

THE PLAINVIEW EVENING HERALD

Library, University of Texas

TWICE-A-WEEK

VOLUME 26, NUMBER 18

PLAINVIEW, TEXAS, TUESDAY, MARCH 9, 1915

PRICE FIVE CENTS

COMMISSIONERS GRANT ELECTRIC FRANCHISE

Malone Light and Ice Co. Have Fifty-Year Exclusive Right; More Counsel for Lubbock-Hale Suit.

Commissioners' Court convened Monday morning, in their regular monthly session. A franchise was granted to the Malone Light and Ice Company of Plainview to erect poles to carry lines for furnishing light and power and to erect a single line on each string of poles for telephone communication on company business. The franchise is for a period of fifty years, and is void unless actual work of construction begins within six months from the date of the instrument.

The court employed Beall & Doughty to assist in the defense of the suit brought by Lubbock County for a strip of territory on the south end of the county and several thousand dollars in back taxes paid.

Forty-eight roads were ordered described on the records of the court, so that by reference to the road maps and to the book exact location of all points on the county roads would be possible.

OFFICERS ARE WATCHING SUSPICIOUS CHARACTERS.

The city and county officials are watching three or four suspicious characters who have come into Plainview within the past few days. It is probable that some arrests for vagrancy will be made. Mayor Dorsett states that the city authorities will vigorously prosecute, when arrests have been made.

OWNERS OF STATE SCHOOL LAND MAY PAY IN AUGUST.

State Commissioner of the Land Office J. T. Robinson states in a letter of the fifth to County Clerk B. H. Towery that those who were due interest on state lands they own last November will be allowed until August 1st to make payment of interest.

This extension of time will be welcomed by many who have involved themselves heavily with school lands not yet producing an income.

RUSTY COG ASSOCIATION ARE LAUGH PRODUCERS.

Baptist Collegians Will Give Unique Negro Minstrel; First Performance March 20.

"No old one's here." That's the motto of the Rusty Cog Association, of Wayland College. These fellows say they are unique in their minstrel. No old jokes are allowed. When a fellow appears in rehearsal with an old "gag" he is made to feel his offense by a vociferous protest. The bunch simply "gets it in for him," and he has to desist. He can't say a word unless he pulls a new one.

March 20 the fellows will stage their play at one of the local theatres. It is probable that it will be produced at some of the neighboring towns, too.

FRIDAY AND SATURDAY ARE CLEAN-UP DAYS.

If it is at all possible, the clean-up day idea will be carried out Friday and Saturday. Rains and snows have made the ground sloppy, but it is hoped by Mayor Dorsett and his co-workers that the ground will be dried sufficiently to make the day a success.

The flies begin breeding in March and April, and now is an opportune time to destroy all trash and refuse. Plainview will not have to pay money for captured flies this summer if the proper precaution is taken in time.

ARREST MAN FOR THEFT OF OVERCOAT FROM HOTEL

A young man was arrested this morning for stealing an overcoat from the hall in the Missouri Hotel. He pleaded guilty of the offense and was fined twenty-five dollars and costs. He had on his person enough money to pay his fine, but not enough to pay the costs, and has wired to relatives in Louisiana for funds for this purpose. Pending the arrival of the letter or wire from friends with money, he will be held in the county jail.

"MARTHA" READY FOR FRIDAY.

First Day's Advance Seat Sale Indicates Popularity of Plainview Choral Club Offerings.

Those who have heard the rehearsals of "Martha," Plotow's opera, by the Plainview Choral Club say that it will surpass last year's offering, "The Chimes of Normandy." The advance seat sales show how popular the club's programs are with Plainview patrons. Seats were placed on sale Monday morning at the R. A. Long Drug Co.'s store. By noon forty per cent were sold.

Wayland College, Seth Ward College and the Central High School have reserved sections in the balcony. A hundred seats had been sold to students at the close of the second day's sale.

The splendid orchestration will be appreciated by all music lovers. The principals are all well known in music circles of the South Plains. Plainview is fortunate to have so many artists. The chorus presents a strong array of trained singers. To name the director, Mrs. Cora Pritchett, and the other officers of the club, who are all well known to our people, is placing the endorsement "sterling" on the production.

The costumes for the occasion have been prepared by one of the leading costumers of the Southwest. Unquestionably "Martha" will be the best offering home talent has attempted in Plainview.

DR. C. E. ROBINSON FOUND DEAD IN HIS ROOM IN HOTEL.

Veterinarian's Remains Held at Undertaking Parlor Pending Advice from His Sister.

Dr. C. E. Robinson was found dead in his room in the Clubb Hotel Saturday morning by Mr. Adams, who has been occupying the same room for some time. Mr. Adams states that he came into the room Friday evening and noticed Dr. Robinson lying across the bed with his clothes on, but thought nothing about the matter, for he had not often seen him that way. He does not know whether the doctor was dead then, but the next morning when he attempted to awaken his roommate he discovered that life was extinct.

The body has been prepared for burial by a local undertaker, and is held awaiting further instructions from Mrs. Inzie Sheppard, of Gage, Okla., a sister of the dead man.

SOUTH DAKOTA MEN LIKE THE PLAINVIEW COUNTRY.

James Ewing and R. J. Gordon, of Yankton, South Dakota, who have been looking over the Plainview country, left this morning for their homes. They expressed themselves as well pleased with the South Plains, and will probably become land owners in the Plainview country.

SANTA FE LAYING HEAVY RAILS INTO PLAINVIEW.

The Santa Fe Railway Company have begun work on laying heavy seventy-five-pound steel rails into Plainview. This branch of the Santa Fe will be made uniform with the heavy rails. Fifty-two-pound steel is being removed.

The work was completed last year as far as Tulla.

HAVE EYES ON PLAINVIEW.

Plainview is setting the pace.

Not content with modern concrete sidewalks, and a hundred other good things that are already hers, the progressive little city of Plainview now is actually clamoring for a great white way! And, chances are she will get it.

Towns and cities, like people, are known by their habits. Chicago less than fifty years ago was not nearly so large as Memphis, Tenn. But Chicago, from its earliest settlement to the present date, lived up to its slogan: "I WILL!" That is the reason that Chicago now has three million people and Memphis less than 150,000.

Too many towns are like Memphis, Tenn. Figuratively speaking, they wake up only long enough to open their eyes, yawn, ask what o'clock, take a drink and then go back to sleep. The Daily Panhandle congratulates its sprightly neighbor of Plainview. "The top o' the mornin' to ye!—Amarillo Daily Panhandle.

WOODMEN ATTEND BIG CONCLAVE IN FORT WORTH.

Thousands of Visitors Will Be in Panther City as Delegates to W. O. W. Meeting.

W. E. Winfield and J. W. Carter left Sunday for Fort Worth, as delegates from the local W. O. W. Lodge to the head camp of the jurisdiction of Texas. This, jurisdiction "C," includes the States of Texas, Arizona and New Mexico. The meeting is for four days, March 9-12. Between seven and eight thousand are expected to attend, and will choose head camp officers and elect forty delegates to the sovereign camp. There are approximately two hundred forty thousand members in the Texas jurisdiction.

The Plainview delegates will return Saturday.

TREASURER OF SYNDICATE VISITS PLAINVIEW PLANT.

A. H. Coade, of New York City, treasurer of the Syndicate, is in Plainview on official business. This is Mr. Coade's first visit to the Plainview plant of the Syndicate. "The Plainview country presents a distinct advantage over the East and North, in that there is no waste land," he said. "There are no hills to cause erosion of the soil, and no stumps to pull or stones to get rid of."

GREAT HOSTS OF BAPTISTS TO GATHER IN HOUSTON.

On May the 12th, this year, the Southern Baptist Convention will convene in Houston. It has been 21 years since this body met in this State; and it has met in Texas but four times during the entire history of its existence.

This convention constitutes one of the largest representative religious gatherings on earth. In addition to the vast number of Baptists from all parts of the Southern States, and, in fact, from all over the United States, there will be present at this convention representatives of this denomination from almost every quarter of the globe—from among the peoples of many tongues and nations.

BARKER & WINN MOVING INTO NEW BUILDING.

Barker & Winn, agents for the Ford automobile, are moving into their new building, on North Pacific Street. These quarters have been constructed with a view to making them as comfortable and convenient as possible. A good show room for cars, conveniently appointed offices upstairs and a well-lighted work shop will make the building well adapted to their needs.

CANYON NORMAL BUILDING WILL BE COMPLETED SOON.

Will Have Structure Fire-Proof Throughout; Want Two Extra Wings to Make Building Adequate.

A. B. Martin returned Sunday from Austin, where he has been in an executive meeting of the Board of Regents of the State Normals. The matter immediately requiring attention was the completion of the new building for the West Texas State Normal, at Canyon City. Already the State Legislature has appropriated \$153,000 for the building. The work of construction has been started and the building will be rushed to completion.

