SENATE KILLS AMENDMENTS TO THE PEACE TREATY

THIRTY-SIX OF FORTY-FIVE PROPOSALS WRITTEN INTO DOCUMENT REJECTED

Washington, Oct. 2.—At last reaching the stage of action in its consideration of the peace treaty, the senate swept aside in quick succession today thirty-six of the 45 amendments which had been written into the document by the foreign relations committee.

The smallest majority recorded against any of the committee proposals was 15 and the largest was 28. All of the amendments considered had been introduced by Senator Fall, republican, New Mexico, and were designed to curtail American participation in European settlements resulting from the war.

Of the nine amendments yet to be acted on, six relate to the Shantung section, two to equalized voting power on the League of Nations, and one would limit American representation on the League of Nations. In the absence of a definite agreement for disposition of these proposals, senate leaders thought tonight that the debate might run on several days before another roll call is taken. Throughout the day's voting, the democrats presented a solid front against the amendments, except for Senators Gore of Oklahoma and Thomas of Colorado. Seventeen republicans, on the other hand, lined up against the first committee proposal to be considered and most of them stood with the democrats on all succeeding roll calls. Many of them announced they were for reservations which they believed would cover the same ground without endangering the treaty.

At adjournment the treaty advocates declared themselves elated at the day's work and the opposition leaders also were claiming a victory on the showing made for their amendments. They mustered a maximum strength of 31, which, with absentees would be sufficient, they declare, to insure the treaty's defeat unless satisfactory qualifications are accepted. Thirty-three negative votes on the final roll call, they pointed out, would make impossible the two-thirds majority necessary for ratification.

MUCH INTEREST MANIFEST AT ROAD CONVENTION

Effort is Being Made to Change Several Routes of the Ozark Trails

Roswell, N. M., Oct. 3.—Delegates from several states are now at Roswell attending the Ozark Trails convention. The meeting was called to order yesterday morning by Col. C. H. Harvey, president of the association.

During the day a number of addresses were made by representatives from the various states and of the tone of these addresses proving, it is safe to say that the route of the United States are ready to build good roads.

At the meeting last night several prominent citizens, including Gov. Larrazola, of New Mexico, addressed the people, and while all these addresses were appreciated by the many hundreds who were in attendance, possibly Gov. Larrazola's speech was the most appreciated. Early in his address the subject of good roads was discussed, but later other subjects, including federal land control, were discussed.

The meeting today will likely be the most important of all as new routes are to be designated. The big fight at this time is being made by Texans who are making an attempt to change the proposed route through their state. Amarillo delegates, as well as others from the Panhandle and North Plains are making an effort to have the Ozark Trail extended from Amarillo into Roswell. Representatives from the South Plains are of the opinion that the trail should pass through Tulia, Plainview, and possibly Lubbock. At this time it is not known how the question will be settled, though it is safe to say that Amarillo will have a direct connection with Roswell notwithstanding the fact that there is strong opposition.

The convention will close Friday afternoon and the delegates, it is

RELIEF PROMISED WHEAT GROWERS OF PLAINS

Railroad Administration Says Tonnage Will Be Furnished Next Week

The railroad administration has promised to permit shipments of wheat from the Panhandle and Plains next week.

A letter addressed to Congressman Marvin Jones Monday said the wheat corporation has advised that "the outlook for additional tonnage at Galveston is very good, and it anticipated a sufficient number of boats within the next ten days to relieve the elevator and car congestion."

Mr. Jones is further advised that instructions are outstanding that preference shall be given to cars for loading of wheat when the shippers are in a position to ship to a market or a port which can handle the grain promptly on its arrival, so as to avoid unnecessary delay, to the equipment.

This is good news for the people of this section of the state, where the marketing of wheat is being held up by refusal to permit wheat shipments. In the North Panhandle many thousands of bushels of wheat is rotting in the fields, as the farmers have filled all their granaries and other storage places.

Race Riot in Arkansas

Helena, Ark., Oct. 2.—Five dead and five wounded made up the list of white casualties tonight as a result of uprising of the negroes in the vicinity of Elaine, 18 miles south of this city, which broke forth Tuesday night and caused a reign of terror in the southern part of Phillips county, until the arrival today of federal troops from Camp Pike, sent to the scene on a special train at the request of Gov. Brough. The number of known negroes dead stood at eleven, one of them a woman, with others variously estimated at from five to ten, but their deaths not definitely established.

Maize and Kaffir in Brazil

Brazilians will experiment with Hale county seed in the growing of milo maize and kaffir corn, and in time the upper Amazon river country will likely grow hundreds of thousands of acres of these crops from seed sent from here.

Last week the C. E. White Seed Co. shipped two boxes of seed to a New York firm, which has extensive land interests in Brazil, and purpose to try out maize and kaffir. The shipment will go to an Amazon river port and then be transported two hundred miles by a river boat to the lands of the firm.

Belgian Royalty Arrives

New York, Oct. 2.—The King and Queen of the Belgians, with Prince Leopold, heir apparent to the throne were the guests of the United States in New York tonight. They have come, as his majesty expressed it, to voice their gratitude and that of their people for the generous aid given them by this country when their nation was threatened with extermination.

Wayland Team to Ahilene

The Wayland college football team left this morning for Ahilene, where it will play the Simmons college team tomorrow.

Those who went this morning are Prof. Fite, coach; Players Wren, Blakemore, Daniel Covington, Pat McWhorter, Sparks, Roy Gladson, Thorpe, L. Nobles, Ewing, Jones, Rufus Brazier, Romie Stewart and McBride.

State Comptroller Terrell Resigns

H. B. Terrell, state comptroller for the past five years, has resigned, on account of the salary of \$2,500 a year being inadequate for living expenses. L. W. Tittle of Rusk, chief clerk, has been appointed to succeed him.

