## EXCURSIONISTS HERE TONIGHT

WILL SPEND NIGHT HERE AND  
GIVE UNIQUE ENTERTAINMENT

The Chamber of Commerce of Kansas City Special Pullman train which is to arrive in Plainview this afternoon at 5:10, carries one of the largest and most elaborately prepared Trade Excursion organizations in the history of the Chamber of Commerce according to officials of that organization.

The special consists of twelve cars—two baggage cars, two diners, a chair car for the band, six Pullmans and a Pullman observation. The party will be composed of 125 of the leading business men of Kansas City, who will be all decked out in "Booster Trip" regalia and will carry literally tons of souvenirs and advertising matter.

N. N. Dalton of the Peet Brothers Manufacturing Company and president of the organization, will head the party and is scheduled for the heavy part of the speaking duty on the programs rendered. Frank Witherspoon, Jr., president of the Kansas City Live Stock Exchange; George N. Neff of the Drovers Telegram and Mayor Frank H. Cromwell will also assist in speechmaking.

The party will parade downtown upon their arrival, and will provide their own entertainment. The organization is asking all towns to refrain from preparing any entertainment, as the excursionists have their own band and everything necessary for a complete trade trip.

A large number of local citizens will meet the train, and extend a cordial welcome to the visitors.

Tonight an entertainment by the K. C.'s will be held at the auditorium, including music by the band, speaking and a reception.

### Playing With Fire

A very exciting game of base ball is said to have been played Sunday afternoon between a club composed of white young men of the town and a team composed of negroes. It was witnessed by a large crowd of people, so we are told.

The mixing of the two races in games is sure to lead to trouble, for give a negro an inch toward social equality and familiarity and he is sure to try to take a mile, and possibly go a league. Of course the whites will resent any familiarity on the part of the blacks, and then serious fighting will follow. The editor of the News was raised in the South and knows considerably about the negro and knows that the least social equality recognition extended to him by the whites is akin to playing with fire.

### Attended District Federation

The following Hale county women attended the annual convention of the Seventh District Federation of Women's Clubs, held in Clarendon last week: Mrs. Carl G. Goodman of Abernathy, district president; Mrs. Meade F. Griffin of Plainview, district secretary-treasurer; Mrs. R. A. ### Fine Rains Cover Entire Plains

It seems that the fine rains of Thursday night and Friday visited every part of the Plains, and in many places was very heavy. These rains almost insure a good yield of wheat, and put a fine planting season in the ground for cotton and row crops. Never was there a better prospect for good crops.

Will Establish Second-Hand Store. W. A. Nash and son, Kearby, will install a second-hand furniture store in the building just north of the Nash boarding house.

Mr. Nash was for a number of years in this business here and sold out about eight years ago.

### Building Material Prices Advancing

The price of building materials is now said to be advancing very rapidly, and promise to go beyond those which was obtained during the boom following the war. The price of plate glass is already almost double what it was several months ago.

### Produce Exchange Opens

C. S. Ebeling, well known farmer, has opened the Produce Exchange in the L. J. Warren grocery store, and will handle chickens, eggs and hides. His announcement appears on another page.

## FEDERATION OF SEVENTH DISTRICT

SECOND ANNUAL CONVENTION  
HELD IN CLARENDON LAST  
WEEK

The second annual convention of the Seventh District Texas Federation of Women's Clubs opened Friday morning, April 20, at Clarendon, when the president, Mrs. Carl G. Goodman of Abernathy, declared it formally in session.

Previous to the first business meeting, the executive board, composed of officers and chairmen of the district, met Thursday afternoon to discuss the work of the year just closing and to plan the further development of the district. The board meeting was followed by a delightful tea at the home of Mrs. E. F. Bryan which was enjoyed by many delegates and visitors.

Thursday night the program for President's Evening was given at the First Baptist church, where all meetings were held. The club women of the district were welcomed to the generous hospitality of Clarendon by the mayor, Mr. W. H. Patrick, Mrs. Sella Gentry, representing the Pathfinder Club, and by Mrs. Crockett Taylor for the Delphian club.

Mrs. W. H. Mendor of Lubbock responded for the District to the addresses of welcome.

