

DODSON WARNS CALOMEL USERS

It's Mercury! Attacks the Bones, Salivates and Makes You Sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

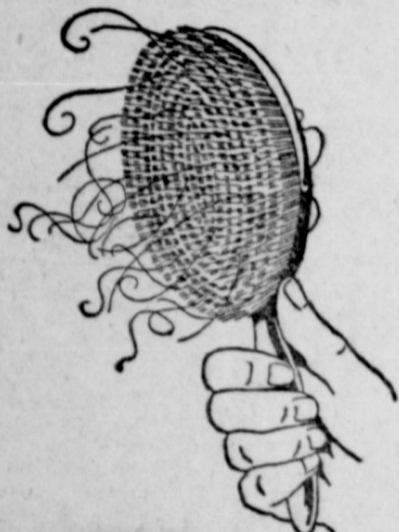

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.—Adv.

DANDERINE

Stops Hair Coming Out; Thickens, Beautifies.

A few cents buys "Danderine." After a few applications you cannot find a fallen hair or any dandruff, besides every hair shows new life, vigor, brightness, more color and abundance.—Adv.

MOTHER!

"California Syrup of Figs" Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."—Adv.

When a man is in too great a hurry to acquire wisdom he is apt to make a fool of himself.

Catarrhal Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. Catarrhal Deafness requires constitutional treatment. HALL'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. HALL'S CATARRH MEDICINE acts through the blood on the mucous surface of the system, thus reducing the inflammation and restoring normal conditions.

Thousands Have Kidney Trouble and Never Suspect It

Applicants for Insurance Often Rejected.

Judging from reports from druggists who are constantly in direct touch with the public, there is one preparation that has been very successful in overcoming these conditions. The mild and healing influence of Dr. Kilmer's Swamp-Root is soon realized. It stands the highest for its remarkable record of success.

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease. It is on sale at all drug stores in bottles of two sizes, medium and large.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.—Adv.

Individuality.

A philosopher once said: "The man of spirit rebels against this universal attempt of society to make all men look and act alike. Wild animals are alike, and with them there is no progression. Force Tonic

The Master Rebuilder

When the Stomach is Weak

Take FORCE, the Master Rebuilder. This wonderful tonic is a refreshing appetizer and ready aid to digestion, because of its tendency to strengthen and increase the functional activity of the stomach. Its pleasing stimulation produces a normal flow of the gastric juices, aiding the stomach to properly assimilate and easily digest the food taken into it. Besides, FORCE is agreeable to the most delicate system. It never nauseates.

FORCE is sold by reliable druggists everywhere, and is equally beneficial to men, women and children.

SOCIETY

Miss Blanche Maggard and Ernest Spencer marry in Oklahoma. Word has just come that Miss Blanche Maggard and Mr. Ernest Spencer were married at the home of her sister, Mrs. John R. Bates, in Weleeta, Okla., several days ago. The bride and her mother recently went to Weleeta to visit the Bates, who formerly lived in Plainview. Mr. and Mrs. Spencer came to Amarillo yesterday, and were to be joined by his parents, Mr. and Mrs. B. L. Spencer of this city, and they were then to go to Denver in a car to visit Mr. and Mrs. Chas. Spencer, but the excessive rains made it impossible. We understand that the newly married couple will go from Amarillo to Denver.

Both these popular young people were raised in Plainview, and have many friends here who wish them much happiness. She was saleslady at the Plainview Mercantile Co. store for years and he is assistant postmaster of the Plainview office.

Second-Hand Clothing Wanted For Armenians

Near East relief, charitable corporation, chartered and controlled by the congress of the United States, is making a drive for usable second-hand winter clothing, shoes, gloves, etc., to be sent to the destitute people of Armenia and other devastated nations in the Near East. These people are reduced to a most pitiable condition by force of events for which they were in no way responsible, and over which they were powerless to exercise any control. They are now in rags and tatters, many wearing garments made from flour sacks and burlap bags, and unless warm garments are furnished them for next winter's wear, thousands of them will perish of cold and exposure. Only warm, serviceable garments are wanted, as the cost of transportation is too high to permit the sending of useless things. For the purpose of receiving and packing the articles donated the Boy Scouts hall will be kept open on June 13, 14, and 15. On each of these days two patrols of boy scouts will be on duty to receive orders and call for packages in any part of the city. Parties having packages to send in may call the mayor's office, phone 93, where a boy scout will be on duty to receive the message and send for the package.

HALE CENTER

Despite the inclemency of the weather Saturday our Trades Day was quite a success. By noon a large crowd had assembled and the "sports" were underway. The barbecue dinner was enjoyed by all. Our base ball team crossed bats with Littlefield in the afternoon and went down in defeat. The young married women played a five inning game against the high school girls. The girls won 13 to 2. Even the clowns were here to amuse the small boy. We are all looking forward to the first Saturday in July.

