## PLAINVIEW TO HAVE MODERN \$20,000 COTTON GIN

### COMPANY ORGANIZED TO BUILD GIN FOR NEXT FALL'S CROP

Friday afternoon the first meeting of the stockholders in the company to build and operate a cotton gin in Plainview, was held in the directory room of the First National Bank, and formal organization was made by electing E. H. Humphreys, president; H. W. Harrel, secretary and treasurer; Dennis Heffleinger, C. A. Pierce, H. W. Harrel, E. H. Humphreys and Lee Stephens directors.

The capital stock of the company is \$20,000, all of which has been subscribed and 50 per cent paid in. There are thirty-six stockholders, all local citizens.

It is the purpose of the company to build a modern gin in Plainview in time to handle next fall's crop of cotton. It is hoped to get a site on a railroad track, so the lint and seed can be handled economically.

The committee in charge reported it had secured promises of farmers to plant 3,200 acres of cotton this year. It is hoped to increase this considerably, and the committee will make an active campaign for several weeks to sign up promises from farmers to plant cotton.

An effort will be made to get considerable acreage in Lamb county, so the cotton can be brought to the Plainview gin, also in the edge of Swisher county.

This is a very important move for Hale county and Plainview, and should be encouraged by everybody. Considerable cotton was grown the past year in the vicinity of Plainview, which had to be taken to the gins at Lockney and Petersburg.

In the vicinity of Petersburg about one thousand bales were raised, about Amarillo nearly two thousand bales and about Hale Center considerable was raised. Each of those towns have gins.

## WILL DRILL FOR OIL IN SOUTHWEST PART HALE COUNTY NEAR BARTONSITE

### Contract Signed With New York and Denver Parties to Begin Drilling Well at an Early Date

Hale County is soon to have an actual test of whether it has oil under its surface.

J. J. Barton of the southwest part of the county, acting for himself and associates who have 25,000 acres leased in that section, yesterday signed a contract with H. Geo. Robbins of New York City, Louis G. Baghatt of Denver, Colo., Edward W. Wallace of Thermop, Wyoming, and William C. Colwell of Portales, N. M., whereby they agree to at once place a drilling outfit on the ground and begin work and continue drilling until oil is found or it is determined that there is no oil.

The well will be drilled in the draw on the Sabine county school lands, twelve miles west of Abernathy, and likely on section 24.

The parties taking the contract have been here and at Abernathy this week, looking over the proposition, and dickering with Mr. Barton. This test means much to Hale county, for if oil is found in paying quantities land values will go sky-high and Plainview, Hale Center and Abernathy rapidly increase in population.

The progress of the drilling will be watched with great interest.

Col. R. P. Smyth has been employed to make a map of the lands in that section.

### PLAINVIEW SILVERTON RAILROAD LOOKS GOOD TO STAR

Suggests Meeting of Representatives of Both Towns to Discuss the Building of the Line

Last week's Plainview News contained another article boosting for a railroad to Silverton, and thinks it would be an easy matter to raise something like a half million dollars for its construction. This looks good and it would not be amiss for our people to have a meeting to discuss this proposition and investigate its feasibility and the advantages of a road from here there. A delegation from Plainview might be invited to come here and lay their plans before the people.—Silverton Star.

## THOMASON OPENS HIS CAMPAIGN FOR GOVERNOR

### FAVORS FEWER OFFICES, ECONOMY, CIVIL SERVICE, BUDGET SYSTEM

Gainesville, March 2.—Robert Ewing Thomason of El Paso, speaker of the house of representatives, formally opened his campaign for governor here today. He was reared in Cooke county and always lived here until a few years ago. He was greeted by a large, enthusiastic audience coming from all parts of Cooke and adjoining counties. There were also many representative citizens from various sections of Texas. Hon. Jesse Murrell, a leading farmer of the state and now and for many years a member of the legislature, was the chairman.

Mr. Thomason was introduced by Rev. R. R. Gaines, a pioneer Baptist preacher, who had known him since he was an infant.

This is the home of former Senator Bailey. This is the former house of Mr. Thomason. The latter struck out boldly and boldly his enemies behind him. He accepted the gauntlet thrown down by the former senator and his remarks left no doubt as to his position in the campaign now on. He reminded his hearers that no governor has ever come from west of Weatherford, although that part of the state is now rich and populous and has ever been progressive and patriotic.

He declared for nation-wide prohibition, nation-wide equal suffrage, more business and less politics, fewer offices and fixed responsibility, a consolidation of many of the departments of state, eight or ten departments, each with a single head, who would have control of all the activities of their respective departments; he would make various constitutional officers heads of departments appropriate with the approval of the senate and place all minor employees under the civil service.