Several delightful musical numbers were enjoyed by a most appreciative audience. Among them were a violin number, most beautifully rendered, by Miss Beatrice Story of Amarillo; a quartette, "Annie Laurie" which was given by musicians of Clarendon; a solo by Miss Guenther of the Canyon Teachers' College; a piano duet rendered by the director of music and instructor in piano of the Clarendon College. One of the most delightful musical numbers was the solo by Mrs. A. L. Cantwell, accompanied by Mrs. Guy Jacob, both of Plainview.

The principal talk of the evening was a splendid and stirring talk made on Education by Mrs. Maggie W. Barry of College Station, National Chairman of the Department of Home Economics, and a speaker of nationwide repute.

The district president, Mrs. Carl G. Goodman, made an excellent address on the work of the Junior section, stressing the need for work in this section.

One note worthy feature of the evening's program was the reading "The Prairie Prayer," a poem by one of our Texas poets, Hilton Greer. This reading was given most artistically by Miss Ina Benson of Clarendon College.

### Business Meeting Friday

The business meetings opened Friday morning at the First Baptist church. Reports of the president, Mrs. Carl Goodman, and the secretary, Mrs. Meade F. Griffin of Plainview, were read, showing the large amount of work that had been done in the district since its creation. The president reported that she had visited fifty-seven clubs in thirty towns and nineteen counties, which sets a record for work by the presiding officer of the district.

### Elderly People in Accident

Mr. and Mrs. F. M. Wells, Mr. and Mrs. J. E. Hardin, while driving home from church Monday night happened to an accident near the Maupin home in the eastern part of town.

## PLAINVIEW WILL BE REPRESENTED

8,500 PEOPLE EXPECTED AT  
WEST TEXAS CELEBRATION FOR MAY

Stamford, April 21.—The program for the fifth annual convention of the West Texas Chamber of Commerce, to be held at San Angelo, May 21 to 23 is now in the hands of the printer at Abilene and will be ready for distribution in a short time. The report of the executive committee also is being printed and will be returned to Manager Porter Whaley in a few days.

It is expected the San Angelo convention will eclipse all others. The city of San Angelo has appropriated \$11,250 to entertain the delegates, and Manager Whaley says he is of the opinion that the attendance of members and nonmembers will exceed 8,000. The West Texas Chamber of Commerce has a membership of 255 towns, with 6,500 members, and it is believed that a large delegation will come from most of these towns. In addition, there will be hundreds of nonmember visitors who will take advantage of the opportunity offered in the shape of low railroad rates to San Angelo to participate in the big celebration to be held while the convention is in session.

### Neff and Sheppard Invited

Both Gov. Neff and Senator Morris Sheppard have accepted invitations to attend the convention and deliver addresses. In addition, William Randolph Hearst has been invited to attend, and John W. Carpenter of Dallas, vice president and general manager of the Texas Power and Light Co., is on the program for a speech on the important subject of "Textile Mills for Texas." Mr. Carpenter is a member of the board of regents of the new Texas Technological college. Another feature, having a bearing on the question of textile industries, will be a report to be read by Herbert Jones, manager of the cotton mill at Post, prepared by the committee of the West Texas Chamber of Commerce sent to the cotton mill district of the South last summer to make a thorough investigation.

Mrs. Dora Bonds, clothing specialist of the A. & M. College, likewise is scheduled for an address.

One of the principal features of the celebration to be held in connection with the convention will be the West Texas pageant, which will be staged the night of May 22. Each town holding membership in the chamber has the right to name a sponsor, who will bear the name of the town from which she is sent, such as Lady Abilene, Lady Plainview, and others. Already more than seventy-five young women have been selected by the various towns as sponsors, and all will appear in the pageant.

### Past and Present Showing

The pageant itself will represent the marriage of the Past to the Present, and will be staged under the auspices of Harley Sadler of Jones county, who is an expert in arranging entertainments of this character. Seats have been prepared for 4,500 people to witness the pageant, which will be staged at the ball park.

Another big feature of the convention will be the fifth annual banquet of the West Texas Chamber of Commerce, which will be held this year on the lawn of the Tom Green county courthouse, and at which one of the principal articles on the menu will be barbecued goat.

