COAL RESTRICTIONS PLACED UPON PLAINVIEW STORES

ALL BUSINESS HOUSES MUST OPEN AT NINE AND CLOSE AT FOUR

The coal situation has become so critical that in all parts of the country the most stringent restrictions are being resorted to. This morning the city council met and decided to put the lid on in Plainview, and the mayor was authorized to issue the following proclamation, which explains itself:

Mayor's Proclamation

By the authority invested in the city council through the Fuel Administration, and by the order of the Council, I, C. F. Vincent, as mayor of said city, do hereby order all places of business be open at 9 o'clock a. m. and close at 4 o'clock p. m., beginning December 8th, 1919; except Saturdays. This does not apply to drug stores, hotels and cafes.

Signed, this the 5th day of December, 1919. C. F. VINCENT, Mayor of the City of Plainview, Tex.

Throughout the nation the coal situation is critical. The miners refuse to go back to work, and the government is failing to take the bits in its teeth and relieve the situation.

John Lewis, head of the strike, and many other leaders in the strike have been arrested for contempt of the order of the federal court, and have given bond in the sum of \$10,000 each in Indianapolis.

One-third of the passenger trains in the southwestern regional division have been ordered cancelled for lack of coal.

In Kansas, Oklahoma and Missouri the states have taken over the mines and will operate them. In Kansas the mines at Pittsburg are being operated by volunteers, but the union railroad men are trying to keep handling the coal cars because the coal is not mined by union men.

Army Recruiting Party Coming

The biggest university and manual training school in the world—the United States army, is reaching out for the young men of the country and the young men of this section who may have a desire to look the world and the army over will have a chance in a few days. A party of recruiting men from the 82nd Field Artillery, Fort Bliss, will be in town for a few days with all dope on the new army. The detail will be looking particularly for men for the famous 82nd Horse Artillery, a regiment in which each man is mounted, but enlistments will be taken for any branch of the service or any point in the world at which American troops are stationed.

W. O. W. Elect Officers

The local camp W. O. W. elected following officers, at its meeting last night, for the year 1920: Council Commander, Charles Clements, Advisor Lieutenant, W. C. E. Banker, B. F. Moore; Clerk L. D. Griffin; Escort, S. J. Abram; Watchman, Allison Chambers; Secretary, Wm. DeJarnett; Manager, J. B. Nance; Physician, Dr. J. H. Wayland.

After adjournment those present retired to a drug store and refreshed themselves.

Theodore Cochell Dies Suddenly

Theodore Cochell died very suddenly at his home two doors north of the McGill boarding house Wednesday night.

He and his wife about two weeks ago returned from a visit with relatives in Lucerne, Mo., where he was taken sick with a stomach complaint. He was able to be up and about but Wednesday afternoon complained that his left arm and side felt sort of paralyzed. He went to bed as usual and about 1:15 o'clock his wife was awakened by hearing him make a peculiar noise. She called him several times and having no reply switched on the light and found him gasping. She ran across to a neighbor's for help and he was dead when she returned.

He was sixty-seven years of age, and the family came from Mercer county, Missouri, some years ago settling on a ranch near Embarger first and they after several years moving to Hereford, where they stayed for several years, moving here and buying the I. W. Little place about a year ago. Just a year from the time of his death he received the official notice that his son, Clell, had been killed in France.

He leaves as widow, also the following sons and daughters: Mrs. Marvin Garner of Plainview, Mrs. Bertha Hoffman, Mrs. Anna Jones and Claude Cochell of Lucerne, Mo., Mrs. Lula Berry of Joliet, Ill., Mrs. E. Luther Brown of Roswell, N. M., and Ira C. Cochell of Hereford. All are expected to attend the funeral which will be held at the First Christian church or at home Sunday afternoon.

Pastor J. M. Asbell of the Hereford Christian church will conduct the funeral, and interment will be in the Plainview cemetery. He was a life-long and consistent member of the Christian church.

