

LESSONS IN HOME CANNING

Fruits.

In canning fruits the use of the sirups indicated in the table will give excellent results. These sirups have been selected with reference to securing good color, texture, and flavor in the finished product. For instance, sour fruits, such as cherries and plums, require a heavier sirup than sweet cherries, peaches, or berries. These sirups range in density from 10 degrees to 50 degrees as measured by a Balling saccharometer. The table is prepared to enable one to secure uniform results without the use of a saccharometer. No. 1 sirup is of 10 degrees density, No. 2 of 20 degrees, and so on.

To make these sirups, boil sugar and water together in the proportions given below until sugar is dissolved. Strain all impurities out of the sirup before using:

- Sirup No. 1, use 14 ounces sugar to 1 gallon water.
- Sirup No. 2, use 1 pound 14 ounces sugar to 1 gallon water.
- Sirup No. 2, use 3 pounds, 9 ounces sugar to 1 gallon water.
- Sirup No. 4, use 5 pounds 8 ounces sugar to 1 gallon water.
- Sirup No. 5, use 6 pounds 13 ounces sugar to 1 gallon water.

Measurements.—If no scales are available, the amounts of sugar may be approximated by measuring, using 1 pint for each pound and 16 tablespoons to the half pint. For the recipes given in this bulletin all measurements are level and the standard measuring cup holding one-half pint is used. Abbreviations used are c.,

cup; tbsp., tablespoon; tsp., teaspoon; oz., ounce; and lb., pound.

Apples.—Apples shrink more in canning than most fruits, and for this reason should be blanched for 1 minute. Plunge them into a cold bath, then pack. Cover with No. 1 sirup, and process quart jars 12 minutes.

This method of canning apples is not economical, because the apple is juicy and needs no water added. A better method perhaps is to make a sauce out of the apples. This may be done by steaming them until tender and passing them through a sieve. Allow 1 cup sugar to each gallon of pulp. Reheat until the sugar is dissolved, pack hot in sterilized jars, and process quart jars 12 minutes.

Berries.—For dewberries, blackberries, loganberries, huckleberries, raspberries, and currants practically the same methods of canning may be used. The condition of the fruit will have much to do with the quality of the product. Berries should be gathered in shallow trays or baskets and not in deep vessels which allow them to be bruised and crushed. They should be uniformly ripe, sound, and as large as possible.

The flavor of canned berries will be finer if sugar is used in canning. It is best to make this into a sirup. The use of berry juice instead of water in this sirup will give a richer color and flavor. For fine berries, use a No. 3 sirup, substituting berry juice for water.

After the berries have been sorted carefully and washed lightly by placing in a colander and pouring water

over them, instead of immersing them in water, pack as closely as possible without crushing. This can be done better by putting a few berries into the jar, pressing them gently into place, and proceeding layer by layer, than by nearly filling the jar loosely and then trying to press them down. Fill jars full of fruit and cover with sirup.

Cherries.—When canned whole, cherries should be blanched for 15 seconds, to prevent splitting. For sour cherries use No. 4 sirup; and for sweet ones No. 3. Process quarts 25 minutes.

Gooseberries.—Since green gooseberries contain sufficient acid to preserve them without sterilizing, they may be packed, like rhubarb, in cold water or as a sauce.

Make the sauce by cooking together the sugar and fruit in the proportion of 1/2 cup of sugar for each quart of gooseberry pulp. When the sugar is dissolved pack the sauce hot and process for 10 minutes. Ripe gooseberries are packed in No 3 sirup and processed as other berries.

Peaches.—Before preparing fruit make sirup No. 3 or 4 (see sirup table), allowing about 1 cup of water for each quart jar. Put in one cracked peach pit for every quart of sirup. Boil for 5 minutes and strain.

Sort the fruit, using firm, sound, uniform peaches for canning and putting aside the soft, broken ones for jam. Peeling may be done by immersing in boiling water about 1 minute or until skins slip easily. Remove, plunge for a minute into cold water, and slip off the skins. Cut into halves and pack at once, placing the halves in overlapping layers, the concave surface of each half being downward and the

blossom end facing the glass. Fill each jar with sirup and paddle carefully to remove air bubbles. Process quarts 20 minutes and half gallons 35 minutes.

