#### "Birds is Hatched From Eggs"

The C. E. White seed store in this city has a very pleasant and accommodating youth as clerk. Recently just for a joke, a customer asked him for some sweet potato seeds. The young man hunted all through the seeds but could find no sweet potato seeds and finally appealed to Mr. White.

The latter explained that he was being kidded and cautioned him about not letting smart Alecks put anything over on him.

A few days later a lady entered the store and asked for some birdseed.

"Aw, go on," grinned the clerk, "you can't kid me. Bird is hatched from eggs."

#### Want Ad Sells Eggs.

Early in March, Mrs. D. A. Redding of route B, put a small want ad in the News four times, costing 60c, offering for sale, eggs from thoroughbred chickens. She told us Saturday that the advertisement got results, for she is still selling eggs as fast as she can spare them.

News want ads bring results, because the News has more subscribers in Plainview and Hale County than any other newspaper published, and its subscription list is increasing rapidly.

Peyton B. Randolph had business in Amarillo Saturday.

The many friends of W. W. Thompson are glad that he is recovering from a very serious attack of pleurisy-pneumonia.

#### Excellent Price for Calves

Joe E. Keliehor, an extensive wheat farmer of Hale county, recently returned from the Kansas City markets, where he sold 285 white-faced calves at 13c per pound.

The calves averaged 411 pounds. Mr. Keliehor bought these calves last October at an average price of \$28 per head. He fed them \$1,000 worth of feed during the winter and the balance of their growth was made from wheat pasture.

#### Did You Ever See Such Hair on a Dog

Last fall the Plainview News announced that their city marshal had forecast a lighter winter, observing that the hair on the north side of the dogs was lighter than usual. This was argued pro and con by mar-leading papers of the country until the subject seemed worn thread bare. Only last week Editor Adams triumphantly called attention to the fact that the winter was lighter than usual with the exception of a few cold spells, and declared that dog hair was a weather indicator to be reckoned with. Far be it from this writer to re-open the controversy, but under the light of Tuesday night's occurrence we don't know what to think. Did you ever see such hair on a dog?—Canyon News.

Four feet of snow fell in Colorado last week, blocking railroad traffic.

W. L. Summers and family from Kent county recently moved to Hale county, and located near Hale Center.

#### Mothers' Draw Pensions

A couple of years ago the Texas legislature adopted a "Mothers' pension law," and under it several Hale county widows are drawing funds from the county treasury for the partial support of themselves and their children. A widow without means of support is allowed \$12 for herself and one child, \$18.00 for two children, and \$4 for each other child under 16 years per month.

A majority of the states now have such laws. People begin to see that the children of today are the nation of tomorrow, hence the state is constantly increasing its care of children. And it takes mothers to rear as well as to bear children. Children are not merely the chief asset of the commonwealth, but also, in a little while, actually become the commonwealth itself. A population failing in numbers in health or in character marks a decadent nation. Hence, it is argued that it pays society to see that each child is given a chance to grow up under good conditions, and that it is better to help the mother to keep her children together and rear them under her love, than to have them scattered or sent to orphan homes. The widows' pension law is a good one.

#### "Shipping Days" May Be Abolished

It is very likely that the railroad administration will shortly abolish the "shipping days" rules. Since the railroads were taken over by the government freight shipments have been received only on certain days of the week. Here in Plainview, so we understand, freight is received for north-bound and southbound trains only on alternate days.

#### Wheat Crop to Be Whopper

Government experts say that the wheat crop in the United States will be almost twice that of any other year's yield. The condition of wheat is almost perfect, and the acreage is tremendous.

Major John W. Butts and another aviator fell at Atlanta, Ga., Thursday and were killed. Butts was a West Pointer, and formerly lived at Cisco. He was well known by several Plainview people.

Robert Holland, of Pontiac, Ill., was a pleasant visitor at the News office Saturday. He came in December to visit his daughter, Mrs. Raymond Fields, who lives northeast of town. At first he did not like the Plains very much, but the longer he stays here the better he likes the country.

Rev. J. H. Bone, Presbyterian pastor at Hale Center, has accepted an invitation to preach the baccalaureate sermon to the graduating class of the Littlefield high school, May 15.

Z. E. Black, staff correspondent of the Dallas News, is in the Comanche and Eastland oil fields, writing interesting articles anent the oil situation there.

