We are in line with Claude News on at least one proposition, namely: that while an individual and a newspaper should always tell the truth, it is best to leave unsaid many things that are the truth. The person who prides himself that he tells the blunt truth on all occasions, no matter who it hits or affects, is forty different kinds of a coarse fool and rough-neck and merits having his cranium cracked with a ball bat.

Frank Munsey's New York Herald says the open shop is making gains all over the country to the tune of half a million workers in a year. The heavy dues the union workers are forced to pay to maintain strikes and the campaigns for keeping organized labor intact is causing many members, especially of the better element to give up their working cards. Radicalism in the unions is also having an effect upon the conservative element that does not endorse such a revolutionary system.

Down near Wehita Falls last week one man was shot and killed by another during an argument over rules regarding which hand won in a poker game. The editor of this paper having been born and raised on the Texas frontier considers there is not a more dangerous pastime than arguing over the relative worth of hands in a poker game—in olden times many a man died with his boots on for precipitating such an argument. No one should go into an argument over a poker game unless he is heavily armed and is quick on the trigger.

The Claude News, which is ever on the chase after the "money devils" publishes its choices for the presidency next year. They are W. J. Bryan first, Henry Ford, W. G. McAdoo, W. R. Hearst, Senator LaFollette, and Senator Capper in sequence—the latter two being republicans. However, the Claude paper acknowledges that it will not have to go down the list that far to get its choice. We are thinking that he will not have to go further than second place, for the jitney manufacturer seems to be gaining in strength very rapidly. It will likely be Ford and Harding, with possibly LaFollette heading a third party.

It is pointed out by Arthur J. Brisbane, the nation's greatest editor, that if John D. Rockefeller, Henry Ford or any other very successful business man had charge of the affairs of this government he would make the navy self-supporting and it would be the biggest in the world by a thousand per cent. And he would make the army self-supporting digging canals, irrigating deserts, and draining marshes. And he would double and treble the pay of those in the army and navy. He would stop the foolish parading by the army and the foolish social waste of time by the navy. Some such a system should be worked out, for the great waste of time and money by the army and navy is a crime against the taxpayers and is fast breeding contempt for the army and navy in the minds of the people.

Ben Smith of the Snyder Times is growing from bad to worse—in his last paper he urges, in denouncing the women and girls for using paint on their lips, that all the men organize and pass a resolution pledging themselves not to kiss any female who uses rouge on her lips. Fiddlesticks! Only a few aged, crabbed, bald-headed chronic critics like the editor of the Times would sign such a resolution. No red-blooded young American as he sits with a pretty girl under the mellow mystic light of the moon cares a darn whether her lips are painted or not. The editor of the Times uselessly consumes a lot of newspaper space criticizing the ways of women—what he says has just about as much effect as trying to wet a duck through and through by pouring water on its back. Women have been doing as they pleased since Adam's day and will continue to do so.

It is said the state department is negotiating with several of the leading foreign governments relative to a compromise on the law which prohibits foreign ships to bring liquor into American waters even under seal. It is proposed that if the foreign governments will agree to extending the search and seizure law for whiskey to twelve miles at sea instead of three, this country will permit foreign ships to bring in liquor under seal. If the U. S. could have a twelve mile zone it is likely that rum-smuggling could easily be broken up. Of course, as the months pass the lid is being put on tighter, and at no far off time this will be a

bone-dry country. From every reliable source comes the news that less and less liquor is being consumed. People are gradually forgetting there is such a damnable thing as whiskey or beer.

Almost every day some new wonder is brought forth. The latest is one whereby a French scientist "sends circles of light by means of wireless." This means that we may actually see by wireless, and to a distance unlimited. Soon it may be possible to "tune in" and at will actually see any part of the world—the people as they go about the streets of Chinese cities, for instance. Men may one day see the surface of the moon or of Mars as plainly as they now see the surface of the buildings across the streets.

CENTRALIZATION OF POWER

On another page is the first publication of the proposed constitutional amendment to be voted on the fourth Saturday in July, to permit the state to take over, establish, construct, maintain and repair a system of state highways throughout the state to be under the control of the state. The amendment is for the purpose of "connecting up" with the federal road appropriations.

