COAL SHORTAGE FOR WINTER PREDICTED

tion is Much Below Normal

A coal shortage next winter which may curtail production of iron and steel and seriously affect other industries, was foreseen recently by the federal reserve board in its review of buginess, industrial and financial and ditions. The situation is acute in some districts, according to the board and production in many lines is being held down.

Production of coal is being curtailed chiefly as a result of car shortage, the reserve board reports. It is estimated the car supply at mines in the East is at only 30 per cent of normal. Labor difficulties, while complicating the situation, are considered by the board as only a minor

cause or reduced coal production. In the Southwest, according to the review, many mines are operating at only two-thirds capacity. Coal ship-W. E. Kitzman of Vernon was in ments to other countries are reported as light. No reduction of coal prices is in sight, the board says.

Commenting on the far-reaching effect of the car shortage and freight congestion, the board states that reports of its agents indicate that the transporation tie-up is largely the result of the railroad strike, which still continues over a large section of the country. The congestion is further accentuated, according to the board, by local strikes of other groups of transport workers.

An acute shortage of labor on the farms was also reported by the board. back to Plainview from Amarillo. Mrs. Frank E. He also defended himself in a like manner for representing old man Watson who killed Patterson, state hanking commissioner, at Teague.

Mr. Neff said he had always been a prohibitionist, had prosecuted crime vigilantly when prosecuting attorney of McLennan county, and if elected would enforce the prohibition laws so tightly that the next generation liquor.

He has always been for woman's suffrage, as he believes women have as much right to vote as do men.

Mr. Neff explained his land tax plank, by saying there are several tary; T. A. Caldwell, superintendent non-residents who own tracts of land of construction. Messrs. Hall and in Texas above a million acres each. One man who lives in the North Marble fields at once. owns three million acres of raw land in Texas, which he is not living on, cultivating nor using except holding for speculative purposes, and anothsuch as farming or grazing, to sell in Texas than the state of Rhode Island which he is holding for speculation. Mr. Neff wants a law that will force non-residents who own more than a million acres and are not using them for some purpose, such as farming or garzing, to sell No matter how much they wh, if they live in Texas, he would exempt them from the law. To say the least, his land plank is hard to understand, and would be impossible to execute.

He was strong on reduction of expenses of government and lowering of the tax rate. He said that since 1903 the state expenses have grown grom \$3,000,000 a year to \$20,000,000 a year, and that now the a are 4,000 employees on the state payroll, their pay being \$5,000,000 a year. He would do his utmost to correct this.

He wants a correct marketing system worked out, so as to bring the producer and the consumer closer together. Would encourage factories to manufacture Texas products. Favors improving the farming and stock interests.

As a preroration he said he believes in putting manhood above the dollar, and believes in clean politics and government.

SIMPLE REMEDIES NEEDED

The ills and imagined ills with which the country is now afflicted has brought forward people with all kinds of nostrums and panacas, and Don't despise the lowly hen, for she cure-alls. Many complicated legislative remedies are being urged. The fact is, practically every one of these ills could be cured by simple home-made remedies. No patent compounded nostrums are needed. But, the trouble is in getting the people to take the medicine.

If every person would go to work long hours every day, they would within a few weeks speed up production to such an extent that a surplus would be piled up and prices begin to descend. Unrest would fade away, for a busy person is rarely ever a discontented or grouchy person. Long hours of work would bring enough extra money to those who work to put them on easy street.

People should get the lure of the city and its bright lights and noise out of their systems. Every nation since history begun has fallen because the people longed for the glare and ease of the cities and deserted Will Amorica suffer a the farms. like fate?

If people would practice economy, their financial troubles would soon fade away, and their bank accounts grow. Prices would be lowered, for when people cease to pay any price demanded the dealers must needs reduce their prices or have stock left on their hands. Several times lately has this been shown.

EXCURSION TO THE RIOGRANDE VALLEY OF TEXAS

Private Pullman Cars, Special Train, Special Rates Including Meals, Berth and All Side Trips

We will take you to Houston and there you will see a busy hustling Southern city: We take you to Galveston and while there give you a boat ride on a big pleasure boat on the Gulf of Mexico. We will provide bathing suits and bathing privileges so that you can take a dip in the briny waters of the Gulf: We will give you an automobile ride covering about 200 miles through the Southern Rio Grande Valley: You will visit farms and farmers: You will visit Grape Fruit and Orange Groves: You will see the fragrant Pomegranate at home where nature intended it to agrow: We will traverse the historic border between Mexico and the United States: You will see beautiful Palm trees and the Fig in its native element: You will see hundreds of tropical and semi-tropical plants at home in this Valley.