HALE CENTER SENDING EXHIBITS TO FAIR

Has Gathered Fine Exhibit of Farm Products—Causes Favorable Comment

The people of Hale Center have gathered a very creditable exhibit of farm, orchard and garden products, which they now have on exhibition in the corner building formerly occupied by Roberts & Lemond. The delegates to the Ozark Trails convention inspected the exhibit Tuesday and passed many favorable comments on it.

Hale Center has recently sent an exhibit to the Tennessee fair, held in Memphis; to the National Soils Products exhibition in Kansas City, and now has an exhibit at the dis-

CARTER-HOUSTON'S

PRESIDENT WILSON IS A VERY SICK MAN

Condition is Less Favorable—Must Have Absolute Rest, Says Physicians

Washington, Oct. 2.—President Wilson is a "very sick man" and "his condition is less favorable," it was said by Dr. Cary T. Grayson, the president's physician in a statement issued at 10 o'clock tonight from the White House.

The following bulletin was issued by Dr. Grayson:

"The president is a very sick man. His condition is less favorable today and he has remained in bed throughout the day.

"After consultation with Dr. F. X. Dercum of Philadelphia; Dr. Sterling Ruffin and E. R. Stitt of Washington, which all agreed as to his condition, it was determined that absolute rest is essential for some time."

Dr. Grayson, it was today, decided yesterday to Dr. F. X. Dercum, a Philadelphia neurologist, and during the week has consulted two naval doctors, Rear Admiral E. R. Stitt, head of the naval medical school, and Captain John B. Dennis, director of the naval dispensary in Washington.

Dr. Dercum arrived from Philadelphia late today and went direct to the White House, where he and Dr. Grayson were joined by Doctors Stitt and Dennis, and Dr. Sterling Ruffin, a Washington physician.

Dr. Dercum returned to Philadelphia tonight, Secretary Tumulty announced.

After the consultation it developed that the physicians called in by Dr. Grayson had agreed entirely with his diagnosis of the president's ailment and approved the course of treatment decided upon by him.

The name of Dr. Dennis, director of the naval dispensary in Washington did not appear in the bulletin Dr. Grayson gave out tonight.

There was much speculation in the capital tonight as to the president's real condition and concern was generally expressed.

Earlier in the day Dr. Grayson made known that the president's physical condition was fairly strong and that his blood pressure was good. The president's age—he is approaching his 63rd birthday—it was explained, however, made close watching of his condition essential.

Former Secretary of the Treasury William G. McAdoo, the president's son-in-law, called at the White House during the day but it could not be learned whether he had been requested to come to Washington because of Mr. Wilson's illness or was in the city on a business trip.

Death of Messenger Boys

The local telegraph office is having a hard time keeping enough boys to deliver its messages, as the boys of the ages used by the company are now attending school. Mr. Carpenter, who handles several of the daily newspapers, is acting as messenger boy and delivers messages in the business section.

The pay of a messenger boy is \$40 a month, with 1c bonus for each message brought in, besides uniforms are furnished and kept in repair.

Thirty-Sixth Division Re-union

We have received a letter requesting that we urge all members of the famous Thirty-Sixth Division to attend the first re-union of the members of the division at Dallas fair ground next Friday, Oct. 10. It is stated that "there will be some great doings at the re-union."

\$750 Raised for Salvation Army

To date, says Judge Randolph, county chairman of the Salvation Army campaign, about \$750 has been raised in Hale county, practically all of which has been contributed in Plainview precinct. No reports have so far been received from any of the other precincts.

Ozark Trailers at Hale Center

The Ozark Trail delegates spent about forty minutes in Hale Center Tuesday. There were short speeches by several.

Mr. and Mrs. H. S. Cline and J. L. Monroe joined the delegation and went to Roswell.

HALE COUNTY SENDS BIG EXHIBIT TO DALLAS FAIR

PRODUCTS ARE EXCEPTIONALLY FINE AND WILL WIN MANY PREMIUMS

A large shipment of Hale county products have been sent by express to Dallas, to form the Hale county exhibit at the Dallas state fair. The shipment contains a full assortment of practically every farm, orchard and garden product grown in the county, and the specimens are fine. The showing of wheat deserves special mention. It is expected that the exhibit will win a big bundle of blue and red ribbons, in addition to winning other trophies and sweepstakes prizes.

Col. R. P. Smyth, J. O. Brown and George Saigling will go to Dallas and arrange the exhibit at the fair, which will open tomorrow, and also be in charge of it, each part of the time, during the fair.

Hale county never fails to win out on its exhibits at fairs and products exhibitions.

NO CHANGE IN STEEL STRIKE REPORTS SHOW

Each Side Makes Claims it is Winning Out in Big Industrial Contest

Pittsburgh, Oct. 2.—The steel strike situation in the Pittsburgh district remained virtually unchanged today. Steel company officials continued to maintain that more men were returning to work and tonnage was being increased, while the strike leaders declared their men were "holding firm."

Steel companies assert that many men, attracted by the high wages, are forsaking other lines of work and entering the mills.

Characterizing statements that strikers are deserting the ranks of organized labor as "false and misleading" Fred Keightly, secretary of the Amalgamated Association of Steel and Iron Workers said that hundreds of men were being received for membership.

Peace and Lewis Have Well

R. M. Peace and W. B. Lewis have a telegram saying that their first well on their holdings at Desdemona has come in, with two hundred barrels a day, having barely struck the oil sand. When it is drilled in they expect it will gush four or five thousand barrels a day.

They have considerable holdings in that field, and have other wells that are being drilled.

Later—Another telegram has been received this afternoon, saying the well is now producing at the rate of 700 barrels a day.

Periodicals Suspend Publication

Three-fourths of the large magazine and periodical publishing houses in New York closed their establishments yesterday and suspended all work, rather than grant the demands of the printers and pressmen. They propose to remain closed "until the unrest and troubled conditions in the country ceases."

Palace of Sweets Changes Hands

George Pappas and Jim Pragalos have sold the Palace of Sweets confectionary and cold drinks to James Christakos, who has been employed in the store, and his uncle from Fort Worth. All parties are Greeks. Messrs. Pappas and Pragalos will establish a similar business in Amarillo.