He declared for a complete budget system in Texas, favors the four year term of office, the consolidation of many county offices, the complete abolition of the fee system and a fixed salary for all servants of the people, and that the business of the state should be run decently, but economically; have fewer officers, less traveling expenses, smaller appropriations and in the future the separation of state and county taxes.

He denounced the so-called graduated land tax advocated by Pat Neff as a species of socialism. He declared in favor of the constitutional amendment to the voters of next November that will remove the 50 cent limit in independent school districts and let the people vote what they need under proper limitations for the erection of buildings and the payment of decent salaries to teachers. He declared that he was a friend of all the governmental activities now in operation in Texas, but believed they should be consolidated under one responsible head.

Speaking of tenancy, he said there are too many homeless people in Texas and that education and homes are the surest antidote to Bolshevism. Expressing his gratification with the success of the federal farm loan bank of Houston, he announced his opposition to any amendment to the present homestead law.

Speaking of labor, he declared that as a lawmaker he had helped to take the children out of the factories and sweat shops and very heartily endorsed the efforts of the national congress to do the same; that he had ever stood for the right of labor to organize and believed in the principle of collective bargaining.

Conservation had its inning. If elected, he said, champions of modern highways and those who favor conservation and reclamation would find in him a friend at all times. Likewise, those who want the forests of Texas protected and tree planting encouraged. He would make a great game preserve out of the 75,000 acres of land owned by the state prison system, having the aged, sick and crippled prisoners to look after the same.

### Democrats to Meet Tomorrow

There will be a state meeting of democrats in Dallas tomorrow to organize the campaign to combat Bailey and elect a delegation from Texas to the national democratic convention in San Francisco favoring endorsement of the Wilson administration.

The West Virginia legislature is ratifying the woman's suffrage amendment this week. The lower house did so Wednesday by a vote of 40 to 17. This leaves only two more states necessary.

That was considering the cold windy weather a creditable trades day in Hale Center Saturday. Some of the Hale Center people are sure enough live wires. Hale Center is surrounded by one of the best farming communities on the Plains. There is no good reason why Hale Center should not be as large a town as Lockney. The people of Hale Center could make it as large if they would go to work in earnest to do so.

The speech of Pat Neff at Hillsboro last week proves that he can use the skinning knife with dexterity on those who are trying to undermine the democratic party and bring repudiation of the Wilson administration. Bailey backed by the liquor interests, who hope to repeal the prohibition enforcement laws so that beer and wine can be sold in the state—and wherever beer is sold it is of course an easy thing to get whiskey, too. Pat is on Joe's trail.

The federal government will leave no stone unturned to make this a sober nation. Since prohibition became the law many men have resorted to drinking bay rum and extracts containing a high per centage of alcohol. The government has made a rule requiring that all manufacturers of such things shall denaturize them by compounding therein tartar emetic. It is said that a person may drink a liquid with tartar emetic in it, but it won't stay on his stomach but about five seconds, but will at once come up and out of him. Good are the days of all sorts and any sort of jags.

The News trusts that the new "labor party" some of the union laborers are organizing will succeed in drawing from the democratic and republican parties most all the union laborers, at least of the more radical turn of mind. Of course a labor party cannot hope to win control of this country, as organized labor constitutes only 3 per cent of the people of the United States, but if they withdrew from the old parties into a party of their own it would relieve the old parties of a great burden. As it is now there is a considerable number of congressmen who are constantly intimidated and are afraid to do anything the labor leaders demand for fear of incurring the displeasure of organized labor. The laws of state and nation should always be made for the good of all the people and never for any particular set or class. By its arrogance organized labor is losing prestige very rapidly.

There never was a war in which no mistakes were made. President Wilson and the others in control of America's part in the war made mistakes, but possibly they made fewer mistakes than were made in any other great war. Mr. Bailey, however, will have to concede that Mr. Wilson and his administration mobilized an army of two million men on the European battlefields in quick order, in fact, so much quicker than any other nation ever mobilized soldiers that it seems almost magical, he must concede that these soldiers put the thumb screws on Germany with dispatch; that there were four million more soldiers in training in America ready to go to Europe; that in winning the war in such haste Wilson deserves praise rather than carping criticism. The war was won, so why keep on harping about minor mistakes that may have been made? Mr. Bailey and his grouchy friends should set their faces to the sun. Why should they dwell in the shadows?

### WILL JOE ACCEPT DARE

R. E. Thomason of El Paso made his opening speech as a candidate for governor at his boyhood home in Gainesville Tuesday. On first page of the News is an extended mention of his speech.

