PLAINVIEW, TEXAS, TUESDAY, JUNE 19, 1917

LOCATING BOARD SEES SITE IN HALE COUNTY

LOCAL MEN SHOW VISITORS LAND AND EXPRESS DESIRE FOR A. & M. COLLEGE HERE.

CITIZENS GREET GOVERNOR

State Executive Says Merit Will Determine Place—Raps Dallas News and Texas University.

The gates of Plainview were thrown open and the welcome arch illuminated to the members of the West Texas A. and M. Locating Board yesterday. It was a day of thorough demonstration of a responsive greeting from the citizens of this city and Hale County. It was the culmination of the desire to have the West Texas Agricultural and Mechanical College located here.

Governor Ferguson and the other members of the board were met in Hale Center by the local A. and M. committee and a delegation of citizens and escorted in automobiles over the land in Hale County and the proposed site of the West Texas A. and M. college here. The delegation reached the city about 12:30 o'clock, after a journey of more than 106 miles over the extensive agricultural territory between Hale Center and Plainview.

Upon the arrival of the Locating Board, the members were taken through the residential districts of the city, and various residences were pointed out to them as an indication of the growth, development, character and prosperity of Plainview. The visitors were then taken to the Hotel Ware, where a banquet was held in their honor.

E. H. Perry, secretary of the local A. and M. committee, was introduced by E. Graham, chairman of the local committee and toastmaster at the banquet, to deliver the address of welcome to the visitors.

"Hale County proposes to give 2,000 acres of the best land under the heavens," said Mr. Perry, "for the location of this modern, up-to-date college. It is the presentation of 531 subscribers and is an expression of cosmopolitanism. It is not a gift of a corporation, but a proposition of a whole community, which cherishes the hope and desire that the A. and M. College will be located in Hale County. We do not look upon it really as a gift, but rather as an investment. The 2,000 acres can be put under plow and in no place in the state of Texas can this land be excelled. Every acre will produce any crop that can be grown in the state."

Mr. Perry then explained the transportation facilities of this country and pointed out the prospects of the future development of the railroads and highways here. He tendered the land to the Locating Board with the hope of its acceptance, and in conclusion said, "The people of Hale County hope for and desire the college, but the people will bow to the decision of the board if a better location is found."

M. D. Henderson was called upon by Toastmaster Graham to submit for the consideration of the Locating Board a few facts pertinent to the location of the institution. Mr. Henderson briefly and thoroughly took up the question of population, irrigation, water, soil, stock and a short, descriptive history of Hale County and Plainview.

P. W. Madsen, who is supervising the beet experiments in this county, told about the prospects of the future cultivation of beets in this section of the country. Mr. Madsen pointed out comprehensively the present developments and the possible growth of the beet industry in Hale County.

"After riding 106 miles, after seeing the green fields, after glancing upon the first wheat of maturing age in West Texas, I have come to the conclusion," said Governor Ferguson, after being introduced by Toastmaster Graham, "that if the Locating Board does not determine to locate the college here, it will be because the members believe that the Lord already has been too good to you."

The Governor then spoke a few minutes about the agricultural developments in this state and the wealth in the soil. He explained the productiveness of the man in the West over the productiveness of the man in the New England states.

After the banquet, the members of the board were taken to the Court-house Square, where a multitude of

(Continued on Page Six.)

Girls of National Honor Guard Finish Registration Work

The members of the Girls' National Honor Guard completed their patriotic services of tabulating and checking the registration blanks of Hale County last Saturday. The young women, under the supervision of Miss Lucile Kluder, first lieutenant, and Miss Mildred Farmer, second lieutenant, worked most of the week in making triplicate copies of the 1,119 original registration cards.

County Clerk Jo W. Wayland yesterday morning said that through the service of the young women of the National Honor Guard, Hale County is one of the first in the state to complete the wearisome task.

ELBERT COOPER, EPILEPTIC, IN HANDS OF COUNTY OFFICERS.

Elbert Cooper, a sufferer of epilepsy and at one time an inmate of the Epileptic Asylum at Abilene, was taken in charge by the county officials last Saturday. The officers are of the opinion that Cooper is insane.

MAYOR REQUESTS CHILDREN NOT TO PLAY IN STREETS

City Council Considers Complaints Last Night—Award Street Sprinkling Contract.

Most of the session of the City Council last night was given over to the consideration of complaints filed by the citizens of Plainview in regard to children playing in the streets. Mayor W. E. Risser this morning said that there is a city ordinance against children playing in the streets, and that efforts will be made on the part of the officials to see that it is obeyed, as life is endangered when children play in the streets. He asks for the cooperation of the parents of children in keeping them from playing on the streets.

Will Clubb was granted the contract of sprinkling the streets of Plainview for \$100 a month at the session last night. The Council also gave E. C. Hunter permission to install public scales at Beech Street adjacent to his property. The permission was given on the condition that the scales be installed outside of the sidewalk line.

ESCAPED PRISONERS CAPTURED; BRAGG IS GIVEN HEARING.

Robert D. Bragg, alias Ray Jones, and C. E. Gibson, who escaped from the county jail here about a week ago, enjoy liberty no longer. Bragg was captured in New Mexico and brought to Plainview Sunday evening by Sheriff J. C. Terry. Gibson is being held by the Sheriff at Vega, and will be taken to Tulla, where charges have been filed against him for horse stealing. Later Gibson will be brought here to answer charges filed against him for robbery and breaking jail.

The two escaped prisoners were trailed by Sheriff Terry from a ranch near Runningwater, where the two had stolen a horse, it is reported. It also was learned that Gibson stole another horse near Vega. Both are charged with robbing two houses near Runningwater.

This afternoon Bragg was brought before Justice Earl C. Keck on the charges of breaking into two houses. He was bound over to the next term of court, with bond placed at \$1,000 in each case.

RETAIL MERCHANTS DISCONTINUE MEETINGS FOR SUMMER.

The members of the Retail Merchants' Association have decided to discontinue the regular meetings of the association during the summer months. At the meeting last week, the attendance was practically insufficient to carry on any constructive business. Mrs. W. L. Braddy, secretary of the association, believes that the hot weather has a tendency to keep the members from attending.

WOMEN TO HEAR PLANS FOR RED CROSS UNIT HERE.

The National League for Woman's Service will meet at 4 o'clock Thursday afternoon at the Court House. A Red Cross nurse will give plans for forming an Auxiliary of the Red Cross Society.

EIGHT ELKS HEAR BUGLE CALL EARLY IN MORNINGS

Col. R. P. Smyth and W. J. Klinger Teach Preparedness—Will Organize on Larger Scale.

Every Monday, Wednesday and Friday mornings, eight members of the Elks' Lodge under the leadership of W. J. Klinger and Col. R. P. Smyth, go through military exercise and drill in preparation to serve the country when the bugle calls the American's young men to the battlefield. This company of patriotic citizens of Plainview assemble at 6 o'clock in the morning, spend fifteen minutes in setting up exercises and thirty minutes in regulation drill.

Mr. Klinger yesterday stated that efforts are now being made to enlist the persons in Plainview who are not members of the Elks' Lodge to join the volunteer ranks of preparedness. He says that the men who have been drilling the last few weeks are efficient enough now to take charge of squads and teach them the fundamental principles of military life.

Those who are interested in the movement are requested to get into communication with Mr. Klinger or Colonel Smyth, and as soon as an adequate number of members are obtained, arrangements will be made to carry out the principles of preparedness on an extensive scale. Mr. Klinger advises those persons subject to the conscription law to take up the work, as it will be beneficial in making them American soldiers, if they happen to be called next September.

GIRLS' NATIONAL HONOR GUARD IN SESSION AT WICHITA FALLS.

The Girls' National Honor Guard is in session at Wichita Falls this week. First aid demonstration will be the feature of the conference, and certificates will be awarded to those who qualify. The members of the local organization who are attending are as follows: Misses Marie Gidney, Daisy Gidney, Jennie Humphreys, Adeline Irick, Mrs. Mae Kinder Smith, Sycele Roberts, Mildred Farmer, Lucille Kinder, Loretta Garrison, Zona Garrison.

33 Cars of Stock Are Shipped From Hale County in Two Days

Hale County shipped to the livestock markets from Plainview, Hale Center and Alken on Friday and Saturday of last week thirty-three carloads of livestock.

