### KRESS

March 25.—There was regular church and Sunday school services at both the Methodist and Baptist churches Sunday. There was better attendance Sunday than since the flu has been raging.

Messrs. Geo. and Will Rousser were attending to business matters in Tulia Monday.

Kress has been flooded with drummers this week, most especially the "paper drummers." There have been from one to three in Kress every day this week, advertising different papers.

C. C. McGlasson was a passenger on the out-going train Tuesday. He is on his way to Electra.

Quite a number of young folks were in Plainview Tuesday night to attend the movies.

Little Miss Pauline Tracy is in Oklahoma, visiting relatives.

Mrs. Ed. H. Rudd, who has been away for sometime visiting her mother who lives in Arlington, returned Monday. She was accompanied by her son and daughter, Elliott and Lydia Lee.

Mr. and Mrs. J. W. Adkisson, accompanied by Misses Nora and Flossie Adkisson left Tuesday for O'Donnell, where they will be for several days, attending business matters and visiting relatives.

Mr. and Mrs. W. F. Kerr entertained the young people of Kress last Friday night by inviting them to their home, to spend the evening. Quite a number of young people were present and all say that they can never forget the delightful time spent there. Ice cream was served.

The Baptist Ladies' Aid met Tuesday afternoon at the home of Mrs. Evans. The aid is growing in interest as well as in numbers, and we hope it continues to do so.

The Methodist Ladies' Missionary Society met Tuesday afternoon at the Methodist church. We were glad to see so many present, and hope we can see still more present next meetingday. The Methodist ladies' have pledged themselves to pray every morning at 9 o'clock for the interest of the meeting, which is to begin next Sunday, March 28th.

There was quite a bit of excitement here last Friday afternoon over an aeroplane, making its stopping place near the town section. Several school children and others took a flight in it and some of them have made the remark since, "I wasn't even a bit scared." The airplane stayed here for about three hours. If it had stayed much longer it would have left Kress a "poor town." Seemed that almost everyone wanted to take a ride.

A number of the members of the Kress Masonic lodge are going to Plainview, to take the Royal Arch.

If there is a town on the Plains that has a team of basket ball girls they want to see walloped, just bring them to Kress. We can put them down in first class shace. The Liberty erty girls played Kress last Friday, 32 to 1 in favor of Kress. Kress girls are "sont expert basket ball players." Kress will soon be the champion of the Plains, and if they continue to beat they will soon be making defeats down in the sandy belts.

Mrs. W. W. Caudle met with the girls of Kress last Sunday afternoon at the Methodist church to organize a girls' prayer meeting at the Methodist church, Wednesday, Friday and Saturday nights.

John Hobbs, formerly a citizen of Kress, but who has been away for some time in Arizona, returned here the latter part of last week. He was accompanied home by his wife and children.

The Kress "Civic League" met last Thursday night at the Baptist church for the purpose of discussing the sanitary drinking fount that is to be installed at the Kress high school. They have appointed a committee to attend to this matter. The proceeds of the late box supper go to this purpose.

PERSONAL MENTION

**McLean Wants Division Point**  
Plans are being formed and surveyors are to start work soon on the proposed railroad from Plainview to Silvertown. Some interest is being shown in the idea of extending it north through Clarendon to Canadian, where it will connect with the Santa Fe. McLean is on a direct line of the proposed route, and if anything comes of this idea, our people should be on their toes to get it. Another thing, we are about the right distance from Plainview to make a good division point.—McLean News.

**Fluke Family Have Reunion**  
The Fluke family had a re-union at the home of Mr. and Mrs. O. C. Fluke Sunday.  
Those present included the parents, Mr. and Mrs. O. C. Fluke, Carl Fluke and wife of Eastland, Harold Fluke and wife of Lubbock, Stewart Fluke and wife of Slaton, Loran Fluke of Oklahoma, Miss Bell and Guss Fluke of Plainview.

**College Girl Breaks Wrist**  
Miss Annie Mae Johnson, student in Wayland college, fell from a swinging ring in the gymnasium at the college Thursday afternoon and broke one of her wrists.

**Wayland Seniors Defeat Juniors**  
By a score of 6 to 3, the Wayland senior basket ball girls defeated the juniors Thursday afternoon in a game on the college grounds.

