

THE PLAINVIEW EVENING HERALD

TWICE-A-WEEK

VOLUME 28, NUMBER 8

PLAINVIEW, TEXAS, FRIDAY, JANUARY 26, 1917

MERGER OF YOUNG MEN'S BUSINESS LEAGUE AND CHAMBER OF COMMERCE IS EFFECTED

PROBLEM OF GETTING MEN NOW HOLDING LAND FOR SPECULATION TO IMPROVE THEIR PROPERTY INTRODUCED BY W. A. NASH.

A merger of the Chamber of Commerce and the Young Men's Business League of Plainview was effected last night, at a joint meeting of the bodies. The consolidated organization is to be known as the Young Men's Business League of Plainview, and the constitution of the Y. M. B. L. stands as before. Members of the Chamber of Commerce who are in good standing become automatically members of the Young Men's Business League, without payment of initiation fees, and monthly dues of fifty cents per month, payable quarterly in advance, are assessed against them.

The merger was effected through a conference of a committee appointed by the Chamber of Commerce in its general session Wednesday evening and a committee appointed by the president of the Y. M. B. L. The Chamber of Commerce committee was composed of Chas. Reinken, A. G. Hinn and E. H. Perry. For the Y. M. B. L. Dr. C. D. Wofford, J. M. Waller and H. S. Hilburn acted.

Following the merger, a resolution by the joint committees was read, which recommended a constitutional amendment providing for an increase in the directorate of the Y. M. B. L. Twelve members now constitute the board. The amendment provides for fifteen members, nine of whom must be under the age of forty years. The amendment was signed in due form by seven members and passed over for a second reading. This amendment is advocated in order to make place on the board of directors for leaders of the Chamber of Commerce, whose services will be invaluable to the League.

Reporting for the Silverton Auto Road Committee, J. M. Waller stated that he needed some assistance in the completion of the work. Rev. I. E. Gates and W. F. Garner volunteered as members of the committee, tending their cars to its use. Dr. L. V. Dawson also offered the use of his car as often as could be arranged in the work.

W. J. Klinger, for the auditing committee, reported the books of the secretary to be in good shape. The audit shows a balance of \$390.90 in the general fund; total collections of \$603.50 in the budget fund, and expenditures to the amount of \$383.70, leaving a balance of \$219.80. The gross earnings of the minstrel, as shown by the report, was \$417.50, disbursements \$220.89, leaving balance of \$196.61. In the Silverton Auto Road Fund there is \$238.50 in bank. The bank balances were certified to by the cashiers of the various banks. The report was received and filed.

The street signs have been ordered and will be here within the next three weeks, is the substance of the report made by L. R. Pearson, chairman of the committee looking after the details. The Y. M. B. L. will erect the signs when they arrive, the city having furnished the money for their purchase. Fifty double signs, to be used on the light poles in the downtown district, are to be donated by the Texas Utilities Company. The signs ordered are of an ornamental type and will be permanent.

That the A. and M. College bill had been reported favorably in the House of Representatives and that its passage is expected, was the report of W. A. Nash for the A. and M. College committee. Mr. Nash said that it was the opinion of many with whom he talked at Wichita Falls, where he represented the Y. M. B. L., that Plainview would be one of the strong contenders for the location of the school. He urged the town to be ready to push the claims of Plainview when the proper time shall have arrived.

A communication from the Houston Y. M. B. L. to E. L. Doland, secretary of the Associated Young Men's Business Organizations of Texas, was read. The Houston league wants the 1917 convention of the State organization to be held in Houston, and offer to relieve Plainview of the responsibility of entertaining the body. They also offer to pay expenses of a large Plainview delegation to Houston in the event Plainview should surrender to them the claim for the meeting. Houston is more accessible to the majority of the members of the State organization, the bulk of the membership being in Central and East Texas, and for that reason they believe the best interests of the State organization will be conserved in holding the meeting in Houston. The expressed opinion of the League was in favor of Plainview's proceeding with her plans for the convention and acknowledgement of the letter, advising the Houston League of the intention, and the body requested the State Secretary, Mr. Doland, to write a letter to this effect.

The survey committee was continued and instructed to produce results, continuing the work already commenced. The committee reported

Ben F. Smith, of Lockney, deputy State fire insurance inspector, was here Wednesday. In a few instances he found conditions such that rates could be lowered, but in many others increases are necessary, due to the carelessness of firms and individuals.

SENATE AND HOUSE REPORT FAVORABLY ON A. & M. COLLEGE

Upper House, However, Leans Toward Provision for Secondary Four Colleges.

Special to The Herald.
AUSTIN, Texas, Jan. 26.—The Senate committee reports favorably on the West Texas A. & M. bill, leaning, however, to the junior colleges, as advocated by President Bizzell of the Texas A. & M. College, and President Vinson of the University of Texas. This plan provides for the establishment of four junior colleges to teach agriculture, while the proposed bill provides for one institution, co-ordinate in every respect with the present A. & M. College. Advocates of the bill who are here have begun to feel that some compromise may have to be accepted, but are tenaciously holding on for the substance of the bill as adopted by the West Texas A. & M. Campaign Association at Wichita Falls.

The House has passed favorably on the bill as prepared at Wichita Falls. This action was taken in the morning by the House Committee on Education, after most of the Western members—all of whom signed the bill—had presented arguments for the measure. Bruce W. Bryant, of Haskell, opened the argument, submitting statistics to show the development and resources of West Texas and the need for an agricultural college in that section because of its differences in climate, altitude and general agricultural conditions from other parts of the State. The bill carries an appropriation of \$501,500, and the new A. & M. College is to be located by a board composed of the speaker of the House, Governor and Commissioner of Agriculture.

John Tarlton College, at Stephenville, is offered the State as Stephenville and Erath County citizens' bid for the location of a junior branch of the A. & M. College.

A concurrent resolution introduced in the Senate by Woodward to this effect was adopted. The resolution calls for the appointment of a special committee composed of five members of the Senate, five members of the House and the Governor or his representative, to go to Stephenville and inspect the property by January 30, and to report to the Legislature not later than February 3.

"AUSTIN, Texas, Jan. 26.—"The joint resolution passed to visit John Tarlton College with a view to opening a State school of agriculture there is not opposed by the advocates of the West Texas A. & M. College measure, and will have little bearing on the bill."
"R. P. SMYTH."

INSPECTOR WILL RECOMMEND RAISING INSURANCE RATES.

Ben F. Smith, of Lockney, deputy State fire insurance inspector, was here Wednesday. In a few instances he found conditions such that rates could be lowered, but in many others increases are necessary, due to the carelessness of firms and individuals.

BAGBY "BONE DRY" MEASURE IS VOTED DOWN BY HOUSE

Five Members of House of Representatives Ignore Instructions on Submission Issue.

Special to The Herald.
AUSTIN, Texas, Jan. 26.—The Bagby "bone-dry" resolution was defeated today by a vote of forty-six to ninety-three. This resolution was offered as a substitute for the Nichols resolution, which was engrossed, ninety-one to forty-eight.

When the measure was called up, three representatives from Tarrant County, Representatives Cox, of Waxahachie, and Sholars, of Tyler County, instructed to vote for submission, voted against their instructions. The pros have not determined when to call the resolution up for final passage.

They must gain three votes to win. Representatives Beasley, of McCulloch, and Williams, of McLennan, counted on by the pros, are absent. With these present, the submissionists still lack one vote to pass the resolution, finally, and the antis are now claiming it can never be done.

Both sides are urging an immediate vote on the question. No action is to be taken by the Senate on the submission resolution until the House has finally disposed of the proposition, according to several of the pro leaders in the upper branch of the Legislature, which means that it is not likely that the Senate will have to go through the ordeal of voting on the proposition, as the result of the vote in the House has practically killed State-wide prohibition in Texas as far as the present Legislature is concerned.

The antis are jubilant over the result of the vote in the House, and they insist that on final passage the resolution will not even get 92 votes; that there is likely to be other changes.

Considerable surprise was evinced by the pros and submissionists at the action of the three representatives from Tarrant County who voted against their instructions.

This changed the result, and the vote of Representative Sholars, who was expected to vote for the resolution and voted against it, caused comment.

POLL-TAX RECEIPTS ISSUED TO DATE NUMBER 942.

Two hundred twenty-one have paid their poll tax since Tuesday. The distribution of the 926 poll-tax receipts issued is as follows:

Precinct.	Box.	Re- cepts.	Exem- ptions.
1	Plainview	197	3
2	Happy Union	39	0
3	Petersburg	73	1
4	Hale Center	114	6
5	Norfleet	30	0
6	Runningwater	52	1
7	Westside	13	0
8	Bartonsite	20	0
9	Abernathy	74	0
10	Plainview	272	3
11	Lakeview	30	2
12	Halfway	12	0
Total		942	16

MRS. V. C. CANNON IS DEAD.

Funeral services were conducted this afternoon over the remains of Mrs. Sarah Bell Cannon, wife of Dr. V. C. Cannon, by Rev. J. W. Story, pastor of the Methodist Church. Interment was made in the Plainview Cemetery.

Mrs. Cannon has been in very poor health for the past several months, pneumonia setting up within the past few weeks.

She was born in Camden, Ark., in September, 1846. In her childhood she moved from that State to Orange, Texas, where she resided for many years. In 1862 she was married to Dr. V. C. Cannon. For twenty years her husband was an itinerant Methodist preacher. In 1882 the family moved to Jackboro, where Dr. Cannon practiced medicine. They lived in that town until 1903, when they moved to Plainview, where they have resided since.

Her husband and two sons and six daughters survive her. They are E. C. Cannon, Waco; R. B. Cannon, El Paso; Mrs. J. W. Ware, King, New Mexico; Mrs. R. L. Atmar, Crockett; Mrs. R. W. McConnell, of California; Mrs. Solon Clements and Mrs. S. W. Wilks, of Plainview; Mrs. Henry Floyd, of Lockney.

A. A. Hogan, of Tulia, was here Wednesday.

MCPEAK MURDER CASE WILL PROBABLY BE CONTINUED

Compromise Is Reached in Francis Damage Suit After Testimony Is Completed.

It is thought probable that the case of the State of Texas vs. McPeak, transferred from Floyd County to Hale County on change of venue, will not come up for trial at this term of court. One of the leading witnesses, Foster, is with the Texas National Guard on the border.

The Garrison case, growing out of the failure of a Lockney bank a few years ago, will probably be continued also. A similar case, State of Texas vs. Lemaster, appealed from Potter County, has been submitted and is now before the Court of Criminal Appeals, and the outcome of this case is awaited. Also witnesses are widely scattered over the State, the case being one of long standing.

A jury gave a verdict favoring the defendant in the case of L. S. Rosser vs. J. W. Moreland. The suit was a trespass to try title, but the real issue was possession of one thousand acres of pasture land.

The case of J. L. Francis vs. P. & S. F. Railway Co., et al., was tried yesterday. After the testimony was all in the parties to the suit compromised.

Today evidence is being heard in the case of J. P. Crawford vs. P. & S. F. Railway Co., et al., suit for damage arising out of shipment of cattle.

Jurors for the fourth week of court are: W. H. Bryan, Paul Bryan, C. D. Boyd, Dick Bryan, Guy Cox, Solon Clements, W. G. Shackelford, J. S. Hayden, J. P. Howard, A. M. Hamilton, W. L. Hogue, B. A. Hubbard, L. D. Harrison, Carl Donohoo, W. R. Hall, J. M. Tye, J. D. McGown, A. L. Lanford, Jno. Ligon, L. D. Rucker, C. C. Stubbs, Lee Stevens, J. L. Dorsett, H. V. Tull, O. V. Anderson, Foster Alexander, Dan Ansley, H. M. Burch, Tom Blakemore, E. H. Bawden, Geo. J. Boswell, F. B. Gouldy, Elmer Sansom, J. F. Garrison, Ed Hays, W. J. Mitchell.

TRUSTEES TO BUY FURNITURE FOR NEW HIGH SCHOOL FEB. 6.

At a recent meeting of the board of trustees of the public school, February 6 was designated as the date for buying furniture for the Plainview High School. On that day the trustees will confer with representatives of the various supply houses. The regular board meeting will be held Monday night.

PLAINVIEW IS CONSISTENT BUYER OF GOOD AUTOMOBILES.

E. E. Roos on Tuesday received six carloads of Buick "Sixes" and "Fours." Two more carloads are expected today or tomorrow. The Buick factory, in making the shipment, had difficulty in securing auto freight cars, so loaded the shipment, twenty-eight cars, on flat cars and sent a factory man in charge of the cargo as guard.

The Connell Motor Co. has just received two carloads of Hupmobiles—one roadster and the others five-passenger touring cars.

Knight Auto Company expects a carload of Overlands in tomorrow or Monday. In this shipment are two of the new Country Club models, two coupes and a sedan.

BODY OF MRS. W. A. YOUNG BURIED BESIDE HER CHILD.

By the side of her infant boy, who was buried Tuesday afternoon, the body of Mrs. W. A. Young was buried this afternoon, Rev. J. W. Story, pastor of the Methodist Church, conducting the services.

Mrs. Young was born in Celina, Texas, January 29, 1892. At the age of fifteen years she became identified with the Methodist Church, and has been a faithful church worker since. Seven years ago she moved to Hedley, Texas, with her parents, Mr. and Mrs. S. S. Adamson. On December 17, 1914, she was married to Walter A. Young, of Plainview, and they have made their home here. She is survived by her husband, her parents and four sisters and four brothers.

WATSON'S HOGS BRING \$11.50.

Two loads of hogs shipped from Plainview by W. A. Watson & Son sold today in Wichita, Kansas, bringing \$11.50 per hundredweight.

Otho Mims, of Dathart, is a visitor in Plainview.

Farm Homes for the Landless

Growth and development are two much-used terms. The idea that a large town is the best town is a prevalent one. People revel in the large thing, the spectacular. In their zeal for the big thing, the impressive thing, growth, they overlook development.

The point is best illustrated in a child. It may grow physically and become a monstrosity, but there is no development. In the normal child which goes through the process of progressive change there is both growth and development.