On Friday Hooper & Anderson consigned one car of cattle to Kansas City, J. B. Ross two cars of cattle to Kansas City, A. Van Howeling two cars of cattle to the same market and G. W. Lowellen two cars of cattle to the Kansas City market. Jim Phillips shipped seven cars of cattle from Hale Center to Kansas City the same day. All shipments were of market stuff.

A. C. Clements shipped twelve cars of stock cattle to Grand Summit, Kans., on Friday. Other shipments that day were: Alex Anderson, one car market cattle to Kansas City; N. F. Bell, one car market cattle to Kansas City; Reeves & Long, one car of market cattle to Kansas City; A. L. White, one car of hogs to Fort Worth. Three cars of hogs went from Alken on Saturday consigned to Fort Worth by the Bettie Cattle Company.

W. Evans, a representative of the Dallas News, was in Plainview yesterday with the West Texas A. and M. Locating Board.

PLAINVIEW TO HAVE NEW SEWAGE-DISPOSAL PLANT

Structure Will Cost Between \$4,000 and \$5,000—R. G. Carraway Is Placed in Supervision.

Plainview is to have a new sewage-disposal plant. This was determined upon by the City Council at the last meeting, and work started on the construction of the plant yesterday morning. The erection of the plant will be under the supervision of R. G. Carraway and the plans of Henry E. Elrod, consulting engineer for the city, will be used.

The cost of the new construction is estimated between \$4,000 and \$5,000, and will be constructed of concrete and cast-iron. Mr. Carraway believes by using these two materials the city will be certain in having a plant that will not deteriorate. The main part will consist of two combined tanks, 18 feet by 19 feet and 23 feet deep.

It will be sufficiently large enough for a city having a population of 10,000 and will be built in such a manner that it may be enlarged at any time conditions necessitate a larger tank.

One of the features of the new plant will be the little attention that will be required to keep it in operation. It is said by authorities that the plant will require only five days attention a year, and the maintenance of the plant is practically nothing. It is commonly known as the Inhoff tank, but varies from the original design to follow out some ideas of Mr. Elrod, in order to build the plant at less expense.

"All solid material," said Mr. Carraway, "is liquefied in the main tank and is then passed to the second treatment, which is known as the sprinkling filter, where water is sprayed over the filter. The filter is composed of a bed of rock about two inches in thickness and is 44 feet wide and 58 feet long."

Roy Maxey's proposal of taking charge of the erection of the plant and furnish such tools that may be needed for 10 per cent of the net cost was accepted by the Council. Mr. Carraway, who has erected and supervised the building of similar plants in Childress, Lockhart, Taylor and other places, will be in direct supervision of the work here.

Fire Destroys Lake Plainview's Engine Station Yesterday

The pump station at Lake Plainview, owned by the Texas Land and Development Company, was completely destroyed by fire at 4 o'clock yesterday afternoon. Harold Balm, who was in charge of the pump, suffered severe burns about the face and arms.

The loss of the building is estimated at \$550, contents \$500 and engine and pump at \$1,000. The loss is covered by insurance. The origin of the fire is unknown to the firemen, but it is believed that it was caused by an explosion in the engine.

MRS. S. W. WOOD IMPROVES—SONS RETURN TO THEIR HOMES.

Dr. Hendrix Wood of Louisville and Dr. Cleveland Wood of Detroit, former residents of Plainview, who were called to the bedside of their mother, Mrs. S. W. Wood of Kress, returned to their homes last Saturday. Mrs. Wood fell and injured her hip in the R. C. Ware Hardware Store here about a week ago, and has been confined to the Plainview Sanitarium since the accident.

Manager of '49-ers Remains, But Other Members Leave City

W. B. Cogdell, part owner of the '49-ers, was fined \$25 and costs in the City Court Saturday on the charge of vagrancy. The other five members of the company, four young women and one young man, were fined \$5 and costs on the condition that they leave town. Boyde Greenup, manager and part owner, who was fined \$200 and costs last Friday, is still in jail.

Mayor W. E. Risser stated this morning that the manager and the members of the company were given warning on different occasions to close up their place of business, but the warnings always were disregarded. Court action was finally forced upon the city.

WILL DISCUSS PLAYGROUND MOVEMENT.

The Playground Association will meet at 3 o'clock Saturday afternoon at the Methodist Church. Everyone is urged to be present, especially the parents.

SENATE OFFERS OPPOSITION TO FOOD CONTROL MEASURE

President Wilson Wants Immediate Action Taken—House May Pass Bill This Week.

WASHINGTON, D. C., June 18.—It was evidenced the latter part of last week that considerable opposition has developed in the circles of the Senate against the second administration food bill, for governmental control of foodstuffs and other necessities. It is believed that enactment of the bill will not come until after July 1.

The lower house is expected to pass the bill sometime this week, but if the President does not take extraordinary steps to hasten action, the law hardly can be expected in time to set up the food administration before harvesting begins. Filibustering is expected to delay the bill for a time. President Wilson has ordered immediate action.

LOCATING BOARD COVERS 106 MILES IN HALE COUNTY.

The territory covered by the West Texas A. and M. Locating Committee and the local A. and M. Committee is as follows:

The group left Hale Center at 8:30 o'clock yesterday morning and went directly to the Alley Farm, where the wells and the irrigation system were inspected. J. O. Crockett's place was visited next, and here the visitors saw an extensive alfalfa field dotted with some 1,000 hogs. The Locating Board was then taken to the proposed site for the West Texas A. and M. College.

The E. H. Perry place was a demonstration of wheat cultivation to the visitors, and at E. Dowden's place the tourists were refreshed with a sip of Hale County's buttermilk. Here at Mr. Dowden's farm the visitors glanced upon a flock of thoroughbred Shropshire sheep. The visitors were then taken to the farm of J. C. Brooks and later along the south line of Pioneer Park.

The White Place was the next center of inspection, where the Locating Board was showed the orchards and big wells used for irrigation purposes. Section 33, one of the finest syndicate farms in the West, was inspected before the board was taken to the Schick Ranch. The farm belonging to C. Zimmerman was the next picture for the Governor and his associates.

The string of automobiles then journeyed to development No. 63, where the two big wells, supplying water for acres of wheat and oats, were inspected. Another irrigation well was viewed at the Kramer Farm.

After a short visit at J. C. Johnson's place, the Locating Board was taken to Alken, where three wells were witnessed in operation, and a picturesque field of thousands of acres of wheat and alfalfa, dotted with hundreds of hogs, was admired by the Governor of Texas. The wheat fields at Grisco Bettie's farm was viewed.

The Locating Board was then escorted to the Simons Farm and the Hubbard Place, where 2,000 acres of wheat in a solid body held the attention of the visitors for more than a minute. The eyes of the members of

(Continued on Page Ten.)

NATURAL ARMY SCENE IS RED CROSS DEVICE

WILL FEATURE FIRST AID DEMONSTRATION THURSDAY NIGHT AT COURT HOUSE SQUARE.

MISS NYHUS IS IN CHARGE

Boy Scouts and Girls' National Honor Guard to Help—Picture Shows Give Benefits.

When the curtain goes up at the Court House Square at 8:30 o'clock Thursday night, the eyes of the Plainview citizens will glance upon a miniature battlefield in all its naturalness. It will be grotesque and fantastic, picturesque and brilliant, entertaining and instructive. It will be the outstanding feature of Plainview's contribution to the National Red Cross Week campaign.

The first shot in the financial campaign here was fired last night, when several hundred persons attended the special benefit performance at the Olympic Theatre. Tonight a similar performance will be given at the Mae I. All week the women of the different organizations of the city have been contributing their time and efforts in making the week inspirational, patriotic and successful.

All arrangements are complete now for the lawn exhibition and demonstration at the Court House Square Thursday night. The various committees met last Saturday afternoon in the City Library, where a conference was given over to the formulating of ideas and suggestions for the demonstration.

As planned and arranged by the committee, the feature of the lawn exhibition will be the demonstration of Red Cross work in the hospital tent. The demonstration will be under the direct supervision of Miss Helen Nyhus, an experienced Red Cross nurse. Under her direction will be several members of the Girls' National Honor Guard and the Boy Scouts. Several demonstrations of first aid to the injured will be performed by Miss Nyhus and her assistants during the evening. All of the young women will be gowned in Red Cross costumes.

The scene will be an expression of the militaristic side of life and will be patriotic in spirit. The singing of songs realistic of army life around the camp fires and the spread of the tents over the camping ground will constitute the general setting. The call of the bugle, the voice of the muffled drum and other characteristics of the battlefield will be on the program. It has been arranged to have an orchestra furnish music during the evening.

