NAZARETH COLONY SUED FOR TWO GIRLS' DEATHS

JOHN McCORMICK SUES CO-OPERATIVE SETTLEMENT FOR \$51,000 DAMAGES

John McCormick, a prominent Castro county citizen, has entered suit in the district court of that county for \$51,000 damages, citing as defendants forty persons connected with the cooperative colony at Nazareth, in the eastern part of Castro county, west of Tulia.

He alleges in his petition, so we are informed, that a can of kerosene which he bought from the co-operative store, was really gasoline, and that it exploded while one of his children was kindling a fire in a stove last April and burned the house, two of his small daughters perishing in the fire.

Nazareth colony is a co-operative community of German Catholics. There are, we understand, about fifty families, and they are thrifty and peaceable, and clannish. The whole social life of the colony centers in the Catholic church, and the priest is the leader of the people. They own and conduct a store co-operatively. They buy their farm implements and other supplies together, and often in carload lots. They are said to hate German autocracy and militarism, and during the war always subscribed their quotas to liberty bonds, Red Cross and other war activities the first day. A former Tulia lawyer declares none of the members have figured in courts.

It is said that Mr. McCormick was a member of the county council of defense, and some suspicion that because of this fact he made enemies of some of the Nazareth colony, and that the sale of the kerosene was a deep plot. But the Germans say that the oil was bought wholesale in Plainview for kerosene, and that it was bought by McCormick a month before the holocaust, and had nearly all been used up.

The case will come up for trial at the next term of the Castro county district court in Dimmitt, and will be followed with interest.

The plaintiff's attorneys are Mark Cowart of Dimmitt, Carl Gilliland of Hereford, Kinder & Russell of Plainview. Those of the defendants are Williams & Martin of Plainview and Dennis Zimmermann of Tulia.

Two Autos Collide in Mist

Monday afternoon while Judge W. B. Lewis and Earl Grey Owens were driving cars they collided at Broadway and Eleventh streets, and while neither was injured the cars—a Paige and a Hudson—were very badly damaged and it will take more than a thousand dollars to repair them.

It is said that the heavy mist at the time caused the drivers not to see the other's car, and the Lewis Paige struck the rear of the other car.

Trying to Avert Miners' Strike

Secretary of Labor Wilson is doing all he can to avert the strike of coal miners, scheduled to begin Nov. 1. He has both representative sides of the controversy in Washington, though it seems they will fail to agree. There is a widespread spirit that should the strike take place the government should see that the mines continue to operate.

Four Hampshire Hogs Received

Vernon, son of Fred Rastetter, living four miles south of town, received Monday four thoroughbred Hampshire hogs, from the famous herd of Simon Albrecht in Illinois. They are very fine registered hogs, and Vernon will grow a choice herd from them.

Underwood was appointed to see about moving the headquarters to another site and Mr. Perry appointed to secure a room for the nursing class.

Mrs. Jessie N. Ross, a Red Cross nurse, will be here November 3rd. Come and learn the needful art of nursing.

ROUND ABOUT TOWN

Interesting Items Picked Up Here and There by the Editor of the News

Mr. and Mrs. John B. Pope, Jr., were in Thursday from their Castro county ranch, and were guests of his sister, Mrs. R. S. Beard. They reported fine winter pasturage and fat cattle over that way, and every prospect for the coming year good.

Dennis Hefflinger returned Wednesday from a visit to his old home at Paris, where his mother lives. He has extensive farm interests in Lamar county. He says crops are very fine and the people are prospering in that section of the state. They have had several good years.

There are few acts that prove a person's lack of proper training more than for he or she to take the end seat of a pew in church and persistently force other people coming in later to the inconvenience of crowding past to get seats. A person of correct training and ordinary politeness will always move toward the center.

Mr. and Mrs. Byron of Mineral Wells are here, visiting her niece, Mrs. Harry Chatham, and on their return from a trip to Colorado Springs, where they spent three months. They will also visit relatives near Lockney. Mr. Barber was in Plainview twenty-eight years ago, and remarks that there have been almost miraculous changes since then in the development of the country. He was hardly prepared to find such a large and modern city as Plainview.

Will Ratify With Reservations

It is now quite certain that the senate will ratify the peace treaty, but will also adopt several important reservations relative thereto, possibly as many as fourteen or fifteen.