The News is very much opposed to the proposed measure, for it means the taking of road improvement out of the hands of the commissioners' courts and centralizing it in the hands of the highway commission at Austin. It also means that the state can levy special state road taxes and can issue bonds for the purpose of building and maintaining roads.

The News is opposed to further centralization of power in Austin and Washington, especially such as the construction and maintenance of roads, which can be better handled and at less expense to the taxpayers by the local counties.

The state legislature could enact necessary legislation providing better means for the local counties to handle the situation, and this would prove adequate.

The state highway commission should be abolished, except that a competent road engineer should be employed to give advice and assistance to counties in the improvement of their roads. All of the auto license fees should remain in the counties where paid, for use on the local roads.

While an intensive campaign will be made by the automobile dealers and associations, the state highway association, the road contractors, bond buyers and other interests that will profit directly by the adoption of the proposed amendment, we cannot think that the farmers and other common people of the state, who pay the bulk of the taxes, and are old-fashioned democrats, will fail to swat it by a large majority.

Let's arise and strike at socialism every time it shows its head. The proposed amendment is a long step toward socialism.

The boll weevil is serious enough to put South Carolina on her knees. Gov. McLeod of that state has called upon the people of his jurisdiction to ask God for "deliverance from the ravages of the boll weevil in such way or ways as may seem wise to Him, either by direct supernatural intervention or through the workings of natural causes which are under His control." The governor expressed the opinion that the boll weevil was sent as a judgment on "our people, not only for their sins, but as a means of bringing them back" to God. The boll weevil is depredating upon the cotton fields of most all of Texas below the caprock, and in all the other Southern cotton-raising states, and is cutting down the yield greatly. The boll weevil has not ascended the caprock, and the Texas Plains are now looked upon to make up for the destructiveness of the weevil elsewhere. Experts declare that cotton will remain high in price, hence in growing a largely increased acreage to cotton the Plains farmers stand to become very prosperous.

Frank Simonds and Mark Sullivan, prominent newspaper writers and experts on politics, finance and European affairs, favor cancellation by the United States of the war debts owed by France, Belgium and Italy, because they cannot collect reparations from Germany. No matter whether it would be best to do this or not, there is one thing certain—the American people will not stand for it and the president or party that should do such a thing would be overwhelmingly defeated in the next election. The United States went into the war to save the allies from destruction, for the Central powers already had them whipped; we spent fifteen billion dollars and loaned the allies ten billion more; one hundred thousand Americans lost their lives in the war. Since the conflict France and the most of the other allied nations, instead of peaceably sitting down and going to work to reconstruct themselves have continued to wrangle, each enlarging its war forces and wasting billions of dollars which could have been paid on the American debt. Each of the allied nations except America got heavy spoils out of Germany in colonies or other assets. Hence, few Americans are susceptible to cancellation, and many believe that pressure should be used to collect the money.

The Canyon News does not take very kindly to the plan offered in the legislature to trim down the education appropriation bills, so as to get closer to the prospective revenues of state the coming two years. The Normal is Canyon's chief asset, and the size of the state appropriations for the higher educational institutions affects Canyon people considerably. The Canyon News and its people never give vent to any complaint relative to high taxes for the support of the state schools. Self-interest dictates the viewpoint very often. The fact is, why should the state educate children higher than the high school? At least, why should it bear the entire expense of higher education? A bill was put before the legislature a few days ago providing for a low tuition at higher educational institutions, so that the students would bear a part of the expense, but there was such a protest among the school teachers that it was not pressed to enactment. The editor of this paper did not permit the state to pay a cent of the expense of educating his daughter in the higher institutions, but paid for it all out of his own pocket. The tendency to have the state do everything for the individual is a species of socialism, and is wrong. The state or federal government should not be asked to feed everybody with a silver spoon, for it destroys individuality and initiative, and breeds those evils which caused the fall of every nation that has passed out of existence. Let's get away from the asking the government to do anything for us except guarantee every person a fair, square deal, and the protection of life and property and the enjoyment of constitutional rights.