During the convention the annual West Texas band contest will be held. Prizes to the amount of \$2,000 have been hung up for this contest, and already fifteen bands have entered. One condition imposed on the contestants is that every band participating be able to render the "Star-Spangled Banner" and "Stars and Stripes Forever." Among the famous bands which will participate will be the Rotary Club Band of Mineral Wells, composed exclusively of girls and the Plainview Boys' Band composed of forty-four Boy Scouts.

### Group Meets Planned

During the convention, group meetings will be held. One on irrigation and water control is regarded as of great importance. It will be addressed by John A. Norris, chairman of the Board of Water Engineers of Austin. In this connection, motion pictures will be exhibited, showing the leading irrigation projects of the United States, especially those on the Indian reservations. The Hon. Carlo Sells, Indian Commissioner under the Wilson administration, will deliver an address. The irrigation group meeting will be led by Carl Guin of Ballinger.

The poultry, dairying and live stock group meeting, to be held the second day of the convention, will be managed by Col. C. C. French, of the Fort Worth Stockyards Co. A conference

## STATE WINS BACK \$1,000,000 IN LANDS

Supreme Court Upholds Decision In  
Capitol Syndicate Case for  
Sixty Thousand Acres

Austin, April 18.—In an elaborate opinion handed down by the State Supreme Court here Wednesday, the judgment of the Third Court of Civil Appeals was upheld in the famous Capitol Land Syndicate case. This means the state will recover 59,281 acres of land, the excess of more than 3,000,000 acres donated by the state to the syndicate for the construction of the State Capitol more than thirty years ago.

The value of this excess land is estimated to be approximately \$1,000,000. The opinion was written by Associate Justice Pierson.

In writing the opinion Justice Pierson went into details of the contract. He declared that the contract in effect was that the syndicate was to receive 3,000,000 acres, and that in the surveying a mistake of 59,281 acres was made. Further, he said, "here it is clear, we think, the contract for the Capitol building was not that the builders should take the group of leagues of land as an entire tract, regardless of whether they contained 3,000,000 acres, but that they were to receive 3,000,000 acres. As shown, this was the construction put on the contract by the parties."

"One reading the reports of the building of the Capitol can not fail to be impressed with the high integrity, fairness and ability of Abner Taylor and his desire to give to Texas a State House of which the state would be proud. It is clearly evident that he used every effort possible, and did in good faith build a magnificent building, according to his contract," concluded Justice Pierson.

## NEW OFFICERS ELECTED FOR ROTARY CLUB

Five new members were also added to the club—John Boswell, secretary of the Plainview Chamber of Commerce; Frank Day, county attorney; E. Dowden, Sr., hardware; Billy Billy Bromley, newspaper reporter; Geo. Clements, of Clements-Lowe Variety Co.

Messrs. Kelso, Ryburn and Crew made short speeches, in which Plainview's prospects for the Tech College location were told of, and the friendship of certain other towns for this town were voiced.

The Amarillo club will put on the program at the luncheon here next Tuesday, and it was decided to have the ladies of the members present on that occasion.

The Plainview club will put on the program for the Lubbock club at that place Wednesday, May 9th.

### Proposal for Railroad Merger

The interstate commerce commission is holding hearings on a proposal to consolidate all the railroads of the nation into nineteen large systems, with one dominant railroad owning, and operating the lines in its territory.

Under the plan the Santa Fe system would include the following lines: Atchison, Topeka & Santa Fe, Gulf, Colorado & Santa Fe, Colorado and Southern, Fort Worth & Denver City, Denver & Rio Grande, Western Pacific, Utah Railway, Northwestern Pacific, Nevada Northern.

There is much opposition to the plan in Northwest Texas, as it is urged that it would practically stop all further building of new lines and extensions in this section of the state.

### Stole County Agent's Car

The Ford car of County Agricultural Agent Thomas was stolen Sunday night from where it was parked in front of the Baptist church, while Mr. Thomas was attending services.

of secretaries and unit directors will be conducted under direction of Secretary G. C. Richardson of Cisco.

