

# THE PLAINVIEW EVENING HERALD

Library, University of Texas

TWICE-A-WEEK

VOLUME 27. NUMBER 70

PLAINVIEW, TEXAS, FRIDAY, SEPTEMBER 1, 1916

## SANTA FE SYSTEM FORESEES STRIKE; CAUTIONS SHIPPERS

States Purpose of Operating One Passenger and Mail Train Each Way Daily.

Wednesday the Santa Fe Railway declared an embargo against receiving all perishable goods, livestock and explosives for freight shipment. The order was received in Plainview by John Lucas, agent for the Panhandle and Santa Fe as a "pink wire." A "pink wire" has precedence over all other railway telegraph business, and the information was transmitted to practically the entire system only an hour or so after it had been issued. The order was signed "E. P. Ripley, Personal." The president of the Santa Fe System is now in Washington in the capacity of a railway executive, to confer with President Wilson on the dispute between the railway brotherhoods and the railway companies.

Under usual conditions Santa Fe bills of lading always specify that the "carrier in possession shall not be liable for loss, damage or delay resulting from riots or strikes." Wednesday's embargo order, which refuses to accept any sort of shipments subject to delay, is in reality only emphasizing a rule already in effect.

The transcontinental orange trains from California were stopped by Wednesday's order. It will materially affect stock shipment.

The order follows: "In view of the announcement of certain employees of this Company to engage in a strike to become effective at seven a. m. Monday, September fourth, Agents are hereby instructed:

"FIRST—To notify intending travelers that the Company will not be responsible for any delays that may occur after the time above mentioned.

"SECOND—To notify all shippers that property except perishable property, live stock and explosives, will be received after seven a. m. Monday, September fourth, for transportation subject to indefinite delay, and shipping receipts, or bills of lading so endorsed perishable property, live stock and explosives will not be received for transportation until further advised.

"THIRD—It will be the purpose of the Company so far as it may be in its power to do so to provide transportation necessary for the health and subsistence of the communities dependent upon it.

"FOURTH—To move at least one train each way daily for the transportation of passengers, mail and express.

"FIFTH—To gradually expand these activities. So far as may be practicable, Agents have been advised to notify all parties interested in accordance with the foregoing program, and will notify officers of municipalities that the ability to carry out our present intentions will be largely dependent on their willingness and ability to afford protection to the Company and its property in so doing.

"E. P. RIPLEY."

## LETTERS INVITE BOYS TO BE GUESTS OF THE Y. M. B. L.

The Basis of Award of Pig-Club Prizes is Announced by Dr. R. F. Hare.

Letters were mailed today by Dr. R. F. Hare, county agricultural agent, to the members of the Hale County Pig Club inviting them and the members of the Home Economics Club to be guests of the Young Men's Business League on the evening of September 6 at Lake Plainview. The manager of the Texas Land and Development Company, Jas. W. Pipkin, has consented to allow the use of the lake park for this occasion.

The date for which invitations are out is Rural School Day at the Teachers' Institute.

In the letter, Dr. Hare announces that the basis of award in the pig-feeding contest will be:

- Best animal exhibited ..... 50%
- Best showing of net profit ..... 25%
- Greatest average daily gain during the fattening period ..... 15%
- Best Record Book and written history on "How I Raised My Pig" ..... 10%

The list of prizes announced two weeks ago in The Herald is also given by Dr. Hare in this open letter.

The closing date of the contest has not been announced, but will probably be early in October.

## NEW HOMES INDICATE THAT PLAINVIEW IS PROSPEROUS

New Garage Will Be Built to House Business of Hupp Motor Sales Company.

A number of new homes are being built in Plainview. One of the most elaborate is the new brick home of Mr. and Mrs. Jno. P. Crawford, just south of J. H. Slaton's residence. It will contain seven large rooms. The roof is to be of Spanish tile.

W. H. Deaton is constructing a new home just east of the Presbyterian Church, which is to contain six rooms.

L. D. Griffin, Democratic nominee for county attorney, whose home was recently burned, is contemplating the erection of a new home.

Rev. J. M. Harder is building a new house near Wayland Baptist College. It is to contain six rooms.

A six-room house is being built by V. B. Martine in the south part of town.

J. C. Hooper is having a rent house constructed on Wayland Boulevard near the D. W. McGlasson home.

A contract will be let tomorrow for a new garage to be constructed on the lots adjoining the E. N. Egge Auto Company's building on the south. This building will be of brick, modern in every particular. The old building now being occupied by the Hupp Motor Sales Company will be removed to the M. D. Henderson farm, to make room for the new structure. I. N. Brooks is letting the contract. The new building will be occupied by the Hupp Motor Sales Company, who will carry a full stock of car parts for the motors they sell. This company has the agency for the Hupmobile car in twenty-four Panhandle counties. The front half of the building will be an office and sales room. In the rear will be a modern machine shop, which will be in charge of Hubbard Brothers.

A rent house is being built on Wayland Boulevard by H. L. King. Mr. King is planning at two other rent houses on the city.

C. A. Knapp will begin the construction soon of a two-story stucco residence west of the Wayland Building.

J. C. Terry has his plans completed for a five-room bungalow on the lots recently purchased from the Baptist Church on the corner of Columbia and Eighth Streets.

## Kicked By Mule Alvin Sheffy Dies; Was Buried Wednesday

Alvin Sheffy, seventeen-year-old son of Mr. and Mrs. W. B. Sheffy, who live six miles south of Plainview, was kicked by a mule Monday afternoon while hauling feed. He died Tuesday night about nine o'clock. The funeral services were held Wednesday afternoon at the First Methodist Church by the pastor, Rev. J. W. Story. Interment was made in the Plainview Cemetery.

Classmates of Alvin's were pall bearers—Willie Buntin, Ray McCray, George Burt, Grover Burt, Roy Clements, Ben Jordan, Horace Ansley and Paul Frye.

## SWINDLING CASE DOCKETED IN THE HALE COUNTY COURT.

Case No. 1016 on the criminal docket of the County Court of Hale County is for swindling, a misdemeanor. No arrest has yet been made.

Judge W. B. Lewis has granted an application for the appointment of appraisers in the case on the probate docket involving the estate of Bertha Gregory, deceased.

## PHYSICIANS RESET BONE OF COY MYERS' THIGH.

Coy Myers, who was injured last Friday evening, when a car driven by Mrs. E. H. Humphreys ran over him, is suffering considerably on account of his injuries. The bone of his thigh was reset Tuesday night.

## PARIS MAN IS PLEASED WITH PLAINVIEW COUNTRY.

B. W. Lewis, of Paris, has returned to his home, after a visit in the Plainview country with his friend, J. B. Nance. Mr. Lewis is prospecting in this section, desiring to change investments since the Paris fire. He was much pleased with the Plainview country.

## The Cow Pulled Them Out

Dairies a Kansas Community Antidote for Bankruptcy; Speculative Farming Easier, but Leads Away From Prosperity.

From Kansas City Weekly Star. Farmers near Abilene, in Dickinson County, Kansas, have tried many times to quit dairy farming for speculative farming, but each time they have had to return to the dairy cow to recoup their losses. And the dairy cow made good every time. That has been the community experience and the experience of the individual farmers.

Raising wheat and grain and working only a few months in the year looked a lot easier than being busy all the time, even though profitably occupied, some of the farmers there frankly admit.

The experiences of E. Engle, one of the largest and most successful dairy farmers in that region, are fairly representative of the experiences of others who tried to find something easier and more profitable than the dairy business. Mr. Engle began milking cows twenty-five years ago. There was a creamery at Abilene. He made a small fortune in the dairy business and he and his son bought a mill at Abilene. The little fortune was wiped out and Mr. Engle was plunged into debt. Again he turned to the dairy cow and again the profits began to come in and the debts began to dwindle.

Then the price of wheat jumped high, and the temptation to make easy money was too great again.

But a flood wiped out his wheat venture and ruined his alfalfa. Again he turned to the dairy cow, and again the dairy cows pulled him through. Now he milks thirty-two head of registered Holstein cows and is adding to his herd every year.

Increasing His Herd. "I lost various wheat crops, and the dairy cows kept us on our feet," Mr. Engle said recently. "The last two years we lost our corn and wheat crops. We sicked the dairy cows on the wolf and drove it away. We simply couldn't stay in the farming business if we didn't have dairy cows. It is for that reason we are increasing the number of cows and gradually reducing farming operations. Grain farming is an 'in and out' proposition, and never 'in' when it ought to be.

"Dairy cows will redeem farmers from failure, build up the soil, the bank account and the community. That has been the experience around Abilene for twenty-five years.

"In the last two or three years there has been an organized effort to build up the dairy business in Dickinson County. We organized the Cow Test-

ing Association, and several hundred cows are being tested to determine whether they are profitable. We are just learning to get rid of the unprofitable cows and keep only those that return a profit. The work of the association is being extended into all parts of the county, and the farmers are entering into the dairy business as they never did before.

Kansas Cows in Demand. "Although we have been dairy farming around here more than twenty-five years, we never before organized to promote it as a business and never before realized its possibilities. There is a big demand at steady prices for milk and cream. There is a far greater demand for good dairy cows and bulls. The farmers in this region are insured a good price for their cream and a good price for their surplus dairy cattle. Kansas and various other States in the West are turning to the dairy cows. The farmers have been robbed so often by cow speculators who have unloaded culls from Minnesota, Wisconsin, and Illinois, they are eager to buy out here near home, which opens to the farmers a most profitable business of breeding dairy cattle."

"It is dairy farming that makes this one of the most substantial communities in Kansas," J. G. Landes, an Abilene business man thirty years, said recently. "Farmers around here pay cash for most everything they buy. They do not have to ask for credit, because they have a regular and substantial income from their dairy cattle. More than two-thirds of the farmers around here pay cash for farm implements, a most unusual condition, considering the credit system most everywhere in farm implements."