New Safe Received

The Guaranty State Bank today received its new safe, which it is installing in its temporary quarters. The bank reports its deposits are increasing very satisfactorily.

Greater Number of Loans Were Made to Panhandle, Plains, Oklahoma and New Mexico

Washington, Oct. 23. — Loans to cattlegrowers in the southwest to aid them during last year's drouth, were called in by the war finance corporation today for payment November 15. The amount outstanding October 18 was \$3,182,346.

All of the cattle loans were made in the Panhandle country of Texas, Oklahoma and New Mexico, with the exception of \$627,000 in Kansas City, repayment of which already has been arranged.

NATIONAL INDUSTRIAL CONFERENCE DISSOLVED

Labor Group Withdraws, Then Emphasizes Group Quits, Leaving Only Public Group

The industrial conference which convened in Washington at the request of President Wilson, has adjourned after conferences lasting thirteen days.

The labor group withdrew Wednesday when the conference voted down a motion to endorse collective bargaining of labor; and yesterday the employers' group withdrew also, leaving only the public group, which will continue to work for some proper solution of the labor and industrial problems, and will soon give out an address to the public along this line.

TELEPHONE COMPANY HOLDS MEETING WITH OPERATORS

District Managers Confer With Representatives from Many Stations in This District

R. W. White of Amarillo, district commercial manager, and E. L. Doland, district traffic chief, held a conference here Wednesday and Wednesday night with chief operators and others from the various exchanges in this district to consider the matter of securing more operators, better co-operation between employees, better service to the public and other matters of the kind.

It was a round table affair, and expressions were urged from each one present, which included the local manager, Mr. Williams, some of the local operators, and the following young ladies from other exchanges:

Miss Cora Brown of Tulia, Miss Ouide Works of Canyon, Miss Marie Wofford of Hereford, Mrs. Alice Appleby of Amarillo, Miss Gladys Haneer of Floydada, Miss Harris of Lockney, Miss Ella Graham of Canadian, Misses Stahl and Neil of Lubbock, Miss Jordan of Hale Center, Miss Davidson of Slaton.

Mr. Williams says the matter of securing and keeping competent operators is a great problem. Recently he ran ads in both local newspapers, wanting girls to become operators, offering good inducements, but not a one was secured. At present the local exchange has but eight operators, some of them not trained, when it should have twelve or thirteen girls.

CITY TAX RATE IS INCREASED TO \$1.50

Was 60c in 1917, and \$1.25 Last Year School District Taxes Remain at 50c

The city tax rate has been set at \$1.50 on the \$100 valuations for this year, which is the highest rate in the history of the city. Up to last year the rate was never above 60c, but under the new city charter, the validity of which is now before the courts, the rate was increased to \$1.25. Many people "kicked like bay steers" when the rate was raised to \$1.25; so there is no telling what effect the shock of another increase of 25c will have upon them.

The district public school tax rate remains at 50c on the \$100, which is the highest rate allowed by law, but property valuations were increased a flat 25 per cent in order to provide the necessary funds to finance the local schools.

The state rate is much higher than ever before, though the county rate remains about the same as last year. It is safe to say that property owners will pay more than twice as much taxes this year than ever before.

Auctioneer Nash Gets Hurt

Auctioneer W. A. Nash looks like he had attended an old-fashioned Irish "wake," for his face is all bunched up and bruised, and his shoulder is very sore.

Yesterday afternoon he was holding a public sale at W. W. Wise's farm north of town, and got in a small corral with about a dozen young mules to put out one of them. One of the mules ran against him, knocking him down, then several of them trampled over him, before he could be rescued.

While his wounds are rather painful, and for the time mar his natural facial beauty, yet they are not serious, we are glad to note.

May Move to Plainview

R. E. Sykes of Eastland, whom we mentioned a couple of weeks ago having bought the irrigated farm of Jacob Lage, Jr., northwest of town, has bought some stock in the Guaranty State Bank of Plainview, and his family may move here. He has also bought other properties in this county, including a section of land near Hale Center from Bigler Bros. He has immense oil holdings in the Eastland oil fields.

Men like to joke about women talking so much. But a man's idea of an interesting conversation is one in which he does all the talking.

The Episcopalians will cut the word "obey" out of their marriage service. Just as well, for the average husband would have a great job making his wife obey him.