Firm, perfect peaches may be floated in boiling water for about 20 seconds after being peeled. They are then cut in halves, seeds removed, and packed as indicated above. By floating the peaches in this manner, they are made more flexible and pack to better advantage; they also become mellow, absorb more sirup, and are finer in

flavor.
Pears.—Select ripe pears which are not too soft. Peel, blanch by lowering for 15 seconds in boiling water put in cold bath, drain, and pack rapidly. This blanch will make the hard varieties of pears pack better and give them a more transparent appearance. When packed whole, leave stems on and place each layer stems up, letting the second row fill the spaces between the two stems, and repeat.

When the jars have been packed with fruit, fill with No. 3 sirup and process

quarts for 25 minutes.
Plums.—Select sound, uniform fruit. Prick with needle to prevent bursting. Pack as firmly into the jars as possible without crushing and fill with a No. 4 sirup. Process quarts for 15 minutes.
Fruit Juices.—The juices of such fruits as grapes, currants, blackberries, strawberries, raspberries, elderberries and cherries make a delicious and wholesome drink, and should be much more widely used in the home. The flavor of these juices is finer

With The Home Economics Club

Resolutions of Girls' Session, Texas State Farmers' Institute.

Three hundred and fifty girls of the Home Economics Clubs under the supervision of Mrs. J. L. Landrum of the State Department of Agriculture assembled in Austin during the State meeting, beg to submit the following resolutions:

WHEREAS, We represent about three hundred and fifty clubs from different parts of the State, these clubs taking work both in needlecraft and culinary under the direction of Mrs. Landrum, represent a total membership of about 6,000; and

WHEREAS, Our clubs have not only benefited by these instructions, but have used our efforts to improve the civic and industrial conditions of our community, in which we were aided to a large degree by members of the State Department of Agriculture as well as local officials and the State press; and

WHEREAS, The Home Economics Department, under Mrs. Landrum, has been a great help to us and to the people at large by holding county, district and State conventions, at which meetings it was thoroughly demonstrated that the organization of the Girls' Home Economics Clubs can do and have done a great deal towards the food control so necessary at the present time; and

WHEREAS, We have pledged in our locality meetings that we will put up this season over 200,000 quarts of fruits and vegetables for the good of our country (these pledges are on file in the State Capitol at Austin);

WHEREAS, We have taken active part in fair work with our exhibits, and have also offered our services and have given assistance in many canning demonstrations during the present crisis and have used every effort to observe proclamations of our State and Federal governments and have assisted other organizations to carry out food and feed crop campaigns, better health movements and rural sanitation, thereby displaying the efficiency of our organizations;

WHEREAS, Our work has grown to such an extent that it will become necessary for Mrs. Landrum to have at least two assistant lecturers for follow-up work, and also an appropriation of about \$10,000 to cover the expenses of keeping these organizations intact; therefore be it

RESOLVED, That a committee of our clubs be appointed to meet with a committee of the main body of the State Farmers' Institute to call upon Commissioner Davis and suggest to him the advisability of giving Mrs. Landrum the necessary assistance in field work as well as in the office, and also of discussing the feasibility of an appropriation for the girls' work of at least \$10,000; and be it

RESOLVED FURTHER, That a committee or committees be appointed by the local organizations as well as by the State organizations to call upon members of the Legislature for the purpose of bringing before them the necessity of additional appropriation to keep up the present organizations of the girls' clubs and of adding other organizations to those already established.

PARAFFIN MAY BE CLEANED AND REUSED.

Paraffin that has become unclean through usage in canning and preserving may, be cleaned and reused. Don't throw it away because dirt and trash have become mixed with it. Many times paraffin can be cleaned with a brush in cold water. If this does not remove all the dirt, says a specialist of the United States Department of Agriculture, heat the paraffin to boiling and strain it through two or three thicknesses of cheesecloth placed over a funnel. Or a thin layer of absorbent cotton over one thickness of cheesecloth may be used as the strainer. One straining should be sufficient ordinarily, but if the paraffin still is unclean heat and strain again. Any paraffin lodging in the strainer may be recovered by heating the cloth and pouring off the hot liquid to another strainer.

LIBERTY BONDS AND THE FARMER.

It has been repeatedly pointed out that in purchasing Liberty Loan Bonds the farmers of the United States were furnishing the means to their best customers to purchase the products of their farms. Much of the proceeds of the Liberty Loan, both that used by the United States Government and the amount loaned to the Allies, is to be expended in purchasing food and supplies for their armies from the farmers of the country. There are other reasons, however, that make the Liberty Loan Bonds especially desirable investments for farmers.