This would be a better world to live in if you could make people believe that it is as mean to say unkind things about the living as about the dead.

The Sons of Rest on the corner of the square could be making \$5 a day or more dehorning kaffir and maize, but they are such believers in the scriptural injunction "What God hath joined together, let no man put asunder," that they dare not accept the jobs.

Mayor Hoan of Milwaukee is a socialist. He refused to invite King Albert of Belgium to visit Milwaukee. This is his platform: "I stand for the man who works. To hell with kings." Mayor Hoan and the editor of this great moral guide of the Plains have about the same opinion as to kings.

Editor Jones of the Silverton Star is again "seeing things." He tells of the skeleton of a "thunder lizard" eighty-five feet long and seventeen feet high, being found near that place. That takes the championship from any editor of the North Panhandle, including those at Canadian and McLean.

Consumption of sugar in the United States for the first seven months of this year was 362,000 tons more than during the corresponding period last year, according to statistics compiled by the United States sugar equalization board. This amount represents an increased consumption per capital of one pound a month.

Bailey and Ferguson and their followers claim to be "the real democrats" of the state. May the devil save the mark! When the decent people of the state have to take their democracy from such as Joe, Jim and the liquor and anti-American elements of the state, pigs will begin to fly, ducks will shun water and oil stock agents will tell the truth.

The Utah legislature by a unanimous vote ratified the national suffrage amendment Tuesday. A woman member of the lower house presided as the vote was taken. It is said the necessary thirty-six states will ratify by spring, and women everywhere will vote in next fall's presidential election. This is a hard jolt for the Joe-ites, the Bob-ites and the Jim-ities down here in Texas. The world moves on—even if some politicians have lost out.

Editor Loomis, of the Canadian Record, declares that Editor Braswell of the Clarendon News does not love the Panhandle. We hardly think this charge true. The matter with Editor Braswell is he got so full of the old-fashioned tallow-dip prejudices of the section of the state where he came from that it is going to take a long time for him to get fully alive to the modern thought and spirit of the Panhandle and Plains country. In time he will "arrive."

"Texas ranks lower than nineteen other states of the union in the matter of state indebtedness," says the Clarendon News. But it will outrank all others if the so-called "boosters" of the state have their way in issuing bonds. Several hundred million dollars in bonds are proposed in the several constitutional amendments to be voted on next month. Bonds mean interest and sinking funds. Bonds mean increased taxation. Every one of the proposed amendments that carry state bond issues should be voted down.

A newspaper in a nearby town says the members of a church there will build a new church to cost \$25,000 that \$10,000 will be raised in cash, and the other \$15,000 will be borrowed. It should be a penitentiary offense, without hope of pardon, for the members of any church board to borrow money for the building of a church. No church building should be erected until all the cash that it will cost is in hand. One great handicap of church work is very often indebtedness on the house of worship, raising money for the interest and payment of the debt. The time could be better spent in real Christian work. We have never seen a passage in the scriptures that authorizes the borrowing of money to build a church, in fact, we are quite sure it is strictly unscriptural and the work of Satan.

The trouble with the industrial laborers is that their minds are set on more pay and less work, and then again less work. They want to work only five or six hours a day and loaf the rest of the time and then expect lower prices of the things they buy. Shorter hours means less production, and less production means higher prices. Now, of all times in the history of the country, should there be increased production—and greater economy. Every person should work harder than ever before and should save every dollar he can. Now is the time to make money, for the value of dollars is going to increase, and the person who has saved will see his savings grow in value. Let everybody keep on a full head of steam and "make hay while the sun shines," as it were. Now is no time to strike, no time to shirk; no time for idleness; no time to decrease production.

"IN A HELLUVA FIX"

Henri Watterson, the great editor of the Louisville Courier-Journal, recently wrote, "The world is in a helluva fix."

He might have said just as truly America is in a helluva fix, too.

During this week there have been lynchings of negroes and whites, race wars, a big strike and many little ones in progress, a U. S. senator rotten egged, women assaulted, many persons killed, many thousands of persons threatening to strike and burn and plunder.

Thank goodness most of this lawlessness has taken place outside of Texas, where people are more level-headed, less criminal and less anarchistic than in most other sections of the country.

Don't charge this lawlessness up to "the unrest of the times." It is simple the devil welling up in the hearts of persons. In many thousands of men is the desire like that of Mr. Hyde, to wreck, destroy, murder, and they seek opportunity to give expression to their heart's black desires. In ordinary times they are afraid of punishment and thus are kept from doing their hellish work; but just let a strike or any unsettled occasion arise and they are quick to take advantage of law and order.

Law and order will prevail in the end. It must prevail. There are many times more decent people than there are roughnecks. Every good citizen should insist on law and order. Every good citizen must demand every semblance of mob law. Persons who take part in mobs should be shot down by officers, and where this is not done they should be tried for murder and hang'd. Unless these radical measures are taken the mobs will grow even more defiant and anarchistic, and will bring anarchy such as prevails in Russia and the Balkans.

No good citizen can afford to in the least excuse mob law. To do so, means the undermining of our republic.

The housewives' organization of Dallas, which has ten thousand members, has asked the ten thousand families which they represent, to refrain from buying anything except absolute necessities for a period of thirty days, to help reduce the high cost of living. Also, they will be asked not to purchase anything costing over a maximum price as shown on a list they have prepared. If this is done, ten thousand families of Dallas will save a lot of money during the next month, also it will tend to bring down prices. Waste, extravagance and high living are the trinity that is contributing to high prices. Now is the time of all times in the history of this nation to live as economically as possible. Economy means that production will be allowed to accumulate a surplus; resolving to stop buying when any article rises above a certain price means that prices will be forced to normal. Sane living means that people will make and save more money, and money saved is money made. Every family in the nation can contribute its part in thrift by following the rules given by the Dallas housewives.

It is very likely that Judea adopted bone-dry prohibition in the days of the Prophet Isaiah, for we read in the 24th chapter of Isaiah the following:

"There is a crying for wine in the street; all joy is darkened; the mirth of the land is going.