Belgian war millionaires buy \$20 dinners, while crippled veterans beg at wine tables.—Phillip Gibbs, war correspondent. The same old world and the same old story.

Still another pathetic thing is to look back a year and reflect how we Americans thought we'd all be happy, peaceful and contented as soon as we whipped the Germans.

Fair, sunny weather once more prevails on the Plains, after several weeks of rainy, cloudy, misty weather. We are surely glad that East Texas has taken her miserable weather back home.

Over at a town in Oklahoma a thousand men have signed an agreement to wear their old clothes three months longer on account of the H. C. of L. Here in Plainview a number of men are doing the same thing without signing up.

It does look like a fellow who has been married twenty years would in that time have accumulated some sense and caution. Down at Sweetwater a man married that long was floored with a flat iron by his wife in an argument with her because dinner was late.

The director of the census, Hon. Sam L. Rogers, announces that 80,000 enumerators will be needed to take the next census. The work begins on January 2, and will last about two weeks in cities, and a month or more in rural districts. Rates of pay will vary, depending upon the locality and character of the district to be canvassed. The average pay per enumerator at the census of 1910 was about \$70. At this coming census it will probably be not less than \$100.

Politics is great. Missouri has two senators—Reed, democrat, and Spencer, republican. Reed is opposed to the league of nations, and his loving democratic state committee brethren have met and called upon him to resign; Spencer favors the league and his loving republican state committee brethren are to meet this week and adopt a resolution demanding he oppose the league or step down and out. Yet, we all be Americans, and the ratification of the peace treaty is said to be a non-partizan matter. "What fools some mortals be."

Hale county lands are rapidly rising in price. They are much higher now than a year or two ago. Hale county lands are well worth the prices paid. There is no reason why they are not worth as much as North Texas lands that are selling at \$150 to \$300 an acre; Iowa and Illinois lands that are rated at \$250 to \$500 an acre; Kansas lands that bring \$200 to \$400 an acre. It won't be many years until Hale county lands will bring these high prices. The man who invests in Hale county lands now will make great profits.

So far 12,341,251 different ways to bring down the high prices have been suggested, and in each case the one making the suggestion does not contemplate a reduction of his own wages or profits. Human nature is very much the same the country over. Most persons believe in "gittin' while the gittin's good."

HISTORY REPEATING ITSELF

The present universal unrest, following the world war, is but history repeating itself.

In every great war since the barbarians overthrew Rome has a period of unrest followed. It followed Charlemagne's war, the Hundred Year war, the War of the Roses, the wars of Charles V and of Phillip of Spain, the Thirty Years war, the Napoleonic wars, and it took years for the people to settle down again—and in each instance civilization was advanced.

Following history, the people in this country and Europe will soon begin to weary of radicalism, unrest and strife, and gradually resume peaceful ways.

Law, order and common sense assert themselves, as they always do. The level-headed patriotic and industrious people will dominate, as they always do.

God is in Heaven, and the world is soon to be airight, to paraphrase Browning.

A CAPITAL CRIME

And now Gompers complains that the steel corporation sought to make its laborers loyal to it, by selling them stock in the company. It is a pitiful day for labor when it becomes a crime for capital to endeavor to assist it in becoming independent. Stock in the U. S. Steel Corporation has grown to such a figure that it is not to be sneezed at, and no other class of people on earth get the opportunity of buying it on the installment plan but its employees. That's some crime capital is charged with by the fertilized brain of Gompers—the crime of treating employees in such a manner as to make them loyal. The fact is Gompers has found that many of the workers are loyal to their own interests and not to the so-called union interests that provides a soft job with a fat salary for such blood-suckers as Samuel Gompers and his grasping lieutenants who more often capitalize the workers's ignorance than his interests. Oh yes, capital that helps its employees, is a menace, all right.—Clarendon News.

IN A MINOR STRAIN

A thousand dollars is the average cost of being presented at court in England. But the average cost in Squire Young's court is about \$5 and costs.

Why is it that there isn't nearly as much pleasure in spreading the good we know of a man as there is in spreading the bad we know of him?

If a man had to wear a pair of shoes with stilts for heels he would make an exhibition of himself and get arrested. But a woman can get away with it.

You often realize what a chump you were ten years ago, don't you? And ten years from now you will realize what a chump you were ten years ago.

If the faults you see in other people were not so much like your own you wouldn't recognize them so easily.