A safe investment is particularly suited to a farmer because he is in most instances at a distance from bond markets and not in position either to know of or immediately act upon information of matters affecting the value of bonds. The Liberty Loan Bonds are invincibly safe, backed as they are by the resources of the richest nation in the world and the faith and credit of a people who have always respected their obligations and they are of stable value and liable to little or no fluctuation in market value.

The farmer is a busy man, and often has neither the time nor the opportunity to study the questions of finance and bond values. The Liberty Loan Bond

PLAINVIEW PRODUCE CO.

being a bond about which there can be no question, he can rest assured always that he has made no error in judgment.

The farmer often feels the need of ready cash before the harvesting of his crops. The Liberty Loan Bond puts in his hand a security on which he can always borrow money and at a rate as low or lower than he could borrow on any other security and with less trouble.

There is another aspect of this investment in Liberty Loan Bonds that will appeal to every true American. He is supporting the Government, he is supporting our soldiers in France, and he is doing his duty as a citizen when he invests in Liberty Loan Bonds.

LESSONS IN HOME CANNING.

(Continued from Page Two.)

when they are sterilized below the boiling point. Select sound, ripe fruit, crush, and heat slowly to about 180 degrees F., simmering point. Strain through double thickness of cheese cloth, and if juices free from sediment are wanted, let stand in a cool place for a few hours. Then pour off carefully to free from the dregs, which will remain in bottom of vessel. The addition of sugar will make flavor finer. It may be used in any desired proportion, a fair allowance being 1 cup of sugar to 1 gallon of juice. It is more economical to sweet some fruit juice with the natural sirup obtained from the same fruit—for example, apple and grape. Pour the juice into sterilized bottles, put sterilized stoppers in lightly, set bottles on a rack in water bath and process at simmering point for 30 minutes. Remove from water bath, put stoppers in tightly, and when cool dip top of bottle in melted paraffin or sealing wax. A good wax may be made by melting together equal parts of rosin and beeswax.

LANDS FOR SALE.

160 acres improved land 6 miles of Plainview; 100 acres in cultivation, most of which is ready for wheat. Price, \$45 per acre, with good terms.

320 acres unimproved land 7 miles of Plainview; all choice laying land. Price, \$35 per acre.

320 acres unimproved land 8 miles of station. All choice, level land. Price, \$18.50, all cash.

320 acres improved land 3 1/2 miles from station; all choice land; cheap

improvements; about 200 acres in cultivation, most of which is ready for wheat; 40 acres in alfalfa. Price, \$30 per acre; good terms. Many other tracts for sale.

An improved farm for rent and possession can be given now. About 75 acres old land, most of which has been prepared for wheat. Want man with wife who can furnish good references and to buy some teams and tools. For particulars, see or address

Plainview, Texas.

NOTICE OF DISSOLUTION.

This is to notify the public that the firm of Clarke-York Land Co. was by mutual agreement dissolved on or about the 27th day of July, 1917. Mr. C. H. Clarke of the above-named company retaining all business in the office occupied heretofore by the said company.

I desire to say that I will not be responsible for any contract entered into by Bert L. York in the firm name of Clarke-York Land Co.; neither will I pay any bills made by him or honor any checks given by him on the firm.

Signed,
CHARLES H. CLARKE.

UNITY AND VICTORY.

"The day has come to conquer or submit. If the forces of autocracy can divide us they will overcome us; if we stand together victory is certain and the liberty which victory will secure. We can afford then to be generous, but we cannot afford then or now to be weak."—President Wilson in an address to the Russian commission.

PATRIOTISM AND PROFITS.

"Patriotism leaves profits out of the question. In these days of our supreme trial, when we are sending hundreds of thousands of our young men across the seas to serve a great cause, no true man who stays behind to work for them and sustain them by his labor will ask himself what he is personally going to make out of that labor."—President Wilson's Address of July 11.

At Knight Auto Co. Garage

Save 20 Acres and \$300 a Year

Whenever you do away with one horse you add the equivalent of 20 acres to the capacity of your farm. Government statistics prove it takes 20 acres to feed one horse. Do all your hauling and the same amount of work you now are using horses for and turn the acres that you feed your horses from into acres to raise profit-making crops for you.