Yes, it surely does rain in Hale county.

The Dramatic Club will give the play "For the Love of Johnny," at the auditorium Friday night, June 10. Let everyone come, as this may be the last entertainment given this year as the school board is planning to convert the auditorium into class rooms.

Mrs. Chas. Saigling was a guest of her mother, Mrs. M. K. Alley, and other relatives Saturday.

Bro. Johnson of Tulia held services in the school house Thursday, Friday and Saturday nights.

Mrs. N. M. Akeson and three children arrived from Austin Thursday morning, where the young people have been in school.

Mrs. Ben Maxey of Lubbock was the guest of her mother, Mrs. A. Y. Whitacre, last week.

Mr. and Mrs. John Rawls are now domiciled in the apartments vacated by Mr. and Mrs. Ragan. The Ragans have the apartment vacated by Mrs. Buckingham.

Harry Stone went to Happy Sunday for an indefinite stay.

Mr. Geo. Henkle of Kress and Miss Luella Moon of Plainview were guests at the Henry Moon home Sunday.

Mrs. Ola Legg of Petersburg was the guest of her brother, Roger Pinson and wife last week.

Bob Hudson left Wednesday night for McAllen, Texas, where he has a position as bookkeeper and cashier for a large mercantile firm. He expected to visit relatives at Houston and Kingsville en route.

Misses Venus and Gladys Horton are leaving today, Monday, for Canyon, where they will attend summer school.

Miss Grace Caudle has gone to Colorado to spend some time among the mountains.

O. O. Crow and Tinnie Groves of Abernathy underwent surgical operations in a sanitarium in Lubbock last week.

Union Revival Continues

The revival meeting is continuing right along with services every evening at 8:15. Of course we have been rained out a few times and the attendance is small but we are going right ahead. Perhaps we could wait for the revival better than we could wait for the rain though we needed both very badly. Now, when it ceases to rain (and it always has) let us express our appreciation for the rain in service for the meeting. In the meantime there will be service each evening at 8:15.—Pastors.

Public Program of Sunbeam Band

On account of the revival meeting the Sunbeam program which was to have been presented Sunday night, at the Baptist church, will be rendered next Sunday, June 12, at 8:30 o'clock. The public is cordially invited.

Had Good Revival

Rev. Harlan J. Matthews, Baptist pastor, returned last night from Perryton, where he had been holding revival. He reports a successful meeting.

Whitfield Meeting Rained

Rev. G. A. Brittain, Baptist pastor, has begun a revival at Whitfield church house at Whitfield. It will be held every Sunday that it will take several days for them to be in shape for cars to go over them, especially across the lakes.

back this morning to visit for several days.

Mr. and Mrs. D. C. Schick of Teague are here.

H. G. Talbert of Littlefield was here on Monday.

Cliff Davenport of Tullia was in town Sunday.

C. B. Reaves of Spearman was in town Saturday.

Miss Millicent Lahm of Amarillo came in this morning to visit Miss Minnie Dee Coffin and attend her Dunning system music demonstration tonight.

Homer E. Minor, John Austin, Misses Geraldine and Merle Marys went to Amarillo Wednesday in a car for a visit, and were water bound. They returned this morning on the train.

Miss Alta Hall has returned from Amarillo, where she has been attending school. Her sister, Miss Mary, went to Pampa to visit a girl friend for a few days before returning to Plainview.

Mr. and Mrs. R. W. Brahan and son, Thomas, expect to leave about the middle of the month for a visit with relatives at their old home in Alabama. They will also visit in Tennessee and other states while away.

Miss Minnie Dee Coffin, who has been teaching a Dunning system music class here the past year, will leave tomorrow for Blum, Johnson county, to spend the summer at home. She expects to return to Plainview and resume her class next fall.

Judge Hendrix of Tullia was in town yesterday. He says the roads between Plainview and Tullia were so badly flooded by the rains of Saturday and Sunday that it will take several days for them to be in shape for cars to go over them, especially across the lakes.

HOW WOMEN OF MIDDLE AGE

May Escape the Dreaded Sufferings of that Period by Taking Mrs. Block's Advice

Hopkins, Minn.—"During Change of Life I had hot flashes and suffered for two years. I saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and got good results from taking it. I recommend your medicine to my friends and you may publish this fact as a testimonial."

It has been said that not one woman in a thousand passes this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinking spells, spots before the eyes, dizzy spells, nervousness, are only a few of the symptoms. Every woman at this age should profit by Mrs. Block's experience and try Lydia E. Pinkham's Vegetable Compound.