A Revolution at Lorenzo

Our energetic constable went out in obedience to a summons Tuesday night and arrested a "peevish" Mexican. The hombre was boarding with quite a bunch of other greasers so we are told, and upon their refusal to give our hero enough to eat he went to the kitchen and began the preparation of a great huge square meal. The other Mexicans became highly indignant and furiously assailed the hungry man. At this the said hombre saw very much red and proceeded to scatter his adversaries with the aid of a six-gun and couple of persuasive daggers. When constable Murphy arrived on the scene of hostilities, the senior had beat a retreat to the Dehn brothers' place where he was taken in charge and placed in the city jug for the remainder of the night—Lorenzo Enterprise.

Takes Agency for Samson Tractor

G. E. Green Machinery Co. has taken the agency for the Samson tractor, and has received a car load of them, which they are now demonstrating to the farmers. An advertisement appears elsewhere. This is an exceptionally efficient tractor, and is built by the General Motors Co., which builds the Buick, Cadillac, Oakland and other well known cars.

Gasoline Supply Was Short

For a day or two this week it looked like Plainview was to have a gasoline famine, which would be worse than a coal, sugar, flour and meat famine combined, as the wholesale oil companies ran almost out, but yesterday a couple of carloads came in and relieved matters. The kerosene supply was also short.

W. E. Halsell in Plainview

W. E. Halsell, the prominent Kansas City banker and owner of the big Halsell ranch in Lehigh, came in yesterday morning to meet by his son-in-law, Cleaskey, and whose head

NEW CITY CHARTER UNCONSTITUTIONAL AND VOID

COURT DECLARES THE LEGISLATURE HAD NO LEGAL AUTHORITY TO ENACT IT

The new city charter of Plainview was declared to be unconstitutional and invalid by the court of civil appeals in Amarillo Wednesday, by a unanimous opinion of the three members of the court.

The court holds that the charter is unconstitutional in that the legislature had no right to enact such local legislation, as the constitution provides for home rule for cities of more than five thousand people and is explicit in just how city charters shall be initiated, drafted and adopted by a vote of the people of the city.

The court held exactly in line with what the News last January said was unquestionably the law on the matter, as a layman understands it. The new city charter was prepared without a voice from the people, sent to Austin and enacted by the legislature in March 1917, without a voice of the people, then not referred to the people for their approval or rejection—all of which, so the court declares, makes it void. The case is reversed and remanded.

It is not known whether the city will appeal the case to the state supreme court or not. One of the attorneys stated to the editor of the News this morning it had not been decided what further action would be taken.

An attorney on the other side said that many property owners have said they would not pay any further city taxes until the case is finally settled, in case it is appealed. This would greatly curtail the finances of the city.

Under the old charter the city taxes were about 60c on the \$100; under the new charter they are \$1.50.

The News has been furnished with a copy of the full opinion of the court; written by Chief Justice Huff, and will publish some in Tuesday's issue. It will cover more than a page of the News. We also expect to have an editorial commenting on the matter and suggesting what should be done.

Attorneys W. W. Kirk, Geo. L. Mayfield and L. D. Griffin represent the citizens in the case and Attorneys Kinder & Russell and Williams & Martin represent the city.

PETERSBURG

Dec. 4.—We are in the icy grip of the winter king now, but he can't hold us long. Soon the sun will break his hold and it will be pleasant again.

Quite a number of our people are suffering with colds. Nothing serious we hope.

An infant of Mr. and Mrs. Will Jay died Wednesday with whooping cough. Our sympathy is extended to them.

Herman Wiese has sold his beautiful home, two miles south of town, to Mr. Kirk of Arizona. There is 480 acres of well improved land on the place.

Miss Luella Moon spent a few days here recently with the home folks.

Miss Paulk was married Sunday afternoon at the home of her father, to Mr. Easterwood of Temple, Texas. They were well remembered by the younger set with many useful gifts.

Mrs. Herman Wiese is able to sit up now, and hopes to soon be able to be among her friends once more.