The legislature has adjourned another special session, without accomplishing the duty asked of it by the governor and the people of Texas. The regular and three special sessions have been abortive of much benefit, and the cost has been enormous to the taxpayers. The house and senate have each been at loggerheads with the other, and both have had it in for the governor and most recommendations he has made, hence nothing worthwhile could result. The personnel of the present legislature is possibly the weakest in the history of the state, and there has been friction on most everything except the bills appropriating money for mileage and per diem of the members and contingent expenses. It is charged that the Ku Klux dominates the lower house and that most of the senators hate the klan, and the members of both bodies let this affect their work. There were also charges

that special interests used money to corrupt some of the members, it being said that to get the support of them was to put "money on the barrel-head." It is certainly a sad state of affairs at Austin, and the worst part of it is there is no hope of bettering conditions for few really able men care to offer for legislative positions, and if they did they could not be elected. Whenever the people become properly aroused they will elect good men instead of pigmies, but that time likely is considerably in the future.

Cotton is becoming the king of the Plains. "West Texas is the most promising field in the world for the increase in cotton production which appears to be needed in the near future." Clarence Ousley told the farmers gathered at the Rock Island Community Institute at Amarillo Friday.

IN A MINOR STRAIN

"I'd walk a mile for a camel," said the Arab lost on the desert.

Fame is a simple matter of getting your name spread across two columns on the first page.

A weak mind is much harder to change than a strong one.

Editors Sore at Galvez

It was a great convention and was marred only by dissatisfaction over the rates charged and treatment received by guests at the Galvez Hotel. Many of the editors came away from the convention declaring that never again would they vote to take the Texas Press Association to Galveston. Some of the members of the association checked out of the Galvez after spending one night and sought accommodations at other hotels in the city, while others who did not ascertain the rates to be charged for rooms until the close of the convention raised a road that could be heard above the noise of surf beating against the sea wall nearby.—Vernon Record.

Special July Teacher Examinations To County Superintendents:—Owing to the large number of teachers desiring to take advantage of the old law in beginning to build a higher grade certificate before Sept. 1, 1923 it has been necessary to authorize examinations to be held July 6 and 7 and August 17 and 18. Official notice of July examination was given Feb. 25.

Attention is again directed to the requirement for registration which for the July examination should be

prior to June 20th. For the August examination, which is on an irregular date, applicants should register no later than Aug. 1st. Applicants who were in the August summer normal examinations who furnish evidence of same may be permitted to take the August county examinations with out previous registration.—State Department of Education.

About People You Know
 Henry Reimers and family moved to Plainview Thursday. Their daughter, Miss Anna, who studied music in Anarillo met them there and returned home with them.—Tahoka News.

Joe Ranspot of Fort Worth is here visiting his brother, Dick Ranspot.

HALE COUNTY HAPPENINGS

PETERSBURG

June 12.—Everything is looking fine out here—all that the hail didn't hit. Cotton had to be planted over and some of the wheat was hurt, but the maize, kaffir, corn and Sudan are all right.

Miss Gwendolyn Green of Floydada is a guest of Miss Oleitha Watkins this week.

Mrs. R. A. Jefferies and Mrs. W. E. Hegi attended the picnic at Abernathy Saturday and witnessed the ball game between our team and the Shallow Water team, in which Shallow Water suffered defeat.

Miss Jessie Mae Goodner is at home after nine months in the State normal at Canyon. She will be a member of the faculty here next term.

Mr. and Mrs. F. G. Finch of Sherman and two daughters, Maurine and Dorothy Lou, spent Friday night in the L. C. Claitor home, en route to Shallow Water. They will make their homes on the Plains. They are very nice people and will be quite an addition to the place they settle in.

Mrs. Faye Garrison Waelder and son, Carl, Jr., of Wichita Falls, Mrs. Emma Thomas and Mrs. Cleve Phillips and son of Plainview, were guests in the home of Mr. and Mrs. L. C. Claitor Thursday.

The many friends of Mr. B. Thomas and Mrs. Clara Belle Maddox here congratulate them upon their marriage recently.

Chas. Schuler, Sr., has returned from Dexter, N. M., where he spent several days on business.

Mr. Warren from Plainview was here Monday to see Libburn S. Claitor on business.

Brower Hannah is home for the summer. He taught school at Dabhart this past term.

Mrs. T. F. Baizden and Miss Lola Baizden has accepted positions in the Allman school for the coming term. Miss Eunice Duck will also be a member of the Allman faculty. We congratulate the Allman trustees in securing these worthy teachers.