The regents of the normal want to build two wings on the new building, and estimate that this can be done with an additional \$75,000, thus making the building large enough to care for the expected growth in the number of students attending during the next few years. If the new appropriation is not secured the building will be finished so that these two wings may be added later.

In attendance at the meeting in Austin were President R. B. Cousins of the West Texas State Normal; A. B. Martin, of Plainview; Sam Sparks, Mr. Goeth, J. S. Kendall, President Estell of the Sam Houston State Normal, and N. T. Bruce, of the San Marcos Normal. Two of the members of the board were absent.

INTERSCHOLARSHIP LEAGUE ANNOUNCES MANY PRIZES.

UNIVERSITY STATION, Texas, March 8.—A. J. Robinson, Director of the Interscholastic League, makes the following announcement:

"The Fifth Annual Meeting of the University Interscholastic League will be held at the University of Texas on Friday and Saturday, May 7 and 8, next. This is expected to be the largest interscholastic gathering in the history of the association, probably exceeding that of last year, when 634 delegates registered. Membership in the League has reached 682 schools, and will no doubt go to 725. The county contests are now on. The first was held in Live Oak County week before last, with 89 boys and girls in the different events in athletics, declamation, debate and spelling. Last week meetings of the League were held in Leon, Blanco, Erath and Medina counties.

"The district contests will be held from April 15 to 25. The contest in the Coleman district is set for April 16 and 17, that in the Sweetwater district for April 23 and 24, and the contest in the Taylor district for April 21. In the district meetings, the different county representatives in debate, senior declamation for boys and girls, junior declamation and in tennis doubles, will compete for the district championship. Then the winners in all of these events excepting girls' senior declamation will come to the final opening in May. The representation in the final track meet will depend upon the showing made in the county meets, but not in district meets. The track meet will be held in three divisions—Academy, Class A High School, and Class B High School. The last named includes schools not in cities with a scholastic population of 600.

"Many handsome prizes are provided the winners in the State contests. The winning debating team is awarded a silver cup offered by Eugene Harris, of El Paso, and \$50 in books offered by the American Book Company. There is also a second prize in debate of \$25 in books offered by Ginn & Company of Dallas. The Corsicana High School has won the last two annual debates. In Senior declamation the Wozencraft silver cup and \$50 in books are offered to first place, the books being offered by Martin & Hoyt Company. These were won last year by Robert Field, of San Antonio High School. The Dallas News silver cup goes to the winning Junior declaimer, who also gets \$50 in books given by C. A. Bryant & Co., of Dallas. The second prize is \$25 in books by Hinds, Noble & Eldridge. The Beeville High School at present holds the State cup in tennis doubles, offered by Caswell & Smith, of Austin. The Academy track cup is now held by Marshall Training School, of San Antonio, the Class A High School cup by the Marlin High School, and the Class B High School Cup by the Era High School.

WATLAND-SETH WARD GAME POSTPONED UNTIL SATURDAY.

On account of the rain and snow the East Side basketball grounds were not in fit condition Saturday, and the basketball game between Wayland College and Seth Ward College has been postponed until Saturday, March 13. This will be the first matched game Wayland and Seth Ward have played this year.

TO-DAY'S MARKET.

FORT WORTH, Texas, March 9.—HOGS—1,000; opening strong; top, \$6.90; bulk, \$6.60 to \$6.85; light, \$6.40 to \$6.70; mixed, \$6.60 to \$6.80; heavy, \$6.70 to \$6.90; pigs, \$5.00 to \$5.59. CATTLE—3,000, including 200 calves; steady. SHEEP—None.

Paul A. Turner, representative of the Federal Life Insurance Company, returned yesterday from Lubbock, where he went to meet Mrs. Turner, who has been visiting friends in Fort Worth.

GREEK INTERVENTION IS NOW VERY NEAR

POWER OF KING OF GREECE FITTED AGAINST THAT OF RETIRING MINISTER; CABINET RESIGNS.

BOMBARDING DARDANELLES

Forts on Asiatic Side Now Range Sought by Guns of Allied Fleet.

LONDON, March 7, 10:45 p. m.—Greece apparently is at the parting of the ways, with her King exerting his influence to maintain the neutrality of his country in opposition to Eleutherios Venizelos, the retiring Premier and the man to whom Greece owes her revival.

M. Venizelos yesterday announced the resignation of himself and his Cabinet, as King Constantine did not approve the policy of the Government. Today in the Chamber of Deputies M. Venizelos clearly indicated that the difference between him and the monarch was over the question of peace and war.

He said he had advised the King to select as a new Premier, M. Zaimis, governor of the National Bank, who, he said, "will follow a policy of neutrality which I hope will not endanger our newly acquired territory."

Populace Cheers Venizelos.

A grand council of Ministers was held at Athens today under the presidency of King Constantine, and as Venizelos was leaving the palace at its conclusion he was acclaimed by the populace.

King Constantine won great popularity by the successful manner in which he led the last two Balkan wars. This popularity, however, he shared with M. Venizelos, to whose diplomacy in the conferences of the war Greece is said to owe her success and whose organization largely was responsible for her ability to fight as she did. The retiring Premier also was the moving spirit in the Balkan alliance which united the Balkan States against Turkey.

Bombardment Continues.

While this political dispute is going on in the Greek capital, the allied fleet continues the bombardment of the forts of the Dardanelles, the forcing of which would make such great changes in the Near East—changes which it is considered none of the Balkan States and least of all Greece can afford to treat slightly.

Having damaged two of the forts on the European side of the narrows previously, the British battleship Queen Elizabeth and others of the allied warships Saturday started a bombardment by indirect fire on the forts on the Asiatic side of the narrows. As had been expected, these forts are proving hard nuts to crack. In addition the Turkish army with modern German guns is concentrating on the Gallipoli Peninsula to oppose any landing, and until it is disposed of, naval experts declare, the ships will not be safe in the straits.

Rutgeria Is Aroused.

Bulgaria is said to have been aroused by this attack on the Dardanelles, and is looking to the future. It is stated that King Ferdinand is considering the formation of a coalition government to direct the affairs of the country through the crisis which is expected.

The only other events in the Near East to be reported are a couple of skirmishes which British forces, advancing from the head of the Persian Gulf, has had with Turks and tribesmen who had concentrated to oppose them. In these engagements both sides suffered rather heavy casualties.

On the Russian Frontier.

Russia has still another battle on her hands. While she is declared to be pressing her offensive in North Poland and Eastern Galicia and holding up the Austrians in the Carpathians, the Germans have launched an attack in the region of the Pilica River, to the south of Warsaw, where a big battle is developing.

So far as the West is concerned, the most important news is that the French have returned to the attack in the Vosges, and, according to Paris, succeeded in obtaining a footing on

(Continued on Page Eight.)

My Best Recipe

A Column of Practical Household Hints by the Best Housewives on the South Plains

1—
Irish Potato Cake.
2 cups of granulated sugar.
1 cup of butter or 2-3 cup of Crisco or Cottolene.
4 eggs, beaten thoroughly.
½ cup grated Baker's chocolate.
1 cup of boiled mashed Irish potatoes.
½ cup sweet milk.
1 scant teaspoon ground cloves.
1 scant teaspoon ground cinnamon.
2 cups of flour.
1 cup of nut meats (pecans or walnuts) chopped fine.
1 cup seedless raisins, chopped. (Omit raisins if not liked.)
1 heaping teaspoon of baking powder.
Cream butter and sugar; add beaten eggs; mix thoroughly. Then add chocolate, previously melted over some vessel containing boiling water; next add cloves, cinnamon, potatoes and milk. Mix well. Sift ½ cup of flour and the baking powder thoroughly. Take the remaining ½ cup of flour and dredge fruit and nuts; add these last.
Bake in a slow oven as a loaf cake 1½ hours, or you can bake in layers and put together with plain boiled icing. I never fail with this cake, and it is a great favorite with us.

2—
Marble Cake.
Whites of 4 eggs.
1 cup white sugar.
½ cup butter or lard.
½ cup sweet milk.
2½ cups flour.
2 teaspoons baking powder.
1 teaspoon lemon extract.
Dark Part—
Yolks of 4 eggs.
1 cup brown sugar.
½ cup cooking molasses.
½ cup butter or lard.
½ cup sour milk.
1 teaspoon ground cloves.
1 teaspoon cinnamon.
1 teaspoon salt.
1 teaspoon nutmeg.
1 teaspoon soda (the soda to be dissolved in a little milk and added after part of the flour is stirred in).
2½ cups of sifted flour.
Drop a spoonful of each kind in a well greased cake pan, first the light, then the dark, alternately. Try to drop it so that the cake shall be well streaked through, so that it has the appearance of marble.

