PLAINVIEW, TEXAS, FRIDAY, JULY 27, 1917

"CITY OF ROSES" NEW CIVIC BEAUTIFUL IDEA

BUSINESS MEN DESIRE TO HAVE PARKING BETWEEN SIDE-WALKS AND CURBING.

SCENE WOULD BE EFFECTIVE

Administration Will Be Asked to Consider Adoption of Suggestion of Municipal Basis.

"The City of Roses" is the manner in which E. H. Perry would have the world speak of Plainview, and if the city administration adopts the suggestion of Mr. Perry for the municipal cultivation of roses on the business streets, it is quite certain that such an impression will be made upon the minds of visitors, and that Plainview will be the municipal flower garden of the Plains.

The proposal offered by Mr. Perry is to have the space between the sidewalks in the business district and the new curbing, now being put in, planted in grass and rose bushes. This plan Mr. Perry proposes as a substitute of the proposed plan of extending the present sidewalks to the curbing. He believes that it will be a more progressive step toward the beautification of Plainview to have the open space in parking instead of an extension of the sidewalks.

Mr. Perry this morning said: "Portland, Ore., is known the nation over, and perhaps internationally, as 'The City of Rose Perfume,' owing to the extensive cultivation of the rose bushes in the parkings of the business and residential districts. Portland started the development of the municipal rose cultivation on a small scale in the business district, and after the citizens realized the city beautification of the idea, they put forth every effort throughout the city in advancing and promoting the idea to the highest degree. Through their efforts, Portland has gained a world-wide reputation, when city beautiful ideas are considered."

The business men who favor the adoption of the suggestion are of the opinion that the city can easily afford the expenditure for promoting it, and believe the expense in keeping up the parkings will amount to little or nothing when value received is taken into consideration. They also entertained the idea that if the city administration undertakes the promotion of the cultivation of roses in the business district, citizens in the residential districts will eagerly take up the plan, until the whole city will be intoxicated with the perfume of roses.

Efforts will be made by the business men to get the city administration to take up the idea at a future City Council meeting, when it will be pointed out to the councilmen that the landscape arrangement offers unlimited possibilities for civic pride. The Young Men's Business League will also be asked to take the matter under consideration.

Dairy Development in Plains Country Beyond Expectations

B. Myrick, representative of the Cream Separator Association Manufacturers' Company of Waterloo, Iowa, for this state, who has been in Plainview the last few days, stated this morning that the dairy campaign to be launched in the Plains-Panhandle district will put the dairy industry on an established basis in this part of the country, and will help in making this territory the dairy center of the nation.

He says that the dairy industry must be the coming industry as the land enhances in value. He points out that one of the many features of extensive dairying is that it brings in cash money to operate the farm. The dairy cow takes up grasses and converts them into a commercial product every day.

Mr. Myrick says that there have been more "Iowa Dairy" separators this year than in any previous year. The company he is representing expects to send a special representative with the dairy experts on their tour of the Plains next month.

Grocery Firm Moves Into New Home.

The firm of J. T. Hartley & Sons is now established in its new quarters in the Nance & Heffelfinger Building, located on the southeast corner of the Square.

300 New Volumes Received Here for Local High School

Three hundred new volumes have been added to the high school library. The shipment of books arrived here yesterday and will be put in the library for the next school term. These additional books have brought the collection of books in the local institution up to the 700 volume mark.

The books received yesterday are placed in the high school through an appropriation made by the city school board. They are various in character, covering history, literature and science.

Superintendent H. P. Webb announced that an order has been placed for the domestic science supplies and that a shipment of supplies for the chemistry and physics departments is expected within a few days.

"SKINNY" TRIBE HUMILIATES "HIPPO" CLAN IN BASEBALL

T. Stockton and Company Fall to Connect With Twisters of Z. E. Black, Stringbean Twirler.

The Muse of History dipped her pen in the ink last Tuesday afternoon and wrote on the horizon of the celestial heavens the most melodramatic, mournful, woebegone and unostentatious tale of a baseball battle ever known to the inhabitants of fandom. The "Hippo" clan after seeing the score made by its baseball representatives microscopically invaded the Necropolis, the city of the dead. The "Skeletons" have established an absolute monarchy in the realms of baseball-dom.

Intoxicated with the spirit of victory over the commanding lead displayed in the first three innings, the "Hippo" clan dashed around the diamond artistically and gallantly and displayed the highest degree of intellectualism in the performing of trick plays. Every movement was flashy during the early innings, and the members of fandom were certain that the "Fatties" would be crowned with the wreath of victory. There was no doubt at this stage of the battle. One thousand voices in the grandstand and bleachers cheered the fleshy individuals upon every twist of the ball. Two thousand eyes saw the crown of victory resting upon the heads of the "Hippo" clan. The "Leans" were forgotten sons.

Then something exploded. The fire-works were set aflame. The cannon, bomb and other explosives invented and manufactured by the Skinny tribe were turned into action. Some say it was a nunderhand plot, but whatever the source was, it cannot be denied that the rejuvenated frames of bones scampered into the land of championships and pennants. The prognosticator was hailed as the prevaricator by the outraged, infuriated and unostentatious "Fatties" as they stepped from beneath the brilliant rays of the public spotlight. It was a dramatic, heart-rending and mournful scene.

Mademoiselle T. Stockton, lieutenant of the "Hippo" clan, who had trotted out upon the battlefield bespangled in his knee-breeches and a spraking Red Cross embellishing his forward view in the early innings, retired from the field and the eye of fandom. Today the inscription over the entrance to his office reads "lasciate ogni speranza, voi he' entrate," which means when translated into the English language, "Who enter here, leave all hope behind."

"Shorty" Watson responded to the cheers of the "fair Sex" with a terrific drive in the second inning that scored three runs for the Hippo clan. Nearly every member of the gaunt, emaciated and skinny tribe won the hearts of the women present through their progressive steps toward the championship crown after defeat seemed certain for them.

The score? Oh! yes. Something like 22 to 8, was it not, Doctor Wofford?

The receipts of the game were turned over to the Red Cross Society. After expenses were paid more than \$140 greeted the national organization for the making of supplies for the soldier boys somewhere in France battling Kaiserism.

By the way Z. E. Black circled the bases in the fifth inning. He is accused of "blackmailing" the right fielder for a home run. The case will come up in the next term of district court.

DAIRYMEN WILL MEET HERE ON AUGUST 29

EXPERT REPRESENTATIVES WILL EXPLAIN PLAN TO MEMBERS OF LOCAL ASSOCIATION.

WILL GATHER AT COURTHOUSE

Farmers of Hale County to Hear About Future Possibilities of Industry in This Country.

Plainview will be the center of a Dairy Congress August 29, when representatives of the Texas A. and M. College, the agricultural agents of the railroads and representatives of the Panhandle Dairy Association will assemble here to impress upon the farmers of the Plains the importance of the importation of dairy stock and the extensiveness of the possibilities of the dairy industry in this part of the country. The congress of the dairymen will be held under the auspices of the South Plains Dairy Association.

It is the plan of the dairy associations of the various parts of western Texas to import a number of dairy cattle this coming September. The orders for the cows for the farmers in the Plainview country will be taken up under the direction of the South Plains Dairy Association. The local association hopes to order at least two cars from the northern dairy markets.

After the farmers have determined the number of cows desired, they will be required to elect one of their own members to go with the representatives of the A. and M. College and the railroad agricultural agents to Wisconsin to make the purchases. The member elected by the local farmers will have direct supervision of the expenditure of the money for the dairy cattle for the farmers in this district. Each farmer will be required to give a detailed descriptive order of the cows he desires to purchase, and the representative will make the purchase under the advice of the dairy experts.

At the Dairy Congress here in September, the method of purchase will be explained and the character of co-operation extended by the railroads, the A. and M. College and others interested in the movement will be discussed.

Z. E. Black, secretary of the Y. M. B. L., this morning said: "At the meeting of the dairy representatives at Amarillo a few weeks ago, experts pointed out that there is no region in the United States offering greater opportunities for dairying. They based their statements on the agricultural and climatic conditions of the Plains."

L. L. Johnson, agricultural agent of the Santa Fe Railroad, said upon his last visit in this city, that the dairying conditions here are ideal. The fact that there is such an abundance of roughage and food grains grown here and the climatic conditions assure the farmer of healthy cows, which produce a larger percentage of butter fat than in most regions of the Southwest. He believes that with a better breed of dairy cattle in this country, that the butter fat produced in this region will be the equal of that produced elsewhere.

POOL EXPERT GIVES EXHIBITION AT ELKS' HOME.

Fred B. Hall, an expert billiard and pool player, gave an exhibition last night at the Elks' Home. Some of the feature shots of Mr. Hall's exhibition covered the pocketing of one to fourteen balls at a single stroke of the cue, pocketing balls on the fly and juggling ten balls around the table right and left handed at lightning speed. He also demonstrated the Chinese pool game and the famous rainbow spot shot.

McDaniels Wins Game for Maxwell's With Home Run.

After trailing behind the Hermligh team for seven innings, the Maxwellites launched a seventh-inning rally and captured a hair-raising game here last Tuesday afternoon, 2 to 1. McDaniel, the big first baseman of the Maxwellites, won the game with a home run after Hale had tripled to deep center. Mums, who pitched both Monday's and Tuesday's game, pitched masterfully outside of the seventh inning.

COLLAPSE OF RUSSIAN ARMY HARMS ALLIES

GENERAL KORNELOFF MAY USE IRON HAND TO CONCENTRATE FIGHTING FORCES.

U. S. SUBMARINE EXPLODES

Unknown Accident of American Under-sea Boat Results in Five Deaths and Three Injuries.

LONDON, July 26.—A dispatch to the Post from Petrograd says that under General Korniloff's drastic measures to restore order in the eleventh army one whole division thereof was blown to pieces by their own artillery, to avenge the insults which all loyal troops, and especially the artillery, have endured for the last four months.

