, without a shudder. Yet there was a time when every such pitiful being was free from the desire for drink. For a time he took his glass in moderation, until suddenly a hidden inheritance from some ancestor, hitherto unsuspected, awoke in him and drove him headlong. No one knows whether that taint is in his blood. Yet everywhere men are saying, "Oh, I shall never be a drunkard! I can take care of myself!"

So it was that good swimmers thought as they swam to a point beyond their strength. So it was that the poor wretch thought in the days when he drank—before it was too late.—Youth's Companion.

FORT WORTH FAVORS MORE AND BETTER BABIES.

Fort Worth, Texas, Nov. 5.—Giving prizes for the best babies, the finest, healthiest children in the land, is the new movement started by the Star-Telegram of this city. The movement will culminate in the "Southwestern Better-Baby Contest," which will be held here in conjunction with the National Feeders' and Breeders' Show, November 22nd to 29th.

Every baby under four years and over six months in the Southwest is eligible to enter the contest. The prizes offered for the contest are very handsome, and costly enough to place the contest on a dignified basis. Babies in this contest will be judged on physical points only. The babies will be weighed, measured and tested by competent physicians. They will also be given minute physical examination.

Every afternoon during the contest, noted baby experts and lecturers will tell the mothers how to care for their children, how to feed and bathe them, how to clothe them after the most approved methods. Valuable welfare exhibits and demonstrations will also be held for the mothers. The Southwestern Better-Baby Contest is the beginning of a strong campaign in the Southwest for baby health.

NEW GAS FIELD IS BOOMING.

Mexia, Texas, Nov. 6.—The pipe line which is being constructed from the gas fields near here to Teague is nearing completion, and gas will be supplied to residents and manufacturers of that city within a short time. The Mexia field is the newest in Texas, and the supply is said to be lasting. Last year the total amount of gas produced in the entire State had a value of \$1,405,000, and 45 new wells were drilled in Texas. Of this number, 24 produced gas, while 21 were dry holes.

There are 27,226 domestic users of gas in Texas, and 329 industrial consumers are supplied from the Texas wells. Many new wells are being drilled in this vicinity, and prospects are favorable for bringing in more gassers.

It's a better car--sold at a lower price. Under all conditions--in every country--the Ford has proven itself the one car that will meet every test. And in first and after costs it saves money for its owner.

Five hundred dollars is the new price of the Ford runabout; the touring car is five fifty; the town car seven fifty—all f. o. b. Detroit, complete with equipment. \$45 freight to Plainview. Get catalog and particulars from Barker & Winn, Plainview, Texas.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good.

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without tiring me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

THE MOTHER.

Like a cradle rocking, rocking,
Silent, peaceful to and fro—
Like a mother's sweet looks dropping
On the little face below—
Hangs the garth, swinging,
turning,
Jarless, noiseless, safe and slow;
Falls the light of God's face bending
Down and watching us below.

And as feeble babes that suffer,
Toss and cry, and cannot rest,
Are the ones the tender mother
Holds the closest, loves the best;
So when we are weak and wretched,
By our sins weighed down, distressed,
Then it is that God's great patience
Holds us closest, loves us best.

O great heart of God! whose loving
Cannot hindered be nor crossed;
Will not weary, will not even
In our death itself be lost—
Love divine! of such great loving,
Only mothers know the cost—
Cost of love which, all love passing,
Gave a Son to save the lost.
—Helen Hunt Jackson.

K. C. MARKET DECLINES ON HEAVY RUN AT CHICAGO.

Choice Grades Bring Good Returns; Hogs Had a Good Week; Sheep Higher.

Kansas City Stock Yards, Nov. 3.—Cattle receipts last week decreased 9,000 head from the previous week, but it was a hard week for sellers. Chicago and markets in the East all had heavy receipts, both killing and stock grades, and adverse conditions there constituted the chief talking point for buyers elsewhere. Declines here were not more than 10 to 25 cents, and the week closed with some signs of bloom.