3—
Lye Hominy.
Take two quarts of water and one heaping tablespoon of concentrated lye. Add shelled corn to almost come to the top of the water. Boil and stir well. Add more boiling water and continue to stir until the hull is all off. Wash well; then boil in plenty of water 4 or 5 hours.
4—
Baking Powder.
1 pound of cream of tartar.
½ pound of soda.
½ pound of cornstarch.
Sift together five or six times, to mix thoroughly. It is ready for immediate use and is as good as the best on the market; besides you can be sure it is pure.
5—
Spanish Salad.
One cup cubes of bread crumbs (fry brown in 1 tablespoon butter), 1 cup celery, ½ can pimientos (cut), 2 dozen almonds (cut up but not bleached), ½ teaspoon salt, ¼ teaspoon pepper, 1 teaspoon chopped parsley. Mix with mayonnaise while bread is warm.
6—
Macaroni and Oysters.
Break a pint of macaroni into inch pieces; put in a sauce pan and cover with boiling water. Keep at the boiling point for one-half hour. Have ready one pint of oysters, salt, pepper,

and one-half cup of cream. Drain the macaroni. Put a layer in a buttered baking dish; sprinkle over a little salt and pepper, dot with pieces of butter, and add a little cream; then put in a layer of oysters and another of the macaroni with its accompanying seasoning; sprinkle cracker crumbs over the top; add bits of butter and more cream if necessary.
Put a cover over the dish and bake till nearly done; remove cover and bake a delicate brown.

7—
Cream of Asparagus Soup.
Cut in inch pieces one can of asparagus and cover with boiling water, slightly salted. Let come to a boil and then press through a colander. Run together one tablespoon each of butter and flour and add to it a quart of rich milk. Let cook until smooth and creamy. Now add the asparagus mixture and a little white pepper. Serve with croutons of toasted bread cut in shamrock shape.

8—
Jellied Chicken.
Boil a chicken till the meat falls from the bones. Separate it from skin and gristle and arrange it in individual molds. Pour over it the stock boiled down and seasoned, adding one teaspoonful of dissolved gelatin. Serve on lettuce leaves.

9—
Irish Dessert.
Make a ring of pistachio-flavored gelatin, colored pale green. Fill the center with sliced canned peaches and whipped cream, and top with a spoonful of jelly. Arrange parsley around the plate to carry out the color scheme of green.

10—
Souse on Cress.
Clean and scrape the pig's feet and ears; cover them with salt water and let stand a day. Then turn this water off and cover again with clean salt water, allowing to stand for two days longer. Then boil in clean water for two hours. When cold, split them and pour over them boiling vinegar, in which there are a few cloves, pieces of stick cinnamon and some salt. They will be ready for use in 24 hours. Drain, wipe dry and serve on cress, garnished with onion pickles.

11—
Southern Corn Pone.
Two cupfuls of corn meal sifted with one teaspoonful of salt and ¼ teaspoonful of soda. Add one heaping tablespoonful of lard, pour one cupful of boiling water over it, and mix well; then add ¾ cupful of sour milk. Have ready a hot baker, well greased; make out the 3 pones and place them on the baker, greasing the top of each with lard; let bake until a light brown, and serve with vegetables.

12—
French Mustard.
This recipe will make a glassful. Mix well three tablespoonfuls of mustard and one tablespoonful of granulated sugar. Beat in an egg until it is smooth; then add a pinch of salt and a teaspoonful of vinegar, a little at a time, working it all smooth. Set it over the fire and cook 3 or 4 minutes, stirring all the time. When cool it is ready for use.

13—
Sea Foam Candy.
Three cups sugar, one cup water, one teaspoon cream of tartar. Heat gradually to boiling point, stirring just till sugar is dissolved. Boil without stirring till it hairs well; then set off till it stops boiling. Pour very slowly in a fine stream on the well-beaten whites of two eggs, stirring rapidly all the time with a fork. Continue to beat till it holds its shape; then add one teaspoon vanilla and one cup chopped walnuts. Drop on buttered paper. This is fine.

14—
To Color Lace.
To color bits of lace or other material cream or ecreu, if there is only a small quantity, ¼ teaspoon yellow ochre powder, 2 teaspoons corn meal; put in paper sack and shake. Put in goods and shake, looking at it every few moments. Remove when the desired color is obtained.
I find this much better than gasoline and tube paint, and not so disagreeable on the hands.

15—
Orange Pie.
Yolks of four eggs, one and one-half cups of sugar, one cup of milk, butter size of an egg, one teaspoon of corn starch (or flour) and two oranges. Beat whites, put on top. Makes two pies.

16—
Oatmeal Cookies.
Two eggs, one cup sugar, one cup shortening (½ cup butter and ½ cup lard), one-half cup sour milk, one-half teaspoon cloves, one teaspoon cinnamon, one cup chopped raisins, two cups oatmeal, one cup flour, one-half teaspoon soda. Add enough flour to make rather stiff. Drop from a teaspoon into greased pan and bake brown.

17—
Waffles.
Two eggs, beaten separately.
One cup milk.
A pinch of salt.
Two cups flour.
Three teaspoons baking powder.
One tablespoon melted butter.
Fry on waffle irons and serve with maple syrup.

18—
Bisque.
One pint cream beaten stiff; add powdered sugar to taste and beaten yolks of three eggs, folded into cream. Flavor, and put into can and pack in ice and salt for three hours.
A cup of any kind of nuts chopped fine improves it.

19—
Lemon Souffle.
Beat the yolks of four eggs until thick and lemon colored; and add gradually, while beating constantly, one cupful of sugar; then add the grated rind and juice of one lemon. Beat the whites of four eggs until stiff and dry, and cut and fold into the first mixture. Turn into a buttered pudding dish, set in a pan of hot water, and bake thirty-five to forty-five minutes.

20—
Mint Julep.
Wash a quantity of any sort of mint, strip off the leaves, and place them in a bowl with a quart of chipped ice. Stir until the leaves are thoroughly bruised and the flavor extracted. Strain off the water and add the juice of two oranges and six lemons and one pint of sugar, and when cold serve in tall, thin glasses.

21—
Molasses Cake.
1 cup molasses (dark Karo preferred).
1-3 cup sugar.
1 tablespoonful lard or shortening.
1 tablespoonful ginger.
1 tablespoonful cinnamon.
1 egg.
2½ cups unsifted flour.
1 teaspoonful soda, dissolved in a little hot water.
½ teaspoonful baking powder.
Beat well. Don't have oven too hot.

22—
Three-in-One.
Peel and slice as many potatoes as the family will require. Place these in the baking dish and sprinkle lightly with salt and pepper, and dot with butter or meat fryings. Place on top the potatoes any fresh pork or beef (if you happen to have a few slices of each use both together). Remove all bones, then cut the meat into pieces, and sprinkle with salt and pepper. Now prepare a dressing of stale bread as for any fowl or roast. Spread this over the meat and fill the pan two-thirds full of hot water. Bake from one-half to three-quarters of an hour.

23—
Prune Souffle.
Scientific cooks have gone "mad" over prunes. Now, there is a cause for this. Did you know there is really more food in THREE prunes than in a dish of cabbage. And while prunes are easily digested, it takes long hours to assimilate cabbage. Yet the majority of housewives seem to be in league with the physicians by the too frequent use of cabbage, and thereby doubling the doctors' calls.
The following recipe gives a most delicious dish, that can be enjoyed by the entire family:
½ pound of prunes.
6 whites of eggs.

24—
One-Egg Chocolate Cake.
1 tablespoonful butter.
¾ cupful sugar.
¾ cupful milk.
1½ cupfuls of flour.
1 teaspoonful baking powder.
1 egg, well beaten.
½ cake chocolate.
½ teaspoonful vanilla extract.
Bake in two layers, from twenty to twenty-five minutes.
Filling.—One tablespoonful butter, 1 cup powdered sugar, 2 tablespoonfuls coffee (liquid), 2 tablespoonfuls cocoa, ¼ teaspoonful vanilla extract.
Do not cook filling.

25—
Jumbles.
This formula may be utilized in disposing of the egg yolks left after making cakes like angel food:
1 cupful of butter.
2 cupfuls of sugar.

26—
Mixed Sweet Pickle.
1 peck (or 2 gallons) of green tomatoes.
12 large onions.
2 quarts vinegar.
1 quart sugar.
2 tablespoons each salt, mustard and black pepper.
1 tablespoon each cloves and allspice.
Chop, or grind, the tomatoes and onions, then add the other ingredients, and mix well. Cook until tender, and seal in glass jars.