His platform is a good one. He favors fewer offices, strict economy in public administration, consolidation of kindred departments, more efficiency, lower taxation, less politics, a budget system, civil service for public employees, woman's full suffrage, enforcement of prohibition and other laws.

All these things the News stands for, and has for years.

All these things the editor of the News if he is elected to the legislature, will support.

Thomason is speaker of the lower house. He is one of the ablest and best men in the state.

In his speech at Gainesville Thomason challenged Mr. Bailey to submit their candidacy to the voters of Cooke county—where Thomason was born and reared and where Bailey made his home for many years while he was a citizen of the state. Thomason challenged Bailey to agree to a special primary at an early date, the loser to withdraw from the race.

He suggested that each have an equal number of election judges, and offers to pay the full expense of holding the primary. Will Bailey accept? Has he confidence in his standing among home people? Is he afraid to submit his candidacy to his home people? He should either accept the challenge or get out of the race.

### PRESS COMMENT

Well, well, well! We've spicioned 'twas coming and now it's here. Jess Adams, editor of the Plainview News, is a candidate for the legislature from Hale county. And by the way, he ought to be elected. He stands for the right principles, has the courage of his convictions and is nobody's fool and would be nobody's tool.—Rockdale Reporter.

Plainview builders are beginning a campaign for the building of a railroad from that city to Silvertown. Railroads are empire builders and the Briscoe county metropolis sorely needs the road just as a thriving city like Plainview needs another outlet.—Clarendon News.

Our good friend Jess Adams of the Plainview News says he is with us in our fight against socialistic principles, but he differs with us somewhat in his attitude on some things we consider socialistic tendencies. Last year on several occasions we hung our rhetorical hook into Bro. Adams, but in 1920, when he is a candidate for the state legislature, we shall do no such thing. Fact is, we would like to see Jess elected if he wants the office—and we suppose he does, or else he wouldn't have announced. The News man has observed that public office often ruins a good newspaper man, but we are hoping that it doesn't do so in this case.—Clarendon News.

# Store Talk

It's been a long time since we have had such a little chat with you. We have been very busy during that time and in fact we are too busy now to write this ad, but we like to talk and have gotten our ad man to ramble off a little "dope" for you.

You know it won't be but a few days before you will be making those garden plans. Garden sass early in the spring is mighty appetizing and its mighty good for the system after living all winter out of tin cans. We want to help you figure your garden layout. We have tested seeds of every thing that you will want to plant and we want to help you make that garden a success.

We believe that we are really getting most of the cream in the country but we could handle it all and like other folks we want to be going the limit. One of the big things is that we always pay you top prices and you don't have to wait for your test and your check. Both are made out promptly. Let us have all the cream you can get.

Speaking of country produce—we want your eggs. You can't frighten us one bit by bringing them in in hundreds of dozens. The more we get the better we like it. Eggs are getting to be one of the big products of the Plains and the buyers are looking to us for more and more so you can't possibly overproduce. If you will bring them to us day in and day out you will come to know that we always give you top market price.

The Junior Chamber of Commerce is a promising organization. Already they have done some good work. They are planning a membership campaign and by all means if you are interested in the Development of Plainview and Hale County you should unite with them.

We are not selling out and we are not giving away groceries but we have such a volume of business that you can safely trade with us the year round and be assured that you are getting quality at the lowest possible prices.

Cliff is still rearing to give you service at the corner store known as Gibbs' Cash Grocery. He is accommodating and painstaking and appreciates your patronage. He is trying to put it over in the matter of sales one our other store, The Plainview Produce Co., and we are wondering if he can do it.

At the Plainview Produce Store on the northside of the square we have all sorts of re-cleaned field grain seeds. Stuff that is acclimated and will give you best results. We want to make your fields green this year.

Now is the time when the baby chicks will die or get a good start toward making winners and layers next fall and winter. The one big thing is the feed they get. Perhaps you know how to feed for results but the loss each year in baby chicks in Hale county is tremendous. The Ralston Mills have feeding experts who determine the mixture of the Purina Feeds. The guessing and experimenting is cut out. It will more than pay you to buy this feed for which we are distributors.

Did you ever try doing most of your shopping right under our roof. We will take practically everything you raise on the farm and we will sell you muth that you need to take back with you.

Our seeds "Get Up and Grow," whether you need field or garden seed or both. Mail orders are filled promptly and our seeds are tested and re-cleaned so you may expect best possible results.

### Shower to Bride of Next Week

Thursday afternoon at the home of Mr. and Mrs. E. S. Keys, Mrs. Klein Wilson and Miss Raye Fowler, gave a shower for Miss Nannie Mae Dunaway, the first of the spring brides. A game of Five Hundred preceded the shower.