To-day the run is 22,000 head, some larger than was expected, but moderate receipts are looked for later in the week. Prices are strong to-day on good to choice fed stock, and on stock cattle and feeders. Middle grades of killing cattle are steady to

weak. It is figured that the spread between choice kinds and the lower grades will widen.

The poultry season is coming on, and dealers find little on which to base optimism, except on the best cattle, which are scarce. Some good heavy steers brought \$8.00 to-day.

Colorado and the Panhandle are furnishing some of the best stockers and feeders to be obtained anywhere. Colorado feeders brought \$7.50, \$7.10 and \$7.00 this morning, and good Panhandle calves sell at \$7.75 to \$8.25.

Canada is sending some stock cattle and butcher grades to Buffalo and Chicago, but Dominion cattle statistics indicate a shrinking bovine population, with little prospect of any surplus above what will be required at home.

Hog production in Canada is far below home requirements.

Clean-up signs are written all over the quarantine run, and few good cattle are included. Prices are little changed, steers selling at \$5.25 to

\$6.55, cows \$4.25 to \$5.50.

Beginning November 1st, Government and State regulations allow quarantine stock cattle to be shipped to all Missouri points north of the river, to all of Iowa, Nebraska, Illinois and other states. Several shipments were sent out the first day of the open season.

Hogs had a good week, holding up steady to strong all week, except for a small decline right at the finish. Receipts to-day, 8,000 head; market steady; top \$7.90, bulk \$7.55 to \$7.85. Immune hogs, used by serum manufacturers, bring 10 to 25 cents above general market.

Packers may be depended on to fight prices relentlessly for the next few months, and the volume of the supply will determine how far they will be able to go.

Sheep and lambs are 50 to 75 cents higher than a week ago, and prices here are 25 to 50 cents above competing markets. The market is 10 cents lower to-day, but, at that, Western lambs brought \$7.75 here, and ewes \$4.75, as compared with top lambs at \$7.25 and ewes at \$4.50 in Chicago to-day. Scarcity here is what does it; receipts to-day 13,900 head. Feeding stock is also higher, lambs worth \$6.25 to \$6.60.

J. A. RICKART, Market Correspondent.

MISSOURI ONCE TRIED TO ANNEX A PART OF IOWA.

Strip Ten Miles Wide Was Claimed by Both, but Was Given to Iowa by U. S. Supreme Court.

The boundary line between Missouri and Iowa was once a matter of dispute. Both States claimed a strip of land comprising 2,600 square miles in what is now the southern tier of counties in Iowa. The dispute was carried to the Supreme Court of the United States in 1847, and a decision favorable to Iowa was handed down two years later.

The original act fixing the boundaries of Missouri provided that the north line should run east from a point where the meridian line running north from the mouth of the Kaw River intersected the parallel of latitude passing through the rapids of the Des Moines River. That was known as the "Indian boundary line." It had been surveyed in 1816 by John C. Sullivan, for whom it is believed Sullivan County was named, to fix the north limit of the Osage cession of 1808.

Sullivan went one hundred miles north from the mouth of the Kaw River and established a corner, but by mistake it varied a little from a true east and west line. However, when Missouri was admitted to the Union, in 1837, Sullivan's survey was recognized as the "Indian Boundary Line," and named as the northern limit of Missouri.

An early Missouri Legislature ordered a new survey, and a new line was run about ten miles north of the Sullivan line. This survey was based on the description in the constitution, which called for a parallel of latitude "passing through the rapids of the River Des Moines." The survey was made by Joseph C. Brown, and was known as "Brown's Line." For several years the two States conducted a conversational war over the disputed territory. A political move to have Missouri occupy the strip by force failed.

The dispute went to the United States Supreme Court in 1847, and in 1849 the Court decreed that the Osage line run by Sullivan in 1816 was the true northern boundary of Missouri, and that it was this "Indian Boundary Line" from the northwest corner to the Des Moines River to which the Act of Congress referred when Missouri was made a State. A few of the Sullivan boundary posts may yet be found.

MANAGES IN THE FARM HOME.