The largest town is not the best town of times. The town which is developed, though small, is better than the large town which has just grown. There is reason for growth in the developed town, and it is substantial. The undeveloped town is weak, and will not stand the test of business adversity.

The boom town or the boom country grows. It fills up with people. Houses are built, businesses open; but there soon arrives the time when adversity comes. The test cannot be survived.

What the South Plains country needs is development of both town and country.

To state the proposition as it came up last night at the Y. M. B. L. meeting: "We need men and money; men who will till the soil and money which can be invested in actual farming and not in land speculation. If we can get a good class of renters, we will soon have more landlords."

If the Young Men's Business League can induce men who are now holding prairie land to improve it, even if the organization has to work at both ends of the line—getting the farm improved and getting a tenant for the farm—they will do the best service possible to the town of Plainview and the Plainview country.

Such development must be on conservative lines. The details of getting the two men, the owner and the tenant, together can be carried out by men of office experience; but the general supervision of the move, to see that sound, business methods are used in the operation of the farms themselves, should be done by men who know from actual experience how to make the best returns from a South Plains farm.

There are many men in the Young Men's Business League who live in the country. They are mostly progressive livestock farmers, who are interested in the development of the town and the country. Such men as these could be formed into an advisory board. And what man, coming into a country that is entirely new to him, would not be glad of the opportunity of conferring with such sane and dependable counsellors?

The plan is ambitious, but it is safe and it is progressive. If Plainview can enter some such development work as this she will be "getting down to brass tacks."

There's no better place in the Southwest, the Mecca of prosperous Northern landholders, for the landless man to get a start, than the South Plains country. He needs our land, and we need his producing and spending power.

The elements for development exist. Some agency to bring them together is the need.

Hunter Learned Electrical Engineering in U. S. Navy

D. Gratz Hunter, son of Mr. and Mrs. E. C. Hunter, arrived yesterday for a visit with his parents. It is probable that he will enter some technical school, having served out his term in the U. S. Navy and holding his discharge papers.

Hunter left the Asiatic Station on December 14. He has been an electrician on the U. S. S. Helena. He was formerly on the Saratoga. He began his voyage home fourteen days before his term was out, a transport being ready to leave for the United States at that time.

AUTOMOBILE LICENSES ISSUED TO EIGHT CITIZENS.

During the past week automobile licenses have been issued by County Clerk Jo. W. Wayland to H. E. Dewey, Hale Center, Ford, No. 1172; Jno. C. Dyer, Dodge, No. 1173; W. C. Jernigan, Briscoe, No. 1174; D. B. Humber, Ford, No. 1175; H. Black, Hale Center, Saxon, No. 1176; O. C. Fluke, Overland, No. 1177; J. R. Jones, Buick, No. 1178; H. L. Comer, Ford, No. 1179.

WINFIELD WILL FILL TERM OF SIMMONS AS ALDERMAN.

W. R. Simmons, alderman, having moved without the corporate limits, has resigned as alderman, and the City Council has appointed W. E. Winfield to fill the unexpired term.

FUNERAL OF JUDGE LANCASTER TO BE HELD THIS AFTERNOON.

Funeral services over the remains of Judge J. E. Lancaster, who died in Battle Creek, Mich., Monday, are being held this afternoon, in Waxahachie. Yesterday T. Stockton, Rev. Henry Hagemeier, R. W. O'Keefe and M. D. Henderson left for Waxahachie to attend the funeral.

BROTHER-IN-LAW OF LOCAL MAN IS SHOT AT WACO, TEXAS.

A message was received last night by D. P. Rigler, who recently bought a farm near Plainview, that his brother-in-law, W. A. Manard, of Waco, was seriously shot. No details of the shooting were given. Mr. Rigler left this morning for Waco.

Home of Family Near Kress Destroyed by Midnight Fire

Fire of unknown origin destroyed the house occupied by T. S. O'Neal and family, fourteen miles east of Kress, Monday night. Mr. O'Neal and his family were asleep when the fire awakened them, and they escaped in their night clothes, saving none of their household effects. One hundred bushels of oats stored in one of the rooms of the house burned also.

The house was owned by B. F. Smith, of Louisiana, and Mrs. Bettie Knight, of Childress, Texas, and was valued at \$1,000. Mr. O'Neal estimates his loss at \$600. Neither house nor contents were insured.

Friends in the Kress and Whitfield communities kindly tendered the use of their homes to the family until Mr. O'Neal can make some other arrangements for a home.

REV. G. E. OVERTON DIES AT HIS HOME IN LUBBOCK.

Rev. D. B. Overton, a well known Methodist minister, died at his home, in Lubbock, yesterday. The body will be buried at Lubbock this afternoon. Rev. A. L. Moore, presiding elder of the Plainview District, left this morning to assist in the funeral service. Rev. Overton was pastor of the Lubbock Methodist Church during the period of time between the close of Rev. O. P. Kiker's pastorate and the session of the conference at which Rev. J. T. Hicks was appointed to that charge. He was about sixty-five years of age.

THE OLD "C" RANCH WILL BE THROWN ON MARKET IN SPRING.

Plans are being made for the colonization of the famous "C" Ranch, comprising more than 225,000 acres and located north of Midland. It is understood that this ranch, owned by David Faskin, a millionaire Canadian, is to be cleared of cattle and thrown on the market during the spring.

The land is located on the route of the Midland & Northwestern—Fort Worth Star-Telegram.

REESE TATUM IS APPOINTED TO SUCCEED JUDGE D. B. HILL.

Reese Tatum, of Dalhart, has been appointed by the Governor to succeed Judge D. B. Hill as Judge of the Sixty-Ninth Judicial District.

Community Correspondence

IRICK NEWS.
IRICK, Jan. 23.—Brother William Davis, of Plainview, filled his appointment here Sunday.
Mrs. Lewis and children left Monday for their home, in Haskell County, after a visit with her parents, Mr. and Mrs. W. B. Mayben, and family.
Richard Bowman and son, Harley, called at the Sutton home Saturday afternoon.
Misses Besie, Edna and Lucile Reasonover and little brother, Elwood, visited in Meteor neighborhood Sunday.
Mrs. E. E. Smith visited with Mrs. W. K. Collier and Miss Lizzie Dumas Monday afternoon.
Richard Sutton spent Sunday afternoon with Harley Bowman.
Chas. Zimmermann was in Plainview on business Saturday.
J. E. Jackson visited with his daughter, Mrs. E. L. Wahn, and Mr. Wahn on Friday.
W. B. Mayben called on J. E. Jackson Tuesday.
A number of pupils were absent from school last week on account of the unfavorable weather.
Mrs. Arleigh Cooper and baby, Wilma, left Monday for her home, in New Mexico.
Hardin Jackson was a Lockney visitor Sunday.

PROVIDENCE WILL HAVE BOX SUPPER SATURDAY NIGHT.
PROVIDENCE, Jan. 23.—A doctor from Lockney was called out to Mr. Crosthwait's Thursday night to see Mrs. Crosthwait, who had taken sick quite suddenly.
Mrs. Carl Sammann was on the sick list the past week with the gripe.
There will be a masked box supper at Providence Saturday night, the 27th. Every lady is requested to be masked and to bring a box.
E. C. Dodson was in Plainview Monday.
Mrs. Ooley and Mr. and Mrs. I. C. Nations were shopping in Plainview Monday.
W. A. Bates was in Plainview Monday.
Mrs. Jim Crosthwait is recovering from the gripe.
Miss Erna Boeleker is entertaining company from Panhandle this week.

MAYFIELD SCHOOL BUILDING HAS BEEN MUCH IMPROVED.
MAYFIELD, Jan. 23.—The work on the school house has been completed. The windows have been changed to the south side of the house. Mr. Mauldin, who is a fine carpenter, from Plainview, has just moved into our community. He donated his work on the school house, as did also Mr. White, Mr. Raper and Mr. Hooper. Mr. Mauldin superintended the work. Part of the new furniture for our school has just arrived—desks, map, globe and water fountain. They also intend to paint the school house, inside and out, as soon as the weather permits.
The whooping cough is in our midst, but only two of our pupils have taken it.
Mr. Coffey has been very sick with pneumonia, but at this writing he is

somewhat better.
Mrs. John Fisher has come back from a visit to see her aged mother, in the North.
Stella King, Juanita and Maribelle Gaudy, Gertie Hooker, Litz Benson and Joe Mounts visited A. D. Hooper's Sunday.
Fielding Helm has been in Bosque visiting the last month. He has married and is now on his wedding tour to St. Louis.
Mrs. A. D. Hooper called on the Mauldins Sunday.
Ethel Mauldin spent the last week in Plainview.
Mr. Mauldin's son will leave this month for Salem, Oregon, where he will assist his brother-in-law in the freight office.

PRAIRIEVIEW NEWS.
PRAIRIEVIEW, Jan. 23.—The snow has all melted, and the farmers can go to work soon.
Some of our young people attended the literary at Liberty Friday night.
Mr. and Mrs. Steve Williams, of Whitfield, visited our Sunday School Sunday evening.
Little Earl Hudgins has been quite sick the last few days, but is better at this writing.
The Connelly home will soon be completed.
Grover Leniaster went to Tulla Monday.
Earl Raper and W. G. Williams were callers in Plainview Saturday.
Our Sunday School meets at 2 p. m. We welcome every one that will, to come and take part.
Pat Connelly and sister, Miss Alice, attended church at Plainview Sunday.
Bob McGauw, who lives near Ellen, is visiting his sister, Mrs. Carney Williams, the last few days. Mr. McGauw recently lost his wife, who left two little children, and Mrs. Williams has taken them to raise.
Mrs. Frank Hudgins is on the sick list this week.

RUNNINGWATER.
RUNNINGWATER, Texas, Jan. 22.—Walter Locke, who has been at Mineral Wells for the past few months, returned home Friday.
G. L. Phillips has purchased a new Grant "six."
Miss Nera Phillips entertained the young people with a party Friday night.
Mrs. L. A. Lidwall, of Eugene, Oregon, is visiting with Mrs. C. F. Knight. Mr. and Mrs. Earl Kindred left today for Albany, Oregon, where they will visit Mrs. Kindred's parents.

WILL HOLD PUBLIC SALE AT CHAS. SCHULER'S JAN. 30.
Inviting Agricultural Conditions on Plains Is Commented on by Our Petersburg Correspondent.
PETERSBURG, Texas, Jan. 22.—The wheat growers in this community are wearing broad smiles on their faces since the snow. Wheat is looking fine now. The farmers and business men of the Plains enter the new year in firm confidence of prosperity.
It no longer requires great faith or

imagination to forecast the development of the Llano Estacado country. The real conditions are so impressive, the influx of good, level-headed farmers is so continuous, the profits from stock raising and agriculture are so definite, that the story of this grand country may be readily set down in exact figures.
Mrs. E. C. Reagan entertained Misses Pinson and Knupp in her home Saturday night.
Mrs. True Rosser has returned to her home, after a week's stay in Plainview, where she has had their baby under the watchful care of Dr. Gidney. We are glad to report the baby almost recovered from the grip.
M. H. Winningham has returned from Knox County to once more cast his lot with us. He left here over one year ago to accept a position in Monday, but lately decided to come back here and farm. We are glad to welcome him and his family once more into the community.
Ed M. White, of Clovis, New Mexico, has been here for a few days.
Miss Annie Hughes was the appreciated guest of Miss Evelyn Claitor, in the home of True Rosser, last week.
The young folks enjoyed skating on the Smith Lake during the recent freeze.
Mrs. R. I. Moon and sister have returned from Roswell, N. M., where they were called by the serious illness

of their sister, Mrs. Phillips, whom we are glad to report is slowly improving.
Rev. J. W. Saffle preached at the Baptist Church Sunday, and Rev. Henry White preached at the Christian Church.
Harry Ward, from Canyon, was a recent visitor in the home of L. C. Claitor.
Oscar Patterson, of De Leon, brother of Mrs. N. E. Greer, has come among us to make his home. We welcome him, and hope he will continue to be pleased with the country and people.
The school is progressing nicely. Attendance was very good during the snow period.
The entertainment which was to have taken place last Friday night was postponed indefinitely.
There will be a sale at the home of Chas. Schuler on January 30th.
The "Petersburg bunch" were pleasantly entertained in the hospitable home of Herman Wiese Sunday night.
Poe Greer, Oscar Patterson and Walter Shankle were pleasant callers in the L. C. Shankle home Sunday evening.
ROBERT McQUILLEN SELLS HIS PLACE AT OLTON.
OLTON, Texas, Jan. 23.—On account of the bad weather, a number of the children have been absent from school,

but most of them are in attendance again.
Artie Erb, who has recently taken charge of the Central Office, has added two children to the school.
Mrs. Motwiler, who has been visiting her mother, Mrs. Keenan, left today for her home, in Chicago.
D. T. Rose, of Los Angeles, California, is here on business.
Robert McQuillen has sold his place here to Lewis Shreier, and has moved to Plainview.
Miss Locke and Miss Brashears spent last Saturday in Plainview.
Miss Aura McGill, who is attending school at Plainview, visited with home folks last week.
Tom Criswell has moved from the hotel to the McAfee house. Mr. Lee, of Hale Center, has taken charge of the hotel.
REV. CRAIN, OF LONE STAR, TO MOVE TO CHILLICOTHE.
LONE STAR, Jan. 23.—Rev. Crain

preached his farewell sermon here Sunday. Brother Crain goes to Chillicothe. Our people regret very much to lose Brother Crain, but wish him great success in his new field of labor.
The sick of our community are all improving. Whooping cough and la grippe have about run their course.
Mrs. Daniels was called to Silvertown a few days ago to see her cousin, who was quite sick, but is better at this writing.
We had no school the week of the snow, but the pupils have come in now with renewed energy, and our school is doing nicely.
Tom Rankin came in last Saturday from Russellville, Ark., where he has been the past few weeks visiting relatives and friends. He reports lots of rain in that part of the state.
The singing at Mr. Neeve's Sunday evening was well attended, and a good time was reported by our young people.