The profits you take out of the acres saved for crops by using Smith Form-a-Truck to do your farm hauling will easily put \$300 into your saving every year. And you will get in addition a tremendous saving in time. For Smith Form-a-Truck will get to town and back in 3/8 the time it takes horses. Use this time in town or home with your family. Don't get up before sunlight and stay out until after dark. You can do in the morning between six

and noon with Smith Form-a-Truck what it takes from four in the morning until nine at night with horses.

When you have extra heavy loads to haul, instead of taking horses away from actual farm work and sacrificing plowing, cultivating or other useful work in the field you can put the extra load on the Smith Form-a-Truck, use only one man for the trip and save all this additional expense.

Use Any One of Six Chassis

Using any one of six chassis, Smith Form-a-Truck combines with any Ford, Maxwell, Dodge Bros., Buick, Chevrolet or Overland chassis to make a fully guaranteed one-ton truck. It gives you real truck construction that will stand up under the hardest hauling you could ever do.

When You're in Town Drop In When you are in town drop in and see Smith Form-a-Truck It will pay you well.

The heavy portion of illustration shows the Smith Form-a-Truck attachment, which carries 90% of the load, bolted to the power plant with a vice-like grip.

\$3.00 a Year; \$1.00 6 Months. Advertising Rates on Application.

ARE YOU A BOOSTER?

Plainview unquestionably is becoming one of the centers for the promotion of modern highways. Two of the presidents of the highways in this part of the country are residents of this city.

Regardless of this fact, there is not the enthusiastic manifestation of good roads expressed by the citizens of Plainview.

They have now an opportunity to desert the period of inactivity, and become enthusiastic boosters for good highways.

Let's awaken. Let us show our appreciation of Mr. Unger's services. Let's tell the country that Plainview is the home of boosters for good highways.

CAN'T FOOL ALL THE PEOPLE ALL THE TIME

The first group of young men subject to service in the citizen army is being selected throughout the nation.

These men are needed not at home but in defense of the American nation. They know it as well as any government official.

But the Government is not to be fooled. There are too many intellects that sparkle with brilliance at the head of our nation.

TEACHERS' INSTITUTE PROGRAM ANNOUNCED.

WANTED—Three furnished rooms or four-room furnished house near Central School. Phone 17.

WANTED—A good cook to work mornings and live at home. MRS. E. E. ROOS.

FOR SALE—1914 Ford Car; in first-class condition. See R. A. SILER, at Waller Tailoring Co.

Paul Barker was in Lockney last week on business. While there he visited with his brother, Arthur Barker.

Why Not Now?

Within three weeks you will buy many items in the list below. Some lady will appreciate these prices and you might left if you wait.

- Fruit Jar Rubbers, red or white, heavy weight, 2 dozen for 15c. Fruit Jar Caps 2 dozen for 25c. 3 and 4 quart Aluminum Kettles, Guaranteed for 20 years, \$1.25 value now only 80c.

The old fashioned nickle tablet. Not as thick as my foot but it is the best value I could find in the U. S. A., while they last only 5c each.

That reminds me that you will want some school stockings too. Just a few dozen of the good old quarter quality to sell at 25c a pair (Both Boys and Girls).

- Good nickled tipped pencils 4 for 5c. O. N. T. Crochet Cotton, white only 10c a ball. Alarms clocks, guaranteed to keep correct time for at least one year.

A CLOSE SHAVE

Is easy when you have an Auto Strap Razor. Safe too, can't cut yourself if you tried it.

The Auto Strap is different; sold different; works different, nobody sells the Auto Strap.

We lend them for thirty days and at the end of that time you want to give them up so rather than have a "scene" we'll consent for you to keep them and in consideration of a nominal deposit.

A set of blades that goes with every Auto Strap Razor is guaranteed to give 500 shaves.

There's lots more I like to tell you about the Auto Strap.

5c HANDKERCHIEFS 5c

Have a big assortment of colored handkerchiefs. Good 3 for 25c value to sell at 5c.

CANDIES.

This is the best place in Texas to buy candy. We sell so much that it is always fresh.

- White Lily Fruit Gum, 2 packages for 5c. Big special in Laces while this lot lasts 8 yards for 25c. Good weight, full made, men's union made overalls, special \$1.00 pair.