Hamilton Wright, publicity director of the West Texas Chamber of Commerce, already has gone to San Angelo to open headquarters a month ahead of the date of the convention.

An open round-trip rate of one and one-half fares has been allowed by railroads for the San Angelo convention for all territory west of Dallas.

## MILLIONS TAKEN FROM SUCKERS

POSTMASTER GENERAL REPORTS STARTLING INCREASE  
IN MAIL FROM OIL CENTERS

Washington, D. C., April 23.—"Beware of the intense drive of the fake oil stock promoters to sell you stock in worthless companies," is the silent warning which comes to light in postal returns, announced by Postmaster-General Harry S. New.

No better barometer of a return of prosperity can be had than the figures which show that outgoing mail from Fort Worth, Texas, is 48 per cent heavier than last year. Postmaster New ascribes the increased postal business to oil stock literature.

Slick promoters in Texas are now breaking all records in the creation and distribution of worthless oil stocks.

It is a fact that the boom in mails from the southern fields as not due to startling new oil discoveries. Instead—it is to the return of prosperity, and that the wild-cat promoter knows the wage earner and small investor can be tempted into a "flyer" after sudden wealth when money is plentiful. The common people had no money to invest in 1922—but they have got plenty of it this year. Fake promoters do not waste postage when returns mails fail to bring in checks.

Easy to Prosecute—Hard to Convict. The warning here is to the inexperienced investor. Do not spend hard-earned money for worthless oil stock—no matter how "legal" and "substantial" the company may represent itself to be.

Theoretically the Federal government can stop these fake promoters from using the mail to defraud, but it doesn't work out. They are easy to prosecute, but hard to convict—for the reason that most of the promoters are old-timers at the game, and their literature is worded to evade every point of prosecution covered by law. It is almost impossible to show the circle whereby the money gets back to the promoter who spent it.

Forty states have their own "Blue-Sky" laws, but these are toothless against the flood of worthless securities from outside states, sold and shipped in through the mails. It is inter-state commerce.

### "Blue-Sky" Wants Federal Cooperation

Last year the National Association of State Blue-Sky Commissioners, working with the American Investment Bankers' Association, devised the Denison Blue Sky bill which passed the house, but was tied up and never reached the senate. This bill made it illegal to sell securities by mail which could not legally be sold within the borders of the state from which issued.

Until the small and inexperienced investor is protected by some such law the warning is: Don't buy oil or any other wildcat stock advocated by an intense mail campaign, believing that the company is all right because it is using the U. S. mails in its selling.

"Nine times out of ten it is some past master in evasion of Federal postal laws who is wielding the get-rich-quick pen," as Federal Court records will prove.

### Shriners Attend Spring Ceremonial

A number of Plainview Shriners are in Amarillo today to attend the Khiva Shrine spring ceremonial and the laying of the cornerstone for the Shrine Temple.

Khiva Shrine, which is only two years of age, has a membership of 1552, not including those who join at the present ceremonial.

## 10,000 POUNDS TO THE ACRE

WILL PLANT LARGE ACREAGE  
IN BERMUDA ONIONS—CROP  
ALWAYS GOOD

M. A. Martin, formerly of Houston, is going to engage in the growing of white Bermuda onions on a large scale this year and on a much larger scale the years to come.

He has leased land from Col. R. P. Smyth in Seth Ward addition, just north of town, and will plant seventy-five acres in onions this year. Next year he expects to plant 160 acres and in a year or two after that expects to enlarge his plantings to a full section of 640 acres.

Bermuda onions are a sure and successful crop on the Plains, for over near Muleshoe as much as 10,000 pounds per acre are being harvested, and the demand is good at all times. Onions can be grown here as successfully as in the Laredo section along the Rio Grande river.

## FEDERATION OF SEVENTH DISTRICT

Continued from First Page

consumed the time of the first day. Mrs. T. V. Reeves of Canyon discussed the plan of the Mary E. Hudspeth Co-operative Home for Girls to be built at Canyon, and aroused much interest in the members of the convention in the enterprise, which will enable many girls to obtain an education at a minimum cost.