A Wyoming Woman Says She Finds Time to Rest and Read.

Any woman who has done the work which falls to the lot of the average farmer's wife, day in and day out, during the summer season, knows that it is a question of skillful management as well as of strength to get the necessary work done and still find leisure for rest and recreation. When there are babies to care for, meals to cook, and a dozen tasks needing attention at once, it takes a strong and well-poised woman to stand the nervous strain.

We cannot remain at the age of "sweet 16," with its vitality and fresh blown ideals. "Grouches" are ever near ready to fall upon one when she tries physical endurance too far.

The question is: How can the farmer's wife manage her work so that she need neglect no essential part of it and still retain a part of each day to devote to her own individual pursuits? I am a farmer's wife, one of the common, garden variety. My husband and I do all the work on an 80-acre irrigated ranch in Wyoming except at haying and harvest times, and in spite of the hard work I have never lost sight of the ideal. It is fascin-

NEW FRANKLIN SIX-THIRTY
Five-Passenger Touring--Left-Hand Drive Center Control--Weight 2,700 Pounds
\$2,300
The most startling announcement of the year is that of the Franklin Six-Thirty, reduced in weight by scientific design and high-grade materials to only 2,700 pounds, still further cutting off operating expense--which is already lower by far than any other car of the class on the market.
And the price \$2,300.
With its specifications it cannot fail to command the automobile situation--and to insure multitudes of additional purchasers--so early action will avoid disappointments.
The car is bigger, better and handsomer than ever, quieter, more luxurious, more convenient, as easy to operate as an electric and just as safe for a lady to drive.
Has 120-inch wheelbase, 56-inch tread, left hand drive with center control, 48-inch rear seat, 27 1/2-inch leg room in driver's seat, engine all nickel and black enamel and hundreds of refinements of motor, clutch, rear axle, etc. Come at once and see the New Franklin Six-Thirty, the car that has specialized for a dozen years on economy, light weight and easy riding. The only "all the year round" car that has no water to freeze in winter and guaranteed against heating in tropical summer.
With Full-Elliptic springs, Wood Frame, Direct-Cooled Motor, Light Weight, Economy, Easy Riding, each a distinctive Franklin specialty for years, contrast the noticeable similarity of all other specifications, then get a demonstration and satisfy yourself. We want you to see a fuel test made and know for yourself the increased mileage per gallon you get in a Franklin. We want you to weigh the car yourself--not take our word. Then ask the car dealer which is the economical car to buy.
The Franklin has long held the world's record for gasoline economy and recently in a test made by the Automobile Club of America with a special Franklin car, the record was put at the almost unbelievable point of 83.5 miles on one gallon.
Types and Prices
The Six-Thirty is built in six different types and bodies, all interchangeable on the one chassis which constitutes the entire Franklin line. The prices follow: five-passenger touring car, \$2,300; two-passenger roadster, \$2,300; coupe, \$2,950; sedan, \$3,200; limousine, \$3,300; Berlin, \$3,400; F. O. B. Syracuse.
All types are equipped with Entz electric starter, which is simple, single unit, direct-connected system operated by one switch that also controls the magneto. With the Entz the motor cannot stall. Speedometer and electric horn are included in the equipment.
Call us by phone or come to our salesroom for a demonstration.

Deafness Cannot Be Cured
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

PORK CHOPS GOING UP IN DALLAS.
Dallas, Texas, Nov. 5.—A bulletin showing the retail prices of food in this city during 1913, compared with the same period of 1912, has just been issued by the Federal Department of Commerce and Labor, and several retail merchants have received copies of the publication. A marked increase in the prices of pork and pork products this year over last is shown, and the figures are a strong argument for the raising of more hogs by Texas farmers. In this city during the past year pork chops have advanced 5 cents per pound, ham 5 cents, lard 3 cents and bacon prices have remained the same.