Something New in Plainview

The Snell Electric Photo Studio

Modern invention makes us independent of weather conditions, as it is always mid-day and sunshine with us.

STUDIO LOCATED ON MAIN STREET—GROUND FLOOR—in the building occupied by the Everybody's Confectionery.

We are prepared to do a general photographic business, Portraits, Views and Kodak Finishing, and we solicit a share of your business.

Snell Electric Studio

We Are Exclusive Agents

in Hale, Swisher, Floyd and other counties for the sale of 170,000 acres of railroad land located in Terry, Gains and Yoakum counties, at prices ranging from \$10.00 to \$20.00 per acre.
All lands under \$16.00 per acre \$2.00 per acre cash.
All lands over \$16.00 per acre \$2.50 per acre cash, balance of the purchase price to be in seven equal annual payments at 6 per cent interest.

First Note Due December 1, 1919

This land is graduated in price according to its location to the railroad towns, not according to the character of the soil.
The Santa Fe Ry. Co. is now building a railroad from Lubbock right into the heart of this big tract of land and we are reliably informed that the contract calls for the laying of steel into Blythe (the present contemplated terminus) by the 4th of July this year.
This land will be sold and divided in 160 acre tracts and ranges in class from what is known as medium tight "Cat Claw" or "Mesquite land" to land of a more sandy nature, known as "Shinnery land."
It is needless to say that any land of a sandy nature with a clay sub-soil can resist the drouth far better than the so called black lands of this country.
Terry and Gains counties have a statewide reputation for being the banner Indian corn counties of the South Plains, and these lands are especially adapted to the growing of cotton, corn, kaffir, maize, peanuts, etc.

First Come First Served

is the manner in which this large tract will be handled, and it's just now opened up for sale.
This proposition is good for both the investor and the man hunting a home.
Meet us in Lubbock and we will take you down in cars so you may pick your choice.
Write or phone us if interested.

SCUDDER & DOUBLEDAY

**MAKING ANIMATED MOVIE
CARTOONS IS A CLEVER ART.**

How movie cartoons are made to move is a mystery to most persons who take pleasure in their antics. And, according to a writer in Cartoons Magazine, there is much mystery about the mechanics of their production among artists who aspire to produce like effects, and several motion-picture concerns are nearly as ignorant about it as the general public. For the artists who are doing this work have learned how after weeks and months of scheming and labor, and they jealously guard the secrets of their particular methods. In general, trick photography is combined with intricate study of motion and its portrayal. Some artists rely almost entirely upon successive drawings, and others on cut-out figures—a very elaborate and delicate process. The writer tells of a recent visit to the studio of a popular movie cartoonist who was completing two weeks' work on a 500-foot film and had a stock of 1,132 separate drawings to his credit. The next afternoon he visited another artist, who had just finished photographing a cartoon of similar length. This artist, however, had made only a few more than 500 drawings, and had attained even smoother animation than the first one. The difference came in the methods employed. On the other hand, there are cartoonists who are making as many as 5,000 to 6,000 drawings for each 500 feet of film. Some of the sketch-saving tricks are more or less public property. One of them consists in making a single drawing of a setting and then having a large number of halftone prints made of it, thus saving an almost endless amount of work.

Whatever the idea of the cartoon, the execution must be clever or it will fall flat. It is for this reason that so much importance is connected with the actual work of animation. In presenting animal cartoons, for instance, the artist has to make four legs move in a fairly natural way at a uniform speed. If too many drawings are made, the picture drags; and if they are too few, the motion is jerky and stiff. To strike the right combination is an art that not all of the present movie cartoonists have acquired by any means. This is frequently done by drawing one cartoon over another on a ground glass, through which light is projected, so that the proper variation between succeeding pictures is attained. Also by quickly shoving back and forth one corner of the top sheet of paper, the effect of animation

is shown as the drawing advances. One difficulty that confronts the movie cartoonist is the minute exactness necessary. Owing to the fact that the drawings are enlarged enormously when projected on the screen, the smallest inaccuracies are brought out. The cartoonists' drawings for a newspaper go through just the reverse process, for they are reduced instead of being enlarged.

Suggestive of the mysteries of the movie cartoonist's art is the mention by one writer of some of the things he saw in one workshop. Except for the array of drawings on the wall and some of the conventional tools, such as pens, paint, air brushes, ink and drawing boards, the place might be a tinker's shop. The first thing that struck his eyes was a jeweler's saw. There were glass cutters, a light hammer, air tanks, several squares and an endless variety of other trappings.

PLAN GARDENS NOW.

By W. B. LANHAM,
Chief, Division of Plant Industry.

A liberal application of barnyard manure should be applied to the garden spot plowed under during the winter. The garden should be plowed deeply, turning under all trash and weeds to decay and supply humus. Also, deep fall plowing is one of the best methods to control insect pests. See that the hot beds are cleaned out and any broken sashes replaced. Garden seeds should be ordered through the winter and tested for germination. Do not depend solely upon the seeds handled by the local grocers. Often these are old and of low germinating power. A good crop cannot be grown from poor seed.

**NOW IS THE TIME TO PRUNE
AND WINTER SPRAY TREES.**

By W. B. LANHAM,
Chief, Division of Plant Industry.

Attention should now be given to the pruning of bearing trees. With apples and pears, all broken or diseased limbs should be removed and the heads of the trees thinned out and any cross limbs cut off. Peach trees should be cut back heavily, cutting off from one-third to one-half of last season's growth and opening up the center. In all cases pruning should be done from the top rather than from the bottom of the tree. That is, the tops should be cut back and the large limbs not removed, because they are

As soon as the orchard is pruned it should be sprayed for San Jose scale with lime-sulphur mixture. This spray will also control leaf curl. More detailed directions are given in publications from this department, that may be obtained free by addressing a request to the Director.

**FEED SHOULD BE BOUGHT
ONLY AFTER BEING ANALYZED.**

Warnings are being issued by dairy experts against buying any of the food compounds offered on the market for dairy feed without thoroughly investigating the analysis and food value of the various compounds, many of which are absolutely without value for feeding purposes. In this connection he points to the recent experience of Wisconsin dairymen with one of these compounds, which was offered to the dairymen at \$3.50 per ton. The compound looked and smelled all right, but on being analyzed by the State authorities was found to be composed mostly of peanut hulls, and contained only 8 per cent oil and was 56 per cent fibre.

RESOLUTIONS OF RESPECT.

Plainview, Texas,
January 25, 1917.
WHEREAS, God in His infinite wisdom has permitted to be taken from our midst a most valued leader, in the person of J. E. Lancaster,

BE IT RESOLVED by the Plainview Chamber of Commerce that by his passing not only Plainview and this immediate community, but the State as a whole, has lost one of its pillars of strength. As a citizen, devoted to the best interest of the public, with his shoulder always to the wheel, he stood as a captain. Unswerving in his sense of honor and honesty, loyal to his friends and his community, generous almost to a fault with his time, his energies and his money where help was needed; always in the front rank where there was work to be done for the public welfare; with a heart full of love for humanity; charitable in the broadest exemplification of that term; tenacious to all principles that tend to the upbuilding of his fellow man; always ready to listen to a cry of distress and respond with a helping hand

and open purse; a man loved by those who knew him intimately and respected by all; a man broad in his views, liberal in his judgment of others, forgiving toward those who misjudged him;

RESOLVED that while his decease has left a void in our hearts, and that we cannot understand why one so loved, so helpful, so needed, should be called, we bow in humble submission, feeling that while we shall see our friend no more in the flesh, his unselfish influence will live to make brighter and sweeter days that shall come and go.

"Where Your Business is Appreciated and Your Money Buys Most"

Right In the Face of An Increase in Price We Have Received Two Carloads of Hupmobiles

THERE has been announced an increase in the price of the Hupmobile to take effect sometime between the first and fifteenth of February; but—we have protected our prospective Hupp purchasers by stocking two carloads of the latest Hupp models, Touring Cars and Roadsters.

These cars are here ready for your inspection and our demonstration. They can be purchased now at the old prices. When they are gone the new higher prices will be in effect.

At the new price you will make no mistake in a decision in favor of the Hupmobile—at the present price you will make a grave mistake if you do not give the Hupp first consideration.

THE Hupmobile is light enough to hold down the cost of upkeep, yet sturdy enough to travel in comfort over long distances and all sorts of roads.

Blessed with the pulling power that distinguishes the Hupmobile Perfected Four. The marvel in heroic hill-work. Smooth and swift in high gear pick-up. Delightfully flexible in thick traffic. And with a National Coupon Service System which transfers its mechanical care into the hands of experts. A service that costs you not a penny.

The regulation Touring Car and the Roadster are convertible into winter cars by our Year 'Round bodies. Though these closely resemble permanent enclosed bodies, they are easily removed when you want an open car again.

Five-Passenger Sedan \$1735; Five Passenger Year 'Round Touring Car, \$1385; Year 'Round Coupe, \$1370; Five Passenger Touring Car, \$1185; Roadster, \$1185; Seven-Passenger Touring Car, \$1340. Prices f. o. b. Detroit.

The Powerful Hupmobile 4-Cylinder Motor

All model Hupmobiles are equipped with the Hupmobile Perfected Four-cylinder motor.

In this motor we have created what amounts to a new type.

It has the power capacity of a racing motor. Instead of using this great power for speed, we translate it into pulling ability; or as the engineers call it, lugging power.

This is the source of the Hupmobile's remarkable high-gear performance on hills, in sand and mud, all over the country—in which it is not excelled by any multi-cylinder cars, and equaled only by the better types.

Winter Egg Production

By ALFRED R. LEE,

Animal Husbandman in Poultry Investigations, Bureau of Animal Industry.

The production of eggs in winter from pullets, and to some extent from hens, can be greatly stimulated by good methods of feeding, housing, and handling. Very few eggs are secured on the average general farm during the fall and early winter, when eggs bring the highest prices. Poultrymen, however, by better management, secure a fair egg production during these seasons. The object of this paper is to point out methods of management which will help to increase winter egg production.

To receive good results from a flock of poultry during the winter all houses and coops should be in good condition, only healthy fowls placed in these buildings, and good care given to the poultry. These houses should be thoroughly cleaned, disinfected and made tight for winter. If the house has a dirt floor it is well to remove the top 3 or 4 inches of dirt and replace this with dry gravel or sand. If it has a cement or wooden floor, remove all litter and dirt and put in 4 or 5 inches of fresh straw or litter. Be sure that the house is tight on three sides and that there is no chance for a draft to strike the hens. If hens roost or are placed in draft during the fall and winter, colds are sure to develop, which may result in roup and other troubles. From one-third to one-half of the south side, or front, of the poultry house may be made of curtains and windows, but should be under control, so that the openings may be closed gradually as the weather becomes cold. Have muslin curtains in the front of the house or leave a window partly open, even on the coldest nights, to allow some ventilation in the house. Fowls will stand considerable cold air provided it is dry, and ventilation will keep the air thoroughly dry in the house.

Before the pullets are mixed with the older fowls, be sure that the hens are branded or that the web of the foot is punched in some way, so that you can distinguish between the pullets and the hens. In this way the older stock may be culled out whenever it appears desirable, and the young hens kept for further laying. Do not keep hens for egg production over two years, but some of the best hens may be kept for breeders until 3 or 4 years old. The pullets that mature early in the fall and that moult late are usually the best layers, and should be saved for breeding stock. Cull the chickens which are brought into the laying house carefully, and fatten and market all chickens which are small, poorly developed, or in poor condition. These small, poorly developed chickens are apt to catch cold if put in with the other poultry and develop disease which quickly spreads through the flock.

In order to get the greatest egg production in the early fall and winter, it is essential to have well matured pullets which were hatched in March or April. By early hatching and by supplying good conditions for egg production more eggs will be produced in the fall and winter, while a larger proportion of hens will go broody early in the spring, thus completing the necessary circle for early-fall egg production.

Feed the grain in a deep litter on the floor, and make the hens exercise for all of their grain. The mash may be fed either wet or dry, and should be so regulated that the fowls will get about equal parts of mash and of scratch grains. It is necessary to give the fowls plenty to eat to get good results, but the birds should always be eager for each feed. In cold weather feed about one-third of the scratch grains in the morning and two-thirds at night, in which way the hens are forced to exercise more than if given all the grain they desired at the morning feed. Scratch grains, mash or ground grains, animal protein, green feed, grit, and shell, should be supplied in the winter. Good scratch mixtures may be made of equal parts, by weight, of cracked corn, wheat, and oats, or of two parts of cracked corn and one part each of wheat and oats. If wheat is relatively very high in price it may be run out of this latter mixture. In addition a mash made of three parts corn meal and one part each of wheat bran, wheat middlings, and beef scrap should be fed. Green feed, such as cabbages, mangel wurzel beets, cut alfalfa, or sprouted oats should be fed during the winter, to replace the green feed which the fowls have been securing in the fields; and beef scrap, skim milk, cut green bone, or some similar feed is needed to replace the bugs which the fowls have been securing on the range.

Beef scrap or feed of this nature is very essential in securing a good supply of eggs during the winter months, and is the one essential feed often omitted by farmers. In the experiments conducted by the department an average production of 41.5 eggs for the first four months from pullets fed a ration containing beef scrap was secured, compared with 18.7 eggs from pullets fed the same ration without the

beef scrap. The pullets not fed beef scrap practically stopped laying whenever the ground was covered with snow. The feed cost of their eggs was 2.2 cents higher per dozen for the year than for the pullets fed beef scrap. Skim milk or buttermilk will largely take the place of beef scrap, if a constant supply can be kept before the fowls, but if the supply of milk is limited some beef scrap should also be fed.

People raising poultry as a side issue in towns and villages can utilize waste products from their table and kitchen to very good advantage, producing fresh eggs and poultry for their own use as well as some surplus for market. As these scraps contain some waste meat, the proportion of beef scrap in the mash can be reduced accordingly. These table scraps can be mixed with the ground grains and fed as a moist mash.