LONDON, July 26.—An "appalling blow" is the description of the Russian collapse given in a dispatch from Petrograd to the Post. Never in the war has Russia put afield such enormous armies. British and French guns and gunners, flying machines, aviators and British armored cars were added to the unprecedented technical strength of the Russians themselves to make this particular army equal to anything. The artillery was placed in such admirable naturally prepared positions as amounted to the ideal. There were places where the artillery lay not 300 yards from the enemy trenches. Big guns were ideally placed, thanks to the character of the terrain.

Shot Own Gunners.

Information regarding the guns of the Eleventh Army almost staggers belief. It appears that the infantry shot down their own gunners in order to get the horses or shot down the gun horses in revenge as they retreated, leaving practically all the artillery in the Eleventh Army in the enemy's hands.

Five Are Killed and Three Injured When Submarine Explodes.

WASHINGTON, July 25.—An explosion yesterday on the submarine A-7, at Cavite, Philippine Islands, killed five men and injured three of the officers and crew. The dead and injured are reported in official dispatches are: Dead: Lieutenant Arnold Marcus, Hill Valley, Cal.

Machinists' Mate Harold M. Lang, Dorchester, Mass.

Gunnery's Mate Othe Hopewell, Bushy Knob, Mo.

Chief Electrician Jesse M. Currie, Richmond, Va.

Machinists' Mate Joseph A. Krunk, Cameron, Texas.

Injured: Chief Electrician Theodore Schablin, Greenwood, Mo.

Airman Arthur M. Jacobs, Rigby, Idaho.

Machinists' Mate J. P. Hixon.

Hixon's injuries are slight. The others are seriously burned.

PRESIDENT REORGANIZES SHIPPING BOARD.

WASHINGTON, July 26.—Reorganization of the shipping board proceeded rapidly today. The resignation of Theodore Brent, vice chairman of the board, was accepted by President Wilson, and Edward N. Hurley of Chicago was sworn in as a member to succeed Wm. Denman, forced out by the president.

Tomorrow the board will elect Mr. Hurley chairman and the board of directors of the emergency fleet corporation will name Rear Admiral Capps to succeed General Goethals.

Acceptance of Mr. Brent's resignation was announced at the offices of the shipping board. At the White House, it was said no one had been selected to fill his place, but the President is thinking of naming a Republican.

SELECTIVE SYSTEM STIMULATES ENLISTMENTS IN REGULAR ARMY.

WASHINGTON, July 26.—Under the stimulus of the selective plan, recruiting for the regular army showed a decided increase yesterday, bringing in 2,294, with four districts yet to be heard from. That makes the total obtained since April 1 159,007, leaving only 23,891 to be obtained to bring the regular army up to war strength.

Masons Take Two Council Degrees at Meeting Last Night

Eight members of the Chapter of Royal Arch Masons here took the two Council degrees at the Masonic Hall last night. The members who were initiated at the ceremony last night are C. S. Woodrow, Tom Bowlin, S. P. Miller, Clay Barrow, W. C. Longmire, Frank Mauldin, R. C. Dublin and E. B. Miller. After the degree ceremonies were completed refreshments were served.

Y. M. B. L. Meeting Postponed.

The meeting of the Young Men's Business League was postponed last night. It was believed by those present that the representation was not adequate for any constructive business.

DRAFTED MEN MAY LEARN MILITARISM IN PLAINVIEW

W. J. Klinger, Who Commands Citizen Soldiers, Says War Fundamentals Are Taught Every Evening.

That the young men drafted by Uncle Sam for the citizen army from Hale County may know the fundamental principles of militarism before they report to the American training camps, W. J. Klinger, who is in charge of the Plainview military squad of business men, has extended an invitation to all the men to come out to the miniature military quarters and learn the militaristic side of life.

Every evening at 7:15 o'clock more than thirty business men assemble at the call of the bugle at the Maxwell baseball park to go through their regular evening military training. The men are trained in drill and setting up exercises and fifteen minutes are given over to class work and instruction on various phases of the soldier's life.

Mr. Klinger this morning said, "The men drafted for service from here, will find it to their benefit to take some military training before they are actually called to the colors. When the time comes for mobilization, there will be a need for non-commissioned officers, and the men who know the fundamental principles of militarism will have the best opportunity of being appointed to these non-commissioned offices."

The men will be trained according to the requirements of the regular Government manual issued last February with complete revisions of army regulations up to date. About thirty minutes will be given to drill exercises under military command, fifteen minutes to setting up exercises and about the same length of time to school and squad instruction."

Mr. Klinger states that he will be glad to talk the subject over with any person interested in taking up the military exercise, either as training for military service or as a recreation. He will receive applications for membership in the company every evening before and after the regular drills at the baseball park. There has been no age limit set.

R. A. BURGESS, HIGH SCHOOL PRINCIPAL, TAKES CHARGE OF OFFICE.

Prof. R. A. Burgess, the new principal of the local high school for the term 1917-18, arrived in this city yesterday to begin his work. Professor Burgess is a graduate of the University of Texas, and has been engaged in educational instruction for a number of years. Last year he was principal of the Merkle High School.

BURKE MATHES, STUDENT OFFICER, IS HOME ON FURLOUGH.

Burke Mathes, who has been attending the Officers' Training Camp at Leon Springs, arrived here last Wednesday night. Mr. Mathes was given his furlough at this time as the officers believe that he will be assigned to the Royal Aviation Camp at Toronto before August 31.

Mr. and Mrs. T. T. Jonesboro, who have been the guests of friends near Plainview, returned to their home in Austin this morning.

Miss Sara Sue Landers and Ollenede Doubleday of Amarillo are visiting friends in this city.

DRAFT EXAMINATIONS TO BEGIN NEXT WEEK

LOCAL EXEMPTION BOARD WILL NOTIFY MEN WHEN TO REPORT FOR HEARING.

FORTY-ONE TO BE CHOSEN

County Commissioners' Room to Be Place of Inspection—Doctor Lattimore Explains Requirements.

It was announced today that the first collection of official blanks to be used by the local exemption board in the selection of the drafted men for army service were received today. The official list of the drawing at Washington for this county has not been received, but the members entertain the opinion that it will be here within a day or two.

Just as soon as the local board has been notified of the official drawing, it will go into session at the County Commissioners' room in the Courthouse, and will remain in session until the work of selecting the required number for the Hale County quota, which is 41 as officially announced in Tuesday's paper, is completed.

It was announced this afternoon by Dr. J. P. Lattimore that it is possible that more than ninety men will be summoned before the local board for examination, as he believes that more than fifty per cent will be subject to exemption, being unable to pass the physical tests or having dependents.

Doctor Lattimore made the following announcement this afternoon:

"Any person notified must report for physical examination on the day named in his call. If he is found physically disqualified the board will give him a certificate which will explain to him what his future duties are. If he is found physically qualified, and files a claim of exemption within 7 days after his call he will be given 10 days after filing his claim for exemption. If he is found physically qualified and files no claim for exemption or if he does not appear for physical examination, his name will be posted to the district board as one who was called for military service and was not exempted or discharged. On the eighth day after call, or within two days thereafter, copies of the list of persons so posted to the district boards will be given to the press with a request for publication, will be posted in a place at the office of the local board, accessible to the public view, and notice will be mailed to you at the address on your registration card. Therefore, watch

(Continued on Page Six.)

Ben O. Sanford Gets Four More Men for Fight Against Kaiser

The recruiting of men for the navy and regular army continues to thrive under the administration of Postmaster Ben O. Sanford. Since the beginning of the week he has recruited thirteen men and has three more ready to consent to service just as soon as they can arrange to be relieved of their positions here in this city.

Yesterday afternoon Joseph Anderson was sent to Amarillo to take the physical examination for the navy, and J. Benton Fair, George Anthony Fesler and Henry J. Wheeler left yesterday morning to take the physical examination for the army. Mr. Fesler has been connected with the local Santa Fe office as operator, and Mr. Wheeler has been employed as foreman of the water service department of the Santa Fe Railroad here.

Mr. Sanford stated this morning that he has received orders from the Government to enlist as many men as possible who are experienced bakers. The army is in drastic need for several corps of bakers. Up to this afternoon, no word had been received from the Government to stop recruiting drafted men, but it is expected that just as soon as the local exemption board goes into session, the drafted men will be refused the opportunity of volunteering for service either in the navy or army. It was reported today that the local exemption board will go into session about Monday.

Mrs. B. Morgan of Deport, Tex., is here visiting her daughter, Mrs. W. M. Jeffus.

Community Correspondence

PETERSBURG, Texas, July 23.—Everything is looking fine here since the rains. The threshing of wheat was deferred for a few days, but will be resumed today.

The Jay Brothers have purchased a new steam tractor and are running it night and day, preparing land for fall wheat.

Mrs. Nellie Stout of Round Mountain, Alabama, has been visiting her sister, Ms. L. C. Claiborne. She left Tuesday for Huntington, Ark., where she will visit relatives for a few days before going back to her home.

Charles Jay is in Mineral Wells taking baths for rheumatism.

The ice cream social given in the school building by the Mothers' Club was a success. Forty-five dollars were realized.

Miss Lily Dendy is still at Geary, Okla., taking treatment, but word comes that she is improving in health.

At the last meeting of the Needlecraft club, which met with Miss Lucille Moon, the following officers were elected: President, Mrs. T. A. White; vice president, Mrs. N. E. Greer; secretary, Mrs. L. C. Claiborne; treasurer, Mrs. George Thorpe.

Miss Annie Hughes was hostess to a number of her girl friends Sunday. Those dining with her were Misses Alyce Wiese, Annie Hegl, Evelyn Claiborne, Besse Gartin and Genevieve Wilson.

There is regret among the young people over the coming departure of Poe Greer. He will leave Wednesday for De Leon, to again make that place his home.