The Rain Did It

The splendid showers of the past few days have assured a good feed crop for Hale County. The wheat crop was much heavier than was expected.

Are you keeping up with prosperity? If you are, look prosperous, feel prosperous, and talk prosperity.

The Waller Tailoring Co. Way

Cannon Ball "Your Dollar's Best Friend"

HAY, GRAIN AND SEED BRING BETTER PRICES IF PROPERLY HARVESTED, PREPARED AND STORED.

Careful handling often will get a high grade and a relatively high price for grain and hay which otherwise would grade low and sell low, say specialists of the United States Department of Agriculture.

It is worth while for producers to keep this fact in mind now that the harvest season for grain and hay is approaching in many sections. The supply of the best grades of grain and hay on the market is always light. This frequently may be attributed directly to poor handling and care. Quality always demands the best price, hence the greatest care should be exercised in harvesting and storing.

Practical Hay and Grain Hints.

Do not store damp grain or hay unless you have adequate facilities for frequent "turning," otherwise they are likely to go out of condition. Few farmers realize how small a percentage of moisture will cause otherwise good hay or grain to heat and deteriorate.

Never bale damp hay.

If your grain contains a large percentage of foreign material, clean it. It keeps better.

Feed low grades and screenings on the farm.

Do not mix varieties. In most cases it can be avoided. It nearly always causes the commodity you are selling to grade low.

Remember at all times that there is nearly always a better market for clean, dry, and unmixed varieties of grain or hay than for that which is damp, dirty, musty, moldy, and off color.

Begin now to arrange for proper harvest and care of the coming corn crop. Remember deterioration of your crop this year because of careless handling and storage will mean an enormous loss both to you and the country.

Begin now to study your probable feed requirements for the coming year, and determine what quantity you will require and whether you will retain enough to meet your needs or purchase it.

Should Care for Next Year's Seed.

When it appears that there will be plenty of good seed winter wheat, seed winter rye, and seed of other fall-sown crops if the available supply is properly distributed, everyone who is contemplating sowing an acreage of any of these crops this fall should pro-

vide for his seed supply as soon as possible. It will be necessary to ship seed wheat into those sections where the wheat winter-killed.

TEXAS WHEAT AND CORN ESTIMATES ABOVE LAST YEAR.

WASHINGTON, D. C., Aug. 8.—A summary of the August crop report for the State of Texas and for the United States, as compiled by the Bureau of Crop Estimates (and transmitted through the Weather Bureau), U. S. Department of Agriculture, is as follows:

Corn.

TEXAS: August 1 forecast, 90,000,000 bushels; production last year (December estimate), 131,100,000 bushels.

UNITED STATES: August 1 forecast, 3,190,000,000 bushels; production last year (December estimate), 2,583,241,000 bushels.

All Wheat.

TEXAS: August 1 forecast, 15,300,000 bushels; production last year (December estimate), 13,200,000 bushels.

UNITED STATES: August 1 forecast, 653,000,000 bushels; production last year (December estimate), 639,886,000 bushels.

Oats.

TEXAS: August 1 forecast, 35,100,000 bushels; production last year (December estimate), 42,750,000 bushels.

UNITED STATES: August 1 forecast, 1,460,000,000 bushels; production last year (December estimate), 1,251,992,000 bushels.

All Hay.

TEXAS: August 1 forecast, 573,000 tons; production last year (December estimate), 538,000 tons.

UNITED STATES: August 1 forecast, 100,000,000 tons; production last year (December estimate), 109,786,000 tons.

Cotton.

TEXAS: July 25 forecast, 3,440,000 bales; production last year (Census), 3,725,700 bales.

UNITED STATES: July 25 forecast, 11,900,000 bales; production last year (Census), 11,449,930 bales.

Kaffirs.

TEXAS: August 1 forecast, 24,500,000 bushels; production last year (December estimate), 24,000,000 bushels.

UNITED STATES: August 1 forecast, 83,200,000 bushels; production last year (December estimate), 59,340,000 bushels.

Wheat.

The first price given below is the average on August 1 this year, and the second the average on August 1 last year.

TEXAS: Wheat, 243 and 108 cents per bushel. Corn, 184 and 79. Oats, 84 and 37. Potatoes, 215 and 107. Hay, \$15.00 and \$8.30 per ton. Cotton, 24.3 and 12.8 cents per pound. Eggs, 23 and 16 cents per dozen.