Clean the dropping-boards at least once a week, and spray the roosts once a month during the winter with kerosene or some commercial preparation for killing mites. Have a good supply of sand or dirt on hand to use on the dropping boards during the winter.

If any of the birds develop colds, put as much potassium permanganate as will remain on the surface of a dime into a gallon of water and keep this material in their drinking water for several days, or until the symptoms of the colds have disappeared. Remove any sick birds from the flock as soon as noted, and treat them in coops by themselves or kill and bury them, if they are not worth treating.

Examine the pullets and hens for lice and dust thoroughly with a good insect powder, or apply a mixture of equal parts of vaseline and mercurial or blue ointment, applying a piece about the size of a pea 1 inch below the vent of the bird, rubbing the mixture lightly on the skin. An application of this ointment two or three times a year will keep the fowls free from lice. Where insect powder is used, it should be applied three or four times a year, or oftener, if the fowls become infested with lice. Provide a small box in the house, partly filled with dry road dust or fine dirt, in which the hens may dust themselves, thus helping to keep free from lice.

By request of a large number of our patrons, we will show MISS BILLIE BURKE in "PEGGY" TUESDAY, JANUARY 30TH, MAE I. THEATRE. It.

MORTALITY IN U. S. FROM CANCER AND OTHER MALIGNANT TUMORS.

WASHINGTON, D. C., Jan. 15.—The mortality from cancer and other malignant tumors in the death-registration area of the United States has been increasing almost continuously for the past fifteen years. It is greater in urban than in rural localities; among females than among males; among whites than among negroes; and among persons in middle life and old age than among those in early life. Deaths due to cancer of the stomach and liver represent more than three-eighths of the total.

These are among the significant facts brought out in a special report, "Mortality from Cancer and Other Malignant Tumors in the Registration Area of the United States, 1914," soon to be issued by Director Sam. L. Rogers, of the Bureau of the Census, Department of Commerce.

The total deaths from cancer and other malignant tumors throughout the registration area (which contains approximately two-thirds of the total population of the United States) in 1914 numbered 52,420, corresponding to a death rate of 79.4 per 100,000 population. This figure represents an almost continuous increase—amounting to 26 per cent for the entire period—since 1900, when the rate was 63. How much of the increase has been due to more accurate diagnoses and greater care on the part of physicians in making reports to registration officials, and is thus apparent rather than real, it is impossible to estimate.

For registration cities having 10,000 inhabitants or more in 1910 the rate averaged 88 per 100,000, but for smaller places and rural localities in the registration states it averaged only 69.6.

High and Low Rates for States.

Among the states, the lowest five rates—45.8, 46, 48.9, 51.5, and 57.8 per 100,000 population—are shown for Utah, Kentucky, Virginia, Montana, and North Carolina, respectively; and the highest five—109.9, 107.6, 101.2, 100.8, and 97.9—for Vermont, Maine, Massachusetts, New Hampshire, and California, respectively. (The rate for North Carolina relates only to places which had 1,000 or more inhabitants in 1910.)

At least a part of the difference between the high and low rates is accounted for, first, by the fact that in some states the average age of the population is considerably greater than in others, cancer being a malady much more likely to attack persons at advanced ages than those in the earlier periods of life, and, second, by the fact that in several of the states named there are considerable proportions of colored population, among whom the mortality from cancer is apparently lower than among whites.

Color, Sex, and Age.

The death rate for whites throughout the registration states was 80 per 100,000, as against only 56.2 for the colored population.

The death rate from cancer among women, 96.8 per 100,000, was more than 50 per cent greater than the cor-

responding rate for men, 62.4.

For persons under 25 years of age the death rate was only 2.8 per 100,000 corresponding population; but for the higher ages it is very much greater, increasing rapidly from each age group to the one next above. Thus, for persons 25 to 34 years of age, it was 13.9 in 1914; for those 35 to 39, 42; 40 to 44 78.6; 45 to 49, 128.6; 50 to 54, 199.7; 55 to 59, 305.9; 60 to 64, 393.1; 65 to 69, 516; 70 to 74, 672.3; 75 to 79, 766.6; 80 to 84, 889.6; and 85 and over, 875.6.

Cancer of the Stomach and Liver.

Among both males and females, cancer of the stomach, liver, pharynx, and esophagus accounted for a greater proportion of the total deaths from cancer—approximately 47 per cent among males and 32 per cent among females—than is shown for any other group. The death rates from this class of cancers were 29.6 per 100,000 for males and 30.7 for females.

Babies will grow and while they are growing you should have them photographed often enough to keep a record of each interesting stage of their childhood.

You will prize the collection of baby's pictures more and more as the years go by.

PUBLIC SALE

At my place, three miles northeast of Plainview, one and a half miles east of Seth Ward College. Sale beginning promptly at 10:30

Thursday, February 1, 1917

4 HEAD OF GOOD WORK HORSES
One span of browns, weight 2300.
One brown, weight 1000.
One bay pony, weight 800.

22 HEAD OF HIGH GRADE WHITE-FACE CATTLE
Eleven good 4-year-old cows. All will bring early calves.
Four 2-year-old heifer calves.
Three 2-year-old steers. Good.
Two 1-year-old steers. Good.

10 HEAD OF DUROC JERSEY HOGS
One good brood sow.
Nine good shoats. Good feeders.
100 Rhode Island Red Chickens.
7 bronze turkeys.
15 guineas.

Will sell my one-year lease of 160 acres—with good 4-room house, well and windmill, good barns, sheds, and chicken house. 93 acres of good wheat and 57 acres broke for row stuff. Will turn over same to man who will buy wheat crop. Now don't miss this if you want a good lease.

FARM MACHINERY

(ONLY USED ONE YEAR)

1 double-disc Canton Plow. New.
1 disc harrow. Good as new.
1 P. & O. lister. Good as new.
1 two-section harrow. Good.
1 go-devil. Good.
1 John Deere broad-cast binder.
1 cultivator.
1 good farm wagon. High wheels.
1 surry. Very good.
1 buggy. Good as new.
2 sets of tug harness.
3 extra horse collars.
1 set of buggy harness.

200 feet of red paling fencing.
All my household goods except bed clothing. This stuff all good as new.

Terms of Sale:—All sums under \$10.00, cash. All sums over \$10.00 ten months' time will be given on good bankable note bearing 10 per cent. 5 per cent off for cash. No stuff to be removed before settled for.

MR. BIRD'S BILL OF FARE.

On the basis of the value of the birds as destroyers of insects, the United States Department of Agriculture is advocating the winter care of all birds. Providing shelter for them and feed as well when the ground is covered with snow is urged. Every destructive insect which preys on the garden, orchards or ornamental shrubs of the yard, is on the bill of fare of some one or more of the birds. Many birds devour as many as a hundred insects at one feeding.

QUQUES, PAVING BLOCKS AND POLL-TAX RECEIPTS.

You must pay your poll tax before midnight next Wednesday night if you are to be an enfranchised citizen during the year 1917. Without your receipt your voice in the local, State and National Governments can be heard no more than can that of the Chinese, with his long queue, who can never become a naturalized citizen of the United States. So far as effective citizenship is concerned, the man without a poll-tax receipt in Texas is in the same boat with the Chinaman. Natural environment and his native ability are in his favor; but as a rule one who does not pay his poll tax is not interested in using his talents for bettering society—that's where the largest part of his poll-tax money goes, the public schools receiving the most of it.

One man who is without a poll-tax receipt is an exception to the rule. He intended to pay his poll tax in time, and forgot it. He is to be pitied and condoned for his good intentions. But there's a trite, but forceful, aphorism about good intentions being good "paving" material.

Don't be in the class with the Chinaman or in the business of furnishing paving material.

Pay that poll tax and pay it NOW!

Food For Thought

"The wisdom of the wise and experience of the ages may be preserved by quotation."—Benjamin Disraeli.

There is no personal charm so great as the charm of a cheerful and happy temperament; it is a great error to suppose that this comes entirely by nature; it comes quite as much by culture.—Van Dyke.

Do not pray for easy lives. Pray to be stronger men. Do not pray for tasks equal to your powers; pray for powers equal to your tasks. Then the doing of your work shall be no miracle. From it you shall wonder at yourself, at the richness of life which has come in you by the grace of God.—Phillip Brooks.

I have noticed that most people in this world are about as happy as they have made up their minds to be.—Lincoln.

If your morals make you dreary, depend upon it they are wrong. I do not say to give them up, for they may be all you have; but conceal them like a vice, lest they should spoil the lives of better and simpler people.—R. L. Stevenson.

The miser is as much in want of what he has as of what he has not.—Cyrus.

Habit is habit, and not to be flung out of the window by any man, but coaxed down stair a step at a time.—Mark Twain.

Wisdom is to know what to do next; skill is to know how to do it; virtue is doing it.—Buddha.

To punish a man because we infer from the nature of some doctrine which he holds, or from the conduct of other persons who hold the same doctrine with him, that he will commit a crime, is persecution, and is, in every case, foolish and wicked.—Macaulay.

There is no virtue so truly great and godlike as justice.—Addison.

There is a better man behind an honorable failure than the one behind a dishonorable success.—Herbert Kaufman.

YOUR BEST WORK IS TO MAKE YOUR CHILDREN PLAY.

Are the children of this day losing the vivacity, red cheeks, health and charm that naturally belong to childhood?

Are they old before their time, with grown-up minds in stunted bodies, shockingly overwise, too indifferent to study and too lazy to play?

Are they becoming pasty-faced, thin-blooded, and incapable of taking interest in anything except cigarettes, dancing and the movies?

Prof. E. A. Ross, of the University of Wisconsin, has been making researches in some parts of New England, and declares that, in the regions he studied, at least, he finds appalling evidences of a strange juvenile decline.

He says educators mourned the total decay of youthful sports and youthful vigor. Clergymen declared that by no device could young people be lured to church or Sunday School.

Children that will not play I spy or tag, will not run, shout, laugh or go coasting! Boys that don't go swimming in summer or skating in winter! Boys that don't even care for baseball!

Children that at school recess stand listlessly about, making coarse jokes and telling coarse stories! Professor Ross found an astounding brood of that kind, not limited to a few manufacturing places, but in many towns, widely spread.

Other observers at the national sociological congress, where Professor Ross reported his discoveries, intimated they had heard of some such symptoms elsewhere. Many said he was too pessimistic.

That means nothing. Everybody that tells us anything painful, however true, is called pessimistic. The thing for us to do is to find out how far children have really decayed in this country, and stop the dry rot before it goes any further. Because seven business panics, one after another, wouldn't represent as big a disaster to the Nation as a generation of children too grown-up to play. Professor Ross said some things, too, about the state of morals he found among children of this kind. We leave what he said to be imagined.

Play is as essential to growing childhood as food. The coming nation is robbed if any child doesn't have both. It doesn't do any good to be prosperous and rich as a Nation if the next generation that inherits after us is to be anything like Professor Ross indicates.—Wichita Beacon.

MARRIAGE LICENSE ISSUED TO HALE CENTER COUPLE.

County Clerk Jo. W. Wayland has issued a marriage license to C. B. Shepard and Miss Myrtle Foster, of Hale Center.

CARD OF THANKS.

For their interest and help when my home burned, last Monday night, I want to thank my friends in the Kress and Whitfield neighborhoods.

T. S. ONEAL

THE GODDESS OF AGRICULTURE VERSUS THE GOD OF BATTLE.

According to a certain theory of evolution, the female principle dominated the origin of life; in other words, Eve was not made from Adam's rib, but there may be some truth in the story if it is read the other way around.

In Greek and Latin mythology, the powers which control the fruitfulness of the earth are all female. Demeter was goddess of agriculture, Fortuna carried the horn of plenty. But the powers which wrought destruction—Time, War and Death—were all masculine.

The great war puts both the old myths and the new sciences to the test, and seems to prove both right. Not to Mars, god of battles, but to Demeter, the lady of the fields, must go the glory of winning this war, according to a general belief.

In Europe the farmer is regarded as of equal importance with the munition maker and the soldier. Agriculture is recognized by all military authorities as a chief source of national defense. Consequently a marvellous new science of agriculture is being developed by the warring nations, and parallel to it in this country is the work of the agricultural experiment stations which the Government has established in each State.

The trained farmer is doubtless as essential as the trained soldier to any scheme of national preparedness. And better farming processes mean cheaper food for the people in times of peace—provided the distribution of foodstuff, its transportation and methods of marketing are managed in a fair way.

The annual fall spectacle of acres of choice fruits left to rot, on account of car shortage, and of thousands of dozens of eggs spoiled in cold storage, on account of price manipulations, is one to discourage the great goddess Demeter herself, not to mention her devotees, the farmers.—Wichita Beacon.

UNITED STATES ROAD MONEY THE STATES CAN GET.

This is the amount of money the Federal Government will give each State during the next five years to build good roads, providing the states raise similar amounts:

Alabama	1,562,233.50
Arizona	1,027,702.80
Arkansas	1,240,336.50
California	2,265,958.80
Colorado	1,255,352.10
Connecticut	466,356.60
Delaware	122,765.55
Florida	839,644.05
Georgia	2,014,942.20
Idaho	906,952.50
Illinois	3,313,893.45
Indiana	2,076,214.30
Iowa	2,192,634.00
Kansas	2,148,111.10
Kentucky	1,462,078.65
Louisiana	1,012,119.90
Maine	726,772.50
Maryland	660,708.30
Massachusetts	1,107,764.25
Michigan	2,185,755.80
Minnesota	2,135,910.90
Mississippi	1,333,687.60
Missouri	2,545,806.15
Montana	1,474,307.85
Nebraska	1,601,562.15
Nevada	965,974.50
New Hampshire	314,949.03
New Jersey	888,190.20
New Mexico	1,181,067.15
New York	3,760,804.05
North Carolina	1,715,728.80
North Dakota	1,142,145.90
Ohio	2,803,581.30
Oklahoma	1,727,085.00
Oregon	1,180,310.55
Pennsylvania	3,459,662.55
Rhode Island	174,985.65
South Carolina	1,077,114.60
South Dakota	1,214,190.30
Tennessee	1,712,302.20
Texas	4,378,917.15
Utah	854,252.25
Vermont	342,657.05
Virginia	1,494,910.65
Washington	1,078,264.20
West Virginia	799,056.96
Wisconsin	1,925,416.05
Wyoming	917,952.30

Total \$72,750,000.00

Three per cent of the \$75,000,000 appropriated goes for administrative purposes.