Mrs. Carl Goodman Endorsed  
 The candidacy of Mrs. Carl Goodman of Abernathy was unanimously endorsed by the Seventh District for recording secretary of the State Federation of Woman's Clubs.

Club extension was reported by Mrs. Phoebe K. Warner of Claude, who told of the interest in club work which is being evidenced all over the district. She told the convention that only eight counties in the district remained unorganized and that they would come in before the fall meeting of the state convention. She introduced the forty-three representatives of the new clubs that had come in since last November, and spoke of many more who were seeking federation.

Home demonstration work was then discussed, and many phases of it were illustrated in clever exhibits.

During the morning meeting Mrs. Maggie W. Barry spoke of the Little Theatre movement, which is growing in all parts of the state. She urged that club women foster this movement, saying that it offered unlimited opportunities for the discovery and development of native talent.

### Fine Arts Program

Friday evening a Fine Arts program was given in the auditorium of the Clarendon College. This program which was an innovation for district programs, was one of the most enjoyable features of the entire meeting, showing, as it did the artistic ability of our district. It was in charge of the Fine Arts committee, Mrs. Tillman Jones, of Post, Mrs. L. D. Cole and Mrs. L. A. Wells of Amarillo.

The program featured Indian music in a number of songs given by Miss Anna Moores. Mrs. Harvey Crudginton of Amarillo gave a piano number, Miss Guffin of Post a violin number, Mrs. Edythe Cameron of Clarendon a musical number, Miss Raymond of White Deer, and Mrs. A. L. Cantwell of Plainview, voice numbers. Mrs. Carl Goodman spoke on Art in its relation to our home life.

The high point of interest in the convention was reached Saturday. Mr. H. M. Morelock and Miss Edna Haynes, both of the West Texas Teachers' College at Canyon, spoke on Literature for children and on kindergarten. Both talks were excellent stressing as they did the need of fine, clean, inspiring literature for our growing children. Miss Haynes brought out most clearly the value of good kindergarten training for children.

Mrs. W. E. Spell of Waco in her address on American Citizenship brought the members of the Seventh district a call to service that no woman could disregard. She spoke of the "Outlawry of War" as a preamble to her address, and emphasized the fact that until war is outlawed there can be no rest for the women of the United States, that they must be working to bring about a lasting peace. She then went on to her wonderful talk on American citizenship, urging her hearers to realize that citizenship is a responsibility that cannot be disregarded. The aliens become integral and responsible members of the great country of which they are a part. Patriotism should be taught every American, whether he be native or foreign born. Mrs. Spell urged true and unselfish service, tolerance of the rights of others, and a sense of responsibility toward our country, our alien citizens, and our community.

The afternoon meeting was one that will long be remembered by those who heard the stirring appeal made by Dr. Carrie Weaver Smith of the Training School at Gainesville for the delinquent girls of the State of Texas. Whenever a girl is brought to the bar, declared the speaker, there are three defendants at that bar: the girl herself, her parents or guardians, and the State. To the guardians and to the State belong the greater responsibility, and it is one which can no longer be shirked.

Dr. Smith also talked on the importance of Birth Registration, and urged that the women of the Seventh District take up this matter and help Texas in the Birth Registration Area.

McMillan Bill Endorsed  
 A resolution favoring the MacMillan bill, which provides an enlargement of the facilities for caring for the delinquent girls of Texas; one in favor of a constitutional amendment in the interests of the State Highway Association; one favoring Better Eng-

lish Week and greater interest in the Fine Arts; one commending the Texas Legislature and the Governor for the bill establishing the Technological College; and one of appreciation for the many courtesies shown by the citizens of Clarendon.

These resolutions will be discussed in full in a later issue. The Endowment Fund was presented after a report of the work already having been done had been read by Mrs. Meade F. Griffin. The Seventh District pledged two thousand dollars to the Fund, this amount to be raised in two years.

### New Officers Are Elected

The report of the nominating committee was read as follows: President, Mrs. Reese Tatum; first-vice president, Mrs. Percy Spencer, Lubbock; and second vice-president, Mrs. R. R. MacDaniel, Quanah. The officers-elect were then introduced to the convention.