The federal government continues to urge "economy" on the people, and admonishes them to save, in order to be able to pay the heavy war taxes, yet in all the history of the nation, if reports are true, there has never been such wanton waste, extravagance and graft as has been practiced since the war begun, and which con-

tinues. It is a safe assertion, made by most eminent and conservative authorities, that fully half the money spent by the federal government is sheer waste or pure graft. As the federal taxes now amount to about \$75 per capita, or \$375 per family, each year, it is easily seen what a saving there would be to us common

tax-burdened cusses if the tax bill was cut into halves. During and following every war the grafters get in their work with a vengeance, and the incompetent and extravagant officials waste the people's money. There should be some way to reach dishonesty and extravagance in public office. It does seem that it would be

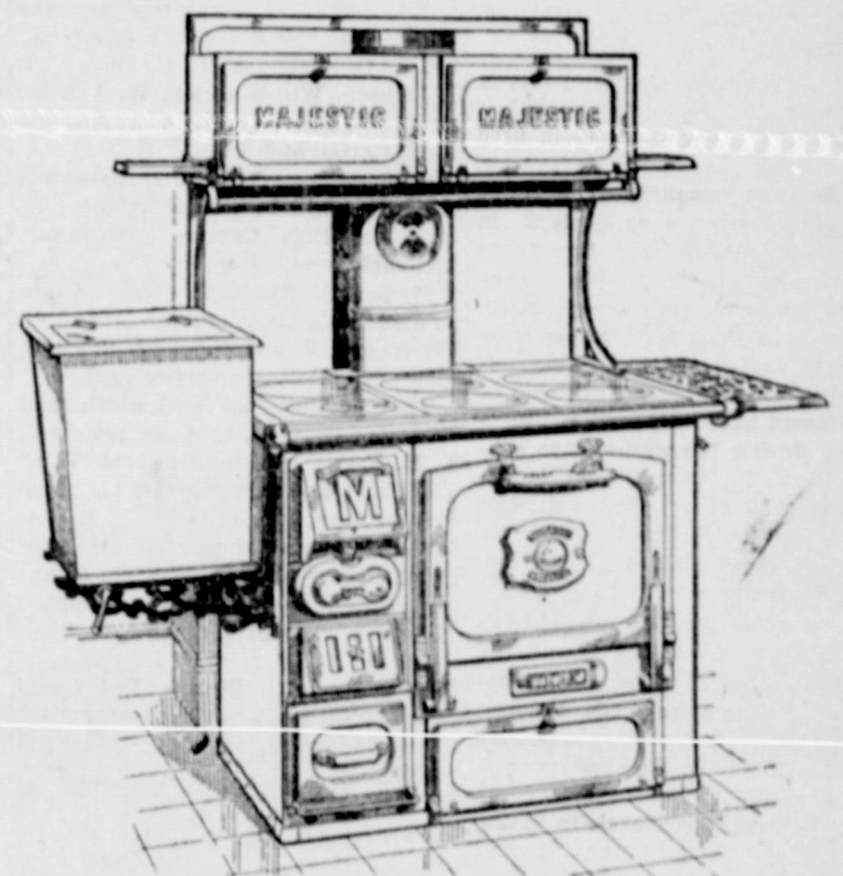

well for an administration to make economy its watchword and its chief work for four years if needs be, for taxation is more important to the average American citizen than whether the Japs hold Shantung or the Italians are kicked out of Fiume. There are times when we become rather narrow in our views of world

affairs, and actually believe that American affairs should be exclusively attended to by Uncle Sam, until a lot of our own vexatious problems are settled. "Our world-wide mission" may be all right, but also "chaos" it begins at home," and the man "who does not provide for his own household is worse than an infidel,"

This range is riveted in all its parts, so that no heat escapes from the oven. The baking results are wonderful and with saving of fuel, besides. Also a gift of fine cooking ware, a complete set, goes with each Majestic Range sold during Demonstration Week. The price of the range will be the same as always--no charge for the set of cooking ware.

Miscellaneous Shower at Gidney Home for Miss Lamb

Thursday afternoon the C. C. Gidney home was the scene of a delightful social event, when Mrs. Gidney and Miss Marie Gidney entertained, honoring Miss Irene Lamb, a bride-to-be, with a miscellaneous shower.