Rev. Parr preached to a large congregation Sunday in the Cumberland Presbyterian church. He is quite a talented young minister and holds the attention of all who hear him.

Miss Hazel Mayo will teach in the Iowa Avenue school next term.

Croquet and tennis are the pastime here now. The ladies are get-

VALLEYVIEW-STANSELL

June 14.—Rain and more rain. Revival meeting on. Rev. C. A. Joiner of Petersburg leading, Bro. Lemons helping, with Taylor McCasland leading the singing. The meeting has been better attended than could be expected; the reason for this is that the water on the draw is higher according to old settlers than it has been in the last thirteen years.

Several were at the meeting the other night from the north side of the draw; after the meeting they went to the crossing at Norfleets, but during the meeting the water had risen so they had to go back to the school house-church and stay till morning.

The new bridge at the Smith or De Lay place proved inadequate to the needs this last week and the water proceeded to wash its way around the ends of the wings leaving a gap of twenty feet or better between the bridge floor and bank.

Sunday, as usual everybody went to Sunday school. Those on the north side of the draw arriving at the bridge found the couldn't cross, soon more and more came, then the superintendent arrived and as luck would have it he brought the new song books with him; some one suggested Sunday school so the meeting opened. There was an attendance of thirty-two, including four teachers and the superintendent, it was a regular "Sermon on the Mount" meeting, everybody singing out of the new books.

On the south side at the school house there were twenty-four present—that's all I know.

Miss Bertha Jones was expected home Wednesday, but washouts from Canadian north into Iowa caused her to defer her trip until some time next week.

Miss Esther Kimball expects to leave for Minnesota the first of next week, if the weather permits.

Come out to the revival this week, next Sunday, or any time you want to go out into the country of a Sunday.

Miss Lulu Hedge, our teacher this last year, has accepted a school with her sister near Abernathy.

Our consolidation petition, etc., which went through the county board at L., arrived at Austin, where it was promptly knocked in the head, as a law has been recently passed saying consolidating shall be done only by a vote of the qualified electors of the districts involved. Let's try hard to get it through.

Guess we'll be able to cultivate ground by the first of next week.

Crops look good, in some places; better cotton, kaffir and maize, although some platted a little late looks well advanced.

Wheat which looked as if gone a month ago now looks like it will thresh from five to ten bushels.

Oats are growing fine, but the grain will not turn out much. Better than last year.

Spelts that were grazed looks good.

but that which was not don't look so good.

PROVIDENCE

June 13.—A wonderful rain fell in these parts Friday night, which will certainly be a help to the row crops. The row crop is in fine shape in these parts.

Work is now in progress on the new school building.

Mr. Maize of Vernon visited Monday and Monday night at the Dieter home.

Miss Cleo Hannon spent Sunday and Sunday night with Misses Eula Mae and Maynola Ray Gilbreath.

Misses Florida and Dorothy Pullen spent Friday visiting with Mrs. Geo. Deiter.

Church and Sunday school were well attended at the German church Sunday.

Little Frances Dameron happened to a very painful accident Saturday. While opening a can, the knife slipped, cutting her hand very badly. A doctor was called at once, and dressed her hand and at last report she is getting along nicely.

Mrs. Josie Lovvorn and children, Mr. and Mrs. Turner and Hannon's attended the ice cream supper at Mr. Dameron's home last Wednesday night.

Mr. and Mrs. Herman Quebec are having a 5 room house built on their place.

D. J. Kennedy spent the week end with home folk here.

Mr. and Mrs. Fred Sammann from Kress visited with his folk in this community Monday and Tuesday.

Fred Boedecker and son, Walter, and Erard Pullen were in town Monday.

Will Kramer was in town Monday having work done on his wagon.

Miss Ella Sammann and brother, Bill, were trading in town Monday.

Mr. and Mrs. Sammann and daughter, Ella, visited with Mr. and Mrs. Fred Sammann in the Prairieview community Sunday.

Miss Exa Lovvorn visited with Miss Cleo Hannon Tuesday.

West Gilbreath was in town Monday.

Miss Mildred Nelson visited with Misses Lorene and Myrtle Bell Lovvorn last week.

Some of the farmers are busy hoeing their cotton.