FUNERAL SERVICES OF MARY SMITH HELD SATURDAY.

The funeral services of Mary Smith, 11 years old, the daughter of Mr. and Mrs. J. L. Smith, were held at 3 o'clock last Saturday afternoon. She was buried in the Plainview Cemetery.

Maxwell Ball Club Wins Four Contests on Six-Day Invasion

The Maxwell baseball aggregation returned to Plainview last Saturday with a record of four victories and two defeats for the week. The spectacular event in the baseball campaign of the local teams was the brilliant twirling of Hinds, who twirled a one-hit contest against the Lubbock combination last Tuesday.

The "baseball" week opened last Monday with a victory over the Abernathy team, 5 to 3. Johnston, catching for the Maxwells, was the person under the spotlight during the afternoon. Tuesday was Pitcher Hind's day in all its glory, when he calmed the Lubbock team, 3 to 0. The Maxwell team lost to Crosbyton Wednesday, 8 to 1, but redeemed its defeat the next day with an overwhelming victory over the same team, 12 to 2. Saturday the Maxwell boys won from Ralls, and lost the final game of the week Saturday afternoon to Slaton, 8 to 5.

This week the local team will invade the enemy's country again for games with Lockney, Silverton, Canyon, Amarillo and Silverton. During the Ozark Trail Meeting at Amarillo next week, the Maxwell team will clash with the Hobart, Okla., and Mangus, Okla., teams.

Three Year Old Holstein Makes 40 Pounds Butter in Seven Day Test

Scarcely a week passes but a new world's champion Holstein spring to fame, and before the ink has had time to dry on one record, another is made which relegates the previous champion to second place. The performance of K K S V Topsy, who first saw the light at Brothertown Farms, Utica, New York, on March 15, 1913, can be classified as nothing short of marvelous, for no other appellation can be applied to a cow which, as a senior 3-year-old, produces in a 7-day official test 40.38 pounds of butter from a milk production of 568.7 pounds, her average fat test being 5.68 per cent.

K K S V Topsy was sired by King Korndyke Sadie Vale 86215, and is out of King Segis De Kol Korndyke Topsy 146246 (33.10 pounds butter in 7 days as a senior 4-year-old). At the age of 3 years 17 days she dropped her first calf, a beautiful heifer, and proceeded to make the very creditable record of 24.15 pounds butter from 454.1 pounds milk in 7 days, her average fat test showing 4.25 per cent. Two months later she was bred back to her own sire, and at 3 years, 11 months and 24 days she dropped a pair of twin bulls, weighing respectively 80 and 100 pounds. Six days later, in spite of this handicap, she was placed on test, and, in her first 7 days, produced over 36 pounds of butter; and four days later, by increasing

her total a pound a day, she entered the charmed circle of 40-pound cows. Her best day's milk production was 87.5 pounds, and her best day's fat over 5 pounds. She is the only cow that has ever approached this phenomenal production after dropping twin calves, but coming of a family that have been consistent world's record makers, it naturally follows that she was destined to become famous. Her sire's dam was that great cow Sadie Vale Concordia 4th (41.06 pounds butter in 7 days and 163.11 pounds in 30 days), who, together with her daughter, Sadie Vale Concordia 4th Pietje (38.43 pounds butter in 7 days, and 150.31 pounds in 30 days), held the world's 7- and 30-day records for mother and daughter until a recent date.

K K S V Topsy was fitted for the test with a ration composed of oil meal, corn meal, molasses meal and bran, with an occasional variation of ground oats in place of the bran. Four supervisors were employed in making the test, during which she consumed 20 pounds of the following ration per day: 1 pound Continental gluten; 1/2 pound cottonseed meal; 1/2 pound oil meal; 1/2 to 1 pound bran; 3/4 to 1 1/4 pounds yellow gluten; 1/2 pound omnia and sufficient Unicorn Dairy Ration to make a total of 5 pounds to a feeding. She was bred and developed

by a well known and successful New York State breeder, and is the second cow of his establishment to make a record of over 40 pounds butter in a week.

PRODUCTION OF BERMUDA ONIONS.

Reports received from correspondents of the Bureau of Crop Estimates, United States Department of Agriculture, from all sections of the Bermuda onion district of Texas, indicate a general condition for the district on May 1, 1917, of 65.1 per cent of normal, as compared with a general condition of 67.8 per cent on April 15, 1917, a decrease of 2.7 points, which forecasts a yield of about 234 crates per acre, or a total production of 2,819,700 crates, the equivalent of 6,077 cars of 464 crates each, or 5,422 cars of 520 crates each. On April 1, 1917, the condition

of the crop was reported at 68.5 per cent of normal, which indicated a yield of about 246 crates per acre, or a total production of 2,964,300 crates, the equivalent of 6,388 cars of 464 crates each, or 5,700 cars of 520 crates each. No change in this forecast was indicated by the condition of the crop on April 15, 1917.

From the reports received it appears that the decrease noted above is wholly in the northern counties and that Webb County will probably produce the crop heretofore forecasted of 2,520 cars of 464 crates each, or about 2,250 cars of 520 crates each.

MISSOURIANS PLAN TO HAVE "CAN CONSERVATION DAY."

COLUMBIA, Mo., June 15.—A "Can Conservation Day" is announced, a working date, not a holiday, a "food cartridge" wash-day for "enlisting" stuff on hands and for "drafting" new orders of tin cans and glass jars, if

needed. Any day in June will serve this purpose, but Jewell Mayes, secretary of the Missouri State Board of Agriculture, in proposing this home day for planning food supply, suggests

Friday, June 22, and recommends that each family select its own date.

As the old birds sing, the young one twitter.

Poland China Males for Sale

I have sixteen choice Big Bone Poland China males, four to eight months old, for sale. The price is right and each animal is guaranteed in every respect. See me or call at the farm two miles south of Hale Center.

Plainview, Texas

Phone 60

It takes about 5 gallons of O. V. B. Paint for two coats on the average 7-room house. This spread value is due to careful selection and fine grinding of pigment. It makes your cost very reasonable. Besides, you'll find the paint wear you want in

"All That's Best in a Paint"

Whatever the age or condition of your house, O. V. B. Paint doesn't take long to pay for itself several times over because of its durability. It increases the value of the house with its fresh, bright, protective coat of metal. No adulterants—no cheap ingredients—but a firm weather-resisting surface that's possible only with pure lead and zinc, uniformly mixed by machinery.

Come in today. Let's figure together. Let our color suggestions and cards help you plan your color combinations.

MOON & SNYDER, Petersburg, Texas.

SAFETY FIRST—BUY YOUR COAL NOW

The outlook is for high priced coal. Railway freights increase 60 cents per ton is a certainty. Mines have withdrawn summer prices and advanced present prices 50 cents per ton. This means the retail coal dealer must advance his prices. I have a limited stock on hand, and will maintain present prices as long as it lasts. Better invest a little money in coal now, and don't blame me if you have to pay higher for coal in the near future.

Smith Form-a-Truck
\$350 F.O.B. CHICAGO

Don't Take Your Horses From Field Work

Use Smith Form-a-Truck For Hauling

Cut down the number of horses you keep to the number actually required for work in the fields. Horses for hauling are expensive. They cost from two to three times as much as one Smith Form-a-Truck and waste three out of every four hours compared with the speed with which you can do all your farm hauling if you use Smith Form-a-Truck.

Every horse you keep means so much of your farm devoted to raising feed; every horse you get rid of means this acreage immediately available for crops that will bring you profits.

Your horses cost you real money all the time whether they are working or rot. Smith Form-a-Truck costs nothing except when

it is actually running. And the first price is no more than the price for a good pair of horses and a farm wagon. Farm hauling by Smith Form-a-Truck is the scientific, economical, up-to-date method of making trips to town in a short time, enabling you to make immediate delivery of live stock or crops when high prices prevail, giving you a type of hauling that in no way interferes

with the conduct of your regular farm work.

Keep every piece of equipment—every animal on your farm making money for you—doing every bit of work the most economical way. Smith Form-a-Truck for hauling, especially when equipped with our famous Eight-in-One Convertible Body, is the most economical farm hauling in the world.

Use Any One of Six Chassis

Using any one of six chassis, Smith Form-a-Truck combines with any Ford, Maxwell, Dodge Bros., Buick, Chevrolet or Overland chassis to make a fully guaranteed one-ton truck. It gives you real truck construction that will stand up under the hardest hauling you could ever do.