Future in the Dairy. "Business men are beginning to realize that the prosperity of the farmers means their prosperity. The Commercial Club here has joined with the farmers in an effort to build up the dairy industry. The change from grade cows to registered dairy cattle of profitable milk production has been quite expensive to some of the farmers, but they are finding it pays best and brings the farm dairy business to a more substantial footing. The dairy industry around here has made more productive farms and more prosperous farmers. The fact that the farmers are searching for a means of making the farm more profitable convinces us Kansas must turn to dairy cattle for its future prosperity."

## SUES FOR \$10,000 WHEN OFFICER ENTERS HER HOME

Judge R. C. Joiner, of District Court, is hearing first civil suit of August Term.

A great deal of attention has been attracted to the case being tried today in the District Court. Mrs. Nannie Lagow is suing W. J. Dunlap for \$5,000 exemplary and \$5,000 actual damage. It is alleged that Mr. Dunlap, as a deputy sheriff, entered the home of Mrs. Lagow in search for her husband without presenting a warrant for his arrest. Deputy Sheriff Dunlap has been on the stand this afternoon.

On the jury which will decide the merits of this cause are S. J. Abrams, Jim Ellerd, J. T. Lowry, T. B. Broyles, Lee Shropshire, J. J. Barton, Jr., J. P. Norfleet, W. E. Winfield, Elmer Sanson, W. M. Tedford, Grover Lemaster and John Conner.

The case of S. F. Lagow, charged with unlawfully selling intoxicating liquor in prohibition territory, has been set for next Monday.

Many civil cases have been disposed of by settlement out of court. The Lagow damage suit is the first civil case that Judge Joiner has tried this term of court.

## MRS. LANDRUM WILL BE HERE DURING TEACHERS' INSTITUTE.

A letter to The Herald from Mrs. J. L. Landrum, of the State Department of Agriculture, states that she will be in Plainview September 5th and 6th. In another column is published an open letter from her to the members of the Home Economics Clubs of the county.

## MATRICULATION AT WAYLAND TO CONTINUE UNTIL TUESDAY

President Rev. R. E. L. Farmer is optimistic concerning work of the Term Just Begun.

With promise of a fine term, Wayland Baptist College opened formally this morning. The President, Rev. R. E. L. Farmer, is very optimistic concerning the year's work, and his optimism pervaded the formal program this morning. Talks were made by Rev. J. W. Winn, Rev. G. I. Brittain, J. W. Boswell, J. L. Overall, R. A. Long, Professor J. E. Willis and Professor J. E. Watson, and a special violin solo by Professor Rupert M. Crabb and a reading by Miss Bess Brown were enjoyed.

Rev. Farmer states that nearly all the rooms in both dormitories are occupied. Many students who will attend have not enrolled, matriculation continuing until Monday.

Workmen are now completing the installation of a new concrete floor in the third floor of the main building, which is used as a boys' dormitory. The brick veneer on the girls' dormitory is about three-fourths completed, and will be finished at an early date. New plumbing has been installed in both buildings.

## WEST TEXAS A. & M. BOOSTERS MEET IN FORT WORTH OCT. 4.

October 4 has been set as the date for the meeting in Fort Worth of persons interested in the establishment of an Agricultural and Mechanical College in West Texas.

## COLE BLEASE IS LEADING.

Cole B. Blease is leading in the race for Governor of South Carolina. Indications are that he will not receive a majority, but will have to enter a runoff primary. He is a candidate in the Democratic primary.

## TEXAS COTTON PALACE OPENS NOV. 4TH; CONTINUES TO 19TH.

The Texas Cotton Palace, at Waco, opens November 4th and continues until the 19th. All railroads have granted special rates. This is one of Texas' biggest fairs. It will be remembered that last year the Plainview Chamber of Commerce sent an exhibit of Hale County products to this exposition and won numerous prizes.

## STRIKE SITUATION LOOKS MOST FORMIDABLE NOW

Brotherhoods State if Eight-Hour Law Passes Before Saturday Night Strike Will Be Deferred.

WASHINGTON, Sept. 1.—The House of Representatives passed the eight-hour bill this afternoon, fixing an eight-hour day for railroad employees engaged in operating trains in interstate commerce and providing for the investigation of its effects by a commission.

A railway strike is impending, and the time for settlement is very short. President Wilson has appeared before Congress in joint session and has urged certain legislative enactments which in his opinion will tend to avert the strike and place the Government in position to cope with the situation should a strike arise. Representatives of the brotherhoods of trainmen have stated that if the proposed eight-hour law is passed before Saturday night they will at least postpone the strike. President Wilson takes the position that with the legislative machinery at work on such a measure the trainmen should postpone a strike, and in case such action is not taken he has expressed a purpose to send out an open letter to the trainmen, appealing to them to take such action as will defer the strike. There is only a short time left within which to meet the demands of the brotherhoods, and both railway and brotherhood representatives seem determined in their stand.

The action of the wheat market is a good barometer to the situation. This morning the strike situation looked most favorable, and wheat advanced in price. By eleven o'clock it had broken, however, closing at \$1.40, about six cents lower than it opened, which indicates the situation is more

considerable work has been done on the agricultural survey of Hale County this week. Chas. Reinken, Dr. J. D. Hanby and H. S. Hilburn have been in the field in the district just east of Plainview. They report that the people on the farms are co-operating in the most desirable manner with the survey workers. It is hoped that the work will be completed before the tenth of September.

## STATE BANKING COMMISSIONER DIES FROM BULLET WOUNDS.

J. S. Patterson, State Banking and Insurance Commissioner, died, at Waco, Tuesday night from bullet wounds received while posting a notice of closure of the Farmers' and Merchants' State Bank at Teague. It is alleged that T. R. Watson and sons, J. E. and W. R., are held charged with the killing. A receiver has been appointed for the bank.

## THE COUNTY SURVEY WORK IS BEING SLOWLY ACCOMPLISHED.

Considerable work has been done on the agricultural survey of Hale County this week. Chas. Reinken, Dr. J. D. Hanby and H. S. Hilburn have been in the field in the district just east of Plainview. They report that the people on the farms are co-operating in the most desirable manner with the survey workers. It is hoped that the work will be completed before the tenth of September.

(Continued on Page Five.)

**WANTS CLUB GIRLS TO BRING IN THEIR CANNED PRODUCTS.**

Austin, Texas, August 28, 1916.  
Dear Club Girls of Hale County:

I will be in Plainview Tuesday and Wednesday, the 5th and 6th of September. I see from the program there are to be reports from the rural clubs on the 6th. I hope it means my clubs as well as the mothers' clubs and others. Now, try to come in on that day, every one of you. I would love to have a real big country meeting of the girls, so that I could tell you in person of the many plans that are made for you this fall and winter. Will you each bring something for exhibition for the Dallas and Waco State Fairs in textiles, which means embroidery, crochet, doll dresses, etc., as well as canned products?

I would like to have as many as two or three jars of your best canned products from each girl. These products will be exhibited and returned to you after the fairs are over. We will pay the express on them and take all the care of them we can.

I want Hale County to have a fine showing of girls' work everywhere we exhibit. We will not only exhibit in Texas, but are planning to go to the Tri-State Fair at Memphis, Tennessee. Let's do all we can for Texas and your own fine county. I hope to see every club girl who can come into Plainview on the 6th of September.

With lots of love to you all, I am,  
Cordially,  
MRS. J. L. LANDRUM.

Fort Tyra, Lake Worth,  
Fort Worth, Texas.

**Dearest Club Girls:**

Well, it seems a long time since I wrote you, but maybe it does not seem so long to you. After leaving Denver, Colorado, where I had a very pleasant stop of several days, I went on to Amarillo, Texas. I stayed there one day and arranged the Woman's Division program of the Panhandle Farmers' Congress, which met there the 24th of this month, and then hurried on down to enlist in the Girls' National Honor Guard Encampment.

While in Denver I was a guest of the Colorado Editorial Association at their annual meeting, and also a guest at their banquet at night. When I was called upon for a talk I could only think of Texas and my club girls and of what they have done, and so that was the theme of my talk. In conclusion, I told them that they seemed almost as nice as our own dear Texas editors, and I thought that was the greatest compliment I could pay them. You see, I can not forget how nice the Texas press is to us. As an appreciation of what they do for us, I want every club girl to read her community paper and feel a sense of gratitude for the space and attention that her editor gives our club letters and lessons.

After the banquet, Mr. Haffner, who is one of the members of the big engraving plant of Denver, and who was hoer at his house for the banquet, came to me and said he was going to send my club girls a wonderful lot of beautiful Colorado views. So when those views are received I am going to send them to each club, and I expect they will have to be up as prizes for attendance or something else that the club would suggest.

Now, I am sure you are wondering what I am doing here in the camp of the N. G. H. G. Well, you see, I think so much of girls that I wanted to camp with them, be with them as one of them, so I enlisted. I drilled right along with them and obeyed the discipline of the camp like any other rookie. It was a great time. I want to tell you

Babies will grow and while they are growing you should have them photographed often enough to keep a record of each interesting stage of their childhood.

You will prize the collection of baby's pictures more and more as the years go by.

Make an appointment today.

**COCHRANE'S  
GROUND FLOOR  
STUDIO**

all about it in the course of time. I want all the girls to think about it, and if we can manage it we will have an encampment next year after the close of the Farmers' Institute. It will give the delegates a wonderful chance to have a ten days' military training and instructions in nursing, etc., that will always be useful to you. I will prepare a long letter about the camp work and mail directly to the clubs when you get to meeting regularly after school opens.

I am going to call for club exhibits within the next few weeks, and I hope every girl in every club will have something to offer for exhibition. We are going to have fine plans for exhibition, and every community will have a chance to advertise its club and its work.

Now, with lots of love to you all, and hoping you have canned all that you could of your garden and orchard surplus, I am,

Cordially,  
MRS. J. L. LANDRUM.