"The new wine mourneth, the vine languisheth, all the merry hearted do sigh. The mirth of tabrets ceaseth, the noise of them that rejoice endeth, the joy of the harp ceaseth.

"In the city is left desolation, and the gate is smitten with destruction."

Speaking of race riots, a colored man down at Fort Worth the other day said: "Ef any white man ever comes after me with a gun, there'll be a race, but no riot."

When a man has more money than brains nature fixes things up so that he hasn't brains enough to feel embarrassed over the situation.

All is lovely once more. One of the men who sold us stock in the oil regions has shown us by the actual figures that we will soon be drawing more than ten thousand dollars a month in dividends, which is considerably more than 10 per cent interest on a million dollars. With that amount coming in each month we can buy several bundles of print paper and thus keep the paper going.

OKLAHOMA'S SHAME

Ardmore, Okla., citizens have met and sent a telegram demanding that Senator Reed of Missouri cancel his engagement to speak there in opposition to the league of nations and they went further and denounced as "undemocratic and un-American" the action of Senators Reed and Gore in touring the country against the league. These Ardmore people (possibly there were but a few in the meeting) have a queer idea of what is democratic and what is American. If Senator Reed or any other senator or citizen believes the proposed league of nations is a menace to our country, it is his duty as a patriotic citizen to oppose its ratification with all his might and main. To do otherwise would be un-American. And it is certainly democratic for senators and others to go before the people and make speeches for or against any proposition or question. The News is favorable to the ratification of the league of nations treaty, but we want the matter thoroughly discussed before it is ratified or rejected. There are some sections of the treaty that need a great deal of explanation. The News is not like a young mocking-bird, that shuts its eyes and swallows everything poked at it.

Since the above was written Senator Reed attempted to fill his appointment in Ardmore. The mayor was introducing him, when a mob cut the light wires, darkening the hall; and a volley of rotten eggs was thrown at the senator who was on the stage, some of them striking ladies who were seated nearby. It was a disgraceful affair, and will likely cause the defeat of the treaty, for every vote in the senate is needed to put it through. A mob of roughnecks can be depended upon to ruin even a good proposition. Doubtless not a half-dozen of the mobites at Ardmore ever read even the caption of the treaty. They know nothing about its provisions. They are simply a bunch of lawless scoundrels, who seek such occasions to vent their lawlessness. Such mobs need to be shot into hades via machine guns.

That was a disgraceful affair in Omaha, Neb., Sunday, when a mob tried to burn the county court house to get a negro, whom they lynched, and then, because the mayor urged the mob not to take the law into its hands, the mob attempted to lynch him. Mobs are always bad, are always wrong, always composed of cowards, always composed of criminals at heart who seek such occasions to give vent to their devilish meanness. The Omaha police should have poured several volleys of hot lead into the mob, which would have broken it up quickly. Mobs should not be temporized with by officers. If officers would make a practice of shooting down the leaders of mobs, the mob business would soon be broken up. But, too often the officers really sympathize with the mobs in their lawlessness.

IN A MINOR STRAIN

Give more thought to your own faults and you won't have so much time to knock the faults of other people.

Don't whine. You should be tickled to death that you are not getting all that is coming to you.

When a man is praying to be delivered from temptation, he often keeps one eye open so he can see which way she goes.

We have known a lot of absent-minded men. But we never knew one who was so much that way that he could forget his troubles.

One good thing to remember is that while it is mighty hard to talk yourself into a job, it is mighty easy to talk yourself out of one.

The so-called "suspended sentence law" in this state should be re-named "the law to encourage crime." It is bringing criminal jurisprudence into greater disrepute—and that is saying a lot. The moral phase of crime does not worry many persons who commit crime—it is punishment in prison that causes them to worry. A case in point: Last week a woman in Fort Worth was tried for murdering a man; she had the best lawyers for it was a strong case; they made every plea known to slick criminal lawyers; the jury brought in a verdict of five years with a suspended sentence. She and her lawyers were elated and openly said so. They at once gave

notice that the case would not be appealed. The disgrace of a sentence to a term in the penitentiary was not thought of nor will it likely ever cause the convicted woman any worry—just so she don't receive any punishment. There has hardly been a law in twenty years passed in Texas but what makes it easier for a criminal to escape punishment. But, there is a red-hot hell after this life, where there won't be any side-stepping of justice, and where criminals will get what's coming to them, and where they will hardly joyfully exclaim "I am perfectly satisfied" as did this Fort Worth woman when the jury announced its verdict.

Grayson County People Visiting Here
J. D. Stark and family have been visiting Mr. and Mrs. A. L. Stark, near Runningwater, the last week. They were accompanied by one daughter, Miss Jewel Stark, also Miss Flake Rankins and Mr. Jerry Davis. They motored through from Howe, Grayson county, Texas.
J. D. Stark is a brother to L. D. Stark of near Whitfield. Mr. Stark is a farmer and owns nearly 1,000 acres of land in and around Howe. He says he can't see why this isn't just as good a farming county as where he lives, only it don't rain enough here. His son, Louis Stark, and nephew, Loy Helvy, were here a while back and bought 320 acres 9 miles northeast of Plainview, of which Mr. Helvy intends to move on at an early date.
J. D. Stark says he may come back and buy in the future. They left for home on the 25th of Sept.

Time Changes October 26
Clocks will be moved back October 26. The law provides that the change shall be made the last Sunday in October at 2 o'clock in the morning. The thing to do is to turn the clock back one hour before going to bed Saturday night, October 25, and enjoy the extra hour of sleep without being behind one minute Sunday morning. But that extra hour cannot be realized until October 26.

Wild Ducks Devouring Grain

Mr. and Mrs. Blue Stevens and daughters of the Center Plains community are in town today, shopping. Mr. Stevens says the lakes in his community are covered with wild ducks and that they are devouring much grain in the fields. He will be glad when the open season for killing ducks begins.