When You Are in Town Drop In

When you are in town drop in and see Smith Form-a-Truck. It will pay you well.

CULTIVATING THE GARDEN.

By W. B. LANHAM,
Chief of the Division of Plant Industry,
A. and M. College of Texas.

The same principles of cultivation applied to field crops are applicable also to garden vegetables. It is assumed that the garden has been properly planted, preferably laid out in long rows and not on high beds. As a general rule, it is a mistake to bed gardens, as they will dry out much worse than if planted level.

Purposes and Advantages of Cultivation.

One of the purposes of cultivation is to destroy weeds, but this is not the prime purpose, although many people quit cultivating when there are no weeds growing. Some of the other advantages are:

1. The soil is made warmer and air admitted by cultivation.
2. The amount of plant food is increased by the stirring of the soil.
3. Evaporation is checked by keeping a mulch of loose soil on the surface and not allowing the soil to bake.

Tools.

For the home garden, the principal tools are the wheel hoe with its attachments, the hand weeder, and the ordinary hoe and rake. If the garden is of sufficient size and has been planted in rows wide enough apart, much of the cultivation can be done with horse-drawn implements. In any event it should have been planted so that the major portion of the cultivation can be done with the wheel hoe.

Time.

The soil in a garden should be kept in a good state of till at all times. Weeds should not be allowed to grow nor crust to form. The soil should be cultivated after every rain, or watering, and at least every ten days. The depth of cultivation will depend upon the plants grown and on the type of soil. Such plants as potatoes are cultivated much more deeply than lettuce or radishes. Also, a sandy soil is cultivated more deeply than a tight clay soil.

Watering.

Water can be applied either by sprinkling or by running the water in furrows between the rows. The latter method is much the better, as a general proposition, as it allows the water to soak into the soil thoroughly, wetting it without the formation of a crust. If the water is to be applied from a sprinkling can or hose, a very fine mist should be used, moving the stream constantly to prevent washing out the small plants. In any event, the soil should be thoroughly soaked at intervals of from five to eight days, rather than sprinkled lightly daily. If the soil is simply sprinkled a crust will be formed that dries out readily. This practice causes the roots to form near the surface, and if this sprinkling is interrupted for a few days the plant dies.

Thinning.

Usually most garden vegetables are planted too thick. The seeds are small and it is hard to properly distribute them. Also, it is a good practice to plant more than is necessary, in order to insure a good stand. However, plants will not grow well if crowded. As soon as they are up well it is a good plan to thin out the small, inferior specimens, the distance apart

depending on the plant. Such small-rooted crops as lettuce should stand about two inches apart in the rows; Beets and lettuce can be transplanted, if regular. Lettuce can be left fairly thick until large enough to use, then thin out, leaving one plant every eight to twelve inches.

BOYS, RAISE A SHEEP.

We are very short on sheep. Our 50,000,000 sheep at their best can only grow enough wool to make each one of us a suit of clothes in four years. The foreign wool which under normal conditions came to us is now largely diverted to war purposes. Thousands of boys and girls can each raise one or two sheep and find sufficient pasture in their own lawn, thus turning into food and clothes the grass which has previously been thrown away. More poultry can be kept, and be fed on the present waste from kitchen and table. We must all learn thrift, and break away from our thoughtless, heedless disregard of waste. Waste is little short of a crime at any time, and fully that in these days when millions are actually starving.—H. H. Windsor, in the June Popular Mechanics Magazine.

Willard STORAGE BATTERY SERVICE STATION

(Copyright registered, 1917)

Put Your Battery in the Hands of its Friends

It is too vital a part of your car to be handled by anybody. It gives you power to crank your engine, the spark that keeps it going, and light at night.

Upon it depends the successful operation of your car.

Bring it in twice a month, and we'll test it—for expert testing is the first rule in battery care.

If you haven't distilled water at hand, we'll fill it.

If it needs repairs or recharging we'll do the work as you'd expect factory-trained experts to do it. And you won't lose the use of your machine the while, for we have a rental battery for your use while we're working on yours.

We're your battery's friend. Our job is to keep it on the job to your satisfaction.

For we're the Willard Service Station.

GOVERNMENT URGES LEGUMES FOR DAIRY FARMERS.

WASHINGTON, D. C., June 15.—The dairyman who raises an abundance of leguminous roughage establishes a basis for an economical home-grown ration which makes it unnecessary for him to purchase protein-rich feeds. Properly cured hay from any of the common legumes has a high percentage of digestible protein. The following table shows the comparative values of several common roughages and concentrates:

Table with 5 columns: CROP, Yield per acre (tons), Digestible protein per acre (pounds), Digestible carbohydrates per acre (pounds), Digestible fat per acre (pounds), Total of nutrients (pounds).

The table shows that an acre of alfalfa furnishes twice as much protein as a ton of bran, four times as much as a ton of corn meal, and nine times as much as an acre of timothy. When the ration consists of an abundance of silage and good legume hay, cows of moderate production often require but little grain. Cows which give more than 25 or 30 pounds of milk daily require the addition of concentrates if high production is to be maintained. In view of the probable shortage in grains, every dairyman should make efforts to provide an abundance of leguminous hay by growing legumes suitable to their soils and sections.

As you make your bed so must you lie upon it.

12.3 MILES OF R. R. TRACK AT OVERLAND FACTORY.

The Toledo factories of The Willys-Overland Company have 12.3 miles of railroad tracks serving them. This makes the big automobile plant one of the largest private freight terminals in the country. Within the Willys-Overland property lines are approximately five and a half miles of track serving receiving and shipping docks.

BURTON-FRYE SALES COMPANY TO MAKE IMPROVEMENTS.

The Wilson Motor Company is now history, and in its place is the Burton-Frye Sales Company. The new owners, H. F. Burton and Roy J. Frye, purchased the business last week and have taken active management of the concern.

The company will continue to handle the Saxon car and also will serve as an agency for the King Eight. Mr. Burton this morning said that one of the immediate improvements will be the installation of a Saxon repair department, under the supervision of a mechanic who has specialized in repair work at that particular factory. A stock room will be another improvement made by the owners.

Mr. Burton expects a shipment of cars within the next few days. In this shipment will be a "Chummy Roadster," a new-style car which will be introduced here by the Burton-Frye Sales Company.

SPECIALISTS SAY NOW IS TIME TO PLANT FORAGE FOR HOGS.

WASHINGTON, D. C., June 15.—Now is the time to prepare forage for feeding hogs so that there will be a continual supply of fresh, green, succulent feed in late summer when growth is permanent and other pastures begin to slacken. Specialists of the United States Department of Agriculture make the following suggestions for such forage crops:

Beans Supply Forage Element. Soy beans and cowpeas may be

planted directly after corn planting time until the middle of July, and ordinarily would be ready to graze about three months after planting. Pasture these when the pods are almost mature, as the beans supply the most important forage element. An acre of pasture will graze from fifteen to twenty 100-pound pigs for six weeks, provided it is supplemented with a heavy corn ration.

Sorghum sown broadcast or in drills the latter part of corn-planting seasons is ready to pasture when 18 inches high, or in six to eight weeks. With a grain ration of from fifteen to twenty-five per cent of tankage or meat meal, an acre will carry fifteen to twenty pigs for a month. Do not

graze pigs on stunted or second-growth plants, as these are liable to cause poisoning. Corn also is a forage crop and affords pasture similar to sorghum.

In pasturing any of these crops, restrict the area so that the hogs will eat it off rapidly. Then move to a fresh area, for if they are allowed much range they will trample more than they consume.

BRILLIANT.

My Idea of a Car

By John W. Bate of the Mitchell

I have stood for three things in particular in all of my work for the Mitchell:

- 1—Factory efficiency— 2—Lifetime service— 3—Every possible attraction.

Factory efficiency comes first. Without it, the other things are impossible at any modest price. We are saving \$4,000,000 on yearly production cost in this mammoth model plant. And that alone enables us to offer such cars at Mitchell prices.

All-Enduring Parts

Three years ago we changed our standard from 50 per cent over-strength to 100 per cent over-strength. Some call this new margin needless and extreme. It means many over-size parts. In these days it means very costly materials.

But it also means, in my opinion, average lifetime service. Two of our cars that we know of have already run over 200,000 miles each. The average repair cost has been reduced to a trifle.