Miss Hazel Crouch was shopping in town Thursday.

ABERNATHY

June 14.—The Church of Christ revival, conducted by Rev. A. E. Freeman of Guthrie, Okla., which started on the third Sunday of last month, will close tonight.

Miss Lucy Maxey of Boyd, Texas, came in Tuesday afternoon. Miss Lucy taught expression in the school here this past year and has been home to spend a short vacation. She is going to work in the Hardesty Dry Goods Store this summer.

Charley Reed, from near Birmingham, Ala., is visiting his cousin, Richard Williams.

Misses Pauline and Dolby Cunningham of Olton, were in Abernathy Saturday and Sunday visiting friends and taking in the picnic.

Mr. and Mrs. Sam W. Smith and children, Glenn and Katherine, went to Lockhart to spend their vacation. Miss Verda Ragland went with them.

Mrs. C. G. Goodman and Halleve Hudgins were in Lorenzo Wednesday where Mrs. Goodman gave an address to the Community Club.

Miss Kate Arnett left for Plainview Sunday afternoon. She will visit friends in Plainview for several weeks before going to Ralls, where her parents have gone to live.

The Choral club meets every Tuesday night at the Baptist church under the direction of Mrs. Carl Goodman. Be sure and come to every meeting.

Mrs. F. W. Struve entertained the youngsters of the city in her home Tuesday night with a party. After playing games until eleven o'clock the party was served with lemonade and cake.

Mrs. R. M. Hardesty and Miss Anna Mae returned from Austin last Friday.

The severe sandstorm from the west last Thursday did considerable damage. But we hope not as much as some of the farmers seem to think at this time.

Mr. and Mrs. Loy Lattimore of Amarillo, Mrs. H. A. Lattimore of Plainview, Miss Ruby Lattimore and her chum, spent the day with Mr. and Mrs. C. H. Bucks Wednesday of last week.

Eskel Sanderson of Clovis, N. M., came to Abernathy Tuesday to visit friends and relatives for a few days.

Miss Mary Evans came in Wednesday from Amarillo where she has been teaching in one of the ward schools.

Friday J. J. Riley, accompanied by Chas. Schuler of Petersburg, returned from a two weeks' vacation to Orchard Park and other points in New Mexico. They made the trip in Mr. Schuler's car and report quite an eventful trip. It was reported while they were gone that Mr. Riley got married, and everybody was anxious to see his bride, but they were disappointed on his arrival to find that he was still suffering in single blessedness.—Review.

CARD OF THANKS—We want to thank the good people who were so kind and helpful to us during the sickness and death of our dear little daughter and granddaughter. We also thank you for the beautiful flowers. May God's richest of blessings rest on you all.—Mr. and Mrs. Clyde Rice and Mr. and Mrs. W. T. Close.

Formal Opening

We will formally open our new place of business next—

THURSDAY, JUNE 21st

upon which occasion the people of the entire Plains country are cordially invited to visit us and inspect our modern building and its excellent vulcanizing and tire-repairing equipment. We are very proud of our new quarters, for they are the very latest word in architecture, and we want the people to come and make an inspection, to see the modern manner in which we are prepared to give them the very highest type of service.

To every car that drives through our station Thursday and buys five gallons of gas we will—

Give a Pound Box of Chocolate Candy

and every child with its parents will be presented with one of the little tires it has wanted so long.

THE SHOOK BATTERY CO., dealers in EXIDE Batteries, will give each car owner who registers on on Thursday a certificate entitling him to a FREE recharging of his car battery within thirty days.

FARMERS MUST HAVE HELP

FIFTEEN HUNDRED HARVEST HANDS NEEDED IN FLOYD COUNTY

From Lockney Beacon, June 14
At mass meetings held this week at Floydada and Lockney, between wheat growers of the county, and harvest hands, it was estimated that fifteen hundred additional men will be necessary to handle the coming wheat crop. The wage scale was also discussed and agreed upon.

We understand that \$2.50 per day will be the standard wages paid for common labor, board to be included. About \$3.50 per day will be paid for man and team. Salaries for skilled labor, tractor men, separator men, etc., will be left to the employer and employee, it is announced.