**SILOS ON THE PLAINS.**

Z. E. BLACK,  
in The Country Gentleman.

From one windmill tower in Hale County, Texas, the naked eye can see twenty-seven of the county's more than 100 silos. The first was constructed in 1912—about the time a farmer is said to have written the State A. & M. College asking where he could secure some "silo seed."

Increasing land and crop values the past few years have caused serious consideration to be given the production and care of feedstuffs. Although getting a late start, "silo seed" has become well rooted in the semi-arid western half of Texas. Two thousand silos are said to have been put up in the State in 1913, one ranch giving a single order for forty-five, figuring that by their use 5,000 cattle will be taken care of by 500 acres of feed, instead of the 100,000 acres needed under the old grass system of "twenty acres to the steer."

It is claimed that the 800-ton silo of H. E. McCabe, Hale County, is the largest in the world. He uses it chiefly for feeding sheep, bought up cheaply on the New Mexico range, feeding a ration of half silage and half forage. There is also a 600-ton silo in the county. These large silos are giving satisfaction, but the average size now being installed is around 200 tons.

**Dry-Land Silage.**

All the various kinds of silos are found here. Of the grain sorghums—kaffir, maize and feterita—the former is the leading silage crop, having the most leaves and least pithiness of stalk. Those who have used both claim kaffir silage is practically as valuable as corn silage. There was a lot of sour, acid silage in this section before the stock farmers learned to silo the crops when the grain was in the milk stage and just hard enough so it could be crushed between the fingers, the leaves still being green at this period.

The average rainfall here is a little above twenty inches, and dry-farmed kaffir will run about five tons of silage to the acre, the total cost being around two dollars a ton, rent and all other expenses figured in. Under irrigation in the shallow-water pumping districts about fifteen tons to the acre is the average yield. Sorghum makes even more silage than kaffir. Some farmers have had good results from sweet clover, and the mixing of cowpeas and peanuts with the silage is quite popular.

A most conservative estimate of the feeding value of silage to beef steers here is five dollars a ton. A recent test by a Texas experiment station showed \$8.16 a ton. A feeding test conducted by the United States Department of Agriculture near Amarillo demonstrated that steers fed silage and cottonseed meal gained 400 per cent more than meal-and-grass-fed steers.

J. P. Reeder fed two-year-old steers twenty pounds of silage each day for thirty-five days, together with two and a half pounds of cottonseed meal, increasing the meal ration to six pounds daily toward the close, using wheat straw for roughness. The gain per steer was 140 pounds. The noteworthy feature was the fact that the silage was made from milo maize only two feet high and without a single head. This means that grain sorghums following wheat or other crops the same season and not having time to put on heads, as well as kaffir and maize that fail to mature grain because of drought, may be siloed and about ninety per cent of the crop saved, instead of having a loss of forty-five to sixty-five per cent if handled under the usual dry conditions.

On an average, green grass can be depended upon only six months in the year. Run a 900-pound steer on a dry-grass range all winter and in the spring he will weigh only 750 pounds, if he has little other feed. At five cents a pound this would mean a loss of \$7.50. Put him on silage at the beginning of winter and he will gain 150 pounds, without having consumed more than five dollars' worth of silage, estimated at forty pounds daily

for 120 days. This means a clear saving of ten dollars a steer. Also it would practically eliminate the five per cent loss which big ranchmen expect every bad winter, because poorly fed range cattle are unable to withstand "northers." There are nearly 2,000,000 cattle in the Plains-Panhandle region north of the Texas & Pacific Railway, and the weight and death loss each winter would build 5,000 or more silos.

However, the winters in this section are mild enough for steers to graze in the open the year round without injury if they are properly fed. Silos are not so essential on the irrigated farms as on the open range, but most of the irrigationists are installing them and selling the surplus silage to ranchmen, or buying cattle at the beginning of winter to consume it. There are more cattle in this section today than ever before, and the silo is chiefly responsible for the increase.

Also there is more profit in them, as they are being finished for market at home instead of being sent from the range to the Corn Belt. The silo fits in well with the tendency toward baby beef, as silage keeps the calf growing throughout the winter. It is estimated that the Plains-Panhandle section sold more than \$25,000,000 worth of cattle ranging from calves up to two-year-olds in 1915.

**TULIA GETS NEW DEPOT.**

Construction has begun on a modern concrete depot building by the Santa Fe at Tulia.

**FORD SUED BY VITAGRAPH.**

NEW YORK, Aug. 21.—The Vitagraph Company of America has begun suit against Henry Ford for \$1,000,000 damages. The action follows Mr. Ford's publicity campaign attacking the motives of the Vitagraph Company in producing the "Battle Cry of Peace."

One pocket-size memo book, red morocco back, open end, lost by J. W. WILLIS yesterday somewhere in Plainview. Finder please return to him and receive reward.

**FOR SALE CHEAP**—Windmill and tower, 6,000-gallon tank and piping, and all fittings complete. At my coal yard. E. T. COLEMAN, Coal and Grain Dealer.

**CARD OF THANKS.**

We wish to thank the members of the Plainview Fire Department and other friends who were so kind in their assistance when our son, Coy, was injured in a recent automobile accident. MR. AND MRS. J. A. MYERS.

**HERE'S A WEIRD POPULAR SONG.**

"My Phantom Girl," Just Released, a "Creepy" Bit of Popular Music.

The very newest music there is just being presented by EVERYBODY'S CONFECTIONERY.

This concern represents the famous McKinley Music Company, of New York and Chicago, and as their agent has exclusive for its interesting phono-

graph demonstration system their latest publications. Through their agents, of which there are many thousands all over the country, the McKinley Music Company is now releasing for September two splendid and original songs, "My Phantom Girl" and "I'll Be With You When It's Daisy Time in Dublin." "My Phantom Girl" is truly a weird song, and probably will be the forerunner of a whole crowd of "weird," just as one of this company's creations began the popularity of "blues" songs. The demonstration record for this song is really an artistic bit of work. It will set the shivers going up and down your spine and make you feel like you really were out all alone on a deep, dark night. Those famous singers, Campbell and Burr, make a wonderful

duet of the chorus. There's all the Irish gaiety and spirit you want in "It's Daisy Time in Dublin." The cheery, whistling chorus is a fine feature of the demonstration record. The Demonstrating Music Shop can supply you any piece of music you want.

**YOU CAN HAVE A WEALTH OF BEAUTIFUL HAIR**

Nothing equals an aureole of beautiful hair as a frame for a pretty face. Without a background of nice hair a really pretty face frequently becomes plain and, with its unattractive features assume life and beauty. Every woman can increase her natural charm by using Newbro's Herpicide. Herpicide makes hair beautiful. The dandruff germ saps the vitality of the hair. Herpicide applied intelligently and regularly checks this destruction of hair life and prevents the hair from falling out, giving it a snap and luster, a soft, silky fluffiness which can be acquired in no other way. Newbro's Herpicide in 50c and \$1.00 sizes is guaranteed to do all that is claimed. If you are not satisfied your money will be refunded. Applications may be obtained at the best barber shops and hair dressing parlors.

THE R. A. LONG DRUG STORE.

This is the Stove Polish YOU Should Use

IT'S different from others because more care is taken in the making and the materials used are of higher grade.

**Black Silk Stove Polish**

Makes a brilliant, silky polish that does not rub off or dust off, and shines like a mirror. It is four times as long as ordinary stove polish. Used on stoves and sold by hardware and grocery dealers. All we ask is a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

Black Silk Stove Polish Works  
Sterling, Illinois

Use Black Silk Air-Drying Iron Enamel on grates, registers, stove-pipes—Prevents rusting. Use Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

**"A Shine in Every Drop"**

**IF YOU** want good home-grown trees, grown from varieties that have been tested and do the best in your own climate and your own soil, apply to Plainview Nursery. We can show and deliver you the trees. We will trade nursery stock for peach seeds or second-hand sacks.

**THERMOS BOTTLES**

are such remarkable convenience that most people wonder how it was ever possible to get a long without them. They keep liquid hot for 72 hours or cold for 48 hours. On outing trips, fishing parties, etc., cold or hot drinks may be had as conveniently as though you were at home. Thermos Bottles are also invaluable in the sick-room and nursery.

All prices and fillers on hand all the time.

**LATEST**

**Marion SIX**  
MODEL "K"  
\$1090.

**The Last Word in 1916 Six-Cylinder Development**

**A** NEW MARION embodying all the beautiful detail of finish and improvement throughout that instantly distinguishes the finished product. This new Marion Model "K" with its foreign-type, high-speed 3 x 5 six-cylinder motor. Westinghouse latest electrical equipment. Under absolute control by the big 14-inch brakes. Beautifully and luxuriously upholstered in the finest long grain bright finish real leather. With Chase leather one-man top, and Collins quick attachable curtains. The big roomy body finished in that rich distinctive Marion wine color. Brown-Lipe spiral bevel differential. 120-inch wheelbase. 4-inch tires, non-skid on rear wheels. Weighing but 2600 pounds.

**W. R. SIMMONS, Agent for Imperial and Marion Cars**  
**THE MUTUAL MOTORS CO., JACKSON, MICH.**

**DETAIL SPECIFICATIONS**

**MOTOR:** Foreign type, high speed, six cylinder, cast in bloc. 3-inch bore, 5-inch stroke.

**ELECTRICAL EQUIPMENT:** Latest type Westinghouse starting, lighting and ignition.

**REAR AXLE:** Brown-Lipe spiral bevel differential of the latest floating type.

**BRAKES:** 14 inches in diameter with 2-inch face.

**STEERING GEAR:** Gemmer gear, left-hand side through irreversible worm to sector. 18-inch walnut steering wheel.

**WHEELS:** Extra heavy second-growth hickory with 1 1/2-inch spokes.

**RIMS:** Firestone demountable.

**GASOLINE SUPPLY:** 16-gallon round steel tank located at the rear of chassis with the famous Stewart-Warner Vacuum System.