### COATS FOR SPRING

Whoever is looking for a coat for spring will give this new arrival more than one glance and the second glance is apt to be a lingering if not a longing one. For there are several innovations to be considered in this dignified garment. It hangs in almost straight lines, for one thing and for another the sleeves are smaller and fit more closely than is usual. The collar is entirely new with not a trace of the popular muffler style in it and finally, tucks and plaits in the material serve for decoration. The cuffs and pockets are both made of the plaited fabric. As a rule coats for spring are about three-quarter length and modeled in simple designs. They depend upon smart lines and good looking materials, rather than on decorations, for distinction, and this makes them appropriate for street or travel. Yokes, plaits and large pockets, cozy fabrics and a flavor of sports wear in style are winning approval.

### STYLES IN SPRING SUITS

Short jackets and tastefully applied braid trimming are featured in the new spring suits. A compromise between coat and jacket appears in the model shown above in which the coat ends at the front with the braided girdle but is the usual length at the back.

The affair was a surprise to Mr. Wilson.  
Those present were the members of the faculty, the pupils of the school and a few friends.  
Mrs. Carter gave the address of welcome, and the response was by Josephine Goode of the faculty. Marie Luna of the pupils gave a toast on "We are glad you let us come, too." Miss Lacy Dalton as toastmistress gave a toast "To Our Guest," and Mrs. J. B. Scott "To His Faculty," and the response was by Miss Gilbert.

J. A. Tarwater left this morning for Knoxville, Tenn., in response to a message saying his grand-daughter, Miss Laura Tarwater Thornton, age 17, had died. The remains will be held until his arrival. She would have graduated in college soon, and was a very lovable and bright girl.

**CLING TO BELIEFS**

**Few People Today Are Without Pet Superstitions.**  
Although Not Carried to Extremes That Have Marred the Pages of History in the Past, They Are Still With Us.

We constantly hear it said that "this is the twentieth century; superstition and all that sort of thing died out long ago." Yet there is hardly a person in the country without his pet belief—that misfortune follows stooping over a baby or spilling salt, or that a black cat brings good luck, for example. Hence, too, the universal practice of wearing mascots "for luck."  
These, however, are not very serious beliefs, being merely personal fads. Superstition of a deeper rooted and more unpleasant type is still common in the more backward rural areas, however. Only a few weeks ago an old dame in the Fen country was boycotted by the whole countryside because she had the reputation of being a witch and of throwing spells over people's children, stock and crops. No one would go near her or let her have food or clothing, and she nearly starved to death.

The cold, legal atmosphere of the courts would be thought unfavorable to belief in witchcraft, and yet a farmer—by no means an ignorant man—stood up the other day in Norfolk court and informed the bench that someone had bewitched his cows. He cured the evil spell by thrusting a red hot poker into his churn, when the evil spirit vanished in a bright flame.  
Years ago any old crane who was cross grained with the neighbors stood a good chance of being tried (and burnt) for witchcraft, and cases are even known where animals were solemnly brought into court and tried on a similar charge.

A tough old rooster at Basle, in Switzerland, was once brought before the court on a most serious charge, as such eggs were used only for making witches' ointment. The unhappy bird was hailed before the justices, and one of the eggs produced as proof of guilt. In the face of such evidence the rooster's case was hopeless. He was convicted and he and his miraculous eggs solemnly burnt at the stake in the town square.

A sow and six young pigs were accused of witchcraft towards a child, and were brought, protesting loudly before the "bench." Amid great sensation, the sow was found guilty and publicly executed, but the porkers were acquitted on the ground of extreme youth. As late as 1740, a cow was accused of possessing a "devil," and after a long hearing, was found guilty and condemned to death. "Fats and mice and such small deer," have been summoned on numerous occasions, but almost invariably failed to put in an appearance at court.

In the fifteenth century, the peasants of a village in the south of France took legal proceedings against a plague of locusts which trespassed on their fields and devoured their crops. As the case was still being fought nearly half a century later, the modern gardener can sympathize with the unlucky plaintiffs, but would probably prefer the more up-to-date application of lime or mustard.