Over two hundred farmers attended the meeting which was held at the Olympic Theatre in Lockney yesterday afternoon. County Agent T. Scott Wilson, presided, and a general discussion of the wheat harvest problem took place. Talks were made by several of the farmers and other citizens, many good suggestions being brought forward and adopted. Some of the speakers were Mr. Ratjen, the White Brothers, T. Scott Wilson and Colvern D. Henry.

These meetings were for the purpose of pre-arranging the harvest program, so that the wheat harvest, when started, can be gone through smoothly and quickly. The Floyd County Farm Bureau and County Agent, jointly, called the meetings. The meeting at Floydada was held Tuesday.

According to J. B. Downs, the real estate man, the north end of Floyd county, Lockney's trade territory, will this year market the best wheat and the most bushels per acre, of any section on the Plains.

Ben Whitfill and sons are now overhauling their boilers and engine which are on the ground where their former gin was destroyed by fire, preparatory to using them in the new gin which they are to erect for the coming cotton crop.

Mr. and Mrs. E. E. Dyer returned last Thursday from Amarillo, with their daughter, Gene, who had her eyes treated and glasses fitted. It was at first thought that an operation would be necessary in order to straighten little Gene's eyes, but the specialists at Amarillo only slightly treated them and fitted her with glasses, and Mr. Dyer says her sight has improved wonderfully, and that very probably an operation will not be necessary.

With the additional heavy rains that have fallen over Floyd county since last issue of the Beacon, the soil now has as good bottom season as it has had for years. It is thought that there is now plenty of moisture in the ground to mature row crops, such as cotton, maize and kaffir corn.

During every hour of daylight that the ground is dry enough, farmers of this section are busy planting and cultivating. An exceedingly large acreage will be planted to kaffir and maize this year. So we may look for another big money-raising hog crop.

Gid, the 12-year-old son of Mr. and Mrs. N. E. Waller, had the misfortune of breaking his right shoulder one day last week, while playing. The accident happened when he and one of his playmates were coming out of a cellar, the door of the cellar falling on his shoulder. Gid suffered a painful bruise in addition to the shoulder blade being broken, but is reported to be improving rapidly. It was necessary to set the broken member the second time.

Last Sunday, June 10th, at about 7 o'clock a. m., Miss Hazel Ford, 18, daughter of Mr. and Mrs. C. V. Ford of the Roseland community, passed away at the home of her grandmother, Mrs. Edna Ford, of Lockney.

Miss Ford had been in ill health since early childhood, having suffered extensively with heart trouble. This ailment and dropsy, we understand, was the immediate cause of her death.

Fifteen applicants for Route A, a 71-mile motor route out of Lockney, took a rural mail carrier's examination at Floydada last Saturday. Those being examined were: Mrs. C. D. Fowler, O. T. Prickett, Glenn Hamilton, Logan, Edd Muncy, J. D. Huggins, N. W. Waller, Wayne Carthel, R. G. Morgan, J. H. Hall, George Newman, John Staleup, Willis Roberts, B. P. Blake and C. F. Ramsey, Jr.

In Monday night's rainstorm lightning killed ten head of cattle on Leo Montague's ranch, sixteen miles northeast of Floydada.

Ira Broyles and family left this week for a visit to Fort Worth and Dallas, and from there will go to Florida. They expect to tour the entire state, visiting most all the coast towns as they go. They expect to make the entire trip in a new Chevrolet touring car which Mr. Broyles purchased last week.

Tuesday evening Ryan Speegle was compelled to leave his Essex touring car in the mud about six miles east of town. It sank so deep into the

bog that a team of mules could not move it.

CANNOT LIVE OFF OF INCOME FROM OFFICE FEES

County Attorney W. E. Huffhines in a statement issued this week advises that in order to adequately provide for himself and family it is going to be necessary to be absent from his office a part of his time.

"The office pays in fees about \$450 per year, it appears," Mr. Huffhines said. "And although I expect to discharge my duty as county attorney to the best of my ability, I will probably be forced to be absent from the office a great deal of the time. This I regret, but feel that my first duty is to my family."

The first quarter of this year the office paid \$94. Last year the total fees were about \$350, Mr. Huffhines said. "I went into the office under the misapprehension that it paid considerably more money than it does pay and since I find the remuneration so small I am sure the people of Floyd county are not going to expect me to give it my undivided attention," he said.—Hesperian.