**UPHOLSTERING:** Divan type, highest grade long grain, bright finished real leather.

**FENDERS:** Crown type, heavy pressed steel; black enameled.

**SPRINGS:** Genuine imported Sheffield steel.

**FINISH AND COLOR:** All bodies are hand-filed, rubbed and finished, receiving twenty coats of paint. Fenders black enameled. Body hood and radiator all hand-finished in the rich and beautiful Marion wine color.

**TOP AND CURTAINS:** Chase leather one-man top and quick attachable Collins curtains. When curtains are in place attachments on doors allow curtains to open with the door.

## Motor News of General Interest

### MEXICAN PEON USES AUTO TIRE FOR HIS SANDALS.

A new use has been found for Goodyear tires, reports an American business man who has just returned from an expedition into the Mexican interior. Although the Goodyear Tire and Rubber Company has for more than a year been making soles of Neolin, a synthetic substance discovered in the Goodyear laboratories, the Mexican peon serving as a guide on this expedition evidently is satisfied with Goodyear tires themselves, when it comes to footwear.

Cotton canvas has for centuries been used to dress the feet. In China, for instance, only a small percentage of the natives, even in the colder sections, ever wear anything else. It would seem, therefore, that if the predictions of leather shortages in the near future prove true, many motorists might economize in footwear by using their discarded automobile casings, in emulation of the example of this enterprising peon.

In a recent fight near Vera Cruz, in which a detachment of Carranza soldiers surprised a band of raiders in a stolen automobile, the car was captured, but not until there was practically nothing salvageable except the tires. And these had suffered in the scramble too.

The peon secured two pieces of the damaged tires and fashioned them into a pair of sandals, which he declares are much better than the old leather ones, being more springy and durable. One of them bears the world-wide trade mark, the wingfoot. After the roughest kind of service over Mexican mountain trails, they showed but little wear. Twenty pesos were offered for them, but refused, although ordinary sandals can be purchased for 12 pesos.

### REMARKABLE AUTO TEST.

A unique test was recently staged by the King Motor Car Company at Sheephead Bay track. The test was made with a stock car, and the object was to run continuously until some part of the car broke down or 10,000 miles had been covered, or two weeks' time had elapsed.

One of the accessories on the car, which consisted entirely of standard equipment, was a Willard Storage Battery used in connection with the starting, lighting and ignition system.

During the entire two weeks' run the engine was not stopped, and the car itself was only stopped in order to replenish oil, gasoline, water and tires. Lights were left burning almost continuously. The headlights and an additional spotlight furnished illumination at night for the car to be guided around the track.

If the storage battery had refused to perform its functions properly, the engine would have stopped and the test would have been ruined. But nothing of the kind happened. Occasionally a gravity reading was taken and water was added three times. While this addition of water was unnecessary, it was a means of playing safe and making sure of battery performance.

After the test was completed one of the battery cells was torn down and inspected. This was done in the presence of S. E. Edwards, chairman of the test, and also a member of the American Automobile Association Contest Committee, as well as Messrs. Shipper and

Elsner, of the same committee. The battery proved to be in perfect condition. Plates and separators were unharmed by the long run, which covered 10,850 miles during the two weeks.

The average speed was nearly 40 miles per hour. A test of this kind is equivalent to the amount of driving done by the average car owner in two years' time.

### INTERESTING BITS OF AUTOMOBILE NEWS.

#### Oregon Registrations 30,504.

Receipts of the Oregon State Vehicle Department for the first seven months of 1916 totaled \$132,044.50, compared with \$108,881.50 for the entire 12 months of 1915. A steady increase in the number of motor vehicles in Oregon is shown. Last year there were 23,585 cars, while this year, with five months yet remaining, there are 30,504 registered.

#### Kansas City Has 12,100 Cars.

City motor licenses issued in Kansas City, Mo., to August 12 totaled 12,100. This is more than 2,000 above the number issued last year, when the total was somewhat under 10,000. The city license inspector ordered 12,000 tags at the beginning of the year, thinking this would suffice. It is now found necessary to get 2,000 additional tags.

#### Texas County Has 717 Cars.

Caldwell County, of which Lockhart is the county seat, claims more miles of good roads and more cars to its size than any other county in Texas. The Lusling district and the Martindale district are now spending, respectively, \$50,000 and \$10,000 on road improvements, and Lockhart is coating its roads with a dust-layer. Nearly \$170,000 has been spent in Lockhart for cars since January 1, the registration to date being 717.

#### Salesmanship Course at Columbia.

Columbia University plans a course in salesmanship, which coincides with the idea which played such a big part in the recent World's Salesmanship Congress. A new business school is to include courses in selling, advertising, sales management, business English and commercial correspondence. It is planned to make the instruction practical and of immediate value to young men already engaged in business vocations. The course will be three years.

#### Crater Lake Road Open.

The Government road to the rim of Crater Lake, Ore., now is open for travel. The road was cut through huge snow drifts in places. A crew of men has begun work on the road which the Government is building around the rim of Oregon's wonderful lake.

#### Good Roads League Formed.

The Adams County Good Roads League has been organized at Quincy, Ill., with a view to conducting an educational campaign to pave the way for a vote on road bonds.

#### Texas' Federal-Fund Plans.

Already plans are on foot to use Texas' share of the Federal appropriation of \$5,000,000 for good roads. It is the plan of D. E. Colp, secretary of the Texas Good Roads Association, to use this money in building a model road from Dallas to Mineral Wells, by way of Fort Worth and Weatherford, using the Tarrant County road system

as a part of the road. Secretary Colp says he finds very little opposition to the creation of a State Highway Commission.

#### Oakland Will Expand.

There will be about 800 more men on the payroll of the Oakland Motor Car Co., Pontiac, Mich., within the next few months, when large additions to the plant will be completed. Recently ground and a number of lots and houses near the factory have been bought for this purpose. One of the most important additions will be a large one-story, saw-tooth machine shop, which will practically double the capacity of the present shop.

#### CARBURETOR MUSEUM FOUND IN THE NATIONAL CAPITAL.

Washington, D. C., is not only the home of the National Museum, but it also boasts of the only known Carburetor Museum, found at the garage of Irving Donahue, at Washington.

Mr. Donahue has been a specialist in carburetor trouble, and in the course of several years has collected an almost unbelievable number and variety of defunct carburetors, of both foreign and domestic makes, which he has replaced with Rayfields. It is an interesting display, covering the entire gamut of carburetor construction from the days of the "one lugger" up to the latest models, and is a collection that will some day have a high historic value, if not an intrinsic one.

#### HAREM VEILS AND OILSKINS FADS FOR LADY MOTORISTS.

Harems and motors! What is more contradictory? Yet, we can conceive of the woman motorist adopting the styles of the harem if it suits her fancy, and this is just what she has done now. Closely akin to the harem veil is the "Peek-a-Boo" veil which so clearly recalls barred windows, soft voices and strange Oriental perfumes. It is a creation by E. & Z. Van Raalte Company, and is expected to prove a blessing to the woman motorist.

How does it work? Why, some chif-

fon is worn down over the mesh, thus protecting the face. The eye-space, you see, gives clear vision through the chiffon.

From chiffon to oilskins is a far cry, but the motorist meets fair and stormy weather, too. Sometimes this sport suit from Stern Brothers will serve better than the more novel "Peek-a-Boo."

For, like her oil-skinned brother of the fishing smack, she will scorn the elements and their misbehavior. And when it comes to tramping or driving with rain in her face—what's better, anyway?

So in these two motoring "accessories" Milady may find something a little out of the usual to wear on her rounds, whether it rains or shines. The veil goes best on a small hat, of course. The suit is to be worn over breeches or a heavy skirt.—Motor Age.

#### MOTOR CONQUEST OF YOSEMITE.

CAMP CURRY, Yosemite National Park, Calif., Aug. 19.—The motor conquest of the Yosemite National Park, begun three years ago, has been carried through to victory this summer, and private cars are now carrying more tourists into the park than all the railroad and motor transportation companies combined. More than 2,700 cars of ninety-seven different makes, carrying licenses from nearly half the States of the Union, entered the national playground before August 31st.

The troublesome restrictions once imposed on motorists by the authorities have been removed, and motor cars now pass freely over Yosemite roads. Maps, official road rules and other things of interest to motorists have been embodied in a folder issued by David A. Curry, proprietor of one of the resorts of the Yosemite Valley.

Every tourist who enters the valley uses motor transportation at one stage or another of his journey. The railroad ends just outside the park boundary, and motor stages of large capacity carry the tourists up the canyon of the Merced River to the resorts of the valley floor. Another stage line operates touring cars between the railway terminus and the resorts by way of the Toulumne grove of big trees.

# Service That Gives the Word An Entirely New Meaning

64 Coupons, each for One Half-Hour's Labor

Four Hours of Scrupulous Care per Month for a Period of Eight Months

No Cost to You for Expert Supervision That Keeps your Car Continuously in Racing Trim

**S**ERVICE, as the Hupmobile owner knows it, and service as it is generally understood, are two radically different things.

No other car is cared for as the Hupmobile is cared for. No other service plan is like the Hupmobile service plan.

Hupmobile service is an intimate, intensified system of supervision. It keeps the owner and his car in close and continuous contact with the service station.

The service station sees to it that every Hupmobile is tuned up to concert pitch all the time.

All at no cost to the owner. He pays with coupons which we supply without cost when he purchases his car.

The coupons cover four hours of service labor by trained Hupmobile experts, each month for eight months.

### Service That Covers Every Part of the Car

L. A. Aldrich of Mellette, S. D., says this service is a great help to Hupmobile owners.

When you drive up to the service station, one of the things that is given as a mat-

ter of course is an inspection of the steering gear and a test of the brake adjustment.