I have watched some 70,000 Mitchells. Every fault, every weakness, has come to my attention. Our cars of today represent an evolution, wrought by world-wide experience. They have long been marvels of

endurance. But, despite that fact, we have in three years doubled our margins of safety. That to make our vital parts almost all-enduring.

Two Major Problems

Our two greatest problems have been the motor and the springs. To combine perfect performance with economy of fuel. To build an engine which would keep its newness, its silence and its power. We have certainly accomplished that.

Then to build a perfect shock-absorbing cantilever spring. A spring to make motoring about as comfortable as sailing. A spring that needed no shock absorbers, no snubbers, no rebound straps.

We accomplished that two years ago in the Bate cantilever springs. They make the Mitchell, I believe, the most comfortable car in the world. And in those two years not one of these springs has broken.

The Mitchell Extras

When we attained a lifetime car we wanted it complete. So we studied all cars in Europe and America for beauties, conveniences and luxuries. We have now in the Mitchell 31 wanted features which nearly all cars omit. We have added in the past year 24 per cent to the cost of luxury and finish. We have created eight new styles of bodies which combine all the attractions we found in 257 new models.

And this year we build two sizes, so that people who want a five-passenger car need not pay for a too-big chassis.

So the Mitchells today, in all these ways, typify my ideals. I know they excel all other cars in their class. And any Mitchell dealer can in five minutes prove that in many different ways.

If I bought a car, after all I know, I should want it built like this.

MITCHELL SIXES TWO SIZES

MITCHELL—A roomy 7-passenger Six, with 127-inch wheelbase and a highly developed 48-horsepower motor.

\$1460

Four-passenger Roadster, \$1495. Sedan, \$2175. Cabriolet, \$1895. Coupe, \$1995. Also Town Car and Limousine.

MITCHELL JUNIOR—A 5-passenger Six on similar lines, with 120-inch wheelbase and a 40-horsepower motor. 1/4-inch smaller bore.

\$1195

THE HERALD PUBLISHING COMPANY,
Corner Broadway and Second Sts.

OWEN M. RICHARDS, Editor E. B. MILLER, Business Manager
Entered as second class mail matter July 1, 1914, at the Post Office at Plainview, Texas, under the act of March 3, 1879.

\$2.00 a Year; \$1.00 6 Months. Advertising Rates on Application.

THE NEW EDITOR'S CREED.

The journalistic profession is delicate and difficult at times, but noble and fascinating. No matter how difficult at times the circumstances in the journalistic field may be, the new editor of The Herald, inoculated with zeal and unwearied enthusiasm, will endeavor to achieve the fundamental principles of journalism—those which are unmasked and dazzle in the brilliance of truth. In the news columns, The Herald will not discriminate with the purpose in mind of animosity, but rather there will always be a tendency to cultivate and develop the spirit of benevolence, reverence, truthfulness and accuracy. "Accuracy above all others," says Dr. Walter Williams, dean of the School of Journalism of the University of Missouri, "for without it all others are as nothing in the profession of journalism."

There is an old saying that in the walking newspaper the leading article is scandal. The new editor will not permit The Herald to become a walking newspaper, but he always will endeavor to make The Herald an institution of clean, up-to-the-minute and truthful news. He will go below the surface in search of the truth. He does not care to edit a paper that is a gossip and a tale-bearer, but he does desire to edit a paper that is the key to truth, accuracy and news.

And so in the end, the editor, understanding the customs and characteristics of the Plainview community, hopes to become a member of the Plainview machine of industry and progress. He hopes to be a genuine member of the Plainview family. He wants your co-operation in making The Herald a newspaper of news, thoughtfulness, purity, truthfulness and accuracy.

The person who holds a reverence for the period of '49 probably has experienced a change in mind since the action of the City Court last week.

MAY BE IT WILL BE YOUR SON.

In the face of the guns of autocracy, our American boys are going to the Western Front in the defense and salvation of civilization. They are even willing to sacrifice their lives in the name of humanity. They are willing to leave this world that the ideals of a free world for you may not perish.

May be your own boy, your own, the one you nursed from the cradle and guided over the pathway of life, will be one of the American boys to go to the battle front for the sake of humanity. Any way if it is not your son, it is some one else's son, just as human and loved and thought of just as much as yours.

What does your conscience say on the Red Cross question? If your son or some one else's son is willing to sacrifice life for the sake of humanity, are you not willing to undergo a sacrifice? Do you want the American boy on the other side of the water, far away from his home, to be improperly cared for if injured? Do you want him to go without some form of recreation and entertainment while off duty somewhere in France? If not, then show your Americanism and respond to the call of the nation to come to the aid of the Red Cross Society this week. You don't have to go away or send away, but do your "bit" in Plainview this week, while the Red Cross campaign is in action.

A headline over a news story reads "School Pig Sold to Pay for Victrola." Wonder if he is the chap who use to rob our lunch baskets.

KAISER SEES HANDWRITING ON WALL.

"Liberty Loan bonds are overwhelmingly over subscribed to such an extent that the officials are buried beneath a landslide of untabulated returns." That's the message which was dispatched to the Kaiser last Friday afternoon, when the Liberty Loan campaign of thirty days ended in the United States of America.

Just how the Kaiser took his medicine is unknown at this hour. Whether or not he, the aspiring ruler of the world, the sole advocator of Autocracy and the handy man of the Devil, realizes the hopelessness of crushing Civilization, the American people do not know, and further, do not care.

One thing certain, though, the American people are united in a stand for Democracy and a free world. This fact the American people have evidenced in the patriotic response to the Liberty Loan campaign. Persons who have incomes of less than \$100 a month are subscribers to the national loan. Persons of various classes of life, the doctor, the lawyer, the farmer, the railroad employe and the common ordinary working man, have done their bit. They have delivered the first blow in conquering the Kaiser. The Emperor of the German Empire sees the handwriting on the wall.

LET US NOT BE SLACKERS ON THE FOURTH.

The question of celebrating the Fourth of July is before the citizens of Plainview for their decision. The Young Men's Business League has put it up to the people to determine whether the birthday of the Declaration of Independence is to be observed here. The observance of the Fourth will depend upon the sentiment and enthusiasm of the citizens.

The American nation, the republic of a free and liberty loving people, today is facing the greatest crisis known to the land since its birth in 1776. Today is the hour that calls for patriotism and support. Today is the day that our American ideals are endangered by the terrible onrushing of autocracy. Today is the time when real Americans should demonstrate their appreciation for the ideals of liberty of their native land.

Plainview citizens should observe the birth of the Declaration of the Independence in this hour of national crisis. There should be an expression of Americanism in this city on the day of the Fourth. The commemoration of the anniversary of the Declaration of Independence will be a tribute to the nation of liberty and democracy, an expression of patriotism and another blow against autocracy. Let us not be slackers.

Just when the weather prospects appear as if we may have rain, a certain Plainview merchant displays his stock of raincoats in the front of his store. No wonder the clouds drifted by.

LOCATING BOARD COVERS 100 MILES IN HALE COUNTY.

(Continued from Page One.)

Hale County citizens had gathered to hear the remarks of the various speakers about the West Texas A. and M. College. When the Governor appeared in the band stand, he was greeted with a thunderous roar of cheers.

Governor Ferguson was the first speaker introduced to the crowd. He gave a few moments in explanation of the reason in establishing a western A. and M. College. He said that it was not because of political reasons nor the ambitions of some secretary of a commercial organization. The Gov-

ernor said that the college is being established in this part of the state because it is necessitated and because it is a progressive step toward a popularizing education in Texas.

"Merit will determine the location of the new college," said the Governor. "There will be no politics played. The best place is to be selected. There will be just consideration in the locating of the A. and M. College, and the place that has the best advantages for the development of West Texas will get the college."

In speaking about education the Governor said, "I am not opposed to higher education. Perhaps you have that impression after reading the papers in which the headlines say I am making war on higher education. It is not true. I want higher education, but I want to democratize it. The Dallas News is fighting me because I refused to reappoint a former member of its editorial staff to a particular political office; the San Antonio Express is fighting me because I made its owners retract what the paper had said about me and the Houston Post is fighting me because I refused to appoint some of its friends to office."

"I oppose the idea of the University crowd because a few men spend the people's money and refuse to account for it. I also oppose the foolishness that has grown up in the walls of the State's University. Woodrow Wilson, when president of the Princeton University, took a stand against this condition and abolished the fraternities. I will too."