27—
Angel Food Cake.
Whites of 11 eggs.
1 cup of flour.
1½ cup sugar.
1 level teaspoon cream of tartar.
Take one tablespoonful of flour out and put one tablespoonful of cornstarch in the spoonful of flour; mix well. Add a little pinch of soda and sift all dry ingredients together twelve times. Separate eggs; have fresh from nest if possible. Get pan ready before

eggs are beat. Beat eggs very stiff. Fold flour and sugar in whites. Don't beat. Flavor with vanilla extract. Cook 40 minutes; oil stove preferred, as heat can be regulated.

28—
A Delicious Orange Cloud Cake.
Take one and a half cups of sugar, and one cup of butter, yolks of six eggs, one small cup of milk, two teaspoons Calumet baking powder. Flavor with orange extract. Cream butter and yolks all together. Then add a little milk and a little flour till the dough is stiff enough, and, last of all, put red cake coloring in till the cake is an orange color.
Filling for Cake.—Two cups sugar, one-half cup water. Put on the stove and stir till it begins to boil; don't stir any more. Cook till it will form a hard ball in cold water. Beat the whites of one egg and then beat the yolk and mix with white. Pour the syrup in the eggs, beating all the time. When it is stiff enough, color with red coloring, as the cake. You will have a beautiful cake.

J. R. Gollman left Friday for Amarillo on business.
Henry Slaton has been in Slaton on business.
Mrs. Hal Wofford is visiting her sister in Tulla.
Ora Sanders, of Hale Center, was a visitor in Plainview last week.
Ed Chew and Will Graves were in Plainview on business Friday.

KANSAS CITY STOCK MARKET IN DETAIL.

KANSAS CITY STOCK YARDS. March 5.—Cattle sold better each day since Monday, and closed the week 30 to 40 cents higher than Monday, and around a quarter above close of last week. Receipts have been moderate, and the whole situation has gathered strength. Foot-and-mouth fears are vanishing rapidly, buyers being here this week from Central Illinois, the home of the epidemic. Packers expect the market to grow in strength, and keep their coolers filled to capacity constantly, in this way getting maximum benefit of the advancing market.

Heavy steers sold at \$8.50 this week, and prime heifers at \$8.25 to \$8.40, bulk of the steers \$7.25 to \$8.25, including some fed Westerns at \$8.20. Quarantine receipts have been light, five cars selling at the week's top today, \$7.50, 1,141 pounds average, highest price in that division this year; quarantine quilts brought \$6.50, also a new high price.

Stocker and feeder prices range from \$6.75 to \$7.50 largely, some Pan-handle feeders this week at \$7.00 to \$7.70, choice stock calves worth \$8, stock cows and heifers \$5.50 to \$6.75. The West and Southwest have sold few fed cattle, and it now appears like these feeders would receive good prices for their cattle.

Hogs change from day to day within a small range of prices, tops this week ranging from \$6.65 to \$6.80, closing today at \$6.75, bulk \$6.35 to \$6.70, market called 70 cents higher, supply 6,000 head. Receipts seem to be decreasing, and an advance in prices is about due. Packers will relax their opposition to an advancing market as soon as receipts decrease a little, stronger prices at the stock yards helping them to sell their large stocks of pork products. Slaughter since the first of November has been 17 per cent greater than a year ago.

Sheep and lambs close the week holding all their strength, some lambs weighing only 65 pounds selling at \$9.50 today. Ewes of first quality would bring \$7.50, fair to good ewes selling today at \$7.20. Yearlings brought \$8.65 yesterday, and wethers not quite choice sold at \$7.60 this week. Receipts are only 3,000 today, and moderate supplies are expected next week.

J. A. RICKART,
Market Correspondent.

THE NEW HOUSE.

Not one woman in fifty, perhaps, will have a new house this spring, but with the return of the robins every woman who keeps any kind of a house, big or little, will be possessed with a desire to make her home look like the spring—all new and beautiful and changed. Many of us would like to have a general "rummage sale" and get rid of all the "junk" and buy new, but I don't know anyone who can do it just that way. A few new curtains, some paint and varnish and perhaps a new rug or chair—with these the miracle must be performed.

Of course, a thorough cleaning after the stoves are taken down improves one's spirits wonderfully. If the walls and ceilings of the small house are to have new covers, don't try to have each room so very contrasty. There are very pretty papers and tints in modest tans and browns and creams that will be very "restful"

to the family the year 'round and not become ugly or depressing, as the brighter colors do. These shades will harmonize with almost any rug, curtain, or furniture. There is such a variety of curtain material to choose from! The sun, wind and dirt are pretty hard on curtains in Oklahoma, and they have to be renewed often. For a cheap curtain cheesecloth in white or cream is a success. If your windows are narrow the five-cent variety will make the curtains of sufficient width, but the ten-cent variety is much finer and is usually one yard wide. I have seen very pretty curtains made of the five-cent unbleached muslin. These are much harder to iron than the cheesecloth, but they last longer.

Runners for dressers, sideboards and the table in the living room may be made from brown or cream linen or from Russian crash. This comes in eighteen, twenty-four and thirty-six-inch lengths, and retails for twenty, twenty-five and thirty-five cents a yard. A few hours with the crochet hook will finish these; or there are plenty of heavy laces that can be bought for a few cents a yard that will give a substantial finish. These linens stand any amount of laundering and are cheaper in the long run than covers made of finer material.

If you cannot buy new rugs, make some. You will find lots of worn-out, faded clothing at house-cleaning time. Cut these into strips, sew and wind them. If there is no weaver in your community ask the big boy to make you a hook from some hard wood and you can crochet your new rugs. Or if you prefer knitting, buy a pair of large steel knitting needles. These are much better for knitting than the wood needles. If you can neither knit nor crochet, braid the rags and sew

Piles Cured in 6 to 14 Days

Mix the Breakfast Biscuits the Night Before—

Set Them Away in a Cool Place and Bake them Fresh in the Morning

If the family do not all eat breakfast together, you can bake a few at a time. If you are having hot biscuits for supper, mix and cut out enough more for breakfast. They will be much nicer freshly baked than warmed over.

Of course you can't do this very successfully with sour milk and soda or with any of the old fashioned, single acting baking powders, but this convenient way of making hot biscuits and muffins for breakfast is entirely satisfactory if you use

KC BAKING POWDER

which is really a blend of two baking powders, one of which begins to give off leavening gas as soon as moisture is added. The other is inactive until heat is applied. The dough will remain in a partly leavened condition for hours and when put in the oven will come up just as light and fluffy as if freshly mixed.

Get a can of KC today and try this easy way of getting biscuits done. You'll never go back to the old way. 41

them into rugs, round or square. These home-made rugs are very useful, and if no new rugs can be bought will look very pretty on the newly painted or varnished floor.

For the floors around the rugs and the woodwork there are varnishes and varnish stains all ready for use, and so inexpensive that everyone may have bright floors and woodwork with a very little work. If the furniture looks shabby when the woodwork is done, a little of the right kind of furniture polish will cover up the scratches and "make believe" it is all brand new furniture. Don't be too badly discouraged; a few cents here and a little turning there will make a decided improvement all around and nothing can rob you of the thoughts of what you will do when your "ship comes back" to you.—Cora C. Gray, in Oklahoma Farm Journal.

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salvates You! It's Horrible!

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50-cent bottle of Dodson's Liver Tonic, and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today, and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards. —Adv.

The Telephone Saved a Life

When one of our men was badly injured by the threshing machine we telephoned the doctor, who told us how to patch the man up. The doctor then started for our place in a hurry. When he arrived the man was pretty weak, and without the doctor's advice the results might have proved serious. Thanks to the telephone, the man pulled through.

Every farm should have Bell Telephone connection.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

MAKING PLAINVIEW A TOWN OF HOMES.

The class of residence buildings built and being built in Plainview indicates the character of its population. Plainview is becoming a town of homes. Good, substantial public schools and colleges, splendid and comfortable houses, attractive lawns and garden spots, are all outgrowths of a spirit of civic pride. We like to call Plainview home.

In our homes we will be satisfied with nothing less than the cleanest, the best, the most comfortable and the most pleasurable. Our municipal home is to be a measure a reflection of our individual homes. To keep Plainview a good home town and a town of homes it is essential that we keep the city of Plainview physically and morally clean.

Natural environment and conditions of growth and development of the Plainview country have been such that it has been easy to keep Plainview a clean town. Material prosperity is attractive to those seeking a place to make a home. Good schools, good churches and a clean, moral atmosphere, enhance a town's value as a place for a home fifty per cent to the average man—more to the extraordinary man.

"THE BEAR THAT WALKS LIKE A MAN."