To Prevent Blood Poisoning
apply at once the wonderful old reliable DR. PORTER'S ANTISEPTIC HEALING OIL, a surgical dressing that relieves pain and heals a wound in the same time. Not a liniment. 25c. 50c. \$1.00.
German Coffee Cake
Made Without Yeast
By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine.
There is no warm bread quite as appropriate for Sunday morning breakfast as German Coffee Cake, yet it is seldom made by housewives who do not bake their own bread. If K C double raise Baking Powder is used it will be just as good as if raised with yeast and it will have the further advantage of being fresh and warm. Save this recipe and try it next Sunday.
K C German Coffee Cake
Two and one-fourth cups sifted flour; 3 level teaspoonfuls K C Baking Powder; 1 level teaspoonful salt; 2 tablespoonfuls melted butter; 2 tablespoonfuls sugar; 1 egg; milk.

Sift dry ingredients together, beat the egg, add milk and butter to the egg to make one and one-quarter cups; stir all together with inverted spoon to a stiff batter. Turn into biscuit pan and spread evenly. Brush top lightly with melted butter. Sprinkle sugar and ground cinnamon over the top. Bake in moderate oven.
Dutch Apple Cake or Prune Kuchen can be made with this same batter by covering the top with pared and sliced apples, or cooked prunes with the pits removed, skin sides down. Dredge with sugar and cinnamon the same as for Coffee Cake.
"The Cook's Book" contains 90 just such delicious recipes. You can secure a copy free by sending the colored certificate packed in 25-cent cans of K C Baking Powder to the Jaques Mfg. Co., Chicago, being sure to write your name and address plainly.

11 TEXANS GET HEROISM MEDALS

Carnegie Fund Commission Awards Prizes to Those Who Braved Death for Others.

\$100,000 DISTRIBUTED

Sixteen Persons Given \$2,000 Each, and Thirty-Nine Receive \$1,000; Pensions for Families.

The Carnegie Hero Fund Commissioners awarded nearly \$100,000 in its report just made public. There are sixteen awards of \$2,000 and thirty-nine awards of \$1,000. The other awards are pensions ranging from \$20 to \$35 a month, and cash sums under \$1,000. In every award a gold, silver or bronze medal was given.

All awards in the Southwest were made in Texas, with the exception of one in Louisiana. They are as follows:

Saved Child from Train.

R. Pauline McKinney, Van Alstyne, Texas—Bronze medal and \$2,000 as needed, for educational purposes. Miss McKinney, aged 15, saved Robert W. Drye, aged 2, from being run over by a train.

Olth M. Scott, Weldon, Texas—Bronze medal and \$2,000, as needed, for educational purposes. Scott, aged 14, saved Ida M. Shipman, aged 23, from drowning, Weldon, Texas, September 15, 1912. Miss Shipman was swimming across Trinity River when she became tired. Scott rescued her.

Elbert Gray, Canton, Texas—Bronze medal and \$2,000, as needed, for educational purposes. Gray (colored) saved A. Calvin Stepp, aged 2, from drowning in a well, Canton, Texas, February 5, 1912.

Nolden Townsend, R. F. D. 2, Waco, Texas—Bronze medal and \$2,000, as needed, for educational purposes. Townsend (colored) saved Emma E. Soale, aged 4, from being run over by an automobile truck, Waco, Texas, February 1, 1912.

Risked Life in Flood.

Gurley C. Jacobs, R. F. D. 1, Grand Prairie, Texas—Bronze medal and \$1,000 as needed. Helped to save Elma J. Stafford, May Turner and eight children from drowning, Letot, Texas, May 24, 1908. Jacobs and another man entered a boat, and, in darkness, paddled it a mile and a half across the flooded countryside to take them from home.

Thomas H. Bayne, Trinity, Texas—

SETH WARD COLLEGE NOTES.

The enrollment at Seth Ward is now ten above what it was at this time last year.

The annual meeting of the Northwest Texas Conference will be held at Vernon, Texas, next week, and Mr. Pearce will be away from school during that time, in the interest of the College.

Open session programs are being prepared by the literary societies. The first is to be given Thanksgiving.