Ted, the young son of Chas. Schuler, had the misfortune to get his leg broken Friday by a heavy gate falling on it.

Honoring her nephew, Harold Swaney, of Kansas, Mrs. B. F. Moore entertained most charmingly Wednesday with a lawn party. Quite a merry crowd participated in the enjoyment of games outside and music inside. Japanese lanterns strung about the lawn made a pretty scene. Cake and punch were served.

The M. E. congregation is enjoying a revival at this place now. The pastor, Reverend Wilkins, is assisted in the work by his brother.

The Misses Shankle from Memphis were here for a short visit the latter part of last week, as the guests of their uncle, E. B. Shankle, and family.

Dr. and Mrs. Greer are entertaining their father and sister and family from De Leon.

Mr. Gene Horn has gone on a visit to home folks in Hugo, Okla.

Mrs. R. V. Young and little daughter, Margaret, arrived Friday and are the guests of Mrs. Young's sister, Mrs. B. F. Moore. Mrs. Young is en route home to Artesia, N. M., after spending several weeks with her parents, Mr. and Mrs. E. Callaway, at Wichita, Kansas.

Lockney, are visiting Mrs. Scales' parents, Mr. and Mrs. J. C. Homan of this place.

Mr. and Mrs. J. R. Goodwin of Kaufman County are visiting their daughter, Mrs. D. H. Spence here.

Swert Clark has returned here after a visit at Commerce.

Miss Pauline Raeter is on the sick list at present.

Mr. and Mrs. Ira Hammer left Tuesday for Virginia, where they will visit their parents.

Miss Eva and Miss Hazel McDaniel are visiting relatives here.

The party given at the home of Mr. and Mrs. Spence last Tuesday was enjoyed and well attended.

Mrs. Stuart and Miss Barrett are visiting their sister, Mrs. C. C. Covert.

WHITFIELD, July 23.—Mr. and Mrs. George Chaplin of Fort Worth are here visiting Mrs. W. C. Ooley for a week.

Mr. and Mrs. I. C. Nations entertained a few friends Saturday evening. Those who attended were Mr. and Mrs. Real, Mr. and Mrs. Marvin and little daughter of Wichita, Kans., and Mr. Woods and Mr. Weaver of Lubbock.

Mr. Edwards and daughter of Kress attended the meeting here Sunday evening.

Mr. and Mrs. Len Pendley of Dimmitt are visiting Mrs. Pendley's parents, Mr. and Mrs. Garner.

Mr. and Mrs. Street and daughters returned Sunday from Oklahoma.

Mrs. J. C. Edwards went to Hereford Tuesday to visit a few days.

Mrs. Edith Gamble visited her mother here the first of the week.

The Sunday school will hold a picnic next Saturday at the grove on Mr. Street's place.

LITTLEFIELD LAUNCHES A "GET-ACQUAINTED TRADE EXCURSION."

LITTLEFIELD, Tex., July 25.—Approximately one hundred and fifty Littlefield citizens made a successful and pleasant "Get-Acquainted Trade Excursion" to the towns of Olton and Spring Lake in the northern part of Lamb County yesterday. Automobiles loaded with persons and baskets of good things to eat, made the trip at an average rate of twenty miles an hour over the splendid roads. Dinner—bounteous in quality and quantity—was served under the big trees on the courthouse square at Olton after a program had been rendered by the band, quartet and public speakers. A similar program was carried out at Spring Lake in the afternoon. This is the first excursion of its kind ever attempted in this county, and its main object was to get acquainted with the people in the other sections of the county with a view to develop Lamb County.

FARMERS URGED TO WATCH THAT NO WHEAT BE WASTED.

WEST SIDE, July 26.—Mr. and Mrs. C. H. Scales and little son, Donald, of

COLUMBIA, Mo., July 26.—"Watch That Machine" is a slogan akin to

TRUTH

As its advertisement—so the car. An honest announcement goes with an honest car.

Truth is the eternal test.

You will never read a Chevrolet statement making any extravagant claim.

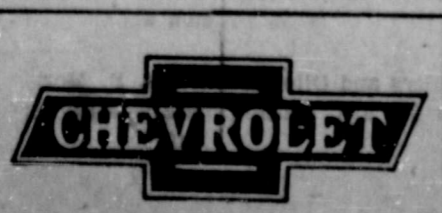

True, we have claimed certain qualities for our car—superior motor-power, easy riding comfort, low cost of upkeep—but we have always been prepared to support our statement with the proof.

We claim that the Chevrolet model—now as always—stands for the highest motor value in its price class.

Test our statement—see the Chevrolet car, ride in it.

You will find—as thousands of others have—that we have spoken the truth.

E. N. Egge Auto Co.

"Get the Money" since two-dollar wheat is certain. Watch the threshing machine and the strawstacker as never before. It may pay to rake many a field and thresh the loadings this year.

In a letter to Secretary Mayes of the Missouri State Board of Agriculture, A. G. Hauser of Kiowa, Kansas, tells of raking 140 acres of wheat stubble and getting 146 bushels. He also found too much wheat in the straw stack, and he re-threshed that straw and at a total cost of a dollar a bushel, getting 131 bushels of wheat.

Maxwell Proves Economy in an International Contest

Fifty Maxwell motor cars carrying four passengers each, in fifty different cities and towns, ran an average of 39.67 miles on one gallon of gasoline each.

An average of 27.47 miles was made by a total of 892 Maxwells running on one gallon of gasoline each.

These were the big, outstanding results of the Maxwell Dealers' Gasoline Economy Contest which took place in the United States and Canada on Wednesday, May 23.

In all the runs, privately owned Maxwells, in actual daily use by purchasers, were employed.

In each car there were three observers—newspaper men, public officials, or officials of local Chambers of Commerce or Automobile Clubs.

These observers made affidavits as to the results of the runs they watched.

The Maxwell Motor Company offers these certified contest figures as proof of its claim regarding the Maxwell's economy.

If you want to hold down gasoline bills buy a Maxwell.

J. M. Lipscomb, Manager

THE NEWSPAPER IN WAR TIMES.

By Herbert F. Gunnison of the Brooklyn Daily Eagle.

Notwithstanding the proposed heavy burden of taxation which Congress has in store for the newspapers, and the wonderful support which the press of this country has given to every Government measure, it is evidence of the loyalty of the publishers and the effectiveness of newspaper publicity.

When the Liberty Loan was started it became evident that the public was not aroused sufficiently to make success assured. The Government officials were worried and the final outcome was in doubt.

The newspapers both took up the work with enthusiasm and conducted a campaign of effective publicity that aroused the nation to action and to liberal subscriptions.

With the same loyal support the newspapers undertook the campaign for the Red Cross Fund.

Never has there been such marked evidence of the value of newspaper advertising as was shown in the call of these two monumental enterprises.

While Congress has been dilatory and passively obstructive, the newspapers of the country, with hardly an exception, have given loyal and wholehearted support to every policy of the Administration since the war began.

It is fair to suppose that this kind of support will be rendered in the future.

It is a remarkable thing that the publishers have placed no restrictions on space or persistency and have given full use of their columns to the editors and reporters and artists who have put their enthusiasm and best efforts to the task of educating the public to liberal giving.

Every newspaper office has been depleted in men force and yet the work goes on without complaint or quibbling and it will continue in the same effective manner to the end.

During my entire newspaper experience I have never witnessed such splendid public service as has been rendered by the Press of America during the past few months.

The voluntary censorship of news is only another evidence of this loyal spirit.

What of the future? No one can tell.

There may be a period of inflation that will stimulate business and advertising. And yet the depression that may come because of the horrors of

war and the economies that are already being practised, may lead to a wholesale curtailment of the use of advertising space.

But whatever happens, the American newspapers can be depended upon to serve well, even if they suffer and make many sacrifices.

With the tremendous increase in the cost of white paper and all the other articles that go into the manufacture of newspapers, the owners have not faltered nor complained.

They, too, have practised economies, but there has been no cheapening of their product or curtailment of the news.

This is a record worthy of commendation.

When the history of this period is written the newspapers will at least deserve honorable mention.

FARMERS ARE URGED TO DOUBLE WHEAT ACREAGE.

Texas should double its wheat acreage this fall. The world's great cry is now for bread; there is no longer a surplus of wheat and it can be used at good prices all that may be produced for several years to come. Texas can render no greater service than that of doubling in 1918 its average production of from twelve to fifteen million bushels of wheat.

The Government's campaign for increased food production came too late this year for our farmers to accom-

plish much in increasing the wheat supply, although by proper shocking and handling the crop they can eliminate a large amount of waste. Wheat harvest is now in progress and the farmer should not be tempted by high prices to sell all of his grain and make no provision for seed wheat. He should retain enough to seed double this year's acreage, and he should select the seed with care so as to make possible maximum yields in 1918.

The best wheat obtainable is that grown in the community where it is to be used, because it is adapted to local climatic conditions. In many cases it is not too late to select seed wheat in the field, picking and threshing separately the longest, best filled heads from short, thick stalks. The largest, best developed grains should be secured by using a wheat fan or an ordinary sieve, so as to remove small, shrunk, inferior grains, trash and weed seeds. Seed wheat should be spread out in a cool, dry place and stirred at frequent intervals.

It is possible by careful seed selection to assure an increased yield per acre of from ten to twenty per cent, and with wheat at present prices and the probability of a Government guaranteed minimum, Texas farmers can obtain large profits from more extensive growing of wheat during the coming year.

The scarcer fresh vegetables are—the more valuable are the canned ones.

Don't Put Off Painting! We Make It Easy

THE average house will require but 5 gallons of O. V. B. Paint for two coats. Your painter will say it's not only the farthest spreading, but the easiest working paint he ever used. And how it sticks! You can depend on it. It's the right paint for "wear" as well as "spread."