Lubbock then extended an invitation to the district to hold its next convention there. This invitation was extended by the women's clubs of the city and was heartily endorsed by the men's organizations and the Pastors' Association. The invitation was unanimously accepted by the members of the district.

### Mrs. Griffin is Honored

A very pleasing affair was the presentation Saturday afternoon of a handsome traveling bag to Mrs. Meade F. Griffin of Plainview, retiring secretary-treasurer, who has during the past year filled this position so efficiently. Mrs. Goodman, retiring president, made the presentation on behalf of the District Federation, and spoke of the untiring work Mrs. Griffin had given so unselfishly.

With the singing of "God Be With You Till We Meet Again" the second annual convention of the Seventh District was declared adjourned by the president, Mrs. Goodman.

### Mrs. Spell's Address on American Citizenship

"Until war is outlawed there can be no rest for American women" declared Mrs. W. E. Spell in her preamble to her address on American Citizenship which was one of the strongest features of the convention. She went on to say that war must be made disgraceful and must be considered as shameful to the nation. When that time comes and not before the women may rest from their labors for an interval.

Mrs. Spell then spoke on the true principles of Citizenship. The aliens constitute one of the greatest problems our nation has to face to day, and until the citizens of our communities can bring patience, tolerance of the rights of others, and the desire for unselfish, patriotic service to the consideration of that problem there can be no solution, no undivided patriotism, no government of the highest type.

It should be made obligatory, the speaker declared, upon aliens to learn to read, write, and speak the American language within a certain time after their arrival here. The motion pictures can also be utilized to teach citizenship and high ideals, and they should not be allowed to debauch the mind and the morals of our communities as we so often find them doing. There is a great need today for better pictures, and it is the duty of the community to demand them.

Mrs. Spell insisted that it is the duty and the responsibility of every citizen to keep in touch with the government of the community and the nation in which he lives, to know of the true character of men and measures, and to register sane and intelligent opinions at the polls. The responsibility of the ballot is a grave one, and should be assumed as a serious duty. The government of our land rests in the hands of our citizens, and it is morally obligatory upon every citizen to exercise that right to govern, and to bring to the discharge of that obligation the highest and best faculties of which he is capable.

Respect for the Flag and for the National Anthem should be taught every foreign and native born man, woman and child in this country. Patriotism should not only be taught the alien, but the native born, who all too often have no conception of true patriotism.

Mrs. Spell closed her address with a strong appeal for tolerance and sympathy with all who have chosen this country as their home, and sounded a call to service in the interests of more intelligent citizenship that was responded to most heartily by the delegates of the Seventh District.

### It's the Feminine Gold Digger Who's Responsible for Youthful Masculine Favors

No human relationship makes love respond automatically; you must endeavor to deserve it. There is no other thing in the world that is at once so pathetic and so cynically humorous as the naive and childlike faith we put in what we call "natural love."

Because people sustain a certain relationship to each other, because the same strain of blood runs in their veins or because a preacher has mumbled a few words over them, we assume that there is a bond of affection between them that nothing can break, and that they will go on feeling the tenderest affection for each other no matter to what cruelty they are subjected or with what treachery they meet.

No theory ever had less fact to back it. Most mothers, it is true, have in instinctive affection for their offspring. Many men lack even this, as is proven by their utter disregard for their illegitimate children. Children themselves have an inherent love for their parents only as long as they are physically dependent upon them. Brothers and sisters are quite as apt to be enemies as friends, and the most casual observation of one's acquaintances gives the lie to the assumption that all married couples inevitably spend their time in billing and cooing just because they are husband and wife.

In reality, there is no force in nature which compels any one to love us. Kinship of itself does not bind the hearts of our relatives to us, nor is there any magic in any ceremony that keeps us always the object of desire in any eyes.

Perhaps the people who learn hardest on this broken reed of natural affection are parents. They always talk about it's being their children's duty to love and cherish them, and they take it for granted that their children are under compulsion to feel some peculiar tenderness and reverence for them.

You will see mothers who never speak of their children except to fret and scold at them, who have never cuddled and petted even their babies, and of whom their children have not one gentle memory.