Rudyard Kipling has peculiarly voiced the feelings and aspirations of British imperialism, and has given many lines and stanzas and burning phrases to the records of the literature that lasts. That burning satirical poem, "The Bear That Walks Like a Man," directed at Russia, will be remembered as long as will "The Recessional." Unquestionably England's sentiment was voiced in the poem. How, then, do we reconcile the Triple Entente, in which England and France ally themselves with Russia? Over the occupation by Russia of Manchuria Great Britain disdained "the Bear." The open-door policy was upheld by England.

Have the Russo-Japanese War and the imminent prospect, always in the future, of an all-European war had the effect of a social purge of Russia sufficiently extensive to insure Great Britain, one of the leaders of civilization, that Russia is a fit ally; that the cause of civilization for which Great Britain has ever stood will not suffer by introducing such a nation as a champion?

The press reflects the fact that the war has had a telling effect on Russia. That power has, since the Japanese War, been quietly but effectively engaged in a work of social, industrial reform, until the Russia of today has been improved out of all the resemblance to the Russia of ten years ago.

The London Times publishes a Russian supplement showing that "the words and deeds of Russia which have so impressed the world of late result from previous earnest and well-placed effort. Even the abolition of the sale of vodka (which appeals so forcibly to the imagination owing to attendant circumstances), was not the inspiration of an anxious moment, but the sincerity of a far-reaching temperance movement, seizing the opportunity as the hour struck, regardless of mere expediency."

Lines to be Remembered

I would not enter on my list of friends,
Though graced with polished manners and fine sense,
Yet wanting sensibility, the man
Who needlessly sets foot upon a worm.
—Cowper.

Best Editorial of the Day

NOBODY CAN LICK YOU.

A fine and public-spirited man threw himself into a movement for social progress. It was defeated, and in a moment of discouragement he exclaimed, "I'm licked; this defeat has convinced me that there's no use fighting." Of course, he didn't mean that. It was the impulse of the moment. Nobody else could lick him. He could only be licked by himself. His efforts might be blocked, might come to nothing, but so long as he didn't lie down, he wasn't licked.

Henley was right when he insisted in a memorable poem that he was the master of his fate, the captain of his soul. The man who never gives up in the face of reverses is the man who has to be taken into account and reckoned with.

The contest between the Apostle Paul and the Roman Empire looked unequal enough. But the indomitable spirit won. Napoleon, long on the verge of failure, kept on fighting. Washington, in the midst of overwhelming discouragement, refused to give up. Disraeli insisted that the time would come when the House of Commons would be glad to hear him. Gladstone declared that the tide of civilization was on the side of the Liberal program and that it could not be permanently beaten.

Every great forward movement has been repeatedly beaten back by the forces of reaction. But there always have been unconquerable souls behind every movement who refused to recognize defeat. In the end progress has triumphed because of the fighting spirit of forward-looking men and women.

Nobody is licked so long as he keeps on fighting.—Kansas City Star.

HAS AMERICA UNDERRATED JAPAN?

Jingo talk concerning war with Japan has been dismissed as it has appeared. The Mongolian question in California has evolved itself into a serious problem. The demands made at this time on China by Japan are far more significant than seems to be generally supposed. Japan, the stronger of the two, unquestionably could impose any demand she desired on China and finally carry it out. With the leadership of Japan, the unification of these two divisions of the Mongolian race, a powerful world factor would evolve itself.

Some go so far in their analysis of the possibilities of Japanese aggressions as to say that the Jap-China question may become of more importance than the European War question.

Former President Roosevelt has repeatedly stated that Japan has been underrated as a nation, and that she must be taken into consideration now in the settlement of any world-wide question.

If Japan is able to Japanize China and the reports in the current press are correct, the Japanese question is one which demands statesmanlike handling. As has been her policy, America will continue to deal with other nations as fairly and impartially as these qualities can be defined.

SOW BLUE GRASS ON SNOW.

One of the best horticulturists in the Plainview country says that one of the best ways to plant blue grass is to have the ground well prepared, then when a good snow comes, sow the seed on top of the snow. The seed will be evenly distributed if evenly sowed, for the melting snow sinks into the earth and carries the seed down with it into the mushy ground.

READERS' FORUM

This column is open to readers of The Herald for open discussion of public questions. Names will not be published unless so requested, but contributions must be signed.

Editor Herald,
Dear Sir—The answer of "Reader" to my query in regard to the meaning or rather the application of the term "Llano Estacado" as referring to a certain portion of the Texas Plains country, is chiefly interesting to me as another theory to add to my collection.

It seems strange there should be so many reasons for the name in the application referred to; and one idea I had in making the inquiry was the hope that some of the older students of Texas history who might know from tradition or otherwise how the name came to be so applied might see the inquiry and might be impelled to give us the benefit of their knowledge.

Some say that the name was applied to the Plains country from the tall cactus stalks that attain to such a height on the prairies; others that in the rush to the gold fields of California the emigrants in crossing these vast plains drove stakes along the route by which to mark the trail back home.

And now comes "Reader," in Friday's Herald, to say that the term means "palisaded plain," and is so applied because the territory thus described is bounded on all sides by steep escarpments, or palisades.

This is all very interesting to me, and I should like further testimony as to which of these and other theories in regard to the name is the correct one. Hoping to hear from other readers who may have some testimony to add to that already given, I am,
Very truly yours,
A STUDENT OF TEXAS HISTORY.

ON BEING A BOY.

The following excerpt from an editorial in The Plainview Evening Herald was reprinted in The Dallas Evening Journal of February 16:
"People really live when they are being, and the highest function of life ceases when they are merely doing. We do in order that we may exist, but to compel the boy to do beyond a limited extent is a crime against all wis-

dom and kindness. A real boy makes a real man, who can shake you by the hand with a will and means all that it implies, who is better than a man who can build a bridge. One can swim the river with a comrade, but there is little good in walking over the bridge, if one walks all alone."

SMALL SAVINGS ARE IMPORTANT.

Better for a Youth to Shave Himself Than to Receive 1,000 Guineas.

From the Philadelphia Ledger.
A wise man said 150 years ago that it was better for a youth to learn to shave himself than to receive a gift of one thousand guineas.

The man who shaves himself every morning saves a great deal of time and also the income of a good \$1,000 bond for that day.

The man who cuts out one 10-cent cigar every day saves at least the dividend on twelve shares of Pennsylvania Railroad stock.

One less drink of ordinary whisky a day would pay for the bread of two persons for that day.

Uncle Sam will carry a letter for you ten thousand miles for what you paid for that one Turkish cigarette you are smoking.

If you had all five morning newspapers sent to your home you would grumble at your own extravagance. That single cocktail before dinner costs you more than twice as much.

Russell Sage insisted that the easiest way he knew to earn the income of a dollar for a whole year was to walk to his office once.

POSITIVE PROOF.

Should Convince the Greatest Skeptic in Plainview.

Because it's the evidence of a Plainview citizen.

Testimony easily investigated.

The strongest endorsement of merit. The best proof. Read it.

Mrs. T. R. Alexander, Archer & Slaton Sts., Plainview, says: "I suffered from a feeling of distress in the small of my back and was languid in the morning. Doan's Kidney Pills, procured from the Long Drug Co., removed the trouble and strengthened my back."

Mrs. Alexander is only one of many Plainview people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother

J. J. Lash's REAL ESTATE CORNER For Sale, Exchange, Rent, Lease Phone 653, Front Room Opera House Bldg.

160 acres twelve miles west of Plainview, near Halfway; will exchange for small farm in East Texas, West Tennessee or Arkansas.

160 acres land near Whitfield, and two thousand dollars worth of mares and horses. Will exchange for half section west from Plainview.

Brick residence and greenhouse in Arkansas to exchange for improved half section on Plains. Greenhouse alone brings in three thousand dollars annually.

480 acres land five miles west of Italy, Ellis County, Texas. Will exchange for half section on South Plains near Plainview.

400 acres well improved land in Oregon County, Mo. Will exchange for land on South Plains near Plainview, Texas.

27 acres land, five-room house, two wells and windmills; six acres alfalfa; good orchard. Owner must have money; terms on part. This 27 acres is located right in southeast edge of Plainview.

Houses to sell on the monthly-installment plan; small payment down.

Telephone Number 72

ANNOUNCEMENTS.

The Travel Study Club will meet in the club rooms at the City Hall Saturday afternoon, March 13.

The "As You Like It" Club will meet with Mrs. R. West Lemond Friday afternoon. Mrs. Hal Wofford will lead.

The Choral Club will present "Martha," Flotow's opera, at the Schick Opera House Friday evening, March 12.

Mrs. S. I. Newton, Mrs. L. C. Wayland and Miss Vera Newton will entertain with a musical at the home of Mrs. S. I. Newton, 1304 West Third Street, Wednesday afternoon, honoring Miss Louise Ball, of New Boston.