It is believed that the College Epworth League is the best and most progressive young people's religious organization in Plainview. It has good attendance and interesting programs. A mission study class has been planned.

Miss Marsalis is getting the orchestra in a hopeful condition. It was hardly thought possible to organize at the beginning, but she has been persevering, and the young people are taking great interest in that work.

Miss Wilmer's presentation of "The Sign of the Cross" was very much ap-

IF you have a used automobile, or anything else "on wheels" which you would like to sell, let a Herald For Sale Ad bring you a buyer who NEEDS IT, and to whom it would be a bargain at a FAIR price! Not in "keeping everlastingly at it," but in keeping at it until you accomplish it—that is the winning policy in Herald want advertising.

and washstand of bird's-eye maple, brass bed, piano and "Majestic" range. Phone 122. —Adv. 68

preciated by Seth Ward people. The next number is looked forward to with interest also—"Simon Says Wig Wag"—on November 13th.

Our football team will go to Canyon next Monday to play the Normal team. The bad weather has retarded practice some, but the boys are getting in good condition again.

Seth Ward's faculty and students are heartily in sympathy with the crusade against the wrestling matches. About a year ago Mr. Pearce spoke against them during a chapel service. He clasped them with prize fighting, horse racing and pool halls, so far as evil is concerned.

SETH WARD REPORTER.

Calling Cards at The Herald.

A NEW OIL FIELD FOR TEXAS.

Moran, Texas, Nov. 5.—Excitement is rife here over the discovery of oil near this place. Two gushers, flowing five hundred barrels daily, have just been brought in, and further developments are expected at any time.

NOTICE OF EXECUTION SALE.

THE STATE OF TEXAS.)
County of Hale.)
In the District Court,
Taylor County Texas.

The Farmers & Merchants' National Bank of Abilene (a corporation), Plaintiff, versus A. B. Britton and R. F. Ivey, Defendants.

WHEREAS, by virtue of an alias execution issued out of the District Court of Taylor County, Texas, on a judgment for the sum of Sixteen Hundred and Thirty-Four Dollars and Thirty-Two Cents (\$1,634.32), with interest and cost of suit, rendered in and by said court on the 2nd day of September, A. D. 1913, in favor of The Farmers & Merchants' National Bank of Abilene (a corporation), plaintiff, against the said A. B. Britton and R. F. Ivey, jointly and severally, defendants in cause No. 3122 on the

Docket of said Court, I did, on the 20th day of October, A. D. 1913, at 10:40 o'clock a. m., levy upon as the property of said defendant R. F. Ivey the following described tracts and parcels of land and all improvements thereon situated in the County of Hale, State of Texas, described in my levy on said alias execution, to-wit:

Lots Numbers (1, 2, 3, 4, 5 and 6) One, Two, Three, Four, Five and Six, in Block No. (92) Ninety-Two in Block "W" of College Hill Addition to the town of Plainview, in Hale County, Texas, shown by plat recorded in Hale County, Texas, Deed Recorded, Book 22, page 8, being the same land heretofore conveyed by J. H. Wayland and wife to Mrs. B. V. Ivey (the wife of the defendant R. F. Ivey) by deed dated March 1st, 1911, recorded in Hale County, Texas, Deed Records, Book 26, page 297; also Lots Numbers (1 and 2) One and Two in Block Number (35) Thirty-Five of Highland Addition to the town of Plainview, in Hale County, Texas.

And on the 2nd day of December, A. D. 1913, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the Court House door of said County, in the City of Plainview, Texas, I will offer for sale and sell at public auction, for cash, all the rights, titles and interest of the said R. F. Ivey in and to said property.

Dated at Plainview, Texas, this 6th day of November, A. D. 1913.
J. C. HOOPER,
Sheriff of Hale County, Texas.

By W. H. BOX, Deputy. —Adv. 72

USE OF CALOMEL PRACTICALLY STOPPED

For Bilious Attacks, Constipation and All Liver Troubles; Dangerous Calomel Gives Way to Dodson's Liver Tonic.

Every druggist in the state has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tonic is taking its place.