The rooms thrown open to the guests were profusely and beautifully decorated in yellow flowers, and in keeping with the spirit of approaching Hallowe'en, numerous symbols of that occasion were in evidence. Peeping from the fire-place banked with ferns, a huge pumpkin gleamed, while over the mantel yellow streamers, and miniature black-cats and witches held sway.

The lights shaded in yellow, lent a soft glow, and at a given signal a typical old witch, with high hat, appeared coming down the stair-case, with tottering steps. Upon discovering a grandfather's chair by the fireplace she sat down, depositing a churn at the feet of the astonished honoree, who was ensconced in a seat prepared for the occasion and fittingly draped with the chosen color for the day, and also festooned with flowers. The witch proceeded to tell fortunes, and called upon the bride-to-be to examine the contents of the churn, and presented her with the "golden treasure" within. With her wand the witch caused an overflow of the shower to appear, and tables upon which to place the articles for inspection, to be brought forth. Many lovely, novel, useful and elegant gifts were disclosed, having been previously entrusted to the mysterious yellow churn by the assembled guests.

In the dining room, delicious punch and macaroons were served by Fern Vencil and Luella Lamb, and the hostesses were also assisted by Mrs. George Casey Hughes.

At Dinner Wednesday

Mr. and Mrs. Tom B. Carter gave a dinner Wednesday, honoring Bishop W. F. McMurry of the Methodist church, who was here. The dinner included a turkey course, and covers were laid for the Bishop, Rev. and Mrs. A. L. Moore, Rev. and Mrs. E. E. Robinson, Mrs. A. G. Hinn, Mr. and Mrs. J. T. Mayhugh, and the host and hostess.

The Other Side

All day I sit around and weep because the prices are so steep. Whatever thing I have to buy, a pup, a pencil or a pie, a quila, a quagga or a quince, the price I'm touched for makes me wince. And so, by rising prices pinched, I cry, "Let profiteers be lynched." And all the neighbors on the block indorse this drastic sort of talk. They say, "That is the proper dope; you bring a tree, we'll fetch the rope." But this thing has another side, which cannot fairly be denied. I am forgetting, when I yell, the price of things I have to sell. I have an old flea-bitten hen that lays each morning in her den; and when I go, on buoyant legs, to sell her luscious, germ-proof eggs, all neatly packed in crate or tierce, the price I get is something fierce. I have an ancient tinhorn cow, with antlers growing on her brow; she springs, each day, a peck of milk; that's why my wife is wearing silk. I sell the milk by pint and quart, and take in coins of every sort. In those grand times that I lament, the old cow didn't make a cent. Sometimes I fear when prices fall I'll still rear up and wildly bawl; if things I sell are going cheap, I don't believe I'll cease to weep.—Walt Mason.

CONCERNING FALL SUITS

In the new suits, coats are longer than they have been and skirts are wider and shorter, but not as short as was predicted. In this one particular America proves entirely independent of Paris and goes its own way with several additional inches added to the very short French models. When attractiveness is the deciding factor in a contention about this difference, the longer skirt must win out; it looks better with the longer coats.

Velours, gabardine, serge, jersey and some less familiar weaves share popular favor, and the new styles reveal wonderful tailoring and elegant lines. Folds, or plaits and tucks in the materials, account for much of the decoration, aided by small buttons of bone, or covered with the goods, as in the suit shown here. The high collar of fur is a dominant note in fall styles.

CHURCHES

First Christian Church Will Clear Itself of All Debt

The members of the First Christian church yesterday began a campaign to raise \$3,000, with which to clear the church of debt and make some repairs. The church was erected about ten years ago, and the property is worth about \$16,000. The membership has reduced the debt from time to time, and it now amounts to \$2,500. At a meeting Wednesday night it was decided to make an active campaign to clear up everything, in order to soon employ a pastor for the church.

The membership has already subscribed about half the amount, and committees are also soliciting the citizenship of the town, as this is the first time within nine years that the church has gone to people outside the church in a campaign for anything. The friends of the church are helping liberally, and the whole amount will be raised within the next several days. The membership is about 100.

Bishop McMurry Delivers Great Sermon on "Faith"

Bishop W. F. McMurry of the Methodist church delivered a very able sermon Wednesday night to a large congregation in the Methodist church here on "Faith," taking for his text the life of Moses, the "law-giver of Israel." He dwelt upon the profound faith of Moses in God and his fidelity to his people, and the great executive ability and devotion he exercised during the wanderings of the hosts of Israel during their forty years.