Fine color effects in your house painting. You can get color combination ideas at a glance—suggestions that show how attractive your own house will look painted with

"All That is Best in a Paint"

Come in today. See how easy it is to choose your color combination with the help of our color cards and colored photographs of painted houses.

Announcement To Our Friends and Patrons

All steel products continue to advance in price. We are just as anxious as you are to have you get the farm machinery that you will need at the least cost and therefore urge you to place your orders for your needs before we are compelled to increase prices.

Present markets are so unsettled that we expect to order only a sufficient number of grain drills and row binders to fill such orders as may be placed with us before August 1st. We cannot insure delivery or guarantee price after that date. You are therefore urged to get your orders to us promptly.

We thank you for past patronage and solicit your future business.

R. C. Ware Hardware Company

*John Deere Implements and Row Binders, and Van
Brunt Grain Drills*

TO THE PEOPLE OF PLAINVIEW:

You have all no doubt read about the government asking the merchants, who deliver merchandise to cut out as much delivery expense as is possible and asking that they place in operation a co-operative delivery system so as to release as many men and vehicles for other work that will be necessary to win the war. We, the undersigned, have organized a system that we hope will be satisfactory to our customers and ourselves.

THERE WILL BE FOUR REGULAR DELIVERIES EACH DAY
8:30 a. m., 10:30 a. m., 2:30 p. m. and 5:30 p. m.

We will make one special delivery each day for feedstuff only at 1:00 p. m., and feed will be delivered only on this hour. We will make one special delivery at 7:00 a. m. for fresh meats to the hotels and regular boarding house trade only. Each wagon will have a regular route for all time and may take a few days to get this regulated. To insure delivery at a certain hour our customers will have to get the order in early enough to give us time to get it up at least thirty minutes before delivery hour, otherwise the order will have to wait for the next delivery hour. There will be no special deliveries between or after regular hours. The government asks us to make only one delivery each day but we want to give our customers the best service possible and at the beginning will make four deliveries each day.

Where this plan has been tried both customers and merchants are well pleased with it and we ask that our customers help us to make it a success as in the end we will all be benefited.

If it be possible to get the equipment ready this system will be started July 30th.

TWELVE HUNDRED MILLION DOLLARS' LOSS IN TREMENDOUS MANURE WASTE EACH YEAR.

Farmers are urged in a statement issued today by Assistant Secretary Carl Vrooman to make every effort to save the vast amount of valuable manure now allowed to go to waste in this country. Assistant Secretary Vrooman estimates that one-half the manure produced in the United States is not used as a fertilizer, there being an annual loss of material worth twelve hundred million dollars—once and a half the value of the country's 1916 wheat crop.

"This is not a wild guess," he continues, "but a very shrewd and conservative estimate based on reliable statistics. It has been found that each horse or mule produces annually \$27 worth of manure (as compared with commercial fertilizers); each head of cattle \$20 worth; each hog \$8 worth. Calculating from the 1916 census figures for number of animals on farms—62,000,000 cattle, 24,000,000 horses and mules, 58,000,500 swine and 54,500,000 sheep and goats—the total value of manure produced is found to be about \$2,461,000,000. Recent investigations by the Department of Agriculture indicate that at least half of this great wealth of fertilizing material is sheer waste. In some general farming sections not more than 15 per cent of the manure produced is used. Even in the most intensive dairy regions, where cows are largely stall fed and comparatively great care taken with the manure, the loss seems to be approximately 25 per cent.

"Here, then, is a job for the American farmer, worthy of his utmost effort and in keeping with the spirit of this great hour in American history. To save a billion dollars worth of manure is a Herculean task—a veritable latter day Aeneas stable job—for it means the handling of literally millions of tons of dung and litter. It means the construction of concrete manure pits, of paved feeding pens or sheds, and greatly increased care in the conservation and use of bedding materials. It means a lot of work, but it is work that can be done at odd hours and moments, and work that will pay tremendous dividends, not only as a war measure, but conceivably for all time, for if we once get the habit of making full use of our available manure supply we are not likely to lapse into the old, wasteful ways again.

"The cheapest and best way to handle manure, where convenient, is to haul it to the field and spread it daily, or at least every two or three days. In this way, if plenty of bedding be used, practically all the valuable constituents of the manure are saved, since leaching after the manure is on arable land merely serves to put the fertilizing materials where they ought to be. In this way, too, loss through heating, or "fire-fanging," is avoided.

Jars are worth as much as ever in winter—vegetables worth more than ever. Home canning pays.

HIGH COST OF LIVING IS IN BUYING.

Let the people demand legislation to take care of the man in business who is lacking in experience and knowledge in buying—is one of the solutions to the food question, the law to apply especially to the Butcher and the Grocer. The ordinary run of business is working at a disadvantage owing to the fact that the middle man is reaping the profits and the consumer is developing "Hysteria"—one cause of the high cost of living.

Normally the general public is unable to solve the food problem, the shrewd business man or woman invites criticism, because of their knowledge of good business material the margin in business is the necessary element to create confidence in our general welfare.

The packers and the stock raisers are the balance-wheel of intelligence in our commercial and industrial centers, the food producing elements controlled by proper methods holding one's better judgment in reserve until a better method can be advanced. No reasonable man or woman can exercise intelligence in buying until he knows some of the material facts pertaining to the system of food handling. The food producer becomes the loser if he does not properly care for his distribution, hence the reasonable solution to the food question is the establishment of a food bureau—the food bureau to be similar to the weather bureau.

Thus the over-and under-production of our food supply would be properly cared for—the underlying principle of good government is in our government fulfilling its obligations to the people on a "Business Basis." Thus the reasonable solution to the food prices would be solved and a scientific distribution of our material resources along lines intelligently brought about by coming in contact with the various representatives whose duty it would be to advise with the Central Food Bureau, produced out of a natural distribution of natural resources along lines intelligently brought about by coming in contact with these various representatives whose duty it would be to advise with the Central Bureau, 121 East Forty-Third street, Chicago.

Don't have an empty preserving jar in your neighborhood next fall.

Some neighbor surely can eat or put up surplus products from your place.

We collect past due notes and accounts for merchants, professional men and farmers anywhere. We make no charge unless we collect. Give us a trial.

SOUNDS AND SOUNDS.

Mrs. Flatbush—"They say the English language has eighty-two sounds."

Mr. Flatbush—"Is that all?"

"Why, isn't it enough?"

"I suppose it is, but if that is a fact that eat next door must know some other language besides English."

MRS. MAMIE HALL GAINS 19 POUNDS.

Was Sick in Bed for Eleven Months and Only Weighed 96 Pounds—Now Well and Happy Again.

Still another comes forward and adds her voice to the hundreds who have already endorsed the wonderful medicine, Tanlac. Mrs. Mamie Hall, who lives at 805 Fourth Avenue, South, Nashville, Tenn., says she suffered for years and had fallen off until she weighed only ninety-six pounds, but that she now weighs one hundred and fifteen, a gain of nineteen pounds.

"I had a bad form of stomach trouble," said Mrs. Hall, "and had suffered from it for years. I lost much flesh and was so weak that I was confined to my room and bed for eleven months and my head ached so bad I could hardly stand it at times.

"Yes, they actually had to prop me up in bed to take a drink of water, as I just couldn't help myself at all. I lived on malted milk and graham crackers. The steady pains in my chest made me afraid I had lung trouble and my head ached so bad it seemed like it would burst.

"About a year ago I was taken to the hospital, the doctors saying I had cancer of the stomach. I was so nervous all this time that the slightest noise would almost drive me mad, and the pains in my back hurt me so I hardly ever got a night's rest.

"My husband was terribly out of heart about me, as the doctor said nothing would save me but an operation. We had spent a lot of money for

medicines and it seemed like nothing would do any good.

"Well, sir, I happened to see a piece in the paper about Tanlac, and it told about a woman in Louisville that was suffering just exactly the same way I was. I begged my husband to let me try it and he said he had no faith in it, but he would get it if I wanted it. So he got a bottle and we kept it secret from the doctor.

"That was the best thing I ever did in my life, for I began to feel better

and gain weight with the very first dose. I had gone down so I didn't weigh but ninety-six pounds, but now, after taking four bottles, I weigh one hundred fifteen—five pounds more than I ever weighed in my life.

"I now feel strong and well and can do all my housework. I can eat anything. Why, I actually ate a tomato after I had been taking Tanlac a week, and that's something that never would and that's something that never would of those terrible pains and I am doing

fine in every way. "I got a letter yesterday from husband at Chattanooga, and he he had taken two bottles of Tanlac and was doing fine. I am going Chattanooga Sunday, and will take a bottle of Tanlac in my g This medicine just about saved life and kept me from having to have an operation."

Tanlac is sold in Plainview by Lo Harp Drug Co. and in Hale Center Hale Center Drug Co.—Adv.

To Save is to Serve

The Women of America May Lend Tremendous Aid In These Turbulent Times

Simply by exercising the woman's prerogative—by acting in her natural capacity as the censor, and sponsor, and dispenser of her own household.

By installing in your home the greatest of time-savers and money-savers. By employing the power of electricity as the greatest help of the age.