Our school has been closed a few days on account of scarcity of coal, but Mr. Reagan succeeded in getting some Wednesday, so school will begin again.

C. D. Hughes is at Gomez this week on business.

J. W. Montgomery and family left Monday for Farmersville.

The Methodist pastor, Rev. Brown, has moved into our community, and is welcomed by all.

M. H. Winningham bought the Montgomery place and has moved to it.

The Sunday schools will have Christmas trees at the churches. The children are busy preparing for the events.

Among the people who are signing peace treaties, are the brides who are promising to obey their husbands.

The country is in the middle of a bad fix. Labor can't come down because prices are so high, and prices can't come down because labor costs so much.

Why worry over the coal situation or the h. c. of l.? Sensational weather prophets are fearful the world will come to an end within two weeks.

Rhode Island, which does not cover much more acreage than Hale coun-

ty and New Jersey, which covers less country than this legislative district, have declared they do not propose to obey national constitutional prohibition. Rather a case of the tail wagging the dog. Does these two little specks of territory intend to secede from the union, and join soviet Russia?

Two thousand union labor delegates met in Chicago last week and organized the "labor party." The platform is radical and socialistic, demands government ownership of most every big industry, old-age pensions, etc. It also demands negro equality, which will damn it in the eyes of Southern as well as the decent people in every section.

While the editor is in the East during the holidays he will go to Atlanta for the purpose of conferring with the officers of the Coca Cola company with a hope of getting them to take over the distribution of the new and delectable beverage, Alf-alf-a tea, which bids fair to in time become the most popular drink in the world.

Fresh eggs are selling in Chicago at \$1 a dozen and cold storage eggs at 79c. Who said eggs would drop in price when people stopped using them for egg-nogs?

Wilbert Peterson

The constitutionality of the woman's suffrage law will be put up to the state supreme court at once. A tax collector in South Texas has refused to issue a poll tax receipt to women and proceedings are to be brought to the supreme court at once to compel the issuance of such receipts, thereby furnishing a case to test the constitutionality of the act permitting women to vote in party primaries in this state. In the mandamus case to be brought to the supreme court the only question will be the validity of the law. The News guesses the women will win out, for their cause is just. Who is man that he should forbid woman to vote? Why should Texas try to push back the on coming tide?

WHERE THE TROUBLE LIES

A nationwide coal strike is on, and hundreds of thousands of miners are in a conspiracy, at the dictation of the heads of the miners' union, and refuse to dig coal.

The government has taken a hand in the matter, and says it proposes to see that the people get coal.

The strike has been on longer than a month, and the government has accomplished very little toward relieving the situation, which is growing more critical all the time, for in many sections of the country factories have been closed and people are beginning to suffer from cold.

Why has the government not done something toward relieving the situation?

Why has the government not done more toward operating the mines? Why is it not having coal digged?

The reason can be summed up in one word.

POLITICS!

That is the trouble with most any act of the government.

That is the trouble with government ownership or operation of most anything.

Politics!

Those who are appointed to direct any government matter are afraid to act boldly for fear it might injure the party's or somebody's chance of re-election.

What does it matter to the politicians if people are freezing, if to do something to relieve their suffering should offend the members of the union and thus jeopardize the re-election of a congressman in a certain district?

It does seem possible that public officials should rise above peanut politics and really be Americans above everything else.

It does seem that the public weal should be paramount to every other consideration.

It does seem that the government should see that coal is mined in sufficient quantity to keep the people warm and the factories in operation if it has to run over every union coal miner and mine owner in the country.

If we are to have a paternalistic government, let's have one that has the courage to enforce its will.

What the general public wants is coal. It don't care, just now, a tinker's damn about party politics.

"DON'T GET SKEERED"

A sensational quack astronomer up in Michigan recently warned people that possibly the world will come to an abrupt end Dec. 17, because of the unusual grouping of six planets on one side of the sun and a large spot forming on the sun.