Just before he concluded, the Governor spoke a few minutes in respect to the nation's crisis. "Do not get excited," he said, "about the war. I have a presentiment that before an army can be trained and placed in Europe, the war will be over. But if I am mistaken, let the Texas boys show their valor and go in and win the war."

W. F. Doughty, State Superintendent of Schools, followed the Governor with a few remarks in respect to education. He pointed out that the people of the state were realizing more and more the benefits of education, and that the common sentiment that prevailed now in Texas, is that education is the foe of ignorance.

The progress of the Hale County farmers was praised by F. W. Davis, State Commissioner of Agriculture, who spoke in general about the agricultural conditions in this part of the country. He spoke about the land traveled over by the committee on its search for a location for the West Texas A. and M., and how delighted he was to reach the Plainview community and see the astonishing and remarkable steps in the cultivation of land.

F. O. Fuller, speaker of the House and member of the Locating Board, spoke in general about the politics of the state. He criticized the attitude of the big daily newspapers in their continuous attacks on the legislative body of the state, and praised the type of representatives sent from Hale County to the Lower House.

The agricultural conditions at the present and what they are to be in the future were explained by Dr. W. B. Bizzell, president of the A. and M. College and adviser of the Locating Board. He said that the agricultural education has been neglected in the past, and only in recent years has it started on its path of progress.

John H. Stephens, for twenty years representative of this district in Congress, brought the program to a conclusion with a comprehensive and thorough account of the reason Hale County wants the A. and M. College and the reason it is entitled to it. He pointed out the remarkable progress of this community not only in agricultural development but also in the industrial field.

The members of the board, Governor Ferguson, F. O. Fuller, W. F. Doughty, F. W. Davis and the Governor's officers and friends left at 4:30 o'clock for Amarillo. Lieutenant-Governor W. P. Hobby, the fifth member of the board, is not on the inspection trip.

Miss Grace McCormack and her friend, Elizabeth Smith, have returned from Amarillo.

Mrs. John Vaughn and two children are visiting Mrs. Vaughn's mother, Mrs. M. E. Melton of El Paso.

PEACE-ARMSTRONG.

Miss Mae Peace, the daughter of Mr. and Mrs. R. M. Peace, Denver street, was married to Frank Armstrong, the son of Mr. and Mrs. W. E. Armstrong, at the home of the bride's parents at 8 o'clock Sunday evening. The Elder A. J. McCarty solemnized the wedding.

The bride is a graduate of the Plainview High School and holds a degree in expression from the Seth Ward School. She is known in the younger social whirl for her charming personality. Mr. Armstrong is employed as bookkeeper at the Knight Auto Company. Mr. and Mrs. Armstrong will make their home in this city.

SANDERSON-BRIGHT.

Miss Urshul Sanderson, the daughter of Mrs. J. M. Sanderson, was married at 7:30 o'clock Saturday morning to T. E. Bright of Nashville, Tenn., at the family residence. The Rev. Ernest E. Robinson of the First Methodist Church officiated.

Miss Frances Sanderson, accompanied by Mrs. E. R. Williams, rendered "At Dawning." As Mrs. Williams played a wedding march, the bride, gowned in a flesh color georgette crepe dress and carrying a bouquet of carnations and sweet peas, entered the room with Mr. Bright. The room was decorated and embellished with ferns and blooming pot plants.

The guests were the members of the family and intimate friends of the bride and groom. Mr. and Mrs. Bright left for a honeymoon trip through the northern states immediately after the ceremony. They will leave the North about July 1 for Nashville, Tenn., where they will make their home.

The bride has been a popular young woman and an inspiration to the social world of Plainview. Mr. Bright is postmaster in Nashville.

The Episcopal Sunday School classes will hold a picnic at the Pioneer Park tonight.

Mrs. James Madison Woodson, Miss MacGillivray and Miss Mary Burbank are the honored guests at the home of Mr. and Mrs. Daniel Francis Morgan this afternoon.

Misses Adoline and Anna Irick left today for Galveston, Texas, for a few days' visit. From there Miss Anna will go to Boston, Mass., where she will take up special work in music. Miss Adoline will return here in a short time.

W. W. Connell is in Amarillo on business.

O. E. Brashear is in Fort Worth on a vacation.

Roy Bruner, a stockman of Floydada, was here on business yesterday.

BUSY WOMEN ENTERTAINED.

On last Friday, June 15, about thirty-five members and guests of the Busy Women's Class of the Methodist Sunday School were entertained by Mrs. E. E. Robinson, Mrs. Marvin Garner, Mrs. W. N. McDonald, and Mrs. R. E. Cochrane at the home of the latter 209 West Fifth Street.

The patriotic spirit was demonstrated in the house decorations of red, white and blue. On arriving the women were ushered into the dining-room, where punch was served. After a short business session an interesting program was carried out. Mrs. E. Y. Brown gave in a charming way two readings. Mrs. Cora Pritchett and Miss Wilma Mills delighted the guests with a solo and a duet. Another enjoyable feature of the program was a Flower Contest after which sherbet and cake were served.

PRESS REPORTER.

Henry Harrison has gone to Canyon to attend the summer session of the State Normal School.

J. B. Downs of Lockney spent the day in Plainview on business.

H. O. Conley returned to Plainview yesterday morning, after a short visit with his sister Mrs. W. C. Malone.

See Jacobs Bros., big sale announcement ad on page 2 this paper. It.

TIME TO DO A LITTLE BIT OF EVERYTHING THURSDAY.

Between sunrise and sunset next Thursday, the house cleaner can do more cleaning, the business man more business, the flirt more flirting, the preacher more preaching, the gossip more gossiping and the farmer more farming than on any other day of the year, as Thursday, June 22, is the longest day of the year. So if you have a big day's work on your calendar, do it Thursday.

The sun travels each year once around the path through the stars called the ecliptic circle and which crosses the equator at two points, the equinoxes, vernal and autumnal. At two points of the ecliptic the sun is as far from the equator as it can get, once toward the south pole and once toward the north pole. These two points, where the sun turns in its apparent path and again approaches the equator, are called the winter and summer solstices.

The summer solstice comes about June 22 each year, and on that day, since the sun is as far north as it can possibly get from the equator, it also attains the highest altitude in the sky as seen from all places in the Northern Hemisphere north of latitude 23. For this reason this day is also the "longest" day of the year, that is, the time between sunrise and sunset is longest.

FORMER TEXAS RANGER JOINS STANDARD OIL COMPANY.

Mason Rountree left Saturday night for Phoenix, Ariz., where he has accepted a position as advertising man for the Standard Oil Company. Mr. Rountree, a former Texas Ranger, has made his home here with his parents for many years.

BLAIR COMPANY PLEASAS.

Jessie Blair's comedians were greeted by an appreciative audience on the opening night of the company's appearance in Plainview. Hazel Blair, the leading woman character, through her refined and inspirational acting, left an impression with the audience. The Blair Company will continue to show here the remainder of the week.

Unionalls—Overalls and Underalls for All

Ladies overalls are becoming more popular. For the house, garden, car or camp ladies find overalls a most practical utility garment.

We would not ask you to join the "Overall Club" to the exclusion of all other outer garments, but we would be pleased to have you see the new lines. We are showing them in pin stripes, blues and khaki. Be game try a pair.

Richards Bros. & Collier
WHERE PEOPLE WHO DRESS BEST TRAVEL

Paint Those Shabby Walls

You can secure a lustreless, oil painted finish on your walls and ceilings by using Acme Quality No-Lustre Finish—forms an artistic dull finish surface that combines the durability of an enamel or an oil paint with the restful tones and velvety beauty of fresco.

ACME QUALITY No-Lustre Finish

Can be applied over plaster, metal, canvas, wood, wall board or any surface upon which paint can be used.

It is an ideal wall coating—more durable than Kalsomine, more artistic than paint or enamel and more sanitary than wall coverings stuck on with germ breeding pastes.

Ask for a free copy of the Acme Quality Painting Guide Book—it tells all about paint and painting.

With The Home Economics Club

Austin, Texas, June 12, 1917.
 Dearest Club Girls:
 I suppose you are all busy with your canning work right now. I have received some fine reports and the amount of pledges sent in are most encouraging. I wish I could tell in this letter how interesting these reports are.
 I am looking forward to our State meeting and hope every club will have its number of delegates ready for the convention. I have written to the officers of each county federation and instructed them what to do about electing county delegates. Watch for an announcement in your papers for a county meeting and as many of you who can attend. I won't be there, but you can go in for the meeting, as we will have to get at this as early as possible.
 We are going to be very busy getting ready our program, and, by the way, be sure you begin right now to get good reports ready for that meeting. I want reports that won't have to be rewritten and can be placed on file ready for our Journal right after the convention. We are going to have a good program and everything will be lovely, I think.
 Continue to let me hear from you. I can't mention all of the nice reports that I have in this week, but will write more of a newsy letter next week.