WILL PLANT SWEET CLOVER.

On the strength of advice of the bulletins of the United States Department of Agriculture and the farm publication, D. P. Wirtz, of Abernathy, is going to plant sweet clover on a small plot on his farm. Mr. Wirtz came from Mississippi, where many farms have sweet clover pastures and hay meadows. He says the crop withstands drouths well and will grow on paths and roadways where the earth has been packed hard. He will experiment with the crop and if it does as well as he expects he will plant it extensively.

H. C. Pipkin, of Amarillo, is here attending District Court.

BIRTHS.

Born, to Mr. and Mrs. D. C. Allen, three miles west of Hale Center, January 9, a girl.

Born, to Mr. and Mrs. Silas Maggard, Hale Center, January 7, a girl.

Born, to Mr. and Mrs. G. M. Tate, January 25, a daughter.

SOCIETY

Telephone Number 72

"AS YOU LIKE IT" CLUB.

The "As You Like It" Club met at the City Hall Thursday afternoon. The meeting was opened by prayer, led by Mrs. R. E. Hill. Roll call was answered by items noting the activities of women. Mrs. R. W. Little gave an interesting paper on "The Administrations of the Presidents of Mexico." A well gotten up paper on "The Fall of Diaz and Anarchy" was given by Mrs. Geo. Saigling. Mrs. Geo. Hutchings' paper, on "The Present and Past of Mexico," was very interesting. Mrs. J. J. Lash led the meeting, and also conducted the round table at the close of the paper. There was a large attendance and fine interest.

HOME ECONOMICS CLUB MET WITH MRS. C. D. NOBLES.

The Home Economics Club met at the home of Mrs. C. D. Nobles, 213 West Ninth Street. Mrs. A. M. McMillan was leader, and gave a very interesting lecture on "The Food Value of Milk." The topics discussed were: (a) "Care of Milk in the Home." (b) "Proportion and Food Value of Milk." (c) "Reports of Visits to Dairies." The date of the meeting of the Home Economics Club has been changed to the second and fourth Fridays. Mrs. Geo. Saigling will entertain the next meeting.

MR. AND MRS. E. E. ROOS HOSTS.

Mr. and Mrs. E. E. Roos were host and hostess at a dinner served Friday evening at 6:30 o'clock, at the Roos home. Covers were laid for Mr. and Mrs. P. J. Woodruff, Mr. and Mrs. F. W. Clinkscales, Mr. and Mrs. L. S. Kinder, Mr. and Mrs. Chas. McCormack, Dr. and Mrs. J. C. Anderson and the host and hostess. Mrs. Roos was assisted in serving by Electra Anderson and Grace McCormack. After dinner, the evening was spent in playing bridge.

A THREE-COURSE DINNER.

Mr. and Mrs. W. L. Harrington gave a three-course dinner Monday evening, at their home, 701 West Eleventh Street. Five Hundred was enjoyed after dinner. Those present were Messrs. and Mesdames H. W. Harrel, F. W. Clinkscales, R. E. Burch, Chas. McCormack, J. C. Anderson, E. E. Roos, and C. C. Gidney.

EPWORTH LEAGUE PROGRAM FOR SUNDAY, JANUARY 28.

Following is the program arranged for the meeting of the Epworth League, at the Methodist Church, on Sunday evening, January 28th: Subject—"Africa." Scripture—Matt. 28:16. Song. Prayer. Song. "The Lesson"—Mr. Mobley. Solo. "Geography of the Country"—Mr. Porter. Round Table—Leaguers. Song—Miss Ada Clark. Benediction. Leader—Miss Speer.

THE FEDERATED MISSIONARY SOCIETY MEETS MONDAY.

The Federated Missionary Society meets in regular session, at the Baptist Church, Monday, January 29, at 3 o'clock p. m. It is the time for annual election of officers. A cordial invitation is extended to all. Program. Hymn—Society. Devotional—Mrs. J. B. Scott. "History of Mexico from Its Early Settlement to the Present"—Miss Edna Mayhugh. Violin Solo—Mrs. Grady Pipkin. "Political Conditions of Mexico from the Beginning of Diaz' Reign to the Present"—Mrs. C. W. Tandy. Ladies' Lyric Quartet. "Present Religious Condition of Mexico"—Mrs. T. P. Whittis. Vocal Solo—Miss Ada Clark. Benediction.

MRS. T. C. SHEPARD IS HOSTESS FOR "500" CLUB.

The Five Hundred Club met with Mrs. T. C. Shepard. Substitutes were Mrs. E. L. Doland, Mrs. Flinn and Mrs. E. H. Bawden. Candy was served during the game. Mrs. Shepard was assisted in serving by Mrs. E. H. Bawden. The house was decorated with carnations. R. B. C. Howell has returned from a visit with relatives in San Angelo. J. D. Trobaugh, of Clovis, is here looking after his property interests. Mrs. W. P. Blackburn, of Amarillo, is the guest of her daughter, Mrs. H. C. Randolph. Mrs. T. J. Van Arsdale and mother are in Canadian, Texas, visiting relatives. Miss Ruth Bracy, of Claude, is the guest of Mr. and Mrs. Ira W. Little.

F. W. Clinkscales has just returned from a business trip to Kansas City and Carrollton, Mo. He also visited friends in Topeka, Kansas.

J. C. Rawlings returned this morning from Kansas City, where he has been for several days on business.

D. T. Wren is here today on business. He is now living in Amarillo.

E. L. Doland, manager of the Plainview exchange of the Southwestern Telegraph and Telephone Co., was in Hale Center this morning on business.

A. C. Hatchell, district attorney, went to Amarillo this morning on business.

Mrs. J. P. Davis returned this morning from a visit in Abilene and Sweetwater.

Mrs. D. G. Irby and son, from Sardis, Mississippi, are visiting Mrs. L. W. Dalton, 215 Broadway.

Miss Lacy Dalton, from Hale Center, came to Plainview Wednesday evening to attend the photoplay "Romeo and Juliet."

Mr. and Mrs. E. E. Roos and Mr. and Mrs. T. B. Carter left yesterday morning for Chicago to attend the Automobile Show.

H. C. Bridges, representing the Western Newspaper Union of Oklahoma City, Okla., was in Plainview yesterday on business.

J. T. Ellerd, of Lakeview, was in Plainview Wednesday and Thursday.

Manager Earle Keck has arranged for the Y. M. B. L. quartette to appear on the program at The Ruby next Wednesday night.

Mrs. John Morrow and daughter are in Abilene.

Mrs. Rex Lindsay has returned from a visit in Snyder, Okla.

John Gray, of Paris, is here looking after business interests.

Odus Thomas, bookkeeper at the Roos Garage, is able to be out again. He was severely burned while near Lockney several days ago while taking gasoline from his car to supply another car, which was out.

Judge L. C. Penry, of Fort Worth, is here attending District Court.

Mayor W. E. Risser is ill at his home, 707 Denver Street.

Jim Whiteley arrived this morning from LaNoria, where he has been with Company L, Fourth Texas Infantry.

E. D. McMurtry, of Silverton, was here Wednesday.

Jno B. Rentfro, of Silverton, was a visitor in Plainview Wednesday.

I. Jacobs, of Wolfe City, is visiting here with relatives and looking after his property interests.

Miss Lucille Arnett, of Canyon, was a week-end guest of Miss Margaret Gardner.

THE RATES TO AUSTIN HOME ECONOMICS WEEK WILL BE LOW.

AUSTIN, Texas, Jan. 22.—An old-fashioned "play" evening to be given by the faculty and students of the Woman's Physical Training Department of the University of Texas will be one of the features of the Home Economics Week which begins here February 12. The purpose is to give a demonstration of how to play. The exercise was arranged as a compliment to the members of the State Canning Club agents who will meet in Austin during the Home Economics Week. One of the most serious difficulties in the work of these agents and of rural teachers is the instruction of children in large groups in the art of co-operative playing. There is fear that modern children are losing the "art of playing."

The complete program for the Week will be finished by the end of the week, and will be ready for distribution. Unprecedented interest in the coming meetings have been manifested from various quarters of the State. Numerous requests for the speakers who will be on the program have been received from other Texas cities. The exhibits which are being prepared will probably be extensively used after the meeting. Already a request for loan of these exhibits has been received from the Bureau of Development of the Business Men's Club of Memphis, Tenn.

Railroads have furnished reduced rates for the Week, and organized effort will be made on the part of women's clubs of the State to send delegates. Mrs. Fred Fleming, President of the State Federation of Women's Clubs, and Mrs. F. W. McAlister, of the Congress of Mothers, have urged each individual club to send delegates to remain throughout the week.

Clyde McFarland, of Castro County, was here Wednesday.

I. E. Barr, of Lubbock, was a visitor in Plainview this week.

E. J. Letteer, of Amarillo, cattle-loan inspector for the St. Louis Cattle Loan Co., was in Plainview Wednesday on business.

Alsey Gardner, of Silverton, was here Wednesday on business.

C. S. Jarrett, of Lubbock, was a visitor in Plainview yesterday.

R. L. McMurtry, cattle inspector, was here yesterday.

S. P. Dickson, Miss Maie Sleott, Jack Sleott and W. L. Dickson, of Olton, are visiting in Plainview today.

F. S. Wofford, of Mountain Air, New Mexico, is a guest of his brothers, Dr. C. D. and Hal Wofford. Mr. Wofford formerly ranched near Brownfield, and has filed on land in New Mexico.

J. K. Pace is en route to Florida, where he will probably locate. His family will remain here until the close of the school term.

Mrs. Mamie Harris-Rankin and Miss Katie Bright, of Amarillo, were in Plainview Wednesday en route to Lockney for a recital. It will be remembered that Mrs. Rankin sang here during the holidays, under the auspices of the Y. M. B. L.

D. E. Kelly, of Abernathy, was a business visitor in Plainview yesterday.

Mrs. Frank Barrow and Mrs. Will Smith are visiting with relatives in Hereford.

Mr. and Mrs. O. M. Unger have returned from an extended visit in Northern states.

RESOLUTIONS OF RESPECT.

Plainview, Texas, January 24, 1917.

WHEREAS the Director of all things has seen fit to take from us our esteemed friend and associate, Judge J. E. Lancaster, and

WHEREAS Judge Lancaster served this institution as its first President for a number of years, with entire satisfaction to all concerned, and was at his death an honorary Vice President of said bank, and

WHEREAS his wise counsel, encouraging words and enthusiastic personality will be missed by this institution; therefore be it

RESOLVED that we express our sympathies to the friends and relatives, who mourn his loss, and our regrets on the loss of so valuable and sympathizing associate, and that a copy of this resolution be spread on our Minutes, a copy furnished each of the local papers, and a copy sent to the relatives of deceased.

FOR SALE—A few good single-combed White Leghorn cockrels left. Tom Barron (200-egg strain), from Oak Park Grove, 75c and \$1.00 for next few weeks. MRS. GRACE PILLEY, Olton, Texas. 1t-pd.

Off to Market

Our market buyer, Mr. T. E. Richards, left Wednesday for St. Louis, Cleveland, New York and Chicago. He will be joined by Miss Higgins.

They will spend several weeks shopping for the good new things in

**Ladies Ready-to-Wear
Suits and Dresses
Millinery
Novelties and Notions**

These added to the large stock of staple piece goods which have already been bought from the mills, will give the people of the Plainview trading territory the same buying opportunity as before.

Richards Bros. & Collier
WHERE PEOPLE WHO DRESS BEST TRADE

TO CONFER ON ERADICATION OF CATTLE TICK IN FOUR STATES.

State and Federal Men in Charge of the Work West of the Mississippi to Meet in Dallas on January 29.

WASHINGTON, D. C., Jan. 25.—A four-day conference of the Federal and State men in charge of the campaign of tick eradication west of the Mississippi will be held at the Commercial Club in Dallas, Texas, on January 29 to February 1. Various aspects of the work in Texas, Louisiana, Oklahoma, and Arkansas will be discussed. In addition to the officials of the U. S. Department of Agriculture and the field inspectors who will be present, addresses will be made by E. Pegram Flower, State Veterinarian of Louisiana; D. H. Cunningham, chairman of the Texas Live Stock State Board of Commissioners, and R. M. Gow, State Veterinarian of Arkansas. A similar conference for the territory east of the Mississippi was held in Atlanta, Georgia, January 8 to 12.

These two conferences mark the opening of what, it is believed, will prove to be the most successful year in tick eradication since the campaign began, in 1906. In the last three years the tick has been eliminated in approximately 110,000 square miles, and this large area has been released from quarantine. A little over 400,000 square miles now remain infested. Popular appreciation, however, of the benefits of tick eradication is increasing to such an extent that more rapid progress is anticipated in the future than has been possible hitherto. That the necessity for tick eradication is now thoroughly

realized is indicated by the passage of legislation in Louisiana and Mississippi making the elimination of the tick a State instead of a county matter.

At the Dallas conference the Federal inspectors in charge in each State will discuss systematic tick eradication in Texas, Oklahoma, Arkansas, and Louisiana. In addition, the problem as a whole will be discussed by officials from headquarters, in Washington.

AT THE PRESBYTERIAN CHURCH.

Rev. T. B. Haynie, pastor of the First Presbyterian Church, requests announcement of the services for Sunday. The usual Sunday School exercises will be held at the Court House at 9:45 o'clock Sunday morning. At the eleven o'clock hour, and again at 7:30, Rev. Haynie will preach at the Christian Church, in the absence of the pastor. Rev. Henry Hagemeyer, who will be away from the city, being now at Washachie to attend the funeral of Judge J. E. Lancaster, who was a member of his congregation.