He says the farmers are working every minute of their time gathering row crops. Labor is so expensive, scarce and inefficient that the farmers are having to do all this work by themselves, and as the crop is so large it is going to take a long time to get it harvested. On account of the low prices, he will put away enough feed to do him for two years.

He has quite a good-sized bunch of cattle on his ranch.

No. 40½. Three and three-fourths sections (2400 acres) in the Plainview territory, all in one body and all of the very best smooth farm land. All fenced and cross-fenced into numerous pastures, being about 15 miles of good 3 to 4 wire fence. 4 wells and windmills, two sets of fair improvements, about eight hundred acres in fine state of cultivation and divided into about seven separate fields. Price only \$35.00 per acre. Can sub-divide and sell in tracts of from 160 and up to suit the purchaser.

No. 60. 160 acres of improved land 3 miles north of Plainview, all of which is in cultivation, a splendid 5-room frame house, well built and painted, well and windmill, water works, etc, lots and sheds, good orchard and shade trees. This is a very desirable place and convenient to town and schools. Price low, terms easy, 7 per cent.

No. 65. 160 acres improved land 5 miles of Plainview, 100 per cent best level land, 100 acres in cultivation, 50 of which is ready to be sowed in wheat, 50 acres in good row crop. House, well and windmill with plenty of good water. Improvements cheap, but a fine tract of land and well located. Will sell on good terms, 6 per cent interest and include 50 acres sowed to wheat and the rest out of 50 acres good row crop.

The above lands are the very best that can be found around Plainview and the prices given are ridiculously low, the raw land is worth more—genuine bargains that are absolutely sure to yield good profits to the purchaser.

Never in the history of the Plains were crop conditions more favorable and with the increasing demand for these lands, we ask the thinking man, where will these land values stop? Not under the highest priced lands of Central Texas. We have other lands for sale all over this country, too numerous to mention here—have dealt in these lands for more than twenty-five years—know values and best proposition for investments. Our business is to sell land and not to deceive anyone.

Blockade of Germany Begins

Paris, Sept. 30.—The blockade of Germany, which was threatened by the Allies in case the German troops of General Von Der Goltz were not removed from the Baltic region, will begin today, according to the Intransigent. No food ships, it declares, will be permitted to start for Germany until further orders are issued.

Vessels now on the way to German ports, however, will be permitted to proceed to their destination.

Basle, Switzerland, Sept. 30.—The efforts of General Von Der Goltz "to make his troops evacuate the Baltic, having failed," says a Berlin dispatch received here today, the German government has decided to "recall him definitely."

When Train Men Get a Grouch

Operating expenses of railroads are increased by numerous methods of waste and carelessness. Probably one of the oldest and by far the most destructive and useless of them is practiced by train men and engine men when they get on the "peck." We have reference to their methods of switching and handling trains. In the local yard Saturday evening was a crew that was on a "peck" good and stout. The engine crew would allow the train men to signal until it looked as if they were exhausted before a move would be made. When the engine got under headway it would strike standing cars with such force that, one standing beside the train could see the cars buckle upward in the center when the impact was made. In the train he handled were several cars of cattle, some containing calves and others mixed with cows and calves. These cars while standing appeared to be moderately loaded, but when they were struck in switching one could see daylight through fully one-third of the car. They were jammed in one end of the car tighter than sardines were ever packed in a can. After switching had been completed train men had the engine backing up and pulling forward apparently for no other reason than to get even. When men adopt such measures to show their contempt for each other it is time to call a halt. They are not injuring each other one cent. The railroad owners and the shippers are the classes that suffer for such foolishness. Turning the railroads over to such a class would be the most destructive act the people of this country could permit.—Claude News.

Why Shoe Prices Are High

A Columbus woman was having a pair of shoes fitted, and she was inclined to chattiness.

"I remember the first pair of shoes in Columbus which was sold for \$15," he said, as he adjusted the shoe he was trying to sell. "I was clerking in—well, it was not this store—and one day there came in a large box of shoes. There was nothing unusual about them—they were to be retailed for \$5. That was a maximum price of the finest high shoes then, and it was not more than five years ago.

"While we were taking them from the box, the manager of the store said:

"I am going to mark a pair of these shoes at \$15 and see if I can sell them."

"So he selected a pair of the regular \$5 shoes and set them on a piece of velvet in the show window. Price \$15," was stamped on a card and placed over the shoes. In a few hours a woman came in and bought them.

"What's the use of selling shoes for \$5 when I can get \$15?" asked the manager, so every pair of the shoes bought to sell at \$5 was marked up to \$15, and, women bought them.

"Now, whose fault was it? The manager who took advantages of circumstances, or the extravagant women who bought the shoes?"—Columbus Dispatch.

Delivers Lecture on Geology

Prof. Chas. H. Sternbury, a noted Geologist and Fossil Hunter, delivered a very interesting and instructive lecture at the high school auditorium last Saturday night. The professor is a man of much experience and is an interesting speaker. He has been making researches on the Tule Canyon northwest of town for a week or more, and with the assistance of Eph Stevenson and sons, has made considerable excavations, and has discovered the fossil remains of a large horse and also of what he thinks to be a sloth.

The head of the horse is over two feet in length, and the fore limb is 1-2 feet. He secured the complete skeleton. The professor claims this horse lived something like 20,000 years ago.

Many other interesting researches were mentioned in which Professor Sternbury and his sons, born fossil hunters, exhumed the remains of various wonderful animals the technical names of which it would be impossible for us to give.

One was that of a terrible lizard known as "thunder lizard," which was 85 feet long and 17 feet high, and many other large and apparently very vicious animals, fishes, reptiles, etc.

The professor spent over twenty years in the "chalk fields of Kansas" gathering skeletons and studying conditions of the past.

He has placed many specimens in European as well as American Museums, which stand as monuments to his life's work.—Silverton Star.