You will see fathers who have never taken the time to get acquainted with their children, and who never have a heart-to-heart talk with their boys and girls; fathers who have been harsh masters, and of whom their children are deathly afraid; fathers who have stamped out every childish joy, silenced the laughter on childish lips; fathers who have flayed their children with ridicule, and who have cruelly punished every little misdemeanor; fathers who have left stumbling little feet to go blundering along the path of life unguided; fathers who are so tight-fisted that they hold on to every penny until they die and let their children struggle with

poverty and want while they have plenty.

And these parents expect their children to love them because they think they are born that way and should they?

Having brought us here without our consent, it is up to our parents to win our affection, if they want us to love them, by showing us tenderness and affection and consideration. The only parents who are ever really loved are those who do treat their children that way.

Many husbands and wives also make the mistake of putting their faith in the fetish of "natural love." They believe in the superstition that people love the ones whom they ought to love, and that because it is the proper thing for married people to be devoted to each other, they are devoted to each other.

Therefore, a wife takes it for granted that no matter how unattractive she lets herself become it will make no difference in her husband's affection.

And the man takes equal liberties with the doctrine of "natural love." He is cross and stingy and selfish, and talks to his wife as he would not to any other woman on earth, and expects her to go on loving him.

It would be a good thing for us all if we could throw the idea that people are bound to love us because of their relationship to us into the discard along with the mumbo-jumbo stuff we canned with our cave ancestors and realize that if we want to be loved we have got to do something for others that will make them love us.—Dorothy Dix.

### FALLACY OF FOREIGN FAMINES

Suddenly the famine clamor has subsided. In a day the word went around that no food stuffs were needed in Persia. It is welcome news, however, late it may be in coming. The food forces of other lands were drawn off long ago and put to other work—for these great organizations do not disband, they look for another propaganda field to cultivate. Where the Russian relief army will appear next is unknown, but it is pretty certain to be employed in some political purpose closely allied to the interests that have directed them heretofore.

It is announced that now it is better to send money to Russia than food. It is another form of charity, but will provide a better income for the government by stimulating business. The foods in Russia; it is now requested that money be sent to Russia that it may buy food from those who hold it.

Famines are strange occurrences, because it is most difficult to see one. In China, whose famine cries have sounded oftener there has never been actual famine of food. There is always food on the great estates whose granaries are built on foundations fifteen feet high safe above the range of the flood waters. These granaries represent 80 per cent of the production of the country. A good flood comes along, destroys the poor man's few yards of plantation, but leaves the rich man's stock. Immediately America and other Christian lands send millions of dollars to purchase grain from the rich Chinese to give to the poor. Let a shipload of American grain be sent the poor, and the rich Chinese regard it as an unwarranted interference with their legitimate famine profits. He performs American charity in the form of cash.

The world is not yet ready to hear the facts about this whole relief business. It would be sheer wantonness to freeze up entirely the thin trickle of the world's charity by exposing the great gaps between the propaganda and the reality. But some day a better way will prevail and the truth will come out in a helpful manner.—The Dearborn Independent.

**Endorsement for Tech. College**  
 El Paso has refused to endorse any city of the "Tech" college. Really, in doing this, she has acted wisely. In the first place, no city within a hundred miles of that city is an applicant and then El Paso wants the good will of all of West Texas. Another thing, the endorsement or refusal to endorse will not have a straw's weight in solving the question or which is the best place for establishing the school. Hence, all of the campaign for outside endorsement is mere camouflage. Make your proposition right.—Memphis Herald.

## CHURCHES

### Revival Services at the Baptist Church

There were 560 in Sunday school and Dr. L. E. Finney preached great sermons morning and night and there were two additions to the church. The house was filled at the morning service and crowded at night and hundreds turned away.

There will be a special service at the church next Sunday 3 p. m. for men only and every man in the community is urged to be present.

The Sunday night service will be held in the city auditorium because the church will not hold the Sunday night audience.

All singers in Plainview are requested to come and sing with us in all these services and all Christian people are invited to co-operate with us in the activities of the meeting.

Some subjects Evangelist L. E. Finney will preach on while in Plainview:

HARLAN J. MATTHEWS, Pastor.