FARM PRODUCTS OF U. S. IN 1916 WERE WORTH \$13,449,000,000.

WASHINGTON, D. C., Jan. 22.—By far the largest gross value of farm production in this country was reached in 1916, according to estimates made by the U. S. Department of Agriculture. The total of crops and animal products was \$13,449,000,000, an increase of \$2,674,000,000 over the total of 1915, which was itself a high-water mark. The mere increase is greater than the census gross value of farm production in 1889, and is nearly as large as the census crop value of 1899. The increase of 1916 over 1914 was \$3,554,000,000. The gross value of arm production is the gross value of farm production is the total of crops and animal products, and takes no account of the use of a product as a material for other production; nor are any costs of production subtracted. Consequently, the value of gross production should be regarded as an index number, and not as so many net dollars put into the farmer's pocket.

The value of the net product of wealth on farms has never been determined, and can not now be estimated. The items for the estimated years are expressed in gross value, and are made to conform to the census plan so as to be comparable with those for the census years.

If the gross value of the census farm production of 1899 is represented by 100, the value for 1879 was 46.9; for 1889, 52.2; for 1909, 181.4; for 1914, 209.8; for 1915, 228.4; and for 1916, 285.1.

In the subdivision of the value of gross production into its two main elements, crops and animal products, it appears that the total estimated crop value in 1916 was \$9,111,000,000, an amount greater than the sum of the estimated values of crops and of animal products for any year previous to 1912, greater than the total estimated crop value of 1915 by \$2,204,000,000, and of 1914 by \$2,999,000,000.

The total estimated value of animal products in 1916 was \$4,338,000,000, or more than double the value for 1914, which was the highest amount to that time. It was greater than the estimated value of animal products in 1915 by \$470,000,000, and of 1914 by \$555,000,000.

Compared with the value of farm crops in 1899, represented by 100, the crop value for 1909 was 183.0; for 1914, 203.9; for 1915, 230.3; and for 1916, 303.8. A similar comparison for animal products results in a percentage of 178.7 for 1909; 220.2 for 1914;

225.1 for 1915; and 252.5 for 1916. The crop value for 1916 increased over that of 1889 by 203.8 per cent; of 1909, by 66.0 per cent; of 1914, by 49.0 per cent; and of 1915 by 31.9 per cent. The value of animal products increased in 1916 over 1899 by 152.5 per cent; over 1909 by 41.3 per cent; over 1914 by 14.7 per cent; and over 1915 by 12.2 per cent.

From 1908 to 1914, the total crop value, as a fraction of the value of total gross farm production, declined from 64.6 to 61.8 per cent. In 1915, on the contrary, this tendency was not only arrested but was sharply reversed, and the crop value then became 64.1 per cent of the total of crops and animal products, followed by another sharp advance to 67.7 per cent in 1916.

Four crops have each exceeded a billion dollars in value at the farm in 1916. The estimate for corn is \$2,296,000,000; cotton lint, based on gross weight, \$1,122,000,000; cotton crop, including lint and seed, \$1,406,000,000; hay, tame and wild, \$1,162,000,000; wheat, \$1,026,000,000. Other crops that each exceed a hundred million dollars are, oats, \$556,000,000; potatoes, \$417,000,000; farm wood-lot products, \$221,000,000; apples, \$186,000,000; tobacco, \$169,000,000; barley, \$160,000,000.

The level of prices paid to producers for the principal crops, December 1, 1916, was about 55.9 per cent higher than a year previous, 52.9 per cent higher than two years before, and 52.8 per cent higher than the average of the previous eight years on December 1. The year 1916 was one of comparatively low crop production, but the prices and values of most of the crops were extraordinarily high.

GONE TO BE WITH GOD AND THE ANGELS.

John William, the three-year-old son of Mr. and Mrs. W. C. Buntin, fell asleep in Jesus on January 13, 1917. He was a loving and loved child, and leaves the home and the hearts he blessed sweet with the lingering fragrance of his precious memory.

He is not dead, but sleepeth, and when Jesus comes He will bring with Him those we loved. He is not lost, but gone before. Heaven is a better place than earth. He is safe in the keeping of God and the associations of the angels.

It was the "Man of Galilee" who said "Suffer the little to come unto me, and forbid them not, for of such is the kingdom of heaven."

Surely the Omniscient Husbandman knows: when His immortal grapes are purple and when His corn is in the ear. He gathers each spiritual growth as it comes into ripeness for His glorious use.

"It must be sweet in childhood to give back the spirit to its Maker e'er the heart has grown familiar with the paths of sin." Precious in the sight of the Lord is the death of the little children, and by and by we shall know His blessed will and share His blessed fellowship with those who have outstripped us and are saved and safe in the kingdom of Heaven.

"Millions of infant souls compose the family above." It's a great and gracious honor to the father and mother of a glorified child. We cannot call the child back, but we can do something infinitely better; we can go to him and be with him forevermore.

May the sorrowing father and mother be able to say with the Prince of Uz, "The Lord gave and the Lord hath

taken away; blessed be the name of the Lord."

Plant at his grave some box or vine, something that will live in winter and be a verdant offering to his memory, for he lives in the land of eternal sunshine and love.

To God and the word of His grace we commend these sorrowing parents, together with all who love our Lord, with the assurance that He is able to keep, comfort, and some glad day reunite us with our loved ones who have fallen on sleep in the Lord of Life.

W. M. P. RIPPEY.

CARD OF THANKS.

We are thankful for the sympathy and ministrations of many kind friends and for the many floral tributes at the time of the death and funeral of CHAS. E. McCLELLAND. MRS. M. J. McCLELLAND AND FAMILY. MR. AND MRS. HUGH McCLELLAND. MR. AND MRS. A. M. LYCAN.

Build You a Home

Plainview Lumber Co.

TOMORROW OR MONDAY

WE WILL HAVE A GARLOAD OF THE NEW OVERLAND MODELS

Country Club Sport Model Small Cars and Coupes and Sedans

These popular models will be taken up in a few days and we don't know just when we can get others so it will be to your best interest if you are in the market for a car to see these pretty soon.

Country-Club
4 Passenger

\$695

F. O. B. TOLEDO

Including 5 Wire Wheels

Here is a new kind of car.

It is inexpensive and economical, mechanically right and is the last word in style.

It is the one low-priced car which will immediately suggest itself to you as the appropriate setting for youth and beauty smartly attired.

It is the one car in the inexpensive, economical class with which you instinctively associate people of real cultivation and distinction.

Its seating arrangement is quite unusual.

The Only Smart Sport Model in the Small Car Class

In front are two comfortable chairs with ample passage-way between and both are adjustable forward or back to suit the reach of the driver and his companion.

There is also a roomy, comfortable rear seat for two.

Four large people can ride sociably in real comfort.

In many instances the Country Club will be used as a sport model by people who also

have heavy, large cars and are accustomed to easy riding.

Special care has been taken to make the Country Club a smooth, easy riding car.

It has large four-inch tires and cantilever rear springs which absorb the road shocks.

It is a speedy little car and rides so smoothly that its speed may be used with comfort.

It has a powerful motor which

is so economical that twenty to twenty-five miles to a gallon of gas is quite usual.

And it is a perfect beauty.

The body of the car is a rich grey, the trim is black enamel relieved by an occasional flash of nickel.

Red wire wheels give just the right dash of brilliant color.

The long grained upholstery and mohair top are grey to tone in with the body color.

Every convenience is provided and it is so simple to handle that a young girl can drive it with perfect ease.

Like many another you have probably been hoping for someone to bring out such a car.

It has found a waiting market ready to absorb thousands more than we can build in a long time to come.

See the Overland dealer and place your order at once if you want an early delivery.

PARAFFIN FOR GASOLINE.

It Is Said That This Can Be Substituted Without Alteration to Engine or Carbureter.

A thousand years ago the scientists sought how to turn the baser metals into gold. Today, with no less zeal, but with a chance of success, is the scientific world searching for a cheap substitute for gasoline for use in automobiles and other gas engines.

A device has recently been invented, according to the Electrical World, by F. A. Wilkinson, an Englishman, whereby motor car and internal-combustion engines used for driving electric-lighting plants and other purposes designed for running on gasoline can be run entirely on paraffin without alteration to the engine or carbureter.

Wilkinson's "by-pass paraffin attachment" is inexpensive and can be fitted up in a very short time, and the engine can be instantly converted to run on paraffin or petrol by simply opening or closing a valve. In order to vaporize the paraffin to enable a start to be made from cold, an electrical heater is provided.

After the engine has started, the paraffin and air passing from the carbureter are heated by introducing a small percentage of the exhaust gases direct into the inlet pipe, which, mingling with the paraffin and air, enter the cylinders for a second time.

When the attachment is fitted to a motor car the two valves used are controlled from the dashboard by means of steel wires run in brass tubes, but in the case of a stationary engine the dashboard controls can be dispensed with. For controlling the electrical heater a switch and pilot lamp are provided.

HINTS TO THE CAR OWNER.

One of the many mistakes which beginners frequently commit is to rest the feet on clutch and brake pedals. It wears out clutch collar, making it noisy, and may cause brake to drag, wearing it also. The best position is to have both feet near the pedals ready for instant use.

You probably keep track of tire mileage, but do you keep track of valve mileage also? Your valves should be ground in at least every 1,000 miles, although some people let them run to 1,500. At that time they will be found to be so badly pitted that it will be a long job grinding them. Grind one a week or so, and it will not seem such a terrible job, unless the head must be

removed to take out the valves, when all must be ground at once.

Most people neglect the tires, because they are apt to get their hands soiled. Go over the treads carefully from time to time, digging out small stones and filling the cuts with tire putty. You will be surprised at the increased mileage you will get.

Now is the time of year to go over the top carefully, looking for weak spots or holes. You can get patches from your supply dealer that match the color of the top very closely.

Another cold-weather suggestion is to avoid frozen ruts as much as possible. They chafe the tire on the sides, where it is not very well protected. So keep out of them as much as possible.

CAR'S FUEL CONSUMPTION SHOWN BY SPECIAL GAUGE.

An automobile salesman in Los Angeles has constructed a device which enables him to show conclusively just the amount of fuel his car will use in a given distance. It consists of a one-half-gallon gasoline tank and a glass gauge, which are attached near the windshield, in full view of the passengers, and connected with the carburetor, into which the fuel feeds directly. The salesman claims that the make of car he sells will travel 18 miles on a gallon of gasoline. To prove this he has marked off the gauge into nine equal parts, each equivalent to a mile of travel, according to his claim. By comparing the gauge with the distance covered, anyone can ascertain if the fuel consumption of the car is as stated.—From the February Popular Mechanics Magazine.

CALL OF SOUTH TO MOTORISTS.

Between the North and the South the road shuttle is more active than ever before in the history of the Nation, according to the figures which are daily being tabulated by the A. A. A. national touring bureaus in Washington and New York City.

Florida is the principal Southern objective at this time of the year, for highway stride to such an extent that the fact is commanding widespread attention. In fact, the entire Southland is feeling the effect of the recently established Federal roads co-operation with the several States, and from the accumulating State systems are emerging the trunk routes, which must ac-

cept a growing quantity of freight tonnage and passenger traffic.

It is safe to say that every forthcoming State Legislature in some form or another will consider the twin subjects of roads and self-propelled vehicles. One phase of the situation is the practically unanimous desire on the part of all States to establish travelable connections with adjoining States, for it is now realized that commerce and social relations do not stop short at State boundaries.

COLORADO SHALE WILL YIELD VAST SUPPLY OF OIL.

Twenty billion barrels of crude oil and 2,000,000,000 barrels of gasoline is the estimated yield from Colorado shale beds, according to the United States Geological Survey. In anticipation of the day when, on account of the advancing cost of gasoline and other products obtained from petroleum, it might be found commercially profitable to utilize some of the enormous supply of petroleum to be derived from the distillation of the vast deposits of so-called hydro-carbon shales of the Green River formation of Northwestern Colorado and Northeastern Utah, the United States Geological Survey has for three years been making field investigations of these deposits.

The examinations have been accompanied by mapping of the areas of hydro-carbon shales and by such field measurements of the thickness of the shales in workable beds and such rude field distillation tests as will afford primary information concerning the amount and richness of the shales in different parts of the region.

Very rough but cautious calculations of the contents of the shale in parts of the area examined indicate that the distillation of shale from beds over three feet thick in Colorado alone will yield more than 20,000,000,000 barrels of crude oil, from which more than 2,000,000,000 barrels of gasoline can be extracted by ordinary methods. A report giving the results of these explorations and tests and an account of experiments as to possible gasoline production, both by the ordinary commercial processes and by the Rittman process, is now in press.

Use White Crest Flour

You cannot read any paper without seeing something about the "HIGH COST OF LIVING".

HERE IS ONE WAY TO HELP

Use White Crest Flour Why?

Any baker will tell you that a pure soft wheat flour requires less lard than a straight hard wheat flour, or a blended flour. White Crest is a PURE SOFT WHEAT FLOUR and you can save from one-third to one-half of the lard by using WHITE CREST instead of a hard wheat or blended flour, in making biscuits or pastry cooking; besides you will have better biscuits and pastry than can possibly be made with other flour. Lard is high and indications are it will be still higher. We honestly believe that you will save at least 50c on each sack of WHITE CREST in the lard used.

If you use as much lard with WHITE CREST as you HAVE TO USE in a hard wheat or blended flour your biscuits will not be good. USE LESS LARD WITH WHITE CREST FLOUR, have better biscuits and you cannot help but see the difference in cost.

White Crest sells for a little more but in the end you pay dearly for the cheaper flour in the quantity of lard; you have to use much more than the difference in cost of flour. Keep tab on your lard can and see what your flour costs you, ready for the table.