What will be known as the "Amarillo Plan" of disposing of beef cattle seems to appeal to the ranchmen and as a result many butcher shops will be opened in the stockraising section of the United States. The plan of the cattlemen is to sell dressed beef to butchers at 9-cents per pound delivered in the shop. The butchers must sell the meat from 12 to 20c per pound. If this plan is put into effect ranchmen will become independent of the packers and the public will too. It means more money for the ranchman and a great saving to the consumer.—Childress Index.

THE UNIVERSAL CAR

Ford cars are important servants everywhere. They help the family enjoy life, bring the pleasures and advantages of town within reach of the farmer and give practical service every day in country and town. They require a minimum of attention; anyone can run the Ford and care for it, but it is better to have repairs and replacements taken care of by those who are familiar with the work and have the tools, the genuine materials, and skilled men to do the work promptly. We pledge Ford owners the reliable Ford service with real Ford parts and standard Ford prices.

The River of Life

Say what you will of whatever part of the human anatomy you please, the river of life is the BLOOD. It is either the swift running stream of health or the germ-laden channel of disease, one or the other.

The new remedy for the blood is

RICH-TONE, The Famous TONIC

the kind that freshens and quickens the circulation, energizes the good corpuscles that fight the battles of life for the sick.

RICH-TONE, The Famous TONIC, is unlike any other known remedy. It works differently, it reaches in and through and down till it penetrates to the seat of the disease and springs at the very throat of the cause of it.

It's the only remedy that does this. And doing this it gets results and effects cures that no other can.

Mr. Wimsatt says: "I bought two bottles of Rich-Tone for my mother. She thinks it is the finest tonic. She has used many other kinds, but nothing has helped her like Rich-Tone."

This famous tonic is for sale at our drug store at only \$1.00 per bottle.

D. M. Garrison, carpenter, Plainview, says: "At times my back gets out of whack and causes me a lot of trouble. My back becomes weak and lame and aches a good bit of the time. Mornings it is stiff and lame when I first get up. My kidneys also become weak and irregular in action. When I have felt any of these symptoms coming on I have commenced using Doan's Kidney Pills and they have never failed to give me instant relief and fix my kidneys up in fine shape. It only takes a short use of Doan's Kidney Pills to relieve me of the attacks."

Biliousness and Constipation

It is certainly surprising that any man will endure the miserable feelings caused by biliousness and constipation, when relief is so easily had and at so little expense. Mrs. Chas. Peck, Gates, N. TEXAS CROPS ARE GREATEST IN HISTORY

Bumper Yields of All Staple Products—Are Way Above Other Years

Washington, Sept. 25.—The Texas farmer, his granaries already bursting with the greatest wheat and oat crop in history, must now look around for a place to put away his cotton, corn, hay, sorghum, kafir, potatoes, beans, peanuts and a dozen other things. The Texas farmer has just had the biggest year of his big life, the department of agriculture today announced and cited figures to prove the fact.

The Texas farmer this year harvested or is harvesting a crop of 120.9 per cent, which means that he raised a fifth bigger composite crop than he ever did before. Moreover, just one state did better and that was Oklahoma which is harvesting a 129.8 per cent crop. After Texas the states with the biggest grain in their year yield are Kansas, Nebraska, Arizona and New Mexico.

Here are some of the reasons the Texas farmer is wearing his broadest smile and announcing to a world which may have forgotten the fact that Texas is an agriculture state and not all its wealth is in petroleum.

Corn in 1919 has been a 102 per cent crop, against a ten year average of 62 per cent. It will amount to 201,237,000 bushels and on Aug. 1 even the most optimistic report placed the prospective yield at 186,576,000 bushels. In 1918 Texas raised only 69,000,000 bushels of corn.

Oats are a 100 per cent crop, against 66 per cent as a ten-year average. The yield in 1919 has been 72,912,000. In 1918 it was 22,197,000. The bushy yield this year in the Lone Star State is 481,000 bushels. Last year it was 170,000 bushels.

Irish potatoes are 81 per cent of the best crop the state ever had. Three million and seven hundred and seven thousand bushels will go to market or be consumed by the raiser. In 1918 the yield was 3,300,000 bushels. Sweet potatoes to the amount of 9,212,000 bushels is the Texas yam output in 1919. The rice crop is 8,474,000 bushels as against 7,840,000 in 1918.

The tame hay crop in 1919 is 1,171,000, as compared with 581,000 tons in 1918. Wild hay in 1919 amounts to 265,000 tons as against 159,000 last year. Alfalfa to 302,000 tons as against 184,000 in 1918, is another 100 per cent. The grain sorghums amount to 58,687,000 more than double any other state in the union, and also more than double the Texas 1918 yield which was 24,075,000 bushels.

The apple yield will be 624,000 bushels, compared with 273,000 last year. Peaches 2,959,000 compared 2,333,000 last year. Pears 375,000 bushels as against 274,000 last year.

The Texas broom corn yield is 10,200 tons, compared with 19,200, a rather startling decrease. Sorghum for sirup amounted to 867,000 gallons as against 458,000 last year. Peanuts 11,451,000 as against 7,117,000 in 1918. Watermelons in Texas were a 92 per cent crop, field beans 88 per cent, field peas 87 per cent, tomatoes 90 per cent, cabbage 88 per cent and onions 93 per cent.

In the total number of stock hogs Texas showed a decrease, having 1,911,000 as against 2,196,000 last year. Consequently at Chicago, Kansas City, Fort Worth, Omaha and St. Joseph, the principal hog markets there was a falling off in receipts. Wool production amounted to 14,986,000 pounds, compared with 11,800,000 pounds up to this time last year.

The honey crop to date this year is 96 per cent of the best yield the state has ever had as compared with 74 per cent last year. The peach crop is 85 per cent of the best year ever recorded, as against 34 per cent last year.

In cotton there is a decrease in acreage and the estimate is that there will be only 61 per cent of a full crop but this is larger than the 43 per cent crop of last year. Ellis county, Texas, which in 1918 was exceeded only by Bolivar county, Miss., and Orangeburg county, S. C., in the county production of cotton, will again lead Texas counties in production, the estimates show.