SAVES BIG COTTON CROP FROM WIND DAMAGE

From Lockney Beacon June 14
The high east winds last Friday did considerable damage to some of the cotton of this section, entirely ruining the stand in some fields, so we are informed.

Clyde Bennett, who has over two hundred acres of fine cotton about three miles east of town, seeing the sandstorm coming, and knowing it would damage his crop if something was not done to save it, put three two-section harrows and two go-devils in the field, we understand, and by stirring the soil over the cotton, saved it from even the slightest damage by the wind and sand.

This was a splendid idea, and was probably carried out by other cotton farmers.

Mr. Bennett has something like a half-section of wheat, also, that we have been told will make around twenty bushels to the acre.

The grasshoppers are reported to be depredating on crops about Tahoka.

Amarillo let the contract Tuesday for the laying of an additional two hundred blocks of street paving.

House Joint Resolution No. 16 Proposing an amendment to Article 8, of the Constitution of the State of Texas, which relates to taxation and revenues, by adding thereto a new section to be known as Section 9a, directing the legislature to provide for the construction, operation and maintenance, under state control, of a state system of public highways; providing for an election for the ratification or rejection of amendment herein proposed, and making an appropriation to defray the expenses of said election.

Be it resolved by the Legislature of the State of Texas:

Section 1. That there be submitted to the people of Texas, for ratification or rejection at a special election provided for herein an amendment to Article 8, of the Constitution of the State of Texas, amending said Article 8, of the Constitution of the State of Texas by adding thereto a new section to be known as Section 9a, which shall read as follows:

Section 9a. The legislature is authorized and directed to provide for the creation, establishment, construction, maintenance and repair of a system of improved highways thru out the state to be under the control of the state; and in order that the state may provide the means, revenues and instrumentalities the establishment and maintenance of such system of highways, the legislature is empowered to levy and cause to be collected specific excise and ad valorem taxes, in addition of those permitted for other purposes in the constitution, but such an ad valorem tax shall be imposed only for the purpose of retiring the bonds authorized by vote of the people of this state as provided for hereinafter in this section.

When said system shall have been designated and taken over for this state as provided in Section A hereof the legislature is authorized to make provision for the equitable compensation to such counties for the value of such improvements as have been heretofore constructed by the counties in the state.

Provided, also that save for the state highway system, in all other respects, counties shall have the right to build, construct and maintain roads, turnpikes and bridges within their respective boundaries and the constitutional provisions relating thereto are not qualified or repealed by reason hereof.

The legislature, at any regular or special session, is authorized and directed to pass and enact all appropriate legislation necessary to carry out and effectuate the purpose and intent of these articles.

Sec. 2. The governor of the state is hereby directed to cause to be issued his necessary proclamation for an election to be held on the fourth Saturday in July, 1927, at which election this amendment shall be submitted to the qualified electors of this state for adoption or rejection and shall make the publication required by the Constitution and Laws of the State. Said election shall be held under and in accordance with

Allis-Chalmers 15-25

You Can—

plow greater acreage at less cost per acre; double-disc and harrow in one operation and do in hours what once took days;

be sure of bigger yields because of planting in a seed bed prepared when soil is in its best condition; save grain by getting in the field and cutting before crop is over-ripe;

do your own threshing, pile filling or shredding to suit your own convenience—eliminating the bother of a crew and saving the wages of the engineer—the highest priced man on the job;

pay for your tractor in a short time by doing your own and custom work;

save the price of a heavy stationary engine and have more power for belt jobs such as wood-sawing, crushing limestone for fertilizer, feed grinding, shredding, etc.

Beat Low Prices—Mail Coupon Today!

Whatever the size of your farm—whatever the work you have to do—meet your every requirement. Just tell us how much you want to plow—mail the coupon today. It will bring you the illustrated Allis-Chalmers catalog, completely describing every feature of the tractor you recommend for your size farm.

Seven years were spent in perfecting Allis-Chalmers tractors. They are right in every detail—dust-proof, accessible, over-powered, economical, and most modern in design.

We have facts about the economy of farming with Allis-Chalmers perfect tractors you cannot afford to be without. Get these facts today!