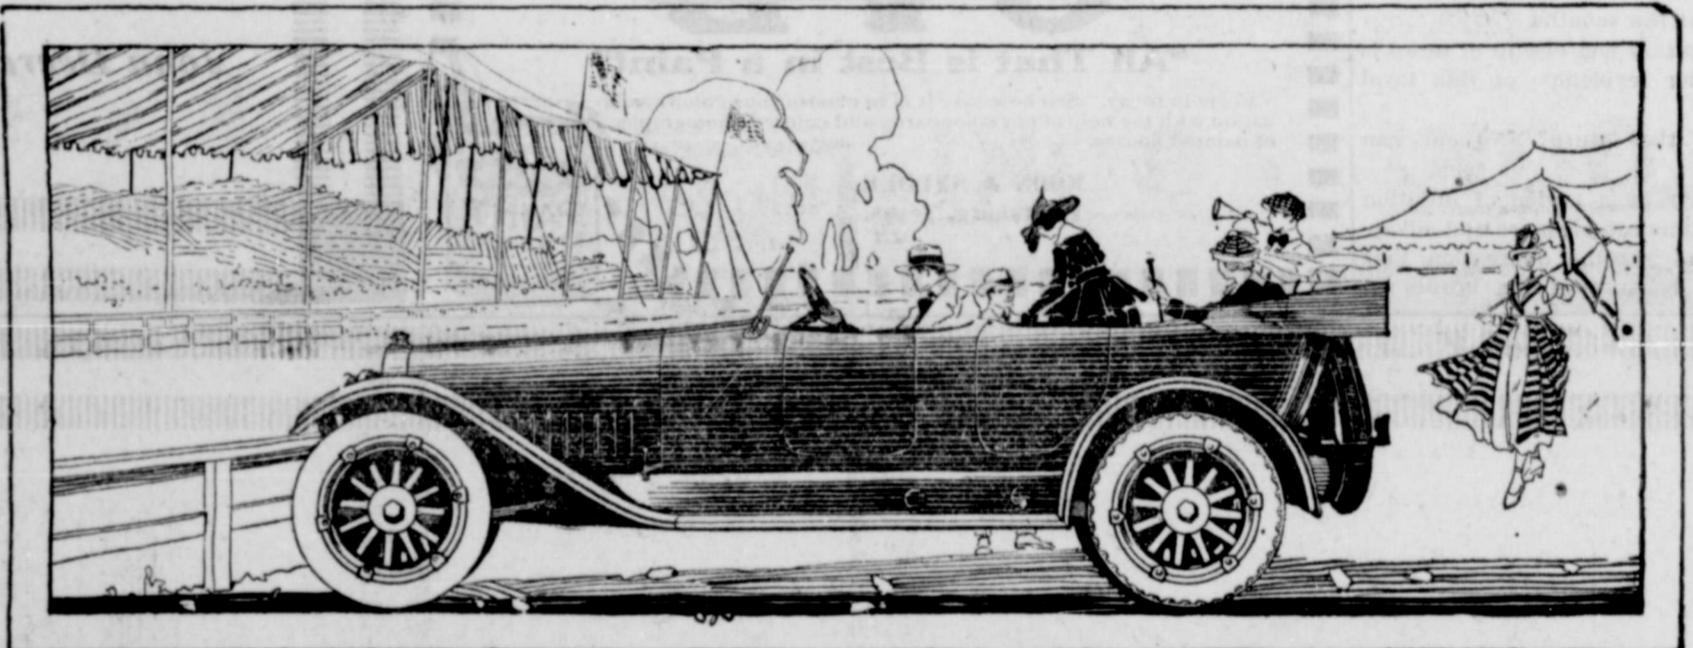

The woman who cooks, cleans, sews, washes or irons electrically, has her work simplified. Thus she saves time to serve her household as well as a Nation.

"DO IT ELECTRICALLY"—yourself—save time—save effort. Let electric service do your work—more easily, more readily—more economically.

ELECTRIC WIRING—We are in position to thoroughly and competently wire your home or business building. Get in touch with us.

See these New Ideas In Car Building

The Mitchell embodies many ideas which are novel, as yet, in a car.

They mean more complete equipment, greater strength, and added beauty. They mean extra comfort, convenience and economy. So no one should decide on a new car without knowing them.

This is to urge that you judge these new standards before buying a high-grade car.

THE BASIC PRINCIPLE

For 14 years the Mitchell manufacturing policy has been guided by John W. Bate.

The first object was factory efficiency. That is, to build the complete car—chassis and body—in a model factory at a minimum labor cost.

Millions of dollars have been spent to that end in this factory and equipment. Now in this modern factory, covering 45 acres, we are building an

extra-grade car for less than we believe anyone else could build it.

The evidence is not all in Mitchell prices. They are lower than any comparable cars. But much of this saving goes into features which nearly all cars omit.

THIS IS OUR 19th CAR

The latest Mitchell—built in two sizes—is the 19th model built under Mr. Bate. It is the final result of more than 700 improvements.

We have watched 70,000 Mitchell cars on the road to gain new ideas for this one. Mr. Bate spent the year 1913 in Europe to study new engineering standards. And the designers of the Mitchell on show today examined 257 new models to combine all the known attractions.

So the latest Mitchells embody all we know, and all anyone knows, to make an ideal car.

THE CHIEF DISTINCTIONS

Our costliest extra is 100 per cent

over-strength. That is twice our former margin of safety. And the purpose is a lifetime car.

There are 31 features, like a power tire pump, which nearly all cars omit.

There is unusual luxury. In the past year alone we have added one-fourth to the cost of body attractions. There is extra-grade leather, neat-fixed finish, and countless dainty touches. There are handles on the windshield for entering the car, a light in the tonneau, a locked compartment for valuables, etc.

TWO SIZES—TWO PRICES

We are now building two sizes, so more motor car buyers can enjoy all the Mitchell advantages. So you get a Mitchell lifetime car from \$1250 up.

All these unique features are essential to the utmost in a car. Go see them. See how our idea of strength, beauty and equipment differ from the rest.

LESSONS IN HOME CANNING

The following tables are for the benefit of those who attended the lecture and demonstration on Food Conservation and Canning.

By "blanching" is meant dipping in boiling water from 5 to 10 minutes. By "cold dip" is meant plunging the product quickly into cold water after blanching or scalding.

String beans, okra, English peas and corn should be blanched 10 minutes and then cold dipped. Teaspoon salt to 1 quart and 1 teaspoon sugar with peas and corn. Intermittent process.

Tomatoes.—Scald one minute, cold dip and add 1 teaspoon salt and sugar to 1 quart. Process 20 minutes for pint jars, 30 minutes for quart jars.

Beets, Carrots and Sweet Potatoes.—Cook three-fourths done, cold dip and peel. One teaspoon salt and sugar to 1 quart. Intermittent process.

Soup Mixtures.—Containing corn, tomatoes, okra, Lima beans, etc. One teaspoon salt and sugar. Intermittent process.

Rhubarb.—In this dry climate can be packed in cold water and sealed without cooking.

Apricots, Peaches, Apples and Pears.—Scald 1 or 2 minutes. Use plain water or thin syrup. Process 20 minutes.

Blackberries, Dewberries, Cherries, Gooseberries, Strawberries, Grapes and Plums.—Do not scald. Use plain water or thin syrup. Process 20 minutes.

Following is the recipe for tomato sweet pickle spoken of at the demonstration:

1 peck green tomatoes.
6 large onions.
Slice, sprinkle 1 cup salt over them

and let stand over night. In the morning drain, add 2 quarts of water and 1 quart of vinegar and boil 15 minutes. Drain again and throw away this vinegar and water. To the tomatoes and onion add 2 pounds sugar, 1 quart vinegar, 2 tablespoons cloves, 2 tablespoons ginger, 2 tablespoons allspice, 2 tablespoons mustard, 2 tablespoons cinnamon, 1 teaspoon cayenne pepper. Boil 15 minutes and seal in hot jars.

Anyone desiring further information in regard to canning, phone Mrs. Whitis, 229.

The stove used for the demonstrations was kindly loaned by the R. C. Ware Hardware Co.

Some suggestions of the cold-pack method demonstrated by Mrs. Whitis last week follow:

One hour from the garden to the can.

Products left in their natural state spoil in a few hours, owing to the growth on their surface or in their tissues of bacteria, molds, or other organisms of decay.

Clean hands, utensils and fresh products are essential.

All grit and dirt should be washed from the materials.

Most products by the one-period cold-pack method consists of five steps—scalding or blanching, cold-dipping, packing, processing and sealing.

Blanching is dispensed with in canning berries and all soft fruits.

Jars, cans and utensils should be sterilized before using.

As soon as the product is removed from the boiling water or steam, it should be dipped into cold, clean water and removed and drained.

The product should be packed care-

fully into hot jars as soon as removed. In the case of fruits, boiling syrup or hot water is then added. In the case of vegetables, hot water is used and salt is added for seasoning. The scalded rubbers and tops of jars are put into place, the tops of cans sealed, and the containers are placed in a hot-water bath, pressure cooker, or other similar device for processing.

Processing is the final application of heat to sterilize the product and is continued for a period determined by the character of the product and the kind of apparatus used. The container should be placed in the processing vessel as soon as they are filled.

Immediately after the termination of the processing period, while the products are still hot, glass and similar containers must be sealed.

Jars should then be placed in a tray upside down and closely examined for leaks. If leakage occurs, the covers should be tightened until they are completely closed.

When the packed containers are thus cooled, they should be stored in a cool, dry place not exposed to freezing temperature. Most products packed in glass jars will bleach or darken if exposed to light. It is well, therefore, to wrap jars in paper.

BAD NEWS.

Visitor (hungry)—"And at what time do you have dinner, my little friend?"
Terrible Boy—"Soon as you've gone."
—London Opinion.

UNCLE SAM'S THRIFT THOUGHT FOR TODAY.

Milk Toast.

Don't throw away stale bread and left-over skim milk, Madam Housewife. From them you can make that simple and well known but nourishing dish, milk toast, the United States Department of Agriculture points out. This makes a good dish for breakfast, luncheon, or supper, especially for children.

Heat the milk. Add a small quantity of butter and season to taste with salt. Pour while hot over well toasted stale bread and serve.

A Special Exhibition of the New Mechanical Bookkeeper at THE THIRD NATIONAL BANK

A cordial invitation is extended to you to come into this bank and inspect the wonderful Burroughs Bookkeeping Machine which we have just installed. This "bookkeeper with brains of steel" that cannot make a mistake is on exhibition in our banking room.