WASHINGTON SIDELIGHTS

Honors for Liggett, Bullard and March

WASHINGTON.—At the request of the committee on military affairs Senator Wadsworth of New York recently got before the senate Bill 3224, which is in part: "Be it enacted, etc., That in the army of the United States the grade of lieutenant general is hereby revived, and the President is hereby authorized, in his discretion and by and with the advice and consent of the senate, to appoint to said grade one general officer, who, within the United States, prior to the close of the recent war, rendered especially distinguished service, and two general officers, who, prior to the close of hostilities, especially distinguished themselves in command of field armies in the American expeditionary forces, etc."

No Cedar Boxes for the House This Year

EVERY now and then congress considers a very important and serious subject—like packing boxes. The house was considering the sundry civil bill by items. Here are parts of the debate on packing boxes: Mr. Mann—"I move to strike out the last word. The next item in the current law is a provision for packing boxes. It was left out of this bill. I think there is an item in the bill for packing boxes for senators."

Water Power and the National Parks

DEBATE in the house over the Roosevelt-Sequoia National park bill brought to the surface the fight between the water-power interests and defenders of the national parks. This bill provides for the enlargement of Sequoia and the change of name to Roosevelt. The water-power interests are desirous of getting water-power permits on waters flowing west out of the proposed addition, as the power can be easily delivered to Pacific coast cities. Under the new water-power act the water-power commission may grant permits in all public lands, including national parks. A bill to amend this act by excluding the national parks has been introduced. The Roosevelt-Sequoia bill came up

A Federal Library Information Service

THERE is a bill pending in congress to provide for a library information service in the bureau of education. Senator McLean of Connecticut spoke in favor of the bill the other day and said, among other things: "The bill proposes to make available to the federal government the services of the libraries of the United States as centers for the dissemination of information prepared by the government for the people. The libraries are especially fitted to place government printed matter before the people, because they are supported by the taxes of the people for their benefit of the people, and are nonpartisan in their attitude."

I'd be surprised at such carelessness only I know you haven't any brains or much brain power or a great many sensible ideas in your head. And so long as you're not so very clever I suppose one shouldn't scold you for being careless."

PLAINVIEW HAS SOUND FOUNDATION IN AGRICULTURE

RICH FARM COUNTRY SOURCE OF WEALTH TO HALE COUNTY TOWN

By John Boswell In Star-Telegram.
Situating in the center of a rich diversified farming country and the greatest wheat growing section of Texas, Plainview is naturally a leading city of the Texas Plains, both in size and in commercial and civic activities. From a pioneer ranch town to the metropolis of the South Panhandle and Plains has been the phenomenal growth of Plainview since the first railroad built into the town thirteen years ago. With the town and country well started toward development, it is reasonable to expect that Plainview will continue to grow rapidly for many more years until it becomes one of the leading cities of West Texas.

Any town so located as Plainview would make rapid growth, merely from a business viewpoint. But the progressive citizenship of Plainview, by making their city an ideal place in which to live as well as to pursue wealth, have caused it to outstrip other towns in this section in growth.

Quality of Town
Citizens of Plainview take pride in the size of their town, but their greatest pride is in the kind of a town they have built.

One of the first things a visitor notices about Plainview is its well paved streets, thirty-two blocks of them. These streets are lined with new and attractive business structures. Near the Santa Fe depot is the large 250,000 bushel elevator of the Harvest Queen Mills. Wholesale grocery houses, produce house, mills, warehouses, broom factory and numerous grain elevators are now noticed immediately by a visitor stepping off the train.

The retail business section centers around a public square, in the center of which the beautiful Hale county courthouse. It extends several blocks in every direction, the principal business street being North Broadway. The business buildings range from one to four stories in height. All are less than ten years old and all have attractive fronts. The entire business section is of concrete and brick construction and most of the buildings are fireproof. Broad sidewalks and very wide streets make pedestrian and vehicle traffic as attractive as possible.

Business Advantages
Plainview has three banks with deposits of well over \$3,000,000—on only \$250,000 capitalization! She also has eight large elevators, large flour mill, five lumber yards, eleven church buildings, twelve garages and auto repair shops, nine hotels, three large brick school buildings, two colleges, modern sewer system, waterworks, electric light plant supplying entire South Plains, ice plant, two theaters, two semi-weekly newspapers, and other things which go into the framework of a good business and residence town.

The residence district of Plainview is especially beautiful. The many beautiful cottages and larger homes are surrounded with thousands of shade trees and blue grass lawns. Sidewalks connect the entire residence section with the business section and with schools and churches. The streets are either paved or well graded and maintained. Plainview is said to have the best streets in her residence section of any town in Texas. Sanitary laws are strictly enforced in the residence section as well as in the business section and cleanliness at all times adds to the beauty of Plainview's home district.