Weather Prophet Foster rather sides with the Michigan star-gazer, and predicts terrible storms from that date until Christmas.

But, Plainview has a weather prognosticator who is no snide. He is the city marshal—and hence, knows all about everything, including the weather.

The Michigander bases his forecasts on sunspots.

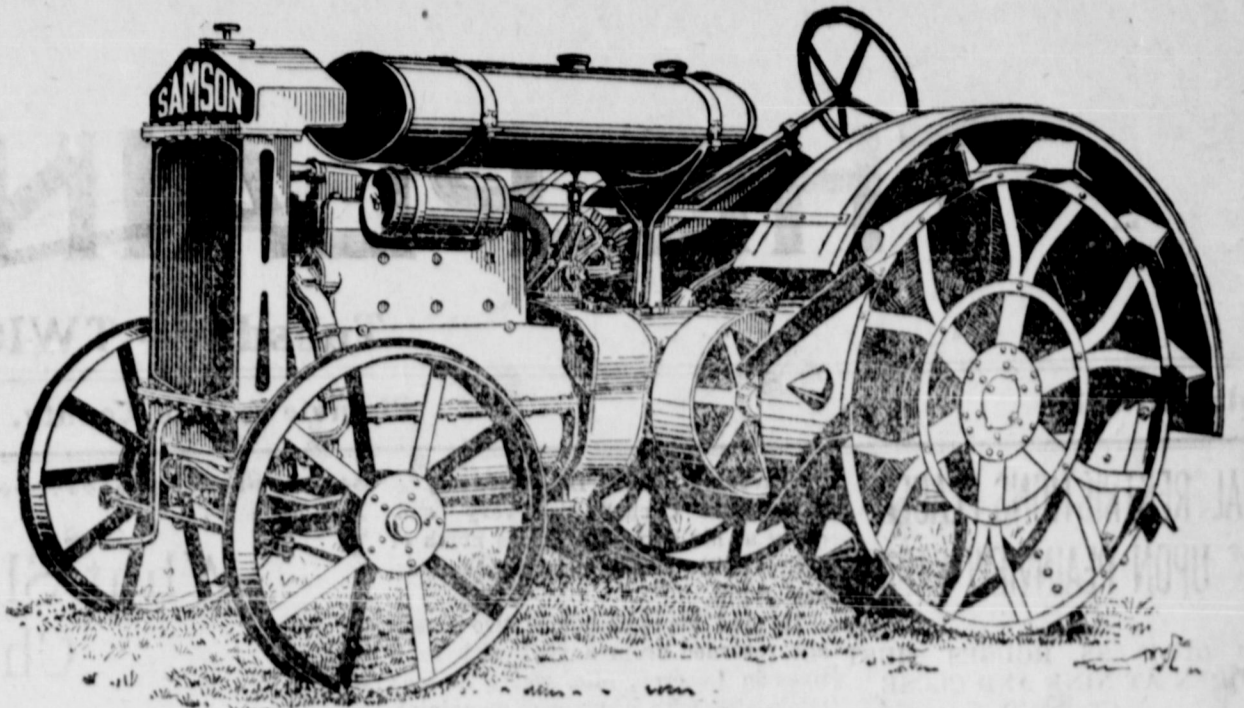

Foster bases his on planetary movements.

Halbert, the West Texas weather sharp, declares the moon rules the world's weather.

But, our city marshal has a surer foundation, one that is infallible. He observes the hair on dogs, and makes his weather deductions there from. Last year he declared the winter would be mild for he had noted the fact that the hair on the north side of dogs was lighter than usual, hence a mild winter. He now declares he has examined the hair on both sides of many dogs, and finds there is not the least thing indicating there will be heavy storms or the busting up of the world. Hence he asks us to say to the people of the Plains country to "not get skeered," nor to lose a sleep over any forecasted calamity for this old world has been in business regularly ever since it has been here and will continue so until he and the rest of us are gone.

What are stars, sunspots, and weather indicators, except to dogs and the hair on their heads?