We want you to see just how this machine operates—how it adds, subtracts and figures balances without an error. Our bookkeepers will show you exactly how our books are posted by machinery. The demonstration will be both interesting and instructive. Samples of the work will be distributed to everyone present.

This machine has been installed for the purpose of giving added protection to our depositors. We urge you to call and become acquainted with this improved method of handling your account.

OWEN M. RICHARDS, Editor E. B. MILLER, Business Manager

Entered as second class mail matter July 1, 1914, at the Post Office at Plainview, Texas, under the act of March 3, 1879.

\$2.00 a Year; \$1.00 6 Months. Advertising Rates on Application.

LET THE TRUTH COME TO SURFACE.

The people of Texas are beginning to learn a story about the politics of the State. The action of Speaker Fuller is only an introduction, and by the time a few more pages of the book are turned, there is a possibility that an amazing story will pierce the minds of the common citizens, who have trusted the administration with the governing and guiding State unto her destinies.

We are not certain about the facts of the University case, as both sides give a different story. We are certain though that there is an element of confusion that tends to undermine the proudest educational achievement of the people of Texas. There are a few citizens, who have the interests of the welfare of the State at heart, care to see the doors of the University close. They do not care to see their state educational institution suffer because of politics.

In regard to the A. & M. Locating Board's action, the people are satisfied that some member has made a mis-statement or that somebody is misunderstood. The people of the Plainview country have the A. & M. controversy at heart, and would like to know the truth. We hope that the action started by Speaker Fuller will throw a light on the subject and that the truth will be known to all, whether it was fair or unfair. We want to know how we are being represented in the administration of the affairs of the state of Texas.

CITY MARKET SQUARE IS WELL WORTH WHILE.

The new City Market Square provided by the city for the farmers is another step forward in making Plainview a successful center of an agricultural community. It provides facilities that will afford the farmer an opportunity of disposing of his products and obtain necessary cash. It will be a privilege for the consumer to meet the farmer face to face in buying products. The farmer in this community has long been in the need of a market place, and the city administration will never regret the step taken in establishing the present Market Square. It is the one necessary element in the life of a city that hopes to be a center of a successful farming community.

BY-PRODUCTS AND THE FARMER

By-products of the farm, diversification as Texas best knows it, are fetching war money to the farmers' bank account. The other day a Missouri farmer drove into the county seat carrying in one automobile and one wagon by-products of the farm which sold for \$1,380. The transaction was spot cash. The by-products consisted of wool, feathers, poultry products and garden truck. Wherefore the St. Louis Republic meditates thus: "Time was when the average farmer would not have fooled with any of these products, except wool, considering them good only for use by the women folks in trade at the village store—as, indeed, they were. But the world is calling for the products and by-products of the American farm as never before. The farmer who neglects the call and allows things to go to waste for which there is an active cash demand is the one who will still have a mortgage on his place instead of a tractor and an automobile." Which applies to Texas farmers as well as Missouri farmers. As in union there is strength, so in by-products there is sound farm prosperity.—Star-Telegram.

PLAINVIEW—"THE GARDEN OF ROSES"

"A City of Roses" is the latest suggestion proposed for the beautification of Plainview. The plan of filling the atmosphere of this city with the perfume of roses is the hope of many progressive business men who are always interested in the expression of the beautiful in the life of the Queen City of the Plains. They believe that it will not only be an elevating piece of work, but will gain for the city a certain distinction that will make every person think of Plainview as the garden of the roses in the West.

Business men are heartily indorsing the idea to carry out the civic beautiful expression and are working to stimulate an interest upon the part of the city administration to adopt the proposed idea. The aldermen will be asked within the near future to reconsider the former plan of extending the sidewalks of the business district to the new curbing, and accept the suggestion of the rose planting idea as a substitute. The business men believe that more satisfaction will be obtained, and are certain that the value received will be greater.

The opportunity to make the idea practical could not be brighter in no man's land. The soil and water assure perfect growth, and the city is prosperous enough at this hour to undertake this work of city beautification. When the municipal authorities start action the residential districts will follow in line. Then garden of roses will be a realized in Plainview.

West Texas A. & M. Association May Halt Location of College.

SWEETWATER, Texas, July 26.—Representatives of the West Texas A. & M. College Association, in session here today, decided to seek an injunction to forestall any action looking to the construction of the school at Abilene until the controversy as to whether Abilene was fairly selected has been settled.

Abilene, although not a member of the association, was represented at the meeting, the claims of that city being presented by Fred Cockrell. He urged that the selection was fair and regular.

Refers to Fuller.

Cockrell claimed that Editor Anderson of the Abilene Reporter, says he was told by Fuller that he, Fuller, did vote for Abilene and that Anderson says the conversation can be verified by a telephone operator. He read two telegrams from Austin claiming that Governor Ferguson would say Fuller voted for Abilene, and he further claimed that Fuller told other parties he had voted for Abilene on the second ballot.

Secretary Hodge of the Association read affidavits made by Speaker Fuller, Lieutenant Governor Hobby and Commissioner Davis denying that they had voted for Abilene.

Would Postpone Action.

Mr. Collins of San Angelo made a speech opposing legal action at this time, preferring to wait until after the meeting of the Legislature had been held. His motion to postpone action, however, was lost, the vote being 5 to 4. A motion carried to proceed with efforts to secure an injunction and steps were taken to se-

cure funds to prosecute the case. The towns represented at the meeting were: Amarillo, Stamford, Lubbock, Snyder, Big Spring, Wichita Falls, San Angelo and Sweetwater. The building was packed with spectators, interest being keen.

BURIED AT FLOYDADA.

The body of R. T. Miller, a former resident of Plainview, who died last Tuesday afternoon at Claude, was shipped here Wednesday morning and sent to Floydada in the afternoon, where funeral services were held. Mr. Miller was formerly located here in the grocery business.

National Magazine Praises Memembrs of Maxwell Ball Club

In the last issue of the Maxwell Shield, the Maxwell baseball aggregation of Plainview is given considerable space in praise for its victorious baseball campaign in the Plainview country. In addition to the eulogy of the team, a picture of the combination is displayed. The words of praise are as follows:

"Everybody is proud of the Maxwell baseball team of the South Plains Motor Company, Plainview, Texas, for more reasons than the ability of the members to play good ball.

"Lovers of the national pastime are proud of the team because the boys can play high-class ball. The team has recently completed a two weeks' tour, during which it won twelve games out of sixteen played. Two of the games were dropped to opponents and two were tied.

"Only on the ball field are the Maxwell players ever a noisy bunch. Some persons are proud of them because of their quiet manners. Because the players voluntarily retire at ten each night, while on a trip, and do not smoke cigarettes they are the pride of the good people of the community. Owners of Maxwell cars in the territory covered by the South Plains Motor Company are proud of the boys because the mechanics on the ball team overhauled the Maxwell cars in each town where the team played.

"The Texas distributor is proud of the team for building up a kindly feeling among the local Maxwell owners. The officials of the M. M. S. C. are proud of the players because of all of their good points. Members of the team are mechanics, salesmen, clerks and managers of the South Plains Motor Company. Before the team started the tour of the distributors' territory hand bills were sent to the different towns. These dodgers advertised the \$50,000 U. S. Liberty Bond contest.

"The bills also advertised the fact that there were Maxwell mechanics with the team who would inspect any Maxwell car free of charge. Where necessary the mechanics made adjustments. Salesmen also were with the team. Owners of Maxwell cars were greatly pleased with the service members of the baseball team rendered."

DRAFT EXAMINATIONS TO BEGIN NEXT WEEK.

(Continued from Page One.)

The notices posted in the office of the board about ten days after the day you were called and make arrangements for the prompt receipt of mail."

Preparation for Mobilization of American Army Begins.

WASHINGTON, July 25.—Preparations for actual mobilization of the National army went ahead here today, while the local selection boards in many parts of the country began summoning for examination the men who will compose the force.

There are numerous details to be worked out before those summoned actually can be transferred to the military establishments and be sent to their training camps. It is believed now, however, that a considerable number will have been finally selected and will be awaiting the call to the colors before August 1. The entire force will be ready with the exception probably of a few disputed cases by the time the sixteen cantonments are ready early in September.

Provost Marshal General Crowder, under whose jurisdiction the selected men will remain until they are transferred to the books of the Adjutant General as soldiers, pointed out today that the local boards actually are selection boards, not exemption boards. Their primary purpose, he said, was to select from registered men those

qualified for military service.

The men they turn away after examination will be rejected rather than exempted, because of physical disabilities or dependents.

The exemption boards proper are the district boards, which have power to say whether the work a man is doing at home will be more important to the Government than his service as a soldier.

Information reaching Washington indicates that the selection boards are taking the view of their work that makes the name fitting for them. They are bent on finding men for the army in the shortest possible time. When they certify any man to the higher boards as held for service, the man becomes a soldier and subject to soldier law. It will be the duty of the Provost Marshal General from that time on to see that he complies with all army orders affecting him, and also to turn him over to the army authorities when he is called to the colors.

The quotas from the various districts probably will be assembled first at their district headquarters when the call comes. Whether they will be turned over to an army officer there and taken to their cantonments, or whether one of their number will be placed in charge to conduct them to the cantonment, has not been decided.

TWO NEW STATE NORMAL SCHOOLS ARE LOCATED.

A. B. Martin returned last week from a session of the state normal school locating board in Dallas, where it was voted to establish the new Stephen F. Austin Normal School at Nacogdoches and the South Texas Normal College at Kingsville. These two institutions were provided for by laws passed by the Thirty-Fifth Legislature.

There were more than twenty towns contesting for the two normal schools

and the voting was by open ballot. Kingsville was chosen as the site for the South Texas Normal on the third ballot and the Stephen F. Austin Normal School was awarded on the second ballot.

If the grown-ups think canning is a difficult process, the children will show them how.

Diamonds! Diamonds!