Estimates of average prices for the year being received by Texas farmers for their various crops are as follows: Hogs \$18.60 per hundred; beef \$8.10; veal calves \$10.10; sheep \$9.40; lambs \$12.20. Wool unwashed, per pound, 47c; milch cows, per head, \$80.20; horses, per head, \$104.

Apples per bushel 85c; peaches per bushel, \$1.70; pears per bushel \$1.70; tomatoes per bushel, \$2.20; dry beans per bushel \$4.60; cotton seed per ton \$66.80; alfalfa per ton \$21.50; prairie hay per ton \$17.80; bran, per ton, \$49.20; cotton seed meal, per ton, \$65.90.

Corn per bushel \$1.71; wheat, per bushel, \$2; oats, per bushel, 64c; barley, per bushel, 88c; rye, per bushel,

\$1.20; potatoes, per bushel, \$2.10; sweet potatoes, per bushel, \$2.19; loose hay, per ton, \$18.50; butter, per pound, 40c; eggs, per dozen, 33c; and chickens, per pound 21.5c.

ALWAYS A PLEASANT FRIEND

It is True, of Course, That "Money Is Not Everything." But See What It Will Do.

"Money isn't everything," says the spendthrift as he scatters his wages to the four winds.

Then he reaches middle life, with old age in the foreground, vainly wishing for the return of the mispent coin.

It may be true that money isn't everything, but one thing is absolutely certain. Old Man Money. If he is cultivated through life, will not desert the friend who has cultivated him. When every human friend has fled Old Man Money sticks. You can start him off with five or ten cents a day in early life and keep feeding him that amount all through life, and in old age you will have on your hands a financial Frankenstein, albeit a pleasant and highly agreeable one.

If you find the rigors of the northern winter too severe, you simply tap Old Man Money on the shoulder, and he flies you to Palm Beach; if you are sick another tap on the shoulder brings you the best nurses and specialists the world affords. He's an agreeable old man, never disputes orders and is always ready for duty. He makes the proverbial busy bee and the equally industrious ant look like pikers, for he never rests. He's one size when you go to sleep and larger when you wake up. The older he gets the stronger he becomes. If you are a stranger in a large city, Old Man Money opens the doors of the best hotels and stakes you to the best town affords.

But money isn't everything, at that.

Getting into a Scrape.

Rabbits, men, golf and Scotland conspired to produce the expression "getting into a scrape." In that part of Great Britain the game was first played. The rabbits were plentiful; then as now, they had a habit of making little hollows in which to rest. Whenever a ball stopped in one of these scraped-out spots, the player had a real problem to solve. Finally the golfing societies amended the rules and permitted the players to take certain privileges after "getting into a scrape." From that time, with the difficulty decreased, the game flourished.

To The Public

"I feel that I owe the manufacturers of Chamberlain's Colic, Cholera and Diarrhoea Remedy a word of gratitude," writes Mrs. T. N. Witherall, Gowanda, N. Y. "When I began suffering from colic, I was in great pain and feeling terribly sick, due to an attack of summer complaint. After taking a dose of it I had not long to wait for relief as it benefited me almost immediately." Obtainable everywhere.

Buy Beaver Board That Is Beaver Board

YOU know what Beaver Board is—a clean, easy-working material for walls and ceilings, built of pure wood fibre into knotless and crackless manufactured lumber.

But perhaps you don't know that there is some "Beaver Board" bought and sold every year which is NOT Beaver Board at all.

How does that come about? This way: Beaver Board is the original so-called "wallboard." When introduced there was nothing like it on the market. It made good and became popular.