You will find a country where people are enjoying more of life: Where men and women work less: Where men and women live longer and love each other more: You will find farmers making more money: You will find better schools and better churches. You will find the farmer growing hogs and cattle for one half of the cost to you: Where "Hog Cholera" is not feared: Where no costly hog houses and barns are necessary: Where Hogs and Cattle graze on green pasture every month in the year.

You will find farmers who made \$150.00 per acre from their corn crop for each year 1917-18-19.

You will find other farmers who made \$300.00 per acre from their Broom Corn for each year 1917-18-19.

You will find farmers who made \$1000.00 per acre from their cabbage crop for each year 1917-18-19.

You will find other farmers who made \$1000.00 per acre from their onion crop for each year 1917-18-19.

You will find alfalfa fields being cut from eight to eleven times per annum. Yeu will find the richest soil in the world from twenty to sixty feet deep, where you can make the moisture suit the crop and where the sun shines down nearly every day.

You will NOT find rheumatism, asthma, bronchial troubles, pneumonia or malaria for they cannot exist in the Lower Rio Grande Valley of Texas.

It is a wonderful trip: You will travel by Private Pullman Sleeping Cars in a Special, Fast, Through Train: You will be furnished three Good Meals every day and a Good Bed every Night.

We have just bought the best body of land in the Rio Grande Valley of Texas: Canals and Laterals are built and ready to water 4,500 acres now: You can have your choice of location by going now: We believe it will double in value within the next three years: Our Irrigation rates are the Cherpest in the Valley.

36 Farmers wrote this Advertisement for PLYMOUTH TWINE

FOR over twenty years I have been a user of Plymouth Twine. When I ran out of Plymouth I used other twine. This gave more or less trouble, but I have always found Plymouth Twine of uniform thickness.

In the thousands of pounds I have used I have never found a poor ball. It works equally well in a corn or wheat binder. Plymouth Twine is free from knots and snarls. It stands up in the twine ball until all used up. It never gets tangled. It will bind more straw per pound than other twine. It is the best in the long run. The most economical twine the farmer can use. 36 TWINE USERS.

farm loan board.

The purchase of 40 million dollars of farm loan bonds by the government was authorized by congress just before adjournment. The money has enabled the farm loan banks to ad-vance loans that stood approved at the time the system was tied up March 1, by the court attack on the constitutionality of the act.

pudiated the interview and told Albert Sidney where to head in. Texas is for bone-dry prohibition. There is no way possible to have halfway prohibition. If beer and light wines were permitted sold the places where they would be sold would become the camping place of every boozer, bootlegger and tough in the community, and whiskey straight would be peddled almost openly.

Of course Ben Smith of the Beacon had to comment on the recent uncalled for and out-of-place article in the Lubbock paper trying to show that there is bitter rivally between the people of the two towns. The editor of the Lubbock paper simply put his foot in his mouth and shortcircuited himself. The whole matter was an unfortunate one, and is to be regretted. The people of Plainview do not hold any bitter feeling against Lubbock, nor do they knock the town. They have a friendly feeling for it, and no editor should try to make a mountain out of a mole-hill because of what one person in either town might say or do. There is plenty of room on the Plains for both the towns to grow into cities, in fact the growth of one helps the other grow. The newspapers of the towns should do everything in their power to encourage helpful co-oper-ation of the people. The News pursues this policy.

The Interchurch World Movement drive for three hundred million dollars will be called off, as only about half that amount has been raised. The reason given is that there have been so many "drives" during the past several years the people have become sick and tired of hearing even the word "drive" mentioned. We hope this failure will be a warning to all others to cut out the "drives" at least for a long time. Drives have Lecome a nuisance, and many of them gotten up by persons who simply want a job

Again we must say that the more Pat Neff "explains" his graduated iand tax plank the worst he gets bogged up. We heard his explanation yesterday, and after he got through doing so, we couldn't understand it and couldn't even understand why