Croquettes.

Rice Croquettes.
 1/2 cupful rice, washed and steamed.
 1 tablespoonful melted butter.
 1/2 cup grated cheese.
 When cold add:
 Salt to taste.
 1 egg beaten very light.
 Form into croquettes, roll in flour, and submerge in deep fat heated until a crumb of bread will turn a golden brown in 40 seconds.

Rice Croquettes.

1 cup well washed rice.
 2 tablespoonfuls chopped parsley.
 3 eggs.
 Cayenne.
 4 cups milk.
 2 tablespoonfuls butter.
 Salt.
 Place rice, milk, butter, salt and cayenne pepper in upper part of double boiler; let cook till rice is soft and milk is absorbed. Remove from fire, add the beaten eggs and parsley; cool and mold into desired shapes. One tablespoonful of mixture makes a nice size croquette for cylinders or round cakes with a hole in center filled with jelly. Egg and bread crumbs, and fry in deep fat until a delicate brown. Drain on soft paper.

Lima Bean Croquettes.

Boil Lima beans until tender, drain and mash them. To 2 cupfuls of mashed beans, add 2 eggs, well beaten together; salt and white pepper to taste and enough cream to soften. Allow to cool, then shape. Dip croquettes in egg, then in bread crumbs and fry in fat heated until a cube of bread will turn brown in 40 counts. Drain and serve with tomato sauce.

Bean Croquettes.

1 cup white beans, boiled and rubbed through sieve.
 1 tablespoonful butter.
 1 beaten egg.
 Salt.
 Pepper.
 Dash of paprika.
 Stir mixture and turn on floured board and form into croquettes, dip in egg, roll in cracker crumbs and fry in deep fat.

Rice Croquettes.

1 pint cold rice.
 1 tablespoonful butter.
 1 egg.
 Pinch of salt.
 1/2 cup milk.
 Shape and roll in cracker crumbs and egg and fry in hot fat.

Sweet Rice Croquettes.

Cook 1/2 cup rice in 1 cup sweet milk until rice has absorbed milk, add 2 tablespoonfuls sugar, 1 tablespoonful butter and pinch of salt, and let rice stand in double boiler until ready to use, at which time beat in 2 eggs, shape, dip in egg, roll in crumbs and fry in deep fat. Serve with sauce.

Sweet Potato Croquettes.

2 cups mashed sweet potatoes.
 2 egg yolks.
 1 tablespoonful fat.
 1 teaspoonful salt.
 Pinch of pepper.
 1/2 cup raisins or chopped nuts.
 Melt fat in sauce pan, and add the potatoes. When hot add 1 beaten egg yolk, nuts or raisins, and salt. Make into balls, roll in egg yolk, then in bread crumbs, and fry in deep fat hot enough to brown a cube of bread in 40 seconds.

A man who will not flee makes his foqa flee.

Envy shoots at others, but hits itself.

OLD-FASHIONED STAGE COACH PASSES FROM SERVICE.

WASHINGTON, D. C., June 19.—The old-fashioned stage coach has passed from its "last stand" in the Yellowstone National Park. In 1915 Secretary Lane admitted private automobiles to the park, but retained the horse-drawn stages. This necessitated special motor schedules to avoid accidents. The situation remained the same last season under an enormous increase in motor travel. This season, however, the old stages are replaced by a fleet of seven- and ten-passenger cars, and the restrictions to general automobile travel are largely removed. The work begun in 1915 is completed. The Yellowstone is motorized.

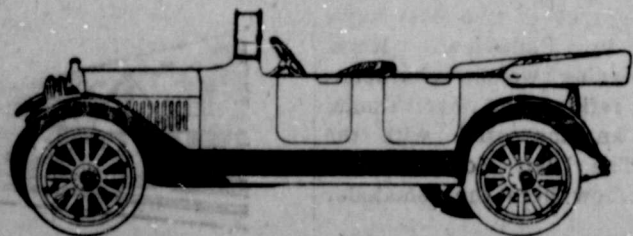

DIXIE FOUR ENTERTAINS.

The Dixie Four, a company of four girls, Manora Mewshaw, Madeline and Josephine Abraham and Fannie Pitzer, under the direction of Mrs. Mewshaw, who are giving recitals through the Panhandle and North Texas, gave a splendid program at Hale Center Thursday night. They go to Abernathy Saturday, from there they will visit other towns and cities in North Texas, and then go to Chicago where they already have engagements with a number of clubs.

JACK FROST BAKING POWDER. "It's absolute purity—An absolute surety"

UGH! CALOMEL MAKES YOU DEATHLY SICK

Stop Using Dangerous Drug Before It Salivates You! It's Horrible!

and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today, and tomorrow and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a 50-cent bottle of Dodson's Liver Tonic, and take a spoonful tonight. If it doesn't start your liver you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tonic tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards.

LIFT YOUR CORNS OFF WITH FINGERS.

Tells How to Loosen a Tender Corn or Callus So It Lifts Out Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of freezezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezezone, he can get it at any wholesale drug house for you.—Adv.

FOR SALE—East 1/2 of Section 27 and southwest 1/4 of Section 41, Block A-3, Hale County. Write owner, GEORGE T. WALLACE, Taylorville, Ill. Tues., 4t-pd.

THE STATE OF TEXAS,

To the Sheriff or Any Constable of Hale County—GREETING: YOU ARE HEREBY COMMANDED That you summon, by making publication of this Citation in some newspaper published in your county, if there be a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once each week for four consecutive weeks previous to the return day hereof.

Mrs. J. C. Newman, Gladys O. Newman, Emma Gertrude Newman and Virginia Low Newman, who are non-residents of this State, and H. B. Pack, who is absent from the State, to be and appear before the District Court of Hale County, Texas, at the next regular term thereof, to be held at the Court House of said Hale County, Texas, in Plainview, Texas, on the 6th day of August, 1917, then and there to answer a petition filed in said Court on the 1st day of June, 1917, in a suit numbered on the docket of said Court No. 1542, wherein E. C. Hunter is plaintiff and Lois Pack, H. B. Pack, H. G. Pack, D. S. Pack, Mrs. J. C. Newman, Gladys O. Newman, Emma Gertrude Newman and Virginia Low Newman are defendants.

Plaintiff's cause of action being a suit in Trespass to Try Title to Lot Number Twelve in Block Number Twelve in the Town of Plainview, Hale County, Texas, to recover the title and possession of said lot, to establish and declare a certain deed made by C. E. McClelland conveying said lot to J. H. Buntin, "Trustee for J. N. Donohoo, Homer Pack, J. C. Newman, J. M. Graham, J. L. Vaughn, G. S. Hardy and W. B. Sheffey, dated April 4th, 1908, recorded in Deed Records of Hale County, Texas, Volume 15, Page 612, to be a trust for the use and benefit of the Methodist Episcopal Church, South, at Plainview, Texas; and to remove the cloud cast by such deed on plaintiff's title to said lot and to quiet plaintiff's title to said lot.

HEREIN FAIL NOT, and have you before said Court on the first day of the next regular term thereof, this WRIT, with your return endorsed thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office, in Plainview, this 1st day of May, 1917.

JO W. WAYLAND, (SEAL) Clerk, District Court, Hale County, Texas.

GIRLS! LEMON JUICE IS SKIN WHITENER.

How to Make a Creamy Beauty Lotion for a Few Cents.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quart pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.—Adv.

We now handle the NEW PERFECTION OIL STOVES. Wonderful heaters and cookers for summer use. See the line and the prices. GARNER BROTHERS. Phone 105.