UNITED STATES: Wheat, 228.9 and 107.1 cents per bushel. Corn, 196.6 and 79.4 cents. Oats, 73.7 and 40.1 cents. Potatoes, 170.8 and 95.4 cents. Hay, 13.42 and \$10.68 per ton. Cotton, 24.3 and 12.6 cents per pound.

Eggs, 29.8 and 20.7 cents per dozen. Houston, Texas, August 8, 1917.

U. S. DEPARTMENT WANTS INFORMATION ON SEED SURPLUSES.

WASHINGTON, D. C., Aug. 14.—The committee on seed stocks of the Department of Agriculture is endeavoring to assist in supplying information as to where seeds may be obtained. To this end it will appreciate information from any one who has seed to offer. The information should contain the name, kind and variety, and approximately the quantity of seed offered as well as the price asked. It proposes to file all such information and to use it in answering inquiries that may be received from various parts of the country. All such communications should be addressed to R. A. Oakley, Chairman, Committee on Seed Stocks, United States Department of Agriculture, Washington, D. C.

DATE OF THE NEXT LIBERTY LOAN NOT FIXED.

Secretary of the Treasury McAdoo has made official denial of the report that the date of the next issue of Liberty Loan Bonds would be September

15 and the amount of it three billion dollars.

He states that neither the amount nor the date of the loan offering have been determined and when determined official announcement will be made of the fact by the Treasury Department.

EXTRA SPECIAL

FOR SATURDAY, AUGUST 18 ONLY

In our big profit sharing contest, in which we have offered five magnificent prizes to those who will work for us by bringing in new trade, we have decided to make an extra special vote offer for Saturday, August 18th, only.

On that day we will give 100 votes for each 25¢ cash purchase, and 500 votes for each \$1.00 cash purchase.

Our contest is progressing nicely but no contestant is so far advanced but what a little work on the part of a new contestant would place that person in the lead. This special day offer gives the new ones a chance to get started and the ones who are already in to increase their leads. Tell your friends you are working for that beautiful Bungalow Player Piano and that you will appreciate having them make their purchases on this special day.

Then there are the merchandise books which have extra vote values. These little books may be purchased here or from the candidates. The coupons in them are good any time for any merchandise. Candidates who sell these books, or friends of candidates who purchase them, will greatly benefit in extra votes obtained. When the tickets are used they are good the same as cash for votes in addition to the heavy extra votes given when the books are purchased.

You are urged to get in close touch with the contest manager and see how a little extra work in selling merchandise books will help your standing in the contest.

This contest is not intended to get rid of a lot of old stock. Every purchase of any kind of goods at any time gives someone credit in votes.

**Announcement
To Our Friends and
Patrons**

All steel products continue to advance in price. We are just as anxious as you are to have you get the farm machinery that you will need at the least cost and therefore urge you to place your orders for your needs before we are compelled to increase prices.

Present markets are so unsettled that we expect to order only a sufficient number of grain drills and row binders to fill such orders as may be placed with us before August 15th. We cannot insure delivery or guarantee price after that date. You are therefore urged to get your orders to us promptly.

We thank you for past patronage and solicit your future business.

YES! LIFT A CORN OFF WITHOUT PAIN! Cincinnati Authority Tells How to Dry Up a Corn or Callus So It Lifts Off With Fingers. You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain. A small bottle of freezone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin. If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug house. It is time.—Adv.

EVER SALIVATED BY CALOMEL? HORRIBLE Calomel is Quicksilver and Acts Like Dynamite on Your Liver. Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into your bile like dynamite, cramping and sickening you. Calomel attacks the bones, and should never be put into your system. When you feel bilious, sluggish, constipated and all knocked out and believe you need a dose of dangerous calomel, just remember that your druggist sells for 50 cents a large bottle of perfectly harmless and doesn't gripe. Godson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring up your inside, and can't salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children, because it is perfectly harmless and doesn't gripe.

FEED DELIVERED AT ONE O'CLOCK. Bran, sack \$2.60; Shorts, sack \$3.60; Cotton Seed Meal \$2.85. Phone 366 for Feed. PLAINVIEW PRODUCE CO. Piles Cured in 6 to 14 Days. Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. The first application gives Ease and Rest. 50c.