A. C. Koch of Chicago writes that our plan makes the initial pleasure of owning a car a constant pleasure.

The alignment of the front wheels is checked up, and the front wheel bearings are examined for play.

George P. Edmonds of Chicago finds this the most satisfactory service arrangement he has encountered in his experience with three different cars.

Distilled water is added to the storage battery, and the specific gravity of the battery is tested to determine that it is fully charged.

Spark plugs, wiring terminals, ignition distributor, generator and starting motor are gone over. Grease cups are turned down. Motor, transmission and differential are supplied with new lubricant when necessary—the owner of course paying for oils and greases.

### 99 Per Cent Efficient Say 11,000 Owners

W. P. W. Martin of Los Angeles, Cal., says our service system should put us on a firm footing of friendship with Hupmobile owners.

And so it does. We receive thousands of unsolicited letters from them.

That is how we know that 11,000 owners rate the Hupmobile 99 per cent efficient.

That is how we know that 50 8/10 per cent of Hupmobile owners buy our cars year after year.

That is how we know that 24 2/10 per cent of those now owning Hupmobiles have been won away from higher priced cars by Hupmobile performance, efficiency, service, and thorough-going goodness.

### Why Buy Any Car Lacking Such Service?

Is it worth anything to you to have a car whose care never gives you a moment's distress? A car which keeps you serenely and continuously satisfied?

That is what the Hupmobile owner has. He enjoys the tremendous advantage of expert care. He is, in short, the most contented of owners.

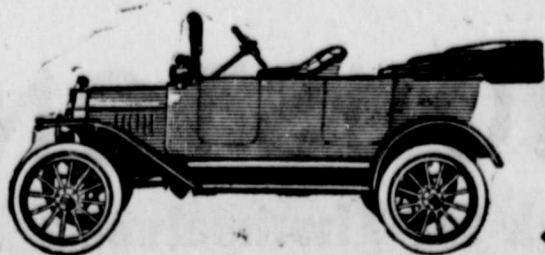

Can you afford even to think of buying any car that does not offer the equal of Hupmobile service?

**HUPP MOTOR SALES CO.**

# The Plainview Evening Herald

TWICE-A-WEEK

Published Every Tuesday and Friday Evening by—  
THE HERALD PUBLISHING COMPANY,  
Corner Broadway and Second Sts.

HERBERT S. HILBURN, Editor E. B. MILLER, Business Manager

Entered as second class mail matter July 1, 1914, at the Post Office at Plainview, Texas, under the act of March 3, 1879

\$1.50 a Year; 75c, 6 Months. Advertising Rates on Application.

West Texas Dental Association in Plainview, September 15.

It's a pretty safe bet that the majority of the live wires in the South Plains country know about the Dickens County Fair which is to be held at Spur September 5-9. It's another pretty safe bet that there are few towns of 1,500 which can fit out a "classier" booster train than that of the Spur Boosters who were here Wednesday evening. That was a live bunch, and they tell us they haven't done their fair justice.

### ATTRACTING THE TOURIST.

Colorado's most flourishing and profitable crop is its annual influx of automobile tourists. The suggestion made by a man who has been much interested in the development of this section that Plainview provide a camping place for tourists, equipped with cooking facilities, windbreak, trees and running water, isn't half bad. The auto tourist has come to stay. This is the accepted mode of summer travel, and the town which prepares to receive the benefits of auto tourist business is wise.

### THE SHEEP AS A BY-PRODUCT.

We have yet to learn of the first case of loss in a small herd of sheep on a South Plains farm, barring accidents and marauding animals. Every farmer who has a few head of sheep makes good money on his herd. They use practically no feed, glean the fields and keep the weeds and grass down in the lanes. Turned into kaffir and milo maize fields they strip the bottom leaves from the stalks and do no harm to the stalk or the grain heads. The sheep is to the farm what the by-product is to the packer.

### COUNTING THE COST.

"I was offered a dollar and a half for my wheat the first of the week. I didn't sell it. A dollar and a half is high enough for anybody's wheat. I don't like to see wheat go too high, for I am reminded of the poorer working people who must buy bread," is the statement of a prosperous South Plains farmer. "I have about three thousand bushels of wheat stored. I wouldn't contract to deliver it now for \$1.75, even if I knew I would not get that much as an offer again. All my teams are busy in the field now getting ready for wheat planting and harvesting milo and kaffir."

He counted the cost of a few days' delay in the preparation of his soil greater than \$750. That farmer always makes a good crop, too.

### WHAT ABOUT THE DEPARTMENT OF AGRICULTURE?

It is recognized that there is a useless duplication of the work of the Department of Agriculture of Texas and the Texas A. & M. College in co-operation with the extension service of the United States Department of Agriculture.

Just what is the best solution of the problem is difficult to say. There has been a pronounced movement to do away with the State Department of Agriculture. This movement is not confined to, nor can it be said to have originated in, the school or department, which is by nature competitive with the State Department of Agriculture.

No one will doubt the sincerity of the writer, V. W. Grubbs, of an article in the Dallas News of Wednesday, in which he advocates the abolition of the State Department of Agriculture. This is the most significant utterance of any on the subject; for it will be remembered that in 1907 he was instrumental in securing the passage of the measure, following the declaration in the Democratic platform adopted at the convention in 1906, favoring the establishment of a State Department of Agriculture. In part, Mr. Grubbs says:

"In 1899 I introduced the first bill in the Texas Legislature to make said department a separate function of the State Government. It was reported unfavorably by the House Committee on Agricultural Affairs. The reason given for said adverse report was that the work contemplated by the bill should be done under the direction of the Agricultural and Mechanical College. I did not think so, and in connection with my advocacy of an educational reform generally, including the establishment of the College of Industrial Arts, I urged the creation of a separate State Department of Agriculture. As a member of the committee on resolutions of the Texas Farmers' Congress with the late Judge Lee Young, of Stephenville, I caused a recommendation of the same kind by said Farmers' Congress in the summer of 1905.

"I organized and headed the State committee which drafted the educational plank in the Democratic platform in 1906. Judge Young was, however, more conspicuous in pushing said feature than any other member of the general committee. I gave some assistance to the author of the bill in getting it finally passed by the Thirtieth Legislature.

"I do not care to discuss the manner in which the special work assigned to said department has been done. I would most probably be incompetent to judge of the efficiency or alleged inefficiency of those who have been intrusted with the conduct of the demonstration and other activities of the department.

"In addition to the abrogation of said State Department of Agriculture, I favor the immediate repeal of the law exempting delegates to State Farmers' Institutes and other like organizations from the operation of the anti-free-pass law. That these conventions, attended by thousands of farmers and 'farmers of the farmers' are often, if not invariably, converted into great political conventions run in the interest of the 'ins' to the inestimable disadvantage of the 'outs' must be a most patent and indispensable fact fully recognized by any attendant and wide-awake observer. The temptation thus to prostitute such convocations of the unsuspecting farmers is too great, and should be discontinued by cutting out the free passes, without which they would be practically, of not entirely, impossible."

Judging from expressions of the press and of individuals who are studying the situation, before long the people of Texas will be called upon to solve their agricultural-extension problem, and to express their views at the ballot box.

### LIKE CHEWING TOBACCO IS TO MEN IS CLOVER TO COW.

Iowa Farmers Forced to Turn to Dairy Cows to Get Interest on Farm Investments.

"I need dairy cows on my place for my pigs," said F. A. Baylies, a prominent farmer-stockman who has moved to the Plainview country within the past few months. Mr. Baylies owns property near Hale Center. I believe the dairy business would be good for this country. In Iowa when the land reached \$200 an acre the farmers took their hats off to the cow. She was the one thing which enabled them to make interest on their investment. Sweet clover there is a great pasture crop for the dairy herds. It will grow along

the roadside, it is so hardy. At first the cows will not eat it, and as long as there is anything else green they will leave it alone. They have to form an appetite for it, but after they do they leave other feeds for it. It is very much like chewing tobacco with men. After they once use it they like it.

Mr. Baylies believes that this crop will do well in the Plainview country, although it has never been tried commercially.

### WILSON TO VISIT EL PASO.

President Wilson is to dedicate the Elephant Butte Dam, near El Paso, in October. The dam will be opened during the International Soil-Products Exposition and Farm Congress.

\*\*\*\*\*

**DO YOU KNOW THAT**

One million two hundred thousand Americans die each year, it is estimated?

Heart disease, pneumonia and tuberculosis cause more than 30 per cent of deaths?

Sickness lowers earning capacity?

The U. S. Public Health Service is the Nation's first line of defense against disease?

Disease is the Nation's greatest burden?

Sunlight and sanitation, not silks and satins, make better babies?

Low wages favor high disease rates?

A female fly lays an average of 120 eggs at a time?

\*\*\*\*\*

### SLEEPS WHILE HE IRRIGATES.

Water Coming Up on Aiken Farmer Lets Him Know When to Change Current.

This story is told of a farmer who lives a few miles from Plainview. The party relating it says it is not safe to give the name, for Fred Zimmermann, of Aiken, might question the story, his method of farming having become known by friends who called for him at the house one night and found him in the field.

A large umbrella, movable with the shifting of the sun and the change of the owner to new land, furnishes shade during the day time. When night comes the farmer turns the water into a land and, taking his shovel for a pillow, lies down for a nap. When the water wakes him he knows it is time to move to a new land, and changes the course of the water.

### GROWTH OF EXTENSION WORK.

An increase since the beginning of the present calendar year from approximately 6,800 to 15,455 in the number of women in the South enrolled in home demonstration work, carried on under the auspices of the United States Department of Agriculture and State agricultural colleges, is shown in figures for enrollment, June 30, 1916, just announced by the Office of Extension Work South. In the same period, the number of girls enrolled in the canning, poultry, and other agricultural clubs carried on under the supervision of the same office increased from approximately 42,500 to 47,749.