An exchange in a northern county complains that it is a lot of trouble getting its paper to subscribers regularly and promptly, on account of inefficiency in the postal facilities. The News is indeed glad to say that it has practically no trouble of this kind, for the postmaster, the employes and the rural route carriers of the local postoffice are efficient, careful and obliging, and take pains to handle their business promptly. We have never done business with a postoffice corps that made so few errors in handling mails as the present force in the Plainview office. We have no complaint to make against any of the postmasters or carriers at any of the postoffices in Hale county nor at any of those in the adjoining counties in the prompt handling of the News.

Married Men Pay Income Tax

Washington—It's the married man that pays the income tax.

This became clear when the Bureau of Internal Revenue completed statistics on income. The report shows: That 1,450,723 married men paid income taxes. Their income was \$8,390,998,851.

That but 72,768 single men received income tax wages. Their net income was only \$307,045,768.

The statistics show that women, though their incomes are smaller, save more than the men. For example, 25,368 women netted \$174,811,231 in income, almost twice as much per individual as unmarried men.

The River of Life

Say what you will of whatever part of the human anatomy you please, the river of life is the BLOOD. It is either the swift running stream of health or the germ-laden channel of disease, one or the other.

The new remedy for the blood is **RICH-TONE, The Famous Tonic**

the kind that freshens and quickens the circulation, energizes the good corpuscles that fight the battles of life for the sick.

RICH-TONE, The Famous Tonic, is unlike any other known remedy. It works differently, it reaches in and through and down till it penetrates to the seat of the disease and springs at the very throat of the cause of it.

It's the only remedy that does this. And doing this it gets results and effects cures that no other can.

Mr. Wimsett says: "I bought two bottles of Rich-Tone for my mother. She thinks it is the finest tonic. She has used many other kinds, but nothing has helped her like Rich-Tone."

This famous tonic is for sale at our drug store at only \$1.00 per bottle. **DYE DRUG CO.**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is cataract. Cataract being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Cataract Cure is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative powers of Hall's Cataract Cure that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Cutting Shoe Bills

Three years ago I read of a mechanic who noticed that the soles of his working shoes, which were saturated with the oils that go to make up paint, wore out very slowly, while the uppers of the shoes always gave way first, says F. W. Charles of Seattle, Washington, in a letter to the Scientific American. He took them to a shoe manufacturer, who discovered, by analysis, that the oils used in ordinary paint act as a preservative on sole leather. By experimentation the following formula for preserving soles was evolved:

For a pair of shoes that have the shiny dressing worn off the soles, put three coats of paint—ordinarily hard-finish black paint will do—allowing each coat to dry forty-eight hours before applying the next one. That is all there is to it.

If the shoes are new, with the sole dressing intact, so that the paint will not penetrate, roughen the surface with fine sandpaper. The paint will soon wear off the soles, but that which has penetrated the leather will remain and continue to perform its good offices. Repeat the process once each season and soles will cease to worry you; the life of your shoes will be measured by that of the uppers—and this will be greatly prolonged by elimination of the half-soiling process, with its great wear and tear on the edges of the soft leather.

In proof of all this I can cite a pair of Oxfords which I am now wearing for the third summer. The heels are slightly worn, but they were never re-painted. I may say, as further evidence, of what this showing means, that I walk about for some fourteen or fifteen hours per day.—Ex.

No Relief From Sugar Shortage

Washington, Oct. 18.—No relief from the present sugar situation is in sight and the probabilities are that conditions will become worse, the senate agriculture committee was told today by Dr. Alonzo Taylor, of the department of agriculture.

Consumption has increased about 18 per cent compared with last year, Dr. Taylor said, due largely to increased manufacture of candy and soft drinks to satisfy a demand resulting from prohibition. Other causes given by the witness were rebound from wartime repression and extravagance due to present prosperity.

Chamberlain's Cough Remedy the Most Reliable

After many years' experience in the use of it and other cough medicines, there are many who prefer Chamberlain's to any other. Mrs. A. C. Kirstein, Greenville, Ill., writes: "Chamberlain's Cough Remedy has been used in my mother's home and mine for years, and we always found it a quick cure for colds and bronchial troubles. We find it to be the most reliable medicine we have used."