### First Christian Church

Our services last Sunday were well attended. The presence of the membership was good and the interest was fine. Our Sunday school is showing a steady and substantial growth. Our use of the Bible alone as a textbook is being appreciated more and more. Bro. Adams reported that a prominent man in another church at Amarillo told him last week that they were going to adopt the same system. Back to the Bible is the crying need of the age.

An interesting meeting of the Christian Endeavor was led by Miss Cora Vaughn. Mr. Godbold suggested an automobile race contest, which was adopted and arrangements made to start the race next Sunday, with six cars entered.

There was a baptismal service after the sermon Sunday night.

W. C. WRIGHT, Minister.

### Church of the Nazarene

Our services have been growing both in interest and number of late. We have had over one hundred in Sunday school the last few Sundays. We had five additions to the church Sunday, and others to follow. Our attendance is better and the behavior is much better also, and the general spirit of the services, are better for which we thank the Lord.

We have been planning a fifth Sunday rally with a number of our churches, but some of them cannot come, but we are glad to say that Bro. L. L. Hamrick of Hamlin, Texas, will be with us Thursday night, and will preach for us each night the remainder of the week, and over Sunday.

Bro. Hamrick is a noted evangelist of wide reputation, and is very successful in the Evangelistic work. He is a good preacher and a humble man of God, and we trust every one who is not engaged in service elsewhere, will come to hear him.

Services will begin each evening about 7:45 and Sunday school will begin at 9:45 a. m. and preaching at 11 a. m. Young Peoples Society at 7 p. m., and preaching about 8 p. m. Again we urge every one to be sure and come who are not otherwise engaged in religious services.

We are expecting a great time in the Lord, if you cannot come be sure and pray for us, we would be glad to see an old time revival break out in our church, as well as every other church in town. We are against everything that is wrong, and for everything that is right.

Remember the date Thursday night April 26 to 29, and be sure and come.

S. L. WOOD, Pastor.

Aldrich, Los Angeles, Calif., and Miss Ruth McComb, Philadelphia, Pa. These and other splendid speakers will be heard during the two days sessions.

The sessions opens at 9:45 on Thursday morning and hold day and evenings until Friday evening when it adjourns. The sessions are all open

to the public and the evening programs will be especially instructive, entertaining and helpful. Special music has been arranged for these services.

There may be in addition to the delegates a large number of visitors for when the women of the church invited this body when in session at Hereford a year ago many said they wanted to see Plainview and that they were coming whether they were elected delegates or not. We therefore urge the membership to attend these meetings and get all the profit possible from them and let us entertain the delegates in Plainview's way. Men as well as women are urged to attend these meetings.

H. E. BULLOCK, Pastor.

W. B. Preach a Trick  
 Rev. W. C. Wright will preach next Sunday afternoon, April 29, at the Erick school house about 18 miles southeast of Plainview. They have a splendid Sunday school in that community and have invited Rev. Wright to preach for them at this time.

### A THOUGHT FOR TODAY

Most natures are insolvent; cannot satisfy their own wants, have an ambition out of all proportion to their practical force, and so do lean and beg day and night continually.—Emerson.

### Texas Variety Store Closed

The Texas Variety Stores at Lubbock and Ralls were closed Thursday morning, and the business of the same will be transacted thru bankrupt proceedings, according to an announcement made by Gerald N. Smith manager of the local store.  
 The disastrous fire which ruined the Christmas business of the store at Lubbock has been cited as one of the reasons for the failure.—Lubbock Avalanche.

**Make It Part of Business**  
A merchant in a neighboring town states his advertising thus far this year cost him 54 cents for every \$109 worth of goods sold. He used half a page of his local paper each week for his business announcement, and says that as long as people read newspapers he will continue to advertise. There's a man possessed of a good head. Just as soon as merchants begin to look upon advertising as a branch of their business which requires as much care as any part of it, then will advertising pay. Honesty, force, originality and persistence in advertising makes it a paying investment.—Merkel Mail.

**Renigging a Debt of Honor**  
Uncle Sam after the world war was asked by the allies to leave troops in Germany to help police that country, and the allies promised to see that this expense would be met. The American soldiers did what was asked of them until it became evident that the allies' promise of prompt payment was worthless.