The extension work among girls and women was being carried on at the end of the fiscal year in 420 counties in all of the 15 Southern States, through 420 county agents and 50 specialists. In addition, North Carolina had 200 subagents and Alabama 16 assistant county agents, who devoted their time to the extension activities.

The largest enrollment of the girl demonstrators was in the canning clubs, which had 32,965 members. In the poultry clubs 10,205 girls are learning, through their local groups, under expert leadership, the details of raising domestic fowls. In the clubs devoted to bread making, 3,721 girls were enrolled, and in other clubs, 858.

### WOULD MOVE DAIRY HERD TO PLAINVIEW COUNTRY.

W. H. Newberry, of Childress, is in Plainview this week looking into the dairy business. Mr. Newberry is a prominent dairy farmer in the Childress country. The recently inaugurated dairy movement and publicity in the papers of Plainview and the city papers attracted his attention to this section. He has a herd of approximately one hundred head of dairy cattle, mostly Jerseys, which he contemplates moving to the Plainview country if he makes suitable arrangements here.

### FORESTBURG MAN LOOKING AFTER LAND INTERESTS HERE.

A. U. Perryman and family, of Forestburg, Texas, arrived by auto Wednesday. Mr. Perryman owns a section of land six miles northwest of Runningwater.

### "SHEEP BEST THING TO HAVE ON FARM"—OTTO BORCHARDT.

One of the really successful farmers in the Plainview country is Otto Borchardt, who lives a few miles east of Plainview. He has practically a thousand acres in cultivation, part of which he owns and part is leased. His kaffir and milo maize fields are free of weeds and the stalks are stripped for two feet of useless leaves. He keeps a small bunch of sheep, which he says are the best things any man can have on a farm. They eat the weeds and grass in his sorghum grain fields and strip the lower leaves without injuring the stalk or grain. Mr. Borchardt says they make him more money than anything else on the farm in proportion to their cost and trouble.

If you have land of any kind in the Shallow Water Belt that you will exchange for East or Central Texas property, list it with us. J. J. LASH. Phone 653.

### ONE AND ONE-THIRD INCHES OF RAIN FELL YESTERDAY.

The rain of yesterday was general over the South Plains. From Tulla, Lubbock, Hale Center, Floydada, Lockney, Canyon, Happy and Kress come reports of a good rain. The gauge at Plainview showed 1.32 inches rainfall. This rain will be of much benefit to the fields which have been and are being prepared for wheat. It will help the sorghum grains, too.

Mr. and Mrs. A. L. Lockwood, of Tahoka, were here yesterday.

We can build ten houses in choice locations, size and style to suit purchaser, and sell with small cash payment down, and balance like rent. Do you want one of them? J. J. LASH. Phone 653.

Have half section, well located, can sell at a bargain. J. J. LASH. Phone 653.

### PICNIC PARTY ENJOYS SKATING AT LUBBOCK RINK.

Wednesday afternoon a delightful outing and picnic was enjoyed by the following: Misses Kathleen Joiner, Jennie Humphreys and cousin, Frances Morrow, of Los Angeles, Calif.; Marie and Daisy Gidney and Thelma Corder, of Dallas; Messrs. Geo. Wyckoff, Casey Hughes, Jno. K. Rossen, Lee McGown and Don Powell. They were accompanied by Mesdames E. H. Humphreys and R. C. Joiner.

In the evening the party motored to Lubbock, where they enjoyed skating until a late hour.

### DR. AND MRS. WOFFORD HOSTS TO QUARTERLY CONFERENCE.

Dr. and Mrs. C. D. Wofford were at home to the stewards of the Methodist Church, their families and a few other guests Tuesday night.

The Quarterly Conference was held on the lawn, which was prettily lighted and arranged for the reception of the guests.

After the business session came the social hour, during which a well arranged program was enjoyed.

### CHRISTIAN LADIES' AID HOLDS LAWN SOCIAL.

Monday afternoon the Ladies Aid of the Christian Church held a social on the lawn at the home of Mr. and Mrs. B. H. Towery, 211 West Twelfth Street.

Autumn flowers in profusion attractively arranged about the lawn lent beauty and charm.

A musical program was enjoyed and ice cream and cake were served. Eight dollars was received, and will be added to the church fund.

### AL FRESCO PARTY AT THE TOWERY HOME.

Miss Ruth Towery was charming hostess Tuesday night at a party given on the lawn at her home, 211 West Twelfth Street.

Music, "500" and "42" were the pleasant diversions, and punch was served throughout the evening.

Those present were Misses Zella and Resanne Hulen, Cleo Gist, Sadye Earle Adams, Mildred Shofner, Maurine Richards, Mabel and Frances Sanderson, Willena Winfield, Gladys Speer, Billie Webb, Ollidene Double-day, Dixie Biles, Sarah Sue Landers and Martha McClendon; Messrs. Curtis Mathes, Lider Quisenberry, William Snell, Arthur Reinken, Albert Garrett, Cameron Shropshire, Chauncey Gidney, Edgar McClendon and Forrest Ansley.

### HAZEL SAWYER HOSTESS FOR THE "5 W" GIRLS.

Miss Hazel Sawyer was pleasing hostess to the "5 W's" Wednesday afternoon. Sewing and music were enjoyed. Then an ice course was served.

The next, and the last meeting of the club before school opens, will be held with Miss Fern Winn.

### TO ATTEND PARENTS' GOLDEN WEDDING, AT WHITESBORO.

Mrs. A. B. Martin and sister, Mrs. W. W. Gardner, left yesterday morning for Whitesboro, where they will attend the golden wedding anniversary of their parents.

### MUSICAL PROGRAM FOR METHODIST CHURCH SUNDAY.

The musical program at the M. E. Church for Sunday morning, September 3, is as follows:

- Organ Prelude—Andante con moto
- ..... Guilmant
- Choir—"Sing On, Ye Pilgrims"
- ..... Offertory—Aria in F
- ..... Haynes
- Duet and Chorus—"Some Happy Day"
- Postlude—Minuetto
- ..... Ashford

**Evening Service.**  
Organ Prelude—Album Leaf  
Choir—"Soldiers of the Cross"  
Offertory—Evening Prayer  
Reinecke  
Duet and Choir—"Wonderful Love"  
Postlude in C Major  
Herbert Wm. Reed, Organist and Director.

### WHERE HIGH GRADUATES WILL GO THIS YEAR.

Misses Margaret Powell, Alma Armstrong and Elzella Perdue will leave next week for Denton, Texas, where they will enter the College of Industrial Arts. Miss Effie Murphy, another of the 1915 class of Plainview High School, will attend Baylor Woman's College, at Belton, this year.

### BURCHARD-WOODRUFF.

Professor S. J. Woodruff, teacher of history in the Plainview High School, and Miss Ella Burchard, of Mobeetie, were married Tuesday, and are making their home with Mrs. Minnie Reeves. Professor Woodruff taught the Abernathy school last year.

E. E. Roos, who has been very ill for two weeks, is reported better today.

M. D. Henderson and O. M. Unger returned last night, after a four days' business trip into Central Texas. Mack Crawford, of Tulla, was in Plainview Tuesday on business.

Mrs. J. C. Anderson and daughter, Electra, left this morning for Lubbock, where they will visit with Mrs. Anderson's brother, J. H. Jennings.

Miss Johnnie Young has returned from a visit in Ryan, Okla., and Denison and Wichita Falls, Texas.

### BIRTHS.

Born, to Mr. and Mrs. A. H. Estes, August 29, a boy.

Born, to Mr. and Mrs. L. H. Pryor, August 26, a girl.

Born, to Mr. and Mrs. Ernest Bradley, August 27, a girl.

Born, to Mr. and Mrs. H. D. Taylor, near Runningwater, today, a boy.

Born, to Mr. and Mrs. E. M. Chick, near Plainview, August 29, a boy.

### MARRIAGE LICENSE ISSUED.

A marriage license has been issued by County and District Clerk B. H. Towery to Professor S. J. Woodruff and Miss Ella Burchard.

### TOO WET FOR FISHING.

Wilbert Peterson returned Saturday from Deaf Smith County, where he went to fish. He found the Hereford country too muddy for pleasurable fishing. Mrs. Peterson will remain at Hereford for a visit with relatives. Mr. Peterson reports the roads in the Nazareth community heavy with mud. He had the not unusual experience of being "stuck" for a couple of hours.

### STRIKE SITUATION LOOKS MOST FORMIDABLE NOW.

(Continued from Page One.)

serious.

The President has interested himself in the strike situation, and Wednesday appeared before Congress.

Before a joint session of House and Senate and with a solemn recital of the distress a disastrous strike would bring to the country, the President proposed a plan of legislation. This is the proposal, in his own language:

#### Legislation Proposed.

1. Immediate provision for the enlargement and administrative reorganization of the Interstate Commerce Commission along the lines embodied in the bill recently passed by the House of Representatives and now awaiting action by the Senate, in order that the commission may be enabled to deal with the many great and various duties now devolving upon it with a promptness and a thoroughness which are with its present constitution and means of action practically impossible.

2. The establishment of an eight-hour day as the legal basis alike of work and of wages in the employment of all railway employees who are actually engaged in the work of operating trains in interstate transportation.

3. Authorization of the appointment by the President of a small body of men to observe the actual results in experience of the adoption of the eight-hour day in railway transportation, alike for the men and the operating costs, the application of the existing practices and agreement to the new conditions, and in all other practical aspects, with the provision that the investigators shall report their conclusions to Congress at the earliest possible date, but without recommendation as to legislative action; in order that the public may learn from an unprejudiced source just what actual developments have ensued.

sions to Congress at the earliest possible date, but without recommendation as to legislative action; in order that the public may learn from an unprejudiced source just what actual developments have ensued.

#### Increased Freight Rates.

4. Explicit approval by Congress of the consideration by the Interstate Commerce Commission of an increase of freight rates to meet such additional expenditures by the railroads as may have been rendered necessary by the adoption of the eight-hour day and which have not been offset by administrative readjustments and economies should the facts disclosed justify the increase.