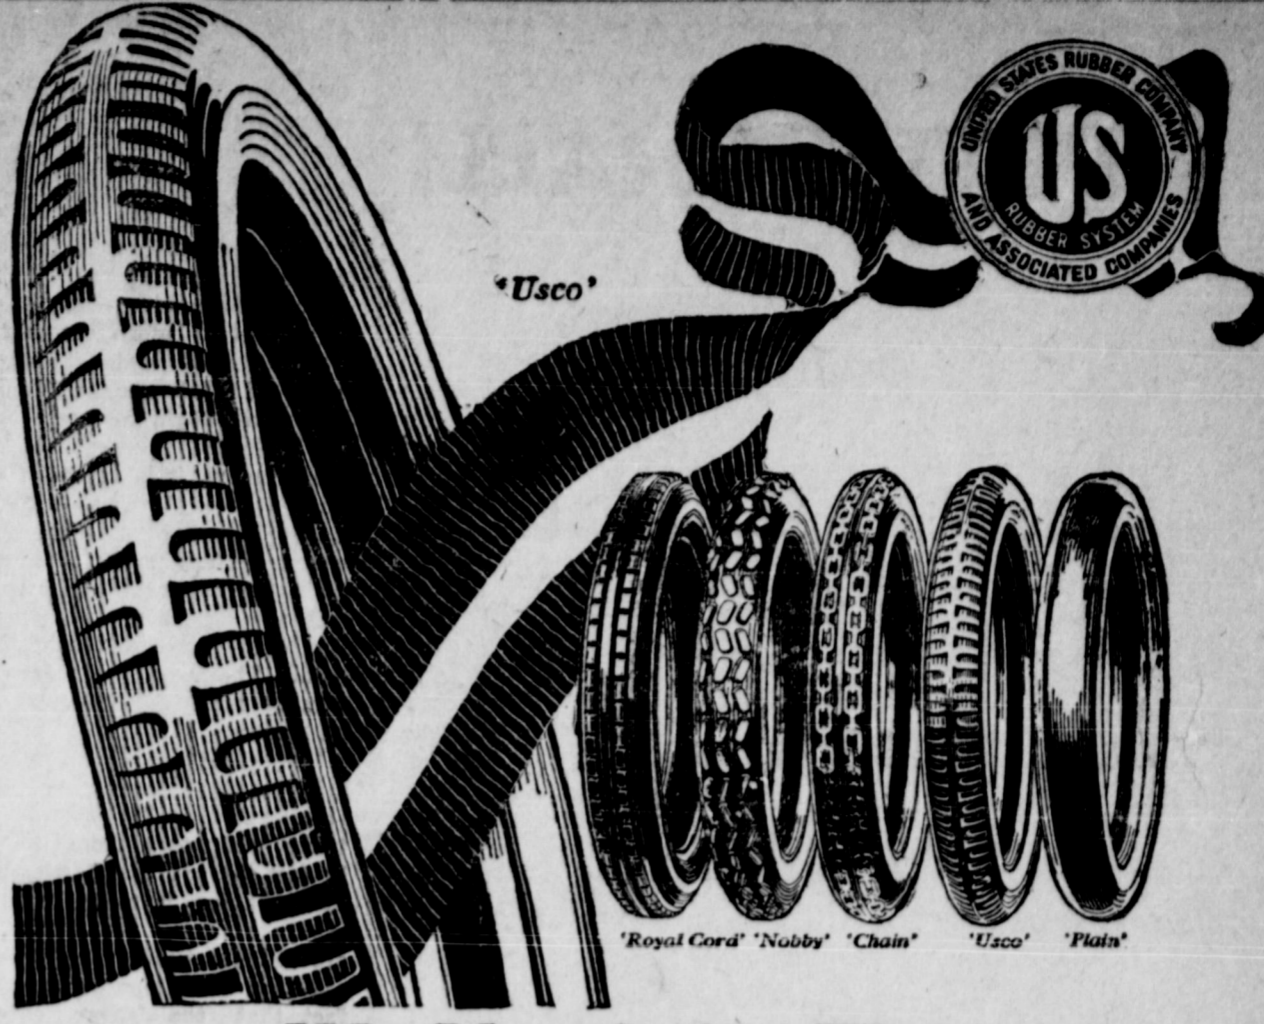

Naturally, other manufacturers began to make products as nearly like it as possible. Some were good but some others, as is bound to be the case, were inferior and indecipherable. "They look like Beaver Board but don't act like it."

There's the rub. You can't tell a good wallboard by the way it looks, smells or feels.

Accordingly when you buy "Beaver Board" that isn't "Beaver Board" you are taking a chance, and we can say to you frankly that it's a large chance. Building materials of any kind are too valuable to take that chance on quality or service.

Every panel of the real "Beaver Board" is printed plainly (on the back) with the Beaver Board trade-mark and instructions. Won't you please remember that this is done as much for your protection as for ours? If you must have the cheaper kind, we have that also.

CALOMEL SALIVATES AND MAKES YOU SICK

Acts like dynamite on a sluggish liver and you lose a day's work

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Live Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not siliate.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, head ache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

None Equal to Chamberlain's

"I have tried most all of the cough cures and find that there is none that equal Chamberlain's Cough Remedy. It has never failed to give me prompt relief," writes W. V. Harner, Montpelier, Ind. When you have a cold give this remedy a trial and see for yourself what a splendid medicine it is. Obtainable everywhere.

"FAKE" ASPIRIN WAS TALCUM

Therefore Insist Upon Genuine "Bayer Tablets of Aspirin"

Millions of fraudulent Aspirin Tablets were sold by a Brooklyn manufacturer which later proved to be composed mainly of Talcum Powder. "Bayer Tablets of Aspirin" the true, genuine, American made and American owned Tablets are marked with the safety "Bayer Cross."

Ask for and then insist upon "Bayer Tablets of Aspirin" and always buy them in the original Bayer package which contains proper directions and dosage.

NOTICE OF SHERIFF'S SALE

Whereas, by virtue of an order of sale issued out of the District Court of Hale County, Texas, by the clerk of said court, on the 3rd day of September, 1919, in cause No. 1717, H. C. Horton, plaintiff, vs. J. A. Towler, defendant, on a judgment rendered on the 6th day of August, 1919, in said court, wherein said J. A. Towler, C. Horton, recovered judgment in the sum of \$599.61 cents, and further sum of Forty Four and 1/2 Dollars costs of suit, and for the foreclosure of a vendor's lien upon Lots Nos. Five and Six in Block No. Sixty Seven, in College Hill Addition to the town of Plainview, Hale County, Texas, against the said defendant J. A. Towler, I have levied upon the above described lots Nos. Five and Six on this day, and, notice is hereby given, that I will on the first Tuesday in October, 1919, same being the 7th day of October, 1919, sell the above described property for cash and apply the proceeds of said sale to the payment of the above judgment, costs of court and all costs of executing this writ. Said lots believed on as the property of said J. A. Towler.

Given under my hand this the 4th day of September, 1919.

Cincinnati Wins Two Games
The Chicago White Sox and the Cincinnati Reds are playing for the championship in base ball. On the Cincinnati field Wednesday the Reds won by a score of 9 to 1 and yesterday by 4 to 2. The team that wins five out of nine games gets the pennant.

J. B. Downs of Lockney is in town today "spouting" about the big crops and great prosperity of the people over his way. The banks of the town are going to have to enlarge their vaults in order to take care of the money of the people, to hear Mr. Downs tell about it.

Sugar Shortage Continues

The sugar shortage in Plainview, and elsewhere, continues. A few bags of sugar are received every few days. A local wholesale house expects a carload in within a day or so.

The shortage is acute all over the country.

Local dealers say little relief may be expected before the latter part of October, at which time the new crops of Utah and Colorado beet sugar will begin to move. In order to protect themselves and alleviate the pressure, it is advised that economy be used by housewives in the use of this commodity. Retailers who have any sugar, are rationing their sales to each customer.

A world shortage of sugar is reflected in the local conditions, it is said. The following was given as coming from an Eastern authority on sugar:

"The situation continues as keenly disappointing as ever, all refineries being still heavily oversold and entirely withdrawn from the market. In fact the position of refineries, who after having been withdrawn from the market for a long period of time, are still far behind in shipping back orders, can only be explained by the fact that the sugar equalization board is utilizing a large proportion of their output to cover export requisitions."