Miss Amy Faulkner lectured in Hale Center Friday night on her experiences as a Red Cross nurse in France.

Lorenzo is now without a newspaper, the editor of the Enterprise not being able to longer subsist on sand, water and promises. A town without a newspaper soon goes completely off the map.—Ralls Banner.

J. N. Rogers of Gordonville, Grayson county, has a flock of black sheep and says that he is raising these sheep because black wool brings a higher price than white wool.

We are informed that Dr. and Mrs. R. A. Miller are soon to move to Fort Worth from Hale Center.

We handle the Herrick refrigerators. The Herrick has consistently set the highest standard of refrigerator construction for over a quarter of a century. It can truthfully be said that it is the most copied refrigerator in America today. Our stock of these is complete: from the cheaper ice boxes up to an elegant refrigerator for over a hundred dollars.

The oil stoves that we include in this sale is the justly celebrated REV-O-NOC make. After handling various makes of oil stoves we have concentrated on the Rev-O-Noc as we find that it gives better satisfaction. All sizes, with and without shelf. From one to five burners.

This is an unusual opportunity to buy these seasonable goods.

**WHEN THRONES CRUMBLE  
 AND KINGS ARE DUST**

A vision of the future arises. I see a world where thrones have crumbled and where kings are dust. The aristocracy of idleness has perished from the earth.

I see a world without a slave. Man at last is free. Nature's forces have by science been enslaved. Lightning and light, wind and waves, frost and flame, and all the subtle powers of the earth and air are the tireless toilers for the human race.

I see a world at peace, adorned with every form of art, with music's myriad words of love and truth; a world in which no exile sighs, no prisoner mourns; a world on which the gibbet's shadow does not fall; a world where labor reaps its full reward, where work and worth go hand in hand, where the poor girl, trying to win bread with a needle—the needle that has been called "the asp of the breast of the poor"—is not driven to the desperate choice of crime or death, of suicide or shame.

I see a world without the beggar's outstretched palm, the miser's heartless, stony stare, the piteous wail of want, the livid lips of lies, the cruel eyes of scorn.

I see a race without disease of flesh or brain—shapely and fair, married harmony of form and function—and, as I look life strengthens, joy deepens, love canopies the earth; and over all in the grand dome shines the eternal star of human hope.—Robert G. Ingersoll.

**H. F. Wood Charged With Arson**  
 Deputy Sheriff Harve Bolin returned last Saturday from Carthage, Texas, where he took in charge and brought back to Lockney, H. F. Wood on a grand jury indictment charging him with arson. Wood is charged with burning a rented residence in West Lockney known as the old Applewhite place. He is supposed to have burned the property for the insurance. There are other charges against Wood which are included in the grand jury indictments.

Mr. Bolin took his prisoner on to Floydada Saturday afternoon and turned him over to county authorities. Examining trail for bond has not yet been announced.—Lockney Beacon.

**The Automobile Industry**  
 According to a report made public recently the total number of people employed in the manufacture and sale of cars aggregate 1,930,000. Of this total number 580,000 are in automobile factories, 1,020,000 make parts and accessories, and 230,000 are employed by agencies and garages. This number equals 10 per cent of all the people engaged in mechanical and manufacturing industries of the United States.

Now that nation-wide prohibition will become effective July 1st, the government is training 3,000 secret service men especially in order that they may the better enforce the law. One aspect of liquor law violations has grown out of the hundreds of recipes for home manufacture of beer, ale, wines and even distilled liquors now being circulated in all parts of the country.

B. E. Rushing, P. S. Jones and L. A. Bigler were in Slaton last week.

**LOCKNEY**  
 April 11.—In Lockney Independent district four trustees were elected Saturday; namely, Carl McAdams, D. P. Carter, Dr. Greer, and A. J. Cragger. The retiring members of the board were C. L. Cowart and John Hodel. Messrs. Carter and McAdams were hold-overs.

John Coper has bought 320 acres of land in the Bobbitt community. T. M. Randolph received a message from his brother, A. J. Randolph to the effect that he had sold the steers on the ranch for \$70.00 per head. sale amounted to \$8,000.