ALAMO LITERARY SOCIETY BANQUET ELABORATE FUNCTION

Despite Handicap in Transportation, Plucky Students of Seth Ward College Hold Annual Fete.

The most elaborate social function yet given by any organization at Seth Ward this year was the Annual Banquet of the Alamo Literary Society, at Hotel Ware, Saturday evening, March 6th. The society was host to its sister society, the Fideles, the members of the faculty, a representative from each of the other societies, and several specially invited guests.

Two long tables, decorated with pot plants, were placed in the dining room of the hotel, and covers were laid for sixty. The society colors were a feature of the decorations.

8:15, but owing to the condition of the roads many of the guests living out at the college were delayed. Manager Upton waited an hour on the delayed party.

The toastmaster and several other speakers were among the absent. Those assembled in the hotel lobby passed the time very happily, their only concern being for the dormitory party. At ten o'clock it was decided best for the banquet to begin, so Mr. Upton and Miss Schlenker led the guests to the beautifully lighted and appropriately decorated hall.

At that moment Toastmaster McLauren, Miss Shook and four other guests were trying to help Vertrice Barnes get a car out of the mire. The car was finally abandoned. The young folks thought once of the fate of their evening attire, then bravely walked back to the dormitory. Here they found Mr. Dunaway and Miss Marsalis, Mr. Edmondson and Miss Rushing waiting for Vertrice to come for them. Influenced by the spirit of Bonham and Crockett, the boys said they would go yet; so the faithful old white hack was driven up to the steps and all five of the merry couples got in and rode away to the banquet, proving in this case, too, that

"Thermopylae had her messenger of defeat; the Alamo had none." for they would not be defeated. This delayed group, led by Mr. McNeeley and Miss Shook, marched gaily into the banquet hall singing "We're Here Because We're Here" while the "first division" was being served the third course. They were given a hearty welcome.

Mr. Bryan McDonald was appointed toastmaster in the absence of Mr. McLauren, and he filled the place creditably. The welcome address, by President Calvin Kiker; the toast to the Fideles, by Mr. McDonald; the re-

sponse, by Miss Schlenker, and the vocal solo by Miss Jones were given during the term of office of the toastmaster pro tem. His introductions were very happy and the speakers were warmly applauded.

Mr. McLaurin made a clever speech when he came into power, and all his introductions were witty and to the point. Mr. Dunaway, in a few choice phrases, proposed a toast to the visitors, to which Miss Shook responded. Mr. Whitworth, in a most cordial manner, toasted the rival society, the Philosophians, in reply to which Mr. Edmondson spoke felicitously. Miss Perle Bunkhead had for her subject "The Eroaethians." Miss Rushing, of the rival society, answered in a pretty speech. Mr. Story's toast to the absent members was followed by an artistic piano number by Miss Nannie Mae Dunaway. Mr. Upton spoke in glowing terms of the societies' commencement debaters, and proposed a toast to them. Mr. Nelson Perdue's sententious toast to the college and faculty was cleverly responded to by Miss Williams.

By this time coffee had been drunk. Mr. McLaurin introduced "a beautiful story," and Miss Beatrice Story, assisted by Miss Marsalis, rendered an exquisite violin number. This closed the program, and, after a last toast by Mr. Upton to the hotel people for their excellent service, the revelers went home. The last thought of the merry party that night was, Hotel Ware knows how to prepare and serve a banquet, and the Alamos certainly know how to entertain.

Among the ex-members present were Messrs. Everett and Ernest Woolverton, of this city, and Mr. Elliott Terry, of Big Springs.

PROGRAM LAMAR MOTHERS' CLUB, APRIL TWELFTH.

Following is the program for the Lamar Mothers' Club for April 12th. The meeting will be held at the Lamar School Building:

1. Don Ella and Claudelle—Music.
2. Reading—Harvelle Anderson.
3. "What Is Possible in Plainview in Vocational Training?"—Supt. B. M. Harrison.
4. "The Rainy-Day Problem"—Miss Hunt.
5. "The Possibilities of the Tomato Club in Plainview"—Mrs. Martine.
6. Business meeting.

PHILOSOPHIAN OPEN SESSION.

Seth Ward Literary Society Has Interesting Program of Debate, Vocal and Instrumental Numbers.

Friday evening the Philosophian Literary Society of Seth Ward College gave their open session at the college auditorium.

Professor Frank P. Wilson, of the faculty, gave the invocation. W. E. Nelson delivered an address of wel-

come. Ryan Downs in a piano and Wiley Fort in a vocal solo, and a quartette by Green, Edmondson, Fort and Glenn, composed the musical part of the evening's entertainment.

Especially good was the debate on the question of Federal ownership and operation of railway systems. James E. Willis, Jr., and Stokle Bishop, of the negative, received two votes from the judges, winning the question over Ryan Downs and Sid B. Worrell, of the affirmative.

R. D. Hill transacted business at Texico last week.

Henry Ansley is visiting his parents. He has been at work in the Lockney country.

Judge H. C. Randolph returned Saturday from Floydada, where he has been attending Floyd County District Court.

D. B. Shifflett has moved from Spring Lake to Hurley.

E. L. Doland is in Amarillo on business.

L. R. Pearson is in Olton today on business.

County Attorney Chas. Clements made a trip to Hale Center Saturday to attend court there. Some minor civil and criminal cases were brought up.

Lee Kemble is again able to be up, but is confined to his room. He is recovering nicely from an operation.

Sam Ansley returned Saturday from El Paso, where he attended the Panhandle and Southwestern Cattleman's Association.

Mr. and Mrs. B. H. Towery returned Saturday from El Paso.

E. Y. Yowell left this morning for Sweetwater.

G. E. Glenn, of Floydada, was in Plainview today en route to Lamesa on business.

Chas. Thatcher, of Amarillo, is in Plainview visiting relatives.

Jas Heard has been in Hale Center on business.

Robert Hooper has been visiting friends in Amarillo.

Wm. Barrett, of Runningwater, was in Plainview yesterday, on business.

A. H. Gist left the latter part of the week past for Kress.

Claude Beck was in Floydada Monday, on business.

M. Hosier, of near Hale Center, has been in Plainview transacting business.

Henry Yates returned to Hale Center today, after a business trip to Floydada.

N. M. Armstrong and family were in Plainview today en route to Floydada, where they will make their home. They are moving from South Texas.

Captain T. J. Tilson returned to Austin this morning to resume his duties in the State Legislature.

Tom Vaughn returned from El Paso this morning. He has been attending the Panhandle and Southwestern Cattleman's Association.

Fred J. Stoer, of Oakland, Calif., was in Plainview on business today.

E. W. Matteson, of Erie, Penn., is in Plainview. He has been spending the winter in the South.

R. L. Wilson, of Hale Center, was in Plainview this morning en route to Denver, Colo.

Miss Louise Ball, of Texarkana, passed through the city Monday, visiting at the A. B. Ellis home. She was on her way to Plainview to play the first violin in the recital given next week by the Choral Club. She will come to Canyon within a short while to give a recital.—Randall County News.

MILEAGE RECORD FOR TEXAS.

So determined is W. S. Dunbar, of Fort Stockton, Texas, to hold the Ford mileage record, that he has sent his report to the Ford Motor Company in the form of a sworn affidavit. It is certainly an astonishing record, too. Mr. Dunbar makes regular trips in his Ford between Fort Stockton and Pecos City, a distance of 65 miles, and carries four passengers. His Model T, purchased in 1909, is still in service, with the same wheels, engine and transmission, and has a grand mileage of 150,000.

In addition to that, Mr. Dunbar has repeatedly made the round trip of 130 miles, sworn to in his affidavit, on 3½ gallons of gasoline, or a mileage of 37.1-7 miles per gallon. It isn't remarkable, perhaps, that Mr. Dunbar should insist upon having these extraordinary figures preserved in affidavit form.

FLOYDADA.

After some four years spent in Austin, where he has been attending to his duties as State Tax Commissioner, Judge A. L. Love and family returned to Floydada last Tuesday to resume their residence here.

Taking the Rest Cure.

Rev. G. I. Brittain and grandson, Homer Miner, are visiting with friends in Floydada and Matador this week. They are here from Merkel and Sweetwater. Rev. Brittain had been at the latter place some five weeks taking treatment for appendicitis, from which he suffered an attack while on his circuit, in Ochiltree.

He is recovering, and, while not strong yet, will soon be able to resume work. He is taking the rest cure while he visits with old friends and neighbors.

The two-story building belonging to Mrs. Ellie Owens, on the south side of the square and occupied by Sander-son's restaurant, was burned last Friday night at about nine o'clock, with little or no salvage.

There was no insurance on either the building or contents.