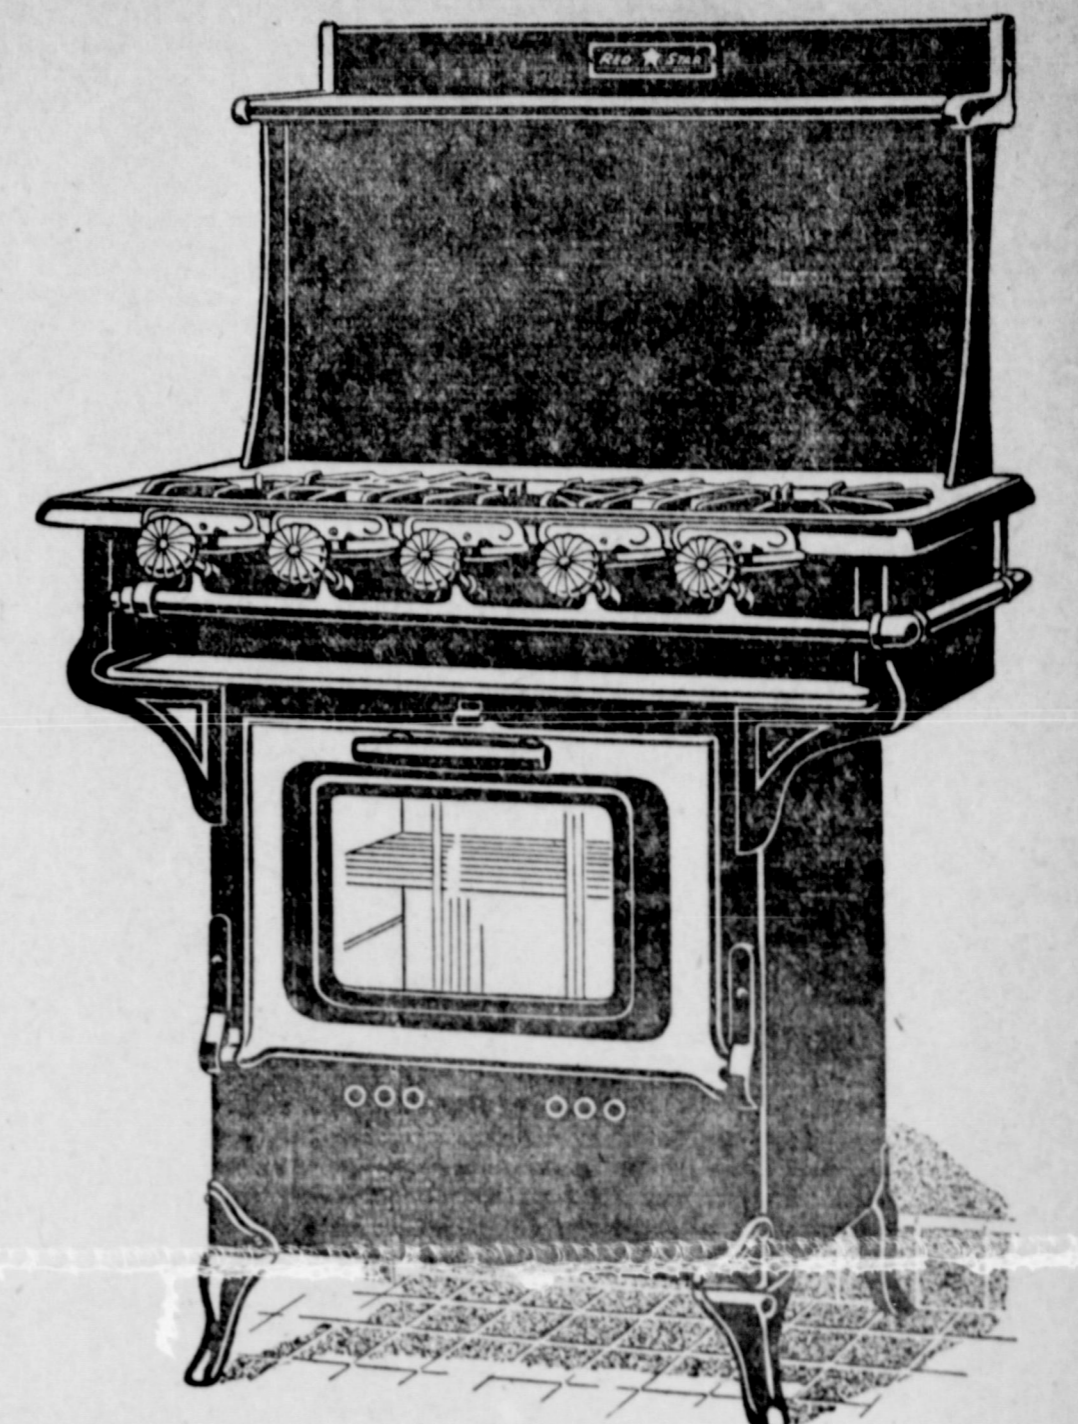

Another action was brought against a pest of leeches swarming in the ponds and streams of another country district of France. The judge issued a decree against the leeches trespassing further on the disputed territories, but history is silent as to whether the injunction was obeyed or ignored, with resultant punishment for contempt of court.

Animals have even been admitted as witnesses in the courts. It used to be considered no offense to kill a burglar trying to break into a house. There arose the difficulty that one man living alone might ask another to his house, and then murder him, pretending that he was a robber. To get over this, it was decided that any domestic animal, such as a cat or a dog, present at the time might bear witness. If the animal on being questioned, satisfied the court that his master had acted in good faith, the killing was held to be justified. There are not many instances of acquittal.

**Japanese Glass Industry Grows.**  
Though encouraged by the government in 1876 by the establishment of a model glass factory, transferred ten years later to private ownership, the glass industry of Japan was only fairly prosperous until the outbreak of the recent European war, at which time, due to the shutting off of supplies from France, Belgium and Germany, the manufacture of glass received such a stimulus that it now bids fair to compete with the industry in other countries. Before 1914 practically all the window glass used in Japan was imported, but this branch of the industry is receiving special attention and in 1918 its product to the value of \$1,750,000 was exported.

**Conductor Pulls Teeth.**  
A conductor-dentist operates on a branch of the Chesapeake & Ohio railroad system in West Virginia. He is Dr. Harry Halstead. When patients failed to come to him fast enough Halstead took a position as conductor. He carries forceps in his pocket. During a recent week the train was halted four times by persons who wanted teeth drawn. The dentist-conductor never fails to make due stops.