K. K. Klub met with Misses Vera Fry and Alice Dickerson last Friday evening at the home of Mr. and Mrs. Ira Broyles. A most delightful evening was spent in the ever popular game of forty two. Tables were arranged for eight couples, which were played and at the conclusion Mr. Gordie Westbrook was the high scorer. Delicious refreshments were then served, consisting of sandwiches, lemonade and marguerette and cream.

left Wednesday for New Mexico to look after their ranch interests. Joe McCoilum returned Wednesday from New Orleans where he received his discharge from the navy. Joe four years in the navy, his enlistment expiring last year, and he immediately re-enlisted for the period of the war. He is now back at home to stay.

Roy Griffith is opening a new confectionery business in the Norton Baker Furniture store on West Main street. Roy was in the confectionery business during 1917, and was burned out during the holidays of the same year.

Allen Jones returned to Lockney last Saturday from Camp Travis where he was mustered out of service. Allen spent several months in France in defense of this country.

The Mothers' club has elected the following officers: Mrs. Ben F. Smith, president; Mrs. Will Duke, vice president; Mrs. W. N. Brown, secretary-treasurer; Mrs. E. Guthrie, reporter.

Robt. Self, of the Roseland community, sold his place, consisting of 317 acres to Mr. Marble, of Collin county. The consideration was \$42.50 per acre.—Lockney Beacon.

**Liquor Is Dying Hard**  
 The liquor interests are undertaking four methods to handicap the enforcement of the National Prohibition Amendment.

Efforts are being made to secure a referendum on ratification in 13 states. They claim that in the states having the referendum, ratification is not complete without the approval of the people of the polls. It is very doubtful if this plea will be sustained, as ratification is a national action.

Also, court procedure will be undertaken by the brewers and distillers to restrain the government from putting war prohibition and the constitutional amendment into effect. This undoubtedly will not succeed.

Efforts have been made to excite a nation-wide strike by way of holding up the federal government. This is rebellion pure and simple and has already fallen flat, as labor men have absolutely refused to have anything to do with it.

There are rumors abroad of the organization of a third party which will probably, with suitable irony be called the "Liberty Party." Nothing would please the prohibitionists more than this, as they have long desired to drive the wets into a separate political organization.

 Does it pay an acorn to become an oak?

Does it pay to escape being a rich ignoramus?

Does it pay for a chrysalis to unfold into a butterfly?

Does it pay to learn how to make life a glory instead of a grind?

Does it pay to add power to the lens of the microscope or telescope?

Does it pay to acquire a personal wealth, which no disaster or misfortune can wreck or ruin?

Does it pay to learn how to focus thought with power, how to marshal one's mental forces effectively?

Does it pay a diamond to have its facets ground, to let in the light to reveal its hidden wealth of splendor?

Does it pay to have expert advice and training, to have high ideals held up to one in the most critical years of one's life.

Does it pay to open a little wider the door or a narrow life to push out ones' horizon in order to get a wider outlook, a clearer vision?

Does it pay to experience the joy of self-discovery, to open up whole continents of possibilities on one's nature which might otherwise remain undiscovered?—Dr. Orison Swett Marden in the New Success.

**"ADVERTISE IN EVERY NEWS-PAPER"**

This will be a slogan at the sessions of the Presbyterian general assembly in St. Louis, May 15 to May 23. James B. Wooten, director of publicity for the Presbyterian church in the U. S. A. will appear before the general assembly and in his annual report will recommend that the assembly endorse a system of local advertising in every community where there is a Presbyterian church.

Mr. Wooten will ask that the Presbyterian churches throughout the country adopt as a permanent plan an advertising appropriation in their regular budgets every year, setting aside a definite sum of money to pay for display advertisements in the local newspapers. Some churches are already doing this, but by no means the majority. Mr. Wooten takes the position that space in the newspapers is the most valuable publicity obtainable.

He urges that the church ought to be just as alert to this any any business has been. It would not be possible for the Presbyterian church as a whole to make an appropriation that would cover the cost of nationwide advertising, but by having each church take care of its individual share this cost would be so apportioned that it would not be a heavy burden on any.

Mr. Wooten cites the example of Los Angeles, where the churches advertise more heavily than the theater and where the churches are invariably filled, many of them to overflowing. The Presbyterians of Los Angeles advertised heavily in the local newspapers for a recent conference of the Presbyterian New Era movement in that city, and as a result thousands were turned away from the meetings unable to gain admittance.