5. An amendment of the existing Federal statute which provides for the mediation, conciliation and arbitration of such controversies as the present, by adding to it a provision that in case the methods of accommodation now provided for should fail, a full public investigation of the merits of every such dispute shall be instituted and completed before a strike or lockout may lawfully be attempted.

6. The lodgement in the hands of the executive of the power in case of military necessity to take control of such portions and such rolling stock of the railways of the country as may be required for military purposes, with authority to draft into the military service of the United States such train crews and administrative officials as

the circumstances require for their safe and efficient use.

FOR SALE—Full-blooded Duroc-Jersey boars, 1½ years old, eligible to registry, or will trade for young sows or shoats of same breed. Apply to J. F. GARRISON, at Garrison-Conner Electric Co., or GARWOOD FARM, 2½ miles northwest of Court House, tf.

Community Correspondence

RAIN AT WESTSIDE IS MUCH APPRECIATED.

WESTSIDE, Aug. 28.—The much-needed rain has come, and everybody is rejoicing, although some of the cellars were filled with water.

John Chilton, who is in Plainview under treatment of a physician, is reported better.

The revival conducted by Rev. G. I. Brittain, of Plainview, closed here Sunday morning.

Several of the people of this community attended church at Olton Sunday afternoon, and also attended church at Halfway Sunday night.

RAIN AT PETERSBURG PUTS FARMERS IN GOOD SPIRITS.

PETERSBURG, Texas, Aug. 29.—We have had another shower, and things are looking fine.

Quite a crowd of our people attended the Singing Convention at Plainview Sunday, and report a good time.

The tourists from here have returned, and everything went smooth with them. They enjoyed the trip, but were glad to get back on the Plains.

Claude Coats is working in the telephone office now.

Miss Amy Vandergrift went to Lockney Sunday. There she takes the train for her home, in Fort Worth. Miss Amy has many friends up here, who are ever ready to welcome her back to her old home.

Mr. and Mrs. Blocker, from Wise County, are the guests of Mr. John Bradford and sons.

Mrs. Soward, Mrs. Collier, Miss Paine Collier and the little boys leave Thursday for Canyon, their future home. Many kind wishes go with them.

A union meeting, conducted by the Methodists and Cumberland Presbyterians, is in progress here now.

J. H. Gregory, of Rule, Texas, formerly of this place, was here a few days last week.

L. S. Claitor, Miss Annie Hughes and Miss Evelyn Claitor accompanied Miss Amy Vandergrift to Lockney Sunday, and were pleasantly entertained by Mrs. Herman Pauley in the home of her mother, Mrs. Hamilton.

Rev. John Reagan preached at the Christian Church Monday night. He is an able minister, and his sermons are always appreciated. He is visiting in the home of his brother, Ed Reagan.

Marcus Gregory shipped two carloads of hogs Saturday.

The Mothers' Club will meet Friday evening, September 1st. We hope all the ladies will attend.

MANY NEW BUILDINGS BEING BUILT NOW IN ABERNATHY.

ABERNATHY, Texas, Aug. 30.—The recent rains have put smiles on the farmers' faces. This will insure a good crop and put plenty of moisture in the ground for wheat sowing. More wheat will be sown in the vicinity of Abernathy this fall than ever before.

Stout & Harral has moved their oil tanks across the railroad, in accordance with the rules of the Santa Fe in order to have proper siding for unloading.

Mrs. St. Clair has gone to Missouri in answer to a message stating that her father is dangerously ill.

Prof. S. J. Woodruff, of Plainview, was here a few days last week visiting relatives.

Hugh Ragland, who has been in a sanitarium in Lubbock for treatment for appendicitis, has returned home, much improved.

Mrs. A. B. DeWald has typhoid, but is on the road to recovery.

Mrs. S. R. Merrill is in a sanitarium in Lubbock for treatment.

The many friends of J. B. Magee will be glad that he has been brought back from Temple and is now doing nicely.

The following improvements are being made in Abernathy: John Jones is completing a nice residence in North Abernathy; T. E. Arnold has moved a house from the country and has improved a nice place in the north part of town; Mr. Castle, who is formerly from Wise County, has built a business house and is putting in a nice stock of groceries. His family has joined him here, and we welcome them to our city. J. H. Vanderslice is building a home in Northwest Abernathy. We are expecting a few more residences to be built within the next few weeks.

The co-operative meeting in progress at this place is being well attended, with a number of conversions and reclamations to the present date. The whole town will be much better after the strong preaching of the gospel by Rev. Whitwell and the sweet gospel singing by Miss Miles.

LIVE PERSONAL NEWS FROM IRICK COMMUNITY.

IRICK, Aug. 30.—Mrs. Ben F. Meuller and Miss Nell Smith were shopping in Aiken Wednesday.

W. K. Collier drove to Plainview Saturday.

Elmer Waha visited with friends in Lockney Sunday.

Miss Anna Schacht entertained a number of friends Wednesday afternoon with a party.

Mr. and Mrs. Harry Whitfield have returned from Roswell, N. M., and are now visiting with Mrs. Whitfield's parents, Mr. and Mrs. George Potts.

Mesdames Bell, Crosswhite and Sutton called on Mrs. George Potts Monday afternoon.

Mesdames Mayben and Alford were guests of Mrs. W. K. Collier Sunday.

Miss Ora Lee Smith visited with Miss Mildred Collier Sunday afternoon.

Miss Nell Smith called on Miss Daisy Zimmerman, near Aiken, Monday.

Mr. and Mrs. Fred Lam and Ralph Lam visited with Mr. and Mrs. W. K. Collier Sunday.

Hardin Jackson and Ralph Lam called at the Ed Smith home Sunday evening.

Jesse Alford has recently purchased a new six-cylinder Buick.

Miss Ora Lee Smith called on Miss Tina Jackson Monday afternoon.

G. J. Sutton and daughter, Miss Grace, were callers at the Mayben home Sunday.

Elmer Dellas visited with Terry Mayben Sunday.

Misses Nell and Ora Smith and Tina Jackson spent Monday afternoon with Miss Grace Sutton.

Miss Nell Smith called on Miss Tina Jackson Friday evening.

Miss Flossie Jackson spent Saturday night and Sunday with home folks. The Misses Collier called on Miss Vida Mayben Monday afternoon.

KRESS PERSONAL NEWS.

KRESS, Texas, Aug. 30.—Mrs. Charlie Bush will leave soon for Amarillo for medical treatment.

The Baptist Association met in Kress this week.

The Kress Elevator is practically completed. Moore & Skipworth are owners of this new business.

Mrs. Lester Wright and children, of Jackson, Tenn., are the guests of Mr. and Mrs. Alonzo Kerr.

Sam Ball, who lives west of Kress, made a business trip to Kerr this week.

Dave Woods, who lives near Kress, returned home this week from Wichita Falls, where he has been visiting relatives.

Rev. Brown, of Kress, is moving to Abilene this week.

Willie Bush, of Oklahoma, is the guest of relatives here.

Miss Rena Gilbert will return home Sunday.

B. A. Kyser and family, formerly of Plainview, returned here Saturday

from Trinchera, Colo., where they have filed on a Government claim and erected the required buildings. They will probably make Plainview their home during the winter, that they may have the advantages of the schools here.

Tom Bagley and family were in Kress Saturday.

Mr. and Mrs. John Gaylor visited in Kress Saturday.

Mrs. J. M. Malone and daughter, Lula, have returned from a visit with relatives in Wichita Falls.

RESOLUTIONS.

WHEREAS, on the 3rd day of August, 1916, it pleased the Supreme Ruler to remove from our midst that loved and loving father, brother, husband, friends and neighbor, Floyd G. Smith; and

WHEREAS, by his death the friends have lost a true and useful citizen, a steadfast husband, a good brother and an esteemed neighbor; therefore be it

RESOLVED that the charter of our camp be placed in mourning, that a copy of these resolutions be published and mailed the bereaved family, and a copy spread on the minutes of our camp. And let Neighbor's Smith's death admonish us of the uncertainty of life, and teach us to more fitly prepare ourselves for that "undiscovered country from whose bourne no traveler returns."

Fraternally submitted,

O. D. COAN,  
J. J. GUYER,  
G. GRAHAM,  
Committee.

THE KANSAS CITY STOCK MARKET IN DETAIL.

KANSAS CITY STOCK YARDS, Aug. 28.—Last week closed 25 to 50 cents lower on most cattle, and Chicago and St. Louis reported disastrous breaks. Lower prices cut down loading in nearby territory, and good rains in the Panhandle last week stopped the rush there. Accordingly the run today dropped to 20,000 head. Sales were 10 to 25 cents higher than the close of last week, and the market active. There was a big attendance of country buyers, who wanted cattle of all weights.

Beef Cattle.

Nothing strictly prime was here, best fed steers stopping at \$10.50. Grass cattle took the full advance, best ones at \$9.10, good ones mostly \$8.25 to \$8.90, medium steers at \$7.25 to \$7.65, the kind that sold at \$7.00 to \$7.50 at the finish last week. Lighter cattle brought \$6.25 to \$6.75, quarantine grass steers, 800 to 1,000 pounds, \$6.00 to \$6.75. Feeder buyers bid on a large number of weighty steers in the native division, and bought a good many loads at \$7.50 to \$8.30. Cows and heifers did not gain as much as steers. Good grass cows around \$6.35, fair to good \$5.50 to \$6.00, canners \$4.50 to \$5.00, bulls up to \$6.75, veals \$11.00.

Stockers and Feeders.

Shipments out last week were heaviest this year, 32,000 head, about half of which were bought after Wednesday, that is, at bottom prices for the week.

features. Utahs sold at \$10.25 today, but the lambs lacked quality, weighing only 64 to 57 pounds. Colorado lambs bought \$10.15 and Arizonas \$9.90. Fat ewes sell up to \$7.25, wethers \$7.50, yearlings \$8.00, breeding ewes \$7.50 to \$9.00, feeding ewes \$5.00 to \$6.50, feeding lambs \$9.50 to \$10.00. J. A. RICKART, Market Correspondent.