Phones 8 and 9

Eight Carloads of Buicks

Tuesday We Received Six Carloads of Buicks, Sixes and Fours, And Two More Carloads Will Arrive by this End of the Week

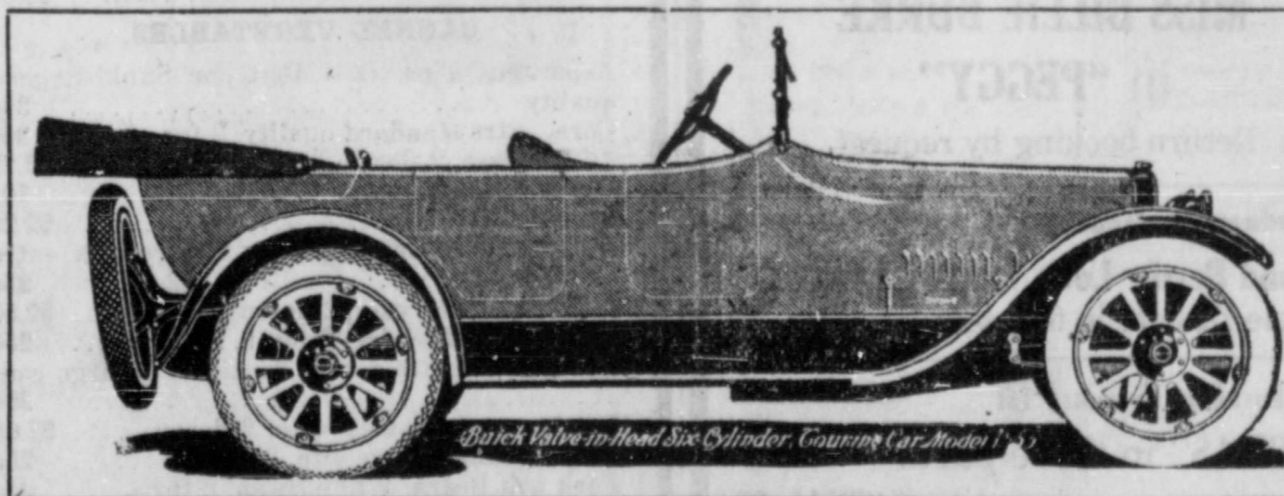

Most of this big shipment had been previously sold, but there are cars enough ready for delivery for those who have decided upon the supremacy of the Buick. They can't last long for the demand has been too great; so it will be well for you to get busy at once.

A rose, as the poet argued, might retain its fragrance under another name, but that does not apply in the manufacture and sale of motor cars.

The name of a motor car must be won. The name, before it possesses value, must stand for a definite achievement. It must, in one word, convey a story of the combined and successful effort of thousands of men over a long period of years.

On each Buick radiator there is the word Buick. Just a piece of common, ordinary metal stamped out and then enameled. In itself, nothing; in its significance, everything.

For that one word exemplifies the long sustained efforts of the ablest automobile engineers in the world. It calls to mind a picture of master artists bent to a task which demanded, and received, the very best of their skilled and intelligent craftsmanship. It is a condensed history of an idea and an ideal that grew slowly and surely until they became worldwide in popularity, and in the acceptance of their correctness. That one word typifies a factory that had its beginning in a shed, and which now ranks with the largest and best manned and equipped among all the manufacturing establishments in the world.

Buick Valve-in-Head Six Cylinder, Touring Car Model 1920

It is a name that means something, and which always has meant something, for otherwise it would be valueless. A modern Midas, come to buy the Buick business, would pay millions for the physical property which he could not duplicate for less; but for the Buick name—for the right to use on another product that one word found on all Buick radiators—he would have to subtract from his wealth a staggering

multiplication of those millions.

The Buick name is a synonym to motortists all over the world for absolute correctness in design; for complete accuracy and efficiency in manufacturing methods, and for solid integrity in these and all other myriad ramifications of the great Buick business.

To those of you who are thinking of buying a motor car the Buick name means all these things and more. It means a guarantee of greater value for the dollars you are about to invest than you can find elsewhere. It is an assurance of all the fine motoring attributes with which you are familiar, either from experience or hearsay. It is a promise to you of all and more than you have ever expected in a motor car—a promise that has been made to more than a quarter of a million buyers, and never once broken.

WEEDS MEAN WASTE.

Cost Farmers of United States \$300,000,000 Annually, According to Government Estimate.

By PROF. P. G. HOLDEN.

Weeds mean wasted labor. It is estimated that a man walks eight miles in plowing an acre once over. Multiply this by harrowing, cross harrowing and cultivating two or three times, and in the end figure that all this labor has been given to the production of a crop which is only two-thirds as large as it would have been if it had not been choked by weeds. Weeds cut down the yield, damage the crop, cheapen the product, reduce the profits, rob the soil, injure stock, reduce land values. Weeds cost the farmers of the United States more than \$300,000,000, according to Government estimates. There is great loss from leakage of grain from weed seed.

Lower Land Values.

A weedy farm is high at any price. Land must return interest on investment.

Profits are dependent on what is left after paying production cost.

If land produces only enough to pay interest and labor, we will soon go out of business.

The weed which is best able to cope with difficulties is the weed which survives. Weeds are abundant seeders.

A single plant of shepherd's purse may produce as many as 50,000 seeds; squirrel tail produces 300 to 2,000; plantain may bear 3,000 per plant; fox-tail, from 1,000 to 5,000 seeds; stinkweed, 200,000 seeds; Russian thistle, from 100,000 to 200,000 seeds; one mustard plant, one and one-half million seeds, and so on. Compare these prolific soil robbers with our food producing plants.

Some of the Bad Weeds.

But there are other weeds—milkweed, smartweed, Spanish needle, mustard, peppermint, lansy, poison hemlock, jimson, morning glory, ragweed, velvet leaf, purslane, quack grass, wild garlic, Canada thistle, ox-eye daisy, bindweed, orange hawkweed, Johnson grass, sorrel, wild oats and fifty others that are common in every State.

Weed seeds are spread chiefly by man sowing impure seed; by scattering weed seeds in feeding hay, straw, screenings and in manure; by winds, water and snow; by animals and birds; by farm machines and railroads; by weeds allowed to flourish in waste places.

Weed Remedies.

The problem is how to get rid of weeds and keep them out.

First, rotate the crops; screen all seed; cultivate frequently and thoroughly; cut the weeds before they go to seed; use another crop; pasture with sheep, and, finally, keep everlastingly after them.

If your wheat field is weedy, seed it to clover and blue grass; mow the annuals and biennials before they seed; pasture with sheep or hogs, to keep down the perennials; follow by a cultivated crop, to kill any lingering weeds, and you will have disposed of most varieties.

A bunch of goats or sheep will clean up the weeds at a profit to the farmer. To allow land to go to waste is an economic crime.

Use it! Farm it! Grow foodstuffs, not weeds!

JANUARY POULTRY NOTES.

By F. W. KAZMEIER, Poultry Husbandman, Extension Service, A. and M. College of Texas.

If you have not already done so, be sure to set some eggs, either under a hen or in an incubator. All varieties of poultry require from 6 to 9 months to mature for steady egg production. Unless mature, no method of feeding will make them lay.

Now is the time to make your start with pure-bred poultry. A few dollars invested in eggs or stock at this time of the year can not fail to prove a profitable investment. Pure-bred stock is more profitable than scrub stock.

Now is the time to plan for increasing the size of your poultry flock. Do not let the high price of feed (which you should raise on your own farm), frighten you. Eggs and poultry will be high again next year.

Poultry is one of the most profitable things you can have on your farm. If you stop to figure just a minute you will find that we have an average of 23 hens on the farms in Texas. They produce an average farm-poultry income of \$35.00. They are not more profitable, because the average Texas hen is forced to shift for herself and steal her maintenance. This is the truth. The average Texas farmer despises small things, and in this makes a BIG mistake.

In California, the average farm income from poultry is \$256.43, or more than \$200 more per farm than the average farm-poultry income in Texas. This extra \$200 would and could do wonders for Texas homes, Texas fam-

life, and Texas agriculture.

It certainly will pay every Texas farmer to increase his flock of poultry, and right now is the time to do it. Make plans for raising at least 125 good pullets. Next fall cull out 25 of them and give the other 100 a chance to prove to you that a farm flock of chickens is not a necessary evil.

This is not a sermon in behalf of a Texas hen, but I do wish to say that she is not given a square deal. She is not given a fair chance. If you do not think much of her, allow your wife, boy or girl a chance to make some money by giving the farm poultry flock adequate care and attention.

Every Texas farmer can well afford to give the matter of hatching and raising chickens serious thought during the next few months.

DIRECTIONS FOR FEEDING CALVES.

By J. W. RIDGWAY, Professor of Dairy Husbandry, A. and M. College of Texas.

1. After the calf has sucked about twice or three times, take it away from its mother, but feed it its mother's milk at the rate of 3 pounds, or 3 pints, at a feed twice daily. It is important that these feedings be as nearly as possible at the same time each day.

2. Mother's milk should be fed until the calf is a week or ten days old, at which time some other cow's milk can be substituted, if desired. A good plan is to select one cow (or two cows, if necessary) and designate her as a "calf cow," and use her milk for feeding calves. For this purpose, cows with milk not so rich in fat are preferred. Don't change your "calf cows" from day to day, as trouble is sure to follow.

3. If a calf is a large, thrifty fellow, his milk can be increased to 4 pounds at a feed when ten days old. But your judgment in this should be used.

4. When a calf is 3 or 4 weeks old, begin the change from whole to skim milk. This change should require about a week, and can best be accomplished by substituting 1/2 pound of skim milk for 1/2 pound whole milk at each feed. At this time the calf will begin to take a little grain, and by rubbing a little on the muzzle after he drinks milk he will soon learn to eat. This grain should be a mixture of 2 parts ground maize and 1 part wheat bran. NEVER feed any cotton-seed meal to your calves.

5. The skim milk can be increased as follows:

4 pounds at a feed when 5 weeks of age.

5 pounds at a feed when 7 weeks of age.

6 pounds at a feed when 9 weeks of age.

7 pounds at a feed when 10 weeks of age.

8 pounds at a feed when 12 weeks of age.

Feed all the grain that they will clean up well.

LAKE OF ASPHALT.

Is Believed That Trinidad Deposit Due to Petroleum Oil's Mixing With Clay Underground.

The asphalt found in the well known pitch lakes in the Island of Trinidad, British West Indies, is supposed to have been formed from petroleum oil's becoming mixed with clay of a considerable distance from the surface, says Metallurgical and Chemical Engineering.

The deposit lies in a bowl-like depression, evidently the crater of an old mud spring or volcano, covering a superficial area of about 114 acres and having a depth of more than 135 feet, as shown by a boring made with a wash drill. The boring was necessarily discontinued at this depth, as, owing to the movement of the pitch, the pipe so far departed from the perpendicular as to prevent further work. This movement is due to the evolution of gas on the release of pressure, to which it has been subjected, on reaching the surface, which is an original component of the petroleum as it is found in the oil "sand." The entire surface of the deposit is in constant motion. It is sufficiently solid to permit of driving a horse and cart over it, and to support, with constant attention, a railroad track for gathering and shipping the asphalt. From its form and environment it is known as a lake. It lies about half a mile from the sea, at an elevation of 138 feet above it.

GOOD ROADS ARGUMENT.

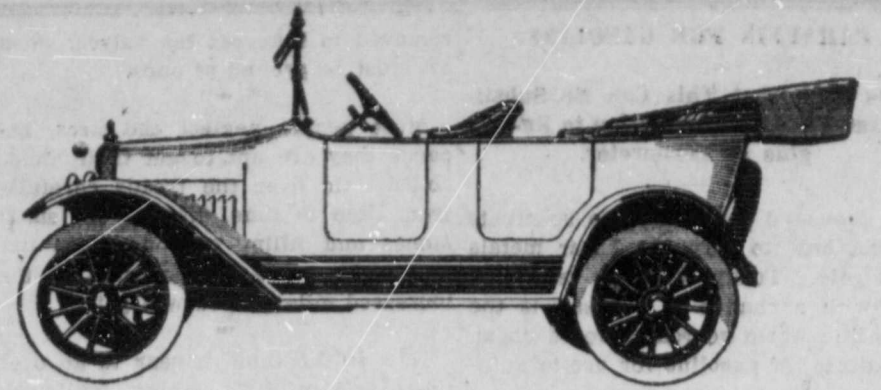

Most arguments for road improvements as an aid in transporting farm products are based on hauling grain, cotton, timber, and other heavy materials, says the American Highway Association. There is another class which is important in some sections that which attention was recently drawn by Fred W. Davis, Commissioner of Agriculture of Texas. This is the class of perishable products, which it is very important to deliver in good condition at the shipping station.

Many shipments have been rejected by consignees for bad condition, started while hauling the produce over rough roads. Such rejections are usually ascribed to the crookedness of the commission merchant, but Mr. Davis says he has observed tomatoes and other product loaded into cars in such damaged condition that they could not possibly be accepted at their destination. As a remedy in a poor-roads district, many farmers fit their wagons with springs, which reduce their capacity, and in this way incur an expense to overcome the bad conditions which would go far toward paying the taxes needed for good roads.

STRAYED from our place 3 1/2 miles southwest from Plainview, one red cow, medium size. Reasonable reward for return or information. COLLIER BROS., at Rich-lier Store. 2t.

KANSAS CITY STOCK
MARKET IN DETAIL.

KANSAS CITY STOCK YARDS,
Jan. 22.—Cattle receipts were light
after Tuesday last week, and prices
closed the week stronger on all kinds.
Receipts were 13,000 today, and prices
steady to strong, nothing choice here,
top \$10.75. Hogs gained 25 to 35 cents
last week, steady today, top \$11.05, re-
ceipts 13,500. Sheep and lambs sold
steady at the advance made last week,
lambs \$14.10, ewes \$10.20, receipts, 11,
000.

Beef Cattle.
Prime steers were lacking today,
and commission men say that kind is
going to show some speed in the near
future. The best here today brought
\$10.80, pretty good pulp-fed steers at
\$10.40 and \$10.50. Short-fed and
warmed-up cattle sold at \$9.00 to
\$10.00, including some pulpers at
\$9.75, with part of a load out at \$8.75.
Cows had less pep today, but did not
lose anything, best heavy ones up to
\$9.00, canners \$5.25 to \$5.85, veals
\$6.50 to \$8.75, heifers up to \$10.75, bull
calves up to \$12.00. A good many cat-
tle have gone on feed in the last six
weeks, and commission men say the
run of short-fed and warmed-up steers
may be fairly liberal, with some slump
in the price.