Schools Are Good
Plainview's public schools rank among the best. A faculty of forty-

An Announcement by The Studebaker Corporation of America

Eight months ago, when the costs of material and labor appeared to have reached their peak, we made substantial reductions in the prices of Studebaker cars. These reductions were in anticipation of our ability, after the turn of the year, to purchase materials and to fabricate them at lower costs.

The expected savings have been realized.

With them, other savings have been made, as a result of the greatly increased volume which Studebaker has this year enjoyed.

During the first five months of 1921, our volume of business has exceeded that of any other automobile manufacturer except Ford.

The Studebaker plants are running at

capacity with unfilled orders on hand for over 7,000 cars.

In this quarter we shall produce 21,000 automobiles against 11,000 in the corresponding period of last year. This is an increase of approximately 100 per cent.

No other automobile manufacturer is making a comparable showing.

We believe that the confidence of the buying public, which has made and is making this record possible, will continue, because it is supported by the quality and value of our products, and these we uphold.

We expect that as a consequence the present economical and efficient production basis can be maintained and that we are justified in making further reductions in the prices of Studebaker cars.

four teachers, all holding degrees or first grade certificates is employed.

The splendid faculty and equipment has enabled the Plainview high school to secure 26 1-2 units of affiliation with the State University. Wayland college and Watson's Business College each enroll over 200 students annually. Thirteen principal religious denominations are represented by strong church organizations in Plainview. As a church attending town, Plainview ranks high. Among the leaders in church workers will be found the leading men of town in commercial and civic activities. There has never been a saloon nor den of vice in Plainview. A strong police force, though seldom needed, is maintained at all times.

Summarizing the above, it may be seen that Plainview is a most progressive town. A prosperous citizenship is more inclined to be progressive and to the general prosperity of Plainview may be contributed much of the progressiveness.

Source of Prosperity
The source of all this prosperity is the great farming country which surrounds Plainview, extending over the fertile Plains in every direction.

Hale county has an altitude of 3370 feet, which makes it a splendid small-rain country. It is also sufficiently south to produce all crops grown in Southern states. The annual rainfall is more than twenty-one inches, 70 per cent of which falls during the growing season. The average annual rainfall is amply sufficient to produce bumper crops, as the Hale county soil is chocolate loam, which preserves moisture unusually well. Even under flooding irrigation, this soil does not bake, pack nor sour. The soil over the county is well balanced and contains no alkali nor injurious minerals.

The make-up of Hale county soil and climatic conditions make it adapted to diversified farming. Wheat and small grains of all kinds are especially adapted to Plainview country and are usually the surest big profit makers, especially under irrigation. Cotton does well, but it is not raised extensively due to the fact that other crops make more money with much less labor.

In 1920 a total of 2,557,230 bushels of grain were raised in Hale county. Of this amount considerable over 1,700,000 bushels was wheat. And this despite the fact that not 20 per cent of Hale county land is under cultivation. Some idea of the great wealth which will come to the county when all of the land is under intensive farming methods can be had.

Expectations are that the 1921 wheat crop in Hale county will yield over 2,000,000 bushels. As usual, there will be the heavy crop yield of maize, kaffir, feterita and other grains.

Underlaid With Water

The Plainview country is underlaid with a sheet of water beginning at the shallow depth of thirty feet. In no part of the county is it necessary to drill over sixty feet to water. Exhaustive investigations by geologists have proven that this water supply is inexhaustible and that in all probability this same water feeds the springs of Central and Southern Texas. The whole Plains country is underlaid with this water, but only that part of it within a radius of about thirty miles of Plainview and a strip running northwest to Hereford is shallow enough to be available for pumping irrigation.

The water is raised from big bored wells by centrifugal pumps, operated by oil burning engines at a cost of about \$1.50 to thoroughly irrigate an acre. The cost of irrigation, even in years of normal or morer rainfall, is more than paid by increased yields. The water used for irrigation purposes is 99.6 per cent pure, purer than rain water, and when mixed with the rich soil of Hale county produces almost incredible crops.

Only a small part of the cultivated land of Hale county is at present under irrigation and most of the big crop yields are made on dry land farms. It is believed that as the country becomes intensely settled that irrigation will be practiced gen-

Sugar beets, celery and other truck crops yield enormous profits under irrigation. A small well with a windmill for pumping furnishes an abundance of water for household uses and truck patches. Practically every Hale county farm and many city residences have their own gardens.

Poultry and Hogs
Hale county also boasts of numerous other things than farm crops. Poultry and hogs are each big profit producers. Dairy and feeder cattle do well and make good profits. Both hogs and poultry are now shipped from Plainview in train loads quite