One way second class Colonist tickets will be on sale September 28th to October 8th to California and certain intermediate points.

Sovereign Grand Lodge I. O. O. F., Chattanooga, Tennessee, September 13th to 23rd, final return limit September 28th, round trip \$43.40.

Old Cowmen's Reunion at Sweetwater, September 7th and 8th. Tickets on sale September 6th and 7th, final return limit September 11th; one and one-third fare for the round trip.

State Livestock and Products exposition at Roswell, N. M., September 18th to 22nd. Tickets on sale September 16th to 21st, final return limit September 24th. Round trip \$10.00.

For further information call on or phone 224.

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making Every Druggist in town—your drug—You Sick and Can Not Salivate.

Every druggist in town—your druggist and everybody's druggist—has noticed a great falling off in the sale of calomel. They all give the same reason—Dodson's Liver Tone is taking its place.

Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy harmless to both children and adults. Take a spoonful at night and wake up feeling fine; no biliousness, sick headache, acid stomach or constipated bowels. It doesn't gripe or cause inconvenience all the next day like violent calomel. Take a dose of calomel today and tomorrow you will feel weak, sick and nauseated. Don't lose a day's work! Take Dodson's Liver Tone instead and feel fine, full of vigor and ambition. —Adv.

Lax-Fos, A Mild, Effective Laxative & Liver Tonic Does Not Gripe nor Disturb the Stomach. In addition to other properties, Lax-Fos contains Cascara in acceptable form, a stimulating Laxative and Tonic. Lax-Fos acts effectively and does not gripe nor disturb stomach. At the same time, it aids digestion, arouses the liver and secretions and restores the healthy functions. 50c.

"Bell" Connection Solves Farm Problems Said a prosperous and Up-to-date farmer: "We like to joke the women-folks about using the telephone, but I guess we men use it as much as they do. We find the Long Distance Bell connection feature of our service a wonderful convenience." Have you a telephone connected to the Bell System? Ask our nearest Manager for information, or write The Southwestern Telegraph & Telephone Co.

LOST I have lost my riding quirt that I ride my donkey with, if you find it please phone my daddy at No. 116. Guy Lewis, Jr.

**KANSAS MAN WILL IMPROVE HIS LAND AT EAST MOUND.**

EAST MOUND, Aug. 31.—Misses Lula and Sallie Howell left last week, the former for El Paso, where she will teach this winter, and the latter for a visit with relatives in Southern California.

Mrs. Pearl Brown, of Hico, has been visiting her parents, Mr. and Mrs. D. W. Wallace.

Miss Mary Howell, of Amarillo, has been here visiting her parents, Mr. and Mrs. R. B. C. Howell.

Mrs. Bessie Sumrall, of Post City, is expected Monday to spend the month of September with Mr. and Mrs. D. W. Wallace and family.

Mr. and Mrs. Harry Hyde and Mr. and Mrs. Albert Allen spent Sunday afternoon with Mr. and Mrs. A. H. Estes.

Anna Belle and Reid Estes, who were quite sick last week, are now able to be up.

Born, to Mr. and Mrs. Ernest Bradley, Sunday, August 27th, a girl.

Mr. and Mrs. D. W. Wallace and daughter, Dee, are leaving next week for a visit with relatives in Austin.

Frank Eling and Olin Brashears are now in Cheyenne, Wyoming. From there they will motor to Yellowstone Park.

Mr. and Mrs. Fred Foster, of Plainview, spent the week end with Mrs. Foster's parents, Mr. and Mrs. Wallace.

D. J. Gardner, of De Soto, Kansas, will be here September 1st to improve his property, opposite the F. V. Sneider farm.

**"LIBERTYVIEW" WILL CARRY NEWS OF TWO COMMUNITIES.**

Prairieview Singers Proud of Achievements at Hale County Singing Convention.

LIBERTY, Sept. 1.—Liberty and Prairieview items will come under the heading of Libertyview in the future, taking news from the two districts each week.

Quite a number of our people attended the revival in Plainview the past two weeks.

J. J. Groff was on the jury last week. W. F. Beard, of near Hale Center, was here Tuesday.

Rev. Holland and Rev. Burnett, both of Plainview, are conducting a revival at Liberty. The house is filled each evening. We invite all to attend at 11 o'clock a. m. and 8:30 p. m.

Liberty school house has been repaired—a brick chimney built on the east end of it, the house painted white inside, the floors fixed over and oiled and a platform built. This certainly improves its looks.

E. R. Williams and Miss Minnie Lemaster surprised their friends by being quietly married, at the Court House in Plainview, Wednesday. We join in wishing them a long, happy and prosperous life.

Some of the Plainview young people have been attending the revival at this place.

C. P. Seipp transacted business in Oklahoma this week. Misses Helen and Daisy Beard, of near Hale Center, are visiting at the Pinson home at present.

A number of our people attended the Hale County Singing Convention, and they reported a splendid time. The following took part in the singing contest, and won first reward, the blue ribbon: Mr. and Mrs. Grover Lemaster, Mrs. Steve Williams, Messrs. R. E. Houston, C. P. Seipp, Earl Raper and Lee Siegel, and Misses Alice and Nellie Williams and Eileen and Helen Groff. We weren't prepared and didn't go with the intention of singing, but nevertheless we extend our sincere thanks to the judges for deciding in our favor.

**HALFWAY TEACHERAGE READY.**

Delegates to Staked Plains Baptist Association Are Elected.

HALFWAY, Texas, Aug. 30.—We beg your pardon, Mr. Editor, for being a little negligent about our correspond-

ence; but some weeks there doesn't seem to be much of interest to write about.

Our country is beautiful and our people are happy since the big rains of the 19th and 20th of the month. Feed stuff is growing fast, and the farmers are very busy preparing for a big wheat crop for next year. The wheat acreage is to be very much larger than last year, and in better shape than ever before.

Brother Pilley, of Olton, failed to meet his appointment here on Sunday afternoon.

Brother G. I. Brittain preached here on Sunday night, as he expected to be away in a meeting on his next regular appointment here. R. L. Hooper, B. B. Morton and J. E. Stewart were elected by the church as delegates and Albert Kayser and Misses Mell Stewart and Mavis Smith as alternates to the Staked Plains Association, which will convene with the Matador Church on September 12th.

Mrs. Jacob Hemphill, of Haskell, who has been visiting her daughter, Mrs. W. A. Miller, for some weeks, left for home yesterday.

A Mr. Wilson, from near Brandon, Hill County, Texas, is here to begin improving his land one mile northeast of Halfway. He will move his family here in the near future.

Mr. and Mrs. J. E. Stewart made a trip out to their Bailey County land last week.

G. W. Lewellen is away on a business trip to Hillsboro, Texas.

The teacherage has been completed, and Mr. and Mrs. Chas. Smith, our teachers, have moved in. The Mothers' Club, the Trustees and Mr. Smith have been at work making our school building and grounds both sanitary and attractive.

D. W. Hooper and family and Mrs. J. E. Stewart visited the family of James Hooper, of Olton, on last Saturday and Sunday.

Mr. and Mrs. Chas. Smith went to Tulla yesterday.

D. W. Miles, late of Canyon, Texas,

was here last week visiting his sister, Mrs. B. B. Huguley, and other relatives, and left for Kress on Monday.

The McComas family and W. W. Pinkerton attended the Singing Convention in Plainview Sunday. Robert Nye was also in attendance at the Singing Convention.

Misses Allie Hooper and Mavis Smith will entertain their friends, at Miss Hooper's home, on the evening of September 1st.

W. T. Smith has returned from a trip to Wichita Falls, Fort Worth, San Antonio, and other points.

**BILLIE BURKE IN A GOOD SERIAL PHOTOPLAY HERE.**

A film of unusual interest is "Gloria's Romance," which is a serial in which the lead is played by Billie Burke. This film will be shown each Tuesday at The Mae I. Theatre.

**INTERESTED IN SOUTH PLAINS.**

The Herald has a letter from Louis Heitz, of Huntington, Ind., who states that he is much interested in this section, especially the Petersburg community. Chas. Schuler, who lives in that community, is Mr. Heitz' brother-in-law.

**ROCKS TELL THEIR OWN STORY.**

The walls of the Grand Canyon in Arizona form a great natural geologic section, in which each layer of rock is

in its original position relative to those above and below it. In few other places, however, is the story of the up-building of the earth's crust so plainly and impressively told. As a rule the geologist who would decipher the records of the rocks must get a bit here and a bit there. He may find the edges of some beds exposed in a river bluff and others sticking out on a steep mountain side. He determines by fossils or other means the order in which the beds were deposited, and by putting all his information together he constructs what he calls a columnar section for the district in which he is working—that is, a section showing the order, thickness, and character of constructs what he calls a columnar strata that form the upper part of the earth's crust at that place, just as a slice or layer of cake shows at a glance the various layers of which it is composed.

After a number of districts in a region have been studied and their general columnar sections determined, the geologic history of the region can be learned by comparing these sections, just as the engineer who is drilling for low-grade copper ores compares his drill records and thus learns the outlines of the ore body. Such a comparison of the beds at one place and another shows how certain beds change in character and thickness from place to place or even thin out and disappear. It enables the geologist to draw some conclusions as to the former distribution of land and sea, to distinguish the deposits laid down in deep

water from those spread by rivers over their flood plains, and to reconstruct in imagination the course of events at a time long before the beginning of the Grand Canyon. Such a comparison has recently been made for Arizona,

and is published by the United States Geological Survey, Department of the Interior, as Professional Paper 98-K, by F. L. Ransome, geologist. The report is obtainable on request from the Director.

**First showing of Selz Fall Novelties**