Baskets of pink roses and carnations were the beautiful but simple decorations.

At the appointed hour, Virginia Keys, dressed as a captivating little darkey, brought in a hamper filled with miscellaneous articles for the future home of the bride. After the gifts had been inspected and admired an ice course was served by the hostesses.

### Mrs. P. J. Wooldridge Hostess For Tuesday and Wednesday Bridge Clubs

The next afternoon, the Wednesday Bridge club was entertained by Mrs. Wooldridge.

Several guests were invited to meet the members, among them Mrs. A. L. Putnam who made high score. Mrs. Wallace Settoon was the fortunate player for the guests.

### Enthusiastic Meeting of Ex-Students State University

The second of March, Texas Independence Day, was duly celebrated Tuesday night by the ex-students of the State University at the home of Mr. and Mrs. C. S. Williams.

This day is doubly dear to the hearts of the T. U. students, not only because of the fact that it was the beginning of freedom from Mexican tyranny; but because the wise fathers of the Republic set aside large tracts of land for the education of future

generations. This was done at a later date when the new government was established.

At the business session Tuesday night the following officers were elected for the current year: Mrs. Geo. Saigling, president; W. C. Mathes, vice president; Miss Effie Murphy, secretary and treasurer.

The members of the new executive committee are C. S. Williams, chairman, Judge H. C. Randolph, Mrs. H. C. Maddox, Mrs. E. R. Russell and J. C. Anderson, Jr.

The social hour was spent enthusiastically in singing University songs and reading the "Cactus" and other university publications.

Plainview has a large membership of ex-University students, including alumni and those who attended the summer sessions. However, only a small number were present Tuesday night.

A salad course was served the following: Judge and Mrs. H. C. Randolph, Mr. and Mrs. Geo. Saigling, Mr. and Mrs. C. R. Russell, Mr. and Mrs. H. C. Maddox, Mr. and Mrs. C. S. Williams, Miss Effie Murphy and Messrs. Peyton Randolph, W. C. Mathes, H. V. Tull, Will Graham, Robert Hamilton and W. G. Eppley.

### Indoor Picnic

A merry crowd gathered last night at the home of Judge and Mrs. C. H. Curl, the occasion being one of the indoor picnics which have proved so popular during the past winter. Music and amusing contests were the pleasures of the evening. The supper, an elaborate spread was contributed by the guests and was served in cafeteria style.

Those present were Mrs. R. E. Cochrane, Mrs. R. C. Dublin, Miss Lula Blair Neal, Messrs. and Mesdames David Neal, Tom Carter, Marshall Phelps, Geo. Saigling, E. H. Perry, Matt Cram, L. F. Cobb, J. B. Scott, C. H. Curl and Messrs. Truesdale, and Harris.

This was declared by all present to be the best meeting of all and such a delightful social hour was spent. Meeting adjourned to meet with Mrs. R. E. Cochrane, March 26.

### The Results of Our Words and Deeds

Was the subject of the Christian Endeavor meeting last Sunday evening led by Miss Carrie Pace.

The meeting was well attended, notwithstanding the fact that Sunday evening was a nice evening for other forms of recreation, such as car riding. Yes, a lively, interesting Christian Endeavor prayer meeting is a recreation in the truest sense of the word. It adds new life, it recreates.

Several interesting talks were given, dealing with such subjects as: The Results of Ridicule, of Selfishness, or Dishonesty; The Results of Friendliness, of Obedience, of Prayer; The Folly of Being Regardless of Consequence; How to "Get Results". How to Avoid Bad Results from Our Words and Deeds.

The endeavors were encouraged by a word from Mr. H. V. Tull, and honorary member of the society, and found much food for thought in his talk, wherein he emphasized the importance of the great truth that "No man liveth to himself and no man dieth to himself." The endeavors thoroughly appreciate the support of the older people, and extend to them, as well as the young people, a cordial welcome to all their meetings.

Your best prospects and fondest hopes in a wheat crop can be blasted in a very few minutes by a Hail Storm.

# Rough Roads for Wheels Are Smooth Roads for Passengers

**WATCH** Overland 4 on rough cobbles or unpaved roads. The wheels follow surface inequalities, but the new *Triplex Springs* give car and passengers remarkable riding steadiness. They give 130-inch *Spring-base* to a car of 109-inch wheelbase. This makes for the gently

buoyant road action of a large, heavy car with the economy in upkeep, fuel and tires, and convenience of handling of a scientifically designed light car. Auto-Lite starting and lighting, door-opening curtains and dash light give but a hint of the completeness and quality which characterize everything about Overland 4.