"Calomel is often dangerous and people know it, while Dodson's Liver Tonic is perfectly safe and gives better results," says R. A. Long Drug Co.

Dodson's Liver Tonic is personally guaranteed by R. A. Long Drug Co., who sell it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of sluggishness, you have only to ask for your money back. It will be promptly refunded.

Dodson's Liver Tonic is a pleasant tasting, purely vegetable remedy harmless to both children and adults. A bottle in the house may save you a day's work or keep your children from missing school. Keep your liver working and your liver will not keep you from working. —Adv. 68

ANSWER THE CALL.

Plainview People Have Found That This is Necessary.

A cold, a strain, a sudden wrench. A little cause may hurt the kidneys. Spells of backache often follow. Or some irregularity of the urine. A splendid remedy for such attacks. A medicine that has satisfied thousands

Is Doan's Kidney Pills, a special kidney remedy.

Many Plainview people rely on it. Here is Plainview proof: Mrs. T. R. Alexander, Archer and Slaton Sts., Plainview, Texas, says: "I suffered from a feeling of distress in the small of my back and was languid in the morning. Doan's Kidney Pills removed this trouble and strengthened my back. Not long ago I sent to the Long Drug Co. for a box of Doan's Kidney Pills. From personal experience I am warranted in recommending them. You are at liberty to continue using my former testimonial."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. —Adv. 68

CHRYSANTHEMUMS

Cut with long graceful stems--these blooms keep a long time and make beautiful decorations. We also have the blooming plants, hardy and easy to care for.

Don't forget its bulb planting time and we have all kinds of bulbs, the big firm kind, which will produce healthy flowers to beautify your home for the entire winter.

Phone 195 and ask questions.

Plainview Floral Comp'y

WHY NOT?

If you were working for me at one dollar a day, and some one else would come and offer you one dollar and twenty-five cents a day for the same work, would you take it? Why not? Then if you are anxious about getting more for your labor why not get more for your money when you spend it?

We save you money on your Groceries. If you don't know about us, come and see or ask your neighbor who has been trading with us. Our prices tell the tale.

Special Prices Prevail

WE have made some specially reduced prices on many lines in our big stock of Men's and Women's Ready-to-Wear Garments, Shoes, Millinery, Dry Goods, Men's Furnishings, Staples, and Novelties. There are so many of these special prices that we can't enumerate all but they will prove interesting to you just the same when you come to our store to buy. Just bear in mind that when you come you will find these prices enticing.

Palmer Suits and Coat Suits Lead

Well-Dressed Women

recognize that the best materials and most careful tailoring cannot make a distinctive coat or suit unless the design has individuality.

That is one reason we purchase our garments from one of the largest manufacturers in the world. They employ high-class designers, and even then, with all their care, offer for sale only about a quarter of the original designs.

You will notice when you call at our cloak and suit department that each garment has individuality—you will see little distinctive touches. You are sure to be impressed with the fit and the general excellence of each garment. And it's on such coats and suits that the "Palmer Garment" trademark appears. You may depend on full value with style.

Kuppenheimer Clothes for Men--Hercules Clothes for Boys

Our object in showing the back view of this new Fall and Winter Kuppenheimer Overcoat is simply to show you the prevailing style from a different point of view.

It's another object lesson to demonstrate the fact that the clothes you will find here are good style all around and the high quality, by the way, is uniform, inside where it doesn't show, as well as outside where it does. The prices:

\$20.00 to \$30.00

Copyright 1913 The House of Kuppenheimer

are based simply on this quality and the service the quality insures.

Copyright 1913 The House of Kuppenheimer

Hercules Clothes are boys clothes thru and thru--built to give best wear and yet allow the growing, restless boy plenty of freedom. They delight the mother who detests patching, the father who pays the bill, and the boy who wants to look as well dressed as other boys without being particularly careful as to the treatment of his clothes. The price belies the quality--in fact the

Copyright 1913 The House of Kuppenheimer

wearer of Hercules suits gets more service for less money than is usually found in other clothing.