The fire caught from a defective flue in the kitchen, and none of the occupants were aware of it until passers-by saw the flames and gave the alarm.

In District Court.

Up to Thursday the grand jury of Floyd County returned 15 indictments, of which one was a bill for a felony, the other 14 misdemeanors.

Monday and Tuesday the case of D. F. Jones, charged with theft of cattle, was tried. Tuesday afternoon the case was given to the jury, who returned a verdict of not guilty after a few minutes in their room.

The jury in the case of the State of Texas vs. J. C. Garrison was chosen this morning, and the taking of testimony was begun shortly after noon. The State is represented by District Attorney Mayfield and Attorney D. Zimmermann, of Tulia. Mr. Garrison's counsel are Judges Penry and Randolph, of Plainview. The case may consume two or three days' time.—Hesperian.

The Santa Fe Railway Co. has appropriated for improvements during 1915 the sum of twenty-two million dollars. This is the amount set apart for improvements on the entire system.

Piece Goods Department

OFFER

Three Special Prices
Friday and Saturday

Percale for 5 cents

A 28 inch good quality cloth in both light and dark colors.

Drapery

We now show a big line. Our special is 36 inch wide plain color, fancy open work and Satin finish edge. Price 15c

A Dispute As Narrated By a Cucumber at the Fair

By John L. Boswell, English 9a.

(Editor's Note: Many of the compositions written by the members of the High School English classes are interesting. In the next few issues of 'The Plainview Evening Herald' will be reproduced some of the best essays and compositions.)

About a week ago I was returning home from town with my exhibits from the Hale County Fair. As my wagon was loaded with coal, I had to place some of my exhibits on the seat beside me. Among them was a large green cucumber who was the proud possessor of a blue ribbon. The cucumber was a very talkative fellow, and on that night he was in such good humor that I turned my attentions to him. First, he told me about the large crowds that were at the fair. Next, he told me how disappointed some of the exhibits were when they failed to win blue ribbons, and how pleased the remainder were when a prize was awarded to them. What interested me most, however, was his story of a dispute among the exhibits. The following is the story as he told it to me:

"During the second night of the fair the exhibits decided to vote to see which of their number was the most useful. After several ballots had been taken, the ear of corn and bushel of wheat were found to have tied for the honor. Then a great dispute arose as to which was really of most value to

the world.

"Why, of course, I am the most useful," said the wheat. "What would the people do without bread?"

"The wheat is right," shouted a bundle of rye. "Surely the wheat is most useful."

"Let's all be quiet and hear what the corn has to say," said a watermelon.

"The corn pulled at his ear and looked puzzled. But soon this expression disappeared. The corn then arose and began his argument. 'Bread is also made of corn meal,' he said in the beginning.

"He paused and then said, 'And, besides, who ever heard of wheat pipe or wheat flakes as breakfast foods? Also, did you ever see a—'

"Wheat is used as breakfast food in the shape of shredded wheat biscuits!" interrupted the wheat.

"Did you ever see a hot tamale that was not wrapped in a corn shuck and did not contain corn meal?" continued the corn.

"The debate continued for a long time. Finally a squash arose and said, 'I move that three judges be selected, and let them give a decision.'

"This was acted upon. The judges, after holding a consultation gave their decision. The decision that they gave was that the—' Alas! The cucumber fell off the wagon and was crushed by the wheel, so I never heard the remainder of the story.

CULTIVATED AMERICAN PLUMS FROM WILD NATIVE STOCK.

American Horticulturists Have Developed a Fruit the Value of Which Was Long Overlooked.

WASHINGTON, D. C., March 9.—The wild North American plum has given rise to more cultivated varieties than any other of the native fruits, except the grape. These varieties have mainly originated in the Mississippi Valley, Iowa alone having furnished 175, Minnesota 74, and South Dakota 44. In Texas 97 varieties have originated. In these western and southern regions, where several of the species appear to have reached their greatest perfection in the wild condition, the greatest development in the future,

under cultivation, may probably also be expected to take place, according to a new bulletin of the U. S. Department of Agriculture (No. 172), entitled "The Varieties of Plums Derived from Native American Species."

The new publication is a professional paper which should be of especial interest to the growers of fruit, particularly those engaged in plum breeding. It gives a list of native varieties and hybrids, showing the origin of each variety and the species to which it belongs, which should be of considerable value to the nurseryman and orchardist. It also gives credit to the various State experiment stations and private individuals who have furnished material used in investigating the origin and relationships of the varieties under consideration.

With few fruits has there been an equal opportunity to report step by step the advance which has been made since the original of the first named variety was planted and cultivated in a garden. The new bulletin, therefore, places on record a distinct achievement of American horticulturists who have developed a fruit the value of which was long overlooked.

SOW ALFALFA EARLY.

If you are going to sow alfalfa this spring, sow it early. Experience is proving over and over each year that the earlier you can get alfalfa sowed to have it escape the killing frost, the better is its chance for a crop of hay the same year. March-sown alfalfa gets established ahead of the grass and weeds and pulls through a drouth much better than the later sowings. You will have to be your own judge about the date, but watch the weather, and as soon as you think that the last hard freeze is over, put it in. See that you have a well firmed seed bed. It should be so firm that in walking over it you would sink in but little over your shoe soles. Alfalfa has a tap root when it comes up, and if this root can not fasten itself into firm moist earth it will die if a severe dry spell come on it.—Oklahoma Farm Journal.

STOP PASTURING WHEAT.

What little data we have on pasturing wheat goes to show that it pays to take the stock off the wheat about the first of March. Where heavy pasturing is being done, a bushel or more per acre has been shown to be the loss for each week that you pasture in March, and twice that much for each week in April. Most of us will be guided by what we have to take the place of this pasture as feed when the stock are removed. Once in a while you hear one speak of a year in which he pastured late and made good wheat, but it is usually when favorable conditions have followed the pasturing. I observed a difference of six bushels of wheat between two fields last season. The lower yield was pastured heavily almost the entire month of March, while the other was relieved the first of March. Sometimes it pays to cut off a small acreage of wheat just to use for pasture. When feed is high it will pay well. There is a chance to get a catch crop of feterita or cowpeas after the wheat is eaten down. On reasonably dry winters I have seen fields of wheat where I think the pasturing did it good, as it settled the ground where it had not been given proper working before seeding.—Oklahoma Farm Journal.

Keeping Up the Service

The European war brought to our attention with very great force the dependence which modern industry places upon the complete and continuous transportation service. Let something happen to disturb the action of transportation facilities and the whole machinery of modern commerce slows up.

In this country the railroad systems are the arteries of the commerce system, and the service rendered by them is so important that any difficulty is speedily felt by everybody. All materials which enter into the running of the railroad must be carefully selected for quality and service in order to avoid disastrous interruptions.

TEXACO QUALITY AND SERVICE have made themselves felt in keeping up the railroad service. On the books of The Texas Company as customers are almost all the railroads of any importance in all parts of the country—using "Made in Texas" Texaco Products because of the quality which insures the reduction of operating difficulties and the prompt service which insures supply.

The same quality and service which have induced these immense transportation systems, with their difficult requirements, to use Texaco Products are to be secured by you.

Call up the nearest agent. He will be delighted to serve you.

**HUSBAND RESCUED
DESPAIRING WIFE**

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side. The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good."

I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its firing me, and am doing all my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of continuous success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Tersely Told Plains News

James Cassidy, a young man thirty-four years old, died at the family home, in the Nazareth community, near Tulla, in the 25th ultimo, after a lingering illness.

Swisher County is expecting a record wheat crop this season.

Deaf Smith County will have a woman farm demonstrator, who will assist the women in the problems of housework much the same as the men farm demonstrators assist the farmers.

W. A. Noffsler, age eighty-three, died Saturday at Hereford. He was a native of Pennsylvania.

Rev. I. L. Winterrowd, pastor of the Church of Christ at Hereford and at Clovis, N. M., has been elected dean of the Lockney Christian College.

The grand jury of Randall County has reported that there has been cattle stealing in the county, and has urged the citizens to co-operate in finding the guilty parties and in putting a stop to the practice.

The Canyon City Choral Club joined the Amarillo club in their rehearsal of the "Messiah" Monday of last week.

A revival meeting is in progress at Canyon City. Rev. Arch C. Holder, Ph. D., and his singer, Irwin N. Price, are conducting the services for the Methodist Church.

The work of erecting the structural steel for the new building for the West Texas State Normal, at Canyon City, was begun this week.

HURLEY.

HURLEY, Texas, March 5.—Lots of rain, plenty of moisture in the ground, farm work progressing nicely. Wheat is looking well, and some good fields of oats are being sown.

Mr. D. B. Shifflett, of Spring Lake, Texas, with his family, has moved to Hurley. We extend to them a hearty

welcome. Mr. Shifflett will open up a large general store at Hurley immediately.