On next Friday we will receive and have on display in our jewelry department an elegant assortment of diamonds. These are mostly loose stones and can be mounted to suit your individual taste. This line is one of distinction, from a house well known for the quality of its stones and the fair prices at which it sells them.

Those who are interested in the purchase of diamonds should undoubtedly buy now. During the last ninety days there has been an advance of fifteen per cent in the prices of stones, and there is every assurance that additional advances are to come.

This beautiful showing will be on display for several days, beginning Friday, August third, but it will be well for you to look over the assortment early, before it is broken.

PRESBYTERIAN SUNDAY SCHOOL HOLDS MOONLIGHT PICNIC.

More than one hundred members of the Presbyterian Sunday school enjoyed a delightful moonlight picnic yesterday evening at Mayor Risser's farm, east of Plainview.

The guests assembled at the Presbyterian Church and left in automobiles about 7 o'clock for the land of social happiness. Upon arrival they enjoyed an hour in the playing of games, and about 8:30 o'clock participated in an evening moonlight supper.

MAKING OF RED CROSS GARMENTS BEGIN HERE.

The first work of the making of Red Cross supplies under the auspices of the local Red Cross chapter was undertaken yesterday afternoon at the Women's Room in the Elks' Home by the members of the Highland Club.

The work taken up yesterday was the making of hospital garments. The patterns and material used are according to the prescribed rules sent to the local chapter last week.

Mrs. Tom Carter, chairman of the local organization, announced this morning that it is planned to complete a few garments every afternoon. She says that any club desiring to co-operate with the local chapter in the making of garments, will be given attention if the members of the club communicate with the local chapter in regard to the amount of work and the time desired.

FEDERATED SOCIETY TO HEAR RED CROSS PLANS.

"What the Women of Plainview Can Do in Red Cross Work" will be the subject of discussion at a meeting of the Federated Missionary Society next Monday afternoon at the Presbyterian Church. Mrs. Tom Carter, chairman of the local Red Cross chapter, will explain the work to be undertaken here. The women of the church organizations are urged to join in this work for the nation.

FORT WORTH VISITOR IS HONORED BY MISS KINDER.

Miss Lucile Kinder entertained in honor of Mrs. Robert Sansom of Fort Worth last Saturday night with a lawn dance and bridge party at the home of Miss Kinder, 302 Ash street.

The lawn was decorated with flowers and brilliantly lighted with electric lights. More than eighty guests were present for the social occasion.

Miss Ratie Freeman of Cordell, Okla., is visiting her cousin, Mrs. C. E. White.

Prof. R. M. Crabb returned from Fort Worth Thursday. He will remain in Plainview this winter and conduct a private studio.

Mrs. Will Stockton returned yesterday from Houston, where she has been on an extended visit with her sister.

Dr. W. A. Bates has enlisted in the medical corps of the navy. He has severed his partnership with Dr. L. V. Dawson, who will assume active charge of the South Plains Sanitarium.

Bun Hatchell, formerly of Plainview, is here visiting relatives.

Mrs. R. C. Malone of Abilene is here visiting her daughter, Mrs. Lee Putnam, who has been seriously ill for several days.

Prof. E. C. Nelson, of Floydada, was here early in the week on business.

Chas. Reinken drove to Amarillo on business Monday.

Mrs. J. F. Garrison, Dice Garrison and party will leave next week on a motor trip through Colorado.

Mr. and Mrs. George Jordan, who have been visiting Mr. and Mrs. J. W. Phipps, left Tuesday for their home at Forney, Texas.

Mr. and Mrs. W. B. Self and J. Burns of Seymour, Texas, are visiting friends here.

Mr. and Mrs. C. F. Galloway and daughter, Marie, who have been visiting at the home of Mr. Galloway's brother at Lockney, left this morning for their home in Oklahoma City.

Mrs. T. L. Campbell left today for her home in Amarillo.

Paul Pierson visited his mother in Amarillo last Monday.

The Churches

Episcopal Church.

Sunday school will begin at 10 o'clock. The morning services will start at 11 o'clock, and the sermon will be delivered by the Rev. J. S. Wicks. Everybody is invited to attend both the Sunday school and the morning worship services.

Missionary Society Begins to Outline Work for Fall.

The Woman's Auxiliary of the First Methodist Church was divided into four circles at the meeting last Monday afternoon in the Methodist Church to plan for the work to be undertaken next fall and winter. The president, Mrs. Jackson, appointed Mrs. L. A. Jones, Mrs. McDonald, Mrs. W. B. Martine and Mrs. T. E. Richards as chairmen to call on their respective circles and to meet at an early date to formulate a definite program. It was announced that there will not be a meeting next Monday afternoon, owing to the meeting of the Federated Missionary Society in that afternoon.

First Methodist Church.

Sunday school services will start at 9:45 o'clock. The slogan for the next Sunday morning will be "Bring a Friend." The Rev. Ernest E. Robinson will speak at the morning services at 11 o'clock on "God's Long-Delayed Chariot." The evening services will begin at 8 o'clock. The subject of the evening sermon will be "The Things That Win: Patience, Pluck and Persistence." You are requested not to fail to hear either of these addresses, as they carry an intellectual thought that will be helpful to all at this hour of the nation's crisis—the most critical time in American history. Mothers, wild with beating hearts are crying, "Why is his chariot so long in coming? Does God prefer a chariot of War? Come and hear these messages." THE REV. ERNEST E. ROBINSON, Pastor.

Miss Winnie Hallyard and Miss Florence Dalton, who have been visiting friends at Floydada the last week, returned to their homes yesterday morning in Roswell, New Mexico.

Dr. J. H. Wayland left yesterday morning for Dallas, where he will attend the meeting of the executive board at the Baptist Convention in that city.

Prof. Norman McCarthy of Kansas City arrived in this city last Saturday to confer with Dr. R. E. L. Farmer, president of Wayland College, in regard to accepting a place on the faculty this coming year.

Mr. and Mrs. Ross D. Rogers of Amarillo spent the week-end here with Mrs. Roger's parents, Mr. and Mrs. R. M. Peace.

W. N. Baker, who responded to the welcome address at the annual convention of the Southwestern Stenographers' Association at Oklahoma City last Thursday, is expected to return here tomorrow.

Mr. and Mrs. L. A. Knight and Mr. and Mrs. Robert Malone left Wednesday for a motor and outing trip for the next month through New Mexico. They will spend a week at Hot Springs in that state.

Prof. R. A. Burgess, the new principal of the high school here, arrived in Plainview yesterday morning to begin preparations for the school term.

Mrs. J. H. Trumbull and Mrs. Walter Barrett and son, Vernon, of Los Angeles, Cal., are spending the summer here at the home of Mrs. Joseph Barrett.

Dr. R. E. L. Farmer's mother and brother of Poteau, Okla., arrived here last week, and will make their home here with Doctor Farmer.

Mrs. Thomas Gibbs left last Sunday for a visit in Denver and Kansas City during the remainder of the summer.

Mrs. S. E. Lowe of Malone is the guest at the home of Mrs. T. Stockton. Mr. and Mrs. R. S. Snare of Mount Airy, Ga., are visiting at the home of Mr. and Mrs. K. W. Snare.

Miss Lacy Dalton, who has been visiting in Memphis, Tenn., the last two months, returned to Plainview this week accompanied by her sister, Mrs. Z. E. Jenkins.

Miss Margaret Barnhart of Childress is the guest of her aunt, Mrs. C. C. Gidney.

Mr. and Mrs. Robert Sansom, who have been here visiting Mr. Sansom's parents, have returned to their home in Fort Worth.

Miss Mary Lipscomb, who has been visiting friends and relatives at Wyomere, Neb., the last few weeks, has returned to this city.

Miss Isabelle Jackson is the guest of Miss Mary Lipscomb this week.

CATTLE RECEIPTS HEAVY AT KANSAS CITY MARKET.

Another record run of cattle was received here the first two days of this week, the bulk of them coming from dry districts and consisted principally of thin stockers and plain butcher stuff. Offerings of fat steers were limited to a few shipments of light-weight grassers and several bunches of plain Oklahomas. This class sells 15c to 25c lower than last week. Butcher stuff of all kinds generally 25c lower. Good veals \$1.00 lower, plain veals and heavyweight killing calves \$1.50 to \$2.00 lower.

Choice heavy-weight fed grass steers ... \$11.00 to \$12.00
Medium-weight grass steers ... 9.50 to 10.50

WHERE PEOPLE WHO DRESS BEST TRADE

Light-weight grass steers	8.50 to 9.50	\$8.00, good kind \$7.00 to \$7.50, medium and dry-weather kind \$6.50 to \$7.00.
Choice grass-fat heifers	7.50 to 8.25	Thin young cows \$6.00 to \$6.50, on the canner order around \$5.50.
Good grass-fat heifers	6.75 to 7.50	The hog market opened 10c higher today and closed about the same as the opening. Locally receipts were light and ran mostly to plain heavy-weights, no choice heavy hogs offered. Our packers are wanting some good hogs and are paying good prices for this class of stuff, while the medium and lightweight grass kind are mean sellers.
Prime veals	10.50 to 11.50	
Heavy killing calves	7.00 to 8.00	
Butcher cows	6.00 to 6.50	

Panhandle Stockers.

Receipts of good to choice Panhandles were light, while the plain, thin, dry-weather kind were plentiful. Choice kinds of steer and heifer yearlings and twos selling from \$7.50 to

Reinken's Sale

offers you the opportunity to buy clothing and shoes now at lower prices than you will see for anyhow two or three years to come.

Prices are going to be higher

and though the World War would be over tomorrow it would be several years before woollens and leathers would decline to anywhere near the old plane of prices.

Our present stocks are still pretty complete, and you can yet purchase at figures which will show you a substantial saving.

REINKEN'S

Clothing and Shoe Store

Yesterday there came to our house a carload of furniture

The big assortment of good things for housewives was bought to fill in our stocks, and in it are many beautiful patterns and designs of furnishings for every purpose.