Miss Rebecca Ansley SPIRELLA CORSETIER Telephone Number 304

W. A. TODD, Agent All Kinds of Insurance Office No. 14, First National Bank Building. Phone 129.

Cold Days Require Coal. Why is it that some folks always delay their coal buying and the installing of their stoves until the last minute when every member of the family has run the risk of serious cold or pneumonia and until all of the coal and stove dealers are so busy they cannot give the best service? Surely the wise man will not be caught in a blizzard with his coal supply not yet laid in. We have the supply of coal, we have the prompt service, and the prices are lower now than they will be when winter gets here. Isn't it good health insurance, isn't it good business, isn't it the sensible thing to do to place your order now? Just phone us at 162 and we will do the rest. ALLEN & BONNER

Its the Season for Cream Separators and Incubators. We have the famous DeLaval Separator in all sizes, and Safety Hatch Incubators. Let us show them to you. DONOHOO-WARE HARDWARE CO. Phone 80

Store Opens 6:30 a. m.

THE PLAINVIEW MERCANTILE CO.

Store Closes 6 p. m.

Month of Roses, Month of Brides; Month to Prepare for a Wonderful Summer

For Her Loveliness— The Bride

Knowing that this is the Store where there are always to be found richer things, truer things, than are likely to be found elsewhere, is it any wonder that the sweet brides of Plainview and for many a mile around nearly always prefer that their gifts as well as their trousseaux should come from the Plainview Mercantile Co.?

How many and many and many brides there have been whose charming gifts have been almost exclusively the Mercantile's production!

Through the years and years it has gone on—the gathering and selling of the world's daintiest things for HER LOVELINESS! It is the greatest of all the charms of storekeeping, and never have we had prettier or better things than now.

What of Her Gown?

The Ready-to-wear department have ready all white tulle and nets and charmeuse dresses, besides all white crepes embroidered or beaded which are appropriate for brides and bridesmaids. It is a fad just now—especially with war brides—to choose a rather simple short dress and wear it with a short veil.

Other dresses with a little color are also being chosen for bridesmaids.

Prices are \$15.00 to \$40.00.

Her Charming Negligees

New styles just arriving include flesh colored voils, white dotted swisses over pink and blue linings and Dresden patterned voils, not to mention the crepe-de-chine negligees, some of which are made with jacket effects.

Prices start at \$7.50 up to \$20.00.

Her Sports Hat for Going Away

May be chosen from a fresh shipment. These are charming colors and straws of fine grade, and the new stitched felts that are extremely good looking. American sports hats, too, we have, small and large, in every hue imaginable, as well as a great diversity of styles.

\$3.50 to \$10.00 each.

Her Paris Blouses and Lingerie

She will find a chemise at \$2.50 to \$5.00 delicately hand-scalloped and embroidered, and the lovelier ones carrying the real valenciennes, and the range of prices on other garments is equally wide. Here, too, are exquisite blouses in white and delicate tints with hand-embroidery and real lace.

\$4.95 up to \$10.00.

The Finest Corsets Made for Brides

Beautifully made and exclusive Parisiennes with trimmings you will see nowhere else—corsets made of the finest and daintiest materials such as batistes and broches pink and white at \$2.00 to \$10.00.

Also the finest American Corsets in white and pink. Prices begin at \$1.00.

Lovely brassieres, exceedingly dainty with laces and embroideries and dainty workmanship, 50c to \$3.50.

Her Pumps and Hose

Dozens of styles for her in black kid pumps with narrow, graceful toes and Louis XV heels and prices so low she can afford two or more pairs, \$4.50 to \$7.50.

Special shipment of silk hose in black and white at last summer's prices—

\$1.25 a pair.

MEN Can Get Fine New Summer Suits Here at Low Prices

A man not only owes it to his self respect to wear good clothes, but he owes it to his pocket to buy them right. He can not buy them better anywhere than he can right here. We don't know where he can buy them as well—\$8.50 for any shade of Palm Beach or Cool Cloth; colors light tan, dark tan, two shades of gray, and mixed colors.

Light Flannels in three-piece Suits begin at \$15.00.

MEN Can Get New Silk NECKTIES

Here today at 50c. Big four-in-hands and fancy bows, too. (No advance in prices.)

MEN Can Get the Best \$1.25 SHIRTS

in town, just step inside. We can please you. We have made special preparations. Mighty fine goods of madras in good patterns. Big Shirts; not the skimpy kind.

MEN Can Get the Best Straw HATS

of America by stepping in a few feet of the streetwonderfully convenient. New special lot on hand—Panamas, Milans, Leghorns; some plain tailored styles, some with fancy bands.

\$2.00, \$3.00, \$3.50, \$5.00 and \$6.50.

MEN Can Get New UNDERWEAR

today at something less than usual prices. Some special lots. Knit quarter sleeves and drawers, 25c a garment. Striped madras and knit union suits, both in knee-length and long length, \$1.00 a suit.

MEN Can Get New LOW SHOES

in dozens of styles—whatever you want. Prices are moderate, too,—very moderate, considering all things.

Prices \$3.50, \$4.00, \$5.00 \$6.00, \$7.00 and \$7.50.

LOCATING BOARD SEES SITE IN HALE COUNTY.

(Continued from Page One.)

The board were opened when they glanced upon the five gigantic wells at the Swedish settlement. Here a picture of 1,000 acres of Hale County's best wheat was glanced upon.

The Krauss Farm was the next stop, and from there the inspectors went to the farm of J. O. Johnson, where three irrigation wells were in operation. The Governor and his associates then drove into the Helen Temple Farm, where the Governor was asked to get out of his automobile and see the enormous flow of water from the sea under the earth. The Governor smiled, refused the invitation and answered, "It's water, water everywhere. That's what I have seen all day."

The 1,080 hogs on the 400 acres of alfalfa on the Helen Temple Farm held the attention of the members of the West Texas A. and M. Board. From the Helen Temple Farm the visitors were greeted by delegates from Plainview and Hale County. Fifty automobiles were on the scene. It was the first expression of Plainview's welcome to the board.

After a short trip to the M. D. Henderson farm, the Locating Board was brought to Plainview, where a sight-seeing trip was made through the residential district of this city. The trip ended, when the committee reached the Ware Hotel, where a banquet was held in honor of the A. and M. Locating Board.

THEY ARE MARRIED, NOW.

A marriage license was issued by County Clerk Jo W. Wayland Saturday afternoon to Robert Kelly and Miss Madge Rains, both of Crosby County.

CARD OF THANKS.

We wish to extend our thanks to our friends for their help, comfort and consolation in the sadness brought into our home by the death of our little daughter, Mary.

MR. AND MRS. J. L. SMITH.

FOR RENT—Two nice light house-keeping rooms. Both back and front entrance. Corner of Fourth and East Etn. Phone 618.

Jacobs Bros., big sale announced on page 2 this paper.

COOLED OIL IS NEWEST WRINKLE.

Lubricant Lasts Longer and Works With Greater Efficiency.

HARROUN STARTS IT.

One of Many Racing Lessons Incorporated in His New Car.

DETROIT, June —When Lieutenant Crossman and the famous Guyot brought to the Indianapolis 500-mile race of 1914 one of the Sunbeam cars which had recently established a complete set of world's records on the

Brooklands track, they showed American engineers many points of design then absolutely new.

One of these points was a cooling device through which ran all the oil on its circuit of the motor.

Ray Harroun, then a designer and retired from racing, was quick to appreciate the fact that, in the crude Sunbeam device, there was embodied a genuine efficiency idea, as applicable to racing cars.

Harroun Gets Busy.

Harroun improved the cooler, experimented with it, and installed it in his own car which the Harroun Motors Corporation is soon to produce from its plants at Wayne, near Detroit.

The Harroun cooler is of aluminum and has an inconspicuous position on the left side of the crank case. It is insulated from the motor itself by a thick layer of fabric. Taking the oil at the point of its circuit where it is hottest, the cooler lowers the oil temperature to a remarkable degree and it starts its course over the bearing again, with renewed viscosity.

Tests have shown that the cooling adds greatly to the life of the oil and, at the same time, increases the endurance of the car's bearings which heat, far more than friction, tends to destroy.

Conservation.

Harroun's veritable passion for effi-

ciency is well known to other automobile engineers. He admits that motor-ing remains in many ways a wasteful pursuit, and has for years devoted a large share of his efforts as a designer to the conservation of materials and supplies.

In this work he declares he has been greatly helped by his racing experience, both as a driver and later, a designer. Many of his efficiency ideas have already been embodied in the car which bears his name. More are, he

admits, still in the experimental stage.

Jacobs Bros., Big Semi-Annual Clearance Sale begins Thursday, June 21.

Mr. and Mrs. L. A. Knight spent Sunday with Mrs. Knight's mother, Mrs. F. M. Lester, of Canyon. Mrs. Lester came home with Mr. and Mrs. Knight to spend the summer here.