Armistice Day on November 11th

Austin, Oct. 18.—Governor Hobby has proclaimed Tuesday, Nov. 11, 1919, the first anniversary of the day upon which became effective the armistice agreement a public holiday throughout the state of Texas.

It is the intent of the governor that the day shall be observed with patriotic observance and as a day of thanks that so many of the Texas boys were safely returned; and it is in his mind that the people of the state will be pleased to observe the day as it should be.

Sour Stomach

Eat slowly, masticate your food thoroughly, abstain from meat for a few days and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Red meats are most likely to cause sour stomach and you may find it best to cut them out.

According to an Associated Press dispatch the world's supply of cattle, sheep and swine is approximately what it was at the outbreak of the European war. This is their information given the country by the federal department of agriculture. Losses in western Europe have been balanced by gains in other countries.

Mrs. Smith Recommends Chamberlain's Tablets

"I have had more or less stomach trouble for eight or ten years," writes Mrs. G. H. Smith, Brewerton, N. Y. "When suffering from attacks of indigestion and heaviness after eating one of two of Chamberlain's Tablets have always relieved me. I have also found them a pleasant laxative." These tablets tone up the stomach and enable it to perform its functions naturally. If you are troubled with indigestion give them a trial, get well and stay well.

SHOE PRICES TO TUMBLE SAYS SHOE MANUFACTURER

New York, Oct. 15.—Footwear prices are due for a tumble—in fact they have dropped 20 per cent since the middle of August and are going to take still another drop after Christmas, J. Frank McElwain, president of the National Boot and Shoe Manufacturers' Association, said in an address before the Middle States Shoe Wholesalers' Association last night.

Mr. McElwain said the consumer should notice these declines beginning next April, as the shoe now being manufactured will not be marketed until that time. He said a falling off in the demand from Europe partly was responsible for the reduction.

Croup

If your children are subject to croup get a bottle of Chamberlain's Cough Remedy, and when the attack comes on be careful to follow the plain printed directions. You will be surprised at the quick relief which it affords.

CHILDREN NO EXCEPTION

In Plainview as Elsewhere Youth and Age Suffer Alike From Kidney Weakness

Is your child weak, frail and pale? No control over the kidneys' action?

Kidney weakness is a serious thing for too serious to overlook. It may mean a life of sickness. Profit by Plainview experience. Use Doan's Kidney Pills. Endorsed by Plainview parents. Read this Plainview mother's endorsement:

Mrs. A. Manner, says: "My little boy ten years of age had kidney complaint for three or four years. I had to keep him in the house most all the time. He complained of his back aching and was tired and didn't want to do anything. At times he was nervous and his kidneys were certainly in bad shape. Often he would have to get up two or three times during the night to pass the kidney secretions which were painful and then again the passages would be scanty. The doctor advised me to try Doan's Kidney Pills and I bought two boxes from The R. A. Long Drug Store. They gave him great relief and excellent results." 60c. at all dealers. LIFT CORNS OR CALLUSES OFF

Doesn't hurt! Lift any corn or callus off with fingers

Don't suffer! A tiny bottle of Freezone costs but a few cents at any drug store. Apply a few drops on the corns, calluses and "hard skin" on bottom of feet, then lift them off.

When Freezone removes corn from the toes or calluses from the bottom of feet, the skin beneath is left pink and healthy and never sore, tender or irritated.

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bile like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Take "Dodson's Liver Tone" Instead!

When you feel bilious, sluggish, constipated and all knocked out, believe you need a dose of dangerous calomel, just remember that your druggist sells for a few cents a large bottle of Dodson's Liver Tone, which is entirely vegetable and pleasant to take and is a perfect substitute for calomel. It is guaranteed to start your liver without stirring you up inside, and can not salivate. Don't take calomel! It makes you sick the next day; it loses you a day's work. Dodson's Liver Tone straightens you right up and you feel great. Give it to the children because it is perfectly harmless and doesn't gripe.

Remember that when you bring your Ford car to us for mechanical attention that you get genuine Ford service—materials, experienced workmen and Ford factory prices. Your Ford is too useful, too valuable to take chances with poor mechanics, with equally poor quality materials. Bring it to us and save both time and money. We are authorized Ford dealers, trusted by the Ford Motor Company to look after the wants of Ford owners—that's the assurance we offer. We are getting a few Ford cars and first come first to receive delivery.