Mr. W. H. Hayes has bought the large hotel building at Spring Lake, and as soon as he can secure a house mover and the ground is dried up sufficiently he will move it to Hurley, after which he will remodel the building and build to it, putting in bath and other modern improvements.

Mr. Louis Gartner is moving to a farm near Hurley, and will raise truck for the Hurley Canning Factory.

Mr. W. W. Burns is moving to the J. F. Metzker place, two miles east of town.

Several of our people were transacting legal business at Dimmitt the first of the week.

Work is soon to begin on the irrigation well for U. G. Goodenough.

The Hurley Canning Factory will be increased three times the capacity of last year. The Hurley Truckgrowers Association has ordered a large amount of seed, which will be here in a few days. The association is well pleased with their efforts last year, and are all increasing their acreage this year.

The public schools of Hurley have increased their enrollment materially. Professor Kennedy, assisted by Professor Shifflett, has built up a splendid school, with both rooms crowded at this time. Should the country and town continue to develop as at the present, another room will be added.

RAMSEY.

RAMSEY, Texas, March 6.—J. A. Wiley celebrated his forty-sixth birthday last Wednesday, at his nephew's, T. H. Tedford's. A fine dinner was served, in which all enjoyed a good time.

L. D. Shuman and two sons, Grady and George, left Tuesday for Vernon, Texas, and other points south of Vernon. Mr. Shuman is looking for a location to install a butcher shop.

Little Harlie King has been on the sick list this week.

C. E. Roever and wife have moved to Lockney.

Dolton Cockerham went to Lockney Thursday.

Edgar Tedford and Grover Harris, of Hay Lake, are visiting Edgar's brother, T. H. Tedford.

A light snow fell here Wednesday night, followed by a severe blizzard. Carl Russell went to Petersburg

last week to see after Mr. Hatcher's interest off of his place down there.

A. J. Bynum, of Flomont, passed here last week en route to Lockney.

B. F. Livingston was summoned to Floydada last week as a grand juror.

The B. F. Brown 'phone line' was reconstructed last week.

There was a new 'phone line constructed out to Mr. Fortenberry's, twelve miles east of Lockney, last week.

PRAIRIE AVENUE.

PRAIRIE AVENUE, Texas, March 9.—The singing class met Sunday at Liberty. A few from here attended.

Elmer Lemaster is a little better of late.

The three children of Jim Finney are improving, after a serious illness. Mrs. Parks, of Liberty, was in this locality last week, visiting.

Prairieview trustees are trying to get up a petition to have a longer term of school, like Providence and other schools.

Owing to the bad weather here last Saturday, Lone Star and Providence did not play basketball.

Mr. and Mrs. Shelton received a message Saturday that an aunt had died quite suddenly.

We have been having quite cold and disagreeable weather here the past few weeks.

Mrs. Nations and son Sam left Saturday for Mineral Wells on court business.

Quite a few from here attended German church at Providence Sunday.

W. C. Ooley was in Plainview Saturday.

Quite a few of the people around here at Floydada, courting.

Harris Nation returned home Saturday from Hale Center, where he has been the past six months.

Joyce Ooley was on the sick list last week. Also, Florida Pullen has been ill.

Mr. and Mrs. Joe Barret returned Sunday from Los Angeles, Calif., after a 3 months' visit with a son there.

AN AMERICAN FIRST.

Announcement that allied war vessels are preparing to force a passage through the Dardanelles brings to mind the little-known fact that the first war ship to bid defiance to the Turkish fortresses frowning on both

sides of the narrow strip flew the Stars and Stripes. It was the United States frigate George Washington, which, under the command of Captain William Bainbridge, sailed boldly through the stronghold and dropped anchor under the windows of the Yildiz Kiosk, the American flag flying at her spanker.

It was in October, 1800, that the George Washington performed her exploit. Under command of Captain Bainbridge she had been sent to Tripoli, and from that port went to Constantinople, bearing on board a party of Tripolitan envoys to the Porte. Arrived at the forts guarding the entrance, the frigate was halted, and her passports demanded, the Turks having always asserted their right to refuse entrance to any foreign war ship without permission. Captain Bainbridge had no passports, and the United States was practically unknown to Turkey at that time. To wait for passports would mean lying at anchor there for months, so Captain Bainbridge decided on a ruse de guerre.

He sailed the George Washington up to the anchorage, clewed up his courses, let go his topsails and started to salute the fortress as if he was going to obey the order. As soon as the fort began its reply to his salute he quickly made sail again, and when the Turks caught sight of him once more as the smoke of the guns lifted the George Washington was sailing into the Sea of Marmora, with every stitch of canvas set and drawing. The fortress guns were stationary, being trained on the channel in front, so that they were unable to stop him. The American sailor brought his vessel up and dropped anchor before the city of Constantinople. At the sight of the strange flag that fluttered from the frigate's spanker the Turkish officials sent out a boat and demanded from whence she came.

"From the New World," was Captain Bainbridge's answer, which so impressed the Turks that they could not do enough for the George Washington and her people during her stop there. —Austin Statesman.

EXPOSITION AUTO SPECIAL HAS FIVE HUNDRED BUICKS.

All known records for quantity shipments of automobiles were broken with the departure from the Buick factory, on Saturday, of a mile-long trainload of Buick valve-in-head motor

cars. The train, christened the "Panama Exposition Special," comprises an even hundred freight cars, and is destined for the Pacific coast. The freight charges on this record shipment amounted to \$35,990—the largest sum ever paid to a railroad company as the carrying charge for a single shipment of automobiles.

The motor cars included in the shipment are valued at upwards of a half million dollars—said to be the most valuable consignment of merchandise ever shipped to the coast in a single order. The train, which is now on its way to the Exposition city of San Francisco, is 5,030 feet long, almost a mile. The Howard Automobile Company, Buick distributors on the Pacific Coast, is the consignee.

Every one of the 500 Buick cars in this shipment are already sold to an individual purchaser for immediate delivery as soon as the train reaches its destination. C. S. Howard, chief of the Buick Pacific Coast distributing organization, visited the factory at Flint just after the first of the year, bringing the big order for the Buicks with him. Mr. Howard reported that trade conditions never were better on the coast, and that he looked for even better times as the result of the California expositions this year. The Howard organization has dealers in all the principle Pacific Coast cities from the Canadian line clear down to Mexico.

GREEK INTERVENTION IS NOW VERY NEAR

(Continued from Page One.)

some of the hills near Munster and pushing their lines slightly forward.

PARIS, March 7.—A dispatch to the Havas Agency from Athens says:

"King Constantine has accepted the resignation of Premier Venizelos and his Cabinet and has requested M. Zaimis, governor of the National Bank, to form a ministry. M. Zaimis asked the King to give him until tomorrow to consult with his friends.

"The Turkish Minister, Salih Bey, has declared openly during the last few days that massacres would take place in Turkey if Greece broke with the Porte, while Count Mirbach, the German Minister, informed the diplo-

matic crops that Austria and Germany would immediately declare war on Greece the day that Greece moved against Turkey."

Cabinet and King Differed.

The correspondent says the resignation of the Cabinet was brought about because the King did not approve the Government's policy regarding the invasion of the war.

LONDON, March 8, 12:57 a. m.—Reuter's Amsterdam correspondent sends the following official communication, issued in Constantinople Sunday night:

"This afternoon six hostile warships bombarded our batteries in the Dardanelles. The batteries replied successfully.

"There is no important change in the general situation."

CONSTANTINOPLE, March 7, via London, 6:17 p. m.—Bombardment of forts on the Smyrna coast by the allied fleet Saturday was without result, according to an official Turkish communication issued today, which says:

"Two enemy warships bombarded forts on the Smyrna coast for three hours yesterday without result.

"At 8 a. m. one French and three British warships, accompanied by five large mine-sweepers, again bombarded Smyrna forts for an hour and a half.

"Seven shells fired by our batteries struck the warships, which had been first to open fire. One mine-sweeper was sunk.

"Our casualties yesterday and today were four killed and seven wounded.

"The enemy's fleet undertook no serious action against the Dardanelles either yesterday or today."

Bombardments Kept Up.

PARIS, via London, March 7, 8:42 p. m.—The bombardment of the Dardanelles' fortifications was continued Saturday by the allied fleet, according to an official statement issued this evening. The communication says:

"The British battleship Queen Elizabeth, posted in the Gulf of Saros, bombarded by indirect fire two big works on the Asiatic side alongside of Chanak and defending the straits (Forts Hamidieh and Mamidieh-Saitanleh). At the same time cruisers inside the Dardanelles continued a direct fire against the works at Dardanus, on the Asiatic side, and Souain Dore, on the European side."