**RED STAR VAPOR OIL STOVE**  
Works Like Gas

Is the most modern oil stove made. It produces a heat equal to a gas burner. It gives the best service, is economical, sanitary, simple to operate, its oven bakes perfectly, and the Red Star is made to last many years' hard usage. It roasts, bakes and fries—for its heat is easily regulated. The Red Star is handsome in design, and made in a number of sizes and styles. Burns kerosene, gasoline or distillate.

## MODISH TAFFETA FROCKS

To be in the very crest of the mode this season one chooses a frock of Taffeta. Here is a grupe of exploit-enchanting guises—puffing Taffeta frocks in scores of ed and frilled and boucant for those of the slender type and for those of buxom build there are models on straighter lines sometimes combined with Georgette to give them suppleness.

Sleeves are invariably short; necklines moderately low and round or square—offset by point collars, cuffs and dainty embroidered lingerie vests or left untrimmed. Girdles of two-tone ribbon, tiny French corsage charming ensemble. All shades included.

## Philippine Underfinery

Overseas from the Philippines comes these hand-made Undermuslins. A story of an industry developed in the Philippines lies in each one of these beautiful hand-made pieces, a story of the cutting of the Undermuslin from yards of white goods here in America and of sending them over to the Philippines and of giving these prices to the native women and girls to

put together and embroider with wee satiny stitches and then of bringing the finished Undermuslins all the way back to America to offer to the women who love fine hand-made Undermuslins.

One of the most amazing things is the low price each piece bears. Philippine Undermuslin pieces at \$3.50, \$4.95, \$6.50 upwards \$9.95. Our stocks were never so complete, the materials and styles were never better and the price is no higher than usual. We show a wonderful assortment of Gowns, Todies and Petticoats... 20 per cent off on everything