Thoughtful housewives are already planning their fall furniture changes. Just what will be needed to cheer the home and comfort its occupants. That is foresight. It means that those women who make a study of their furnishings will welcome the announcement of the arrival of this car of new things. We invite you to hurry down and see what we have. Even though you are not ready to buy if you see what you want we will hold it for you.

Then you have an additional incentive to trade here: for if you have something you don't want it has an exchange value here. If you don't need something in its place we will pay you cash.

Our repair department is also at your service. It is in charge of an expert who will make any needed repair, upholster, re-varnish, and in fact make new furniture out of that you thought ready for the scrap heap.

NEW PRESERVATIVE TO CONSERVE FOOD IS DISCOVERED.

The Department of Agriculture is reported to have discovered a new food preservative which will greatly assist in the food conservation campaign. The new preserving fluid, which is easily made in the kitchen, consists of water and cornmeal, mixed in the ratio of two to one, and allowed to stand until it ferments, which takes about two or three days. The fomented mixture produces a solution in which lactic acid predominates. The department has already successfully preserved potatoes, beets and several varieties of beans in the new preservative. Beans may be kept in the fluid, either in the green or cooked condition, the experts say. The new preserving fluid will prove a great boon to food conservation if it only reduces the wastage from potatoes, according to the department. More than 50,000,000 bushels of potatoes are lost each year from decay. Farmers will be enabled to keep vegetables in large quantities, it is said, by putting them in barrels and covering them with the fluid.

COMMITTEE URGES PLACING OF LIVESTOCK ON FARMS THROUGHOUT TEXAS.

Figures startling in the extreme were submitted to the Farmers' Union District Convention in a report read by C. C. Waller of Fort Worth, chairman of the live stock, poultry and dairy committee of the District Union. It was shown in the report that more than 92,000 farms in Texas are without a cow; 164,000 without a hog, and over 60,000 without poultry. According to the committee's report, Texas is annually sending out of the state more than \$10,000,000 for butter and \$52,000,000 for meat. The report was one of the most interesting of the entire convention and was received with astonishment by the delegates. Practical plans for alleviating this condition were contained in the report, which in part follows:

"We find that the United States government reports there are in Texas more than 92,000 farms without a cow; 164,000 farms without a hog; and over 60,000 farms without poultry; while, at the same time, we are sending out of Texas annually \$10,500,000 for butter, and \$52,000,000 for meats. "It is impossible to maintain the fertility of the soil without animal husbandry, or to have more imports than exports, without going broke. This method of farming is largely responsible for our troubles today. The system of soil robbery of the past has destroyed the productive power of our farms, and pauperized the people to where we have the sad condition of more renters within one hundred miles of the City of Fort Worth, who are bringing up more than 300,000 children, largely without the hope of a home or love of country in their hearts. There are now nearly 500,000

farm tenants in Texas, and each day adds eleven more to their ranks.

"This condition is destroying our rural districts, socially, religiously, educationally and financially, and is the fountain-head of that stream of unprepared humanity ever gushing forth from our homes into the streets of our great cities, there to fall easy prey to all the wiles of town life.

"Your committee believes that the surest and speediest remedy to right these wrongs is to place on every farm in Texas cows, hogs and poultry in proper numerical relationship, one to the other, and in proportion to the acreage.

"This would at once begin the restoration of soil fertility, and put the family upon a cash basis for all supplies, while the raising, handling and caring for livestock by the children will develop in their hearts and minds such a love for country life that they will be able to withstand the cities' call in years to come. This would change poverty to prosperity, renters to home owners, and discontent to satisfaction and permanency of community life."

Some men would rather have a clear conscience than a good law practice.

Some neighbor surely can eat or put up surplus products from your place.

UNIVERSITY OF TEXAS WILL OPEN IN SEPTEMBER.

It was announced last Wednesday by the members of the Board of Regents that adequate financial provision has been made for the maintenance of the University of Texas and that the University will open September 17. The schedule follows:

September 17, Monday.—Examinations for admission begin, continuing through Thursday, September 20.

September 26, Wednesday.—Registration begins, continuing through Saturday, September 29. Candidates for degrees in 1918 may register on any of the four registration days; other former students only on Friday and Saturday; first-year students only on Wednesday and Thursday and the afternoon of Saturday. Students who register after Saturday, September 29, will be required to pay a fine of three dollars.

September 27, Thursday.—Postponed examinations, examinations for advanced standing, and examinations to remove course conditions. On or before Thursday, September 20, the student must make application, either in person or by mail, to the dean of his department.

September 27, Thursday.—Registration begins in the Department of Medicine, continuing through Monday, Oc-

tober 1. September 29, Saturday.—Last day for handing in applications for degrees. October 1, Monday.—Opening exercises of the Department of Medicine. October 1, Monday.—Fall term classes begin.

PARROT CRIED "SLACKER"

Bird Mascot of Battleship Aids Recruiting in New York.

NEW YORK, July 18.—A parrot, mascot of a battleship, trained to cry "slacker" when his tail is pulled, was

enlisted today in the campaign here for navy recruits.

A petty officer appeared on Fifth Avenue with the bird on his shoulder and whenever he passed a man of military age, pulled the bird's tail. A crowd of shopgirls every time the bird shrieked "slacker" made an effort to induce the man thus addressed to fall in line and enlist.

AMERICAN SOLDIER COMPOSES NEW YANKEE SONG.

Dispatches from "a French port" indicate that the American expedition

soldiers now in France have a catchy song which promises to become famous as a war melody. Here it is:

"Good-bye, dear old Yankee land, hello France!

We've sailed across the ocean to make the Germans dance.

They've tried to rule the world with military stuff,

But we come from a country that never takes a bluff."

The words were written by a transport employee during the voyage to France, and the music was composed by Clarence Gridley, son of Captain Gridley of Manila Bay fame.

Miss Amy Glenn is visiting Mrs. M. M. Harrington of Tahoka. 4t-pd.

THE LAST WORD.

At a certain Western University a fraternity which prides itself upon its exclusiveness maintains an inviolable rule that no member shall call upon a University girl. They hold all co-eds as beneath their notice. They found difficulty in enforcing the rule in the case of one freshman fond of feminine companionship. One night he was

missed and, fearing that he had again slipped away for a call at a nearby sorority house, a haughty senior called them on the telephone.

"This is Epsilon Kappa Lodge," he snapped. "Is Jones, that freshman of

ours, calling over there again?"

A voice of sugary sweetness floated back over the wire. "I know he isn't in the parlors, but I'll look in the kitchen; he might be calling on the cook."

TRY IT! SUBSTITUTE FOR NASTY CALOMEL

Starts Your Liver Without Making You Sick and Can Not Salivate.

You're bilious, sluggish, constipated flat and everybody's druggist—has noticed a great falling off in the sale of calomel. They all give the same reason. Dodson's Liver Tone is taking its place.

"Calomel is dangerous and people know it, while Dodson's Liver Tone is perfectly safe and gives better results," said a prominent local druggist. Dodson's Liver Tone is personally guaranteed by every druggist who sells it. A large bottle costs 50 cents, and if it fails to give easy relief in every case of liver sluggishness and constipation, you have only to ask for your money back.

Dodson's Liver Tone is a pleasant-tasting, purely vegetable remedy, than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel today you'll be sick and nauseated tomorrow; besides, it may salivate you, while if you take Dodson's Liver Tone you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it. Adv.

CITATION BY PUBLICATION.

THE STATE OF TEXAS, To the Sheriff or Any Constable of Hale County—GREETING:

YOU ARE HEREBY COMMANDED that you are summoned, by making publication of this citation in some newspaper published in your county, if there is a newspaper published therein, but if not, then in the nearest county where a newspaper is published, once in each week for four consecutive weeks previous to the return day hereof.

THE HEIRS OF A. M. DAVIS, deceased,

to be and appear before the District Court of Hale County, Texas, at the next regular term thereof, to be begun and held at the Court House thereof, in the City of Plainview, on the 6th day of August, 1917, then and there to answer a petition filed in said Court on the 1st day of June, 1917, in a suit numbered on the docket of said Court No. 1543, wherein J. M. Shafer is plaintiff and the heirs of A. M. Davis, deceased, are defendants;

Plaintiff's cause of action being a suit in trespass to try title to Lot Number Five (5) in Block Number Forty-Four (44) in the Town of Plainview, Hale County, Texas; plaintiff alleging that A. M. Davis, deceased, is common source of title; and claiming title by and under a tax deed made by R. E. Burch, Sheriff of Hale County, Texas, and dated the 2nd day of October, 1901; and also claiming title by both the Five- and Ten-Years Statute of Limitation; and plaintiff prays that cloud be removed from his title, that he be quieted in his title and that he have judgment for the title, possession and restitution of the said land.

HEREIN FAIL NOT, and have you before the said Court on the first day of the next regular term thereof this writ, with your return endorsed thereon, showing how you have executed the same.

Given under my hand and the seal of said Court at office, in Plainview, Texas, this the 1st day of June, 1917.

JO W. WAYLAND, (SEAL) Clerk, District Court, 4t-Fri. Hale County, Texas.

J. J. LASH

Soldier Ball Club May Play Maxwell Clan Here Next Week

J. M. Lipscomb, manager of the Maxwellites, announced this morning that arrangements are about complete to bring the Soldiers' team from El Paso here for three games next week. The team at the present is touring the southern part of the state, and up to date has played eleven games with some of the fastest professional teams in that part of the country and has only lost one. The one game lost was to the Alpine team, 2 to 1, lasting sixteen innings. Dollgreen, the masterful soldier twirler, allowed only four hits and struck out twenty-four men in the game with Alpine.

FOR SALE—Two good corner residence lots in west part of city. Fences, barn, well and tower. East front. See R. M. PEACE at Elk Barber Shop. 3t.