Stockers and Feeders.
Feeders continue to get the strong-
est call, sales of regular feeders main-
ly from \$8.00 to \$9.00, and frequently
above \$9.00, up to \$9.50, with weighty
fleshy steers for a short feed up to
\$10.45 last week. Stock steers find a
ready outlet, at \$7.00 to \$8.50, a few
cattle under \$7.00, and fancy ones
above \$8.50, some good, red, 700-pound
steers this morning at \$7.50, called a
dime lower than last week. Cows and
heifers sell at \$5.35 to \$7.50 fancy-bred
stock heifers last week up to \$8.75.

Hogs.
Receipts continue to run slightly
less than corresponding time a year
ago, and the market grows stronger,
up 25 to 30 cents last week. Quality
is better, and range of sales is getting
pretty narrow, bulk today \$10.75 to
\$11.00, best heavies \$11.05. A feature
today was a car of 213-pound pea-fed
Colored hogs at \$11.00, only a nickel
under the top, and four loads of same
class at \$10.70, 197 pounds. Light
hogs sold up to \$10.55. Actions of
buyers denote that they need hogs, al-
though stocks of meat are greater than
at this time last year. Increase of
average weights signifies that owners
are not rushing their hogs to market,
but there is doubtless a disposition to
ship as soon as a decent finish has
been reached.

Sheep and Lambs.
Regular advances followed each
other from day to day last week, and
prices are about steady today, at the
extreme top reached, \$14.10 paid for
lambs, \$10.20 for ewes, \$10.25 for
wethers. Pea-fed lambs lacking a de-
gree of finish sold at \$13.75 to \$13.95,
and feeding lambs bring up to \$13.50.

Receipts are moderate on the whole,
the Northern feed lots not having
started to market in any degree as yet.

This is the
Stove Polish
YOU
Should Use
It's different from
others because more care
is taken in the making
and the materials used are of
higher grade.
Black Silk Stove Polish
Makes a brilliant, silky polish that does
not rub off or dust off, and the shined
four times as long as ordinary stove
polish. Used on simple stoves and sold
by hardware and grocery dealers.
All we ask is a trial. Use it on your cook stove,
your parlor stove or your gas range. If you
don't find it the best stove polish you ever
used, your dealer is authorized to refund your
money. Insist on Black Silk Stove Polish.
Made in liquid or paste—one quality.
Black Silk Stove Polish Works
Sterling, Illinois
Use Black Silk Air-Drying Iron Enamel on
grates, registers, stove-pipes—Prevents rusting.
Use Black Silk Metal Polish for silver, nickel
or brass. It has no equal for even automobiles.

EVER SALVATED BY
CALOMEL? HORRIBLE!
Calomel is Quicksilver and Acts Like
Dynamite on Your
Liver.
Calomel loses you a day! You know
what calomel is. It's mercury; quick-
silver. Calomel is dangerous. It
crashes into sour bile like dynamite,
cramping and sickening you. Calomel
attacks the bones, and should never be
put into your system.
When you feel bilious, sluggish, con-
stipated and all knocked out and be-
lieve you need a dose of dangerous
calomel, just remember that your drug-
gist sells for 50 cents a large bottle of
perfectly harmless and doesn't gripe.
Dodson's Liver Tone, which is entirely
vegetable and pleasant to take and is
a perfect substitute for calomel. It
is guaranteed to start your liver with-
out stirring up your inside, and can
no salivate.
Don't take calomel! It makes you
sick the next day; it loses you a day's
work. Dodson's Liver Tone straight-
ens you right up and you feel great.

Cold Days Require Coal
Why is it that some folks always delay their coal buying and the
installing of their stoves until the last minute when every member of
the family has run the risk of serious cold or pneumonia and until all
of the coal and stove dealers are so busy they cannot give the best
service? Surely the wise man will not be caught in a blizzard with his
coal supply not yet laid in.
We have the supply of coal, we have the prompt service, and the
prices are lower now than they will be when winter gets here. Isn't it
good health insurance, isn't it good business, isn't it the sensible thing
to do to place your order now?
Just phone us at 162 and we will do the rest.

- Have six-section ranch just north of Tulla; near railroad. Good colonization proposition.

J. J. LASH.

WICHITA MARKET PAYS \$11.25 TOP FOR HOGS.

Healy & Co.'s report of the Wichita, Kansas, market follows:

The supply of fed cattle was very light on the local market the first two days of this week, and all classes of killing cattle sold fully steady.

Choice fed steers	\$10.00 to \$10.50
Good fed steers	9.00 to 10.00
Short-fed steers	8.25 to 9.00
Choice dogsies and lightweights	8.25 to 9.00
Short-fed lightweights	7.50 to 8.25
Choice fed bulls	7.00 to 7.50
Good fed bulls	6.50 to 7.00
Plain bologna bulls	5.50 to 6.25
Choice heavy cows	7.00 to 7.75
Good heavy cows	6.50 to 7.00
Medium butcher cows	6.00 to 6.50
Canners and cutters	5.00 to 5.75
Choice fed lightweight heifers	8.00 to 10.00
Choice fed heavyweight heifers	7.50 to 8.50
Medium grass heifers	6.75 to 7.50
Veals	10.00 to 11.00
Heavy calves	7.50 to 8.50

Owing to the small number of cattle on feed in this territory, we look for light receipts of butcher stuff at this point the balance of the season; in fact, our packers are not getting enough cattle at the present time to keep their plants supplied. We believe all classes of fed stuff will meet with a ready demand here during the next ninety days, and think shippers can well afford to come here with their killing cattle.

The country demand in the stocker and feeder division ran largely for choice Panhandles, good, fleshy 900- to 1,100-pound native feeders, and all kinds of stock cows and heifers. Among sales made here were two cars of choice, fleshy 900-pound Hereford feeders at \$9.00, a string of good, fleshy 1,000-pound native feeders at \$8.25, several shipments of good-quality Panhandle yearlings and twos from \$8.00 to \$8.40. The demand at this point for all classes of stock cattle has shown improvement during the last two weeks, and we look for a better market as the grass season draws nearer.

Choice native 900- to 1,100-pound steers	\$7.75 to \$8.50
Medium native 900- to 1,100-pound steers	7.50 to 8.00
Choice native 500- to 800-pound steers	7.25 to 7.75
Medium native 500- to 800-pound steers	7.00 to 7.25
Off-colors and cut-backs	5.00 to 6.50
Good native 450- to 500-pound bulls	6.00 to 6.50
Medium native 450- to 500-pound bulls	5.50 to 6.25
Choice native stock calves	6.75 to 7.50
Medium native stock calves	6.50 to 6.95
Choice lightweight heifers	6.50 to 7.00
Medium lightweight heifers	6.25 to 6.50
Choice heavyweight heifers	6.25 to 6.65
Good lightweight cows	5.85 to 6.35
Good heavyweight cows	5.75 to 6.25

The hog market opened 15c higher this morning, and closed 20c higher, with a top of \$11.25. Bulk of the sales ranged from \$10.75 to \$11.15. Good to choice heavies sold today from \$11.15 to \$11.25; good to choice mediums from \$11.05 to \$11.20; good to choice lights from \$10.95 to \$11.10; fair light mixed from \$10.60 to \$10.95; pigs from \$8.00 to \$9.00, with bulk of the pigs around \$8.50 to \$8.75.

R. C. Boston, of Crosbyton, was in Plainview yesterday on business.

MERGER OF Y. M. B. L. AND CHAMBER OF COMMERCE EFFECTED.

(Continued from Page One.)

Inability to secure cars to carry on the work, and volunteers for the service were requested to report to the survey committee.

J. M. Adams, Rev. I. E. Gates and J. F. Garrison were appointed as a committee to draft resolutions of respect for Judge J. E. Lancaster, who was an active and efficient member of the League.

The committee which has been working on the budget fund for the League is inactive, Mayor W. E. Risher being ill and Mr. Longstreth being away from the city. Judge J. E. Lancaster was an advisory member of the committee. The chairman deferred making appointments of three new members on the committee.

Country Needs Men and Money.

Considerable interest was shown in a discussion of land-rent problems, members lingering after adjournment to discuss the question. W. A. Nash introduced the subject, stating that one of the best steps which could be taken to develop Plainview and the surrounding country would be to open up more land for rent. "Land now being held for speculation should be plowed up and houses erected for tenants," he said. "There are hundreds of people, just as honorable, just as high as we, who haven't a place to call home. Some of them are victims of adversity, and if given a chance will make good. Why, I know men who have come to the South Plains country with only a span of ponies, a colt or two, a wife and a dozen children who now own their homes and are making a comfortable living." He named men with whom he is personally acquainted, to substantiate his statements.

"We need men who will till the soil. The day of holding this country as cow range has passed," he continued. "Plow up the land. Build places for the people to live. They'll come. There are hundreds of them just waiting an opportunity to come out here. Get renters and you'll soon have landlords. We need men and money in this country, and when we get them Plainview will prosper as never before. In the next twelve months we can double the business of this town if we will tackle this problem in the right way and settle up the country with producers.

"Improved farms are worth from one-fourth to one-third more on the market than unimproved places," said Mr. Nash, "and it is a sure-enough money-making proposition, and I believe the non-resident owners should be interested and wish some one would suggest just how it could be done."

The matter of getting in touch with the non-resident property owners and interesting them in developing their property and of probably securing renters for them, was discussed.

"Renting land in this section is not profitable," said H. V. Tull, taking exceptions to the propositions laid down by Mr. Nash. "I have more land than I can farm well, but I will not rent it out. It would lose me money. If a place is improved under the conditions now existing, and is rented, it is generally three or four years before the landlord begins to get any money back from his investment." Mr. Tull stated, however, that with the proper handling of livestock money could be made for the landlord, but discouraged short-term rental contracts for producing only grain or feed.

The meeting was attended by probably as many as fifty persons, and was enthusiastic from beginning to close. The entertainment committee, E. L. Doland, O. E. Brashears and Guy Gibbs, had prepared an excellent light luncheon. The two quartet numbers, by Frank Truesdale, Fred Cousineau, Carl Wells and Jake Burkett, were roundly applauded.

NORFLEET ITEMS.

NORFLEET, Texas, Jan. 24.—Despite the snow and bad weather, our school has not been suspended a day.

Norfleet and Anchor are going to have program and exercises together on Washington's Birthday. If you want to have a nice time, come and join us.

J. F. Norfleet was in Hale Center on business Friday.

Bob St. Clair is hauling cake from Hale Center this week.

Mrs. J. F. Norfleet was a caller at Mrs. L. J. King's Tuesday.

Miss Ruby Lewis motored to Hale Center Saturday.

Mrs. Bronie Hudgins and Messrs. Fritz Hudgins and Murray Payne spent a pleasant night at J. F. Norfleet's Tuesday.

Misses Edna Beeson and Nana White and Messrs. Grover and Forest Sager enjoyed music and forty-two at Mr. Simonton's Tuesday evening.

EXCHANGE the House Furnishings that you don't want for something that you do want. It's an easy swap at W. E. WINFIELD'S. Phone 95. 2t.

BOERHAAVE WAS THE FIRST TO MAKE DIAGNOSIS OF DISEASE.

A clergyman living near Leyden was the father of thirteen children. The eldest, born December 31, 1668, was Herman Boerhaave, accounted by many the most famous physician, not only of the Eighteenth, but probably of any century. He died of gout in 1738.

He was an indefatigable teacher, sometimes lecturing five hours a day to his students at Leyden. He was the first to give separate lectures on ophthalmology (the science of diseases of the eye) and to use a magnifying glass in the examination of the eye. He combined with a desire to study disease at the bedside, a freedom from theoretical and philosophical influence which led him to use the most modern diagnostic apparatus which he could secure. He was so famous that a Chinese official once sent him a letter addressed simply "To the most famous physician in Europe." His maxim was "Simplicity is the seal of truth."

The modern diagnosis of disease aims to employ every method which will reveal the exact mental and physical condition of the patient. Psychoanalysis will reveal the depths of the patient's mind almost as clearly as the X-ray shows the broken bone hidden beneath the body tissues. The pressure of the blood against the vessel walls may be accurately measured and appropriate means taken to ward off an apoplectic attack. The bodily excretions may be analyzed and the efficiency of the excretory organs determined. Special apparatus permits the examination of the eye, the ear, the nose, throat, bronchi, and the interior of the various other parts of the body. Nothing is taken for granted; the blood is examined; the activity of the stomach is estimated; the validity of the nervous system is looked into. The modern physician finds the disease before he treats it.

An accurate diagnosis is of importance to the public health, because an early and correct knowledge of the presence of a disease affords opportunity to prevent its spread. The case of tuberculosis which is found early has an infinitely greater chance of recovery than the one which is found late. Boerhaave recognized these facts, in a general way, and applied them; in fact, according to Rohlf, he was the first who made a chemical examination of some of the bodily excretions.

NEXT DOOR TO REINKEN'S

WHO GOT THE \$5?

Watch next Friday's Herald for the February Calendar, just like every other calendar so far as days and dates are concerned but each day tells a progressive Plainview merchant's store news.

Hang this calendar up in your home and be prepared to tell the Herald man whose advertisement appears on the date he comes to your house.

Who Got the \$5 for January?

Next Friday you will also be told who received the \$5.00 offered during January.

Remember every month during 1917 this calendar will appear in the first issue of the month. Cut it out and hang it up in your home for somebody in Hale county who has it hanging up will receive \$5.00. You don't know who it will be—we don't know just yet but you may be the lucky one if you have the calendar hanging up and can tell the Herald man when he calls whose advertisement appears on the day he comes. There is no way of telling what day he will be there either.

Hang Up the Calendar It May Be Worth \$5.00 to You
